Registrant s telephone number, including area code: (617) 482-8260

Date of fiscal year April 30

end:

Date of reporting period: October 31, 2006

Item 1. Reports to Stockholders

Semiannual Report October 31, 2006

EATON VANCE LIMITED DURATION INCOME FUND

#### IMPORTANT NOTICES REGARDING PRIVACY, DELIVERY OF SHAREHOLDER DOCUMENTS, PORTFOLIO HOLDINGS AND PROXY VOTING

**Privacy.** The Eaton Vance organization is committed to ensuring your financial privacy. Each of the financial institutions identified below has in effect the following policy ("Privacy Policy") with respect to nonpublic personal information about its customers:

Only such information received from you, through application forms or otherwise, and information about your Eaton Vance fund transactions will be collected. This may include information such as name, address, social security number, tax status, account balances and transactions.

None of such information about you (or former customers) will be disclosed to anyone, except as permitted by law (which includes disclosure to employees necessary to service your account). In the normal course of servicing a customer's account, Eaton Vance may share information with unaffiliated third parties that perform various required services such as transfer agents, custodians and broker/dealers.

Policies and procedures (including physical, electronic and procedural safeguards) are in place that are designed to protect the confidentiality of such information.

We reserve the right to change our Privacy Policy at any time upon proper notification to you. Customers may want to review our Policy periodically for changes by accessing the link on our homepage: www.eatonvance.com.

Our pledge of privacy applies to the following entities within the Eaton Vance organization: the Eaton Vance Family of Funds, Eaton Vance Management, Eaton Vance Investment Counsel, Boston Management and Research, and Eaton Vance Distributors, Inc.

In addition, our Privacy Policy only applies to those Eaton Vance customers who are individuals and who have a direct relationship with us. If a customer's account (i.e., fund shares) is held in the name of a third-party financial adviser/ broker dealer, it is likely that only such adviser's privacy policies apply to the customer. This notice supersedes all previously issued privacy disclosures.

For more information about Eaton Vance's Privacy Policy, please call 1-800-262-1122.

**Delivery of Shareholder Documents.** The Securities and Exchange Commission (the "SEC") permits funds to deliver only one copy of shareholder documents, including prospectuses, proxy statements and shareholder reports, to fund investors with multiple accounts at the same residential or post office box address. This practice is often called "householding" and it helps eliminate duplicate mailings to shareholders.

Eaton Vance, or your financial adviser, may household the mailing of your documents indefinitely unless you instruct Eaton Vance, or your financial adviser, otherwise.

If you would prefer that your Eaton Vance documents not be householded, please contact Eaton Vance at 1-800-262-1122, or contact your financial adviser.

Your instructions that householding not apply to delivery of your Eaton Vance documents will be effective within 30 days of receipt by Eaton Vance or your financial adviser.

**Portfolio Holdings.** Each Eaton Vance Fund and its underlying Portfolio (if applicable) will file a schedule of its portfolio holdings on Form N-Q with the SEC for the first and third quarters of each fiscal year. The Form N-Q will be available on the Eaton Vance website www.eatonvance.com, by calling Eaton Vance at 1-800-262-1122 or in the EDGAR database on the SEC's website at www.sec.gov. Form N-Q may also be reviewed and copied at the SEC's public reference room in Washington, D.C. (call 1-800-732-0330 for information on the operation of the public reference room).

**Proxy Voting.** From time to time, funds are required to vote proxies related to the securities held by the funds. The Eaton Vance Funds or their underlying Portfolios (if applicable) vote proxies according to a set of policies and procedures approved by the Funds' and Portfolios' Boards. You may obtain a description of these policies and procedures and information on how the Funds or Portfolios voted proxies relating to portfolio securities during the most recent 12 month period ended June 30, without charge, upon request, by calling 1-800-262-1122. This description is also available on the SEC's website at www.sec.gov.

Eaton Vance Limited Duration Income Fund as of October 31, 2006

interest rates are typically set stabilized.

INVESTMENT UPDATE
The Fund
Performance for the Past Six Months
Based on share price, Eaton Vance Limited Duration Income Fund (the Fund ) a closed-end fund traded on the American Stock Exchange (AMEX) had a total return of 11.19% for the six months ended October 31, 2006.(1) That return was the result of an increase in share price to \$18.21 on October 31, 2006, from \$17.09 on April 30, 2006, and the reinvestment of \$0.757 in dividends.
Based on net asset value (NAV), the Fund had a total return of 4.01% for the six months ended October 31, 2006.(1) That return was the result of a decrease in NAV per share to \$18.15 on October 31, 2006, from\$18.21 on April 30, 2006, and the reinvestment of \$0.757 in dividends.
Based on its October 31, 2006, monthly dividend of \$0.1261 and a closing share price of \$18.21 on that date, the Fund had a market yield of 8.31%.(2)
Recent Fund Developments
The Fund s managers continued to diversify the Fund s bond and floating-rate loan investments across a wide range of industry sectors. In an uncertain economic environment, the Fund maintained investments in cyclical industries that would respond to an economic uptick, as well as non-economically sensitive companies with a more stable revenue and earnings outlook.
During the first half of the period, the segment of the Fund investing in floating-rate loans benefited from rising

short-term interest rates. While loan prices declined slightly during the period, the loan market enjoyed generally stable fundamentals, including a low default rate. Record new issuance from strong merger and acquisition activity met with robust investor demand. As a result, the supply/demand balance was closer to equilibrium than it had been in recent years and credit spreads over the London Inter-Bank Offered Rate (LIBOR) the benchmark over which loan

During the period, the high-yield market was characterized by narrow spreads, record issuance and strong demand from investors searching for yield. Fund management positioned bond investments defensively through an emphasis on short duration and senior high-yield paper. Automotive company credit bonds were among the Fund s leading performers, as they responded well to the prospect of company reorganizations. Health care, telecommunications and energy bonds were also strong contributors. Health care companies were helped by cost containments and improving margins, while telecommunications providers enjoyed strong free cash flow and energy companies benefited from surging oil prices.

Within the mortgage-backed securities (MBS) segment of the Fund, prepayment rates for MBS continued to edge lower during the period. Spreads on seasoned MBS, the Portfolio s current focus when investing in MBS, remained at historically tight levels. The MBS market continued to be well-supported by strong demand from foreign buyers.

At October 31, 2006, the Fund had leverage in the amount of approximately 35.7% of the Fund s total assets. The Fund is leveraged through the issuance of Auction Preferred Shares and its securities lending program. Use of financial leverage creates an opportunity for increased income, but, at the same time, creates special risks (including the likelihood of greater volatility of net asset value and market price of common shares).

The views expressed throughout this report are those of the portfolio managers and are current only through the end of the period of the report as stated on the cover. These views are subject to change at any time based upon market or other conditions, and the investment adviser disclaims any responsibility to update such views. These views may not be relied on as investment advice and, because investment decisions for a fund are based on many factors, may not be relied on as an indication of trading intent on behalf of any Eaton Vance fund.

Shares of the Fund are not insured by the FDIC and are not deposits or other obligations of, or guaranteed by, any depository institution. Shares are subject to investment risks, including possible loss of principal invested. Yield will vary.

<sup>(1)</sup> Performance results reflect the effect of leverage resulting from the Fund s issuance of Auction Preferred Shares and its securities lending program. In the event of a rise in long-term interest rates, the value of the Fund s investment portfolio could decline, which would reduce the asset coverage for its Auction Preferred Shares.

<sup>(2)</sup> The Fund s market yield is calculated by dividing the most recent dividend per share by the share market price at the end of the period and annualizing the result.

Past performance is no guarantee of future results. Returns are historical and are calculated by determining the percentage change in net asset value or share price (as applicable) with all distributions reinvested. Investment return and principal value will fluctuate so that shares, when sold, may be worth more or less than their original cost. Performance is for the stated time period only; due to market volatility, the Fund s current performance may be lower or higher than the quoted return. For performance as of the most recent month end, please refer to www.eatonvance.com.

Eaton Vance Limited Duration Income Fund as of October 31, 2006

REIT - Real Estate Investment Trust

- (1) Senior floating-rate interests often require prepayments from excess cash flows or permit the borrower to repay at its election. The degree to which borrowers repay, whether as a contractual requirement or at their election, cannot be predicted with accuracy. As a result, the actual remaining maturity may be substantially less than the stated maturities shown. However, it is anticipated that the senior floating-rate interests will have an expected average life of approximately two to three years. The stated interest rate represents the weighted average interest rate of all contracts within the senior loan facility. Senior Loans typically have rates of interest which are redetermined either daily, monthly, quarterly or semi-annually by reference to a base lending rate, plus a premium. These base lending rates are primarily the London-Interbank Offered Rate ("LIBOR"), and secondarily the prime rate offered by one or more major United States banks (the "Prime Rate") and the certificate of deposit ("CD") rate or other base lending rates used by commercial lenders.
- (2) Defaulted security. Currently the issuer is in default with respect to interest payments.
- (3) Unfunded loan commitments. See Note 1E for description.
- (4) Security valued at fair value using methods determined in good faith by or at the direction of the Trustees.
- (5) Adjustable rate mortgage.
- (6) All or a portion of these securities were on loan at October 31, 2006.
- (7) Security exempt from registration under Rule 144A of the Securities Act of 1933. These securities may be sold in transactions exempt from registration, normally to qualified institutional buyers. At October 31, 2006, the aggregate value of the securities is \$265,516,425 or 13.1% of the Fund's net assets.
- (8) Non-income producing security.

Approximate market value per preferred share <sup>(10)</sup>	\$	25,000	\$	25,000	\$	25,000	\$	25,000

<sup>(1)</sup> Computed using average common shares outstanding.

<sup>(2)</sup> For the period from the start of business, May 30, 2003, to April 30, 2004.

<sup>(3)</sup> Net asset value at beginning of period reflects the deduction of the sales load of \$0.900 per share paid by the shareholder from the \$20.000 offering price.

<sup>(4)</sup> For Federal Income tax purposes, net investment income per share was \$0.948, \$1.807, \$1.699 and \$1.531, respectively, and net realized and unrealized loss per share was \$0.074, \$0.247, \$0.580 and \$0.044, respectively. Computed using average common shares outstanding.

<sup>(5)</sup> Returns are historical and are calculated by determining the percentage change in net asset value or market value with all distributions reinvested. Total return is not computed on an annualized basis.

<sup>(6)</sup> Total investment return on net asset value is calculated assuming a purchase at the offering price of \$20.000 less the sales load of \$0.900 per share paid by the shareholder on the first day and a sale at the net asset value on the last day of the period reported. Total investment return on market value is calculated assuming a purchase at the offering price of \$20.000 less the sales load of \$0.900 per share paid by the shareholder on the first day and a sale at the current market price on the last day of the period reported. Total investment return on net asset value and total investment return on market value are not computed on an annualized basis.

<sup>(7)</sup> Ratios do not reflect the effect of dividend payments to preferred shareholders.

- (8) Annualized.
- (9) Calculated by subtracting the Fund's total liabilities (not including the preferred shares) from the Fund's total assets, and dividing this by the number of preferred shares outstanding.
- (10) Plus accumulated and unpaid dividends.

## Eaton Vance Limited Duration Income Fund as of October 31, 2006

#### NOTES TO FINANCIAL STATEMENTS (Unaudited)

#### 1 Significant Accounting Policies

Eaton Vance Limited Duration Income Fund (the Fund) is registered under the Investment Company Act of 1940 (the 1940 Act), as amended, as a closed-end management investment company. The Fund was organized as a Massachusetts business trust on March 12, 2003. The Fund's investment objective is to provide a high level of current income. The Fund may, as a secondary objective, also seek capital appreciation to the extent consistent with its primary goal of high current income. The Fund pursues its objectives by investing primarily in mortgage-backed securities (MBS) issued, backed or otherwise guaranteed by the U.S. government or its agencies or instrumentalities; senior, secured floating rate loans made to corporate and other business entities (Senior Loans); and corporate bonds of below investment grade quality (Non-Investment Grade Bonds). The following is a summary of significant accounting policies of the Fund. The policies are in conformity with accounting principles generally accepted in the United States of America.

A Investment Valuation Debt securities (including collateralized mortgage obligations and certain MBS) normally are valued by independent pricing services. The pricing services consider various factors relating to bonds or loans and/or market transactions to determine market value. Most seasoned 30-year fixed rate MBS are valued by the investment adviser's matrix pricing system. The matrix pricing system also considers various factors relating to bonds and market transactions to determine market value.

Certain Senior Loans are deemed to be liquid because reliable market quotations are readily available for them. Liquid Senior Loans are valued on the basis of prices furnished by a pricing service. Other Senior Loans are valued at fair value by the Fund's investment adviser, Eaton Vance Management (EVM), under procedures approved by the Trustees. In connection with determining the fair value of a Senior Loan, the investment adviser makes an assessment of the likelihood that the borrower will make a full repayment of the Senior Loan. The primary factors considered by the investment adviser when making this assessment are (i) the creditworthiness of the borrower, (ii) the value of the collateral backing the Senior Loan, and (iii) the priority of the Senior Loan versus other creditors of the borrower. If, based on its assessment, the investment adviser believes there is a reasonable likelihood that the borrower will make a full repayment of the Senior

Loan, the investment adviser will determine the fair value of the Senior Loan using a matrix pricing approach that considers the yield on the Senior Loan relative to yields on other loan interests issued by companies of comparable credit quality. If, based on its assessment, the investment adviser believes there is not a reasonable likelihood that the borrower will make a full repayment of the Senior Loan, the investment adviser will determine the fair value of the Senior Loan using analyses that include, but are not limited to (i) a comparison of the value of the borrower's outstanding equity and debt to that of comparable public companies; (ii) a discounted cash flow analysis; or (iii) when the investment adviser believes it is likely that a borrower will be liquidated or sold, an analysis of the terms of such liquidation or sale. In certain cases, the investment adviser will use a combination of analytical methods to determine fair value, such as when only a portion of a borrower's assets are likely to be sold. In conducting its assessment and analyses for purposes of determining fair value of a Senior Loan, the investment adviser will use its discretion and judgment in considering and appraising such factors, data and information and the relative weight to be given thereto as it deems relevant, including without limitation, some or all of the following: (i) the fundamental characteristics of and fundamental analytical data relating to the Senior Loan, including the cost, size, current interest rate, maturity and base lending rate of the Senior Loan, the terms and conditions of the Senior Loan and any related agreements, and the position of the Senior Loan in the borrower's debt structure; (ii) the nature, adequacy and value of the collateral securing the Senior Loan, including the Fund's rights, remedies and interests with respect to the collateral; (iii) the creditworthiness of the borrower, based on an evaluation of, among other things, its financial condition, financial statements and information about the borrower's business, cash flows, capital structure and future prospects; (iv) information relating to the market for the Senior Loan, including price quotations for and trading in the Senior Loan-and interests in similar Senior Loans and the market environment, and investor attitudes towards the Senior Loan and interests in similar Senior Loans; (v) the experience, reputation, stability and financial condition of the agent and any intermediate participants in the Senior Loan; and (vi) general economic and market conditions affecting the fair value of the Senior Loan. Fair value determinations are made by the portfolio managers of a Fund based on information available to such managers. The portfolio managers of other funds managed by Eaton Vance that invest in Senior Loans may not possess the same information about a Senior Loan borrower as the portfolio manager of Limited

## Eaton Vance Limited Duration Income Fund as of October 31, 2006

#### NOTES TO FINANCIAL STATEMENTS (Unaudited) CONT'D

Duration Income Fund. At times, the fair value of a Senior Loan determined by the portfolio managers of other funds managed by Eaton Vance that invest in Senior Loans may vary from the fair value of the same Senior Loan determined by the portfolio managers of Limited Duration Income Fund. The fair value of each Senior Loan is periodically reviewed and approved by the investment adviser's Valuation Committee and by the Trustees based upon procedures approved by the Trustees. Junior Loans are valued in the same manner as Senior Loans.

Other portfolio securities (other than short-term obligations, but including listed issues) may be valued on the basis of prices furnished by one or more pricing services which determine prices for normal, institutional-size trading units of such securities which may use market information, transactions for comparable securities and various relationships between securities which are generally recognized by institutional traders. The value of interest rate swaps will be based on dealer quotations. Short-term obligations which mature in 60 days or less are valued at amortized cost, which approximates value. If short-term debt securities were acquired with a remaining maturity of more than 60 days, they will be valued by a pricing service. Over-the-counter options are valued at the mean between the bid and asked price provided by dealers. Financial futures contracts and options thereon listed on commodity exchanges are valued at closing settlement prices. Repurchase agreements are valued at cost plus accrued interest. Investments for which reliable market quotations are unavailable, and investments for which the price of the security is not believed to represent its fair market value, are valued at fair value using methods determined in good faith by or, at the direction of the Trustees.

B Income Interest income is recorded on the basis of interest accrued, adjusted for amortization of premium or accretion of discount. Fees associated with loan amendments are recognized immediately. Dividend income is recorded on the ex-dividend date for dividends received in cash and/or securities.

C Federal Taxes The Fund's policy is to comply with the provisions of the Internal Revenue Code applicable to regulated investment companies and to distribute to shareholders, each year, substantially all of its net investment income and all or substantially all of its net realized capital gains. Accordingly, no provision for federal income or excise tax is necessary. At April 30, 2006, the Fund, for federal income tax purposes, had a capital loss carryover of \$96,210,018 which will reduce the Fund's taxable income arising from future net realized gains on investments, if any, to the extent permitted by the Internal Revenue Code, and thus will reduce the amount of the distributions to shareholders which would otherwise be necessary to relieve the Fund of any liability for federal income or excise tax. Such capital loss carryover will expire on April 30, 2012 (\$26,481,368), April 30, 2013 (\$40,885,552) and April 30, 2014 (\$28,843,098).

At April 30, 2006, net capital losses of \$9,204,069 attributable to security transactions incurred after October 31, 2005, are treated as arising on the first day of the Fund's taxable year ending April 30, 2007.

D Investment Transactions Securities purchased or sold on a when-issued or delayed delivery basis may be settled a month or more after the transaction date. The securities so purchased are subject to market fluctuations during this period. To the extent that when-issued or delayed delivery purchases are outstanding, the Fund instructs the custodian to segregate assets in a separate account, with a current value at least equal to the amount of its purchase commitments.

E Unfunded Loan Commitments The Fund may enter into certain credit agreements all or a portion of which may be unfunded. The Fund is obligated to fund these commitments at the borrower's discretion. These commitments are disclosed in the accompanying Portfolio of Investments.

F Offering Costs Costs incurred by the Fund in connection with the offering of the common shares were recorded as a reduction of capital paid in excess of par applicable to common shares.

G Expense Reduction Investors Bank & Trust Company (IBT) serves as custodian of the Fund. Pursuant to the custodian agreement, IBT receives a fee reduced by credits which are determined based on the average daily cash balance the Fund maintains with IBT. All credit balances used to reduce the Fund's custodian fees are reported as a reduction of expenses in the Statements of Operations.

H Foreign Currency Translation Investment valuations, other assets, and liabilities initially expressed in foreign currencies are converted each business day into U.S. dollars based upon current exchange rates. Purchases

## Eaton Vance Limited Duration Income Fund as of October 31, 2006

#### NOTES TO FINANCIAL STATEMENTS (Unaudited) CONT'D

and sales of foreign investment securities and income and expenses are converted into U.S. dollars based upon currency exchange rates prevailing on the respective dates of such transactions. Recognized gains or losses on investment transactions attributable to changes in foreign currency exchange rates are recorded for financial statement purposes as net realized gains and losses on investments. That portion of unrealized gains and losses on investments that results from fluctuations in foreign currency exchange rates is not separately disclosed.

I Written Options Upon the writing of a call or a put option, an amount equal to the premium received by the Fund is included in the Statement of Assets and Liabilities as a liability. The amount of the liability is subsequently marked-to-market to reflect the current value of the option written in accordance with the Fund's policies on investment valuations discussed above. Premiums received from writing options which expire are treated as realized gains. Premiums received from writing options which are exercised or are closed are added to or offset against the proceeds or amount paid on the transaction to determine the realized gain or loss. If a put option is exercised, the premium reduces the cost basis of the securities purchased by the Fund. The Fund, as writer of an option, may have no control over whether the underlying securities may be sold (call) or purchased (put) and, as a result, bears the market risk of an unfavorable change in the price of the securities underlying the written option.

J Purchased Options Upon the purchase of a call or put option, the premium paid by the Fund is included in the Statement of Assets and Liabilities as an investment. The amount of the investment is subsequently marked-to-market to reflect the current market value of the option purchased, in accordance with the Fund's policies on investment valuations discussed above. If an option which the Fund has purchased expires on the stipulated expiration date, the Fund will realize a loss in the amount of the cost of the option. If the Fund enters into a closing sale transaction, the Fund will realize a gain or loss, depending on whether the sales proceeds from the closing sale transaction are greater or less than the cost of the option. If a Fund exercises a put option, it will realize a gain or loss from the sale of the underlying security, and the proceeds from such sale will be decreased by the premium originally paid. If the Fund exercises a call option, the cost of the security which the Fund purchases upon exercise will be increased by the premium originally paid.

K Forward Foreign Currency Exchange Contracts The Fund may enter into forward foreign currency exchange contracts for the purchase or sale of a specific foreign currency at a fixed price on a future date. Risks may arise upon entering these contracts from the potential inability of counterparties to meet the terms of their contracts and from movements in the value of a foreign currency relative to the U.S. dollar. The Fund will enter into forward contacts for hedging purposes as well as non-hedging purposes. The forward foreign currency exchange contracts are adjusted by the daily exchange rate of the underlying currency and any gains or losses are recorded for financial statement purposes as unrealized until such time as the contracts have been closed.

L Financial Futures Contracts Upon entering into a financial futures contract, the Fund is required to deposit an amount (initial margin) either in cash or securities equal to a certain percentage of the purchase price indicated in the financial futures contract. Subsequent payments are made or received by the Fund (margin maintenance) each day, dependent on the daily fluctuations in the value of the underlying securities, and are recorded for book purposes as unrealized gains or losses by the Fund.

If the Fund enters into a closing transaction, the Fund will realize, for book purposes, a gain or loss equal to the difference between the value of the financial futures contract to sell and the financial futures contract to buy. The Fund's investment in financial futures contracts is designed only to hedge against anticipated future changes in interest rates. Should interest rates move unexpectedly, the Fund may not achieve the anticipated benefits of the financial futures contracts and may realize a loss.

M Reverse Repurchase Agreements The Fund may enter into reverse repurchase agreements. Under such an agreement, the Fund temporarily transfers possession, but not ownership, of a security to a counterparty, in return for cash. At the same time, the Fund agrees to repurchase the security at an agreed-upon price and time in the future. The Fund may enter into reverse repurchase agreements for temporary purposes, such as to fund withdrawals, or for use as hedging instruments where the underlying security is denominated in a foreign currency. As a form of leverage, reverse repurchase agreements may increase the risk of fluctuation in the market value of the Fund's assets or in its yield. Liabilities to counterparties under reverse repurchase agreements are recognized in the

## Eaton Vance Limited Duration Income Fund as of October 31, 2006

#### NOTES TO FINANCIAL STATEMENTS (Unaudited) CONT'D

Statement of Assets and Liabilities at the same time at which cash is received by the Fund. The securities underlying such agreements continue to be treated as owned by the Fund and remain in the Portfolio of Investments. Interest charged on amounts borrowed by the Fund under reverse repurchase agreements is accrued daily.

N Total Return Swaps The Fund may enter into swap agreements, to hedge against fluctuations in securities prices or interest rates or as substitution for the purchase or sale of securities. In a total return swap, the Fund makes payments at a rate equal to a predetermined spread to the one or three-month LIBOR. In exchange, the Fund receives payments based on the rate of return of a benchmark industry index or basket of securities. During the term of the outstanding swap agreement, changes in the underlying value of the swap are recorded as unrealized gains and losses. Periodic payments received or made are recorded as realized gains or losses. The value of the swap is determined by changes in the relationship between the rate of interest and the benchmark industry index or basket of securities. The Fund is exposed to credit loss in the event of nonperformance by the swap counterparty. However, the Fund does not anticipate nonperformance by the counterparty. Risk may also arise from the unanticipated movements in value of interest rates, securities, or the index.

O Credit Default Swaps The Fund may enter into credit default swap contracts for risk management purposes, including diversification. When the Fund is the buyer of a credit default swap contract, the Fund is entitled to receive the par (or other agreed-upon) value of a referenced debt obligation from the counterparty to the contract in the event of a default by a third party, such as a U.S. or foreign corporate issuer, on the debt obligation. In return, the Fund would pay the counterparty a periodic stream of payments over the term of the contract provided that no event of default has occurred. If no default occurs, the Fund would have spent the stream of payments and received no benefit from the contract. When the Fund is the seller of a credit default swap contract, it receives the stream of payments, but is obligated to pay upon default of the referenced debt obligation. As the seller, the Fund would effectively add leverage to its portfolio because, in addition to its total net assets, the Fund would be subject to investment exposure on the notional amount of the swap. The Fund will segregate assets in the form of cash and cash equivalents in an amount equal to the aggregate market value of the credit default swaps of which it is the seller, marked to market on a daily basis. These transactions involve certain risks, including the risk that the seller may be unable to fulfill the transaction.

P Use of Estimates The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of income and expense during the reporting period. Actual results could differ from those estimates.

Q Indemnifications Under the Fund's organizational documents, its officers and Trustees may be indemnified against certain liabilities and expenses arising out of the performance of their duties to the Fund, and shareholders are indemnified against personal liability for the obligations of the Fund. Additionally, in the normal course of business, the Fund enters into agreements with service providers that may contain indemnification clauses. The Fund's maximum exposure under these arrangements is unknown as this would involve future claims that may be made against the Fund that have not yet occurred.

R Other Investment transactions are accounted for on the date the securities are purchased or sold. Realized gains and losses on securities sold are determined on the basis of identified cost

S Expenses The majority of expenses of the Trust are directly identifiable to an individual fund. Expenses which are not readily identifiable to a specific fund are allocated taking into consideration, among other things, the nature and type of expense and the relative size of the funds.

T Interim Financial Statements The interim financial statements relating to October 31, 2006 and for the six months then ended have not been audited by an independent registered public accounting firm, but in the opinion of the Fund's management reflect all adjustments, consisting only of normal recurring adjustments, necessary for the fair presentation of the financial statements.

## Eaton Vance Limited Duration Income Fund as of October 31, 2006

#### NOTES TO FINANCIAL STATEMENTS (Unaudited) CONT'D

#### 2 Auction Preferred Shares (APS)

The Fund issued 7,600 shares of Auction Preferred Shares Series A, 7,600 shares of Auction Preferred Shares Series B, 7,600 shares of Auction Preferred Shares Series C, 7,600 shares of Auction Preferred Shares Series D, and 7,600 shares of Auction Preferred Shares Series E on July 25, 2003 in a public offering. The underwriting discount and other offering costs were recorded as a reduction of the capital of the common shares. As of October 31, 2006, 6,400 shares of Series A, 6,400 shares of Series B, 6,400 shares of Series C, 6,400 shares of Series D and 6,400 shares of Series E were outstanding. Dividends on the APS, which accrue daily, are cumulative at a rate which was established at the offering of the APS and have been reset every 7 days thereafter by an auction. Dividend rates ranged from 4.00% to 5.12% for Series A shares, from 4.40% to 5.10% for Series B shares, from 4.40% to 5.15% for Series C shares, from 4.40% to 5.125% for Series D shares and from 4.45% to 5.10% for Series E shares, during the six months ended October 31, 2006.

The APS are redeemable at the option of the Fund, at a redemption price equal to \$25,000 per share, plus accumulated and unpaid dividends on any dividend payment date. The APS are also subject to mandatory redemption at a redemption price equal to \$25,000 per share, plus accumulated and unpaid dividends, if the Fund is in default for an extended period on its asset maintenance requirements with respect to the APS. If the dividends on the APS shall remain unpaid in an amount equal to two full years' dividends, the holders of the APS as a class have the right to elect a majority of the Board of Trustees. In general, the holders of the APS and the common shares have equal voting rights of one vote per share, except that the holders of the APS, as a separate class, have the right to elect at least two members of the Board of Trustees. The APS have a liquidation preference of \$25,000 per share, plus accumulated and unpaid dividends. The Fund is required to maintain certain asset coverage with respect to the APS as defined in the Fund's By-Laws and the 1940 Act. The Fund pays an annual fee equivalent to 0.25% of the preferred shares' liquidation value for the remarketing efforts associated with the preferred auctions.

#### 3 Distributions to Shareholders

The Fund intends to make monthly distributions of net investment income, after payment of any dividends on any outstanding APS. Distributions are recorded on the ex-dividend date. Distributions to preferred shareholders are recorded daily and are payable at the end of each dividend period. Each dividend payment period for the APS is generally seven days. The applicable dividend rate for the APS on October 31, 2006 was 5.10%, 4.92%, 5.00%, 5.00% and 5.00%, for Series A, Series B, Series C, Series D and Series E shares, respectively. For the six months ended October 31, 2006, the Fund paid dividends to Auction Preferred shareholders amounting to \$3,978,781, \$3,991,433, \$3,980,876, \$3,951,062, and \$3,939,757 for Series A, Series B, Series C, Series D and Series E shares, respectively, representing an average APS dividend rate for such period of 4.93%, 4.95%, 4.94%, 4.90% and 4.88%, respectively.

The Fund distinguishes between distributions on a tax basis and a financial reporting basis. Accounting principles generally accepted in the United States of America require that only distributions in excess of tax basis earnings and profits be reported in the financial statements as a return of capital. Permanent differences between book and tax accounting relating to distributions are reclassified to paid in capital. These differences relate primarily to the different treatment for paydown gain/losses on mortgage-backed securities and the method for amortizing premiums.

The tax character of the distributions declared for the six months ended October 31, 2006 and for the year ended April 30, 2006 was as follows:

Distributions declared from:	October 31, 2006	April 30, 2006
Ordinary Income	\$ 104,428,494	\$ 198,944,345

During the six months ended October 31, 2006, accumulated undistributed net investment loss was decreased by \$11,770,128, accumulated net realized loss was increased by \$11,559,879 and paid-in capital was decreased by \$210,249. This change had no effect on net assets or net asset value per share.

As of October 31, 2006, the components of distributable earnings (accumulated loss) on a tax basis were as follows:

Undistributed income	\$ 8,977,886
Unrealized gain	\$ 10,535,363
Capital loss carryforward	\$ (114,367,071)

## Eaton Vance Limited Duration Income Fund as of October 31, 2006

#### NOTES TO FINANCIAL STATEMENTS (Unaudited) CONT'D

#### 4 Investment Adviser Fee and Other Transactions with Affiliates

The investment adviser fee, computed at an annual rate of 0.75% of the Fund's weekly gross assets, was earned by Eaton Vance Management (EVM), as compensation for management and investment advisory services rendered to the Fund. For the six months ended October 31, 2006, the fee was equivalent to 0.75% (annualized) of the Fund's average weekly gross assets for such period and amounted to \$11,819,962.

In addition, EVM has contractually agreed to reimburse the Fund for fees and other expenses in the amount of 0.20% of average weekly gross assets of the Fund for the first five years of the Fund's operations, 0.15% of average weekly gross assets of the Fund in year 6, 0.10% in year 7 and 0.05% in year 8. For the six months ended October 31, 2006, the Investment Adviser waived \$3,151,990 of its advisory fee.

EVM serves as the administrator of the Fund, but currently receives no compensation for providing administrative services to the Fund.

Certain officers and Trustees of the Fund are officers of the above organization.

#### 5 Purchases and Sales of Investments

Purchases and sales of investments, other than short-term obligations and including paydowns, aggregated \$755,940,485 and \$713,808,080, respectively, for the six months ended October 31, 2006.

#### 6 Securities Lending Agreement

The Fund has established a securities lending agreement in which the Fund lends portfolio securities to a broker in exchange for collateral consisting of either cash or U.S. government securities in an amount at least equal to the market value of the securities on loan. Under the agreement, the Fund continues to earn interest on the securities loaned. Collateral received is generally cash, and the Fund invests the cash and receives any interest on the amount invested but it must also pay the broker a loan rebate fee computed as a varying percentage of the collateral received. The loan rebate fee paid by the Fund offsets a portion of the interest income received and amounted to \$8,320,300 for the six months ended October 31, 2006. At October 31, 2006, the value of the securities loaned and the value of the collateral amounted to \$317,999,540 and \$325,907,909, respectively. In the event of counterparty default, the Fund is subject to potential loss if it is delayed or prevented from exercising its right to dispose of the collateral. The Fund bears risk in the event that invested collateral is not sufficient to meet obligations due on the loans. The Fund has the right under the lending agreement to recover the securities from the borrower on demand.

#### 7 Common Shares of Beneficial Interest

The Agreement and Declaration of Trust permits the Trustees to issue an unlimited number of full and fractional \$0.01 par value common shares of beneficial interest. Transactions in common shares were as follows:

	Six Months Ended	
	October 31, 2006	Year Ended
	(Unaudited)	April 30, 2006
Issued to shareholders electing to		
receive payments of distributions		
in Fund shares	99,753	
Net increase	99,753	

## 8 Federal Income Tax Basis of Unrealized Appreciation (Depreciation)

The cost and unrealized appreciation (depreciation) in value of the investments owned at October 31, 2006, as determined on a federal income tax basis, were as follows:

Aggregate cost	\$ 3	3,112,513,343
Gross unrealized appreciation	\$	39,097,254

Gross unrealized depreciation	(28,276,580)
Net unrealized appreciation	\$ 10,820,674

The net unrealized depreciation on swap contracts, foreign currency transactions and forward foreign currency exchange contracts at October 31, 2006 was \$285,311.

## 9 Risks Associated with Foreign Investments

Investing in securities issued by companies whose principal business activities are outside the United States may involve significant risks not present in domestic investments. For example, there is generally less publicly available information about foreign companies, particularly those not subject to the disclosure and reporting requirements of the U.S. securities laws. Foreign issuers are generally not bound by uniform

## Eaton Vance Limited Duration Income Fund as of October 31, 2006

#### NOTES TO FINANCIAL STATEMENTS (Unaudited) CONT'D

accounting, auditing, and financial reporting requirements and standards of practice comparable to those applicable to domestic issuers. Investments in foreign securities also involve the risk of possible adverse changes in investment or exchange control regulations, expropriation or confiscatory taxation, limitation on the removal of funds or other assets of the Fund, political or financial instability or diplomatic and other developments which could affect such investments. Foreign stock markets, while growing in volume and sophistication, are generally not as developed as those in the United States, and securities of some foreign issuers (particularly those located in developing countries) may be less liquid and more volatile than securities of comparable U.S. companies. In general, there is less overall governmental supervision and regulation of foreign securities markets, broker-dealers and issuers than in the United States.

#### 10 Financial Instruments

The Fund may trade in financial instruments with off-balance sheet risk in the normal course of its investing activities to assist in managing exposure to various market risks. These financial instruments include written options, forward foreign currency exchange contracts, financial futures contracts, interest rate swaps and credit default swaps and may involve, to a varying degree, elements of risk in excess of the amounts recognized for financial statement purposes. The notional or contractual amounts of these instruments represent the investment the Fund has in particular classes of financial instruments and does not necessarily represent the amounts potentially subject to risk. The measurement of the risks associated with these instruments is meaningful only when all related and offsetting transactions are considered. A summary of obligations under these financial instruments at October 31, 2006 is as follows:

#### Forward Foreign Currency Exchange Contracts

#### Sales

		Net Unrealized
Deliver	In exchange for	Depreciation
Euro	United States Dollar	
15,116,562	19,208,885	\$ (114,238)
British Pound	United States Dollar	
15,308,848	28,931,350	(273,416)
		\$ (387,654)
	Euro 15,116,562 British Pound	Euro United States Dollar 15,116,562 19,208,885 British Pound United States Dollar

#### Credit Default Swaps

Notional	Expiration		Net	Unrealized
Amount	Date	Description	Ap	preciation
\$ 2,000,000	3/20/2010	Agreement with Lehman Brothers dated 5/18/2005 whereby the Fund will receive 2.4% per year,	\$	96,569
times the notional amount. The Fund makes a payment of the notional amount only upon a				
		default event on the reference entity, a Revolving Credit Agreement issued by Inergy, LP.		

At October 31, 2006, the Fund had sufficient cash and/or securities segregated to cover commitments under these contracts.

#### 11 Recently Issued Accounting Pronouncements

In June 2006, the Financial Accounting Standards Board ("FASB") issued FASB Interpretation No. 48, ("FIN 48") "Accounting for Uncertainty in Income Taxes an interpretation of FASB Statement No. 109". FIN 48 clarifies the accounting for uncertainty in income taxes recognized in accordance with FASB Statement No. 109, "Accounting for Income Taxes." This interpretation prescribes a recognition threshold and measurement attribute for the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. It also provides guidance on de-recognition, classification, interest and penalties, accounting in interim periods, disclosure and transition. FIN 48 is effective for fiscal years beginning after December 15, 2006. Management is currently evaluating the impact of applying the various provisions of FIN 48.

In September 2006, the Financial Accounting Standards Board ("FASB") issued Statement of Financial Accounting Standards No. 157, ("FAS 157") "Fair Value Measurements". FAS 157 defines fair value, establishes a framework for measuring fair value in accordance with generally accepted accounting principles and expands disclosure about fair value measurements. FAS 157 is effective for fiscal years beginning after November 15, 2007. Management is currently evaluating the impact the adoption of FAS 157 will have on the Fund's financial statement disclosures.

## Eaton Vance Limited Duration Income Fund

#### DIVIDEND REINVESTMENT PLAN

The Fund offers a dividend reinvestment plan (the Plan) pursuant to which shareholders may elect to have dividends and capital gains distributions reinvested in common shares (the Shares) of the Fund. You may elect to participate in the Plan by completing the Dividend Reinvestment Plan Application Form. If you do not participate, you will receive all distributions in cash paid by check mailed directly to you by PFPC Inc. as dividend paying agent. On the distribution payment date, if the net asset value per Share is equal to or less than the market price per Share plus estimated brokerage commissions then new Shares will be issued. The number of Shares shall be determined by the greater of the net asset value per Share or 95% of the market price. Otherwise, Shares generally will be purchased on the open market by the Plan Agent. Distributions subject to income tax (if any) are taxable whether or not shares are reinvested.

If your shares are in the name of a brokerage firm, bank, or other nominee, you can ask the firm or nominee to participate in the Plan on your behalf. If the nominee does not offer the Plan, you will need to request that your shares be re-registered in your name with the Fund's transfer agent, PFPC Inc. or you will not be able to participate.

The Plan Agent's service fee for handling distributions will be paid by the Fund. Each participant will be charged their pro rata share of brokerage commissions on all open-market purchases.

Plan participants may withdraw from the Plan at any time by writing to the Plan Agent at the address noted on the following page. If you withdraw, you will receive shares in your name for all Shares credited to your account under the Plan. If a participant elects by written notice to the Plan Agent to have the Plan Agent sell part or all of his or her Shares and remit the proceeds, the Plan Agent is authorized to deduct a \$5.00 fee plus brokerage commissions from the proceeds.

If you wish to participate in the Plan and your shares are held in your own name, you may complete the form on the following page and deliver it to the Plan Agent.

Any inquires regarding the Plan can be directed to the Plan Agent, PFPC Inc., at 1-800-331-1710.

#### APPLICATION FOR PARTICIPATION IN DIVIDEND REINVESTMENT PLAN

This form is for shareholders who hold their common shares in their own names. If your common shares are held in the name of a brokerage firm, bank, or other nominee, you should contact your nominee to see if it will participate in the Plan on your behalf. If you wish to participate in the Plan, but your brokerage firm, bank, or nominee is unable to participate on your behalf, you should request that your common shares be re-registered in your own name which will enable your participation in the Plan.

The following authorization and appointment is given with the understanding that I may terminate it at any time by terminating my participation in the Plan as provided in the terms and conditions of the Plan.

Please print exact name on account:

Shareholder signature Date

Shareholder signature Date

Please sign exactly as your common shares are registered. All persons whose names appear on the share certificate must sign.

# YOU SHOULD NOT RETURN THIS FORM IF YOU WISH TO RECEIVE YOUR DIVIDENDS AND DISTRIBUTIONS IN CASH. THIS IS NOT A PROXY.

This authorization form, when signed, should be mailed to the following address:

Eaton Vance Limited Duration Income Fund c/o PFPC Inc. P.O. Box 43027 Providence, RI 02940-3027 800-331-1710

BOARD OF TRUSTEES' ANNUAL APPROVAL OF THE INVESTMENT ADVISORY AGREEMENT

Overview of the Contract Review Process

The Investment Company Act of 1940, as amended (the "1940 Act"), provides, in substance, that each investment advisory agreement between a fund and its investment adviser will continue in effect from year to year only if its continuance is approved at least annually by the fund's board of trustees, including by a vote of a majority of the trustees who are not "interested persons" of the fund ("Independent Trustees") cast in person at a meeting called for the purpose of considering such approval.

At a meeting of the Boards of Trustees (each a "Board") of the Eaton Vance group of mutual funds (the "Eaton Vance Funds") held on March 27, 2006, the Board, including a majority of the Independent Trustees, voted to approve continuation of existing advisory and sub-advisory agreements for the Eaton Vance Funds for an additional one-year period. In voting its approval, the Board relied upon the affirmative recommendation of the Special Committee of the Board, which is a committee comprised exclusively of Independent Trustees. Prior to making its recommendation, the Special Committee reviewed information furnished for a series of meetings of the Special Committee held in February and March 2006. Such information included, among other things, the following:

Information about Fees, Performance and Expenses

An independent report comparing the advisory and related fees paid by each fund with fees paid by comparable funds;

An independent report comparing each fund's total expense ratio and its components to comparable funds;

An independent report comparing the investment performance of each fund to the investment performance of comparable funds over various time periods;

Data regarding investment performance in comparison to relevant peer groups of funds and appropriate indices;

Comparative information concerning fees charged by each adviser for managing other mutual funds and institutional accounts using investment strategies and techniques similar to those used in managing the fund;

Profitability analyses for each adviser with respect to each fund managed by it;

Information about Portfolio Management

Descriptions of the investment management services provided to each fund, including the investment strategies and processes employed;

Information concerning the allocation of brokerage and the benefits received by each adviser as a result of brokerage allocation, including information concerning the acquisition of research through "soft dollar" benefits received in connection with the funds' brokerage, and the implementation of a soft dollar reimbursement program established with respect to the funds;

Data relating to portfolio turnover rates of each fund;

The procedures and processes used to determine the fair value of fund assets and actions taken to monitor and test the effectiveness of such procedures and processes;

Information about each Adviser

Reports detailing the financial results and condition of each adviser;

Descriptions of the qualifications, education and experience of the individual investment professionals whose responsibilities include portfolio management and investment research for the funds, and information relating to their compensation and responsibilities with respect to managing other mutual funds and investment accounts:

Copies of the Codes of Ethics of each adviser and its affiliates, together with information relating to compliance with and the administration of such codes;

Information concerning the resources devoted to compliance efforts undertaken by each adviser and its affiliates on behalf of the funds (including descriptions of various compliance programs) and their record of compliance with investment policies and restrictions, including policies with respect to market-timing, late trading and selective portfolio disclosure, and with policies on personal securities transactions;

Descriptions of the business continuity and disaster recovery plans of each adviser and its affiliates;

Other Relevant Information

Information concerning the nature, cost and character of the administrative and other non-investment management services provided by Eaton Vance Management and its affiliates;

Information concerning management of the relationship with the custodian, subcustodians and fund accountants by each adviser or the funds' administrator; and

The terms of each advisory agreement.

In addition to the information identified above, the Special Committee considered information provided from time to time by each adviser throughout the year at meetings of the Board and its committees. Over the course of the twelve month period ended March 31,

## Eaton Vance Limited Duration Income Fund

# BOARD OF TRUSTEES' ANNUAL APPROVAL OF THE INVESTMENT ADVISORY AGREEMENT CONTR

2006, the Board met nine times and the Special Committee, the Audit Committee and the Governance Committee, each of which is a Committee comprised solely of Independent Trustees, met eight, twelve and five times, respectively. At such meetings, the Trustees received, among other things, presentations by the portfolio managers and other investment professionals of each adviser relating to the investment performance of each fund and the investment strategies used in pursuing the fund's investment objective.

For funds that invest through one or more underlying portfolios, the Board considered similar information about the portfolio(s) when considering the approval of advisory agreements. In addition, in cases where the fund's investment adviser has engaged a sub-adviser, the Board considered similar information about the sub-adviser when considering the approval of any sub-advisory agreement.

The Special Committee was assisted throughout the contract review process by Goodwin Procter LLP, legal counsel for the Independent Trustees. The members of the Special Committee relied upon the advice of such counsel and their own business judgment in determining the material factors to be considered in evaluating each advisory and sub-advisory agreement and the weight to be given to each such factor. The conclusions reached with respect to each advisory and sub-advisory agreement were based on a comprehensive evaluation of all the information provided and not any single factor. Moreover, each member of the Special Committee may have placed varying emphasis on particular factors in reaching conclusions with respect to each advisory and sub-advisory agreement.

#### Results of the Process

Based on its consideration of the foregoing, and such other information as it deemed relevant, including the factors and conclusions described below, the Special Committee concluded that the continuance of the investment advisory agreement between the Eaton Vance Limited Duration Income Fund (the "Fund"), and Eaton Vance Management (the "Adviser"), including its fee structure, is in the interests of shareholders and, therefore, the Special Committee recommended to the Board approval of the agreement. The Board accepted the recommendation of the Special Committee as well as the factors considered and conclusions reached by the Special Committee with respect to the agreement. Accordingly, the Board, including a majority of the Independent Trustees, voted to approve continuation of the advisory agreement for the Fund.

#### Nature, Extent and Quality of Services

In considering whether to approve the investment advisory agreement of the Fund, the Board evaluated the nature, extent and quality of services provided to the Fund by the Adviser.

The Board considered the Adviser's management capabilities and investment process with respect to the types of investments held by the Fund, including the education, experience and number of its investment professionals and other personnel who provide portfolio management, investment research, and similar services to the Fund. In particular, the Board evaluated, where relevant, the abilities and experience of such investment personnel in analyzing factors such as credit risk and special considerations relevant to investing in senior secured floating-rate loans, mortgage-backed securities and high-yield bonds. Specifically, the Board considered the Adviser's in-house research capabilities as well as other resources available to personnel of the Adviser, including research services. The Board also took into account the resources dedicated to portfolio management and other services, including the compensation paid to recruit and retain investment personnel, and the time and attention devoted to the Fund by senior management.

The Board also reviewed the compliance programs of the Adviser and relevant affiliates thereof. Among other matters, the Board considered compliance and reporting matters relating to personal trading by investment personnel, selective disclosure of portfolio holdings, late trading, frequent trading, portfolio valuation, business continuity and the allocation of investment opportunities. The Board also evaluated the responses of the Adviser and its affiliates to requests from regulatory authorities such as the Securities and Exchange Commission and the National Association of Securities Dealers.

The Board considered shareholder and other administrative services provided or managed by Eaton Vance Management and its affiliates, including transfer agency and accounting services. The Board evaluated the benefits to shareholders of investing in a fund that is a part of a large family of funds.

After consideration of the foregoing factors, among others, the Board concluded that the nature, extent and quality of services provided by the Adviser, taken as a whole, are appropriate and consistent with the terms of the investment advisory agreement.

### Fund Performance

The Board compared the Fund's investment performance to a relevant universe of similarly managed funds identified by an independent data provider and appropriate benchmark indices. The Board reviewed comparative performance data for the one-year period ending September 30, 2005 for the Fund. The Board concluded that the performance of the Fund is satisfactory.

## Eaton Vance Limited Duration Income Fund

# BOARD OF TRUSTEES' ANNUAL APPROVAL OF THE INVESTMENT ADVISORY AGREEMENT CONTR

Management Fees and Expenses

The Board reviewed contractual investment advisory fee rates payable by the Fund (referred to as "management fees"). As part of its review, the Board considered the Fund's management fees and total expense ratio for the one-year period ended September 30, 2005, as compared to a group of similarly managed funds selected by an independent data provider. The Board considered the fact that the Adviser had waived fees and/or paid expenses for the Fund.

After reviewing the foregoing information, and in light of the nature, extent and quality of the services provided by the Adviser, the Board concluded that the management fees charged for advisory and related services and the Fund's total expense ratio are reasonable.

#### Profitability

The Board reviewed the level of profits realized by the Adviser and relevant affiliates thereof in providing investment advisory and administrative services to the Fund and to all Eaton Vance Funds as a group. The Board considered the level of profits realized without regard to revenue sharing or other payments by the Adviser and its affiliates to third parties in respect of distribution services. The Board also considered other direct or indirect benefits received by the Adviser in connection with its relationship with the Fund, including the benefits of research services that may be available to the Adviser as a result of securities transactions effected for the Fund and other investment advisory clients.

The Board concluded that, in light of the foregoing factors and the nature, extent and quality of the services rendered, the profits realized by the Adviser and its affiliates are reasonable.

#### Economies of Scale

In reviewing management fees and profitability, the Board also considered the extent to which the Adviser and its affiliates, on the one hand, and the Fund, on the other hand, can expect to realize benefits from economies of scale as the assets of the Fund increase. The Board acknowledged the difficulty in accurately measuring the benefits resulting from the economies of scale with respect to the management of any specific fund or group of funds. The Board also considered the fact that the Fund is not continuously offered and concluded that, in light of the level of the adviser's profits with respect to the Fund, the implementation of breakpoints in the advisory fee schedule is not appropriate. Based upon the foregoing, the Board concluded that the benefits from economies of scale are currently being shared equitably by the Adviser and its affiliates and the Fund.
