ABERCROMBIE & FITCH

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

1. BASIS OF PRESENTATION

Abercrombie & Fitch Co. (A&F), through its wholly-owned subsidiaries (collectively, A&F and its wholly-owned subsidiaries are referred to as the Company), is a specialty retailer of high-quality, casual apparel for men, women, boys and girls with an active, youthful lifestyle.

The accompanying condensed consolidated financial statements include the historical financial statements of, and transactions applicable to, the Company and reflect its assets, liabilities, results of operations and cash flows.

The Company's fiscal year ends on the Saturday closest to January 31. Fiscal years are designated in the condensed consolidated financial statements and notes by the calendar year in which the fiscal year commences. All references herein to Fiscal 2008 represent the 52-week fiscal year that will end on January 31, 2009, and to Fiscal 2007 represent the 52-week fiscal year that ended February 2, 2008.

In accordance with Statement of Financial Accounting Standards (SFAS) No. 131, *Disclosures about Segments of an Enterprise and Related Information*, (SFAS No. 131), the Company determines its operating segments on the same basis that it uses to evaluate performance internally. The operating segments identified by the Company include Abercrombie & Fitch, abercrombie, Hollister, RUEHL and Gilly Hicks. The operating segments have been aggregated and are reported as one reportable financial segment. RUEHL and Gilly Hicks were determined to be immaterial for segment reporting purposes, and are therefore included in the one reportable segment as they have similar economic characteristics and meet the majority of the aggregation criteria in paragraph 17 of SFAS No. 131. The Company aggregates its operating segments because they have similar economic characteristics and meet the aggregation criteria set forth in paragraph 17 of SFAS No. 131. The Company believes its operating segments may be aggregated for financial reporting purposes because they are similar in each of the following areas: class of consumer, economic characteristics, nature of products, nature of production processes and distribution methods. Revenues relating to the Company's international operations for the thirteen and twenty-six weeks ended August 2, 2008 and August 4, 2007 and long-lived assets relating to the Company's international operations as of August 2, 2008 and February 2, 2008 were not material and were not reported separately from domestic revenues and long-lived assets.

The condensed consolidated financial statements as of August 2, 2008 and for the thirteen and twenty-six week periods ended August 2, 2008 and August 4, 2007 are unaudited and are presented pursuant to the rules and regulations of the Securities and Exchange Commission (SEC). Accordingly, these condensed consolidated financial statements should be read in conjunction with the consolidated financial statements and notes thereto contained in A&F's Annual Report on Form 10-K for Fiscal 2007 filed on March 28, 2008. The year-end condensed consolidated balance sheet data were derived from audited consolidated financial statements, but do not include all disclosures required by accounting principles generally accepted in the United States of America.

In the opinion of management, the accompanying condensed consolidated financial statements reflect all adjustments (which are of a normal recurring nature) necessary to present fairly the financial position and results of operations and cash flows for the interim periods, but are not necessarily indicative of the results of operations to be anticipated for Fiscal 2008.

In connection with the Company's adoption of Financial Accounting Standards Board (FASB) Interpretation No. 48, *Accounting for Uncertainty in Income Taxes - An Interpretation of FASB Statement No. 109* (FIN 48) on February 4, 2007, a \$2.8 million cumulative effect adjustment was recorded as a reduction to beginning of the year retained earnings. The Company's unrecognized tax benefits as of February 4, 2007 were reclassified from current taxes payable to other long-term liabilities.

The Condensed Consolidated Financial Statements as of August 2, 2008 and for the thirteen and twenty-six week periods ended August 2, 2008 and August 4, 2007 included herein have been reviewed by PricewaterhouseCoopers LLP, an independent registered public accounting firm, and the report of such firm follows the notes to the condensed consolidated financial statements.

PricewaterhouseCoopers LLP is not subject to the liability provisions of Section 11 of the Securities Act of 1933 (the Act) for their report on the condensed consolidated financial statements because their report is not a report or a part of a registration statement prepared or certified by PricewaterhouseCoopers LLP within the meaning of Sections 7 and 11 of the Act.

2. SHARE-BASED COMPENSATION

The Company accounts for share-based compensation under the provisions of SFAS No. 123 (revised 2004), *Share-Based Payment* (SFAS No. 123(R)), which requires share-based compensation related to stock options to be measured based on estimated fair values at the date of grant using an option-pricing model.

Financial Statement Impact

The following table summarizes share-based compensation expense (in thousands):

	Thirteen Weeks Ended		Twenty-Six Weeks Ended	
	August 2, 2008	August 4, 2007	August 2, 2008	August 4, 2007
Stores and distribution expense	\$ 774	\$ 454	\$ 1,542	\$ 527
Marketing, general and administrative expense	10,438	7,686	20,353	12,834
Share-based compensation expense	\$ 11,212	\$ 8,140	\$ 21,895	\$ 13,361

The Company also recognized \$4.3 million and \$8.2 million in tax benefits related to share-based compensation for the thirteen and twenty-six week periods ended August 2, 2008, respectively, and \$3.1 million and \$5.1 million in tax benefits related to share-based compensation for the thirteen and twenty-six week periods ended August 4, 2007, respectively,

The Company adjusts share-based compensation expense on a quarterly basis for actual forfeitures and for changes to the estimate of expected award forfeitures based on actual forfeiture experience. The effect of adjustments for forfeitures during the thirteen and twenty-six week periods ended August 2, 2008 and August 4, 2007 was immaterial.

A&F issues shares of Class A Common Stock (Common Stock) for stock option exercises and restricted stock unit vestings from treasury stock. As of August 2, 2008, A&F had enough treasury stock available to cover stock options and restricted stock units outstanding without having to repurchase additional shares.

Fair Value Estimates

The Company estimates the fair value of stock options granted using the Black-Scholes option-pricing model, which requires the Company to estimate the expected term of the stock option grants and expected future stock price volatility over the expected term. Estimates of the expected term, which represents the expected period of time the Company believes the stock options will be outstanding, are based on historical experience. Estimates of expected future stock price volatility are based on the volatility of A&F's Common Stock price for the most recent historical period equal to the expected term of the stock option. The Company calculates the volatility as the annualized standard deviation of the differences in the natural logarithms of the weekly stock closing price, adjusted for stock splits and dividends.

The weighted-average estimated fair value of stock options granted during the twenty-six weeks ended August 2, 2008 and August 4, 2007, as well as the assumptions used in calculating such values on the date of grant, were as follows:

	Twenty-Six Weeks Ended August 2, 2008	Twenty-Six Weeks Ended August 4, 2007
Exercise price	\$ 78.48	\$ 73.92
Fair value	\$ 19.72	\$ 22.68

Assumptions:

Price volatility	30%	34%
Expected term (years)	4	4
Risk-free interest rate	2.5%	4.5%
Dividend yield	0.9%	1.0%

In the case of restricted stock units, the Company calculates the fair value of the restricted stock units granted as the market price of the underlying Common Stock on the date of grant adjusted for expected dividend payments during the vesting period.

Stock Option Activity

Below is the summary of stock option activity for the twenty-six weeks ended August 2, 2008:

Stock Options	Number of Shares	Weighted-Average Exercise Price	Aggregate Intrinsic Value	Weighted-Average Remaining Contractual Life
Outstanding at February 2, 2008	7,738,112	\$ 41.03		
Granted	379,200	78.48		
Exercised	(1,299,622)	42.53		
Forfeited or cancelled	(11,300)	62.72		
Outstanding at August 2, 2008	6,806,390	\$ 42.80	\$ 194,390,482	2.9
Options expected to vest at August 2, 2008	713,195	\$ 71.60	\$ 2,446,818	7.5

Options exercisable at August 2, 2008	5,962,477	\$	38.67	\$ 191,702,476	2.2
---------------------------------------	-----------	----	-------	----------------	-----

The total intrinsic value of stock options exercised during the twenty-six weeks ended August 2, 2008 and August 4, 2007 was \$36.7 million and \$40.6 million, respectively.

The fair value of stock options vested during the twenty-six weeks ended August 2, 2008 and August 4, 2007 was \$4.4 million and \$4.1 million, respectively.

As of August 2, 2008, there was \$16.0 million of total unrecognized compensation cost, net of estimated forfeitures, related to stock options. The unrecognized cost is expected to be recognized over a weighted-average period of 1.4 years.

Restricted Stock Unit and Restricted Share Activity

Below is the summary of restricted stock unit and restricted share activity for the twenty-six weeks ended August 2, 2008:

	Number of	Weighted-Average Grant
Restricted Stock Units / Restricted Shares	Shares	Date Fair Value
Non-vested at February 2, 2008	2,354,871	\$ 48.02
Granted	638,565	\$ 76.11
Vested	(328,469)	\$ 55.13
Forfeited	(47,260)	\$ 67.88
Non-vested at August 2, 2008	2,617,707	\$ 53.63

The total fair value of restricted stock units granted during the twenty-six weeks ended August 2, 2008 and August 4, 2007 was \$48.6 million and \$40.1 million, respectively.

The total fair value of restricted stock units and restricted shares vested during the twenty-six weeks ended August 2, 2008 and August 4, 2007 was \$18.1 million and \$12.3 million, respectively.

As of August 2, 2008, there was \$92.2 million of total unrecognized compensation cost, net of estimated forfeitures, related to non-vested restricted stock units and restricted shares. The unrecognized cost is expected to be recognized over a weighted-average period of 1.5 years.

3. NET INCOME PER SHARE

Net income per share is computed in accordance with SFAS No. 128, *Earnings Per Share*. Net income per basic share is computed based on the weighted-average number of outstanding shares of Common Stock. Net income per diluted share includes the weighted-average effect of dilutive stock options and restricted stock units.

Weighted-Average Shares Outstanding (in thousands):

	Thirteen Weeks Ended		Twenty-Six Weeks Ended	
	August 2, 2008	August 4, 2007	August 2, 2008	August 4, 2007
Shares of Common Stock issued	103,300	103,300	103,300	103,300
Treasury shares	(16,458)	(15,210)	(16,712)	(15,313)
Basic shares outstanding	86,842	88,090	86,588	87,987
Dilutive effect of stock options and restricted stock units	3,121	4,204	3,463	4,382

Diluted shares outstanding	89,963	92,294	90,051	92,369
----------------------------	--------	--------	--------	--------

Stock options to purchase approximately 1.4 million and 18,000 shares of Common Stock during the thirteen week periods ended August 2, 2008 and August 4, 2007, respectively, and approximately 1.3 million shares of Common Stock during the twenty-six week period ended August 2, 2008, were outstanding, but were not included in the computation of net income per diluted share because the impact of such stock options would be anti-dilutive. For the twenty-six week period ended August 4, 2007, all stock options outstanding were included in the computation of net income per diluted share.

4. CASH AND EQUIVALENTS AND INVESTMENTS

Cash and equivalents and investments consisted of (in thousands):

	August 2, 2008	February 2, 2008
Cash and equivalents:		
Cash	\$ 80,342	\$ 74,753
Money market funds	220,700	43,291
Total cash and equivalents	301,042	118,044
Marketable Securities:		
Auction rate securities student loan backed	219,859	258,355
Auction rate securities municipal authority bonds	51,558	272,131
Total marketable securities	271,417	530,486
Rabbi trust assets: ⁽¹⁾		
Money market funds	1,989	1,350
Municipal notes and bonds	18,012	18,599
Trust-owned life insurance policies (at cash surrender value)	30,453	31,306
Total rabbi trust assets	50,454	51,255
Total cash and equivalents and investments	\$ 622,913	\$ 699,785

⁽¹⁾ Rabbi trust assets are included in other assets on the Condensed Consolidated Balance Sheets.

Investments with original maturities greater than 90 days are accounted for in accordance with SFAS No. 115, *Accounting for Certain Investments in Debt and Equity Securities*, and are classified accordingly by the Company at the time of purchase. At August 2, 2008 and February 2, 2008, the Company's marketable securities consisted of investment grade auction rate securities (ARS) invested in insured student loan backed securities and insured municipal authority bonds, with maturities ranging from 11 to 34 years, all classified as available-for-sale.

Despite the underlying long-term maturity of ARS, such securities had historically been priced and subsequently traded as short-term investments because of an interest-rate reset feature, which reset through a Dutch auction process at predetermined periods ranging from seven to 35 days. Due to the frequent nature of the reset feature, ARS were classified as current assets and reported at par, which approximated fair value, as of February 2, 2008.

On February 13, 2008, the Company began to experience failed auctions. Based on the failure rate of these auctions and the overall lack of liquidity in the ARS market, the Company determined that the ARS should be

classified as non-current assets on the Condensed Consolidated Balance Sheet and that the estimated fair value of the ARS no longer approximated par value. The Company used a discounted cash flow model to determine the estimated fair value of these investments as of August 2, 2008. See Note 5, *Fair Value* for further discussion on the valuation of the ARS.

For the thirteen and twenty-six week periods ended August 2, 2008, the Company recorded an unrealized gain of \$0.9 million and an unrealized loss of \$17.9 million, respectively, all related to ARS and was included as a component of accumulated other comprehensive loss on the Condensed Consolidated Balance Sheet. The Company deemed the unrealized loss to be temporary because the Company does not plan to sell any of the ARS prior to maturity at an amount below the original purchase value and, at this time, does not deem it probable that it will receive less than 100% of the

principal and accrued interest from the issuers. The securities will continue to accrue interest and be auctioned until one of the following: the auction succeeds; the issuer calls the securities; or the securities mature. There were no unrealized gains or losses on ARS for the thirteen and twenty-six week periods ended August 4, 2007.

As of August 2, 2008, approximately 62% of the Company's ARS were AAA rated and approximately 36% of the Company's ARS were AA with the remaining ARS having an A- rating, as rated by one or more of the major credit rating agencies.

The irrevocable rabbi trust (the Rabbi Trust) is a source of funds intended to be used to match respective funding obligations to participants in the Abercrombie & Fitch Nonqualified Savings and Supplemental Retirement Plan and the Chief Executive Officer Supplemental Executive Retirement Plan. The Rabbi Trust assets are consolidated in accordance with Emerging Issues Task Force Issue No. 97-14, *Accounting for Deferred Compensation Agreements Where Amounts Earned Are Held in a Rabbi Trust and Invested* (EITF 97-14) and recorded at fair value, with the exception of the trust-owned life insurance which is recorded at cash surrender value, in other assets on the Condensed Consolidated Balance Sheets. Net unrealized gains and losses related to the Rabbi Trust were immaterial for the thirteen and twenty-six week periods ended August 2, 2008 and August 4, 2007, respectively.

5. FAIR VALUE

Effective February 3, 2008, the Company adopted SFAS No. 157, *Fair Value Measurements* (SFAS No. 157), for financial assets and liabilities and any other assets or liabilities measured at fair value on a recurring basis. SFAS No. 157 defines fair value, establishes a framework for measuring fair value and expands disclosures about instruments measured at fair value. SFAS No. 157 defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. SFAS No. 157 also establishes a three-level hierarchy for fair value measurements, which prioritizes valuation inputs as follows:

Level 1 inputs are unadjusted quoted prices for identical assets or liabilities that are available in active markets.

Level 2 inputs are other than quoted market prices included within Level 1 that are observable for assets or liabilities, directly or indirectly.

Level 3 inputs to the valuation methodology are unobservable.

The lowest level of significant input determines the placement of the entire fair value measurement in the hierarchy. The three levels of the hierarchy and the distribution of the Company's financial assets within it are as follows:

Assets at Fair Value as of August 2, 2008 (in thousands)				
	Level 1	Level 2	Level 3	Total
Money market funds ⁽¹⁾	\$ 222,689	\$	\$	\$ 222,689
Auction rate securities			271,417	271,417
Municipal bonds held in the Rabbi Trust	18,012			18,012
Total assets at fair value	\$ 240,701	\$	\$ 271,417	\$ 512,118

- (1) Includes
\$220.7 million
in money
market funds
included in cash
and equivalents
and \$2.0 million
of money
market funds
held in the
Rabbi Trust,
which are
included in
other assets on
the Condensed
Consolidated
Balance Sheet.

The level 3 assets are investments in federally insured student loan backed securities and insured municipal authority bonds ARS and were transferred from Level 2 in the first quarter of Fiscal 2008 as a result of a change in market conditions. As a result of the market failure and lack of liquidity in the current ARS market, ARS were valued using a discounted cash flow model to determine the estimated fair value of these securities as of August 2, 2008. Some of the inputs into the model are unobservable in the market and are significant. The assumptions used in preparing the model include, but are not limited to, periodic coupon rates, market required rate of return and expected term. The coupon rate is estimated using the results of a regression analysis factoring in historical data on the par swap rate and the maximum coupon rate paid in the event of failure. In making the assumption of the required rate of return, the Company considers risk-free interest rate and credit spread. The expected term is identified as the time the principal becomes available to the investor. The principal can become available under three different scenarios: (1) the assumed coupon rate is above the required rate of return and the ARS is assumed to be called, (2) the market has returned to normal and auctions have recommenced; and (3) the principal has reached maturity. The Company also includes a marketability discount which takes into account the lack of liquidity in the current ARS market.

The table below includes a roll forward of the Company's investments in ARS from February 2, 2008 to August 2, 2008, and the reclassification of these investments from Level 2 to Level 3 in the hierarchy. When a determination is made to classify a financial instrument within Level 3, the determination is based upon the lack of significance of the observable parameters to the overall fair value measurement. However, the fair value determination for Level 3 financial instruments may include observable components.

	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Auction Rate Securities: (in thousands):		
Fair value, February 2, 2008	\$ 530,486	\$
Purchases	49,411	
Redemptions	(242,955)	(47,608)
Transfers (out)/in	(336,942)	336,942
Unrealized losses		(17,917)
Fair value, August 2, 2008	\$	\$ 271,417

Also effective February 3, 2008, the Company adopted SFAS No. 159, *The Fair Value Option for Financial Assets and Financial Liabilities-Including an amendment of FASB Statement No. 115* (SFAS No. 159). SFAS No. 159 permits companies to measure many financial instruments and certain other assets and liabilities at fair value on an instrument by instrument basis. The Company has elected not to apply the fair value option to its existing financial assets and liabilities, and accordingly, there was no financial statement impact from the adoption of SFAS No. 159.

6. INVENTORIES

Inventories are principally valued at the lower of average cost or market utilizing the retail method. The Company determines market value as the anticipated future selling price of the merchandise less a normal margin. Therefore, an initial markup is applied to inventory at cost in order to establish a cost-to-retail ratio. Permanent markdowns, when taken, reduce both the retail and cost components of inventory on hand so as to maintain the already established cost-to-retail relationship. The inventory balance was \$470.7 million, \$333.2 million and \$431.4 million at

August 2, 2008, February 2, 2008 and August 4, 2007, respectively.

The fiscal year is comprised of two principal selling seasons: Spring (the first and second fiscal quarters) and Fall (the third and fourth fiscal quarters). The Company classifies its inventory into three categories: spring fashion, fall fashion and basic. The Company reduces inventory valuation at the end of the first and third quarters to reserve for projected inventory markdowns required to sell through the current season inventory prior to the beginning of the following season. Additionally, the Company reduces inventory at season end by recording a valuation reserve that represents the estimated future selling price decreases necessary to sell through the remaining carryover fashion inventory for the season just passed. The valuation reserve was \$3.3 million, \$5.4 million and \$8.2 million at August 2, 2008, February 2, 2008 and August 4, 2007, respectively.

Further, as part of inventory valuation, inventory shrinkage estimates, based on historical trends from actual physical inventories, are made that reduce the inventory value for lost or stolen items. The Company performs physical inventories throughout the year and adjusts the shrink reserve accordingly. The shrink reserve was \$10.3 million, \$11.5 million and \$8.1 million at August 2, 2008, February 2, 2008 and August 4, 2007, respectively.

7. PROPERTY AND EQUIPMENT, NET

Property and equipment, net, consisted of (in thousands):

	August 2, 2008	February 2, 2008
Property and equipment, at cost	\$ 2,227,013	\$ 2,054,275
Accumulated depreciation and amortization	(828,921)	(735,984)
Property and equipment, net	\$ 1,398,092	\$ 1,318,291

8. DEFERRED LEASE CREDITS

Deferred lease credits are derived from payments received from landlords to partially offset store construction costs and are classified between current and long-term liabilities. The amounts, which are amortized over the life of the related leases, consisted of the following (in thousands):

	August 2, 2008	February 2, 2008
Deferred lease credits	\$ 508,322	\$ 471,498
Amortized deferred lease credits	(238,813)	(219,834)
Total deferred lease credits, net	\$ 269,509	\$ 251,664

9. INCOME TAXES

The provision for income taxes is based on the current estimate of the annual effective tax rate adjusted to reflect the impact of items discrete to the thirteen weeks ended August 2, 2008. The effective tax rate for the thirteen weeks ended August 2, 2008 was 38.1% as compared to 36.6% for the Fiscal 2007 comparable period. The effective tax rate in the twenty-six weeks ended August 2, 2008 was 37.5% as compared to 37.1% for the Fiscal 2007 comparable period.

Cash payments of income taxes made during the thirteen weeks ended August 2, 2008 and August 4, 2007 were approximately \$49.0 million and \$40.7 million, respectively. Cash payments of income taxes made during the

twenty-six weeks ended August 2, 2008 and August 4, 2007 were approximately \$138.6 million and \$130.3 million, respectively.

The Company has recorded a valuation allowance against the deferred tax assets arising from the net operating loss of a foreign subsidiary and on the temporary impairment of ARS included in other comprehensive loss. As of August 2, 2008 and February 2, 2008, the valuation allowance totaled \$7.5 million and \$0.9 million, respectively. No other valuation allowances have been provided for deferred tax assets because management believes that it is more likely than not that the full amount of the net deferred tax assets will be realized in the future.

10. LONG-TERM DEBT

On April 15, 2008, the Company entered into a syndicated unsecured credit agreement (the "New Credit Agreement") under which up to \$450 million will initially be available. The New Credit Agreement replaces the Credit Agreement, dated as of November 14, 2002, as amended and restated as of December 15, 2004 (the "Original Credit Agreement"), which had been due to expire on December 15, 2009. The primary purposes of the New Credit Agreement are for trade and stand-by letters of credit in the ordinary course of business as well as working capital, capital expenditures, acquisitions and investments, and other general corporate purposes. During the life of the New Credit Agreement, the Company is permitted to make multiple requests for additional credit commitments in an aggregate amount not to exceed \$150 million.

The New Credit Agreement has several borrowing options, including interest rates that are based on (i) a Base Rate, payable quarterly, or (ii) an Adjusted Eurodollar Rate (as defined in the New Credit Agreement) plus a margin based on a Leverage Ratio, payable at the end of the applicable interest period for the borrowing. The Base Rate represents a rate per annum equal to the higher of (a) National City Bank's then publicly announced prime rate or (b) the Federal Funds Effective Rate (as defined in the New Credit Agreement) as then in effect plus $\frac{1}{2}$ of 1%. The facility fees payable under the New Credit Agreement are based on the Company's Leverage Ratio (i.e., the ratio on a consolidated basis, of (a) the sum of total debt (excluding trade letters of credit) plus 600% of forward minimum rent commitments to (b) consolidated earnings before interest, taxes, depreciation, amortization and rent for the trailing four-consecutive-fiscal-quarter periods. The facility fees are projected to accrue at a rate of 0.125% per annum. In addition, a utilization fee is payable under the New Credit Agreement when the aggregate credit facility exposure, excluding trade letters of credit, exceeds 50% of the total lender commitments then in effect, at a rate per annum equal to 0.100% of the aggregate credit facility exposure for each day it is at such a level.

The New Credit Agreement contains limitations, subject to negotiated carve-outs, on indebtedness, liens, significant corporate changes including mergers and acquisition transactions with third parties, investments, loans, advances and guarantees in or for the benefit of third parties, hedge agreements, restricted payments (including dividends and stock repurchases) and transactions with affiliates. The New Credit Agreement will mature on April 12, 2013. Trade letters of credit totaling approximately \$60.3 million and \$61.6 million were outstanding on August 2, 2008 and February 2, 2008, respectively. Standby letters of credit totaling approximately \$16.2 million and \$14.5 million were outstanding on August 2, 2008 and February 2, 2008, respectively. The standby letters of credit are set to expire primarily during the fourth quarter of Fiscal 2008. To date, no beneficiary has drawn upon the standby letters of credit.

As of August 2, 2008, the Company had \$100.0 million outstanding under the New Credit Agreement, classified as a current liability on the Company's Condensed Consolidated Balance Sheet. The average interest rate for the second quarter of Fiscal 2008 was 2.9%. No borrowings were outstanding as of February 2, 2008 under the Original Credit Agreement.

11. CONTINGENCIES

A&F is a defendant in lawsuits arising in the ordinary course of business.

On June 23, 2006, *Lisa Hashimoto, et al. v. Abercrombie & Fitch Co. and Abercrombie & Fitch Stores, Inc.*, was filed in the Superior Court of the State of California for the County of Los Angeles. In that action, plaintiffs alleged, on behalf of a putative class of California store managers employed in Hollister and abercrombie stores, that they were entitled to receive overtime pay as non-exempt employees under California wage and hour laws. The complaint seeks injunctive relief, equitable relief, unpaid overtime compensation, unpaid benefits, penalties, interest and attorneys' fees and costs. The defendants answered the complaint on August 21, 2006, denying liability. On December 10, 2007, the defendants reached an agreement in principle with plaintiffs' counsel. The agreement resulted in a written Stipulation and Settlement Agreement, effective as of February 7, 2008, settling all claims of Hollister and abercrombie store managers who served in stores from June 23, 2002 until April 30, 2004. On June 23, 2008, the Superior Court approved that proposed partial settlement. The partial settlement does not affect claims which are alleged to have arisen in the period commencing on April 30, 2004. The parties are continuing to litigate these claims.

On September 2, 2005, a purported class action, styled *Robert Ross v. Abercrombie & Fitch Company, et al.*, was filed against A&F and certain of its officers in the United States District Court for the Southern District of Ohio on behalf of a purported class of all persons who purchased or acquired shares of A&F's Common Stock between June 2, 2005 and August 16, 2005. In September and October of 2005, five other purported class actions were subsequently filed against A&F and other defendants in the same Court. All six securities cases allege claims under the federal securities laws, and seek unspecified monetary damages, as a result of a decline in the price of A&F's Common Stock during the summer of 2005. On November 1, 2005, a motion to consolidate all of these purported class actions into the first-filed case was filed by some of the plaintiffs. A&F joined in that motion. On March 22, 2006, the motions to consolidate were granted, and these actions (together with the federal court derivative cases described in the following paragraph) were consolidated for purposes of motion practice, discovery and pretrial proceedings. A consolidated amended securities class action complaint (the "Complaint") was filed on August 14, 2006. On October 13, 2006, all defendants moved to dismiss that Complaint. On August 9, 2007, the Court denied the motions to dismiss. On September 14, 2007, defendants filed answers denying the material allegations of the Complaint and asserting affirmative defenses. On October 26, 2007, plaintiffs moved to certify their purported class. The motion has not been fully briefed or submitted.

On September 16, 2005, a derivative action, styled *The Booth Family Trust v. Michael S. Jeffries, et al.*, was filed in the United States District Court for the Southern District of Ohio, naming A&F as a nominal defendant and seeking to assert claims for unspecified damages against nine of A&F's present and former directors, alleging various breaches of the directors' fiduciary duty and seeking equitable and monetary relief. In the following three months (October, November and December of 2005), four similar derivative actions were filed (three in the United States District Court for the Southern District of Ohio and one in the Court of Common Pleas for Franklin County, Ohio) against present and former directors of A&F alleging various breaches of the directors' fiduciary duty and seeking equitable and monetary relief. A&F is also a nominal defendant in each of the four later derivative actions. On November 4, 2005, a motion to consolidate all of the federal court derivative actions with the purported securities law class actions described in the preceding paragraph was filed. On March 22, 2006, the motion to consolidate was granted, and the federal court derivative actions have been consolidated with the aforesaid purported securities law class actions for purposes of motion practice, discovery and pretrial proceedings. A consolidated amended derivative complaint was filed in the federal proceeding on July 10, 2006. A&F filed a motion to stay the consolidated federal derivative case and that motion

was granted. The state court action was also stayed. On February 16, 2007, A&F announced its Board of Directors received a report of the Special Litigation Committee established by the Board to investigate and act with respect to claims asserted in certain previously disclosed derivative lawsuits brought against current and former directors and management, including Chairman and Chief Executive Officer Michael S. Jeffries. The Special Litigation Committee has concluded that there is no evidence to support the asserted claims and directed the Company to seek dismissal of the derivative actions. On September 10, 2007, the Company moved to dismiss the federal derivative cases on the authority of the Special Litigation Committee report and on October 18, 2007, the state court stayed further proceedings until resolution of the consolidated federal derivative cases. The Company's motion has not been fully briefed or submitted.

Management intends to defend the aforesaid matters vigorously, as appropriate. Management is unable to quantify the potential exposure of the aforesaid matters. However, management's assessment of the Company's current exposure could change in the event of the discovery of additional facts with respect to legal matters pending against the Company or determinations by judges, juries or other finders of fact that are not in accordance with management's evaluation of the claims.

12. RECENTLY ISSUED ACCOUNTING PRONOUNCEMENTS

In February 2008, the FASB issued FASB Staff Position (FSP) 157-2 (FSP 157-2) that partially defers the effective date of SFAS No. 157 for one year for non-financial assets and liabilities that are recognized or disclosed at fair value in the financial statements on a non-recurring basis. Consequently, SFAS No. 157 will be effective for the Company on February 1, 2009 for non-financial assets and liabilities that are recognized or disclosed at fair value on a non-recurring basis. The Company is currently evaluating the potential impact of adopting FSP 157-2 on the Company's consolidated results of operations and consolidated financial condition.

In March 2008, the FASB issued SFAS No. 161, *Disclosures about Derivative Instruments and Hedging Activities - an amendment of FASB Statement No. 133* (SFAS No. 161) which changes the disclosure requirements for derivative instruments and hedging activities. SFAS No. 161 requires enhanced disclosures about (a) how and why an entity uses derivative instruments, (b) how derivative instruments and related hedged items are accounted for under SFAS No. 133, *Accounting for Derivative Instruments and Hedging Activities* and its related interpretations, and (c) how derivative instruments and related hedged items affect an entity's financial position, financial performance, and cash flows. SFAS No. 161 will be effective for the Company on February 1, 2009. The Company is currently evaluating the potential impact of adopting SFAS No. 161 on the disclosures in the Company's consolidated financial statements.

In May 2008, the FASB issued SFAS No. 162, *The Hierarchy of Generally Accepted Accounting Principles* (SFAS No. 162). SFAS No. 162 identifies the sources of accounting principles and the framework for selecting the principles to be used in the preparation of financial statements of nongovernmental entities that are presented in conformity with generally accepted accounting principles in the United States of America. SFAS No. 162 is effective sixty days following the SEC's approval of PCAOB amendments to AU Section 411, *The Meaning of Present fairly in conformity with generally accepted accounting principles* . The Company is currently evaluating the potential impact, if any, of the adoption of SFAS No. 162 on its consolidated financial statements.

Report of Independent Registered Public Accounting Firm

To the Board of Directors and
Shareholders of Abercrombie & Fitch Co.:

We have reviewed the accompanying condensed consolidated balance sheet of Abercrombie & Fitch Co. and its subsidiaries as of August 2, 2008, and the related condensed consolidated statements of net income and comprehensive income for each of the thirteen and twenty-six week periods ended August 2, 2008 and August 4, 2007 and the condensed consolidated statement of cash flows for the twenty-six week periods ended August 2, 2008 and August 4, 2007. These interim financial statements are the responsibility of the Company's management.

We conducted our review in accordance with the standards of the Public Company Accounting Oversight Board (United States). A review of interim financial information consists principally of applying analytical procedures and making inquiries of persons responsible for financial and accounting matters. It is substantially less in scope than an audit conducted in accordance with the standards of the Public Company Accounting Oversight Board (United States), the objective of which is the expression of an opinion regarding the financial statements taken as a whole.

Accordingly, we do not express such an opinion.

Based on our review, we are not aware of any material modifications that should be made to the accompanying condensed consolidated interim financial statements for them to be in conformity with accounting principles generally accepted in the United States of America.

We previously audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the consolidated balance sheet as of February 2, 2008, and the related consolidated statements of net income and comprehensive income, of shareholders' equity, and of cash flows for the year then ended (not presented herein), and in our report dated March 28, 2008, we expressed an unqualified opinion on those consolidated financial statements. In our opinion, the information set forth in the accompanying condensed consolidated balance sheet as of February 2, 2008, is fairly stated in all material respects in relation to the consolidated balance sheet from which it has been derived.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

OVERVIEW

The Company's fiscal year ends on the Saturday closest to January 31. Fiscal years are designated in the condensed consolidated financial statements and notes by the calendar year in which the fiscal year commences. All references herein to Fiscal 2008 represent the 52-week fiscal year that will end on January 31, 2009, and to Fiscal 2007 represent the 52-week fiscal year that ended February 2, 2008.

The Company is a specialty retailer that operates stores and websites selling casual sportswear apparel, including knit and woven shirts, graphic t-shirts, fleece, jeans and woven pants, shorts, sweaters, outerwear, personal care products and accessories for men, women, boys and girls under the Abercrombie & Fitch, abercrombie, Hollister and RUEHL brands. In addition, the Company operates stores under the Gilly Hicks brand offering bras, underwear, personal care products, sleepwear and at-home products for women.

Abercrombie & Fitch is rooted in the essence of privilege and casual luxury. Abercrombie and Fitch is a combination of classic and sexy creating an atmosphere that is confident and just a bit provocative. abercrombie directly follows in the footsteps of its older sibling, Abercrombie & Fitch. abercrombie has an energetic attitude and is popular, wholesome and athletic—the signature of All-American cool. Hollister is young, spirited, with a sense of humor and brings Southern California to the world. RUEHL personifies the post-grad that has arrived in Greenwich Village, New York City to live the dream. RUEHL embraces its culture and artistic nature and defines the aspirational New York City lifestyle. Gilly Hicks is the cheeky cousin of Abercrombie & Fitch, inspired by the free spirit of Sydney, Australia. Gilly Hicks is classic and vibrant, always confident and is the All-American brand with a Sydney sensibility.

RESULTS OF OPERATIONS

During the second quarter of Fiscal 2008, net sales increased 5% to \$845.8 million from \$804.5 million in the second quarter of Fiscal 2007. Operating income decreased to \$124.0 million in the second quarter of Fiscal 2008 from \$124.1 million in the second quarter of Fiscal 2007. Net income decreased to \$77.8 million in the second quarter of Fiscal 2008 compared to \$81.3 million in the second quarter of Fiscal 2007. Net income per diluted weighted-average share decreased 1% to \$0.87, including \$0.01 related to expenses associated with the departure of a senior executive, in the second quarter of Fiscal 2008 compared to \$0.88 in the second quarter of Fiscal 2007.

Due to seasonal variations in the retail industry, the results of operations for any current period are not necessarily indicative of the results expected for the full fiscal year or of future financial results. The seasonality of the Company's operations may also lead to significant fluctuations in certain asset and liability accounts.

The following data represents the amounts shown in the Company's condensed consolidated statements of income for the thirteen and twenty-six week periods ended August 2, 2008 and August 4, 2007, expressed as a percentage of net sales:

	Thirteen Weeks Ended		Twenty-Six Weeks Ended	
	August 2, 2008	August 4, 2007	August 2, 2008	August 4, 2007
NET SALES	100.0%	100.0%	100.0%	100.0%
Cost of Goods Sold	29.9%	31.2%	31.5%	32.7%
GROSS PROFIT	70.1%	68.8%	68.5%	67.3%
Stores and Distribution Expense	42.6%	41.6%	42.7%	41.5%
Marketing, General and Administrative Expense	12.9%	12.2%	13.0%	12.2%
Other Operating Income, Net	(0.1)%	(0.4)%	(0.2)%	(0.5)%
OPERATING INCOME	14.7%	15.4%	13.0%	14.0%
Interest Income, Net	(0.2)%	(0.5)%	(0.6)%	(0.5)%
INCOME BEFORE INCOME TAXES	14.9%	15.9%	13.6%	14.5%
Provision for Income Taxes	5.7%	5.8%	5.1%	5.4%
NET INCOME	9.2%	10.1%	8.5%	9.1%

Financial Summary

The following summarized financial and statistical data compares the thirteen and twenty-six week periods ended August 2, 2008 to the thirteen and twenty-six week periods ended August 4, 2007:

	Thirteen Weeks Ended			Twenty-Six Weeks Ended		
	August 2, 2008	August 4, 2007	% Change	August 2, 2008	August 4, 2007	% Change

table above.

CURRENT TRENDS AND OUTLOOK

Hampered by tough macroeconomic conditions, the second quarter selling environment continued to be challenging, particularly as the Company moved into the back-to-school selling period. This is a trend the Company expects will persist throughout the Fall Season. The Company began the Fall season with net sales of \$405.5 million for the four-week period ended August 30, 2008, a 5% decrease from net sales of \$425.4 million for the four-week period ended September 1, 2007. August comparable store sales decreased 11%.

Despite the negative impact on sales, the Company sees the current selling environment as an opportunity to create further separation from its competition and to position its brands for long-term sustainable growth.

The Company differentiates its brands by combining the highest quality, trend-right merchandise with an exceptional store environment that stimulates the senses and creates an emotional connection with its customers. The Company believes it is this approach that has allowed it to produce highly productive iconic brands that are globally recognized. Therefore, the Company will continue to elevate the quality of merchandise, invest in the store environment and increase prices where the quality and iconic status dictate. Moreover, the Company will avoid using promotions to drive top-line growth, a disciplined approach which is critical to sustaining its aspirational brand positioning.

The Company is also moving forward on its international expansion strategy which offers significant top and bottom line long-term growth potential. The Company will continue to make investments in people, systems and real estate to support international store operations in a number of European and Asian countries. A new lease deal was finalized during the second quarter for an Abercrombie and Fitch and abercrombie location in Milan, Italy to open in late 2009. This is in addition to flagship openings already planned for 2009, including Hollister SoHo in late spring, abercrombie New York in late fall, Abercrombie and Fitch Copenhagen, Denmark in mid-fall, and Abercrombie and Fitch Tokyo, Japan in late fall. The Company will monitor the early results of the international expansion efforts in 2009 and 2010, and over the next five years.

SECOND QUARTER RESULTS

Net Sales

Net sales for the second quarter of Fiscal 2008 were \$845.8 million, an increase of 5% over net sales of \$804.5 million during the second quarter of Fiscal 2007. The net sales increase was attributed to a combination of the net addition of 97 stores, a 23% increase in the direct-to-consumer business, partially offset by a 4% decrease in comparable store sales.

Abercrombie & Fitch comparable store sales increased 3%, with women's comparable store sales decreasing by a mid single-digit and men's comparable store sales increasing by a mid teen. Abercrombie comparable store sales decreased 11%, with boys posting a low single-digit decrease and girls posting a mid teen decrease. Hollister comparable store sales decreased 9%, with bettys declining by a low teen and dudes posting a mid single-digit increase. RUEHL comparable store sales decreased 22%, with women's comparable store sales decreasing by mid thirties and men's comparable store sales decreasing by a mid single-digit.

Comparable store sales were strongest in flagship and U.S.-based tourist stores. Regionally, excluding flagship and tourist stores, comparable store sales were strongest in the Southwest and weakest in the Midwest region.

From a merchandise classification standpoint, across all brands, stronger performing masculine categories included tops, shorts, denim and fragrance, while graphic tees were weaker. In the feminine businesses, across all brands, stronger performing categories included denim and fragrance, while knit tops, pants and woven shorts and skirts were weaker.

Direct-to-consumer net merchandise sales, which are sold through the Company's websites, for the second quarter of Fiscal 2008 were \$55.9 million, an increase of 23% over Fiscal 2007 second quarter net merchandise sales of \$45.6 million. Shipping and handling revenue for the corresponding periods was \$9.9 million in Fiscal 2008 and \$7.7 million in Fiscal 2007. The direct-to-consumer business, including shipping and handling revenue, accounted for 7.8% of total net sales in the second quarter of Fiscal 2008 compared to 6.6% in the second quarter of Fiscal 2007. This increase was driven by store expansion, global brand recognition and continued improvement in targeted e-mail marketing and website functionality.

Gross Profit

Gross profit for the second quarter of Fiscal 2008 was \$593.0 million compared to \$553.4 million for the comparable period in Fiscal 2007. The gross profit rate (gross profit divided by net sales) for the second quarter of Fiscal 2008 was 70.1%, up 130 basis points from the second quarter of Fiscal 2007 rate of 68.8%. The increase in the gross profit rate reflects an improved initial markup rate, primarily driven by price increases in select categories, sourcing benefits and London premium pricing.

Stores and Distribution Expense

Stores and distribution expense for the second quarter of Fiscal 2008 was \$360.7 million compared to \$334.4 million for the comparable period in Fiscal 2007. The stores and distribution expense rate (stores and distribution expense divided by net sales) for the second quarter of Fiscal 2008 was 42.6% compared to 41.6% in the second quarter of Fiscal 2007. The increase in the stores and distribution expense rate resulted primarily from the Company's inability to leverage fixed expenses due to a negative 4% comparable store sales and additional direct expenses related to flagship pre-opening rent expenses, partially offset by a lower store payroll expense rate. The Company was able to reduce store payroll hours to a level that more than offset the minimum wage increase in the second quarter of Fiscal 2008 and resulted in an overall decrease in the store payroll expense rate.

Distribution center productivity, as measured in units processed per labor hour (UPH), increased 8% during the second quarter of Fiscal 2008 as compared to the second quarter of Fiscal 2007.

Marketing, General and Administrative Expense

Marketing, general and administrative expense during the second quarter of Fiscal 2008 was \$109.0 million compared to \$98.4 million during the same period in Fiscal 2007. For the second quarter of Fiscal 2008, the marketing, general and administrative expense rate (marketing, general and administrative expense divided by net sales) was 12.9% compared to 12.2% for the second quarter of Fiscal 2007. The increase in the rate was driven by expenses associated with continued investment in home office resources and IT infrastructure necessary for international expansion and expenses associated with the departure of a senior executive in the second quarter of Fiscal 2008.

Other Operating Income, Net

Second quarter other operating income for Fiscal 2008 was \$0.8 million compared to \$3.6 million for the second quarter of Fiscal 2007. The decrease was related primarily to lower gift card income for which the Company has determined the likelihood of redemption to be remote and losses related to foreign currency transactions in the second quarter of Fiscal 2008 compared to gains related to foreign currency transactions in the comparable period in Fiscal 2007.

Operating Income

Operating income for the second quarter of Fiscal 2008 decreased to \$124.0 million from \$124.1 million in the comparable period of Fiscal 2007. The operating income rate (operating income divided by net sales) was 14.7% for the second quarter of Fiscal 2008 compared to 15.4% for the second quarter of Fiscal 2007.

Interest Income, Net and Income Tax Expense

Second quarter net interest income was \$1.8 million in Fiscal 2008 compared to \$4.1 million in the second quarter of Fiscal 2007. The decrease in net interest income was due to a lower average rate of return on investments, primarily due to a reallocation of the investment portfolio and the addition of net interest expense from borrowings under the New Credit Agreement.

The effective tax rate for the thirteen weeks ended August 2, 2008 was 38.1% as compared to 36.6% for the Fiscal 2007 comparable period. The effective tax rate for the second quarter in Fiscal 2007 reflects the favorable impact from the settlement of tax audits.

Net Income and Net Income per Share

Net income for the second quarter of Fiscal 2008 was \$77.8 million versus \$81.3 million in the comparable period of Fiscal 2007. Net income per diluted weighted-average share outstanding for the second quarter of Fiscal 2008 was \$0.87, which includes \$0.01 impact related to charges associated with the departure of a senior executive, versus \$0.88 for the same period of Fiscal 2007, a decrease of 1%.

YEAR-TO-DATE RESULTS

Net Sales

Year-to-date net sales in Fiscal 2008 were \$1.646 billion, an increase of 6% over net sales of \$1.547 billion for the comparable period of Fiscal 2007. The net sales increase was attributed to the combination of the net addition of 97 stores and a 33% increase in the direct-to-consumer business, partially offset by a 4% decrease in comparable store sales.

Year-to-date comparable store sales by brand were as follows: Abercrombie & Fitch increased 3%, abercrombie decreased 9%, Hollister decreased 9% and RUEHL decreased 20%. Additionally, the women's, girls' and bettys businesses remained more significant than the men's, boys' and dudes'. Year-to-date, the female business represented over 60% of total Company net sales.

Direct-to-consumer net merchandise sales, which are sold through the Company's websites, for the year-to-date period of Fiscal 2008 were \$118.4 million, an increase of 33% over the Fiscal 2007 comparable period net merchandise sales of \$89.1 million. Shipping and handling revenue for the corresponding periods was \$20.5 million in Fiscal 2008 and \$14.3 million in Fiscal 2007. The direct-to-consumer business, including shipping and handling revenue, accounted for 8.4% of net sales for the Fiscal 2008 year-to-date period compared to 6.7% in the Fiscal 2007 year-to-date period. This increase was driven by store expansion, global brand recognition and continued improvement in targeted e-mail marketing and website functionality.

Gross Profit

Year-to-date gross profit in Fiscal 2008 was \$1.127 billion compared to \$1.041 billion for the comparable period in Fiscal 2007. The gross profit rate for the year-to-date period of Fiscal 2008 was 68.5% versus 67.3% for the year-to-date period of Fiscal 2007, up 120 basis points. The increase in the gross profit rate reflects an improved initial markup rate primarily driven by price increases in select departments, sourcing benefits and London premium pricing.

Stores and Distribution Expense

Stores and distribution expense for the Fiscal 2008 year-to-date period was \$702.5 million compared to \$642.7 million for the comparable period in Fiscal 2007. The stores and distribution expense rate was 42.7% compared to 41.5% in the corresponding period of Fiscal 2007. The increase in rate resulted primarily from the Company's negative 4% comparable store sales, minimum wage increases, and direct expenses related to flagship pre-opening rent expenses. Distribution center productivity, as measured in UPH, increased by 10% during the year-to-date period of Fiscal 2008 as compared to the corresponding period of Fiscal 2007.

Marketing, General and Administrative Expense

Marketing, general and administrative expense for the Fiscal 2008 year-to-date period was \$213.7 million compared to \$188.6 million during the same period in Fiscal 2007. The marketing, general and administrative expense rate was 13.0% compared to 12.2% for the year-to-date period of Fiscal 2007. The increase in the rate was driven by expenses associated with continued investment in home office resources and IT infrastructure necessary for international expansion, and the expenses associated with the departure of a senior executive in the second quarter of Fiscal 2008.

Other Operating Income, Net

Year-to-date other operating income for Fiscal 2008 was \$3.7 million compared to \$7.4 million for the comparable period of Fiscal 2007. The decrease was primarily related to lower income related to gift cards for which the Company has determined the likelihood of redemption to be remote and losses related to foreign currency transactions in the first and second quarters of Fiscal 2008 compared to gains related to foreign currency transactions in the comparable periods in Fiscal 2007.

Operating Income

For the Fiscal 2008 year-to-date period, operating income was \$214.6 million compared to \$216.8 million for the Fiscal 2007 comparable period. The operating income rate for the Fiscal 2008 year-to-date period was 13.0% compared to 14.0% for the Fiscal 2007 comparable period.

Interest Income, Net and Income Tax Expense

Year-to-date net interest income for Fiscal 2008 was \$9.4 million compared to \$7.9 million for the Fiscal 2007 comparable period. The increase in net interest income was due to higher interest rates and investment balances during the first quarter of Fiscal 2008, partially offset by lower average interest rates on investment balances and the addition of net interest expense from borrowings under the New Credit Agreement in the second quarter of Fiscal 2008.

The effective tax rate for the twenty-six weeks ended August 2, 2008 was 37.5% as compared to 37.1% for the Fiscal 2007 comparable period. The effective tax rate for the year-to-date period of Fiscal 2008 reflects the favorable impact of higher tax-exempt interest income. The effective tax rate for the year-to-date period of Fiscal 2007 reflects the favorable impact from the settlement of tax audits.

Net Income and Net Income per Share

For the Fiscal 2008 year-to-date period, net income was \$139.9 million compared to \$141.4 million for the comparable period in Fiscal 2007. Fiscal 2008 year-to-date net income per diluted weighted-average share outstanding was \$1.55 versus \$1.53 for the comparable period of Fiscal 2007, an increase of 1%.

FINANCIAL CONDITION

Liquidity and Capital Resources

The Company expects that substantially all future operations, including projected growth, seasonal requirements and capital expenditures will be funded with cash from operations. The Company has \$350 million available (less outstanding letters of credit) under its New Credit Agreement, as described in Note 10, *Long-Term Debt* of the Condensed Consolidated Financial Statements. Furthermore, the Company expects that cash from operating activities will fund dividends currently being paid at a rate of \$0.175 per share per quarter. The Board of Directors will review the Company's cash position and results of operations and address the appropriateness of future dividend amounts. A summary of the Company's working capital position and capitalization follows (in thousands):

	August 2, 2008	February 2, 2008
Working capital	\$ 397,995	\$ 597,142
Capitalization:		
Shareholders' equity	\$ 1,745,645	\$ 1,618,313

As of August 2, 2008, the decrease in working capital was primarily driven by the reclassification of \$271.4 million in investments in federally insured student loan backed securities and insured municipal authority bonds auction rate securities (ARS) from current assets to non-current assets.

The ARS have maturities ranging from 11 to 34 years. Despite the underlying long-term maturity of ARS, such securities have been historically priced and subsequently traded as short-term investments because of an interest-rate reset feature, which reset through a Dutch auction process at predetermined periods ranging from seven to 35 days. Due to the frequent nature of the reset feature, ARS were classified as current assets and reported at par, which approximated fair value, as of February 2, 2008.

On February 13, 2008, the Company began to experience failed auctions. Based on the failure rate of these auctions, the frequency of the failures and the overall lack of liquidity in the ARS market, the Company determined that the ARS should be classified as non-current assets on the Condensed Consolidated Balance Sheet as of August 2, 2008 and that the estimated fair value of the ARS no longer approximated par value.

The Company does not believe that failures in the ARS market will have a material impact on the Company's overall liquidity. The Company expects that substantially all future operations, including projected growth, seasonal requirements and capital expenditures will be funded with cash from operations. Additionally, as of August 2, 2008, the Company has \$350 million available, less outstanding letters of credit, under its unsecured New Credit Agreement to support operations.

Operating Activities

Net cash provided by operating activities, the Company's primary source of liquidity, totaled \$71.8 million for the twenty-six weeks ended August 2, 2008 versus \$154.1 million for the comparable period in Fiscal 2007. Cash was provided by net income adjusted for non-cash items including depreciation and amortization, amortization of deferred lease credits and share-based compensation and collection of lessor construction allowances. Cash was used primarily to fund income taxes payable and purchase inventory. The increase in cash used to purchase inventory in Fiscal 2008 was driven by purchases of basic inventory, such as denim and polos in response to the uptrend in these businesses. The net cash benefit provided in Fiscal 2007 related to other assets and liabilities was the result of the implementation of FIN 48.

Investing Activities

Cash inflows from investing activities were generated by sales of marketable securities. Cash outflows for investing activities were for purchases of marketable securities and for capital expenditures primarily related to new store construction and other construction in progress (see the discussion in Capital Expenditures and Lessor Construction Allowances). As of August 2, 2008, the Company held \$271.4 million of marketable securities classified as long-term.

Financing Activities

Financing activities for the twenty-six week period ended August 2, 2008 consisted primarily of \$100.0 million related to the borrowing under the New Credit Agreement during the second quarter of Fiscal 2008, \$50.0 million for the repurchase of treasury stock during the first quarter of Fiscal 2008, \$30.0 million for the payment of two \$0.175 per share quarterly dividends paid on March 18, 2008 and June 17, 2008 and \$55.1 million received in connection with stock option exercises.

During the first quarter of Fiscal 2008, A&F repurchased approximately 0.7 million shares of A&F's Common Stock. As of August 2, 2008, approximately 11.3 million shares were available for repurchase as part of the August 15, 2005 and November 20, 2007 A&F Board of Directors' authorizations to repurchase 6.0 million shares and 10.0 million shares, respectively, of A&F's Common Stock.

As of August 2, 2008, the Company has \$350 million available (less outstanding letters of credit) under its unsecured New Credit Agreement. Trade letters of credit totaling approximately \$60.3 million and \$61.6 million were outstanding on August 2, 2008 and February 2, 2008, respectively. Standby letters of credit totaling approximately \$16.2 million and \$14.5 million were outstanding on August 2, 2008 and February 2, 2008, respectively. The standby letters of credit are set to expire primarily during the fourth quarter of Fiscal 2008. To date, no beneficiary has drawn upon the standby letters of credit.

The Company has \$100.0 million outstanding under the New Credit Agreement on August 2, 2008 and no borrowings outstanding under the Original Credit Agreement on February 2, 2008.

Off-Balance Sheet Arrangements

As of August 2, 2008, the Company did not have any off-balance sheet arrangements.

Contractual Obligations

The Company's contractual obligations consist primarily of letters of credit outstanding, operating leases, purchase orders for merchandise inventory, unrecognized tax benefits, certain retirement obligations, lease deposits and other agreements to purchase goods and services that are legally binding and that require minimum quantities to be purchased. These contractual obligations impact the Company's short- and long-term liquidity and capital resource needs. As of August 2, 2008, there had been no material changes in the Company's contractual obligations from those as of February 2, 2008, other than those which occur in the normal course of business (primarily changes in the Company's merchandise inventory-related purchases and lease obligations, which fluctuate throughout the year as a result of the seasonal nature of the Company's operations) and the \$100.0 million the Company borrowed under its New Credit Agreement in the second quarter of Fiscal 2008.

Second Quarter Store Count and Gross Square Feet

Store count and gross square footage by brand for the thirteen weeks ended August 2, 2008 and August 4, 2007, respectively, were as follows:

	Abercrombie & Fitch	abercrombie	Hollister	RUEHL	Gilly Hicks	Total

30

Capital Expenditures and Lessor Construction Allowances

Capital expenditures totaled \$200.2 million and \$202.5 million for the twenty-six week periods ended August 2, 2008 and August 4, 2007, respectively. Additionally, the non-cash accrual for construction in progress decreased \$13.6 million for the twenty-six week period ended August 2, 2008 compared to an increase of \$12.6 million for the twenty-six week period ended August 4, 2007. Capital expenditures related primarily to new store construction, store remodels and refreshes, and other store related projects. The balance of capital expenditures related to various home office and distribution center projects and, in Fiscal 2007, the purchase of an airplane.

Lessor construction allowances are an integral part of the decision-making process for assessing the viability of new store leases. In making the decision whether to invest in a store location, the Company calculates the estimated future return on its investment based on the cost of construction, less any construction allowances to be received from the landlord. For the twenty-six week periods ended August 2, 2008 and August 4, 2007, the Company received \$28.8 million and \$18.3 million in construction allowances, respectively.

During Fiscal 2008, the Company anticipates capital expenditures between \$405 million and \$410 million.

Approximately \$285 million of this amount is allocated to new store construction and full store remodels.

Approximately \$50 million is expected to be allocated to refresh existing stores. The store refresh will include new floors, sound systems and fixture replacements at Abercrombie & Fitch and abercrombie stores. In addition, the store refresh will include the addition of video walls and the refitting of lighting and shelving to accommodate the rollout of the personal care product line to Hollister stores. The balance in capital expenditures is allocated for home office infrastructure, information technology and distribution center investments.

By the end of Fiscal 2008, the Company plans to increase gross square footage by 9% to 10% over Fiscal 2007.

Domestically, the Company anticipates the addition of approximately two new Abercrombie & Fitch stores, 10 new abercrombie stores, 63 new Hollister stores, six new RUEHL stores and 10 new Gilly Hicks stores. The Company also plans to open two new abercrombie stores and three new Hollister stores in Canada. Additionally, the Company plans to open three new Hollister stores in the United Kingdom.

During Fiscal 2008, the Company expects the average construction cost per square foot, net of construction allowances, for new stores to be approximately \$203, \$174, \$147, \$260 and \$388 per store for Abercrombie & Fitch, abercrombie, Hollister, RUEHL and Gilly Hicks, respectively. The Company expects initial inventory purchases for the stores to average approximately \$0.4 million, \$0.2 million, \$0.3 million, \$0.5 million, \$0.6 million per store for Abercrombie & Fitch, abercrombie, Hollister, RUEHL and Gilly Hicks, respectively.

The Company expects that substantially all future capital expenditures will be funded with cash from operations and landlord construction allowances. In addition, the Company has \$350 million available (less outstanding letters of credit) under its New Credit Agreement to support operations.

Critical Accounting Policies and Estimates

The Company's discussion and analysis of its financial condition and results of operations are based upon the Company's condensed consolidated financial statements which have been prepared in accordance with accounting principles generally accepted in the United States of America. The preparation of these condensed consolidated financial statements requires the Company to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenues and expenses. Since actual results may differ from those estimates, the Company revises its estimates and assumptions as new information becomes available.

The Company's significant accounting policies can be found in Note 2 of the Notes to Consolidated Financial Statements contained in ITEM 8. FINANCIAL STATEMENTS AND SUPPLEMENTARY DATA of A&F's Annual Report on Form 10-K for Fiscal 2007 filed on March 28, 2008. The Company believes the following policies are the most critical to the portrayal of the Company's financial condition and results of operations.

Revenue Recognition The Company recognizes retail sales at the time the customer takes possession of the merchandise. Direct-to-consumer sales are recorded upon customer receipt of merchandise. Amounts relating to shipping and handling billed to customers in a sale transaction are classified as revenue and the related direct shipping and handling costs are classified as stores and distribution expense. Associate discounts are classified as a reduction of revenue. The Company reserves for sales returns through estimates based on historical experience and various other assumptions that management believes to be reasonable. The sales return reserve was \$9.3 million, \$10.7 million and \$10.0 million at August 2, 2008, February 2, 2008 and August 4, 2007, respectively.

The Company's gift cards do not expire or lose value over periods of inactivity. The Company accounts for gift cards by recognizing a liability at the time a gift card is sold. The liability remains on the Company's books until the earlier of redemption (recognized as revenue) or when the Company determines the likelihood of redemption is remote (recognized as other operating income). The Company determines the probability of the gift card being redeemed to be remote based on historical redemption patterns and recognizes the remaining balance as other operating income. At August 2, 2008 and February 2, 2008, the gift card liability on the Company's Condensed Consolidated Balance Sheets was \$47.2 million and \$68.8 million, respectively. The Company is not required by law to escheat the value of unredeemed gift cards to the states in which it operates.

Auction Rate Securities As a result of the market failure and lack of liquidity in the current ARS market, ARS are valued using a discounted cash flow model to determine the estimated fair value. Some of the inputs into the model are unobservable in the market and are significant. The assumptions used in preparing the model include, but are not limited to, periodic coupon rates, market required rate of return and term. The coupon rate is estimated using the results of a regression analysis factoring in historical data on the par swap rate and the maximum coupon rate paid in the event of failure. In making the assumption of the required rate of return, the Company considers the risk-free interest rate and credit spread. The expected term is identified as the time the principal becomes available to the investor. The principal can become available under three different scenarios: (1) the assumed coupon rate is above the required rate of return and the ARS is assumed to be called, (2) the market has returned to normal and auctions have recommenced; and (3) the principal has reached maturity. The Company also includes a marketability discount which takes into account the lack of liquidity in the current ARS market.

The use of the discounted cash flow model resulted in a temporary impairment recorded as an unrealized loss of \$17.9 million taken as a component of accumulated other comprehensive loss. Assuming all other assumptions disclosed in Note 5, *Fair Value* of the Notes to Condensed Consolidated Financial Statements, being equal, a 50 basis point increase in the risk free interest rate will yield a 2% decrease in fair value and a 50 basis point decrease in the risk free interest rate will yield a 2% increase in fair value.

The Company does not plan to sell any of the ARS prior to maturity at an amount below the original purchase value and at this time does not deem it probable that it will receive less than 100% of the principal at maturity and interest from the issuer. Therefore, no other-than-temporary impairment charge was taken against net income.

Inventory Valuation Inventories are principally valued at the lower of average cost or market utilizing the retail method. The Company determines market value as the anticipated future selling price of the merchandise less a normal margin. An initial markup is applied to inventory at cost in order to establish a cost-to-retail ratio. Permanent markdowns, when taken, reduce both the retail and cost components of inventory on hand so as to maintain the already established cost-to-retail relationship. At first and third fiscal quarter end, the Company reduces inventory value by recording a markdown reserve that represents the estimated future anticipated selling price decreases necessary to sell-through the current season inventory. At second and fourth fiscal quarter end, the Company reduces inventory value by recording a valuation reserve that represents the estimated future selling price decreases necessary to sell-through any remaining carryover inventory from the season just passed. The valuation reserve was \$3.3 million, \$5.4 million and \$8.2 million at August 2, 2008, February 2, 2008 and August 4, 2007, respectively. The valuation reserve at February 2, 2008 reflects the estimated markdowns, at cost, necessary to sell through fashion carryover inventory on-hand at the end of the Fall season.

Additionally, as part of inventory valuation, an inventory shrink estimate is made each period that reduces the value of inventory for lost or stolen items. The Company performs physical inventories throughout the year and adjusts the shrink reserve accordingly. The shrink reserve was \$10.3 million, \$11.5 million and \$8.1 million at August 2, 2008, February 2, 2008 and August 4, 2007, respectively.

Inherent in the retail method calculation are certain significant judgments and estimates including, among others, markdowns and shrinkage, which could significantly impact the ending inventory valuation at cost as well as the resulting gross margins. An increase or decrease in the inventory shrink estimate of 10% would not have a material impact on the Company's results of operations. Management believes this inventory valuation method is appropriate since it preserves the cost-to-retail relationship in ending inventory.

Property and Equipment Depreciation and amortization of property and equipment are computed for financial reporting purposes on a straight-line basis, using service lives ranging principally from 30 years for buildings; the lesser of the useful life of the asset, which ranges from three to 15 years, or the term of the lease for leasehold improvements; the lesser of the useful life of the asset, which ranges from three to seven years, or the term of the lease when applicable for information technology; and three to 20 years for other property and equipment. The cost of assets sold or retired and the related accumulated depreciation or amortization is removed from the accounts with any resulting gain or loss included in net income. Maintenance and repairs are charged to expense as incurred. Major remodels and improvements that extend service lives of the assets are capitalized. Long-lived assets are reviewed at the store level periodically for impairment or whenever events or changes in circumstances indicate that full recoverability of net assets through future cash flows is in question. Factors used in the evaluation include, but are not limited to, management's plans for future operations, recent operating results and projected cash flows.

Income Taxes Income taxes are calculated in accordance with Statement of Financial Accounting Standards (SFAS) No. 109, *Accounting for Income Taxes*, which requires the use of the asset and liability method. Deferred tax assets and liabilities are recognized based on the difference between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases. Deferred tax assets and liabilities are measured using current enacted tax rates in effect for the years in which those temporary differences are expected to reverse. Inherent in the measurement of deferred balances are certain judgments and interpretations of enacted tax law and published guidance with respect to applicability to the Company's operations. A valuation allowance is established against deferred tax assets when it is more likely than not that some portion or all of the deferred tax asset will not be realized. The Company has recorded a valuation

allowance against the deferred tax assets arising from the net operating loss of a foreign subsidiary and on the temporary impairment of ARS included in other comprehensive loss. As of August 2, 2008 and February 2, 2008, the valuation allowance totaled \$7.5 million and \$0.9 million, respectively. No other valuation allowances have been provided for deferred tax assets because management believes that it is more likely than not that the full amount of the net deferred tax assets will be realized in the future. The effective tax rate utilized by the Company reflects management's judgment of the expected tax liabilities within the various taxing jurisdictions.

The provision for income taxes is based on the current estimate of the annual effective tax rate adjusted to reflect the tax impact of items discrete to the quarter. The Company records tax expense or benefit that does not relate to ordinary income in the current fiscal year discretely in the period in which it occurs pursuant to the requirements of APB Opinion No. 28, *Interim Financial Reporting* and FASB Interpretation No. 18, *Accounting for Income Taxes in Interim Periods - an Interpretation of APB Opinion No. 28*. Examples of such types of discrete items include, but are not limited to, changes in estimates of the outcome of tax matters related to prior years, provision-to-return adjustments, tax-exempt income and the settlement of tax audits.

Foreign Currency Translation Some of the Company's international operations use local currencies as the functional currency. In accordance with SFAS No. 52, *Foreign Currency Translation*, assets and liabilities denominated in foreign currencies were translated into U.S. dollars (the reporting currency) at the exchange rate prevailing at the balance sheet date. Equity accounts denominated in foreign currencies were translated into U.S. dollars at historical exchange rates. Revenues and expenses denominated in foreign currencies were translated into U.S. dollars at the monthly average exchange rate for the period. Gains and losses resulting from foreign currency transactions are included in the results of operations; whereas, related translation adjustments and inter-company loans of a long-term investment nature are reported as an element of other comprehensive income in accordance with SFAS No. 130, *Reporting Comprehensive Income*.

Contingencies In the normal course of business, the Company must make continuing estimates of potential future legal obligations and liabilities, which requires the use of management's judgment on the outcome of various issues. Management may also use outside legal advice to assist in the estimating process. However, the ultimate outcome of various legal issues could be different than management estimates, and adjustments may be required.

Equity Compensation Expense The Company's equity compensation expense related to stock options is estimated using the Black-Scholes option-pricing model to determine the fair value of the stock option grants, which requires the Company to estimate the expected term of the stock option grants and expected future stock price volatility over the expected term. Estimates of the expected term, which represents the expected period of time the Company believes the stock options will be outstanding, are based on historical information. Estimates of the expected future stock price volatility are based on the volatility of A&F's Common Stock for the most recent historical period equal to the expected term of the stock option. The Company calculates the historic volatility as the annualized standard deviation of the differences in the natural logarithms of the weekly stock closing price, adjusted for stock splits.

The fair value calculation under the Black-Scholes valuation model is particularly sensitive to changes in the expected term and volatility assumptions. Increases in the expected term or volatility will result in a higher fair valuation of stock option grants. Assuming all other assumptions disclosed in Note 2, *Share-Based Compensation* of the Notes to Condensed Consolidated Financial Statements, being equal, a 10% increase in term will yield a 5% increase in the Black-Scholes valuation, while a 10% increase in volatility will yield an 8% increase in the Black-Scholes valuation. The Company believes that changes in the expected term and volatility would not have a material effect on the Company's results since the number of stock options granted during the periods presented was not material.

Recently Issued Accounting Pronouncements

In February 2008, the FASB issued FASB Staff Position (FSP) 157-2 (FSP 157-2) that partially defers the effective date of SFAS No. 157, *Fair Value Measurements* (SFAS No. 157) for one year for non-financial assets and liabilities that are recognized or disclosed at fair value in the financial statements on a non-recurring basis. Consequently, SFAS No. 157 will be effective for the Company on February 1, 2009 for non-financial assets and liabilities that are recognized or disclosed at fair value on a non-recurring basis. The Company is currently evaluating the potential impact of adopting FSP 157-2 on the Company's consolidated results of operations and consolidated financial condition.

In March 2008, the FASB issued SFAS No. 161, *Disclosures about Derivative Instruments and Hedging Activities* an amendment of FASB Statement No. 133 (SFAS No. 161) which changes the disclosure requirements for derivative instruments and hedging activities. SFAS No. 161 requires enhanced disclosures about (a) how and why an entity uses derivative instruments, (b) how derivative instruments and related hedged items are accounted for under SFAS No. 133, *Accounting for Derivative Instruments and Hedging Activities* and its related interpretations, and (c) how derivative instruments and related hedged items affect an entity's financial position, financial performance, and cash flows. SFAS No. 161 will be effective for the Company on February 1, 2009. The Company is currently evaluating the potential impact, if any, of adopting SFAS No. 161 on disclosures in the Company's consolidated financial statements.

In May 2008, the FASB issued SFAS No. 162, *The Hierarchy of Generally Accepted Accounting Principles* (SFAS No. 162). SFAS No. 162 identifies the sources of accounting principles and the framework for selecting the principles to be used in the preparation of financial statements of nongovernmental entities that are presented in conformity with generally accepted accounting principles in the United States of America. SFAS No. 162 is effective sixty days following the SEC's approval of PCAOB amendments to AU Section 411, *The Meaning of Present fairly in conformity with generally accepted accounting principles* . The Company is currently evaluating the potential impact, if any, of the adoption of SFAS No. 162 on its consolidated financial statements.

Safe Harbor Statement Under the Private Securities Litigation Reform Act of 1995

The Company cautions that any forward-looking statements (as such term is defined in the Private Securities Litigation Reform Act of 1995) contained in this Quarterly Report on Form 10-Q or made by the Company, its management or spokespeople involve risks and uncertainties and are subject to change based on various important factors, many of which may be beyond the Company's control. Words such as estimate, project, plan, believe, expect, anticipate, intend, and similar expressions may identify forward-looking statements.

The following factors, in addition to those included in the disclosure under the heading FORWARD-LOOKING STATEMENTS AND RISK FACTORS in ITEM 1A. RISK FACTORS of A&F's Annual Report on Form 10-K for Fiscal 2007 filed on March 28, 2008, in some cases have affected and in the future could affect the Company's financial performance and could cause actual results for Fiscal 2008 and beyond to differ materially from those expressed or implied in any of the forward-looking statements included in this Quarterly Report on Form 10-Q or otherwise made by management:

- loss of services of skilled senior executive officers;
- ability to hire, train and retain qualified associates;
- changes in consumer spending patterns and consumer preferences;
- ability to develop innovative, high-quality new merchandise in response to changing fashion trends;
- effects on consumer purchases due to a general economic downturn;
- impact of competition and pricing pressures;
- availability and market prices of key raw materials;
- ability of manufacturers to comply with applicable laws, regulations and ethical business practices;
- availability of suitable store locations on appropriate terms;
- currency and exchange risks and changes in existing or potential duties, tariffs or quotas;
- effects of political and economic events and conditions domestically and in foreign jurisdictions in which the Company operates, including, but not limited to, acts of terrorism or war;
- unseasonable weather conditions affecting consumer preferences;
- disruptive weather conditions affecting consumers' ability to shop; and
- effects of capital market conditions.

Future economic and industry trends that could potentially impact revenue and profitability are difficult to predict. Therefore, there can be no assurance that the forward-looking statements included in this Quarterly Report on Form 10-Q will prove to be accurate. In light of the significant uncertainties in the forward-looking statements included herein, the inclusion of such information should not be regarded as a representation by the Company, or any other person, that the objectives of the Company will be achieved. The forward-looking statements herein are based on information presently available to the management of the Company. Except as may be required by applicable law, the Company assumes no obligation to publicly update or revise its forward-looking statements even if experience or future changes make it clear that any projected results expressed or implied therein will not be realized.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

The Company maintains its cash equivalents in financial instruments, primarily money market funds, with original maturities of 90 days or less. The Company also holds investments in investment grade auction rate securities (ARS), all classified as available-for-sale securities as of August 2, 2008, that have maturities ranging from 11 to 34 years. As of August 2, 2008, the Company held approximately \$271.4 million in ARS classified as non-current marketable securities. Approximately \$51.6 million of these securities were invested in insured municipal authority bonds and approximately \$219.9 million were invested in federally insured student loan backed securities.

At February 2, 2008, despite the underlying long-term maturity of ARS, such securities were priced and subsequently traded as short-term investments because of the interest rate reset feature. Interest rates reset through a Dutch auction process at predetermined periods ranging from seven to 35 days. If there are insufficient buyers, the auction is said to fail and the holders are unable to liquidate the investments through auction. A failed auction does not result in a default of the debt instrument. The securities continue to accrue interest and be auctioned until the auction succeeds, the issuer calls the securities, or the securities mature.

On February 13, 2008, the Company began to experience failed auctions. Based on the failure rate of these auctions, the frequency of the failures and the overall lack of liquidity in the ARS market, the Company determined that the ARS should be classified as non-current assets on the Condensed Consolidated Balance Sheet and that the estimated fair value of the ARS no longer approximated par value. The Company used a discounted cash flow model to determine the estimated fair value of these investments as of August 2, 2008.

As of August 2, 2008, the net unrealized loss related to ARS was \$17.9 million, included as a component of accumulated other comprehensive loss on the Condensed Consolidated Balance Sheet. The Company deemed the unrealized loss to be temporary because the Company does not plan to sell any of the ARS prior to maturity at an amount below the original purchase value and, at this time, does not deem it probable that it will receive less than 100% of the principal and accrued interest from the issuers. If it becomes probable that the Company will not receive 100% of the principal and interest as to any of the ARS, the Company will be required to recognize an other-than-temporary impairment charge against net income.

Assuming all other assumptions disclosed in Note 5, *Fair Value* of the Notes to Condensed Consolidated Financial Statements, being equal, a 50 basis point increase in the risk free interest rate will yield a 2% decrease in fair value and a 50 basis point decrease in the risk free interest rate will yield a 2% increase in fair value.

As of August 2, 2008, approximately 62% of the Company's ARS were AAA rated and approximately 36% of the Company's ARS were AA with the remaining ARS having an A- rating, as rated by one or more of the major credit rating agencies. The ratings take into account insurance policies guaranteeing both the principal and accrued interest. Each investment in student loans is fully insured by 1) the U.S. government under the Federal Family Education Loan Program, 2) a private insurer, or 3) a combination of both. The credit ratings may change over time and would be an indicator of the default risk associated with the ARS.

The Company does not believe that the failures in the auction market will have a material impact on the Company's overall liquidity. Additionally, as of August 2, 2008, the Company had \$350 million available, less outstanding letters of credit, under its unsecured New Credit Agreement to support operations.

The irrevocable rabbi trust (the Rabbi Trust), is intended to be used as a source of funds to match respective funding obligations to participants in the Abercrombie & Fitch Nonqualified Savings and Supplemental Retirement Plan and the Chief Executive Officer Supplemental Executive Retirement Plan. As of August 2, 2008, total assets held in the Rabbi Trust were \$50.5 million, which included \$18.0 million of available-for-sale municipal notes and bonds with maturities that ranged from four to six years, trust-owned life insurance policies

with a cash surrender value of \$30.5 million and \$2.0 million held in money market funds. The Rabbi Trust assets are consolidated in accordance with Emerging Issues Task Force Issue No. 97-14, *"Accounting for Deferred Compensation Arrangements Where Amounts Earned are Held in a Rabbi Trust and Invested,"* and recorded at fair value, with the exception of the trust-owned life insurance which is recorded at cash surrender value, in other assets on the Condensed Consolidated Balance Sheet and are restricted as to their use as noted above. Net unrealized gains and losses related to the Rabbi Trust were immaterial for the thirteen and twenty-six week periods ended August 2, 2008 and August 4, 2007, respectively.

The Company does not enter into financial instruments for trading purposes.

As of August 2, 2008, the Company had \$100.0 million in short-term debt outstanding. This borrowing and any future borrowings will bear interest at negotiated rates and would be subject to interest rate risk. As of August 2, 2008, the Company had no long-term debt outstanding.

The Company has exposure to changes in currency exchange rates associated with foreign currency transactions, including inter-company transactions. Such foreign currency transactions are denominated in Euros, Canadian Dollars, Japanese Yen, Danish Kroner, Swiss Francs and British Pounds. The Company has established a program that primarily utilizes foreign currency forward contracts to partially offset the risks associated with the effects of certain foreign currency exposures. Under this program, increases or decreases in foreign currency exposures are partially offset by gains or losses on forward contracts, to mitigate the impact of foreign currency transaction gains or losses. The Company does not use forward contracts to engage in currency speculation.

All outstanding foreign currency forward contracts are marked to market at the end of each fiscal period. The Company's ultimate realized gain or loss with respect to foreign currency fluctuations will depend on the foreign currency exchange rate changes and other factors in effect as the contracts mature.

ITEM 4. CONTROLS AND PROCEDURES

Disclosure Controls and Procedures

A&F maintains disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (the Exchange Act)) that are designed to provide reasonable assurance that information required to be disclosed in the reports that A&F files or submits under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms, and that such information is accumulated and communicated to A&F's management, including the Chairman and Chief Executive Officer of A&F (the principal executive officer) and the Senior Vice President, Finance of A&F (the principal financial officer), as appropriate to allow timely decisions regarding required disclosures. Because of inherent limitations, disclosure controls and procedures, no matter how well designed and operated, can provide only reasonable, and not absolute, assurance that the objectives of disclosure controls and procedures are met.

A&F's management, including the Chairman and Chief Executive Officer of A&F (the principal executive officer) and the Senior Vice President, Finance of A&F (the principal financial officer), evaluated the effectiveness of A&F's design and operation of its disclosure controls and procedures as of the end of the fiscal quarter ended August 2, 2008. Based upon that evaluation, the Chairman and Chief Executive Officer of A&F (the principal executive officer) and the Senior Vice President, Finance of A&F (the principal financial officer) concluded that A&F's disclosure controls and procedures were effective at a reasonable level of assurance as of August 2, 2008, the end of the period covered by this Quarterly Report on Form 10-Q.

Changes in Internal Control Over Financial Reporting

There were no changes in A&F's internal control over financial reporting (as defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) that occurred during A&F's fiscal quarter ended August 2, 2008 that materially affected, or are reasonably likely to materially affect, A&F's internal control over financial reporting.

PART II. OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

A&F is a defendant in lawsuits arising in the ordinary course of business.

On June 23, 2006, Lisa Hashimoto, et al. v. Abercrombie & Fitch Co. and Abercrombie & Fitch Stores, Inc., was filed in the Superior Court of the State of California for the County of Los Angeles. In that action, plaintiffs alleged, on behalf of a putative class of California store managers employed in Hollister and abercrombie stores, that they were entitled to receive overtime pay as non-exempt employees under California wage and hour laws. The complaint seeks injunctive relief, equitable relief, unpaid overtime compensation, unpaid benefits, penalties, interest and attorneys' fees and costs. The defendants answered the complaint on August 21, 2006, denying liability. On December 10, 2007, the defendants reached an agreement in principle with plaintiffs' counsel. The agreement resulted in a written Stipulation and Settlement Agreement, effective as of February 7, 2008, settling all claims of Hollister and abercrombie store managers who served in stores from June 23, 2002 until April 30, 2004. On June 23, 2008, the Superior Court approved that proposed partial settlement. The partial settlement does not affect claims which are alleged to have arisen in the period commencing on April 30, 2004. The parties are continuing to litigate these claims.

On September 2, 2005, a purported class action, styled Robert Ross v. Abercrombie & Fitch Company, et al., was filed against A&F and certain of its officers in the United States District Court for the Southern District of Ohio on behalf of a purported class of all persons who purchased or acquired shares of A&F's Common Stock between June 2, 2005 and August 16, 2005. In September and October of 2005, five other purported class actions were subsequently filed against A&F and other defendants in the same Court. All six securities cases allege claims under the federal securities laws, and seek unspecified monetary damages, as a result of a decline in the price of A&F's Common Stock during the summer of 2005. On November 1, 2005, a motion to consolidate all of these purported class actions into the first-filed case was filed by some of the plaintiffs. A&F joined in that motion. On March 22, 2006, the motions to consolidate were granted, and these actions (together with the federal court derivative cases described in the following paragraph) were consolidated for purposes of motion practice, discovery and pretrial proceedings. A consolidated amended securities class action complaint (the Complaint) was filed on August 14, 2006. On October 13, 2006, all defendants moved to dismiss that Complaint. On August 9, 2007, the Court denied the motions to dismiss. On September 14, 2007, defendants filed answers denying the material allegations of the Complaint and asserting affirmative defenses. On October 26, 2007, plaintiffs moved to certify their purported class. The motion has not been fully briefed or submitted.

On September 16, 2005, a derivative action, styled The Booth Family Trust v. Michael S. Jeffries, et al., was filed in the United States District Court for the Southern District of Ohio, naming A&F as a nominal defendant and seeking to assert claims for unspecified damages against nine of A&F's present and former directors, alleging various breaches of the directors' fiduciary duty and seeking equitable and monetary relief. In the following three months (October, November and December of 2005), four similar derivative actions were filed (three in the United States District Court for the Southern District of Ohio and one in the Court of Common Pleas for Franklin County, Ohio) against present and former directors of A&F alleging various breaches of the directors' fiduciary duty and seeking equitable and monetary relief. A&F is also a nominal defendant in each of the four later derivative actions. On November 4, 2005, a motion to consolidate all of the federal court derivative actions with the purported securities law class actions described in the preceding paragraph was filed. On March 22, 2006, the motion to consolidate was granted, and the federal court derivative actions have been consolidated with the aforesaid purported securities law class actions for purposes of motion practice, discovery and pretrial proceedings. A consolidated amended derivative complaint was filed in the federal proceeding on July 10, 2006. A&F filed a motion to stay the consolidated federal derivative case and that motion was granted. The state court action was also stayed. On February 16, 2007, A&F announced its Board of Directors received a report of the Special Litigation Committee established by the Board to investigate and act with respect to

claims asserted in certain previously disclosed derivative lawsuits brought against current and former directors and management, including Chairman and Chief Executive Officer Michael S. Jeffries. The Special Litigation Committee has concluded that there is no evidence to support the asserted claims and directed the Company to seek dismissal of the derivative actions. On September 10, 2007, the Company moved to dismiss the federal derivative cases on the authority of the Special Litigation Committee report and on October 18, 2007, the state court stayed further proceedings until resolution of the consolidated federal derivative cases. The Company's motion has not been fully briefed or submitted.

Management intends to defend the aforesaid matters vigorously, as appropriate. Management is unable to quantify the potential exposure of the aforesaid matters. However, management's assessment of the Company's current exposure could change in the event of the discovery of additional facts with respect to legal matters pending against the Company or determinations by judges, juries or other finders of fact that are not in accordance with management's evaluation of the claims.

ITEM 1A. RISK FACTORS

The Company's risk factors as of August 2, 2008 have not changed materially from those disclosed in A&F's Annual Report on Form 10-K for Fiscal 2007 filed on March 28, 2008.

43

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

The following table provides information regarding A&F's purchases of its Common Stock during the thirteen-week period ended August 2, 2008:

Period (Fiscal Month)	Total Number of Shares Purchased (1)	Average Price Paid per Share (2)	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs (3)	Maximum Number of Shares that May Yet be Purchased under the Plans or Programs (4)
May 4, 2008 through May 31, 2008	2,232	\$ 72.83		11,346,900
June 1, 2008 through July 5, 2008	1,321	\$ 70.94		11,346,900
July 6, 2008 through August 2, 2008	1,714	\$ 63.21		11,346,900
Total	5,267	\$ 69.22		11,346,900

(1) Included in the total number of shares of A&F's Common Stock purchased during the quarterly period (thirteen-week period) ended August 2, 2008 were an aggregate of 5,267 shares which were withheld for tax payments due upon the vesting of employee restricted stock units and restricted stock awards.

(2)

The average price paid per share includes broker commissions, as applicable.

- (3) There were no shares purchased pursuant to A&F's publicly announced stock repurchase authorizations during the quarterly period (thirteen-week period) ended August 2, 2008. On August 16, 2005, A&F announced the August 15, 2005 authorization by A&F's Board of Directors to repurchase 6.0 million shares of A&F's Common Stock. On November 21, 2007, A&F announced the November 20, 2007 authorization by A&F's Board of Directors to repurchase 10.0 million shares of A&F's Common Stock, in addition to the approximately 2.0 million shares of A&F's Common Stock which remained

available under
the August 2005
authorization as
of
November 20,
2007.

- (4) The number
shown
represents, as of
the end of each
period, the
maximum
number of
shares of
Common Stock
that may yet be
purchased under
A&F's publicly
announced stock
repurchase
authorizations
described in
footnote 3
above. The
shares may be
purchased, from
time to time,
depending on
market
conditions.

ITEM 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS

On June 11, 2008, A&F held its Annual Meeting of Stockholders (the "Annual Meeting") at A&F's executive offices located at 6301 Fitch Path, New Albany, Ohio. At the close of business on the April 15, 2008 record date, 86,442,821 shares of Common Stock were outstanding and entitled to vote. At the Annual Meeting, 73,669,618 or 85.22% of the outstanding shares of Common Stock entitled to vote, were represented by proxy or in person. At the Annual Meeting, Lauren J. Brisky, Archie M. Griffin and Allan A. Tuttle were re-elected to A&F's Board of Directors, each to serve for a three-year term expiring at the Annual Meeting of Stockholders to be held in 2011. The vote on proposals was as follows:

Proposal 1 Election of Directors

	Votes For	Votes Withheld	Abstentions	Broker Non-Votes
Lauren J. Brisky	71,106,157	2,563,461		
Archie M. Griffin	70,465,513	3,204,105		
Allan A. Tuttle	71,117,586	2,552,032		

In addition, then incumbent directors whose terms of office continued after the Annual Meeting were: James B. Bachmann, Michael S. Jeffries and John W. Kessler, whose terms will continue until the 2009 Annual Meeting of Stockholders, and Edward F. Limato whose term will continue until the 2010 Annual Meeting of Stockholders. On June 11, 2008, John A. Golden effected his previously announced retirement and resignation from A&F's Board of Directors following the Annual Meeting.

On June 11, 2008, upon the recommendation of A&F's Nominating and Board Governance Committee, Robert Rosholt was elected to A&F's Board of Directors to fill the vacancy resulting from the retirement of Mr. Golden and to serve in the class of directors whose terms expire at the 2010 Annual Meeting of Stockholders.

Proposal 2 Ratification of Appointment of PricewaterhouseCoopers LLP as the Independent Registered Public Accounting Firm of the Company

	Votes For	Votes Against	Abstentions	Broker Non-Votes

Registered Holders of Common Stock	49,073	755	1,326	

Proposal 3 Stockholder Proposal

As previously reported in the Current Report on Form 8-K filed by A&F on June 12, 2008, at the Annual Meeting, the inspectors of election determined that the non-binding stockholder proposal of the United Brotherhood of Carpenters Pension Fund regarding majority voting had not been properly presented at the Annual Meeting in accordance with applicable law and the rules and regulations of the U.S. Securities and Exchange Commission. Therefore, no vote was taken on the stockholder proposal at the Annual Meeting. However, management noted that the non-binding proposal received significant stockholder support and that fact was reported to and acknowledged by A&F's Board of Directors. Recognizing that majority voting is a relatively new concept among U.S. public companies and that majority voting by-laws appear in many varieties, the A&F Board of Directors intends to review the concept of majority voting and determine whether majority voting should be implemented at A&F and, if so, in what fashion.

ITEM 6. EXHIBITS

(a) Exhibits

- 3.1 Amended and Restated Certificate of Incorporation of A&F as filed with the Delaware Secretary of State on August 27, 1996, incorporated herein by reference to Exhibit 3.1 to A&F's Quarterly Report on Form 10-Q for the quarterly period ended November 2, 1996 (File No. 001-12107).
