For Immediate Release

E-DEBIT GLOBAL CORPORATION 2011 YEAR END REVIEW

Calgary, Alberta E-Debit Global Corporation announces it has finalized its E-Debit International Inc. national marketing program.

OVERVIEW:

Notwithstanding the current climate of the public market place, E-Debit is continuing our efforts to not only expand our financial transaction processing business operations, our Canadian national presence internationally, while at the same time we continue our Open Waters Investment led Investor Relations program in order to expand our corporate presence worldwide stated Doug Mac Donald E-Debit's President & CEO.

Coincidental with the full implementation of E-Debit's EMV chip card security protocols and our investments into securing state of the art technological expertise, the company commenced a major national and international marketing, advertising and Investor Relations program which met with significant initial success.

In conjunction with our ACI Worldwide Solutions Inc.'s Base 24-eps On Demand hosted Switching Platform, and communications association with Shaw Communications combined with the introduction of EMV, (the payment and security standard for interoperation used for authenticating credit and debit card payments at chip enabled ATM and POS terminals) E-Debit has established an unparalleled end to end payment delivery and processing solution built on the foundation of its ATM and POS networks experience.

The introduction to our leasing and exchange program has been very successful to date. This has resulted in increases to our per ATM revenue and site evaluations of a minimum of twenty percent (20%) with averages of forty to sixty percent (40-60%) being experienced on the initial lease placements and will form the backbone of our marketing program both for ATM and POS replacement due to EMV upgrade requirements.

Built on our legacy distribution network, augmented by our joint venture marketing agreements and the advancement of our Matrix based distribution system, we are now able to commence an expanded marketing system and program focusing on our historic revenue market of ATM and POS sales, placement and leasing. In addition, our position within the prepaid marketplace combined with our EMV certified processing capabilities, have expanded our

marketplace product lines which have the benefit of significant price point advantages both for our distribution network and E-Debit.

The past years corporate and infrastructure development has given us the foundation and financial transaction processing platform which is second to none world-wide which we will exploit to its full potential with expectations that 2012 will be most successful added Mr. Mac Donald.

About E-Debit Global Corporation

E-Debit Global Corporation (WSHE) is a financial holding company in Canada at the forefront of debit, credit and online computer banking. Currently, the Company has established a strong presence in the privately owned Canadian banking sector including Automated Banking Machines (ABM), Point of Sale Machines (POS), Online Computer Banking (OCB) and E-Commerce Transaction security and payment. E-Debit maintains and services a national ABM network across Canada and is a full participating member of the Canadian INTERAC Banking System.
