On July 23, 2003, Harris Corporation issued a press release announcing its earnings and financial results for its fourth quarter of fiscal 2003 and for its fiscal year 2003. A copy of the press release is furnished herewith as Exhibit 99.1 and is incorporated herein by reference. The press release includes a discussion of financial results of Harris for the quarter and fiscal year ended June 27, 2003, using certain non-GAAP financial measures, including net income, net income per diluted share,

and combined
and individual
commercial
segments
operating
income (loss),
each excluding
charges
associated with
exiting several
product lines,
reductions in
force,
cost-cutting
measures,
closure of

assets, and other
gains or
losses. A

measure is
defined as a
numerical

company's
performance that
excludes or
includes
amounts so as to
be different than
the most directly

comparable measure calculated and presented in accordance with generally accepted accounting principles (GAAP). Pursuant to the requirements of Regulation G, Harris has included in its press release a reconciliation of all non-GAAP financial measures disclosed in the press release to the most directly comparable GAAP financial measure.

Management of Harris believes that these non-GAAP financial measures provide information that is useful to investors in understanding period-over-period operating results separate and apart from items that may, or could, have a disproportionate positive or negative impact on results in any particular period. Management also believes that these non-GAAP measures enhance the ability of an investor to analyze trends in Harris' business and to better understand our performance. In addition, the Company may utilize non-GAAP financial measures to measure operating performance for some management compensation purposes. Any analysis of adjusted results should be used only in conjunction with, and not as a substitute for, results presented in accordance with GAAP.
