PITTSBURGH, October 19 /PRNewswire-FirstCall/ WESCO International, Inc. (NYSE: WCC), a leading provider of electrical MRO products, construction materials, and advanced integrated supply procurement outsourcing services, today announced its 2006 third quarter financial results.

Third Quarter Results

Consolidated net sales for the third quarter of 2006 were \$1,343 million compared to \$1,131 million in 2005, an increase of 18.7%. Included are sales from two acquisitions completed in the third quarter of 2005 totaling approximately \$103 million. Gross margin for the quarter was 20.5% compared to 18.4% for the comparable 2005 quarter. Operating income for the current quarter totaled \$100.2 million versus \$47.3 million in last year's comparable quarter. Depreciation and amortization included in operating income was \$6.7 million for 2006 compared to \$3.7 million in 2005. Net income for this quarter was \$59.4 million versus \$25.0 million in the comparable 2005 quarter. Diluted earnings per share for the quarter were \$1.13 per share versus \$0.51 per share in 2005.

Stephen A. Van Oss, Senior Vice President and Chief Financial Officer, stated, "Our financial results for the quarter were outstanding. Sales growth remained strong as we continued to see broad customer demand across our end markets. The third quarter marked the tenth consecutive quarter of double-digit sales growth. Operating income and net income of \$100 million and \$59 million, respectively, are all-time records for the Company. This performance was driven by gross margin expansion, continued cost control, and excellent execution at all levels of the organization. Mr. Van Oss continued, "Our overall financial condition is strong. We are executing well on our business model which produces excellent incremental profit and generates strong free cash flow. We generated over \$67 million of free cash flow during the third quarter and over \$135 million on a year-to-date basis. Free cash flow has been utilized to invest in our business, fund highly accretive acquisitions, and reduce debt. Our financial leverage and liquidity are at Company-best levels.

Communications Supply Corporation

As previously announced, the Company has entered into a definitive purchase agreement to acquire Communications Supply Holdings, Inc. from Harvest Partners LLC, a New York based private equity firm. Communications Supply Corporation, Inc. (CSC), the operating subsidiary of Communications Supply Holdings, Inc. with headquarters in Carol Stream, Illinois, was founded in 1972. Full year 2006 revenues are estimated to be approximately \$600 million. The company is a leading national distributor of low voltage network infrastructure and industrial wire and cable products. Through its network of 32 branches, CSC distributes a full range of products to support

advanced connectivity for voice and data communications, access control, security surveillance, and building automation. CSC's sales force consists of over 300 associates, and its marketing activities reflect a strong focus on the Fortune 1000 and large institutional customers in the United States. The company is proceeding towards closing in the first week of November 2006. CSC is expected to be immediately accretive to earnings per share and should add \$0.04 in 2006 and \$0.35 to \$0.40 in 2007.

Year to Date Results

Consolidated net sales for the nine months ended September 30, 2006 were \$3,945 million versus \$3,184 million in last year's comparable period, a 23.9% increase. Sales from the two previously mentioned acquisitions for the first nine months totaled \$317 million. Gross margin in the current nine-month period was 20.3% versus 18.5% last year and operating income totaled \$271.8 million versus \$134.8 million last year. Depreciation and amortization included in operating income was \$19.2 million versus \$11.3 million last year. Net income for the 2006 year-to-date period was \$159.0 million versus \$63.8 million last year, which included a charge for redeeming a portion of the Company's senior subordinated notes and a charge for settlement of a legal matter. Diluted earnings per share were \$3.04 per share in 2006 versus \$1.30 per share in 2005.

Roy W. Haley, Chairman and CEO, commented, "We anticipate that WESCO's emphasis on sales and organizational productivity will continue to drive above average growth, scale economies, and increasing profitability. Our 6,000+ WESCO employees have done a great job of extending and improving our base business while also achieving targeted synergies and successfully integrating recent acquisitions.

Mr. Haley added, "We are very optimistic about the planned acquisition of Communications Supply Corporation. CSC has a consistent track record of sales growth and high quality customer service, and we believe that it is an excellent fit with our strategy of investing in organic growth initiatives while also adding accretive acquisitions that can provide a broader range of products and services to our customers.

 Total indebtedness (including A/R Securitization Program), net of cash (See Note)	 \$ 610.4	 \$ 778.5

Note: Total indebtedness (including A/R Securitization Program), net of cash is provided by the Company as an additional measure of the Company's leverage. Generally accepted accounting principles require that this financing facility be presented off-balance sheet. As management internally evaluates the A/R Securitization Facility as an additional form of indebtedness, management believes it is helpful to provide the readers of its financial statements an evaluation of its total indebtedness from all sources of financing. Cash and cash equivalents are deducted from this total to determine total indebtedness (including A/R Securitization Program), net of cash. This amount represents the Company's net obligation due under all of its financing facilities.

	Three Months Ended September 30, 2006	Nine Months Ended September 30, 2006
Cash flow provided by operations	\$ 8.5	\$ 68.1

Less: Capital expenditures	(6.2)	(14.9)
 Free cash flow (excluding effects of A/R Securitization Program) (See Note)	 \$ 67.3	 \$ 135.2

Note: Free cash flow (excluding the effects of A/R Securitization Program) is provided by the Company as an additional liquidity measure. Generally accepted accounting principles require that changes in this facility be reflected within operating cash flows in the Company's consolidated statement of cash flows. As management internally evaluates the A/R Securitization Facility as an additional form of liquidity, management believes it is helpful to provide the readers of its financial statements with the cash flow from operating activities other than those related to the A/R Securitization Facility. Capital expenditures are deducted from this adjusted operating cash flow amount to determine free cash flow (excluding effects of A/R Securitization Program). This amount represents excess funds available to management to service all of its financing needs (including needs of its A/R Securitization Program) and other investing needs.
