Table of ContentsNOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(unaudited)

**1. Financial Statements**

In the opinion of the Company, the accompanying unaudited condensed consolidated financial statements contain all adjustments (consisting of only normal recurring accruals) necessary to present fairly the financial position, results of operations and cash flows for the periods presented. These condensed financial statements should be read in conjunction with the audited financial statements and notes thereto contained in the Company's Annual Report to Shareholders for the year ended September 30, 2003. The September 30, 2003 Consolidated Statement of Financial Position is derived from the audited financial statements. The results of operations for the three- and nine-month periods ended June 30, 2004 are not necessarily indicative of the results which may be expected for the Company's 2004 fiscal year because of seasonal and other factors. Certain prior period amounts have been reclassified to conform to the current year's presentation.

**2. Stock-Based Compensation – Stock Options**

Effective October 1, 2002, the Company voluntarily adopted the fair value recognition provisions of Statement of Financial Accounting Standards (SFAS) No. 123, Accounting for Stock-Based Compensation and adopted the disclosure requirements of SFAS No. 148, Accounting for Stock-Based Compensation-Transition and Disclosure an amendment of FAS 123. In accordance with SFAS No. 148, the Company has adopted the fair value recognition provisions on a prospective basis and, accordingly, the expense recognized in the three- and nine-month periods ended June 30, 2004 represents a pro rata portion of the 2004 and 2003 stock option grants which are earned over a three-year vesting period.

The following table illustrates the pro forma effect on net income and earnings per share as if the fair value based method had been applied to all outstanding and unvested stock option awards in each period:

	<b>Three Months Ended June 30,</b>		<b>Nine Months Ended June 30,</b>	
	<b>2004</b>	<b>2003</b>	<b>2004</b>	<b>2003</b>

Diluted weighted average shares outstanding	<u>192.9</u>	<u>189.4</u>	<u>192.5</u>	<u>188.8</u>
<b><u>Antidilutive Securities</u></b>				
Options to purchase common shares	0.4	0.3	0.4	0.3

\* Weighted average shares outstanding for the three- and nine-month periods ended June 30, 2003 have been restated to reflect a two-for-one stock split (see Note 17). See also Note 4 regarding the conversion of the Series D Convertible Preferred Stock.

#### **4. Conversion of Preferred Stock**

Effective December 31, 2003, the Company's Board of Directors authorized the redemption of all the outstanding Series D Convertible Preferred Stock, held in the Company's Employee Stock Ownership Plan (ESOP), and the ESOP trustee converted the preferred stock into common shares in accordance with the terms of the preferred stock certificate. The conversion resulted in the issuance of approximately 7.5 million common shares (on a post-split basis, see Note 17) and was accounted for through a transfer from preferred stock to common stock and capital in excess of par value. The conversion of \$96 million of preferred shares held by the ESOP has been reflected within Shareholders' Equity in the Consolidated Statement of Financial Position. The conversion of these shares resulted in their inclusion in the basic weighted average common shares outstanding amount used to compute basic EPS. The conversion of preferred shares has always been assumed in the determination of

**Table of Contents**

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

**(unaudited)**

diluted EPS. The Company's ESOP was financed with debt issued by the ESOP, and the final ESOP debt payment was paid by the Company in December 2003.

**5. Acquisition of Businesses**

On October 31, 2002, the Company acquired VARTA AG's Automotive Battery Division, a major European automotive battery manufacturer headquartered in Germany. The Varta Automotive Battery Division (Varta) consists of VARTA Automotive GmbH and the 80% majority ownership in VB Autobatterie GmbH. Restructuring reserves related to the Varta acquisition of approximately \$18 million were recorded. The majority of the reserves were established for severance costs related to workforce reductions of approximately 235 employees. Approximately \$7 million of severance costs, associated with workforce reductions of approximately 40 employees, have been incurred to date. The majority of the Varta restructuring activities are expected to be completed within the current fiscal year. In the first quarter of fiscal 2004, the Company made the final payment related to the Varta acquisition of \$36.6 million. In addition, the Company recorded a deferred income tax adjustment in the second quarter of fiscal 2004 associated with the completion of its valuation studies which resulted in an increase in goodwill assigned to the Automotive Group of approximately \$46 million.

Effective September 1, 2000, the Company completed the acquisition of Ikeda Bussan Co. Ltd., a Japanese supplier of automotive seating. As part of this acquisition, a restructuring reserve of approximately \$54 million was recorded. The reserve was established for expected severance costs as the Company eliminates certain non-core activities to focus on the operation's principal seating and interiors businesses. Seven plants and facilities have been or will be closed as part of the restructuring plan, with resulting workforce reductions of approximately 1,000 employees. Through June 30, 2004 approximately \$33 million of severance costs were paid or incurred, and approximately 650 employees separated from the Company. In fiscal 2002, the Company recorded an adjustment to the restructuring reserve of approximately \$10 million which resulted in a decrease to the goodwill assigned to the Automotive Group of approximately \$6 million. The reserve balance at June 30, 2004 of approximately \$11 million primarily represents remaining severance payments to be made in accordance with underlying agreements.

Excluding the impact of any future acquisitions, the Company anticipates annual amortization of other intangible assets will approximate \$22 million for each of the next five years.

## 7. Guarantees

At June 30, 2004, the Company had guaranteed certain financial liabilities, the majority of which relate to debt obligations of unconsolidated affiliates. The term of each of the guarantees is equal to the remaining term of the underlying debt, which matures within six months. Payment by the Company would be required upon

**Table of Contents****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS****(unaudited)**

default by the unconsolidated affiliate. The maximum amount of future payments which the Company could be required to make under these guarantees at June 30, 2004 was \$1.7 million.

The Company has guaranteed the residual value related to the Company aircraft accounted for as synthetic leases. The guarantees extend through the maturity of each respective underlying lease in September 2006. In the event the Company exercised its option not to purchase the aircraft for the remaining obligations at the scheduled maturity of the leases, the Company has guaranteed the majority of the residual values, not to exceed \$53 million in aggregate. The Company has recorded a liability equal to the fair value of the guarantee of approximately \$6 million within other noncurrent liabilities and a corresponding amount within other noncurrent assets in the Consolidated Statement of Financial Position relating to the Company's obligation under the guarantees. These amounts are being amortized over the life of the guarantees.

**8. Product Warranties**

The Company provides warranties to certain of its customers depending upon the specific product and terms of the customer purchase agreement. Most of the Company's product warranties are customer specific. A typical warranty program requires replacement of defective products within a specified time period from the date of sale. The Company records an estimate for future warranty-related costs based on actual historical return rates. Based on analysis of return rates and other factors, the warranty provisions are adjusted as necessary. While warranty costs have historically been within calculated estimates, it is possible that future warranty costs could exceed those estimates. The Company's product warranty liability is included in other current liabilities in the Consolidated Statement of Financial Position.

The changes in the carrying amount of the total product warranty liability for the nine-month period ended June 30, 2004 were as follows:

(in millions)	
Balance as of September 30, 2003*	\$ 85.2
Accruals for warranties issued during the period	28.1
Accruals related to pre-existing warranties (including changes in estimates)	(11.4)
Settlements made (in cash or in kind) during the period	(30.4)
Currency translation	0.9
	<hr/>
Balance as of June 30, 2004	\$ 72.4
	<hr/>

\* Adjusted to conform to current account classifications.

**Table of Contents****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS****(unaudited)****9. Inventories**

Inventories are valued at the lower of cost or market. Cost is determined using the last-in, first-out (LIFO) method for most inventories at domestic locations. The cost of other inventories is determined on the first-in, first-out (FIFO) method. Finished goods and work-in-process inventories include material, labor and manufacturing overhead costs. Inventories were comprised of the following:

(in millions)	<b>June 30, 2004</b>	<b>September 30, 2003</b>	<b>June 30, 2003</b>
Raw materials and supplies	\$467.5	\$435.5	\$428.1
Work-in-process	117.1	105.8	139.5
Finished Goods	320.9	310.9	339.0
	<hr/>	<hr/>	<hr/>
FIFO Inventories	905.5	852.2	906.6
LIFO reserve	(26.8)	(26.3)	(29.0)
	<hr/>	<hr/>	<hr/>
Inventories	\$878.7	\$825.9	\$877.6
	<hr/>	<hr/>	<hr/>

**10. Comprehensive Income**

A summary of comprehensive income is shown below:

(in millions)	<b>Three months ended June 30,</b>		<b>Nine months ended June 30,</b>	
	<b>2004</b>	<b>2003</b>	<b>2004</b>	<b>2003</b>
Net income	\$222.3	\$190.0	\$544.5	\$462.6
Unrealized losses on securities				(11.1)
Realized and unrealized (losses) gains on derivatives	(0.5)	7.5	2.6	4.6
Foreign currency translation adjustments (CTA)	(61.2)	134.8	121.8	225.4
	<hr/>	<hr/>	<hr/>	<hr/>
Other comprehensive (loss) income	(61.7)	142.4	124.4	218.9
	<hr/>	<hr/>	<hr/>	<hr/>
Comprehensive income	\$160.6	\$332.4	\$668.9	\$681.4
	<hr/>	<hr/>	<hr/>	<hr/>

The lower foreign currency translation adjustments (CTA) for the three months ended June 30, 2004 was primarily due to the approximate 2% decrease in the euro compared to an approximate 8% increase in the euro for the same period a year ago. CTA for the nine months ended June 30, 2004 was lower primarily due to the approximate 5% year-over-year increase in the euro compared to an approximate 12% year-over-year increase in the euro for the same period a year ago.

The Company has foreign currency-denominated debt obligations and cross-currency interest rate swaps which are designated as hedges of net investments in foreign subsidiaries. Gains and losses, net of tax, attributable to these hedges are deferred as CTA within the accumulated other comprehensive income (loss) account. Net gains of approximately \$13 million and net losses of approximately \$36 million were recorded for the three-month periods ending June 30, 2004 and 2003, respectively. Net losses of approximately \$31 million and \$71 million were recorded for the nine-month periods ending June 30, 2004 and 2003, respectively.

**Table of Contents****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS****(unaudited)****11. Segment Information**

The Company has two operating segments, the Automotive Group and the Controls Group, which also constitute its reportable segments. The Automotive Group designs and manufactures products for motorized vehicles. The segment supplies interior systems and batteries for cars, light trucks and vans. The Controls Group provides facility systems and services including comfort, energy and security management for the non-residential buildings market.

Management's evaluation of the performance of the Company's segments excludes significant restructuring costs and other significant non-recurring gains or losses. As such, the restructuring costs (see Note 13) and the pension gain (see Note 15) recorded in the second quarter of fiscal year 2004 were excluded from management's evaluation of segment performance. Financial information relating to the Company's reportable segments was as follows:

	<b>Three Months Ended June 30,</b>		<b>Nine Months Ended June 30,</b>	
	<b>2004</b>	<b>2003</b>	<b>2004</b>	<b>2003</b>
(in millions)				
<b><u>Sales</u></b>				
Automotive Group	\$5,272.0	\$4,544.6	\$15,349.6	\$12,617.4
Controls Group	1,520.3	1,415.3	4,446.9	4,028.9
	<u>          </u>	<u>          </u>	<u>          </u>	<u>          </u>
Consolidated sales	\$6,792.3	\$5,959.9	\$19,796.5	\$16,646.3
	<u>          </u>	<u>          </u>	<u>          </u>	<u>          </u>
<b><u>Operating Income</u></b>				
Automotive Group (1)	\$ 286.4	\$ 243.7	\$ 697.1	\$ 611.1
Controls Group (2)	78.3	72.6	188.3	190.4
	<u>          </u>	<u>          </u>	<u>          </u>	<u>          </u>
Total segment operating income	364.7	316.3	885.4	801.5
Restructuring costs			(82.4)	
Pension gain			84.4	
	<u>          </u>	<u>          </u>	<u>          </u>	<u>          </u>
Consolidated operating income	\$ 364.7	\$ 316.3	\$ 887.4	\$ 801.5
	<u>          </u>	<u>          </u>	<u>          </u>	<u>          </u>

- (1) Automotive Group operating income for the nine months ended June 30, 2004 excludes \$69.1 million of restructuring costs and a pension gain of \$84.4 million, both of which are included within Selling, general and administrative expenses in the Consolidated Statement of Income.

- (2) Controls Group operating income for the nine months ended June 30, 2004 excludes \$13.3 million of restructuring costs included within Selling, general and administrative expenses in the Consolidated Statement of Income.

Total assets of the Automotive Group increased approximately \$860 million from the \$10.2 billion balance at fiscal year-end. The increase was primarily attributable to the strengthening of the euro from September 30, 2003 to June 30, 2004 and capital expenditures in the current year.

**Table of Contents**

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**  
**(unaudited)**

**12. Income Taxes**

The provision for income taxes is determined by applying an estimated annual effective income tax rate to income before income taxes. The rate is based on the most recent annualized forecasts of pretax income, permanent book/tax differences and tax credits. It also includes the effect of any valuation allowance expected to be necessary at the end of the year. The Company's estimated annual effective tax rate declined to 29% from 31% for the prior year due to continuing global tax planning initiatives. The fiscal 2004 first quarter and the year-to-date rate further benefited from a \$17 million favorable tax settlement related to prior periods (1991-1996), resulting in an effective tax rate for the first nine months of the current year of 26.9%.

The Company's Federal income tax returns and certain foreign income tax returns for fiscal years 1997-2001 are currently under various stages of audit by the Internal Revenue Service (IRS) and respective foreign tax authorities. Although the outcome of tax audits is always uncertain, management believes that its annual tax provisions include amounts sufficient to pay assessments, if any, that may be proposed by the taxing authorities. Nonetheless, the amounts ultimately paid, if any, upon resolution of the issues raised by the IRS may differ materially from the amounts accrued for each year. Company management expects that final resolution of these tax audits will occur over the next twelve months.

**13. Restructuring Costs**

In the second quarter of fiscal year 2004, the Company executed a restructuring plan involving cost structure improvement actions and recorded an \$82.4 million restructuring charge included within Selling, general and administrative (SG&A) expenses in the Consolidated Statement of Income. These costs primarily relate to workforce reductions of approximately 1,500 employees in the Automotive Group and 470 employees in the Controls Group. In addition, four Automotive Group plants will be consolidated. Through June 30, 2004 approximately 760 employees from the Automotive Group and approximately 400 employees from the Controls Group have departed from the Company. Employee severance and termination benefits are paid over the severance period granted to each employee and on a lump sum basis when required in accordance with individual severance agreements. A significant portion of the Automotive Group actions are concentrated in Europe as the Company focuses on significantly improving profitability in the region in future years. The Controls Group restructuring actions involve activities in both North America and Europe. No further costs related to these specific actions are anticipated. The majority of the restructuring activities are expected to be completed within one year.

**Table of Contents****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS****(unaudited)**

The following table summarizes the Company's restructuring reserve, included within other current liabilities in the Consolidated Statement of Financial Position:

(in millions)	<b>Original Reserve</b>	<b>Utilized</b>		<b>Balance at June 30, 2004</b>
		<b>Cash</b>	<b>Noncash</b>	
Employee severance and termination benefits	\$74.6	\$(23.4)	\$	\$ 51.2

Other	0.7	(0.7)		
Currency translation	—	—	(0.4)	(0.4)
	<b>\$82.4</b>	<b>\$(24.1)</b>	<b>\$(7.5)</b>	<b>\$ 50.8</b>

See Note 11 for restructuring charges associated with each of the Company's operating segments.

**14. Retirement Plans**

The components of the Company's net periodic benefit costs associated with its defined benefit pension plans and other postretirement health and other benefits are shown in the tables below in accordance with SFAS No. 132 (revised 2003), Employers' Disclosures about Pensions and Other Postretirement Benefits, an amendment of FASB Statements No. 87, 88 and 106 :

(in millions)	<b>Pension</b>							
	<b>U.S. Plans Three Months Ended June 30,</b>		<b>Non-U.S. Plans Three Months Ended June 30,</b>		<b>U.S. Plans Nine Months Ended June 30,</b>		<b>Non-U.S. Plans Nine Months Ended June 30,</b>

Recognition of unrealized loss associated with transfer of Japanese pension obligation							1.2	
Net periodic benefit cost*	\$ 11.0	\$ 8.4	\$10.1	\$ 9.0	\$ 33.0	\$ 25.2	\$ 31.2	\$ 25.9

\* The net periodic benefit cost of the non-U.S. plans for the nine-month period ended June 30, 2004 excludes the non-cash Japanese pension settlement gain of \$85.6 million recorded in the second quarter of fiscal 2004 (see Note 15).

The Company anticipates contributing approximately \$35 million to the pension plans during fiscal 2004 after considering the impact of the Pension Funding Equity Act of 2004. Of this amount, approximately \$30 million has been contributed through June 30, 2004.

**Table of Contents****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS****(unaudited)**

(in millions)	<b>Postretirement Health and Other Benefits</b>			
	<b>Three Months Ended June 30,</b>		<b>Nine Months Ended June 30,</b>	
	<b>2004</b>	<b>2003</b>	<b>2004</b>	<b>2003</b>

Net periodic benefit cost	<b>\$ 3.8</b>	<b>\$ 3.6</b>	<b>\$11.4</b>	<b>\$10.8</b>

**15. Japanese Pension Settlement Gain**

During the second quarter of fiscal 2004, the Company recorded a pension gain related to certain of the Company's Japanese pension plans established under the Japanese Welfare Pension Insurance Law. In accordance with recent amendments to this law, the Company completed the transfer of certain pension obligations and related plan assets to the Japanese government which resulted in a non-cash settlement gain of \$84.4 million, net of \$1.2 million associated with the recognition of unrecognized actuarial losses, recorded within SG&A expenses in the Consolidated Statement of Income. The excess of benefit obligations over plan assets (funded status) of the Company's non-U.S. pension plans decreased \$85.6 million as a result of the transfer.

**16. Contingencies**

The Company is involved in a number of proceedings involving environmental matters. Although it is difficult to estimate the liability related to these environmental matters, the Company believes that these matters will not have a materially adverse effect upon its capital expenditures, earnings or competitive position.

Additionally, the Company is involved in a number of product liability and various other suits incident to the operation of its businesses. Insurance coverages are maintained and estimated costs are recorded for claims and suits of this nature. It is management's opinion that none of these will have a materially adverse effect on the Company's financial position, results of operations or cash flows.

**17. Stock Split**

On November 19, 2003, the Company's Board of Directors declared a two-for-one split of the Company's common stock payable January 2, 2004 to shareholders of record on December 12, 2003. All prior year share and per share amounts disclosed in this document have been restated to reflect the two-for-one stock split. The stock split

resulted in the issuance of approximately 90.5 million additional shares of common stock. In connection with the stock split, the par value of the common stock was changed from \$.16  $\frac{2}{3}$  per share to \$.04  $\frac{1}{6}$  per share.

15

---

**Table of Contents**

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

**(unaudited)**

**18. Bond Redemption**

In the third quarter of fiscal 2004, the Company redeemed in full \$125 million of outstanding principal of its 8.2% bonds due in 2024, plus accrued interest. The Company paid a call premium of 4.1%, approximating \$5.1 million, to redeem the outstanding bonds. The redemption was funded with short-term borrowings. The call premium and the expense associated with the remaining portion of unamortized debt issuance costs resulted in a pre-tax charge of approximately \$6.0 million included within miscellaneous-net in the Consolidated Statement of Income.

**19. Accounting Change**

In December 2003, the Medicare Prescription Drug, Improvement and Modernization Act of 2003 (the Act) introduced a prescription drug benefit under Medicare, as well as, a federal subsidy to sponsors of retiree health care benefit plans. In January 2004, the FASB issued FASB Staff Position ( FSP ) No. FAS 106-1, Accounting and Disclosure Requirements Related to the Medicare Prescription Drug, Improvement and Modernization Act of 2003. This FSP permits a sponsor of a postretirement health care plan that provides a prescription drug benefit to make a one-time election to defer accounting for the effects of the Act if there is insufficient data, time or guidance available to ensure appropriate accounting. The Company is a sponsor of postretirement health care plans that provide prescription drug benefits. In accordance with the one-time election under FAS 106-1, the Company elected to defer accounting for the Act. In May 2004, the FASB issued FSP No. FAS 106-2 to address the accounting and disclosure requirements related to the Act. The FSP is effective for the Company beginning with its fourth quarter ending September 30, 2004. The Company is currently evaluating the effect of the Act on its financial statements.

**20. Subsequent Event**

On July 19, 2004, the Company announced that it will acquire 100% ownership of its battery joint venture with Grupo IMSA, S.A. de C.V. (Grupo IMSA). The Company will pay approximately \$525 million, including the assumption of debt, for the remaining 51% interest in the joint venture. The transaction, which is subject to regulatory approvals, is expected to be completed in the fall of 2004. The acquisition is anticipated to provide incremental annual revenue to the Company of approximately \$250 million and to be accretive to its earnings in fiscal 2005. The investment is expected to be initially funded with short-term debt. Grupo IMSA is the leading automotive battery producer in Mexico and South America. Management believes the acquisition is in line with the Company's growth strategies and provides new opportunities to strengthen the Company's global leadership position in the automotive battery industry.

**Report of Independent Registered Public Accounting Firm**

To the Board of Directors and Shareholders  
of Johnson Controls, Inc.

We have reviewed the accompanying condensed consolidated statements of financial position of Johnson Controls, Inc. and its subsidiaries as of June 30, 2004 and 2003, and the related consolidated statements of income and cash flows for each of the three- and nine-month periods ended June 30, 2004 and 2003. These interim financial statements are the responsibility of the Company's management.

We conducted our review in accordance with the standards of the Public Company Accounting Oversight Board (United States). A review of interim financial information consists principally of applying analytical procedures and making inquiries of persons responsible for financial and accounting matters. It is substantially less in scope than an audit conducted in accordance with the standards of the Public Company Accounting Oversight Board, the objective of which is the expression of an opinion regarding the financial statements taken as a whole. Accordingly, we do not express such an opinion.

Based on our review, we are not aware of any material modifications that should be made to the accompanying consolidated interim financial statements for them to be in conformity with accounting principles generally accepted in the United States of America.

We previously audited in accordance with the standards of the Public Company Accounting Oversight Board (United States), the consolidated statement of financial position as of September 30, 2003, and the related consolidated statements of income, shareholders' equity, and cash flows for the year then ended (not presented herein), and in our report dated October 21, 2003 we expressed an unqualified opinion on those consolidated financial statements. In our opinion, the information set forth in the accompanying condensed consolidated statement of financial position as of September 30, 2003, is fairly stated in all material respects in relation to the consolidated statement of financial position from which it has been derived.

**Table of Contents****ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS****Comparison of Operating Results for the Three-Month Periods ended June 30, 2004 and June 30, 2003***Sales*

The Company's net sales for the three-month periods ended June 30, 2004 and 2003 were as follows:

(in millions)	<b>2004</b>	<b>2003</b>	<b>% change</b>
Automotive Group	\$5,272.0	\$4,544.6	16%
Controls Group	1,520.3	1,415.3	7%
Consolidated sales	\$6,792.3	\$5,959.9	14%

Consolidated net sales in the three-month period ended June 30, 2004 grew to \$6.8 billion, 14% above the comparable period in the prior year. Excluding the effects of currency translation, current quarter sales rose 11%. The growth reflects an increase in market share achieved by both the Automotive Group and the Controls Group.

*Automotive Group*

Sales in the third quarter of fiscal 2004 rose 16% over the prior year period, reaching \$5.3 billion. Excluding the impact of currency translation, segment sales were up 13%.

The segment's North American sales increased 7% over the prior year period. Interior systems sales in North America grew 7%, compared with only a slight increase in North American light vehicle production in the period. The Company's growth in comparison to the industry production reflects involvement with popular platforms and new interior systems business. Battery sales in North America were up 10%. While unit shipments of automotive batteries approximated the prior year level, sales were above the prior year due to pass-through pricing of higher lead costs in the current quarter.

European segment sales rose 28% from the comparable prior year period. Interior systems sales, excluding the impact of currency translation and acquisitions, grew 19% above an estimated slight increase in European light vehicle production. The favorable performance reflects the launch of new business and the Company's involvement in platforms where demand year-over-year was above the industry average. European battery sales, excluding the impact of currency translation, were up 18% over the prior year period largely due to an 8% increase in unit shipments in comparison to the prior year.

Segment sales in Asia and South America, which represent less than 10% of total segment sales, were higher primarily reflecting increased volumes in the Pacific Rim and South America.

*Controls Group*

Third quarter sales of \$1.5 billion were 7% above the prior year period. Excluding the impact of currency translation, Controls Group sales grew 5%.

**Table of Contents**

Sales in North America were up 5% over the prior year period, primarily the result of a 5-10% increase in service sales. Lower facility management service activity with the federal government was outweighed by new commercial facility management business. Sales of installed systems to the construction market were higher in the current quarter but were slightly offset by lower systems renovation work.

European sales, excluding the impact of currency translation, increased 5% above the prior year. While all lines of business contributed to the growth, sales of installed systems to the construction market were quite strong, despite the region's weak new construction market.

Sales in the Asian markets, which represent less than 10% of segment revenue, were higher in comparison to the prior year, due to increased installed systems activity in Japan, additional technical service business in the Pacific Rim and the positive impact of foreign currency translation.

***Operating Income***

The Company's operating income for the three-month periods ended June 30, 2004 and 2003 was as follows:

(in millions)	<b>2004</b>	<b>2003</b>	<b>% change</b>
Automotive Group	\$286.4	\$243.7	18%
Controls Group	78.3	72.6	8%
Consolidated operating income	\$364.7	\$316.3	15%

**Automotive Group**

Automotive Group operating income in the third quarter was \$286 million, an increase of 18% over the prior year period. The segment's gross profit in North America was comparable to the prior year quarter reflecting lower volumes of the Company's more mature vehicle programs combined with increased launch costs and higher steel costs. Lead pass-through price increases combined with operational efficiencies in the North American automotive battery business offset the higher lead costs in the current quarter. Gross profit in Europe was up considerably over the prior year quarter, largely attributable to performance improvements within the interior systems business. Additional benefits were from higher volumes of both interior systems and automotive batteries and continued integration savings resulting from the consolidation of the Company's two recently acquired German battery companies. These benefits were partially offset by higher launch costs associated with the execution of new interior systems business and higher lead costs. Selling, general and administrative (SG&A) expenses in the quarter were up mainly due to lower engineering recoveries in North America, increased pension and health care costs and the impact of currency translation.

**Controls Group**

Operating income was \$78 million in the third quarter of fiscal 2004, 8% above the prior year period. Gross profit in North America was comparable to the prior year quarter. The benefits of higher volumes and new commercial facility management contracts in the current period were virtually offset by lower gross margin percentages associated with the installed systems business reflecting a competitive new construction environment. European gross profit was up over the prior year period primarily reflecting higher

**Table of Contents**

volumes in the installed systems and technical service lines of business. SG&A expenses in the current quarter were comparable with the prior year period despite higher pension and health care costs and the impact of currency translation.

***Other Income/Expense***

Net interest expense in the third quarter of fiscal 2004 was approximately \$2 million lower year-over-year primarily due to a higher level of capitalized interest in the current period due to a higher level of capital spending. Equity income in the third quarter of the current year was approximately \$4 million above the prior year quarter, reflecting growth in the Automotive Group's North American and Chinese joint ventures. In addition, the Company received approximately \$36 million of dividends from its Automotive Chinese joint ventures in the current quarter.

Miscellaneous net expense in the current quarter was approximately \$10 million above the prior year period. The increase primarily reflects approximately \$6 million of expense associated with the bond redemption (see Note 18) and higher net currency losses in the current quarter in contrast to the prior year period.

***Provision for Income Taxes***

The Company's effective income tax rate for the third quarter of fiscal 2004 was 29.0% compared with 31.0% for the prior year period. The decrease was due to global tax planning initiatives.

***Minority Interests in Net Earnings of Subsidiaries***

Minority interests in net earnings of subsidiaries in the third quarter of fiscal 2004 were approximately \$5 million above the prior year, mainly due to higher earnings at certain Automotive Group joint ventures in North America.

***Net Income***

Net income for the three-month period ended June 30, 2004 was \$222 million, 17% above the prior year. The increased earnings were a result of higher operating income, lower net interest expense, higher equity earnings and a lower effective income tax rate, partially offset by higher miscellaneous-net expenses and minority interests in net earnings of subsidiaries. Diluted earnings per share for the three months ended June 30, 2004 were \$1.15, up 15% from \$1.00 in the same period one year ago. The prior year per share amount has been restated to reflect a two-for-one stock split effective January 2, 2004 (see Note 17).

**Comparison of Operating Results for the Nine-Month Periods ended June 30, 2004 and June 30, 2003**

In the second quarter of fiscal 2004, the Company recorded an \$84.4 million non-cash pension gain (see Note 15) within SG&A expenses in the Consolidated Statement of Income. Also included within SG&A expenses in the same quarter of the current year were \$82.4 million of restructuring costs (see Note 13). Management's evaluation of the performance of the Company's segments excludes significant restructuring costs and other

**Table of Contents**

significant non-recurring gains or losses. As such, the restructuring costs and the pension gain were excluded from management's evaluation of segment performance. Accordingly, the segment operating results for the nine-month period ended June 30, 2004 discussed below exclude the pension gain and restructuring costs recorded in the second quarter of fiscal 2004.

***Sales***

The Company's net sales for the nine-month periods ended June 30, 2004 and 2003 were as follows:

(in millions)	<b>2004</b>	<b>2003</b>	<b>% change</b>
Automotive Group	\$15,349.6	\$12,617.4	22%
Controls Group	4,446.9	4,028.9	10%
Consolidated sales	\$19,796.5	\$16,646.3	19%

Consolidated net sales in the first nine months of the current year were \$19.8 billion, rising 19% above the comparable prior year period. Excluding the impact of currency translation, current year sales grew 13% above the prior year level.

**Automotive Group**

Sales reached \$15.3 billion in the nine-month period ended June 30, 2004, a 22% increase above the prior year. Sales rose 14% excluding the impact of currency translation and acquisitions.

In North America, sales were up 13% over the same period one year ago. Despite the flat North American light vehicle production level in the period, sales of interior systems grew 14% above the prior year. The Company's strong growth reflects a high level of new interior systems business with a variety of automakers and involvement in platforms whose production levels exceeded the industry average. Automotive battery sales in North America increased 8% over the prior year period reflecting increased market share, higher volumes and pass-through of the higher lead costs in the current quarter.

Excluding the impact of currency translation and acquisitions, European segment sales grew 17% over the prior year. Sales of interior systems increased 17%, surpassing the flat European light vehicle production in the period. Favorable platform mix, higher volumes and the launch of several new platforms were the main factors in the region's favorable performance versus the industry production. European battery sales, excluding the impact of currency translation and acquisitions, increased 15% over the prior year period primarily due to a 20% increase in unit shipments year-over-year.

Sales in Asia and South America, which represent less than 10% of total segment revenues, were higher in comparison to the prior year period, principally the result of higher volumes in South America and new programs in the Pacific Rim.

**Controls Group**

Sales in the first nine months of fiscal 2004 were \$4.4 billion, a growth of 10% over the prior year. Excluding the

impact of currency translation, sales rose 5%.

**Table of Contents**

North American sales grew 8% over the first nine months of the prior year. Sales of installed systems were up 6%, with growth in both the construction and existing buildings markets. Sales of technical and facility management services were up 9% primarily driven by new contracts associated with the commercial facility management business.

European sales, excluding the impact of currency translation, were 1% above the same period one year ago. The increase principally represents growth of installed systems in the new construction market.

Sales in the Asian market, which represent less than 10% of segment revenue, were above the prior year, primarily due to increased facility management activities and the impact of foreign currency translation.

***Operating Income***

The Company's operating income for the nine-month periods ended June 30, 2004 and 2003 was as follows:

(in millions)	<b>2004</b>	<b>2003</b>	<b>% change</b>
Automotive Group (1)	\$697.1	\$611.1	14%
Controls Group (2)	188.3	190.4	-1%
Total segment operating income	885.4	801.5	
Restructuring costs	(82.4)		
Pension gain	84.4		
Consolidated operating income	\$887.4	\$801.5	11%

(1) Automotive Group operating income for the nine months ended June 30, 2004 excludes \$69.1 million of restructuring costs and a pension gain of \$84.4 million, both of which are included within SG&A expenses in the Consolidated Statement of Income.

(2) Controls Group operating income for the nine months ended June 30, 2004 excludes \$13.3 million of restructuring costs included within SG&A expenses in the Consolidated Statement of Income.

**Automotive Group**

The Automotive segment's operating income was \$697 million in the nine-month period ending June 30, 2004, 14% above the prior year period. In North America, gross profit was approximately level with the prior year. The benefits of new interior systems business and favorable warranty experience and operating efficiencies achieved in the battery business were offset by lower production schedules for the Company's more mature vehicle programs, increased launch costs and higher steel and lead costs. Gross profit in Europe was well above the prior year due to higher volumes of both interior systems and automotive batteries, performance improvements achieved by interior systems and the integration savings achieved within the battery business. These positives were partially offset by higher launch

costs associated with the execution of new business and increased lead costs. The segment's SG&A expenses were up over the prior year in virtually all regions due to higher engineering costs, increased pension and health care costs and the impact of currency translation.

**Table of Contents**

**Controls Group**

Operating income in the Controls Group for the first nine months of fiscal 2004 was \$188 million, down 1% from the prior year. In North America, gross profit was up. The benefit from higher volumes across all lines of business and new facility management business was slightly offset by lower gross margin percentages in the installed systems business due to the competitive new construction environment. In Europe, gross profit, excluding the impact of currency translation, was comparable with the prior year. SG&A expenses were higher worldwide resulting from investments in sales force additions in the technical service business, increased pension and health care costs and the impact of currency translation.

***Full Year Outlook***

Management's full-year consolidated sales outlook is estimated to be 14% to 16% over the prior year. For the Automotive Group, sales are expected to be 13% to 18% above the prior year. This outlook assumes North American and European light vehicle production levels will be flat to slightly higher in comparison to the prior year. Controls Group sales are projected to increase 10% to 12% above the prior year. The estimate anticipates double-digit growth in systems installation, technical services and facility management services in the commercial market through market share expansion.

The Company anticipates double-digit growth in consolidated operating income for 2004. For the Automotive Group, management expects the segment's full-year operating margin percentage to be level to slightly lower than the prior year. The Company anticipates that the benefit of operating improvement initiatives in Europe will result in a significantly higher operating margin percentage of approximately three percent for the full year, excluding the impact of restructuring costs recorded in the second quarter of fiscal 2004. However, the segment's operating margin is expected to be impacted by the stronger euro on consolidated margins and higher raw material costs. For the Controls Group, management expects operating margin as a percentage of sales to be slightly below the prior year level due to the impact of the stronger euro on consolidated margins and investments related to sales force additions in the technical service business.

Orders for installed control systems in the first nine months of the current year continue to be strongest from the domestic new construction and European existing buildings markets. Strong domestic new construction market sectors included education and health care.

The Controls Group backlog relates to its installed systems and technical service activity, accounted for using the percentage-of-completion method. At June 30, 2004, the unearned backlog to be executed within the next year was \$1.843 billion, 4% above the prior year level of \$1.778 billion.

***Restructuring Costs***

In the second quarter of fiscal 2004, the Company executed a restructuring plan involving cost structure improvement actions and recorded an \$82.4 million restructuring charge within SG&A expenses in the Consolidated Statement of Income. These costs primarily relate to workforce reductions and plant consolidations. A significant portion of the Automotive Group actions are concentrated in Europe as the Company focuses on significantly improving profitability in the region in the future years. The Controls Group

**Table of Contents**

restructuring activities are split between North America and Europe. The majority of the actions are expected to be completed within one year. No further costs related to these specific actions are anticipated. The cost savings associated with these restructuring activities will be substantially offset by the costs of the Company's ongoing cost reduction initiatives in the remainder of fiscal 2004.

***Japanese Pension Settlement Gain***

During the second quarter of fiscal 2004, the Company recorded a pension gain related to certain of the Company's Japanese pension plans established under the Japanese Welfare Pension Insurance Law. In accordance with recent amendments to this law, the Company completed the transfer of certain pension obligations and related plan assets to the Japanese government which resulted in a non-cash settlement gain of \$84.4 million, net of \$1.2 million associated with the recognition of unrecognized actuarial losses, recorded within SG&A expenses in the Consolidated Statement of Income. The Company's funded status of its non-U.S. pension plans increased \$85.6 million as a result of the transfer of these pension obligations and related plan assets.

***Other Income/Expense***

Net interest expense in the first nine months of fiscal 2004 was down approximately \$9 million from the prior year primarily due to higher levels of capitalized interest compared to the prior year and the current year's lower interest rate environment. Management expects net interest expense for fiscal year 2004 to be between \$105 and \$110 million. Equity income for the nine months ended June 30, 2004 increased approximately \$15 million year-over-year due to higher earnings at certain Automotive Group joint ventures in China resulting from strong revenue and earnings growth. Miscellaneous net expense in the first nine months of fiscal 2004 increased approximately \$22 million from the prior year period. The current year includes approximately \$6 million of expense associated with the bond redemption in the third quarter of fiscal 2004 (see Note 18). Last year's lower expense reflects a \$17 million gain related to the conversion and subsequent disposition of the Company's investment in Donnelly Corporation.

***Provision for Income Taxes***

The Company's effective income tax rate for the first nine months of fiscal 2004 was 26.9% compared with 31.0% for the prior year period. The decrease reflects global tax planning initiatives and a tax settlement of \$17 million received in the first quarter related to prior periods (1991-1996). The Company anticipates the fiscal year 2004 effective tax rate to be 29.0% (excluding the tax benefit related to the first quarter's favorable tax settlement) compared with 31.0% in fiscal year 2003 as a result of the Company's continued success of global tax planning initiatives.

The Company's Federal income tax returns and certain foreign income tax returns for fiscal years 1997-2001 are currently under various stages of audit by the Internal Revenue Service (IRS) and respective foreign tax authorities. Although the outcome of tax audits is always uncertain, management believes that its annual tax provisions include amounts sufficient to pay assessments, if any, that may be proposed by the taxing authorities. Nonetheless, the amounts ultimately paid, if any, upon resolution of the issues raised by the IRS may differ materially from the amounts accrued for each year. Company management expects that final resolution of these tax audits will occur over the next twelve months.

**Table of Contents**

***Minority Interests in Net Earnings of Subsidiaries***

Minority interests in net earnings of subsidiaries in the current year were approximately \$12 million above the prior year, primarily due to higher earnings at certain Automotive Group joint ventures in North America. Management's full-year estimate for minority interests in net earnings of subsidiaries is approximately \$75 to \$80 million. The increase is attributable to higher operating income anticipated at certain Automotive Group joint ventures.

***Net Income***

Net income for the nine months ended June 30, 2004 was \$545 million, 18% above the prior year's \$463 million. The increased earnings were a result of higher operating and equity income, reduced net interest expense and a lower effective income tax rate partially offset by increased miscellaneous-net expenses and higher minority interests in net earnings of subsidiaries. Diluted earnings per share for the nine months ended June 30, 2004 were \$2.83, up 16% from \$2.44 in the comparable prior year period. The prior year per share amount has been restated to reflect a two-for-one stock split effective January 2, 2004 (see Note 17).

**Comparison of Financial Condition**

***Working Capital and Cash Flow***

Working capital, excluding cash and debt, of \$454 million at June 30, 2004 was \$24 million lower than fiscal year-end and \$88 million higher than one year ago. The decrease from fiscal year-end reflects greater increases in accounts payable, accrued compensation and benefits and other current liabilities as well as a decrease in other current assets in comparison to the increases in accounts receivable and inventories from year-end. The increases in working capital, excluding cash and debt, from one year ago primarily relate to higher accounts receivable and lower other current liabilities partially offset by an increase in accounts payable.

Cash provided by operating activities was \$446 million and \$1.0 billion in the three- and nine-month periods ended June 30, 2004, respectively. In comparison to the three- and nine-month periods in the prior year, the current year amounts were \$318 million and \$653 million higher, respectively. The increases primarily relate to higher net income, the impact of a \$250 million pension contribution in the third quarter of fiscal 2003 and favorable changes in working capital compared to the prior year periods.

The Company uses cross-currency interest rate swaps and foreign denominated debt to hedge portions of its net investments in foreign operations. Certain of these swaps were renewed at their current market rate during the first quarter of the current year, with the Company paying \$143 million upon settlement. These payments are reflected as financing activities in the Consolidated Statement of Cash Flows.

**Table of Contents**

*Capital Expenditures*

In the third quarter of fiscal 2004, capital spending for property, plant and equipment was \$188 million, an increase of \$17 million from the comparable prior year period. For the nine months ended June 30, 2004, capital spending was \$623 million, up \$211 million from the prior year period. The higher spending in the current year was primarily due to the impact of currency translation, investments in current year launches and the timing of expenditures within the Automotive Group. Management's full year estimate for capital expenditures is approximately \$800 million.

*Capitalization*

Total capitalization of \$7.2 billion at June 30, 2004 included short-term debt of \$0.4 billion, long-term debt (including the current portion) of \$1.9 billion and shareholders' equity of \$4.9 billion. The Company's total capitalization was \$6.6 billion at both September 30, 2003 and June 30, 2003. Total debt as a percentage of total capitalization at June 30, 2004 was 32%, compared with 36% at fiscal year-end and 38% one year ago. The current year's decrease in the ratio of debt-to-total capitalization primarily reflects working capital improvements compared with the prior year and the current year impact of the strengthening of the euro on shareholders' equity.

On July 19, 2004, the Company announced that it will acquire 100% ownership of its battery joint venture with Grupo IMSA, S.A. de C.V. The Company will pay approximately \$525 million, including the assumption of debt, for the remaining 51% interest in the joint venture. The transaction, which is subject to regulatory approvals, is expected to be completed in the fall of 2004. The investment is expected to be initially funded with short-term debt (see Note 20).

In December 2003 the Company filed a \$1.5 billion universal shelf registration statement, under which the Company can issue a variety of debt and equity instruments, with the Securities and Exchange Commission effective March 26, 2004.

The Company is in compliance with all covenants and other requirements set forth in its credit agreements and indentures. The Company believes its capital resources and liquidity position at June 30, 2004 were adequate to meet projected needs. Requirements for working capital, capital expenditures, dividends and debt maturities will continue to be funded from operations, supplemented by short- and long-term borrowings, if required.

**Guarantees and Off-Balance Sheet Arrangements**

In the ordinary course of business, the Company utilizes accounts receivable factoring arrangements in countries where programs of this type are typical. Under these arrangements, the Company may sell certain of its trade accounts receivable to financial institutions. The arrangements, in virtually all cases, do not contain recourse provisions against the Company for its customers' failure to pay. At June 30, 2004 and September 30, 2003 the Company had sold \$155 million and \$131 million, respectively, of foreign currency trade accounts receivable. The Company's use of these arrangements has not been a material source of liquidity for the Company, and management does not consider these arrangements to be an important part of its future financing plans.

**Table of Contents**

**Cautionary Statements for Forward-Looking Information**

The Company has made forward-looking statements in this document that are subject to risks and uncertainties. Forward-looking statements include information concerning possible or assumed future risks and may include words such as believes, expects, anticipates, projects or similar expressions. For those statements, the Company cautions that numerous important factors, including industry vehicle production levels, U.S. dollar exchange rates and those discussed elsewhere in this document and in the Company's Form 8-K filing (dated January 7, 2004), could affect the Company's actual results and could cause its actual consolidated results to differ materially from those expressed in any forward-looking statement made by, or on behalf of, the Company.

**Other Financial Information**

The interim financial information included in this 10-Q Report has not been audited by PricewaterhouseCoopers LLP (PwC). In reviewing such information, PwC has applied limited procedures in accordance with professional standards for reviews of interim financial information. Accordingly, you should restrict your reliance on their reports on such information. PwC is not subject to the liability provisions of Section 11 of the Securities Act of 1933 for their reports on the interim financial information because such reports do not constitute reports or parts of the registration statements prepared or certified by PwC within the meaning of Sections 7 and 11 of the Securities Act of 1933.

**Table of Contents**

**ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK**

For the nine-month period ended June 30, 2004, the Company did not experience any adverse changes in market risk exposures that materially affect the quantitative and qualitative disclosures presented in the Company's Annual Report to Shareholders for the year ended September 30, 2003.

**ITEM 4. CONTROLS AND PROCEDURES**

As of the end of the period covered by this report, the Company's management, including the Chief Executive Officer and Chief Financial Officer, conducted an evaluation of the effectiveness of disclosure controls and procedures. Based upon that evaluation, the Chief Executive Officer and the Chief Financial Officer concluded that such disclosure controls and procedures were effective in alerting them on a timely basis to material information relating to the Company required to be included in the Company's periodic filings under the Exchange Act.

There have been no changes in the Company's internal controls over financial reporting, or in factors that could significantly affect internal controls over financial reporting, subsequent to the date of the evaluation.

**PART II. OTHER INFORMATION**

**ITEM 1. LEGAL PROCEEDINGS**

There have been no significant changes in status since the last Report.

**ITEM 2. CHANGES IN SECURITIES, USE OF PROCEEDS AND ISSUER PURCHASES OF EQUITY SECURITIES**

The Company has entered into an Equity Swap Agreement, dated as of March 18, 2004 (the "Swap Agreement"), with Citibank, N.A. ("Citibank"). The Company selectively uses equity swaps to reduce market risk associated with its Company stock-based compensation plans, such as its deferred compensation plans and stock appreciation rights. Citibank has advised the Company that, in connection with the Swap Agreement, Citibank may purchase shares of the Company's stock in the market or in privately negotiated transactions up to an amount equal to \$135 million in aggregate cost at any given time. Citibank has also advised the Company that as of June 30, 2004 it has purchased shares of the Company's stock in connection with the Swap Agreement. The Company is reporting those purchases in the table below, but in doing so the Company disclaims that Citibank is an "affiliated purchaser" of the Company as such term is defined in Rule 10b-18(a)(3) under the Securities Exchange Act or that Citibank is purchasing any shares for the Company. The expiration date of the Swap Agreement is not currently determinable.

The table below presents information pursuant to Item 703(a) of Regulation S-K regarding the repurchase of the Company's common stock by the Company and purchases of the Company's common stock by Citibank in connection with the Swap Agreement during the three months ended June 30, 2004. The repurchases of the Company's common stock by the Company relate solely to stock option and restricted stock transactions that are treated as involving repurchases of Company common stock for purposes of this disclosure.

**Total Number of                      Approximate Dollar**

<b>Period</b>	<b>Total Number of Shares Purchased</b>	<b>Average Price Paid per Share</b>	<b>Shares Purchased as Part of the Publicly Announced Program</b>	<b>Value of Shares that May Yet be Purchased under the Program(1)</b>
04/01/04 04/30/04				
Purchases by Company	1,273	\$58.95		
Purchases by Citibank				\$ 135,000,000
Total	1,273	\$58.95		\$ 135,000,000
05/01/04 05/31/04				
Purchases by Company				
Purchases by Citibank	1,700,000	\$52.35	1,700,000	\$ 46,005,000
Total	1,700,000	\$52.35	1,700,000	\$ 46,005,000
06/01/04 06/30/04				
Purchases by Company	2,147	\$54.29		
Purchases by Citibank				\$ 46,005,000
Total	2,147	\$54.29		\$ 46,005,000

(1) The dollar amounts in this column relate solely to the approximate dollar value of shares that may be purchased under the Swap Agreement as of the end of the period in question.

**ITEM 4. RESULTS OF VOTES OF SECURITY HOLDERS**

Reference is made to Item 4 of the Company's Quarterly Report on Form 10-Q for the quarter ended December 31, 2003 for a description of the results of votes of security holders at the Annual Meeting of Shareholders held January 28, 2004.

**ITEM 5. OTHER**

- (a) In May 2004, the Company's Board of Directors announced the election of the following executives as Corporate Officers:
- (i) Jeffrey S. Edwards also serves as Group Vice President and General Manager for North America and Japan for the Automotive Group's interiors business. Mr. Edwards has served Johnson Controls in a variety of automotive sales, manufacturing and engineering positions since joining the Company 20 years ago.
  - (ii) Alex A. Molinaroli also serves as Vice President and General Manager for the Americas for the Controls Group. Mr. Molinaroli has worked for Johnson Controls for 21 years and has held increasing levels of responsibility for controls systems and services sales and operations.
  - (iii) Gregg M. Sherrill also serves as Group Vice President and General Manager for the Automotive Group's battery business. Since joining

**Table of Contents**

Johnson Controls five years ago, Mr. Sherrill has also served in key interiors management positions in North America and Europe.

- (iv) Michael Devoy Su also serves as Vice President and Managing Director of the Asia Pacific region for the Controls Group. Mr. Su has been with Johnson Controls for 20 years, serving in various controls management positions in Asia and North America.

**ITEM 6. EXHIBITS AND REPORTS ON FORM 8-K**

- (a) Exhibits

Reference is made to the separate exhibit index contained on page 32 filed herewith.

- (b) The following Form 8-K s were filed from the date of the Company s Quarterly Report on Form 10-Q, filed May 6, 2004, or thereafter through the date of this report:
  - (i) The Company filed a Form 8-K on July 21, 2004 to announce that the Company will acquire 100% ownership of Grupo IMSA, S.A. de C.V., to report the Company s financial results for the third quarter of fiscal 2004 and to disclose the Company s slide presentation for the fiscal 2004 third quarter analyst conference call.
  - (ii) A Form 8-K was filed May 18, 2004 to announce that the Company will redeem in full the \$125 million of outstanding principal of its 8.2% bonds due in 2024.
