PROXY STATEMENT

Annual Meeting of Shareholders July 18, 2003

SOLICITATION AND REVOCABILITY OF PROXIES

This Proxy Statement is furnished in connection with the solicitation of Proxies by the Board of Directors of Rocky Mountain Chocolate Factory, Inc. (the Company) for use only at the Annual Meeting of the Company's shareholders to be held at the time and place, and for the purposes set forth in the accompanying Notice of Annual Meeting of Shareholders.

It is anticipated that the Proxy Statement, together with the Proxies and the Company's 2003 Annual Report on Form 10-K, will first be mailed to the Company's shareholders on or about June 18, 2003. A person giving the enclosed Proxy has the power to revoke it at any time before it is exercised by (1) delivering written notice of revocation to the Secretary of the Company, (2) duly executing and delivering a Proxy for the Annual Meeting bearing a later date or (3) voting in person at the Annual Meeting.

The Company will bear the cost of this solicitation of Proxies, including the charges and expenses of brokerage firms and others for forwarding solicitation materials to beneficial owners of the Company's Common Stock, par value \$0.03 per share (the Common Stock). In addition, the Company's officers, directors and other regular employees, without additional compensation, may solicit Proxies by mail, personal interview, telephone or telegraph.

VOTING SECURITIES

The close of business on June 13, 2003 has been fixed as the record date for the determination of holders of record of the Company's Common Stock entitled to notice of and to vote at the Annual Meeting. On the record date, 2,529,456 shares of the Company's Common Stock were outstanding and eligible to be voted at the Annual Meeting.

For each share of Common Stock held on the record date, a shareholder is entitled to one vote on all matters to be voted on at the Annual Meeting, except the election of directors.

Shareholders have cumulative voting rights in the election of directors, and there is no condition precedent to the exercise of those rights. Under cumulative voting, each shareholder is entitled to as many votes as shall equal the number of his or her shares multiplied by six, the number of directors to be elected, and he or she may cast all of those votes for a single nominee or divide them among any two or more nominees as he or she sees fit. It is the intention of the Proxy holders to exercise voting rights in order to elect the maximum number of nominees named below. An instruction on the Proxy to withhold authority to vote for any nominee will be deemed an authorization to vote cumulatively for the remaining nominees, unless otherwise indicated.

VOTING PROCEDURES

The vote required for the election of directors is a plurality of the shares of Common Stock present or represented by proxy at the meeting and entitled to vote thereon, provided a quorum is present. The vote required for the approval of any other item to be acted upon at the Annual Meeting is the affirmative vote of a majority of the shares entitled to vote on the matter and present or represented by proxy at the meeting, provided a quorum is present. A quorum is established by the presence or representation at the Annual Meeting of the holders of a majority of the Company's voting shares. Brokers who hold shares in street name have discretionary authority to vote on certain routine items even if they have not received instructions from the persons entitled to vote such shares. However, brokers do not have authority to vote on nonroutine items without such instructions. Such broker non-votes (shares held by brokers or nominees as to which they have no discretionary power to vote on a particular matter and have received no instructions from the persons entitled to vote such shares) are counted as present and entitled to vote for purposes of determining whether a quorum is present but are not considered entitled to vote on any nonroutine matter to be acted upon. For matters requiring the affirmative vote of a plurality of the shares of Common Stock present or represented at the Meeting, such as Item No. 1, broker non-votes would have no effect on the outcome of the vote. For matters requiring the affirmative vote of a majority of the shares of Common Stock present or represented at the Meeting and entitled to vote, broker non-votes would not be counted as among the shares entitled

Table of Contents

to vote with respect to such matters. Thus, the effect of any broker non-votes with respect to such matters would be to reduce the number of affirmative votes required to approve the proposals and the number of negative votes required to block such approval.

BENEFICIAL OWNERSHIP OF THE COMPANY'S EQUITY SECURITIES

The following table sets forth information, as of May 31, 2003, with respect to the shares of Common Stock beneficially owned (i) by each person known to the Company to be the beneficial owner of more than 5% of the Company's Common Stock, (ii) by each director or nominee for election as a director and each executive officer named in the Summary Compensation Table, and (iii) by all current directors and executive officers of the Company as a group.

AUDIT COMMITTEE REPORT

The audit committee of the Company's board of directors (the Audit Committee) consists of three non-employee directors, Lee N. Mortenson, Gerald A. Kien and Fred M. Trainor, each of whom has been determined to be independent as that term is defined in Rule 4200 (a)(15) of the National Association of Securities Dealers (NASD) listing standards. The Audit Committee operates under a written charter adopted by the board of directors.

Management is responsible for the Company's internal controls and the financial reporting process. The independent accountants are responsible for performing an independent audit of the Company's financial statements in accordance with auditing standards generally accepted in the United States of America and to issue a report thereon. The Audit committee's responsibility is to monitor and oversee these processes. It is not our duty or our responsibility to conduct auditing or accounting reviews or procedures. We are not employees of the Company and we may not be, and we may not represent ourselves to be or to serve as, accountants or auditors by profession or experts in the fields of accounting or auditing. Therefore, we have relied, without independent verification, on management's representation that the financial statements have been prepared with integrity and objectivity and in conformity with accounting principles generally accepted in the United States of America, and on the representations of the independent auditors included in the report on the Company's financial statements. Our oversight does not provide us with an independent basis to determine that management has maintained appropriate accounting and financial reporting principles or policies, or appropriate internal controls and procedures designed to assure compliance with accounting standards and applicable laws and regulations. Furthermore, our considerations and discussions with management and the independent auditors do not assure that the Company's financial statements are presented in accordance with generally accepted accounting principles, that the audit of the Company's financial statements has been carried out in accordance with generally accepted auditing standards or that the Company's independent accountants are in fact independent.

In this context, the Audit Committee has met and held discussions separately with management and the independent accountants. Management represented to the Audit Committee that the Company's financial statements were prepared in accordance with accounting principles generally accepted in the United States of America, and the Audit Committee has reviewed and discussed the financial statements with management and the independent accountants. The Audit Committee discussed with the independent accountants matters required to be discussed by the Statement on Auditing Standards No. 61, *Communications with Audit Committees*, as currently in effect.

Table of Contents

The Company's independent accountants also provided to the Audit Committee the written disclosure required by Independence Standards Board Standard No. 1, *Independence Discussions with Audit Committees*. The Committee discussed with the independent accountants that firm's independence and considered whether the non-audit services provided by the independent accountants are compatible with maintaining its independence.

Based on the Audit Committee's discussion with management and the independent accountants, and the Audit Committee's review of the representation of management and the report of the independent accounts to the Audit Committee, the Audit Committee recommended that the board of directors include the audited financial statements in the Company's Annual Report on Form 10-K for the year ended February 28, 2003 filed with the Securities and Exchange Commission.

COMPENSATION COMMITTEE REPORT

The following is a report of the Compensation Committee of the Board of Directors (the Committee) on executive compensation policies for the fiscal year ended February 28, 2003. The Committee is composed entirely of non-employee directors and is responsible for administering the compensation program for executive officers of the Company and making all related decisions.

The principal elements of the compensation program for executive officers are base salary, performance-based annual bonuses and options granted under the Company's 1995 Stock Option Plan. The goals of the program are to ensure that a strong relationship exists between executive compensation and the creation of shareholder value, and that executive officers are strongly motivated and retained. The Company's compensation philosophy is to create a direct relationship between the level of total executive officer compensation and the Company's success in meeting its annual performance goals as represented by its annual business plan. An additional element of this philosophy is to reward equitably relative contribution and job performance of individual executive officers.

Base Salary

Annual salaries for the Company's executive officers, including the Chairman of the Board and President, are generally reviewed in March of each year based on a number of objective and subjective factors, with any change to be generally effective on March 1 of that year. Objective factors considered include Company's financial performance relative to business plan profit objectives in the immediately preceding fiscal year, although no specific formulas based on such factors are used to determine salaries. Salary decisions are based primarily on the Committee's subjective analysis of the factors contributing to the Company's success and of the executive's individual contributions to that success.

Performance-based Annual Bonuses

Cash bonuses based on the Company's performance are awarded to the executive officers under an incentive compensation plan. Under the plan which served as the basis for bonuses paid for fiscal year 2003, executive officers received a percentage of their base pay based on the overall performance of the Company. Additional bonuses may be awarded at the discretion of the Committee in recognition of special accomplishments. Thus, whether the executive officers' total pay is comparable to the compensation of executives with similar responsibilities at comparable companies may vary from year to year depending upon the Company's performance.

CEO Compensation

At the beginning of fiscal year 2003 the Compensation Committee and Mr. Crail determined that Mr. Crail's base compensation would not be increased at the beginning of the year. Rather, a performance incentive was implemented so that Mr. Crail's base salary would be increased if a certain target was met during the year. Specifically, the Compensation Committee determined that in the event the Company achieved 100% of budgeted net income (which budgeted number was substantially higher than the prior year's net income), Mr. Crail would receive a 10% salary increase which would be applied retroactively and paid at the end of fiscal 2003. The net income target was not achieved; therefore, Mr. Crail's compensation was not increased.

Table of Contents

Stock Options

Awards of stock options strengthen the ability of the Company to attract, motivate and retain executives of superior capability and more closely align the interests of management with those of its shareholders. The Committee considers on an annual basis the grant of options to executive officers and key managers under the Company's 1995 Stock Option Plan. The number of options granted is generally based upon the position held by a participant and the Committee's subjective evaluation of such participant's contribution to the Company's future growth and profitability. The grant of options is an annual determination, but the Committee may consider the size of past awards and the total amounts outstanding in making such a determination.

Unlike cash, the value of a stock option will not immediately be realized and does not result in a current expense to the Company. Stock options are granted with an exercise price equal to the current market price of the Company's stock and will have value only if the Company's stock price increases, resulting in a commensurate benefit for the Company's shareholders. Although the plan does not provide for a required vesting period, the Committee's current practice is to generally require that options granted to employees vest pro rata 20% per year over five years.

There were 51,332 stock options awarded to executive officers or others in fiscal 2003. Options presently held by current executive officers and directors under the Company's option plans cover a total of 399,326 shares.

Other Compensation

An additional element of the executive officer's compensation, which is not performance-based, is the matching of contributions by the Company under the Company's 401(k) plan.

The Compensation Committee believes that linking executive compensation to corporate performance results in a better alignment of compensation with corporate goals and shareholder interests. As performance goals are met or exceeded, resulting in increased value to shareholders, executives are rewarded commensurately. The Committee believes that compensation levels during 2003 adequately reflect the Company's compensation goals and policies.
