**1. Summary of Significant Accounting Policies**

*Condensed Consolidated Financial Statements*

The Condensed Consolidated Balance Sheet as of September 30, 2006 and the Condensed Consolidated Statements of Operations for the thirteen and thirty-nine week periods ended September 30, 2006 and September 24, 2005 and the Condensed Consolidated Statements of Cash Flows for the thirty-nine week periods then ended have been prepared by the Company, without audit. In the opinion of management, all necessary adjustments (which include normal recurring adjustments) have been made to present fairly the financial statements as of September 30, 2006 and for all periods presented.

Certain information and footnote disclosures normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States of America have been condensed or omitted. These Condensed Consolidated Financial Statements should be read in conjunction with the financial statements and notes thereto included in the Company's Annual Report on Form 10-K for the fiscal year ended December 31, 2005. The accounting policies and methods of computation followed in these interim financial statements are the same as those followed in the financial statements for the year ended December 31, 2005, except for the January 1, 2006 adoption of SFAS 123(R). The results of operations for the periods ended September 30, 2006 are not necessarily indicative of the operating results for the full year.

*Cash overdrafts*

Cash book overdrafts totaling \$11,300 and \$7,243 were classified as accounts payable at September 30, 2006 and December 31, 2005, respectively. The Company's policy is to report the change in book overdrafts as an operating activity in the Condensed Consolidated Statement of Cash Flows.

*Inventories*

At September 30, 2006, approximately 53% of inventory is valued at the lower of cost, determined on the last-in, first-out (LIFO) method, or market. All other inventory is valued at the lower of cost, determined on the first-in, first-out (FIFO) method or market. Finished goods and manufactured goods inventories include the costs of acquired raw materials and related factory labor and overhead charges required to convert raw materials to manufactured finished goods. The excess of replacement cost of inventories over the LIFO value was approximately \$37,700 and \$29,100 at September 30, 2006 and December 31, 2005, respectively.

Inventories consisted of the following:

	<b>September 30, 2006</b>	<b>December 31, 2005</b>
Raw materials and purchased parts	\$ 118,009	\$ 97,606
Work-in-process	20,668	19,419
Finished goods and manufactured goods	75,198	70,377
Subtotal	213,875	187,402
LIFO reserve	37,715	29,075
Net inventory	\$ 176,160	\$ 158,327

**VALMONT INDUSTRIES, INC. AND SUBSIDIARIES**  
**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)**  
**(Dollars in thousands, except per share amounts)**  
**(Unaudited)**

*Income Tax Expense*

In the third quarter of 2006, the Company realized approximately \$1.2 million in income tax benefits related to activities from prior tax years but were recognized in 2006 when the additional credits were taken on its income tax returns. Management had previously determined it was not probable that these tax benefits would be realized and therefore had not recognized these benefits in prior years.

*Equity in Earnings (Losses) Nonconsolidated Subsidiaries*

The Company realized a loss in its nonconsolidated subsidiary in the third quarter of 2006, due principally to losses in its 49% owned structures operation in Mexico. This loss mainly related to adjustment of receivable and inventory valuations, which reduced its share of earnings from this nonconsolidated subsidiary by \$2.1 million, after tax. These valuation adjustments resulted from the Company's due diligence reviews related to its planned purchase of the remaining 51% ownership interest in this subsidiary.

*Stock Plans*

The Company maintains stock-based compensation plans approved by the shareholders, which provide that the Compensation Committee of the Board of Directors may grant incentive stock options, nonqualified stock options, stock appreciation rights, non-vested stock awards and bonuses of common stock. At September 30, 2006, 1,298,323 shares of common stock remained available for issuance under the plans. Shares and options issued and available for issuance are subject to changes in capitalization.

Under the plans, the exercise price of each option equals the market price at the time of the grant. Options vest beginning on the first anniversary of the grant in equal amounts over three to six years or on the fifth anniversary of the grant. Expiration of grants is from six to ten years from the date of grant. On January 1, 2006, the Company adopted SFAS No. 123 (revised 2004) (SFAS 123(R)), *Shared Based Payment*. The Company chose to apply the modified prospective transition method as permitted by SFAS 123(R) and therefore has not restated prior periods. Under this transition method, compensation cost associated with employee stock options recognized in the thirteen and thirty-nine weeks ended September 30, 2006 includes amortization related to the remaining unvested portion of stock option awards granted prior to December 31, 2005, and amortization related to new awards granted after January 1, 2006. Accordingly, the Company recorded \$444 and \$1,157 of compensation expense (included in selling, general and administrative expenses) for the thirteen and thirty-nine weeks ended September 30, 2006, respectively. The associated tax benefits recorded were \$171 and \$445, respectively. Prior to the adoption of SFAS 123(R), the Company accounted for these plans under APB Opinion 25, *Accounting for Stock Issued to Employees*, and related Interpretations. Under APB Opinion 25, no compensation cost associated with stock options was reflected in net income, as all options granted under these plans had an exercise price equal to the market value of the underlying common stock on the date of grant. The following table illustrates the effect on net income and earnings per share for the thirteen and thirty-nine weeks ended September 24, 2005 if the company had applied the fair value recognition provisions of FASB Statement No. 123, *Accounting for Stock-Based Compensation*, to stock-based employee compensation.

	Diluted	\$ 0.40	\$ 1.09
Pro forma:	Basic	\$ 0.42	\$ 1.10
	Diluted	\$ 0.40	\$ 1.06

*Recently Issued Accounting Pronouncements*

On July 13, 2006, the FASB issued Interpretation 48 ( FIN 48 ), *Accounting for Uncertainty in Income Taxes - an Interpretation of FASB Statement No 109*. FIN 48 provides a consistent recognition threshold and measurement attribute, as well as clear criteria for subsequently recognizing, derecognizing and measuring uncertain tax positions for financial statement purposes. The Interpretation also requires expanded disclosure with respect to uncertain income tax positions. FIN 48 will be effective at the beginning of the Company's 2007 fiscal year. The Company is currently assessing the effect of this pronouncement on the consolidated financial statements.

In September 2006, the FASB issued Statement 157 ( SFAS 157 ), *Fair Value Measurements*. This Statement establishes a framework for measuring fair value in generally accepted accounting principles and expands disclosures about fair value measurements. While SFAS 157 does not require any new fair value measurements, it may change the application of fair value measurements embodied in other accounting standards. SFAS 157 will be effective at the beginning of the Company's 2008 fiscal year. The Company is currently assessing the effect of this pronouncement on the consolidated financial statements.

**2. Goodwill and Intangible Assets**

The Company's annual impairment testing on its reporting units was performed during the third quarter of 2006. As a result of that testing, it was determined the goodwill on the Company's Consolidated Balance Sheet was not impaired. Non-amortized intangible assets were also tested for impairment and determined not to be impaired.

**VALMONT INDUSTRIES, INC. AND SUBSIDIARIES**  
**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)**  
(Dollars in thousands, except per share amounts)  
(Unaudited)

*Amortized Intangible Assets*

The components of amortized intangible assets at September 30, 2006 and December 31, 2005 were as follows:

	<b>As of September 30, 2006</b>		
	<b>Gross Carrying Amount</b>	<b>Accumulated Amortization</b>	<b>Weighted Average Life</b>
Customer Relationships	\$ 48,133	\$ 10,008	18 years
Proprietary Software & Database	2,609	1,987	6 years
Patents & Proprietary Technology	2,839	467	14 years
Non-compete Agreements	331	148	5 years
	<b>\$ 53,912</b>	<b>\$ 12,610</b>	

	<b>As of December 31, 2005</b>		
	<b>Gross Carrying Amount</b>	<b>Accumulated Amortization</b>	<b>Weighted Average Life</b>
Customer Relationships	\$ 48,133	\$ 7,819	18 years
Proprietary Software & Database	2,609	1,802	6 years
Patents & Proprietary Technology	2,839	319	14 years
Non-compete Agreements	331	98	5 years
	<b>\$ 53,912</b>	<b>\$ 10,038</b>	

Amortization expense for intangible assets for the thirteen weeks ended September 30, 2006 and September 24, 2005, was \$756 and \$901, respectively. Amortization expense for intangible assets for the thirty-nine weeks ended September 30, 2006, and September 24, 2005 was \$2,572 and \$2,704, respectively. Estimated amortization expense related to finite-lived intangible assets is as follows:

	<b>Estimated Amortization Expense</b>
2006	\$ 3,404
2007	3,321
2008	3,321
2009	3,289
2010	3,255

The useful lives assigned to finite-lived intangible assets included consideration of factors such as the Company's past and expected experience related to customer retention rates, the remaining legal or contractual life of the underlying arrangement that resulted in the recognition of the intangible asset and the Company's expected use of the intangible asset.

**VALMONT INDUSTRIES, INC. AND SUBSIDIARIES**  
**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)**  
(Dollars in thousands, except per share amounts)  
(Unaudited)

*Non-amortized intangible assets*

Under the provisions of SFAS 142, intangible assets with indefinite lives are not amortized. The carrying value of the PiRod and Newmark trade names are \$4,750 and \$11,111, as of September 30, 2006 and December 31, 2005. The Newmark trade name arose from the 2004 acquisition and the PiRod amount arose from the 2001 acquisition. The indefinite-lived intangible assets were tested for impairment separately from goodwill in the third quarter of 2006. The values of the trade names were determined using the relief-from-royalty method. Based on this evaluation, the Company determined that its trade names were not impaired as of September 30, 2006.

In its determination of these intangible assets as indefinite-lived, the Company considered such factors as its expected future use of the intangible asset, legal, regulatory, technological and competitive factors that may impact the useful life or value of the intangible asset and the expected costs to maintain the value of the intangible asset. The Company has determined that these intangible assets are expected to maintain their value indefinitely and, therefore, these assets are not amortized.

In addition, the Company acquired the Sigma trade name as part of the acquisition of Sigma's assets in 2004 and recorded an associated indefinite-lived intangible asset of \$405. In the second quarter of 2006, the Company determined it would no longer use the Sigma trade name and, accordingly, a complete impairment of the \$405 value assigned to the Sigma trade name was recorded in the second quarter of 2006.

*Goodwill*

The carrying amount of goodwill as of September 30, 2006 was as follows:

	<b>Engineered Support Structures Segment</b>	<b>Utility Support Structures Segment</b>	<b>Coatings Segment</b>	<b>Irrigation Segment</b>	<b>Tubing Segment</b>	<b>Total</b>
Balance December 31, 2005	\$ 19,760	\$ 42,628	\$ 42,192	\$ 1,853	\$ 262	\$ 106,695
Foreign currency translation	112					112
Balance September 30, 2006	\$ 19,872	\$ 42,628	\$ 42,192	\$ 1,853	\$ 262	\$ 106,807

Goodwill in the Company's reporting units was tested in the third quarter of 2006 using a discounted cash flow methodology. Based on the evaluation, the Company concluded that goodwill was not impaired as of September 30, 2006.

**VALMONT INDUSTRIES, INC. AND SUBSIDIARIES**  
**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)**  
(Dollars in thousands, except per share amounts)  
(Unaudited)

**3. Cash Flows**

The Company considers all highly liquid temporary cash investments purchased with a maturity of three months or less to be cash equivalents. Cash payments for interest and income taxes (net of refunds) for the thirty-nine weeks ended were as follows:

	Sept. 30, 2006	Sept. 24, 2005
Interest	\$ 10,358	\$ 12,060
Income Taxes	22,306	8,156

**4. Earnings Per Share**

The following table provides a reconciliation between Basic and Diluted earnings per share:

	Basic EPS	Dilutive Effect of Stock Options	Diluted EPS
Thirteen weeks ended September 30, 2006:			
Net earnings	\$ 15,062		\$ 15,062
Shares outstanding	25,255	596	25,851
Per share amount	\$ 0.59	(.01 )	\$ 0.58
Thirteen weeks ended September 24, 2005:			
Net earnings	\$ 10,206		\$ 10,206
Shares outstanding	24,382	998	25,380
Per share amount	\$ 0.42	(.02 )	\$ 0.40
Thirty-nine weeks ended September 30, 2006:			
Net earnings	\$ 45,432		\$ 45,432
Shares outstanding	25,027	716	25,743
Per share amount	\$ 1.82	(.06 )	\$ 1.76
Thirty-nine weeks ended September 24, 2005:			
Net earnings	\$ 27,459		\$ 27,459
Shares outstanding	24,262	935	25,197
Per share amount	\$ 1.13	(.04 )	\$ 1.09

**VALMONT INDUSTRIES, INC. AND SUBSIDIARIES**  
**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)**  
(Dollars in thousands, except per share amounts)  
(Unaudited)

**5. Comprehensive Income**

Results of operations for foreign subsidiaries are translated using the average exchange rates during the period. Assets and liabilities are translated at the exchange rates in effect on the balance sheet dates. The Company's other comprehensive income for the thirteen and thirty-nine weeks ended September 30, 2006 and September 24, 2005, respectively, were as follows:

	<b>Thirteen Weeks Ended</b>		<b>Thirty-nine Weeks Ended</b>	
	<b>Sept. 30, 2006</b>	<b>Sept. 24, 2005</b>	<b>Sept. 30, 2006</b>	<b>Sept. 24, 2005</b>
Net earnings	\$ 15,062	\$ 10,206	\$ 45,432	\$ 27,459

Total comprehensive income	\$ 14,798	\$ 11,892	\$ 49,199	\$ 24,335

**6. Stock Plans**

On January 1, 2006, the Company adopted SFAS No. 123R, *Shared Based Payment* (SFAS 123R). The Company chose to apply the modified prospective transition method as permitted by SFAS 123R and therefore has not restated prior periods. Under this transition method, compensation cost associated with employee stock options recognized in the thirteen and thirty-nine weeks ended September 30, 2006 includes amortization related to the remaining unvested portion of stock options granted prior to December 31, 2005, and amortization related to stock options granted after January 1, 2006. At September 30, 2006, the amount of unrecognized stock option compensation cost, to be recognized over a weighted average period of 1.30 years, was approximately \$2,000.

Upon adoption of SFAS 123R, the Company changed its method of valuation for share-based awards granted beginning in 2006 to a binomial option pricing model from the Black-Scholes-Merton option pricing model which was previously used for the Company's pro forma information required under SFAS 123. The fair value of each option grant made in 2006 was estimated using the following assumptions:

Expected volatility	27	%
Risk-free interest rate	4.40	%
Expected life from vesting date	2.7 yrs.	
Dividend yield	1.51	%

As a result of adopting SFAS 123R, earnings before income taxes included \$444 and \$1,157 of share-based compensation expense related to stock options, with associated tax benefit of \$171 and \$445 for the thirteen and thirty-nine weeks ended September 30, 2006, respectively. Prior to the adoption of SFAS 123R, the Company presented all benefits of tax deductions resulting from the exercise of stock options as operating cash flows in the Consolidated Statements of Cash Flows. SFAS 123R requires the cash flows resulting from tax deductions in excess of the compensation cost recognized for share-based payments ( excess tax benefits ) to be classified as financing cash flows. The excess tax benefit of \$16,102 was classified as a financing cash flow for the thirty-nine weeks ended September 30, 2006.

**VALMONT INDUSTRIES, INC. AND SUBSIDIARIES****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

(Dollars in thousands, except per share amounts)

(Unaudited)

The Company maintains stock-based compensation plans approved by the shareholders, which provide that the Compensation Committee of the Board of Directors may grant incentive stock options, nonqualified stock options, stock appreciation rights, non-vested stock awards and bonuses of common stock. At September 30, 2006, 1,298,323 shares of common stock remained available for issuance under the plans. Shares and options issued and available are subject to changes in capitalization. The Company's policy is to issue shares upon exercise of stock options from treasury shares held by the Company.

Under the plans, the exercise price of each option equals the market price at the time of the grant. Options vest beginning on the first anniversary of the grant in equal amounts over three to six years or on the fifth anniversary of the grant. Expiration of grants is from six to ten years from the date of grant.

Following is a summary of the activity of the stock plans during the thirty-nine weeks ended September 30, 2006:

	<b>Number of Shares</b>	<b>Weighted Average Exercise Price</b>
Outstanding at December 31, 2005	2,670,094	\$ 20.76
Granted	40,500	51.87
Exercised	(1,403,255 )	(18.79 )
Forfeited	(45,998 )	(26.04 )
Outstanding at September 30, 2006	1,261,341	\$ 23.76
Options exercisable at September 30, 2006	823,717	\$ 19.89
Weighted average fair value of options granted during 2006		\$ 51.87

Following is a summary of the status of stock options outstanding at September 30, 2006:

**Outstanding and Exercisable By Price Range**

<b>Options Outstanding</b>			<b>Options Exercisable</b>		
<b>Exercise Price Range</b>	<b>Number</b>	<b>Weighted Average Remaining Contractual Life</b>	<b>Weighted Average Exercise Price</b>	<b>Number</b>	<b>Weighted Average Exercise Price</b>
\$ 13.91-19.97	453,298	4.10 years	\$ 17.29	453,298	\$17.29
20.53-24.78	561,614	6.70 years	23.33	355,490	22.99
24.86-53.01	246,429	6.12 years	36.66	14,929	25.13
	1,261,341			823,717	

In accordance with shareholder-approved plans, the Company grants stock under various stock-based compensation arrangements, including non-vested share awards and stock issued in lieu of cash bonuses. Under such arrangements, stock is issued without direct cost to the employee. In addition, the Company grants non-vested share units. The non-vested share units are settled in Company stock when the vesting period ends. Non-vested awards of 18,000 shares of Company common stock were issued to non-employee directors of the Company during the second quarter of 2006. There were no non-vested share units issued during the thirteen weeks ended September 30, 2006.

**VALMONT INDUSTRIES, INC. AND SUBSIDIARIES**  
**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)**  
**(Dollars in thousands, except per share amounts)**  
**(Unaudited)**

At September 30, 2006, there was \$4,425 of unrecognized compensation expense related to these non-vested share awards, which is expected to be recognized over a weighted average period of approximately 4 years. The Company recorded expense of \$331 and \$915 in the thirteen and thirty-nine weeks ended September 30, 2006 (with associated tax benefits of \$127 and \$352, respectively), related to the amortization of non-vested shares and share units. Beginning January 1, 2006, the unamortized balance of the non-vested share awards is a component of retained earnings. Prior to January 1, 2006, this unamortized balance was shown as a separate component of shareholders' equity.

**7. Business Segments**

The Company aggregates its operating segments into five reportable segments. Aggregation is based on similarity of operating segments as to economic characteristics, products, production processes, types or classes of customer and the methods of distribution. Net corporate expense is net of certain service-related expenses that are allocated to business units generally on the basis of employee headcounts and sales dollars.

Reportable segments are as follows:

*ENGINEERED SUPPORT STRUCTURES:* This segment consists of the manufacture of engineered metal structures and components for the lighting and traffic and wireless communication industries, certain international utility industries and for other specialty applications;

*UTILITY SUPPORT STRUCTURES:* This segment consists of the manufacture of engineered steel and concrete structures primarily for the North American utility industry;

*COATINGS:* This segment consists of galvanizing, anodizing and powder coating services;

*IRRIGATION:* This segment consists of the manufacture of agricultural irrigation equipment and related parts and services; and

*TUBING:* This segment consists of the manufacture of tubular products for industrial customers.

In addition to these five reportable segments, the Company has other businesses that individually are not more than 10% of consolidated sales. These businesses, which include wind energy development, machine tool accessories and industrial fasteners, are reported in the "Other" category.

The accounting policies of the reportable segments are the same as those described in Note 1. The Company evaluates the performance of its business segments based upon operating income and invested capital. The Company does not allocate interest expense, non-operating income and deductions, or income taxes to its business segments.

**8. Guarantor/ Non-Guarantor Financial Information**

On May 4, 2004, the Company completed a \$150,000,000 offering of 67/8% Senior Subordinated Notes. The Notes are guaranteed, jointly, severally, fully and unconditionally, on a senior subordinated basis by certain of the Company's current and future direct and indirect domestic subsidiaries (collectively the Guarantors), excluding its other current domestic and foreign subsidiaries which do not guarantee the debt (collectively referred to as the Non-Guarantors). All Guarantors are 100% owned by the parent company.

Condensed consolidated financial information for the Company (Parent), the Guarantor subsidiaries and the Non-Guarantor subsidiaries is as follows:

**VALMONT INDUSTRIES, INC. AND SUBSIDIARIES**

**PART 1. FINANCIAL INFORMATION**

**Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations**

Management's discussion and analysis contains forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. These forward looking statements are based on assumptions that management has made in light of experience in the industries in which the Company operates, as well as management's perceptions of historical trends, current conditions, expected future developments and other factors believed to be appropriate under the circumstances. These statements are not guarantees of performance or results. They involve risks, uncertainties (some of which are beyond the Company's control) and assumptions. Management believes that these forward-looking statements are based on reasonable assumptions. Many factors could affect the Company's actual financial results and cause them to differ materially from those anticipated in the forward-looking statements. These factors include, among other things, risk factors described from time to time in the Company's reports to the Securities and Exchange Commission, as well as future economic and market circumstances, industry conditions, company performance and financial results, operating efficiencies, availability and price of raw materials, availability and market acceptance of new products, product pricing, domestic and international competitive environments, and actions and policy changes of domestic and foreign governments.

This discussion should be read in conjunction with the financial statements and the notes thereto, and the management's discussion and analysis, included in the Company's annual report on Form 10-K for the fiscal year ended December 31, 2005. We aggregate our businesses as five reportable segments. See Note 7 to the Condensed Consolidated Financial Statements.

### *Overview*

Sales increased for the thirteen and thirty-nine week periods ended September 30, 2006, as compared with the same periods of 2005, reflecting improved sales volumes as well as sales price increases to recover increased material costs. On a segment basis, the sales volume increases in the third quarter of 2006, as compared with the same period in 2005, were mainly realized in the Utility Support Structures and Irrigation segments. All reportable segments contributed to the sales volume increase recorded for the year-to-date period ended September 30, 2006, as compared with the same period in 2005.

Gross margin (gross profit as a percent of sales) in the third quarter of 2006 was slightly lower than the same period in 2005. Lower gross profit margins in most of our reportable segments were offset to a degree by stronger gross profit margins in the Coatings segment. The gross profit margin improvement in the Coatings segment in the third quarter of 2006 was due in part to a \$1.1 million gain on the sale of one of its operating facilities. On a year-to-date basis, gross margin in 2006 was slightly higher than 2005, as higher sales volumes across all of our reportable segments allowed us to achieve greater factory utilization and improved leverage of our fixed factory expenses.

Selling, general and administrative (SG&A) spending in the third quarter and year-to-date periods ended September 30, 2006 increased mainly as a result of higher employee incentives related to improved operating performance (approximately \$1.4 million and \$7.8 million, respectively), increased compensation costs (approximately \$1.0 million and \$3.7 million, respectively), higher sales commissions associated with the increased sales volumes (approximately \$0.3 million and \$1.3 million, respectively) and expenses related to stock options (approximately \$0.3 million and \$0.9 million, respectively) that was required to be recorded under the provisions of SFAS 123(R), which we adopted during the first quarter of 2006. In addition, the increase in SG&A spending for the thirty-nine week period ended September 30, 2006 over the same period in 2005 was also due in part to a \$0.8 million reversal of a bad debt provision related to an international receivable in the second quarter of 2005. All reportable segments contributed to the improved operating income in 2006 for the thirteen and thirty-nine weeks ended September 30, 2006, as compared with the same periods in 2005.

Net interest expense decreased for the thirteen and thirty-nine weeks ended September 30, 2006, as compared with the same periods in 2005, primarily due to lower average borrowing levels this year. Average borrowing levels in the third quarter of 2006 were approximately \$55 million lower than the third quarter of 2005, which resulted from operating cash inflows that were used to pay down our interest-bearing debt. The impact of lower borrowing levels on interest expense were somewhat offset by higher interest rates on our variable rate debt.

In the third quarter of 2006, we realized approximately \$1.2 million in income tax benefits related to activities from prior tax years but were recognized in 2006 when the additional credits were taken on our income tax returns. We had previously determined it was not probable that these tax benefits would be realized and therefore had not recognized these benefits in prior years. In addition, we experienced an increase in the amount of our pre-tax earnings derived from foreign locations for both the quarter and year-to-date periods ended September 30, 2006, as compared with the same periods in 2005. These locations generally have lower statutory income tax rates than the U.S., resulting in an overall reduction of our overall effective tax rate, as compared with prior periods.

Miscellaneous income for the thirty-nine week period ended September 30, 2006 was higher than the same period in 2005, due to a \$1.1 million settlement associated with a retirement plan of a former subsidiary in the first quarter of 2006. We realized a loss in our nonconsolidated subsidiaries in the third quarter of 2006, due principally to losses in our 49% owned structures operation in Mexico. The Mexican loss mainly related to adjustment of receivable and inventory valuations which reduced our share of earnings from this nonconsolidated subsidiary by \$2.1 million, after tax. These valuation adjustments resulted from our due diligence reviews related to our planned purchase of the remaining 51% ownership interest in this subsidiary.

Our cash flows provided by operations were \$29.0 million for the thirty-nine weeks ended September 30, 2006, as compared with \$90.9 million of cash provided by operations for the same period in 2005. The lower operating cash flows in 2006 resulted from increased working capital required by the increased net sales realized in 2006 and a larger share of our income tax expense that was payable in cash, as opposed to being deferred to later periods.

***Engineered Support Structures (ESS) segment***

The sales increases in the ESS segment for the thirteen and thirty-nine weeks ended September 30, 2006, as compared with the same periods in 2005, were due to improved sales in all geographic regions. In North America, lighting and traffic structure sales improved slightly over 2005 sales levels. In the transportation market, while sales are essentially flat as compared with 2005, higher sales order levels achieved after the passage of U.S. highway funding legislation in the third quarter of 2005 have resulted in an increased backlog in 2006. Commercial lighting sales volumes in 2006 were higher than 2005 levels, as improvements in the residential and commercial construction markets resulted in higher demand for street and area lighting structures. We are also realizing increased demand for decorative lighting structures. In Europe, lighting sales were higher than 2005 on both a quarterly and year-to-date basis, mainly due to new tramway and decorative lighting structures developed for the European market and improvement in economic conditions in our main market areas.

In the specialty structures product line, sales in the third quarter of 2006 were comparable to 2005, while year-to-date sales in 2006 were higher than 2005. In the third quarter, North American shipments of wireless communication and sign structures lagged 2005 levels. In the wireless communication market, sales demand for structures and components in 2006 was comparable to 2005. However, sales shipments in the third quarter of 2006 lagged 2005 levels, due mainly to delays in shipments requested by our customers. On a year-to-date basis, sales of wireless communication structures for the North American market were comparable to 2005. Sign structure sales in 2006 were lower than 2005 levels, on both a quarterly and year-to-date basis. Sales of wireless communication structures in China were improved in 2006 as compared with a relatively weak 2005, on a quarterly and year-to-date basis. The Chinese wireless communication carriers are continuing their investment in structures as part of their plans to improve their coverage and increase services provided to their customers.

The increased profitability of the ESS segment for the thirteen and thirty-nine weeks ended September 30, 2006, as compared with the same periods in 2005, was related to the sales growth in the North American and European lighting markets, growth in wireless communication structures sales in China and control of SG&A spending in light of higher sales volumes. Improvement in operating income was realized in all our main geographic regions. Lower sales volumes and operational difficulties in our North American locations that are dedicated to specialty structures negatively affected segment operating income on a quarterly and year-to-date basis by \$1.1 million and \$2.7 million, respectively. On a year-to-date basis, operating income in 2006 included an aggregate of approximately \$1.1 million in expenses associated with a warranty claim from a sign structure customer in North America and production equipment disposals in Europe. The main reasons for the increases in SG&A expense for the thirteen and thirty-nine weeks ended September 30, 2006 as compared with the same periods in 2005 were increased compensation costs (\$0.7 million and \$1.6 million, respectively), commissions related to higher sales volumes (approximately \$0.2 million and \$0.7 million, respectively), increased international management expenses (approximately \$0.4 million and \$1.1 million, respectively) and the writeoff of the Sigma trade name of \$0.4 million in the second quarter of 2006.

***Utility Support Structures segment***

In the Utility Support Structures segment, the sales increases for the thirteen and thirty-nine weeks ended September 30, 2006 as compared with the same periods of 2005 were due to improved demand for

steel and concrete electrical transmission, substation and distribution pole structures. Throughout 2005 and into 2006, our order rates for structures from utility companies and independent power producers were relatively strong, as increased emphasis on improving the electrical transmission and distribution infrastructure in the U.S. has resulted in increased demand for structures for those applications. We also believe that incentives in energy legislation enacted in 2005 have encouraged utility companies to invest in their transmission and distribution systems. The hurricanes that struck the Gulf Coast and Texas during the third quarter of 2005 resulted in shipping delays of our structures, as construction crews that normally install new structures were redeployed to restore electrical power to those affected by the hurricanes. We believe that these delays experienced in the third quarter of 2005 were a significant factor contributing to the sales increases experienced in 2006.

Gross profit increased at a slightly lower rate than sales in the third quarter of 2006, as compared with 2005, due to an unfavorable sales mix on some large sales orders that were at lower gross profit margins than normal. Gross profit margins in the third quarter were also affected by a larger share of our sales being in steel structures, which carry slightly lower gross profit margins than concrete structures. On a year-to-date basis, gross profit margins in 2006 were similar to 2005. The improved operating income for this segment as compared with 2006 on both a quarterly and year-to-date basis relate to the improved sales levels and the resulting operating leverage of our SG&A cost structure. The increases in SG&A spending for the thirteen and thirty-nine weeks ended September 30, 2006 as compared with the same periods in 2005 were related primarily to increased compensation and incentive costs related to higher business activity levels (approximately \$0.6 million and \$1.8 million, respectively) .

#### *Coatings segment*

The increases in coatings segment sales for the thirteen and thirty-nine week periods ended September 30, 2006 were mainly due to higher sales prices associated with higher zinc costs and increased demand for galvanizing services. In our galvanizing operations, third quarter and year-to-date sales volume increased approximately 5% and 8% over 2005 volumes, mainly due to generally stronger industrial economic conditions in our market areas and improved sales volumes to our other segments. In the third quarter of 2006, zinc prices, while at high levels, were somewhat more stable than in the first quarter, which helped us more successfully recover the increased cost of zinc in our sales prices than earlier in the year.

The increases in operating income for the thirteen and thirty-nine weeks ended September 30, 2006 as compared with the same periods in 2005 were principally due to higher production levels and improved production efficiencies related to our zinc utilization. Third quarter 2006 gross profit and operating income were also boosted by a \$1.1 million gain associated with the sale of one of our production facilities. This facility represented excess capacity for us and this sale should not affect our ability to serve our markets. The increases in SG&A spending in the third quarter and year-to-date periods ended September 30, 2006, as compared with the periods in 2005 were primarily related to higher employee incentives associated with improved operating income.

#### *Irrigation segment*

For the thirteen and thirty-nine weeks ended September 30, 2006, the sales increases realized in the Irrigation segment, as compared with the same periods in 2005, were mainly due to higher sales volumes, although sales prices have also been increased to recover increased material costs. In North America, improving farm commodity prices and relatively dry growing conditions contributed to improved demand for irrigation machines in 2006, as compared with 2005, on both a quarterly and year-to-date basis. The increase in year-to-date sales of irrigation machines and service parts in 2006 also resulted from an increase of equipment damaged in winter storms, as compared with 2005. International sales in the third quarter and year-to-date periods of 2006 increased approximately 30% and 36%, respectively, over 2005,

mainly due to sales in newly-developed international markets and generally improved market conditions in most of our core markets over 2005, offset to an extent by continued weak market demand in Brazil.

Operating income for the thirteen and thirty-nine weeks ended September 30, 2006 increased over the same periods in 2005 as a result of improved sales volumes and effective control in SG&A spending. The increases in SG&A spending for the thirteen and thirty-nine weeks ended September 30, 2006, as compared with the same periods in 2005 were mainly attributable to increased employee incentives associated with improved operational performance (\$0.5 million and \$1.6 million, respectively) and increased bad debts provisions of \$1.4 million for the thirty-nine weeks ended September 30, 2006. The increase in bad debts provision included a \$0.8 million reversal of an international accounts receivable provision that was realized in the second quarter of 2005.

#### ***Tubing segment***

The increases in Tubing sales for the third quarter and the year-to-date periods ended September 30, 2006 as compared with the same periods in 2005 were due to improved demand for tubing products. Despite higher sales volumes, operating income was negatively impacted in 2006 by recent steel price increases that have not yet been recovered in the marketplace through higher selling prices and a competitive pricing environment for certain commodity-type tubing products.

#### ***Other***

This segment includes our industrial fastener business, our machine tool accessories operation in France and the development costs associated with our wind energy structure initiative. The main reason for the improvement in operating income this year was some improvement in the profitability of our machine tool accessory business.

#### ***Net corporate expense***

The increases in net corporate expenses for the thirteen and thirty-nine weeks ended September 30, 2006, as compared with the same periods in 2005, were mainly related to increased employee incentives due to improved earnings this year (approximately \$0.7 million and \$4.4 million, respectively) and approximately \$0.4 million of expense incurred in the first quarter of 2006 related to the termination of our synthetic lease on the corporate headquarters building and release of the related residual value guarantee.

### **Liquidity and Capital Resources**

#### ***Cash Flows***

**Working Capital and Operating Cash Flows** *Net* working capital was \$274.5 million at September 30, 2006, as compared with \$229.2 million at December 31, 2005. The ratio of current assets to current liabilities was 2.33:1 at September 30, 2006, as compared with 2.28:1 as of December 31, 2005. Operating cash flow was \$29.0 million for the thirty-nine week period ended September 30, 2006, as compared with \$90.9 million for the same period in 2005. The main reason for the lower operating cash flows of 2006, as compared with 2005, was increased working capital levels resulting from higher sales volumes this year. In 2005, we reduced our inventories from historically high levels in 2004, which contributed significantly to the higher operating cash flow in 2005.

**Investing Cash Flows** *Capital* spending during the thirty-nine weeks ended September 30, 2006 was \$18.8 million, as compared with \$30.0 million for the same period in 2005. Our capital spending for the 2006 fiscal year is expected to be between \$25 million and \$30 million. In addition, we are planning to complete our purchases of an additional 20% of our Brazilian joint venture that is part of the Irrigation segment and the remaining 51% of our nonconsolidated subsidiary in Mexico by the end of the 2006 fiscal year. We estimate that these investments, in the aggregate, will require \$10 to \$15 million in cash.

*Financing Cash Flows* Our total interest-bearing debt decreased from \$237.3 million as of December 31, 2005 to \$232.8 million as of September 30, 2006. The decrease in borrowings was related to normal scheduled debt repayments. In addition, the large volume of stock option exercises in 2006 resulted in excess tax benefits of \$16.1 million, which was the income tax effect of tax deductions on these stock option exercises realized in excess of expense recorded for financial reporting purposes.

#### ***Sources of Financing and Capital***

We have historically funded our growth, capital spending and acquisitions through a combination of operating cash flows and debt financing. We have an internal long-term objective to maintain long-term debt as a percent of capital at or below 40%. At September 30, 2006, our long-term debt to invested capital ratio was 32.4%, as compared with 36.2% at December 31, 2005. Our internal objective of 40% is exceeded from time to time in order to take advantage of opportunities to grow and improve our businesses, such as the Newmark, Whatley and Sigma acquisitions that were completed in 2004. Subject to our level of acquisition activity and steel and zinc industry operating conditions (which could affect the levels of inventory we need to fulfill customer commitments), we plan to maintain this ratio below 40% in 2006.

Our debt financing at September 30, 2006 consisted primarily of long-term debt. We also maintain certain short-term bank lines of credit totaling \$20.1 million, \$18.0 million which was unused at September 30, 2006. Our long-term debt principally consists of:

- \$150 million of senior subordinated notes that bear interest at 6.875% per annum and are due in May 2014. We may repurchase the notes starting in May 2009 at specified prepayment premiums. These notes are guaranteed by certain of our U.S. subsidiaries.
- \$150 million revolving credit agreement that accrues interest at our option at (a) the higher of the prime lending rate and the Federal Funds rate plus 50 basis points or (b) an interest rate spread over the LIBOR of 62.5 to 137.5 basis points (inclusive of facility fees), depending on our ratio of debt to earnings before taxes, interest, depreciation and amortization (EBITDA). In addition, this agreement provides that another \$50 million may be added to the total credit agreement at our request at any time prior to May 31, 2007, subject to the group of banks increasing their current commitment. At September 30, 2006, we had no outstanding balance under the revolving credit agreement. The revolving credit agreement has a termination date of May 4, 2009 and contains certain financial covenants that limit our additional borrowing capability under the agreement. At September 30, 2006, we had the ability to borrow an additional \$145 million under this facility.
- Term loan with a group of banks that accrues interest at our option at (a) the higher of the prime lending rate and the Federal Funds rate plus 50 basis points or (b) LIBOR plus a spread of 62.5 to 137.5 basis points, depending on our debt to EBITDA ratio, and had an outstanding balance of \$50.7 million at September 30, 2006. This loan requires quarterly principal payments through 2009. The annualized principal payments beginning in 2006 in millions are: \$3.0, \$10.4, \$19.4, and \$17.9. The effective interest rate on this loan was 6.125% per annum at September 30, 2006.

Under these debt agreements, we are obligated by covenants that require us to maintain certain coverage ratios and may limit us with respect to certain business activities. At September 30, 2006 we were in compliance with all covenants related to these debt agreements.

#### ***Recently Issued Accounting Pronouncements***

On July 13, 2006, the FASB issued Interpretation 48 ( FIN 48 ), *Accounting for Uncertainty in Income Taxes - an Interpretation of FASB Statement No 109*. FIN 48 provides a consistent recognition threshold and measurement attribute, as well as clear criteria for subsequently recognizing, derecognizing and measuring uncertain tax positions for financial statement purposes. FIN 48 also requires expanded disclosure with

respect to the uncertain income taxes positions. FIN 48 will be effective at the beginning of our 2007 fiscal year. We are currently assessing the effect of this pronouncement on the consolidated financial statements.

In September 2006, the FASB issued Statement 157 ( SFAS 157 ), *Fair Value Measurements*. This Statement establishes a framework for measuring fair value in generally accepted accounting principles and expands disclosures about fair value measurements. While SFAS 157 does not require any new fair value measurements, it may change the application of fair value measurements embodied in other accounting standards. SFAS 157 will be effective at the beginning of our 2008 fiscal year. We are currently assessing the effect of this pronouncement on the consolidated financial statements.

#### **Financial Obligations and Financial Commitments**

There have been no material changes to our financial obligations and financial commitments as described on page 34 in our Form 10-K for the year ended December 31, 2005.

#### **Off Balance Sheet Arrangements**

On March 1, 2006, our corporate headquarters building complex was sold to a third party. As a result of the sale, our residual value guarantee to the former owner of the building complex was terminated. There have been no other material changes in our off balance sheet arrangements as described on pages 35-36 in our Form 10-K for the fiscal year ended December 31, 2005.

#### **Critical Accounting Policies**

There have been no changes in the Company's critical accounting policies during the quarter ended September 30, 2006 other than our adoption of SFAS 123(R) related to the accounting for stock options. These policies are described on pages 37-40 in our Form 10-K for fiscal year ended December 31, 2005.

#### **Item 3. Quantitative and Qualitative Disclosure about Market Risk**

There were no material changes in the company's market risk during the quarter ended April 1, 2006. For additional information, refer to the section "Risk Management" on pages 36-37 in our Form 10-K for the fiscal year ended December 31, 2005.

#### **Item 4. Controls and Procedures**

The Company carried out an evaluation under the supervision and with the participation of the Company's management, including the Company's Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of the Company's disclosure controls and procedures pursuant to Securities Exchange Act Rule 13a-15. Based upon that evaluation, the Chief Executive Officer and Chief Financial Officer concluded that, as of the end of the period covered by this report, the Company's disclosure controls and procedures are effective to provide reasonable assurance that information required to be disclosed by the Company in the reports the Company files or submits under the Securities Exchange Act of 1934 is (1) accumulated and communicated to management, including the Company's Chief Executive Officer and Chief Financial Officer, to allow timely decisions regarding required disclosures and (2) recorded, processed, summarized and reported, within the time periods specified in the Commission's rules and forms. There have been no changes in the Company's internal controls over financial reporting during the quarter covered by this report that have materially affected, or are reasonably likely to materially affect, such internal controls.

**PART II. OTHER INFORMATION****Item 2. Unregistered Sales of Equity Securities and Use of Proceeds****Issuer Purchases of Equity Securities**

	(a)	(b)	(c)	(d)
Period	Total Number of Shares Purchased	Average Price paid per share	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs	Maximum Number of Shares that May Yet Be Purchased Under the Plans or Programs
July 2, 2006 to July 29, 2006	1,849	\$ 48.40		
July 30, 2006 to September 2, 2006	23,400	\$ 50.59		
September 3, 2006 to September 30, 2006				
Total	25,249	\$ 50.43	0	0

During the third quarter, the only shares reflected above were those delivered to the Company by employees as part of stock option exercises, either to cover the purchase price of the option or the related taxes payable by the employee as part of the option exercise. The price paid per share was the market price at the date of exercise.

**Item 5. Other Information**

On July 24, 2006, the Company's Board of Directors declared a quarterly cash dividend on common stock of 9.5 cents per share, which was paid on October 16, 2006, to stockholders of record September 29, 2006. The indicated annual dividend rate is 38 cents per share.

**Item 6. Exhibits**

## (a) Exhibits

Exhibit No.	Description
31.1	Section 302 Certificate of Chief Executive Officer
31.2	Section 302 Certificate of Chief Financial Officer
32.1	Section 906 Certifications of Chief Executive Officer and Chief Financial Officer

**SIGNATURES**

Pursuant to the requirements of the Securities Exchange Act of 1934, the Registrant has duly caused this report to be signed on its behalf and by the undersigned hereunto duly authorized.
