NOTES TO INTERIM

CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(1) Basis of Presentation

The interim condensed consolidated financial statements of UFP Technologies, Inc. (the Company) presented herein, have been prepared pursuant to the rules of the Securities and Exchange Commission for quarterly reports on Form 10-Q and do not include all the information and note disclosures required by accounting principles generally accepted in the United States of America. These statements should be read in conjunction with the consolidated financial statements and notes thereto for the year ended December 31, 2010, included in the Company's 2010 Annual Report on Form 10-K as filed with the Securities and Exchange Commission.

The condensed consolidated balance sheet as of June 30, 2011, the condensed consolidated statements of income for the three- and six-month periods ended June 30, 2011, and 2010, and the condensed consolidated statements of cash flows for the six-month periods ended June 30, 2011, and 2010, are unaudited but, in the opinion of management, include all adjustments (consisting of normal, recurring adjustments) necessary for a fair presentation of results for these interim periods.

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period.

The results of operations for the three- and six-month periods ended June 30, 2011, are not necessarily indicative of the results to be expected for the entire fiscal year ending December 31, 2011.

(2) New Accounting Pronouncements

In January 2010, the Financial Accounting Standards Board (FASB) amended previously released guidance on fair value measurements and disclosures. The amendment requires disclosure of transfers into and out of Level 1 and Level 2 fair value measurements, and also requires more detailed disclosure about the activity within Level 3 fair value measurements. The required disclosures regarding transfers into and out of Level 1 and Level 2 fair value measurements were effective for the Company as of January 1, 2010, and did not have a significant impact on the Company's disclosures. The amendment's requirements related to Level 3 disclosures were effective for the Company as of January 1, 2011. This guidance affects disclosures only and have no impact on the Company's condensed consolidated financial statements.

In May 2011, the FASB issued Accounting Standards Update No. 2011-04, *Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in GAAP and IFRS* (ASU 2011-04), which amends ASC 820 *Fair Value Measurement*. ASU 2011-04 improves the comparability of fair value measurements presented and disclosed in financial statements prepared in accordance with U.S. GAAP and

Edgar Filing: UFP TECHNOLOGIES INC - Form 10-Q

International Financial Reporting Standards. The amended guidance changes the wording used to describe many requirements in U.S. GAAP for measuring fair value and for disclosing information about fair value measurements. Additionally, the amendments clarify the FASB's intent about the application of existing fair value measurement and disclosure requirements.

Table of Contents

Although ASU 2011-04 is not expected to have a significant effect on practice, it changes some fair value measurement principles and disclosure requirements. ASU 2011-04 is effective for interim and annual periods beginning after December 15, 2011, and must be applied prospectively. Early application is not permitted. We do not anticipate that the adoption of ASU 2011-04 will have a material impact on our financial position or the results of our operations.

(3) Supplemental Cash Flow Information

Cash paid for interest and income taxes is as follows:

	Six Months Ended	
	30-Jun-11	30-Jun-10
Interest	\$ 62,000	\$ 92,440
Income taxes, net of refunds	\$ 1,354,000	\$ 2,769,000

During the six-month periods ended June 30, 2011, and 2010, the Company permitted the exercise of stock options with exercise proceeds paid with the Company's stock (cashless exercises) totaling \$93,879 and \$343,750, respectively.

(4) Investment in Affiliated Partnership

The Company has a 26.32% ownership interest in a realty limited partnership, United Development Company Limited (UDT). The Company has consolidated the financial statements of UDT for all periods presented because it has determined that UDT is a VIE, and the Company is the primary beneficiary. UDT owns a building, which is leased to the Company. The lease payments from the Company account for 100% of UDT's revenue. Therefore, the Company believes it has the power to direct the activities of UDT that most significantly impact the entity's economic performance and the obligation to absorb losses of UDT or the right to receive benefits from UDT that could potentially be significant to UDT. In addition to the lease arrangement, the Company's management provides management services to UDT in certain situations. The creditors of UDT have no recourse to the general credit of the Company.

Included in the condensed consolidated balance sheets are the following amounts related to UDT:

	30-Jun-2011	31-Dec-2010
Cash	\$ 236,219	\$ 277,698
Net property, plant, and equipment	691,552	1,115,974
Accrued expenses	24,150	12,900
Current and long-term debt		666,875

(5) Fair Value Accounting

Edgar Filing: UFP TECHNOLOGIES INC - Form 10-Q

Financial instruments recorded at fair value in the condensed consolidated balance sheets, or disclosed at fair value in the footnotes, are categorized below based upon the level of judgment associated with the inputs used to measure their fair value. Hierarchical levels defined by ASC 820, *Fair Value Measurements and Disclosures*, which are directly related to the amount of subjectivity associated with inputs to fair valuation of these assets and liabilities are as follows:

Level 1 Valued based on unadjusted, quoted prices in active markets for identical assets or liabilities at the measurement date. An active market for the asset or liability is a market in which

Table of Contents

transactions for the asset or liability occur with sufficient frequency and volume to provide pricing information on an ongoing basis.

Level 2 Valued based on either directly or indirectly observable prices for the asset or liability through correlation with market data at the measurement date and for the duration of the instrument's anticipated life.

Level 3 Valued based on management's best estimate of what market participants would use in pricing the asset or liability at the measurement date. Consideration is given to the risk inherent in the valuation technique and the risk inherent in the inputs to the model.

The Company's assets and liabilities that are measured at fair value consist of money market funds and certificates of deposit, both considered cash equivalents, which are categorized by the levels discussed above and in the table below:

30-Jun-2011	Level 1	Level 2	Level 3	Total
Money market funds	\$ 9,632,000	\$	\$	\$ 9,632,000
Certificates of deposit		4,500,000		\$ 4,500,000
Total	\$ 9,632,000	\$ 4,500,000	\$	\$ 14,132,000

31-Dec-2010	Level 1	Level 2	Level 3	Total
Money market funds	\$ 9,500,000	\$	\$	\$ 9,500,000
Certificates of deposit		4,500,000		\$ 4,500,000
Total	\$ 9,500,000	\$ 4,500,000	\$	\$ 14,000,000

As of June 30, 2011, the Company does not have any significant non-recurring measurements of nonfinancial assets and nonfinancial liabilities. The Company may have additional disclosure requirements in the event an impairment of the Company's nonfinancial assets occurs in a future period.

Fair Value of Other Financial Instruments

The Company has other financial instruments, such as accounts receivable, accounts payable and accrued taxes and other expenses, which are stated at carrying amounts that approximate fair value because of the short maturity of those instruments. The carrying amount of the Company's long-term debt approximates fair value as the interest rate on the debt approximates the Company's current incremental borrowing rate.

(6) Share-Based Compensation

Edgar Filing: UFP TECHNOLOGIES INC - Form 10-Q

At the annual meeting of stockholders held on June 8, 2011, the stockholders voted to increase the maximum number of shares issuable under the 2003 Incentive Plan from 1,250,000 to 2,250,000.

Share-based compensation cost is measured at the grant date based on the calculated fair value of the award and is recognized as an expense over the employee's requisite service period (generally the vesting period of the equity grant).

The Company issues share-based payments through several plans that are described in detail in the notes to the consolidated financial statements for the year ended December 31, 2010. The compensation cost charged against income for those plans is as follows:

Edgar Filing: UFP TECHNOLOGIES INC - Form 10-Q

Table of Contents

	Three Months Ended		Six Months Ended	
	30-Jun-2011	30-Jun-2010	30-Jun-2011	30-Jun-2010
Cost of sales	\$	\$	\$	\$
Selling, general & administrative expense	382,022	375,786	681,357	570,624
Total share-based compensation expense	\$ 382,022	\$ 375,786	\$ 681,357	\$ 570,624

Share-based compensation for the three- and six-month periods ended June 30, 2011, include \$59,958 of the Company's stock granted to the Board of Directors in lieu of fees. There were no shares issued in the same periods ended June 30, 2010.

The total income tax benefit recognized in the condensed consolidated statements of income for share-based compensation arrangements was approximately \$134,000 and \$136,000 for the three-month periods ended June 30, 2011, and 2010, respectively, and approximately \$219,000 and \$206,000 for the six-month periods ended June 30, 2011, and 2010, respectively.

The following is a summary of stock option activity under all plans for the six-month period ended June 30, 2011:

	Shares Under Options	Weighted Average Exercise Price	Aggregate Intrinsic Value
Outstanding at December 31, 2010	764,496	\$ 4.12	
Granted	13,205	16.17	
Exercised	(113,680)	1.43	
Cancelled or expired			
Outstanding at June 30, 2011	664,021	4.83	\$ 9,359,233
Options exercisable at June 30, 2011	610,271	4.47	\$ 8,820,146
Vested and expected to vest at June 30, 2011	664,021	4.83	\$ 9,359,233

During the six months ended June 30, 2011, and 2010, the total intrinsic value of all options exercised (i.e., the difference between the market price on the exercise date and the price paid by the employees to exercise the options) was \$1,823,092 and \$1,747,962, respectively, and the total amount of consideration received from the exercised options was \$162,182 and \$655,627, respectively.

During the three-month periods ended June 30, 2011, and 2010, the Company recognized compensation expenses related to stock options granted to directors and employees of \$84,467 and \$163,244, respectively. During the six-month periods ended June 30, 2011, and 2010, the Company recognized compensation expenses related to stock options granted to directors and employees of \$104,747 and \$170,753, respectively.

On March 2, 2011, the Company's Compensation Committee approved the issuance of 25,000 shares of common stock to the Company's Chairman, Chief Executive Officer, and President under the 2003 Incentive Plan. The shares will be issued on or before December 31, 2011. The Company has recorded compensation expense of \$106,251 and \$212,502 during the three- and six-month periods ended June 30, 2011, based on the grant date price of \$16.93 at March 2, 2011.

Edgar Filing: UFP TECHNOLOGIES INC - Form 10-Q

Table of Contents

The following table summarizes information about Restricted Stock Units (RSUs) activity during the six-month period ended June 30, 2011:

	Restricted Stock Units	Weighted Average Award Date Fair Value
Outstanding at December 31, 2010	251,694	\$ 5.80
Awarded	33,663	18.27
Shares vested	(54,706)	5.13
Forfeited / cancelled		
Outstanding at June 30, 2011	230,651	7.78

During the three- and six-month periods ended June 30, 2011, the Company recorded compensation expense related to RSUs of \$131,346 and \$254,150, respectively. The Company recorded \$164,417 and \$303,621 for the same periods ended June 30, 2010.

At its discretion, the Company allows option and RSU holders to surrender previously owned common stock in lieu of paying the withholding taxes due upon the exercise of options or the vesting of RSUs. During the six-month periods ended June 30, 2011, and 2010, 35,930 and 29,213 shares were surrendered at an average market price of \$17.78 and \$10.42, respectively.

It has been the Company's practice to allow executive officers to take a portion of their earned bonuses in the form of the Company's common stock. The value of the stock received by executive officers, measured at the closing price on the date of grant, was \$55,000 and \$79,248 for the six-month periods ended June 30, 2011, and 2010, respectively.

(7) Inventories

Inventories are stated at the lower of cost (first-in, first-out) or market, and consist of the following at the stated dates:

	30-Jun-2011	31-Dec-2010
Raw materials	\$ 6,134,037	\$ 5,214,268
Work in process	735,373	695,421
Finished goods	2,772,552	2,570,135
Less reserves for obsolescence	(651,488)	(435,488)
Total inventory	\$ 8,990,474	\$ 8,044,336

(8) Preferred Stock

On March 18, 2009, the Company declared a dividend of one preferred share purchase right (a Right) for each outstanding share of common stock, par value \$0.01 per share, on March 20, 2009, to the stockholders of record on that date. Each Right entitles the registered holder to

Edgar Filing: UFP TECHNOLOGIES INC - Form 10-Q

purchase from the Company one one-thousandth of a share of Series A Junior Participating Preferred Stock, par value \$0.01 per share (the Preferred Share) of the Company, at a price of \$25 per one one-thousandth of a Preferred Share subject to adjustment and the terms of the Rights Agreement. The Rights expire on March 19, 2019.

Table of Contents

(9) Income Per Share

Basic income per share is based on the weighted average number of shares of common stock outstanding. Diluted income per share is based upon the weighted average of common shares and dilutive common stock equivalent shares outstanding during each period.

The weighted average number of shares used to compute basic and diluted net income per share consisted of the following:

	Three Months Ended		Six Months Ended	
	30-Jun-2011	30-Jun-2010	30-Jun-2011	30-Jun-2010
Weighted average common shares outstanding, basic	6,465,968	6,138,249	6,429,945	6,067,966
Weighted average common equivalent shares due to stock options and RSUs	515,870	587,149	544,161	622,928
Weighted average common shares outstanding, diluted	6,981,838	6,725,398	6,974,106	6,690,894

The computation of diluted earnings per share excludes the effect of the potential exercise of stock awards, including stock options, when the average market price of the common stock is lower than the exercise price of the related options during the period. These outstanding stock awards are not included in the computation of diluted income per share because the effect would have been antidilutive. For the three- and six-month periods ended June 30, 2011, the number of stock awards excluded from the computation was 3,338 and 1,678, respectively. For the three- and six-month periods ended June 30, 2010, the number of stock awards excluded from the computation was 107,118 for both periods.

(10) Segment Reporting

The Company is organized based on the nature of the products and services it offers. Under this structure, the Company produces products within two distinct segments: Engineered Packaging and Component Products. Within the Engineered Packaging segment, the Company primarily uses polyethylene and polyurethane foams, sheet plastics, and pulp fiber to provide customers with cushion packaging for their products. Within the Component Products segment, the Company primarily uses cross-linked polyethylene and technical urethane foams to provide customers in the automotive, athletic, leisure, and health and beauty industries with custom-designed products for numerous purposes.

The accounting policies of the segments are the same as those described in Note 1 to the consolidated financial statements contained in the Company's annual report on Form 10-K for the year ended December 31, 2010, as filed with the Securities and Exchange Commission. The Company evaluates the performance of its operating segments based on operating income.

Inter-segment transactions are uncommon and not material. Therefore, they have not been reflected separately in the financial table below. Revenues from customers outside of the United States are not material. One customer in the Component Products segment comprised 10.4% of the Company's consolidated revenues for the six-month period ended June 30, 2011. All of the Company's assets are located in the United States.

Table of Contents

The Company has expanded the disclosure of various financial statement accounts in its segment reporting and, in doing so, has revised its allocation of corporate assets to the two segments to present cash and cash equivalents as unallocated assets. Prior year numbers have been adjusted to conform to the same allocation method.

	Three Months Ended 6/30/11				Three Months Ended 6/30/10			
	Engineered Packaging	Component Products	Unallocated Assets	Total UFPT	Engineered Packaging	Component Products	Unallocated Assets	Total UFPT

ITEM 2: MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Forward-looking Statements

This report contains certain statements that are forward-looking statements as that term is defined under the Private Securities Litigation Reform Act of 1995 and releases issued by the Securities and Exchange Commission. The words believe, expect, anticipate, intend, plan, estimate, and other expressions, which are predictions of or indicate future events and trends and that do not relate to historical matters, identify forward-looking statements. Examples of forward-looking statements included in this report include, without limitation, statements regarding the anticipated performance of the Company, the anticipated impact on the Company and its revenues of the end of a substantial portion of its large automotive door panel program, expected methods of growth for the Company, statements regarding prospects for the markets in which the Company competes, and the overall economy.

Forward-looking statements involve known and unknown risks, uncertainties and other factors, which may cause the actual results, performance, or achievements of the Company to differ materially from anticipated future results, performance, or achievements expressed or implied by such forward-looking statements. Other examples of these risks, uncertainties, and other factors include, without limitation, the following: economic conditions that affect sales of the products of the Company's customers, risks associated with the identification of suitable acquisition candidates and the successful, efficient execution and integration of

Table of Contents

such acquisitions, actions by the Company's competitors, and the ability of the Company to respond to such actions, the ability of the Company to obtain new customers, the ability of the Company to achieve positive results in spite of competition and the conclusion of a substantial portion of its large automotive door panel program, evolving customer requirements, difficulties associated with the roll-out of new products, decisions by customers to cancel or defer orders for the Company's products that previously had been accepted, the costs of compliance with the requirements of Sarbanes-Oxley, and general economic and industry conditions and other factors. In addition to the foregoing, the Company's actual future results could differ materially from those projected in the forward-looking statements as a result of the risk factors set forth elsewhere in this report and changes in general economic conditions, interest rates and the assumptions used in making such forward-looking statements. All of the forward-looking statements are qualified in their entirety by reference to the risk factors and other disclaimers described in the Company's filings with the Securities and Exchange Commission, in particular its most recent Annual Report on Form 10-K. The Company undertakes no obligation to publicly update or revise any forward-looking statement, whether as a result of new information, future events or otherwise.

Overview

UFP Technologies is an innovative designer and custom converter of foams, plastics, and fiber products. The Company serves a myriad of markets, but specifically targets opportunities in the medical and scientific, automotive, computers and electronics, aerospace and defense, consumer, and industrial markets.

In the first six months of 2011 the Company experienced organic sales growth of 10.8%, reflecting increased demand for products from the automotive and defense and aerospace markets. The ability of the Company to leverage this sales growth as well as one-time gains and moving allowances associated with the sale of real estate in Alabama by UDT allowed the Company to generate a 34% increase in operating income.

On January 13, 2011, United Development Company Limited (UDT) sold its Alabama facility (Packaging segment) for approximately \$1,250,000. The net book value of the asset at December 31, 2010, was approximately \$384,000. Selling expenses of approximately \$37,000 were incurred. From the proceeds, UDT paid the Company \$250,000 to partially offset future expected moving costs of \$300,000.

A substantial portion of a large automotive door program ended on June 30, 2011. The Company expects that the end of this program will result in reduced revenues of approximately \$625,000 per month in its Georgia facility in the second half of 2011, as compared to the same period of 2010.

The Company's current strategy includes organic growth and growth through strategic acquisitions.

Sales

Sales for the three-month period ended June 30, 2011, increased 11.8% to \$33.5 million from sales of \$30.0 million for the same period in 2010. Sales for the six-month period ended June 30, 2011, were \$65.0 million or 10.8% higher than sales of \$58.7 million for the same period in 2010. The increase in sales for the three-month period ended June 30, 2011, is primarily due to increased sales of interior trim parts to the

Edgar Filing: UFP TECHNOLOGIES INC - Form 10-Q

automotive industry, including sales in its automotive door program, of approximately \$2.8 million (Component Products segment) and an increase in sales of molded fiber packaging of approximately \$600,000 (Packaging segment) partially offset by a decrease in sales of approximately \$1.4 million due to the loss of a portion of a large medical account in the second half of 2010 (Component Products segment). The increase in sales for the six-month period ended June 30, 2011, was primarily due to increased sales of interior trim parts to the automotive industry of approximately \$4.4 million

Table of Contents

(Component Products segment) and an increase in sales of parts to the defense and aerospace market of approximately \$1.6 million (Packaging segment) partially offset by a decrease in sales of approximately \$3.1 million due to the loss of a portion of a large medical account in the second half of 2010 (Component Products segment).

Gross Profit

Gross profit as a percentage of sales (gross margin) decreased slightly to 29.9% for the three-month period ended June 30, 2011, from 30.2% for the same period in 2010. Gross margin increased to 28.9% for the six-month period ended June 30, 2011, from 28.1% for the same period in 2010. The decrease in gross margin for the three-month period ended June 30, 2011 is primarily due to a change in product mix (higher automotive sales; material as a percentage of sales increased 0.7%) partially offset by the fixed components of cost of sales (overhead) measured against higher sales. The increase in gross margin for the six-month period ended June 30, 2011 is primarily due to the fixed components of cost of sales (overhead) measured against higher sales.

Selling, General and Administrative Expenses

Selling, general, and administrative expenses (SG&A) increased approximately \$300,000 or 5.6% to \$5.7 million for the three-month period ended June 30, 2011, from \$5.4 million for the same period in 2010. SG&A increased approximately \$1.0 million or 9.7 % to \$11.4 million for the six-month period ended June 30, 2011, from \$10.4 million in the same 2010 period. The \$300,000 increase in SG&A is primarily the result of an increase in professional fees of approximately \$200,000 associated with the development of enhanced internal operating and information systems as well as approximately \$100,000 in additional administrative salaries and wages. The \$1.0 million increase in SG&A for the six-month period ended June 30, 2011 was primarily due to an increase in professional fees of approximately \$500,000 associated with the development of enhanced internal operating and information systems and a re-branding and marketing project, as well as approximately \$300,000 in additional administrative salaries and wages.

As a percentage of sales, SG&A decreased to 17.0% and 17.6% for the three- and six-month periods ended June 30, 2011, from 18.0% and 17.7% for the same three- and six-month periods of 2010. The decreases in SG&A as a percentage of sales are primarily due to the relatively fixed-cost nature of SG&A measured against higher sales.

Gain on Sales of Assets

The gain on sale of assets of approximately \$834,000 was derived primarily from the sale of real estate in Alabama by UDT. Of this \$834,000 gain, approximately \$428,000 relates to non-controlling interests that have been deducted to determine net income attributable to UFP Technologies, Inc.

Other Expenses

Edgar Filing: UFP TECHNOLOGIES INC - Form 10-Q

The Company had net interest expense of approximately \$12,000 and \$13,000 for the three- and six-month periods ended June 30, 2011, compared to net interest expense of approximately \$34,000 and \$69,000, respectively, for the same periods in 2010. This change is primarily due to lower average borrowings and interest earned on an increased cash position.

The Company recorded a tax expense of approximately 37% of income before income tax expense, excluding net income attributable to noncontrolling interests, for the three- and six-month periods ended

Table of Contents

June 30, 2011, which was significantly similar to the same three- and six-month periods of 2010. For the three- and six-month periods ended June 30, 2011, this resulted in an effective tax rate of approximately 37% and 35%, respectively, since the noncontrolling interest in UDT is not subject to corporate income tax.

Liquidity and Capital Resources

The Company funds its operating expenses, capital requirements, and growth plan through internally generated cash and bank credit facilities.

At June 30, 2011, and December 31, 2010, the Company's working capital was approximately \$43.6 million and \$38.3 million, respectively. The \$5.3 million increase in working capital for the six-month period ended June 30, 2011, is primarily due to an increase in cash of approximately \$3.7 million (strong cash flows and sale of UDT building), an increase in receivables, net of approximately \$1.5 million (strong June sales), and an increase in inventories of approximately \$950,000 million (higher production activity).

Net cash provided by operations for the six-month periods ended June 30, 2011, and 2010, was approximately \$5.0 million in both periods. Although the net numbers are comparable, the components differ in several accounts: (i) an increase in net income from consolidated operations of approximately \$1.5 million, (ii) an increase in receivables, net during the six-month period ended June 30, 2011, of approximately \$1.5 million due to strong June 2011 sales compared to an increase in receivables, net of approximately \$122,000 during the comparable period of 2010, (iii) the collection of approximately \$558,000 in tax receivables during the six-month period ended June 30, 2011, and (iv) an increase in accrued expenses of approximately \$92,000 during the six-month period ended June 30, 2011 compared to a decrease in accrued expenses of approximately \$1.1 million in the comparable period of 2010.

Cash provided by investing activities during the six-month period ended June 30, 2011, was approximately \$213,000 and was primarily the result of proceeds from the sale of real estate in Alabama of approximately \$1.2 million, partially offset by normal additions of manufacturing machinery and equipment of approximately \$1 million.

Cash used in financing activities was approximately \$1.5 million in the six-month period ended June 30, 2011 compared to cash provided by financing activities of approximately \$87,000 in the comparable period of 2010. The increase in cash used in financing activities is due primarily to an increase in payments of statutory withholdings for stock options exercised and restricted stock units of approximately \$335,000, due to more options being exercised and a higher average stock price as well as the payoff of approximately \$620,000 of mortgage debt at UDT.

On January 29, 2009, the Company amended and extended its credit facility with Bank of America, NA. The facility comprises: (i) a revolving credit facility of \$17 million; (ii) a term loan of \$2.1 million with a seven-year straight-line amortization; (iii) a term loan of \$1.8 million with a 20-year straight-line amortization; and (iv) a term loan of \$4.0 million with a 20-year straight-line amortization. Extensions of credit under the revolving credit facility are based in part upon accounts receivable and inventory levels. Therefore, the entire \$17 million may not be available to the Company. At June 30, 2011, the Company had availability of approximately \$16.9 million, based upon collateral levels as of that date. The credit facility calls for interest of LIBOR plus a margin that ranges from 1.0% to 1.5% or, at the option of the Company, the bank's prime rate less a margin that ranges from 0.25% to zero. In both cases the applicable margin is dependent upon Company performance. The loans are collateralized by a first priority lien on all of the Company's assets, including its real estate located in Georgetown, Massachusetts, and in Grand Rapids, Michigan. Under the credit facility, the Company is subject to a minimum fixed-charge coverage

Edgar Filing: UFP TECHNOLOGIES INC - Form 10-Q

Table of Contents

financial covenant with which it was in compliance at June 30, 2011. The Company's \$17 million revolving credit facility matures November 30, 2013; the term loans are all due on January 29, 2016. The interest rate on these facilities was approximately 1.24% at June 30, 2011.

The Company has no significant capital commitments in 2011, but plans on adding capacity to enhance operating efficiencies in its manufacturing plants. The Company may consider additional acquisitions of companies, technologies, or products in 2011 that are complementary to its business. The Company believes that its existing resources, including its revolving credit facility, together with cash generated from operations and funds expected to be available to it through any necessary equipment financing and additional bank borrowings, will be sufficient to fund its cash flow requirements, including capital asset acquisitions, through at least the end of 2011.

Commitments, Contractual Obligations, and Off-Balance Sheet Arrangements

The following table summarizes the Company's commitments, contractual obligations, and off-balance sheet arrangements at June 30, 2011, and the effect such obligations are expected to have on its liquidity and cash flow in future periods:

Funds due in	Operating Leases	Grand Rapids Mortgage	Equipment Loan	Term Loans	Georgetown Mortgage	Debt Interest	Supplemental Retirement Plan	Total
2011	\$ 865,691	\$ 100,000	\$ 30,489	\$ 144,180	\$ 46,150	\$ 79,556	\$ 37,500	\$ 1,303,566
2012	1,635,901	200,000		288,360	92,300	148,225	75,000	2,439,786
2013	920,534	200,000		288,360	92,300	133,708	75,000	1,709,902
2014	605,718	200,000		288,360	92,300	119,192	45,833	1,351,403
2015 & after	30,135	2,833,333		336,424	1,307,583	360,588	125,000	4,993,063
	\$ 4,057,979	\$ 3,533,333	\$ 30,489	\$ 1,345,684	\$ 1,630,633	\$ 841,269	\$ 358,333	\$ 11,797,720

The Company requires cash to pay its operating expenses, purchase capital equipment, and to service the obligations listed above. The Company's principal sources of funds are its operations and its revolving credit facility. Although the Company generated cash from operations during the six-month period ended June 30, 2011, it cannot guarantee that its operations will generate cash in future periods.

ITEM 3: QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

The following discussion of the Company's market risk includes forward-looking statements that involve risk and uncertainties. Actual results could differ materially from those projected in the forward-looking statements. Market risk represents the risk of changes in value of a financial instrument caused by fluctuations in interest rates, foreign exchange rates, and equity prices. At June 30, 2011, the Company's cash and cash equivalents consisted of bank accounts in U.S. dollars, and their valuation would not be affected by market risk. The Company has several debt instruments where interest is based upon either the prime rate or LIBOR and, therefore, future operations could be affected by interest rate changes. However, the Company believes that the market risk of the debt is minimal.

Table of Contents

ITEM 4: CONTROLS AND PROCEDURES

As of the end of the period covered by this report, the Company's Chief Executive Officer and Chief Financial Officer performed an evaluation of the effectiveness of the Company's disclosure controls and procedures (as defined in SEC Rule 13a-15(e) or 15d-15(e)). Based upon that evaluation, they concluded that the Company's disclosure controls and procedures were effective to ensure that information required to be disclosed by the Company in the reports that it files or submits under the Securities Exchange Act of 1934 is recorded, processed, summarized, and reported within the time periods specified in the Securities and Exchange Commission's rules and forms.

There has been no change in the Company's internal control over financial reporting during the most recent fiscal quarter that has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.

PART II: OTHER INFORMATION

ITEM 1A: RISK FACTORS

Information regarding risk factors appears in Part I Item 2 of this Form 10-Q in Management's Discussion and Analysis of Financial Condition and Results of Operations under Forward-Looking Statements and in our Annual Report on Form 10-K for the fiscal year ended December 31, 2010, in Part I Item 1A under Risk Factors. There have been no material changes from the risk factors previously disclosed in Item 1A of our Annual Report on Form 10-K for the fiscal year ended December 31, 2010.
