Franklin Templeton Investments

GAIN FROM OUR PERSPECTIVE

Franklin Templeton's distinct multi-manager structure combines the specialized expertise of three world-class investment management groups--Franklin, Templeton and Mutual Series.

SPECIALIZED EXPERTISE

Each of our portfolio management groups operates autonomously, relying on its own research and staying true to the unique investment disciplines that underlie its success.

FRANKLIN. Founded in 1947, Franklin is a recognized leader in fixed income investing and also brings expertise in growth- and value-style U.S. equity investing.

TEMPLETON. Founded in 1940, Templeton pioneered international investing and, in 1954, launched what has become the industry's oldest global fund. Today, with research offices in over 25 countries, they offer investors the broadest global reach in the industry.

MUTUAL SERIES. Founded in 1949, Mutual Series is dedicated to a unique style of value investing, searching aggressively for opportunity among undervalued stocks, arbitrage situations and distressed companies.

TRUE DIVERSIFICATION

Because our management groups work independently and adhere to distinctly different investment approaches, Franklin, Templeton and Mutual Series funds typically have a low overlap of securities. That's why our funds can be used to build truly diversified portfolios covering every major asset class.

RELIABILITY YOU CAN TRUST

At Franklin Templeton Investments, we seek to consistently provide investors with exceptional risk-adjusted returns over the long term, as well as the reliable account services that have helped us become one of the most trusted names in financial services.

Franklin Floating Rate Trust

YOUR FUND'S GOAL AND MAIN INVESTMENTS: Franklin Floating Rate Trust seeks to provide as high a level of current income and preservation of capital as is consistent with investment primarily in senior secured corporate loans and corporate debt securities with floating interest rates.

PERFORMANCE DATA QUOTED REPRESENTS PAST PERFORMANCE, WHICH DOES NOT GUARANTEE FUTURE RESULTS. We are pleased to bring you Franklin Floating Rate Trust's annual report for the fiscal year ended July 31, 2004.

PERFORMANCE OVERVIEW

Edgar Filing: FRANKLIN FLOATING RATE TRUST - Form N-CSR

Franklin Floating Rate Trust posted a +9.95% cumulative total return for the 12 months ended July 31, 2004, as shown in the Performance Summary on page 8. The share price, as measured by net asset value (NAV), rose from \$8.42 per share on July 31, 2003, to \$8.98 at year-end. The Fund made dividend distributions totaling \$0.277869 per share.¹

ECONOMIC AND MARKET OVERVIEW

During the 12 months ended July 31, 2004, the U.S. economy remained strong. One-year gross domestic product (GDP) rose an estimated 4.8% through June. Major contributors to growth included consumer spending, inventory investment, equipment and software spending, and federal government spending. Despite solid export growth and a resilient housing market, annualized second quarter 2004 GDP grew an estimated 2.8%, which was less than expected, due largely to the weakest consumer spending growth in three years. Approximately 70% of GDP stemmed from consumer activity, which slowed as personal liquidity from tax cuts and low interest-rate incentives faded. Business investment and corporate profits rose and contributed to overall economic growth.

WHAT ARE SYNDICATED BANK LOANS?

Syndicated bank loans are typically floating rate loans to corporate borrowers made by a group, or syndicate, of banks and other lenders. A group of lenders provides capital to companies for varied purposes, such as merger and acquisition activity, leveraged buyouts or refinancings. Borrowing rates are generally pegged to an index, such as LIBOR, the London InterBank Offered Rate.

Labor market conditions improved during the reporting period. More than one-half of the jobs lost during the recession and weak economic expansion have been

Edgar Filing: FRANKLIN FLOATING RATE TRUST - Form N-CSR

recovered. The economy created 1.5 million jobs since summer 2003. In addition, the unemployment rate fell from 6.2% in July 2003 to 5.5% at period-end.² Services created the most jobs led by leisure and hospitality, education and health, and business and professional services.

In light of positive economic developments, consumer inflation remained modest but picked up speed in 2004. Excluding the volatile food and energy categories, consumer prices increased 1.8% for the 12 months ended July 31, 2004. Consequently, for the first time in more than four years, the Federal Reserve Board (Fed) raised the federal funds target rate on June 30, 2004, by a quarter-point to 1.25%. Because Fed policymakers expect inflation to remain relatively low, they believe they can raise interest rates at a measured pace. Nonetheless, the Fed said it will respond to changes in economic prospects as needed to fulfill its obligation to maintain price stability.

Domestic equity markets sustained a rally through year-end 2003, then flattened before falling into negative territory through July 2004. Despite continued signs of enhanced corporate fundamentals, investors appeared cautious due to geopolitical uncertainty, soaring oil prices and rising interest rates. The Standard & Poor's 500 Composite Index (S&P 500) rose 13.16% for the 12 months under review, while the technology-heavy NASDAQ Composite Index gained 9.33%.³

The syndicated bank loan market was strong during the year under review as credit fundamentals continued to look favorable. Investor demand -- spurred by a strengthening economy, rising interest rates and a low expected default rate -- made floating rate loans an attractive alternative to fixed-rate securities.

Although robust, new loan issuance was not enough to meet rising demand, resulting in generally higher loan prices. The sustained imbalance between supply and demand allowed borrowers to refinance their loans at lower interest rates, reducing borrowing rate spreads over LIBOR.

2. Source: Bureau of Labor Statistics.

3. Source: Standard & Poor's Micropal. The S&P 500 consists of 500 stocks chosen for market size, liquidity and industry group representation. Each stock's weight in the index is proportionate to its market value. The S&P 500 is one of the most widely used benchmarks of U.S. equity performance. The NASDAQ Composite Index measures all domestic and international common stocks listed on The NASDAQ Stock Market. The index is market value weighted and includes over 3,000 companies.

4 | Annual Report

In this favorable borrowing environment, many companies sought to take advantage of accessing capital. During the year under review, companies incurred additional debt to finance future growth, acquisition opportunities and capital expenditures. Some companies also distributed debt proceeds as dividends to shareholders.

The three-month LIBOR rose from 1.11% on July 31, 2003, to 1.70% on July 31, 2004.⁴ However, almost all of the increase occurred during the last months of the Fund's fiscal year as investors anticipated Fed interest rate hikes.

INVESTMENT STRATEGY

Edgar Filing: FRANKLIN FLOATING RATE TRUST - Form N-CSR

We rely on independent and proprietary credit analysis to select corporate loan and corporate debt securities that meet our rigorous investment criteria. We seek to invest in companies with the ability to generate substantial free cash flow, that are in industries with strong barriers to entry, and that possess significant asset coverage and collateral for our debt. We also prefer companies with dominant market shares, strong management teams and stable growth prospects, according to our analysis.

MANAGER'S DISCUSSION

As loan spreads over LIBOR tightened during the 12-month period, our portfolio's loan spreads also tightened and affected the Fund's yield. Fortunately, mainly due to strong demand, many of our loans also appreciated in price, partially offsetting the yield decline.

Finding good value in a strong loan market remained challenging. We continued to invest in a conservative manner, and were willing to hold a higher cash position than we considered ideal if we felt the loans offered to us did not provide adequate risk compensation. The primary syndication market remained the source of many of our purchases. For example, the Fund recently purchased the senior secured loan of VWR International, which funded Clayton, Dubilier & Rice's acquisition of the company from Merck. VWR is a leading global distributor of research laboratory supplies to major companies as well as universities and research institutes. We found the loan attractive due to the company's leading market position and historically recurring, stable cash flows.

Two of our larger commitments this year in the new issue market were in the movies and entertainment industry, which we considered attractive due to its strong asset coverage. These investments were Regal Cinemas, the largest theater circuit operator in the U.S., and Metro-Goldwyn-Mayer (MGM), a movie production company. MGM's considerable film library of approximately 4,000 titles provided substantial collateral value, which secured our loan. These holdings appreciated after our new issue purchase, contributing to the Fund's performance.

We also remained favorable toward Peabody Energy Corporation, the world's largest private-sector coal company, and increased our exposure. The company performed well recently as the recovering worldwide economy led to increased demand for electricity generation and steel production. With majority interests in 29 coal operations in the U.S. and Australia, Peabody holds the largest market share in three of the four primary coal producing regions in the U.S.

Edgar Filing: FRANKLIN FLOATING RATE TRUST - Form N-CSR

Lastly, the Fund benefited from its continued ownership of Arch Wireless common equity, which we received as part of a reorganization after the company's December 2001 bankruptcy. In March 2004, Arch, a paging company, announced it would merge with its competitor Metrocall, driving Arch's stock price up sharply and contributing to the Fund's share price.

The Fund's performance was negatively impacted by our underweighted exposure to the utility sector compared with the Credit Suisse First Boston (CSFB) Leveraged Loan Index.⁵ The utilities sector was a riskier segment of the loan market, which performed well over the past 12 months.⁶ Although avoiding lower-quality credits hurt relative performance, we remained focused on our conservative investment strategy.

5. Source: The CSFB Leveraged Loan Index is designed to mirror the investible universe of the U.S. dollar denominated leveraged loan market. Loans must be rated 5B or lower. That is, the highest Moody's/S&P ratings are Baal/BB+ or Bal/BBB+. If unrated, the initial spread level must be LIBOR plus 125 basis points or higher. The tenor must be at least one year and only funded term loans are included.

6. The utilities sector comprises electric utilities in the SOI.

ENDNOTES

FRANKLIN FLOATING RATE TRUST IS A NON-DIVERSIFIED FUND, WHICH MEANS IT CAN BE MORE SUSCEPTIBLE TO ADVERSE ECONOMIC, POLITICAL AND REGULATORY CHANGES. THE LOANS IN WHICH THE FUND INVESTS TEND TO BE RATED BELOW INVESTMENT GRADE. INVESTING IN HIGHER-YIELDING, LOWER-RATED LOANS INVOLVES GREATER RISK OF DEFAULT, WHICH COULD RESULT IN LOSS OF PRINCIPAL--A RISK THAT MAY BE HEIGHTENED IN A SLOWING ECONOMY. BECAUSE THE TIME REQUIRED TO TRADE OR LIQUIDATE LOANS COULD BE LONGER THAN FOR MOST SECURITIES, THE SECONDARY MARKET FOR THESE TYPES OF LOANS IS CONSIDERED ILLIQUID. THE FUND IS STRUCTURED AS A CONTINUOUSLY OFFERED, CLOSED-END FUND AND DOES NOT OFFER DAILY REDEMPTIONS. THE FUND HAS A FUNDAMENTAL POLICY TO PROVIDE INVESTORS ACCESS TO THEIR MONEY BY MAKING QUARTERLY TENDER OFFERS FOR 5%-25% OF THE FUND'S OUTSTANDING SHARES. HOWEVER, IN

Edgar Filing: FRANKLIN FLOATING RATE TRUST - Form N-CSR

UNUSUAL CIRCUMSTANCES, THE FUND MAY SUSPEND OR POSTPONE A TENDER OFFER SUBJECT TO APPROVAL BY THE FUND'S BOARD OF TRUSTEES. THE FUND'S PROSPECTUS ALSO INCLUDES A DESCRIPTION OF THE MAIN INVESTMENT RISKS.

1. Past expense reductions by the Fund's manager increased the Fund's total returns. If the manager had not taken this action, the Fund's total returns would have been lower.
2. Cumulative total return represents the change in value of an investment over the periods indicated and does not include the early withdrawal charge.
3. Average annual total return represents the average annual change in value of an investment over the periods indicated and includes the early withdrawal charge.
4. These figures represent the value of a hypothetical \$10,000 investment in the Fund over the periods indicated and include the early withdrawal charge.
5. In accordance with SEC rules, we provide standardized average annual total return information through the latest calendar quarter.
6. The distribution rate is based on the annualization of daily distributions totaling 2.3482 cents per share during the last 30 days of July and the \$8.98 NAV on 7/31/04.
7. Yield is based on the earnings of the Fund's portfolio for the 30 days ended 7/31/04.

Your Fund's Expenses

As a Fund shareholder, you can incur two types of costs:

- o Transaction costs, including sales charges (loads) on Fund purchases and redemption fees; and
- o Ongoing Fund costs, including management fees, distribution and service (12b-1) fees, and other Fund expenses. All mutual funds have ongoing costs, sometimes referred to as operating expenses.

The following table shows ongoing costs of investing in the Fund and can help you understand these costs and compare them with those of other mutual funds. The table assumes a \$1,000 investment held for the six months indicated.

ACTUAL FUND EXPENSES

The first line (Actual) for each share class listed in the table below provides actual account values and expenses. The "Ending Account Value" is derived from the Fund's actual return, which includes the effect of Fund expenses.

You can estimate the expenses you paid during the period, by following these steps. OF COURSE, YOUR ACCOUNT VALUE AND EXPENSES WILL DIFFER FROM THOSE IN THIS ILLUSTRATION:

1. Divide your account value by \$1,000.
IF AN ACCOUNT HAD AN \$8,600 VALUE, THEN $\$8,600 / \$1,000 = 8.6$.
2. Multiply the result by the number under the heading "Expenses Paid During Period."
IF EXPENSES PAID DURING PERIOD WERE \$7.50, THEN $8.6 \times \$7.50 = \64.50 .

In this illustration, the estimated expenses paid this period are \$64.50.

HYPOTHETICAL EXAMPLE FOR COMPARISON WITH OTHER FUNDS

Edgar Filing: FRANKLIN FLOATING RATE TRUST - Form N-CSR

Information in the second line (Hypothetical) for each class in the table can help you compare ongoing costs of investing in the Fund with those of other mutual funds. This information may not be used to estimate the actual ending account balance or expenses you paid during the period. The hypothetical "Ending Account Value" is based on the actual expense ratio for each class and an assumed 5% annual rate of return before expenses, which does not represent the Fund's actual return. The figure under the heading "Expenses Paid During Period" shows the hypothetical expenses your account would have incurred under this scenario. You can compare this figure with the 5% hypothetical examples that appear in shareholder reports of other funds.

PLEASE NOTE THAT EXPENSES SHOWN IN THE TABLE ARE MEANT TO HIGHLIGHT ONGOING COSTS AND DO NOT REFLECT ANY TRANSACTION COSTS, SUCH AS SALES CHARGES OR REDEMPTION FEES. Therefore, the second line for each class is useful in comparing ongoing costs only, and will not help you compare total costs of owning different funds. In addition, if transaction costs were included, your total costs would have been higher. Please refer to the Fund prospectus for additional information on operating expenses.

	BEGINNING ACCOUNT VALUE 1/31/04	ENDING ACCOUNT VALUE 7/31/04	EXPENSES PAID DUR PERIOD* 1/31/04-7/31/04
Actual	\$1,000	\$1,032.30	\$6.82
Hypothetical (5% return before expenses)	\$1,000	\$1,018.15	\$6.77

*Expenses are equal to the Fund's annualized expense ratio of 1.35%, multiplied by the average account value over the period, multiplied by 182/366 to reflect the one-half year period.

The Fund's Repurchase Offers

The Fund will make quarterly repurchase offers for a portion of its shares. With any repurchase offer, shareholders may elect to tender (have the Fund repurchase) all, a portion or none of their shares. With each repurchase offer, shareholders will be notified in writing about the offer, how to request that the Fund repurchase their shares and the deadline for submitting repurchase requests.

Each quarter the Board of Trustees will set the amount of the repurchase offer, as a percentage of outstanding shares. This amount is known as the repurchase offer amount and will generally be between 5% and 25% of the Fund's outstanding shares. If repurchase requests exceed the repurchase offer amount, the Fund will prorate requests. The Fund may, however, first accept any requests to repurchase ALL of a shareholder's shares if the shareholder owns less than 100 shares. The Board will also determine the date by which the Fund must receive shareholders' repurchase requests, which is known as the repurchase request deadline. The Board will base these decisions on investment management considerations, market conditions, liquidity of the Fund's assets, shareholder servicing and administrative considerations and other factors it deems appropriate. Each repurchase request deadline will occur within the period that begins 21 days before, and ends 21 days after, the end of the quarterly interval. The

Edgar Filing: FRANKLIN FLOATING RATE TRUST - Form N-CSR

repurchase price of the shares will be the net asset value as of the close of the NYSE on the date the Board sets as the repurchase pricing date. The maximum number of days between the repurchase request deadline and the repurchase pricing date is 14 days.

SUMMARY OF REPURCHASE OFFERS - 8/1/03 THROUGH 7/31/04

REPURCHASE REQUEST DEADLINE	REPURCHASE OFFER AMOUNT	% OF SHARES TENDERED*	NUMBER OF SHARES TENDERED*
10/01/03	25%	6.316%	8,950,842.290

07/01/04	25%	4.700%	6,758,262.896

*In connection with the repurchase offers, due to the limited number of shares tendered, the Fund did not have to consider whether to repurchase an additional amount of shares, not in excess of 2% of the shares outstanding, and did not need to repurchase any shares on a pro rata basis as described in the Prospectus and Repurchase Offer/Request Form.

Franklin Floating Rate Trust

NOTES TO FINANCIAL STATEMENTS

1. ORGANIZATION AND SIGNIFICANT ACCOUNTING POLICIES

The Franklin Floating Rate Trust (the Fund) is registered under the Investment Company Act of 1940 as a non-diversified, closed-end, continuously offered investment company. The Fund seeks current income and preservation of capital. The following summarizes the Fund's significant accounting policies.

A. SECURITY VALUATION

The Fund invests primarily in senior secured corporate loans and senior secured debt that meet credit standards established by Franklin Advisers Inc. Debt securities, other over-the-counter securities and listed securities for which no sale is reported are valued within the range of the latest quoted bid and asked prices by independent pricing services or recognized dealers in such securities. Securities listed or traded on a recognized national exchange are valued at the last reported sales price. Securities listed or traded on NASDAQ are valued at their official closing price. If events occur that materially affect the values of securities after the prices are determined, but prior to 4:00 p.m. Eastern time or the close of trading on the NYSE, whichever is earlier, or if market quotations are deemed not readily available or reliable, the securities (including restricted securities) will be valued at fair value. Investments in

Edgar Filing: FRANKLIN FLOATING RATE TRUST - Form N-CSR

open-end mutual funds are valued at the closing net asset value. All security valuation procedures are approved by the Board of Trustees.

B. FOREIGN CURRENCY TRANSLATION

Portfolio securities and other assets and liabilities denominated in foreign currencies are translated into U.S. dollars based on the exchange rate of such currencies against U.S. dollars on the date of valuation. Purchases and sales of securities, income and expense items denominated in foreign currencies are translated into U.S. dollars at the exchange rate in effect on the transaction date.

The Fund does not separately report the effect of changes in foreign exchange rates from changes in market prices on securities held. Such changes are included in net realized and unrealized gain or loss from investments.

Realized foreign exchange gains or losses arise from sales of foreign currencies, currency gains or losses realized between the trade and settlement dates on securities transactions and the difference between the recorded amounts of dividends, interest, and foreign withholding taxes and the U.S. dollars equivalent of the amounts actually received or paid. Net unrealized foreign exchange gains and losses arise from changes in foreign exchange rates on foreign denominated assets and liabilities other than investments in securities held at the end of the reporting period.

C. SECURITIES PURCHASED ON A WHEN-ISSUED OR DELAYED DELIVERY BASIS

The Fund may purchase securities on a when-issued or delayed delivery basis, with payment and delivery scheduled for a future date. These transactions are subject to market fluctuations and are subject to the risk that the value at delivery may be more or less than the trade date purchase price. Although the Fund will generally purchase these securities with the intention of holding the securities, it may sell the securities before the settlement date.

Franklin Floating Rate Trust

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

1. ORGANIZATION AND SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

D. SENIOR FLOATING RATE INTERESTS

Senior secured corporate loans pay interest at rates which are periodically reset by reference to a base lending rate plus a spread. These base lending rates are generally the prime rate offered by a designated U.S. bank or the London InterBank Offered Rate (LIBOR). Senior secured corporate loans often require prepayment of principal from excess cash flows or at the discretion of the borrower. As a result, actual maturity may be substantially less than the stated maturity.

Senior secured corporate loans in which the Fund invests are generally readily marketable, but may be subject to some restrictions on resale.

E. INCOME TAXES

Edgar Filing: FRANKLIN FLOATING RATE TRUST - Form N-CSR

No provision has been made for income taxes because the Fund's policy is to qualify as a regulated investment company under the Internal Revenue Code and distribute substantially all of its taxable income. Fund distributions to shareholders are determined on a tax basis and may differ from net investment income and realized gains for financial reporting purposes.

F. SECURITY TRANSACTIONS, INVESTMENT INCOME, EXPENSES AND DISTRIBUTIONS

Security transactions are accounted for on trade date. Realized gains and losses on security transactions are determined on a specific identification basis. Interest income and estimated expenses are accrued daily. Discounts and premiums on securities purchased are amortized over the lives of the respective securities. Facility fees are recognized as income over the expected term of the loan. Dividend income and distributions to shareholders are recorded on the ex-dividend date.

G. ACCOUNTING ESTIMATES

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the amounts of income and expenses during the reporting period. Actual results could differ from those estimates.

H. GUARANTEES AND INDEMNIFICATIONS

Under the Fund's organizational documents, its officers and trustees are indemnified against certain liability arising out of the performance of their duties to the Funds. Additionally, in the normal course of business, the Fund enters into contracts with service providers that contain general indemnification clauses. The Fund's maximum exposure under these arrangements is unknown as this would involve further claims that may be made against the Fund that have not yet occurred. However, based on experience, the Fund expects the risk of loss to be remote.

3. TENDER OF SHARES

On a quarterly basis, the Fund may make tender offers, the amount of which is determined by the Board of Trustees, for the repurchase of at least 5% but not more than 25% of the shares outstanding. The repurchase price is the net asset value on the tender offer expiration date.

4. REVOLVING CREDIT FACILITY

The Fund participates in a \$200 million senior unsecured revolving credit facility to fund shareholder redemptions or meet unfunded loan commitments. The facility agreement ends on December 20, 2004. Interest is charged at the Federal Funds Rate plus .50%. Facility fees paid are amortized on a straight line basis over the term of the commitment. Annual commitment fees of .09% are charged on the unused portion of the facility and allocated among the participating funds based on net assets.

During the year ended July 31, 2004, the Fund did not utilize the facility.

5. TRANSACTIONS WITH AFFILIATES

Certain officers and trustees of the Fund are also officers and/or directors of the following entities:

ENTITY	AFFILIATION
Franklin Advisers Inc. (Advisers)	Investment manager
Franklin Templeton Services LLC (FT Services)	Administrative manager
Franklin/Templeton Distributors Inc. (Distributors)	Principal underwriter
Franklin/Templeton Investor Services LLC (Investor Services)	Transfer agent

The Fund pays an investment management fee to Advisers of .80% per year of the average daily net assets of the Fund.

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

5. TRANSACTIONS WITH AFFILIATES (CONTINUED)

The Fund pays an administrative fee to FT Services based on the daily net assets of the Fund as follows:

ANNUALIZED FEE RATE	NET ASSETS
.150%	First \$200 million
.135%	Over \$200 million, up to and including \$700 million
.100%	Over \$700 million, up to and including \$1.2 billion
.075%	In excess of \$1.2 billion

Distributors has advised the Fund that it has received contingent deferred sales charges for the year of \$68,628.

The Fund pays a transfer agent fee to Investor Services of .40% per year of the average daily net assets of the Fund, totaling \$4,781,190 for the year ended July 31, 2004.

6. EXPENSE OFFSET ARRANGEMENT

The Fund has entered into an arrangement with its custodian whereby credits realized as a result of uninvested cash balances are used to reduce a portion of the Fund's custodian expenses. During the year ended July 31, 2004, the custodian fees were reduced as noted in the Statement of Operations.

7. INCOME TAXES

At July 31, 2004, the Fund had tax basis capital losses which may be carried over to offset future capital gains. Such losses expire as follows:

Capital loss carryover expiring in:

2009	\$ 2,115,134
2011	199,627,510
2012	107,803,681

	\$309,546,325

At July 31, 2004, Fund has deferred capital losses occurring subsequent to October 31, 2003 of \$14,631,185. For tax purposes, such losses will be reflected in the year ending July 31, 2005.

Net investment income differs for financial statement and tax purposes primarily due to differing treatments of defaulted securities, foreign currency transactions, and bond premiums.

Net realized gains (losses) differ for financial statement and tax purposes primarily due to differing treatment of wash sales, defaulted securities, foreign currency transactions, and bond premiums.

8. INVESTMENT TRANSACTIONS

Purchases and sales of securities (excluding short-term securities) for the year ended July 31, 2004 aggregated \$942,890,198 and \$997,526,505, respectively.

9. INVESTMENTS IN THE FRANKLIN INSTITUTIONAL FIDUCIARY TRUST MONEY MARKET PORTFOLIO

The Fund may invest in the Franklin Institutional Fiduciary Trust Money Market Portfolio (the Sweep Money Fund), an open-end investment company managed by Advisers. Management fees paid by the Fund are reduced on assets invested in the Sweep Money Fund, in an amount not to exceed the management fees paid by the Sweep Money Fund.

10. CREDIT RISK AND DEFAULTED SECURITIES

The Fund has 83.36% of its portfolio invested in below investment grade and comparable quality unrated high yield securities, which tend to be more sensitive to economic conditions than higher rated securities.

The Fund held defaulted and/or other securities for which the income has been deemed uncollectible. At July 31, 2004, the value of these securities was \$2,236,005 representing 0.18% of the Fund's net assets. The Fund discontinues accruing income on securities for which income has been deemed uncollectible and provides an estimate for losses on interest receivable. For information as to specific securities, see the accompanying Statement of Investments.

Edgar Filing: FRANKLIN FLOATING RATE TRUST - Form N-CSR

11. RESTRICTED SECURITIES

At July 31, 2004, investments in securities included issues that are restricted or illiquid. Restricted securities are often purchased in private placement transactions, are not registered under the Securities

Act of 1933, may have contractual restrictions on resale, and are valued under methods approved by the Board of Trustees as reflecting fair value. A security may also be considered illiquid if it lacks a readily available market or if its valuation has not changed for a certain period of time. At July 31, 2004, the Fund held investments in restricted and illiquid securities that were valued under approved methods by the Trustees, as follows:

13. UNFUNDED LOAN COMMITMENTS

The Fund may enter into certain credit agreements, all or a portion of which may be unfunded. The Fund is obligated to fund these loan commitments at the borrowers' discretion.

At July 31, 2004, unfunded commitments were as follows:

BORROWER	UNFUNDED COMMITMENT
Celanese AG, Term Loan	\$1,240,738

14. OTHER CONSIDERATIONS

Advisers, as the Fund's Manager, may serve as a member of various bondholders' steering committees, on credit committees, or may represent the Fund in certain corporate restructuring negotiations. Currently the Manager serves in one or more of these capacities for Adelphia Communications Corp. As a result of this involvement, the Advisers may be in possession of certain material non-public information. If the Fund's Manager, while in possession of such information, seeks to sell any of its holdings in these securities it will comply with all applicable federal securities laws.

15. FUND LITIGATION

On July 6, 2003, Adelphia Communications Corp. ("Adelphia") and related parties, along with its Official Committee of Unsecured Creditors, filed an adversary proceeding in the Adelphia bankruptcy case in the U.S. Bankruptcy Court (SDNY) against more than 360 banks, financial services companies, insurance companies, investment banks, mutual funds and other parties that had arranged for the sale

Edgar Filing: FRANKLIN FLOATING RATE TRUST - Form N-CSR

of, or purchased the bank debt of, Adelphia or its related parties. Named Defendants included Franklin Advisers Inc., Franklin CLOs I-III, Franklin Floating Rate Daily Access Fund, Franklin Floating Rate Master Series, and Franklin Floating Rate Trust.

The Complaint alleges that the purchasers of this bank debt knew, or should have known, that the loan proceeds would not benefit Adelphia, but instead would be used to enrich Adelphia insiders. It seeks avoidance of the loans and recovery of intentionally fraudulent transfers.

Discovery for this case has been stayed and pending motions have not been ruled upon. Thus, it is not possible to predict its outcome at this early stage of the proceedings. However, management of the Funds does not expect that the result will have a material adverse effect on the financial condition of the Funds.

16. REGULATORY MATTERS

MASSACHUSETTS ADMINISTRATIVE PROCEEDING

On February 4, 2004, the Securities Division of the Office of the Secretary of the Commonwealth of Massachusetts filed an administrative complaint against Franklin Resources, Inc. and certain of its subsidiaries (the "Company") claiming violations of the Massachusetts Uniform Securities Act ("Massachusetts Act") with respect to an alleged arrangement to permit market timing (the "Mass. Proceeding"). On February 17, 2004, the Company filed an answer denying all violations of the Massachusetts Act.

U.S. SECURITIES AND EXCHANGE COMMISSION (SEC) SETTLEMENT

On August 2, 2004, the Company announced that an agreement had been reached by the Fund's investment manager with the SEC that resolved the issues resulting from the SEC's investigation of market timing activity. The SEC issued an "order instituting administrative and cease-and-desist

proceedings pursuant to sections 203(e) and 203(k) of the Investment Advisers Act of 1940 and sections 9(b) and 9(f) of the Investment Company Act of 1940, making findings and imposing remedial sanctions and a cease and desist order" (the "Order"). The SEC's Order concerns the activities of a limited number of third parties that ended in 2000 and those that are the subject of the Mass. Proceeding described above.

Under the terms of the SEC's Order, pursuant to which the Fund's investment manager neither admits nor denies any wrongdoing, the Fund's investment manager has agreed to pay \$50 million, of which \$20 million is a civil penalty, to be distributed to certain fund shareholders in accordance with a plan to be developed by an Independent Distribution Consultant. At this time, it is unclear whether shareholders of all funds will receive distributions or whether all shareholders of any particular fund will receive distributions. The SEC Order also requires the Fund's investment manager to, among other things, enhance and

Edgar Filing: FRANKLIN FLOATING RATE TRUST - Form N-CSR

periodically review compliance policies and procedures.

OTHER GOVERNMENTAL INVESTIGATIONS

As part of ongoing investigations by the SEC, the U.S. Attorney for the Northern District of California, the New York Attorney General, the California Attorney General, the U.S. Attorney for the District of Massachusetts, the Florida Department of Financial Services and the Commissioner of Securities, the West Virginia Attorney General, the Vermont Department of Banking, Insurance, Securities, and Health Care Administration and the National Association of Securities Dealers, relating to certain practices in the mutual fund industry, including late trading, market timing and payments to securities dealers who sell fund shares, the Company and its subsidiaries, as well as certain current or former executives and employees of the Company, have received requests for information and/or subpoenas to testify or produce documents. The Company has been providing documents and information in response to these requests and subpoenas. In addition, the Company has responded to requests for similar kinds of information from regulatory authorities in some of the foreign countries where the Company conducts its global asset management business.

The Staff of the SEC has also informed the Company that it is considering recommending a civil action or proceeding against the Fund's investment manager and the Fund's principal underwriter concerning payments to securities dealers who sell fund shares (commonly referred to as "revenue sharing"). The staff of the California Attorney General's Office (CAGO) also has advised the Company that it is authorized to bring a civil action against Franklin Resources, Inc. and the Fund's principal underwriter arising from the same events. Even though the Company currently believes that the charges the SEC staff and CAGO staff are contemplating are unwarranted, it also believes that it is in the best interest of the Company and fund shareholders to resolve these issues voluntarily, to the extent the Company can reasonably do so.

OTHER LEGAL PROCEEDINGS

The Fund, in addition to other entities within Franklin Templeton Investments, including the Company and certain of its subsidiaries, other funds, and current and former officers, employees, and directors have been named in multiple lawsuits in different federal courts in Nevada, California, Illinois, New York and Florida, alleging violations of various federal securities laws and seeking, among other things, monetary damages and costs. Specifically, the lawsuits claim breach of duty with respect to alleged arrangements to permit market timing and/or late trading activity, or breach of duty with respect to the valuation of the portfolio securities of certain funds managed by Company subsidiaries, resulting in alleged market timing activity. The majority of these lawsuits duplicate, in whole or in part, the allegations asserted in the Mass. Proceeding detailed above. The lawsuits are styled as class actions or derivative actions on behalf of either the named Funds or the Company.

In addition, the Company and certain of its subsidiaries, as well as certain current and former officers, employees, and directors have been named in

Edgar Filing: FRANKLIN FLOATING RATE TRUST - Form N-CSR

multiple lawsuits alleging violations of various securities laws and pendent state law claims relating to the disclosure of directed brokerage payments and/or payment of allegedly excessive commissions and advisory fees. These lawsuits are styled as class actions and derivative actions.

The Company's management strongly believes that the claims made in each of these lawsuits are without merit and intends to vigorously defend against them.

The Company cannot predict with certainty the eventual outcome of the foregoing Mass. Proceeding, other governmental investigations or other legal proceedings. The impact, if any, of these matters on the Fund is uncertain at this time. If the Company determines that it bears responsibility for any unlawful or inappropriate conduct that caused losses to the Fund, it is committed to making the Fund or its shareholders whole, as appropriate.

Franklin Floating Rate Trust

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

TO THE SHAREHOLDERS AND BOARD OF TRUSTEES OF FRANKLIN FLOATING RATE TRUST

In our opinion, the accompanying statement of assets and liabilities, including the statement of investments, and the related statements of operations and of changes in net assets and the financial highlights present fairly, in all material respects, the financial position of Franklin Floating Rate Trust (hereafter referred to as "the Fund") at July 31, 2004, the results of its operations for the year then ended, the changes in its net assets for each of the two years in the period then ended and the financial highlights for each of the periods presented, in conformity with accounting principles generally accepted in the United States of America. These financial statements and financial highlights (hereafter referred to as "financial statements") are the responsibility of the Fund's management; our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits of these financial statements in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits, which included confirmation of securities at July 31, 2004 by correspondence with the custodian, agent banks and brokers, provide a reasonable basis for our opinion.

ITEM 5. AUDIT COMMITTEE OF LISTED REGISTRANTS. N/A

ITEM 6. SCHEDULE OF INVESTMENTS. N/A

ITEM 7. DISCLOSURE OF PROXY VOTING POLICIES AND PROCEDURES FOR CLOSED-END MANAGEMENT INVESTMENT COMPANIES. The Board has delegated the authority to vote proxies related to the portfolio securities held by the Fund to the Fund's manager Franklin Advisers, Inc. (Advisers) in accordance with the Proxy Voting Policies and Procedures (Policies) adopted by the manager.

The manager has delegated its administrative duties with respect to the voting of proxies to the Proxy Group within Franklin Templeton Companies, LLC (Proxy Group), an affiliate and wholly owned subsidiary of Franklin Resources, Inc. All proxies received by the Proxy Group will be voted based upon the manager's instructions and/or policies.

To assist it in analyzing proxies, the manager subscribes to Institutional Shareholder Services (ISS), an unaffiliated third party corporate governance research service that provides in-depth analyses of shareholder meeting agendas, vote recommendations, recordkeeping and vote disclosure services. In addition, the manager subscribes to Glass Lewis & Co., LLC (Glass Lewis), an unaffiliated third party analytical research firm, to receive analyses and vote recommendations on the shareholder meetings of publicly held U.S. companies. Although ISS' and/or Glass Lewis' analyses are thoroughly reviewed and considered in making a final voting decision, the manager does not consider recommendations from ISS, Glass Lewis or any other third party to be determinative of the manager's ultimate decision. The manager votes proxies solely in the interests of the Fund and its shareholders. As a matter of policy, the officers, trustees and employees of the Fund, the manager and the Proxy Group will not be influenced by outside sources whose interests conflict with the interests of the Fund and its shareholders. All conflicts are resolved in the interests of the manager's clients. In situations where the manager

Edgar Filing: FRANKLIN FLOATING RATE TRUST - Form N-CSR

perceives a material conflict of interest, the manager may: disclose the conflict to the Fund's board of trustees; defer to the voting recommendation of the Fund's board of trustees, ISS, Glass Lewis or those of another independent third party provider of proxy services; or take such other action in good faith (in consultation with counsel) which would protect the interests of the Fund and its shareholders.

The recommendation of management on any issue is a factor which the manager considers in determining how proxies should be voted, but is not determinative of the manager's ultimate decision. As a matter of practice, the votes with respect to most issues are cast in accordance with the position of the company's management. Each issue, however, is considered on its own merits, and the manager will not support the position of the company's management in any situation where it deems that the ratification of management's position would adversely affect the investment merits of owning that company's shares.

MANAGER'S PROXY VOTING POLICIES AND PRINCIPLES

The manager has adopted general proxy voting guidelines, which are summarized below. These guidelines are not an exhaustive list of all the issues that may arise and the manager cannot anticipate all future situations. In all cases, each proxy will be considered based on the relevant facts and circumstances.

BOARD OF DIRECTORS. The manager supports an independent board of directors, and prefers that key committees such as audit, nominating, and compensation committees be comprised of independent directors. The manager will generally vote against management efforts to classify a board and will generally support proposals to declassify the board of directors. The manager may withhold votes from directors who have attended less than 75% of meetings without a valid reason. While generally in favor of separating Chairman and CEO positions, the manager will review this issue as well as proposals to restore or provide for cumulative voting on a case-by-case basis, taking into consideration factors such as the company's corporate governance guidelines or provisions and performance.

RATIFICATION OF AUDITORS. In light of several high profile accounting scandals, the manager will closely scrutinize the role and performance of auditors. On a case-by-case basis, the manager will examine proposals relating to non-audit relationships and non-audit fees. The manager will also consider, on a case-by-case basis, proposals to rotate auditors, and will vote against the ratification of auditors when there is clear and compelling evidence of accounting irregularities or negligence.

MANAGEMENT & DIRECTOR COMPENSATION. A company's equity-based compensation plan should be in alignment with its shareholders' long-term interests. The manager evaluates plans on a case-by-case basis by considering several factors to determine whether the plan is fair and reasonable, including the ISS quantitative model utilized to assess such plans and/or the Glass Lewis evaluation of the plans. The manager will generally oppose plans that have the potential to be excessively dilutive, and will almost always oppose plans that are structured to allow the repricing of underwater options, or plans that have an automatic share replenishment "evergreen" feature. The manager will generally support employee stock option plans in which the purchase price is at least 85% of fair market value, and when potential dilution is 10% or less.

Severance compensation arrangements will be reviewed on a case-by-case basis, although the manager will generally oppose "golden parachutes" that are considered to be excessive. The manager will normally support proposals that require a percentage of directors' compensation to be in the form of common stock, as it aligns their interests with those of shareholders. The manager will review on a case-by-case basis any shareholder proposals to adopt policies on expensing stock option plans.

Edgar Filing: FRANKLIN FLOATING RATE TRUST - Form N-CSR

ANTI-TAKEOVER MECHANISMS AND RELATED ISSUES. The manager generally opposes anti-takeover measures since they tend to reduce shareholder rights. On occasion, the manager may vote with management when the research analyst has concluded that the proposal is not onerous and would not harm the Fund or its shareholders' interests. The manager generally supports proposals that require shareholder rights' plans ("poison pills") to be subject to a shareholder vote and will closely evaluate such plans on a case-by-case basis to determine whether or not they warrant support. The manager will generally vote against any proposal to issue stock that has unequal or subordinate voting rights. The manager generally opposes any supermajority voting requirements as well as the payment of "greenmail." The manager generally supports "fair price" provisions and confidential voting.

CHANGES TO CAPITAL STRUCTURE. The manager will review, on a case-by-case basis, proposals by companies to increase authorized shares and the purpose for the increase and proposals seeking preemptive rights. The manager will generally not vote in favor of dual-class capital structures to increase the number of authorized shares where that class of stock would have superior voting rights. The manager will generally vote in favor of the issuance of preferred stock in cases where the company specifies the voting, dividend, conversion and other rights of such stock and the terms of the preferred stock issuance are deemed reasonable.

MERGERS AND CORPORATE RESTRUCTURING. Mergers and acquisitions will be subject to careful review by the research analyst to determine whether each will be beneficial to shareholders. The manager will analyze various economic and strategic factors in making the final decision on a merger or acquisition. Corporate restructuring and reincorporation proposals are also subject to a thorough examination on a case-by-case basis.

SOCIAL AND CORPORATE POLICY ISSUES. The manager will generally give management discretion with regard to social, environmental and ethical issues, although the manager may vote in favor of those that are believed to have significant economic benefits or implications for the Fund and its shareholders.

GLOBAL CORPORATE GOVERNANCE. Many of the tenets discussed above are applied to proxy voting decisions for international companies. However, the manager must be more flexible in these instances and must be mindful of the varied market practices of each region.

The manager will attempt to process every proxy it receives for all domestic and foreign proxies. However, there may be situations in which the manager cannot process proxies, for example, where a meeting notice was received too late, or sell orders preclude the ability to vote. The manager may abstain from voting under certain circumstances or vote against items such as "Other Business" when the manager is not given adequate information from the company.

Shareholders may view the complete Policies on-line at franklintempleton.com. Alternatively, shareholders may request copies of the Policies free of charge by calling the Proxy Group collect at 1-954-847-2268 or by sending a written request to: Franklin Templeton Companies, LLC, 500 East Broward Boulevard, Suite 1500, Fort Lauderdale, FL 33394, Attention: Proxy Group. Copies of the Fund's proxy voting records are available on-line at franklintempleton.com and posted on the SEC website at WWW.SEC.GOV and reflect the twelve-month period beginning July 1, 2003, and ending June 30, 2004.

ITEM 8. PURCHASES OF EQUITY SECURITIES BY CLOSED-END MANAGEMENT INVESTMENT COMPANY AND AFFILIATED PURCHASERS. N/A. Registrant's equity securities are not registered for sale on an exchange pursuant to Section 12 of the Exchange Act (15 U.S.C. 781).

Edgar Filing: FRANKLIN FLOATING RATE TRUST - Form N-CSR

ITEM 9. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS. There have been no changes to the procedures by which shareholders may recommend nominees to the Registrant's Board of Trustees that would require disclosure herein.

ITEM 10. CONTROLS AND PROCEDURES.

(A) EVALUATION OF DISCLOSURE CONTROLS AND PROCEDURES. The Registrant maintains disclosure controls and procedures that are designed to ensure that information required to be disclosed in the Registrant's filings under the Securities Exchange Act of 1934 and the Investment Company Act of 1940 is recorded, processed, summarized and reported within the periods specified in the rules and forms of the Securities and Exchange Commission. Such information is accumulated and communicated to the Registrant's management, including its principal executive officer and principal financial officer, as appropriate, to allow timely decisions regarding required disclosure. The Registrant's management, including the principal executive officer and the principal financial officer, recognizes that any set of controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives.

Within 90 days prior to the filing date of this Shareholder Report on Form N-CSR, the Registrant had carried out an evaluation, under the supervision and with the participation of the Registrant's management, including the Registrant's principal executive officer and the Registrant's principal financial officer, of the effectiveness of the design and operation of the Registrant's disclosure controls and procedures. Based on such evaluation, the Registrant's principal executive officer and principal financial officer concluded that the Registrant's disclosure controls and procedures are effective.

(B) CHANGES IN INTERNAL CONTROLS. There have been no significant changes in the Registrant's internal controls or in other factors that could significantly affect the internal controls subsequent to the date of their evaluation in connection with the preparation of this Shareholder Report on Form N-CSR.

ITEM 11. EXHIBITS.
