ITEM 1

PRESS RELEASE

Banco Santander Chile Abandons Loan Portfolio Sale

(Santiago, October 31st, 2002).- In connection with the loan portfolio sale announced to the public and its shareholders, Banco Santander Chile informs that after evaluating several purchase offers it has rejected all the offers received since the sale would not have generated higher earnings than those expected to be generated by the loan portfolio offered for sale. In addition, none of the offers received complied with any of the conditions required by the bank to generate value to all and each of its shareholders.

With this decision, Banco Santander Chile concludes the negotiations for the portfolio sale. However, the bank will be permanently evaluating possible portfolio sales on an on-going basis as part of the normal business practice of any other financial institution.

Due to the current efficiency and profitability of all business areas of Banco Santander Chile, the bank does not expect this decision to have any important effects on its branch network or its employees. We will continue to preserve the service provided to our customers and the creation of value for all of our shareholders.

All forward-looking statements made by Banco Santander Chile involve material risks and uncertainties and are subject to change based on various important factors which may be beyond the Bank's control. Accordingly, the bank's future performance and financial results may differ materially from those expressed or implied in any such forward-looking statements. The Bank does not undertake to publicly update or revise the forward-looking statements even if experience or future changes make it clear that the projected results expressed or implied therein will not be realized.
