Edgar Filing: HURCO COMPANIES INC - Form SD

Check the appropriate box to indicate the rule pursuant to which this form is being filed, and provide the period to which the information in this form applies:

<sup>b</sup> Rule 13p-1 under the Securities Exchange Act (17 CFR 240.13p-1) for the reporting period from January 1 to December 31, 2015.

## **Section 1 – Conflict Minerals Disclosure**

### **Item 1.01 Conflict Minerals Disclosure and Report**

This Form SD of Hurco Companies, Inc. (“Hurco,” the “Company,” “we,” “our” or “us”) is filed pursuant to Rule 13p-1 promulgated under the Securities Exchange Act of 1934, as amended (the “Conflict Mineral Rule”), for the reporting period January 1, 2015 to December 31, 2015. The scope of this report includes all of Hurco’s products, except those manufactured and sold under the Milltronics and Takumi brands of CNC machine tools, which brands were acquired by Hurco in July 2015 when it acquired substantially all of the assets of Milltronics Manufacturing Company, Inc. and Takumi Machinery Co., Ltd. In accordance with the Conflict Minerals Rule, we are delaying reporting on these products until the Form SD for the calendar year 2017 reporting period.

We design, manufacture and sell computerized (i.e., Computer Numeric Control) machine tools, consisting primarily of vertical machining centers (mills) and turning centers (lathes), to companies in the metal cutting industry through a worldwide sales, service and distribution network. Although our computer control systems and software products are proprietary, they predominantly use industry standard personal computer components. Our computer control systems and software products are primarily sold as integral components of our computerized machine tool products.

We have determined that certain of our products contain columbite-tantalite (coltan), cassiterite, gold, wolframite, or their derivatives, which are limited to tantalum, tin, and tungsten, that are necessary to the functionality or production of those products (such minerals are referred to as “necessary conflict minerals”).

We conducted a good faith inquiry that was reasonably designed to determine whether any necessary conflict minerals contained in our products originated in the Democratic Republic of the Congo or an adjoining country (the “Covered Countries”), or were from recycled or scrap sources. As part of this inquiry, we conducted a supply chain survey of our direct suppliers using the Conflict Minerals Reporting Template created by the Electronics Industry Citizenship Coalition/Global e-Sustainability Initiative and a customized conflict minerals questionnaire to collect sourcing information related to necessary conflict minerals in our products.

### **Conflict Minerals Disclosure**

With respect to necessary conflict minerals in our products, based on the results of our inquiry, we had reason to believe that such conflict minerals may have originated in the Covered Countries and may not be from recycled or

scrap sources. Accordingly, we exercised due diligence on the source and chain of custody of such necessary conflict minerals, as described in the Conflict Minerals Report attached as Exhibit 1.01 to this Form SD.

A copy of this Form SD, including the Conflict Minerals Report attached hereto as Exhibit 1.01, is publicly available on our website at [www.hurco.com](http://www.hurco.com) under the “Investors” section.

**Item 1.02 Exhibits**

As specified in Section 2, Item 2.01, the Company is hereby filing its Conflict Minerals Report as Exhibit 1.01 to this Form SD.

**Section 2 – Exhibits**

**Item 2.01 Exhibits**

The following exhibit is filed as part of this Form SD.

Exhibit No.	Description
1.01	Conflict Minerals Report of Hurco Companies, Inc.
