Section 16(a) of the Securities Exchange Act of 1934 requires our executive officers, directors and persons who beneficially own more than 10% of our common stock to file initial reports of ownership and reports of changes in ownership with the Securities and Exchange Commission. These persons are required by Securities and Exchange Commission regulations to furnish us with copies of all forms required to be filed under Section 16(a) by such persons. Based on our review of such forms furnished to us and written representations from certain reporting persons, we believe that all filing requirements applicable to our executive officers, directors and greater than 10% stockholders were complied with in a timely manner during fiscal 2002, other than the failure to file a Form 4 by each of Dr. Martin and Mr. Davis, to report the acquisition of additional shares of Series A Preferred Stock by Warburg Pincus Private Equity VIII, L.P. in March 2002 through the exercise of a warrant, which transaction was later reported by both of them on a Form 5 in July 2002. Lin Johnstone, former Interim President and Chief Executive Officer, failed to file a timely Form 3 reporting her holdings during October 2001. Ms. Johnstone's Form 3 was filed during August 2002.

Compensation of Directors

Our board of directors is reimbursed for expenses incurred in attending any meeting of the board of directors or any committee of the board of directors. We pay the chairman of our board of directors \$5,000 per month. We have adopted a policy whereby each new non-employee director will receive a grant of a stock option to purchase shares of our common stock on the date on which such person becomes a director with a face value no greater than \$100,000. The option vests over four years, with 25% of the shares subject to the option vesting on the first anniversary of the date on which the person becomes a director, and 1/48th of the total number of shares subject to the option vesting each month following the first anniversary. Our directors may also be given the opportunity from time to time to purchase shares of our common stock pursuant to restricted stock purchase agreements. In December 2001, we granted each of our non-employee directors an option to purchase 330,000 shares of common stock.

Compensation Committee Interlocks and Insider Participation

None of our executive officers serves on the board of directors or compensation committee of a company that has an executive officer that serves on our board of directors or compensation committee. Compensation Plans

Amended and Restated 2000 Stock Plan

Our Amended and Restated 2000 Stock Plan, or the 2000 Plan, provides for the grant of incentive stock options to employees, including officers and employee directors, and for the grant of nonstatutory stock options and stock purchase rights to employees, directors and consultants. As of October 21, 2002, the total number of shares of common stock reserved for issuance under the 2000 Plan was 25,000,000 shares. Through October 21, 2002, no shares of common stock have been issued under the 2000 Plan, and as of that date there were options to purchase an aggregate of 10,736,322 shares of common stock issued and outstanding. A number of shares is added to the 2000 Plan on an annual basis equal to the least of the aggregate number of shares subject to grants made in the previous year, 10,000,000 shares or such other amount as determined by the board of directors. Unless terminated earlier, the 2000 Plan will terminate automatically on August 9, 2010. The administrator of our 2000 Plan has the power to determine the:

- terms of the options or stock purchase rights granted, including the exercise price of the options or stock purchase rights;
- number of shares subject to each option or stock purchase right;

- vesting schedule of each option or stock purchase right; and
- form of consideration payable upon the exercise of each option or stock purchase right.

Options and stock purchase rights granted under the 2000 Plan are generally not transferable by the optionee, and each option and stock purchase right is exercisable during the lifetime of the optionee only by the optionee. Options granted under the 2000 Plan must generally be exercised within three months after the end of the optionee's status as an employee, director or consultant of us, or within 12 months after such optionee's termination by death or disability, but in any event not later than the expiration of the option's term.

The exercise price of all incentive stock options granted under the 2000 Plan must be at least equal to the fair market value of our common stock on the date of grant. The exercise price of nonstatutory stock options and stock purchase rights granted under the 2000 Plan is determined by the administrator, but with respect to nonstatutory stock options intended to qualify as "performance-based compensation" within the meaning of Section 162(m) of the Internal Revenue Code, the exercise price must be at least equal to the fair market value of our common stock on the date of grant. With respect to any participant who owns stock possessing more than 10% of the voting power of all classes of our outstanding capital stock, the exercise price of any incentive stock option granted must be at least equal to 110% of the fair market value on the grant date and the term of such incentive stock option must not exceed five years. The term of all other options granted under the 2000 Plan may not exceed ten years.

The 2000 Stock Plan provides that if we merge with or into another corporation, or sell substantially all of our assets, each option and stock purchase right must be assumed or an equivalent option or stock purchase right substituted for by the successor corporation. If the outstanding options and stock purchase rights are not assumed or substituted for by the successor corporation, the options shall become fully vested and the optionees shall have the right to exercise such options or stock purchase rights. If an option or stock purchase right becomes fully vested and exercisable in the event of a merger or sale of assets, the administrator must notify the optionee that the option or stock purchase right is fully exercisable for a period of 15 days from the date of the notice, and the option or stock purchase right will terminate upon the expiration of the 15-day period.

7

Amended and Restated 2000 Employee Stock Purchase Plan

As of October 21, 2002, a total of 2,429,089 shares of our common stock have been reserved for issuance under our Amended and Restated 2000 Employee Stock Purchase Plan, or Purchase Plan. The number of shares of our common stock reserved for issuance under the Purchase Plan is subject to annual increases equal to the least of the aggregate number of shares issued pursuant to Purchase Plan in the previous year, 1,000,000 shares, or such amount as determined by our board of directors. As of October 21, 2002, 557,258 shares had been issued under our Purchase Plan.

The Purchase Plan, which is intended to qualify under Section 423 of the Internal Revenue Code, is implemented by a series of overlapping offering periods of 24-month durations, with new offering periods, other than the first offering period, commencing on or about February 1 and August 1 of each year. Each offering period consists of four consecutive purchase periods of approximately six months' duration, at the end of which, an automatic purchase is made for participants. Participants generally may not purchase more than 5,000 shares, or such other number of shares established by our board of directors, on any purchase date or purchase stock having a value measured at the beginning of the offering period greater than \$25,000 in any calendar year.

Employees are eligible to participate in the Purchase Plan if they are customarily employed by us or any participating subsidiary for at least 20 hours per week and more than five months in any calendar year. However, any employee who immediately after grant of a purchase right under the Purchase Plan would own stock possessing 5% or more of the total combined voting power or value of all classes of our capital stock, or whose rights to purchase stock under all of our purchase plans accrues at a rate that exceeds \$25,000 worth of stock for each calendar year may not be granted an option to purchase stock under this plan. The Purchase Plan permits participants to purchase common stock through payroll deductions of up to 15% of the participant's base compensation.

Amounts deducted and accumulated by the participant are used to purchase shares of common stock at the end of each purchase period. The price of stock purchased under the Purchase Plan is generally 85% of the lower of the fair market value of our common stock at the beginning of the offering period or at the end of the purchase period. Participants may end their participation at any time during an offering period, and they will be paid their payroll deductions to date. Participation ends automatically upon termination of employment with us.

In the event the fair market value at the end of a purchase period is less than the fair market value at the beginning of the offering period, the participants will be withdrawn from the current offering period following exercise and automatically re-enrolled in a new

Edgar Filing: EVOLVE SOFTWARE INC - Form 10-K/A

offering period. The new offering period will use the lower fair market value as of the first date of the new offering period to determine the purchase price for future purchase periods.

Rights granted under the Purchase Plan are not transferable by a participant other than by will, the laws of descent and distribution, or as otherwise provided under the plan. The Purchase Plan provides that, in the event of our merger with or into another corporation or a sale of substantially all our assets, each outstanding option may be assumed or substituted for by the successor corporation. If the successor corporation refuses to assume or substitute for the outstanding options, the offering period then in progress will be shortened and a new exercise date will be set. The new exercise date will be set prior to the proposed date of the merger or sale of assets.

Our board of directors has the authority to amend or terminate the Purchase Plan, except that no such action may adversely affect any outstanding rights to purchase stock under the Purchase Plan. Our board of directors has the exclusive authority to interpret and apply the provisions of the Purchase Plan. The Purchase Plan will terminate automatically in 2010, unless terminated earlier.

Amended and Restated 2002 Nonstatutory Stock Option Plan

Our Amended and Restated 2002 Nonstatutory Stock Option Plan, or 2002 Plan, provides for the grant of nonstatutory stock options to employees, officers, directors and consultants. We may only make option grants to newly hired officers and directors as inducements to provide services to us. As of October 21, 2002, the total number of shares of common stock reserved for issuance under the 2002 Plan was 3,500,000 shares. Through October 21, 2002, no shares of common stock had been issued under the 2002 Plan, and as of that date there were options to purchase an aggregate of 2,250,000 shares of common stock issued and outstanding. Unless terminated earlier, the 2002 Plan will terminate automatically on April 24, 2012. The administrator of the 2002 Plan has the power to determine:

- terms of the options granted, including the exercise price of the options or stock purchase rights;
- number of shares subject to each option;
- vesting schedule of each option; and
- form of consideration payable upon the exercise of each option.

8

Options granted under the 2002 Plan are generally not transferable by the optionee, and each option is exercisable during the lifetime of the optionee only by the optionee. Options granted under the 2002 Plan must generally be exercised within 30 days after the termination of the optionee's status as an employee, officer, director or consultant of us, or within six months after such optionee's termination by death or disability, but in any event, not later than the expiration of the option's term.

With respect to any participant who owns stock possessing more than 10% of the voting power of all classes of our outstanding capital stock, the exercise price of any option granted must be at least equal to 110% of the fair market value on the grant date. With respect to any other participant the exercise price of any option granted may not be less than 85% of the fair market value on the date of grant, other than in connection with a merger or other similar corporate transaction.

The 2002 Plan provides that if we merge with or into another corporation, or sell substantially all of our assets, each option must be assumed or an equivalent option substituted for by the successor corporation. If the outstanding options are not assumed or substituted for by the successor corporation, the options shall become fully vested and exercisable by the optionees. If an option becomes fully vested and exercisable in connection with a merger or sale of assets, the administrator must notify the optionee that the option is fully exercisable for a period of at least 15 days from the date of the notice, and the option will terminate upon the expiration of the 15-day period.

1995 Stock Option Plan, as Amended

Our 1995 Stock Option Plan, as amended, was adopted by our board of directors and by our stockholders in 1995, and it was last amended in 2000. The 1995 Stock Option Plan was terminated as to new issuances in August 2000, upon the commencement of the 2000 Stock Plan. As of October 21, 2002, we had reserved a total of 5,833,333 shares of our common stock for issuance upon the exercise of options granted under the plan. The 1995 Stock Option Plan provides for the granting to our employees of incentive stock options within the meaning of Section 422 of the Internal Revenue Code, and for the granting to employees, officers, directors and consultants of nonstatutory stock options. No further option grants will be made under the 1995 Stock Option Plan.

Options granted under our 1995 Stock Option Plan are not generally transferable by the optionee, and each option is exercisable during the lifetime of the optionee only by the optionee. Options granted under the 1995 Stock Option Plan must generally be exercised within three months of the termination of optionee's status as an employee, officer, director or consultant, or within 12 months after his or her termination by death or disability, but in no event may the option be exercised after the expiration of the option's term.

Options granted under our 1995 Stock Option Plan will accelerate and become fully vested in the event we are acquired, unless the successor corporation assumes or substitutes other options in their place.

401(k) Plan

In April 1996, we adopted a 401(k) plan to provide eligible employees with a tax preferential savings and investment program. Eligible participants may elect to reduce their current compensation up to the lesser of 15% of eligible compensation and the statutorily prescribed annual limit and have such reduction contributed to the 401(k) plan. At the direction of each participant, the trustee of the 401(k) plan invests the assets of the 401(k) plan in selected investment options. Contributions by participants to the 401(k) plan, and income earned on the plan contributions, are generally not taxable to the participants until withdrawn.

Item 12. Security Ownership of Certain Beneficial Owners and Management

Stock Ownership of Certain Beneficial Owners and Management

The table below sets forth certain information as of the record date with respect to the beneficial ownership of our common stock by:

- each of our directors;
- each of our executive officers included in the Summary Compensation Table included in this report (the "named executive officers");
- all persons known to us to beneficially own more than 5% of our common stock; and
- all directors and executive officers as a group.

We have relied exclusively upon information provided to us by our directors and executive officers and copies of documents sent to us that have been filed with the Securities and Exchange Commission by others for purposes of determining the number of shares each person beneficially owns. Beneficial ownership is determined in accordance with the rules and regulations of the Securities and Exchange Commission and generally includes those persons who have voting or investment power with respect to the securities. Except as otherwise indicated, and subject to applicable community property laws, the persons named in the table have sole voting and investment power with respect to all shares of our common stock beneficially owned by them. Percentage ownership in the table below is based on 46,515,611 shares of common stock outstanding on the record date. Shares of our stock subject to options or warrants that are exercisable within 60 days of the record date and shares of our common stock issuable upon conversion of our Series A Preferred Stock and Series B Preferred Stock that are issued and outstanding on the record date are also deemed outstanding for purposes of calculating the percentage ownership of that person, and if applicable, the percentage ownership of executive officers and directors as a group, but are not treated as outstanding for the purpose of calculating the percentage ownership of any other person. Unless otherwise indicated, the address for each stockholder listed in the table below is c/o Evolve Software, Inc., 150 Spear Street, 11th Floor, San Francisco, CA 94105.
