FIRST BUSEY CORPORATION and Subsidiaries
NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS

Note 1: Basis of Presentation

The consolidated interim financial statements of First Busey Corporation (the Corporation) and subsidiaries are unaudited, but in the opinion of management reflect all necessary adjustments, consisting only of normal recurring accruals, for a fair presentation of results as of the dates and for the periods covered by the financial statements. The consolidated financial statements have been prepared in accordance with accounting principles generally accepted within the United States of America for interim financial data and with the instructions to Form 10-Q and Article 10 of Regulation S-X. The results for the interim periods are not necessarily indicative of the results of operations that may be expected for the fiscal year.

In preparing the consolidated financial statements, the Corporation's management is required to make estimates and assumptions that affect the reported amounts of assets and liabilities as of the date of the financial statements and the reported amounts of revenues and expenses for the reporting period. Actual results could differ from those estimates.

Note 2: Recent Accounting Pronouncements

In March 2006, the Financial Accounting Standards Board (FASB) issued Statement No. 156, Accounting for Servicing of Financial Assets (SFAS No. 156), which requires all separately recognized servicing assets and liabilities to be initially measured at fair value, if practical. An entity can elect either to (1) subsequently measure servicing rights at fair value and report changes in fair value in earnings, or (2) continue the current practice of amortizing servicing rights in proportion to and over the expected period of servicing income or loss. This statement is effective for the Corporation's fiscal year beginning January 1, 2007. The Corporation is evaluating the impact of the statement on its financial position and results of operations.

In February 2006, the FASB issued Statement No. 155, Accounting for Certain Hybrid Financial Instruments an amendment to FASB Statements No. 133 and 140. (SFAS No. 155), which permits, but does not require, fair value accounting for any hybrid financial instrument that contains an embedded derivative that would otherwise require bifurcation in accordance with Statement No. 133, Accounting for Derivative Instruments and Hedging Activities (SFAS No. 133). The statement also subjects beneficial interests in securitized financial assets to the requirements of SFAS No. 133. This statement is effective for all financial instruments acquired, issued, or subject to remeasurement

after the beginning of the Corporation's fiscal year beginning January 1, 2007. The Corporation is evaluating the impact of the statement on its financial position and results of operations.

Table of Contents

In July 2006, the FASB issued FASB Interpretation No. 48, *Accounting for Uncertainty in Income Taxes* (FIN 48). FIN 48 clarifies the accounting and reporting for income taxes recognized in accordance with SFAS No. 109,

Accounting for Income Taxes. This Interpretation prescribes a comprehensive model for the financial statement recognition, measurement, presentation and disclosure of uncertain tax positions taken or expected to be taken in income tax returns. This interpretation is effective for the Corporation's fiscal year beginning January 1, 2007. The Corporation is evaluating the impact of the interpretation on its financial position and results of operations.

Note 3: Unrealized Losses on Investment Securities

Information pertaining to securities with gross unrealized losses as of June 30, 2006, aggregated by investment category and length of time that individual securities have been in continuous loss position follows:

	Continuous unrealized losses existing for less than 12 months		Continuous unrealized losses existing for greater than 12 months		Total	
	Fair Value	Unrealized Losses	Fair Value	Unrealized Losses	Fair Value	Unrealized Losses
(Dollars in thousands)						
June 30, 2006:						
U.S. Treasury securities and obligations of U.S. government corporations and agencies	\$ 112,458	\$ 591	\$ 80,281	\$ 913	\$ 192,739	\$ 1,504
Obligations of states and political subdivisions	43,688	1,235	12,823	438	56,511	1,673
Mortgage-backed securities	9,013	182	3,662	108	12,675	290
Corporate securities	2,082	51	808	35	2,890	86
Subtotal, debt securities	\$ 167,241	\$ 2,059	\$ 97,574	\$ 1,494	\$ 264,815	\$ 3,553
Mutual funds and other equity Securities	100	7	64	17	164	24
Total temporarily impaired Securities	\$ 167,341	\$ 2,066	\$ 97,638	\$ 1,511	\$ 264,979	\$ 3,577

Management evaluates securities for other-than-temporary impairment at least on a quarterly basis, and more frequently when economic or market concerns warrant such evaluation. Consideration is given to the length of time and extent to which the fair value has been less than cost, the financial condition and near-term prospects of the issuer, and the intent and ability of the Corporation to retain its investment in the issuer for a period of time sufficient to allow for any anticipated recovery in fair value.

Table of Contents**Note 4: Loans**

The major classifications of loans as of June 30, 2006 and December 31, 2005 were as follows:

	June 30, 2006	December 31, 2005
	(Dollars in thousands)	
Commercial	\$ 220,293	\$ 219,134
Real estate construction	393,389	345,454
Real estate farmland	11,095	10,188
Real estate 1-4 family residential mortgage	529,419	528,922
Real estate multifamily mortgage	114,954	104,502
Real estate non-farm nonresidential mortgage	507,895	470,779
Installment	39,824	45,702
Agricultural	21,303	23,433
	\$ 1,838,172	\$ 1,748,114
Plus net deferred loan costs	1,271	1,048
	1,839,443	1,749,162
Less:		
Allowance for loan losses	23,392	23,190
Net loans	\$ 1,816,051	\$ 1,725,972

The real estate 1-4 family residential mortgage category includes loans held for sale with carrying values of \$12,570,000 at June 30, 2006 and \$11,737,000 at December 31, 2005; these loans had fair market values of \$12,685,000 and \$11,877,000, respectively.

Changes in the allowance for loan losses were as follows:

	Six Months Ended June 30,	
	2006	2005
	(Dollars in thousands)	
Balance, beginning of year	\$ 23,190	\$ 19,217
Provision for loan losses	700	2,115
Recoveries applicable to loan balances previously charged off	82	153
Loan balances charged off	(580)	(366)
Balance, June 30	\$ 23,392	\$ 21,119

Table of Contents**Note 5: Earnings Per Share**

Net income per common share has been computed as follows:

	Three Months Ended June 30,		Six Months Ended June 30,	
	2006	2005	2006	2005
	(Dollars and shares in thousands, except per share amounts)			
Net income	\$ 7,035	\$ 6,276	\$ 13,902	\$ 12,812
Shares:				
Weighted average common shares outstanding	21,343	20,419	21,359	20,427
Dilutive effect of outstanding options as determined by the application of the treasury stock method	90	95	88	122
Weighted average common shares outstanding, as adjusted for diluted earnings per share calculation	21,433	20,514	21,447	20,549
Basic earnings per share	\$ 0.33	\$ 0.31	\$ 0.65	\$ 0.63
Diluted earnings per share	\$ 0.33	\$ 0.31	\$ 0.65	\$ 0.62

Note 6: Stock-based Compensation

First Busey Corporation has two stock-based employee compensation plans, which are described more fully in Note 16 of the Corporation's Annual Report on Form 10-K. Prior to January 1, 2006, the Corporation accounted for those plans under the recognition and measurement provision of APB Opinion No. 25, *Accounting for Stock Issued to Employees*, and related Interpretations, as permitted by FASB Statement No. 123, *Accounting for Stock-Based Compensation*. No stock-based employee compensation cost was recognized under the Corporation's Stock Option Plan in the Corporation's Consolidated Statements of Income prior to January 1, 2006, as all options granted under this plan had an exercise price equal to the market value of the underlying common stock on the date of grant.

Effective January 1, 2006, the Corporation adopted the fair value recognition provision of FASB Statement No. 123(R), *Share-Based Payment*, using the modified-prospective-transition method. Under that transition method, compensation cost recognized in the six-month period ended June 30, 2006, includes: (a) compensation cost for all share-based payments granted prior to, but not yet vested as of January 1, 2006, based on the grant date fair value estimated in accordance with the original provisions of Statement 123, and (b) compensation costs for all share-based payments granted subsequent to January 1, 2006, based on the grant-date fair value estimated in accordance with the provisions of Statement 123(R). Results for prior periods have not been restated.

Prior to the adoption of Statement 123(R), the Corporation presented all tax benefits of deductions resulting from the exercise of stock options as operating cash flows in the Consolidated Statements of Cash Flows. Statement 123(R) requires cash flows resulting from the tax benefits of tax deductions in excess of the compensation cost recognized for those options to be presented as financing cash flows. The Corporation had no material excess cash inflows during the six months ended June 30, 2006.

Table of Contents

The following table illustrates the effect on net income and earnings per share if the Corporation had applied the fair value recognition provisions of Statement 123 to options granted under the Corporation's stock option plan in all periods presented. For purposes of this pro forma disclosure, the value of the options is estimated using a Black-Scholes option-pricing formula and amortized to expense over the shorter of the optionees' service period or the options' vesting periods.

	Three Months Ended June 30,		Six Months Ended June 30,

Less Compensation Expense		0.01		
Diluted, pro forma	\$ 0.33	\$ 0.30	\$ 0.65	\$ 0.62

On April 25 and May 16, 2006, the Corporation granted options to non-employee directors and certain employees, respectively. The Corporation utilizes the weighted average assumptions in the following table to estimate the fair value of stock options at the date of grant using the Black-Scholes option-pricing model. These assumptions are consistent with the provisions of Statement 123(R) and the Corporation's prior period pro forma disclosures of net income and earnings per share, including stock option expense. Management reviews and adjusts the assumptions used to calculate the fair value of an option on a periodic basis to better reflect expected trends. The fair value of stock options will be expensed ratably over the service period or vesting period, whichever is short. Generally, option grants to non-employee directors are subject to a service period requirement that is shorter than the associated vesting schedule.

	Directors	Employees
Number of options granted	62,000	188,000
Exercise Price	\$ 20.71	\$ 20.16
Estimated forfeiture rate		8%

Edgar Filing: FIRST BUSEY CORP /NV/ - Form 10-Q

Risk-free interest rate	4.98%	4.99%
Expected life, in years	4.2	4.2
Expected volatility	11.3%	11.3%
Expected dividend yield	3.09%	3.17%
Estimated fair value per option	\$ 2.37	\$ 2.27

Table of Contents

A summary of the status of the Corporation's stock option plan for the six-month period ended June 30, 2006, and the changes during the period ended on that date is as follows:

	Shares	Weighted Average Exercise Price
Outstanding at January 1, 2006	625,925	\$ 17.67
Granted	250,000	20.30
Exercised	(5,325)	14.56
Forfeited	(1,850)	19.59
Outstanding at June 30, 2006	868,750	\$ 18.44

Exercisable at June 30, 2006	328,200	\$ 16.00
------------------------------	---------	----------

The following table summarizes information about stock options outstanding at June 30, 2006:

Exercise Prices	Number	Options Outstanding			Options Exercisable
		Weighted- Average Remaining Contractual Life	Exercise Date	Expiration Date	Number
\$ 14.56	220,200	4.47 years	Apr. 16, 2005	Dec. 16, 2010	220,200
18.07	54,000	2.46 years	Jan. 21, 2005	Dec. 15, 2008	54,000
19.59	290,550	3.21 years	Sept. 14, 2007	Sept. 14, 2009	
19.83	54,000	3.46 years	Jan. 21, 2006	Dec. 15, 2009	54,000
20.16	188,000	5.46 years	Jan. 26, 2009	Dec. 15, 2011	
20.71	62,000	5.46 years	Jan. 26, 2009	Dec. 15, 2011	
	868,750	4.15 years			328,200

Of the 868,750 options the Corporation has outstanding, 290,550 and 250,000 become exercisable on September 14, 2007 and January 26, 2009, respectively. The Corporation will recognize compensation expense of approximately \$247,000 and \$170,000 in 2006 and 2007, before income tax effects, respectively, related to the options becoming exercisable in 2007. Compensation expense recognition of approximately \$196,000, \$190,000, \$147,000 and \$6,000 will occur in 2006 through 2009, before income tax effect, respectively, related to the options becoming exercisable in 2009.

Note 7: Junior Subordinated Debt Owed to Unconsolidated Trusts

First Busey Corporation has established statutory trusts for the sole purpose of issuing trust preferred securities and related trust common securities. The proceeds from such issuances were used by the trusts to purchase junior subordinated notes of the Corporation, which are the sole assets of each trust. Concurrent with the issuance of the trust preferred securities, the Corporation issued guarantees for the benefit of the holders of the trust preferred securities. The trust preferred securities are issues that qualify, and are treated by the Corporation, as Tier I regulatory capital. The Corporation owns all of the common securities of each trust. The trust preferred securities issued by each trust

rank equally with the common securities in right of payment, except that if an event of default under the indenture governing the notes has occurred and is continuing, the preferred securities will rank senior to the common securities in right of payment.

Table of Contents

The table below summarizes the outstanding junior subordinated notes and the related trust preferred securities issued by each trust as of June 30, 2006:

	First Busey Statutory Trust II	First Busey Statutory Trust III	First Busey Statutory Trust IV
Junior Subordinated Notes:			
Principal balance	\$ 15,000,000	\$ 10,000,000	\$ 30,000,000
Annual interest rate	3-mo LIBOR + 2.65%	3-mo LIBOR + 1.75%	6.94 %
Stated maturity date	June 17, 2034	June 15, 2035	June 15, 2036
Call date	June 17, 2009	June 15, 2010	June 15, 2011
Trust Preferred Securities:			
Face value	\$ 15,000,000	\$ 10,000,000	\$ 30,000,000
Annual distribution rate ⁽¹⁾	3-mo LIBOR + 2.65%	3-mo LIBOR + 1.75%	6.94%
Issuance date	April 30, 2004	June 15, 2005	June 15, 2006
Distribution dates ⁽²⁾	Quarterly	Quarterly	Quarterly

(1) First Busey Statutory Trust IV maintains a 5-year fixed coupon of 6.94%, subsequently converting to a floating 3-month LIBOR +1.55%.

(2) All cash distributions are cumulative

The trust preferred securities are subject to mandatory redemption, in whole or in part, upon repayment of the junior subordinated notes at par value at the stated maturity date or upon redemption of the junior subordinated notes on a date no earlier than June 17, 2009, for First Busey Statutory Trust II, June 15, 2010, for First Busey Statutory Trust III, and June 15, 2011, for First Busey Statutory Trust IV. Prior to these respective redemption dates, the junior subordinated notes may also be redeemed by the Corporation (in which case the trust preferred securities would also be redeemed) after the occurrence of certain events that would have a negative tax effect on the Corporation or the trusts, would cause the trust preferred securities to no longer qualify for Tier 1 capital, or would result in a trust being treated as an investment company. Each trust's ability to pay amounts due on the trust preferred securities is solely dependent upon the Corporation making payment on the related junior subordinated notes. The Corporation's obligations under the junior subordinated notes and other relevant trust agreements, in aggregate, constitute a full and unconditional guarantee by the Corporation of each trust's obligations under the trust preferred securities issued by each trust. The Corporation has the right to defer payment of interest on the notes and, therefore, distributions on the trust preferred securities, for up to five years, but not beyond the stated maturity date in the table above.

On April 25, 2006, the Corporation's board of directors approved redemption of the trust preferred securities issued by First Busey Capital Trust I. These securities were redeemed at par value on June 19, 2006, plus accrued but unpaid distributions. The Corporation received regulatory approval and established a new series of preferred securities in an aggregate principal amount of \$30,000,000 as part of a pooled trust preferred program, First Busey Statutory Trust IV. The proceeds of the new issue were used to redeem the securities of First Busey Capital Trust I and to repay certain outstanding indebtedness of the Corporation.

In March, 2005, the Board of Governors of the Federal Reserve System issued a final rule allowing bank holding companies to continue to include qualifying trust preferred securities in their Tier I Capital for regulatory capital purposes, subject to a 25% limitation to all core (Tier I) capital elements, net of goodwill less any associated deferred tax liability. The final rule provides a five-year transition period, ending March 31, 2009, for applications of the aforementioned quantitative limitation. As of June 30, 2006, 100% of the trust preferred securities noted in the table above qualified as Tier I capital under the final rule adopted in March, 2005.

Note 8: Outstanding Commitments and Contingent Liabilities

The Corporation and its subsidiaries are parties to legal actions which arise in the normal course of their business activities. In the opinion of management, the ultimate resolution of these matters is not expected to have a material effect on the financial position or the results of operations of the Corporation and its subsidiaries.

Table of Contents

As of June 30, 2006, Busey Bank N.A. has entered into a contractual commitment for the construction of a new branch location in Cape Coral, Florida. Total commitment for the project is approximately \$2,674,000. As of June 30, 2006, \$552,000 remains outstanding under the contract. Construction of this branch location is expected to be completed during the third quarter of 2006.

The Corporation and its subsidiaries are parties to credit related financial instruments with off-balance-sheet risk in the normal course of business to meet the financing needs of its customers. These financial instruments include commitments to extend credit and standby letters of credit. Those instruments involve, to varying degrees, elements of credit and interest rate risk in excess of the amount recognized in the consolidated balance sheets.

The Corporation and its subsidiaries' exposure to credit loss are represented by the contractual amount of those commitments. The Corporation and its subsidiaries use the same credit policies in making commitments and conditional obligations as it does for on-balance-sheet instruments. A summary of the contractual amount of the Corporation's exposure to off-balance-sheet risk follows:

	June 30, 2006	December 31, 2005
	(Dollars in thousands)	
Financial instruments whose contract amounts represent credit risk:		
Commitments to extend credit	\$515,470	\$ 559,847
Standby letters of credit	12,135	12,567

Commitments to extend credit are agreements to lend to a customer as long as no condition established in the contract has been violated. These commitments are generally at variable interest rates and generally have fixed expiration dates or other termination clauses and may require payment of a fee. The commitments for equity lines of credit may expire without being drawn upon. Therefore, the total commitment amounts do not necessarily represent future cash requirements. The amount of collateral obtained, if it is deemed necessary by the Corporation upon extension of credit, is based on management's credit evaluation of the customer.

Standby letters of credit are conditional commitments issued by the Corporation to guarantee the performance of a customer to a third party. Those guarantees are primarily issued to support public and private borrowing arrangements, including bond financing and similar transactions and primarily have terms of one year or less. The credit risk involved in issuing letters of credit is essentially the same as that involved in extending loan facilities to customers. The Corporation holds collateral, which may include accounts receivable, inventory, property and equipment, income producing properties, supporting those commitments if deemed necessary. In the event the customer does not perform in accordance with the terms of the agreement with the third party, the corporation would be required to fund the commitment. The maximum potential amount of future payments the Corporation could be required to make is represented by the contractual amount shown in the summary above. If the commitment is funded, the Corporation would be entitled to seek recovery from the customer. As of June 30, 2006, and December 31, 2005, no amounts were recorded as liabilities for the Corporation's potential obligations under these guarantees.

As of June 30, 2006, the Corporation has no futures, forwards, swaps or option contracts, or other financial instruments with similar characteristics with the exception of rate lock commitments on mortgage loans to be held for sale.

Note 9: Business Combination

On July 29, 2005, First Busey Corporation acquired all the outstanding common stock of Tarpon Coast Bancorp, Inc. (Tarpon) and its subsidiary, Tarpon Coast National Bank, a \$153 million bank headquartered in Port Charlotte, Florida. First Busey Corporation issued 849,965 shares of common stock and paid cash of \$18,797,000 to Tarpon shareholders, which was funded through the issuance of long-term debt and \$10 million in additional trust preferred securities. Of the 849,965 shares of common stock issued in the Tarpon acquisition, stock certificates representing 14,773 shares have not been issued to shareholders by First Busey pending the receipt of the appropriate instructions from Tarpon shareholders. The value of these shares has been included in Common stock to be issued on First Busey's consolidated balance sheet. These shares are also included in the Corporation's earnings-per-share calculations. The transaction has been accounted for as a purchase and the results of operations since the acquisition date have been

included in the consolidated financial statements. The purchase price of \$35,909,000 was allocated based upon the fair value of the assets acquired and liabilities assumed. The

Table of Contents

excess of the total acquisition cost over the fair value of the net tangible assets acquired has been allocated to core deposit intangible and goodwill. The core deposit intangible of \$2,371,000 is being amortized over periods ranging from three to five years.

Unaudited operating results for the three and six months ended June 30, 2006, and pro forma unaudited operating results for the three and six months ended June 30, 2005, giving effect to the Tarpon Coast acquisition as if it had occurred as of January 1, 2005, are as follows:

	Three months ended June 30,		Six months ended June 30,	
	2006 (dollars in thousands, except per share data)	2005 (dollars in thousands, except per share data)	2006 (dollars in thousands, except per share data)	2005 (dollars in thousands, except per share data)

FORWARD LOOKING STATEMENTS

This presentation includes forward looking statements that are intended to be covered by the safe-harbor provisions of the Private Securities Litigation Reform Act of 1995. These forward looking statements include but are not limited to comments with respect to the objectives and strategies, financial condition, results of operations and business of First Busey Corporation.

These forward looking statements involve numerous assumptions, inherent risks and uncertainties, both general and specific, and the risk that predictions and other forward looking statements will not be achieved. The Corporation cautions you not to place undue reliance on these forward looking statements as a number of important factors could cause actual future results to differ materially from the plans, objectives, expectations, estimates and intentions expressed in such forward looking statements. These risks, uncertainties and other factors include the general state of the economy, both on a local and national level, the ability of the Corporation to successfully complete acquisitions, the continued growth of geographic regions served by the Corporation, and the retention of key individuals in the Corporation's management structure.

Table of Contents

**ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS
OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS**

The following is management's discussion and analysis of the financial condition of First Busey Corporation and Subsidiaries (Corporation) at June 30, 2006 (unaudited), as compared with December 31, 2005, and the results of operations for the six months ended June 30, 2006 and 2005 (unaudited), and the results of operations for the three months ended June 30, 2006 and 2005 (unaudited). Management's discussion and analysis should be read in conjunction with the Corporation's consolidated financial statements and notes thereto appearing elsewhere in this quarterly report, as well as the Company's 2005 Annual Report on Form 10-K.

Certain reclassifications have been made to the balances, with no effect on net income, as of and for the three and six months ending June 30, 2005, to be consistent with the classifications adopted as of and for the three and six months ending June 30, 2006.

CRITICAL ACCOUNTING ESTIMATES

Critical accounting estimates are those that are critical to the portrayal and understanding of the Corporation's financial condition and results of operations and require management to make assumptions that are difficult, subjective or complex. These estimates involve judgments, estimates and uncertainties that are susceptible to change. In the event that different assumptions or conditions were to prevail, and depending on the severity of such changes, the possibility of materially different financial condition or results of operations is a reasonable likelihood.

Allowance for Loan Losses

The Corporation has established an allowance for loan losses which represents the Corporation's estimate of the probable losses that have occurred as of the date of the consolidated financial statements. Management has established an allowance for loan losses which reduces the total loans outstanding by an estimate of uncollectible loans. Loans deemed uncollectible are charged against and reduce the allowance. Periodically, a provision for loan losses is charged to current expense. This provision acts to replenish the allowance for loan losses and to maintain the allowance at a level that management deems adequate.

There is no precise method of predicting specific loan losses or amounts which ultimately may be charged off on segments of the loan portfolio. The determination that a loan may become uncollectible, in whole or in part, is a matter of judgment. Similarly, the adequacy of the allowance for loan losses can be determined only on a judgmental basis, after full review, including (a) consideration of economic conditions and their effect on particular industries and specific borrowers; (b) a review of borrowers' financial data, together with industry data, the competitive situation, the borrowers' management capabilities and other factors; (c) a continuing evaluation of the loan portfolio, including monitoring by lending officers and staff credit personnel of all loans which are identified as being of less than acceptable quality; (d) an in-depth evaluation, on a monthly basis, of all impaired loans (loans are considered to be impaired when based on current information and events, it is probable the Corporation will not be able to collect all amounts due); and (e) an evaluation of the underlying collateral for secured lending, including the use of independent appraisals of real estate properties securing loans.

Periodic provisions for loan losses are determined by management based upon the size and the quality of the loan portfolio measured against prevailing economic conditions and historical loan loss experience and also based on specific exposures in the portfolio. Management has instituted a formal loan review system supported by an effective credit analysis and control process. The Corporation will maintain the allowance for loan losses at a level sufficient to absorb estimated uncollectible loans and, therefore, expects to make periodic additions to the allowance for loan losses.

Revenue Recognition

Income on interest-earning assets is accrued based on the effective yield of the underlying financial instruments. A loan is considered to be impaired when, based on current information and events, it is probable the Corporation will not be able to collect all amounts due. The accrual of interest income on impaired loans is discontinued when there is reasonable doubt as to the borrower's ability to meet contractual payments of interest or principal.

Table of Contents**FINANCIAL CONDITION AT JUNE 30, 2006 AS COMPARED TO DECEMBER 31, 2005**

Total assets increased \$78,953,000 or 3.5% at June 30, 2006 from \$2,263,422,000 at December 31, 2005. Securities available for sale decreased \$11,253,000, or 3.4%, to \$319,984,000 at June 30, 2006 from \$331,237,000 at December 31, 2005. Loans increased \$90,281,000, or 5.2%, to \$1,839,443,000 at June 30, 2006, from \$1,749,162,000 at December 31, 2005 primarily due to growth in real estate construction and non-farm nonresidential.

Total deposits increased \$52,802,000, or 2.9%, to \$1,862,201,000 at June 30, 2006, from \$1,809,399,000 at December 31, 2005. Noninterest-bearing deposits decreased \$13,626,000 or 5.1% to \$251,544,000 at June 30, 2006, from \$265,170,000 at December 31, 2005. Interest-bearing deposits increased \$66,428,000 or 4.3% to \$1,610,657,000 at June 30, 2006, from \$1,544,229,000 at December 31, 2005.

During the first six months of 2006, the Corporation repurchased 65,000 shares of its common stock at an aggregate cost of \$1,329,000. On February 17, 2004, the Corporation's Board of Directors approved a stock repurchase plan for the repurchase of up to 750,000 shares of common stock. Of the shares repurchased during the first six months of 2006, all were repurchased under the 2004 Stock Repurchase Plan. The Corporation is purchasing shares for treasury as they become available in order to meet future issuance requirements of previously granted non-qualified stock options. As of June 30, 2006, there were 328,200 options currently exercisable, and an additional 540,550 stock options outstanding but not currently exercisable.

ASSET QUALITY

The following table sets forth the components of non-performing assets and past due loans.

	June 30, 2006	December 31, 2005
	(Dollars in thousands)	
Non-accrual loans	\$ 4,656	\$ 4,483
Loans 90 days past due, still accruing	1,347	1,420
Restructured loans		
Total non-performing loans	\$ 6,003	\$ 5,903
Other real estate owned	560	236
Other assets acquired in satisfaction of debts previously contracted	1	1
Total non-performing other assets	\$ 561	\$ 237
Total non-performing loans and non-performing other assets	\$ 6,564	\$ 6,140
Non-performing loans to loans, before allowance for loan losses	0.33%	0.34%
Non-performing loans and non-performing other assets to loans, before allowance for loan losses	0.36%	0.35%

Total non-performing loans and non-performing other assets increased \$424,000 or 6.9% to \$6,564,000 as of June 30, 2006 from \$6,140,000 due to an increase in non-accrual loans and other real estate owned, which was partially offset by a decrease in loans 90 days past due, still accruing. Non-performing loans as a percentage of loans improved to 0.33% as of June 30, 2006 as compared to 0.34% as of December 31, 2005. The balance in nonaccrual loans increased \$173,000 to \$4,656,000 or 0.25% of total loans as of June 30, 2006, compared to \$4,483,000 or 0.26% of total loans

as of December 31, 2005. The balance of loans 90 days past due, still accruing improved \$73,000 to \$1,347,000 or 0.07% of total outstanding loans as of June 30, 2006, compared to \$1,420,000 or 0.08% of outstanding loans as of December 31, 2005.

Table of Contents

POTENTIAL PROBLEM LOANS

Potential problem loans are those loans which are not categorized as impaired, non-accrual, past due or restructured, but where current information indicates that the borrower may not be able to comply with present loan repayment terms. Management assesses the potential for loss on such loans as it would with other problem loans and has considered the effect of any potential loss in determining its provision for loan losses. Potential problem loans totaled \$10,540,000 June 30, 2006, as compared to \$11,691,000 as of December 31, 2005.

There are no other loans identified which management believes represent or result from trends or uncertainties which management reasonably expects will materially impact future operating results, liquidity or capital resources. There are no other credits identified about which management is aware of any information which causes management to have serious doubts as to the ability of such borrower(s) to comply with the loan repayment terms.

RESULTS OF OPERATIONS

SIX MONTHS ENDED JUNE 30, 2006, AS COMPARED TO JUNE 30, 2005

SUMMARY

Net income for the six months ended June 30, 2006, was \$13,902,000 which represents an increase of \$1,090,000 or 8.5% as compared to net income of \$12,812,000 for the comparable period in 2005. Year-to-date diluted earnings per share increased 4.8% to \$0.65 for the six-month period ended June 30, 2006.

The Corporation's return on average assets was 1.23% for the six months ended June 30, 2006, a decline of 6 basis points from 1.29% for the comparable period in 2005. The Corporation's return on average stockholders' equity was 16.39% for the six months ended June 30, 2006, representing a decline of 212 basis points compared to 18.51% for the same period in 2005.

Table of Contents**EARNING ASSETS, SOURCES OF FUNDS, AND NET INTEREST MARGIN**

Average earning assets increased \$238,606,000 or 12.8% to \$2,104,425,000 for the six months ending June 30, 2006, as compared to \$1,865,819,000 for the comparable period last year. The average balance of loans outstanding increased \$247,314,000 or 16.2% to \$1,770,244,000 during the six-month period ended June 30, 2006, compared to \$1,522,930,000 during the comparable period in 2005. The Corporation closed the acquisition of Tarpon Coast Bancorp, Inc. and its subsidiary, Tarpon Coast National Bank, on July 29, 2005. Tarpon Coast National Bank merged with Busey Bank Florida in February, 2006. The resulting bank has been renamed Busey Bank, National Association (Busey Bank, N.A.). A significant portion of the growth in the average balances of various balance sheet items is due to the acquisition of Tarpon Coast National Bank combined with other growth in the Florida market. Busey Bank, N.A. had average assets of \$422,440,000 during the six-month period ending June 30, 2006, compared to Busey Bank Florida's average assets of \$208,025,000 during the comparable period in 2005. During the first six months of 2006, Busey Bank, N.A.'s loan balances averaged \$352,310,000 compared to Busey Bank Florida's average loan balance of \$187,997,000 during the comparable period in 2005.

Interest-bearing liabilities averaged \$1,843,557,000 during the first six months of 2006, an increase of \$198,993,000 or 12.1% from the average balance of \$1,644,564,000 for the comparable period in 2005. Interest-bearing deposits averaged \$1,562,418,000 during the six-month period ended June 30, 2006, an increase of \$176,348,000 or 12.7% from \$1,386,070,000 for the comparable period in 2005. Busey Bank N.A. had average interest-bearing deposits of \$278,568,000 during the six-months ended June 30, 2006, compared to Busey Bank Florida's average interest-bearing liabilities of \$155,851,000 during the comparable period in 2005.

Income on interest-earning assets is accrued on the effective yield of the underlying financial instruments. A loan is considered to be impaired when, based on current information and events, it is probable the Corporation will not be able to collect all amounts due. The accrual of interest income on impaired loans is discontinued when there is reasonable doubt as to the borrower's ability to meet contractual payments of interest or principal.

Net interest income, on a fully taxable equivalent basis, increased \$4,668,000 or 13.7% to \$38,794,000 for the six months ended June 30, 2006, compared to \$34,126,000 for the comparable period in 2005. Net interest margin, the Corporation's net interest income expressed as a percentage of average earning assets stated on a fully taxable equivalent basis, was 3.72% for the six months ended June 30, 2006, compared to 3.69% for the comparable period in 2005. The net interest margin expressed as a percentage of average total assets, also on a fully taxable equivalent basis, was 3.44% for the six months ended June 30, 2006, compared to 3.44% for the comparable period in 2005.

Interest income, on a tax equivalent basis, for the six months ended June 30, 2006, was \$69,896,000, which is \$16,132,000 or 30.0% higher than the \$53,764,000 earned during the comparable period in 2005. The average yield on interest-earning assets increased 89 basis points to 6.70% for the six months ended June 30, 2006, compared to 5.81% for the comparable period in 2005. This increase is due primarily to growth in the average balances of outstanding loans and obligations to states and political subdivisions combined with an increase in the average yields in most categories of interest-earning assets.

Interest expense for the six months ended June 30, 2006, was \$31,102,000, which is \$11,464,000 or 58.4% higher than the \$19,638,000 for the comparable period in 2005. The average rate paid on interest-bearing liabilities increased 99 basis points to 3.40% for the six months ended June 30, 2006, compared to 2.41% for the comparable period in 2005. The increase in interest expense is due primarily to an increase in the average cost and growth of deposits combined with an overall increase in the average costs and balances of borrowings and debt.

PROVISION FOR LOAN LOSSES

The Corporation's provision for loan losses of \$700,000 during the six months ended June 30, 2006 is \$1,415,000 less than the \$2,115,000 recorded during the comparable period in 2005. The provision and net charge-offs of \$498,000 for the six-month period ending June 30, 2006, resulted in the allowance representing 1.27% of total loans and 390% of non-performing loans as of June 30, 2006, as compared to the allowance representing 1.33% of outstanding loans and 393% of non-performing loans as of December 31, 2005. Net charge-offs for the first six months of 2006 were \$498,000 compared to \$213,000 for the comparable period in 2005. The annualized net charge-off ratio (annualized net charge-offs as a

Table of Contents

percentage of average loans) was 0.06% as of June 30, 2006, compared to 0.03% as of June 30, 2005. The adequacy of the allowance for loan losses is consistent with management's consideration of the composition of the portfolio, non-performing asset levels, recent credit quality experience, historic charge-off trends, and prevailing economic conditions among other factors.

OTHER INCOME, OTHER EXPENSE, AND INCOME TAXES

Total other income, excluding security gains, increased \$884,000 or 8.0% to \$11,991,000 for the six months ended June 30, 2006, compared to \$11,107,000 for the same period in 2005. Growth in trust fees, brokerage commission, service charges and fees, and gains on the sale of mortgage loans all contributed to the increase in other income. During the first six months of 2006 the Corporation recognized gains of \$1,072,000 on the sale of \$76,490,000 in mortgage loans compared to gains of \$1,012,000 on the sale of \$67,166,000 of loans during the prior year period. The interest-rate and debt markets have strong influence on the level of mortgage loan origination and sales volumes. As interest rates have risen, origination and sales activity related to home purchases has remained strong while refinancing activity has slowed considerably. The Corporation may realize gains and/or losses on these sales dependent upon interest-rate movements and upon how receptive the debt markets are to mortgage-backed securities. Income recognized on service charges, trust fees, commissions, and loan gains are recognized based on contractual terms and are accrued based on estimates, or are recognized as transactions occur or services are provided. Income from the servicing of sold loans is recognized based on estimated asset valuations and transaction volumes. While these estimates and assumptions may be considered complex, First Busey has implemented controls and processes to mitigate the risk of inaccuracies in these accruals.

During the six months ended June 30, 2006, the Corporation recognized security gains of approximately \$654,000 after income taxes, representing 4.7% of net income. During the comparable period in 2005, security gains of approximately \$248,000 after income taxes were recognized, representing 1.9% of net income. The Corporation owns a position in a marketable equity security with substantial appreciated value. The directors of First Busey have authorized an orderly liquidation of this asset.

In April 2006, the corporation wrote-off certain capitalized issuance costs in the amount of \$628,000, net of income tax benefit, associated with the redemption of First Busey Capital Trust I. The amount is recorded in the Consolidated Statements of Income in the line, "Other operating income", consistent with the results of all the Corporation's unconsolidated subsidiaries.

Total other expenses increased \$5,529,000 or 23.6% to \$28,930,000 for the six months ended June 30, 2006, compared to \$23,401,000 for the comparable period in 2005. Salaries and wage expense increased \$2,634,000 or 24.8% to \$13,269,000 for the six months ended June 30, 2006, as compared to \$10,635,000 during the same period last year. Employee benefits were \$569,000 higher during the six months ended June 30, 2006, compared to the same period in 2005. The increase in other expenses and employment costs are primarily related to an increase in full time equivalent employees to 643 at June 30, 2006 from 553 at June 30, 2005.

Occupancy and furniture and equipment expenses increased \$758,000 to \$4,252,000 during the first six months of 2006 compared to \$3,494,000 during the comparable period in 2005, due primarily to the addition of branches associated with the growth in the Florida market.

Other operating expenses increased \$1,568,000 or 22.7% to \$8,461,000 for the six months ending June 30, 2006, compared to \$6,893,000 for the comparable period in 2005. The net increase is primarily attributable to growth in the Florida market.

Income taxes for the six months ended June 30, 2006, increased to \$7,294,000 compared to \$6,601,000 for the comparable period in 2005. As a percentage of income before taxes, the provision for income taxes increased slightly to 34.4% for the six months ended June 30, 2006, from 34.0% for the comparable period in 2005.

Table of Contents

RESULTS OF OPERATIONS

THREE MONTHS ENDED JUNE 30, 2006, AS COMPARED TO JUNE 30, 2005

SUMMARY

Net income for the three months ended June 30, 2006, was \$7,035,000 which represents an increase of \$759,000 or 12.1% as compared to net income of \$6,276,000 for the comparable period in 2005. Fully-diluted earnings per share increased 6.5% to \$0.33 for the quarter ended June 30, 2006 compared to \$0.31 for the quarter ended June 30, 2005. The Corporation's return on average assets was 1.23% for the three months ended June 30, 2006, a decline of 2 basis points from 1.25% for the comparable period in 2005. The Corporation's return on average stockholders' equity was 16.41% for the three months ended June 30, 2006, representing a decline of 148 basis points compared to 17.89% for the comparable period in 2005.

Table of Contents**EARNING ASSETS, SOURCES OF FUNDS, AND NET INTEREST MARGIN**

Average earning assets increased \$242,224,000 or 12.9% to \$2,122,695,000 for the three months ending June 30, 2006, as compared to \$1,880,471,000 for the comparable period last year. The average balance of loans outstanding increased \$238,018,000 or 15.3% to \$1,791,837,000 during the three-month period ended June 30, 2006, compared to \$1,553,819,000 during the comparable period in 2005. The Corporation closed the acquisition of Tarpon Coast Bancorp, Inc. and its subsidiary, Tarpon Coast National Bank, on July 29, 2005. Tarpon Coast National Bank merged with Busey Bank Florida in February, 2006. The resulting bank has been renamed Busey Bank, National Association (Busey Bank, N.A.). A significant portion of the growth in the average balances of various balance sheet items is due to the acquisition of Tarpon Coast National Bank combined with other growth in the Florida market. Busey Bank, N.A. had average assets of \$424,034,000 during the three-month period ending June 30, 2006, compared to Busey Bank Florida's average assets of \$223,247,000 during the comparable period in 2005. During the second quarter of 2006, Busey Bank, N.A.'s loan balances averaged \$352,014,000 compared to Busey Bank Florida's average loan balance of \$202,652,000 during the comparable period in 2005.

Interest-bearing liabilities averaged \$1,865,065,000 during the three months ended June 30, 2006, an increase of \$209,449,000 or 12.7% from the average balance of \$1,655,616,000 for the comparable period in 2005.

Interest-bearing deposits averaged \$1,576,506,000 during the three-month period ended June 30, 2006, an increase of \$178,951,000 or 12.8% from \$1,397,555,000 for the comparable period in 2005. Busey Bank N.A. had average interest-bearing deposits of \$287,936,000 during the three-months ended June 30, 2006, compared to Busey Bank Florida's average interest-bearing liabilities of \$162,727,000 during the comparable period in 2005.

Income on interest-earning assets is accrued on the effective yield of the underlying financial instruments. A loan is considered to be impaired when, based on current information and events, it is probable the Corporation will not be able to collect all amounts due. The accrual of interest income on impaired loans is discontinued when there is reasonable doubt as to the borrower's ability to meet contractual payments of interest or principal.

Net interest income, on a fully taxable equivalent basis, increased \$2,254,000 or 12.9% to \$19,779,000 for the three months ended June 30, 2006, compared to \$17,525,000 for the comparable period in 2005. Net interest margin, the Corporation's net interest income expressed as a percentage of average earning assets stated on a fully taxable equivalent basis, was 3.74% for the three months ended June 30, 2006, compared to 3.74% for the comparable period in 2005. The net interest margin expressed as a percentage of average total assets, also on a fully taxable equivalent basis, was 3.45% for the three months ended June 30, 2006, compared to 3.49% for the comparable period in 2005. Interest income, on a tax equivalent basis, for the three months ended June 30, 2006, was \$36,219,000, which is \$8,358,000 or 30.0% higher than the \$27,861,000 earned during the comparable period in 2005. The average yield on interest-earning assets increased 90 basis points to 6.84% for the three months ended June 30, 2006, compared to 5.94% for the comparable period in 2005. This increase is due primarily to the combined growth in the average balances and average yields of outstanding loans.

Interest expense for the three months ended June 30, 2006, was \$16,440,000, which is \$6,104,000 or 59.1% higher than the \$10,336,000 for the comparable period in 2005. The average rate paid on interest-bearing liabilities increased 104 basis points to 3.54% for the three months ended June 30, 2006, compared to 2.50% for the comparable period in 2005. The increase in interest expense is due primarily to an increase in the average cost of deposits combined with growth in the average balance of deposits.

Table of Contents**OTHER INCOME, OTHER EXPENSE, AND INCOME TAXES**

Total other income, excluding security gains, increased \$328,000 or 5.7% to \$6,042,000 for the three months ended June 30, 2006, compared to \$5,714,000 for the same period in 2005. Growth in trust fees, brokerage commission, service charges and fees all contributed to the increase in other income.

During the second quarter of 2006, the Corporation recognized gains of \$538,000 on the sale of \$41,540,000 in mortgage loans compared to gains of \$589,000 on the sale of \$36,132,000 of loans during the prior year period. The interest-rate and debt markets have strong influence on the level of mortgage loan origination and sales volumes. As interest rates have risen, origination and sales activity related to home purchases has remained strong while refinancing activity has slowed considerably. The Corporation may realize gains and/or losses on these sales dependent upon interest-rate movements and upon how receptive the debt markets are to mortgage-backed securities. Income recognized on service charges, trust fees, commissions, and loan gains are recognized based on contractual terms and are accrued based on estimates, or are recognized as transactions occur or services are provided. Income from the servicing of sold loans is recognized based on estimated asset valuations and transaction volumes. While these estimates and assumptions may be considered complex, First Busey has implemented controls and processes to mitigate the risk of inaccuracies in these accruals.

During the three months ending June 30, 2006, the Corporation recognized security gains of approximately \$519,000 after income taxes, representing 7.4% of net income. During the comparable period in 2005, security gains of approximately \$151,000 after income taxes were recognized, representing 2.4% of net income. The Corporation owns a position in a marketable equity security with substantial appreciated value. The directors of First Busey have authorized an orderly liquidation of this asset.

In April 2006, the corporation wrote-off certain capitalized issuance costs in the amount of \$628,000, net of income tax benefit, associated with the redemption of First Busey Capital Trust I. The amount is recorded in the Consolidated Statements of Income in the line, Other operating income, consistent with the results of all the Corporation's unconsolidated subsidiaries.

Total other expenses increased \$2,635,000 or 21.7% to \$14,787,000 for the three months ending June 30, 2006, compared to \$12,152,000 for the comparable period in 2005. Salaries and wage expense increased \$1,334,000 or 24.5% to \$6,772,000 for the three months ended June 30, 2006, as compared to \$5,438,000 during the same period last year. Employee benefits were \$270,000 higher during the three months ended June 30, 2006, compared to the same period in 2005. The increase in other expenses and employment costs are primarily related to an increase in full time equivalent employees to 643 at June 30, 2006 from 553 at June 30, 2005.

Occupancy and furniture and equipment expenses increased \$341,000 to \$2,205,000 during the second quarter of 2006 compared to \$1,864,000 during the comparable period in 2005, due primarily to the addition of branches associated with the growth in the Florida market.

Other operating expenses increased \$690,000 or 18.8% to \$4,365,000 for the three months ending June 30, 2006, compared to \$3,675,000 for the comparable period in 2005. The net increase is primarily attributable to growth in the Florida market.

Income taxes for the three months ended June 30, 2006, increased to \$4,033,000 compared to \$3,260,000 for the comparable period in 2005. As a percentage of income before taxes, the provision for income taxes increased to 36.4% for the three months ended June 30, 2006, from 34.2% for the comparable period in 2005. The increase in the effective tax rate is due to an adjustment related to certain matters arising at the branches acquired in the acquisition of Tarpon Coast National Bank. The Corporation expects the effective tax rate to return to historical levels in subsequent periods.

Table of Contents

REPORTABLE SEGMENTS AND RELATED INFORMATION

The Corporation has three reportable segments, Busey Bank, Busey Bank N.A., and Busey Investment Group. Busey Bank provides a full range of banking services to individual and corporate customers through its branch network in Champaign, McLean, Peoria, Tazewell, and Ford Counties in Illinois, through its branch in Indianapolis, Indiana, and through its loan production office in Fort Myers, Florida. Busey Bank N.A. provides a full range of banking services to individual and corporate customers in Lee, Charlotte, and Sarasota Counties in Southwest Florida.

First Capital Bank, acquired by First Busey Corporation on June 1, 2004, merged into Busey Bank on May 20, 2005. Prior to this merger, First Capital Bank was a separate reportable segment providing a full range of banking services to individual and

corporate customers in Peoria and Pekin, Illinois. Following the merger, the assets and operating results of the Peoria and Pekin markets are included in Busey Bank.

Tarpon Coast National Bank, acquired by the Corporation on July 29, 2005, merged into Busey Bank N.A. on February 18, 2006. Prior to this merger, Tarpon Coast National Bank was a separate reportable segment providing a full range of banking services to individual and corporate customers in Charlotte and Sarasota Counties in Southwest Florida. Following the merger, the assets and operating results of the Charlotte and Sarasota markets are included in Busey Bank N.A.

The Corporation's three reportable segments are strategic business units that are separately managed as they offer different products and services and have different marketing strategies.

The segment financial information provided below has been derived from the internal profitability reporting system used by management to monitor and manage the financial performance of the Corporation. The accounting policies of the three segments are the same as those described in the summary of significant accounting policies in the annual report. The Corporation accounts for inter-segment revenue and transfers at current market value.

Table of Contents

LIQUIDITY

Liquidity management is the process by which the Corporation ensures that adequate liquid funds are available to meet the present and future cash flow obligations arising in the daily operations of the business. These financial obligations consist of needs for funds to meet commitments to borrowers for extensions of credit, funding capital expenditures, withdrawals by customers, maintaining deposit reserve requirements, servicing debt, paying dividends to stockholders, and paying operating expenses.

The Corporation's most liquid assets are cash and due from banks, interest-bearing bank deposits, and Federal funds sold. The balances of these assets are dependent on the Corporation's operating, investing, lending and financing activities during any given period.

The Corporation's primary sources of funds, consists of deposits, investment maturities and sales, loan principal repayments, and capital funds. Additional liquidity is provided by brokered deposits, bank lines of credit, repurchase agreements and the ability to borrow from the Federal Reserve Bank and the Federal Home Loan Bank. The Corporation has an operating line in the amount of \$10,000,000, all of which was available as of June 30, 2006.

Long-term liquidity needs will be satisfied primarily through retention of capital funds.

An additional source of liquidity that can be managed for short-term and long-term needs is the Corporation's ability to securitize or package loans (primarily mortgage loans) for sale. During the first six months of 2006 the Corporation originated \$77,323,000 and sold \$76,490,000 in mortgage loans for sale compared to originations of \$72,573,000 and sales of \$67,166,000 during the first six months of 2005. As of June 30, 2006, the Corporation held \$12,570,000 in loans held for sale. Management intends to sell these loans during the third quarter of 2006.

The objective of liquidity management by the Corporation is to ensure that funds will be available to meet demand in a timely and efficient manner. Based upon the level of investment securities that reprice within 30 days and 90 days, management currently believes that adequate liquidity exists to meet all projected cash flow obligations. The Corporation achieves a satisfactory degree of liquidity through actively managing both assets and liabilities. Asset management guides the proportion of liquid assets to total assets, while liability management monitors future funding requirements and prices liabilities accordingly.

The Corporation's banking subsidiaries routinely enter into commitments to extend credit in the normal course of their business. As of June 30, 2006, and 2005, the Corporation had outstanding loan commitments including lines of credit of \$515,470,000 and \$473,036,000, respectively. The balance of commitments to extend credit represents future cash requirement and some of these commitments may expire without being drawn upon. The Corporation anticipates it will have sufficient funds available to meet its current loan commitments, including loan applications received and in process prior to the issuance of firm commitments.

The Corporation has entered into certain contractual obligations and other commitments. Such obligations generally relate to funding of operations through deposits, debt issuance, and property and equipment leases.

Table of Contents

The following table summarizes significant contractual obligations and other commitments as of June 30, 2006:

Due Within	Certificates of Deposit	Securities Sold under Agreements to Repurchase and	Leases	Junior Subordinated Debt Owed to Unconsolidated Trusts	Total
		Short- and Long-term Borrowings			
(Dollars in thousands)					
1 year	\$516,541	\$ 98,375	\$1,008	\$	\$ 615,924
2 years	134,989	36,373	854		172,216
3 years	58,414	19,373	451		78,238
4 years	32,587	20,373	151		53,111
5 years	18,600	17,461	75		36,136
Thereafter	461	45,405	164	55,000	101,030
Total	\$761,592	\$ 237,360	\$2,703	\$ 55,000	\$ 1,056,655

Net cash flows provided by operating activities totaled \$14,941,000 during the six months ended June 30, 2006, compared to \$9,720,000 during the comparable prior year period. Significant items affecting the cash flows provided by operating activities are net income, depreciation and amortization expense, the provision for loan losses, and activities related to the origination and sale of loans held for sale. During the first six months of 2006, the Corporation originated \$77,323,000 in loans held for sale and generated \$77,562,000 from the sale of held-for-sale loans resulting in net cash provided by loan originations and sale of \$239,000. During the comparable period in 2005, the Corporation originated \$72,573,000 in held-for-sale loans and generated \$68,178,000 from the sale of held-for-sale loans leading to net cash used by loan originations and sale of \$4,395,000.

Net cash used in investing activities was \$81,832,000 for the six months ended June 30, 2006, compared to \$51,753,000 for the comparable period in 2005. Significant activities affecting cash flows from investing activities are those activities associated with managing the Corporation's investment portfolio and loans held in the Corporation's portfolio. During the six months ended June 30, 2006, proceeds from the sales and maturities of securities classified as available-for-sale totaled \$45,590,000, and the Corporation purchased \$34,569,000 in securities resulting in net cash provided by securities activity of \$11,021,000. In the comparable period of 2005 proceeds from the sales and maturities of securities classified as available for sale totaled \$65,286,000, and the Corporation purchased \$20,392,000 in securities resulting in net cash provided by securities activity of \$44,894,000. The Corporation's loan portfolio increased \$90,339,000 during the first six months of 2006, compared to an increase of \$95,203,000 during the comparable period of 2005.

Net cash provided by financing activities was \$67,033,000 during the first six months of 2006 compared to \$49,653,000 for the comparable period in 2005. Significant items affecting cash flows from financing activities are deposits, short-term borrowings, and long-term debt. Deposits, which are the Corporation's primary funding source, increased by a net of \$52,802,000 during the first six months of 2006, compared to a net increase of \$73,892,000 during the comparable period in 2005. The Corporation increased its long-term debt by a net of \$3,980,000 during the second quarter of 2006, compared to a net decrease of \$3,573,000 during the comparable period in 2005.

On June 15, 2006, First Busey Statutory Trust IV issued \$30,000,000 trust preferred securities for the primary purpose of redeeming outstanding trust preferred securities under First Busey Capital Trust I in the amount of \$25,000,000.

The annual interest rate under the new securities is fixed for five years at 6.94% versus 9.00% on the redeemed

securities. The offering and associated lower interest rate provides an additional \$5,000,000 in liquidity with an approximate annual after-tax interest expense reduction of \$84,000.

On July 29, 2005, First Busey Corporation acquired all the outstanding common stock of Tarpon Coast Bancorp, Inc. (Tarpon) and its subsidiary, Tarpon Coast National Bank. First Busey issued 849,965 shares of common stock and paid cash of \$18,797,000 to Tarpon shareholders. The cash portion of this transaction was funded through the issuance of long-term debt and \$10 million in trust preferred securities.

Table of Contents**CAPITAL RESOURCES**

Other than from the issuance of common stock, the Corporation's primary source of capital is retained net income. During the six months ended June 30, 2006, the Corporation earned \$13,902,000 and paid dividends of \$6,838,000 to stockholders, resulting in the retention of current earnings of \$7,064,000. The Corporation's dividend payout ratio for the six months ended June 30, 2006 was 49.2%.

The Corporation and its bank subsidiaries are subject to regulatory capital requirements administered by federal and state banking agencies. Under capital adequacy guidelines and the regulatory framework for prompt corrective action, the Corporation and the Banks must meet specific capital guidelines that involve the quantitative measure of their assets, liabilities, and certain off-balance-sheet items as calculated under regulatory accounting practices. Quantitative measures established by regulation to ensure capital adequacy require the Corporation and its bank subsidiaries to maintain minimum amounts and ratios (set forth in the table below) of total and Tier I capital (as defined in the regulations) to risk-weighted assets (as defined), and Tier 1 capital (as defined) to average assets (as defined). Management believes, as of June 30, 2006, that the Corporation and its bank subsidiaries meet all capital adequacy requirements to which they are subject.

	Actual		For Capital Adequacy Purposes		To Be Well Capitalized Under Prompt Corrective Action Provisions	
	Amount	Ratio	Amount	Ratio	Amount	Ratio
As of June 30, 2006:						
Total Capital (to Risk-weighted Assets)						
Consolidated	\$ 192,701	10.56%	\$ 146,054	8.00%	N/A	N/A
Busey Bank	\$ 165,595	11.15%	\$ 118,819	8.00%	\$ 148,523	10.00%
Busey Bank N.A.	\$ 43,506	13.38%	\$ 26,009	8.00%	\$ 32,511	10.00%
Tier I Capital (to Risk-weighted Assets)						
Consolidated	\$ 164,401	9.00%	\$ 73,027	4.00%	N/A	N/A
Busey Bank	\$ 142,262	9.58%	\$ 59,410	4.00%	\$ 89,114	6.00%
Busey Bank N.A.	\$ 39,432	12.13%	\$ 13,005	4.00%	\$ 19,507	6.00%
Tier I Capital (to Average Assets)						
Consolidated	\$ 164,401	7.36%	\$ 89,306	4.00%	N/A	N/A
Busey Bank	\$ 142,262	7.82%	\$ 72,806	4.00%	\$ 91,008	5.00%
Busey Bank Florida	\$ 39,432	9.86%	\$ 15,991	4.00%	\$ 19,988	5.00%

**ITEM 3. QUANTITATIVE AND QUALITATIVE
DISCLOSURE ABOUT MARKET RISK
MARKET RISK**

Market risk is the risk of change in asset values due to movements in underlying market rates and prices. Interest rate risk is the risk to earnings and capital arising from movements in interest rates. Interest rate risk is the most significant market risk affecting the Corporation as other types of market risk, such as foreign currency exchange rate risk and commodity price risk, do not arise in the normal course of the Corporation's business activities.

The Corporation's subsidiary banks, Busey Bank and Busey Bank, N.A., have asset-liability committees which meet at least quarterly to review current market conditions and attempt to structure the banks' balance sheets to ensure stable net interest income despite potential changes in interest rates with all other variables constant.

33 of 43

Table of Contents

The asset-liability committees use gap analysis to identify mismatches in the dollar value of assets and liabilities subject to repricing within specific time periods. The Funds Management Policies established by the asset-liability committees and approved by the Corporation's Board of Directors establish guidelines for maintaining the ratio of cumulative rate-sensitive assets to rate-sensitive liabilities within prescribed ranges at certain intervals.

Interest-rate sensitivity is a measure of the volatility of the net interest margin as a consequence of changes in market rates. The rate-sensitivity chart shows the interval of time in which given volumes of rate-sensitive earning assets and rate-sensitive interest-bearing liabilities would be responsive to changes in market interest rates based on their contractual maturities or terms for repricing. It is, however, only a static, single-day depiction of the Corporation's rate sensitivity structure, which can be adjusted in response to changes in forecasted interest rates.

The following table sets forth the static rate-sensitivity analysis of the Corporation as of June 30, 2006:

	1-30 Days	31-90 Days	Rate Sensitive Within			Total
			91-180 Days	181 Days - 1 Year	Over 1 Year	
			(Dollars in thousands)			
Interest-bearing deposits	\$ 462	\$	\$	\$	\$	\$ 462
Investment securities						
U.S. Governments	7,696	30,927	35,237	108,113	10,170	192,143
Obligations of states and political subdivisions	2,035		5,273	6,138	70,776	84,222
Other securities	14,218	423	675	1,330	26,973	43,619
Loans (net of unearned int.)	730,274	87,370	110,498	184,822	726,479	1,839,443
Total rate-sensitive assets	\$ 754,685	\$ 118,720	\$ 151,683	\$ 300,403	\$ 834,398	\$ 2,159,889
Interest bearing transaction Deposits	\$ 97,196	\$	\$	\$	\$	\$ 97,196
Savings deposits	109,831					109,831
Money market deposits	642,038					642,038
Time deposits	78,473	84,611	112,522	245,333	240,653	761,592
Short-term borrowings:						
Federal funds purchased and repurchase agreements	68,497					68,497
Long-term debt	56,713	16,000	3,000	14,825	78,325	168,863
Junior subordinated debt owed to unconsolidated trusts		25,000			30,000	55,000

Edgar Filing: FIRST BUSEY CORP /NV/ - Form 10-Q

Total rate-sensitive liabilities	\$1,052,748	\$ 125,611	\$ 115,522	\$ 260,158	\$348,978	\$1,903,017
Rate-sensitive assets less rate-sensitive liabilities	\$ (298,063)	\$ (6,891)	\$ 36,161	\$ 40,245	\$485,420	\$ 256,872
Cumulative Gap	\$ (298,063)	\$(304,954)	\$(268,793)	\$(228,548)	\$256,872	
Cumulative amounts as a percentage of total rate-sensitive assets	-13.80%	-14.12%	-12.44%	-10.58%	11.89%	
Cumulative ratio	0.72	0.74	0.79	0.85	1.13	

The funds management policy of the Corporation requires the banks to maintain a cumulative rate-sensitivity ratio of .75 – 1.25 in the 90-day, 180-day, and 1-year time periods. As of June 30, 2006, the banks are within those guidelines. The foregoing table shows a negative (liability-sensitive) rate-sensitivity gap of \$298.2 million in the 1-30 day repricing period and \$6.9 million in the 31-90 day repricing period as there were more liabilities subject to repricing during those time periods

34 of 43

Table of Contents

than there were assets subject to repricing within those same time periods. The volume of assets subject to repricing exceeds the volume of liabilities subject to repricing for all time periods beyond 90 days. On a cumulative basis, the gap remains liability sensitive through one year. The composition of the gap structure at June 30, 2006, indicates the Corporation would benefit more if interest rates decrease during the next year by allowing the net interest margin to grow as the volume of interest-bearing liabilities subject to repricing would be greater than the volume of interest-earning assets subject to repricing during the same period, assuming rates on all categories of rate sensitive assets and rate sensitive liabilities change by the same amount and at the same time.

The Corporation's asset/liability committees do not rely solely on gap analysis to manage interest-rate risk as interest rate changes do not impact all categories of assets and liabilities equally or simultaneously. The committees supplement gap analysis with balance sheet and income simulation analysis to determine the potential impact on net interest income of changes in market interest rates. In these simulation models the balance sheet is projected over a one-year period and net interest income is calculated under current market rates, and then assuming permanent instantaneous shifts of +/-100 basis points and +/-200 basis points. Management measures such changes assuming immediate and sustained shifts in the Federal funds rate and the corresponding shifts in other rate indices based on their historical changes relative to changes in the Federal funds rate. The model assumes asset and liability remain constant at June 30, 2006, balances. The model uses repricing frequency on all variable-rate assets and liabilities. The model also uses a historical decay rate on all fixed-rate core deposit balances. Prepayment speeds on loans have been adjusted up and down to incorporate expected prepayment in both a declining and rising rate environment. Utilizing this measurement concept the interest rate risk of the Corporation, expressed as a change in net interest income as a percentage of the net income calculated in the constant base model, due to an immediate and sustained change in interest rates at June 30, 2006, and December 31, 2005 was as follows:

		Basis Point Changes		
	- 200	- 100	+ 100	+ 200
June 30, 2006	0.81%	0.87%	(1.21%)	(2.19%)
December 31, 2005	(1.52%)	(0.18%)	(0.45%)	(1.29%)

ITEM 4: CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures

The Corporation conducted an evaluation, with the participation of its Chief Executive Officer and Chief Financial Officer, of the effectiveness of the Corporation's disclosure controls and procedures as of June 30, 2006. The Corporation's disclosure controls and procedures are designed to ensure that information required to be disclosed by the Corporation in the reports that it files or submits under the Exchange Act is recorded, processed, summarized, and reported on a timely basis.

Based upon that evaluation, the Chief Executive Officer and Chief Financial Officer concluded that the Corporation's disclosure controls and procedures as of June 30, 2006, are effective in timely alerting them to material information relating to the Corporation, including its consolidated subsidiaries, required to be included in the Corporation's periodic filings under the Exchange Act.

Changes in Internal Controls

During the quarter ended June 30, 2006, the Corporation did not make any significant changes in, nor take any corrective actions regarding, its internal controls or other factors that could significantly affect these controls.

Disclosure Controls and Internal Controls

Disclosure controls are procedures that are designed with the objective of ensuring that information required to be disclosed in the Corporation's reports filed under the Exchange Act is recorded, processed, summarized, and reported within the time periods specified in the Securities and Exchange Commission's (SEC) rules and forms. Disclosure controls are also designed with the objective of ensuring that such information is accumulated and communicated to management, as appropriate to allow timely decisions regarding required disclosure. Internal controls are procedures which are designed with the objective of providing reasonable assurance that transactions are properly authorized, assets are safeguarded against unauthorized or improper use, and transactions are properly recorded and reported, all to permit the preparation of financial statements in conformity with accounting principles generally accepted in the United States of America.

Limitations on the Effectiveness of Internal Controls

First Busey Corporation's management does not expect that our disclosure controls or our internal controls will prevent all errors and all fraud. A control system, no matter how well conceived and operated, can provide only reasonable, not absolute, assurance that the objectives of the control system are met. Further, the design of the control system must reflect the fact that there are resource constraints, and the benefits of controls must be considered relative to their costs. Because of the inherent limitations in all control systems, no evaluation of controls can provide absolute assurance that all control issues and instances of fraud, if any, within the Corporation have been detected. These inherent limitations include the realities that judgments in decision making can be faulty, and that breakdowns can occur because of simple error or mistake. Additionally, controls can be circumvented by the individual acts of some persons, by collusion of two or more people, or by management override of the control. The design of any system of controls also is based in part upon certain assumptions about the likelihood of future events, and there can be no assurance that any design will succeed in achieving its stated goals under all potential future conditions. Over time, controls may become inadequate because of changes in conditions, or the degree of compliance with the policies or procedures may deteriorate. Because of the inherent limitations in a cost-effective control system, misstatements due to error or fraud may occur and not be detected.

ITEM 1A: Risk Factors

There have been no material changes from risk factors as previously disclosed in the Corporation's 2005 Annual Report on Form 10-K.

ITEM 2: Changes in Securities, Use of Proceeds and Issuer Purchases of Equity Securities

The following table presents for the periods indicated a summary of the purchases made by or on behalf of First Busey Corporation of shares of its common stock.

	Total Number of Shares Purchased	Average Price Paid per Share	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs	Maximum Number of Shares that May Yet Be Purchased Under the Plans or Programs ¹
January 1 - 31, 2006		\$		603,955
February 1 - 28, 2006	10,000	20.30	10,000	593,955
March 1 - 31, 2006	20,000	20.55	20,000	573,955
April 1 - 30, 2006				573,955
May 1 - 31, 2006	20,000	20.47	20,000	553,955
June 1 - 30, 2006	15,000	20.37	15,000	538,955
Total	65,000	\$ 20.44	65,000	

¹ First Busey Corporation's board of directors approved a stock purchase plan on February 17, 2004 for the repurchase of up to 750,000 shares of common stock. The Corporation's 2004 repurchase plan has no expiration date.

ITEM 3: Defaults upon Senior Securities
