Cash, cash equivalents, and restricted cash, end of period	\$ 16,232,352	\$ 61,502,105

(1) For the quarters ended January 31, 2019 and 2018, proceeds from equity investments includes \$1,018,000 and \$0 from escrow receivables, net of reserves, respectively.

During the quarters ended January 31, 2019 and 2018, MVC Capital, Inc. paid \$1,796,875 and \$2,718,599 in interest expense, respectively.

During the quarters ended January 31, 2019 and 2018, MVC Capital, Inc. paid \$480 and \$0 in income taxes, respectively.

Non-cash activity:

During the quarters ended January 31, 2019 and 2018, MVC Capital, Inc. recorded payment in-kind dividend and interest of \$964,412 and \$715,324, respectively. This amount was added to the principal balance of the investments and recorded as dividend/interest income.

During the quarters ended January 31, 2019 and 2018, the Plan Agent purchased 9,949 and 7,670 shares of common stock in the open market in order to satisfy the reinvestment portion of our dividends.

On November 28, 2017, the Company restructured the Custom Alloy second lien loan and unsecured subordinated loan. The second lien loan was restructured into a \$3.5 million second lien loan with an interest rate of 10% and a maturity date of December 31, 2020, 6,500 shares of Series B Preferred Stock with a 10% PIK coupon and a maturity date of December 31, 2020 and 17,935 shares of Series C Preferred Stock. The unsecured subordinated loan was restructured into 3,617 shares of Series A Preferred Stock with a 12% PIK coupon and a maturity date of April 30, 2020.

Effective January 1, 2018, the cost basis of the U.S. Gas second lien loan was decreased by approximately \$3.0 million due to a working capital adjustment, resulting in a realized loss of approximately \$3.0 million. The second lien loan is still subject to indemnification adjustments.

The accompanying notes are an integral part of these consolidated financial statements.

Notes to Consolidated Financial Statements

January 31, 2019

(Unaudited)

1. Basis of Presentation

The accompanying unaudited interim consolidated financial statements have been prepared in accordance with the instructions to Form 10-Q and do not include all of the information and footnotes required by U.S. generally accepted accounting principles for complete consolidated financial statements. Certain amounts, when applicable, have been reclassified to adjust to current period presentations. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation have been included as required by Regulation S-X, Rule 10-01. These statements should be read in conjunction with the consolidated financial statements and notes thereto included in the Company's Annual Report on Form 10-K for the year ended October 31, 2018, filed with the U.S. Securities and Exchange Commission (the SEC). As the Company is an investment company, (as defined by the Investment Company Act of 1940 (the 1940 Act)), management follows investment company accounting and reporting guidance of Financial Accounting Standards Board (FASB) 946-Investment Companies, which is accounting principles generally accepted in the United States of America (GAAP).

2. Consolidation

On July 16, 2004, the Company formed a wholly-owned subsidiary, MVC Financial Services, Inc. (MVCFS). MVCFS is incorporated in Delaware and its principal purpose is to provide advisory, administrative and other services to the Company, the Company's portfolio companies and other entities. MVCFS had opening equity of \$1 (100 shares at \$0.01 per share). The Company does not hold MVCFS for investment purposes and does not intend to sell MVCFS.

On October 14, 2011, the Company formed a wholly-owned subsidiary, MVC Cayman, an exempted company incorporated in the Cayman Islands, to hold certain of its investments and to make certain future investments. The results of MVCFS and MVC Cayman are consolidated into the Company's financial statements and all inter-company accounts have been eliminated in consolidation. Of the \$36.2 million in cash and cash equivalents on the Company's Consolidated Balance Sheets as of January 31, 2019, approximately \$1.1 million was held by MVC Cayman.

During fiscal year ended October 31, 2012 and thereafter, MVC Partners, LLC (MVC Partners) was consolidated with the operations of the Company as MVC Partners' limited partnership interest in the MVC Private Equity Fund, L.P. (PE Fund) is a substantial portion of MVC Partners operations. Previously, MVC Partners was presented as a portfolio company on the Consolidated Schedule of Investments. The consolidation of MVC Partners has not had any material effect on the financial position or net results of operations of the Company. There are additional disclosures resulting from this consolidation.

Edgar Filing: MVC CAPITAL, INC. - Form 10-Q

MVC GP II, LLC (MVC GP II), an indirect wholly-owned subsidiary of the Company, serves as the general partner of the PE Fund. MVC GP II is wholly-owned by MVCFS, a subsidiary of the Company. The results of MVC GP II are consolidated into MVCFS and ultimately the Company. All inter-company accounts have been eliminated in consolidation.

During fiscal year ended October 31, 2014, MVC Turf, Inc. (MVC Turf) was consolidated with the Company as MVC Turf was an MVC wholly-owned holding company. The consolidation of MVC Turf did not have any material effect on the financial position or net results of operations of the Company. On March 7, 2017, the Company exchanged its shares of MVC Turf, the holding company that owned the Company's LLC interest in Turf Products, for approximately \$3.8 million of additional subordinated debt in Turf Products. Prior to the exchange, the Company also received a distribution from MVC Turf of approximately \$323,000. The impact of the deconsolidation of MVC Turf on the Company's financial condition and results of operations was immaterial. MVC Turf is no longer consolidated with the Company.

Table of Contents

3. Investment Classification

As required by the 1940 Act, we classify our investments by level of control. As defined in the 1940 Act, **Control Investments** are investments in those companies that we are deemed to **Control**. **Affiliate Investments** are investments in those companies that are **Affiliated Companies** of us, as defined in the 1940 Act, other than **Control Investments**. **Non-Control/Non-Affiliate Investments** are those that are neither **Control Investments** nor **Affiliate Investments**. Generally, under that 1940 Act, we are deemed to control a company in which we have invested if we own 25% or more of the voting securities of such company. We are deemed to be an affiliate of a company in which we have invested if we own 5% or more and less than 25% of the voting securities of such company.

4. Cash and Cash Equivalents

For the purpose of the Consolidated Balance Sheets and Consolidated Statements of Cash Flows, the Company considers all money market and all highly liquid temporary cash investments purchased with an original maturity of less than three months to be cash equivalents. The Company places its cash and cash equivalents with financial institutions and cash held in bank accounts may exceed the Federal Deposit Insurance Corporation (FDIC) insured limit. As of January 31, 2019, the Company had approximately \$428,000 in cash equivalents, approximately \$12.0 million in restricted cash and approximately \$3.8 million in cash totaling approximately \$16.2 million. Of the \$3.8 million in cash, approximately \$1.1 million was held by MVC Cayman. As of October 31, 2018, the Company had approximately \$783,000 in cash equivalents, approximately \$5.3 million in restricted cash and approximately \$9.8 million in cash totaling approximately \$15.9 million. Of the \$9.8 million in cash, approximately \$1.1 million was held by MVC Cayman.

Restricted Cash and Cash Equivalents

Cash and cash equivalent accounts that are not available to the Company for day to-day use and are legally restricted are classified as restricted cash. Restricted cash and cash equivalents are carried at cost, which approximates fair value. As of October 31, 2018 and January 31, 2019, there was a \$300,000 letter of credit for RuMe provided by a third party financial institution that MVC collateralized with cash, that was classified as restricted cash on the Company's Consolidated Balance Sheets. Also, as of October 31, 2018 and January 31, 2019, the Company had restricted cash of \$5.0 million related to the compensating balance requirement for Credit Facility III and Credit Facility IV (defined below), respectively. As of January 31, 2018, there was also approximately \$6.7 million classified as restricted cash serving as collateral for letters of credit.

5. Recent Accounting Pronouncements

In May 2014, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2014-09, **Revenue from Contracts with Customers** (Topic 606). ASU 2014-09 addresses the reporting of revenue by most entities and will replace most existing revenue recognition guidance in U.S. GAAP when it becomes effective. In August 2015, the FASB issued ASU 2015-14 that defers the effective date of ASU 2014-09 for public business entities for annual reporting periods beginning after December 15, 2017, including interim periods therein. Early application is not permitted for public business entities. On December 27, 2016, the FASB issued ASU 2016-20 to make various amendments to Topic 606, going into effect for years beginning after December 15, 2017. We anticipate the standard to impact the fair value of the PE Fund's LP interest due to the exclusion of the Company's portion of the carried interest associated with the PE Fund. This update has had no material impact on our financial statements.

In August 2014, FASB issued ASU 2014-15, Presentation of Financial Statements – Going Concern (Subtopic 205-40): Disclosure of Uncertainties about an Entity’s Ability to Continue as a Going Concern (ASU 2014-15). The standard requires management to evaluate, at each interim and annual reporting period, whether there are conditions or events that raise substantial doubt about the entity’s ability to continue as a

Edgar Filing: MVC CAPITAL, INC. - Form 10-Q

Table of Contents

going concern within one year after the date the financial statements are issued, and provide related disclosures. ASU 2014-15 is effective for annual periods ending after December 15, 2016, and for annual and interim periods thereafter, and early adoption is permitted. This update has had no impact on our financial statements.

In February 2015, the FASB issued Accounting Standards Update 2015-02, which updated consolidation standards under ASC Topic 810, Consolidation. Under this update, a new consolidation analysis is required for variable interest entities (VIEs) and will limit the circumstances in which investment managers and similar entities are required to consolidate the entities that they manage. The FASB decided to eliminate some of the criteria under which their fees are considered a variable interest and limit the circumstances in which variable interests in a VIE held by related parties of a reporting enterprise require the reporting enterprise to consolidate the VIE. The guidance is effective for public business entities for annual and interim periods in fiscal years beginning after December 15, 2015. This update has had no impact on our financial statements.

In May 2015, the FASB issued ASU No. 2015-07, Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities that Calculate Net Asset Value per Share (or Its Equivalent). The new guidance removes the requirement that investments for which NAV is determined based on practical expedient reliance be reported utilizing the fair value hierarchy. The guidance is effective for public business entities for annual and interim periods in fiscal years beginning after December 15, 2015. This update has had no material impact on our financial statements.

In August 2016, the FASB issued ASU 2016-15, Statement of Cash Flows – Classification of Certain Cash Receipts and Cash Payments (Topic 230). The amendments provide guidance on eight specific cash flow issues in how certain cash receipts and cash payments are presented and classified in the statement of cash flows with the objective of reducing the existing diversity in practice. The amendments are effective for all entities for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2017. Early adoption is permitted. This update has had no material impact on our financial statements.

In October 2016, the FASB issued ASU 2016-17, to amend the consolidation guidance on how a reporting entity that is the single decision maker of a VIE should treat indirect interests in the entity held through related parties that are under common control with the reporting entity when determining whether it is the primary beneficiary of that VIE. The ASU is effective for public business entities for fiscal years beginning after December 15, 2016, including interim periods within those fiscal years. This update has had no impact on our financial statements.

In November 2016, the FASB issued ASU 2016-18, Statement of Cash Flows (Topic 230): Restricted Cash. The amendments in this Update require that a statement of cash flows explain the change during the period in the total of cash, cash equivalents, and amounts generally described as restricted cash or restricted cash equivalents. The ASU is effective for public business entities for fiscal years beginning after December 15, 2017, including interim periods within those fiscal years. This update has had no material impact on our financial statements.

In August 2018, the FASB issued ASU No. 2018-13, Fair Value Measurement (Topic 820): Disclosure Framework-Changes to the Disclosure Requirements for Fair Value Measurements. The amendments require new disclosures of changes in unrealized gains and losses in other comprehensive income for recurring Level 3 fair value of instruments held at balance sheet date and the range and weighted average of significant unobservable inputs for recurring and nonrecurring Level 3 fair values. Certain disclosures are being eliminated such as the valuation process required for Level 3 fair value measurements, the policy for timing of transfers between levels and amounts of and reason for transfers between Levels 1 and 2. The ASU is effective for public business entities for fiscal years and interim periods beginning after December 15, 2019. The Company does not expect the adoption of ASU 2018-13 to have a material impact on our financial statements.

Table of Contents

In October 2018, the FASB issued ASU No. 2018-17, Consolidation (Topic 810): Targeted Improvements to related Party Guidance for Variable Interest Entities. The guidance supersedes the private company alternative for common control leasing arrangements issued in 2014 and expands it to all qualifying common control arrangements. Also under the guidance, a private company could make an accounting policy election to not apply VIE guidance to legal entities under common control (including common control leasing arrangements) when certain criteria are met. Additionally, a private company electing the alternative is required to provide detailed disclosures about its involvement with, and exposure to, the legal entity under common control. The ASU also amends the guidance for determining whether a decision-making fee is a variable interest. The amendments require organizations to consider indirect interests held through related parties under common control on a proportional basis rather than as the equivalent of a direct interest in its entirety (as currently required in GAAP). The ASU is effective for public business entities for fiscal years and interim periods beginning after December 15, 2019. The Company does not expect the adoption of ASU 2018-17 to have a material impact on our financial statements.

6. Investment Valuation Policy

Our investments are carried at fair value in accordance with the Accounting Standards Codification, *Fair Value Measurement* (ASC 820). In accordance with the 1940 Act, unrestricted minority-owned publicly traded securities for which market quotations are readily available are valued at the closing market quote on the valuation date and majority-owned publicly traded securities and other privately held securities are valued as determined in good faith by the Valuation Committee of our Board of Directors. For legally or contractually restricted securities of companies that are publicly traded, the value is based on the closing market quote on the valuation date minus a discount for the restriction. At January 31, 2019, we did not own restricted or unrestricted securities of any publicly traded company in which we have a majority-owned interest, but did own two securities in which we have minority-owned interests.

ASC 820 provides a framework for measuring the fair value of assets and liabilities and provides guidance regarding a fair value hierarchy that prioritizes information used to measure value. In determining fair value, the Valuation Committee primarily uses the level 3 inputs referenced in ASC 820.

ASC 820 defines fair value in terms of the price that would be received upon the sale of an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The price used to measure the fair value is not adjusted for transaction costs while the cost basis of our investments may include initial transaction costs. Under ASC 820, the fair value measurement also assumes that the transaction to sell an asset occurs in the principal market for the asset or, in the absence of a principal market, the most advantageous market for the asset. The principal market is the market in which the reporting entity would sell or transfer the asset with the greatest volume and level of activity for the asset to which the reporting entity has access to as of the measurement date. If no market for the asset exists or if the reporting entity does not have access to the principal market, the reporting entity should use a hypothetical market.

Valuation Methodology

Pursuant to the requirements of the 1940 Act and in accordance with ASC 820, we value our portfolio securities at their current market values or, if market quotations are not readily available, at their estimates of fair values. Because our portfolio investments generally do not have readily ascertainable market values, we record these investments at fair value in accordance with our Valuation Procedures adopted by the Board of Directors, which are consistent with ASC 820. As permitted by the SEC, the Board of Directors has delegated the responsibility of making fair value determinations to the Valuation Committee, subject to the Board of Directors' supervision and pursuant to our Valuation Procedures. Our Board of Directors may also hire independent consultants to review our Valuation Procedures or to conduct an independent valuation of one or more of our portfolio investments.

Pursuant to our Valuation Procedures, the Valuation Committee (which is comprised of three Independent Directors) determines fair values of portfolio company investments on a quarterly basis (or more frequently, if

Table of Contents

deemed appropriate under the circumstances). In doing so, the Committee considers the recommendations of The Tokarz Group Advisers LLC (TTG Advisers). The Committee also takes into account input and reviews by third party consultants retained to support the Company's valuation process. The Company has also adopted several other enhanced processes related to valuations of controlled/affiliated portfolio companies. Any changes in valuation are recorded in the consolidated statements of operations as Net unrealized appreciation (depreciation) on investments.

Currently, our NAV per share is calculated and published on a quarterly basis. The Company calculates our NAV per share by subtracting all liabilities from the total value of our portfolio securities and other assets and dividing the result by the total number of outstanding shares of our common stock on the date of valuation. Fair values of foreign investments reflect exchange rates, as applicable, in effect on the last business day of the quarter end. Exchange rates fluctuate on a daily basis, sometimes significantly. Exchange rate fluctuations following the most recent quarter end are not reflected in the valuations reported in this Quarterly Report. See Item 1A Risk Factor, Investments in foreign debt or equity may involve significant risks in addition to the risks inherent in U.S. investments.

At January 31, 2019 and October 31, 2018, approximately 80.8% and 86.5%, respectively, of total assets represented investments in portfolio companies recorded at fair value (Fair Value Investments).

Under most circumstances, at the time of acquisition, Fair Value Investments are carried at cost (absent the existence of conditions warranting, in management's and the Valuation Committee's view, a different initial value). During the period that an investment is held by the Company, its original cost may cease to approximate fair value as the result of market and investment specific factors. No pre-determined formula can be applied to determine fair value. Rather, the Valuation Committee analyzes fair value measurements based on the value at which the securities of the portfolio company could be sold in an orderly disposition over a reasonable period of time between willing parties, other than in a forced or liquidation sale. The liquidity event whereby the Company ultimately exits an investment is generally the sale, the merger, the recapitalization of a portfolio company or by a public offering of its securities.

There is no one methodology to determine fair value and, in fact, for any portfolio security, fair value may be expressed as a range of values, from which the Company derives a single estimate of fair value. To determine the fair value of a portfolio security, the Valuation Committee analyzes the portfolio company's financial results and projections, publicly traded comparable companies when available, comparable private transactions when available, precedent transactions in the market when available, third-party real estate and asset appraisals if appropriate and available, discounted cash flow analysis, if appropriate, as well as other factors. The Company generally requires, where practicable, portfolio companies to provide annual audited and more regular unaudited financial statements, and/or annual projections for the upcoming fiscal year.

The fair value of our portfolio securities is inherently subjective. Because of the inherent uncertainty of fair valuation of portfolio securities and escrow receivables that do not have readily ascertainable market values, our estimate of fair value may significantly differ from the fair value that would have been used had a ready market existed for the securities. Such values also do not reflect brokers' fees or other selling costs, which might become payable on disposition of such investments.

If a security is publicly traded, the fair value is generally equal to market value based on the closing price on the principal exchange on which the security is primarily traded unless restricted and a restricted discount is applied.

Edgar Filing: MVC CAPITAL, INC. - Form 10-Q

For equity securities of portfolio companies, whose securities are not publicly traded, the Valuation Committee estimates the fair value based on market and/or income approach with value then attributed to equity or equity like securities using the enterprise value waterfall (Enterprise Value Waterfall) valuation methodology. Under the Enterprise Value Waterfall valuation methodology, the Valuation Committee estimates the enterprise fair value of the portfolio company and then waterfalls the enterprise value over the portfolio company's securities in order of their preference relative to one another. To assess the enterprise

Table of Contents

value of the portfolio company, the Valuation Committee weighs some or all of the traditional market valuation methods and factors based on the individual circumstances of the portfolio company in order to estimate the enterprise value. The methodologies for performing assets may be based on, among other things: valuations of comparable public companies, recent sales of private and public comparable companies, discounting the forecasted cash flows of the portfolio company, third party valuations of the portfolio company, considering offers from third parties to buy the company, estimating the value to potential strategic buyers and considering the value of recent investments in the equity securities of the portfolio company, and third-party asset and real estate appraisals. For non-performing assets, the Valuation Committee may estimate the liquidation or collateral value of the portfolio company's assets. The Valuation Committee also takes into account historical and anticipated financial results.

The Company does not utilize hedge accounting and instead, when applicable, marks its derivatives to market on the Company's consolidated statement of operations.

In assessing enterprise value, the Valuation Committee considers the mergers and acquisitions (M&A) market as the principal market in which the Company would sell its investments in portfolio companies under circumstances where the Company has the ability to control or gain control of the board of directors of the portfolio company (Control Companies). This approach is consistent with the principal market that the Company would use for its portfolio companies if the Company has the ability to initiate a sale of the portfolio company as of the measurement date, i.e., if it has the ability to control or gain control of the board of directors of the portfolio company as of the measurement date. In evaluating if the Company can control or gain control of a portfolio company as of the measurement date, the Company takes into account its equity securities on a fully diluted basis, as well as other factors.

For Non-Control Companies, consistent with ASC 820, the Valuation Committee considers a hypothetical secondary market as the principal market in which it would sell investments in those companies. The Company also considers other valuation methodologies such as the Option Pricing Method and liquidity preferences when valuing minority equity positions of a portfolio company.

For loans and debt securities of Non-Control Companies (for which the Valuation Committee has identified the hypothetical secondary market as the principal market), the Valuation Committee determines fair value based on the assumptions that a hypothetical market participant would use to value the security in a current hypothetical sale using a market yield (Market Yield) valuation methodology. In applying the Market Yield valuation methodology, the Valuation Committee determines the fair value based on such factors as third party broker quotes (if available) and market participant assumptions, including synthetic credit ratings, estimated remaining life, current market yield and interest rate spreads of similar securities as of the measurement date.

Estimates of average life are generally based on market data of the average life of similar debt securities. However, if the Valuation Committee has information available to it that the debt security is expected to be repaid in the near term, the Valuation Committee would use an estimated life based on the expected repayment date.

The Valuation Committee determines fair value of loan and debt securities of Control Companies based on the estimate of the enterprise value of the portfolio company. To the extent the enterprise value exceeds the remaining principal amount of the loan and all other debt securities of the company, the fair value of such securities is generally estimated to be their cost. However, where the enterprise value is less than the remaining principal amount of the loan and all other debt securities, the Valuation Committee may discount the value of such securities to reflect an impairment.

Edgar Filing: MVC CAPITAL, INC. - Form 10-Q

For the Company's or its subsidiary's investment in the PE Fund, for which an indirect wholly-owned subsidiary of the Company serves as the general partner (the "GP") of the PE Fund, the Valuation Committee relies on the GP's determination of the fair value of the PE Fund which will be generally valued, as a practical expedient, utilizing the net asset valuations provided by the GP, which will be made: (i) no less frequently

Table of Contents

than quarterly as of the Company's fiscal quarter end and (ii) with respect to the valuation of PE Fund investments in portfolio companies, will be based on methodologies consistent with those set forth in the Company's Valuation Procedures. In making its determinations, the GP considers and generally relies on TTG Advisers' recommendations. The determination of the net asset value of the Company's or its subsidiary's investment in the PE Fund will follow the methodologies described for valuing interests in private investment funds (Investment Vehicles) described below. Additionally, when both the Company and the PE Fund hold investments in the same portfolio company, the GP's Fair Value determination shall be based on the Valuation Committee's determination of the Fair Value of the Company's portfolio security in that portfolio company.

As permitted under GAAP, the Company's interests in private investment funds are generally valued, as a practical expedient, utilizing the net asset valuations provided by management of the underlying Investment Vehicles, without adjustment, unless TTG Advisers is aware of information indicating that a value reported does not accurately reflect the value of the Investment Vehicle, including any information showing that the valuation has not been calculated in a manner consistent with GAAP. Net unrealized appreciation (depreciation) of such investments is recorded based on the Company's proportionate share of the aggregate amount of appreciation (depreciation) recorded by each underlying Investment Vehicle. The Company's proportionate investment interest includes its share of interest and dividend income and expense, and realized and unrealized gains and losses on securities held by the underlying Investment Vehicles, net of operating expenses and fees. Realized gains and losses on distributions from Investment Vehicles are generally recognized on a first in, first out basis.

The Company applies the practical expedient to interests in Investment Vehicles on an investment by investment basis, and consistently with respect to the Company's entire interest in an investment. The Company may adjust the valuation obtained from an Investment Vehicle with a premium, discount or reserve if it determines that the net asset value is not representative of fair value.

If the Company intends to sell all or a portion of its interest in an Investment Vehicle to a third-party in a privately negotiated transaction near the valuation date, the Company will consider offers from third parties to buy the interest in an Investment Vehicle in valuations, which may be discounted for both probability of close and time.

When the Company receives nominal cost warrants or free equity securities (nominal cost equity) with a debt security, the Company typically allocates its cost basis in the investment between debt securities and nominal cost equity at the time of origination. If the Company is not reimbursed for investment or transaction related costs at the time an investment is made, the Company typically capitalizes those costs to the cost basis of the investment.

Interest income, adjusted for amortization of premium and accretion of discount on a yield to maturity methodology, is recorded on an accrual basis to the extent that such amounts are expected to be collected. Origination and/or closing fees associated with investments in portfolio companies are accreted into income over the respective terms of the applicable loans. Upon the prepayment of a loan or debt security, any unamortized original issue discount or market discount is recorded as interest income. Prepayment premiums are recorded on loans when received as interest income. Dividend income, if any, is recognized on an accrual basis on the ex-dividend date to the extent that the Company expects to collect such amounts.

For loans, debt securities, and preferred securities with contractual payment-in-kind interest or dividends, which represent contractual interest/dividends accrued and added to the loan balance or liquidation preference that generally becomes due at maturity, the Company will not ascribe value to payment-in-kind interest/dividends, if the portfolio company valuation indicates that the payment-in-kind interest is not collectible. However, the Company may ascribe value to payment-in-kind interest if the health of the portfolio company and the underlying securities are not in question. All payment-in-kind interest that has been added to the principal balance or capitalized is subject to ratification by the Valuation Committee. For interest or deferred interest receivables purchased by the Company at a discount to their outstanding amount, the

Edgar Filing: MVC CAPITAL, INC. - Form 10-Q

Company amortizes the discount using the effective yield method and records it as interest income over the life

Table of Contents

of the loan. The Company will not ascribe value to the interest or deferred interest, if the Company has determined that the interest is not collectible.

Escrows from the sale of a portfolio company are generally valued at an amount, which may be expected to be received from the buyer under the escrow's various conditions and discounted for both risk and time.

ASC 460, *Guarantees*, requires the Company to estimate the fair value of the guarantee obligation at its inception and requires the Company to assess whether a probable loss contingency exists in accordance with the requirements of ASC 450, *Contingencies*. The Valuation Committee typically will look at the pricing of the security in which the guarantee provided support for the security and compare it to the price of a similar or hypothetical security without guarantee support. The difference in pricing will be discounted for time and risk over the period in which the guarantee is expected to remain outstanding.

Reclassifications Certain amounts from prior years have been reclassified to conform to the current year presentation.

7. Concentration of Market Risk

Financial instruments that subjected the Company to concentrations of market risk consisted principally of equity investments, subordinated notes, debt instruments and escrow receivables (other than cash equivalents), which collectively represented approximately 93.9% and 93.8% of the Company's total assets at January 31, 2019 and October 31, 2018, respectively. As discussed in Note 8, these investments consist of securities in companies with no readily determinable market values and as such are valued in accordance with the Company's fair value policies and procedures. The Company's investment strategy represents a high degree of business and financial risk due to the fact that the Company's portfolio investments (other than cash equivalents) are generally illiquid, in small and middle market companies, and include foreign investments (which subject the Company to additional risks such as currency, geographic, demographic and operational risks), entities with little operating history or entities that possess operations in new or developing industries. These investments, should they become publicly traded, would generally be (i) subject to restrictions on resale, if they were acquired from the issuer in private placement transactions; and (ii) susceptible to market risk. Additionally, we are classified as a non-diversified investment company within the meaning of the 1940 Act, and therefore may invest a significant portion of our assets in a relatively small number of portfolio companies, which gives rise to a risk of significant loss should the performance or financial condition of one or more portfolio companies deteriorate. As of January 31, 2019, the fair value of our largest investment, Crius Energy Trust (Crius), including its wholly-owned indirect subsidiary U.S. Gas & Electric, Inc. (U.S. Gas), comprised 14.2% of our total assets and 23.9% of our net assets. The Company's investments in short-term securities are generally in U.S. government securities, with a maturity of greater than three months but generally less than one year or other high quality and highly liquid investments. The Company considers all money market and other cash investments purchased with an original maturity of less than three months to be cash equivalents.

The following table shows the portfolio composition by industry grouping at fair value as a percentage of net assets as of January 31, 2019 and October 31, 2018.

Edgar Filing: MVC CAPITAL, INC. - Form 10-Q

Table of Contents

	January 31, 2019	October 31, 2018
Energy Services	23.90%	24.36%
Electrical Engineering	19.05%	18.06%
Manufacturer of Pipe Fittings	14.66%	12.98%
Automotive Dealerships	11.96%	11.49%
Food Services	7.66%	7.27%
Supply Chain Equipment Manufacturer	6.91%	6.62%
Private Equity	5.33%	9.03%
Business Services	5.49%	5.26%
Consumer Products	5.47%	5.53%
Electronics Component Manufacturing	4.62%	4.36%
Insurance	3.96%	3.90%
Regulated Investment Company	4.02%	3.84%
Distributor - Landscaping and Irrigation Equipment	3.90%	3.72%
Specialty Chemicals	3.87%	3.70%
Equipment Rental	3.86%	3.34%
Information Technology Products and Services	2.85%	2.70%
Safety Equipment Manufacturer	2.61%	2.49%
Electronics Manufacturing and Repair	2.52%	2.43%
Government Services	2.38%	2.27%
Technology Investment - Financial Services	2.32%	2.20%
Welding Equipment Manufacturer	2.05%	1.95%
Real Estate Management	1.92%	1.80%
Software	1.74%	1.65%
Defense/Aerospace Parts Manufacturing	1.68%	1.62%
Medical Equipment Manufacturer	0.87%	0.00%
Environmental Services	0.14%	0.56%
	145.74%	143.13%

The following table shows the portfolio composition by geographic region at fair value as a percentage of total assets as of January 31, 2019 and October 31, 2018.

	January 31, 2019	October 31, 2018
Southeast	20.92%	21.46%
Europe	19.69%	20.59%
Northeast	18.03%	20.81%
Midwest	12.87%	13.45%
West	5.90%	6.28%
Canada	3.62%	4.54%
Southwest	3.39%	3.82%
Puerto Rico	2.36%	2.55%
	86.78%	93.50%

8. Portfolio Investments

Pursuant to the requirements of the 1940 Act and ASC 820, we value our portfolio securities at their current market values or, if market quotations are not readily available, at their estimated fair values. Because our portfolio company investments generally do not have readily ascertainable market values, we record these investments at fair value in accordance with Valuation Procedures adopted by our Board of Directors. As permitted by the SEC, the Board of Directors has delegated the responsibility of making fair value

Table of Contents

determinations to the Valuation Committee, subject to the Board of Directors' supervision and pursuant to our Valuation Procedures.

The levels of fair value inputs used to measure our investments are characterized in accordance with the fair value hierarchy established by ASC 820. Where inputs for an asset or liability fall in more than one level in the fair value hierarchy, the investment is classified in its entirety based on the lowest level input that is significant to that investment's fair value measurement. We use judgment and consider factors specific to the investment in determining the significance of an input to a fair value measurement. The three levels of the fair value hierarchy and investments that fall into each of the levels are described below:

- **Level 1:** Level 1 inputs are unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities. We use Level 1 inputs for investments in publicly traded unrestricted securities for which we do not have a controlling interest. Such investments are valued at the closing price on the measurement date. We valued two of our investments using Level 1 inputs as of January 31, 2019.
- **Level 2:** Level 2 inputs are inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly or other inputs that are observable or can be corroborated by observable market data. Additionally, the Company's interests in Investment Vehicles that can be withdrawn by the Company at the net asset value reported by such Investment Vehicle as of the measurement date or within six months of the measurement date are generally categorized as Level 2 investments.
- **Level 3:** Level 3 inputs are unobservable and cannot be corroborated by observable market data. Additionally, included in Level 3 are the Company's interests in Investment Vehicles from which the Company cannot withdraw at the net asset value reported by such Investment Vehicles as of the measurement date or within six months of the measurement date. We use Level 3 inputs for measuring the fair value of the vast majority of our investments. See Note 6 Investment Valuation Policy for the investment valuation policies used to determine the fair value of these investments.

As noted above, the interests in Investment Vehicles are included in Level 3 of the fair value hierarchy. In determining the appropriate level, the Company considers the length of time until the investment is redeemable, including notice and lock-up periods and any other restriction on the disposition of the investment. The Company also considers the nature of the portfolios of the underlying Investment Vehicles and such vehicles' ability to liquidate their investment.

The following fair value hierarchy tables set forth our investment related assets and (liabilities) by level as of January 31, 2019 and October 31, 2018 (in thousands):

Edgar Filing: MVC CAPITAL, INC. - Form 10-Q

A review of fair value hierarchy classifications is conducted on a quarterly basis. Changes in the observability of valuation inputs may result in a reclassification for certain financial assets or liabilities. Reclassifications impacting Level 3 of the fair value hierarchy are reported as transfers in/out of the Level 3 category as of the beginning of the period in which the reclassifications occur. During the quarter ended January 31, 2019 and the year ended October 31, 2018, there were no transfers in or out of Level 1 or 2.

The following tables set forth a summary of changes in the fair value of investment related assets and liabilities measured using Level 3 inputs for the quarters ended January 31, 2019, and January 31, 2018 (in thousands):

	Balances, November 1, 2018	Realized (Losses)	Reversal of Prior Year (Appreciation) Gain	Unrealized Appreciation (Depreciation) on	Transfers In (Out) of Level 3	Balances, January 31, 2019	Total Loss for the year Included in Earnings Attributable to the Change in Unrealized Appreciation (Depreciation) on Investments held as of January 31, 2019

(1) Included in net realized gain (loss) on investments in the Consolidated Statements of Operations.

(2) Included in net unrealized appreciation (depreciation) of investments in the Consolidated Statements of Operations related to securities disposed of during the quarter ended January 31, 2019 and January 31, 2018, respectively.

(3) Included in net unrealized appreciation (depreciation) of investments in the Consolidated Statements of Operations related to securities held during the quarter ended January 31, 2019 and January 31, 2018, respectively.

(4) Includes increases in the cost basis of investments resulting from new portfolio investments, PIK interest or dividends, the amortization of discounts, premiums and closing fees and the exchange of one or more existing securities for new securities. For the quarter ended January 31, 2019 and January 31, 2018, a total of approximately \$964,000 and \$715,000, respectively, of PIK interest and dividends and amortization of discounts and fees are included.

(5) Includes decreases in the cost basis of investments resulting from principal repayments or sales.

In accordance with ASU 2011-04, the following tables summarize information about the Company's Level 3 fair value measurements as of January 31, 2019 and October 31, 2018 (in thousands):

ASU 2011-04 clarifies the application of existing fair value measurement and disclosure requirements related to the application of the highest and best use and valuation premise concepts for financial and nonfinancial instruments, measuring the fair value of an instrument classified in equity, and disclosures about fair value measurements. ASU 2011-04 requires additional disclosures about fair value measurements categorized within Level 3 of the fair value hierarchy, including the valuation processes used by the reporting entity, the sensitivity of the fair value to changes in unobservable inputs and the interrelationships between those unobservable inputs, if any.

Table of Contents

Following are descriptions of the sensitivity of the Level 3 recurring fair value measurements to changes in the significant unobservable inputs presented in the above table. For securities utilizing the income approach valuation technique, a significant increase (decrease) in the discount rate, risk premium or discount for lack of marketability would result in a significantly lower (higher) fair value measurement. The discount for lack of marketability used to determine fair value may include other factors such as liquidity or credit risk. Generally, a change in the discount rate is accompanied by a directionally similar change in the risk premium and discount for lack of marketability. For securities utilizing the market approach valuation technique, a significant increase (decrease) in the EBITDA, revenue multiple or other key unobservable inputs listed in the above table would result in a significantly higher (lower) fair value measurement. A significant increase (decrease) in the discount for lack of marketability would result in a significantly lower (higher) fair value measurement. The discount for lack of marketability used to determine fair value may include other factors such as liquidity or credit risk. For securities utilizing an adjusted net asset approach valuation technique, a significant increase (decrease) in the price to book value ratio, discount rate or other key unobservable inputs listed in the above table would result in a significantly higher (lower) fair value measurement.

For the Quarter Ended January 31, 2019

During the quarter ended January 31, 2019, the Company made one new investment, committing capital that totaled approximately \$1.9 million. Pursuant to an exemptive order received by the Company from the SEC (the "Order"), that allows the Company to co-invest, subject to certain conditions, with certain affiliated private funds as described in the Order, each of the Company and TTGA C-I MMF LP (the "Private Fund") co-invested in GTM Intermediate Holdings, Inc. ("GTM") (\$1.9 million investment for the Company).

During the quarter ended January 31, 2019, the Company made a follow-on investment in one portfolio company that totaled \$2.0 million. On December 21, 2018, the Company loaned an additional \$2.0 million to Custom Alloy Corporation ("Custom Alloy") in the form of a second lien loan with an interest rate of 11% and a maturity date of December 23, 2019.

On November 9, 2018, Custom Alloy repaid its first lien loan in full, including all accrued interest.

On November 13, 2018, Custom Alloy repaid its \$1.4 million second lien loan in full, including all accrued interest.

On November 27, 2018, the Company funded approximately \$3.0 million related to the MVC Environmental, Inc. ("MVC Environmental") letter of credit, which was called by the beneficiary.

On December 27, 2018, the Company received proceeds of approximately \$7.5 million from the PE Fund related to the sale of Plymouth Rock Energy, LLC, a portfolio company of the PE Fund. The Company's pro-rata share of the PE Fund's cost basis in the Plymouth Rock Energy, LLC investment totaled approximately \$2.5 million, resulting in a realized gain of approximately \$5.0 million. The Company also received a carried interest payment from the PE Fund of approximately \$173,000 related to the sale, which was recorded as additional realized gains.

On December 27, 2018, the Company received a dividend of approximately \$543,000 from the PE Fund related to Focus Pointe Global.

Edgar Filing: MVC CAPITAL, INC. - Form 10-Q

During the quarter ended January 31, 2019, the Valuation Committee increased the fair value of the Company's investments in: Black Diamond Equipment Rental, LLC ("Black Diamond") loan and warrant by approximately \$767,000, Custom Alloy second lien loans, series A preferred stock, series B preferred stock and series C preferred stock by a net total of approximately \$2.3 million, Dukane IAS, LLC ("Dukane") loan by \$286, Foliofn, Inc. ("Foliofn") preferred stock by \$32,000, Highpoint Global LLC ("Highpoint") loan by approximately \$252, HTI Technologies and Industries, Inc. ("HTI") loan by approximately \$80,000, JSC Tekers Holdings ("JSC Tekers") preferred stock by approximately \$82,000, Security Holdings B.V. ("Security Holdings") equity and letter of credit by a net total of \$25,000, Turf Products, LLC ("Turf") loan by

Edgar Filing: MVC CAPITAL, INC. - Form 10-Q

Table of Contents

approximately \$15,000 and the Centile escrow by \$49,000. In addition, increases in the cost basis of the loans to HTI, Legal Solutions Holdings, Inc. (Legal Solutions), RuMe Inc. (RuMe), Dukane, Morey's Seafood International, LLC (Morey's), Highpoint, Array Industrial Technologies, LLC (Array), Black Diamond, GTM, Tin Roof Software LLC, (Tin Roof), Tuf-Tug Inc. (Tuf-Tug) and Security Holdings were due to the capitalization of PIK interest totaling \$964,412. The Valuation Committee also decreased the fair value of the Company's investments in: Advantage Insurance Holdings LTD (Advantage) preferred stock by approximately \$244,000, Essner Manufacturing, LP (Essner) loan by approximately \$21,000, Initials, Inc. (Initials) loan by approximately \$412,000, Legal Solutions loan by approximately \$118,000, MVC Automotive Group GmbH (MVC Automotive) equity by approximately \$117,000, MVC Environmental loan by approximately \$875,000 and common stock by approximately \$3.0 million, MVC Private Equity Fund L.P. general partnership interest and limited partnership interest in the PE Fund by a total of approximately \$1.1 million, RuMe series B-1 preferred stock, guarantee and warrants by a net total of approximately \$308,000, Trientis GmbH (Trientis) loan by approximately \$77,000, United States Technologies, Inc. (U.S. Tech) loan by approximately \$23,000 and the U.S. Gas & Electric, Inc. (U.S. Gas) loan by approximately \$797,000.

At January 31, 2019, the fair value of all portfolio investments, exclusive of U.S. Treasury obligations and escrow receivables, was \$316.2 million with a cost basis of \$413.6 million. At January 31, 2019, the fair value and cost basis of investments made by the Company's former management team pursuant to the prior investment objective (Legacy Investments) was \$5.0 million and \$15.0 million, respectively, and the fair value and cost basis of portfolio investments made by the Company's current management team was \$311.2 million and \$398.6 million, respectively. At October 31, 2018, the fair value of all portfolio investments, exclusive of escrow receivables, was \$324.5 million with a cost basis of \$409.6 million. At October 31, 2018, the fair value and cost basis of the Legacy Investments was \$5.0 million and \$15.0 million, respectively, and the fair value and cost basis of portfolio investments made by the Company's current management team was \$319.5 million and \$394.6 million, respectively.

For the Fiscal Year Ended October 31, 2018

During the fiscal year ended October 31, 2018, the Company made six new investments, committing capital that totaled approximately \$41.5 million. Pursuant to the Order, that allows the Company to co-invest, subject to certain conditions, with certain affiliated private funds as described in the Order, each of the Company and the Private Fund co-invested in Essner (\$3.7 million investment for the Company), Black Diamond (\$7.5 million investment for the Company), Apex Industrial Technologies, LLC (Apex) (\$15.0 million investment for the Company), Array (\$6.0 million investment for the Company), Tuf-Tug (\$5.6 million investment for the Company) and Tin Roof (\$3.7 million investment for the Company).

During the fiscal year ended October 31, 2018, the Company made follow-on investments in eight portfolio companies that totaled approximately \$20.8 million. On November 8, 2017, the Company loaned an additional \$1.5 million to U.S. Spray Drying Holding Company (SCSD) in the form of a senior secured loan. The loan has an interest rate of 12% and a maturity date of November 7, 2020. On December 21, 2017, the Company loaned approximately \$526,000 to Initials increasing the senior subordinated loan amount to approximately \$5.3 million. On December 22, 2017, the Company loaned \$1.4 million to Turf in the form of a third lien loan. The loan has an interest rate of 10% and a maturity date of August 7, 2020. On February 28, 2018, the Company committed \$6.0 million to Custom Alloy in the form of a first lien loan with an interest rate of 10% and a maturity date of October 31, 2018. The funded amount as of October 31, 2018, net of repayments, was approximately \$539,000 with no additional borrowings available on the commitment. On March 19, 2018, the Company invested approximately \$68,000 in Trientis for a warrant. On March 22, 2018, the Company loaned approximately \$2.3 million to MVC Automotive increasing the bridge loan amount to approximately \$7.1 million and extending the maturity date to June 30, 2019. On April 10, 2018, the Company loaned approximately \$308,000 to Security Holdings, increasing the bridge loan amount to approximately \$4.7 million. On May 30, 2018, the Company loaned an additional \$4.8 million to Security Holdings in the form of a senior subordinated loan and provided a 3.3 million Euro letter of credit. The loan has an annual interest rate of 12.45% and a maturity date of May 31, 2020. During the fiscal year ended October 31, 2018, the Company

Edgar Filing: MVC CAPITAL, INC. - Form 10-Q

Table of Contents

loaned approximately \$3.6 million to RuMe, increasing the subordinated loan amount to approximately \$3.3 million and the revolver balance to approximately \$1.5 million.

On November 28, 2017, the Company restructured the Custom Alloy second lien loan and unsecured subordinated loan. The second lien loan was restructured into a \$3.5 million second lien loan with an interest rate of 10% and a maturity date of December 31, 2020, 6,500 shares of series B preferred Stock with a 10% PIK coupon and a maturity date of December 31, 2020 and 17,935 shares of series C preferred Stock. The unsecured subordinated loan was restructured into 3,617 shares of series A preferred Stock with a 12% PIK coupon and a maturity date of April 30, 2020. The Company also provided a \$2.0 million and \$1.4 million letter of credit.

On November 29, 2017, the Company received a principal payment of \$3.0 million from Dukane resulting in an outstanding balance of approximately \$4.4 million as of October 31, 2018.

On December 29, 2017, the Company received a principal payment of \$200,000 from Vestal Manufacturing Enterprises, Inc. (Vestal).

Effective January 1, 2018, the cost basis of the U.S. Gas second lien loan was decreased by approximately \$3.0 million due to a working capital adjustment, resulting in a realized loss of approximately \$3.0 million. The second lien loan is still subject to indemnification adjustments.

On February 9, 2018, FDS Inc. (FDS) repaid its loan in full, including all accrued interest.

On April 4, 2018, Vestal repaid its loan in full, including all accrued interest.

On April 11, 2018, Morey s made a principal payment of \$2.0 million on its second lien loan.

On July 31, 2018, the Company sold its interest in Centile Holding BV (Centile) and received cash proceeds of approximately \$5.8 million at closing. An additional \$1.2 million of proceeds are held in escrow for 15 months from the closing. Assuming the full receipt of all escrow proceeds, the sale of Centile will result in a realized gain of approximately \$3.5 million.

On October 31, 2018, the Custom Alloy \$1.4 million letter of credit was drawn upon, which resulted in the Company receiving a \$1.4 million term note with a 15% interest rate and a maturity date of October 31, 2021.

During the fiscal year ended October 31, 2018 Turf made principal payments totaling \$210,000 on its third lien loan.

Edgar Filing: MVC CAPITAL, INC. - Form 10-Q

During the quarter ended January 31, 2018, the Valuation Committee increased the fair value of the Company's investments in: Centile equity interest by \$295,000, Custom Alloy second lien loan, series A preferred stock, series B preferred stock, series C preferred stock and letter of credit by a total of approximately \$638,000, Highpoint loan by approximately \$99,000, Initials loan by approximately \$46,000, JSC Tekers preferred stock by approximately \$370,000, Legal Solutions loan by approximately \$1,000, MVC Automotive equity interest by approximately \$1.8 million, MVC Environmental letter of credit by approximately \$7,000, MVC Private Equity Fund L.P. general partnership interest and limited partnership interest in the PE Fund by a total of approximately \$394,000, RuMe guarantee and letter of credit by a total of approximately \$57,000 and Security Holdings equity interest by approximately \$812,000. In addition, increases in the cost basis of the loans to HTI, Legal Solutions, Custom Alloy, RuMe, Dukane, Morey's, Highpoint and Security Holdings were due to the capitalization of PIK interest totaling \$715,324. The Valuation Committee also decreased the fair value of the Company's investments in: Advantage preferred stock by approximately \$143,000, Custom Alloy letter of credit by approximately \$70,000, Dukane loan by approximately \$30,000, Foliofn preferred stock by \$543,000, HTI loan by approximately \$130,000, MVC Environmental loan by approximately \$498,000, RuMe series B-1 preferred stock, series C preferred stock,

Table of Contents

common stock and warrants by a total of approximately \$1.2 million, Turf loans by approximately \$136,000, U.S. Gas loan by approximately \$1.7 million and SCSD common stock by approximately \$134,000.

During the quarter ended April 30, 2018, the Valuation Committee increased the fair value of the Company's investments in: Advantage preferred stock by approximately \$82,000, Centile equity interest by \$196,000, Custom Alloy second lien loan, series A preferred stock, series B preferred stock, series C preferred stock and letters of credit by a total of approximately \$3.0 million, Dukane loan by approximately \$300, Legal Solutions loan by approximately \$900, MVC Automotive equity interest by approximately \$934,000, RuMe guarantee by approximately \$28,000, MVC Private Equity Fund L.P. general partnership interest and limited partnership interest in the PE Fund by a total of approximately \$167,000 and U.S. Gas loan by approximately \$909,000. In addition, increases in the cost basis of the loans to Trientis, HTI, Legal Solutions, RuMe, Dukane, Morey's, Highpoint, Initials and Security Holdings were due to the capitalization of PIK interest totaling \$635,592. The Valuation Committee also decreased the fair value of the Company's investments in: Foliofn preferred stock by \$66,000, HTI loan by approximately \$49,000, Initials loan by approximately \$82,000, JSC Tekers Holdings preferred stock by approximately \$176,000, MVC Environmental loan and letter of credit by a total of approximately \$267,000, RuMe series B-1 preferred stock, series C preferred stock, common stock, letters of credit and warrants by a total of approximately \$1.8 million, Security Holdings equity interest by approximately \$2.3 million and Turf loans by approximately \$288,000.

During the quarter ended July 31, 2018, the Valuation Committee increased the fair value of the Company's investments in: Custom Alloy second lien loan, series A preferred stock, series B preferred stock, series C preferred stock and letters of credit by a total of approximately \$36,000, Dukane loan by approximately \$300, HTI loan by approximately \$242,000, Legal Solutions loan by approximately \$800, MVC Private Equity Fund L.P. general partnership interest and limited partnership interest in the PE Fund by a total of approximately \$1.9 million, Security Holdings equity interest and letter of credit by a total of approximately \$1.6 million and Turf loans by approximately \$53,000. In addition, increases in the cost basis of the loans to Trientis, HTI, Legal Solutions, RuMe, Dukane, Morey's, Highpoint, Initials, Array and Security Holdings were due to the capitalization of PIK interest totaling \$893,912. The Valuation Committee also decreased the fair value of the Company's investments in: Foliofn preferred stock by \$115,000, Initials loan by approximately \$186,000, JSC Tekers Holdings preferred stock by \$154,000, MVC Automotive equity interest by \$819,000, MVC Environmental loan and letter of credit by a total of approximately \$4.7 million, RuMe series B-1 preferred stock, series C preferred stock, common stock, letters of credit and warrants by a total of approximately \$114,000, U.S. Gas loan by approximately \$109,000, U.S. Tech loan by \$55,000 and the Centile escrow by approximately \$257,000 that was recorded as a realized loss.

During the quarter ended October 31, 2018, the Valuation Committee increased the fair value of the Company's investments in: Custom Alloy second lien loan, series A preferred stock, series B preferred stock, series C preferred stock and letters of credit by a total of approximately \$2.4 million, Dukane loan by approximately \$300, Foliofn preferred stock by \$310,000, Highpoint loan by approximately \$51,000, Legal Solutions loan by approximately \$900, Turf loans by approximately \$52,000 and the Centile escrow by approximately \$34,000 that was recorded as a realized gain. In addition, increases in the cost basis of the loans to Trientis, HTI, Legal Solutions, RuMe, Dukane, Morey's, Highpoint, Array, Black Diamond, Tuf-Tug and Security Holdings were due to the capitalization of PIK interest totaling \$927,705. The Valuation Committee also decreased the fair value of the Company's investments in: HTI loan by approximately \$144,000, Initials loan by approximately \$2.2 million, JSC Tekers Holdings preferred stock by \$157,000, MVC Automotive equity interest by \$442,000, MVC Environmental loan and letter of credit by a total of approximately \$966,000, MVC Private Equity Fund L.P. general partnership interest and limited partnership interest in the PE Fund by a total of approximately \$218,000, RuMe series B-1 preferred stock, series C preferred stock, common stock, letters of credit and warrants by a total of approximately \$691,000, Security Holdings equity interest and letter of credit by a total of \$747,000, Trientis loan and warrant by a total of approximately \$932,000 and the U.S. Gas loan by approximately \$179,000.

During the fiscal year ended October 31, 2018, the Valuation Committee increased the fair value of the Company's investments in: Centile equity interest by \$491,000, Custom Alloy second lien loan, series A

Table of Contents

preferred stock, series B preferred stock and series C preferred stock by a total of approximately \$6.0 million, Highpoint loan by approximately \$150,000, Legal Solutions loan by approximately \$3,500, MVC Automotive equity interest by approximately \$1.5 million and the MVC Private Equity Fund L.P. general partnership interest and limited partnership interest in the PE Fund by a total of approximately \$2.2 million. In addition, increases in the cost basis of the loans to HTI, Legal Solutions, RuMe, Dukane, Morey s, Highpoint, Initials, Array, Trientis, Black Diamond, Tuf-Tug and Security Holdings were due to the capitalization of PIK interest totaling \$3,172,533. The Valuation Committee also decreased the fair value of the Company s investments in: Advantage preferred stock by approximately \$61,000, Dukane loan by approximately \$29,000, Foliofn preferred stock by \$414,000, HTI loan by approximately \$80,000, Initials loan by approximately \$2.5 million, JSC Tekers preferred stock by approximately \$117,000, MVC Environmental loan and letter of credit by a total of approximately \$6.4 million, RuMe series B-1 preferred stock, series C preferred stock, common stock, letters of credit and warrants by a total of approximately \$3.7 million, Security Holdings equity interest and letter of credit by a total of \$685,000, Trientis loan and warrant by a total of approximately \$932,000, Turf loans by approximately \$319,000, U.S. Gas loan by approximately \$1.1 million, SCSD common stock by approximately \$134,000, U.S. Tech loan by \$55,000 and the Centile escrow by approximately \$223,000 that was recorded as a realized loss.

At October 31, 2018, the fair value of all portfolio investments, exclusive of escrow receivables, was \$324.5 million with a cost basis of \$409.6 million. At October 31, 2018, the fair value and cost basis of the Legacy Investments was \$5.0 million and \$15.0 million, respectively, and the fair value and cost basis of portfolio investments made by the Company s current management team was \$319.5 million and \$394.6 million, respectively. At October 31, 2017, the fair value of all portfolio investments was \$292.5 million with a cost basis of \$363.2 million. At October 31, 2017, the fair value and cost basis of Legacy Investments was \$5.4 million and \$15.0 million, respectively, and the fair value and cost basis of portfolio investments made by the Company s current management team was \$287.1 million and \$348.2 million, respectively.

9. Commitments and Contingencies

Commitments to Portfolio Companies:

At January 31, 2019 and October 31, 2018, the Company s existing commitments to portfolio companies consisted of the following:

Portfolio Company	Amount Committed		Amount Funded at January 31, 2019	
MVC Private Equity Fund LP	\$	20.1 million	\$	14.6 million
Total	\$	20.1 million	\$	14.6 million

Portfolio Company	Amount Committed		Amount Funded at October 31, 2018	
MVC Private Equity Fund LP	\$	20.1 million	\$	14.6 million
Total	\$	20.1 million	\$	14.6 million

Guarantees:

At January 31, 2019 and October 31, 2018, the Company had the following commitments to guarantee various loans and mortgages:

Edgar Filing: MVC CAPITAL, INC. - Form 10-Q

Guarantee	Amount Committed		Amount Funded at January 31, 2019
MVC Automotive	\$	4.2 million	
RuMe	\$	1.0 million	
Total	\$	5.2 million	

Table of Contents

Guarantee		Amount Committed	Amount Funded at October 31, 2018
MVC Automotive	\$	6.2 million	
RuMe	\$	1.0 million	
Total	\$	7.2 million	

ASC 460, *Guarantees*, requires the Company to estimate the fair value of the guarantee obligation at its inception and requires the Company to assess whether a probable loss contingency exists in accordance with the requirements of ASC 450, *Contingencies*. At January 31, 2019, the Valuation Committee estimated the combined fair values of the guarantee obligations noted above to be approximately -\$84,000 or a liability of approximately \$84,000.

These guarantees are further described below, together with the Company's other commitments.

On January 16, 2008, the Company agreed to support a 4.0 million Euro mortgage for a Ford dealership owned and operated by MVC Automotive through making financing available to the dealership and agreeing under certain circumstances not to reduce its equity stake in MVC Automotive. Over time, Erste Bank, the bank extending the mortgage to MVC Automotive, increased the amount of the mortgage. The balance of the guarantee as of January 31, 2019 is approximately 3.7 million Euro (equivalent to approximately \$4.2 million).

The Company agreed to cash collateralize a \$300,000 third party letter of credit for RuMe, which is still a commitment of the Company as of January 31, 2019. The Company also guaranteed \$1.0 million of RuMe's indebtedness to Colorado Business Bank, which had a fair value of approximately -\$84,000 or a liability of \$84,000 as of January 31, 2019. On September 22, 2017, the Company provided RuMe an additional \$2.0 million letter of credit, which was reduced to \$1.5 million on February 1, 2018 and then increased to \$2.0 million on May 7, 2018. The letter of credit had a fair value of approximately -\$215,000 or a liability of \$215,000 as of January 31, 2019. The \$2.0 million letter of credit is collateralized with cash that was classified as restricted cash on the Company's Consolidated Balance Sheets.

Edgar Filing: MVC CAPITAL, INC. - Form 10-Q

Table of Contents

On October 29, 2010, through MVC Partners and MVCFS, the Company committed to invest approximately \$20.1 million in the PE Fund, for which an indirect wholly-owned subsidiary of the Company serves as GP. The PE Fund closed on approximately \$104 million of capital commitments. During the fiscal year ended October 31, 2012 and thereafter, MVC Partners was consolidated with the operations of the Company as MVC Partners' limited partnership interest in the PE Fund is a substantial portion of MVC Partners' operations. The investment period related to the PE Fund has ended. Additional capital may be called for follow-on investments in existing portfolio companies of the PE Fund or to pay operating expenses of the PE Fund until the partnership is terminated. On December 27, 2018, the Company received proceeds of approximately \$7.5 million from the PE Fund related to the sale of Plymouth Rock Energy, LLC, a portfolio company of the PE Fund. The Company's pro-rata share of the PE Fund's cost basis in the Plymouth Rock Energy, LLC investment totaled approximately \$2.5 million, resulting in a realized gain of approximately \$5.0 million. As of January 31, 2019, \$14.6 million of the Company's commitment was funded.

During the fiscal year ended October 31, 2016, the Company agreed to cash collateralize a \$500,000 working capital line of credit for an entity partially owned by MVC Environmental provided by Branch Banking and Trust Company (BB&T). During the fiscal year ended October 31, 2017, the cash collateral securing the MVC Environmental working capital line of credit was released and a new credit facility was entered into secured by a \$1.0 million letter of credit. On February 16, 2018, the letter of credit was increased to \$3.0 million. On November 27, 2018, the Company funded approximately \$3.0 million related to the letter of credit, which was called by the beneficiary.

On February 28, 2018, the Company committed \$6.0 million to Custom Alloy in the form of a first lien loan with an interest rate of 10% and a maturity date of October 31, 2018. On November 9, 2018, Custom Alloy repaid its first lien loan in full, including all accrued interest. The loan is no longer a commitment of the Company as of January 31, 2019.

During the fiscal year ended October 31, 2018, the Company provided Custom Alloy a \$2.0 million and a \$1.4 million letter of credit as part of a restructuring. The \$2.0 million letter of credit matured on November 27, 2018 and is no longer a commitment of the Company. On October 31, 2018, the \$1.4 million letter of credit was drawn, which resulted in the Company receiving a \$1.4 million term note with a 15% interest rate and a maturity date of October 31, 2021. On November 13, 2018, Custom Alloy repaid its \$1.4 million second lien loan in full, including all accrued interest. The loan is no longer a commitment of the Company as of January 31, 2019.

During the fiscal year ended October 31, 2018, the Company provided Security Holdings a 3.3 million Euro letter of credit. The letter of credit had a fair value of approximately -\$39,000 or a liability of \$39,000 as of January 31, 2019. The letter of credit is collateralized with cash that was classified as restricted cash on the Company's Consolidated Balance Sheets.

As of January 31, 2019, the total fair value associated with potential obligations related to guarantees and letters of credit was approximately -\$338,000 or a liability of \$338,000.

Commitments of the Company

On February 19, 2013, the Company sold \$70.0 million of senior unsecured notes (the Senior Notes) in a public offering. The Senior Notes will mature on January 15, 2023 and may be redeemed in whole or in part at any time or from time to time at the Company's option on or after April 15, 2016. The Senior Notes had an interest rate of 7.25% per year payable quarterly on January 15, April 15, July 15, and October 15 of each year, beginning April 15, 2013. The Company had also granted the underwriters a 30-day option to purchase up to an additional \$10.5 million of Senior Notes to cover over-allotments. The additional \$10.5 million in principal was purchased and the total principal amount of the Senior Notes totaled \$80.5 million. The net proceeds to the Company from the sale of the Senior Notes, after offering expenses, were

approximately \$77.4 million. The offering expenses incurred are amortized over the term of the Senior Notes.

Table of Contents

On May 3, 2013, the Company sold approximately \$33.9 million of additional Senior Notes in a direct offering. The additional Senior Notes will also mature on January 15, 2023 and may be redeemed in whole or in part at any time or from time to time at the Company's option on or after April 15, 2016. The Notes had an interest rate of 7.25% per year payable quarterly on January 15, April 15, July 15, and October 15 of each year.

On December 21, 2017, all of the issued and outstanding Senior Notes were redeemed by the Company. Approximately \$1.8 million in unamortized deferred financing fees related to the Senior Notes were expensed at the time of repayment. See below for additional information.

On July 31, 2013, the Company entered into a one-year, \$50 million revolving credit facility (Credit Facility II) with BB&T. On January 31, 2014, Credit Facility II was increased to a \$100 million revolving credit facility. On December 1, 2015, Credit Facility II was renewed and expired on May 31, 2016, at which time all outstanding amounts under it were due and repaid. On June 30, 2016, Credit Facility II was renewed and reduced to a \$50 million revolving credit facility, which expired on February 28, 2017, as of which time all outstanding amounts under it were due and repaid. On February 28, 2017, Credit Facility II was renewed and increased to a \$100 million revolving credit facility and expired on August 31, 2017. On August 31, 2017, Credit Facility II was renewed and decreased to a \$25 million revolving credit facility, which was to expire on August 31, 2018. There was no change to the interest rate or unused fee on the revolving credit facility. The Company incurred closing costs associated with this transaction of \$62,500. On August 10, 2018, Credit Facility II was renewed to August 30, 2019. The Company incurred closing costs associated with this transaction of \$50,000 with no change in terms other than the expiration date. At October 31, 2018 and January 31, 2019, there was no balance and \$25.0 million outstanding on Credit Facility II, respectively. Credit Facility II is used to provide the Company with better overall financial flexibility in managing its investment portfolio. Borrowings under Credit Facility II bear interest at LIBOR plus 125 basis points. In addition, the Company is also subject to a 25 basis point commitment fee for the average amount of Credit Facility II that is unused during each fiscal quarter. The Company paid closing fees, legal and other costs associated with these transactions. These costs are amortized over the life of the facility. Borrowings under Credit Facility II will be secured by cash, short-term and long-term U.S. Treasury securities and other governmental agency securities. As of January 31, 2019, the Company was in compliance with all covenants related to Credit Facility II.

On December 9, 2015, the Company entered into a three-year, \$50 million revolving borrowing base credit facility (Credit Facility III) with Santander Bank N.A. as a lender and lead agent and Wintrust Bank as a lender and syndication agent. Credit Facility III was to expire on December 9, 2018. Credit Facility III can, under certain conditions, be increased up to \$85 million. The new facility bears an interest rate of LIBOR plus 3.75% or the prime rate plus 1% (at the Company's option), and includes a 1% closing fee of the commitment amount and a 0.75% unused fee. The compensating balance for the revolving credit facility is \$5.0 million, which is reflected as restricted cash on the Company's Consolidated Balance Sheets. On February 26, 2018, in connection with the U.S. Gas Sale, Credit Facility III was amended, effective as of July 5, 2017, to exclude from pledged collateral the U.S. Gas second lien loan. On May 7, 2018, the terms of Credit Facility III were amended to, among other things: (i) increase the limit for unsecured indebtedness and certain unsecured guaranty obligations of portfolio companies of the Company to \$10,000,000 and (ii) increase the limit on permitted investments of the Company with respect to certain debt, equity and follow-on investments to \$28,500,000. All other material terms of Credit Facility III remained unchanged. As of October 31, 2018, there was no outstanding balance on Credit Facility III and the Company was in compliance with all covenants related to Credit Facility III. On December 7, 2018, Credit Facility III was renewed until March 9, 2019. On January 29, 2019, Credit Facility III was terminated. As of January 31, 2019, Credit Facility III was no longer a commitment of the Company.

On November 15, 2017, the Company completed a public offering of \$100,000,000 aggregate principal amount of its 6.25% senior notes due November 30, 2022 (Senior Notes II). In addition, on November 20, 2017, the underwriters exercised an over-allotment option to purchase an additional \$15 million in aggregate principal amount of Senior Notes II (together with the offering on November 15, the Offering). The Senior Notes II have an interest rate of 6.25% per year payable quarterly on January 15, April 15, July 15, and

Table of Contents

October 15 of each year. After deducting underwriting fees and discounts and expenses, the Offering resulted in net proceeds to the Company of approximately \$111.4 million. The Offering expenses incurred are amortized over the term of the Senior Notes II. Proceeds from the offering were used to repay the Senior Notes in full, including all accrued interest. As of January 31, 2019, the Senior Notes II had a total outstanding amount of \$115.0 million, net of deferred financing fees the balance was approximately \$112.1 million, with a market value of approximately \$118.9 million.

On January 29, 2019, the Company entered into a three year, \$35 million revolving credit facility (Credit Facility IV) with People's United Bank, National Association as lender and lead agent. Credit Facility IV can, under certain conditions, be increased up to \$85 million. Credit Facility IV will expire on January 29, 2022, at which time all outstanding amounts under Credit Facility IV will be due and payable. Borrowings under the Credit Facility bear interest at a rate of LIBOR plus 2.85%, or the prime rate plus 0.5% at the Company's discretion. In addition, the Company was subject to (i) a closing fee of 1% of the commitment amount paid at closing, (ii) a one-time structuring fee in the amount of \$100,000 paid at closing, (iii) an unused line fee, which is payable monthly, of 0.75% if the Company draws less than \$25 million on Credit Facility IV or 0.60% if the Company draws more than \$25 million on Credit Facility IV, and (iv) an annual administrative agent fee in the amount of \$100,000 in 2019 and \$200,000 in each year thereafter. The compensating balance for the revolving credit facility is \$5.0 million, which is reflected as restricted cash on the Company's Consolidated Balance Sheets. As of January 31, 2019, there was \$4.0 million outstanding on Credit Facility IV and the Company was in compliance with all covenants related to Credit Facility IV.

The Company enters into contracts with portfolio companies and other parties that contain a variety of indemnifications. The Company's maximum exposure under these arrangements is unknown. However, the Company has not experienced claims or losses pursuant to these contracts and believes the risk of loss related to indemnifications to be remote.

10. Management

On November 6, 2003, Michael Tokarz assumed his positions as Chairman, Portfolio Manager and Director of the Company. From November 6, 2003 to October 31, 2006, the Company was internally managed. Effective November 1, 2006, Mr. Tokarz's employment agreement with the Company terminated and the obligations under that agreement were superseded by those under the Advisory Agreement entered into with TTG Advisers. Under the terms of the Advisory Agreement, the Company pays TTG Advisers a base management fee and an incentive fee for its provision of investment advisory and management services.

Our Board of Directors, including all of the Independent Directors, last approved a renewal of the Advisory Agreement at their in-person meeting held on October 28, 2016.

Under the terms of the Advisory Agreement, TTG Advisers determines, consistent with the Company's investment strategy, the composition of the Company's portfolio, the nature and timing of the changes to the Company's portfolio and the manner of implementing such changes. TTG Advisers also identifies and negotiates the structure of the Company's investments (including performing due diligence on prospective Portfolio Companies), closes and monitors the Company's investments, determines the securities and other assets purchased, retains or sells and oversees the administration, recordkeeping and compliance functions of the Company and/or third parties performing such functions for the Company. TTG Advisers' services under the Advisory Agreement are not exclusive, and it may furnish similar services to other entities. Pursuant to the Advisory Agreement, the Company is required to pay TTG Advisers a fee for investment advisory and management services consisting of two components: a base management fee and an incentive fee. The base management fee is calculated at 2.0% per annum of the Company's total assets excluding cash, the value of any investment in a Third-Party Vehicle covered by a Separate Agreement (as defined in the Advisory Agreement) and the value of any investment by the Company not made in portfolio companies (Non-Eligible Assets) but including assets purchased with borrowed funds that are not Non-Eligible Assets. The incentive fee consists of two parts: (i) one part is based on our

Edgar Filing: MVC CAPITAL, INC. - Form 10-Q

pre-incentive fee net operating income; and (ii) the other part is based on the capital gains realized on our portfolio of securities acquired after November 1, 2003.

Table of Contents

The Advisory Agreement provides for an expense cap pursuant to which TTG Advisers will absorb or reimburse operating expenses of the Company, to the extent necessary to limit the Company's expense ratio (the consolidated expenses of the Company, including any amounts payable to TTG Advisers under the base management fee, but excluding the amount of any interest and other direct borrowing costs, taxes, incentive compensation and extraordinary expenses taken as a percentage of the Company's average net assets) to 3.5% in each of the 2009 and 2010 fiscal years.

On various dates, TTG Advisers and the Company entered into annual agreements to extend the expense cap of 3.5% to the 2011, 2012, 2013 and 2014 fiscal years ("Expense Limitation Agreement"). The Company and the Adviser agreed to continue the expense cap into fiscal year 2015 and fiscal year 2016, though they lowered the expense cap to 3.25% and modified the methodology so that the cap is applied to limit the Company's ratio of expenses to total assets less cash (the "Modified Methodology"), consistent with the asset level used to calculate the base management fee. (The expenses covered by the cap remain unchanged.) On October 28, 2016, the Board of Directors, including all of the Independent Directors, approved the renewal of the Advisory Agreement for the 2017 fiscal year. Further, the Adviser agreed to continue to waive a portion of the base management fee so that it is reduced to 1.50% for fiscal year 2017. In March 2016, the Adviser agreed to modify its prior agreement to waive, effective November 1, 2015, the first \$1.0 million of capital gains incentive fee due under the Advisory Agreement, such that the \$1.0 million waiver of incentive fee would be applied to any incentive fee due under the agreement, whether it is a capital gains incentive fee or net operating income incentive fee. Furthermore, the Company and the Adviser, similar to fiscal year 2016, agreed on an expense cap for fiscal years 2017 through 2019 of 3.25% under the Modified Methodology. The amount of any payments made by the GP of the PE Fund to TTG Advisers pursuant to the Portfolio Management Agreement between the GP and TTG Advisers respecting the PE Fund continues to be excluded from the calculation of the Company's expense ratio under the Expense Limitation Agreement. In addition, for fiscal years 2010 through 2018, TTG Advisers voluntarily agreed to waive \$150,000 of expenses that the Company is obligated to reimburse to TTG Advisers under the Advisory Agreement for its allocable portion of the compensation payable to certain officers of the Company, which may not exceed \$200,000 per year in the aggregate (the "Voluntary Waiver"). TTG Advisers also voluntarily agreed that any assets of the Company that are invested in exchange-traded funds would not be taken into account in the calculation of the base management fee due to TTG Advisers under the Advisory Agreement. As of October 31, 2018, the Company did not have an investment in an exchange traded fund. In addition, the Adviser has agreed, effective November 1, 2017, to a revised management fee structure that ties management fees to the NAV discount¹ as follows: (A) If the Company's NAV discount is greater than 20%, the management fee for the current quarter is reduced to 1.25%; (B) If the NAV discount is between 10% and 20%, the management fee will be 1.50%; and (C) If the NAV discount is less than 10% or eliminated, the 1.50% management fee would be re-examined, but in no event would it exceed 1.75%. For the quarter ended January 31, 2019, the effective management fee was 1.25%.

On October 29, 2010, through MVC Partners and MVCFS, the Company committed to invest approximately \$20.1 million in the PE Fund. The PE Fund has closed on approximately \$104 million of capital commitments. The Company's Board of Directors authorized the establishment of, and investment in, the PE Fund for a variety of reasons, including the Company's ability to make additional investments that represent more than 5% of its total assets or more than 10% of the outstanding voting securities of the issuer ("Non-Diversified Investments") through the PE Fund. As previously disclosed, the Company may be restricted in its ability to make Non-Diversified Investments. For services provided to the PE Fund, the GP and MVC Partners are together entitled to receive 25% of all management fees and other fees paid by the PE Fund and its portfolio companies and up to 30% of the carried interest generated by the PE Fund. Further, at the direction of the Board of Directors, the GP retained TTG Advisers to serve as the portfolio manager of the PE Fund. In exchange for providing those services, and pursuant to the Board of Directors' authorization and direction, TTG Advisers is entitled to receive the balance of the fees generated by the PE Fund and its portfolio

¹ The NAV discount referred to herein is the average daily discount to NAV for a quarter. The discount is determined using the most recently determined NAV per share, which is typically the prior quarter end's NAV per share and the Company stock closing price on any given day for the quarter.

Table of Contents

companies and a portion of any carried interest generated by the PE Fund. Given this separate arrangement with the GP and the PE Fund (the PM Agreement), under the terms of the Company's Advisory Agreement with TTG Advisers, TTG Advisers is not entitled to receive from the Company a management fee or an incentive fee on assets of the Company that are invested in the PE Fund. However, the Company's limited partnership interest and GP interest in the PE Fund are subject to the PE Fund's annual management fee, a portion of which, as described above, is retained by the Company and not paid out to TTG Advisers as portfolio manager of the PE Fund. During the fiscal year ended October 31, 2012 and thereafter, MVC Partners was consolidated with the operations of the Company as MVC Partners' limited partnership interest in the PE Fund is a substantial portion of MVC Partners operations. Previously, MVC Partners was presented as a Portfolio Company on the Consolidated Schedules of Investments. The consolidation of MVC Partners has not had any material effect on the financial position or net results of operations of the Company. There are additional disclosures resulting from this consolidation.

Management and portfolio fees (e.g., closing or monitoring fees) generated by the PE Fund (including its portfolio companies) that are paid to the GP are classified on the Consolidated Statements of Operations as Management fee income - Asset Management and Portfolio fee income - Asset Management, respectively. The portion of such fees that the GP pays to TTG Advisers (in accordance with its PM Agreement described above) are classified on the Consolidated Statements of Operations as Management fee - Asset Management and Portfolio fees - Asset Management. Under the PE Fund's agreements, a significant portion of the portfolio fees that are paid by the PE Fund's portfolio companies to the GP and TTG Advisers is subject to recoupment by the PE Fund in the form of an offset to future management fees paid by the PE Fund.

11. Incentive Compensation

Effective November 1, 2006, Mr. Tokarz's employment agreement with the Company terminated and the obligations under Mr. Tokarz's agreement were superseded by those under the Advisory Agreement entered into with TTG Advisers. Pursuant to the Advisory Agreement, the Company pays an incentive fee to TTG Advisers which is generally: (i) 20% of pre-incentive fee net operating income and (ii) 20% of cumulative aggregate net realized capital gains less aggregate unrealized depreciation (on our portfolio securities acquired after November 1, 2003). TTG Advisers is entitled to an incentive fee with respect to our pre-incentive fee net operating income in each fiscal quarter as follows: no incentive fee in any fiscal quarter in which our pre-incentive fee net operating income does not exceed the lower hurdle rate of 1.75% of net assets, 100% of our pre-incentive fee net operating income with respect to that portion of such pre-incentive fee net operating income, if any, that exceeds the lower hurdle amount but is less than 2.1875% of net assets in any fiscal quarter and 20% of the amount of our pre-incentive fee net operating income, if any, that exceeds 2.1875% of net assets in any fiscal quarter. Under the Advisory Agreement, the accrual of the provision for incentive compensation for net realized capital gains is consistent with the accrual that was required under the employment agreement with Mr. Tokarz.

At October 31, 2018, the provision for estimated incentive compensation was \$0. During the quarter ended January 31, 2019, there was no change in the provision for incentive compensation as 20% of the cumulative aggregate net realized capital gains less aggregate unrealized depreciation was less than \$0. The provision for incentive compensation includes the Valuation Committee's determination to decrease the fair values of eleven of the Company's portfolio investments (Advantage, Essner, Initials, Legal Solutions, MVC Automotive, MVC Environmental, RuMe, Trientis, U.S. Gas, U.S. Tech and Crius) by a total of approximately \$8.6 million. The provision also includes the Valuation Committee's determination to increase the fair values of nine of the Company's portfolio investments (Centile escrow, Black Diamond, Custom Alloy, Dukane, Highpoint, HTI, JSC Tekers, Security Holdings and Turf) by a total of approximately \$3.3 million. Also, for the quarter ended January 31, 2019, no provision was recorded for the net operating income portion of the incentive fee as pre-incentive fee net operating income for the quarter did not exceed the hurdle rate. For fiscal years ending on October 31, 2019 and October 31, 2020, the Adviser agreed to voluntarily modify the calculation of the Income Incentive Fee so that the fee accrued shall equal the lesser of: (i) the amount of the Income Incentive Fee computed and determined quarterly as currently set forth in the Advisory Agreement; and (ii) the amount of the Income Incentive Fee computed and determined on an annual basis (in lieu of

Table of Contents

quarterly). Further, regardless of the amount of Income Incentive Fee computed or accrued, the Adviser agreed to defer collection of any Income Incentive Fee due and payable for the fiscal year until after the completion of the annual audit for such fiscal year.

At October 31, 2017, the provision for estimated incentive compensation was approximately \$2.1 million. During the fiscal year ended October 31, 2018, the provision for incentive compensation was decreased by a net amount of approximately \$2.1 million to \$0, including both the pre-incentive fee net operating income and the capital gain incentive fee. The net decrease in the provision for incentive compensation reflects the realized loss on the U.S. Gas loan, the realized gain on the Centile equity and the Valuation Committee's determination to decrease the fair values of sixteen of the Company's portfolio investments (Advantage, Dukane, Equus, HTI, Initials, JSC Tekers, MVC Environmental, RuMe, Security Holdings, Trientis, Turf, U.S. Gas, SCSD, U.S. Tech, Centile escrow and Crius) by a total of approximately \$23.7 million. The net decrease in the provision also reflects the Valuation Committee's determination to increase the fair values of five of the Company's portfolio investments (Centile, Custom Alloy, Highpoint, Legal Solutions and MVC Automotive) by a total of approximately \$8.1 million. Also, for the quarter ended October 31, 2018, no provision was recorded for the net operating income portion of the incentive fee as pre-incentive fee net operating income for the quarter did not exceed the hurdle rate.

12. Tax Matters

On October 31, 2018, the Company did not have a net capital loss carryforward. The Company had approximately \$97.4 million in unrealized losses as of January 31, 2019.

ASC 740, *Income Taxes*, provides guidance for how uncertain tax positions should be recognized, measured, presented and disclosed in the financial statements. ASC 740 requires the evaluation of tax positions taken or expected to be taken in the course of preparing the Company's tax returns to determine whether the tax positions are more-likely-than-not of being sustained by the applicable tax authority. Tax positions not deemed to meet a more-likely-than-not threshold would be recorded as a tax benefit or expense in the current period. The Company recognizes interest and penalties, if any, related to unrecognized tax benefits as income tax expense in the consolidated statement of operations. During the quarter ended January 31, 2019, the Company recorded approximately \$91,000 of additional interest expense associated with the deferred tax liability resulting from the installment sale treatment applied to the realized gain associated with the U.S. Gas note. The interest expense is required to be paid under Internal Revenue Service (IRS) Code section 453A. The Company has discussed with the IRS whether the IRS would be willing to issue a ruling to the Company that the Company is not liable for this interest expense given its pass-through status as a Regulated Investment Company. The Company has not yet received a response from the IRS, but has determined to record the associated interest expense during the period. Although we file federal and state tax returns, our major tax jurisdiction is federal for the Company and MVCFS. The fiscal years 2013 through 2017 for the Company and MVCFS remain subject to examination by the IRS.

On December 22, 2010, the Regulated Investment Company Modernization Act of 2010 (the Act) was enacted, which changed various technical rules governing the tax treatment of regulated investment companies. The changes are generally effective for taxable years beginning after the date of enactment. One of the more prominent changes addresses capital loss carryforwards. Under the Act, each fund will be permitted to carry forward capital losses incurred in taxable years beginning after the date of enactment for an unlimited period. However, any losses incurred during those future taxable years will be required to be utilized prior to the losses incurred in pre-enactment taxable years, which carry an expiration date. As a result of this ordering rule, pre-enactment capital loss carryforwards may be more likely to expire unused. Additionally, post-enactment capital loss carryforwards will retain their character as either short-term or long-term capital losses rather than being considered all short-term as permitted under previous regulation.

The Company continues to assess the impact of the Tax Cuts and Jobs Act (the Act) and has not yet made any determination as to the specific effects, if any, that it may have on the Company's financial position and

Table of Contents

results of operations, including the impact the Act may have on the inputs used by the Company in the analysis of the fair value of its portfolio investments using the income or market approach.

13. Dividends and Distributions to Shareholders, Share Repurchase Program and Tender Offer

As a regulated investment company (" RIC ") under Subchapter M of the Internal Revenue Code of 1986, as amended (the " Code "), the Company is required to distribute to its shareholders, in a timely manner, at least 90% of its investment company taxable and tax-exempt income each year. If the Company distributes, in a calendar year, at least 98% of its ordinary income for such calendar year and 98.2% of its capital gain net income for the 12-month period ending on October 31 of such calendar year (as well as any portion of the respective 2% balances not distributed in the previous year), it will not be subject to the 4% non-deductible federal excise tax on certain undistributed income of RICs.

Dividends and capital gain distributions, if any, are recorded on the ex-dividend date. Dividends and capital gain distributions are generally declared and paid quarterly according to the Company's policy established on July 11, 2005. An additional distribution may be paid by the Company to avoid imposition of federal income tax on any remaining undistributed net investment income and capital gains. Distributions can be made payable by the Company either in the form of a cash distribution or a stock dividend. The amount and character of income and capital gain distributions are determined in accordance with income tax regulations that may differ from U.S. generally accepted accounting principles. These differences are due primarily to differing treatments of income and gain on various investment securities held by the Company, differing treatments of expenses paid by the Company, timing differences and differing characterizations of distributions made by the Company. Key examples of the primary differences in expenses paid are the accounting treatment of MVCFS (which is consolidated for GAAP purposes, but not income tax purposes) and the variation in treatment of incentive compensation expense. Permanent book and tax basis differences relating to shareholder distributions will result in reclassifications and may affect the allocation between net operating income, net realized gain (loss) and paid-in capital. Additionally, the characterization of the distribution is based upon current results, and such characterization may change based upon results for the year.

All of our shareholders who hold shares of common stock in their own name will automatically be enrolled in our dividend reinvestment plan (the " Plan "). All such shareholders will have any cash dividends and distributions automatically reinvested by Computershare Ltd. (" the Plan Agent ") in shares of our common stock. Of course, any shareholder may elect to receive his or her dividends and distributions in cash. Currently, the Company has a policy of paying quarterly dividends to shareholders. For any of our shares that are held by banks, brokers or other entities that hold our shares as nominees for individual shareholders, the Plan Agent will administer the Plan on the basis of the number of shares certified by any nominee as being registered for shareholders that have not elected to receive dividends and distributions in cash. To receive your dividends and distributions in cash, you must notify the Plan Agent, broker or other entity that holds the shares.

For the Quarter Ended January 31, 2019

On December 21, 2018, the Company's Board of Directors declared a dividend of \$0.15 per share. The dividend was paid on January 9, 2019 to shareholders of record on January 2, 2019 and totaled approximately \$2.7 million.

During the quarter ended January 31, 2019, as part of the Company's dividend reinvestment plan for our common stockholders, the Plan Agent purchased 9,949 shares of our common stock at an average price of \$8.92, including commission, in the open market in order to satisfy the reinvestment portion of our dividends under the Plan.

Table of Contents**SHARE REPURCHASE PROGRAM**

On April 3, 2013, the Company's Board of Directors authorized an expanded share repurchase program to opportunistically buy back shares in the market in an effort to narrow the market discount of its shares. The previously authorized \$5 million limit has been eliminated. Under the repurchase program, shares may be repurchased from time to time at prevailing market prices. The repurchase program does not obligate the Company to acquire any specific number of shares and may be discontinued at any time.

On September 18, 2018, the Company's Board of Directors approved the Company's implementation of a \$10 million stock repurchase program. The program, which was to be completed by the end of the 2018 calendar year, was to consist of an issuer tender offer and/or open market repurchases. In addition, the Company's Board of Directors directed the Company to pursue an additional \$5 million in stock repurchases in the open market in 2019, using a portion of the proceeds of equity monetizations and subject to MVC's common stock continuing to trade at a significant discount to NAV. Open market repurchases would be made pursuant to the Company's unlimited stock repurchase program adopted in 2013. On October 11, 2018, pursuant to the Repurchase Program, the Company entered into the Rule 10b5-1 Plan that qualifies for the safe harbors provided by Rules 10b5-1 and 10b-18 under the Exchange Act. See the Company's current report on Form 8-K, filed on October 12, 2018, for further details regarding the 10b5-1 Plan.

On November 28, 2018, the Company announced its determination to extend the Repurchase Program beyond December 31, 2018 until the full \$10 million of shares are repurchased pursuant to the Repurchase Program. During the quarter ended January 31, 2019, the Company completed the Repurchase Program.

The following table represents open-market purchases made under our stock repurchase program for the fiscal years ended October 31, 2013 through the quarter ended January 31, 2019.

Period *	Total Number of Shares Purchased	Average Price Paid per Share including commission	Total Number of Shares Purchased as Part of Publicly Announced Program	Approximate Dollar Value of Shares Purchased Under the Program

*Disclosure covering repurchases will be made through quarterly and annual reports filed with the SEC going forward. MVC Capital's website will no longer contain the monthly repurchase information.

TENDER OFFERS

On July 21, 2017, the Company commenced a modified Dutch Auction tender offer (the Tender Offer) to purchase up to \$15 million of its common stock at a price per share not less than \$10.00 and not greater than \$11.00 in \$0.20 increments. The Company's Tender Offer expired at 5:00 p.m., New York City time, on

Edgar Filing: MVC CAPITAL, INC. - Form 10-Q

Table of Contents

August 18, 2017. A total of 3,634,597 shares of the Company's common stock were properly tendered and not properly withdrawn at or below a purchase price of \$10.40 per share. In accordance with the terms and conditions of the Tender Offer, the Company accepted for payment, on a pro rata basis, at a purchase price of \$10.40, 1,442,307 shares properly tendered at or below the purchase price and not properly withdrawn before the expiration date, at an aggregate cost of approximately \$15.0 million, excluding fees and expenses relating to the Tender Offer.

On November 22, 2017, the Company commenced a modified Dutch Auction tender offer (the "TO") to purchase up to \$25 million of its common stock at a price per share not less than \$10.40 and not greater than \$11.00 in \$0.10 increments. The TO expired at 5:00 p.m., New York City time, on December 21, 2017. In accordance with the terms and conditions of the TO, the Company accepted for payment, at a purchase price of \$10.90, 2,293,577 shares properly tendered at or below the purchase price, at an aggregate cost of approximately \$25.0 million, excluding fees and expenses relating to the TO.

14. Segment Data

The Company's reportable segments are its investing operations as a business development company, MVC Capital, which includes MVC Cayman and MVC Turf. MVCFS, a wholly-owned subsidiary that provides advisory, administrative and other services to the Company and its portfolio companies, is also included.

The following table presents book basis segment data for the quarter period ended January 31, 2019:

	MVC	MVCFS	Consolidated
Interest and dividend income	\$ 6,165,200	\$ 14,496	\$ 6,179,696
Fee income	25,000	13,099	38,099

Net decrease in net assets resulting from operations	\$ (3,025,733)	\$ (27,019)	\$ (3,052,752)

15. Significant Subsidiaries

Edgar Filing: MVC CAPITAL, INC. - Form 10-Q

We have determined that for the quarter ended January 31, 2019, there were no unconsolidated portfolio companies that met the conditions of a significant subsidiary. For the quarter ended January 31, 2018 (and not the fiscal 2019 period covered by this report), MVC Automotive and RuMe, unconsolidated portfolio companies, met the conditions of a significant subsidiary. The financial information presented below includes

Table of Contents

summarized balance sheets as of December 31, 2018 (the last fiscal quarter-end of these companies prior to January 31, 2019) and December 31, 2017 and summarized income statements for the periods October 1, 2018 to December 31, 2018 and October 1, 2017 to December 31, 2017. The financial information below is based on unaudited financial statements and has been prepared and furnished by each portfolio company and not prepared by the Company.

16. Subsequent Events

On February 7, 2019, Vistra Energy and Crius announced that they have entered into a definitive agreement pursuant to which Vistra Energy will acquire Crius for cash consideration of CAN\$7.57 per trust unit. On February 20, 2019, Vistra Energy agreed to increase its acquisition price for Crius to CAN\$8.80 per trust unit, an increase of CAN\$1.23 per trust unit. Using the January 31, 2019 foreign exchange rate, the Company's equity units in Crius would be valued at approximately 22.0 million USD if the transaction is consummated at CAN\$8.80 per trust unit. This resulted in an approximately 8.8 million USD increase in the market value of the Company's position as of January 31, 2019.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

This report contains certain statements of a forward-looking nature relating to future events or the future financial performance of the Company and its investment portfolio companies. Words such as *may*, *will*, *expect*, *believe*, *anticipate*, *intend*, *could*, *estimate*, *might* and *continue*, and the negative or other variations thereof or comparable terminology, are intended to identify forward-looking statements. Forward-looking statements are included in this report pursuant to the "Safe Harbor" provision of the Private Securities Litigation Reform Act of 1995. Such statements are predictions only, and the actual events or results may differ materially from those discussed in the forward-looking statements. Factors that could cause or contribute to such differences include, but are not limited to, those relating to adverse conditions in the U.S. and international economies, competition in the markets in which our portfolio companies operate, investment capital demand, pricing, market acceptance, any changes in the regulatory environments in which we operate, changes in our accounting assumptions that regulatory agencies, including the SEC, may require or that result from changes in the accounting rules or their application, competitive forces, adverse conditions in the credit markets impacting the cost, including interest rates and/or availability of financing, the results of financing and investing efforts, the ability to complete transactions, the inability to implement our business strategies and other risks identified below or in the Company's filings with the SEC. Readers are cautioned not to place undue reliance on these forward-looking statements, which speak only as of the date hereof. The Company undertakes no obligation to publicly revise these forward-looking statements to reflect events or circumstances occurring after the date hereof or to reflect the occurrence of unanticipated events. The following analysis of the financial condition and results of operations of the Company should be read in conjunction with the Consolidated Financial Statements, the Notes thereto and the other financial information included elsewhere in this report and the Company's annual report on Form 10-K for the year ended October 31, 2018.

SELECTED CONSOLIDATED FINANCIAL DATA:

Financial information for the fiscal year ended October 31, 2018 is derived from the consolidated financial statements included in the Company's annual report on Form 10-K, which have been audited by Grant Thornton LLP, the Company's independent registered public accounting firm. Quarterly financial information is derived from unaudited financial data, but in the opinion of management, reflects all adjustments (consisting only of normal recurring adjustments), which are necessary to present fairly the results for such interim periods.

OVERVIEW

The Company is an externally managed, non-diversified, closed-end management investment company that has elected to be regulated as a business development company under the 1940 Act. The Company's investment objective is to seek to maximize total return from capital appreciation and/or income.

On November 6, 2003, Mr. Tokarz assumed his positions as Chairman and Portfolio Manager of the Company. He and the Company's investment professionals (who, effective November 1, 2006, provide their services to the Company through the Company's investment adviser, TTG Advisers) are seeking to implement our investment objective (*i.e.*, to maximize total return from capital appreciation and/or income) through making a broad range of private investments in a variety of industries.

The investments can include senior or subordinated loans, convertible debt and convertible preferred securities, common or preferred stock, equity interests, warrants or rights to acquire equity interests, and other private equity transactions. During the fiscal year ended October 31, 2018, the Company made six new investments and follow-on investments in eight existing portfolio companies totaling approximately \$62.3 million. During the quarter ended January 31, 2019, the Company made one new investment and a follow-on investment in an existing portfolio company totaling approximately \$3.9 million.

The Company's prior investment objective was to achieve long-term capital appreciation from venture capital investments in information technology companies. Accordingly, the Company's investments had focused on investments in equity and debt securities of information technology companies. As of January 31, 2019, approximately 1.4% of the current fair value of our assets consisted of Legacy Investments. We

Edgar Filing: MVC CAPITAL, INC. - Form 10-Q

are, however, seeking to manage these Legacy Investments to try and realize maximum returns. We generally seek to capitalize on opportunities to realize cash returns on these investments when presented with a potential liquidity event, i.e., a sale, public offering, merger or other reorganization.

Our new portfolio investments are made pursuant to our current objective and strategy. We are concentrating our investment efforts on small and middle-market companies that, in our view, provide opportunities to maximize total return from capital appreciation and/or income though our current focus is more on yield generating investments which can include, but is not limited to senior and subordinated loans, convertible debt, common and preferred equity with a coupon or liquidation preference and warrants or rights to acquire equity interests (the Yield-Focused Strategy). We have continued the transition to the Yield-Focused Strategy. We have done this through selling a number of equity investments, including our 2017 sale of U.S. Gas, our then-largest portfolio company. These sales and repayments have improved our liquidity position, which provides us with flexibility to redeploy capital into debt or similar income-producing investments. The Company continues to seek to monetize various equity investments to further support the

Table of Contents

Yield-Focused Strategy. We participate in the private equity business generally by providing negotiated long-term equity and/or debt investment capital to privately-owned small and middle-market companies. Our financings are generally used to fund growth, buyouts, acquisitions, recapitalizations, note purchases and/or bridge financings. We generally invest in private companies, though, from time to time, we may invest in public companies that may lack adequate access to public capital.

We may also seek to achieve our investment objective by establishing a subsidiary or subsidiaries that would serve as general partner to a private equity or other investment fund(s). In fact, during fiscal year 2006, we established MVC Partners for this purpose. Furthermore, the Board of Directors authorized the establishment of a PE Fund, for which an indirect wholly-owned subsidiary of the Company serves as the GP and which may raise up to \$250 million. On October 29, 2010, through MVC Partners and MVCFS, the Company committed to invest approximately \$20.1 million in the PE Fund. The PE Fund closed on approximately \$104 million of capital commitments. The Company's Board of Directors authorized the establishment of, and investment in, the PE Fund for a variety of reasons, including the Company's ability to make Non-Diversified Investments through the PE Fund. As previously disclosed, the Company is restricted in its ability to make Non-Diversified Investments. For services provided to the PE Fund, the GP and MVC Partners are together entitled to receive 25% of all management fees and other fees paid by the PE Fund and its portfolio companies and up to 30% of the carried interest generated by the PE Fund. Further, at the direction of the Board of Directors, the GP retained TTG Advisers to serve as the portfolio manager of the PE Fund. In exchange for providing those services, and pursuant to the Board of Directors' authorization and direction, TTG Advisers is entitled to receive the balance of the fees and any carried interest generated by the PE Fund and its portfolio companies. Given this separate arrangement with the GP and the PE Fund, under the terms of the Company's Advisory Agreement with TTG Advisers, TTG Advisers is not entitled to receive from the Company a management fee or an incentive fee on assets of the Company that are invested in the PE Fund. During the fiscal year ended October 31, 2012 and thereafter, MVC Partners was consolidated with the operations of the Company as MVC Partners' limited partnership interest in the PE Fund is a substantial portion of MVC Partners operations. Previously, MVC Partners was presented as a portfolio company on the Schedule of Investments. The consolidation of MVC Partners has not had any material effect on the financial position or net results of operations of the Company. Also, during fiscal year ended October 31, 2014, MVC Turf, Inc. ("MVC Turf") was consolidated with the Company as MVC Turf was an MVC wholly-owned holding company. The consolidation of MVC Turf did not have a material effect on the financial position or net results of operations of the Company. On March 7, 2017, the Company exchanged its shares of MVC Turf for approximately \$3.8 million of additional subordinated debt in Turf Products. MVC Turf is no longer consolidated with the Company. Please see Note 2 of our consolidated financial statements "Consolidation" for more information.

As a result of the closing of the PE Fund, consistent with the Board-approved policy concerning the allocation of investment opportunities, the PE Fund received a priority allocation of all private equity investments that would otherwise be Non-Diversified Investments for the Company during the PE Fund's investment period that ended on October 28, 2014. Additional capital may be called for follow-on investments in existing portfolio companies of the PE Fund or to pay operating expenses of the PE Fund until the partnership is no longer extended.

Additionally, in pursuit of our objective, we may acquire a portfolio of existing private equity or debt investments held by financial institutions or other investment funds should such opportunities arise.

Furthermore, pending investments in portfolio companies pursuant to the Company's principal investment strategy, the Company may invest in certain securities on a short-term or temporary basis. In addition to cash-equivalents and other money market-type investments, such short-term investments may include exchange-traded funds and private investment funds offering periodic liquidity.

Table of Contents

OPERATING INCOME

For the Quarter Ended January 31, 2019 and 2018. Total operating income was \$6.4 million and \$5.1 million for the quarter ended January 31, 2019 and 2018, respectively, an increase of approximately \$1.3 million.

For the Quarter Ended January 31, 2019

Total operating income was \$6.4 million for the quarter ended January 31, 2019. The increase in operating income over the same period last year was primarily due to the increase in dividend income and the increase in interest earned on loans from the Company's portfolio companies, continuing the transition to the Yield-Focused Strategy. The Company earned approximately \$5.4 million in interest income from investments in portfolio companies. Of the \$5.4 million recorded in interest income, approximately \$1.0 million was payment in kind interest. The payment in kind interest is computed at the contractual rate specified in each investment agreement and may be added to the principal balance of each investment. The Company's debt investments yielded annualized rates from 5.0% to 16.0%. The Company also received fee income from asset management of the PE Fund and its portfolio companies totaling approximately \$223,000 and fee income from the Company's portfolio companies of approximately \$38,000, totaling approximately \$261,000 in fee income. Of the \$223,000 of fee income from asset management activities, 75% of the income is obligated to be paid to TTG Advisers. However, under the PE Fund's agreements, a significant portion of the portfolio fees that are paid by the PE Fund's portfolio companies to the GP and TTG Advisers is subject to recoupment by the PE Fund in the form of an offset to future management fees paid by the PE Fund.

For the Quarter Ended January 31, 2018

Total operating income was \$5.1 million for the quarter ended January 31, 2018. The increase in operating income over the same period last year was primarily due to the increase in dividend income and the increase in interest earned on loans and fee income from the Company's portfolio companies. The Company earned approximately \$4.3 million in interest income from investments in portfolio companies. Of the \$4.3 million recorded in interest income, approximately \$706,000 was payment in kind interest. The payment in kind is computed at the contractual rate specified in each investment agreement and may be added to the principal balance of each investment. The Company's debt investments yielded annualized rates from 5.0% to 15.0%. The Company also received fee income from asset management of the PE Fund and its portfolio companies totaling approximately \$285,000 and fee income from the Company's portfolio companies of approximately \$67,000, totaling approximately \$352,000 in fee income. Of the \$285,000 of fee income from asset management activities, 75% of the income is obligated to be paid to TTG Advisers. However, under the PE Fund's agreements, a significant portion of the portfolio fees that are paid by the PE Fund's portfolio companies to the GP and TTG Advisers is subject to recoupment by the PE Fund in the form of an offset to future management fees paid by the PE Fund.

OPERATING EXPENSES

For the Quarter Ended January 31, 2019 and 2018. Operating expenses, net of Voluntary Waivers, were approximately \$5.0 million and \$7.6 million for the quarter ended January 31, 2019 and 2018, respectively, a decrease of approximately \$2.6 million.

For the Quarter Ended January 31, 2019

Operating expenses, net of the Voluntary Waivers (as described below), were approximately \$5.0 million or 8.93% of the Company's average net assets, when annualized, for the quarter ended January 31, 2019. Significant components of operating expenses for the quarter ended January 31, 2019 were interest and other borrowing costs of approximately \$2.5 million and management fee expense paid by the Company of approximately \$945,000, which is net of the voluntary management fee waiver of approximately \$567,000.

The approximately \$2.6 million decrease in the Company's net operating expenses for the quarter ended January 31, 2019 compared to the same period in 2018, was primarily due to the approximately \$1.8 million

Table of Contents

decrease in loss on extinguishment of debt related to the unamortized deferred financing fees for the Senior Notes that were expensed at the time they were repaid and an approximately \$633,000 decrease in interest and other borrowing costs. The portfolio fees - asset management are payable to TTG Advisers for monitoring and other customary fees received by the GP from portfolio companies of the PE Fund. To the extent the GP or TTG Advisers receives advisory, monitoring, organization or other customary fees from any portfolio company of the PE Fund or management fees related to the PE Fund, 25% of such fees shall be paid to or retained by the GP and 75% of such fees shall be paid to or retained by TTG Advisers. On October 30, 2018, the Board approved the renewal of the Advisory Agreement for the 2019 fiscal year. The Company and the Adviser agreed on an expense cap for fiscal 2019 of 3.25% under the Modified Methodology. The amount of any payments made by the GP of the PE Fund to TTG Advisers pursuant to the Portfolio Management Agreement between the GP and TTG Advisers respecting the PE Fund continues to be excluded from the calculation of the Company's expense ratio under the Expense Limitation Agreement. In addition, for fiscal years 2010 through 2019, TTG Advisers voluntarily agreed to extend the Voluntary Waiver. TTG Advisers also voluntarily agreed that any assets of the Company that are invested in exchange-traded funds would not be taken into account in the calculation of the base management fee due to TTG Advisers under the Advisory Agreement. As of January 31, 2019, the Company did not have an investment in an exchange traded fund. Under the Modified Methodology, for the quarter ended January 31, 2019, the Company's annualized expense ratio was 3.10%, (taking into account the same carve outs as those applicable to the expense cap). In addition, the Adviser agreed, effective November 1, 2017, to a revised management fee structure that ties management fees to the NAV discount² as follows: (A) If the Company's NAV discount is greater than 20%, the management fee for the current quarter is reduced to 1.25%; (B) If the NAV discount is between 10% and 20%, the management fee will be 1.50%; and (C) If the NAV discount is less than 10% or eliminated, the 1.50% management fee would be re-examined, but in no event would it exceed 1.75%. For the quarter ended January 31, 2019, the management fee was 1.25%.

Pursuant to the terms of the Advisory Agreement, during the quarter ended January 31, 2019, the provision for incentive compensation was unchanged, including both the pre-incentive fee net operating income and the capital gain incentive fee. The provision for incentive compensation includes the Valuation Committee's determination to decrease the fair values of eleven of the Company's portfolio investments (Advantage, Essner, Initials, Legal Solutions, MVC Automotive, MVC Environmental, RuMe, Trientis, U.S. Gas, U.S. Tech and Crius) by a total of approximately \$8.6 million. The provision also includes the Valuation Committee's determination to increase the fair values of nine of the Company's portfolio investments (Centile escrow, Black Diamond, Custom Alloy, Dukane, Highpoint, HTI, JSC Tekers, Security Holdings and Turf) by a total of approximately \$3.3 million. Also, for the quarter ended January 31, 2019, no provision was recorded for the net operating income portion of the incentive fee as pre-incentive fee net operating income for the quarter did not exceed the hurdle rate.

For the Quarter Ended January 31, 2018

Operating expenses, net of the Voluntary Waivers (as described below), were approximately \$7.7 million or 11.48% of the Company's average net assets, when annualized, for the quarter ended January 31, 2018. Significant components of operating expenses for the quarter ended January 31, 2018 were interest and other borrowing costs of approximately \$4.9 million and management fee expense paid by the Company of approximately \$1.1 million, which is net of the voluntary management fee waiver of approximately \$353,000.

The approximately \$1.4 million increase in the Company's net operating expenses for the quarter ended January 31, 2018 compared to the same period in 2017, was primarily due to the approximately \$2.4 million increase in interest and other borrowing costs and was partially offset by a decrease in management fee expense paid by the Company of approximately \$302,000, including the voluntary management fee waiver, and a decrease in the provision for incentive compensation expense by approximately \$493,000. The increase

² The NAV discount referred to herein is the average daily discount to NAV for a quarter. The discount is determined using the most recently determined NAV per share, which is typically the prior quarter end's NAV per share and the Company stock closing price on any given day for the quarter.

Table of Contents

in interest and other borrowing costs of approximately \$2.4 million was primarily related to approximately \$1.8 million in unamortized deferred financing fees for the Senior Notes that were expensed at the time they were repaid. The Company also incurred approximately \$800,000 of additional interest expense when both the Senior Notes and Senior Notes II were outstanding at the same time. The portfolio fees - asset management are payable to TTG Advisers for monitoring and other customary fees received by the GP from portfolio companies of the PE Fund. To the extent the GP or TTG Advisers receives advisory, monitoring, organization or other customary fees from any portfolio company of the PE Fund or management fees related to the PE Fund, 25% of such fees shall be paid to or retained by the GP and 75% of such fees shall be paid to or retained by TTG Advisers. On October 31, 2017, the Board approved the renewal of the Advisory Agreement for the 2018 fiscal year. The Company and the Adviser agreed on an expense cap for fiscal 2017 of 3.25% under the Modified Methodology. For fiscal year 2018, the Adviser has agreed to continue the 3.25% expense cap under the Modified Methodology. The amount of any payments made by the GP of the PE Fund to TTG Advisers pursuant to the Portfolio Management Agreement between the GP and TTG Advisers respecting the PE Fund continues to be excluded from the calculation of the Company's expense ratio under the Expense Limitation Agreement. In addition, for fiscal years 2010 through 2018, TTG Advisers voluntarily agreed to extend the Voluntary Waiver. TTG Advisers also voluntarily agreed that any assets of the Company that are invested in exchange-traded funds would not be taken into account in the calculation of the base management fee due to TTG Advisers under the Advisory Agreement. As of January 31, 2018, the Company did not have an investment in an exchange traded fund. Under the Modified Methodology, for the quarter ended January 31, 2018, the Company's annualized expense ratio was 3.03%, (taking into account the same carve outs as those applicable to the expense cap). In addition, the Adviser has agreed, effective November 1, 2017, to a revised management fee structure that ties management fees to the NAV discount³ as follows: (A) If the Company's NAV discount is greater than 20%, the management fee for the current quarter is reduced to 1.25%; (B) If the NAV discount is between 10% and 20%, the management fee will be 1.50%; and (C) If the NAV discount is less than 10% or eliminated, the 1.50% management fee would be re-examined, but in no event would it exceed 1.75%. For the quarter ended January 31, 2018, the management fee was 1.50%.

Pursuant to the terms of the Advisory Agreement, during the quarter ended January 31, 2018, the provision for incentive compensation was increased by a net amount of approximately \$267,000 to approximately \$2.3 million, including both the pre-incentive fee net operating income and the capital gain incentive fee. The net increase in the provision for incentive compensation reflects the Valuation Committee's determination to decrease the fair values of eight of the Company's portfolio investments (Advantage, Dukane, HTI, MVC Environmental, RuMe, Turf, U.S. Gas and SCSD) by a total of approximately \$3.9 million. The net decrease in the provision also reflects the Valuation Committee's determination to increase the fair values of nine of the Company's portfolio investments (Centile, Custom Alloy, Highpoint, Initials, JSC Tekers, Legal Solutions, MVC Automotive, Security Holdings and Crius) by a total of approximately \$7.4 million. Also, for the quarter ended January 31, 2018, no provision was recorded for the net operating income portion of the incentive fee as pre-incentive fee net operating income for the quarter did not exceed the hurdle rate. As discussed in Realized Gains and Losses on Portfolio Securities, on July 5, 2017, the Company realized a gain of \$115.9 million from the sale of U.S. Gas (the U.S. Gas Sale). Under the Advisory Agreement, this transaction triggered an incentive compensation payment obligation to TTG Advisers, which payment, under the Advisory Agreement, is not required to be made until soon after the completion of the audit of the fiscal 2017 financials. The fiscal 2017 incentive fee payment obligation to TTG Advisers is approximately \$4.4 million. The portion of the payment obligation attributable to the cash portion of the realized gain, \$1.9 million, was paid following the audit of the fiscal 2017 financials per the Advisory Agreement. Please see Note 11 of our consolidated financial statements Incentive Compensation for more information, particularly on the deferred collection of the incentive fee payment on the Deferred Portion.

³ The NAV discount referred to herein is the average daily discount to NAV for a quarter. The discount is determined using the most recently determined NAV per share, which is typically the prior quarter end's NAV per share and the Company stock closing price on any given day for the quarter.

Table of Contents

REALIZED GAINS AND LOSSES ON PORTFOLIO SECURITIES

For the Quarter Ended January 31, 2019 and 2018. Net realized gains were approximately \$5.2 million and approximately \$3,000 for the quarter ended January 31, 2019 and 2018, respectively, a net increase of approximately \$5.2 million.

For the Quarter Ended January 31, 2019

Net realized gains for the quarter ended January 31, 2019, were approximately \$5.2 million. The Company's net realized gains were primarily due to the realized gain on the sale of Plymouth Rock Energy, LLC, a portfolio company of the PE Fund, which resulted in a realized gain of approximately \$5.0 million. The Company also received a carried interest payment from the PE Fund of approximately \$173,000 related to the sale, which was recorded as additional realized gains.

During the quarter ended January 31, 2019, the Company also recorded net realized gains of approximately \$49,000 from its escrow receivables.

For the Quarter Ended January 31, 2018

Net realized gains for the quarter ended January 31, 2018 were approximately \$3,000. The Company's net realized gains were due to realized gains on foreign currency related to the Crius dividend.

UNREALIZED APPRECIATION AND DEPRECIATION OF PORTFOLIO SECURITIES

For the Quarter Ended January 31, 2019 and 2018. The Company had a net change in unrealized depreciation on portfolio investments of approximately \$9.7 million for the quarter ended January 31, 2019 and a net change in unrealized appreciation of approximately \$3.4 million for the quarter ended January 31, 2018, a net decrease of approximately \$13.1 million.

For the Quarter Ended January 31, 2019

The Company had a net change in unrealized depreciation on portfolio investments of approximately \$9.7 million for the quarter ended January 31, 2019. The net change in unrealized depreciation for the quarter ended January 31, 2019 was the result of the reversal of the unrealized appreciation on the PE Fund of approximately \$5.3 million (as a result of the Company's sale of the Plymouth Rock Energy, LLC), \$3.0 million of unrealized depreciation related to the MVC Environmental loan receivable reserve, \$2.4 million of unrealized appreciation due to

Edgar Filing: MVC CAPITAL, INC. - Form 10-Q

the reversal of the unrealized depreciation on the MVC Environmental letter of credit and the Valuation Committee determination to decrease the fair value of the Company's investments in: Advantage preferred stock by approximately \$244,000, Essner loan by approximately \$21,000, Initials loan by approximately \$412,000, Legal Solutions loan by approximately \$118,000, MVC Automotive equity by approximately \$117,000, MVC Environmental loan by approximately \$875,000 and common stock by approximately \$3.0 million, MVC Private Equity Fund L.P. general partnership interest and limited partnership interest in the PE Fund by a total of approximately \$1.1 million, RuMe series B-1 preferred stock, guarantee and warrants by a net total of approximately \$308,000, Trientis loan by approximately \$77,000, U.S. Tech loan by approximately \$23,000 and the U.S. Gas loan by approximately \$797,000. The market value of Crius decreased by approximately \$2.6 million. These changes in unrealized depreciation were partially off-set by the Valuation Committee determination to increase the fair value of the Company's investments in: Black Diamond loan and warrant by approximately \$767,000, Custom Alloy second lien loans, series A preferred stock, series B preferred stock and series C preferred stock by a net total of approximately \$2.3 million, Dukane loan by \$286, Foliofn preferred stock by \$32,000, Highpoint loan by approximately \$252, HTI loan by approximately \$80,000, JSC Tekers preferred stock by approximately \$82,000, Security Holdings loan and letter of credit by a net total of \$25,000 and Turf loan by approximately \$15,000.

Table of Contents

For the Quarter Ended January 31, 2018

The Company had a net change in unrealized appreciation on portfolio investments of approximately \$3.4 million for the quarter ended January 31, 2018. The net change in unrealized appreciation for the quarter ended January 31, 2018 was the result of the Valuation Committee determination to increase the fair value of the Company's investments in: Centile equity interest by \$295,000, Custom Alloy second lien loan, series A preferred stock, series B preferred stock, series C preferred stock and letter of credit by a total of approximately \$638,000, Highpoint by approximately \$99,000, Initials loan by approximately \$46,000, JSC Tekers preferred stock by approximately \$370,000, Legal Solutions loan by approximately \$1,000, MVC Automotive equity interest by approximately \$1.8 million, MVC Environmental letter of credit by approximately \$7,000, MVC Private Equity Fund L.P. general partnership interest and limited partnership interest in the PE Fund by a total of approximately \$394,000, RuMe guarantee and letter of credit by a total of approximately \$57,000, Crius equity by approximately \$3.4 million and Security Holdings equity interest by approximately \$812,000. These changes in unrealized appreciation were partially off-set by the Valuation Committee determination to decrease the fair value of the Company's investments in: Advantage preferred stock by approximately \$143,000, Custom Alloy letters of credit by approximately \$70,000, Dukane loan by approximately \$30,000, Folio/n preferred stock by \$543,000, HTI loan by approximately \$130,000, MVC Environmental loan by approximately \$498,000, RuMe series B-1 preferred stock, series C preferred stock, common stock and warrants by a total of approximately \$1.2 million, Turf loan by approximately \$136,000, U.S. Gas loan by approximately \$1.7 million and SCSD common stock by approximately \$134,000.

PORTFOLIO INVESTMENTS

For the Quarter Ended January 31, 2019 and the Year Ended October 31, 2018. The cost of the portfolio investments held by the Company at January 31, 2019 and at October 31, 2018 was \$413.6 million and \$409.6 million, respectively, an increase of approximately \$4.0 million. The aggregate fair value of portfolio investments at January 31, 2019 and at October 31, 2018 was \$316.2 million and \$324.5 million, respectively, a decrease of approximately \$8.3 million. The cost and fair value of cash, restricted cash and cash equivalents held by the Company at January 31, 2019 and October 31, 2018 was \$16.2 million and \$15.9 million, respectively, representing an increase of approximately \$300,000.

For the Quarter Ended January 31, 2019

During the quarter ended January 31, 2019, the Company made one new investment, committing capital that totaled approximately \$1.9 million. Pursuant to the Order, each of the Company and the Private Fund co-invested in GTM (\$1.9 million investment for the Company).

During the quarter ended January 31, 2019, the Company made a follow-on investment in one portfolio company that totaled \$2.0 million. On December 21, 2018, the Company loaned an additional \$2.0 million to Custom Alloy in the form of a second lien loan with an interest rate of 11% and a maturity date of December 23, 2019.

Edgar Filing: MVC CAPITAL, INC. - Form 10-Q

Table of Contents

On November 9, 2018, Custom Alloy repaid its first lien loan in full, including all accrued interest.

On November 13, 2018, Custom Alloy repaid its \$1.4 million second lien loan in full, including all accrued interest.

On November 27, 2018, the Company funded approximately \$3.0 million related to the MVC Environmental letter of credit, which was called by the beneficiary.

On December 27, 2018, the Company received proceeds of approximately \$7.5 million from the PE Fund related to the sale of Plymouth Rock Energy, LLC, a portfolio company of the PE Fund. The Company's pro-rata share of the PE Fund's cost basis in the Plymouth Rock Energy, LLC investment totaled approximately \$2.5 million, resulting in a realized gain of approximately \$5.0 million. The Company also received a carried interest payment from the PE Fund of approximately \$173,000 related to the sale, which was recorded as additional realized gains.

On December 27, 2018, the Company received a dividend of approximately \$543,000 from the PE Fund related to Focus Pointe Global.

During the quarter ended January 31, 2019, the Valuation Committee increased the fair value of the Company's investments in: Black Diamond Equipment Rental, LLC (Black Diamond) loan and warrant by approximately \$767,000, Custom Alloy second lien loans, series A preferred stock, series B preferred stock and series C preferred stock by a net total of approximately \$2.3 million, Dukane loan by \$286, Foliofn preferred stock by \$32,000, Highpoint loan by approximately \$252, HTI loan by approximately \$80,000, JSC Tekers preferred stock by approximately \$82,000, Security Holdings loan and letter of credit by a net total of \$25,000, Turf loan by approximately \$15,000 and the Centile escrow by \$49,000. In addition, increases in the cost basis of the loans to HTI, Legal Solutions, RuMe, Dukane, Morey's, Highpoint, Array, Black Diamond, GTM, Tin Roof, Tuf-Tug and Security Holdings were due to the capitalization of PIK interest totaling \$992,827. The Valuation Committee also decreased the fair value of the Company's investments in: Advantage preferred stock by approximately \$244,000, Essner loan by approximately \$21,000, Initials loan by approximately \$412,000, Legal Solutions loan by approximately \$118,000, MVC Automotive equity by approximately \$117,000, MVC Environmental loan by approximately \$875,000 and common stock by approximately \$3.0 million, MVC Private Equity Fund L.P. general partnership interest and limited partnership interest in the PE Fund by a total of approximately \$1.1 million, RuMe series B-1 preferred stock, guarantee and warrants by a net total of approximately \$308,000, Trientis loan by approximately \$77,000, U.S. Tech loan by approximately \$23,000 and the U.S. Gas loan by approximately \$797,000.

At January 31, 2019, the fair value of all portfolio investments, exclusive of U.S. Treasury obligations and escrow receivables, was \$316.2 million with a cost basis of \$413.6 million. For the Fiscal Year Ended October 31, 2018

Edgar Filing: MVC CAPITAL, INC. - Form 10-Q

During the fiscal year ended October 31, 2018, the Company made six new investments, committing capital that totaled approximately \$41.5 million. Pursuant to the Order, that allows the Company to co-invest, subject to certain conditions, with certain affiliated private funds as described in the Order, each of the Company and the Private Fund co-invested in Essner (\$3.7 million investment for the Company), Black Diamond (\$7.5 million investment for the Company), Apex (\$15.0 million investment for the Company),

Edgar Filing: MVC CAPITAL, INC. - Form 10-Q

Table of Contents

Array (\$6.0 million investment for the Company), Tuf-Tug (\$5.6 million investment for the Company) and Tin Roof (\$3.7 million investment for the Company).

During the fiscal year ended October 31, 2018, the Company made follow-on investments in eight portfolio companies that totaled approximately \$20.8 million. On November 8, 2017, the Company loaned an additional \$1.5 million to SCSD in the form of a senior secured loan. The loan has an interest rate of 12% and a maturity date of November 7, 2020. On December 21, 2017, the Company loaned approximately \$526,000 to Initials increasing the senior subordinated loan amount to approximately \$5.3 million. On December 22, 2017, the Company loaned \$1.4 million to Turf in the form of a third lien loan. The loan has an interest rate of 10% and a maturity date of August 7, 2020. On February 28, 2018, the Company committed \$6.0 million to Custom Alloy in the form of a first lien loan with an interest rate of 10% and a maturity date of October 31, 2018. The funded amount as of October 31, 2018, net of repayments, was approximately \$539,000 with no additional borrowings available on the commitment. On March 19, 2018, the Company invested approximately \$68,000 in Trientis for a warrant. On March 22, 2018, the Company loaned approximately \$2.3 million to MVC Automotive increasing the bridge loan amount to approximately \$7.1 million and extending the maturity date to June 30, 2019. On April 10, 2018, the Company loaned approximately \$308,000 to Security Holdings, increasing the bridge loan amount to approximately \$4.7 million. On May 30, 2018, the Company loaned an additional \$4.8 million to Security Holdings in the form of a senior subordinated loan and provided a 3.3 million Euro letter of credit. The loan has an annual interest rate of 12.45% and a maturity date of May 31, 2020. During the fiscal year ended October 31, 2018, the Company loaned approximately \$3.6 million to RuMe, increasing the subordinated loan amount to approximately \$3.3 million and the revolver balance to approximately \$1.5 million.

On November 28, 2017, the Company restructured the Custom Alloy second lien loan and unsecured subordinated loan. The second lien loan was restructured into a \$3.5 million second lien loan with an interest rate of 10% and a maturity date of December 31, 2020, 6,500 shares of series B preferred Stock with a 10% PIK coupon and a maturity date of December 31, 2020 and 17,935 shares of series C preferred Stock. The unsecured subordinated loan was restructured into 3,617 shares of series A preferred Stock with a 12% PIK coupon and a maturity date of April 30, 2020. The Company also provided a \$2.0 million and \$1.4 million letter of credit.

On November 29, 2017, the Company received a principal payment of \$3.0 million from Dukane resulting in an outstanding balance of approximately \$4.4 million as of October 31, 2018.

On December 29, 2017, the Company received a principal payment of \$200,000 from Vestal.

Effective January 1, 2018, the cost basis of the U.S. Gas second lien loan was decreased by approximately \$3.0 million due to a working capital adjustment, resulting in a realized loss of approximately \$3.0 million. The second lien loan is still subject to indemnification adjustments.

On February 9, 2018, FDS repaid its loan in full, including all accrued interest.

On April 4, 2018, Vestal repaid its loan in full, including all accrued interest.

On April 11, 2018, Morey s made a principal payment of \$2.0 million on its second lien loan.

On July 31, 2018, the Company sold its interest in Centile and received cash proceeds of approximately \$5.8 million at closing. An additional \$1.2 million of proceeds are held in escrow for 15 months from the closing. Assuming the full receipt of all escrow proceeds, the sale of Centile will result in a realized gain of approximately \$3.5 million.

On October 31, 2018, the Custom Alloy \$1.4 million letter of credit was drawn upon, which resulted in the Company receiving a \$1.4 million term note with a 15% interest rate and a maturity date of October 31, 2021.

Table of Contents

During the fiscal year ended October 31, 2018 Turf made principal payments totaling \$210,000 on its third lien loan.

The loan bears annual interest at a rate of 9% and matures on December 22, 2020.

On November 27, 2018, the Company funded approximately \$3.0 million related to the MVC Environmental letter of credit, which was called by the beneficiary.

During the quarter ended January 31, 2019, the Valuation Committee decreased the fair value of the loan by approximately \$875,000 and the common stock by approximately \$3.0 million.

At January 31, 2019, the Company's investment in MVC Environmental consisted of common stock with a cost basis of approximately \$6.1 million and a fair value of approximately \$0 and a senior secured loan with an outstanding balance and cost basis of \$6.9 million and a fair value of \$0. The Company reserved in full against all of the accrued interest starting July 1, 2017. David Williams, representative of the Company, serves as a director of MVC Environmental.

Table of Contents

MVC Private Equity Fund, L.P.

MVC Private Equity Fund, L.P., Purchase, New York, is a private equity fund focused on control equity investments in the lower middle market. MVC GP II, an indirect wholly-owned subsidiary of the Company, serves as the GP to the PE Fund and is exempt from the requirement to register with the Securities and Exchange Commission as an investment adviser under Section 203 of the Investment Advisers Act of 1940. MVC GP II is wholly-owned by MVCFS, a subsidiary of the Company. The Company's Board of Directors authorized the establishment of, and investment in, the PE Fund for a variety of reasons, including the Company's ability to participate in Non-Diversified Investments made by the PE Fund. As previously disclosed, the Company is limited in its ability to make Non-Diversified Investments. For services provided to the PE Fund, the GP and MVC Partners are together entitled to receive 25% of all management fees and other fees paid by the PE Fund and its portfolio companies and up to 30% of the carried interest generated by the PE Fund. Further, at the direction of the Board of Directors, the GP retained TTG Advisers to serve as the portfolio manager of the PE Fund. In exchange for providing those services, and pursuant to the Board of Directors' authorization and direction, TTG Advisers is entitled to the remaining 75% of the management and other fees generated by the PE Fund and its portfolio companies and any carried interest generated by the PE Fund. A significant portion of the portfolio fees that are paid by the PE Fund's portfolio companies to the GP and TTG Advisers is subject to recoupment by the PE Fund in the form of an offset to future management fees paid by the PE Fund. Given this separate arrangement with the GP and the PE Fund, under the terms of the Company's Advisory Agreement with TTG Advisers, TTG Advisers is not entitled to receive from the Company a management fee or an incentive fee on assets of the Company that are invested in the PE Fund. The PE Fund's term will end on October 29, 2016; unless the GP, in its sole discretion, extends the term of the PE Fund for two additional periods of one year each.

On October 29, 2010, through MVC Partners and MVCFS, the Company committed to invest approximately \$20.1 million in the PE Fund. Of the \$20.1 million total commitment, MVCFS, through its wholly-owned subsidiary MVC GP II, has committed \$500,000 to the PE Fund as its general partner. See MVC Partners for more information on the other portion of the Company's commitment to the PE Fund. The PE Fund has closed on approximately \$104 million of capital commitments.

During the fiscal year ended October 31, 2012 and thereafter, MVC Partners was consolidated with the operations of the Company as MVC Partners' limited partnership interest in the PE Fund is a substantial portion of MVC Partners' operations.

At October 31, 2018, the limited partnership interest in the PE Fund had a cost of approximately \$11.5 million and a fair value of approximately \$20.0 million. The Company's general partnership interest in the PE Fund had a cost basis of approximately \$292,000 and a fair value of approximately \$501,000.

On December 27, 2018, the Company received proceeds of approximately \$7.5 million from the PE Fund related to the sale of Plymouth Rock Energy, LLC, a portfolio company of the PE Fund. The Company's pro-rata share of the PE Fund's cost basis in the Plymouth Rock Energy, LLC investment totaled approximately \$2.5 million, resulting in a realized gain of approximately \$5.0 million. The Company also received a carried interest payment from the PE Fund of approximately \$173,000 related to the sale, which was recorded as additional realized gains.

On December 27, 2018, the Company received a dividend of approximately \$543,000 from the PE Fund related to Focus Pointe Global.

During the quarter ended January 31, 2019, the Valuation Committee decreased the fair value of the general partnership interest and limited partnership interest in the PE Fund by a total of approximately \$1.1 million,

At January 31, 2019, the limited partnership interest in the PE Fund had a cost of approximately \$9.0 million and a fair value of approximately \$11.3 million. The Company's general partnership interest in the PE Fund had a cost basis of approximately \$230,000 and a fair value of approximately \$288,000. As of January 31, 2019, the PE Fund had investments in Gibdock Limited, Focus Pointe Holdings, Inc. and Advanced Oilfield Services, LLC.

RuMe, Inc.

RuMe, Denver, Colorado, produces functional and affordable products for the environmentally and socially-conscious consumer reducing dependence on single-use products.

Table of Contents

At October 31, 2018, the Company's investment in RuMe consisted of 5,297,548 shares of common stock with a cost basis of approximately \$924,000 and a fair value of \$0, 4,999,076 shares of series B-1 preferred stock with a cost basis of approximately \$1.0 million and a fair value of approximately \$1.7 million, 23,896,634 shares of series C preferred stock with a cost basis and a fair value of approximately \$3.4 million, a revolver with an outstanding balance, cost basis and fair value of approximately \$1.5 million and a subordinated note with an outstanding balance, cost basis and a fair value of approximately \$3.3 million. The warrants have a cost basis of approximately \$336,000 and a fair value of \$0, the guarantee was fair valued at approximately -\$107,000 or a liability of approximately \$107,000 and the letter of credit was fair valued at approximately -\$273,000 or a liability of approximately \$273,000. The subordinated note and revolver had an interest rate of 10% PIK and a maturity date of March 31, 2020.

During the quarter ended January 31, 2019, the Valuation Committee decreased the fair value of the series B-1 preferred stock by approximately \$390,000 and increased the guarantee by approximately \$23,000 and the letter of credit by approximately \$58,000.

At January 31, 2019, the Company's investment in RuMe consisted of 5,297,548 shares of common stock with a cost basis of approximately \$924,000 and a fair value of \$0, 4,999,076 shares of series B-1 preferred stock with a cost basis of approximately \$1.0 million and a fair value of approximately \$1.4 million, 23,896,634 shares of series C preferred stock with a cost basis and a fair value of approximately \$3.4 million, a revolver with an outstanding balance, cost basis and fair value of approximately \$1.5 million and a subordinated note with an outstanding balance, cost basis and a fair value of approximately \$3.4 million. The warrants have a cost basis of approximately \$336,000 and a fair value of \$0, the guarantee was fair valued at approximately -\$84,000 or a liability of approximately \$84,000 and the letter of credit was fair valued at approximately -\$215,000 or a liability of approximately \$215,000.

Shivani Khurana and Christopher Ferguson, representatives of the Company, serve as directors of RuMe.

Security Holdings, B.V.

Security Holdings is an Amsterdam-based holding company that owns FIMA, a Lithuanian security and engineering solutions company.

At October 31, 2018, the Company's investment in Security Holdings consisted of common equity interest with a cost basis of approximately \$51.2 million and a fair value of approximately \$31.3 million, a bridge loan with an outstanding balance, cost basis and fair value of approximately \$4.7 million, a senior subordinated loan with an outstanding balance, cost basis and fair value of approximately \$5.0 million and a letter of credit with a fair value of approximately -\$87,000 or a liability of \$87,000. The bridge loan had an interest rate of 5% and a maturity date of December 31, 2019 and the senior subordinated loan had an interest rate of 12.45% and a maturity date of May 31, 2020.

During the quarter ended January 31, 2019, the Valuation Committee decreased the fair value of the common equity interest by \$23,000 and increased the fair value of the letter of credit by approximately \$48,000.

At January 31, 2019, the Company's investment in Security Holdings consisted of common equity interest with a cost basis of approximately \$51.2 million and a fair value of approximately \$31.3 million, a bridge loan with an outstanding balance, cost basis and fair value of approximately \$4.9 million, a senior subordinated loan with an outstanding balance, cost basis and fair value of approximately \$5.1 million and

Edgar Filing: MVC CAPITAL, INC. - Form 10-Q

a letter of credit with a fair value of approximately -\$39,000 or a liability of \$39,000.

Puneet Sanan, a representative of the Company, serves as a director of Security Holdings.

Tin Roof Software, LLC

The loan has an interest rate of 9.5% and matures on July 5, 2025.

During the quarter ended January 31, 2019, the Valuation Committee decreased the fair value of the loan by \$797,000.

At January 31, 2019, the Company's investment in U.S. Gas, an indirect subsidiary of Crius, consisted of a second lien loan with an outstanding balance and cost basis of approximately \$37.5 million and a fair value of approximately \$38.7 million.

U.S. Spray Drying Holding Company

SCSD, Huguenot, New York, provides custom spray drying products to the food, pharmaceutical, nutraceutical, flavor and fragrance industries.

At October 31, 2018, the Company's investment in SCSD consisted of 784 shares of class B common stock with a cost basis of approximately \$5.5 million and a fair value of approximately \$5.4 million. The secured loan and the senior secured loan each had an outstanding balance, cost basis and fair value of \$1.5 million. The secured loan and the senior secured loan each had an interest rate of 12% and a maturity date of April 30, 2021.

At January 31, 2019, the Company's investment in SCSD consisted of 784 shares of class B common stock with a cost basis of approximately \$5.5 million and a fair value of approximately \$5.4 million. The secured loan and the senior secured loan each had an outstanding balance, cost basis and fair value of \$1.5 million.

Puneet Sanan and Shivani Khurana, representatives of the Company, serve as directors of SCSD.

Liquidity and Capital Resources

Our liquidity and capital resources are derived from our public offering of securities, our credit facility and cash flows from operations, including investment sales and repayments and income earned. Our primary use of funds includes investments in portfolio companies and payments of fees and other operating expenses we incur. We have used, and expect to continue to use, proceeds generated from our portfolio investments and/or proceeds from public and private offerings of securities to finance pursuit of our investment objective.

At January 31, 2019, the Company had investments in portfolio companies totaling \$317.2 million. Also, on that date, the Company had approximately \$428,000 in cash equivalents and approximately \$15.8 million in cash and restricted cash. The Company considers all money market and other cash investments purchased with an original maturity of less than three months to be cash equivalents. U.S. government securities and cash equivalents are highly liquid. Pending investments in portfolio companies pursuant to our principal investment strategy, the Company may make other short-term or temporary investments, including in exchange-traded funds and private investment funds offering periodic liquidity.

During the quarter ended January 31, 2019, the Company made one new investment, committing capital that totaled approximately \$1.9 million. Pursuant to the Order, each of the Company and the Private Fund co-invested in GTM (\$1.9 million investment for the Company).

Table of Contents

During quarter ended January 31, 2019, the Company made a follow-on investment in one portfolio company that totaled \$2.0 million. On December 21, 2018, the Company loaned an additional \$2.0 million to Custom Alloy in the form of a second lien loan with an interest rate of 11% and a maturity date of December 23, 2019.

Current commitments include:***Commitments to Portfolio Companies:***

At January 31, 2019 and October 31, 2018, the Company's existing commitments to portfolio companies consisted of the following:

Portfolio Company	Amount Committed		Amount Funded at January 31, 2019	
MVC Private Equity Fund LP	\$	20.1 million	\$	14.6 million
Total	\$	20.1 million	\$	14.6 million

Portfolio Company	Amount Committed		Amount Funded at October 31, 2018	
MVC Private Equity Fund LP	\$	20.1 million	\$	14.6 million
Total	\$	20.1 million	\$	14.6 million

Guarantees:

At January 31, 2019 and October 31, 2018, the Company had the following commitments to guarantee various loans and mortgages:

Guarantee	Amount Committed		Amount Funded at January 31, 2019	
MVC Automotive	\$	4.2 million		
RuMe	\$	1.0 million		
Total	\$	5.2 million		

Guarantee	Amount Committed		Amount Funded at October 31, 2018	
MVC Automotive	\$	6.2 million		
RuMe	\$	1.0 million		
Total	\$	7.2 million		

ASC 460, *Guarantees*, requires the Company to estimate the fair value of the guarantee obligation at its inception and requires the Company to assess whether a probable loss contingency exists in accordance with the requirements of ASC 450, *Contingencies*. At January 31, 2019, the Valuation Committee estimated the combined fair values of the guarantee obligations noted above to be approximately -\$84,000 or a liability of approximately \$84,000.

Edgar Filing: MVC CAPITAL, INC. - Form 10-Q

These guarantees are further described below, together with the Company's other commitments.

On January 16, 2008, the Company agreed to support a 4.0 million Euro mortgage for a Ford dealership owned and operated by MVC Automotive through making financing available to the dealership and agreeing under certain circumstances not to reduce its equity stake in MVC Automotive. Over time, Erste Bank, the bank extending the mortgage to MVC Automotive, increased the amount of the mortgage. The balance of the guarantee as of January 31, 2019 is approximately 3.7 million Euro (equivalent to approximately \$4.2 million).

The Company agreed to cash collateralize a \$300,000 third party letter of credit for RuMe, which is still a commitment of the Company as of January 31, 2019. The Company also guaranteed \$1.0 million of RuMe's indebtedness to Colorado Business Bank, which had a fair value of approximately -\$84,000 or a liability of \$84,000 as of January 31, 2019. On September 22, 2017, the Company provided RuMe an additional \$2.0

Edgar Filing: MVC CAPITAL, INC. - Form 10-Q

Table of Contents

million letter of credit, which was reduced to \$1.5 million on February 1, 2018 and then increased to \$2.0 million on May 7, 2018. The letter of credit had a fair value of approximately -\$215,000 or a liability of \$215,000 as of January 31, 2019. The \$2.0 million letter of credit is collateralized with cash that was classified as restricted cash on the Company's Consolidated Balance Sheets.

On October 29, 2010, through MVC Partners and MVCFS, the Company committed to invest approximately \$20.1 million in the PE Fund, for which an indirect wholly-owned subsidiary of the Company serves as GP. The PE Fund closed on approximately \$104 million of capital commitments. During the fiscal year ended October 31, 2012 and thereafter, MVC Partners was consolidated with the operations of the Company as MVC Partners' limited partnership interest in the PE Fund is a substantial portion of MVC Partners operations. The investment period related to the PE Fund has ended. Additional capital may be called for follow-on investments in existing portfolio companies of the PE Fund or to pay operating expenses of the PE Fund until the partnership is terminated. On December 27, 2018, the Company received proceeds of approximately \$7.5 million from the PE Fund related to the sale of Plymouth Rock Energy, LLC, a portfolio company of the PE Fund. The Company's pro-rata share of the PE Fund's cost basis in the Plymouth Rock Energy, LLC investment totaled approximately \$2.5 million, resulting in a realized gain of approximately \$5.0 million. As of January 31, 2019, \$12.1 million of the Company's commitment was funded.

During the fiscal year ended October 31, 2016, the Company agreed to cash collateralize a \$500,000 working capital line of credit for an entity partially owned by MVC Environmental provided by Branch Banking and Trust Company (BB&T). During the fiscal year ended October 31, 2017, the cash collateral securing the MVC Environmental working capital line of credit was released and a new credit facility was entered into secured by a \$1.0 million letter of credit. On February 16, 2018, the letter of credit was increased to \$3.0 million. On November 27, 2018, the Company funded approximately \$3.0 million related to the letter of credit, which was called by the beneficiary. On February 28, 2018, the Company committed \$6.0 million to Custom Alloy in the form of a first lien loan with an interest rate of 10% and a maturity date of October 31, 2018. On November 9, 2018, Custom Alloy repaid its first lien loan in full, including all accrued interest. The loan is no longer a commitment of the Company as of January 31, 2019.

During the fiscal year ended October 31, 2018, the Company provided Custom Alloy a \$2.0 million and a \$1.4 million letter of credit as part of a restructuring. The \$2.0 million letter of credit matured on November 27, 2018 and is no longer a commitment of the Company. On October 31, 2018, the \$1.4 million letter of credit was drawn, which resulted in the Company receiving a \$1.4 million term note with a 15% interest rate and a maturity date of October 31, 2021. On November 13, 2018, Custom Alloy repaid its \$1.4 million second lien loan in full, including all accrued interest. The loan is no longer a commitment of the Company as of January 31, 2019.

During the fiscal year ended October 31, 2018, the Company provided Security Holdings a 3.3 million Euro letter of credit. The letter of credit had a fair value of approximately -\$39,000 or a liability of \$39,000 as of January 31, 2019. The letter of credit is collateralized with cash that was classified as restricted cash on the Company's Consolidated Balance Sheets.

As of January 31, 2019, the total fair value associated with potential obligations related to guarantees and letters of credit was approximately -\$338,000 or a liability of \$338,000.

Commitments of the Company

On February 19, 2013, the Company sold \$70.0 million of senior unsecured notes (the Senior Notes) in a public offering. The Senior Notes will mature on January 15, 2023 and may be redeemed in whole or in part at any time or from time to time at the Company's option on or after April 15, 2016. The Senior Notes had an interest rate of 7.25% per year payable quarterly on January 15, April 15, July 15, and October 15 of

Edgar Filing: MVC CAPITAL, INC. - Form 10-Q

each year, beginning April 15, 2013. The Company had also granted the underwriters a 30-day option to purchase up to an additional \$10.5 million of Senior Notes to cover overallocments. The additional \$10.5 million in principal was purchased and the total principal amount of the Senior Notes totaled \$80.5 million. The net proceeds to

Edgar Filing: MVC CAPITAL, INC. - Form 10-Q

Table of Contents

the Company from the sale of the Senior Notes, after offering expenses, were approximately \$77.4 million. The offering expenses incurred are amortized over the term of the Senior Notes.

On May 3, 2013, the Company sold approximately \$33.9 million of additional Senior Notes in a direct offering. The additional Senior Notes will also mature on January 15, 2023 and may be redeemed in whole or in part at any time or from time to time at the Company's option on or after April 15, 2016. The Notes had an interest rate of 7.25% per year payable quarterly on January 15, April 15, July 15, and October 15 of each year.

On December 21, 2017, all of the issued and outstanding Senior Notes were redeemed by the Company. Approximately \$1.8 million in unamortized deferred financing fees related to the Senior Notes were expensed at the time of repayment. See below for additional information.

On July 31, 2013, the Company entered into a one-year, \$50 million revolving credit facility (Credit Facility II) with BB&T. On January 31, 2014, Credit Facility II was increased to a \$100 million revolving credit facility. On December 1, 2015, Credit Facility II was renewed and expired on May 31, 2016, at which time all outstanding amounts under it were due and repaid. On June 30, 2016, Credit Facility II was renewed and reduced to a \$50 million revolving credit facility, which expired on February 28, 2017, as of which time all outstanding amounts under it were due and repaid. On February 28, 2017, Credit Facility II was renewed and increased to a \$100 million revolving credit facility and expired on August 31, 2017. On August 31, 2017, Credit Facility II was renewed and decreased to a \$25 million revolving credit facility, which was to expire on August 31, 2018. There was no change to the interest rate or unused fee on the revolving credit facility. The Company incurred closing costs associated with this transaction of \$62,500. On August 10, 2018, Credit Facility II was renewed to August 30, 2019. The Company incurred closing costs associated with this transaction of \$50,000 with no change in terms other than the expiration date. At October 31, 2018 and January 31, 2019, there was no balance and \$25.0 million outstanding on Credit Facility II, respectively. Credit Facility II is used to provide the Company with better overall financial flexibility in managing its investment portfolio. Borrowings under Credit Facility II bear interest at LIBOR plus 125 basis points. In addition, the Company is also subject to a 25 basis point commitment fee for the average amount of Credit Facility II that is unused during each fiscal quarter. The Company paid closing fees, legal and other costs associated with these transactions. These costs are amortized over the life of the facility. Borrowings under Credit Facility II will be secured by cash, short-term and long-term U.S. Treasury securities and other governmental agency securities. As of January 31, 2019, the Company was in compliance with all covenants related to Credit Facility II.

On December 9, 2015, the Company entered into a three-year, \$50 million revolving borrowing base credit facility (Credit Facility III) with Santander Bank N.A. as a lender and lead agent and Wintrust Bank as a lender and syndication agent. Credit Facility III was to expire on December 9, 2018. Credit Facility III can, under certain conditions, be increased up to \$85 million. The new facility bears an interest rate of LIBOR plus 3.75% or the prime rate plus 1% (at the Company's option), and includes a 1% closing fee of the commitment amount and a 0.75% unused fee. The compensating balance for the revolving credit facility is \$5.0 million, which is reflected as restricted cash on the Company's Consolidated Balance Sheets. On February 26, 2018, in connection with the U.S. Gas Sale, Credit Facility III was amended, effective as of July 5, 2017, to exclude from pledged collateral the U.S. Gas second lien loan. On May 7, 2018, the terms of Credit Facility III were amended to, among other things: (i) increase the limit for unsecured indebtedness and certain unsecured guaranty obligations of portfolio companies of the Company to \$10,000,000 and (ii) increase the limit on permitted investments of the Company with respect to certain debt, equity and follow-on investments to \$28,500,000. All other material terms of Credit Facility III remained unchanged. As of October 31, 2018, there was no outstanding balance on Credit Facility III and the Company was in compliance with all covenants related to Credit Facility III. On December 7, 2018, Credit Facility III was renewed until March 9, 2019. On January 29, 2019, Credit Facility III was terminated. As of January 31, 2019, Credit Facility III was no longer a commitment of the Company.

On November 15, 2017, the Company completed a public offering of \$100,000,000 aggregate principal amount of its 6.25% senior notes due November 30, 2022 (Senior Notes II). In addition, on November 20,

Table of Contents

2017, the underwriters exercised an over-allotment option to purchase an additional \$15 million in aggregate principal amount of Senior Notes II (together with the offering on November 15, the Offering). The Senior Notes II have an interest rate of 6.25% per year payable quarterly on January 15, April 15, July 15, and October 15 of each year. After deducting underwriting fees and discounts and expenses, the Offering resulted in net proceeds to the Company of approximately \$111.4 million. The Offering expenses incurred are amortized over the term of the Senior Notes II. Proceeds from the offering were used to repay the Senior Notes in full, including all accrued interest. As of January 31, 2019, the Senior Notes II had a total outstanding amount of \$115.0 million, net of deferred financing fees the balance was approximately \$112.1 million, with a market value of approximately \$118.9 million.

On January 29, 2019, the Company entered into a three year, \$35 million revolving credit facility (Credit Facility IV) with People's United Bank, National Association as lender and lead agent. Credit Facility IV can, under certain conditions, be increased up to \$85 million. Credit Facility IV will expire on January 29, 2022, at which time all outstanding amounts under Credit Facility IV will be due and payable. Borrowings under the Credit Facility bear interest at a rate of LIBOR plus 2.85%, or the prime rate plus 0.5% at the Company's discretion. In addition, the Company was subject to (i) a closing fee of 1% of the commitment amount paid at closing, (ii) a one-time structuring fee in the amount of \$100,000 paid at closing, (iii) an unused line fee, which is payable monthly, of 0.75% if the Company draws less than \$25 million on Credit Facility IV or 0.60% if the Company draws more than \$25 million on Credit Facility IV, and (iv) an annual administrative agent fee in the amount of \$100,000 in 2019 and \$200,000 in each year thereafter. The compensating balance for the revolving credit facility is \$5.0 million, which is reflected as restricted cash on the Company's Consolidated Balance Sheets. As of January 31, 2019, there was \$4.0 million outstanding on Credit Facility IV and the Company was in compliance with all covenants related to Credit Facility IV.

The Company enters into contracts with portfolio companies and other parties that contain a variety of indemnifications. The Company's maximum exposure under these arrangements is unknown. However, the Company has not experienced claims or losses pursuant to these contracts and believes the risk of loss related to indemnifications to be remote.

Subsequent Events

On February 7, 2019, Vistra Energy and Crius announced that they have entered into a definitive agreement pursuant to which Vistra Energy will acquire Crius for cash consideration of CAN\$7.57 per trust unit. On February 20, 2019, Vistra Energy agreed to increase its acquisition price for Crius to CAN\$8.80 per trust unit, an increase of CAN\$1.23 per trust unit. Using the January 31, 2019 foreign exchange rate, the Company's equity units in Crius would be valued at approximately 22.0 million USD if the transaction is consummated at CAN\$8.80 per trust unit. This resulted in an approximately 8.8 million USD increase in the market value of the Company's position as of January 31, 2019.

Table of Contents

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Historically the Company has invested in small companies, and its investments in these companies are considered speculative in nature. The Company's investments often include securities that are subject to legal or contractual restrictions on resale that adversely affect the liquidity and marketability of such securities. As a result, the Company is subject to risk of loss which may prevent our shareholders from achieving price appreciation, dividend distributions and return of capital.

Financial instruments that subjected the Company to concentrations of market risk consisted principally of equity investments, subordinated notes, debt instruments, and escrow receivables, which represent approximately 93.9% of the Company's total assets at January 31, 2019. As discussed in Note 8 Portfolio Investments, these investments consist of securities in companies with no readily determinable market values and as such are valued in accordance with the Company's fair value policies and procedures. The Company's investment strategy represents a high degree of business and financial risk due to the fact that portfolio company investments are generally illiquid, in small and middle market companies, and include entities with little operating history or entities that possess operations in new or developing industries. These investments, should they become publicly traded, would generally be: (i) subject to restrictions on resale, if they were acquired from the issuer in private placement transactions; and (ii) susceptible to market risk. The Company may make short-term investments in 90-day Treasury Bills or longer-term treasury notes, which are federally guaranteed securities, or other investments, including exchange-traded funds, private investment funds and designated money market accounts, pending investments in portfolio companies made pursuant to our principal investment strategy.

In addition, the following risk factors relate to market risks impacting the Company.

We depend on key personnel of TTG Advisers, especially Mr. Tokarz, in seeking to achieve our investment objective.

We depend on the continued services of Mr. Tokarz and certain other key management personnel of TTG Advisers. If we were to lose access to any of these personnel, particularly Mr. Tokarz, it could negatively impact our operations and we could lose business opportunities. There is a risk that Mr. Tokarz's expertise may be unavailable to the Company, which could significantly impact the Company's ability to achieve its investment objective.

Our returns may be substantially lower than the average returns historically realized by the private equity industry as a whole.

Past performance of the private equity industry is not necessarily indicative of that sector's future performance, nor is it necessarily a good proxy for predicting the returns of the Company. We cannot guarantee that we will meet or exceed the rates of return historically realized by the private equity industry as a whole. Additionally, our overall returns are impacted by certain factors related to our structure as a publicly-traded business development company, including:

- The substantially lower return we are likely to realize on short-term liquid investments during the period in which we are identifying potential investments, and

- The periodic disclosure required of business development companies, which could result in the Company being less attractive as an investor to certain potential portfolio companies.

Substantially all of our portfolio investments and escrow receivables are recorded at fair value and, as a result, there is a degree of uncertainty regarding the carrying values of our portfolio investments.

Pursuant to the requirements of the 1940 Act, because our portfolio company investments do not have readily ascertainable market values, we record these investments at fair value in accordance with our Valuation

Table of Contents

Procedures adopted by our Board of Directors. As permitted by the SEC, the Board of Directors has delegated the responsibility of making fair value determinations to the Valuation Committee, subject to the Board of Directors' supervision and pursuant to the Valuation Procedures.

At January 31, 2019, approximately 80.8% of our total assets represented portfolio investments recorded at fair value.

There is no single standard for determining fair value in good faith. As a result, determining fair value requires that judgment be applied to the specific facts and circumstances of each portfolio investment while employing a consistently applied valuation process for the types of investments we make. In determining the fair value of a portfolio investment, the Valuation Committee analyzes, among other factors, the portfolio company's financial results and projections and publicly traded comparable companies when available, which may be dependent on general economic conditions. We specifically value each individual investment and record unrealized depreciation for an investment that we believe has become impaired, including where collection of a loan or realization of an equity security is doubtful. Conversely, we will record unrealized appreciation if we have an indication (based on a significant development) that the underlying portfolio company has appreciated in value and, therefore, our equity security has also appreciated in value, where appropriate. Without a readily ascertainable market value and because of the inherent uncertainty of fair valuation, fair value of our investments may differ significantly from the values that would have been used had a ready market existed for the investments, and the differences could be material.

Pursuant to our Valuation Procedures, our Valuation Committee (which is comprised of three Independent Directors) reviews, considers and determines fair valuations on a quarterly basis (or more frequently, if deemed appropriate under the circumstances). Any changes in valuation are recorded in the consolidated statements of operations as Net change in unrealized appreciation (depreciation) on investments.

Economic recessions or downturns could impair our portfolio companies and have a material adverse impact on our business, financial condition and results of operations.

Many of the companies in which we have made or will make investments may be susceptible to adverse economic conditions. Adverse economic conditions may affect the ability of a company to engage in a liquidity event. These conditions could lead to financial losses in our portfolio and a decrease in our revenues, net income and assets. Depending on market conditions, we could incur substantial realized losses and suffer unrealized losses in future periods, which could have a material adverse impact on our business, financial condition and results of operations.

Our overall business of making loans or private equity investments may be affected by current and future market conditions. The absence of an active mezzanine lending or private equity environment may slow the amount of private equity investment activity. As a result, the pace of our investment activity may slow, which could impact our ability to achieve our investment objective. In addition, significant changes in the capital markets could have an effect on the valuations of private companies and on the potential for liquidity events involving such companies. This could affect the amount and timing of any gains realized on our investments and thus have a material adverse impact on our financial condition.

Depending on market conditions, we could incur substantial realized losses and suffer unrealized losses in future periods, which could have a material adverse impact on our business, financial condition and results of operations. Declines in the market values of the Company's investments could lead to diminished investment opportunities for the Company, prevent the Company from successfully executing its investment strategies or require the Company to dispose of investments at a loss.

We may not realize gains from our equity investments.

When we invest in mezzanine and senior debt securities, we may acquire warrants or other equity securities as well. We may also invest directly in various equity securities. Our goal is ultimately to realize

Table of Contents

gains upon our disposition of such interests. However, the equity interests we receive or invest in may not appreciate in value and, in fact, may decline in value. In addition, the equity securities we receive or invest in may be subject to restrictions on resale during periods in which it would be advantageous to sell. Accordingly, we may not be able to realize gains from our equity interests, and any gains that we do realize on the disposition of any equity interests may not be sufficient to offset any other losses we experience.

The market for private equity investments can be highly competitive. In some cases, our status as a regulated business development company may hinder our ability to participate in investment opportunities.

We face competition in our investing activities from private equity funds, other business development companies, investment banks, investment affiliates of large industrial, technology, service and financial companies, small business investment companies, wealthy individuals and foreign investors. As a regulated business development company, we are required to disclose quarterly the name and business description of portfolio companies and the value of any portfolio securities. Many of our competitors are not subject to this disclosure requirement. Our obligation to disclose this information could hinder our ability to invest in certain portfolio companies. Additionally, other regulations, current and future, may make us less attractive as a potential investor to a given company than a private equity fund not subject to the same regulations. Furthermore, some of our competitors have greater resources than we do. Increased competition would make it more difficult for us to purchase or originate investments at attractive prices. As a result of this competition, sometimes we may be precluded from making certain investments.

Our ability to use our capital loss carryforwards may be subject to limitations.

On October 31, 2018, the Company did not have a net capital loss carryforward. The Company had approximately \$97.4 million in unrealized losses as of January 31, 2019. If we experience an aggregate 50% shift in the ownership of our common stock from shareholder transactions over a three year period (e.g., if a shareholder acquires 5% or more of our outstanding shares of common stock, or if a shareholder who owns 5% or more of our outstanding shares of common stock significantly increases or decreases its investment in the Company), our ability to utilize our capital loss carryforwards to offset future capital gains may be severely limited. Further, in the event that we are deemed to have failed to meet the requirements to qualify as a RIC, our ability to use our capital loss carryforwards could be adversely affected. Please see Note 12 of our consolidated financial statements Tax Matters for more information.

Loss of pass-through tax treatment would substantially reduce net assets and income available for dividends.

We have operated so as to qualify as a RIC. If we meet source of income, diversification and distribution requirements, we will qualify for effective pass-through tax treatment. We would cease to qualify for such pass-through tax treatment if we were unable to comply with these requirements. In addition, we may have difficulty meeting the requirement to make distributions to our shareholders because in certain cases we may recognize income before or without receiving cash representing such income, such as in the case of debt obligations that are treated as having original issue discount. If we fail to qualify as a RIC, we will have to pay corporate-level taxes on all of our income whether or not we distribute it, which would substantially reduce the amount of income available for distribution to our shareholders, and all of our distributions will be taxed to our shareholders as ordinary corporate distributions. Even if we qualify as a RIC, we generally will be subject to a corporate-level income tax on the income we do not distribute. Moreover, if we do not distribute at least: (1) 98% of our ordinary income during each calendar year, (2) 98.2% of our capital gain net income realized in the period from November 1 of the prior year through October 31 of the current year, and (3) all such ordinary income and capital gain net income for the previous years that were not distributed during those years, we generally will be subject to a 4% excise tax on certain undistributed amounts.

Table of Contents

There are certain risks associated with the Company holding debt obligations that are treated under applicable tax rules as having original issue discount.

For federal income tax purposes, we may be required to recognize taxable income in circumstances in which we do not receive a corresponding payment in cash. For example, if we hold debt obligations that are treated under applicable tax rules as having original issue discount (OID) (such as debt instruments with payment-in-kind, or PIK, interest or, in certain cases, increasing interest rates or debt instruments that were issued with warrants), we must include in income each year a portion of the OID that accrues over the life of the obligation, regardless of whether cash representing such income is received by us in the same taxable year. We may also have to include in income other amounts that we have not yet received in cash, such as deferred loan origination fees that are paid after origination of the loan or are paid in non-cash compensation such as warrants or stock. We anticipate that a portion of our income may constitute OID or other income required to be included in taxable income prior to receipt of cash. Further, we may elect to include market discount in our taxable income in the current year, instead of upon disposition, as failing to make such election would limit our ability to deduct interest expenses for tax purposes.

Any OID or other amounts accrued will be included in our investment company taxable income for the year of the accrual. Therefore, we may be required to make a distribution to our shareholders in order to satisfy the annual distribution requirement necessary to qualify for and maintain RIC tax treatment under Subchapter M of the Code, even though we will not have received any corresponding cash amount. As a result, we may have to sell some of our investments at times and/or at prices we would not consider advantageous, raise additional debt or equity capital or forgo new investment opportunities for this purpose. If we are not able to obtain cash from other sources, we may fail to qualify for or maintain RIC tax treatment and thus become subject to corporate-level income tax, as described in the previous risk factor regarding loss of pass-through tax treatment.

Additionally, the higher interest rates of OID instruments reflect the payment deferral and increased credit risk associated with these instruments, and OID instruments generally represent a significantly higher credit risk than coupon loans. Even if the accounting conditions for income accrual are met, the borrower could still default when the Company's actual collection is supposed to occur at the maturity of the obligation.

OID instruments may have unreliable valuations because their continuing accruals require continuing judgments about the collectability of the deferred payments and the value of any associated collateral. OID income may also create uncertainty about the source of the Company's cash distributions. For accounting purposes, any cash distributions to shareholders representing OID income are not treated as coming from paid-in capital, even though the cash to pay them comes from the offering proceeds. Thus, despite the fact that a distribution of OID income comes from the cash invested by the shareholders, the 1940 Act does not require that shareholders be given notice of this fact by reporting it as a return of capital. PIK interest has the effect of generating investment income and potentially increasing the incentive fees payable to TTG Advisers at a compounding rate. In addition, the deferral of PIK interest also reduces the loan-to-value ratio at a compounding rate. Furthermore, OID creates the risk that fees will be paid to TTG Advisers based on non-cash accruals that ultimately may not be realized, while TTG Advisers will be under no obligation to reimburse the Company for these fees.

Our ability to grow depends on our ability to raise capital.

To fund new investments or other activities, periodically we may need to issue equity securities or borrow from financial institutions. Unfavorable economic conditions, among other things, could increase our funding costs, limit our access to the capital markets or result in a decision by lenders not to extend credit to us. If we fail to obtain capital to fund our investments, it could limit both our ability to grow our business and our profitability. With certain limited exceptions, we are only allowed to borrow amounts such that our asset coverage, as defined in the 1940 Act, equals at least 200% after such borrowing. The amount of leverage that we employ depends on TTG Advisers' and our Board of

Edgar Filing: MVC CAPITAL, INC. - Form 10-Q

Directors' assessment of market and other factors at the time of any proposed borrowing. We cannot assure you that we will be able to maintain our current facilities or obtain other lines of credit at all or on terms acceptable to us.

Table of Contents

Complying with the RIC requirements may cause us to forgo otherwise attractive opportunities.

In order to qualify as a RIC for U.S. federal income tax purposes, we must satisfy tests concerning the sources of our income, the nature and diversification of our assets and the amounts we distribute to our shareholders. We may be unable to pursue investments that would otherwise be advantageous to us in order to satisfy the source of income or asset diversification requirements for qualification as a RIC. In particular, to qualify as a RIC, at least 50% of our assets must be in the form of cash and cash items, Government securities, securities of other RICs, and other securities that represent not more than 5% of our total assets and not more than 10% of the outstanding voting securities of the issuer. We have from time to time held a significant portion of our assets in the form of securities that exceed 5% of our total assets or more than 10% of the outstanding voting securities of an issuer, and compliance with the RIC requirements may restrict us from making investments that represent more than 5% of our total assets or more than 10% of the outstanding voting securities of the issuer. Thus, compliance with the RIC requirements may hinder our ability to take advantage of investment opportunities believed to be attractive, including potential follow-on investments in certain of our portfolio companies.

Regulations governing our operation as a business development company affect our ability to, and the way in which we, raise additional capital.

We are not generally able to issue and sell our common stock at a price below net asset value per share. We may, however, sell our common stock or warrants at a price below the then-current net asset value per share of our common stock if our Board of Directors determines that such sale is in the best interests of the Company and its stockholders, and, if required by law or regulation, our stockholders approve such sale. In any such case, the price at which our securities are to be issued and sold may not be less than a price that, in the determination of our Board of Directors, closely approximates the market value of such securities (less any distributing commission or discount). If we raise additional funds by issuing more common stock or senior securities convertible into, or exchangeable for, our common stock, then the percentage ownership of our stockholders at that time will decrease, and you might experience dilution.

Any failure on our part to maintain our status as a business development company would reduce our operating flexibility.

We intend to continue to qualify as a business development company (BDC) under the 1940 Act. The 1940 Act imposes numerous constraints on the operations of BDCs. For example, BDCs are required to invest at least 70% of their total assets in specified types of securities, primarily in private companies or thinly-traded U.S. public companies, cash, cash equivalents, U.S. government securities and other high quality debt investments that mature in one year or less. Furthermore, any failure to comply with the requirements imposed on BDCs by the 1940 Act could cause the SEC to bring an enforcement action against us and/or expose us to claims of private litigants. In addition, upon approval of a majority of our stockholders, we may elect to withdraw our status as a business development company. If we decide to withdraw our election, or if we otherwise fail to qualify as a business development company, we may be subject to the substantially greater regulation under the 1940 Act as a closed-end investment company. Compliance with such regulations would significantly decrease our operating flexibility, and could significantly increase our costs of doing business.

Changes in the law or regulations that govern business development companies and RICs, including changes in tax laws or regulations, may significantly impact our business.

Edgar Filing: MVC CAPITAL, INC. - Form 10-Q

We and our portfolio companies are subject to regulation by laws at the local, state and federal levels, including federal securities law and federal taxation law. These laws and regulations, as well as their interpretation, may change from time to time. A change in these laws or regulations may significantly affect our business.

Table of Contents

Results may fluctuate and may not be indicative of future performance.

Our operating results will fluctuate and, therefore, you should not rely on current or historical period results to be indicative of our performance in future reporting periods. In addition to many of the above-cited risk factors, other factors could cause operating results to fluctuate including, among others, variations in the investment origination volume and fee income earned, variation in timing of prepayments, variations in and the timing of the recognition of realized and unrealized gains or losses, the degree to which we encounter competition in our markets and general economic conditions.

Our common stock price can be volatile.

The trading price of our common stock may fluctuate substantially. The price of the common stock may be higher or lower than the price you pay for your shares, depending on many factors, some of which are beyond our control and may not be directly related to our operating performance. These factors include the following:

- Price and volume fluctuations in the overall stock market from time to time;
- Significant volatility in the market price and trading volume of securities of business development companies or other financial services companies;
- Volatility resulting from trading by third parties in derivative instruments that use our common stock as the referenced asset, including puts, calls, long-term equity participation securities, or LEAPs, or short trading positions;
- Changes in regulatory policies or tax guidelines with respect to business development companies or RICs;
- Our adherence to applicable regulatory and tax requirements
- Actual or anticipated changes in our earnings or fluctuations in our operating results or changes in the expectations of securities analysts;
- General economic conditions and trends;

- Loss of a major funding source, which would limit our liquidity and our ability to finance transactions;
- Changes in interest rates; or
- Departures of key personnel of TTG Advisers.

We are subject to market discount risk.

As with any stock, the price of our shares will fluctuate with market conditions and other factors. If shares are sold, the price received may be more or less than the original investment. Whether investors will realize gains or losses upon the sale of our shares will not depend directly upon our NAV, but will depend upon the market price of the shares at the time of sale. Since the market price of our shares will be affected by such factors as the relative demand for and supply of the shares in the market, general market and economic conditions and other factors beyond our control, we cannot predict whether the shares will trade at, below or above our NAV. Although our shares, from time to time, had traded at a premium to our NAV, in more recent years, our shares have traded at a discount to NAV, which discount may fluctuate over time. Our common stock has historically traded at prices below our net asset value per share and was trading as of January 31, 2019 at an approximately 25.0% discount to NAV. Therefore, shareholders selling their shares will likely have to sell at a significant discount to NAV per share.

Table of Contents

We have not established a mandated minimum dividend payment level and we cannot assure you of our ability to make distributions to our shareholders in the future.

We cannot assure that we will achieve investment results that will allow us to make cash distributions or year-to-year increases in cash distributions. Our ability to make distributions is impacted by, among other things, the risk factors described in this report. In addition, the asset coverage test applicable to us as a business development company can limit our ability to make distributions. Any distributions will be made at the discretion of our Board of Directors and will depend on our earnings, our financial condition, maintenance of our RIC status and such other factors as our Board of Directors may deem relevant from time to time. We cannot assure you of our ability to make distributions to our shareholders.

During certain periods, our distributions have exceeded and may, in the future, exceed our taxable earnings and profits. Therefore, during those times, portions of the distributions that we make may represent a return of capital to you for tax purposes, which will reduce your tax basis in your shares.

During certain periods, our distributions have exceeded and may, in the future, exceed our earnings and profits. For example, in the event that we encounter delays in locating suitable investment opportunities, we may pay all or a portion of our distributions from the proceeds of any securities offering, from borrowings that were made in anticipation of future cash flow or from available funds. Therefore, portions of the distributions that we make may be a return of the money that you originally invested and represent a return of capital to you for tax purposes. A return of capital generally is a return of your investment rather than a return of earnings or gains derived from our investment activities and will be made after deducting the fees and expenses payable in connection with the offering. Such a return of capital is not taxable, but reduces your tax basis in your shares, which may result in higher taxes for you even if your shares are sold at a price below your original investment.

We have borrowed and may continue to borrow money, which magnifies the potential for gain or loss on amounts invested and may increase the risk of investing in us.

We have borrowed and may continue to borrow money (subject to the 1940 Act limits) in seeking to achieve our investment objective going forward. Borrowings, also known as leverage, magnify the potential for gain or loss on amounts invested and, therefore, can increase the risks associated with investing in our securities.

Under the provisions of the 1940 Act, we are permitted, as a business development company, to borrow money or issue senior securities only in amounts such that our asset coverage, as defined in the 1940 Act, equals at least 200% after each issuance of senior securities. If the value of our assets declines, we may be unable to satisfy this test. If that happens, we may be required to sell a portion of our investments and, depending on the nature of our leverage, repay a portion of our indebtedness at a time when such sales may be disadvantageous. Under the recently passed Small Business Credit Availability Act, subject to satisfying certain disclosure requirements and obtaining board or shareholder approval, the asset coverage requirement under the 1940 Act has been lowered to 150%. As of the date hereof, we remain subject to the 200% asset coverage requirement.

We have borrowed from and may continue to borrow from, and issue senior debt securities to, banks, insurance companies and other private and public lenders. Lenders of these senior securities have fixed dollar claims on our assets that are superior to the claims of our common shareholders. If the value of our assets increases, then leveraging would cause the NAV attributable to our common stock to increase more sharply than it would have had we not used leverage. Conversely, if the value of our consolidated assets decreases, leveraging would cause the

NAV to decline more sharply than it otherwise would have had we not used leverage.

Similarly, any increase in our consolidated income in excess of consolidated interest expense on the borrowed funds would cause our net investment income to increase more than it would without the leverage, while any decrease in our consolidated income would cause net investment income to decline more sharply

Table of Contents

than it would have had we not borrowed. Such a decline could negatively affect our ability to make common stock dividend payments. Leverage is generally considered a speculative investment technique.

As of January 31, 2019, we have approximately \$115.0 million in aggregate principal amount of Senior Notes II (as defined above), due on November 30, 2022. We also have access to leverage through credit facilities.

Our ability to service our debt depends largely on our financial performance and is subject to prevailing economic conditions and competitive pressures. The amount of leverage that we employ at any particular time will depend on our management's and our Board of Director's assessments of market and other factors at the time of any proposed borrowing.

We may be unable to meet our covenant obligations under our credit facility, which could adversely affect our business.

Credit Facility III imposes certain financial and operating covenants that may restrict a portion of our business activities, including limitations that could hinder our ability to obtain additional financings and in some cases, to increase our dividends. If we cannot meet these covenants, events of default would arise, which could result in payment of the applicable indebtedness being accelerated and may limit our ability to execute on our investment strategy, as would be the case if we were unable to renew such facility. Any additional facility we access could also impose additional covenants that could restrict our business activities. A failure to add new or replacement debt facilities or issue additional debt securities or other evidences of indebtedness could have an adverse effect on our business, financial condition or results of operations.

Changes in interest rates may affect our cost of capital and net operating income and our ability to obtain additional financing.

Because we have borrowed and may continue to borrow money to make investments, our net investment income before net realized and unrealized gains or losses, or net investment income, may be dependent upon the difference between the rate at which we borrow funds and the rate at which we invest these funds. As a result, there can be no assurance that a significant change in market interest rates would not have a material adverse effect on our net investment income. In periods of declining interest rates, we may have difficulty investing our borrowed capital into investments that offer an appropriate return. Because of the generally fixed-rate nature of our debt investments and our borrowings, a hypothetical 1% increase or 1% decrease in interest rates is not expected to have a determinable (or easily predictable) material impact on the Company's net investment income. In periods of sharply rising interest rates, our cost of funds would increase, which could reduce our net investment income. We may use a combination of long-term and short-term borrowings and equity capital to finance our investing activities. We may utilize our short-term credit facilities as a means to bridge to long-term financing. Our long-term fixed-rate investments are financed primarily with equity and long-term fixed-rate debt. We may use interest rate risk management techniques in an effort to limit our exposure to interest rate fluctuations. Such techniques may include various interest rate hedging activities to the extent permitted by the 1940 Act. Additionally, we cannot assure you that financing will be available on acceptable terms, if at all. Deterioration in the credit markets, which could delay our ability to sell certain of our loan investments in a timely manner, could also negatively impact our cash flows.

A small portion of our existing investment portfolio was not selected by the investment team of TTG Advisers.

Edgar Filing: MVC CAPITAL, INC. - Form 10-Q

As of January 31, 2019, 1.4% of the Company's assets consisted of Legacy Investments. These investments were made pursuant to the Company's prior investment objective of seeking long-term capital appreciation from venture capital investments in information technology companies. Generally, a cash return may not be received on these investments until a liquidity event, i.e., a sale, public offering or merger, occurs. Until then, these Legacy Investments remain in the Company's portfolio. The Company is managing them to seek to realize maximum returns.

Table of Contents

Under the Advisory Agreement, TTG Advisers is entitled to compensation based on our portfolio's performance. This arrangement may result in riskier or more speculative investments in an effort to maximize incentive compensation. Additionally, because the base management fee payable under the Advisory Agreement is based on total assets less cash, TTG Advisers may have an incentive to increase portfolio leverage in order to earn higher base management fees.

The way in which the compensation payable to TTG Advisers is determined may encourage the investment team to recommend riskier or more speculative investments and to use leverage to increase the return on our investments. Under certain circumstances, the use of leverage may increase the likelihood of default, which would adversely affect our shareholders, including investors in this offering. In addition, key criteria related to determining appropriate investments and investment strategies, including the preservation of capital, might be under-weighted if the investment team focuses exclusively or disproportionately on maximizing returns.

There are potential conflicts of interest that could impact our investment returns.

Our officers and directors, and members of the TTG Advisers investment team, may serve other entities, including the PE Fund, and Series A of Public Pension Capital, LLC (the "PPC Fund"), the Private Fund and others that operate in the same or similar lines of business as we do. Accordingly, they may have obligations to those entities, the fulfillment of which might not be in the best interests of us or our shareholders. It is possible that new investment opportunities that meet our investment objective may come to the attention of one of the management team members or our officers or directors in his or her role as an officer or director of another entity or as an investment professional associated with that entity, and, if so, such opportunity might not be offered, or otherwise made available, to us.

Additionally, as an investment adviser, TTG Advisers has a fiduciary obligation to act in the best interests of its clients, including us. To that end, if TTG Advisers manages any additional investment vehicles or client accounts (which includes its current management of the PE Fund, PPC Fund and the Private Fund), TTG Advisers will endeavor to allocate investment opportunities in a fair and equitable manner. When the investment professionals of TTG Advisers identify an investment, they will have to choose which investment fund should make the investment. As a result, there may be times when the management team of TTG Advisers has interests that differ from those of our shareholders, giving rise to a conflict. In an effort to mitigate situations that give rise to such conflicts, TTG Advisers adheres to a policy (which was approved by our Board of Directors) relating to allocation of investment opportunities, which generally requires, among other things, that TTG Advisers continue to offer the Company MVC Targeted Investments that are not Non-Diversified Investments. For more information on the allocation policy, please see "Our Investment Strategy Allocation of Investment Opportunities" above.

Our relationship with any investment vehicle we or TTG Advisers manage could give rise to conflicts of interest with respect to the allocation of investment opportunities between us on the one hand and the other vehicles on the other hand.

Our subsidiaries are authorized to and serve as a general partner or managing member to a private equity or other investment vehicle(s) ("Other Vehicles"). In addition, TTG Advisers may serve as an investment manager, sub-adviser or portfolio manager to Other Vehicles. Further, Mr. Tokarz is a co-founder of PPC, a registered investment adviser that provides advisory services to Series A of the PPC Fund. As a result of this relationship, certain of PPC's principals and other PPC investment professionals may make themselves available, from time to time, to consult with TTG Advisers on investment matters relating to MVC or the PE Fund. In this connection, certain employees of PPC are associated persons of TTG Advisers when providing certain services on behalf of TTG Advisers and, in this capacity, are subject to its oversight and supervision. Likewise, TTG Advisers makes available to PPC certain investment professionals that are employed by TTG Advisers to provide services for PPC and the PPC Fund. The foregoing raises a potential conflict of interest with respect to allocation of investment opportunities to us, on the one hand and to the Other Vehicles on the

Table of Contents

other hand. The Board and TTG Advisers have adopted an allocation policy (described above) to help mitigate potential conflicts of interest among us and Other Vehicles. For more information on the allocation policy, please see Our Investment Strategy Allocation of Investment Opportunities above.

Wars, terrorist attacks, and other acts of violence may affect any market for our common stock, impact the businesses in which we invest and harm our operations and our profitability.

Wars, terrorist attacks and other acts of violence are likely to have a substantial impact on the U.S. and world economies and securities markets. The nature, scope and duration of the unrest, wars and occupation cannot be predicted with any certainty. Furthermore, terrorist attacks may harm our results of operations and your investment. We cannot assure you that there will not be further terrorist attacks against the United States or U.S. businesses. Such attacks and armed conflicts in the United States or elsewhere may impact the businesses in which we invest directly or indirectly, by undermining economic conditions in the United States. Losses resulting from terrorist events are generally uninsurable.

We are dependent on information systems, and systems failures, as well as operating failures, could disrupt our business, which may, in turn, negatively affect our liquidity, financial condition or results of operations.

Our business is dependent on our and third parties' communications and information systems. Any failure or interruption of those systems, including as a result of the termination of an agreement with any third-party service providers, could cause delays or other problems in our activities. Our financial, accounting, data processing, backup or other operating systems and facilities may fail to operate properly or become disabled or damaged as a result of a number of factors, including events that are wholly or partially beyond our control and adversely affect our business. There could be:

- sudden electrical or telecommunications outages;
- natural disasters such as earthquakes, tornadoes and hurricanes;
- disease pandemics;
- events arising from local or larger scale political or social matters, including terrorist acts; and
- cyber-attacks.

In addition to our dependence on information systems, poor operating performance by our service providers could adversely impact us.

These events, in turn, could have a material adverse effect on our operating results and negatively affect the market price of our securities and our ability to pay distributions to our stockholders.

Cybersecurity risks and cyber incidents may adversely affect our business by causing a disruption to our operations, a compromise or corruption of our confidential information and/or damage to our business relationships, all of which could negatively impact our business, financial condition and operating results.

A cyber incident is considered to be any adverse event that threatens the confidentiality, integrity or availability of our information resources. These incidents may be an intentional attack or an unintentional event and could involve a third party or our own personnel gaining unauthorized access to our information systems for purposes of obtaining ransom payments, misappropriating assets, stealing confidential information, corrupting data or causing operational disruption. The result of these incidents may include disrupted operations, misstated or unreliable financial data, liability for loss or misappropriation of data, stolen assets or information, increased cybersecurity protection and insurance costs, litigation and damage to our reputation or business relationships. As our business relies on technology, we are subject to the risks posed to our information systems, both internal and those provided by third-party service providers. These third-party

Table of Contents

service providers have implemented processes, procedures and internal controls to help mitigate cybersecurity risks and cyber intrusions, but these measures, as well as our increased awareness of the nature and extent of a risk of a cyber incident, do not guarantee that a cyber incident will not occur and/or that our financial results, operations or confidential information will not be negatively impacted by such an incident.

Our financial condition and results of operations will depend on our ability to effectively manage our future growth.

Our ability to achieve our investment objective can depend on our ability to sustain continued growth. Accomplishing this result on a cost-effective basis is largely a function of our marketing capabilities, our management of the investment process, our ability to provide competent, attentive and efficient services and our access to financing sources on acceptable terms. As we grow, TTG Advisers may need to hire, train, supervise and manage new employees. Failure to effectively manage our future growth could have a material adverse effect on our business, financial condition and results of operations.

Investment Risks

Investment risks are risks associated with our determination to execute on our business objective. These risks are not risks associated with general business conditions or those relating to an offering of our securities.

Investing in private companies involves a high degree of risk.

Our investment portfolio generally consists of loans to, and investments in, private companies. Investments in private businesses involve a high degree of business and financial risk, which can result in substantial losses and, accordingly, should be considered speculative. There is generally very little publicly available information about the companies in which we invest, and we rely significantly on the due diligence of the members of the investment team to obtain information in connection with our investment decisions. It is thus difficult, and often impossible, to protect the Company from the risk of fraud, misrepresentation or poor judgment by these companies.

Our investments in portfolio companies are generally illiquid.

We generally acquire our investments directly from the issuer in privately negotiated transactions. Most of the investments in our portfolio (other than cash or cash equivalents and certain other investments made pending investments in portfolio companies such as investments in exchange-traded funds) are typically subject to restrictions on resale or otherwise have no established trading market. We may exit our investments when the portfolio company has a liquidity event, such as a sale, recapitalization or initial public offering. The illiquidity of our investments may adversely affect our ability to dispose of equity and debt securities at times when it may be otherwise advantageous for us to liquidate such investments. In addition, if we were forced to immediately liquidate some or all of the investments in the portfolio, the proceeds of such liquidation could be significantly less than the current fair value of such investments.

Our investments in small and middle-market privately-held companies are extremely risky and the Company could lose its entire investment.

Investments in small and middle-market privately-held companies are subject to a number of significant risks including the following:

- *Small and middle-market companies may have limited financial resources and may not be able to repay the loans we make to them.* Our strategy includes providing financing to companies that typically do not have capital sources readily available to them. While we believe that this provides an attractive opportunity for us to generate profits, this may make it difficult for the borrowers to repay their loans to us upon maturity.

Table of Contents

- *Small and middle-market companies typically have narrower product lines and smaller market shares than large companies.* Because our target companies are smaller businesses, they may be more vulnerable to competitors actions and market conditions, as well as general economic downturns. In addition, smaller companies may face intense competition, including competition from companies with greater financial resources, more extensive development, manufacturing, marketing and other capabilities, and a larger number of qualified managerial and technical personnel.
- *There is generally little or no publicly available information about these privately-held companies.* There is generally little or no publicly available operating and financial information about privately-held companies. As a result, we rely on our investment professionals to perform due diligence investigations of these privately-held companies, their operations and their prospects. We may not learn all of the material information we need to know regarding these companies through our investigations. It is difficult, if not impossible, to protect the Company from the risk of fraud, misrepresentation or poor judgment by our portfolio companies. Accordingly, the Company's performance (including the valuation of its investments) is subject to the ongoing risk that the portfolio companies or their employees, agents, or service providers, may commit fraud adversely affecting the value of our investments.
- *Small and middle-market companies generally have less predictable operating results.* We expect that our portfolio companies may have significant variations in their operating results, may from time to time be parties to litigation, may be engaged in rapidly changing businesses with products subject to a substantial risk of obsolescence, may require substantial additional capital to support their operations, finance expansion or maintain their competitive position, may otherwise have a weak financial position or may be adversely affected by changes in the business cycle. Our portfolio companies may not meet net income, cash flow and other coverage tests typically imposed by their senior lenders.
- *Small and middle-market businesses are more likely to be dependent on one or two persons.* Typically, the success of a small or middle-market company also depends on the management talents and efforts of one or two persons or a small group of persons. The death, disability or resignation of one or more of these persons could have a material adverse impact on our portfolio company and, in turn, on us.
- *Small and middle-market companies are likely to have greater exposure to economic downturns than larger companies.* We expect that our portfolio companies will have fewer resources than larger businesses and an economic downturn may thus more likely have a material adverse effect on them.
- *Small and middle-market companies may have limited operating histories.* We may make debt or equity investments in new companies that meet our investment criteria. Portfolio companies with limited operating histories are exposed to the operating risks that new businesses face and may be particularly susceptible to, among other risks, market downturns, competitive pressures and the departure of key executive officers.

Our borrowers may default on their payments, which may have an effect on our financial performance.

We may make long-term unsecured, subordinated loans, which may involve a higher degree of repayment risk than conventional secured loans. We primarily invest in companies that may have limited financial resources and that may be unable to obtain financing from traditional sources. In addition, numerous factors may adversely affect a portfolio company's ability to repay a loan we made to it, including the failure to meet a business plan, a downturn in its industry or operating results, or negative economic conditions. Deterioration in a borrower's financial condition and prospects may be accompanied by deterioration in any related collateral.

Table of Contents

Our investments in mezzanine and other debt securities may involve significant risks.

Our investment strategy contemplates investments in mezzanine and other debt securities of privately held companies. Mezzanine investments typically are structured as subordinated loans (with or without warrants) that carry a fixed rate of interest. We may also make senior secured and other types of loans or debt or similar income producing investments. Our debt or similar income producing investments are not, and typically will not be, rated by any rating agency, but we believe that if such investments were rated, they would be below investment grade quality (rated lower than Baa3 by Moody's or lower than BBB- by Standard & Poor's, commonly referred to as "junk bonds"). Loans of below investment grade quality have predominantly speculative characteristics with respect to the borrower's capacity to pay interest and repay principal. Our debt investments in portfolio companies may thus result in a high level of risk and volatility and/or loss of principal.

Our portfolio companies may be highly leveraged.

Some of our portfolio companies may be highly leveraged, which may have adverse consequences to these companies and to us as an investor. These companies may be subject to restrictive financial and operating covenants and the leverage may impair such companies' ability to finance their future operations and capital needs. As a result, the flexibility of these companies to respond to changing business and economic conditions and to take advantage of business opportunities may be limited. Further, a leveraged company's income and net assets will tend to increase or decrease at a greater rate than if borrowed money were not used.

We are a non-diversified investment company within the meaning of the 1940 Act, and therefore may invest a significant portion of our assets in a relatively small number of portfolio companies, which subjects us to a risk of significant loss should the performance or financial condition of one or more portfolio companies deteriorate.

We are classified as a non-diversified investment company within the meaning of the 1940 Act, and therefore we may invest a significant portion of our assets in a relatively small number of portfolio companies and/or in a limited number of industries. For example, as of January 31, 2019, the fair value of our largest investment, Crius, including its wholly-owned indirect subsidiary, U.S. Gas (collectively, "Crius") comprised 23.9% of our net assets. Beyond the asset diversification requirements associated with our qualification as a RIC, we do not have fixed guidelines for diversification, and while we are not targeting any specific industries, relatively few industries may continue to be significantly represented among our investments. To the extent that we have large positions in the securities of a small number of portfolio companies, we are subject to an increased risk of significant loss should the performance or financial condition of these portfolio companies or their respective industries deteriorate. We may also be more susceptible to any single economic or regulatory occurrence as a result of holding large positions in a small number of portfolio companies. See the risk factor below regarding the industry in which Crius operates.

We are particularly exposed to the risks of the energy services industry.

We presently have a significant investment in Crius. As a result, the Company is particularly subject to the risks impacting the energy services industry. Crius's operating results may fluctuate on a seasonal or quarterly basis and with general economic conditions. Weather conditions and other natural phenomena can also have an adverse impact on earnings and cash flows. Unusually mild weather in the future could diminish Crius's results of operations and harm its financial condition. Crius enters into contracts to purchase and sell electricity and natural gas as part of its operations. With respect to such transactions, the rate of return on its capital investments is not determined through mandated rates, and its revenues and results of operations are likely to depend, in large part, upon prevailing market prices for power in its regional markets and other competitive markets. These market prices can fluctuate substantially over relatively short periods of time. Trading margins may erode as

Edgar Filing: MVC CAPITAL, INC. - Form 10-Q

markets mature and there may be diminished opportunities for gain should volatility decline. Fuel prices may also be volatile, and the price Crius can obtain for power sales may not change at the same rate as changes in fuel costs. These factors could reduce Crius margins and therefore diminish its revenues and results of operations.

Table of Contents

Crius relies on a firm supply source to meet its energy management obligations for its customers. Should Crius's suppliers fail to deliver supplies of natural gas and electricity, there could be a material impact on its cash flows and statement of operations.

Crius is subject to substantial regulation by regulatory authorities. It is required to comply with numerous laws and regulations and to obtain numerous authorizations, permits, approvals and certificates from governmental agencies. Crius cannot predict the impact of any future revisions or changes in interpretations of existing regulations or the adoption of new laws and regulations applicable to it. Changes in regulations or the imposition of additional regulations could influence its operating environment and may result in substantial costs to Crius.

When we are a debt or minority equity investor in a portfolio company, we may not be in a position to control the entity, and management of the company may make decisions that could decrease the value of our portfolio holdings.

We currently have, and anticipate making debt and minority equity investments; therefore, we are subject to the risk that a portfolio company may make business decisions with which we disagree, and the shareholders and management of such company may take risks or otherwise act in ways that do not serve our interests. Due to the lack of liquidity in the markets for our investments in privately held companies, we may not be able to dispose of our interests in our portfolio companies as readily as we would like. As a result, a portfolio company may make decisions that could decrease the value of our portfolio holdings.

We may choose to waive or defer enforcement of covenants in the debt securities held in our portfolio, which may cause us to lose all or part of our investment in these companies.

Some of our loans to our portfolio companies may be structured to include customary business and financial covenants placing affirmative and negative obligations on the operation of each company's business and its financial condition. However, from time to time, we may elect to waive breaches of these covenants, including our right to payment, or waive or defer enforcement of remedies, such as acceleration of obligations or foreclosure on collateral, depending upon the financial condition and prospects of the particular portfolio company. These actions may reduce the likelihood of our receiving the full amount of future payments of interest or principal and be accompanied by a deterioration in the value of the underlying collateral as many of these companies may have limited financial resources, may be unable to meet future obligations and may go bankrupt. This could negatively impact our ability to pay dividends and cause you to lose all or part of your investment.

Our portfolio companies may incur obligations that rank equally with, or senior to, our investments in such companies. As a result, the holders of such obligations may be entitled to payments of principal or interest prior to us, preventing us from obtaining the full value of our investment in the event of an insolvency, liquidation, dissolution, reorganization, acquisition, merger or bankruptcy of the relevant portfolio company.

Our portfolio companies may have other obligations that rank equally with, or senior to, the securities in which we invest. By their terms, such other securities may provide that the holders are entitled to receive payment of interest or principal on or before the dates on which we are entitled to receive payments in respect of the securities in which we invest. Also, in the event of insolvency, liquidation, dissolution, reorganization or bankruptcy of a portfolio company, holders of securities ranking senior to our investment in the relevant portfolio company would typically be entitled to receive payment in full before we receive any distribution in respect of our investment. After repaying investors that are senior to us, the portfolio company may not have any remaining assets to use for repaying its obligation to us. In the case of other securities ranking equally with securities in which we invest, we would have to share on an equal basis any distributions with other investors holding such securities in the event of an insolvency, liquidation, dissolution, reorganization or bankruptcy of the relevant portfolio company. As

a result, we may be prevented from obtaining the full value of our

Table of Contents

investment in the event of an insolvency, liquidation, dissolution, reorganization or bankruptcy of the relevant portfolio company.

Recent tax legislation may have unanticipated effects on us.

On December 22, 2017, President Trump signed into law the Tax Cuts and Jobs Act, which significantly changed the Code, including, a reduction in the corporate income tax rate, a new limitation on the deductibility of interest expense, and significant changes to the taxation of income earned from foreign sources and foreign subsidiaries. The Tax Cuts and Jobs Act also authorizes the IRS to issue regulations with respect to the new provisions. The Tax Cuts and Jobs Act, or regulations or other guidance issued under it, might affect us, our business or the business of our portfolio companies.

Investments in foreign debt or equity may involve significant risks in addition to the risks inherent in U.S. investments.

Our investment strategy has resulted in some investments in debt or equity of foreign companies (subject to applicable limits prescribed by the 1940 Act). These risks may be even more pronounced for investments in less developed or emerging market countries. Investing in foreign companies can expose us to additional risks not typically associated with investing in U.S. companies. These risks include exchange rates, changes in exchange control regulations, political and social instability, expropriation, imposition of foreign taxes, less liquid markets and less available information than is generally the case in the United States, higher transaction costs, less government supervision of exchanges, brokers and issuers, less developed bankruptcy laws, difficulty in enforcing contractual obligations, lack of uniform accounting and auditing standards and greater price volatility, including developing or emerging market countries. A portion of our investments are located in countries that use the euro as their official currency. The USD/euro exchange rate, like foreign exchange rates in general, can be volatile and difficult to predict. This volatility could materially and adversely affect the value of the Company's shares and our interests in affected portfolio companies.

Hedging transactions may expose us to additional risks.

We may enter into hedging transactions to seek to reduce currency, commodity or other rate risks. However, unanticipated changes in currency or other rates may result in poorer overall investment performance than if we had not engaged in any such hedging transactions. In addition, the degree of correlation between price movements of the instruments used in a hedging strategy and price movements in the portfolio positions being hedged may vary. Moreover, for a variety of reasons, we may not seek or be able to establish a perfect or effective correlation between such hedging instruments and the portfolio holdings being hedged. Any such imperfect correlation may prevent us from achieving the intended hedge and expose us to risk of loss. In addition, it may not be possible to hedge fully or perfectly against currency fluctuations affecting the value of securities denominated in non-U.S. currencies.

Our investments in private equity funds, including the PE Fund, are subject to substantial risk, including a loss of investment.

The PE Fund is not, and other private equity funds in which the Company may invest, will not be registered as an investment company under the 1940 Act. Therefore, with respect to its investments in such funds, the Company will not have the benefit of the protections afforded by the 1940 Act to investors in registered investment companies, such as the limitations applicable to the use of leverage and the requirements concerning custody of assets, composition of boards of directors and approvals of investment advisory arrangements. Additionally, the interests in the PE

Edgar Filing: MVC CAPITAL, INC. - Form 10-Q

Fund are privately placed and are not registered under the Securities Act, and the PE Fund is not a reporting company under the 1934 Act. Accordingly, the amount of information available to investors about the PE Fund will be limited.

Investment in a private equity fund involves the same types of risks associated with an investment in any operating company. However, the investments made by private equity funds will entail a high degree of risk

Table of Contents

and in most cases be highly illiquid and difficult to value since no ready market typically exists for the securities of companies held in a private equity fund's portfolio. (See Note 6 Investment Valuation Policy, which discusses our valuation policy respecting our interest in the PE Fund.) Investing in private equity investments is intended for long-term investment by investors who can accept the risks associated with making highly speculative, primarily illiquid investments in privately negotiated transactions, and who can bear the risk of loss of their investment. Attractive investment opportunities in private equity may occur only periodically, if at all. Furthermore, private equity has generally been dependent on the availability of debt or equity financing to fund the acquisitions of their investments. Due to recent market conditions, however, the availability of such financing has been reduced dramatically, limiting the ability of private equity to obtain the required financing.

Investing in our securities may involve a high degree of risk.

The investments we make in accordance with our investment objective may result in a higher amount of risk than alternative investment options and volatility or loss of principal. Our investments in portfolio companies may be highly speculative and aggressive, and therefore, an investment in our securities may not be suitable for someone with a low risk tolerance.

ITEM 4. CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures

Management with the participation of the individual who performs the functions of the Principal Executive Officer (the CEO) and the individual who performs the functions of a Principal Financial Officer (the CFO), has evaluated the effectiveness of the design and operation of the Company's disclosure controls and procedures (as defined in Rule 13a-15(e) under the Securities Exchange Act of 1934, as amended) as of the end of the period covered by this report. Based upon that evaluation, management has concluded that the Company's disclosure controls and procedures are effective as of the end of the period covered by this report.

There has been no change in the Company's internal control over financial reporting that occurred during the first quarter of 2019, that has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.

Part II. Other Information

Item 1. Legal Proceedings

None.

Item 1A. Risk Factors

A description of the risk factors associated with our business is set forth in the Quantitative and Qualitative Disclosures about Market Risk section, above.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

We had no unregistered sales of equity securities for the quarter ended January 31, 2019.

Table of Contents

Item 3. Defaults Upon Senior Securities

None.

Item 4. Mine Safety Disclosures

Not Applicable.

Item 5. Other Information

None.

Item 6. Exhibits
