INFORMATION CONCERNING SOLICITATION AND VOTING

As of the Record Date, there were 788,474,038 outstanding shares of Common Stock, each share entitled to one vote on each matter to be voted on at the Annual Meeting. As of the Record Date, the Company had approximately 488 beneficial holders of record of Common Stock. Only holders of shares of Common Stock on the Record Date will be entitled to vote at the Annual Meeting. The holders of Common Stock are entitled to one vote on all matters presented at the meeting for each share held of record. The presence in person or by proxy of holders of record of a majority of the shares outstanding and entitled to vote as of the Record Date shall be required for a quorum to transact business at the Annual Meeting. If a quorum should not be present, the Annual Meeting may be adjourned until a quorum is obtained.

Each nominee to be elected as a director named in Proposal 1 must receive the vote of a plurality of the votes of the shares of Common Stock present in person or represented by proxy at the meeting. For the purposes of election of directors, although abstentions will count toward the presence of a quorum, they will not be counted as votes cast and will have no effect on the result of the vote.

The affirmative vote of the holders of a majority of the shares of Common Stock present in person or represented by proxy at the meeting is required for approval of the ratification of the selection of Friedman LLP as independent auditors of the Company for the fiscal year 2005 described in Proposal 2. Abstentions will not be counted as votes entitled to be cast on this matter and will have no effect on the result of the vote.

The amendment of the Company's Certificate of Incorporation to effect a reverse stock split of the issued and outstanding shares of Common Stock and to reduce the number of authorized shares of Common Stock, as described in Proposal 3, requires the affirmative vote of the holders of a majority of the Company's

Edgar Filing: CONVERSION SERVICES INTERNATIONAL INC - Form PRER14A

outstanding shares of Common Stock entitled to vote.

"Broker non-votes," which occur when brokers are prohibited from exercising discretionary voting authority for beneficial owners who have not provided voting instructions, will not be counted for the purpose of determining the number of shares present in person or by proxy on a voting matter and will have no effect on the outcome of the vote. Brokers who hold shares in street name may vote on behalf of beneficial owners with respect to Proposal 1 and 2. The approval of all other matters to be considered at the Annual Meeting requires the affirmative vote of a majority of the eligible votes cast at the Annual Meeting on such matters.

The expense of preparing, printing and mailing this Proxy Statement, exhibits and the proxies solicited hereby will be borne by the Company. In addition to the use of the mails, proxies may be solicited by officers and directors and regular employees of the Company, without additional remuneration, by personal interviews, telephone or facsimile transmission. The Company will also request brokerage firms, nominees, custodians and fiduciaries to forward proxy materials to the beneficial owners of shares of Common Stock held of record and will provide reimbursements for the cost of forwarding the material in accordance with customary charges.

Proxies given by stockholders of record for use at the Annual Meeting may be revoked at any time prior to the exercise of the powers conferred. In addition to revocation in any other manner permitted by law, stockholders of record giving a proxy may revoke the proxy by an instrument in writing, executed by the stockholder or his or her attorney authorized in writing or, if the stockholder is a corporation, by an officer or attorney thereof duly authorized, and deposited either at the corporate headquarters of the Company at any time up to and including the last business day preceding the day of the Annual Meeting, or any adjournments thereof, at which the proxy is to be used, or with the chairman of such Annual Meeting on the day of the Annual Meeting or adjournments thereof, and upon either of such deposits the proxy is revoked.

Proposals 1, 2, 3 and 4 do not give rise to any statutory right of a stockholder to dissent and obtain the appraisal of or payment for such stockholder's shares.

ALL PROXIES RECEIVED WILL BE VOTED IN ACCORDANCE WITH THE CHOICES SPECIFIED ON SUCH PROXIES. PROXIES WILL BE VOTED IN FAVOR OF A PROPOSAL IF NO CONTRARY SPECIFICATION IS MADE. ALL VALID PROXIES OBTAINED WILL BE VOTED AT THE DISCRETION OF THE PERSONS NAMED IN THE PROXY WITH RESPECT TO ANY OTHER BUSINESS THAT MAY COME BEFORE THE ANNUAL MEETING.

General

We are requesting stockholder approval to grant the Board of Directors the authority to effect the Reverse Stock Split and the Reduction in the Authorized for the following reasons:

(1) the Board of Directors believes a higher stock price may help generate investor interest in the Company;

(2) the Board of Directors believes this action will attract additional investment in the Company; and

(3) the Board of Directors believes this action is the next logical step in the process of restructuring the Company to align the Company's outstanding shares of capital stock with the Company's existing financial condition and operations to provide an opportunity for potential realization of stockholder value, which is currently subject to the dilutive effects of the Company's capital structure.

The Board of Directors has unanimously adopted a resolution to amend the Certificate of Incorporation to effect the Reverse Stock Split and the Reduction in the Authorized and to seek stockholder approval regarding such amendment.

Potential Increased Investor Interest

On June ____, 2005, the Company's Common Stock closed at \$____ per share. In approving the resolution seeking stockholder approval of the Reverse Stock Split, the Company's Board of Directors considered that the Company's Common Stock may not appeal to brokerage firms that are reluctant to recommend lower priced securities to their clients. Investors may also be dissuaded from purchasing lower priced stocks because the brokerage commissions, as a percentage of the total transaction, tend to be higher for such stocks. Moreover, the analysts at many brokerage firms do not monitor the trading activity or otherwise provide coverage of lower priced stocks. Also, the board of directors believes that most investment funds are reluctant to invest in lower priced stocks.

THERE ARE RISKS ASSOCIATED WITH THE REVERSE STOCK SPLIT, INCLUDING THAT THE REVERSE STOCK SPLIT MAY NOT RESULT IN AN INCREASE IN THE PER SHARE PRICE OF THE COMPANY'S COMMON STOCK OR THAT ANY INCREASE IN THE PER SHARE PRICE OF THE COMMON STOCK WILL NOT BE SUSTAINED.

The Company cannot predict whether the Reverse Stock Split will increase the market price for the Common Stock. The history of similar stock split combinations for companies in like circumstances is varied. There can be no assurance that:

(1) the market price per share of the Common Stock after the Reverse Stock Split will rise in proportion to the reduction in the number of shares of the Company's Common Stock outstanding before the Reverse Stock Split; and

(2) the Reverse Stock Split will result in a per share price that will attract brokers and investors who do not trade in lower priced stocks.

The market price of the Company's Common Stock will also be based on the Company's performance and other factors, some of which are unrelated to the number of shares outstanding. If the Reverse Stock Split is effected and the market price of the Company's Common Stock declines, the percentage decline as an absolute number and as a percentage of the Company's overall market capitalization may be greater than would occur in the absence of the Reverse Stock Split. Furthermore, the liquidity of the Common Stock could be adversely affected by the reduced number of shares that would be outstanding after the Reverse Stock Split.

For illustrative purposes only, the following table shows approximately the effect on our common stock outstanding, reserved for issuance and available for future issuances as it relates to the various potential ratios for the Reverse Stock Split and the Reduction in Authorized:

	Prior to Reverse Stock Split	1-for 10	1-for-20	After Reverse Stock 1-for-30
Authorized	1,000,000,000	100,000,000	50,000,000	33,333,333
Issued and outstanding common stock:	788,474,038	78,847,404	39,423,702	26,282,468
Shares reserved for issuance	180,464,284	18,046,428	9,023,214	6,015,476
Available for future issuance assuming proportionate reduction in authorized	31,061,678	3,106,168	1,553,084	1,035,389
Available for future issuance assuming reduction to 100,000,000 authorized	--	3,106,168	51,553,084	67,702,056
Available for future issuance assuming reduction to 75,000,000 authorized	--	--	26,553,084	45,702,056
Available for future issuance assuming reduction to 50,000,000 authorized	--	--	1,553,084	17,702,056

(1) Includes 50,000,000 shares reserved for the exercise of options granted or that may be granted under the Company's stock option plan, 22,166,666 shares issuable upon the exercise of outstanding warrants and 108,297,618 shares of common stock underlying convertible notes at their current conversion prices.

This table illustrates the amount of shares that would be available for future issuance after the Reverse Stock Split and Reduction in Authorized if a proportional ratio were applied to each of the Reverse Stock Split and the

Edgar Filing: CONVERSION SERVICES INTERNATIONAL INC - Form PRER14A

Reduction in Authorized and if such ratios were not proportional. For example, the Company may determine to apply a 1-for-50 reverse stock split and reduce the authorized to 100,000,000, which would leave 80,621,233 shares of Common Stock available for future issuance. Under such circumstances, if the Company then issues additional shares, the ownership interests of holders of the Company's Common Stock may be diluted. The Company has not made any determination with respect to whether the ratios of the Reverse Stock Split and the Reduction in Authorized will be proportional.

12

Determination Of The Ratio For The Reverse Stock Split And The Amount Of The Reduction In Authorized

The ratio of the Reverse Stock Split and the Reduction in Authorized will be determined together by the Company's Board of Directors, in its sole discretion. The ratio of the Reverse Stock Split will not exceed a ratio of one-for-fifty (1-50) or be less than a ratio of one-for-ten (1-10). In determining the Reverse Stock Split, the Company's Board of Directors will consider numerous factors including the historical and projected performance of the Company's Common Stock, prevailing market conditions and general economic trends, and will place emphasis on the expected closing price of the Common Stock in the period following the effectiveness of the Reverse Stock Split. The Company's Board of Directors will also consider the impact of the Reverse Stock Split ratio on investor interest. The purpose of selecting a range is to give the Company's board of directors the flexibility to meet business needs as they arise, to take advantage of favorable opportunities and to respond to a changing corporate environment.

The amount of the Reduction in Authorized will be reduced to a number between twenty million (20,000,000) and one hundred million (100,000,000). In determining the amount of the Reduction in Authorized the Board of Directors will consider numerous factors including the ratio of the Reverse Stock Split, the historical and projected performance of the Company's Common Stock, prevailing market conditions and general economic trends, and will place emphasis on the Company's current and expected growth and projected and potential acquisition plans and/or financing plans in the period following the effectiveness of Reduction in Authorized. The Board of Directors will also consider the impact of the Reduction in Authorized on investor interest. The purpose of providing the Company's Board of Directors with the discretion to determine the amount of the Reduction in Authorized is to give the Board of Directors the flexibility to meet business needs as they arise, to take advantage of favorable opportunities and to respond to a changing corporate environment.

Principal Effects Of The Reverse Stock Split And The Reduction In Authorized

If and when the Board of Directors decides to implement the Reverse Stock Split and the Reduction in Authorized, the Company will amend Article Fourth Section A of the Company's certificate of incorporation, relating to the Company's authorized capital, in its entirety to state as follows:

"FOURTH:

Edgar Filing: CONVERSION SERVICES INTERNATIONAL INC - Form PRER14A

A. AUTHORIZED

The aggregate number of shares of all classes of capital stock with the Corporation shall have authority to issue shall be _____ (_____) shares, consisting of:

(1) Twenty Million (20,000,000) shares of preferred stock, par value \$.001 per share ("Preferred Stock"); and

13

(2) _____ (_____) shares of common stock, par value \$.001 per share ("Common Stock").

Upon the effectiveness (the "Effective Date") of the certificate of amendment to the certificate of incorporation containing this sentence each [*] shares of the Common Stock issued and outstanding as of the date and time immediately preceding [date on which the certificate of amendment is filed], the effective date of a reverse stock split (the "Split Effective Date"), shall be automatically changed and reclassified, as of the Split Effective Date and without further action, into one (1) fully paid and nonassessable share of Common Stock. There shall be no fractional shares issued. A holder of record of Common Stock on the Split Effective Date who would otherwise be entitled to a fraction of a share shall have the number of new shares to which they are entitled rounded up to the next whole number of shares. Stockholders will not receive cash in lieu of fractional shares."

The Reverse Stock Split will be effected simultaneously for all the Company's Common Stock and the exchange ratio will be the same for all of the issued Common Stock. The Reverse Stock Split will affect all of the stockholders uniformly and will not affect any stockholder's percentage ownership interests in the Company (except for the immaterial change due to the rounding up). All shares of issued Common Stock will remain fully paid and nonassessable. The Reverse Stock Split will not affect the Company's continuing to be subject to the periodic reporting requirements of the Exchange Act.

The certificate of amendment filed with the Secretary of State of the State of Delaware will include only those numbers determined by the Board of Directors to be in the best interests of the Company and its stockholders. The Board of Directors will not implement any subsequent amendments providing additional splits.

Based on stock information as of the Record Date after completion of the Reverse Stock Split and Reduction in Authorized, the Company will have approximately between _____ and _____ shares of issued and outstanding Common Stock and between 20,000,000 and 100,000,000 shares of authorized Common Stock.

The shares of authorized, but unissued Common Stock will be available from time to time for corporate purposes including raising additional capital, acquisitions of companies or assets, for strategic transactions, and sales of Common Stock or securities convertible into Common Stock. The Company does not have any present intention, plan, arrangement or agreement, written or oral, to issue shares of Common Stock for any purpose, except for the issuance of shares of Common Stock upon (1) the exercise of outstanding convertible securities,

Edgar Filing: CONVERSION SERVICES INTERNATIONAL INC - Form PRER14A

options or warrants to purchase Common Stock or (2) upon acquisitions of the stock or assets of other companies. Although the Company does not have any present intention to issue shares of Common Stock, except as noted above, the Company may in the future raise funds through the issuance of Common Stock when conditions are favorable, even if the Company does not have an immediate need for additional capital at such time. The Company believes that the availability of the additional shares will provide the Company with the flexibility to meet business needs as they arise, to take advantage of favorable opportunities and to respond to a changing corporate environment. If the Company issues additional shares, the ownership interests of holders of the Company's Common Stock may be diluted.

14

Procedure For Effecting The Reverse Stock Split And Exchange Of Stock Certificates

The Company will file the certificate of amendment to the Certificate of Incorporation with the Secretary of State of the State of Delaware at such time as the Board of Directors has determined the appropriate effective time for the reverse stock split (the "Split Effective Date"). The form of certificate of amendment to the Certificate of Incorporation is attached as Exhibit D to this Proxy Statement and would be tailored to the specific Reverse Stock Split ratio to be effected. The Reverse Stock Split will become effective on the Split Effective Date. Beginning on the Split Effective Date, each certificate representing old shares will be deemed for all corporate purposes to evidence ownership of new shares.

As soon as practicable after the Split Effective Date, stockholders will be notified that the Reverse Stock Split has been effected. The Reverse Stock Split will take place on the Split Effective Date without any action on the part of the holders of the Common Stock and without regard to current certificates representing shares of Common Stock being physically surrendered for certificates representing the number of shares of Common Stock each stockholder is entitled to receive as a result of the Reverse Stock Split. New certificates of Common Stock will not be issued.

Any old shares submitted for transfer, whether pursuant to a sale or other disposition, or otherwise, will automatically be exchanged for new shares.

STOCKHOLDERS SHOULD NOT DESTROY ANY STOCK CERTIFICATE(S) AND SHOULD NOT SUBMIT ANY CERTIFICATE(S) UNLESS REQUESTED TO DO SO.

Fractional Shares

No fractional shares will be issued in connection with the Reverse Stock Split. Stockholders who would otherwise be entitled to receive fractional shares as a result of the Reverse Stock Split will have the number of new shares to which they are entitled rounded up to the next whole number of shares. Stockholders will not receive cash in lieu of fractional shares.

Effect On CSI Employees and Directors

If you are a CSI employee, the number of shares reserved for issuance under CSI's existing stock option plan will be reduced proportionately based on the Reverse Stock Split ratio selected by the Board of Directors. In addition, the number of shares issuable upon the exercise of options and the exercise

Edgar Filing: CONVERSION SERVICES INTERNATIONAL INC - Form PRER14A

price for such options will be adjusted based on the reverse stock split ratio selected by the Board of Directors.

If you are a current or former employee or a director of CSI, you may own CSI restricted securities, which would all be adjusted based on the Reverse Stock Split ratio selected by the Board of Directors.

Accounting Matters

The Reverse Stock Split will not affect total stockholders' equity on the Company's balance sheet. However, because the par value of the Company's Common Stock will remain unchanged on the Split Effective Date, the components that make up total stockholders' equity will change by offsetting amounts. Depending on the size of the Reverse Stock Split the Company's Board of Directors decides to implement, the stated capital component will be reduced to an amount between one-tenth (1/10) and one-fiftieth (1/50) of its present amount, and the additional paid-in capital component will be increased with the amount by which the stated capital is reduced. The per share net income or loss and net book value of the Company's Common Stock will be increased because there will be fewer shares of the Company's Common Stock outstanding. Prior periods' per share amounts will be restated to reflect the Reverse Stock Split.

15

Potential Anti-Takeover Effect

Although the increased proportion of authorized shares of preferred stock that may be issued could, under certain circumstances, have an anti-takeover effect (for example, by permitting issuances that would dilute the stock ownership of a person seeking to effect a change in the composition of the Company's Board of Directors or contemplating a tender offer or other transaction for the combination of the Company with another company). The Reverse Stock Split proposal is not being proposed in response to any effort of which the Company is aware of to accumulate shares of the Company's Common Stock or to obtain control of the Company, nor is it part of a plan by management to recommend a series of similar amendments to the Board of Directors and stockholders. Other than the Reverse Stock Split and Reduction of Authorized proposals, the Board of Directors does not currently contemplate recommending the adoption of any other actions that could be construed to affect the ability of third parties to take over or change control of the Company.

Federal Income Tax Consequences

The following is a summary of certain material federal income tax consequences of the Reverse Stock Split and does not purport to be a complete discussion of all of the possible federal income tax consequences of the Reverse Stock Split and is included for general information only. Further, it does not address any state, local or foreign income or other tax consequences. For example, the state and local tax consequences of the Reverse Stock Split may vary significantly as to each stockholder, depending upon the state in which such stockholder resides. Also, it does not address the tax consequences to holders that are subject to special tax rules, such as banks, insurance companies, regulated investment companies, personal holding companies, foreign

Edgar Filing: CONVERSION SERVICES INTERNATIONAL INC - Form PRER14A

entities, nonresident alien individuals, broker-dealers and tax-exempt entities. The discussion is based on the provisions of the United States federal income tax law as of the date hereof, which is subject to change retroactively as well as prospectively. This summary also assumes that the old shares were, and the new shares will be, held as a "capital asset," as defined in the Internal Revenue Code of 1986, as amended (the "Code") (generally, property held for investment). The tax treatment of a stockholder may vary depending upon the particular facts and circumstances of such stockholder. Each stockholder is urged to consult with such stockholder's own tax advisor with respect to the tax consequences of the Reverse Stock Split.

No gain or loss should be recognized by a stockholder upon such stockholder's exchange of old shares for new shares pursuant to the Reverse Stock Split. The aggregate tax basis of the new shares received in the Reverse Stock Split (including any fraction of a new share deemed to have been received) will be the same as the stockholder's aggregate tax basis in the old shares exchanged therefor. The stockholder's holding period for the new shares will include the period during which the stockholder held the old shares surrendered in the Reverse Stock Split.

The Company's view regarding the tax consequence of the Reverse Stock Split is not binding on the Internal Revenue Service or the courts. Accordingly, each stockholder should consult with such stockholder's own tax advisor with respect to all of the potential tax consequences to such stockholder of the Reverse Stock Split.

16

Dissenter's Rights

Under the DGCL, the Company's stockholders are not entitled to dissenter's rights with respect to the Reverse Stock Split, and the Company will not independently provide stockholders with any such right.

Vote Required

The approval of the Reverse Stock Split and Reduction in Authorized requires the affirmative vote of a majority of the shares of voting stock present in person or represented by proxy at the Meeting.

Recommendation of the Board of Directors

The Board of Directors recommends that the Stockholders vote "FOR" this Proposal 3 to approve the Reverse Stock Split and the Reduction in Authorized.

2003 Incentive Plan

General

The 2003 Incentive Plan was approved at a special meeting of our stockholders on January 23, 2004. The Plan authorizes us to issue 100 million shares of Common Stock for issuance upon exercise of options, of which we have reserved 75 million shares. It also authorizes the issuance of stock appreciation rights, referred to herein as SARs. The Plan authorizes us to grant:

incentive stock options to purchase shares of our Common Stock,
non-qualified stock options to purchase shares of Common Stock, and
SARs and shares of restricted Common Stock.

The Plan may be amended, terminated or modified by our Board at any time, subject to stockholder approval as required by law, rule or regulation. No such termination, modification or amendment may affect the rights of an optionee under an outstanding option or the grantee of an award.

Objectives

The objective of the Plan is to provide incentives to our officers, other key employees, consultants, professionals and non-employee directors to achieve financial results aimed at increasing stockholder value and attracting talented individuals to CSI. Persons eligible to be granted incentive stock options under the Plan will be those employees, consultants, professionals and non-employee directors whose performance, in the judgment of a committee of our Board of Directors, can have a significant effect on our success.

Oversight

The Board, acting as a whole, or a committee thereof appointed by our Board, will administer the Plan by making determinations regarding the persons to whom options should be granted and the amount, terms, conditions and restrictions of the awards. The Board or such committee also has the authority to interpret the provisions of the Plan and to establish and amend rules for its administration subject to the Plan's limitations.

Types of grants

The Plan allows us to grant incentive stock options, non-qualified stock options, shares of restricted stock, SARs in connections with options and independent SARs. The Plan does not specify what portion of the awards may be in the form of any of the foregoing. Incentive stock options awarded to our employees are qualified stock options under the Code.

Eligibility

Under the Plan, we may grant incentive stock options only to our officers and employees, and we may grant non-qualified options to officers and employees, as well as our directors, independent contractors and agents.

Statutory Conditions on Stock Options

Exercise Price. To the extent that options designated as incentive stock options become exercisable by an optionee for the first time during any calendar year for common stock having a fair market value greater than \$100,000, the portions of such options which exceed such amount shall be treated as nonqualified stock options. Incentive stock options granted to any person who owns, immediately after the grant, stock possessing more than 10% of the combined voting power of all classes of our stock, or of any parent or subsidiary of ours, must have an exercise price at least equal to 110% of the

Edgar Filing: CONVERSION SERVICES INTERNATIONAL INC - Form PRER14A

fair market value of Common Stock on the date of grant and the term of the option may not be longer than five years.

Expiration Date. Any option granted under the Plan will expire at the time fixed by the Board or its committee, which cannot be more than ten (10) years after the date it is granted or, in the case of any person who owns more than 10% of the combined voting power of all classes of our stock or of any parent or subsidiary corporation, not more than five years after the date of grant.

Exerciseability. The Board or its committee may also specify when all or part of an option becomes exercisable, but in the absence of such specification, the option will ordinarily be exercisable in whole or part at any time during its term. However, the Board or its committee may accelerate the exerciseability of any option at its discretion.

Assignability. Options granted under the Plan are not assignable, except by the laws of descent and distribution or as may be otherwise provided by the Board or its committee.

Payment Upon Exercise Of Options

Payment of the exercise price for any option may be in cash or by broker assisted exercise.

Stock Appreciation Rights

A Stock Appreciation Right is the right to benefit from appreciation in the value of common stock. A SAR holder, on exercise of the SAR, is entitled to receive from us in cash or Common Stock an amount equal to the excess of: (a) the fair market value of Common Stock covered by the exercised portion of the SAR, as of the date of such exercise, over (b) the fair market value of Common Stock covered by the exercised portion of the SAR as of the date on which the SAR was granted.

The Board or its committee may grant SARs in connection with all or any part of an option granted under the Plan, either concurrently with the grant of the option or at any time thereafter, and may also grant SARs independently of options.

20

Tax Consequences

An employee or director will not recognize income on the awarding of incentive stock options and nonstatutory options under the Plan.

An optionee will recognize ordinary income as the result of the exercise of a nonstatutory stock option in the amount of the excess of the fair market value of the stock on the day of exercise over the option exercise price.

An employee will not recognize income on the exercise of an incentive stock option, unless the option exercise price is paid with stock acquired on the exercise of an incentive stock option and the following holding period for such stock has not been satisfied. The employee will recognize long-term capital gain or loss on a sale of the shares acquired on exercise, provided the shares acquired are not sold or otherwise disposed of before the earlier of:

- (i) two years from the date of award of the option, or
- (ii) one year from the date of exercise.

If the shares are not held for the required period of time, the employee will recognize ordinary income to the extent the fair market value of the stock at the time the option is exercised exceeds the option price, but limited to the gain recognized on sale. The balance of any such gain will be a short-term capital gain. Exercise of an option with previously owned stock is not a taxable disposition of such stock. An employee generally must include in alternative minimum taxable income the amount by which the price such employee paid for an incentive stock option is exceeded by the option's fair market value at the time his or her rights to the stock are freely transferable or are not subject to a substantial risk of forfeiture.

As of December 31, 2004, options to purchase a total of 41,265,981 shares of Common Stock were outstanding at an exercise prices ranging from \$0.055 to \$0.23 per share. Generally, one-third of the options granted vest on the first anniversary, one-third of the options granted vest on the second anniversary and one-third of the options granted vest on the third anniversary. However, 8,900,981 options granted during 2004 were immediately vested upon grant and had a below fair-market value exercise price of \$0.055 per share. The Company recorded \$1.4 million of compensation expense with respect to this option grant during 2004. All options expire on the ten year anniversary of their grant date.

All options described above have been issued pursuant to the 2003 Incentive Plan described above.

Compliance with Section 16(a) of the Securities Exchange Act of 1934

Section 16(a) of the Exchange Act requires officers, directors and persons who own more than ten (10) percent of a class of equity securities registered pursuant to Section 12 of the Exchange Act to file reports of ownership and changes in ownership with both the SEC and the principal exchange upon which such securities are traded or quoted. Officers, directors and persons holding greater than ten (10) percent of the outstanding shares of a class of Section 12-registered equity securities ("Reporting Persons") are also required to furnish copies of any such reports filed pursuant to Section 16(a) of the Exchange Act with the Company. Based solely on a review of the copies of such forms furnished to the Company, the Company believes that from January 1, 2004 to December 31, 2004 all Section 16(a) filing requirements applicable to its Reporting Persons were complied with.

Certain Relationships and Related Party Transactions

In November 2003, the Company executed an Independent Contractor Agreement with LEC, whereby the Company agreed to be a subcontractor for LEC, and to provide consultants as required to LEC. In return for these services, the Company receives a fee from LEC based on the hourly rates established for consultants subcontracted to LEC. In May 2004, the Company acquired 49% of all issued and outstanding shares of common stock of LEC. The acquisition was completed through a Stock Purchase Agreement between the Company and the sole stockholder of LEC. In connection with the acquisition, the Company (i) repaid a bank loan on behalf of the seller in the amount of \$35,000; (ii) repaid an LEC bank loan in the amount of \$38,000; and (iii) satisfied an LEC obligation for \$10,000 of prior compensation to an employee. For the year ended December 31, 2004, the Company invoiced LEC \$3.8 million for the services of consultants subcontracted to LEC by the Company. As of December 31, 2004, the Company had accounts receivable due from LEC of approximately \$0.8 million. There are no known collection problems with respect to LEC. The majority of their billing is derived from Fortune 1000 clients. The collection process is slow as these clients require separate approval on their own internal systems, which extends the payment cycle. The Company feels confident in the collectibility of these accounts receivable as the majority of the revenues from LEC derive from Fortune 1000 clients.

The Management of the Company does not know of any matters, other than those stated in this Proxy Statement, that are to be presented for action at the Annual Meeting. If any other matters should properly come before the Annual Meeting, proxies will be voted on those other matters in accordance with the judgment of the persons voting the proxies. Discretionary authority to vote on such matters is conferred by such proxies upon the persons voting them.

The Company will bear the cost of preparing, printing, assembling and mailing all proxy materials that may be sent to stockholders in connection with this solicitation. Arrangements will also be made with brokerage houses, other custodians, nominees and fiduciaries, to forward soliciting material to the beneficial owners of the Common Stock of the Company held by such persons. The Company will reimburse such persons for reasonable out-of-pocket expenses incurred by them. In addition to the solicitation of proxies by use of the mails, officers and regular employees of the Company may solicit proxies without additional compensation, by telephone or facsimile transmission. The Company does not expect to pay any compensation for the solicitation of proxies.

A copy of the Company's Form 10-KSB for the fiscal year ended December 31, 2004, as filed with the SEC, accompanies this Proxy Statement. Upon written request, the Company will provide each stockholder being solicited by this Proxy Statement with a free copy of any exhibits and schedules thereto. Stockholder Proposals For 2006 Annual Meeting and General Communications

Any stockholder proposals intended to be presented at the Company's 2006 Annual Meeting of Stockholders must be received by the Company at its office in East Hanover, New Jersey on or before December 31, 2005 in order to be considered for inclusion in the Company's proxy statement and proxy relating to such meeting. The Company has received no stockholders nominations or proposals for the 2005 Annual Meeting.

Stockholders may communicate their comments or concerns about any other matter to the Board of Directors by mailing a letter to the attention of the Board of Directors c/o the Company at its office in East Hanover, New Jersey.

Revocability of Proxy

Shares represented by valid proxies will be voted in accordance with instructions contained therein, or, in the absence of such instructions, in accordance with the Board of Directors' recommendations. Any person signing and mailing the enclosed proxy may, nevertheless, revoke the proxy at any time prior to the actual voting thereof by attending the Annual Meeting and voting in person, by providing written notice of revocation of the proxy or by submitting a signed proxy bearing a later date. Any written notice of revocation should be sent to the attention of the Secretary of the Company at the address above. Any stockholder of the Company has the unconditional right to revoke his or her proxy at any time prior to the voting thereof by any action inconsistent with the proxy, including notifying the Secretary of the Company in writing, executing a subsequent proxy, or personally appearing at the Annual Meeting and casting a contrary vote. However, no such revocation will be effective unless and until such notice of revocation has been received by the Company at or prior to the Annual Meeting.

Method of Counting Votes

Unless a contrary choice is indicated, all duly executed proxies will be voted in accordance with the instructions set forth on the proxy card. A broker non-vote occurs when a broker holding shares registered in street name is permitted to vote, in the broker's discretion, on routine matters without receiving instructions from the client, but is not permitted to vote without instructions on non-routine matters, and the broker returns a proxy card with no vote (the "non-vote") on the non-routine matter. Under the rules and regulations of the primary trading markets applicable to most brokers, both the election of directors and the ratification of the appointment of auditors are routine matters on which a broker has the discretion to vote if instructions are not received from the client in a timely manner. Abstentions will be counted as present for purposes of determining a quorum but will not be counted for or against the election of directors or the ratification of independent auditors. As to Item 1, the Proxy confers authority to vote for all of the four persons listed as candidates for a position on the Board of Directors even though the block in Item 1 is not marked unless the names of one or more candidates are lined out. The Proxy will be voted "For" Items 2 and 3 unless "Against" or "Abstain" is indicated. If any other business is presented at the meeting, the Proxy shall be voted in accordance with the recommendations of the Board of Directors.
