ZAGG INCORPORATED AND SUBSIDIARY
Notes to Condensed Consolidated Financial Statements
(Unaudited)

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation - The accompanying unaudited condensed consolidated financial statements of ZAGG Incorporated (collectively, the “Company” or “ZAGG”) have been prepared by the Company pursuant to the rules and regulations of the Securities and Exchange Commission (the “SEC”). Certain information and footnote disclosures normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States of America have been condensed or omitted pursuant to such rules and regulations, although the Company believes that the following disclosures are adequate to make the information presented not misleading. The Company suggests that these condensed consolidated financial statements be read in conjunction with the consolidated financial statements and the notes thereto included in the Company’s 2007 Annual Report on Form 10-KSB.

These condensed financial statements reflect all adjustments (consisting only of normal recurring adjustments) that, in the opinion of management, are necessary to present fairly the financial position and results of operations of the Company for the periods presented.

Operating results for the six months ended June 30, 2008, are not necessarily indicative of the results that may be expected for the year ending December 31, 2008.

Nature of Operations - The Company was formed as a Nevada corporation on April 2, 2004, under the name Amerasia Khan Enterprises Ltd (“AKE”). On February 8, 2007, AKE executed an Agreement and Plan of Merger (the “Merger Agreement”) by and between AKE and its wholly owned subsidiary, SZC Acquisition, Inc., a Nevada corporation (“Subsidiary”) on the one hand, and ShieldZone Corporation, a Utah corporation (“ShieldZone”) on the other hand. Pursuant to the Merger Agreement, ShieldZone merged with Subsidiary, with ShieldZone surviving the merger and Subsidiary ceasing to exist (the “Merger”).

Following the Merger, ShieldZone was reincorporated in Nevada as a subsidiary of AKE. On March 7, 2007, ShieldZone was merged up and into AKE. At that time, AKE changed its name to ZAGG Incorporated, and the operations of the surviving entity (ZAGG Incorporated) are solely that of ShieldZone. As a result of these transactions, the historical financial statements of ZAGG Incorporated are the historical financial statements of ShieldZone. The fiscal year end of the Company is December 31.

The Company changed its name from ShieldZone Corporation to ZAGG Incorporated to better position it to become a large and encompassing enterprise in the electronics’ accessories industry through organic growth and through making targeted acquisitions. The ShieldZone name was very specific to the invisibleSHIELD product line and although the invisibleSHIELD is and will continue to be the Company’s core product, the name change will enable the Company the opportunity to easily add new products to its product offering. ZAGG will continue to search out other complimentary proven products and companies that fit the ZAGG lifestyle and strategy for fast growth.

The Company has developed and sells, through the Internet, retail and wholesale distribution channels, patent-pending protective shields under the name of the *invisibleSHIELD*[™] for electronic devices.

Principles of Consolidation - The condensed consolidated financial statements include the accounts of ZAGG Incorporated, and its wholly owned subsidiary ZAGG Europe Ltd. All significant intercompany transactions have been eliminated in consolidation.

Business Condition - For the three months ended June 30, 2008 and 2007, the Company generated revenues of \$2,739,176 and \$804,458, respectively, and earned net income of \$174,703 and incurred a net loss of (\$48,293), respectively. For the six months ended June 30, 2008 and 2007, the Company generated revenues of \$5,584,597 and \$1,597,306, respectively, earned net income of \$60,532 and incurred a net loss of (\$318,865), respectively, and had negative cash flow from operating activities of (\$1,002,062) and (\$610,207), respectively. As of June 30, 2008, the Company had stockholders' equity of \$3,510,566, an accumulated deficit of (\$681,856), positive working capital of \$2,579,053, accounts payable of \$236,693, deferred licensing revenue of \$71,703, accrued wages of \$101,283, sales returns liability of \$66,658 and accrued liabilities of \$41,997. Management believes that existing cash, along with cash generated from the collection of accounts receivable and the sale of products will be sufficient to meet the Company's cash requirements during the next twelve months.

ZAGG INCORPORATED AND SUBSIDIARY
Notes to Condensed Consolidated Financial Statements
(Unaudited)

Revenue recognition - The Company follows the guidance of the Securities and Exchange Commission's Staff Accounting Bulletin 104 for revenue recognition. In general, the Company records revenue when persuasive evidence of an arrangement exists or product delivery has occurred, the sales price to the customer is fixed or determinable, and collectability is reasonably assured. The Company's revenue is derived from sales of its products to retailers, resellers and end consumers and from the sale of distributor license fees. For sales of product, the Company records revenue when the product is shipped, net of estimated returns and discounts. For license fees, the Company recognizes revenue on a prorated basis over the life of the distribution contract.

The Company follows the guidance of Emerging Issues Task Force (EITF) Issue 01-9 "Accounting for Consideration Given by a Vendor to a Customer" and (EITF) Issue 02-16 "Accounting by a Customer (Including a Reseller) for Certain Considerations Received from Vendors." Accordingly, any incentives received from vendors are recognized as a reduction of the cost of products. Promotional products given to customers or potential customers are recognized as a cost of sales. Cash incentives provided to our customers are recognized as a reduction of the related sale price, and, therefore, are a reduction in sales.

Reserve for Sales Returns and Warranty Liability - The Company's return policy generally allows its end users and retailers to return purchased products for refund or in exchange for new products within 30 days of end user purchase. The Company estimates a reserve for sales returns and records that reserve amount as a reduction of sales and as a sales return reserve liability. The sales return liability was \$66,658 at June 30, 2008 and \$23,861 at December 31, 2007.

The Company generally provides the ultimate consumer a warranty with each product and accrues warranty expense at the time of the sale based on the Company's prior claims history. Actual warranty costs incurred are charged against the accrual when paid. During the six months ended June 30, 2008 and 2007, warranty expense and the reserve for warranty liability, respectively, was not material.

Shipping and Handling Costs - Amounts invoiced to customers for shipping and handlings are included in sales and were \$402,716 and \$118,198 for the six months ended June 30, 2008 and 2007, respectively. Actual shipping and handling costs to ship products to customers are included in cost of sales and were \$659,688 and \$160,165 for the six months ended June 30, 2008 and 2007, respectively.

Stock-based compensation - Effective January 1, 2006, the Company adopted Statement of Financial Accounting Standards No. 123 (revised 2004), *Share Based Payment* ("SFAS No. 123R"). SFAS No. 123R establishes the financial accounting and reporting standards for stock-based compensation plans. As required by SFAS No. 123R, the Company recognizes the cost resulting from all stock-based payment transactions including shares issued under its stock option plans in the financial statements based upon the fair value of such equity instruments granted.

Advertising - Advertising is expensed as incurred. Advertising expenses were \$1,274,792 and \$239,786 for the six months ended June 30, 2008 and 2007, respectively.

Net Income (Loss) Per Common Share - Basic net income (loss) per share is computed by dividing net income (loss) by weighted average number of shares of common stock outstanding during each period. Diluted net income (loss) per share is computed by dividing net income (loss) by the weighted average number of shares of common stock, common stock equivalents and potentially dilutive securities outstanding during each period.

The following is a reconciliation of the numerator and denominator used to calculate Basic and Diluted EPS:

	Net Income (Loss)	Weighted Average Shares	Per Share Amount
Three months ended June 30, 2008:			
Basic EPS	\$ 174,703	18,884,105	\$ 0.01
Effect of common stock equivalents	—	51,949	
Diluted EPS	\$ (174,703)	18,936,055	\$ 0.01
Three months ended June 30, 2007:

Effect of common stock equivalents	—	—	
Diluted EPS	\$ (114,171)	18,863,885	\$ (0.01)

ZAGG INCORPORATED AND SUBSIDIARY

(Unaudited)

The calculation above for the three months ended excludes the exercise of the 1,483,000 stock options and 4,096,953 of the outstanding warrants as of June 30, 2008 and the 152,500 outstanding warrants at June 30, 2007 as the exercise of these stock options and warrants would have an anti-dilutive effect on earnings per share.

NOTE 2 - RECAPITALIZATION

On February 8, 2007 (the “recapitalization date”), the Company executed an Agreement and Plan of Merger (the “Merger Agreement”) by and between Amerasia Khan Enterprises Ltd. (a public shell), now known as ZAGG Incorporated, and its wholly-owned subsidiary, SZC Acquisition Inc., a Nevada corporation (“Subsidiary”) on the one hand and ShieldZone Corporation, (“ShieldZone”) a Utah corporation, on the other hand. Pursuant to the Merger Agreement, Subsidiary was merged into ShieldZone with ShieldZone surviving the merger. In consideration, the stockholders of ShieldZone received 10,175,000 shares of Amerasia Khan Enterprises Ltd., now known as ZAGG Incorporated, common stock which was approximately 69% of the total common shares outstanding just subsequent to the merger but before the simultaneous sale of 785,856 common shares for \$275,000 (\$0.35 per share) and conversion of a \$250,000 convertible promissory note for 714,286 common shares. The Company also issued warrants in conjunction with the sale of the 785,856 common shares and the raise and conversion of the \$250,000 convertible promissory note. The Company issued warrants as a fee to purchase 52,500 shares of our common stock at an exercise price of \$0.35. These warrants may be exercised until March 18, 2012, at which time they will expire if not exercised. The warrant holders also have piggyback registration rights. In connection with the merger/recapitalization, the Company is deemed to have issued 4,600,000 common shares to the original stockholders’ of Amerasia Khan Enterprises Ltd. Subsequent to the merger/recapitalization, 1,254,000 shares owned by certain original shareholders of Amerasia Khan Enterprises Ltd. were cancelled.

The merger was accounted for as a recapitalization of ShieldZone, a Utah corporation because on a post-merger basis, the former stockholders of ShieldZone Corporation held a majority of the outstanding common stock on a voting and fully-diluted basis and had Board and management control. As a result, ShieldZone is deemed to be the acquirer for accounting purposes. In March 2007, ShieldZone Corporation was merged into its parent, Amerasia Khan Enterprises Ltd., now known as ZAGG Incorporated, and the name of the surviving entity, Amerasia Khan Enterprises Ltd., was changed to ZAGG Incorporated.

ZAGG INCORPORATED AND SUBSIDIARY
Notes to Condensed Consolidated Financial Statements
(Unaudited)

Accordingly the balance sheet just subsequent to the recapitalization date consists of the balance sheets of both companies at historical cost and the statement of operations consists of the historical operations of ShieldZone and the operations of Amerasia Khan Enterprises Ltd., now known as ZAGG Incorporated, from the recapitalization date.

All share and per share data in the accompanying condensed consolidated financial statements have been retroactively changed to reflect the effect of the merger and recapitalization.

NOTE 6 - INTANGIBLE ASSETS

At June 30, 2008, intangible assets consist of legal fees paid in connection with the Company's patent application and amounts paid to secure the Company's Internet addresses. The costs relating to the definite-lived intangible assets are amortized over their estimated useful lives using straight-line amortization. The useful life for Internet addresses is 10 years. As of June 30, 2008, the patent had not been granted. Accordingly, the Company has not begun to amortize the patent costs and will begin amortizing the patent over the legal life of the patent when the patent is granted.

ZAGG INCORPORATED AND SUBSIDIARY
Notes to Condensed Consolidated Financial Statements
(Unaudited)

The Company has contractual rights customary in the industry to use its Internet addresses. However, the Company does not have and cannot acquire any property rights to the Internet addresses. The Company does not expect to lose its rights to use the Internet addresses; however, there can be no assurance in this regard and such loss could have a material adverse effect on the Company's financial position and results of operations.

The Company's definite-lived intangible assets are summarized in the table below:

	Useful Life	June 30, 2008		December 31, 2007

On March 6, 2008 the Company granted employee stock options for 507,000 common shares exercisable at \$0.65 per share expiring in 5 years and vesting 33% at 12 months, 33% at 24 months and 34% at 36 months. The options were valued at \$163,652 or \$0.32 per option using a Black-Scholes option pricing method with the following assumptions: market price on grant date of \$0.65, expected life of 5 years, volatility of 57% (using historical volatility since the Company's options do not trade to provide an implied volatility) and a discount rate of 1.73%. On May 12, 2008, the Company also granted stock options to a member of its board of directors for 1,000,000 common shares exercisable at \$0.60 per share expiring in 5 years and vesting 33% at 12 months, 33% at 24 months and 34% at 36 months. Based on vesting provisions, for the six months ended June 30, 2008, the Company expensed \$51,420 as compensation expense related to these option grants.

NOTE 8 - NOTES RECEIVABLE

On March 11, 2008 ZAGG Incorporated entered into an agreement to fund a bridge loan (the "Bridge Loan") of up to \$500,000 to Brighton Partners, LLC. The purpose of the secured loan is to fund the development of a superhero series created by Stan Lee and POW! Entertainment, Inc. in partnership with Brighton Partners, LLC, with the hope that ZAGG will benefit from the marketing exposure and any intellectual property created using ZAGG's trademarks.

In consideration of the bridge loan, Brighton Partners, LLC executed a secured promissory note with a 3% origination fee and bearing 10% interest for the 90 day term of the note. As of June 30, 2008 the note had not yet been repaid and the Company had not declared Brighton Partners in default under the promissory note. The Company anticipates that the note will be repaid during Q3 2008. The loan is collateralized by 100% of the ownership of Brighton until the loan

is repaid in full. As part of the transaction, ZAGG entered into a cross-license agreement with Brighton and Pow! Entertainment pursuant to which ZAGG agreed to license its trademarks in exchange for marketing and promotion rights to any property developed under the superhero series that bears ZAGG's intellectual property. Further under the transaction, we acquired 10% of the membership interest in Brighton. ZAGG will share in the development of the superhero series as a partner of Brighton. At June 30, 2008, the Company had advanced \$438,000 to Brighton under the promissory note and has included this amount in prepaid expenses and other current assets in the accompanying condensed consolidated financials. Accrued interest of \$51,824 on the promissory note is included in prepaid expenses and other current assets in the accompanying condensed consolidated financial statements.

Certain statements, other than purely historical information, including estimates, projections, statements relating to our business plans, objectives, and expected operating results, and the assumptions upon which those statements are based, are “forward-looking statements” within the meaning of the Private Securities Litigation Reform Act of 1995, Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934. These forward-looking statements generally are identified by the words “believes,” “project,” “expects,” “anticipates,” “estimates,” “intends,” “strategy,” “plan,” “may,” “will,” “would,” “will be,” “will continue,” “will likely result,” and similar expressions. We intend to include such forward-looking statements to be covered by the safe-harbor provisions for forward-looking statements contained in the Private Securities Litigation Reform Act of 1995, and are including this statement for purposes of complying with those safe-harbor provisions. Forward-looking statements are based on current expectations and assumptions that are subject to risks and uncertainties which may cause actual results to differ materially from the forward-looking statements. Our ability to predict results or the actual effect of future plans or strategies is inherently uncertain. Factors which could have a material adverse affect on our operations and future prospects include, but are not limited to: changes in economic conditions, legislative/regulatory changes, availability of capital, interest rates, competition, and generally accepted accounting principles. These risks and uncertainties should also be considered in evaluating forward-looking statements and undue reliance should not be placed on such statements. We undertake no obligation to update or revise publicly any forward-looking statements, whether as a result of new information, future events or otherwise. Further information concerning our business, including additional factors that could materially affect our financial results, is included herein and in our other filings with the SEC.

Our Business

We are a fast-growth company in the consumer technology accessories business. We design, manufacture and distribute protective coverings for consumer electronic and hand-held devices under the brand name invisibleSHIELD™. The invisibleSHIELD is a protective, high-tech film covering, designed for iPods®, laptops, cell phones, digital cameras, PDAs, watch faces, GPS systems, gaming devices, and other items. The product is “cut” to fit specific devices and packaged together with a moisture activating spray called “SHIELDspray”™ which makes the invisibleSHIELD adhere to the surface of the device literally “like a second skin” virtually invisible to the eye. The patent-pending invisibleSHIELD is the first scratch protection solution of its kind on the market. The invisibleSHIELD is not ornamental, but rather provides a long lasting barrier to preserve the brand new look of the surface of an electronic device. Currently, ZAGG offers over 2,500 precision pre-cut designs with a lifetime replacement warranty through online channels, resellers, college bookstores, Mac stores, and mall kiosks. The company plans to increase its product lines to offer electronic accessories to its tech-savvy customer base, as well as an expanded array of invisibleSHIELD products for other industries. With over 1,000,000 invisibleSHIELDS sold to date by early adopters, we are poised to introduce the invisibleSHIELD product to mass market consumers worldwide.

Our key product, invisibleSHIELD, is made from a protective, film covering that was developed originally to protect the leading edges of rotary blades of military helicopters. We determined that this same film product could be configured to fit onto the surface of electronic devices and marketed to consumers for use in protecting such devices from everyday wear and tear including scratches, scrapes, debris and other surface blemishes. The film also permits touch sensitivity, meaning it can be used on devices that have a touch-screen interface. The invisibleSHIELD film material is highly reliable and durable since it was originally developed for use in a high friction, high velocity, aerospace context. The film provides long lasting protection for the surface of electronic devices subject to normal wear and tear. The film is a form of polyurethane substance, akin to a very thin, pliable, flexible and durable clear plastic that adheres to the surface and shape of the object it is applied to.

We also sell accessories for electronics devices including power cords, chargers and adapters. We have recently introduced the RockStic™ portable speaker system designed for Apple iPod and compatible with most digital media players.

We maintain our corporate offices and operational facility at 3855 South 500 West, Suites B, C, J and R, Salt Lake City, Utah, 84115. The telephone number of the Company is 801-263-0699. Our website addresses are www.invisibleshield.com and www.zagg.com.

Critical Accounting Policies

The discussion and analysis of our financial condition and results of operations are based on our financial statements, which have been prepared in accordance with accounting principles generally accepted in the United States (U.S. GAAP). The preparation of these financial statements requires us to make estimates and judgments that affect the reported amounts of assets, liabilities, revenues and expenses, and related disclosure of contingent assets and liabilities. On an on-going basis, we evaluate our estimates based on historical experience and on various other assumptions that are believed to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates under different assumptions or conditions. Significant estimates include the allowance for doubtful accounts, inventory valuation allowances, sales returns and warranty liability, the useful life of property and equipment and the valuation allowance on deferred tax assets.

Recent Accounting Pronouncements

In February 2008, the FASB issued FSP FAS 157-2, Effective Date of FASB Statement No. 157 (“FSP FAS 157-2”). FSP 157-2 delays the effective date of SFAS 157 for non-financial assets and non-financial liabilities, except those that are recognized or disclosed at fair value in the financial statements on a recurring basis (at least annually). We will adopt FAS 157 for non-financial assets and non-financial liabilities on December 31, 2008, and we do not anticipate this adoption will have a material impact on our financial statements.

In March 2008, the FASB issued SFAS No. 161, “Disclosures about Derivative Instruments and Hedging Activities, an amendment of FASB Statement No. 133,” which will require increased disclosure about strategies and objectives for using derivative instruments; the location and amounts of derivative instruments in financial statements; how derivative instruments and related hedged items are accounted for under SFAS No 133, “Accounting for Derivative Instruments and Hedging Activities;” and how derivative instruments and related hedged items affect the financial position, financial performance, and cash flows. Certain disclosures will also be required with respect to derivative features that are credit-risk related. SFAS No 161 is effective for us beginning January 1, 2009 on a prospective basis. We do not expect this standard to have a material impact on our consolidated results of operations or financial condition.

Revenue recognition

We follow the guidance of the Securities and Exchange Commission’s Staff Accounting Bulletin 104 for revenue recognition. In general, we record revenue when persuasive evidence of an arrangement exists or product delivery has occurred, the sales price to the customer is fixed or determinable, and collectability is reasonably assured. Our revenue is derived from sales of our products to retailers, resellers and end consumers and from the sale of distributor license fees. For sales of product, we record revenue when the product is shipped, net of estimated returns and discounts. For license fees, we recognize revenue on a prorated basis over the life of the distribution contract.

We follow the guidance of Emerging Issues Task Force (EITF) Issue 01-9 “Accounting for Consideration Given by a Vendor to a Customer” and (EITF) Issue 02-16 “Accounting by a Customer (Including a Reseller) for Certain Considerations Received from Vendors.” Accordingly, any incentives received from vendors are recognized as a reduction of the cost of products. Promotional products given to customers or potential customers are recognized as a cost of sales. Cash incentives provided to our customers are recognized as a reduction of the related sale price, and, therefore, are a reduction in sales.

Reserve for Sales Returns and Warranty Liability

Our return policy generally allows our end users and retailers to return purchased products for refund or in exchange for new products within 30 days of end user purchase. We estimate a reserve for sales returns and record that reserve amount as a reduction of sales and as a sales return reserve liability.

14

We generally provide the ultimate consumer a warranty with each product and accrue warranty expense at the time of the sale based on our prior claims history. Actual warranty costs incurred are charged against the accrual when paid.

Results of Operations

THREE MONTHS ENDED JUNE 30, 2008 AND 2007

Net sales

Net sales for the quarter ended June 30, 2008 were \$2,739,176 as compared to net sales of \$804,458 for the quarter ended June 30, 2007, an increase of \$1,934,718 or 240%.

The significant increase in revenue is mainly attributed to continued strong sales of our *invisibleSHIELD* product with approximately 57% of our product being sold through our website to retail customers, 12% being sold through mall carts and kiosks, 11% through retail outlets including the store at our corporate headquarters, 13% to wholesale distributors and 7% from shipping and handling charges.

Cost of sales

Cost of sales includes raw materials, packing materials and shipping costs. For the quarter ended June 30, 2008, cost of sales amounted to \$712,214 or approximately 26% of net sales as compared to cost of sales of \$203,672 or 25% of net sales for quarter ended June 30, 2007. The increase in cost of sales as a percentage of net revenues for the quarter ended June 30, 2008 as compared to the quarter ended June 30, 2007 is attributable to overall increases in our packaging expenses.

Gross profit

Gross profit for the quarter ended June 30, 2008 was \$2,026,962 or approximately 74% of net sales as compared to \$600,786 or approximately 75% of net sales for the quarter ended June 30, 2007. The decrease in gross profit percentage was attributable to increased packaging costs. There are no assurances that we will continue to recognize similar gross profit margins in the future.

Operating expenses

Total operating expenses for the quarter ended June 30, 2008 were \$1,828,506, an increase of \$1,195,281 from total operating expenses for the quarter ended June 30, 2007 of \$633,225. The increases are primarily attributable to the following:

- For the quarter ended June 30, 2008, salaries and related taxes increased by \$310,036 to \$656,071 from \$346,035 for the quarter ended June 30, 2007. The increase is due to the increase in our staff as we continue to build the people infrastructure to meet the demand for our product and non-cash expense related to equity based compensation of \$59,913.
- For the quarter ended June 30, 2008, marketing, advertising and promotion expenses were \$484,728, an increase of \$405,540 as compared to \$79,188 for the quarter ended June 30, 2007. We continue to invest heavily in the development of the *invisibleSHIELD* brand through internet key word advertising and through traditional print media and radio advertising. We expect our marketing and advertising expenses to continue to be a significant expenditure as our revenues increase and expect to spend increased funds on advertising and promotion of our products as well as sales training. During fiscal 2008, we intend to continue to expand our marketing efforts related to our products.

- For the quarter ended June 30, 2008, other selling, general and administrative expenses, net of salaries and related taxes described above, were \$687,707 as compared to \$208,002 for the quarter ended June 30, 2007. Net income (loss)

As a result of these factors, we reported net income of \$174,703 or \$0.01 per share for the quarter ended June 30, 2008 as compared to a net loss of (\$48,293) or (\$0.00) per share for the quarter ended June 30, 2007.

Gross profit for the six months ended June 30, 2008 was \$4,094,591 or approximately 73% of net sales as compared to \$1,206,475 or approximately 76% of net sales for the six months ended June 30, 2007. The decrease in gross profit percentage was primarily attributable to increased packaging costs. There are no assurances that we will continue to recognize similar gross profit margins in the future.

Operating expenses

Total operating expenses for the six months ended June 30, 2008 were \$4,123,991, an increase of \$2,622,975 from total operating expenses for the six months ended June 30, 2007 of \$1,501,016. The increases are primarily attributable to the following:

- For the six months ended June 30, 2008, salaries and related taxes increased by \$715,677 to \$1,370,120 from \$654,443 for the six months ended June 30, 2007. The increase is due to the increase in our management and production staff as we continue to build the people infrastructure to meet the demand for our product, the payment of a discretionary bonus of \$155,000 during the first quarter to our employees and non-cash expense related to equity based compensation of \$80,821.
- For the six months ended June 30, 2008, marketing, advertising and promotion expenses were \$1,274,792, an increase of \$1,020,561 as compared to \$254,231 for the six months ended June 30, 2007. During the six months ended June 30, 2008, we have also printed coupons and handed them out at various trade shows wherein customers logged onto our website through a specific link and were able to redeem the coupon. These coupons ran for specific time frames with expiration dates and the redemption of the coupons of \$405,268 was recognized as marketing and advertising expense. We expect our marketing and advertising expenses to continue to be a significant expenditure as our revenues increase and expect to spend increased funds on advertising and promotion of our products as well as sales training. During fiscal 2008, we intend to continue to expand our marketing efforts related to our products.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

A smaller reporting company is not required to provide the information required by this Item.

Item 4T. Controls and Procedures

As of the date of this report, our Chief Executive Officer and Chief Financial Officer evaluated the effectiveness of the design and operation of our disclosure controls and procedures pursuant to Rule 13a-15b under the Securities

Exchange Act of 1934. Based on his review of our disclosure controls and procedures, they have concluded that our disclosure controls and procedures are effective in timely alerting them to material information relating to us that is required to be included in our periodic SEC filings. Further, there were no significant changes in the internal controls or in other factors that could significantly affect these disclosure controls after the evaluation date and the date of this report. Nor were there any significant deficiencies or material weaknesses in such disclosure controls and procedures requiring corrective actions. As a result, no corrective actions were taken. We have made no changes in our internal controls over financial reporting in the most recent quarterly reporting period that have materially affected, or are reasonably likely to affect, our internal controls over financial reporting.

Limitations on the Effectiveness of Internal Controls

Our management does not expect that our disclosure controls and procedures or our internal control over financial reporting will necessarily prevent all fraud and material error. An internal control system, no matter how well conceived and operated, can provide only reasonable, not absolute, assurance that the objectives of the control system are met. Further, the design of a control system must reflect the fact that there are resource constraints, and the benefits of controls must be considered relative to their costs. Because of the inherent limitations in all control systems, no evaluation of controls can provide absolute assurance that all control issues and instances of fraud, if any, within the Company have been detected. These inherent limitations include the realities that judgments in decision-making can be faulty, and that breakdowns can occur because of simple error or mistake. Additionally, controls can be circumvented by the individual acts of some persons, by collusion of two or more people, or by management override of the internal control. The design of any system of controls also is based in part upon certain assumptions about the likelihood of future events, and there can be no assurance that any design will succeed in achieving its stated goals under all potential future conditions. Over time, control may become inadequate because of changes in conditions, or the degree of compliance with the policies or procedures may deteriorate.
