DIRECTOR COMPENSATION

Richard A. Meeusen, an employee of the Company, receives no compensation as a director. All other directors are compensated as follows: Directors are compensated at a rate of \$1,500 for each Board of

2

Directors meeting attended and are reimbursed for out-of-pocket travel, lodging and meal expenses. Directors are compensated at the rate of \$1,000 for each committee meeting they attend. In addition, directors are paid a retainer of \$750 per month and committee chairmen receive an annual fee of \$2,000. Directors may elect to defer their compensation, in whole or in part, in a stock or cash subaccount of the Badger Meter Deferred Compensation Plan for Directors. If a director elects to defer compensation in a stock subaccount, his subaccount is credited with a number of units equivalent to the dollar amount of such fees on the date they would otherwise be payable. Amounts credited to the stock subaccount are credited with dividends by multiplying the number of units in the Participant's stock subaccount on each dividend record date, by the amount of each dividend, to determine the dividend amount. The dividend amount is then divided by the closing stock price on the last day of the previous quarter to determine the number of stock units to be added to the stock subaccount. Upon distribution of any portion or all of a Participant's stock subaccount, the value of the account will be computed by multiplying the number of units in the account on the date of distribution by the closing price of the Company's Common Stock on the last day of the month prior to the distribution.

The non-employee directors of the Company participate in the same long-term incentive plan ("LTIP") as certain members of the Company's management group. The LTIP provides annual cash bonuses to the directors with respect to a four-year performance period beginning in 2002. The awards are based upon annual attainment of earnings objectives for each year. Effective January 1, 2002, the maximum amount that a director can earn under the long-term incentive plan is \$16,300 to \$22,100 per year, depending on date of award. In addition, non-employee directors receive a one-time grant of options to purchase up to 8,000 shares of Common Stock and an annual award of 300 shares of Common Stock granted under the shareholder-approved 2002 Director Stock Grant Plan.

COMMITTEES, MEETINGS AND ATTENDANCE

The Board of Directors of the Company has four standing committees: Audit and Compliance Committee, Employee Benefit Plans Committee, Corporate Governance Committee and Finance Committee. The charters for each of the four committees are available on the Company's website at www.badgermeter.com under the selection "Company" -- "Corporate Governance" -- "Committees of the Board." A copy of the Audit and Compliance Committee Charter is attached to this proxy statement as Appendix A. The Company's Board of Directors has affirmatively determined that all of the Company's directors (other than Messrs. Forbes and Meeusen) are "independent" as defined in the listing standards of the American Stock Exchange.

Edgar Filing: BADGER METER INC - Form DEF 14A

The Audit and Compliance Committee, which met five times in 2003, consists of Messrs. Fischer (Chairman), Manning and Payne. The Audit and Compliance Committee oversees the Company's financial reporting process on behalf of the Board of Directors and reports the results of their activities to the Board. The activities of the Audit and Compliance Committee include employing independent auditors for the Company, discussing with the independent auditors and internal auditors the scope and results of audits, monitoring the Company's internal controls and pre-approving and reviewing audit fees and other services performed by the Company's independent auditing firm. The Committee also monitors the Company's compliance with the Company's policies governing activities which include but are not limited to the Company's code of conduct and its environmental, safety, diversity, product regulation and quality processes. The Corporate Governance Committee consisting of Messrs. Policano (Chairman), Payne, Smith and Stollenwerk, met twice in 2003 and in February 2004. The Corporate Governance Committee reviews and establishes all forms of compensation for the officers and directors of the Company and administers the Company's compensation plans, including the various stock option plans. The Committee also reviews the various management development and succession programs and adopts and maintains the Principles of Corporate Governance. The Committee also selects nominees for the Company's Board of Directors.

3

The Employee Benefit Plans Committee, which met five times in 2003, consists of Messrs. Smith (Chairman), Forbes and Policano. The Finance Committee, which met twice in 2003, consists of Messrs. Manning (Chairman), Fischer, Forbes and Stollenwerk. This Committee reviews the Company's various financing activities and insurance coverage and recommends changes in the corporate capitalization structure.

The Board of Directors held four meetings in 2003. Mr. Policano currently serves as lead outside director of the Board. During 2003, all directors attended at least 75% of the meetings of the Board of Directors and committees on which they served during the period that they served. All members of the Board of Directors attended the 2003 Annual Meeting of Shareholders. It is the Board's policy that all directors attend the Annual Meeting of Shareholders, unless unusual circumstances prevent such attendance.

NOMINATION OF DIRECTORS

The Corporate Governance Committee ("the Committee") has responsibility for selecting nominees for the Company's Board of Directors. All members of the Committee meet the definition of independence set forth by the American Stock Exchange. The Board of Directors has adopted a policy by which the Committee will consider nominees for Board positions, as follows:

- The Committee will review potential new candidates for Board positions.
- The Committee will review each candidate's qualifications in light of the needs of the Board and the Company, considering the current mix of director attributes and other pertinent factors.
- The minimum qualifications required of any candidate include the highest

Edgar Filing: BADGER METER INC - Form DEF 14A

ethical standards and integrity, and sufficient experience and knowledge commensurate with the Company's needs.

- The specific qualities and skills required of any candidate will vary depending on the Company's specific needs at any point in time.
- No candidate, including current directors, may stand for reelection after reaching the age of 70.
- There are no differences in the manner in which the Committee evaluates candidates recommended by shareholders and candidates identified from other sources.
- To recommend a candidate, shareholders should write to the Board of Directors, Badger Meter, Inc., P.O. Box 245036, Milwaukee, WI 53224-9536, via certified mail. Such recommendation should include the candidate's name and address, a brief biographical description and statement of qualifications of the candidate and the candidate's signed consent to be named in the proxy statement and to serve as a director if elected.
- To be considered by the Committee for nomination and inclusion in the Company's proxy statement, the Board must receive shareholder recommendations for director no later than October 15 of the year prior to the Annual Meeting of Shareholders.

During 2003, and as of the date of this proxy statement, the Committee did not pay any fees to third parties to assist in identifying or evaluating potential candidates. Also, the Committee has not received any shareholder nominees for consideration at the 2004 Annual Meeting of Shareholders.

COMMUNICATIONS WITH THE BOARD OF DIRECTORS

The Board of Directors has established a process for shareholders to communicate with members of the Board. To contact the Board, shareholders should write to the Board of Directors, c/o Secretary, Badger Meter, Inc., P.O. Box 245036, Milwaukee, WI 53224-9536, via certified mail. The Company's process for determining how and which communications will be relayed to the Board has been approved by all of the independent directors of the Company.

STOCK OWNERSHIP OF MANAGEMENT AND OTHERS

The following table sets forth, as of February 27, 2004, the number of shares of the Common Stock beneficially owned and the number of options outstanding by (i) each director of the Company, (ii) each of the executive officers named in the Summary Compensation Table set forth below, (iii) all directors and officers of the Company as a group, and (iv) each person known to the Company to be the beneficial owner of more than 5% of the Common Stock (as reported to the Securities and Exchange Commission). Beneficial ownership of shares is reported in the following table and footnotes in accordance with the beneficial ownership rules promulgated by the Securities and Exchange Commission. Such rules define "beneficial owner" of a security to include any person who has or shares voting power or investment power with respect to such security.

Compliance with these rules results in overlapping beneficial ownership of shares. Therefore, certain shares set forth in the table below are reported as being beneficially owned by more than one person.

In the aggregate, 458,557 shares of Common Stock, representing approximately 13.2% of the shares of Common Stock entitled to vote at the Meeting, are beneficially held by directors and officers of the Company as a group.

KEY EXECUTIVE EMPLOYMENT AND SEVERANCE AGREEMENTS (KEESA)

The Company entered into Key Executive Employment and Severance Agreements (KEESA) with certain key officers, including certain of the above-named officers, whose expertise has been critical to the Company's success, to remain with the Company in the event of any merger or transition period. The KEESA agreements provide for payment of severance to officers whose employment is terminated under certain circumstances, such as other than for cause, death or disability, in anticipation of or following a change in control or by the officer for good reason following such a change, within two years of a change in control.

There are two forms of the KEESA. The KEESA for the President and Chief Executive Officer provides for payment of three years of salary and annual incentive compensation, as well as the actual equivalent of the additional retirement benefits the officer would have earned if he had remained employed for three more years, continued medical, dental, and life insurance coverage for three years, outplacement services, and financial planning counseling. The KEESA for the remainder of the named officers provides for payment of two years' salary and annual incentive compensation, along with two years of the other benefits set forth above.

"ISO" options are incentive stock options and are qualified options for purposes of the Internal Revenue Code of 1986, as amended. The option base price is the fair market value of the stock at the time of the grant. The NQ Options become fully exercisable five years after date of grant. PENSION PLAN TABLE

The Company maintains a defined benefit pension plan (the "Pension Plan") covering all domestic salaried employees including the above-named executive officers. Effective January 1, 1997, the Pension Plan was modified to become a "cash balance" plan. Under this approach, a participant has an account balance

Edgar Filing: BADGER METER INC - Form DEF 14A

which is credited each year with dollar amounts equal to 5% of compensation, plus 2% of compensation in excess of the Social Security wage base. Interest is credited to the account balance each year at a rate of interest based upon 30-year U.S. Treasury securities. A starting balance was established for each participant based upon December 31, 1996 accrued benefits under the prior Pension Plan formula.

Additional annual dollar amounts are credited to the accounts of participants with Pension Plan participation prior to January 1, 1997 based on their service on January 1, 1997. These additional annual credits are 3% for those with less than 11 years; 4% for those with 11 to 20 years; and 5% for those with 21 or more years. The additional credits will apply for years after 1996 for each year of continued employment but limited to the lesser of 15 years or the number of the participant's years of credited service as of December 31, 1996. At retirement, a participant may elect a cash payment of the account balance or a life annuity of equivalent value.

11

Mr. Meeusen, Mr. Smith and Mr. Johnson are eligible for benefits under the cash balance plan but are not eligible for benefits under the prior plan's final average pay formula. The estimated total annual benefits payable to these executives under the cash balance plan at age 65 are \$128,102 for Mr. Meeusen, \$35,042 for Mr. Smith and \$49,611 for Mr. Johnson. These projected benefits were determined assuming no future increases in pay and interest credited to the cash balance account at a rate of 7%.

Mr. Dix, because of his age and service, is expected to obtain retirement benefits according to the prior plan's final average pay formula, which has been retained under the modified Pension Plan as a minimum benefit for employees who had attained age 50 and completed 10 or more years of service as of December 31, 1996.

Under the prior formula, the monthly pension at normal retirement (age 65) for all executive officers is equal to the sum of nine-tenths percent (0.9%) of the participant's average monthly compensation (based on the highest 60 months of the last 120 months compensation) multiplied by the participant's years of service, not to exceed 30; and six-tenths percent (0.6%) of the participant's average monthly compensation in excess of Covered Compensation, multiplied by the participant's years of service, not to exceed 30. IRS regulations limit the amount of compensation to be considered in benefit calculations to \$200,000 in 2003, and varying amounts for prior years. Participants whose compensation is in excess of the IRS limits also participate in a non-qualified unfunded supplemental retirement plan. Benefits from this plan are calculated to provide the participant the same pension benefits as if there was no compensation limit.

Based on the assumption that retirement occurs at age 65, the following table shows the approximate annual retirement benefit payable from both the funded or unfunded plans to salaried employees retiring in 2003, based on the benefit formula described above.

Compensation covered by the Defined Benefit Plan is a participant's salary and bonus, as shown in the Summary Compensation Table, whether or not such compensation has been deferred at the participant's election.

The above table does not reflect limitations imposed by the Internal Revenue Code of 1986, as amended, on pensions paid under federal income tax qualified plans. However, an executive officer covered by the Company's unfunded program will receive the full pension to which he would be entitled in the absence of such limitations.

Mr. Dix has 22 years of credited service under the Pension Plan. The current remuneration for Mr. Dix for purposes of the Pension Plan is set forth in the Summary Compensation Table.

In 1990, Mr. Dix agreed to the cancellation of substantially all of his post-retirement group term life insurance in exchange for an unfunded supplemental retirement plan. This plan provides for the payment of

12

20% of the participant's final monthly salary for 120 months after retirement. Assuming no increase in salary before retirement, Mr. Dix would be paid an additional annual pension of \$40,000.

Mr. Gras, a German resident and citizen, is not covered by the defined benefit pension plan. The Company, through its European subsidiary, provides Mr. Gras with an insurance policy that provides benefits similar to those of the other named executives covered by the cash balance plan.

BOARD CORPORATE GOVERNANCE COMMITTEE REPORT ON EXECUTIVE COMPENSATION

In addition to its responsibilities relating to corporate governance, the Corporate Governance Committee of the Board of Directors administers the Company's executive compensation program. The Committee is composed of four non-employee directors. Following the Committee's review and approval, all matters related to its activities are reported to the full Board of Directors for approval.

The compensation policies that are used as a general guideline for the Committee as it carries out its powers and duties are as follows:

- The design of executive pay programs should attract and retain qualified executive officers, motivate and reward performance;
- Achievement of annual incentive compensation levels requires attainment of performance goals as approved by the Corporate Governance Committee;
- Long-term incentive programs must focus on the enhancement of shareholder

Edgar Filing: BADGER METER INC - Form DEF 14A

value through the use of stock options and long-term cash incentives; and

- The Committee uses its judgment to achieve a fair and competitive compensation structure, utilizing both short-term and long-term plans, with fixed and variable components.

In making its decisions, the Corporate Governance Committee reviews:

- Competitive compensation data for organizations of similar size and similar business activity, considering both base salary and bonus data separately, on a combined basis and total cash and non-cash compensation;
- Financial performance for the Company as a whole and for various product lines, relative to prior year, the budget and other meaningful financial data; and
- Personal performance, including objectives approved by the Corporate Governance Committee and on a discretionary basis, where appropriate.

The compensation program for the executive officers of the Company involves base salaries, short-term annual cash incentive bonuses and a long-term program using stock options and cash incentives.

Base Salaries. Salary rate ranges are established for each officer position. The rate ranges are reviewed annually by the Corporate Governance Committee, using data supplied by an independent consulting firm on organizations of similar size and similar business activity. The compensation survey incorporates privately-held as well as publicly-held companies of similar size, and has a broader definition of similar business activity, thereby providing the best basis for evaluating compensation relative to the companies that compete with the Company for executives. The data includes salaries, total cash compensation and total compensation. This process has been consistently used by the Corporate Governance Committee for the past 14 years. The Company's policy is to pay executives at market, so the midpoint of the rate range reflects compensation for similar positions in organizations of similar size and similar business. Each of the individual officers' compensation falls within the appropriate rate range.

In establishing the compensation of each officer, including the President and Chief Executive Officer, the Corporate Governance Committee is given a five-year history, including base salary, short-term incentive awards, and long-term compensation programs. The Committee is also furnished with a schedule showing the Common Stock ownership of each officer, including options.

13

The base compensation for each officer is established by first determining the officer's position within the applicable rate range and then considering various performance factors. Other non-financial objectives examined include any change in market share, new product development, customer service and the quality attainment of various products. Because the philosophy of the Company is one of long-term goals and objectives, greater weight is given to the long-term factors and lesser weight to the annual financial performance for base compensation considerations.

Base salary increases approved for 2004 by the Corporate Governance Committee ranged from 3.5 to 11.1 percent, with the President and Chief Executive Officer's compensation increasing 5.0 percent, after evaluation of the factors set forth above relative to each individual's circumstances and performance.

Edgar Filing: BADGER METER INC - Form DEF 14A

Short-Term Incentive Plan. Under the 2003 short-term incentive plan, the maximum bonus payable is 60 percent of base salary for the President and Chief Executive Officer and 50-55 percent for the other officers. Two factors are used for the short-term incentive plan -- financial and predetermined performance objectives. The financial factor is based on the attainment of a certain pretax earnings for the Company, approved at the beginning of each year by the Corporate Governance Committee. For 2003, bonuses were paid to the executive officers.

Long-Term Incentive Plans/Stock Option Plans. A long-term compensation program, which includes the Company's 1993 - 2003 Stock Option Plans, presents an opportunity for the officers to gain or increase their equity interests in the Company. All of the stock options are granted at the market price on the date of grant and are based on a factor of compensation.

The Company's Long-Term Incentive Plan ("LTIP") provides annual cash bonuses to the members of the management group with respect to a four-year performance period. The awards are based upon annual attainment of earnings objectives for each year, as established by the Board of Directors. The plan in effect for 2003 was put in place for 2002-2005.

Section 162(m) Limitations. It is anticipated that all 2003 compensation to executives will be fully deductible under Section 162(m) of the Code and therefore the Corporate Governance Committee determined that a policy with respect to qualifying compensation paid to certain executive officers for deductibility is not necessary.

The foregoing report has been approved by all members of the Committee.

BOARD AUDIT AND COMPLIANCE COMMITTEE REPORT

The Audit and Compliance Committee (the "Committee") is a group of independent directors whose responsibilities on behalf of the Board of Directors (the "Board") include the oversight of financial and legal processes and procedures. Specifically, the Committee oversees the integrity of the Company's financial statements, the Company's compliance with legal and regulatory requirements, the independent auditor's qualifications and independence, the performance of the Company's internal audit function and independent auditors, and the Company's system of disclosure controls and system of internal controls regarding finance, accounting, legal compliance and ethics that management and the Board have established. The Committee is required to meet at least quarterly and report to the Board regularly. It met five times in 2003.

The Committee is vested with all responsibilities and authority required by Rule 10A-3 under the Securities Exchange Act of 1934. It is comprised of the three members of the Board of Directors named below, each of whom is independent as required by the American Stock Exchange and U.S. Securities Exchange Commission rules currently in effect. The Board evaluates the independence of the directors on at

14

least an annual basis. All three members of the Committee have been determined by the Board to be financial experts as defined by Securities and Exchange Commission rules. The Committee acts under a written charter that is included

Edgar Filing: BADGER METER INC - Form DEF 14A

herein.

Company management ("management") has the primary responsibility for the preparation of financial statements and the reporting process, including the systems of internal controls. In fulfilling its oversight responsibilities, the Committee reviewed with management the Company's audited financial statements as of and for the year ended December 31, 2003, including discussion regarding the propriety of the application of accounting principles by the Company, the reasonableness of significant judgments and estimates used in the preparation of the financial statements, and the clarity of disclosures in the financial statements. Management represented to the Committee that the Company's financial statements were prepared in accordance with accounting principles generally accepted in the United States. The Committee also reviewed and discussed the Company's audited 2003 financial statements with the Company's independent auditors, Ernst & Young LLP, who are responsible for expressing an opinion on the conformity of the Company's audited financial statements with accounting principles generally accepted in the United States.

Ernst & Young LLP provided the Committee the written disclosures and the letter required by Independence Standards Board Standard No. 1 (regarding independence discussions with audit committees), and the Committee discussed with Ernst and Young LLP the firm's independence from management and the Company, including the matters in those written disclosures.

Prior to the audits, the Committee discussed with Ernst & Young LLP and the Company's internal auditors the overall scope and plans for their respective audits. Ernst and Young LLP conducted their independent audit. The Committee met with Ernst & Young LLP, with and without management present, to discuss the results of their audit examinations, their evaluations of the Company's internal controls, and the overall quality of the Company's financial reporting, as well as the matters required to be discussed by the Statement on Auditing Standards No. 61 (regarding communication with audit committees), as amended, that were not otherwise covered and other professional standards and regulatory requirements as currently in effect.

Based on the reviews and discussions referred to above, the Committee recommended to the Board that the audited financial statements be included in the Company's Annual Report on Form 10-K for fiscal 2003 for filing with the U.S. Securities and Exchange Commission. In addition, the Committee appointed Ernst & Young LLP as independent auditors for the Company for fiscal 2004.

All members of the Committee have approved the foregoing report.
