On February 7, 2007, Phoenix Technologies Ltd. issued the following press release:

news release

**ISS, Leading Provider of Proxy Voting Services, Recommends Phoenix Shareholders Vote
FOR Board Recommended Slate of Directors**

**-ISS Recommends Phoenix Shareholders VOTE THE BLUE Proxy to Support the Election of Mr. Dury
and Mr. Elgamal**

-Recommends Investors Vote Against Dissident Ramius Group

MILPITAS, Calif., February 07, 2007 Phoenix Technologies Ltd. (NASDAQ: PTEC), the global leader in core systems firmware, said today that Institutional Shareholder Services (ISS), a leading provider of proxy voting and corporate governance solutions to the institutional marketplace, has recommended that Phoenix shareholders use management's BLUE proxy form to vote their shares at Phoenix's Shareholder Meeting on February 14, 2007 in favor of management's slate of directors. ISS recommends that shareholders DO NOT VOTE the white dissident proxy. ISS is widely recognized as a leading provider of proxy voting and corporate governance solutions to the institutional marketplace. Its analyses and recommendations are relied upon by 1,712 institutional investment firms, mutual funds and fiduciaries worldwide.

Yesterday, the Company announced that Glass Lewis, another widely respected independent proxy advisory firm, has also recommended to shareholders to support the Phoenix slate of Elect Directors.

ISS spoke to Phoenix management and the Ramius Group before recommending that shareholders vote for the management nominees. Any shareholder seeking the advice of a knowledgeable and independent third party should consider the ISS recommendation.

ISS met with both Phoenix management and the dissidents to get a better understanding of their respective perspective on the proxy contest and their plans for the company. The ISS analysis focused on:

Potential conflict of interest for dissident nominees
New management's plan seems to be working
Positive market reaction to management's strategic plan
Restructured board

We are extremely pleased that highly respected proxy voting services firms and advisory organizations such as ISS and Glass Lewis, have recognized the fact that Ramius Group's nominees have a potential conflict of interest. We believe that shareholder interests are best served by supporting the current management and the board, said Mr. Woody Hobbs, president and chief executive officer of Phoenix Technologies.

Our current management strategy is yielding results and the market has responded favorably to our course of action. This is evidenced by a 39.5% increase in our stock price since Sep 2006. Our 1QFY2007 results announced last month indicate a turn-around in revenue and margins, and we hope to continue to proceed on our development plan for Phoenix in the upcoming quarters. We want to focus all of our efforts on execution of our business plan and not on solving the problems that could arise from a fragmented board, added Mr. Hobbs.

**DISCARD ANY WHITE PROXIES AND VOTING FORMS sent by the dissident, Ramius Group
IF YOU HAVE ALREADY VOTED A WHITE PROXY FORM, CHANGE YOUR VOTE NOW
PLEASE SIGN, DATE AND RETURN YOUR BLUE proxy as soon as possible**

Beneficial owners (shares held through a brokerage firm or custodian bank) may choose to call 1-800-454-8683 or visit www.proxyvote.com to vote. If voting electronically, you would need to

enter the 12 digit Control Number located on the right hand side of the BLUE voting form provided by your broker or bank. Registered or record holders are required to mail in their BLUE cards.

If you need assistance voting your shares, please call Morrow & Co. at 1-800-662-5200.

About Phoenix Technologies

Phoenix Technologies Ltd. (NASDAQ: PTEC) is the global market leader in system firmware that provides the most secure foundation for today's computing environments. The Company established industry leadership with its original BIOS product in 1983, and today has 149 technology patents, has shipped in over one billion systems, and continues to ship in over 125 million new systems each year. The company's breakthrough solution, TrustedCore, enables hardware vendors to bring secure devices to market with the latest advances in Microsoft operating systems. The PC industry's top builders and specifiers trust Phoenix to pioneer open standards and deliver innovative solutions to help them accelerate time to market, differentiate products and increase profits. Phoenix is headquartered in Milpitas, California with offices worldwide. For more information, visit www.phoenix.com.
