UNDERWRITING

Merrill Lynch, Pierce, Fenner & Smith Incorporated, Credit Suisse First Boston Corporation, Morgan Stanley & Co. Incorporated, Lehman Brothers Inc. and First Union Securities, Inc. are acting as representatives of the underwriters named below. Subject to the terms and conditions described in a purchase agreement among us, the selling stockholders and the underwriters, the selling stockholders have agreed to sell to the underwriters, and the underwriters severally and not jointly have agreed to purchase from the selling stockholders, the number of shares listed opposite their names below.

UNDERWRITER	NUMBER OF SHARES
Merrill Lynch, Pierce, Fenner & Smith Incorporated	2,375,000
Credit Suisse First Boston Corporation	2,375,000
Morgan Stanley & Co. Incorporated	2,375,000
Lehman Brothers Inc.	1,187,500
First Union Securities, Inc.	1,187,500
Total	9,500,000

Edgar Filing: AMERICAN AXLE & MANUFACTURING HOLDINGS INC - Form 424B1

Subject to the terms and conditions in the purchase agreement, the underwriters have agreed to purchase all of the shares of our common stock being sold under the purchase agreement if any of these shares of our common stock are purchased. If an underwriter defaults, the purchase agreement provides that the purchase commitments of the nondefaulting underwriters may be increased or the purchase agreement may be terminated.

We and the selling stockholders have agreed to indemnify the underwriters against certain liabilities, including liabilities under the Securities Act, or to contribute to payments the underwriters may be required to make in respect of those liabilities.

The underwriters are offering the shares of our common stock, subject to prior sale, when, as and if issued to and accepted by them, subject to approval of legal matters by their counsel, including the validity of the shares, and other conditions contained in the purchase agreement, such as the receipt by the underwriters of officer's certificates and legal opinions. The underwriters reserve the right to withdraw, cancel or modify offers to the public and to reject orders in whole or in part.

COMMISSIONS AND DISCOUNTS

The representatives have advised us and the selling stockholders that the underwriters propose initially to offer the shares of our common stock to the public at the public offering price on the cover page of this prospectus supplement and to dealers at that price less a concession not in excess of \$.69 per share. The underwriters may allow, and the dealers may reallow, a discount not in excess of \$.10 per share to other dealers. After the initial public offering, the public offering price, concession and discount may be changed.

The following table shows the public offering price, underwriting discount to be paid by the selling stockholders to the underwriters and the proceeds, before expenses, to the selling stockholders. The information assumes either no exercise or full exercise by the underwriters of their overallotment option.

	PER SHARE	WITHOUT OPTION	WITH OPTION
	-----	-----	-----
Public offering price	\$ 27.00	\$256,500,000	\$294,975,000
Underwriting discount	\$ 1.15	\$ 10,925,000	\$ 12,563,750
Proceeds, before expenses, to the selling stockholders	\$ 25.85	\$245,575,000	\$282,411,250

S-4

The expenses of this offering, not including the underwriting discount, are estimated to be \$400,000 and are payable by us. This offering is being conducted pursuant to the exercise of a demand registration request by the selling stockholders pursuant to a stockholders' agreement among us and certain stockholders.

OVERALLOTMENT OPTION

Blackstone, one of the selling stockholders, has granted an option to the underwriters to purchase up to 1,425,000 additional shares of our common stock at the public offering price less the underwriting discount. The underwriters

Edgar Filing: AMERICAN AXLE & MANUFACTURING HOLDINGS INC - Form 424B1

may exercise this option for 30 days from the date of this prospectus supplement solely to cover any overallotments. If the underwriters exercise this option, each underwriter will be obligated, subject to conditions contained in the purchase agreement, to purchase a number of additional shares proportionate to that underwriter's initial amount reflected in the above table.

NO SALES OF SIMILAR SECURITIES

We, the selling stockholders and our directors have agreed, except in limited circumstances, not to sell or transfer any shares of our common stock for 90 days after the date of this prospectus supplement without first obtaining the written consent of Merrill Lynch. Specifically, we, the selling stockholders and our directors have agreed not to directly or indirectly:

- o offer, pledge, sell or contract to sell any shares of our common stock,
- o sell any option or contract to purchase any shares of our common stock,
- o purchase any option or contract to sell any shares of our common stock,
- o grant any option, right or warrant for the sale of any shares of our common stock,
- o lend or otherwise dispose of or transfer any shares of our common stock,
- o request or demand that we file a registration statement related to our common stock, or
- o enter into any swap or other agreement that transfers, in whole or in part, directly or indirectly the economic consequence of ownership of our common stock whether any such swap or transaction is to be settled by delivery of our common stock or other securities, in cash or otherwise.

This lockup provision applies to shares of our common stock and to securities convertible into, or exchangeable or exercisable for, or repayable with, shares of our common stock. It also applies to shares of our common stock owned now or acquired later by the person executing the agreement or for which the person executing the agreement later acquires the power of disposition.

In addition to the lock-up described above, our executive officers will be subject to similar lock-up agreements for a period of 45 days after the date of this prospectus supplement. Currently our executive officers, excluding Richard E. Dauch, own approximately 1,940,000 shares of our common stock, including shares issuable under options that are currently exercisable or will become exercisable within 60 days of the date of this prospectus supplement. Following the expiration of these lock-up agreements, these shares will be freely tradable, subject to restrictions imposed on affiliates under Rule 144 of the Securities Act.

ELECTRONIC DISTRIBUTION

Merrill Lynch will be facilitating Internet distribution for this offering to certain of its Internet subscription clients. Merrill Lynch intends to allocate a limited number of shares for sale to its online brokerage clients. An electronic prospectus is available on the internet web site maintained by Merrill Lynch and may be available on the internet web sites maintained by one or more of the other underwriters participating in this offering. Other than the prospectus supplement in electronic format, the information on the Merrill Lynch web site or any other web site maintained by any other underwriter participating in this offering is not a part of this prospectus supplement.

LISTING ON THE NEW YORK STOCK EXCHANGE

The shares of our common stock are listed on the New York Stock Exchange under the symbol "AXL."

PRICE STABILIZATION AND SHORT POSITIONS

Until the distribution of the shares of our common stock is completed, rules of the Securities and Exchange Commission may limit underwriters and selling group members from bidding for and purchasing our common stock. However, the representatives may engage in transactions that stabilize the price of the common stock, such as bids or purchases to peg, fix or maintain that price.

In connection with the offering, the underwriters may make short sales of our common stock. Short sales involve the sale by the underwriters at the time of the offering of a greater number of shares than they are required to purchase in the offering. Covered short sales are sales made in an amount not greater than the overallotment option. The underwriters may close out any covered short position by either exercising their overallotment option or purchasing shares in the open market. In determining the source of shares to close out the covered short position, the underwriters will consider, among other things, the price of shares available for purchase in the open market as compared to the public offering price at which they may purchase the shares through the overallotment option.

Naked short sales are sales in excess of the overallotment option. The underwriters must close out any naked short position by purchasing shares in the open market. A naked short position is more likely to be created if the underwriters are concerned that there may be downward pressure on the price of the shares in the open market after pricing that could adversely affect investors who purchase in the offering.

Similar to other purchase transactions, purchases by the underwriters to cover syndicate short positions may have the effect of raising or maintaining the market price of the common stock or preventing or retarding a decline in the market price of our common stock. As a result, the price of our common stock may be higher than it would otherwise be in the absence of these transactions.

Neither we nor any of the underwriters make any representation or prediction as to the direction or magnitude of any effect that the transactions described above may have on the price of our common stock. In addition, neither we nor any of the underwriters make any representation that the representatives will engage in these transactions or that these transactions, once commenced, will not be discontinued without notice.

OTHER RELATIONSHIPS

Some of the underwriters and their affiliates have engaged in, and may in the future engage in, investment banking and other commercial dealings in the ordinary course of business with us. They have received customary fees and commissions for these transactions. In addition, affiliates of Credit Suisse First Boston Corporation and First Union Securities, Inc. are lenders under our revolving credit facility.

First Union Securities, Inc., a subsidiary of Wachovia Corporation,

Edgar Filing: AMERICAN AXLE & MANUFACTURING HOLDINGS INC - Form 424B1

conducts its investment banking, institutional and capital markets business under the trade name of Wachovia Securities. Any references to "Wachovia Securities" in this prospectus supplement, however, do not include Wachovia Securities, Inc., a separate broker-dealer subsidiary of Wachovia Corporation and affiliate of First Union Securities, Inc. which may or may not be participating as a separate selling dealer in the distribution of the securities offered by this prospectus supplement.

RISK FACTORS

This prospectus contains forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. The terms "expect", "anticipate", "intend", "project" and similar words or expressions are intended to identify forward-looking statements. These statements speak only as of the date of this prospectus. The statements are based on current expectations, are inherently uncertain, are subject to risks, and should be viewed with caution. Actual results and experience may differ materially from the forward-looking statements as a result of many factors, certain of which are described below. It is not possible to foresee or identify all such factors. We make no commitment to update any forward-looking statement or to disclose any facts, events, or circumstances after the date hereof that may affect the accuracy of any forward-looking statement.

OUR OPERATIONS ARE LINKED TO DOMESTIC AUTOMOTIVE PRODUCTION AND A DECREASE IN CONSUMER DEMAND, TIGHTER GOVERNMENT REGULATIONS OR INCREASED COSTS COULD NEGATIVELY IMPACT OUR OPERATIONS.

Our operations are cyclical because they are directly related to domestic automotive production, which is itself cyclical and dependent on general economic conditions and other factors. Sales of axles and related driveline components for light trucks and sport-utility vehicles, or "SUVs", constituted approximately 90% of our sales in 2001. There can be no assurance that positive trends in sales of these vehicles, or that the increasing penetration of four-wheel drives/all-wheel drives, or "4WD/AWDs", as a percentage of these vehicles, will continue. A decrease in consumer demand for the models that generate the most sales for us, our failure to obtain sales orders for new or redesigned models or pricing pressure from our customers or competitors could have a material adverse effect on our business. Government regulations, including those relating to Corporate Average Fuel Economy regulations, could impact vehicle mix and volume, which could also adversely affect the demand for our existing products.

The prices of the raw materials needed for our products may increase and we may be unable to pass these raw material price increases to our customers due to pricing pressure to remain competitive. In addition, we sell most of our products under long-term contracts with prices established at the time the contracts were entered into. There is substantial and continuing pressure from our key customers, the major automotive companies, to reduce the number of outside suppliers and reduce costs. Management believes that our ability to control costs, achieve productivity improvements and develop new products will be essential to remain competitive. There can be no assurance that we will be able to improve or maintain our profitability on product sales.

THE LOSS OF, OR SIGNIFICANT REDUCTION IN, PURCHASES OF OUR PRODUCTS BY GM COULD ADVERSELY AFFECT OUR BUSINESS.

We are the principal supplier of driveline components to GM for its light trucks, SUVs and rear-wheel drive, or "RWD", passenger cars. We sell products to GM under lifetime program contracts, or "LPCs", which have terms equal to the lives of the relevant vehicle programs or their respective derivatives of typically 6 to 12 years. The LPCs establish pricing for products sold to GM and require us to remain competitive with respect to technology, design and

quality. Substantially all of our sales to GM are made pursuant to the LPCs. Sales to GM were approximately 87% of our total sales in 2001, 85% in 2000 and 86% in 1999. We will have to compete for future GM business upon the termination of the LPCs or our component supply agreement, or "CSA", with GM. There can be no assurance that we will remain competitive with respect to technology, design and quality to GM's reasonable satisfaction. Pricing negotiated with GM in future agreements may be more or less favorable than the LPCs and other currently applicable agreements. If we lose any significant portion of our sales to GM, or if GM significantly reduces its production of light trucks or SUVs, it would have a material adverse effect on our results of operations and financial condition. Disputes arising from any current or future agreements between us and GM could have a material adverse impact on our relations and our results of operations or financial condition.

4

FUTURE WORK STOPPAGES AT GM COULD ADVERSELY AFFECT OUR FINANCIAL CONDITION, RESULTS OF OPERATIONS AND THE CONDUCT OF OUR BUSINESS.

Because GM accounts for approximately 87% of our sales, future work stoppages at GM could materially and adversely affect our financial condition, results of operations and the conduct of our business. Over the past five years, there have been labor strikes against GM which have resulted in work stoppages at GM. We estimate that the work stoppage at GM during June and July of 1998 resulted in lost sales to us of approximately \$188 million and lost operating income (including related start-up inefficiencies in our operations in August 1998) of approximately \$71.2 million. We also estimate that work stoppages at GM resulted in lost sales to us of approximately \$95 million in 1996 and \$60 million in 1997.

OUR BUSINESS COULD BE NEGATIVELY IMPACTED IF WE FAIL TO MAINTAIN SATISFACTORY LABOR RELATIONS.

Although we believe our relations with our unions are positive, there can be no assurance that future issues with our labor unions will be resolved favorably or that we will not experience a work stoppage which could adversely affect our business. Since we commenced operations in 1994, we have not experienced any strikes. Our current national collective bargaining agreement with the United Automobile, Aerospace and Agricultural Workers of America, or "UAW", runs through February 25, 2004 and our collective bargaining agreement with the International Association of Machinists runs through May 5, 2004. Associates at our MSP Industries Corporation, or "MSP", subsidiary and our Colfor Manufacturing Inc., or "Colfor", subsidiary are also represented by the UAW under collective bargaining agreements that expire in 2005. In addition, associates at our Albion Automotive (Holdings) Limited, or "Albion", subsidiary in Scotland are represented by labor unions under various collective bargaining agreements that expire in 2004, certain of which may be terminated upon six-months' notice. Associates at our Guanajuato, Mexico facility, or "Guanajuato Gear & Axle", and our Brazilian majority-owned facility are represented by labor unions that are subject to collective bargaining agreements that expire annually.

BLACKSTONE HAS SIGNIFICANT INFLUENCE ON ALL STOCKHOLDER VOTES AND MAY HAVE INTERESTS THAT ARE DIFFERENT FROM YOURS.

Upon the sale of all shares offered hereunder, Blackstone Capital Partners II Merchant Banking Fund L.P. and certain of its affiliates will have approximately 24.3% beneficial ownership of our common stock. See "Selling Stockholders". As a result, Blackstone will continue to have significant influence on matters submitted to our stockholders, including proposals

regarding:

- o any merger, consolidation or sale of all or substantially all of our assets,
- o the election of members of our board of directors and
- o preventing or causing a change of control of our company.

In addition to its significant influence, Blackstone's interest may be significantly different from the interests of other owners of our common stock.

We are a party to a stockholders' agreement with Blackstone, Jupiter Capital Corporation, or "Jupiter", Richard E. Dauch and certain other stockholders. Generally, pursuant to the stockholders' agreement, so long as Blackstone owns at least one-third of the common stock held by it at our recapitalization in 1997, (i) if Blackstone receives and accepts an offer from a person to purchase all, or substantially all, of the common stock held by Blackstone, Jupiter, Mr. Dauch and certain other stockholders, then Jupiter, Mr. Dauch and such other stockholders are required to offer their shares of common stock in any such sale and (ii) if Blackstone proposes to transfer all or a portion of its shares of common stock, other than to its affiliates or in connection with a public offering registered under the Securities Act, Jupiter, Mr. Dauch and such other stockholders have the right to require the transferee to purchase a proportional share of their respective shares.

5

WE HAVE SUBSTANTIAL LEVERAGE, WHICH COULD RESTRICT OUR GROWTH, PLACE US AT A COMPETITIVE DISADVANTAGE OR OTHERWISE IMPAIR OUR ABILITY TO CONDUCT OUR BUSINESS.

Our ability to satisfy our debt obligations will depend on our future operating performance, which will be affected by prevailing economic conditions and financial, business and other factors, certain of which are beyond our control. We have incurred substantial indebtedness, principally in connection with our recapitalization in 1997. As of December 31, 2001, we had approximately \$878.2 million of outstanding long-term indebtedness under our outstanding senior subordinated notes, our senior secured bank credit facilities, our receivables financing facility and other capital lease and debt obligations. At December 31, 2001, we had approximately \$534.7 million of stockholders' equity.

The degree to which we are leveraged could have important consequences, including the following: (i) our ability to obtain additional financing in the future for working capital, capital expenditures, research and development, acquisitions or general corporate purposes may be impaired; (ii) a substantial portion of our cash flow from operations must be dedicated to the payment of interest on our existing indebtedness, thereby reducing the funds available to us for other purposes; (iii) our operations are restricted by the agreements governing our long-term indebtedness which contain certain financial and operating covenants; (iv) indebtedness under our credit facilities is at variable rates of interest, and therefore we are vulnerable to increases in interest rates; (v) all of the indebtedness outstanding under the credit facilities is secured by substantially all of our assets; and (vi) our substantial degree of leverage could make it more vulnerable in the event of a downturn in general economic conditions or in our business.

We believe, based on current circumstances, that our cash flow, together with available borrowings under the credit facilities, will be sufficient to

Edgar Filing: AMERICAN AXLE & MANUFACTURING HOLDINGS INC - Form 424B1

permit us to meet our operating expenses and to service our debt requirements. Significant assumptions underlie this belief, including, among other things, that we will succeed in implementing our business and growth strategies and there will be no material adverse developments in our business, liquidity or capital requirements. The impact of work stoppages at GM have had and may in the future have a significant adverse impact on our results of operations and liquidity and have contributed and may contribute in the future to an increase in our leverage. In addition, the consummation of future acquisitions could also increase our leverage.

WE ARE SUBJECT TO RESTRICTIVE COVENANTS IN THE AGREEMENTS GOVERNING OUR INDEBTEDNESS.

The agreements governing our indebtedness include certain covenants that restrict, among other things, (i) the incurrence of additional indebtedness, certain convertible or mandatorily redeemable securities and preferred stock, (ii) the payment of dividends on, and redemption of, capital stock and the redemption of indebtedness that is subordinate in right of payment to our senior subordinated notes, (iii) certain other restricted payments, (iv) certain sales of assets, (v) certain transactions with affiliates, (vi) the creation of certain liens and (vii) consolidations, mergers, and transfers of all or substantially all of our assets. The debt agreements also contain other and more restrictive covenants and prohibit us from prepaying certain indebtedness. The debt agreements also require us to comply with financial covenants relating to interest coverage, leverage, retained earnings and capital expenditures. Our ability to meet those financial ratios and tests can be affected by events beyond our control, and there can be no assurance that we will meet those tests. A breach of any of these covenants, ratios or tests could result in default under our debt agreements.

We are currently in compliance with the covenants and restrictions contained in our debt agreements. However, our ability to continue to comply may be affected by events beyond our control, including prevailing economic, financial and industry conditions. In addition, upon the occurrence of an event of default under the debt agreements, the lenders could elect to declare all amounts outstanding under the debt agreements, together with accrued interest, to be immediately due and payable. If we were unable to repay those amounts, the lenders could proceed against the collateral granted to them to secure that indebtedness.

6

WE AND OUR CUSTOMERS MAY NOT BE ABLE TO TIMELY OR SUCCESSFULLY LAUNCH NEW PRODUCT PROGRAMS.

Our customers are preparing to launch new product programs for which we will supply newly developed axles and other driveline components. Certain of these program launches could require substantial capital investments by us.

Although we do not currently anticipate any problems completing such new product program launch activities in time for the start of production, there can be no assurance that we will be able to install and certify the equipment needed to produce products for these new product programs in time for the start of production. There can be no assurance that the transitioning of our manufacturing facilities and resources to full production under these new product programs, or any other future product programs, will not impact production rates or other operational efficiency measures at our facilities. In addition, there can be no assurance that our customers will execute the launch of these product programs, or any additional future product program for which we will supply products, on schedule.

WE FACE SUBSTANTIAL COMPETITION AND OUR COMPETITORS MAY HAVE SUPERIOR RESOURCES, WHICH COULD PLACE US AT A COMPETITIVE DISADVANTAGE.

The OEM supply industry is highly competitive with a number of other manufacturers that produce competitive products. Quality, delivery and price, as well as technological innovation, are the primary elements of competition. There can be no assurance that our products will compete successfully with those of our competitors. These competitors include driveline component manufacturing facilities of existing OEMs, as well as independent domestic and international suppliers. Certain competitors are more diversified and have greater access to financial resources. There can be no assurance that our business will not be adversely affected by increased competition, or that we will be able to maintain our profitability, if the competitive environment changes.

OUR ABILITY TO OPERATE EFFECTIVELY COULD BE IMPAIRED IF WE LOSE KEY PERSONNEL OR FAIL TO ATTRACT AND RETAIN ASSOCIATES.

Our success will depend, in part, on the efforts of our executive officers and other key associates, including Richard E. Dauch, Co-Founder, Chairman of the Board and Chief Executive Officer. In addition, our future success will depend on, among other factors, our ability to continue to attract and retain qualified personnel. We do not have employment agreements with any of our associates other than Mr. Dauch, Robin J. Adams, Executive Vice President -- Finance and Chief Financial Officer and Alan L. Shaffer, Vice President -- Manufacturing Services. We do not have "key man" life insurance on any of our associates other than Mr. Dauch. The loss of the services of key associates or the failure to attract or retain associates could have a material adverse effect on our financial condition and results of operations.

WE ARE SUBJECT TO RISKS AND COSTS ASSOCIATED WITH NON-COMPLIANCE WITH ENVIRONMENTAL REGULATIONS.

Our operations are subject to federal, state, local and foreign laws and regulations governing, among other things, emissions to air, discharge to waters and the generation, handling, storage, transportation, treatment and disposal of waste and other materials. We believe that our operations and facilities have been and are being operated in compliance, in all material respects, with applicable environmental and health and safety laws and regulations, many of which provide for substantial fines and criminal sanctions for violations. The operation of automotive parts manufacturing plants entails risks in these areas, however, and there can be no assurance that we will not incur material costs or liabilities. In addition, potentially significant expenditures could be required in order to comply with evolving environmental and health and safety laws, regulations or requirements that may be adopted or imposed in the future.

We believe that the overall impact of compliance with regulations and legislation protecting the environment will not have a material effect on our financial condition or results of operations, although no assurance can be given in this regard.

7

WE DEPEND ON A LIMITED NUMBER OF SUPPLIERS FOR SOME KEY COMPONENTS AND MATERIALS IN OUR PRODUCTS, WHICH MAKES US SUSCEPTIBLE TO SUPPLY SHORTAGES OR PRICE FLUCTUATIONS THAT COULD ADVERSELY AFFECT OUR BUSINESS.

We have initiated a policy of strengthening our supplier relationships by

Edgar Filing: AMERICAN AXLE & MANUFACTURING HOLDINGS INC - Form 424B1

concentrating our productive material purchases with a limited number of suppliers. We believe that this policy contributes to quality and cost control and increases our suppliers' commitments to us. We rely upon, and expect to continue to rely upon, single source suppliers for certain critical components that are not readily available in sufficient volume from other sources. There can be no assurance that the suppliers of these productive materials will be able to meet our future needs on a timely basis, or be willing to continue to be suppliers to us, or that a disruption in a supplier's business would not disrupt the supply of productive materials that could not easily be replaced.

OUR CERTIFICATE OF INCORPORATION AND BY-LAWS AND DELAWARE LAW INCLUDE PROVISIONS THAT MAY DISCOURAGE A TAKEOVER ATTEMPT.

Certain provisions of our certificate of incorporation and by-laws and Delaware law may make any acquisition of control of us in a transaction that is not approved by our board of directors more difficult or expensive.

THE PRICE OF OUR STOCK IS SUBJECT TO VOLATILITY, WHICH MAY MAKE IT MORE DIFFICULT TO REALIZE A GAIN ON YOUR INVESTMENT IN OUR COMMON STOCK.

Various factors, such as general economic conditions and changes or volatility in the financial markets, announcements or significant developments with respect to the automotive industry, actual or anticipated variations in our quarterly or annual financial results, the introduction of new products or technologies by us or our competitors, changes in other conditions or trends in our industry or in the markets of any of our significant customers, changes in governmental regulation or changes in securities analysts' estimates of our future performance or that of our competitors or our industry, could cause the market price of the common stock to fluctuate substantially.

OUR STOCK PRICE MAY BE AFFECTED IF ADDITIONAL SHARES ARE SOLD.

Future sales of substantial amounts of shares of our common stock in the public market could adversely affect prevailing market prices and the price of our common stock and could impair our ability to raise capital through future sales of our equity securities. Apart from any shares subject to lock-up agreements, all of the shares sold in this offering, plus any shares issued upon exercise of any underwriters' overallotment option, will be freely tradeable without restriction under the Securities Act, unless purchased by our affiliates.

Subject to important exceptions described in a prospectus supplement, the selling stockholders will agree not to sell or transfer any common stock without the permission of the underwriters for a period of 90 days from the date of the applicable prospectus supplement. Sales of a substantial number of shares of our common stock following the expiration of these lock-up periods could cause our stock price to fall.

USE OF PROCEEDS

All net proceeds from the sale of the shares of our common stock offered in this prospectus will go to the selling stockholders. We will not be selling shares or receiving proceeds from this offering.
