MONMOUTH REAL ESTATE INVESTMENT CORPORATION AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

MARCH 31, 2014

NOTE 1 – ORGANIZATION AND ACCOUNTING POLICIES

Monmouth Real Estate Investment Corporation (a Maryland corporation), together with its consolidated subsidiaries (MREIC, the Company, or we), operates as a real estate investment trust (REIT) deriving its income primarily from real estate rental operations. As of March 31, 2014 and September 30, 2013, rental properties consisted of eighty-one and seventy-six property holdings, respectively. As of March 31, 2014, these properties are located in twenty-seven states: Alabama, Arizona, Colorado, Connecticut, Florida, Georgia, Illinois, Iowa, Kansas, Kentucky, Maryland, Michigan, Minnesota, Mississippi, Missouri, Nebraska, New Jersey, New York, North Carolina, Ohio, Oklahoma, Pennsylvania, South Carolina, Tennessee, Texas, Virginia, and Wisconsin. The Company also owns a portfolio of REIT investment securities.

The Company has elected to be taxed as a REIT under Sections 856-860 of the Internal Revenue Code (the Code), and intends to maintain its qualification as a REIT in the future. As a qualified REIT, with limited exceptions, the Company will not be taxed under Federal and certain state income tax laws at the corporate level on taxable income that it distributes to its shareholders. For special tax provisions applicable to REITs, refer to Sections 856-860 of the Code. The Company is subject to franchise taxes in certain states in which the Company owns property.

The interim Consolidated Financial Statements furnished herein have been prepared in accordance with Accounting Principles Generally Accepted in the United States of America (US GAAP) applicable to interim financial information, the instructions to Form 10-Q, and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by US GAAP for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation have been included. Operating results for the three and six months ended March 31, 2014 are not necessarily indicative of the results that may be expected for the year ending September 30, 2014. For further information, refer to the Consolidated Financial Statements and footnotes thereto included in the Company's annual report on Form 10-K for the fiscal year ended September 30, 2013.

Use of Estimates

In preparing the financial statements in accordance with US GAAP, management is required to make certain estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting periods. Actual results could differ from these estimates and assumptions.

Reclassification

Certain prior period amounts in the accompanying Consolidated Financial Statements have been reclassified to conform to the current period's presentation.

Lease Termination Income

Lease Termination Income is recognized in operating revenues when there is a signed termination agreement, all of the conditions of the agreement have been met, the tenant is no longer occupying the property and the termination consideration is probable of collection. Lease termination amounts are paid by tenants who want to terminate their lease obligations before the end of the contractual term of the lease by agreement with the Company.

Table of Contents

Lease Termination Income for the six months ended March 31, 2013 consisted of \$113,784 from the Company's former tenant at its 388,671 square foot building located in St. Joseph, MO and \$576,946 from the Company's former tenant at its 160,000 square foot building located in Monroe, NC. The Company is currently leasing 256,000 square feet (representing 66% of the space) at its property located in St. Joseph, MO through September 30, 2017. There was no Lease Termination Income for the three months ended March 31, 2013 or for the three and six months ended March 31, 2014.

The Company's lease with its tenant, Graybar Electric Company (Graybar), at its 26,340 square foot building located in Ridgeland (Jackson), MS has an early termination option which may be exercised at any time provided the Company is given six months of notice. The Company has not received notice nor does the Company anticipate that this tenant will exercise its early termination option. The rent per annum for this location is \$109,275 or \$4.15 per square foot and the lease expires in July 2019.

Other than the Company's leases with Graybar and the Company's new tenant at its 83,000 square foot location in Roanoke, VA, entered into on May 1, 2014 (see note 11), the Company does not have any other leases that contain an early termination option.

Stock Based Compensation

The Company accounts for awards of stock options and restricted stock in accordance with ASC 718-10, Compensation-Stock Compensation. ASC 718-10 requires that compensation cost for all stock awards be calculated and amortized over the service period (generally equal to the vesting period). The compensation cost for stock option grants is determined using option pricing models, intended to estimate the fair value of the awards at the grant date less estimated forfeitures. The compensation expense for restricted stock is recognized based on the fair value of the restricted stock awards less estimated forfeitures. The fair value of restricted stock awards is equal to the fair value of the Company's stock on the grant date. The amortization of compensation costs for stock options grants and restricted stock are included in General and Administrative Expenses in the accompanying Consolidated Statements of Income and amounted to \$85,137 and \$81,562 for the three months ended March 31, 2014 and 2013, respectively and amounted to \$171,634 and \$161,089 for the six months ended March 31, 2014 and 2013, respectively.

During the three and six months ended March 31, 2014 and 2013, the following stock options were granted under the Company's 2007 Stock Option and Stock Award Plan, as amended and restated (the "2007 Plan"):

Date of Number of Number of Option Expiration

Grant Employees Shares Price Date

1/3/14	1	65,000	\$8.94	1/3/22
--------	---	--------	--------	--------

1/3/13 1 65,000 \$10.46 1/3/21

The fair value of each option grant is estimated on the date of grant using the Black-Scholes option pricing model with the following assumptions used for grants in the fiscal year indicated:

	Fiscal 2014	Fiscal 2013
Dividend yield	6.71%	5.74%
Expected volatility	19.07%	18.84%
Risk-free interest rate	2.45%	1.18%
Expected lives (years)	8	8
Estimated forfeitures	-0-	-0-

The fair value of options granted during the three and six months ended March 31, 2014 and 2013 was \$0.53 and \$0.62, respectively.

Table of Contents

During the three and six months ended March 31, 2014, no shares of restricted stock were granted under the Company's 2007 Plan and no options to purchase common stock were exercised. As of March 31, 2014, a total of 679,646 shares were available to grant as stock options or as restricted stock and there were outstanding options to purchase 815,370 shares under the 2007 Plan. The aggregate intrinsic value of options outstanding as of March 31, 2014 was \$1,112,001.

Recent Accounting Pronouncements

In April 2014, the Financial Accounting Standards Board ("FASB") issued ASU No. 2014-08, "Reporting Discontinued Operations and Disclosures of Disposals of Components of an Entity". ASU No. 2014-08 changes the definition of a discontinued operation to include only those disposals of components of an entity that represent a strategic shift that has (or will have) a major effect on an entity's operations and financial results. ASU No. 2014-08 is effective prospectively for fiscal years beginning after December 15, 2014, with earlier adoption permitted. The Company has decided to early adopt this standard effective with the interim period beginning January 1, 2014 and will continue to apply the guidance to future applicable disposals or discontinued operations, if any. Prior to January 1, 2014, properties identified as held for sale and/or disposed of were presented in discontinued operations for all periods presented (see Note 4). Management does not believe that any other recently issued, but not yet effective accounting pronouncements, if adopted, would have a material effect on the accompanying Consolidated Financial Statements.

NOTE 2 – NET INCOME PER SHARE

Basic Net Income per Share is calculated by dividing Net Income Attributable to Common Shareholders by the weighted-average number of common shares outstanding during the period. Diluted Net Income per Common Share is calculated by dividing Net Income Attributable to Common Shareholders by the weighted-average number of common shares outstanding plus the weighted-average number of net shares that would be issued upon exercise of stock options pursuant to the treasury stock method.

In addition, common stock equivalents of 106,437 and 218,687 shares are included in the diluted weighted average shares outstanding for the three months ended March 31, 2014 and 2013, respectively, and common stock equivalents of 97,889 and 213,406 shares are included in the diluted weighted average shares outstanding for the six months ended March 31, 2014 and 2013, respectively. Options to purchase shares of common stock of 65,000 and -0- were antidilutive as of March 31, 2014 and 2013, respectively.

NOTE 3 – REAL ESTATE INVESTMENTS

In addition to the Company's investments in Securities Available for Sale at Fair Value, the Company is required to disclose certain information about fair values of its other financial instruments. Estimates of fair value are made at a specific point in time based upon, where available, relevant market prices and information about the financial instrument. Such estimates do not include any premium or discount that could result from offering for sale at one time the Company's entire holdings of a particular financial instrument. For a portion of the Company's financial instruments, no quoted market value exists. Therefore, estimates of fair value are necessarily based on a number of significant assumptions (many of which involve events outside the control of management). Such assumptions include assessments of current economic conditions, perceived risks associated with these financial instruments and their counterparties; future expected loss experience and other factors. Given the uncertainties surrounding these assumptions, the reported fair values represent estimates only, and therefore cannot be compared to the historical accounting model. Use of different assumptions or methodologies is likely to result in significantly different fair value estimates.

The fair value of Cash and Cash Equivalents approximates their current carrying amounts since all such items are short-term in nature. The fair value of variable rate Loans Payable approximates their current carrying amounts since such amounts payable are at approximately a weighted-average current market rate of interest. The estimated fair value of fixed rate mortgage notes payable is based on discounting the future cash flows at a year-end risk adjusted borrowing rate currently available to the Company for issuance of debt with similar terms and remaining maturities. These fair value measurements fall within level 2 of the fair value hierarchy. At March 31, 2014, the fixed rate Mortgage Notes Payable fair value (estimated based upon expected cash outflows discounted at current market rates) amounted to \$292,674,000 and the carrying value amounted to \$286,688,441. When the Company acquires a property, it is required to fair value all of the assets and liabilities, including intangible assets and liabilities, relating to the properties acquired lease (See Note 3). Those fair value measurements fall within level 3 of the fair value hierarchy.

Changes in Results of Operations

As of March 31, 2014, the Company owned eighty-one properties with total square footage of approximately 10,708,000 as compared to seventy-three properties with total square footage of approximately 9,165,000, as of March 31, 2013, representing an increase of 16.8%. As of March 31, 2014, the Company's weighted average lease expiration term was approximately 6.8 years as compared to 6.1 years as of March 31, 2013. Approximately 4% of the Company's gross leasable area, consisting of six leases totaling 437,727 square feet was originally set to expire during fiscal 2014. The Company has renewed four of the six leases which were scheduled to expire in fiscal 2014. The Company has incurred or expects to incur tenant improvement costs of approximately \$470,000 and leasing costs of approximately \$160,000 in connection with these four lease renewals. The table below summarizes the lease terms of the four leases which were renewed and includes both the tenant improvement costs and the leasing costs which are presented on a per square foot (PSF) basis averaged over the renewal term.

(1) Amount calculated based on the total cost divided by the square feet, divided by the renewal term

Of the total 437,727 square feet of gross leasable area originally set to expire during fiscal 2014, 230,327 square feet or 53% has been renewed. The lease renewals have been renewed for a weighted average term of 6.4 years at a weighted average lease rate of \$5.42 per square foot as compared to \$6.02 per square foot formerly, representing a weighted average reduction in the lease rate of 10.0%.

As discussed previously, we have recently completed work on four property expansions, which resulted in extending the tenant's lease expirations by an additional ten years from the date of completion for each property that was expanded and increasing the tenant's rents. Prior to the lease amendments being executed, these four leases had a remaining weighted average term of 3.8 years at the time of completion of the expansion work. By obtaining an additional ten years of lease term from the date of completion of the expansion work, an additional 6.2 years of weighted average term was added to these four leases. Commencing during the first quarter of fiscal 2014, these four lease amendments have resulted in an annual increase in base rent totaling approximately \$1,071,000 at a weighted average lease rate of \$8.51 per square foot as compared to \$7.45 per square foot formerly, representing a weighted average increase in the lease rate of 14.2%.

Table of Contents

The four leases that renewed, that were originally set to expire in fiscal 2014, combined with the four leases that were amended due to expansions, results in a weighted average increase in the lease rate of 9.2% and an increase in the weighted average term of 6.2 years.

Two leases, representing 47% of the space scheduled to expire in fiscal 2014, did not renew. One tenant that did not renew its lease was for a 59,400 square foot building at our property located in Carlstadt, NJ. This property was leased to Macys Retail Holdings Inc. through March 31, 2014. The Company owns this property through a 51% controlling equity interest. The second tenant that did not renew its lease was for a 148,000 square foot building at our property located in Fayetteville, NC. This property was leased to Maidenform Inc. (Maidenform) through December 31, 2013. Maidenform occupied the space on a month-to-month basis through March 31, 2014 and was paying holdover annual rent from January 1, 2014 through March 31, 2014 of \$4.50 per square foot, which is 150% of the stated rent per the expired lease. The Company's occupancy rate was 95.4% as of March 31, 2014. Due to these vacancies that were disclosed in the prior quarter in Carlstadt, NJ and Fayetteville, NC, the Company's occupancy rate as of April 1, 2014 was 93.5%.

In January 2014, the Company was notified by its tenant, H.E.P. Direct Inc. (HEP), which leased the Company's 106,507 square foot building located in Winston-Salem, NC through December 31, 2017 at an annualized rent of \$305,000, that they have filed for Chapter 11 bankruptcy. HEP was current on its rental payments through February 2014 and vacated the Company's building on March 15, 2014. HEP has subsequently filed for Chapter 7 bankruptcy and, therefore, the Company does not expect to receive any future rental payments though the remaining lease term. The Company holds a security deposit equal to one month's base rent.

In January 2014, the Company entered into a fifteen and a half year lease agreement, which will become effective in June 2014, with a franchisee of Pla-Fit Franchise, LLC (Planet Fitness) for 22,682 square feet located at the Company's two-thirds owned 64,138 square foot shopping center located in Somerset, NJ. Initial rent is expected to commence in December 2014 at an annualized rate of \$10.00 per square foot for the first five years, \$11.00 per square foot for years six through ten and \$12.00 per square foot for years eleven through fifteen, resulting in annualized rental revenue of \$241,454 over the fifteen and a half year lease term.

Approximately 7% of the Company's gross leasable area, consisting of six leases totaling 782,302 square feet, was originally set to expire during fiscal 2015. The Company has already renewed one of these six leases, consisting of 87,500 square feet or 11% of the gross leasable area originally set to expire during fiscal 2015. The one tenant that has renewed is FedEx Ground Package System, Inc. at the Company's Ft. Myers location. The lease was originally set to expire on October 31, 2014 and has been extended two years to October 31, 2016. Rent per square foot has increased from \$4.76 to \$4.95, resulting in a 4% increase in the lease rate. The Company has not incurred and does not expect to incur any tenant improvement costs or leasing costs in connection with this lease renewal. We continue to be in discussions with our tenants regarding the remaining five leases representing 694,802 square feet or 89% of the space scheduled for renewal in fiscal 2015. These five leases have a weighted average lease rate of \$4.92 per square foot.

Rental Revenue increased \$2,346,622, or 20%, for the three months ended March 31, 2014 as compared to the three months ended March 31, 2013 and increased \$4,608,090, or 20%, for the six months ended March 31, 2014 as compared to the six months ended March 31, 2013. The increases for the three and six months ended March 31, 2014 were due primarily to the increased rental income earned from the acquisition of three properties purchased during the second half of fiscal 2013 and five properties purchased during the first quarter of fiscal 2014.

Table of Contents

Reimbursement Revenue increased \$692,474, or 44%, for the three months ended March 31, 2014 as compared to the three months ended March 31, 2013 and increased \$1,264,671, or 41%, for the six months ended March 31, 2014 as compared to the six months ended March 31, 2013. Real Estate Tax Expense increased \$653,854, or 58%, for the three months ended March 31, 2014 as compared to the three months ended March 31, 2013 and increased \$1,347,395, or 59%, for the six months ended March 31, 2014 as compared to the six months ended March 31, 2013. The increases for Reimbursement Revenue and Real Estate Taxes for the three and six months ended March 31, 2014 were primarily due to our newly acquired properties. Our single tenant properties are subject to net leases which require the tenants to absorb the cost of Real Estate Taxes as well as insurance and the majority of repairs and maintenance. As such, the Company is reimbursed by the tenants for these Real Estate Taxes.

Lease Termination Income amounted to \$-0- and \$690,730 for the three and six months ended March 31, 2013, respectively. The income for the six months ended March 31, 2013 represents the payments from former tenants at our St. Joseph, MO and Monroe, NC properties. There was no Lease Termination Income for the three and six months ended March 31, 2014. These lease termination payments are a result of these former tenants terminating their lease obligations before the end of their contractual term of their leases.

Operating Expenses increased \$162,367, or 17%, for the three months ended March 31, 2014 as compared to the three months ended March 31, 2013 and increased \$355,180, or 24%, for the six months ended March 31, 2014 as compared to the six months ended March 31, 2013. The increases were mainly due to the increased operating expenses resulting from the acquisition of three properties purchased during second half of fiscal 2013 and five properties purchased during the first quarter of fiscal 2014. The increases were mostly due to increases in repairs and maintenance, legal fees and insurance costs. Because these are net leases, the increases in Operating Expenses were offset by the increase in income from Reimbursement Revenue.

General and Administrative Expenses increased \$383,904, or 41%, for the three months ended March 31, 2014 as compared to the three months ended March 31, 2013 and increased \$209,311, or 9%, for the six months ended March 31, 2014 as compared to the six months ended March 31, 2013. The increase in General and Administrative Expenses for the three and six months ended March 31, 2014 was primarily due to increased compensation expense.

The Company has entered into separate agreements to purchase ten new build-to-suit, industrial buildings that are currently being developed in Florida, Illinois, Indiana, Kentucky, Louisiana, Missouri, Ohio and Texas totaling approximately 3,103,000 square feet for terms ranging from seven to fifteen years. Six of the ten buildings, representing approximately 1,467,000 square feet, or 47%, will be leased to subsidiaries of FDX. The aggregate purchase price for the ten properties will be approximately \$222,334,000 which will generate approximately \$15,397,000 in annual rental revenue. As of March 31, 2014, the Company has made deposits totaling \$1,250,000 on these acquisitions, which is included in Other Assets in the accompanying Consolidated Balance Sheets as of March 31, 2014. The Company has been raising capital through its DRIP, mortgages, draws on its unsecured line of credit, sale of marketable securities and funds generated from its investments in net leased industrial properties. The Company may raise capital through public offerings of common and preferred stock and registered direct placements. The Company believes that funds generated from these sources, as well as from operations and from the DRIP, together with the

ability to finance and refinance its properties, will provide sufficient funds to adequately meet its obligations over the next year.

Funds From Operations and Core Funds From Operations

We assess and measure our overall operating results based upon an industry performance measure referred to as Funds From Operations (FFO), which management believes is a useful indicator of our operating performance. FFO is used by industry analysts and investors as a supplemental operating performance measure of a REIT. FFO, as defined by The National Association of Real Estate Investment Trusts (NAREIT), represents net income (loss) attributable to common shareholders, as defined by accounting principles generally accepted in the United States of America (US GAAP), excluding extraordinary items, as defined under US GAAP, gains or losses from sales of previously depreciated real estate assets, impairment charges related to depreciable real estate assets, plus certain non-cash items such as real estate asset depreciation and amortization. NAREIT created FFO as a non-US GAAP supplemental measure of REIT operating performance. We define Core Funds From Operations (Core FFO) as FFO plus acquisition costs. FFO and Core FFO should be considered as a supplemental measure of operating performance used by REITs. FFO and Core FFO exclude historical cost depreciation as an expense and may facilitate the comparison of REITs which have different cost bases. The items excluded from FFO and Core FFO are significant components in understanding the Company's financial performance.

FFO and Core FFO (i) do not represent Cash Flow from Operations as defined by US GAAP; (ii) should not be considered as an alternative to Net Income as a measure of operating performance or to Cash Flows from Operating, Investing and Financing Activities; and (iii) are not an alternative to cash flow as a measure of liquidity. FFO and Core FFO, as calculated by the Company, may not be comparable to similarly titled measures reported by other REITs.
