**NEWS RELEASE**

**Ontario Energy Board Approves Enbridge Gas Distribution's Multi-Year Incentive Rate Setting Plan**

**Toronto, Ontario, February 11, 2008** The Ontario Energy Board (OEB) today approved a settlement agreement reached between Enbridge Gas Distribution Inc. (Enbridge Gas Distribution or the Company) and ratepayer representatives in connection with the Company's application for an incentive regulation rate setting mechanism. The agreement provides the methodology for establishing distribution rates for a five- year period (2008-2012 inclusive) by means of a formula. As a result, extensive annual public hearings to establish rates will not be required. In giving its approval, the OEB recognized that the agreement will put downward pressure on rates by encouraging new levels of efficiency within the utility. The plan is designed to share the benefits of new efficiencies with customers. The agreement also provides the regulatory stability needed for anticipated investment in Enbridge Gas Distribution's Ontario natural gas distribution system.

Revenues to be recovered through rates will be determined each year by a formula that takes into account a portion of the rate of inflation and the total number of customers served.

The agreement provides an envelope of revenue growth of about three per cent for each of the next five years and rate increases for residential customers of two per cent. However, for 2008 only, revenue growth will be offset by certain one-time adjustments and annual bills are estimated to increase this year by less than half of one per cent for a typical residential customer, excluding the cost of natural gas. Other features include changes to the fixed charge component of rates and a provision for the sharing of earnings with customers if earnings exceed a defined threshold.

A copy of the decision is available at the OEB's website ([www.oeb.gov.on.ca](http://www.oeb.gov.on.ca)).

Enbridge Gas Distribution has been in business for 160 years and is Canada's largest natural gas distribution company. Enbridge Gas Distribution is a wholly-owned subsidiary of Enbridge Inc., a Canadian-based leader in energy transportation and distribution. As a distributor of energy, Enbridge owns and operates distribution utilities that distribute natural gas to more than 1.8 million customers in Ontario, New Brunswick, southwestern Quebec and upper New York State.

## NEWS RELEASE

### **Enbridge to Evaluate Strategic Alternatives for CLH Investment**

CALGARY, ALBERTA February 13, 2008 Enbridge Inc (TSX:ENB) (NYSE:ENB) announced today that it has engaged Citigroup Global Markets Inc. to assist it in evaluating strategic alternatives for monetizing its investment in Compañía Logística de Hidrocarburos ( CLH ). These alternatives include the potential sale of some or all of Enbridge's 25% shareholding in the company. The Company cautions, however, that there can be no assurance that this evaluation will result in any specific transaction, or if a transaction does occur, of the timing of such a transaction. CLH is the leading company in the Spanish market for the transportation, storage and distribution of refined petroleum products. Its operating assets include 100% of the refined products pipeline network in Spain, as well as 63% of the total product storage capacity in the country.

Enbridge acquired its 25% interest in CLH in 2002, said Patrick D. Daniel, President and Chief Executive Officer, Enbridge, Inc. Since that time we have been very pleased with the performance of the company. CLH has exceeded all of our earnings and cash flow expectations, and continues to present strong growth prospects for the foreseeable future. However, recent transactions in the marketplace have highlighted the significant untapped value in our CLH investment which we believe can best be redeployed to support our other priority growth initiatives.

Proceeds from any monetization of the CLH investment would be applied toward funding Enbridge's extensive list of expansion projects in its core North American crude oil pipeline business.

#### **About Enbridge**

*Enbridge Inc., a Canadian company, is a leader in energy transportation and distribution in North America and internationally. As a transporter of energy, Enbridge operates, in Canada and the U.S., the world's longest crude oil and liquids transportation system. The Company also has international operations and a growing involvement in the natural gas transmission and midstream businesses. As a distributor of energy, Enbridge owns and operates Canada's largest natural gas distribution company, and provides distribution services in Ontario, Quebec, New Brunswick and New York State. Enbridge employs approximately 5,500 people, primarily in Canada, the U.S. and South America. Enbridge's common shares trade on the Toronto Stock Exchange in Canada and on the New York Stock Exchange in the U.S. under the symbol ENB. Information about Enbridge is available on the Company's web site at [www.enbridge.com](http://www.enbridge.com).*
