#### Item 8.01 Other Events

During the fourth quarter of 2018, FBL Financial Group, Inc. (the Company) offered a voluntary early retirement program to certain employees based on age and tenure. This program excluded senior executive officers. This program supports the Company's ongoing expense savings efforts while providing eligible employees with enhanced retirement benefits. This offering is expected to result in a pre-tax charge of approximately \$7.7 million (\$0.24 per basic and diluted common share after tax) in the fourth quarter of 2018. The fourth quarter charge includes \$5.3 million representing the acceleration of the amortization of an accumulated actuarial loss in the defined benefit plan. The Company expects this initiative to reduce its operating expenses starting in early fiscal 2019, and anticipates annualized pre-tax savings of approximately \$1.5 million (\$0.05 per basic and diluted common share after tax).

Additionally, in the fourth quarter of 2018, the Company expects to incur a pre-tax charge of approximately \$5.5 million (\$0.17 per basic and diluted common share after tax) due to updating the estimate of the impact of an immaterial error related to policy benefits on a closed block of interest sensitive whole life business along with accrued interest associated with remediating the error. The error arose and accumulated over several years, with no prior year significantly impacted.

In the aggregate, the items discussed above are expected to negatively impact the Company's fourth quarter 2018 earnings by approximately \$13.2 million pre-tax (\$0.41 per basic and diluted common share after tax).
