PATIENT INFOSYSTEMS, INC. AND SUBSIDIARIES**Notes to Unaudited Consolidated Financial Statements for the period ended June 30, 2005**

1. The consolidated financial statements include the accounts of the Company and its wholly owned subsidiaries, American Caresource Holdings, Inc. (ACS), which was created in December 2003 and CBCA Care Management Inc. (CM), which the Company purchased on September 22, 2004. Significant intercompany transactions and balances have been eliminated in consolidation.

The accompanying consolidated financial statements for the three and six month periods ended June 30, 2005 and June 30, 2004 are unaudited and reflect all adjustments (consisting only of normal recurring adjustments) which are, in the opinion of management, necessary for a fair presentation of the financial position and operating results for the interim periods. These unaudited consolidated financial statements should be read in conjunction with the audited consolidated financial statements and notes thereto, together with management's discussion and analysis of financial condition and results of operations contained in the Company's Annual Report on Form 10-KSB for the year ended December 31, 2004. Certain reclassifications of 2004 amounts have been made to conform to 2005 presentation. The results of operations for the three and six month periods ended June 30, 2005 are not necessarily indicative of the results for the entire year ending December 31, 2005.

Acquisitions - On September 22, 2004, the Company acquired all the outstanding equity of CBCA Care Management, Inc. for a total purchase price of \$7,293,959, which included (1) \$7,100,000 in cash and (2) estimated direct expenses of \$193,959. The Company recorded the CBCA Care Management, Inc. acquisition using the purchase method of accounting.

Earnings per share - The calculations for the basic and diluted loss per share for the three and six month periods ended June 30, 2005 and 2004 did not include options and warrants to purchase 1,653,751 and 2,023,877 shares of common stock which were outstanding as of June 30, 2005 and 2004, respectively, nor the common equivalent shares issuable upon conversion of 73,800 and 869,572 shares, respectively, of Series C Preferred Stock and Series D Preferred Stock because the effect would have been antidilutive due to the net loss in those periods. The computation of basic and diluted net loss per share is as follows:

	Three Months Ended		Six Months Ended	
	June 30,		June 30,	
	<u>2005</u>	<u>2004</u>	<u>2005</u>	<u>2004</u>

Net loss attributable to Common Stockholders	<u>\$(1,658,246)</u>	<u>\$ (916,576)</u>	<u>\$(2,745,153)</u>	<u>\$(1,975,489)</u>
Weighted average common shares	<u>10,309,242</u>	<u>6,589,015</u>	<u>10,010,242</u>	<u>5,972,007</u>
Net loss per share - Basic and diluted	\$ (0.16)	\$ (0.14)	\$ (0.27)	\$ (0.33)

Stock-Based Compensation In 2002, the Company adopted Statement of Financial Accounting Standards (SFAS) No. 148, Accounting for Stock-Based Compensation Transition and Disclosure. This standard provides alternative methods of transition for voluntary change to the fair value based method of accounting for stock-based employee compensation. Additionally, the standard also requires prominent disclosures in the Company s financial statements about the method of accounting used for stock-based employee compensation, and the effect of the method used when reporting financial statements.

The Company accounts for stock-based compensation in accordance with SFAS No. 123, Accounting for Stock-Based Compensation . As permitted by SFAS No. 123, the Company continues to measure compensation for such plans using the intrinsic value based method of accounting, prescribed by Accounting Principles Board (APB), Opinion No. 25, Accounting for Stock Issued to Employees. Had compensation cost for the Company s stock-based compensation plans been determined based on the fair value at the date of grant for awards consistent with the provisions of SFAS No. 123, the Company s net loss and net loss per share would have been increased to the pro forma amounts indicated below:

	<u>Three Months Ended</u>		<u>Six Months Ended</u>	
	<u>June 30,</u>		<u>June 30,</u>	
	<u>2005</u>	<u>2004</u>	<u>2005</u>	<u>2004</u>
Net loss attributable to common shareholders - as reported	(\$1,658,246)	(\$916,576)	(\$2,745,153)	(\$1,975,489)
Stock compensation expense	(378,788)	(95,843)	(450,452)	(1,257,802)
Net loss - pro forma	(2,037,034)	(1,012,419)	(3,195,605)	(3,233,291)
Net loss per share - basic and diluted - as reported	(\$0.16)	(\$0.14)	(\$0.27)	(\$0.33)
Net loss per share - basic and diluted - pro forma	(\$0.20)	(\$0.15)	(\$0.32)	(\$0.54)
Weighted average common shares	10,309,242	6,589,015	10,010,242	5,972,007

The fair value of each option grant is estimated on the date of grant using the Black-Scholes option-pricing model using an expected life of 7 years and assumed risk-free interest rates of 3.86% as of June 30, 2005 and 3.93% as of December 31, 2004. The assumed dividend yield was zero. The Company has used a volatility factor of 104% as of June 30, 2005 and 121% as of December 31, 2004. For purposes of pro forma disclosure, the estimated fair value of each option is amortized to expense over such option s vesting period.

2. On February 2, 2005, ACS entered into the First Addendum to the Credit Agreement with Wells Fargo Bank Iowa, N.A., which increased the amount of that credit facility to \$3,000,000. Dr. Schaffer and Mr. Pappajohn, directors of the both Patient Infosystems and ACS, guaranteed this extension. Also on February 2, 2005, Patient Infosystems entered into the Fifth Addendum to the Second Amended and Restated Credit Agreement with Well Fargo Bank Iowa, N.A., which decreased the amount of this credit facility to \$6,000,000. ACS repaid \$1,000,000 outstanding under this credit agreement using its credit facility. In consideration of the guarantees, ACS issued warrants to purchase 974,950 shares of ACS common stock to Mr. Pappajohn and Dr. Schaffer valued at \$214,489 using the Black-Scholes method.

On August 9, 2005, ACS entered into the Second Addendum to the Credit Agreement with Wells Fargo bank, N.A. which increased the amount of that credit facility to \$4,000,000. Mr. Pappajohn and

Edgar Filing: PATIENT INFOSYSTEMS INC - Form 10QSB

Dr. Schaffer guaranteed this extension. In consideration for their guarantees ACS may grant additional warrants to Mr. Pappajohn and Dr. Schaffer. Any additional warrants will be granted under substantially the same terms as those previously issued by ACS.

3. On March 30, 2005, Mr. Pappajohn and Dr. Schaffer signed a letter to the Company in which they made a commitment to obtain the operating funds that the Company believes would be sufficient to fund its operations through January 1, 2006. There can be no assurances given that Mr. Pappajohn or Dr. Schaffer can raise either the required working capital through the sale of the Company's securities or that the Company can borrow the additional amounts needed.
4. During the six months ended June 30, 2005, the Company operated in two segments: (i) Patient Infosystems, which includes disease management, demand management, provider improvement as well as case management and utilization review services which were acquired on September 22, 2004 through the acquisition of CM and (ii) ACS, which includes ancillary benefits management services. Selected financial information on the Company's segments for the three and six month periods ended June 30, 2005 and 2004 are presented as follows:

	Three Months ended June 30, 2005	2004	Six Months ended June 30, 2005	2004
Revenues				
Patient Infosystems, Inc.	\$ 2,671,536	\$ 1,679,726	\$ 5,965,982	\$ 4,024,153
American Caresource Holdings, Inc.	1,038,817	1,393,196	2,348,001	3,069,706

Other				
Patient Infosystems, Inc.	340,759	190,658	681,650	387,430
American Caresource Holdings, Inc.	59,933	5,897	94,382	10,466
Net loss				
Patient Infosystems, Inc.	(775,754)	(312,356)	(1,138,330)	(293,088)
American Caresource Holdings, Inc.	(678,753)	(398,318)	(1,197,249)	(1,189,285)
Total net loss	(1,454,507)	(710,674)	(2,335,579)	(1,482,373)

5. **Distribution of American Caresource Holdings, Inc.:** On February 14, 2005, ACS filed with the Securities and Exchange Commission a registration statement that relates to the distribution by dividend to all the shareholders of Patient Infosystems over 90% of the common stock of ACS held by Patient Infosystems. 1,000,000 shares will be retained by Patient Infosystems which is less than a 10% ownership. The registration statement also covers the sale of the shares owned by Patient Infosystems from time to time in the open market. No market currently exists for the shares of common stock of ACS and no assurance can be given that one will develop.

ACS is currently a wholly-owned subsidiary of Patient Infosystems. After the distribution, ACS will be an independent public company.

Under the proposed distribution, it is anticipated that holders of Patient Infosystems common stock would receive one share of ACS common stock for every two shares of Patient Infosystems common

stock that they hold. Holders of fewer than two shares of Patient Infosystems common stock will receive one share of ACS common stock. Holders of Patient Infosystems Series C preferred stock or Series D preferred stock will receive one share of ACS common stock for every two shares of Patient Infosystems common stock which are issuable upon the conversion of the preferred stock they hold. The ACS shares may only be distributed by Patient Infosystems if the value of the ACS shares is not greater than the excess of Patient Infosystems' assets over its liabilities and stated capital at the time of the distribution. The Board of Directors of Patient Infosystems will only authorize the distribution if it can be assured that such condition is satisfied at the time the distribution would be made.

Item 2. Management's Discussion and Analysis or Plan of Operations.

Management's discussion and analysis provides a review of the Company's operating results for the three and six month periods ended June 30, 2005 as compared to the three and six month periods ended June 30, 2004 and a review of the Company's financial condition at June 30, 2005 as compared to June 30, 2004 and December 31, 2004. The focus of this review is on the underlying reasons for significant changes and trends affecting the revenues, net earnings and financial condition of the Company. This review should be read in conjunction with the accompanying unaudited consolidated financial statements.

On February 14, 2005, ACS filed with the Securities and Exchange Commission a prospectus that relates to the distribution by dividend to all the shareholders of Patient Infosystems of up to 10,000,000 shares of common stock of ACS, such number of shares to be registered may be adjusted as of the record date of the proposed distribution. 1,000,000 shares will be retained by Patient Infosystems.

ACS is currently a wholly-owned subsidiary of Patient Infosystems. After the distribution, ACS will be an independent public company.

Under the proposed distribution, it is anticipated that holders of Patient Infosystems common stock would receive one share of ACS common stock for every two shares of Patient Infosystems common stock that they hold. Holders of fewer than two shares of Patient Infosystems common stock will receive one share of ACS common stock. Holders of Patient Infosystems Series C preferred stock or Series D preferred stock will receive one share of ACS common stock for every two shares of Patient Infosystems common stock which are issuable upon the conversion of the preferred stock they hold.

Once the proposed distribution is effective, Patient Infosystems will operate in only one segment. That segment will consolidate the results of operations of Patient Infosystems, Inc. and CBCA Care Management, Inc. while the historical results of ACS will be presented as discontinued operations.

In an effort to give investors a well-rounded forward-looking view of the Company's current condition and future opportunities, this Quarterly Report on Form 10-QSB includes information from the Company's management about future performance and results. Because they are forward-looking, this information involves uncertainties. These uncertainties include the Company's ability to continue its operations as a result of, among other things, continuing losses, working capital short falls, uncertainties with respect to sources of capital, recent terminations of client relationships, risks of market acceptance of or preference for the Company's systems and services, competitive forces, the impact of changes in government regulations, general economic factors in the healthcare industry and other factors discussed in the Company's filings with the Securities and Exchange Commission including the Company's Annual Report on Form 10-KSB for the year ended December 31, 2004.

Results of Operations

To assist the reader's understanding of the results of operations, each of the Company's segments, Patient Infosystems, Inc. and American Caresource Holdings, Inc., will be presented separately.

Other Fees				
Other Fees	1,189	8,385	2,782	11,071
Total Revenues	\$ 2,671,536	\$ 1,679,726	\$ 5,965,982	\$ 4,024,153

Provider innovations and improvement fee revenues are primarily attributable to assistance provided to organizations for the management of patients with chronic disease, including information technology support, learning organization services and data analysis and reporting. More than 95% of the provider innovation and improvement revenue is related to a subcontract with the Institute for Healthcare Improvement (IHI). Provider improvement fee revenues for the three and six month periods ended June 30,

Edgar Filing: PATIENT INFOSYSTEMS INC - Form 10QSB

2005 decreased to \$625,584 and \$1,786,733, respectively, as compared to \$1,165,916 and \$3,024,019 for the same respective periods of 2004. When the IHI renewed its agreement it reduced the scope and associated revenue for services to be rendered during for the three month period ended June 30, 2005 as compared to any of the prior periods presented. The Company does not have a long term agreement with the IHI and no assurances can be given that Patient Infosystems will continue to provide these services at the current levels, or at all. Revenue recognized during the three and six month periods

ended June 30, 2005 is not necessarily indicative of the results to be expected for the entire year ending December 31, 2005. The current contract with IHI expires on September 30, 2005. Patient Infosystems anticipates renewing this contract under substantially the same terms, although no assurance can be given that the contract will be renewed. Patient Infosystems is actively marketing these services to interested parties other than the Institute for Healthcare Improvement and anticipates increases in Provider Improvement revenue to the extent that such efforts are successful, although no assurances can be given that any new contracts can be obtained under terms favorable to Patient Infosystems.

Case and utilization management fee revenues are primarily attributable to the operations of the Company's wholly owned subsidiary, CBCA Care Management, Inc. The Company acquired CBCA Care Management, Inc. on September 22, 2004. During the three and six month periods ended June 30, 2005, the Company had \$1,515,879 and \$3,109,978 of case and utilization management revenue, respectively. CBCA Care Management, Inc. had revenue of \$2 million and \$3.8 million during the three and six month periods ended June 30, 2004, respectively, prior to the acquisition. Of the revenue for the three and six month periods ended June 30, 2005, \$883,000 and \$1,828,000, respectively, arose from one reseller, CBCA Administrators, Inc., as compared to \$1,140,000 and \$2,295,000 of revenue from CBCA Administrators, Inc. during the same respective periods of 2004. Patient Infosystems is marketing case and utilization management services, but no assurance can be given that such marketing efforts will replace the revenue lost by CBCA Administrators, Inc., if at all. Revenue recognized during the three and six month periods ended June 30, 2005 is not necessarily indicative of the results to be expected for the entire year ending December 31, 2005.

Disease and demand management fee revenues are primarily attributable to the operation of Patient Infosystems' call center and the delivery of Care Team Connect for Health directly to patients. Disease and demand management fee revenues for the three and six month periods ended June 30, 2005 increased to \$528,884 and 1,066,489, respectively, as compared to \$505,425 and \$989,063 for the same respective periods of 2004. The increase in these fees is primarily attributable to new sales of Care Team Connect. Patient Infosystems is actively marketing its disease and demand management services and anticipates continuing to sell its services. No assurances can be given that Patient Infosystems will be able to sell its demand and disease management services, or, to the extent there are sales, that any such sales will have a material effect on the financial condition of Patient Infosystems.

Other fee revenues for the three and six month periods ended June 30, 2005 was \$1,189 and \$2,782, respectively, as compared to \$8,385 and \$11,071 for the same respective periods of 2004. Patient Infosystems received other revenues for (i) development fees from a variety of customers for creation of, or modification to, specific programs and (ii) license fees. Patient Infosystems has completed substantially all services under these agreements. Development fee revenues include clinical, technical and operational design or modification of Patient Infosystems' primary disease management programs. Patient Infosystems anticipates that revenue from development fees will continue to be low unless Patient Infosystems enters into new development agreements. Patient Infosystems has not entered into any new licensing agreements and the revenue for the current period reflects revenue generated exclusively from services provided under existing agreements.

Costs and Expenses

Cost of sales includes salaries and related benefits, services provided by third parties, and other expenses associated with the implementation and delivery of Patient Infosystems' provider improvement, case and utilization management and demand and disease management programs. Cost of sales for the three and six month periods ended June 30, 2005 was \$2,062,063 and \$4,553,090, respectively, as compared to \$1,264,083 and \$2,790,678 for the same respective periods of 2004. The increase in these costs was primarily the result of the additional \$1 million and \$2.1 million of costs attributable to CM for the three and six month periods ended June 30, 2005, respectively. Patient Infosystems anticipates that revenue must increase for it to recognize economies of scale adequate to improve its margins such that costs of sales will not exceed revenue. No assurance can be given that revenues will increase or that, if they do, they will exceed costs and expenses.

Edgar Filing: PATIENT INFOSYSTEMS INC - Form 10QSB

Sales and marketing expenses consist primarily of salaries, related benefits, travel costs, sales materials and other marketing related expenses. Sales and marketing expenses for the three and six month periods ended June 30, 2005 was \$469,697 and \$762,435, respectively, as compared to \$225,508 and \$447,518 for the same respective periods of 2004. Patient Infosystems anticipates expansion of Patient Infosystems sales and marketing staff and expects it will continue to invest in the sales and marketing process, and that such expenses related to sales and marketing may increase in future periods.

General and administrative expenses include the costs of corporate operations, finance and accounting, human resources and other general operating expenses of Patient Infosystems. General and administrative expenses for the three and six month periods ended June 30, 2005 was \$538,943 and \$1,034,440, respectively, as compared to \$286,206 and \$633,381 for the same respective periods of 2004. These expenditures have been incurred to maintain the corporate infrastructure necessary to support anticipated program operations and to support the increased operations attributable to CBCA Care Management. General and administrative expenses may increase in future periods as it continues to establish the resources needed to comply with Section 404 of the Sarbanes-Oxley Act of 2002.

Research and development expenses consist primarily of salaries and related benefits and administrative costs associated with the development of certain components of Patient Infosystems integrated information capture and delivery system, as well as development of Patient Infosystems' standardized disease management programs and Patient Infosystems Internet based technology products. Research and development expenses for the three and six month periods ended June 30, 2005 was \$35,828 and \$72,697, respectively, as compared to \$25,627 and \$58,234 for the same respective periods of 2004.

Patient Infosystems recorded other expenses for the three and six month periods ended June 30, 2005 of \$340,759 and \$681,650, respectively, as compared to \$190,658 and \$387,430 for the same respective periods of 2004. This change was principally due to the interest and financing cost related to debt.

	Three months ended		Six months ended	
	June 30,		June 30,	
	2005	2004	2005	2004
Interest and financing costs	(343,382)	(190,658)	(684,273)	(384,648)
Other	2,623	-	2,623	(2,782)
Total other expense	(340,759)	(190,658)	(681,650)	(387,430)

Patient Infosystems had a net loss for the three and six month periods ended June 30, 2005 of \$775,754 and \$1,138,330, respectively, as compared to \$312,356 and \$293,088 for the same respective periods of 2004.

Selling, general and administrative	566,724	443,767	1,098,316	1,262,565
Operational loss	(618,820)	(392,420)	(3,450,868)	(1,178,819)
Other	(59,933)	(5,897)	(94,382)	(10,466)
Net loss	\$(678,753)	\$(398,318)	\$(1,197,249)	\$(1,189,285)

Revenues of ACS are comprised of revenues from ancillary service claims and processing of patient claims. Revenues decreased by \$354,379 during the three month period ended June 30, 2005 versus 2004, or 25%. Revenues decreased by \$721,705, or 24%, to \$2,348,001 during the six month period ended June 30, 2005, from \$3,069,706 in the same period in 2004.

Revenues	Three Months Ended		Six Months Ended	
	June 30, <u>2005</u>	<u>2004</u>	June 30, <u>2005</u>	<u>2004</u>
Ancillary health	\$1,005,014	\$1,266,631	\$2,213,876	\$2,811,479
Patient claims	33,803	126,565	134,125	258,227
Total revenues	\$1,038,817	\$1,393,196	\$2,348,001	\$3,069,706

Ancillary health claims revenue for the three and six month periods ended June 30, 2005 decreased to \$1,005,014 and \$2,213,876, respectively, as compared to \$1,266,631 and \$2,811,479 for the same periods in 2004. The decrease in the second quarter is attributable to reduced claims volume from some of our clients due to fluctuation in claims mix and claims volume inherent in the health benefits industry. This fluctuation reflects ACS's limitation to ancillary healthcare services and previous market focus on PPO organizations rather than directly contracting with payers. ACS is working to expand its provider network to lessen the negative impact of future fluctuations in claims volume and mix of services. No assurances can be given that ACS can continue to expand its provider or payor relationships, nor that any such expansion will result in an improvement in the results of operations of ACS. In addition, the loss of a major client contributed to a decrease in first quarter revenues. Pinnacol Assurance (Pinnacol) notified ACS on December 19, 2003 of its intent to terminate its contract with ACS effective March 18, 2004, and was winding down through the first quarter and into the second quarter of 2004. Revenue from Pinnacol was \$563,042 through April 2004, and there was no revenue from Pinnacol in 2005. The decreased revenue due to the termination of Pinnacol was partially offset by \$203,281 of new business from three new clients in the first six months of 2005.

The processing of patient claims revenues for the three and six month periods ended June 30, 2005 decreased to \$33,803 and \$134,125, respectively, as compared to \$126,565 and \$258,227 for the three and six month periods ended June 30, 2004. As ACS has focused on its higher margin ancillary health network business, ACS has not devoted significant resources to expanding its claims processing business. On February 28, 2005, a primary claims processing client terminated that portion of its relationship with ACS. This client had \$0 and \$71,408, respectively, of claims processing revenue in the three and six month periods ended June 30, 2005, versus \$100,848 and \$205,927 for the same periods in 2004, and this client will not generate claims processing revenue in future periods. As a result, ACS reduced its workforce in its claims processing facility in Indiana by eleven employees in the first quarter of 2005.

Costs and Expenses

Cost of sales includes salaries and related benefits, services provided by third parties, and other expenses associated with the development of ACS ancillary health programs. Cost of sales decreased 19% from \$1,341,850 for the quarter ended June 30, 2004 to \$1,090,913 for the quarter ended June 30, 2005, and decreased 22% from \$3,022,887 to \$2,352,552 for the six month periods ended June 30, 2004 and 2005, respectively. The decrease in these costs primarily reflects operational cost savings due to the decreased support required and lower claim payment volume associated with the decreased revenues as well as a shift in business type. ACS realized savings from its reduced workforce related to its claims processing business of approximately \$83,000 in the three months ended June 30, 2005, and ACS anticipates that this savings will continue in future periods.

Selling, general and administrative and marketing expenses increased \$122,957 and decreased \$129,361 for the three and six month periods ended June 30, 2005, respectively, as compared to the same periods in 2004. These costs consist primarily of salaries, related benefits and travel costs, sales materials, other marketing related expenses, costs of corporate operations, finance and accounting, human resources and other general operating expenses of ACS. Increases in these costs for the second quarter of 2005 as compared to the same period in 2004 are due to increased administrative costs related to the addition of a full-time chief executive and increased investment in the sales and marketing process. The decrease in the six month period comparison is the result of a one-time charge associated with warrants issued by ACS's parent company (Patient Infosystems) in the first quarter of 2004. In addition, these expenses include \$53,394 for the three months and \$106,788 for the six months ended June 30, 2005 as compared to \$23,098 and \$46,196 for the same respective periods of 2004, which is amortization of intangibles that were acquired by Patient Infosystems from ACS's predecessor, American Caresource Corporation. Such amortization amounts reflect an adjustment to the asset value which was recorded by ACS in December 2004 following an independent valuation. The on-going value of these acquired assets will be re-evaluated at least quarterly to test for any potential impairment. For the three and six month periods ended June 30, 2005 there was not impairment of these assets.

It is anticipated that ACS will need to invest heavily in the sales and marketing process in future periods, and intends to do so as funds are available. To the extent that ACS has limited funds available for sales and marketing, or cannot leverage its marketing partnerships adequately, it will likely be unable to invest in the necessary marketing activities to generate substantially greater sales. If the distribution occurs, ACS anticipates that its general and administrative costs will increase as it loses some of the administrative synergy it now has with Patient Infosystems as it will be required to meet the obligations of a separate public reporting company, and among other things, lose the efficiencies of combined liability and other insurance with Patient Infosystems.

Other expense includes interest and financing costs. Interest expense is due to interest related capitalized equipment leases and the line of credit. Financing costs are related to amortization of the cost related to debt guaranties provided by Company directors. Other expense increased to \$59,933 and \$94,382 for the three and six month periods ended June 30, 2005 from \$5,897 and \$10,466, respectively, for the same periods in 2004.

Loss

ACS reported a net loss of \$678,753 and \$1,197,249 for the three and six month periods ended June 30, 2005, as compared to a net loss of \$398,318 and \$1,189,285, respectively, for the same periods in 2004.

INCOME (LOSS)

The Company reported a net loss attributable to common shareholders for the three and six month periods ended June 30, 2005 of \$1,658,246 and \$2,745,153 as compared to \$916,576 and \$1,975,489 for the same respective periods of 2004. This represents a loss per share of \$0.16 and \$0.27, respectively, for the three and six month periods ended June 30, 2005 as compared to \$0.14 and \$0.33 for the same respective periods of 2004. During the six months ended June 30, 2005, the Company was obligated to record a dividend of \$409,574 on the outstanding preferred stock of the Company.

LIQUIDITY AND CAPITAL RESOURCES

At June 30, 2005, the Company had a working capital deficit of \$2,200,304 as compared to a deficit of \$1,868,268 at December 31, 2004. Through June 30, 2005, these amounts reflect the effects of the Company's continuing losses and borrowings. Since its inception, the Company has primarily funded its operations, working capital needs and capital expenditures from the sale of equity securities or the incurrence of debt.

On December 31, 2003, the Company entered into the Third Addendum to the Second Amended and Restated Credit Agreement with Well Fargo Bank Iowa, N.A., which extended the term of the \$3,000,000 credit facility to July 31, 2005. Mr. Pappajohn and Dr. Schaffer guaranteed this extension. In consideration for their guarantees, in February 2004 the Company granted to Dr. Schaffer and Mr. Pappajohn warrants to purchase an aggregate of 47,500 shares of Series D Convertible Preferred Stock, which are convertible into 475,000 shares of the Company's common stock for \$10.00 per preferred share (the Initial Guarantee). The Company valued these warrants at \$1,085,375 using the Black-Scholes method. The value of these warrants was recorded as deferred debt issuance cost and is being amortized as financing costs over the period of the loan guarantee.

On September 21, 2004, the Company entered into the Fourth Addendum to the Second Amended and Restated Credit Agreement with Well Fargo Bank Iowa, N.A., which increased the amount of the credit facility to \$7,000,000 and extended the term to July 31, 2006. Dr. Schaffer and Mr. Pappajohn, directors of the Company, guaranteed these extensions. In consideration of their guarantees, in September 2004 the Company granted to Dr. Schaffer and Mr. Pappajohn warrants to purchase an aggregate of 1,000,000 shares of the Company's common stock for \$1.68 per share. The Company valued these warrants at \$1,416,500 using the Black-Scholes method. The value of these warrants was recorded as deferred debt issuance costs and together with the then unamortized portion of the Initial Guarantee, is being amortized as financing costs over the new period of the loan guarantee. During the three and six months ended June 30, 2005, the Company recorded a financing cost of \$266,723 and \$533,446, respectively.

On February 2, 2005, ACS entered into the First Addendum to the Credit Agreement with Wells Fargo Bank Iowa, N.A., which increased the amount of that credit facility to \$3,000,000. Dr. Schaffer and Mr. Pappajohn, directors of the both Patient Infosystems and ACS, guaranteed this extension. Also on February 2, 2005, Patient Infosystems entered into the Fifth Addendum to the Second Amended and Restated Credit Agreement with Well Fargo Bank Iowa, N.A., which decreased the amount of this credit facility to \$6,000,000. ACS repaid \$1,000,000 outstanding under this credit agreement using its credit facility. In consideration of the guarantees, ACS issued warrants to purchase 974,950 shares of ACS common stock to Dr. Schaffer and Mr. Pappajohn valued at \$214,489 using the Black-Scholes method.

On March 30, 2005, Mr. Pappajohn and Dr. Schaffer signed a letter to the Company in which they made a commitment to obtain the operating funds that the Company believes would be sufficient to fund its operations through January 1, 2006. There can be no assurances given that Mr. Pappajohn or Dr. Schaffer can either invest or raise the required working capital through the sale of the Company's securities or that the Company can borrow the additional amounts needed.

Edgar Filing: PATIENT INFOSYSTEMS INC - Form 10QSB

On August 9, 2005, ACS entered into the Second Addendum to the Credit Agreement with Wells Fargo bank, N.A. which increased the amount of that credit facility to \$4,000,000. Mr. Pappajohn and Dr. Schaffer guaranteed this extension. In consideration for their guarantees ACS may grant additional

warrants to Mr. Pappajohn and Dr. Schaffer. Any additional warrants will be granted under substantially the same terms as those previously issued by ACS.

The Company has expended significant amounts to expand its operational capabilities, including increasing its administrative and technical costs. While Patient Infosystems has both curtailed its spending levels and increased its revenue, to the extent that revenue for ACS and the rest of the Company's business do not increase substantially, the Company's losses will continue and its available capital will diminish further. The Company's operations are currently being funded by borrowings and the sale of equity securities. There can be no assurances given that the Company can raise either the required working capital through the sale of its securities or that Patient Infosystems can borrow the additional amounts needed. In such instance, if Patient Infosystems is unable to identify additional sources of capital, it will likely be forced to curtail or cease operations.

Distribution of American Caresource Holdings, Inc.: On February 14, 2005, ACS filed with the Securities and Exchange Commission a registration statement that relates to the distribution by dividend to all the shareholders of Patient Infosystems over 90% of the common stock of ACS held by Patient Infosystems. 1,000,000 shares will be retained by Patient Infosystems which is less than a 10% ownership. The registration statement also covers the sale of the shares owned by Patient Infosystems from time to time in the open market. No market currently exists for the shares of common stock of ACS and no assurance can be given that one will develop.

ACS is currently a wholly-owned subsidiary of Patient Infosystems. After the distribution, ACS will be an independent public company.

Under the proposed distribution, it is anticipated that holders of Patient Infosystems common stock would receive one share of ACS common stock for every two shares of Patient Infosystems common stock that they hold. Holders of fewer than two shares of Patient Infosystems common stock will receive one share of ACS common stock. Holders of Patient Infosystems Series C preferred stock or Series D preferred stock will receive one share of ACS common stock for every two shares of Patient Infosystems common stock which are issuable upon the conversion of the preferred stock they hold. The ACS shares may only be distributed by Patient Infosystems if the value of the ACS shares is not greater than the excess of Patient Infosystems' assets over its liabilities and stated capital at the time of the distribution. The Board of Directors of Patient Infosystems will only authorize the distribution if it can be assured that such condition is satisfied at the time the distribution would be made.

INFLATION

Inflation did not have a significant impact on the Company's costs during the three and six month periods ended June 30, 2005. The Company continues to monitor the impact of inflation in order to minimize its effects through pricing strategies, productivity improvements and cost reductions.

FORWARD LOOKING STATEMENTS

When used in this and in future filings of the Company with the Securities and Exchange Commission (SEC), in the Company's press releases and in oral statements made with the approval of an authorized executive officer of the Company, the words or phrases will likely result, expects, plans, will continue, is anticipated, estimated, project, or outlook or similar expressions confirmations by an authorized executive officer of the Company of any such expressions made by a third party with respect to the Company) are intended to identify forward-looking statements within the meaning of the Private Securities Litigation Reform Act of

Edgar Filing: PATIENT INFOSYSTEMS INC - Form 10QSB

1995. The Company wishes to caution readers not to place undue reliance on any such forward-looking statements, each of which speak only as of the date made. Such statements, including those made with respect to future sources of revenue, new customers and control of costs and expenses, are subject to certain risks and uncertainties that could cause actual results to differ materially from historical earnings and those presently anticipated or projected. These uncertainties include the Company's ability to continue its operations as a result of,

among other things, continuing losses, working capital short falls, uncertainties with respect to sources of capital, risks of market acceptance of or preference for the Company's systems and services, competitive forces, the impact of changes in government regulations, general economic factors in the healthcare industry and other factors discussed in the Company's filings with the SEC including the Company's Annual Report on Form 10-KSB for the year ended December 31, 2004. The Company has no obligation to publicly release the result of any revisions, which may be made to any forward-looking statements to reflect anticipated or unanticipated events or circumstances occurring after the date of such statements.

Item 3. Controls and Procedures.

Our management, with the participation of our Chief Executive Officer and Vice President, Financial Planning, has evaluated the effectiveness of our disclosure controls and procedure as of June 30, 2005. Based upon this evaluation, our Chief Executive Officer and Vice President, Financial Planning concluded that our disclosure controls and procedures are effective for recording, processing, summarizing and reporting the information we are required to disclose in the reports we file under the Securities Exchange Act of 1934, within the time periods specified in the SEC's rules and forms. Such evaluation did not identify any change in our internal control over financial reporting that occurred during the quarter ended June 30, 2005 that has materially affected, or is reasonably likely to affect, our internal control over financial reporting.

PART II - OTHER INFORMATION**Item 1. Legal Proceedings**

A former employee of American Caresource Corporation filed a lawsuit on June 16, 2004 entitled Schrier v. American Caresource Corporation, (Ind. Superior Ct.), alleging that she was terminated on February 5, 2003 in retaliation for refusing to engage in illegal conduct. She alleges that American Caresource Corporation engaged in various activities that would have constituted violations of agreements with customers, various laws, rules and regulations and would have resulted in inaccurate financial information being provided to the Company in connection with the acquisition transaction. The plaintiff has demanded damages of \$123,000. On May 4, 2005, the plaintiff entered into a Memorandum of Mediated Settlement in which the plaintiff agreed to dismiss the court action and American Caresource Holdings agreed to pay a total of \$20,000 to the plaintiff and the plaintiff's attorney. The parties agreed to share the cost of the mediator.
