**Statement of Accounting Policy**

The accompanying financial statements include the accounts of Myers Industries, Inc. and subsidiaries (collectively, the Company), and have been prepared without audit, pursuant to the rules and regulations of the Securities and Exchange Commission (the SEC). Certain information and footnote disclosures normally included in financial statements prepared in accordance with U.S. generally accepted accounting principles have been condensed or omitted pursuant to those rules and regulations, although the Company believes that the disclosures are adequate to make the information not misleading. It is suggested that these financial statements be read in conjunction with the financial statements and notes thereto included in the Company's latest annual report on Form 10-K.

In the opinion of the Company, the accompanying financial statements contain all adjustments (consisting of only normal recurring accruals) necessary to present fairly the financial position as of March 31, 2008, and the results of operations and cash flows for the three months ended March 31, 2008 and 2007. The results of operations for the three months ended March 31, 2008 are not necessarily indicative of the results of operations that will occur for the year ending December 31, 2008.

**Recent Accounting Pronouncements**

*Standards Adopted*

In September 2006, the FASB issued SFAS No. 157 Fair Value Measurements (SFAS 157) and in February 2007, the FASB issued SFAS No. 159, The Fair Value Option for Financial Assets and Financial Liabilities (SFAS 159). SFAS 157 was issued to eliminate the diversity in practice that exists due to the different definitions of fair value and the limited guidance in applying these definitions. SFAS 157 encourages entities to combine fair value information disclosed under SFAS 157 with other accounting pronouncements, including SFAS No. 107, Disclosures about Fair Value of Financial Instruments, where applicable. Additionally, SFAS 159 permits entities to choose to measure many financial instruments and certain other items at fair value. The objective is to improve financial reporting by providing entities with the opportunity to mitigate volatility in reported earnings caused by measuring related assets and liabilities differently without having to apply complex hedge accounting provisions.

Effective January 1, 2008 the Company adopted SFAS 157 and SFAS 159. In February 2008, the FASB issued FASB Staff Position Nos. FAS 157-1 and FAS 157-2 (FSP 157-1 and FSP 157-2). FSP 157-1 excludes SFAS No. 13,

Accounting for Leases, as well as other accounting pronouncements that address fair value measurements for leases, from the scope of SFAS No. 157. FSP 157-2 delays the effective date of SFAS No. 157 for nonfinancial assets and nonfinancial liabilities, except for items that are recognized or disclosed at fair value in the financial statements on a recurring basis (at least annually) until fiscal years beginning after November 15, 2008.

The Company did not elect the fair value option for any assets or liabilities under SFAS 159. The adoption of SFAS 157 and SFAS 159 did not materially affect the Company's consolidated financial results of operations, cash flows or financial position.

*Standards Issued Not Yet Adopted*

In December 2007, the FASB issued Statement No. 141R, Business Combinations and FASB Statement No. 160,

Non-Controlling Interests in Consolidated Financial Statements. Statements 141R and 160 require most identifiable assets, liabilities, non-controlling interests, and goodwill acquired in a business combination to be recorded at full fair value and require non-controlling interests (previously referred to as minority interests) to be reported as a component of equity, which changes the accounting for transactions with non-controlling shareholders. Both statements are effective for periods beginning after December 15, 2008, and earlier adoption is prohibited. Statement 160 will be applied prospectively to all non-controlling interests, including any that arose before the effective date. The Company will apply the guidance of SFAS 141 to business combinations completed on or after January 1, 2009.

In March 2008, the FASB issued SFAS No. 161, Disclosures about Derivative Instruments and Hedging Activities (SFAS 161), an amendment of SFAS No. 133 (SFAS 133). SFAS 161 requires enhanced disclosures about an entity's

derivative and hedging activities. SFAS 161 is effective for fiscal years and interim periods beginning after November 15, 2008. The Company is evaluating the additional disclosures required by SFAS 161 beginning January 1, 2009.

**Acquisitions**

On January 9, 2007, the Company acquired all the shares of ITML Horticultural Products, Inc., an Ontario corporation ( ITML ). ITML designs, manufactures and sells plastic containers and related products for professional floriculture / horticulture grower markets across North America, utilizing injection molding, blow molding, and thermoforming processes. Additionally, ITML utilizes extensive technology and expertise for resin reprocessing and recycling for use in its products. The acquired business had fiscal 2006 annual sales of approximately \$169.5 million. The total purchase price was approximately \$119 million, which includes the assumption of approximately \$64.6 million debt outstanding as of the acquisition date. In addition, the acquisition allows for additional purchase consideration to be paid contingent upon the results of the Company's Lawn and Garden segment in 2008, specifically the achievement of earnings before interest taxes, depreciation and amortization that are in excess of targeted amounts.

On March 8, 2007, the Company acquired select equipment, molds and inventory related to the Xytec and Combo product lines of Schoeller Arca Systems Inc., a subsidiary of Schoeller Arca Systems N.V., in North America ( SASNA ). These product lines include collapsible bulk containers used for diverse shipping and handling applications in markets from manufacturing to food to liquid transport. The acquired business had 2006 annual sales of approximately \$50 million. The total purchase price was approximately \$41.6 million, some of which has been allocated to intangible assets including patents, customer relationships and technology with lives ranging from nine to ten years.

The results for both ITML and SASNA product lines are included in the consolidated results of operations from the date of acquisition. ITML is included in the Company's Lawn and Garden segment and the SASNA product lines are included in the Material Handling - North America segment. The allocation of the purchase price and the estimated goodwill and other intangibles are as follows:

**Discontinued Operations**

In the third quarter of 2006, the Company's Board of Directors approved the plan for divestiture of the Company's Material Handling Europe business segment. On October 20, 2006, the Company entered into a definitive agreement to sell these businesses and the sale was completed on February 1, 2007 with net proceeds of approximately \$68.1 million received. Included in net income for the three months ended March 31, 2007 was a gain of approximately \$17.8 million, net of taxes of \$3.3 million, from the disposition of these businesses. These discontinued operations had net sales of \$14.9 million and net income from operations of \$1,886 in 2007 prior to the disposition. In the three months ended March 31, 2008, the Company also recorded net income of approximately \$1.7 million as a result of net proceeds received related to the settlement of certain contingencies in connection with the disposed businesses.

In accordance with U.S. generally accepted accounting principles, the operating results related to these businesses have been included in discontinued operations in the Company's condensed statements of consolidated income for all periods presented.

**Merger Agreement**

On April 24, 2007, Myers Industries, Inc. entered into an Agreement and Plan of Merger (the Merger Agreement ) with MYEH Corporation, a Delaware corporation (the Parent ) and MYEH Acquisition Corporation, an Ohio corporation ( MergerCo ). Under the terms of the Merger Agreement, MergerCo would have been merged with and into the Company, with the Company continuing as the surviving corporation and becoming a wholly-owned subsidiary of Parent (the Merger ). Parent is owned by GS Capital Partners, LP (GSCP) and other private equity funds sponsored by Goldman, Sachs & Co.

Pursuant to the Merger Agreement, at the effective time of the Merger, each outstanding share of common stock of the Company (other than shares owned by the Company or any of its subsidiaries, or by any shareholders who properly exercise appraisal rights under Ohio law) would have been cancelled and converted into the right to receive \$22.50 in cash, without interest.

The Merger Agreement contained termination rights for both the Company and Parent in the event the Merger was not consummated by December 15, 2007. In December 2007, an agreement was made to extend this date from December 15, 2007 to April 30, 2008 (the Extension ). The Extension did not provide GSCP additional rights with respect to the potential Merger and consummation of the Merger remained subject to satisfaction or waiver of the conditions to closing set forth in the Merger Agreement. In connection with the Extension, GSCP paid the Company the previously agreed upon \$35 million termination fee. This non refundable termination fee, net of related expenses of \$8.25 million, was recorded as other income by the Company in 2007. In addition, as permitted by the Extension, the Company paid a special dividend of \$0.28 per common share totaling approximately \$9.85 million on January 2, 2008 to shareholders of record as of December 20, 2007.

On April 3, 2008, the Company, Parent and MergerCo entered into a letter agreement mutually terminating the Merger Agreement. The termination of the Merger Agreement did not have a material impact on the Company s results of operations in the first quarter of 2008 or its financial position at March 31, 2008.

**Net Income Per Share**

Net income per share, as shown on the Condensed Statements of Consolidated Income, is determined on the basis of the weighted average number of common shares outstanding during the period as follows:

	Three Months Ended March 31	
	2008	2007
Weighted average common shares outstanding		
Basic	35,187,169	35,091,541
Dilutive effect of stock options	15,250	13,010
Weighted average common shares outstanding diluted	35,202,419	35,104,551

**Stock Compensation**

In 1999, the Company and its shareholders adopted the 1999 Stock Plan (the Plan) allowing the Board of Directors to grant key employees and Directors options to purchase common stock of the Company at the closing market price on the date of grant. In April 2006, the shareholders approved an amendment to the Plan which provides that, in addition to stock options, grants of restricted stock, stock appreciation rights and other forms of equity compensation consistent with the Plan may be made. Annual grants may not exceed two percent of the total shares of outstanding common stock. In general, options granted and outstanding vest over three to five years and expire ten years from the date of grant. At March 31, 2008, there were 778,139 shares available for future grant under the Plan.

Stock compensation expense under SFAS No. 123R reduced income before taxes approximately \$323,000 and \$329,000 for the three months ended March 31, 2008 and 2007, respectively. These expenses are included in SG&A expenses in the accompanying Condensed Statements of Consolidated Income. Total unrecognized compensation cost related to non-vested share based compensation arrangements at March 31, 2008 was approximately \$2.3 million, which will be recognized over the next four years.

Exercisable at March 31, 2008	330,694	\$ 12.89	8.03	\$ 79,367

In addition, at March 31, 2008 the Company has 60,000 shares of restricted stock outstanding. The intrinsic value of a stock option is the amount by which the market value of the underlying stock exceeds the exercise price of the option. The total intrinsic value of the options exercised during the three months ended March 31, 2008 and 2007 was approximately \$26,000 and \$345,000, respectively.

**Income Taxes**

On January 1, 2007, the Company adopted FASB Interpretation No. 48, Accounting for Uncertainty in Income Taxes an interpretation of FASB Statement No. 109 ( FIN 48 ). FIN 48 prescribes a recognition threshold and measurement process for recording in the financial statements uncertain tax positions taken or expected to be taken in a tax return. Additionally, FIN 48 provides guidance on derecognition, classification, interest and penalties, accounting in interim periods, disclosure and transition for uncertain tax positions.

The Company recognizes accrued amounts of interest and penalties related to its uncertain tax positions as part of its income tax expense within its consolidated statements of income.

As of December 31, 2007, the total amount of gross unrecognized tax benefits was \$1,880,000 of which \$1,431,000 would reduce the Company's effective tax rate. The amount of accrued interest expense as a liability within the Company's consolidated financial position at December 31, 2007 was \$279,000. No material changes have occurred in the liability for unrecognized tax benefits during the three months ended March 31, 2008. The Company does not expect any significant changes to its unrecognized tax benefit balance over the next twelve months.

As of March 31, 2008, the Company and its significant subsidiaries are subject to examination for years after 2003 in Brazil, Canada, United States and certain states within the United States. The Company is also subject to examinations after 2004 in France, United Kingdom and remaining states within the United States.

Unaudited****Segment Information**

The Company's business units have separate management teams and offer different products and services. Using the criteria of SFAS No. 131, Disclosures about Segments of an Enterprise and Related Information, these business units have been aggregated into four reportable business segments. These include three manufacturing segments encompassing a diverse mix of plastic and rubber products: 1) Material Handling - North America, 2) Automotive and Custom, and 3) Lawn and Garden. The fourth segment is Distribution of tire, wheel, and undervehicle service products. The aggregation of operating business segments is based on management by the chief operating decision maker for the segment as well as similarities of products, production processes, distribution methods and economic characteristics.

Operating income for each business segment is based on net sales less cost of products sold, and the related selling, administrative and general expenses. In computing business segment operating income, general corporate overhead expenses and interest expenses are not included.

**Part I Financial Information****Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations****Results of Operations: First Quarter 2008 versus 2007****Amounts in millions****Net Sales from Continuing Operations:**

Segment	2008	2007	Change	% Change
Lawn & Garden	\$ 92.4	\$ 93.9	\$(1.5)	(2)%
Material Handling	\$ 72.7	\$ 66.5	\$ 6.2	9%
Distribution	\$ 44.5	\$ 46.4	\$(1.9)	(4)%
Auto & Custom	\$ 46.4	\$ 45.2	\$ 1.2	3%
Inter-segment elimination	\$ (6.6)	\$ (5.5)	\$ 1.1	20%
<b>TOTAL</b>	<b>\$249.3</b>	<b>\$246.5</b>	<b>\$ 2.9</b>	<b>1%</b>

Net sales for the quarter ended March 31, 2008 were \$249.3 million, an increase of 1% from the \$246.5 million reported in the first quarter of 2007. Current quarter sales received the benefit of full quarter contributions from the acquisitions of ITML Horticultural Products (ITML), which was completed in January 2007, and Schoeller Arca Systems, Inc. North America (SASNA) which was completed in March 2007.

Net sales in the Lawn and Garden segment for the quarter ended March 31, 2008 were down 2% compared with the first quarter of 2007. Sales in the first quarter of 2008 were adversely impacted by timing shifts for purchases in the grower markets reflecting ongoing supply chain adjustments to retail merchandising programs. In addition, sales in the first quarter of 2008 reflect a slower start to the season due to extended colder weather in many parts of the U.S. market which impacts the ordering and stocking of plant material at retailers. In the Material Handling segment sales, increased \$6.2 million in the first quarter of 2008, an increase of 9% as compared to the prior year period. The increase reflects favorable product mix of reusable container systems in agriculture, certain manufacturing niches and catalog markets which offset the impact of volume declines in general industrial, automotive and other sectors as customers delayed purchases of capital intensive transport packaging due to economic concerns.

Net sales in the Distribution segment decreased \$1.9 million or 4% in the first quarter of 2008 compared to the prior year. Sales performance reflected soft sales of replacement passenger and truck tires, the impact of higher fuel prices on miles driven, lower freight carriage and retreading needs for long haul trucks and reduced service needs for heavy equipment tires due to the downturn in housing construction. In the Auto and Custom segment, net sales for the quarter ended March 31, 2008 increased \$1.2 million, or 3% compared to the prior year, as higher selling prices and gains in niche custom molding markets offset volume declines in automotive and heavy truck markets.

**Cost of Sales & Gross Profit from Continuing Operations:**

Cost of Sales and Gross Profit	2008	2007
Cost of sales	\$ 189.4	\$ 172.7
Gross profit	\$ 60.0	\$ 73.8
Gross profit as a percentage of sales	24.0%	29.9%

Cost of sales increased approximately 10% to \$189.4 million in the quarter ended March 31, 2008 while gross profit decreased to \$60.0 million compared to \$73.8 million in the first quarter of 2007. Gross profit margin declined to 24.0% in the quarter ended March 31, 2008 compared with 29.9% in the prior year. The decline in gross profit and margin was primarily due to significantly higher raw material costs, particularly for plastic resins. Prices for high-density polyethylene and polypropylene resins were approximately 35% higher in the first quarter of 2008 compared to the first quarter of 2007. General economic weakness and the resulting competitive pressures on selling prices and unfavorable sales mix also contributed to the reduction in gross profit margins.

**Table of Contents****Selling, General and Administrative ("SG&A") Expenses from Continuing Operations:**

SG&A Expenses	2008	2007	Change
SG&A expenses	\$43.2	\$46.8	\$(3.6)
SG&A expenses as a percentage of sales	17.3%	19.0%	(1.7)%

Selling and administrative expenses for the quarter ended March 31, 2008 were \$43.2 million, a decrease of \$3.6 million or 8% compared with the prior year. This decrease reflects the ongoing impact of cost control initiatives and operating expenses in the prior year that included approximately \$1.2 million of restructuring expenses and foreign currency transaction losses related to the acquisition of ITML.

**Interest Expense from Continuing Operations:**

	2008	2007	Change	% Change
Net Interest Expense	\$ 3.0	\$ 3.6	\$(0.6)	(17)%
Interest expense	\$ 199.6	\$ 266.7	\$(67.1)	(25)%
Outstanding borrowings	4.71%	5.80%	(1.09)	(19)%
Average borrowing rate				

Net interest expense for the quarter ended March 31, 2008 was \$3.0 million, a decrease of 17% compared to \$3.6 million in the prior year. The decrease was the result of lower average borrowing levels and lower interest rates in the current quarter.

**Income Before Taxes from Continuing Operations:**

Segment	2008	2007	Change	% Change
Lawn & Garden	\$ 8.1	\$10.8	\$(2.7)	(25)%
Material Handling	\$ 8.6	\$14.9	\$(6.3)	(42)%
Distribution	\$ 3.3	\$ 4.5	\$(1.2)	(26)%
Auto & Custom	\$ 1.5	\$ 2.7	\$(1.2)	(44)%
Corporate and interest	\$(7.8)	\$(9.5)	\$ 1.7	(18)%
<b>TOTAL</b>	<b>\$13.8</b>	<b>\$23.4</b>	<b>\$(9.6)</b>	<b>(41)%</b>

Income before taxes was \$13.8 million in the first quarter of 2008, a decrease of 41% compared with the \$23.4 million reported in the first quarter of 2007. Key factors affecting current year income include lower volumes due to softness in the economy and lower gross profit margins due to significantly higher raw material costs.

Income before taxes in the Lawn and Garden segment declined 25% from \$10.8 million in the first quarter of 2007 to \$8.1 million in the first quarter of 2008. Reduced sales volumes and significantly higher raw material costs were the primary reasons for the decline in profitability in this segment and more than offset approximately \$2.8 million in purchase accounting and foreign currency transaction losses experienced in the first quarter of 2007. Income before taxes in the Material Handling segment was down 42% from \$14.9 million in the first quarter of 2007 to \$8.6 million in 2008. The key factors affecting Material Handling profitability for the first quarter of 2008 were significantly higher raw material costs and lower sales volume on higher value packaging systems.

Income before taxes in the Distribution segment was \$3.3 million for the first quarter of 2008, a decrease of 26% as compared to the \$4.5 million reported in the first quarter of 2007. Lower sales volume and unfavorable product mix were the primary reasons for the decline in profitability. Income before taxes in the Auto & Custom segment was \$1.5 million in the first quarter of 2008, a decrease of 44% as compared to \$2.7 million in first quarter of 2007. Higher prices for rubber and plastic raw materials combined with reduced sales volume on higher margin products were the key factors influencing current quarter profitability in this segment.

**Income Taxes from Continuing Operations:**

Consolidated Income Taxes	2008	2007

Edgar Filing: MYERS INDUSTRIES INC - Form 10-Q

Income before taxes	\$13.8	\$23.4
Income taxes	\$ 5.1	\$ 8.7

---

**Table of Contents**

Income tax expense as a percentage of pretax income increased slightly to 37.2% for the quarter ended March 31, 2008 compared to 37.0% in the prior year. The increase is attributable to changes in the mix of domestic and foreign composition of income before taxes between years and the related foreign tax rate differences.

**Liquidity and Capital Resources:**

Cash used for operating activities of continuing operations was \$9.3 million for the quarter ended March 31, 2008, compared with cash provided by operating activities of \$9.2 million in the prior year quarter. This decrease of \$18.5 million was primarily attributable to an increase of \$15 million in cash used for working capital. Income from continuing operations for the quarter ended March 31, 2008 was \$8.6 million, a decrease of \$6.1 million compared with \$14.7 million in 2007. The Company's working capital changes in the first quarter are significantly impacted by the seasonal nature of sales in the Lawn and Garden segment which increased working capital in the first quarter. As a result, working capital changes for the quarter ended March 31, 2008 included cash used of \$20.7 million from an increase in accounts receivable, partially offset by a decrease in inventories which provided \$6.1 million of working capital. Changes in accounts payable and accrued expenses used working capital of \$13.7 million, primarily due to payment of income taxes related to the \$35 million termination fee received from GS Capital Partners in the fourth quarter of 2007.

During the quarter ended March 31, 2008, cash increased \$1.7 million from net proceeds received in connection with the settlement of certain contingencies related to the Company's discontinued operations. Capital expenditures were approximately \$3.0 million in the quarter and are expected to be in the range of \$15 million to \$25 million for the year. Total debt at March 31, 2008 was approximately \$200 million compared with \$170.9 million at December 31, 2007. The increased borrowing was used to pay dividends and fund capital expenditures and other operating activities. The company's credit Agreement provides available borrowing up to \$250 million and, as of March 31, 2008, the Company had approximately \$160.5 million available under this agreement. Management believes that cash flows from operations and available borrowing under its Credit Agreement will be sufficient to meet expected business requirements, including capital expenditures, dividends, working capital and debt service.

**Item 3. Quantitative and Qualitative Disclosure About Market Risk**

The Company has financing arrangements that require interest payments based on floating interest rates. As such, the Company's financial results are subject to changes in the market rate of interest. Our objective in managing the exposure to interest rate changes is to limit the volatility and impact of rate changes on earnings while maintaining the lowest overall borrowing cost. At present, the Company has not entered into any interest rate swaps or other derivative instruments to fix the interest rate on any portion of its financing arrangements with floating rates. Accordingly, based on current debt levels at March 31, 2008, if market interest rates increase one percent, the Company's interest expense would increase approximately \$895,000 annually.

Some of the Company's subsidiaries operate in foreign countries and, as such, their financial results are subject to the variability that arises from exchange rate movements. Based on the acquisition of ITML, the Company's exposure to foreign currency fluctuations has increased, primarily due to sales made from businesses in Canada to customers in the United States denominated in U.S. dollars. In addition, the Company's subsidiary in Brazil has loans denominated in U.S. dollars. In the fourth quarter of 2007, the Company began a systematic hedging program to limit its exposure to fluctuations in exchange rates related to its operations in Canada and Brazil, however, as of March 31, 2008, the Company had no foreign currency hedges in place.

The Company uses certain commodities, primarily plastic resins, in its manufacturing processes. As such, the cost of operations is subject to fluctuation as the market for these commodities changes. The Company monitors this risk but currently has no derivative contracts to hedge this risk; however, the Company also has no significant purchase obligations to purchase fixed quantities of such commodities in future periods.

**Item 4. Controls and Procedures**

The Company maintains disclosure controls and procedures that are designed to ensure that information required to be disclosed in the Company's reports under the Securities Exchange Act of 1934, as amended, is recorded, processed, summarized and reported within the time periods specified in the Commission's rules and forms and that such information is accumulated and communicated to the Company's management, including its Chief Executive Officer and Chief Financial Officer, as appropriate, to allow for timely decisions regarding required disclosure. In designing and evaluating the disclosure controls and procedures, management recognizes that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives, and management is required to apply its judgment in evaluating the cost-benefit relationship of possible controls and procedures.

The Company carries out a variety of on-going procedures, under the supervision and with the participation of the Company's management, including the Company's Chief Executive Officer and Chief Financial Officer, to evaluate the effectiveness of the design and operation of the Company's disclosure controls and procedures. Based on the foregoing, the Company's Chief Executive Officer and Chief Financial Officer concluded that the Company's disclosure controls and procedures were effective at a reasonable assurance level as of the end of the period covered by this report.

There has been no change in the Company's internal controls over financial reporting during the Company's most recent fiscal quarter that has materially affected, or is reasonably likely to materially affect, the Company's internal controls over financial reporting.
