- Pre-commencement communications pursuant to Rule 14d-2(b) under the Exchange Act (17 CFR 240.14d-2(b))
- Pre-commencement communications pursuant to Rule 13e-4(c) under the Exchange Act (17 CFR 240-13e-4(c))

ITEM 7.01 REGULATION FD DISCLOSURE.

On September 27, 2005 Compass Minerals International, Inc. (the "Company") issued the attached press release (Exhibit 99.1) regarding the effects of

## Edgar Filing: COMPASS MINERALS INTERNATIONAL INC - Form 8-K

Hurricanes Katrina and Rita on its highway deicing business and the results of its highway deicing bid season.

The following provides an overview of the status of the Company's mine in Cote Blanche, Louisiana and the Company's current expectations:

- o The Company's mine in Cote Blanche, Louisiana was unharmed by the hurricanes. The mine was closed for several days, but is now operating normally.
- o Due to hurricane-related barge delays, the Company expects to decrease rock salt production at its Cote Blanche mine by 75,000 to 200,000 tons compared to its planned production for the 2005-2006 winter season.
- o Barring unexpected supply-chain disruptions, the Company currently anticipates that it will be able to meet its bid commitments for the upcoming season by adjusting its logistics strategy.
- o The volume of the Company's highway deicing bid awards for the 2005-2006 winter season is similar to its awards for the 2004-2005 season. Bid awards represent the customers' best estimates of their winter-season salt needs. Actual sales may vary substantially from bid awards. Compass sold 9.2 million tons of rock salt to North American highway deicing and industrial customers in 2004, which was a year with modestly above-average snowfall in the markets Compass serves.
- o The Company has completed approximately 95 percent of its bid process for the 2005-2006 winter season and, to date, has averaged an eight percent increase in its bid price per ton. The actual average price per ton-sold may vary depending on snowfall patterns. Due to the variability of potential sales volumes and average sales prices, the Company does not provide revenue forecasts.
- o The bid price includes the cost of transportation, and the Company currently estimates that increased diesel fuel and transportation costs will fully offset this year's bid price improvement.

In accordance with General Instruction B.2. of Form 8-K, the information included or incorporated in this report, including Exhibit 99.1, is being furnished to the Securities and Exchange Commission and shall not be deemed "filed" for purposes of Section 18 of the Securities Exchange Act of 1934, as amended, nor shall it be deemed incorporated by reference in any filing under the Securities Act of 1933, as amended.
