Item 4.02 Non-Reliance on Previously Issued Financial Statements or a Related Audit Report or Completed Interim Review.

In response to recently published comments of the Staff of the Securities and Exchange Commission (the SEC), recent restatements made by public automotive dealers, recent discussions with the SEC Staff, and recent discussions with Ernst & Young, LLP, the Company's independent registered public accounting firm, the Company and the Audit Committee of the Board of Directors have reevaluated the presentation of certain information regarding the short-term borrowings and repayments related to new and used boat inventory in the consolidated statements of cash flows, as further described below. As a result of this reevaluation on May 2, 2006, the Company determined that it would restate the consolidated statements of cash flows for the years ended September 30, 2003, 2004 and 2005 and for the three months ended December 31, 2005, to reclassify cash flows relating to short-term borrowings from operating cash flows to financing cash flows in conformity with Statement of Financial Accounting Standards No. 95, Statement of Cash Flows (SFAS 95).

This change in presentation has no impact on the Company's previously reported net income, earnings per share, revenue, cash, total assets, or stockholders' equity. The change in presentation also will not effect the Company's compliance with any financial covenant or debt instrument with respect to any of the Company's indebtedness. The Company will include the restated consolidated statements of cash flows for the years ended September 30, 2003, 2004 and 2005 in the consolidated financial statements to be included within the amended Annual Report to be filed on Form 10-K/A for the year ended September 30, 2005. The Company will include the restated consolidated statements of cash flows for the three months ended December 31, 2005 in the condensed consolidated financial statements to be included within the amended Quarterly Report on Form 10-Q/A for the three months ended December 31, 2005. The Company plans to file Forms 10-K/A and 10-Q/A within the next 30 days.

The Company finances a substantial portion of new and used boat inventories under a credit facility with vendor approved third-party financing institutions. Customary with industry interpretation of SFAS 95, the Company previously reported all cash flows in connection with the changes in short-term borrowings as an operating activity in the consolidated statements of cash flows and all amounts due under the credit facility under the caption "Short-term Borrowings" in the Company's consolidated balance sheets.

The consolidated statements of cash flows included in the consolidated financial statements will be filed with the Company's Annual Report on Form 10-K/A for the year ended September 30, 2005 and Quarterly Report on Form 10-Q/A for the three months ended December 31, 2005 to reflect short-term borrowings and repayments on inventory financing as an item of cash flows from financing activities, on a net basis. The presentation in the consolidated financial statements filed with the Annual Report on Form 10-K/A for the year ended September 30, 2005 will have the effect of decreasing reported cash used in operating activities and decrease reported cash provided by financing activities in 2005 as compared with the Company's previously filed consolidated financial statements regarding such period. In light of the foregoing, the Company has determined that the previously issued consolidated financial statements for the years ended September 30, 2003, 2004 and 2005 and related reports of the independent registered public accounting firm should no longer be relied upon.

The following chart summarizes the effects of the restatement of the Company's consolidated financial statements for the years ended September 30, 2003, 2004 and 2005 and the three-month period ended December 31, 2005 (amounts in thousands):

For the Year	For the Year	For the Year	For the Three Months
