IHS INC.

NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

1. Basis of Presentation and Significant Accounting Policies

Nature of Operations

IHS Inc. (IHS, the Company, we, our, or us) is a publicly traded Delaware corporation. IHS is a leading provider and comprehensive source of Critical Information and Insight in a sizable global market. Our customers rely on our products and services to facilitate crucial decision-making, support key processes, and improve productivity. At the heart of our products and services is data obtained from public sources, third parties, and our own proprietary databases. We transform that data into Critical Information and Insight that is both useful to our customers and available where and when they make critical business decisions. The data becomes Critical Information when we combine it with our proprietary and third-party technology to create graphical user interfaces, search and navigation tools, and online delivery systems or we deliver as individual documents. We further transform that information into Insight products and services with analysis and interpretation from our teams of experts.

We serve some of the world's largest corporations across multiple industries, as well as governments and other organizations, in more than 100 countries. Our primary operations outside the United States are in the United Kingdom, Canada, Switzerland and China. We have structured our business around our customers and the geographies in which they reside: **Americas** (which includes the United States, Canada, and Latin America); **EMEA** (Europe, the Middle East, and Africa, with India also included in the region), and **APAC** (the Asia Pacific region, which includes many countries such as China, Japan, South Korea, Malaysia, and Australia). This allows us to tailor and expand the solutions we offer to meet the unique needs of our customers both globally and in local markets.

In addition to structuring our business around the regions, we have targeted four specific information domains—Energy, Product Lifecycle, Security, and Environment. Since these four information domains represent areas where our customers have needs for Critical Information and Insight, we use these domains to set priorities and design our business objectives. The information that our customers need to address their complex business issues continues to converge at the intersection of the information domains that we serve. We have categorized these products and services as Intersection and have not allocated them to any specific domain. As we continue to deliver Critical Information and Insight in those four information domains, we prepare our financial reports and analyze our business across our three geographic reportable segments: **Americas**, **EMEA**, and **APAC**.

Consolidation Policy

The consolidated financial statements include the accounts of all wholly owned and majority-owned subsidiaries. All significant intercompany accounts and transactions have been eliminated. Investments in unconsolidated affiliated companies are accounted for under the equity method and are included in Equity Investments in Joint Venture in the accompanying Condensed Consolidated Balance Sheets. We generally utilize the equity method of accounting when we have a non-controlling ownership interest of between 20% and 50% in an entity, provided we are able to exercise significant influence over the investee's operations. See Note 2 for discussion related to the consolidation of Lloyd's Register-Fairplay

joint venture that was effective December 1, 2008.

Unaudited Condensed Consolidated Financial Statements

The accompanying unaudited condensed consolidated financial statements reflect all adjustments, consisting of normal recurring accruals, which are necessary for a fair presentation of the financial position, results of operations and cash flows for the periods presented. The accompanying condensed consolidated financial statements include our accounts and the accounts of our majority-owned domestic and foreign subsidiaries. All significant intercompany transactions and balances have been eliminated in consolidation. These condensed consolidated financial statements should be read in conjunction with the consolidated financial statements for the year ended November 30, 2008. The results of operations for the three and six months ended May 31, 2009, are not necessarily indicative of the results that may be achieved for the full fiscal year and cannot be used to indicate financial performance for the entire year.

The year-end condensed consolidated balance sheet data was derived from the audited November 30, 2008, balance sheet.

Results Subject to Seasonal Variations

Historically, our business has had seasonal aspects. However, with the continued organic growth in our subscription-based business model relative to other revenue streams combined with several acquisitions in recent years, our seasonal aspects have diminished, although our fourth quarter revenue and profit still tends to be slightly higher than other quarters due to the product mix typically sold in the fourth quarter. Our first quarter also benefits from the inclusion of the results from IHS CERAWeek, an annual energy executive gathering.

Table of Contents

Use of Estimates

The preparation of interim condensed consolidated financial statements in conformity with accounting principles generally accepted in the United States requires us to make estimates and assumptions that affect the amounts reported and disclosed in the financial statements and the accompanying notes. Significant estimates have been made in areas that include revenue recognition, useful lives of fixed and intangible assets, allocation of purchase price to acquired assets and liabilities, the recoverability of intangible assets and goodwill, income and other taxes, pension and post-retirement benefits, contingent liabilities and stock-based compensation. Actual results could differ from those estimates.

Reclassification

Certain prior-year balances have been reclassified to conform to current-year presentation.

Income Taxes

Our effective quarterly rate is estimated based upon the effective tax rate expected to be applicable for the full fiscal year.

Our effective tax rate for the first half of 2009 was 22.6% compared to 32.5% for the prior year period. The 2009 rate reflects a full year of beneficial impact of the internal legal entity reorganization within EMEA completed in the third quarter of 2008 as well as benefits recognized from the successful outcome to a French tax appeal and favorable UK tax ruling.

As of May 31, 2009, the total amount of unrecognized tax benefits was \$1.7 million, of which less than \$0.1 million related to interest. The \$0.3 million increase in unrecognized tax benefits during the first six months of 2009 was attributable to adjustments made to the reserves during the second quarter of fiscal 2009, principally as a result of recording a reserve related to an uncertain UK tax return position.

We are subject to taxation and file income tax returns in the U.S. and in many foreign jurisdictions. For U.S. federal, Canadian and Swiss income tax purposes, all years prior to 2004 are effectively closed. For United Kingdom income tax purposes, all years prior to 2005 are effectively closed.

The open tax years contain matters that could be subject to differing interpretations of applicable tax laws and regulations as it relates to the amount and/or timing of income, deductions and tax credits. Although the outcome of tax audits is always uncertain, we believe that adequate amounts of tax and interest have been provided for any adjustments that are expected to result from an audit of the open tax years. Although timing of the resolution and/or closure of audits is highly uncertain, we do not believe it is reasonably possible that our unrecognized tax benefits will materially change in the next 12 months.

New Accounting Pronouncements

In December 2007, the Financial Accounting Standards Board (FASB) issued Statement of Financial Accounting Standards (SFAS) No. 141(R), *Business Combinations* (SFAS No. 141(R)) and SFAS No. 160, *Accounting and Reporting of Noncontrolling Interest in Consolidated Financial Statements, an amendment of ARB No. 51* (SFAS No. 160). These new standards will significantly change the accounting for and reporting of business combination transactions and noncontrolling (minority) interests in consolidated financial statements. SFAS Nos. 141(R) and 160 are required to be adopted simultaneously and are effective for the first annual reporting period beginning on or after December 15, 2008. Thus, we are required to adopt these standards on December 1, 2009, the first day of our 2010 fiscal year. Earlier adoption is prohibited. We will adopt SFAS No. 141(R) and SFAS No. 160 in the first quarter of fiscal 2010 and we do not expect the adoption will have a material effect on our financial position or results of operations.

In April 2009, the FASB issued FASB Staff Position (FSP) SFAS No. 141(R)-1, *Accounting for Assets Acquired and Liabilities Assumed in a Business Combination That Arise from Contingencies* (FSP 141(R)-1), to amend and clarify the initial recognition and measurement, subsequent measurement and accounting, and related disclosures arising from contingencies in a business combination under SFAS 141(R). Under the new guidance, assets acquired and liabilities assumed in a business combination that arise from contingencies should be recognized at fair value on the acquisition date if fair value can be determined during the measurement period. If fair value can not be determined, companies should typically account for the acquired contingencies using existing guidance. We will adopt FSP 141(R)-1 along with SFAS 141(R) in the first quarter of fiscal 2010 and we do not expect the adoption will have a material effect on our financial position or results of operations.

In March 2008, the FASB issued SFAS No. 161, *Disclosures about Derivative Instruments and Hedging Activities*. (SFAS No. 161) SFAS No. 161 requires additional disclosures related to the use of derivative instruments, the accounting for derivatives and how derivatives impact financial statements. SFAS No. 161 is effective for fiscal years and interim periods beginning after November 15,

Table of Contents

2008. Thus, we adopted this standard on December 1, 2008, the first day of our 2009 fiscal year, with no material impact to our consolidated financial statements.

In June 2009, the FASB issued SFAS No. 166, *Accounting for Transfers of Financial Assets, an amendment of FASB Statement No. 140* (SFAS No. 166), which results in the removal of the concept of a qualifying special-purpose entity. SFAS No. 166 is effective as of the beginning of each reporting entity's first annual reporting period that begins after 15 November 2009. We do not expect the adoption will have a material effect on our financial position or results of operations.

In June 2009, the FASB issued SFAS No. 167, *Amendments to FASB Interpretation No. 46(R)*, which addresses the effects of eliminating the qualifying special-purpose entity. SFAS No. 167 is effective as of the beginning of each reporting entity's first annual reporting period that begins after 15 November 2009. We do not expect the adoption will have a material effect on our financial position or results of operations.

2. Business Combination

Through our ownership of Prime Publications Limited (Prime), during the first quarter of 2009 we obtained a controlling interest in the Lloyd's Register-Fairplay Limited (LRF) joint venture, a leading source of global maritime information. LRF is the leading brand name in the maritime information industry providing comprehensive details of the current world merchant fleet (tankers, cargo, carrier and passenger ships) and a complete range of products and services to assist the world's maritime community. The investment in LRF is the primary asset of Prime. Since our acquisition of Prime on March 3, 2008 and through the year-ended November 30, 2008, we had accounted for LRF under the equity method of accounting. As of December 1, 2008, we obtained controlling interest and began consolidating LRF within our results. On June 17, 2009, we acquired the remaining 49.9% of Lloyd's Register-Fairplay from Lloyd's Register giving us 100% ownership of LRF. The 49.9% interest was acquired for approximately £37 million, net of cash acquired.

The impact of consolidating our controlling interest in LRF as of December 1, 2008 was as follows (previously these individual assets were classified within the equity investment balance):

	(In thousands)	
Assets:		
Current assets	\$	5,597
Property and equipment		553
Intangible assets		11,407
Goodwill		53,267
Total assets		70,824
Liabilities:		
Current liabilities		10,487
Deferred taxes		1,872
Other long-term liabilities		2,253
Total liabilities		14,612
Net	\$	56,212

3. Commitments and Contingencies

We are a party to various legal proceedings that arise in the ordinary course of business. In the opinion of management, none of these actions, either individually or in the aggregate, is expected to have a material adverse affect on our financial condition, liquidity or results of operations.

4. Other Comprehensive Income

Our comprehensive income for the three and six months ended May 31, 2009 and 2008 was as follows:

Table of Contents

5. Restructuring Charges (Credits)

2008 Restructuring

During the third quarter of 2008, we executed a restructuring initiative which primarily affected the Americas and EMEA segments. One-time, involuntary benefit arrangements and other exit costs are accounted for under the provisions of SFAS No. 146, *Accounting for Costs Associated with Exit or Disposal Activities*. Costs arising under our defined benefit pension plans from providing enhanced benefits are accounted for under the provisions of SFAS No. 88, *Employers' Accounting for Settlements and Curtailments of Defined Benefit Pension Plans and for Termination Benefits*. Restructuring and related expenses consisted of direct and incremental costs associated with restructuring and related activities, including severance, outplacement and other employee related benefits; facility closure including non-cash expenses related to fixed asset and leasehold improvement write-offs; and legal expenses associated with employee terminations which were incurred during the third quarter of 2008.

This initiative was undertaken to further the realignment of our resources around our regional organizational structure and to further transform our knowledge-based data accumulation operations to ensure continuous improvement in the quality of the Critical Information and Insight we deliver to our customers. During the course of the restructuring, we reduced our aggregate workforce by approximately 7%, eliminated certain contractor positions and closed certain offices.

The restructuring charge was incurred in its entirety during the third quarter of 2008. Approximately \$5.8 million of the charge related to our Americas segment, \$6.3 million pertained to our EMEA segment and \$0.4 million related to shared services. The majority of the liability was paid during 2008 and the remaining liability at November 30, 2008 was \$1.0 million. This remaining balance was substantially paid as of May 31, 2009. An over-accrual of \$0.4 million was reversed during the first half of 2009.

Global Insight Restructuring

Related to the acquisition of Global Insight in October 2008, we established a \$13.0 million liability for restructuring costs in the opening balance sheet. Of this total, \$8.2 million is employee severance and other termination benefits and \$4.8 million relates to facility closure costs. Through May 31, 2009, we have paid \$3.6 million of the employee severance and other termination benefits and \$0.2 million of the facility closure costs resulting in a liability balance of \$9.2 million as of May 31, 2009.

6. Stock-based Compensation

On May 31, 2009, we had one share-based compensation plan: the Amended and Restated IHS Inc. 2004 Long-Term Incentive Plan (LTIP). The LTIP provides for the grant of non-qualified stock options, incentive stock options, stock appreciation rights, restricted stock, restricted stock units, performance units and performance shares, cash-based awards, other stock based awards and covered employee annual incentive awards. The 2004 Directors Stock Plan, a sub-plan under the LTIP, provides for the grant of restricted stock and restricted stock units to non-employee

Edgar Filing: IHS Inc. - Form 10-Q

directors as defined in that plan. We believe that such awards better align the interests of our employees and non-employee directors with those of our shareholders.

We have authorized a maximum of 11.25 million shares, less the number of shares relating to any award granted and outstanding.

Stock-based compensation expense that has been charged against income for the plan was as follows:

	Three Months Ended May 31,		Six Months Ended May 31,	
	2009	2008	2009	2008
	(In thousands)			
Cost of revenue	\$ 781	\$ 376	\$ 1,460	\$ 687
Selling, general and administrative	14,190	10,001	29,981	22,391
Stock-based compensation expense	\$ 14,971	\$ 10,377	\$ 31,441	\$ 23,078

Total income tax benefit recognized in the statement of operations for share-based compensation arrangements was as follows:

	Three Months Ended May 31,		Six Months Ended May 31,	
	2009	2008	2009	2008
	(In thousands)			
Income tax benefit	\$ 5,539	\$ 3,840	\$ 11,633	\$ 8,539

No compensation cost was capitalized during the three and six months ended May 31, 2009 and May 31, 2008.

Nonvested Stock. Share awards vest from six months to four years. Share awards are generally subject to either cliff vesting or graded vesting. The fair value of nonvested stock is based on the fair value of our common stock on the date of grant. We amortize the value of share awards to expense over the vesting period on a straight-line basis. Approximately half of our outstanding awards are

Table of Contents

performance based. For those awards, an evaluation is made each quarter as to the likelihood of the performance criteria being met. Compensation expense is then adjusted to reflect the number of shares expected to vest and the cumulative vesting period met to date. Additionally, we estimate forfeitures at the grant date and recognize compensation cost based on the number of awards expected to vest. There may be adjustments in future periods if the likelihood of meeting performance criteria changes or if actual forfeitures differ from our estimates. Our forfeiture rate is based upon historical experience as well as anticipated employee turnover considering certain qualitative factors.

Total compensation expense related to nonvested awards, both share awards and stock options, not yet recognized was \$64.0 million as of May 31, 2009, with a weighted-average recognition period of approximately 1.5 years.

A summary of the status of our nonvested shares as of May 31, 2009, and changes during the six months ended May 31, 2009, was as follows:

	Shares (in thousands)	Weighted- Average Grant Date Fair Value
Balances, November 30, 2008	2,176	\$ 41.81
Granted	1,025	\$ 42.89
Vested	(523)	\$ 40.57
Forfeited	(115)	\$ 43.37
Balances, May 31, 2009	2,563	\$ 44.81

The total fair value of nonvested stock that vested during the six months ended May 31, 2009, was \$22.9 million based on the weighted-average fair value on the vesting date and \$21.2 million based on the weighted-average fair value on the date of grant.

Stock Options. Option awards are generally granted with an exercise price equal to the fair market value of our stock at the date of grant. Options outstanding as of May 31, 2009 either cliff vest after 4 years of continuous service or vest in a graded fashion over three years of continuous service and have 8-year contractual terms. Certain option and share awards provide for accelerated vesting if there is a change in control (as defined in the plan).

The following table summarizes changes in outstanding stock options during the six months ended May 31, 2009, as well as options that are vested and expected to vest and stock options exercisable at May 31, 2009:

	Shares (in thousands)	Weighted- Average Exercise Price	Weighted- Average Remaining Contractual Term (years)	Aggregate Intrinsic Value (in thousands)
Outstanding at November 30, 2008	275	\$ 35.18	5.5	\$ 543
Granted				
Exercised	(63)	32.24		

Edgar Filing: IHS Inc. - Form 10-Q

Forfeited	(7)		37.65		
Outstanding at May 31, 2009	205	\$	36.00	5.6	\$ 2,465
Vested and expected to vest at May 31, 2009	205	\$	36.00	5.6	\$ 2,465
Exercisable at May 31, 2009	101	\$	37.65		\$ 1,048

The aggregate intrinsic value amounts in the table above represent the difference between the closing price of our common stock on May 31, 2009, which was \$48.00, and the exercise price, multiplied by the number of in-the-money stock options as of the same date. This represents the amount that would have been received by the stock option holders if they had all exercised their stock options on May 31, 2009. In future periods, this amount will change depending on fluctuations in our stock price. The total intrinsic value of stock options exercised during the six months ended May 31, 2009 was \$0.6 million.

7. Debt

On September 7, 2007, we entered into an amended and restated credit agreement (the Revolver). The \$385 million unsecured revolving credit agreement allows us, under certain conditions, to increase the facility to a maximum of \$500 million. The agreement expires in September 2012.

The interest rates for borrowing under the Revolver are based upon our Leverage Ratio, which is the ratio of Consolidated Funded Indebtedness to rolling four quarter Consolidated Earnings Before Interest Expense, Taxes, Depreciation and Amortization

Table of Contents

(EBITDA), as defined in the Revolver. The rate ranges from the applicable LIBOR plus 50 basis points to 125 basis points or the agent bank's base rate. A commitment fee is payable periodically and ranges from 10 to 25 basis points based upon our Leverage Ratio. The Revolver contains certain financial and other covenants, including limitations on capital lease obligations and maximum Leverage and Interest Coverage Ratios, as defined in the Revolver.

As of May 31, 2009, we were in compliance with all of the covenants in the agreement and had \$108.0 million of outstanding borrowings with an annual interest rate of 0.94%. This debt is classified as long-term debt as of May 31, 2009 as we have the ability and intent to maintain this balance beyond twelve months. In addition, we had outstanding letters of credit totaling approximately \$1.3 million as of May 31, 2009.

As of May 31, 2009, we also had \$7.1 million of non-interest bearing notes that were issued to the sellers of Prime. These notes are due upon demand and are therefore recorded in Short-term Debt in the accompanying Condensed Consolidated Balance Sheets.

8. Pensions and Postretirement Benefits

We have defined-benefit plans and defined-contribution plans. Our defined-benefit plans consist of a non-contributory retirement plan for all of our U.S. employees with at least one year of service (U.S. RIP), a pension plan that covers certain employees of one of our United Kingdom-based subsidiaries (U.K. RIP), and a supplemental income plan (SIP) for certain company executives.

Our net periodic pension (income) expense was comprised of the following:

	Three Months Ended May 31, 2009				Three Months Ended May 31, 2008			
	U.S. RIP	U.K. RIP	SIP	Total	U.S. RIP	U.K. RIP	SIP	Total
	(In thousands)							
Service costs incurred	\$ 1,728	\$ 125	\$ 58	\$ 1,911	\$ 1,572	\$ 238	\$ 72	\$ 1,882
Interest costs on projected benefit obligation	3,230	376	123	3,729	2,999	539	114	3,652
Expected return on plan assets	(5,227)	(413)		(5,640)	(5,361)	(562)		(5,923)
Amortization of prior service cost	(118)		11	(107)	(118)		11	(107)
Amortization of actuarial loss			21	21			47	47

Amortization of transitional obligation/(asset)	(114)		26	(88)	(284)		20	(264)
Net periodic pension benefit (income) expense	\$ (888)	\$ 176	\$ 452	\$ (260)	\$ (2,107)	\$ 430	\$ 508	\$ (1,169)

Table of Contents

Our net periodic post-retirement income was comprised of the following for the three and six months ended May 31:

	Three Months Ended May 31,		Six Months Ended May 31,	
	2009	2008	2009	2008
	(In thousands)			
Service costs incurred	\$ 14	\$ 25	\$ 28	\$ 50
Interest costs	158	158	316	316
Amortization of prior service amounts	(807)	(806)	(1,614)	(1,612)
Amortization of net actuarial loss	76	118	152	236
Net periodic post-retirement benefit income	\$ (559)	\$ (505)	\$ (1,118)	\$ (1,010)

9. Earnings per Share

Earnings per common share (EPS) are computed in accordance with SFAS No. 128, *Earnings per Share*. Basic EPS is computed by dividing net income by the weighted average number of common shares outstanding during the period. Diluted EPS reflects the potential dilution that could occur if securities or other contracts to issue common stock were exercised or converted into common shares.

Our authorized capital stock consists of 80,000,000 shares of Class A common stock.

For the period ended May 31, 2008, we used the two-class method for computing basic and diluted EPS amounts. For the period ended May 31, 2009, there was a single class of stock for the purposes of calculating EPS. Weighted average common shares outstanding were calculated as follows:

	Three Months Ended May 31,	
	2009	2008
	Class A	Class A and Class B
	(In thousands)	
Weighted average common shares outstanding:		
Shares used in basic per-share calculation	63,014	62,221
Effect of dilutive securities:		
Deferred stock units	52	42
Restricted shares	733	752
Options	30	71
Shares used in diluted per-share calculation	63,829	63,086

	Six Months Ended May 31,	
	2009	2008
	Class A	Class A and Class B
	(In thousands)	
Weighted average common shares outstanding:		
Shares used in basic per-share calculation	62,916	62,097

Edgar Filing: IHS Inc. - Form 10-Q

Effect of dilutive securities:		
Deferred stock units	51	40
Restricted shares	748	839
Options	33	69
Shares used in diluted per-share calculation	63,748	63,045

Share Repurchase Program

During 2006, our board of directors approved a program to reduce the dilutive effects of employee equity grants, by allowing employees to surrender shares back to the Company for a value equal to their statutory tax liability. IHS then pays the statutory tax on behalf of the employee. Additionally, our board of directors periodically approves additional buyback programs whereby IHS acquires shares in the open market to more fully offset the dilutive effect of our employee equity programs. During the three months ended May 31, 2009, we repurchased 37,577 shares under the tax withholding program for approximately \$1.7 million, or \$45.78 per share. In the first half of 2009, we repurchased 169,052 shares under the tax withholding program for approximately \$7.5 million, or \$44.34 per share. No shares were repurchased in the first half of 2009 pursuant to a share buyback program. Since the inception of these programs, we have withheld for tax 868,446 shares of our Class A common stock for approximately \$43.2 million, or \$49.72 per share and we have repurchased 1,889,557 shares for approximately \$94.7 million or \$50.13 per share pursuant to the stock buyback program.

Table of Contents**10. Goodwill and Intangible Assets**

The following table presents details of our intangible assets, other than goodwill, as of May 31, 2009:

	Useful Life (Years)	Gross	Accumulated Amortization (In thousands)	Net
Intangible assets subject to amortization:				
Information databases	5 - 15	\$ 185,890	\$ (40,021)	\$ 145,869
Customer relationships	2 - 15	73,482	(16,069)	57,413
Non-compete agreements	5	5,855	(4,702)	1,153
Developed computer software	5	21,800	(6,215)	15,585
Other	3 - 11	5,899	(4,048)	1,851
Total		292,926	(71,055)	221,871
Intangible assets not subject to amortization:				
Trademarks		57,976		57,976
Perpetual licenses		1,211		1,211
Total intangible assets		\$ 352,113	\$ (71,055)	\$ 281,058

The following table presents details of our intangible assets, other than goodwill, as of November 30, 2008:

	Useful Life (Years)	Gross	Accumulated Amortization (In thousands)	Net
Intangible assets subject to amortization:				
Information databases	5 - 15	\$ 176,637	\$ (27,770)	\$ 148,867
Customer relationships	2 - 15	72,596	(12,346)	60,250
Non-compete agreements	5	5,851	(4,098)	1,753
Developed computer software	5	18,700	(4,344)	14,356
Other	3 - 11	5,872	(3,190)	2,682
Total		279,656	(51,748)	227,908
Intangible assets not subject to amortization:				
Trademarks		56,844		56,844
Perpetual licenses		1,150		1,150
Total intangible assets		\$ 337,650	\$ (51,748)	\$ 285,902

The estimated amortization expense of intangible assets for business combinations completed as of May 31, 2009 for each of the next five years is as follows:

Year	Amount (In thousands)
Remainder 2009	\$ 15,577
2010	29,880
2011	28,170
2012	26,590

Amortization expense of intangible assets was \$8.0 million and \$6.3 million for the three months ended May 31, 2009 and May 31, 2008, respectively. Amortization expense of intangible assets was \$15.8 million and \$12.0 million for the six months ended May 31, 2009 and May 31, 2008, respectively

Changes in our goodwill and intangible assets from November 30, 2008 to May 31, 2009 were primarily the result of the consolidation of LRF in the first quarter of 2009 due to the obtaining of control of the joint venture and to a lesser extent by the impact of foreign currency rates.

11. Segment Information

We prepare our financial reports and analyze our business results within our three reportable geographic segments: Americas, EMEA and APAC. This integrated global organization allows our customers to do business with us by providing a more cohesive, consistent, and effective sales and marketing approach in each region. By structuring our business around our geographic segments, we are able to tailor and expand the solutions we offer to meet the unique needs of our customers both globally and in local markets.

Edgar Filing: IHS Inc. - Form 10-Q

Table of Contents

We are also able to manage our activities according to the best practices of each. This structure provides a solid foundation for growth in each market for all of our capabilities. It allows us an efficient method of bringing new products and services to customers, and supports growth in existing accounts and with new customers and markets.

Information as to the operations of our three segments is set forth below. Our Chairman and Chief Executive Officer represents our chief operating decision maker, and he evaluates segment performance based primarily on revenue and operating profit of these three segments. In addition, he also reviews revenue for the domains and Critical Information and Insight offerings. The accounting policies of our segments are the same as those described in the summary of significant accounting policies (contained in the notes to our consolidated financial statements included in our 2008 Form 10-K).

No single customer accounted for 10% or more of our total revenue for the period ended May 31, 2009. There are no material inter-segment revenues for any period presented.

As shown below, certain corporate transactions are not allocated to the reportable segments. Amounts not allocated include, but are not limited to, such items as, stock-based compensation expense, net periodic pension and post-retirement benefits income, corporate-level impairments, and gain (loss) on sales of corporate assets.

	Americas	EMEA	APAC	Segment Totals	Shared Services	Consolidated Total

12. Subsequent Event

On June 17, 2009, we acquired the remaining 49.9% of Lloyd's Register-Fairplay from Lloyd's Register giving us 100% ownership of LRF. The 49.9% interest was acquired for approximately £37 million, net of cash acquired.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Forward-Looking Statements

We have made statements under the captions Risk Factors, Management's Discussion and Analysis of Financial Condition and Results of Operations, and Business and Properties and in other sections of this Form 10-Q that are forward-looking statements. In some cases, you can identify these statements by forward-looking words such as may, might, will, should, expect, plan, anticipate, believe, estimate, potential, or continue, the negative of these terms, and other comparable terminology. These forward-looking statements, which are subject to risks, uncertainties, and assumptions, may include projections of our future financial performance based on our growth strategies and anticipated trends in our business. These statements are only predictions based on our current expectations and projections about future events. There are important factors that could cause our actual results, level of activity, performance, or achievements to differ materially from the results, level of activity, performance, or achievements expressed or implied by the forward-looking statements. In particular, you should consider the risks outlined under Risk Factors in the 2008 Form 10-K.

Although we believe the expectations reflected in the forward-looking statements are reasonable, we cannot guarantee future results, level of activity, performance, or achievements. Moreover, neither we nor any other person assumes responsibility for the accuracy or completeness of any of these forward-looking statements. You should not rely upon forward-looking statements as predictions of future events.

We are under no duty to update any of these forward-looking statements after the date of this Form 10-Q to conform our prior statements to actual results or revised expectations.

Overview

Results of Operations

IHS is a leading provider and comprehensive source of Critical Information and Insight in a sizable global market. Our customers rely on our products and services to facilitate crucial decision-making, support key processes, and improve productivity. At the heart of our products and services is data obtained from public sources, third parties, and our own proprietary databases. We transform that data into Critical Information and Insight that is both useful to our customers and available where and when they make critical business decisions. The data is transformed into

Edgar Filing: IHS Inc. - Form 10-Q

Critical Information when we combine it with our proprietary and third-party technology to create graphical user interfaces, search and navigation tools, and online delivery systems or we deliver as individual documents. We further transform that information into Insight products and services with analysis and interpretation from our teams of experts.

We sell our offerings primarily through subscriptions. As a result of our subscription-based business model and historically high renewal rates, we generate recurring revenue and cash flow. We generally recognize revenue from subscriptions (which are usually for one-year periods) ratably over the term of the subscription. Subscriptions are generally paid in full within one to two months after the subscription period commences. As a result, the timing of our cash flows generally precedes the recognition of revenue and income. Historically, our business has had seasonal aspects. However, with the continued organic growth in our subscription-based business model combined with several acquisitions in recent years, our seasonal aspects have diminished although our fourth quarter revenue and profit tends to be slightly higher than other quarters due to the product mix typically sold in the fourth quarter. Our first quarter also benefits from the inclusion of the results from IHS CERAWEEK, an annual energy executive gathering.

We serve some of the world's largest corporations across multiple industries, as well as governments and other organizations, in more than 100 countries. Our primary operations outside the United States are in the United Kingdom, Canada, Switzerland and China. We have structured our business around our customers and the geographies in which they reside: **Americas** (which includes the United States, Canada, and Latin America); **EMEA** (Europe, the Middle East, and Africa, with India also included in the region),

Table of Contents

and APAC (the Asia Pacific region, which includes many countries such as China, Japan, South Korea, Malaysia, and Australia). This allows us to tailor and expand the solutions we offer to meet the unique needs of our customers both globally and in local markets.

Our consolidated financial statements are expressed in U.S. dollars, but a portion of our business is conducted in currencies other than U.S. dollars. Approximately 50% of our revenue is transacted outside of the United States, however, only approximately 30% of our revenue is transacted in a currency other than U.S. dollars. As a result, a strengthening U.S. dollar has a negative impact on our revenue while the impact on operating income is mitigated due to certain operating expenses denominated in currencies other than the U.S. dollar.

We have targeted four specific information domains Energy, Product Lifecycle, Security, and Environment. Since these four information domains represent areas where our customers have needs for Critical Information and Insight, we use these domains to set priorities and design our business strategies. In addition, we have certain product lines that intersect multiple domains. We have categorized these products and services as Intersection and have not allocated them to any specific domain.

As we continue to deliver Critical Information and Insight in these four information domains, we prepare our financial reports and analyze our business across our three reportable geographic segments. As the information that our customers need to address their complex business issues continues to converge at the intersection of the information domains that we serve, we have organized our management structure to a geographic focus, the point of contact with our customers. This integrated global organization allows for our customers to do business with us by providing a cohesive, consistent, and effective sales and marketing approach in each region. By structuring our business around customers and the geographies in which they reside, we are able to tailor and expand the solutions we offer to meet the unique needs of our customers both globally and in local markets. We are also able to manage our Critical Information and Insight activities according to the best practices of each. This structure provides a solid foundation for growth in each market for all of our capabilities. It allows us an efficient method of bringing new products and services to customers, and supports growth in existing accounts and with new customers and markets.

Inherent in all of our strategies is a firm commitment to put our customers first in everything that we do. We believe that maintaining a disciplined outside-in approach will allow us to better serve our customers and our shareholders. Our primary strategy is to achieve and strengthen a leading position in and at the intersection of our targeted information domains. We also intend to continue driving margin and quality improvement through operational transformation.

Business Combination

Through our ownership of Prime Publications Limited (Prime), during the first quarter of 2009 we obtained a controlling interest in the Lloyd's Register-Fairplay Limited (LRF) joint venture, a leading source of global maritime information. LRF is the leading brand name in the maritime information industry providing comprehensive details of the current world merchant fleet (tankers, cargo, carrier and passenger ships) and a complete range of products and services to assist the world's maritime community. The investment in LRF is the primary asset of Prime. Since our acquisition of Prime on March 3, 2008 and through the year-ended November 30, 2008, we had accounted for LRF under the equity method of accounting. With the obtaining of the controlling interest, LRF is now consolidated within our results as of December 1, 2008. On June 17, 2009, we acquired the remaining 49.9% of Lloyd's Register-Fairplay from Lloyd's Register giving us 100% ownership of LRF. The 49.9% interest was acquired for approximately £37 million, net of cash acquired.

Three Months Ended May 31, 2009 Compared to the Three Months Ended May 31, 2008

Revenue. Revenue was \$235.3 million for the quarter ended May 31, 2009, compared to \$207.2 million for the quarter ended May 31, 2008, an increase of \$28.1 million or 14%. This increase was driven in part by acquisitions which contributed \$35.9 million, or 17%, and organic growth which contributed \$6.9 million, or 3%. Unfavorable foreign currency rates had an adverse translation impact of \$14.8 million, or 7% due to the strengthening U.S. dollar. Moreover, the growth that we attribute to acquisitions was also negatively impacted by foreign currency translation. When taking this into consideration, foreign exchange negatively impacted our overall revenue growth by approximately 10% in the quarter ended May 31, 2009 in comparison to the quarter ended May 31, 2008. Lastly, the stronger U.S. dollar negatively impacted organic growth related to pricing pressures on U.S. dollar denominated revenue streams sold into non-dollar based countries. The amount of this impact is not included in our 10% estimate as it is not possible to compute precisely.

Our subscription-based revenue accounted for 78% of our revenue in the quarter and, while growth in this area of the business is slowing, it maintained a growth rate of 10.1% over the second quarter of 2008. This growth rate was approximately 1.5% lower sequentially from the quarter ended February 28, 2009. Our other revenue types (consulting, transaction and other revenue) have been more greatly impacted by the current difficult economic environment. Consulting and transaction revenue were down organically by 34% and 18%, respectively. Revenue from other revenue types also decreased by 2% organically due to slower software sales. Year-to-date cash-based sales of subscription products have grown over the same period prior year, however at a lower growth rate than the 10.1%. As a result, we expect the subscription based revenue growth rates to decline moderately in the second half of 2009. Conversely, our consulting and transaction revenue comparisons to prior year will ease in the second half of 2009 as we experienced lower revenue levels in these areas in the second half of 2008.

Revenue for our Americas segment was \$148.6 million for the quarter ended May 31, 2009, compared to \$126.2 million for the quarter ended May 31, 2008, an increase of \$22.4 million or 18%. This increase was driven primarily by acquisitions which added \$20.6 million and organic growth which contributed \$5.9 million, or 5% which was in line with overall company growth and was driven by growth in certain subscription products. Unfavorable foreign currency rates impacted revenue by \$4.0 million.

Table of Contents

Revenue for our EMEA segment was \$67.7 million for the quarter ended May 31, 2009, compared to \$66.7 million for the quarter ended May 31, 2008, an increase of \$1.0 million or 1%. This increase was driven primarily by acquisitions which contributed \$11.9 million and partially offset by unfavorable foreign currency rates adversely impacted revenue by \$9.7 million. Organic revenue decreased by \$1.2 million. The organic decrease was due primarily the fact that the EMEA region contains a higher percentage of consulting revenue which experienced lower growth rates.

Revenue for our APAC segment was \$19.0 million for the quarter ended May 31, 2009, compared to \$14.3 million for quarter ended May 31, 2008, an increase of \$4.7 million or 33%. This increase was driven in part by acquisitions which contributed \$3.4 million, or 24% and organic growth which contributed \$2.3 million, or 16%. The organic increase was due primarily to the fact that the APAC region contains a higher percentage of subscription revenue which experienced higher growth rates. Unfavorable foreign currency rates adversely impacted revenue by \$1.0 million.

Revenue for the Energy domain was \$110.3 million for the quarter ended May 31, 2009, an increase of \$0.7 million, or 1% over the quarter ended May 31, 2008. This growth was primarily due to an increase in the subscription-based sales which was partially offset by the impact of unfavorable foreign currency rates and a decrease in consulting revenue. Product Lifecycle domain revenue was \$73.3 million for the quarter ended May 31, 2009, an increase of \$0.5 million, or 1% over the quarter ended May 31, 2008 which was primarily due to acquisitions, partially offset by the impact of unfavorable foreign currency rates. Revenue for the Security domain was \$24.8 million for the quarter ended May 31, 2009, an increase of \$5.9 million, or 31% over the quarter ended May 31, 2008 primarily the result of acquisitions. Environment domain revenue was \$7.4 million for the quarter ended May 31, 2009, an increase of \$1.5 million, or 26% due to increases in subscription-based products. Intersection revenue, which includes offerings that intersect multiple domains, was \$19.5 million in the second quarter of 2009 and was entirely attributable to acquisitions.

Cost of Revenue. Cost of revenue was \$97.9 million for the quarter ended May 31, 2009, compared to \$93.2 million for the quarter ended May 31, 2008, an increase of \$4.7 million or 5%. As a percentage of revenue, cost of revenue improved to 41.6% from 45.0%. Cost of revenue as a percentage of revenue within our Americas segment improved to 40.1% from 42.8% resulting from increased sales of our subscription products which have a relatively fixed-cost base. This was partially offset by higher Insight service revenues which have lower margins. Cost of revenue as a percentage of revenue within our EMEA segment improved to 44.5% from 47.5%. Cost of revenue as a percentage of revenue within our APAC segment improved to 36.2% from 44.0%. These improvements were principally due to an increase in higher margin Insight products combined with a decrease in lower margin services and the impact of foreign currency fluctuations which have a more dramatic impact on revenue than they do cost of revenue resulting in margin improvement. In addition, the restructuring in the third quarter of 2008 reduced costs of revenue in the Americas and EMEA segments.

Selling, General and Administrative Expenses. Selling, general and administrative (SG&A) expenses were \$82.6 million for the quarter ended May 31, 2009, compared to \$72.9 million for the quarter ended May 31, 2008, an increase of \$9.7 million or 13%. Stock-based compensation expense included in SG&A increased \$4.2 million to \$14.2 million. Excluding stock-based compensation, organic SG&A decreased by \$1.9 million as we continue to carefully control operating costs which was partially offset by increased spending related to our quote-to-cash system implementation and other initiatives. Acquisitions contributed \$11.9 million of the increase. Foreign currency movements decreased SG&A by \$4.6 million. As a percentage of revenue and excluding stock-based compensation expense, SG&A decreased from 30.4% for the second quarter of 2008 to 29.1% for the second quarter of 2009.

Depreciation and Amortization Expenses. Depreciation and amortization expenses were \$11.6 million for the quarter ended May 31, 2009, compared to \$9.7 million for the quarter ended May 31, 2008, an increase of \$1.9 million or 20%. The increase was primarily due to acquisitions made within the last year.

Operating Income. Operating income was \$42.3 million for the quarter ended May 31, 2009, compared to \$32.8 million for the quarter ended May 31, 2008, an increase of \$9.5 million or 29%. As a percentage of revenue, operating income increased to 18.0% for the quarter ended May 31, 2009 from 15.8% for the quarter ended May 31, 2008.

Operating income for our Americas segment was \$48.0 million for the quarter ended May 31, 2009, compared to \$39.4 million for the quarter ended May 31, 2008, an increase of \$8.6 million or 22%. The increase was principally due to the additional revenue discussed above coupled with our ability to leverage a relatively fixed-cost structure with our subscriptions-based products. As a percentage of revenue, Americas operating income increased to 32.3% from 31.3% in the second quarter of 2008.

Operating income for our EMEA segment was \$12.7 million for the quarter ended May 31, 2009, compared to \$11.8 million for the quarter ended May 31, 2008, an increase of \$0.9 million or 8%. As a percentage of revenue, EMEA operating income increased to 18.8% for the quarter ended May 31, 2009 compared to 17.7% for the quarter ended May 31, 2008. These increases are primarily due

Table of Contents

to the higher growth in higher margin subscription products in 2009 and decreases in lower margin service offerings along with the impact of foreign currency rates at the Operating Income level.

Operating income for our APAC segment was \$6.5 million for the quarter ended May 31, 2009, compared to \$3.8 million for the quarter ended May 31, 2008, an increase of \$2.7 million or 72%. Operating income increased due to the increase in sales. As a percentage of revenue, APAC operating income improved to 34.3% for the quarter ended May 31, 2009 from 26.5% for the quarter ended May 31, 2008. This increase was due to the mix of products sold with higher growth of higher margin Insight products in the second quarter of 2009.

Operating expenses for our shared services were \$25.1 million for the quarter ended May 31, 2009, compared to \$22.2 million for the quarter ended May 31, 2008, an increase of \$2.9 million or 13%. As a percentage of revenue, operating expenses for our shared services was 10.6% for the quarter ended May 31, 2009 compared to 10.7% for the quarter ended May 31, 2008.

Provision for Income Taxes. Our effective tax rate for the period ended May 31, 2009 was 21.2%, compared to 31.9% for the period ended May 31, 2008. The 2009 rate reflects the impact of our internal legal entity reorganization within EMEA that occurred in the third quarter of 2008 as well as discrete period tax benefits recognized from the successful outcome of a French tax appeal and a favorable UK tax ruling in the second quarter of 2009.

Six Months Ended May 31, 2009 Compared to the Six Months Ended May 31, 2008

Revenue. Revenue was \$470.7 million for the six months ended May 31, 2009, compared to \$406.0 million for the six months ended May 31, 2008, an increase of \$64.7 million or 16%. This increase was driven in part by acquisitions which contributed \$75.5 million, or 19%, and organic growth which contributed \$18.4 million, or 4.5%. Unfavorable foreign currency rates had an adverse translation impact of \$29.2 million, or 7% due to the strengthening U.S. dollar. Moreover, the growth that we attribute to acquisitions was also negatively impacted by foreign currency translation. When taking this into consideration, foreign exchange negatively impacted our overall revenue growth by approximately 10% in the first two quarters of 2009 in comparison to the first two quarters of 2008. Lastly, the stronger U.S. dollar negatively impacted organic growth related to pricing pressures on U.S. dollar denominated revenue streams sold into non-dollar based countries. The amount of this impact is not included in our 10% estimate as it is not possible to compute precisely.

Our subscription based revenue accounted for 77% of our revenue in the quarter and, while growth in this area of the business is slowing, it maintained a 10.8% growth rate over the first half of 2008. Our other revenue types (consulting, transaction and other revenue) have been more greatly impacted by the current economic environment. Transaction and consulting revenue were down organically by 19% and 33%, respectively. These decreases were partially offset by organic growth in other revenue of 3%. Year-to-date cash-based sales of subscription products have grown over the same period prior year, however at a lower growth rate than the 10.8%. As a result, we expect the subscription based revenue growth rates to decline moderately in the second half of 2009. Conversely, our consulting and transaction revenue comparisons to prior year will ease in the second half of 2009 as we experienced lower revenue levels in these areas in the second half of 2008.

Revenue for our Americas segment was \$297.0 million for the six months ended May 31, 2009, compared to \$247.4 million for the same period of 2008, an increase of \$49.6 million or 20%. This increase was driven primarily by acquisitions which added \$42.5 million and organic growth which contributed \$15.1 million or 6% which was in line with overall company growth and was driven by growth in certain subscription

Edgar Filing: IHS Inc. - Form 10-Q

products. Unfavorable foreign currency rates impacted revenue by \$8.0 million.

Revenue for our EMEA segment was \$136.5 million for the six months ended May 31, 2009, compared to \$130.4 million for the six months ended May 31, 2008, an increase of \$6.1 million or 5%. This increase was driven primarily by acquisitions which contributed \$26.7 million. Organic revenue decreased by \$1.2 million due to slowing consulting revenue. Unfavorable foreign currency rates impacted revenue by \$19.4 million

Revenue for our APAC segment was \$37.3 million for the six months ended May 31, 2009, compared to \$28.2 million for the six months ended May 31, 2008, an increase of \$9.1 million or 32%. This increase was driven in part by acquisitions which contributed \$6.4 million and organic growth which contributed \$4.4 million. The organic increase was due primarily to the fact that the APAC region contains a higher percentage of subscription revenue which experienced higher growth rates. Unfavorable foreign currency rates adversely impacted revenue by \$1.8 million.

Revenue for the Energy domain was \$226.4 million for the six months ended May 31, 2009, an increase of \$6.5 million, or 3% over the same period in 2008. This growth was primarily due to an increase in the subscription-based sales which was partially offset by unfavorable foreign currency rates and a decrease in consulting revenue. Product Lifecycle domain revenue was \$143.6 million for the six months ended May 31, 2009, an increase of \$1.8 million, or 1% over the six months ended May 31, 2008. Revenue for the

Table of Contents

Security domain was \$48.2 million for the first two quarters of 2009, an increase of \$12.4 million over the same period in 2008. Environment domain revenue was \$14.4 million for the six months ended May 31, 2009 compared to \$8.4 million for the six months ended May 31, 2008. The increase was primarily from acquisitions. Intersection revenue, which includes product lines that intersect multiple domains, was \$38.1 million in the first half of 2009 and was entirely attributable to acquisitions.

Cost of Revenue. Cost of revenue was \$200.8 million for the six months ended May 31, 2009, compared to \$182.3 million for the six months ended May 31, 2008, an increase of \$18.5 million or 10%. As a percentage of revenue, cost of revenue improved to 42.7% from 44.9%. Cost of revenue as a percentage of revenue within our Americas segment improved to 41.2% from 42.8% resulting from increased sales in our subscription based products which have a relatively fixed-cost base. Cost of revenue as a percentage of revenue within our EMEA segment improved to 45.4% from 47.9%. Cost of revenue as a percentage of revenue within our APAC segment improved to 37.9% from 42.7%. These decreases were principally due to an increase in higher margin subscription based products combined with a decrease in lower margin services and the impact of foreign currency fluctuations which have a more dramatic impact on revenue than they do cost of revenue.

Selling, General and Administrative Expenses. Selling, general and administrative (SG&A) expenses were \$169.1 million for the first half of 2009, compared to \$144.8 million for the first half of 2008, an increase of \$24.3 million or 17%. Stock-based compensation expense included in SG&A increased \$7.6 million to \$30.0 million. Excluding stock-based compensation, organic SG&A growth was \$1.0 million as we incurred costs related to our quote-to-cash system implementation and other initiatives. Acquisitions contributed \$25.2 million of the increase. Foreign currency movements decreased SG&A by \$9.5 million. As a percentage of revenue and excluding stock-based compensation expense, SG&A decreased to 29.5% for the first half of 2009 compared to 30.2% for the first half of 2008.

Depreciation and Amortization Expenses. Depreciation and amortization expenses were \$23.3 million for the six months ended May 31, 2009, compared to \$18.5 million for the six months ended May 31, 2008, an increase of \$4.8 million or 26%. The increase was primarily due to acquisitions made within the last year.

Operating Income. Operating income was \$79.8 million for the six months ended May 31, 2009, compared to \$63.7 million for the six months ended May 31, 2008, an increase of \$16.1 million or 25%. As a percentage of revenue, operating income increased to 17.0% for the first half of 2009 from 15.7% for the same period of 2008.

Operating income for our Americas segment was \$91.7 million for the six months ended May 31, 2009, compared to \$78.0 million for the six months ended May 31, 2008, an increase of \$13.7 million or 18%. The increase was principally due to the additional revenue discussed above coupled with our ability to leverage a relatively fixed-cost structure with our subscriptions-based products. As a percentage of revenue, Americas operating income decreased to 30.9% from 31.5% in the first half of 2008 primarily due to an increase in amortization.

Operating income for our EMEA segment was \$26.6 million for the six months ended May 31, 2009, compared to \$22.4 million for the six months ended May 31, 2008, an increase of \$4.2 million or 19%. As a percentage of revenue, EMEA operating income increased to 19.5% for the six months ended May 31, 2009 compared to 17.2% for the six months ended May 31, 2008. These increases are primarily due to the higher growth in higher margin subscription products in 2009 and decreases in lower margin service offerings along with the impact of foreign currency rates at the Operating Income level.

Edgar Filing: IHS Inc. - Form 10-Q

Operating income for our APAC segment was \$11.5 million for the first half of 2009, compared to \$7.8 million for the same period of 2008, an increase of \$3.7 million or 48%. Operating income increased due to the increase in sales. As a percentage of revenue, APAC operating income increased to 30.9% for the six months ended May 31, 2009 from 27.5% for the six months ended May 31, 2008. This increase was due to the mix of products sold with higher growth of higher margin Critical Information products in 2009.

Operating expenses for our shared services were \$49.9 million for the six months ended May 31, 2009, compared to \$44.4 million for the six months ended May 31, 2008, an increase of \$5.5 million or 12%. As a percentage of revenue, operating expenses for our shared services was 10.6% for the first six months of 2009 compared to 10.9% for the first six months of 2008.

Provision for Income Taxes. Our effective tax rate for the six months ended May 31, 2009 was 22.6%, compared to 32.5% for the six months ended May 31, 2008. The 2009 rate reflects the impact of our internal legal entity reorganization within EMEA that occurred in the third quarter of 2008 as well as discrete period tax benefits recognized from the successful outcome of a French tax appeal and a favorable UK tax ruling in the second quarter of 2009.

Table of Contents

Financial Condition

Accounts Receivable. Accounts receivable has decreased by \$20.4 million, or 10%, to \$187.4 million compared to \$207.8 million as of November 30, 2008. The decrease is attributable primarily to the seasonality of billings which was partially offset by a slight deterioration in our accounts receivable aging.

Accrued Compensation. Accrued compensation was \$28.2 million as of May 31, 2009, compared to \$39.1 million as of November 30, 2008, a decrease of \$10.9 million or 28%. The decrease was primarily attributable to disbursement of annual incentive bonuses during the first quarter partially offset by the accruals made for the 2009 bonus plan through May 31, 2009.

Deferred Revenue. Deferred revenue was \$333.7 million as of May 31, 2009, compared to \$288.1 million as of November 30, 2008, an increase of \$45.6 million or 16%. The increase was primarily attributable to the timing of annual billings as well as both organic and acquisition related growth. Organic deferred revenue increased 7% as of May 31, 2009 compared to May 31, 2008.

Liquidity and Capital Resources

As of May 31, 2009, we had cash and cash equivalents of \$172.3 million and \$115.1 million of debt. We have generated strong cash flows from operations over the last few years. As a result of these factors, as well as the remaining availability of funds under our \$385.0 million credit facility, we believe we will have sufficient cash to meet our working capital and capital expenditure needs.

Our future capital requirements will depend on many factors, including the timing and extent of spending to support product development efforts, future acquisitions, the expansion of sales and marketing activities, the timing of introductions of new products, changing technology, investments in our internal business applications and the continued market acceptance of our offerings. We could be required, or could elect, to seek additional funding through public or private equity or debt financing for any possible future acquisitions. Additional funds may not be available on terms acceptable to us or at all. We expect our capital expenditures, excluding potential acquisitions, to be approximately \$20 million for 2009.

Share Repurchase Program

During 2006, our board of directors approved a program to reduce the dilutive effects of employee equity grants, by allowing employees to surrender shares back to the company for a value equal to their statutory tax liability. IHS then pays the statutory tax on behalf of the employee. Additionally, our board of directors periodically approves additional buyback programs whereby IHS acquires shares in the open market to more

Edgar Filing: IHS Inc. - Form 10-Q

fully offset the dilutive effect of our employee equity programs. During the three months ended May 31, 2009, we repurchased 37,577 shares under the tax withholding program for approximately \$1.7 million, or \$45.78 per share. In the first half of 2009, we repurchased 169,052 shares under the tax withholding program for approximately \$7.5 million, or \$44.34 per share. No shares were repurchased in the first half of 2009 pursuant to a share buyback program. Since the inception of these programs, we have withheld for tax 868,446 shares of our Class A common stock for approximately \$43.2 million, or \$49.72 per share and we have repurchased 1,889,557 shares for approximately \$94.7 million or \$50.13 per share pursuant to the stock buyback program.

Cash Flows

Net cash provided by operating activities was \$116.3 million for the six months ended May 31, 2009, compared to \$95.0 million for the six months ended May 31, 2008, an increase of \$21.3 million. The increase was principally due to our business growing profitably year over year. Additionally, bonus payments were slightly less in the first quarter of 2009 compared to the same period in 2008 and we made lower tax payments in 2009. Our subscription-based business model typically generates a high rate of cash flow and is aided by the following:

- positive working capital characteristics that do not generally require substantial working capital increases to support our growth;
- a cash-for-tax rate that continues to trend lower than our effective tax rate; and
- our well-capitalized balance sheet.

The positive cash flow impact of our growing business in the first half of 2009 was partially offset by an increase in capital expenditures related to new office space build out in our Canada facility and the outflow of cash related to our rationalization efforts that occurred at IHS Global Insight.

Table of Contents

Net cash used in investing activities was approximately \$4.2 million for the six months ended May 31, 2009, compared to \$128.2 million for the six months ended May 31, 2008. The change is driven primarily by acquisitions in the first half of 2008.

Net cash provided by financing activities was \$19.5 million for the six months ended May 31, 2009 compared to a use of \$11.3 million for the six months ended May 31, 2008. Net borrowings from the credit facility were \$28.0 million in the first half of 2009 which were partially offset by the net repayment of a portion of the notes due to the sellers of Prime of \$9.3 million.

Credit Facility and Other Debt

On September 7, 2007, we entered into an amended and restated credit agreement (the Revolver). The \$385 million unsecured revolving credit agreement allows us, under certain conditions, to increase the facility to a maximum of \$500 million. The agreement expires in September 2012.

The interest rates for borrowing under the Revolver are based upon our Leverage Ratio, which is the ratio of Consolidated Funded Indebtedness to rolling four quarter Consolidated Earnings Before Interest Expense, Taxes, Depreciation and Amortization (EBITDA), as defined in the Revolver. The rate ranges from the applicable LIBOR plus 50 basis points to 125 basis points or the agent bank's base rate. A commitment fee is payable periodically and ranges from 10 to 25 basis points based upon our Leverage Ratio. The Revolver contains certain financial and other covenants, including limitations on capital lease obligations and maximum Leverage and Interest Coverage Ratios, as defined in the Revolver.

As of May 31, 2009, we were in compliance with all of the covenants in the agreement and had \$108.0 million of outstanding borrowings with an annual interest rate of 0.94%. This debt is classified as long-term debt as of May 31, 2009 as we have the ability and intent to maintain this balance beyond twelve months. In addition, we had outstanding letters of credit totaling approximately \$1.3 million as of May 31, 2009.

As of May 31, 2009, we also had \$7.1 million of non-interest bearing notes that were issued to the sellers of Prime. These notes are due upon demand and are therefore recorded in Short-term Debt in the accompanying Condensed Consolidated Balance Sheets.

Off-Balance Sheet Transactions

We have no off-balance sheet transactions.

Critical Accounting Policies

Edgar Filing: IHS Inc. - Form 10-Q

Our management makes a number of significant estimates, assumptions and judgments in the preparation of our financial statements. See Management's Discussion and Analysis and Results of Operations Critical Accounting Policies and Estimates in our 2008 Form 10-K for a discussion of the estimates and judgments necessary in our accounting for revenue recognition, valuation of long-lived and intangible assets and goodwill, income taxes, pension and post-retirement benefits, and stock-based compensation.

Item 3. Quantitative and Qualitative Disclosure About Market Risk

For information regarding our exposure to certain market risk, see Item 7A, Quantitative and Qualitative Disclosures About Market Risk, in our 2008 Form 10-K. There were no material changes to our market risk exposure during the first six months of fiscal 2009.

Item 4. Controls and Procedures

(a) Evaluation of disclosure controls and procedures.

Under the supervision and with the participation of the Company's management, including the Chief Executive Officer and Chief Financial Officer, the Company has evaluated the effectiveness of its disclosure controls and procedures pursuant to Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as of the end of the period covered by this report. Based on that evaluation, the Chief Executive Officer and Chief Financial Officer concluded that the Company's disclosure controls and procedures as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended, are effective in ensuring that all material information required to be filed in this quarterly report has been made known to them in a timely fashion.

(b) Changes in internal control over financial reporting.

There were no changes in our internal control over financial reporting that occurred during the period covered by this Form 10-Q that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II. OTHER INFORMATION

Item 1. Legal Proceedings

From time to time, we are involved in litigation, most of which is incidental to our business. In our opinion, no litigation to which we currently are a party is likely to have a material adverse effect on our results of operations or financial condition.

Item 1A. Risk Factors

There have been no material changes to the risk factors associated with the business previously disclosed in Part I, Item 1A of our 2008 Annual Report on Form 10-K.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

None.

Item 3. Defaults Upon Senior Securities

None.

Item 4. Submission of Matters to a Vote of Security Holders

The Annual Meeting of Stockholders of IHS Inc. was held on May 14, 2009.

Election of Directors. The shareholders of IHS elected each of the director nominees proposed by our Board of Directors to serve until the 2012 Annual Meeting of Shareholders or until his successor is duly elected and qualified. The following is a breakdown of the voting results:

Edgar Filing: IHS Inc. - Form 10-Q

DIRECTOR	VOTES FOR	VOTES WITHHELD
Ruann F. Ernst	57,942,614	144,412
Christoph v. Grolman	57,913,004	174,022
Richard W. Roedel	56,670,763	1,416,263

Appointment of Ernst & Young LLP as Independent Auditor. The shareholders of IHS ratified the appointment of Ernst & Young LLP as the Corporation's independent auditor. The following is a breakdown of the voting results:

VOTES FOR	VOTES AGAINST	ABSTAIN	NON VOTES
56,506,364	1,560,596	20,066	0

Tabulation of Voting Results. The voting results include all shares of Class A Common Stock eligible to vote as of the record date. As previously disclosed, during 2008, all shares of Class B Common Stock were converted to Class A common stock and there is no longer any Class B Common Stock outstanding.

Item 5. Other Information.

None.

Item 6. Exhibits

(a) Index of Exhibits
