**Safe Harbor Statement**

The matters discussed in this Quarterly Report contain forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. These statements, which are not statements of historical fact, contain estimates, assumptions, projections and/or expectations regarding future events, which may or may not occur. Words such as aim, anticipate, assume, believe, continue, could, estimate, expect, foresee, guidance, intend, may, might, objective, plan, potential, project, seek, shall, should, target, will, and other expressions that refer to future events and trends, identify forward-looking statements. These forward-looking statements, and financial or other business targets, are subject to certain risks and uncertainties, which could cause our actual results to differ materially from the expected results, performance or achievements expressed or implied by such forward-looking statements.

Certain risks and uncertainties are discussed in more detail under Risk Factors and Management's Discussion and Analysis of Financial Condition and Results of Operations in our Annual Report on Form 10-K for the fiscal year ended December 30, 2017, and subsequent quarterly reports on Form 10-Q, and include, but are not limited to, risks and uncertainties relating to the following: fluctuations in demand affecting sales to customers; worldwide and local economic conditions; changes in political conditions; changes in governmental laws and regulations; fluctuations in foreign currency exchange rates and other risks associated with foreign operations, including in emerging markets; the financial condition and inventory strategies of customers; changes in customer preferences; fluctuations in cost and availability of raw materials; our ability to generate sustained productivity improvement; our ability to achieve and sustain targeted cost reductions; the impact of competitive products and pricing; loss of significant contracts or customers; collection of receivables from customers; selling prices; business mix shift; execution and integration of acquisitions; timely development and market acceptance of new products, including sustainable or sustainably-sourced products; investment in development activities and new production facilities; amounts of future dividends and share repurchases; customer and supplier concentrations; successful implementation of new manufacturing technologies and installation of manufacturing equipment; disruptions in information technology systems, including cyber-attacks or other intrusions to network security; successful installation of new or upgraded information technology systems; data security breaches; volatility of financial markets; impairment of capitalized assets, including goodwill and other intangibles; credit risks; our ability to obtain adequate financing arrangements and maintain access to capital; fluctuations in interest and tax rates; changes in tax laws and regulations, including the Tax Cuts and Jobs Act, and uncertainties associated with interpretations of such laws and regulations; outcome of tax audits; fluctuations in pension, insurance, and employee benefit costs, including risks related to the planned termination of our U.S. pension plan; the impact of legal and regulatory proceedings, including with respect to environmental, health and safety; protection and infringement of intellectual property; the impact of epidemiological events on the economy and our customers and suppliers; acts of war, terrorism, and natural disasters; and other factors.

We believe that the most significant risk factors that could affect our financial performance in the near-term include: (1) the impacts of global economic conditions and political uncertainty on underlying demand for our products and foreign currency fluctuations; (2) the degree to which higher costs can be offset with productivity measures and/or passed on to customers through selling price increases, without a significant loss of volume; (3) competitors' actions, including pricing, expansion in key markets, and product offerings; and (4) the execution and integration of acquisitions.

Our forward-looking statements are made only as of the date hereof. We assume no duty to update these forward-looking statements to reflect new, changed or unanticipated events or circumstances, other than as may be required by law.

**NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS**

**Note 1. General**

The unaudited Condensed Consolidated Financial Statements and notes thereto in this Quarterly Report on Form 10-Q are presented as permitted by Article 10 of Regulation S-X and do not contain certain information included in the audited Consolidated Financial Statements and notes thereto in our 2017 Annual Report on Form 10-K, which should be read in conjunction with this Quarterly Report on Form 10-Q. The accompanying unaudited Condensed Consolidated Financial Statements contain all adjustments, of a normal and recurring nature, necessary for a fair statement of our interim results. Interim results of operations are not necessarily indicative of future results.

***Fiscal Periods***

The three and six months ended June 30, 2018 and July 1, 2017 each consisted of thirteen-week and twenty-six week periods, respectively.

***Reclassifications***

Certain prior year amounts have been reclassified to conform to the current year presentation.

***Accounting Guidance Updates***

***Revenue Recognition***

In the first quarter of 2018, we adopted an accounting guidance update that provides a single comprehensive model on accounting for revenue arising from contracts with customers and supersedes most current revenue recognition guidance, including industry-specific guidance. We adopted this guidance using the modified retrospective method, which means that reporting periods beginning in 2018 are presented in accordance with this guidance, while prior period amounts continue to be reported in accordance with the previous guidance. As allowed by this guidance, we began to apply it for contracts with customers that were not completed as of the beginning of 2018. As a result of the adoption of this guidance, the allowance for customer returns, presented as a reduction of trade accounts receivable in prior years, is now presented as a returns liability in Other current liabilities. As of June 30, 2018, the returns liability was \$12 million. Our adoption of this guidance did not have a material impact on our financial position, results of operations, or cash flows. The disclosures required by this guidance are included in Note 2, Revenue Recognition, and Note 14, Segment and Disaggregated Revenue Information.

***Presentation of Net Periodic Benefit Costs***

In the first quarter of 2018, we adopted an accounting guidance update that requires employers with defined benefit plans to present the service cost component of net periodic benefit cost in the same income statement line item(s) as other employee compensation costs arising from

## Edgar Filing: Avery Dennison Corp - Form 10-Q

services rendered during the period. Employers are required to present the other components of net periodic benefit cost separately from the line item(s) that includes the service cost and outside of any subtotal of operating income. Components other than the service cost component are no longer eligible for capitalization in assets. Employers are required to apply the portion of this guidance on the presentation of the components of net periodic benefit cost in the income statement retrospectively, while the portion of this guidance that limits the capitalization of net periodic benefit cost in assets to the service cost component must be applied prospectively.

Prior year results have been reclassified as required by this guidance. The effects of our adoption of this guidance on our unaudited Condensed Consolidated Statements of Income for the prior year were as follows:

(In millions)	Three Months Ended July 1, 2017			Six Months Ended July 1, 2017		
	As Previously Reported	Reclassification	As Reclassified	As Previously Reported	Reclassification	As Reclassified
Marketing, general and administrative expense	\$ 276.7	\$ (5.9)	\$ 270.8	\$ 560.0	\$ (9.4)	\$ 550.6
Other non-operating expense		5.9	5.9		9.4	9.4

Table of Contents

Avery Dennison Corporation

*Classification of Certain Cash Payments*

In the first quarter of 2018, we adopted an accounting guidance update that reduces the diversity in the presentation and classification of certain cash receipts and cash payments in the statement of cash flows.

Prior year results have been reclassified as required by this guidance. The effects of our adoption of this guidance, which primarily relate to the classification of corporate-owned life insurance cash flows, on our unaudited Condensed Consolidated Statements of Cash Flows for the prior year were as follows:

(In millions)	<b>Six Months Ended July 1, 2017</b>		
	<b>As Previously Reported</b>	<b>Reclassification</b>	<b>As Reclassified</b>
Net cash provided by operating activities	\$ 178.3	\$ (2.7)	\$ 175.6
Net cash used in investing activities	(386.2)	2.7	(383.5)

*Intra-Entity Transfers of Assets Other Than Inventory*

In the first quarter of 2018, we adopted an accounting guidance update that requires companies to recognize the income tax effects of intra-entity sales and transfers of assets other than inventory in the period in which those occur. Upon adoption, we derecognized tax-related deferred charges and recognized deferred tax assets related to certain intra-entity asset transfers as a \$14 million net reduction to retained earnings.

**Note 2. Revenue Recognition**

Sales are recognized when or as we satisfy a performance obligation by transferring control of a product or service to a customer, in an amount that reflects the consideration to which we expect to be entitled in exchange for the product or service. We consider a number of factors in determining when we have transferred control to a customer, including the following: (i) our present right to payment; (ii) the customer's legal title to the asset; (iii) physical possession of the asset; (iv) the customer's significant risks and rewards of ownership of the asset; and (v) the customer's acceptance of the asset.

Generally, payment terms with our customers are consistent with those used in our industries and the regions in which we operate.

Sales returns are accepted in certain limited circumstances. We record an estimate for returns liabilities and a corresponding reduction to sales, in the amount we expect to repay or credit customers, which we base on historical actual returns and outstanding customer claims. Changes in estimates are updated each reporting period.

## Edgar Filing: Avery Dennison Corp - Form 10-Q

Sales rebates, discounts, and other customer concessions are common in the industries in which we operate and are accounted for as a reduction in sales, in an amount based on estimates at the time at which products are sold. These estimates are based on our historical experience, as well as current information such as sales forecasts. We review our estimates regularly and, as additional information becomes available, we adjust our sales and the respective accruals, if necessary.

Sales tax, value-added tax, and other taxes we collect from customers are excluded from sales.

Shipping and handling activities after control of a product is transferred to a customer are accounted for as a fulfillment cost and not as a separate performance obligation.

We do not disclose the value of unsatisfied performance obligations for contracts with an original expected length of less than one year.

We generally expense sales commissions when incurred because the amortization period would have been one year or less. These costs are recorded in Marketing, general and administrative expense in the unaudited Condensed Consolidated Income Statements.

### *Deferred Revenue*

Deferred revenue primarily relates to constrained variable consideration on supply agreements for sales of products, as well as to payments received in advance of performance under the contract. Deferred revenue is recognized as revenue as or when we perform under the contract.

Table of Contents

Avery Dennison Corporation

The following table shows the amounts and balance sheet locations of deferred revenue as of June 30, 2018 and December 30, 2017:

(In millions)	June 30, 2018	December 30, 2017
Other current liabilities	\$ 16.4	\$ 15.3
Long-term retirement benefits and other liabilities	.3	.4
Total deferred revenue	\$ 16.7	\$ 15.7

Revenue recognized from amounts included in deferred revenue as of December 30, 2017 was \$1.9 million and \$10.3 million for the three and six months ended June 30, 2018, respectively, which was included in Net sales in the unaudited Condensed Consolidated Statements of Income.

**Note 3. Goodwill**

Changes in the net carrying amount of goodwill for the six months ended June 30, 2018 by reportable segment were as follows:

(In millions)	Label and Graphic Materials	Retail Branding and Information Solutions	Industrial and Healthcare Materials	Total
Goodwill as of December 30, 2017	\$ 429.5	\$ 355.4	\$ 200.2	\$ 985.1
Acquisition adjustments(1)			(17.7)	(17.7)
Translation adjustments	(7.6)	(3.1)	(1.7)	(12.4)
Goodwill as of June 30, 2018	\$ 421.9	\$ 352.3	\$ 180.8	\$ 955.0

(1) Goodwill purchase price allocation adjustments and measurement period adjustments for contingent consideration liabilities, in each case related to the acquisition of Yongle Tape Ltd. completed in June 2017.

The carrying amounts of goodwill at June 30, 2018 and December 30, 2017 were net of accumulated impairment losses of \$820 million recognized in fiscal year 2009 by our Retail Branding and Information Solutions ( RBIS ) reportable segment.

**Note 4. Debt**

In March 2017, we issued 500 million of senior notes, due March 2025. The senior notes bear an interest rate of 1.25% per year, payable annually in arrears. The net proceeds from the offering, after deducting underwriting discounts and estimated offering expenses, were \$526.6 million ( 495.5 million), a portion of which was used to repay commercial paper borrowings that we used to finance a portion of our acquisition

## Edgar Filing: Avery Dennison Corp - Form 10-Q

of the European business of Mactac. During the second quarter of 2017, we used the remainder for general corporate purposes, including acquisitions. We designate a portion of these senior notes as a net investment hedge of our investment in foreign operations. Refer to Note 8, Financial Instruments, for more information.

The estimated fair value of our long-term debt is primarily based on the credit spread above U.S. Treasury securities or euro government bond securities, as applicable, on notes with similar rates, credit ratings, and remaining maturities. The fair value of short-term borrowings, which includes commercial paper issuances and short-term lines of credit, approximates the carrying value given the short duration of these obligations. The fair value of our total debt was \$1.67 billion at June 30, 2018 and \$1.60 billion at December 30, 2017. Fair value amounts were determined based primarily on Level 2 inputs, which are inputs other than quoted prices in active markets that are either directly or indirectly observable.

Our \$800 million revolving credit facility (the Revolver) contains financial covenants requiring that we maintain specified ratios, including total debt and interest expense in relation to certain measures of income. No balance was outstanding under the Revolver as of June 30, 2018 or December 30, 2017. As of June 30, 2018 and December 30, 2017, we were in compliance with our financial covenants.

### **Note 5. Pension and Other Postretirement Benefits**

#### *Defined Benefit Plans*

We sponsor a number of defined benefit plans, the accrual of benefits under some of which have been frozen, covering eligible employees in the U.S. and certain other countries. Benefits payable to an employee are based primarily on years of service and the employee's compensation during the course of his or her employment with us.

Table of Contents

Avery Dennison Corporation

We are also obligated to pay unfunded termination indemnity benefits to certain employees outside of the U.S., which are subject to applicable agreements, laws and regulations. We have not incurred significant costs related to these benefits, and, therefore, no related costs are included in the disclosures below.

The following table sets forth the components of net periodic benefit cost (credit), which are recorded in income, for our defined benefit plans:

Subsequent to the end of the second quarter of 2018, in July 2018, our Board of Directors ( Board ) approved the termination of the Avery Dennison Pension Plan (the ADPP ), a U.S. defined benefit plan, effective as of September 28, 2018. The ADPP is currently underfunded. In connection with the planned termination, we intend to contribute \$200 million to the ADPP in August 2018 using commercial paper borrowings. We expect to settle the long-term liability associated with the ADPP termination through a combination of (i) lump-sum payments in 2018 to eligible participants who elect to receive them and (ii) the purchase of a group annuity contract from one or more yet-to-be-identified highly rated insurance companies in the first half of 2019. The actual amount of our long-term liability when it is transferred will depend upon the

nature and timing of participant settlements, as well as prevailing market conditions. We currently estimate the total non-cash charge associated with the termination of the ADPP to be between \$575 million and \$600 million, approximately \$100 million of which is expected to be recognized during the fourth quarter of 2018 and the remainder of which is expected to be recognized at the time of transfer of the remaining pension liability in 2019.

**Note 6. Long-Term Incentive Compensation**

*Stock-Based Awards*

Stock-based compensation expense was \$9 million and \$16.4 million for the three and six months ended June 30, 2018, respectively, and \$7.6 million and \$13.2 million for the three and six months ended July 1, 2017, respectively. This expense was included in Marketing, general and administrative expense in the unaudited Condensed Consolidated Statements of Income.

As of June 30, 2018, we had approximately \$57 million of unrecognized compensation expense related to unvested stock-based awards, which is expected to be recognized over the remaining weighted-average requisite service period of approximately two years.

***Cash-Based Awards***

The compensation expense related to long-term incentive units was \$3.2 million and \$8.8 million for the three and six months ended June 30, 2018, respectively, and \$6.5 million and \$16.8 million for the three and six months ended July 1, 2017, respectively. This expense was included in Marketing, general and administrative expense in the unaudited Condensed Consolidated Statements of Income.

**Note 7. Cost Reduction Actions**

***2018 Plan***

In April 2018, we approved a restructuring plan (the 2018 Plan) associated with the consolidation of the European footprint of our Label and Graphic Materials (LGM) reportable segment, which is expected to result in a headcount reduction of 350 to 400 positions related to the closure of a manufacturing facility. This reduction is expected to be partially offset by headcount additions in other locations, resulting in a net reduction of approximately 150 positions. We expect the 2018 Plan to be largely complete by the end of 2019.

During the six months ended June 30, 2018, we recorded \$64.4 million in restructuring charges related to the 2018 Plan. These charges consisted of severance and related costs for the reduction of approximately 345 positions, as well as asset impairment charges.

***2015/2016 Actions***

During the six months ended June 30, 2018, we recorded \$7.7 million in restructuring charges, net of reversals, related to restructuring actions initiated during the third quarter of 2015 (2015/2016 Actions). These charges consisted of severance and related costs for the reduction of approximately 320 positions, lease cancellation costs, and asset impairment charges.

Accruals for severance and related costs and lease cancellation costs were included in Other current liabilities in the unaudited Condensed Consolidated Balance Sheets. Asset impairment charges were based on the estimated market value of the assets, less selling costs, if applicable. Restructuring charges were included in Other expense, net in the unaudited Condensed Consolidated Statements of Income.

During the six months ended June 30, 2018, restructuring charges and payments were as follows:

**Note 8. Financial Instruments**

We enter into foreign exchange hedge contracts to reduce our risk from foreign exchange rate fluctuations associated with receivables, payables, loans and firm commitments denominated in certain foreign currencies that arise primarily as a result of our operations outside the U.S. We enter into interest rate contracts to help manage our exposure to certain interest rate fluctuations. We also enter into futures contracts to hedge certain price fluctuations for a portion of our anticipated domestic purchases of natural gas. The maximum length of time for which we hedge our exposure to the variability in future cash flows for forecasted transactions is 36 months.

As of June 30, 2018, the aggregate U.S. dollar equivalent notional value of our outstanding commodity contracts and foreign exchange contracts was \$4.3 million and \$1.05 billion, respectively.

We recognize derivative instruments as either assets or liabilities at fair value in the unaudited Condensed Consolidated Balance Sheets. We designate commodity forward contracts on forecasted purchases of commodities and foreign exchange contracts on forecasted transactions as cash flow hedges. We also enter into foreign exchange contracts to offset risks arising from foreign exchange rate fluctuations.

The following table shows the fair values and balance sheet locations of cash flow hedges as of June 30, 2018 and December 30, 2017:

**Cash Flow Hedges**

For derivative instruments that are designated and qualify as cash flow hedges, the effective portion of the gain or loss on the derivative is reported as a component of Accumulated other comprehensive loss and reclassified into earnings in the same period(s) during which the hedged transaction impacts earnings. Gains and losses on the derivatives, representing either hedge ineffectiveness or hedge components excluded from the assessment of effectiveness, are recognized in current earnings.

Gains (losses), before taxes, recognized in Accumulated other comprehensive loss (effective portion) on derivatives related to cash flow hedge contracts were as follows:

(In millions)	Three Months Ended		Six Months Ended	
	June 30, 2018	July 1, 2017	June 30, 2018	July 1, 2017
Foreign exchange contracts	\$ (.4)	\$ (.4)	\$ .5	\$ (3.5)
Commodity contracts		(.2)		(.4)
Total	\$ (.4)	\$ (.6)	\$ .5	\$ (3.9)

Neither the amount recognized in income related to the ineffective portion of, nor the amount excluded from, effectiveness testing for cash flow hedges and derivatives not designated as hedging instruments was material for the three and six months ended June 30, 2018 or July 1, 2017.

Avery Dennison Corporation

As of June 30, 2018, we expected a net gain of approximately \$.6 million to be reclassified from Accumulated other comprehensive loss to earnings within the next 12 months.

### *Other Derivatives*

For other derivative instruments, which are not designated as hedging instruments, the gain or loss is recognized in current earnings. These derivatives are intended to offset certain of our economic exposures. The following table shows the components of the net gains (losses) recognized in income related to these derivative instruments.

(In millions)	Location of Net Gains (Losses) in Income	Three Months Ended		Six Months Ended	
		June 30, 2018	July 1, 2017	June 30, 2018	July 1, 2017

<b>Total</b>		<b>\$ (4.5)</b>	<b>\$ (23.9)</b>	<b>\$ (14.8)</b>	<b>\$ (23.7)</b>

### *Net Investment Hedge*

In March 2017, we designated 500 million of our 1.25% senior notes due 2025 as a net investment hedge of our investment in foreign operations. In January 2018, we reduced the amount we designate as a net investment hedge to 255 million. The net assets from the investment in foreign operations were greater than the senior notes, and as such, the net investment hedge was effective.

Gains (losses), before tax, recognized in Accumulated other comprehensive loss (effective portion) related to the net investment hedge was as follows:

(In millions)	Three Months Ended		Six Months Ended	
	June 30, 2018	July 1, 2017	June 30, 2018	July 1, 2017
Foreign currency denominated debt	\$ 19.2	\$ (26.3)	\$ (3.6)	\$ (37.7)

We recorded no ineffectiveness from our net investment hedge in net income during the three or six months ended June 30, 2018 and July 1, 2017.

### **Note 9. Taxes Based on Income**

## Edgar Filing: Avery Dennison Corp - Form 10-Q

The following table summarizes our income before taxes, provision for income taxes, and effective tax rate:

(Dollars in millions)	Three Months Ended		Six Months Ended	
	June 30, 2018	July 1, 2017	June 30, 2018	July 1, 2017
Income before taxes	\$ 139.9	\$ 149.5	\$ 299.0	\$ 285.4
Provision for income taxes	43.9	28.6	77.2	52.3
Effective tax rate	31.4%	19.1%	25.8%	18.3%

Our effective tax rate for the three and six months ended June 30, 2018 compared to the same periods last year reflected a decrease in the U.S. federal statutory tax rate from 35% to 21%, offset by net tax charges related to certain U.S. international tax provisions, the loss of domestic manufacturing deductions, and limitations on the deductibility of our executive compensation, all as a result of the Tax Cuts and Jobs Act ( TCJA ) enacted in December 2017.

Our effective tax rate for the three and six months ended June 30, 2018 included \$8.2 million and \$15.4 million, respectively, of net tax charges related to the tax on global intangible low-taxed income of our foreign subsidiaries and the base-erosion anti-abuse tax on certain of our foreign earnings, partially offset by the benefit from our foreign-derived intangible income. Additionally, our effective tax rate for the three and six months ended June 30, 2018 reflected \$2.5 million and \$5.3 million, respectively, of tax charges related to foreign withholding taxes on our current year earnings, and \$.9 million and \$8 million, respectively, of discrete tax benefits from decreases in certain tax reserves, including interest and penalties, as a result of closing tax years. Our effective tax rate for the six months ended June 30, 2018 included \$3.9 million of discrete tax benefits from releases of valuation allowances on certain U.S. state deferred tax assets, primarily reflecting the impact of state tax laws or regulations issued to conform to certain TCJA provisions and \$7.3 million of discrete tax benefits related to excess tax benefits associated with stock-based payments.

Table of Contents

Avery Dennison Corporation

The effective tax rate for the three and six months ended July 1, 2017 included net discrete benefits of \$.6 million and \$13.3 million, respectively, related to excess tax benefits associated with stock-based payments; \$3.4 million of tax benefits from effective settlements of certain foreign tax examinations and changes in our judgment about tax filing positions in certain foreign jurisdictions as a result of new information gained from our interactions with tax authorities; and \$3.1 million and \$4.6 million, respectively, of tax benefits due to decreases in certain tax reserves, including interest and penalties, as a result of closing tax years.

Our effective tax rate for the three and six months ended June 30, 2018 also included certain measurement period adjustments to the 2017 provisional amounts related to the enactment of the TCJA in accordance with guidance provided under SEC Staff Accounting Bulletin No. 118 (SAB 118). SAB 118 provides for a measurement period up to one year from the enactment of the TCJA within which we may complete our final assessment of the legislation's impact. Measurement period adjustments determined during the three and six months ended June 30, 2018 did not have a significant impact on our consolidated financial statements, either individually or in the aggregate. In connection with the planned ADPP termination approved by the Board in July 2018, subsequent to the end of the second quarter of 2018, we intend to contribute \$200 million to the ADPP in August 2018 and elect to deduct the contribution on our 2017 U.S. federal income tax return. Refer to Note 5, Pension and Other Postretirement Benefits, to the unaudited Condensed Consolidated Financial Statements for more information. We expect to recognize the tax benefit from deducting the contribution at a higher tax rate as a measurement period adjustment during the third quarter of 2018. We did not finalize any aspects of the previously disclosed provisional amounts. Furthermore, we have not made a determination on our accounting policy choice related to our global intangible low-taxed income provision nor have we completed the assessment of our indefinite reinvestment assertions. We will continue to assess any future guidance and accounting interpretations on the effects of the TCJA and expect to complete our analysis within the measurement period afforded by SAB 118.

The amount of income taxes we pay is subject to ongoing audits by taxing jurisdictions around the world. Our estimate of the potential outcome of any uncertain tax issue is subject to our assessment of the relevant risks, facts, and circumstances existing at the time. We believe that we have adequately provided for reasonably foreseeable outcomes related to these matters. However, our future results may include favorable or unfavorable adjustments to our estimated tax liabilities in the period the assessments are made or resolved, which may impact our effective tax rate. We and our U.S. subsidiaries completed the Internal Revenue Service's Compliance Assurance Process Program for 2016 in the second quarter of 2018. With some exceptions, our foreign subsidiaries are no longer subject to income tax examinations by tax authorities for years prior to 2006.

It is reasonably possible that, during the next 12 months, we may realize a decrease in our uncertain tax positions, including interest and penalties, of approximately \$29 million, primarily as a result of audit settlements and closing tax years.

Bank drafts	18.4	18.4		
<b>Liabilities</b>				
Derivative liabilities	\$ 6.2	\$ .1	\$ 6.1	\$
Contingent consideration liabilities	45.0			45.0

Trading securities include fixed income securities (primarily U.S. government and corporate debt securities) measured at fair value using quoted prices/bids and a money market fund measured at fair value using net asset value. As of June 30, 2018, trading securities of \$.4 million and \$22.3 million were included in Cash and cash equivalents and Other current assets, respectively, in the unaudited Condensed Consolidated Balance Sheets. As of December 30, 2017, trading securities of \$.4 million and \$22.3 million were included in Cash and cash equivalents and Other current assets, respectively, in the Consolidated Balance Sheets. Derivatives that are exchange-traded are measured at fair value using quoted market prices and classified within Level 1 of the valuation hierarchy. Derivatives measured based on foreign exchange rate inputs that are readily available in public markets are classified within Level 2 of the valuation hierarchy. Bank drafts (maturities greater than three months) are valued at face value due to their short-term nature and were included in Other current assets in the unaudited Condensed Consolidated Balance Sheets. Contingent consideration liabilities relate to estimated earn-out payments associated with certain of our acquisitions completed in 2017. These payments are based on the achievements of certain performance targets in 2017 and 2018 based on the applicable terms of the purchase agreements, and our estimates are based on the expected payments related to these targets under the terms of their respective agreements. We have classified these liabilities as Level 3. As of June 30, 2018, contingent consideration liabilities were included in Other current liabilities in the unaudited Condensed Consolidated Balance Sheets. As of December 30, 2017, contingent consideration liabilities of approximately \$18 million and \$27 million were included in Other current liabilities and Long-term retirement benefits and other liabilities, respectively, in the Consolidated Balance Sheets.

The following table presents a reconciliation of Level 3 contingent consideration liabilities for the six months ended June 30, 2018:

(In millions)	Level 3 Liabilities Contingent Consideration	
Balance at December 30, 2017	\$	45.0
Payments		(16.8)
Adjustments(1)		(20.7)

Balance at June 30, 2018 \$ 7.5

(1) Adjustments primarily relate to measurement period adjustments. Refer to Note 3, Goodwill, for more information.

#### ***Non-Recurring Fair Value Measurements***

During the six months ended June 30, 2018, long-lived assets with carrying amounts totaling \$18 million were written down to their fair value of \$10.6 million, resulting in an impairment charge of \$7.4 million, which was included in Other expense, net in the unaudited Condensed Consolidated Statements of Income. The fair value was based on the estimated sale price of the assets, less estimated broker fees, which is primarily a Level 3 input.

#### **Note 13. Commitments and Contingencies**

##### ***Legal Proceedings***

We are involved in various lawsuits, claims, inquiries, and other regulatory and compliance matters, most of which are routine to the nature of our business. When it is probable that a loss will be incurred and where a range of the loss can be reasonably estimated, the best estimate within the range is accrued. When the best estimate within the range cannot be determined, the low end of the range is accrued. The ultimate resolution of these claims could affect future results of operations should our exposure be materially different from our estimates or should liabilities be incurred that were not previously accrued. Potential insurance reimbursements are not offset against potential liabilities.

Table of Contents

Avery Dennison Corporation

Because of the uncertainties associated with claims resolution and litigation, future expenses to resolve these matters could be higher than the liabilities we have accrued; however, we are unable to reasonably estimate a range of potential expenses. If information were to become available that allowed us to reasonably estimate a range of potential expenses in an amount higher or lower than what we have accrued, we would adjust our accrued liabilities accordingly. Additional lawsuits, claims, inquiries, and other regulatory and compliance matters could arise in the future. The range of expenses for resolving any future matters would be assessed as they arise; until then, a range of potential expenses for such resolution cannot be determined. Based upon current information, we believe that the impact of the resolution of these matters would not be, individually or in the aggregate, material to our financial position, results of operations or cash flows.

***Environmental Expenditures***

Environmental expenditures are generally expensed. However, environmental expenditures for newly acquired assets and those which extend or improve the economic useful life of existing assets are capitalized and amortized over the shorter of the estimated useful life of the acquired asset or the remaining life of the existing asset. We review our estimates of the costs of complying with environmental laws related to remediation and cleanup of various sites, including sites in which governmental agencies have designated us as a potentially responsible party ( PRP ). When it is probable that a loss will be incurred and where a range of the loss can be reasonably estimated, the best estimate within the range is accrued. When the best estimate within the range cannot be determined, the low end of the range is accrued. Potential insurance reimbursements are not offset against potential liabilities.

As of June 30, 2018, we have been designated by the U.S. Environmental Protection Agency ( EPA ) and/or other responsible state agencies as a PRP at thirteen waste disposal or waste recycling sites that are the subject of separate investigations or proceedings concerning alleged soil and/or groundwater contamination. No settlement of our liability related to any of these sites has been agreed upon. We are participating with other PRPs at these sites and anticipate that our share of remediation costs will be determined pursuant to agreements that we negotiate with the EPA or other governmental authorities.

These estimates could change as a result of changes in planned remedial actions, remediation technologies, site conditions, the estimated time to complete remediation, environmental laws and regulations, and other factors. Because of the uncertainties associated with environmental assessment and remediation activities, future expenses to remediate these sites could be higher than the liabilities we have accrued; however, we are unable to reasonably estimate a range of potential expenses. If information were to become available that allowed us to reasonably estimate a range of potential expenses in an amount higher or lower than what we have accrued, we would adjust our environmental liabilities accordingly. In addition, we may be identified as a PRP at additional sites in the future. The range of expenses for remediation of any future-identified sites would be addressed as they arise; until then, a range of expenses for such remediation cannot be determined.

The activity for the six months ended June 30, 2018 related to our environmental liabilities was as follows:

**Note 16. Recent Accounting Requirements**

In August 2017, the Financial Accounting Standards Board ( FASB ) issued amended guidance to improve the financial reporting of hedging relationships by better reflecting the economic results of an entity's risk management activities in its financial statements, as well as to simplify

## Edgar Filing: Avery Dennison Corp - Form 10-Q

the application of hedge accounting. Adoption of this amended guidance is required prospectively. This guidance will be effective for interim and annual periods beginning after December 15, 2018, and early adoption is permitted. We are currently assessing the timing of our adoption and the impact of this guidance on our financial position, results of operations, cash flows, and disclosures.

In March 2016, and in subsequent updates, the FASB issued guidance on accounting for leases that requires lessees to recognize the rights and obligations created by leases on their balance sheets. This guidance also requires enhanced disclosures regarding the amount, timing, and uncertainty of cash flows arising from leases and will be effective for interim and annual periods beginning after December 15, 2018. Early adoption is permitted. Modified retrospective adoption is required with respect to all leases that exist at or commence after the date of initial application of this guidance, with the option to use certain practical expedients. We established a cross-functional team to manage the assessment, design, and implementation of this new guidance. We are in the process of implementing processes and information technology tools and evaluating our accounting policies and controls as a result of this guidance. While we are still assessing the impact of this guidance on our financial position, results of operations, cash flows, and disclosures, we currently expect the adoption of this guidance to have a significant impact on our financial position and disclosures.

**ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS**

Management's Discussion and Analysis of Financial Condition and Results of Operations, or MD&A, provides management's views on our financial condition and results of operations, should be read in conjunction with the accompanying unaudited Condensed Consolidated Financial Statements and notes thereto, and includes the following sections:

<u>Non-GAAP Financial Measures</u>	21
<u>Overview and Outlook</u>	22
<u>Analysis of Results of Operations for the Second Quarter</u>	23
<u>Results of Operations by Reportable Segment for the Second Quarter</u>	25
<u>Analysis of Results of Operations for the Six Months Year-to-Date</u>	27
<u>Results of Operations by Reportable Segment for the Six Months Year-to-Date</u>	28
<u>Financial Condition</u>	30
<u>Recent Accounting Requirements</u>	34

**NON-GAAP FINANCIAL MEASURES**

We report our financial results in conformity with accounting principles generally accepted in the United States of America, or GAAP, and also communicate with investors using certain non-GAAP financial measures. These non-GAAP financial measures are not in accordance with, nor are they a substitute for or superior to, the comparable GAAP financial measures. These non-GAAP financial measures are intended to supplement presentation of our financial results that are prepared in accordance with GAAP. Based upon feedback from investors and financial analysts, we believe that the supplemental non-GAAP financial measures we provide are useful to their assessment of our performance and operating trends, as well as liquidity.

Our non-GAAP financial measures exclude the impact of certain events, activities or strategic decisions. The accounting effects of these events, activities or decisions, which are included in the GAAP financial measures, may make it difficult to assess our underlying performance in a single period. By excluding the accounting effects, both positive or negative, of certain items (e.g., restructuring charges, legal settlements, certain effects of strategic transactions and related costs, losses from debt extinguishments, gains and losses from curtailment and settlement of pension obligations, gains or losses on sales of certain assets, and other items), we believe that we are providing meaningful supplemental information that facilitates an understanding of our core operating results and liquidity measures. These non-GAAP financial measures are used internally to evaluate trends in our underlying performance, as well as to facilitate comparison to the results of competitors for a single period. While some of the items we exclude from GAAP financial measures recur, they tend to be disparate in amount, frequency, or timing.

We use the following non-GAAP financial measures in this MD&A:

- *Sales change ex. currency* refers to the increase or decrease in sales excluding the estimated impact of foreign currency translation. The estimated impact of foreign currency translation is calculated on a constant currency basis, with prior period results translated at current period average exchange rates to exclude the effect of foreign currency fluctuations.
- *Organic sales change* refers to the increase or decrease in sales excluding the estimated impact of foreign currency translation, product line exits, acquisitions and divestitures, and, where applicable, the extra week in our fiscal year.

We believe that sales change ex. currency and organic sales change assist investors in evaluating the sales growth from the ongoing activities of our businesses and provide greater ability to evaluate our results from period to period.

- *Free cash flow* refers to cash flow provided by operating activities, less payments for property, plant and equipment, software and other deferred charges, plus proceeds from sales of property, plant and equipment, plus (minus) net proceeds from sales (purchases) of investments and proceeds from insurance. Free cash flow will also be adjusted to exclude the cash contributions and cash tax effects of the planned termination of our U.S. pension plan. We believe that free cash flow assists investors by showing the amount of cash we have available for debt reductions, dividends, share repurchases, and acquisitions.
- *Operational working capital* refers to trade accounts receivable and inventories, net of accounts payable, and excludes cash and cash equivalents, short-term borrowings, deferred taxes, other current assets and other current liabilities, as well as net current assets or liabilities held-for-sale. We believe that operational working capital assists investors in assessing our working capital requirements because it excludes the impact of fluctuations attributable to our financing and other activities (which affect cash and cash equivalents, deferred taxes, other current assets, and other current liabilities) that tend to be disparate in amount, frequency, or timing, and that may increase the volatility of working capital as a percentage of sales from period to period. The items excluded from this measure are not significantly influenced by our day-to-day activities managed at the operating level and do not necessarily reflect the underlying trends in our operations.

**OVERVIEW AND OUTLOOK****Net Sales**

The factors impacting reported sales change, as compared to the prior year periods, are shown in the table below.

	<b>Three Months Ended June 30, 2018</b>	<b>Six Months Ended June 30, 2018</b>
Reported sales change	14%	14%
Foreign currency translation	(4)	(5)
Sales change ex. currency(1)	10%	8%
Acquisitions	(3)	(3)
Organic sales change(1)	8%	6%

(1) Totals may not sum due to rounding.

In the three and six months ended June 30, 2018, net sales increased on an organic basis primarily due to higher volume.

**Net Income**

Net income decreased by approximately \$12 million in the first six months of 2018 compared to the same period last year. Major factors affecting net income in the first six months of 2018 compared to the prior year period included the following:

- Higher restructuring charges
- Higher employee-related costs
- Higher provision for income taxes
- Growth investments

Offsetting factors:

- Combined effect of volume and mix
- Foreign currency translation

- Benefits from productivity initiatives, including savings from restructuring actions, net of transition costs

#### **Cost Reduction Actions**

##### *2018 Plan*

In April 2018, we approved a restructuring plan (the 2018 Plan ) associated with the consolidation of the European footprint of our Label and Graphic Materials ( LGM ) reportable segment, which is expected to result in a headcount reduction of 350 to 400 positions related to the closure of a manufacturing facility. This reduction is expected to be partially offset by headcount additions in other locations, resulting in a net reduction of approximately 150 positions. We expect the 2018 Plan to be largely complete by the end of 2019.

During the six months ended June 30, 2018, we recorded \$64.4 million in restructuring charges related to the 2018 Plan. These charges consisted of severance and related costs for the reduction of approximately 345 positions, as well as asset impairment charges. The vast majority of the cash payments associated with these charges is expected to be made in 2019. We anticipate annualized savings from the 2018 Plan of approximately \$25 million, beginning in 2020.

##### *2015/2016 Actions*

During the six months ended June 30, 2018, we recorded \$7.7 million in restructuring charges, net of reversals, related to restructuring actions initiated during the third quarter of 2015 ( 2015/2016 Actions ). These charges consisted of severance and related costs for the reduction of approximately 320 positions, lease cancellation costs, and asset impairment charges.

##### *Impact of Cost Reduction Actions*

We anticipate savings from cost reduction actions, net of transition costs, of approximately \$25 million to \$30 million in 2018.

Restructuring charges were included in Other expense, net in the unaudited Condensed Consolidated Statements of Income. Refer to Note 7, Cost Reduction Actions, to the unaudited Condensed Consolidated Financial Statements for more information.

**U.S. Pension Plan Termination**

Subsequent to the end of the second quarter of 2018, in July 2018, our Board of Directors ( Board ) approved the termination of the Avery Dennison Pension Plan (the ADPP ), a U.S. defined benefit plan, effective as of September 28, 2018. The ADPP is currently underfunded. In connection with the planned termination, we intend to contribute \$200 million to the ADPP in August 2018 using commercial paper borrowings. We expect to settle the long-term liability associated with the ADPP termination through a combination of (i) lump-sum payments in 2018 to eligible participants who elect to receive them and (ii) the purchase of a group annuity contract from one or more yet-to-be-identified highly rated insurance companies in the first half of 2019. The actual amount of our long-term liability when it is transferred will depend upon the nature and timing of participant settlements, as well as prevailing market conditions. We currently estimate the total non-cash charge associated with the termination of the ADPP to be between \$575 million and \$600 million, approximately \$100 million of which is expected to be recognized during the fourth quarter of 2018 and the remainder of which is expected to be recognized at the time of transfer of the remaining pension liability in 2019.

**Adoption of New Accounting Pronouncement and Guidance Updates**

In the first quarter of 2018, we adopted a new accounting pronouncement and several accounting guidance updates. Refer to Note 1, General, to the unaudited Condensed Consolidated Financial Statements for more information.

**Cash Flow**

(In millions)	Six Months Ended	
	June 30, 2018	July 1, 2017
Net cash provided by operating activities	\$ 209.5	\$ 175.6
Purchases of property, plant and equipment	(79.5)	(66.5)
Purchases of software and other deferred charges	(13.9)	(14.9)
Proceeds from sales of property, plant and equipment	9.3	.2
Sales (purchases) of investments and proceeds from insurance, net	2.2	(1.4)
Free cash flow	\$ 127.6	\$ 93.0

In the first six months of 2018, net cash provided by operating activities increased compared to the same period last year primarily due to improved operational working capital, partially offset by higher income tax payments, net of refunds, lower net income, and higher incentive compensation payments. In the first six months of 2018, free cash flow increased compared to the same period last year primarily due to higher net cash provided by operating activities and higher proceeds from sales of property, plant and equipment, partially offset by higher combined capital and software expenditures.

**Outlook**

Certain factors that we believe may contribute to our 2018 results are described below.

Edgar Filing: Avery Dennison Corp - Form 10-Q

- We expect our net sales to increase by approximately 8.5%.
- Assuming the continuation of foreign currency rates in effect during July 2018, we expect foreign currency translation to increase pre-tax operating income by approximately \$18 million.
- We estimate our full-year effective tax rate to be approximately 20%.
- We anticipate our capital and software expenditures to be between \$250 million and \$270 million.
- We estimate restructuring charges of approximately \$80 million.
- We estimate the net effect of non-cash charges and the tax impact related to the ADPP planned termination to reduce net income by \$45 million to \$65 million.

#### *Provision for Income Taxes*

Our effective tax rate for the three months ended June 30, 2018 compared to the same period last year reflected a decrease in the U.S. federal statutory tax rate from 35% to 21%, offset by net tax charges related to certain U.S. international tax provisions, the loss of domestic manufacturing deductions, and limitations on the deductibility of our executive compensation, all as a result of the Tax Cuts and Jobs Act ( TCJA ) enacted in December 2017.

Table of Contents

Avery Dennison Corporation

Our effective tax rate for the three months ended June 30, 2018 included \$8.2 million of net tax charges related to the tax on global intangible low-taxed income of our foreign subsidiaries and the base-erosion anti-abuse tax on certain of our foreign earnings, partially offset by the benefit from our foreign-derived intangible income and \$2.5 million of tax charges resulting from recognizing foreign withholding taxes on our current year earnings.

The effective tax rate for the three months ended July 1, 2017 included net discrete benefits of \$3.4 million of tax benefits from effective settlements of certain foreign tax examinations and changes in our judgment about tax filing positions in certain foreign jurisdictions as a result of new information gained from our interactions with tax authorities, as well as \$3.1 million of tax benefits due to decreases in certain tax reserves, including interest and penalties, as a result of closing tax years.

Our effective tax rate can vary widely from quarter to quarter due to interim reporting requirements, the recognition of discrete events, and the timing of repatriation of foreign earnings. Refer to Note 9, Taxes Based on Income, to the unaudited Condensed Consolidated Financial Statements for further information.

Refer to Note 4, *Debt*, to the unaudited Condensed Consolidated Financial Statements for more information.

### *Other Non-Operating Expense*

In the first quarter of 2018, we adopted an accounting guidance update that requires employers with defined benefit plans to present the components of net periodic benefit cost other than service cost, outside of operating income. Refer to Note 1, *General*, to the unaudited Condensed Consolidated Financial Statements for more information. Other non-operating expense decreased in the first six months of 2018 compared to the same period last year reflecting a higher expected return on plan assets in certain of our international defined benefit pension plans, partially offset by a settlement loss in a nonqualified benefit plan in the U.S.

*Provision for Income Taxes*

Our effective tax rate for the six months ended June 30, 2018 compared to the same period last year reflected a decrease in the U.S. federal statutory tax rate from 35% to 21%, offset by net tax charges related to certain U.S. international tax provisions, the loss of domestic manufacturing deductions, and limitations on the deductibility of our executive compensation, all as a result of the TCJA enacted in December 2017.

Our effective tax rate for the six months ended June 30, 2018 included \$15.4 million of net tax charges related to the tax on global intangible low-taxed income of our foreign subsidiaries and the base-erosion anti-abuse tax on certain of our foreign earnings, partially offset by the benefit from our foreign-derived intangible income; \$8 million of discrete benefits from decreases in certain tax reserves, including interest and penalties, as a result of closing tax years; \$7.3 million of discrete tax benefits related to excess tax benefits associated with stock-based payments; \$5.3 million of tax charges resulting from recognizing foreign withholding taxes on our current year earnings; and \$3.9 million of discrete tax benefits from the releases of valuation allowances on certain U.S. state deferred tax assets primarily reflecting the impact of state tax laws or regulations issued to conform to certain TCJA provisions.

The effective tax rate for six months ended July 1, 2017 included net discrete benefits of \$13.3 million related to excess tax benefits associated with stock-based payments; \$3.4 million of tax benefits from effective settlements of certain foreign tax examinations and changes in our judgment about tax filing positions in certain foreign jurisdictions as a result of new information gained from our interactions with tax authorities; and \$4.6 million of tax benefits due to decreases in certain tax reserves, including interest and penalties, as a result of closing tax years.

Organic sales change(1)	5%

(1)Total may not sum due to rounding.

In the first six months of 2018, net sales increased on an organic basis primarily due to higher volume. Net sales increased on an organic basis at mid-single digit rates in emerging markets and North America. Sales increased on an organic basis at a low- to mid-single digit rate in Western Europe.

*Operating Income*

Operating income decreased in the first six months of 2018 compared to the same period last year primarily reflecting higher restructuring charges, higher employee-related costs, and the net impact of pricing and raw material costs, excluding the effects of foreign currency, partially offset by the combined effect of volume and mix, as well as benefits from changes in foreign currency.

*Purchases of Property, Plant and Equipment*

During the first six months of 2018 and 2017, we invested in equipment to support growth in Asia, Europe, and North America and to improve manufacturing productivity.

*Purchases of Software and Other Deferred Charges*

During the first six months of 2018, we invested in information technology primarily associated with enterprise resource planning system implementations in North America and Asia. During the first six months of 2017, we invested in information technology primarily associated with enterprise resource planning system implementations in North America, Asia, and Europe.

*Proceeds from Sales of Property, Plant and Equipment*

During the first six months of 2018, we received \$9.3 million from sales of property, plant and equipment, the majority of which was related to the sale of two properties in Europe.

*Payments for Acquisitions*

During the first six months of 2017, the aggregate payments for acquisitions, net of cash acquired, was approximately \$300 million, which we funded through cash and existing credit facilities.

### *Borrowings and Repayment of Debt*

Given the seasonality of our cash flow from operating activities, during the first six months of 2018 and 2017, our commercial paper borrowings were used to fund share repurchase activity, dividend payments, and capital expenditures, and for other general corporate purposes.

In March 2017, we issued 500 million of senior notes, due March 2025. The senior notes bear an interest rate of 1.25% per year, payable annually in arrears. The net proceeds from the offering, after deducting underwriting discounts and estimated offering expenses, were \$526.6 million (495.5 million), a portion of which was used to repay commercial paper borrowings that we used to finance a portion of our acquisition of the European business of Mactac. During the second quarter of 2017, we used the remainder for general corporate purposes, including acquisitions.

Refer to Note 4, Debt to the unaudited Condensed Consolidated Financial Statements for more information.

### *Dividend Payments*

We paid dividends of \$.97 per share in the first six months of 2018 compared to \$.86 per share in the same period last year. In April 2018, we increased our quarterly dividend to \$.52 per share, representing an increase of approximately 16% from our previous dividend rate of \$.45 per share.

*Share Repurchases*

During the first six months of 2018, we repurchased approximately .9 million shares of our common stock at an aggregate cost of \$102.9 million. During the first six months of 2017, we repurchased approximately .9 million shares of our common stock at an aggregate cost of \$70.3 million.

In April 2017, our Board of Directors ( Board ) authorized the repurchase of additional shares of our common stock with a fair market value of up to \$650 million, exclusive of any fees, commissions or other expenses related to such purchases, in addition to any amount outstanding under our previous Board authorization. Board authorizations remain in effect until shares in the amount authorized thereunder have been repurchased. As of June 30, 2018, shares of our common stock in the aggregate amount of \$522.3 million remained authorized for repurchase under this Board authorization.

*Payment of Contingent Consideration*

During the first six months of 2018, we paid \$16.8 million of contingent consideration related to the achievements of certain performance targets in 2017 for acquisitions completed in 2017.

**Analysis of Selected Balance Sheet Accounts**

*Long-lived Assets*

In the six months ended June 30, 2018, goodwill decreased by approximately \$30 million to \$955 million due to purchase price adjustments related to the acquisition of Yongle Tape Ltd. completed in June 2017 and the impact of foreign currency translation.

In the six months ended June 30, 2018, other intangibles resulting from business acquisitions, net, decreased by approximately \$12 million to \$155 million, which primarily reflected current year amortization expense.

Refer to Note 3, Goodwill, to the unaudited Condensed Consolidated Financial Statements for more information.

In the six months ended June 30, 2018, other assets decreased by approximately \$12 million to \$442 million, which primarily reflected a decrease in tax-related deferred charges as the result of our adoption of the accounting guidance update related to intra-entity transfer of assets other than inventory described in Note 1, General, of the unaudited Condensed Consolidated Financial Statements, partially offset by an increase in the cash surrender value of our corporate-owned life insurance policies and purchases of software and other deferred charges, net of amortization.

## Edgar Filing: Avery Dennison Corp - Form 10-Q

In the six months ended June 30, 2018, long-term retirement benefits and other liabilities decreased by approximately \$45 million to \$585 million, primarily reflecting a reclassification of contingent consideration liabilities to other current liabilities and contributions to our domestic and international pension plans.

### *Shareholders' Equity Accounts*

In the six months ended June 30, 2018, the balance of our shareholders' equity decreased by approximately \$24 million to \$1.02 billion, which primarily reflected the impacts of share repurchases, dividend payments, and foreign currency translation, partially offset by net income and the amortization of net actuarial loss and prior service cost related to our domestic and international pension plans.

### **Impact of Foreign Currency Translation**

(In millions)	<b>Six Months Ended</b>	
	<b>June 30, 2018</b>	
Change in net sales	\$	155
Change in net income		17

International operations generated approximately 77% of our net sales during the six months ended June 30, 2018. Our results are subject to changes in political and economic conditions in the regions in which we operate and the impact of fluctuations in foreign currency exchange and interest rates.

The favorable impact of foreign currency translation on net sales in the first six months of 2018 compared to the same period last year was primarily related to euro-denominated sales and sales in China.

In the third quarter of 2018, we will begin accounting for Argentina as a highly inflationary economy, as its three-year cumulative inflation rate exceeded 100%. We are currently assessing the impact of this change on our consolidated financial statements. Sales by our Argentine subsidiary represented less than 1% of our net sales for fiscal year 2017.

Table of Contents

Avery Dennison Corporation

**Effect of Foreign Currency Transactions**

The impact on net income from transactions denominated in foreign currencies is largely mitigated because the costs of our products are generally denominated in the same currencies in which they are sold. In addition, to reduce our income and cash flow exposure to transactions in foreign currencies, we enter into foreign exchange forward, option and swap contracts where available and appropriate. We also utilize certain foreign-currency-denominated debt to mitigate foreign currency translation exposure from our net investment in foreign operations.

**Analysis of Selected Financial Ratios**

We utilize the financial ratios discussed below to assess our financial condition and operating performance.

*Working Capital and Operational Working Capital Ratios*

Working capital (current assets minus current liabilities), as a percentage of annualized net sales, decreased to 3.0% in the first six months of 2018 from 3.7% in the first six months of 2017 primarily as a result of an increase in annualized net sales and increases in accounts payable and other current liabilities, partially offset by increases in trade accounts receivable and a decrease in short-term borrowings and current portion of long-term debt and capital leases.

Operational working capital, as a percentage of annualized net sales, is reconciled with working capital below. Our objective is to minimize our investment in operational working capital, as a percentage of annualized net sales, to maximize cash flow and return on investment.

(Dollars in millions)	<b>Six Months Ended</b>	
	<b>June 30, 2018</b>	<b>July 1, 2017</b>
<b>(A) Working capital</b>	\$ 218.9	\$ 237.4

Cash and cash equivalents	(215.8)	(209.4)
Other current assets	(213.4)	(235.5)
Assets held for sale	(1.9)	(8.3)
Short-term borrowings and current portion of long-term debt and capital leases	384.3	444.0
Accrued payroll and employee benefits and other current liabilities	690.5	597.5
<b>(B) Operational working capital</b>	\$ 862.6	\$ 825.7
<b>(C) Annualized net sales (year-to-date sales, multiplied by two)</b>	\$ 7,261.2	\$ 6,398.0
Working capital, as a percentage of annualized net sales: (A) ÷ (C)	3.0%	3.7%
Operational working capital, as a percentage of annualized net sales: (B) ÷ (C)	11.9%	12.9%

*Accounts Receivable Ratio*

The average number of days sales outstanding was 62 days for the first six months of 2018 compared to 64 days in the first six months of 2017, calculated using the two-quarter average trade accounts receivable balance divided by the average daily sales for the first six months. The decrease in the average number of days outstanding from prior year primarily reflected the impact of foreign currency translation and the timing of collections.

*Inventory Ratio*

Average inventory turnover increased to 7.9 in the first six months of 2018 from 7.7 in the first six months of 2017, calculated using the annualized cost of sales (year-to-date cost of sales, multiplied by two) divided by the two-quarter average inventory balance. The increase in the average inventory turnover primarily reflected the impact of foreign currency translation.

*Accounts Payable Ratio*

The average number of days payable outstanding was 72 days in the first six months of 2018 compared to 73 days in the first six months of 2017, calculated using the two-quarter average accounts payable balance divided by the average daily cost of products sold for the first six months. The decrease in the average number of days payable outstanding from the prior year primarily reflected the impacts of acquisitions completed in 2017 and foreign currency translation, partially offset by the extended timing of vendor payments.

**Capital Resources**

Capital resources include cash flows from operations, cash and cash equivalents and debt financing. At June 30, 2018, we had cash and cash equivalents of \$215.8 million held in accounts at third-party financial institutions.

Table of Contents

Avery Dennison Corporation

Our cash balances are held in numerous locations throughout the world. At June 30, 2018, the majority of our cash and cash equivalents was held by our foreign subsidiaries.

To meet U.S. cash requirements, we have several cost-effective liquidity options available. These options include borrowing funds at reasonable rates, including borrowings from foreign subsidiaries, and repatriating foreign earnings and profits. However, if we were to repatriate incremental foreign earnings and profits, we may be subject to withholding taxes imposed by foreign tax authorities and additional U.S. taxes due to the impact of foreign currency movements related to such earnings and profits.

In connection with the planned termination of the ADPP, we intend to contribute \$200 million to the ADPP in August 2018 using commercial paper borrowings given the underfunded status of the plan. We expect these actions to have no material impact on our available capital or capital allocation strategy, which already reflected our unfunded pension obligations.

In 2017, we amended and restated our revolving credit facility (the Revolver), increasing the amount available from certain domestic and foreign banks from \$700 million to \$800 million. The amendment also extended the Revolver's maturity date to November 8, 2022. The maturity date may be extended for additional one-year periods under certain circumstances. The commitments under the Revolver may be increased by up to \$300 million, subject to lender approval and customary requirements. The Revolver is used as a back-up facility for our commercial paper program and can be used for other corporate purposes. The Revolver contains financial covenants requiring that we maintain specified ratios of total debt and interest expense in relation to certain measures of income. As of June 30, 2018 and December 30, 2017, we were in compliance with our financial covenants.

In March 2017, we issued \$500 million of senior notes, due March 2025. The senior notes bear an interest rate of 1.25% per year, payable annually in arrears. Refer to Note 4, Debt, to the unaudited Condensed Consolidated Financial Statements for more information.

We are exposed to financial market risk resulting from changes in interest and foreign currency rates, and to possible liquidity and credit risks of our counterparties.

*Capital from Debt*

The carrying value of our total debt increased by approximately \$92 million in the first six months of 2018 to \$1.67 billion, primarily reflecting the net increase in commercial paper borrowings to support operational needs.

Credit ratings are a significant factor in our ability to raise short- and long-term financing. The credit ratings assigned to us also impact the interest rates paid and our access to commercial paper, credit facilities, and other borrowings. A downgrade of our short-term credit ratings could impact our ability to access the commercial paper markets. If our access to commercial paper markets were to become limited, we expect that the Revolver and our other credit facilities would be available to meet our short-term funding requirements. When determining a credit

rating, we believe that rating agencies primarily consider our competitive position, business outlook, consistency of cash flows, debt level and liquidity, geographic dispersion and management team. We remain committed to maintaining an investment grade rating.

### **Off-Balance Sheet Arrangements, Contractual Obligations, and Other Matters**

Refer to Note 13, Commitments and Contingencies, to the unaudited Condensed Consolidated Financial Statements. Except as indicated therein, we have no material off-balance sheet arrangements as described in Item 303 (a)(4) of Regulation S-K.

**ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK**

There have been no material changes to the information provided in Part II, Item 7A of our Annual Report on Form 10-K for the fiscal year ended December 30, 2017.

**ITEM 4. CONTROLS AND PROCEDURES**

**Evaluation of Disclosure Controls and Procedures**

We maintain disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(f)) that are designed to ensure that information required to be disclosed in our Exchange Act reports is recorded, processed, summarized and reported within the time periods specified in the rules and forms of the SEC, and that such information is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding the required disclosure.

In designing and evaluating the disclosure controls and procedures, we recognize that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives, and management necessarily is required to apply its judgment in evaluating the cost-benefit relationship of possible controls and procedures.

Our disclosure controls system is based upon a global chain of financial and general business reporting lines that converge in our headquarters in Glendale, California. As required by SEC Rule 13a-15(b), we carried out an evaluation, under the supervision and with the participation of our management, including our Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of our disclosure controls and procedures as of the end of the quarter covered by this report. Based on the foregoing, our Chief Executive Officer and Chief Financial Officer have concluded that our disclosure controls and procedures were effective as of such time to provide reasonable assurance that information was recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms, and that such information was accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding the required disclosure.

**Changes in Internal Control Over Financial Reporting**

We periodically assess our internal control environment. We are in the process of investing in information technology to upgrade the systems in our Retail Branding and Information Solutions and Label and Graphic Materials reportable segments. Processes affected by these implementations include, among other things, order management, pricing, shipping, purchasing, general accounting and planning. Where

## Edgar Filing: Avery Dennison Corp - Form 10-Q

appropriate, we are reviewing related internal controls and making changes. Other than these implementations, there have been no changes in our internal control over financial reporting during the most recent fiscal quarter that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.
