To the Participants and Administration and Investment  
Committees of the Dell Computer Corporation 401(k) Plan

In our opinion, the accompanying statements of net assets available for benefits and the related statement of changes in net assets available for benefits present fairly, in all material respects, the net assets available for benefits of the Dell Computer Corporation 401(k) Plan (the Plan ) at December 31, 2002 and 2001, and the changes in net assets available for benefits for the year ended December 31, 2002, in conformity with accounting principles generally accepted in the United States of America. These financial statements are the responsibility of the Plan s management; our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits of these statements in accordance with auditing standards generally accepted in the United States of America, which require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

Our audits were conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental schedule H, line 4i - Schedule of Assets (Held at End of Year) is presented for the purpose of additional analysis and is not a required part of the basic financial statements but is supplementary information required by the Department of Labor s Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. This supplemental schedule is the responsibility of the Plan s management. The supplemental schedule has been subjected to the auditing procedures applied in the audits of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

**Dell Computer Corporation 401(k) Plan  
Notes to Financial Statements**

---

**Note 1 DESCRIPTION OF THE PLAN**

**General** - Dell Computer Corporation (the Company) adopted the Dell Computer Corporation 401(k) Plan as Amended and Restated effective January 1, 2000 and further amended effective January 1, 2001 and July 31, 2001 (the Plan). The following brief description of the Plan, as amended, provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

The Plan is a defined contribution plan covering all U.S. resident employees of the Company who are not covered by a collective bargaining agreement. Participation in the Plan is at the election of the employee. As of December 31, 2002 and 2001, there were 18,929 and 18,123 participants in the Plan, respectively. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

**Employee Contributions** - Contributions are made to the Plan by the Company on behalf of each eligible participant based upon the participant's elected compensation deferral through payroll deductions. The deferrals are funded by the Company at the end of each payroll period. Eligible participants may elect to contribute from 1% to 15% of their eligible compensation, in whole percentages, to the Plan up to the statutory limit of \$11,000 and \$10,500 for 2002 and 2001, respectively, as permitted by the Internal Revenue Code of 1986, as amended. For the 2002 plan year, participants age 50 or over may contribute an additional \$1,000 over the base statutory limit in accordance with the Economic Growth and Tax Relief Reconciliation Act of 2001 (EGTRRA).

**Employer Contributions** - The Company matches 100% of the first 3% of eligible compensation each participant contributes to the Plan. The Company's matching contributions are made at the end of each payroll period. Additional discretionary employer contributions may be made upon the approval of the Company's Board of Directors. The Company made no discretionary matching contributions for the year ended December 31, 2002. Prior to September 1, 2001, all employer matching contributions were automatically directed to the Dell Computer Corporation Stock Fund until completion of the vesting period. Effective September 1, 2001, all previously unvested and future employer match contributions could be directed at the participant's discretion according to each participant's fund elections. As a result, neither participant nor Company contributions are required to be invested in the Dell Computer Corporation Stock Fund.

**Terminations** - Matching contributions forfeited by unvested terminated participants may be used by the Company to offset future matching contributions. At December 31, 2002 and 2001, there were no forfeited non-vested account balances outstanding. During 2002, forfeited account balances of \$6,161,000 were used to reduce employer matching contributions.

**Vesting** - Participants are immediately vested in their contributions and earnings. A participant vests 20% in employer matching contributions after one year of service and 20% annually thereafter. If a participant is re-employed before a one-year break in service has occurred, the participant's vesting will continue as if the break in service had not occurred.

**Table of Contents****Dell Computer Corporation 401(k) Plan  
Notes to Financial Statements**

**Administration** - Plan assets are held in trust by JPMorgan Chase Bank (the Plan Trustee). The financial records of the Plan are maintained by a third-party recordkeeper, Hewitt Services LLC (Hewitt). Administrative expenses are primarily paid by the participants of the Plan and are allocated to participant accounts ratably based on fund balances.

**Participant Accounts** - Each participant account is credited with the participant's contribution, allocations of the Company's contribution and Plan earnings offset by Plan administrative expenses. Each day, the Plan Trustee calculates earnings and allocates gains and losses to each participant's account. The benefit to which a participant is entitled is limited to the participant's vested account balance.

**Investments** - The following table sets forth information specific to each investment option under the Plan:

Investment Option	Description	Number of Participants at December 31,	
		2002	2001
Dell Computer Corporation Stock	Company Stock	16,954	17,952
Neuberger Berman Genesis	Small-Cap Value	6,750	5,876
Invesco Small Company Growth	Small-Cap Growth	6,257	6,843
Dodge & Cox Balanced	Equity and Fixed Income Fund	9,174	8,873
Dodge & Cox Stock	Large-Cap Value	8,507	2,449
American Euro Pacific Growth	International Equity	5,991	5,975
PIMCO Total Return	Fixed Income	7,269	4,581
BGI Equity Index	Equity Index	3,040	1,925
Janus Growth & Income	Large-Cap Growth	3,708	2,449
Primco Stable Value	Stable Value	6,820	4,871

During 2001, the Plan established the Primco Stable Value Fund (Primco Fund). The Primco Fund invests in separate account guaranteed investment contracts (separate account GICs), synthetic investment contracts (SICs) and cash equivalents. Separate account GICs are investments in insurance companies or banks with a guaranteed interest rate that are maintained separately from the general assets of the insurance company or bank. SICs differ from separate account GICs in that the assets supporting the SICs are not invested with the bank or insurance company and may consist of many different types of investments that the Plan holds in its fund portfolio. The bank or insurance company issues a contract, referred to as a wrapper, that guarantees the value of the underlying investment for the life of the contract. Participant-directed transactions, such as withdrawals, are made at contract value rather than at the fair value of the supporting assets.

The Primco Fund purchased a traditional GIC in 2002. Traditional GICs differ from SICs in that the Plan does not own the assets underlying the investment. Rather, traditional GICs are contracts between an insurance company and the Plan to provide a guaranteed return on principal invested.

**Table of Contents**

**Dell Computer Corporation 401(k) Plan  
Notes to Financial Statements**

---

**Participant Loans** - Participants may take out a loan equal to the lesser of \$50,000 less the highest previous outstanding loan balance during the past 12 months or 50% of the available vested portion of their account balance. Each participant's loan is charged an interest rate equal to the prime rate on the date of the loan plus 1% and a one-time fee of \$75. The minimum and maximum loan amount is \$500 and \$50,000, respectively. Loan balances must be paid by direct payroll deduction and the repayment period cannot exceed four and a half years except when the proceeds of the loan are used to acquire the participant's primary residence.

**Plan Termination** - Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan. In the event of Plan termination, participants will become 100% vested in their accounts.

**Note 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

**Basis of Presentation** - The financial statements of the Plan are prepared under the accrual method of accounting, in accordance with accounting principles generally accepted in the United States of America.

**Use of Estimates** - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make certain estimates and assumptions. These assumptions may affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of income and expenses during the reporting period. Actual results could differ from those estimates.

**Risks and Uncertainties** - The Plan provides for various investments in common stock, short-term investments, mutual funds, investment contracts, corporate and government debt and other investments. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the near term could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

**Cash and Cash Equivalents** - The Plan considers all liquid investments with original maturities of three months or less to be classified as cash equivalents. Cash equivalents are stated at cost, which approximates market value.

**Employer Contribution Receivable** - The amounts owed to the Plan at year end relate to timing differences for employer matching contributions pertaining to the last payroll period of the year.

**Investments** - With the exception of the Primco Fund, all investments are recorded at acquisition cost on a trade-date basis, which includes brokerage commissions, and are revalued each business day based upon quoted market prices.

As described in Note 1, the Primco Fund includes a separate account and a traditional GIC and SICs. The separate account and traditional GIC and SICs in the Primco Fund are fully benefit-responsive and are therefore recorded at contract value. Contract value represents contributions made under the contract plus accrued interest at the guaranteed rate less funds used to pay for plan distributions and expenses.

**Table of Contents****Dell Computer Corporation 401(k) Plan  
Notes to Financial Statements**

The Plan presents, in the Statement of Changes in Net Assets Available for Benefits, the net appreciation or depreciation in the fair value of investments which consists of realized gains and losses and the unrealized appreciation or depreciation on those investments. Net unrealized appreciation or depreciation is determined based on the difference between average cost of the investments and the market value as of each valuation date of such investment. Average cost is determined based on the weighted average cost of all investments purchased less any dispositions during the plan year.

The fair value of the separate account GIC is based on the fair value of the underlying assets. The fair value of the SICs represents the combined fair value of the underlying assets as well as the fair value of the related wrapper contract. The wrapper contracts are valued as the difference between the contract value of the SIC and the fair value of the underlying assets.

**Participant Loans** Participant loans receivable are recorded at cost which approximates market value. Participant loans are funded from the participant's vested account balance. Principal and interest loan repayments are credited to the investment from which the loan proceeds were obtained.

**Distributions** - Plan distributions are recorded when paid.

**Note 3 INVESTMENTS**

The following presents investments that represent 5% or more of the Plan's net assets (in thousands):

	December 31,	
	2002	2001
Dell Computer Corporation Stock Fund	\$525,955	\$623,434
Dodge & Cox Balanced Fund	73,261	71,918
Dodge & Cox Stock Fund	81,362	96,695
Primco Stable Value Fund	109,761	77,973
PIMCO Total Return Fund	76,884	

The net depreciation in fair value of investments for the year ended December 31, 2002 was \$44,567.

**Table of Contents****Dell Computer Corporation 401(k) Plan  
Notes to Financial Statements**

The assets underlying the SICs in the Primco Fund are comprised of cash equivalents, government debt, corporate bonds and mutual funds. There were no valuation reserves against any of the Primco Fund's separate account and traditional GICs and SICs at December 31, 2002 and 2001. The fair value and contract value of the assets in the Primco Fund are summarized as follows:

	<b>December 31, 2002</b>	
	<b>Fair Value</b>	<b>Contract Value</b>
SICs	\$ 103,792	\$ 99,810
Separate account GIC	4,707	4,387
Traditional GIC	3,077	3,015
Cash equivalents	2,549	2,549
	<u>\$ 114,125</u>	<u>\$ 109,761</u>

  

	<b>December 31, 2001</b>	
	<b>Fair Value</b>	<b>Contract Value</b>
SICs	\$ 71,947	\$ 70,859
Separate account GIC	5,740	5,621
Cash equivalents	1,493	1,493
	<u>\$ 79,180</u>	<u>\$ 77,973</u>

Interest crediting rates on the separate account GIC and SICs are reset monthly or quarterly based on the yield to maturity and expected cash flow over the life of the related supporting assets. All contracts have a minimum guarantee on all rate resets of not less than zero percent. At December 31, 2002, the interest crediting rates on the separate account and traditional GIC and SICs ranged from 1.68% to 6.46%.

For the year ended December 31, 2002, the aggregate average annual yield for the separate account and traditional GIC and SICs in the Primco Fund was 4.67%. There are no restrictions on participant withdrawals from the Primco Fund. Certain withdrawals not deemed to be participant initiated and not in compliance with the investment contracts' provisions are subject to certain penalties.

**Note 4 TAX STATUS**

The Internal Revenue Service ( IRS ) determined and informed the Company by a letter dated April 16, 1991, that the Plan and related trust were designed in accordance with applicable sections of the Internal Revenue Code. The Company has received determination letters dated February 14, 1996, for Plan amendments prior to March 30, 1995 from the Internal Revenue Service informing the Company that the Plan and related trust, as amended, are designed in compliance with section 401(a) of the Internal Revenue Code. Therefore, the Company believes that the related trust is exempt from federal income tax under section 501(a) of the Internal Revenue Code.

**Table of Contents**

**Dell Computer Corporation 401(k) Plan  
Notes to Financial Statements**

---

The Plan document was amended during 2001 to comply with the requirements of GUST. The GUST amendments relate to a series of tax laws which amend the tax qualification requirements for retirement plans. Management believes all amendments subsequent to March 30, 1995 are in compliance with applicable requirements of the Internal Revenue Code and other related legislation. The Plan filed for a new tax determination letter with the IRS on February 28, 2002 and has not received a response as of June 17, 2003.
