- * To approve the Company's Short Term Incentive Plan;
- * To ratify the Company's 1998 Stock Option Plan, as amended;

- * To approve the issuance of stock options to the Chief Financial Officer outside of the Company's 1998 Stock Option Plan, as amended; and
- * To ratify Tanner + Co as the Company's independent auditors.

Who is entitled to vote?

You may vote if you owned stock as of the close of business on July 31, 2003. Each share of common stock is entitled to one vote. As of July 24, 2003, we had 94,807,439 shares of common stock outstanding.

How do I vote before the meeting?

You have two voting options:

- * By facsimile through the number shown on your proxy card; or
- * By mail by completing, signing and returning the enclosed proxy card.

If you hold your shares in the name of a bank or broker, whether you can vote by facsimile depends on their voting processes. Please follow the directions on your proxy card carefully.

Can I vote at the meeting?

You may vote your shares at the meeting if you attend in person. Even if you plan to attend the meeting, we encourage you to vote your shares by proxy. You may vote by proxy by facsimile or by mail.

Can I change my mind after I vote?

You may change your vote at any time before the polls close at the meeting. You may do this by (1) signing another proxy with a later date and returning it to us prior to the meeting, (2) voting again by telephone prior to 11:00a.m. on September 12, 2003 or (3) voting again at the meeting.

What if I return my proxy card but do not provide voting instructions?

Proxies that are signed and returned but do not contain instructions will be voted (1) FOR the election of the nominee directors named on page 3 of this proxy statement; (2) FOR the increase in the number of authorized shares; (3) FOR the approval of the Company's Short Term Incentive Plan; (4) FOR the ratification of the Company's 1998 Stock Option Plan, as amended; (5) FOR the approval of the issuance of stock options to the Chief Executive Officer outside of the Company's 1998 Stock Option Plan, as amended; (6) FOR the approval of the issuance of stock options to the Chief Financial Officer outside of the Company's 1998 Stock Option Plan, as amended; and (7) FOR the ratification of Tanner + Co. as the Company's independent auditors.

What does it mean if I receive more than one proxy card?

It means that you have multiple accounts with brokers and/or our transfer agent. Please vote all of these shares. We recommend that you contact your broker and/or our transfer agent to consolidate as many accounts as possible under the same name and address. Our transfer agent is Registrar and Transfer Company, which may be reached at 1-800-866-1340.

Will my shares be voted if I do not provide my proxy?

Your shares may be voted under certain circumstances if they are held in the name of a brokerage firm. Brokerage firms have the authority under the National Association of Securities Dealers rules to vote customers' un-voted shares, which are referred to as "broker

non-votes," on certain "routine" matters, including the election of directors. Shares represented by broker non-votes are counted for purposes of establishing a quorum. At our meeting, shares represented by broker non-votes will be counted as voted by the brokerage firm in the election of directors and the ratification of the auditors, but will not be counted for all other matters to be voted on because these other matters are not considered "routine" under the applicable rules. If you hold your shares directly in your own name, they will not be voted if you do not provide a proxy.

How can I attend the meeting?

The annual meeting is open to all holders of Commodore Applied Technologies common stock. To attend the meeting, you will need to bring evidence of your stock ownership. If your shares are registered in your name, your admission card is attached to your proxy card, and you will need to bring it with you to the meeting. If your shares are in the name of your broker or bank or you received your proxy materials electronically, you will need to bring evidence of your stock ownership, such as your most recent brokerage statement, and valid picture identification. For directions to the annual meeting, please call our Investor Relations department at 212-308-5800. IF YOU DO NOT HAVE EITHER AN ADMISSION CARD OR PROOF THAT YOU OWN COMMODORE APPLIED TECHNOLOGIES STOCK, YOU MAY NOT BE ADMITTED INTO THE MEETING.

May stockholders ask questions at the meeting?

Yes. Representatives of the Company will answer stockholders' questions of general interest at the end of the meeting. In order to give a greater number of stockholders an opportunity to ask questions, individuals or groups will be allowed to ask only one question and no repetitive or follow-up questions will be permitted.

How many votes must be present to hold the meeting?

Your shares are counted as present at the meeting if you attend the meeting and vote in person or if you properly return a proxy by mail, or facsimile. In order for us to conduct our meeting, a majority of our outstanding shares of common stock as of July 31, 2003, must be present in person or by proxy at the meeting. This is referred to as a quorum.

Shares not voted, whether by marking "Abstain" on your proxy card, by broker non-vote (which is described above), or otherwise, will have no impact on the election of directors, except that they will be counted for purposes of establishing a quorum. Unless a properly executed proxy card is marked "Withhold Authority," the proxy given will be voted "For" the seven nominees for director.

How many votes are needed to approve the increase in the

Shares not voted, whether by marking "Abstain" on your proxy card, by broker non-vote (which is described above), or otherwise, will have no impact on the ratification of the Company's independent auditor. Unless a properly executed proxy card is marked "Withhold Authority," the proxy given will be voted "For" ratification of the Company's independent auditor.

How many votes are needed to ratify the Company's 1998 Stock Option Plan, as amended?

A properly executed proxy card marked "Abstain" with respect to these proposals will not be voted. Accordingly, abstentions will have the effect of a vote "Against" these proposals.

How many votes are needed to approve the issuance of stock options to certain employees outside of the Company's 1998 Stock Option Plan, as amended?

A properly executed proxy card marked "Abstain" with respect to these proposals will not be voted. Accordingly, abstentions will have the effect of a vote "Against" these proposals.

PROPOSED AMMENDMENT TO
INCREASE AUTHORIZED SHARES

(PROPOSAL NUMBER 2)

What am I voting on?

A proposal to amend our Certificate of Incorporation to increase the number of authorized shares of our common stock from 125,000,000 shares to 300,000,000 shares.

What is authorized stock?

Our Certificate of Incorporation establishes the maximum number of shares of common stock that we may issue without obtaining additional stockholder approval. This is called authorized stock.

Edgar Filing: COMMODORE APPLIED TECHNOLOGIES INC - Form DEF 14A

For example, as of July 24, 2003, we had 125,000,000 shares authorized and 94,807,439 shares issued. As a result, the Company could have issued an additional 30,192,561 shares. If the amendment to the Certificate of Incorporation had been adopted prior to date, the Company could have issued an additional 175,000,000 shares, for a total of 205,192,561 shares available for issuance.

In the interest of simplicity, in this example we have ignored shares reserved for issuance upon exercise of stock options, under our other employee benefit plans and for other purposes. Approximately 10,000,000 shares are reserved for issuance under such plans. As a result, the Company would have only 20,192,561 shares of common stock available for future use without increasing the number of authorized shares.

What is the difference between authorized stock and issued stock?

Shares that have already been issued are referred to as "issued" or "issued and outstanding." The difference between the total number of authorized shares and the number of issued shares is the number of shares that the Company may issue in the future without amending the Certificate of Incorporation. Delaware law and the rules and regulations of the National Association of Securities Dealers may require stockholder approval of issuances under certain circumstances.

What rights will the new authorized shares have?

If approved, the additional shares of common stock will have the same voting and other rights as all other shares of our common stock. Holders of common stock are not now, and will not be after this amendment, entitled to preemptive rights to purchase shares of any authorized capital stock if additional shares are later issued.

Could the authorization of additional shares have any adverse effect on the Company's stockholders?

Future issuances of shares of common stock or securities convertible into common stock would have the effect of diluting the voting rights and could have the effect of diluting earnings per share and book value per share of existing stockholders. In addition, the availability of additional shares of common stock for issuance could discourage or make more difficult efforts to obtain control of the Company.

Why does the Board want to increase the authorized stock?

The Board of Directors believes it is in the best interest of the Company to provide the Company with the flexibility to issue additional shares of common stock for proper corporate purposes. If the amendment is approved, the Company would be authorized to issue the additional authorized capital stock for any valid corporate purposes that the Board of Directors from time to time deems necessary or advisable.

Edgar Filing: COMMODORE APPLIED TECHNOLOGIES INC - Form DEF 14A

The Company continues to need capitalization. Although we have no current plans to issue any of the additional shares, increasing the number of authorized shares will help us to meet future business and financial needs, as well as permit stock splits and stock dividends should we determine that they are advisable in the future.

When would this amendment become effective?

The Board of Directors has unanimously authorized this amendment and voted to recommend it to the Company's stockholders. If approved by the stockholders, the amendment will become effective upon filing an appropriate certificate with the Delaware Secretary of State.

WE RECOMMEND THAT YOU VOTE FOR THE ADOPTION OF THIS PROPOSAL

PROPOSED APPROVAL OF THE COMPANY'S
SHORT TERM INCENTIVE PLAN

(PROPOSAL NUMBER 3)

What am I voting on?

The Commodore Applied Short Term Incentive Plan (the "Short Term Incentive Plan") was adopted by the Compensation, Stock Options and Benefits Committee (the "CSOB Committee") of our Board of Directors on April 10, 2003. The committee adopted the Short Term Incentive Plan subject to shareholder approval so that the payment of any bonus awards thereunder to our Chief Executive Officer and our four other most highly compensated executive officers (within the meaning of Section 162(m)) would be fully deductible as "performance-based" compensation under Section 162(m), as further described below. We are therefore submitting the Short Term Incentive Plan for shareholder approval under Section 162(m).

The following summary of the material terms of the Short Term Incentive Plan is qualified in its entirety by reference to the full text of the Short Term Incentive Plan, a copy of which is attached as Appendix A to this proxy statement and incorporated herein by reference. Please refer to Appendix A for more detailed information.

What is the purpose of the Short Term Incentive Plan?

The primary purpose of the Short Term Incentive Plan is to enhance our ability and the ability of our affiliates to attract, motivate and retain individuals of exceptional managerial talent upon whom, in large measure, our sustained progress, growth and profitability depend.

Who will administer and monitor the Short Term Incentive Plan?

Edgar Filing: COMMODORE APPLIED TECHNOLOGIES INC - Form DEF 14A

The committee is responsible for administering the Short Term Incentive Plan. The majority of the membership of the committee are "outside directors" as defined for purpose of Section 162(m).

Who is eligible to participate in the Short Term Incentive Plan?

The employees who are eligible to participate in the Short Term Incentive Plan are those individuals who were designated as "officers" for purposes of Section 16 of the Securities Exchange Act of 1934 at the beginning of the bonus year (currently approximately four people), unless determined otherwise by the committee for a particular bonus year. A participant generally must be employed by us or one of our affiliates throughout the entire bonus year as a condition to receiving a bonus award, although if the participant is hired or terminates employment during the bonus year, the committee in its discretion may decide to make a pro rata bonus award if a bonus award is otherwise payable under the terms of the Short Term Incentive Plan.

What occurs to the Short Term Incentive Plan in the event of a change of control of the Company?

In the event of a "change in control", a participant will be entitled to a minimum bonus equal to the product of (i) a pro rata portion of the participant's target annual incentive award, which will be set by the Company in advance and be less than the maximum bonus award described below and (ii) year-to-date actual performance with respect to the performance goals established by the committee for that year.

What are the steps in establishing the Bonus Pool and Performance-Based Compensation under Section 162(m)?

For each bonus year, the committee will establish a bonus pool of up to \$4,000,000 and set performance goals, which will determine whether the bonus pool is funded for the bonus year. If none of the performance goals are satisfied, the bonus pool for the bonus year will equal \$0. The performance goals may be based on the attainment of specified levels of one or any combination of the following business criteria of the Company, its affiliates or its business units, as reported or calculated by the Company: cash flows (including, but not limited

to, operating cash flow, free cash flow or cash flow return on capital); working capital; earnings per share; book value per share; operating income (including or excluding depreciation, amortization or other expenses); revenues; operating margins; return on assets; return on equity; debt; debt plus equity; market or economic value added; stock price appreciation; total shareholder return; cost control; strategic initiatives; market share; net

Edgar Filing: COMMODORE APPLIED TECHNOLOGIES INC - Form DEF 14A

income; return on invested capital; improvements in capital structure; or customer satisfaction, employee satisfaction, service performance, cash management or asset management metrics. Such performance goals also may be based on the achievement of specified levels of performance under one or more of the measures described above relative to the performance of other corporations. The committee will set such performance goals prior to the beginning of each bonus year or such later time as may be permitted by Section 162(m).

How is the bonus amount determined for each participant?

At the beginning of each bonus year, the committee will establish for each participant a maximum bonus award, expressed as a percentage of the bonus pool for that year. The maximum bonus award for an individual participant will not exceed 40% of the bonus pool. The total awards for all participants will not exceed 100% of the bonus pool.

How are the bonuses awarded?

After the end of each bonus year, the committee will certify in writing whether the stated performance goal has been satisfied and determine the amount of bonus to be awarded to each participant. In determining the amount, the committee will consider the target bonus award established at the beginning of the bonus year for the participant and any other objective or subjective factors it deems appropriate. The committee may reduce but not increase the maximum bonus award for any individual participant.

How are the bonus awards paid?

All bonus awards will be paid in cash at such times and on such terms as are determined by the committee.

How long will the bonus plan remain in effect?

The Short Term Incentive Plan will remain in effect until it is terminated by the committee. The committee may generally amend the Short Term Incentive Plan at any time, subject to certain Section 162(m) limitations. In addition, a participant must provide written consent to any amendment that adversely affects the participant's right to or interest in a bonus awarded prior to the date of an amendment.

Other Information

A new plan benefits table, as described in the federal proxy rules, is provided in Appendix D.

What are the US Federal Income Tax Consequences?

A participant will be taxed at ordinary income rates on a bonus award, if any, in the year in which it is received. If

Edgar Filing: COMMODORE APPLIED TECHNOLOGIES INC - Form DEF 14A

a participant elects to defer a portion of the bonus awards to our Deferred Compensation Plan, the participant will be entitled to defer the recognition of income. Generally, and subject to the provisions of Section 162(m), we will receive a federal income tax deduction corresponding to the amount of income recognized by the participant.

If the Short Term Incentive Plan is not approved by our shareholders, bonus awards for calendar year 2003 will be discretionary but not paid under the Short Term Incentive Plan, and any discretionary bonuses paid to each of our Chief Executive Officer and our four other most highly compensated executive officers (within the meaning of Section 162(m)) may not be deductible under Section 162(m) to the extent that, when combined with other nonexempt compensation, the compensation exceeds the \$1,000,000 limit for that individual.

PROPOSED APPROVAL OF THE COMPANY'S
1998 STOCK OPTION PLAN, AS AMENDED (PROPOSAL NUMBER 4)

What am I voting on?

The Company's 1998 Stock Option Plan, as amended (the "1998 Plan") was adopted by the Compensation, Stock Option and Benefits Committee (the "CSOB Committee") of our Board of Directors on December 14, 1998.

The following summary of the material terms of the 1998 Plan is qualified in its entirety by reference to the full text of the 1998 Plan, a copy of which is attached as Appendix B to this proxy statement and incorporated herein by reference. Please refer to Appendix B for more detailed information.

Why does the Company offer a stock option plan?

The Board of Directors recognizes the value of stock incentives in assisting the Company in attracting, retaining and motivating employees and in enhancing the long-term mutuality of interest between Commodore Applied Technologies, Inc. shareholders and its employees, officers and directors.

Who will administer and monitor the 1998 Plan?

The CSOB Committee is responsible for administering the 1998 Plan. The majority of the membership of the committee are "outside directors" as defined for purpose of Section 162(m).

Who may receive stock option grants?

Edgar Filing: COMMODORE APPLIED TECHNOLOGIES INC - Form DEF 14A

The Board of Directors (the "Board") may grant stock options to directors, officers and other employees of, and consultants to, the Company and its subsidiaries. The number of grantees may vary from year to year. The number of employees who have participated in current stock plans is estimated to be approximately 35. The CSOB Committee administers the 1998 Plan and its determinations are binding upon all participants in the 1998 Plan.

How many shares can be granted under the 1998 Plan?

The maximum number of shares of the Company's common stock that may be issued under the 1998 Plan is 15,000,000. The original number of shares of the Company's common stock issuable under the 1998 Plan was 4,000,000. The Board of Directors increased the maximum number of shares of the Company's common stock that may be issued under the 1998 Plan to 5,000,000 on November 10, 1999, to 10,000,000 on December 14, 2001 and to 15,000,000 on May 30, 2002. The market value of the securities underlying the options was \$236,675.00 as of July 24, 2003. The market value represents the number of available for issuance under the 1998 Plan multiplied by the closing price of the underlying common stock as reported on the OTC Bulletin Board as of July 24, 2003, without any deduction for the exercise price payable upon exercise of the options.

How many shares have been issued or reserved for existing options under the 1998 Plan?

The Board has currently issued, or reserved to be issued on the exercise of current options 8,531,458 shares of the Company's common stock under the 1998 Plan. Accordingly, a total of 5,637,000 shares of the Company's common stock remain available for issuance under the 1998 Plan.

What happens to cancelled or terminated stock options?

Any shares of common stock subject to an award, which for any reason are canceled, terminated or otherwise settled without the issuance of any common stock, are again available for awards under the 1998 Plan. If payment for an award or the satisfaction of related withholding tax liabilities is effected through the surrender of common stock or the withholding of common stock, the number of shares of common stock available for awards under the 1998 Plan shall be increased by the number of shares of common stock so surrendered or withheld. The shares may be unissued shares or treasury stock.

What happens to the 1998 Plan in the event of events effecting the Company's common stock?

Edgar Filing: COMMODORE APPLIED TECHNOLOGIES INC - Form DEF 14A

If there is a stock split, stock dividend, recapitalization, spin-off, exchange or other similar corporate transaction or event affecting the Company's common stock, appropriate adjustments may be made by the CSOB Committee in the number of shares issuable in the future and in the number of shares and price under all outstanding grants made before the event. Unless the CSOB Committee shall determine otherwise, all outstanding options become immediately exercisable in the event of a change- in-control of the Company.

How are participants granted options under the 1998 Plan?

The Board may grant any participants nonqualified stock options. The option price of either a nonqualified stock option or an incentive stock option will be not less than the fair market value of the common stock on the date of the grant. To exercise an option, an employee may pay the option price in cash, or if permitted by the CSOB Committee, by withholding shares otherwise issuable on exercise of the option or by delivering other shares of common stock, if such shares have been owned by the optionee for at least six months. The term of each option will be fixed by the CSOB Committee but may not exceed ten years from the date of grant. The CSOB Committee will determine the time or times when each option is exercisable. Options may be made exercisable in installments, and the CSOB Committee may accelerate the exercisability of options.

Can Directors receive stock option grants?

In the discretion of the Board, non-employee directors may participate in the 1998 Plan.

Other Information

Except as permitted by the Board, awards under the 1998 Plan are not transferable except by will or under the laws of descent and distribution. The Board may terminate the 1998 Plan at any time but such termination shall not affect any stock options then outstanding under the 1998 Plan. Unless terminated by action of the Board, the 1998 Plan will continue in effect until December 15, 2008, but awards granted prior to such date will continue in effect until they expire in accordance with their original terms. The Board may also amend the 1998 Plan as it deems advisable. Amendments which (1) materially modify the requirements for participation in the 1998 Plan, (2) increase the number of shares of the Company's common stock subject to issuance under the 1998 Plan, or (3) change the minimum exercise price for stock options as provided in the 1998 Plan, must be submitted to shareholders for approval.

Federal Income Tax Consequences

With respect to the grant of non-qualified stock options, the person receiving an option will recognize no income on receipt thereof. Upon the exercise of the option, the optionee will recognize ordinary income in the amount of the

Edgar Filing: COMMODORE APPLIED TECHNOLOGIES INC - Form DEF 14A

difference between the option price and the fair market value of the shares on the date the option is exercised. The Company generally will receive an equivalent deduction at that time.

How many options were granted in 2002 under the 1998 Plan?

On October 2, 2002 the Board granted non-qualified stock options under the 1998 Plan for 6,847,217 shares at the fair market value and price of \$0.07 per share to 21 employees, including shares to three of our current officers, of which O. Mack Jones received an award for 1,759,375 shares, Shelby T. Brewer received an award for 865,200 shares and James M. DeAngelis received an award for 841,688 shares. See "Executive Compensation" for further information about our officers. A new plan benefits table regarding the 1998 Plan is set forth in Appendix D to this proxy statement.

What if the 1998 Plan is not ratified by the Shareholders?

If the Shareholders do not ratify the 1998 Plan, all stock options previously granted under the 1998 Plan will remain outstanding in accordance with their terms. In addition, the CSOB Committee may elect to issue new options in accordance with the terms of the 1998 Plan.

PROPOSED APPROVAL OF THE PERFORMANCE GOALS AND INCENTIVE
COMPENSATION FOR THE CHIEF EXECUTIVE OFFICER (PROPOSAL NUMBER 5)

What am I voting on?

At the annual meeting, you will be asked to approve the material terms of the performance goals established by the Compensation, Stock Option and Benefits Committee (the "CSOB Committee") with respect to fiscal 2003 incentive compensation awards outside of the Company's 1998 Stock Option Plan, as amended (the "1998 Plan"), for the Company's Chief Executive Officer (Mr. Shelby T. Brewer).

Why is the Company proposing to grant fiscal 2003 incentive compensation awards to the CEO outside of the 1998 Plan?

The Board of Directors of the Company has elected to award performance based stock options outside of the 1998 Plan subject to shareholder approval. The Board of Directors recognizes the value of performance based stock incentives in assisting the Company in attracting, retaining and motivating executives and in enhancing the long-term mutuality of interest between Commodore Applied Technologies, Inc. shareholders and its employees, officers and directors. In order to maintain a Company target of 50% of all Stock

Edgar Filing: COMMODORE APPLIED TECHNOLOGIES INC - Form DEF 14A

Options listed to non-executives and directors under the 1998 Plan, the Company has elected to grant the incentive compensation options to the Chief Executive Officer outside of the 1998 Plan and subject to certain performance criteria.

Why set performance goals for this award?

Section 162(m) of the Internal Revenue Code disallows deductions for publicly-held corporations with respect to compensation in excess of \$1,000,000 paid to certain executive officers. However, compensation payable solely on account of attainment of one or more performance goals is not subject to this deduction limitation if:

- * the performance goals are objective, pre-established and determined by a compensation committee comprised of a majority of outside directors,
- * the material terms of the performance goals under which the compensation is to be paid are disclosed to the shareholders and approved by a majority vote, and
- * the compensation committee certifies that the performance goals and other material terms were in fact satisfied before the compensation is paid.

Why does this need shareholder approval?

The purpose of seeking shareholder approval of the Chief Executive Officer's incentive compensation award is to meet the requirements of Section 162(m).

What number of votes is required for approval of this proposal?

To be approved, this matter must receive the affirmative vote of a majority of the shares present (in person or by proxy) at the meeting and entitled to vote on such matter. Broker non-votes will not be counted as present and shall not be entitled to vote on this proposal.

What are the performance goals for this incentive awardment?

On October 2, 2002, the Company's CSOB Committee established performance goals for the Chief Executive Officer's fiscal 2003 incentive compensation award payable in the form of stock options for shares of the Company's common stock to the Chief Executive Officer if the goals are achieved. The performance goals and the stock options payable outside of the Company's 1998 Plan for fiscal 2003 are as follows:

CXII 2002 Annual Meeting Proxy

1.) The obtainment of a waste-processing contract in one or all of the following locations: Idaho, Tennessee, Utah, and Washington State, utilizing the Company's solvated electron technology ("SET") technology in fiscal year 2003; or

Edgar Filing: COMMODORE APPLIED TECHNOLOGIES INC - Form DEF 14A

2.) The obtainment of a radioactive sodium-processing contract utilizing the Company's SET technology in fiscal year 2003; or

3.) The obtainment of a multi-year engineering contract for providing engineering services through the Company's subsidiary, Commodore Advanced Sciences, Inc. in fiscal year 2003.

THE SATISFACTION OF ANY OF THE ABOVE MENTIONED PERFORMANCE CRITERIA, SINGLY OR COLLECTIVELY, WILL RESULT IN THE IMMEDIATE AWARD AND VESTING OF AN OPTION TO THE CHIEF EXECUTIVE OFFICER TO PURCHASE 2,000,000 SHARES OF THE COMPANY'S COMMON STOCK AT 100% OF CLOSING PRICE OF THE COMMON STOCK AS TRADED ON THE OTCBB ON THE DATE OF THE AWARD.

What is the amount of the incentive award?

The Compensation Committee has determined the actual amount of incentive compensation to be awarded to the Chief Executive Officer in fiscal 2003 based on his individual contribution, and achievement of any of the foregoing goals to be a non-qualified stock option to purchase two million (2,000,000) shares of the Company's common stock outside of the Company's 1998 Plan. The market value of the securities underlying the options was \$50,000.00 as of July 24, 2003. The market value represents the number of shares available for issuance under the fiscal 2003 incentive compensation award multiplied by the closing price of the underlying common stock as reported on OTC Bulletin Board as of July 24, 2003, without any deduction for the exercise price payable upon exercise of the option. A new plan benefits table with respect to the proposed award is included in Appendix D.

What are the terms and conditions of the incentive award?

The exercise price of the option will be 100% of the closing price of the Company's common stock on the day of the CSOB Committee's determination that the Chief Executive Officer has met the goal(s). The option, once awarded, will be 100% vested and exercisable.

Federal Income Tax Consequences

Assuming the shareholders approve the material terms of the performance goals as described herein, the Company believes that any such incentive compensation award to the Chief Executive Officer will qualify as performance-based compensation that will be deductible from the Company's gross income for federal income tax purposes upon exercise by the Chief Executive Officer. The Chief Executive Officer will recognize no income on receipt of the option. Upon the exercise of the option, the Chief Executive Officer will recognize ordinary income in the amount of the difference between the option price and the fair market value of the shares on the date the option is exercised.

Who will administer and monitor the performance based stock options?

The CSOB Committee is responsible for administering the performance based options issued outside the 1998 Plan. The majority of the membership of the committee are "outside directors" as defined for purpose of Section 162(m).

DeAngelis).

Why is the Company proposing to grant fiscal 2003 incentive compensation awards to the Chief Financial Officer outside of the 1998 Plan?

The following is a brief description of the material features of the equity compensation plans not approved by our stockholders that are reflected in the chart above.

On December 14, 1998, our Board of Directors approved the adoption of the 1998 Stock Option Plan, as amended. The purpose of this plan is to advance the interests of our stockholders by enhancing our ability to attract, retain and motivate persons who make important contributions to the Company by providing them with equity ownership opportunities and performance-based incentives that better align their interests with those of our stockholders. A total of 15,000,000 shares of our common stock, subject to adjustment in the event of a stock split or similar event, is issuable to our consultants, advisors and employees, officers and directors. A total of 10,000,000 shares of our common stock have been duly registered under the Company's S-8 filings under the Plan. The remaining 5,000,000 shares have been approved by the directors for issuance under the Plan but have yet to be registered under an S-8 filing. The plan provides for the granting of non-qualified options.

The following table sets forth information regarding options held by the Commodore Named Executive Officers and Directors that were voluntarily surrendered by such persons, after which the Company issued new options to such persons at current fair market value. The Compensation Committee approved the options exchanged in order to restore the incentive value of such options.

COMPENSATION COMMITTEE REPORT

Filings made by companies with the Securities and Exchange Commission sometimes "incorporate information by reference." This means the Company is referring you to information that has been previously filed with the SEC and that this information should be considered as part of the filing you are reading. The Compensation Committee Report and Stock Performance Graph in this proxy statement are not incorporated by reference into any

other filings with the SEC.

What are the components of executive compensation?

Our compensation program for executives consists of three key elements:

- * Annual base salary
- * Performance based annual bonus
- * Long-term stock incentive compensation

What is the overview and philosophy of executives compensation?

The Company's executive compensation program is designed to be linked to corporate performance and returns to stockholders. Of particular importance to the Company is its ability to grow and enhance its competitiveness for the rest of the decade and beyond. Shorter-term performance, although scrutinized by the CSOB Committee, stands behind the issue of furthering the Company's strategic goals. To this end, the Company has developed an overall compensation strategy and specific compensation plans that tie a significant portion of executive compensation to the Company's success in meeting specified performance goals.

The objectives of the Company's executive compensation program are to:

- * attract, motivate and retain the highest quality executives;
- * motivate them to achieve tactical and strategic objectives in a manner consistent with the Company's corporate values; and
- * link executive and stockholder interests through equity-based plans and provide a compensation package that recognizes individual contributions as well as overall business results.

To achieve these objectives, the Company's executive compensation program is designed to:

- * focus participants on high priority goals to increase stockholder value;
- * encourage behavior that exemplifies to Company's values relating to customers, quality of performance, employees, integrity, teamwork and good citizenship;
- * assess performance based on results and pre-set goals that link the business activities of each individual to the goals of the Company; and
- * increase stock ownership to promote a proprietary interest in the success of the Company.

How are the Chairman of the Board and Chief Executive Officer compensated?

Shelby T. Brewer, the Chairman of the Board and Chief Executive Officer of the Company, received a base salary of \$250,000 of

which all but \$90,000 was deferred in fiscal year 2002. The members of the CSOB Committee established the amount actually received by Mr. Brewer this year as base salary for services rendered to the Company and its affiliates. In determining Mr. Brewer's salary, the CSOB Committee considered, without any particular weighting, the salaries paid to chief executive officers of comparable companies, the company's performance in terms of stock price and key financial indices compared to its peers, the performance of Mr. Brewer, and Mr. Brewer's extensive industry knowledge.

Mr. Brewer received no cash bonus for fiscal 2002 under the Officers Bonus Pool Plan. This plan pays total bonuses of up to 25% of a participant's salary. The CSOB Committee determined that no bonus was to be paid in fiscal 2002.

How are other executive officers compensated?

In setting all other executive officers annual salaries, the CSOB Committee reviews an annual salary plan recommended by the Chairman and CEO. The annual salary plan is based on numerous subjective factors that include performance, merit increases and responsibility levels.

CXII 2002 Annual Meeting Proxy

Page 25

All executive officers are eligible to participate in the officer's bonus plans. Under these plans, officers are eligible to receive a bonus up to an established percent of their annual base salary, depending on the Company's performance relative to criteria established by the Compensation Committee. During fiscal 2002, based upon these objective performance assessments, no officer was awarded a bonus as reflected in the Summary Compensation Table contained elsewhere in this proxy statement.

Job performance is based on reviews compiled by one or more of the officers to whom the officer reports and such perceived relative performance and abilities when compared with other associates of the Company. Stock options are typically exercisable at a rate of 25% per year commencing on the first day of the date of the grant. Stock options are typically exercisable for ten years after the date of the grant.

The Report of the Compensation Committee on Executive Compensation shall not be deemed incorporated by reference by any general statement incorporating by reference this Annual Report into any filing under the Securities Act, or under the Exchange Act, except to the extent that the Company specifically incorporates this information by reference, and shall not otherwise be deemed filed under such acts.

Does the Compensation Committee compare Company salaries to other companies?

Edgar Filing: COMMODORE APPLIED TECHNOLOGIES INC - Form DEF 14A

Salaries are based on the Compensation Committee assessment of each officer's past performance and the expectation for future contributions in leading the Company. In addition, the Compensation Committee reviews compensation data for the retail industry and other companies similar in size. This review is not done scientifically. The Compensation Committee uses other company compensation data for information purposes only, but also considers subjective factors relating to the differences between companies.

How are limitations on the deductibility of compensation handled?

Section 162(m) of the Internal Revenue Code limits the deductibility of executive compensation paid by publicly held corporations to \$1 million per employee. The \$1 million limitation generally does not apply to compensation based on performance goals if certain requirements are met. The Company believes its Senior Officers' Bonus Pool Plan and Executive Officers' Bonus Plan each satisfy Section 162(m). As a result, the Company believes that the compensation paid under these plans is not subject to limits on deductibility. However, there can be no assurance that the Internal Revenue Service would reach the same conclusion.

AUDIT COMMITTEE REPORT

Filings made by companies with the Securities and Exchange Commission sometimes "incorporate information by reference." This means the Company is referring you to information that has been previously filed with the SEC and that this information should be considered as part of the filing you are reading. The Audit Committee Report in this proxy statement is not incorporated by reference into any other filings with the SEC.

What are the responsibilities of the Audit Committee?

The Audit Committee oversees the Company's financial reporting process on behalf of the Board of Directors and is governed by its Charter as set forth in Exhibit C, hereto, which was adopted in March of 2000. Management has the primary responsibility for the financial statements and the reporting process including the systems of internal controls. In fulfilling its oversight responsibilities, the committee

Edgar Filing: COMMODORE APPLIED TECHNOLOGIES INC - Form DEF 14A

reviewed the audited financial statements in the Annual Report with management, including a discussion of the quality, not just the acceptability, of the accounting principles, the reasonableness of significant judgments, and the clarity of disclosures in the financial statements. The Audit Committee received the written disclosures and the letter from the independent accountants required by Independence Standards Board Standard No. 1 and discussed with the independent accountants the independence of the independent accountants. The Audit Committee also discussed with the independent auditors the matters required to be discussed by Statement on Auditing Standards No. 61.

What are the areas of focus of the Audit Committee?

The Audit Committee reviews with the independent auditors, who are responsible for expressing an opinion on the conformity of those audited financial statements with generally accepted accounting principles:

- * the overall scope and plans for their respective audits,
- * their judgments as to the quality, not just the acceptability, of the Company's accounting principles,
- * their independence from management and the Company including matters in the written disclosures and the letter from the independent accountants required by the Independence Standards Board No. 1,
- * and such other matters as are required to be discussed with the committee under generally accepted auditing standards.

Who are the independent members of the Audit Committee?

Messrs. Kalleres, Coffman, and Wilson are independent audit committee members in accordance with the listing standards of the American Stock Exchange. Mr. DeAngelis is an Executive Officer of the Company, and as such, is not independent. Having Mr. DeAngelis on the committee is in the best interest of the Company because he can provide day-to-day supervision to the internal audit staff, he is readily available to address issues with management, and provides independent members insight into audit and financial matters.

What financial statements does the Audit Committee review?

The audit committee, as part of its Charter, reviews quarterly with management the Company's financial statements prior to filing with the Securities and Exchange Commission and discusses with the independent auditors matters required to be discussed by Statement on Auditing Standards No. 61. In addition, the committee in reliance on the reviews and discussions referred to above, has recommended to the Board of Directors that the audited financial statements be included in the Company's Annual Report on Form 10-K for the

year ended December 31, 2002.

SHORT TERM INCENTIVE PLAN

COMMODORE APPLIED TECHNOLOGIES, INC.

SHORT TERM INCENTIVE PLAN

EFFECTIVE JANUARY 1, 2003

The Compensation, Stock Option and Benefits Committee (the "Compensation Committee") of the Board of Directors of Commodore Applied Technologies, Inc. (the "Company") hereby adopts this Short Term Incentive Plan (the "Short Term Incentive Plan"), subject to stockholder approval as described in Section 10.

1. PURPOSE. The primary purpose of the Short Term Incentive Plan is to enhance the ability of the Company and its affiliates to attract, motivate and retain individuals of

exceptional managerial talent on whom, in large measure, the sustained progress, growth and profitability of the Company depend. The bonus awards under the Short Term Incentive Plan are intended to qualify as "performance-based" compensation under Section 162(m) of the Internal Revenue Code of 1986, as amended ("Section 162(m)").

2. ADMINISTRATION. The Short Term Incentive Plan shall be administered by the Compensation Committee, which shall have full power and authority to construe, interpret and administer the Short Term Incentive Plan. The Compensation Committee shall have full authority to make all eligibility, bonus and other determinations necessary or appropriate for the proper administration of the Short Term Incentive Plan.

3. PARTICIPANTS.

(a) ELIGIBLE EMPLOYEES. For each bonus measurement period, the CEO, four highest compensated officers (within the meaning of Section 162(m) and any other employee who the Company has designated as a Section 16 officer at the beginning of the bonus measurement period shall be eligible to participate in the Short Term Incentive Plan, unless determined otherwise by the Compensation Committee in its discretion.

(b) PARTICIPATION. In general, to participate in the Short Term Incentive Plan an eligible employee must be continuously employed by the Company or its affiliates for the entire bonus measurement period. However, for an eligible employee who is hired or terminates employment during a bonus measurement period, the Compensation Committee in its discretion may award such employee a pro rata bonus in accordance with Sections 4(c) and 5 and the performance-based compensation requirements of Section 162(m). An eligible employee under this Section 3(b) shall be referred to as a "Participant." A bonus measurement period shall equal a calendar year, unless determined otherwise by the Compensation Committee in its discretion.

Short Term Incentive Plan

Page 1

(c) CHANGE IN CONTROL. In the event of a Change in Control, a Participant shall be entitled to a minimum bonus award for the bonus measurement period that contains the effective time of the Change in Control. The minimum bonus award shall equal the product of (i) the Participant's target annual incentive award in effect as of the effective time of the Change in Control, (ii) a fraction, the numerator of which is the number of calendar days in the then-current bonus measurement period and the denominator of which is 365, and (iii) year-to-date actual performance with respect to the performance goals for such bonus measurement period, as reasonably determined by the Compensation Committee immediately prior to the effective time of the Change in Control. A "Change in Control" for purposes of this Section 3(c) shall have the meaning set forth in the Company's 1998 Stock Option Plan, as amended, as may be amended from time to time. A "target annual incentive award" for purposes of this Section 3(c) shall mean, for each Participant, the target annual incentive award established by the Company's management and presented to the Compensation Committee in connection with establishing the maximum bonus award for the Participant under Section 4(a). The target annual incentive award shall be less than the maximum

bonus award.

4. BONUS AWARDS. The following provisions shall apply to bonus awards under the Short Term Incentive Plan:

(a) MAXIMUM BONUS AWARD. Prior to the beginning of each bonus measurement period or such later time as may be permitted by Section 162(m), the Compensation Committee shall establish a maximum bonus award for each Participant, expressed as a percentage of the bonus pool specified in Section 4(b); provided, however, that the total of all such maximum percentages shall not exceed 100% and the maximum percentage for any individual Participant shall not exceed 40%.

(b) BONUS POOL. For each bonus measurement period, the Compensation Committee shall establish a bonus pool of up to \$4,000,000 and set performance goals, which shall determine whether the bonus pool is funded for the bonus measurement period. If the performance goals are not satisfied in accordance with Section 5, the bonus pool for the bonus measurement period shall equal \$0. The performance goals may be based on the attainment of specified levels of one or any combination of the following business criteria of the Company, its affiliates or its business units, as reported or calculated by the Company; cash flows (including, but not limited to, operating cash flow, free cash flow or cash flow return on capital); working capital; earnings per share; book value per share; operating income (including or excluding depreciation, amortization or other expenses); revenues; operating margins; return on assets; return on equity; debt; debt plus equity; market or economic value added; stock price appreciation; total stockholder return; cost control; strategic initiatives; market share; net income; return on invested capital; improvements in capital structure; or customer satisfaction, employee satisfaction, service performance, subscriber, cash management or asset management metrics. Such performance goals also may be based on the achievement of specified levels of Company performance (or performance of an applicable affiliate or division of the Company) under one or more of the measures described above relative to the performance of other corporations. The Compensation Committee shall set such performance goals prior to the beginning of each bonus measurement period or such later time as may be permitted by Section 162(m).

(c) INDIVIDUAL BONUS AWARDS. The bonus award to a Participant shall not exceed the maximum bonus award specified in Section 4(a). The aggregate amount of all bonus awards to all Participants for any bonus measurement period shall not exceed 100% of the bonus pool specified in Section 4(b).

Page 2

5. COMPENSATION COMMITTEE CERTIFICATION. The Compensation Committee shall determine, in accordance with the minimum bonus awards, performance goals and other elements established pursuant to Sections 3 and 4, the amounts to be awarded to each Participant under the Short Term Incentive Plan for each bonus measurement period. The Compensation Committee's determinations shall be final and binding on all Participants. These determinations must be certified in writing after the completion

of the bonus measurement period and before bonuses for such period are paid, which requirement may be satisfied by approved minutes of the Compensation Committee meeting that set out the determinations made. The Compensation Committee shall not have discretion to increase the bonus awards that would otherwise be due to Participants under the terms of the Short Term Incentive Plan.

6. PAYMENT OF BONUS AWARDS. Payment of bonus awards shall be made in cash at such times and on such terms as are determined by the Compensation Committee in its discretion.

7. AMENDMENTS. The Compensation Committee may amend the Short Term Incentive Plan at any time; provided, however, that to the extent it would cause the Short Term Incentive Plan to fail to qualify as "performance-based" compensation under Section 162(m) with respect to any Participant, the Compensation Committee shall not have the power to change the material terms of the performance goals unless (a) the modified performance goals are established by the Compensation Committee no later than the deadline established under Section 162(m) and (b) no bonuses are paid under the modified performance goals until after the material terms of the modified performance goals are disclosed to and approved by the Company's stockholders to the extent required by Section 162(m). No amendment that adversely affects a Participant's right to or interest in a bonus awarded by the Compensation Committee prior to the date of the amendment shall be effective unless the Participant agrees to the amendment in writing.

8. TERMINATION. The Compensation Committee may terminate the Short Term Incentive Plan at any time and for any reason. The Compensation Committee shall provide Participants with written notice of the Short Term Incentive Plan's termination as soon as practicable following such termination.

9. OTHER CONDITIONS.

(a) NO CLAIMS: NO ASSIGNMENT OR ALIENATION. No person shall have any claim to a bonus award under the Short Term Incentive Plan, and there is no obligation for uniformity of treatment of Participants under the Short Term Incentive Plan. Bonus awards under the Short Term Incentive Plan may not be assigned, alienated, pledged, transferred, encumbered, attached, garnished or subjected to any other disposition.

(b) UNFUNDED PLAN. The Company shall have no obligation to reserve or otherwise fund in advance any bonus awards that are or may in the future become payable under the Short Term Incentive Plan. Any funds that the Company, acting in its sole and absolute discretion, determines to reserve for future payments under the Short Term Incentive Plan may be commingled with other assets or funds of the Company and need not in any way be segregated from other assets or funds held by the Company. A Participant's rights to payment of a bonus award under the Short Term Incentive Plan shall be limited to those of a general creditor of the Company.

Edgar Filing: COMMODORE APPLIED TECHNOLOGIES INC - Form DEF 14A

(c) NO RIGHT TO EMPLOYMENT. Neither the Short Term Incentive Plan nor any action taken hereunder shall be construed as giving any Participant the right to be retained in the employ of the Company.

(d) TAX WITHHOLDING. The Company shall have the right to withhold from the payment of any bonus award under the Short Term Incentive Plan any federal, state or local taxes in accordance with applicable law.

(e) OTHER PLANS. Bonus awards under the Short Term Incentive Plan shall not constitute compensation for the purpose of determining benefits under any other plan of the Company unless expressly included in compensation under the terms of such other plan.

(f) GOVERNING LAW. The Short Term Incentive Plan shall be governed by the laws of the State of Delaware, other than its choice of law rules, and applicable federal law.

10. EFFECTIVE DATE; STOCKHOLDER APPROVAL; PRIOR PLANS SUPERSEDED. The Short Term Incentive Plan shall be effective for bonus measurement periods beginning on or after January 1, 2003, subject to approval of the Short Term Incentive Plan by the Company's stockholders in accordance with Section 162(m). The Short Term Incentive Plan shall replace and supersede all current and prior bonus plans, programs and arrangements of a similar annual incentive nature with respect to each Participant.

Shares of Common Stock underlying awards of securities (derivative or not) shall be counted against the limitation set forth in the immediately preceding sentence and may be reused to the extent that the related Plan Award to any individual is settled in cash, expires, is terminated unexercised, or is forfeited. AUTHORITY OF COMMITTEE

The Plan shall be administered by, or under the direction of, the Committee, which shall administer the Plan so as to comply at all times with Section 16 of the Exchange Act and the rules and regulations promulgated thereunder, to the extent such compliance is required, and shall otherwise have plenary authority to interpret the Plan and to make all determinations specified in or permitted by the Plan or deemed necessary or desirable for its administration or for the conduct of the Committee's business. All interpretations and determinations of the Committee may be made on an individual or group basis and shall be final, conclusive and binding on all interested parties. Subject to the express provisions of the Plan, the Committee shall have authority, in its discretion, to determine the persons to whom Plan Awards shall be granted, the times when such Plan Awards shall be granted, the number of Plan Awards, the exercise price of each Plan Award, the period(s) during which a Plan Award shall be exercisable (whether in whole or in part), the restrictions to be applicable to Plan Awards and the other terms and provisions thereof (which need not be identical). In addition, the authority of the Committee shall include, without limitation, the following:

Financing. The arrangement of temporary financing for an Optionee by registered broker-dealers, under the rules and regulations of the Federal Reserve Board, for the purpose of assisting an Optionee in the exercise of an Option, such authority to include the payment by the Corporation of the commissions of the broker-dealer;

Procedures for Exercise of Option. The establishment of procedures for an Optionee (i) to exercise an Option by payment of cash, (ii) to have withheld from the total number of shares of Common Stock to be acquired upon the exercise of an Option that number of shares having a Fair Market Value, which, together with such cash as shall be paid in respect of fractional shares, shall equal the Option exercise price of the total number of shares of Common Stock to be acquired, (iii) to exercise all or a portion of an Option by delivering that number of shares of Common Stock already owned by him having a Fair Market Value which shall equal the Option exercise price for the portion exercised and, in cases where an Option is not exercised in its entirety, and subject to the requirements of the Code, to permit the Optionee to

acquired by him in payment of shares of Common Stock to be received pursuant to the exercise of additional portions of such Option, the effect of which shall be that an Optionee can in sequence utilize such newly acquired shares of Common Stock in payment of the exercise price of the entire Option, together with such cash as shall be paid in respect of fractional shares and (iv) to engage in any form of "cashless" exercise. The Committee may, in its sole discretion, require that an exercise described under any one or more of the methods described under clauses (ii), (iii) or (iv) of the immediately preceding sentence (to the extent such exercise is, or is deemed to constitute, an exercise effected by the tendering of Common Stock) be consummated with Common Stock (i) held by the Optionee for at least six (6) months or (ii) acquired by the Optionee other than under this Plan or a similar program.

Withholding. The establishment of a procedure whereby a number of shares of Common Stock may be withheld from the total number of shares of Common Stock to be issued upon exercise of an Option or for the tender of shares of Common Stock owned by any Participant to meet any obligation of withholding for taxes incurred by the Participant upon such exercise. The Committee may, in its sole discretion, require that if any such withholding is effected by the tendering of Common Stock, such withholding shall be consummated with Common Stock (i) held by the Optionee for at least six (6) months or (ii) acquired by the Optionee other than under this Plan or a similar program.

STOCK OPTIONS

The Committee shall have the authority, in its discretion, to grant Non-Qualified Stock Options. The terms and conditions of the Options shall be determined from time to time by the Committee; provided, however, that the Options granted under the Plan shall be subject to the following:

Exercise Price. The Committee shall establish the exercise price at the time any Option is granted at such amount as the Committee shall determine. The exercise price will be subject to adjustment in accordance with the provisions of Section VII of the Plan.

Payment of Exercise Price. The exercise price per share of Common Stock with respect to each Option shall be payable at the time the Option is exercised. Such price shall be payable in cash or pursuant to any of the other methods set forth in Sections V(a) or (b) hereof, as determined by the Committee. Shares of Common Stock delivered to the Corporation in payment of the exercise price shall be valued at the Fair Market Value of the Common Stock on the date preceding the date of the exercise of the Option.

Exercisability of Options. Except as provided in Section VI(e) hereof, each Option shall be exercisable in whole or in installments, and at such time(s), and subject to the fulfillment of any conditions on, and to any limitations on, exercisability as may be determined by the Committee at the time of the grant of such Options. The right to purchase shares of Common Stock shall be cumulative so that when the right to purchase any shares of Common Stock has accrued such shares of Common Stock or any part thereof may be purchased at any time

thereafter until the expiration or termination of the Option.

Exercise Upon Optionee's Termination of Employment or Termination of Consulting Relationship. For purposes of determining whether any Optionee has incurred a termination of employment (or a Termination of Consulting Relationship), an Optionee who is both an employee (or a Consultant) and a director of the Corporation and/or any Parent or Subsidiary shall be considered to have incurred a termination of employment (or a Termination of Consulting Relationship) only upon his termination of service both as an employee (or as a Consultant) and as a director. Furthermore, (i) if an

1998 Stock Option Plan, as amended

Page 6

Optionee's employment (or Consulting Relationship) is terminated by the Corporation or by any Parent or Subsidiary for Good Cause or (ii) if an Optionee voluntarily terminates his employment other than for Good Reason or Disability or without the written consent of the Committee (or incurs a voluntary Termination of Consulting Relationship other than for Disability), regardless of whether such Optionee continues to serve as a director of the Corporation or of any Parent or Subsidiary, then the Optionee shall, at the time of such termination of employment (or Termination of Consulting Relationship), forfeit his rights to exercise any and all of the outstanding Option(s) theretofore granted to him.

Dividend Equivalents for Outstanding Options. The Committee may, in its sole discretion, provide that amounts equivalent to dividends shall be payable with respect to one or more shares of Common Stock subject to vested but unexercised Option(s) granted to a Participant. Subject to the terms contained in the appropriate Plan Award, dividend equivalents related to a Participant's Options(s) shall be credited to a suspense account (and remain the property of the Corporation) at such times (and in such amounts) as are dividends payable to the then shareholders of record of the Corporation's Common Stock. Dividend equivalents shall be payable to the Participant in cash or in Common Stock, as set forth under the terms of the Plan Award, if and at such time as the related Option(s) are exercised.

ADJUSTMENT OF SHARES; MERGER OR
CONSOLIDATION, ETC. OF THE CORPORATION

Recapitalization, Etc. In the event there is any change in the outstanding Common Stock of the Corporation by reason of any reorganization, recapitalization, stock split, stock dividend, combination of shares or otherwise, there shall be substituted for or added to each share of Common Stock theretofore appropriated or thereafter subject, or which may become subject, to any Option, the number and kind of shares of stock or other securities into which each outstanding share of Common Stock shall be so changed or for which each such share shall be exchanged, or to which each such share shall be entitled, as the case may be, and the per share price thereof also shall be appropriately adjusted.

(b) Merger, Consolidation or Change in Control of Corporation. Upon (i) the merger or consolidation of the

Corporation with or into another corporation (pursuant to which the stockholders of the Corporation immediately prior to such merger or consolidation will not, as of the date of such merger or consolidation, own a beneficial interest in shares of voting securities of the corporation surviving such merger or consolidation having at least a majority of the combined voting power of such corporation's then outstanding securities), if the agreement of merger or consolidation does not provide for (1) the continuance of the Options granted hereunder or (2) the substitution of new options for Options granted hereunder, or for the assumption of such Options by the surviving corporation, (ii) the dissolution, liquidation, or sale of all or substantially all the assets of the Corporation to a person unrelated to the Corporation or to a direct or indirect owner of a majority of the voting power of the Corporation's then outstanding voting securities (such sale of assets being referred to as an "Asset Sale") or (iii) the Change in Control of the Corporation, then, subject to the determination of the Board of Directors, the holder of any such Option theretofore granted and still outstanding (and not otherwise expired) shall have the right immediately prior to the effective date of such merger, consolidation, dissolution, liquidation, Asset Sale or Change in Control of the Corporation to exercise such Option(s) in whole or in part without regard to any installment provision that may have been made part of the terms and conditions of such Option(s); provided that all conditions precedent to the exercise of such Option(s), other than the passage of time, have occurred. The Corporation, to the extent practicable, shall give advance notice to affected Optionees of such merger, consolidation, dissolution, liquidation, Asset Sale or Change in Control of the Corporation. Unless otherwise provided in the subject Award Agreement or merger, consolidation or Asset Sale Agreement, all such Options which are not so exercised shall be forfeited

1998 Stock Option Plan, as amended

Page 7

as of the effective time of such merger, consolidation, dissolution, liquidation or Asset Sale (but not in the case of a Change in Control of the Corporation). In the event the Corporation becomes a subsidiary of another corporation (the "New Parent Corporation") with respect to which the stockholders of the Corporation (as determined immediately before such transaction) own, immediately after such transaction, a beneficial interest in shares of voting securities of the New Parent Corporation having at least a majority of the combined voting power of such New Parent Corporation's then outstanding securities, there shall be substituted for Options granted hereunder, options to purchase common stock of the Parent Corporation.

(c) Definition of Change in Control of the Corporation. As used herein, a "Change in Control of the Corporation" shall be deemed to have occurred if any person (including any individual, firm, partnership or other entity) together with all Affiliates and Associates (as defined under Rule 12b-2 of the General Rules and Regulations promulgated under the Exchange Act) of such person (but excluding (i) a trustee or other fiduciary holding securities under an employee benefit plan of the Corporation or any subsidiary of the Corporation, (ii) a corporation owned, directly or indirectly, by the stockholders of the Corporation in substantially the same proportions as their

ownership of the Corporation, (iii) the Corporation or any subsidiary of the Corporation or (iv) only as provided in the immediately following sentence, a Participant together with all Affiliates and Associates of the Participant) who is not a stockholder or an Affiliate or Associate of a stockholder of the Corporation on the date of stockholder approval of the Plan is or becomes the Beneficial Owner (as defined in Rule 13d-3 promulgated under the Exchange Act), directly or indirectly, of securities of the Corporation representing 30% or more of the combined voting power of the Corporation's then outstanding securities. The provisions of clause (iv) of the immediately preceding sentence shall apply only with respect to the Option(s) held by the Participant who, together with his Affiliates or Associates, if any, is or becomes the direct or indirect Beneficial Owner of the percentage of securities set forth in such clause.

Investment Representation. With respect to shares of Common Stock received pursuant to the exercise of an Option, the Committee may require, as a condition of receiving such securities, that the Participant furnish to the Corporation such written representations and information as the Committee deems appropriate to permit the Corporation, in light of the existence or nonexistence of an effective registration statement under the Securities Act, to deliver such securities in compliance with the provisions of the Securities Act.

In the case of the issuance or distribution of Common Stock or other securities hereunder upon the exercise of any Plan Award the Corporation, as a condition of such issuance or distribution, may require the payment (through withholding from the Participant's salary, reduction of the number of shares of Common Stock or other securities to be issued, or otherwise) of any federal, state, local or foreign taxes required to be withheld. Each Participant may satisfy the withholding

obligations by paying to the Corporation a cash amount equal to the amount required to be withheld or, subject to the Committee's consent thereto, by tendering to the Corporation a number of shares of Common Stock having a value equivalent to such cash amount, or by use of any available procedure approved by the Committee as described under Section V(c) hereof.
