NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

1. CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

In the opinion of the Company, the accompanying unaudited condensed consolidated financial statements prepared in accordance with instructions for Form 10-Q, include all adjustments (consisting only of normal recurring accruals) which are necessary for a fair presentation of the results for the periods presented. Certain information and footnote disclosures normally included in the consolidated financial statements prepared in accordance with accounting principles generally accepted in the United States of America have been condensed or omitted. It is suggested that these condensed consolidated financial statements be read in conjunction with the Company's Annual Report for the year ended December 31, 2014. The balance sheet as of December 31, 2014 was derived from audited consolidated financial statements as of that date. The results of operations for the three months ended March 31, 2015 are not necessarily indicative of the results to be expected for the full year.

The condensed consolidated financial statements include the accounts of HMG/Courtland Properties, Inc. (the "Company") and entities in which the Company owns a majority voting interest or controlling financial interest. All material transactions and balances with consolidated and unconsolidated entities have been eliminated in consolidation or as required under the equity method.

2. RECENT ACCOUNTING PRONOUNCEMENTS

Refer to the consolidated financial statements and footnotes thereto included in the HMG/Courtland Properties, Inc. Annual Report on Form 10-K for the year ended December 31, 2014 for recent accounting pronouncements. The Company does not believe that any recently issued, but not yet effective accounting standards, if currently adopted, will have a material effect on the Company's consolidated financial position, results of operations and cash flows.

3. INVESTMENTS IN MARKETABLE SECURITIES

Investments in marketable securities consist primarily of large capital corporate equity and debt securities in varying industries or issued by government agencies with readily determinable fair values. These securities are stated at market value, as determined by the most recent traded price of each security at the balance sheet date. Consistent with the Company's overall current investment objectives and activities its entire marketable securities portfolio is classified as trading. Included in investments in marketable securities is approximately \$8.3 million of large capital real estate investment trusts (REITs) as of March 31, 2015.

Edgar Filing: HMG COURTLAND PROPERTIES INC - Form 10-Q

Net realized and unrealized gain from investments in marketable securities for the three months ended March 31, 2015 and 2014 is summarized below:

Description	Three Months Ended March 31,	
	2015	2014
Net realized gain from sales of securities	\$ 155,000	\$ 11,000
Unrealized net gain in trading securities	27,000	116,000
Total net gain from investments in marketable securities	\$ 182,000	\$ 127,000

For the three months ended March 31, 2015, net realized gain from sales of marketable securities of approximately \$155,000 consisted of approximately \$262,000 of gross gains net of \$107,000 of gross losses. For the three months ended March 31, 2014, net realized gain from sales of marketable securities of approximately \$11,000 consisted of approximately \$34,000 of gross gains net of \$23,000 of gross losses.

Investment gains and losses on marketable securities may fluctuate significantly from period to period in the future and could have a significant impact on the Company's net earnings. However, the amount of investment gains or losses on marketable securities for any given period has no predictive value and variations in amount from period to period have no practical analytical value.

4. INVESTMENT IN REAL ESTATE PARTNERSHIP

As previously reported, in September 2014, the Company, through a newly-formed wholly owned subsidiary (HMG Orlando LLC, a Delaware limited liability company), acquired a one-third equity membership interest in JY-TV Associates, LLC a Florida limited liability company (“JY-TV”) and entered into the Amended and Restated Operating Agreement of JY-TV (the “Agreement”). JY-TV was formed in 2014 for the sole purpose of constructing up to two hundred fifty (250) unit rental apartments on approximately 9.5 acres in Orlando, Florida (“Project”). The other two initial members of JY-TV are not related to the Company. Total development costs for the Project are estimated at \$34 million and the three members have each funded approximately \$2.3 million in equity. As of March 31, 2015 the Company had funded \$1,435,000 towards this commitment, and an additional \$815,000 was funded in April 2015.

In February 2015 JY-TV completed purchase of the 9.5 acres for approximately \$3.4 million. JY-TV is in the process of obtaining construction financing of approximately \$27 million and construction is expected to commence in 2015. This investment is accounted for under the equity method.

5. OTHER INVESTMENTS

As of March 31, 2015, the Company’s portfolio of other investments had an aggregate carrying value of approximately \$3.7 million and we have committed to fund approximately \$2.1 million as required by agreements with the investees. The carrying value of these investments is equal to contributions less distributions and loss valuation adjustments, if any.

During the three months ended March 31, 2015, we made contributions to other investments of approximately \$536,000 primarily in two new real estate investments. One for \$300,000 is a real estate partnership owning residential rental property in San Antonio, Texas and the other for \$100,000 is a real estate partnership owning a second mortgage on a property located in Miami, Florida.

During the three months ended March 31, 2015, we received distributions from other investments of approximately \$680,000 primarily from two real estate investments which sold property. We received \$348,000 from our investment in a commercial building located near the Company’s offices purchased in 2005 with a carrying value as of March 31, 2015 of \$376,000. We also received \$131,000 from our investment in a partnership which sold its rental property in Miami, Florida and distributed the sales proceeds in February 2015.

Net income from other investments for the three months ended March 31, 2015 and 2014, is summarized below:

When evaluating the investments for other-than-temporary impairment, the Company reviews factors such as the length of time and extent to which fair value has been below cost basis, the financial condition of the issuer and any changes thereto, and the Company's intent to sell, or whether it is more likely than not it will be required to sell, the investment before recovery of the investment's amortized cost basis.

In accordance with ASC Topic 320-10-65, Recognition and Presentation of Other-Than-Temporary Impairments there were no OTTI impairment valuation adjustments for the three months ended March 31, 2015 and 2014.

6. FAIR VALUE OF FINANCIAL INSTRUMENTS

In accordance with ASC Topic 820, the Company measures cash and cash equivalents, marketable debt and equity securities at fair value on a recurring basis. Other investments are measured at fair value on a nonrecurring basis.

The following are the major categories of assets and liabilities measured at fair value on a recurring basis during the three months ended March 31, 2015 and for the year ended December 31, 2014, using quoted prices in active markets for identical assets (Level 1) and significant other observable inputs (Level 2). For the periods presented, there were no major assets measured at fair value on a recurring basis which uses significant unobservable inputs (Level 3):

Assets and liabilities measured at fair value on a recurring basis are summarized below:

Carrying amount is the estimated fair value for corporate debt securities and time deposits based on a market-based approach using observable (Level 2) inputs such as prices of similar assets in active markets.

The following are the major categories of assets and liabilities measured at fair value on a nonrecurring basis during the three months ended March 31, 2015 and for the year ended December 31, 2014. This category includes other investments which are measured using significant other observable inputs (Level 2) and significant unobservable inputs (Level 3):

Other investments measured at fair value on a non-recurring basis include investments in certain entities that calculate net asset value per share (or its equivalent such as member units or an ownership interest in partners' capital to which a proportionate share of net assets is attributed, "NAV"). This class primarily consists of private equity funds that have varying investment focus. These investments can never be redeemed with the funds. Instead, the nature of the investments in this class is that distributions are received through the liquidation of the underlying assets of the fund. If these investments were held it is estimated that the underlying assets of the fund would be liquidated over 5 to 10 years. As of March 31, 2015, it is probable that all of the investments in this (a) class will be sold at an amount different from the NAV of the Company's ownership interest in partners' capital. Therefore, the fair values of the investments in this class have been estimated using recent observable information such as audited financial statements and/or statements of partners' capital obtained directly from investees on a quarterly or other regular basis. During the three months ended March 31, 2015, the Company received distributions of approximately \$200,000 from this type of investment primarily from investments in diversified businesses and real estate. During the three months ended March 31, 2015, the Company made contributions totaling \$434,000 in this type of investment. As of March 31, 2015, the amount of the Company's unfunded commitments related to the aforementioned investments is approximately \$2 million.

Other investments above which are measured on a nonrecurring basis using Level 3 unobservable inputs consist of investments primarily in commercial real estate in Florida through private partnerships and two investments in the stock of private banks in Florida and Texas. The Company does not know when it will have the ability to redeem the investments and has categorized them as a Level 3 fair value measurement. The Level 3 real estate and related investments of approximately \$483,000 include one investment in a commercial building located near the Company's offices purchased in 2005 with a carrying value as of March 31, 2015 of \$376,000. In January 2015, (b) the Company received a distribution of \$348,000 from this investment. Investments in this category are measured using primarily inputs provided by the managing member of the partnerships with whom the Company has done similar transactions in the past and is well known to management. The fair values of these real estate investments have been estimated using the net asset value of the Company's ownership interest in partners' capital. The other Level 3 investments include investments in private bank stocks and a reinsurance company. The fair values of these other Level 3 investments have been estimated using the cost method less distributions received and other than temporary impairments. This investment is valued using inputs provided by the management of the investee.

The following table includes a roll-forward of the investments classified within level 3 of the fair value hierarchy for the three months ended March 31, 2015:

	Level 3 Investments:
Balance at January 1, 2015	\$ 1,568,000
Investment in Level 3 investments	100,000
Distributions from Level 3 investments, net of gains	(460,000)
Balance at March 31, 2015	\$ 1,208,000

7. INCOME TAXES

As previously reported, during the fourth quarter of 2014 the Company discovered that it fell short of meeting the 75% asset test. Management is taking the necessary steps to meet the test and intends to include the disclosure statement in the tax return for the REIT, which will be filed by September 15, 2015. In addition, the \$50,000 excise tax has been paid to the IRS as of March 15, 2015. Management believes it has reasonable cause for failing the test, and expects to meet the 75% asset test as of June 30, 2015. As such, the Company fully anticipates that it will still

qualify as a REIT for 2014 and beyond and thus will not be subject to federal income taxation.

The Company (excluding CII) as a qualifying real estate investment trust distributes its taxable ordinary income to stockholders in conformity with requirements of the Internal Revenue Code and is not required to report deferred items due to its ability to distribute all taxable income. In addition, net operating losses can be carried forward to reduce future taxable income but cannot be carried back.

The Company's 95%-owned subsidiary, CII, files a separate income tax return and its operations are not included in the REIT's income tax return.

The Company accounts for income taxes in accordance with ASC Topic 740, "Accounting for Income Taxes". ASC Topic 740 requires a Company to use the asset and liability method of accounting for income taxes. Under this method, deferred income taxes are recognized for the tax consequences of "temporary differences" by applying enacted statutory tax rates applicable to future years to differences between the financial statement carrying amounts and the tax bases of existing assets and liabilities. The effect on deferred income taxes of a change in tax rates is recognized in income in the period that includes the enactment date. Deferred taxes only pertain to CII. As of March 31, 2015 the Company has recorded a net deferred tax liability of \$217,000 as a result of timing differences associated with the carrying value of the investment in affiliate (TGIF) and other investments. CII's NOL carryover to 2014 is estimated at \$1.3 million expiring in 2033 and has been fully reserved due to CII historically having tax losses.

The provision for income taxes in the consolidated statements of comprehensive income consists of the following:

Three months ended March 31,	2015	2014
Current:		
Federal	\$—	\$—
State	—	—
	—	—
Deferred:		
Federal	\$2,000	\$28,000
State	1,000	3,000
	3,000	31,000
Additional valuation allowance	(3,000)	—
Total	\$—	\$31,000

We adopted the provisions of ASC Topic 740-10, “Accounting for Uncertainty in Income Taxes” on January 1, 2007. This topic clarifies the accounting for uncertainty in income taxes recognized in an enterprise’s financial statements in accordance with ASC Topic 740, “Accounting for Income Taxes”, and prescribes a recognition threshold and measurement process for financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. Topic 740-10 also provides guidance on de-recognition, classification, interest and penalties, accounting in interim periods, disclosure and transition.

Based on our evaluation, we have concluded that there are no significant uncertain tax positions requiring recognition in our consolidated financial statements. Our evaluation was performed for the tax years ended since December 31, 2011 which are the tax years which remain subject to examination by major tax jurisdictions as of March 31, 2015.

We may from time to time be assessed interest or penalties by major tax jurisdictions, although any such assessments historically have been minimal and immaterial to our financial results. In the event we have received an assessment for interest and/or penalties, it has been classified in the consolidated financial statements as selling, general and administrative expense.

8. STOCK OPTIONS

Stock based compensation expense is recognized using the fair-value method for all awards. During the three months ended March 31, 2015 the Company granted options to purchase 3,000 shares of the Company’s common stock to one director. The exercise price of the option is equal to \$12.75 per share, the market price of the stock on the date of grant and the option expires on August 26, 2016. The Company determined the fair value of its option awards using the Black-Scholes option pricing model. The following assumptions were used to value the options granted during the three months ended March 31, 2015: 1.6 year expected life; expected volatility of approximately 37%; risk-free of .17% and annual dividend yield of 4%. The expected life for options granted during the period represents the period of time that options are to be outstanding based on the expiration date of the Plan. Expected volatilities are based upon historical volatility of the Company’s stock over a period equal to the 1.6 year expected life.

The weighted average fair value for options granted during the three months ended March 31, 2015 was \$12.04 per share. For the three months ended March 31, 2015 the Company recorded approximately \$6,000 in non-employee stock option expense relating to the options granted in 2015.

The following table summarizes stock option activity during the three months ended March 31, 2015.

	Options Outstanding	Weighted Average Exercise Price
Outstanding at January 1, 2015	17,700	\$ 18.35
Granted	3,000	\$ 12.75
Outstanding at March 31, 2015	20,700	\$ 17.54

The following table summarizes information concerning outstanding and exercisable options as of March 31, 2015:

Strike Price	Number Outstanding and exercisable	Weighted Average Strike Price
\$12.75	3,000	\$ 12.75
\$17.84	9,500	\$ 17.84
\$18.89	7,500	\$ 18.89
\$19.50	700	\$ 19.50
	20,700	\$ 17.54

As of March 31, 2015 the options outstanding and exercisable had no intrinsic value.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Item 4. Controls and Procedures

(a) Evaluation of Disclosure Controls and Procedures.

Our Chief Executive Officer and Chief Financial Officer, after evaluating the effectiveness of our disclosure controls and procedures (as defined in the Securities Exchange Act Rules 13a-15(e) and 15d-15(e)) as of the end of the period covered by this Quarterly Report on Form 10-Q have concluded that, based on such evaluation, our disclosure controls and procedures were effective and designed to ensure that material information relating to us and our consolidated subsidiaries, which we are required to disclose in the reports we file or submit under the Securities Exchange Act of 1934, was made known to them by others within those entities and reported within the time periods specified in the SEC's rules and forms.

(b) Changes in Internal Control Over Financial Reporting.

There were no changes in the Company's internal controls over financial reporting identified in connection with the evaluation of such internal control over financial reporting that occurred during our last fiscal quarter which have materially affected, or reasonably likely to materially affect, our internal control over financial reporting.

PART II. OTHER INFORMATION

Item 1. Legal Proceedings

Grove Isle Associates, LLLP is a co-defendant in two lawsuits in the circuit court in Miami Dade County Florida. These cases arose from claims by a condominium association and resident seeking a declaratory judgment regarding certain provisions of the declaration of condominium relating to the Grove Isle Club and the developer. The claim by the association had been dismissed as to all counts related to the Company; however the association filed an appeal. In March 2014, the appellate court ruled on the appeal reversing the lower court's dismissal. Pursuant to an agreement dated February 25, 2013 in which the company sold its interests in Grove Isle Associates, LLLP the company will continue to defend the lawsuit and will indemnify the purchaser for any related judgment. The ultimate outcome of this litigation cannot presently be determined. However, in management's opinion the likelihood of a material adverse outcome is remote. Accordingly, adjustments, if any that might result from the resolution of this matter have not been reflected in the consolidated financial statements.
