Taiwan Semiconductor Manufacturing Company Limited Financial Statements for the Three Months Ended March 31, 2008 and 2007 and Independent Accountants Review Report

#### INDEPENDENT ACCOUNTANTS REVIEW REPORT

The Board of Directors and Shareholders

Taiwan Semiconductor Manufacturing Company Limited

We have reviewed the accompanying balance sheets of Taiwan Semiconductor Manufacturing Company Limited as of March 31, 2008 and 2007, and the related statements of income and cash flows for the three months then ended. These financial statements are the responsibility of the Company s management. Our responsibility is to issue a report on these financial statements based on our reviews.

We conducted our reviews in accordance with Statement on Auditing Standards No. 36, Review of Financial Statements issued by the Auditing Standards Committee of the Accounting Research and Development Foundation of the Republic of China. A review consists principally of applying analytical procedures to financial data and making inquiries of persons responsible for financial and accounting matters. It is substantially less in scope than an audit conducted in accordance with auditing standards generally accepted in the Republic of China, the objective of which is the expression of an opinion regarding the financial statements taken as a whole. Accordingly, we do not express such an opinion.

Based on our reviews, we are not aware of any material modifications that should be made to the financial statements referred to above for them to be in conformity with the Guidelines Governing the Preparation of Financial Reports by Securities Issuers, requirements of the Business Accounting Law and Guidelines Governing Business Accounting with respect to financial accounting standards, and accounting principles generally accepted in the Republic of China. As discussed in Note 3 to the financial statements, effective January 1, 2008, Taiwan Semiconductor Manufacturing Company Limited adopted Interpretation 2007-052, Accounting for Bonuses to Employees, Directors and Supervisors issued by the Accounting Research and Development Foundation of the Republic of China and relevant requirements promulgated by the Financial Supervisory Commission of the Executive Yuan.

We have also reviewed, in accordance with Statement on Auditing Standards No. 36, the consolidated financial statements of Taiwan Semiconductor Manufacturing Company Limited and subsidiaries as of and for the three months ended March 31, 2008 and 2007, and have issued thereon an unqualified review report with an explanatory paragraph relating to the adoption of Interpretation 2007-052 and an unqualified review report, respectively. April 9, 2008

## Notice to Readers

The accompanying financial statements are intended only to present the financial position, results of operations and cash flows in accordance with accounting principles and practices generally accepted in the Republic of China and not those of any other jurisdictions. The standards, procedures and practices to review such financial statements are those generally accepted and applied in the Republic of China.

For the convenience of readers, the accountants review report and the accompanying financial statements have been translated into English from the original Chinese version prepared and used in the Republic of China. If there is any conflict between the English version and the original Chinese version or any difference in the interpretation of the two versions, the Chinese-language accountants review report and financial statements shall prevail.

Taiwan Semiconductor Manufacturing Company Limited NOTES TO FINANCIAL STATEMENTS FOR THE THREE MONTHS ENDED MARCH 31, 2008 AND 2007 (Amounts in Thousands of New Taiwan Dollars, Unless Specified Otherwise) (Reviewed, Not Audited)

#### 1. GENERAL

Taiwan Semiconductor Manufacturing Company Limited (the Company or TSMC), a Republic of China (R.O.C.) corporation, was incorporated as a venture among the Government of the R.O.C., acting through the Development Fund of the Executive Yuan; Philips Electronics N.V. and certain of its affiliates (Philips); and certain other private investors. On September 5, 1994, its shares were listed on the Taiwan Stock Exchange (TSE). On October 8, 1997, TSMC listed some of its shares of stock on the New York Stock Exchange (NYSE) in the form of American Depositary Shares (ADSs).

The Company is engaged mainly in the manufacturing, selling, packaging, testing and computer-aided designing of integrated circuits and other semiconductor devices and the manufacturing of masks.

As of March 31, 2008 and 2007, the Company had 20,519 and 20,222 employees, respectively.

#### 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements are presented in conformity with the Guidelines Governing the Preparation of Financial Reports by Securities Issuers, Business Accounting Law, Guidelines Governing Business Accounting, and accounting principles generally accepted in the R.O.C.

For the convenience of readers, the accompanying financial statements have been translated into English from the original Chinese version prepared and used in the R.O.C. If there is any conflict between the English version and the original Chinese version or any difference in the interpretation of the two versions, the Chinese-language financial statements shall prevail.

Significant accounting policies are summarized as follows:

#### Use of Estimates

The preparation of financial statements in conformity with the aforementioned guidelines, law and principles requires management to make reasonable assumptions and estimates of matters that are inherently uncertain. The actual results may differ from management s estimates.

## Classification of Current and Noncurrent Assets and Liabilities

Current assets are assets held for trading purposes and assets expected to be converted to cash, sold or consumed within one year from the balance sheet date. Current liabilities are obligations incurred for trading purposes and obligations expected to be settled within one year from the balance sheet date. Assets and liabilities that are not classified as current are noncurrent assets and liabilities, respectively.

#### **Cash Equivalents**

Repurchase agreements collateralized by government bonds and asset-backed commercial papers acquired with maturities of less than three months from the date of purchase are classified as cash equivalents. The carrying amount approximates fair value.

## Financial Assets/Liabilities at Fair Value Through Profit or Loss

Derivatives that do not meet the criteria for hedge accounting are initially recognized at fair value, with transaction costs expensed as incurred. The derivatives are remeasured at fair value subsequently with changes in fair value recognized in earnings. A regular way purchase or sale of financial assets is accounted for using settlement date accounting.

Fair value is estimated using valuation techniques incorporating estimates and assumptions that are consistent with prevailing market conditions. When the fair value is positive, the derivative is recognized as a financial asset; when the fair value is negative, the derivative is recognized as a financial liability.

#### **Available-for-sale Financial Assets**

Available-for-sale financial assets are initially recognized at fair value plus transaction costs that are directly attributable to the acquisition. Changes in fair value from subsequent remeasurement are reported as a separate component of shareholders—equity. The corresponding accumulated gains or losses are recognized in earnings when the financial asset is derecognized from the balance sheet. A regular way purchase or sale of financial assets is accounted for using settlement date accounting.

The fair value of structured time deposits is estimated using valuation techniques. Fair value of open-end mutual funds is determined using the net assets value at the end of the period. For debt securities, fair value is determined using the average of bid and asked prices at the end of the period.

Any difference between the initial carrying amount of a debt security and the amount due at maturity is amortized using the effective interest method, with the amortization recognized in earnings.

If there is objective evidence which indicates that a financial asset is impaired, a loss is recognized. If, in a subsequent period, the amount of the impairment loss decreases, for equity securities, the previously recognized impairment loss is reversed to the extent of the decrease and recorded as an adjustment to shareholders equity; for debt securities, the amount of the decrease is recognized in earnings, provided that the decrease is clearly attributable to an event which occurred after the impairment loss was recognized.

#### **Held-to-maturity Financial Assets**

Debt securities for which the Company has a positive intention and ability to hold to maturity are categorized as held-to-maturity financial assets and are carried at amortized cost under the effective interest method except for structured time deposits which are carried at acquisition cost. Those financial assets are initially recognized at fair value plus transaction costs that are directly attributable to the acquisition. Gains or losses are recognized at the time of derecognition, impairment or amortization. A regular way purchase or sale of financial assets is accounted for using settlement date accounting.

If there is objective evidence which indicates that a financial asset is impaired, a loss is recognized. If, in a subsequent period, the amount of the impairment loss decreases and the decrease is clearly attributable to an event which occurred after the impairment loss was recognized, the previously recognized impairment loss is reversed to the extent of the decrease. The reversal may not result in a carrying amount that exceeds the amortized cost that would have been determined as if no impairment loss had been recognized.

#### Allowance for Doubtful Receivables

An allowance for doubtful receivables is provided based on a review of the collectibility of notes and accounts receivable. The Company determines the amount of the allowance for doubtful receivables by examining the aging analysis of outstanding notes and accounts receivable and current trends in the credit quality of its customers as well as its internal credit policies.

-9-

## Revenue Recognition and Allowance for Sales Returns and Others

The Company recognizes revenue when evidence of an arrangement exists, the rewards of ownership and significant risk of the goods has been transferred to the buyer, price is fixed or determinable, and collectibility is reasonably assured. Provisions for estimated sales returns and others are recorded in the period the related revenue is recognized, based on historical experience, management s judgment, and any known factors that would significantly affect the allowance.

Sales prices are determined using fair value taking into account related sales discounts agreed to by the Company and its customers. Sales agreements typically provide that payment is due 30 days from invoice date for a majority of the customers and 30 to 45 days after the end of the month in which sales occur for some customers. Since the receivables from sales are collectible within one year and such transactions are frequent, fair value of the receivables is equivalent to the nominal amount of the cash to be received.

#### **Inventories**

Inventories are stated at the lower of cost or market value. Inventories are recorded at standard cost and adjusted to the approximate weighted-average cost at the balance sheet date. Market value represents replacement cost for raw materials, supplies and spare parts and net realizable value for work in process and finished goods. The Company assesses the impact of changing technology on its inventories on hand and writes off inventories that are considered obsolete. Period-end inventories are evaluated for estimated excess quantities and obsolescence based on a demand forecast within a specific time horizon, which is generally 180 days or less. Estimated losses on scrap and slow-moving items are recognized and included in the allowance for losses.

#### **Investments Accounted for Using Equity Method**

Investments in companies wherein the Company exercises significant influence over the operating and financial policy decisions are accounted for using the equity method. The Company s share of the net income or net loss of an investee is recognized in the equity in earnings/losses of equity method investees, net account. Effective January 1, 2006, pursuant to the revised Statement of Financial Accounting Standards No. 5, Long-term Investments Accounted for Using the Equity Method , the cost of an investment shall be analyzed and the cost of investment in excess of the fair value of identifiable net assets acquired, representing goodwill, shall not be amortized and instead shall be tested for impairment annually. If the fair value of identifiable net assets acquired exceeds the cost of investment, the excess shall be proportionately allocated as reductions to fair values of non-current assets (except for financial assets other than investments accounted for using the equity method and deferred income tax assets). The accounting treatment for the investment premiums paid before January 1, 2006 is the same as that for goodwill which is no longer being amortized; while investment discounts continue to be amortized over the remaining periods. When an indication of impairment is identified, the carrying amount of the investment is reduced, with the related impairment loss recognized in earnings.

When the Company subscribes for additional investee s shares at a percentage different from its existing ownership percentage, the resulting carrying amount of the investment in the investee differs from the amount of the Company s share of the investee s equity. The Company records such a difference as an adjustment to long-term investments with the corresponding amount charged or credited to capital surplus.

Gains or losses on sales from the Company to equity method investees are deferred in proportion to the Company s ownership percentages in the investees until such gains or losses are realized through transactions with third parties. The entire amount of the gains or losses on sales to investees over which the Company has a controlling interest is deferred until such gains or losses are realized through subsequent sales of the related products to third parties. Gains or losses on sales from equity method investees to the Company are deferred in proportion to the Company s

ownership percentages in the investees until they are realized through transactions with third parties. Gains or losses on sales between equity method investees over each of which the Company has control are deferred in proportion to the Company s weighted-average ownership percentage in the investee which records gains or losses. In transactions between equity method

-10-

investees over either or both of which the Company has no control, gains or losses on sales are deferred in proportion to the multiplication of the Company s weighted-average ownership percentages in the investees. Such gains or losses are recorded until they are realized through transactions with third parties.

If an investee s functional currency is a foreign currency, differences will result from the translation of the investee s financial statements into the reporting currency of the Company. Such differences are charged or credited to cumulative translation adjustments, a separate component of shareholders equity.

## **Financial Assets Carried at Cost**

Investments for which the Company does not exercise significant influence and that do not have a quoted market price in an active market and whose fair value cannot be reliably measured, such as non-publicly traded stocks and mutual funds, are carried at their original cost. The costs of non-publicly traded stocks and mutual funds are determined using the weighted-average method. If there is objective evidence which indicates that a financial asset is impaired, a loss is recognized. A subsequent reversal of such impairment loss is not allowed.

Cash dividends are recognized as investment income upon resolution of shareholders of an investee but are accounted for as a reduction to the original cost of investment if such dividends are declared on the earnings of the investee attributable to the period prior to the purchase of the investment. Stock dividends are recorded as an increase in the number of shares held and do not affect investment income. The cost per share is recalculated based on the new total number of shares.

#### Property, Plant and Equipment, Assets Leased to Others and Idle Assets

Property, plant and equipment and assets leased to others are stated at cost less accumulated depreciation. When an indication of impairment is identified, any excess of the carrying amount of an asset over its recoverable amount is recognized as a loss. If the recoverable amount increases in a subsequent period, the amount previously recognized as impairment would be reversed and recognized as a gain. However, the adjusted amount may not exceed the carrying amount that would have been determined, net of depreciation, as if no impairment loss had been recognized. Significant additions, renewals and betterments incurred during the construction period are capitalized. Maintenance and repairs are expensed as incurred.

Depreciation is computed using the straight-line method over the following estimated service lives: buildings 10 to 20 years; machinery and equipment 5 years; and office equipment 3 to 5 years.

Upon sale or disposal of property, plant and equipment and assets leased to others, the related cost and accumulated depreciation are deducted from the corresponding accounts, with any gain or loss recorded as non-operating gains or losses in the period of sale or disposal.

When property, plant and equipment are determined to be idle or useless, they are transferred to idle assets at the lower of the net realizable value or carrying amount. Depreciation on the idle assets is provided continuously, and the idle assets are tested for impairment on a periodical basis.

## **Intangible Assets**

Goodwill represents the excess of the consideration paid for acquisition over the fair value of identifiable net assets acquired. Prior to January 1, 2006, goodwill was amortized using the straight-line method over the estimated life of 10 years. Effective January 1, 2006, pursuant to the newly revised Statement of Financial Accounting Standards No. 25, Business Combinations Accounting Treatment under Purchase Method, goodwill is no longer amortized and instead is tested for impairment annually. If an event occurs or circumstances change which indicated that the

fair value of goodwill is more likely than not below its carrying amount, an impairment loss is recognized. A subsequent reversal of such impairment loss is not allowed.

-11-

Deferred charges consist of technology license fees, software and system design costs and other charges. The amounts are amortized over the following periods: Technology license fees—the shorter of the estimated life of the technology or the term of the technology transfer contract; software and system design costs and other charges 3 years. When an indication of impairment is identified, any excess of the carrying amount of an asset over its recoverable amount is recognized as a loss. If the recoverable amount increases in a subsequent period, the previously recognized impairment loss would be reversed and recognized as a gain. However, the adjusted amount may not exceed the carrying amount that would have been determined, net of amortization, as if no impairment loss had been recognized.

Expenditures related to research activities and those related to development activities that do not meet the criteria for capitalization are charged to expenses when incurred.

#### **Pension Costs**

For employees who participate in defined contribution pension plans, pension costs are recorded based on the actual contributions made to employees individual pension accounts during their service periods. For employees who participate in defined benefit pension plans, pension costs are recorded based on actuarial calculations.

#### **Income Tax**

The Company applies an inter-period allocation for its income tax whereby deferred income tax assets and liabilities are recognized for the tax effects of temporary differences and unused tax credits. Valuation allowances are provided to the extent, if any, that it is more likely than not that deferred income tax assets will not be realized. A deferred tax asset or liability is classified as current or noncurrent in accordance with the classification of its related asset or liability. However, if a deferred tax asset or liability does not relate to an asset or liability in the financial statements, then it is classified as either current or noncurrent based on the expected length of time before it is realized or settled.

Any tax credits arising from purchases of machinery, equipment and technology, research and development expenditures, personnel training expenditures, and investments in important technology-based enterprises are recognized using the flow-through method.

Adjustments of prior years tax liabilities are added to or deducted from the current period s tax provision.

Income tax on unappropriated earnings at a rate of 10% is expensed in the year of shareholder approval which is the year subsequent to the year the earnings are generated.

The R.O.C. government enacted the Alternative Minimum Tax Act (AMT Act), which became effective on January 1, 2006. The alternative minimum tax (AMT) imposed under the AMT Act is a supplemental tax levied at a rate of 10% which is payable if the income tax payable determined pursuant to the Income Tax Law is below the minimum amount prescribed under the AMT Act. The taxable income for calculating the AMT includes most of the tax-exempt income under various laws and statutes. The Company has considered the impact of the AMT Act in the determination of its tax liabilities.

## **Stock-based Compensation**

Employee stock options that were modified or granted in the period from January 1, 2004 to December 31, 2007 are accounted for by the interpretations issued by the Accounting Research and Development Foundation of the Republic of China. The Company adopted the intrinsic value method and any compensation cost determined using this method is recognized in earnings over the employee vesting period. Employee stock option plans that were

granted or modified after December 31, 2007 are accounted for using fair value method in accordance with Statement of Financial Accounting Standards No. 39, Accounting for Share-based Payment . The Company did not grant or modify employee stock options during the three months ended March 31, 2008.

## **Treasury Stock**

Treasury stock is stated at cost and shown as a deduction in shareholders—equity. When the Company retires treasury stock, the treasury stock account is reduced and the common stock as well as the capital surplus additional paid-in capital are reversed on a pro rata basis. When the book value of the treasury stock exceeds the sum of the par value and additional paid-in capital, the difference is charged to capital surplus—treasury stock transactions and to retained earnings for any remaining amount.

The Company s stock held by its subsidiaries is treated as treasury stock and reclassified from investments accounted for using equity method to treasury stock. The gains resulted from disposal of the treasury stock held by subsidiaries and cash dividends received by subsidiaries from the Company are recorded under capital surplus treasury stock transactions.

## **Foreign-currency Transactions**

Foreign-currency transactions are recorded in New Taiwan dollars at the rates of exchange in effect when the transactions occur. Exchange gains or losses derived from foreign-currency transactions or monetary assets and liabilities denominated in foreign currencies are recognized in earnings.

At the balance sheet date, monetary assets and liabilities denominated in foreign currencies are revalued at prevailing exchange rates with the resulting gains or losses recognized in earnings.

#### **Recent Accounting Pronouncements**

The Accounting Research and Development Foundation (ARDF) of the R.O.C. revised Statement of Financial Accounting Standards No. 10, Accounting for Inventories (SFAS No. 10) in November 2007, which requires inventories to be stated at the lower of cost or net realizable value item by item. Inventories are recorded by the specific identification method, first-in, first-out method or weighted average method. The last-in, first-out method is no longer permitted. The revised SFAS No. 10 should be applied to financial statements for the fiscal years beginning on or after January 1, 2009. Early adoption is permitted.

## 3. ACCOUNTING CHANGES

Effective January 1, 2008, the Company adopted Interpretation 2007-052, Accounting for Bonuses to Employees, Directors and Supervisors issued in March 2007 by the ARDF, which requires companies to record bonuses paid to employees, directors and supervisors as an expense rather than as an appropriation of earnings. The adoption of this interpretation resulted in a decrease in net income and earnings per share (after income tax) of NT\$3,586,877 thousand and NT\$0.14, respectively, for the three months ended March 31, 2008.

Effective January 1, 2008, the Company adopted Statement of Financial Accounting Standards No. 39, Accounting for Share-based Payment , which requires companies to record share-based payment transactions in the financial statements at fair value. Such a change in accounting principle did not have any effect on the Company s financial statements as of and for the three months ended March 31, 2008.

## 4. CASH AND CASH EQUIVALENTS

	March 31		
	2008	2007	
Cash and deposits in banks	\$ 109,361,907	\$ 77,169,400	
Repurchase agreements collaterized by government bonds	5,995,378	41,985,407	
Asset-backed commercial papers	512,155	597,361	
	\$ 115,869,440	\$ 119,752,168	

## 5. FINANCIAL ASSETS AND LIABILITIES AT FAIR VALUE THROUGH PROFIT OR LOSS

	Mar	ch 31
	2008	2007
Derivatives financial assets Cross currency swap contracts	\$ 160,249	\$ 159
Derivatives financial liabilities		
Forward exchange contracts Cross currency swap contracts	\$ 121,599 118,294	\$ 18,717 115,085
	\$ 239,893	\$ 133,802

The Company entered into derivative contracts during the three months ended March 31, 2008 and 2007 to manage exposures due to fluctuations of foreign exchange rates. The derivative contracts entered into by the Company did not meet the criteria for hedge accounting. Therefore, the Company did not apply hedge accounting treatment for its derivative contracts.

Outstanding forward exchange contracts as of March 31, 2008 and 2007:

March 31, 2008		Maturity Date	Contract Amount (in Thousands)
Sell EUR/Buy NT\$		April 2008 to July 2008	EUR 44,500
March 31, 2007			
Sell EUR/Buy US\$	-14-	April 2007	EUR 23,000

Outstanding cross currency swap contracts as of March 31, 2008 and 2007:

	Contract Amount (in	Range of Interest Rates	Range of Interest Rates
Maturity Date	Thousands)	Paid	Received
March 31, 2008			
April 2008	US \$883,000	2.60%-3.75%	1.28%-2.42%
March 31, 2007			
	US		
April 2007 to June 2007	\$835,000	2.65%-5.35%	1.65%-5.16%
F = 1 4 = 4 = 1 = 1 = 1 + 1 M = 1 21 2000 = 1	2007	. C 1	1 . 1 . 1

For the three months ended March 31, 2008 and 2007, gains and losses arising from derivative financial instruments were net gains of NT\$1,740,705 thousand (including realized settlement gains of NT\$1,614,786 thousand and valuation gains of NT\$125,919 thousand) and net losses of NT\$677,929 thousand (including realized settlement losses of NT\$510,436 thousand and valuation losses of NT\$167,493 thousand), respectively.

## 6. AVAILABLE-FOR-SALE FINANCIAL ASSETS

	March 31		
	2008	2007	
Open-end mutual funds	\$ 14,126,171	\$ 23,976,854	
Corporate bonds	4,065,233	4,163,115	
Government bonds	400,317	4,152,738	
Structured time deposits		499,288	
	18,591,721	32,791,995	
Current portion	(18,591,721)	(26,325,390)	
	\$	\$ 6,466,605	

As of March 31, 2007, structured time deposits categorized as available-for-sale financial assets consisted of the following:

	Principal	Carrying	Interest	Maturity
	Amount	Amount	Rate	Date
Step-up callable deposits  Domestic deposits	\$ 500,000	\$ 499,288	1.76%	March 2008

The interest rate of the step-up callable deposits was pre-determined by the Company and the banks.

-15-

## 7. HELD-TO-MATURITY FINANCIAL ASSETS

	March 31		
	2008	2007	
Corporate bonds	\$ 10,908,455	\$ 13,426,614	
Government bonds	6,091,684	8,676,382	
Structured time deposits	1,000,000	11,117,800	
	18,000,139	33,220,796	
Current portion	(9,976,745)	(6,523,668)	
	\$ 8,023,394	\$ 26,697,128	

As of March 31, 2008 and 2007, structured time deposits categorized as held-to-maturity financial assets consisted of the following:

N. 1 01 2000	Principal Amount	nterest ceivable	Range of Interest Rates	Maturity Date
March 31, 2008				
Step-up callable deposits Domestic deposits	\$ 1,000,000	\$ 3,844	1.77%-1.83%	April 2008 to October 2008
March 31, 2007				
Step-up callable deposits				
Domestic deposits Callable range accrual deposits	\$ 4,500,000	\$ 13,593	1.50%-1.83%	June 2007 to October 2008
Domestic deposits	3,970,680	14,752	(See below)	September 2009 to December 2009
Foreign deposits	2,647,120	7,390	(See below)	October 2009 to December 2009
	\$ 11,117,800	\$ 35,735		

The amount of interest earned by the Company for the callable range accrual deposits is based on a pre-defined range as determined by the 3-month or 6-month LIBOR plus an agreed upon rate ranging between 2.10% and 3.45%. Based on the terms of the contracts, if the 3-month or 6-month LIBOR moves outside of the pre-defined range, the interest paid to the Company is at a fixed rate between zero and 1.5%. Under the terms of the contracts, the bank has the right to cancel the contracts prior to the maturity date.

As of March 31, 2008, no structured time deposit resided in banks located in foreign countries. As of March 31, 2007, the principal of the deposits that resided in banks located in Hong Kong and Singapore amounted to US\$60,000 thousand and US\$20,000 thousand, respectively.

## 8. ALLOWANCES FOR DOUBTFUL RECEIVABLES, SALES RETURNS AND OTHERS

Movements of the allowance for doubtful receivables were as follows:

		Three Months Ended March 31	
		2008	2007
Balance, beginning of period Write-off		\$ 688,972 (1,353)	\$ 690,931
Balance, end of period		\$ 687,619	\$ 690,931
	-16-		

Movements of the allowance for sales returns and others were as follows:

		Three Months Ended March 31		
	2008	2007		
Balance, beginning of period	\$ 3,856,685	\$ 2,751,065		
Provision	1,680,969	708,058		
Write-off	(1,370,011)	(982,836)		
Balance, end of period	\$ 4,167,643	\$ 2,476,287		

## 9. INVENTORIES, NET

(Concluded)

In January 2007, the Company acquired 90,526 thousand shares in XinTec, representing 43% of its total common shares, for NT\$1,357,890 thousand.

In August 2007, the Company acquired additional 169,600 thousand shares in VIS for NT\$4,927,865 thousand; after the acquisition, the Company s percentage of ownership in VIS increased from 27% to 36%.

For the three months ended March 31, 2008 and 2007, net equity in earnings of equity method investees of NT\$1,043,790 thousand and NT\$853,184 thousand was recognized, respectively. The related equity in earnings of equity method investees was determined based on the reviewed financial statements of the investees for the same periods as the Company.

As of March 31, 2008 and 2007, fair value of publicly traded stocks in investments accounted for using equity method was NT\$22,267,805 thousand and NT\$23,975,319 thousand, respectively.

Movements of the difference between the cost of investments and the Company s share in investees net assets allocated to depreciable assets for the three months ended March 31, 2008 and 2007 were as follows:

		Three Months Ended March 31		
	2008	2007		
Balance, beginning of period Additions	\$ 2,677,388	\$ 943,277 105,000		
Depreciation/Amortization	(156,034)	(49,959)		
Balance, end of period	\$ 2,521,354	\$ 998,318		

Movements of the aforementioned difference allocated to goodwill for the three months ended March 31, 2008 and 2007 were as follows:

		Three Months Ended March 31		
	2008	2007		
Balance, beginning of period	\$ 987,349	\$ 213,984		

Additions

Balance, end of period \$987,349 \$213,984

\$ 1,335,996

#### 16. PENSION PLANS

The Labor Pension Act (the Act) became effective on July 1, 2005. The employees who were subject to the Labor Standards Law prior to July 1, 2005 were allowed to choose to be subject to the pension mechanism under the Act with their seniority as of July 1, 2005 retained or continue to be subject to the pension mechanism under the Labor Standards Law. Employees who joined the Company after July 1, 2005 can only be subject to the pension mechanism under the Act.

The pension mechanism under the Act is deemed a defined contribution plan. Pursuant to the Act, the Company has made monthly contributions equal to 6% of each employee s monthly salary to employees pension accounts starting from July 1, 2005, and recognized pension cost of NT\$164,396 thousand and NT\$148,533 thousand for the three months ended March 31, 2008 and 2007, respectively.

The Company has a defined benefit plan under the Labor Standards Law that provides benefits based on an employee s length of service and average monthly salary for the six-month period prior to retirement. The Company contributes an amount equal to 2% of salaries paid each month to a pension fund (the Fund), which is administered by the Labor Pension Fund Supervisory Committee (the Committee) and deposited in the Committee s name in the Bank of Taiwan (originally the Central Trust of China, which was merged into the Bank of Taiwan on July 1, 2007). The Company recognized pension cost of NT\$67,246 thousand and NT\$81,154 thousand for the three months ended March 31, 2008 and 2007, respectively. As of March 31, 2008 and 2007, the balance of the Fund was NT\$2,278,579 thousand and NT\$2,027,436 thousand, respectively.

#### 17. INCOME TAX

a. A reconciliation of income tax expense based on income before income tax at statutory rate and income tax currently payable was as follows:

	Three Months Ended March 31	
	2008	2007
Income tax expense based on income before income tax at statutory rate (25%) Tax effect of the following:	\$ 7,851,789	\$ 4,973,727
Tax-exempt income	(2,634,089)	(991,862)

	( )	( ) ) )
	\$ 3,916,735	\$ 5,001,596

## d. Integrated income tax information:

The balance of the imputation credit account as of March 31, 2008 and 2007 was NT\$3,012,848 thousand and NT\$828,612 thousand, respectively.

The estimated and actual creditable ratio for distribution of earnings of 2007 and 2006 was 1.86% and 5.23%, respectively.

The imputation credit allocated to shareholders is based on its balance as of the date of dividend distribution. The estimated creditable ratio may change when the actual distribution of the imputation credit is made.

e. All earnings generated prior to December 31, 1997 have been appropriated.

-22-

f. As of March 31, 2008, investment tax credits consisted of the following:

Law/Statute	Item	Total Creditable Amount	Remaining Creditable Amount	Expiry Year
Statute for Upgrading Industries	Purchase of machinery and equipment	\$ 6,076,148 4,439,860 13,547	\$ 4,841,869 4,439,860 13,547	2010 2011 2012
		\$ 10,529,555	\$ 9,295,276	
Statute for Upgrading Industries	Research and development expenditures	\$ 1,508,726 1,781,376 1,654,065 523,083	\$ 1,781,376 1,654,065 523,083	2009 2010 2011 2012
		\$ 5,467,250	\$ 3,958,524	
Statute for Upgrading Industries	Personnel training expenditures	\$ 21,795 46,119	\$ 46,119	2009 2010
		\$ 67,914	\$ 46,119	
Statute for Upgrading Industries	Investments in important technology-based enterprises	\$ 79,804	\$ 79,804	2010

g. The profits generated from the following projects are exempt from income tax for a five-year period:

Tax-Exemption Period

Construction of Fab 14 Module A
Construction of Fab 14 Module B
2006 to 2010
2007 to 2011

h. The tax authorities have examined income tax returns of the Company through 2005.

#### 19. SHAREHOLDERS EQUITY

As of March 31, 2008, 1,110,083 thousand ADSs of the Company were traded on the NYSE. The number of common shares represented by the ADSs was 5,550,414 thousand (one ADS represents five common shares). Capital surplus can only be used to offset a deficit under the Company Law. However, the capital surplus generated from donations and the excess of the issuance price over the par value of capital stock (including the stock issued for new capital, mergers, convertible bonds and the surplus from treasury stock transactions) may be appropriated as stock dividends, which are limited to a certain percentage of the Company s paid-in capital. Capital surplus consisted of the following:

	March 31		
	2008	2007	
From merger	\$23,276,911	\$ 24,003,546	
Additional paid-in capital	18,994,954	20,063,728	
From convertible bonds	9,077,065	9,360,424	
From long-term investments	347,180	414,524	
Donations	55	55	
From treasury stock transactions		389,188	
	\$51,696,165	\$ 54,231,465	

The Company s Articles of Incorporation provide that, when allocating the net profits for each fiscal year, the Company shall first offset its losses in previous years and then set aside the following items accordingly:

a. Legal capital reserve at 10% of the profits left over, until the accumulated legal capital reserve has equaled the Company s paid-in capital;

b. Special capital reserve in accordance with relevant laws or regulations or as requested by the authorities in charge;

-24-

- c. Bonus to directors and bonus to employees of the Company of not more than 0.3% and not less than 1% of the remainder, respectively. Directors who also serve as executive officers of the Company are not entitled to receive the bonus to directors. The Company may issue stock bonus to employees of an affiliated company meeting the conditions set by the Board of Directors or, by the person duly authorized by the Board of Directors;
- d. Any balance left over shall be allocated according to the resolution of the shareholders meeting. The Company s Articles of Incorporation also provide that profits of the Company may be distributed by way of cash dividend and/or stock dividend. However, distribution of profits shall be made preferably by way of cash dividend. Distribution of profits may also be made by way of stock dividend; provided that the ratio for stock dividend shall not exceed 50% of the total distribution.

Any appropriations of the profits are subject to shareholders approval in the following year.

For the three months ended March 31, 2008, the Company has recorded bonuses to employees and directors with a charge to earnings of approximately 15.3% of net income. Material differences between such estimated amounts and the amounts proposed by the Board of Directors subsequently are retroactively adjusted for in the current year. If the actual amounts subsequently resolved by the shareholders differ from the proposed amounts, the differences are recorded in the year of shareholders—resolution as a change in accounting estimate.

The Company no longer has supervisors since January 1, 2007. The required duties of supervisors are being fulfilled by the Audit Committee.

The appropriation for legal capital reserve shall be made until the reserve equals the Company s paid-in capital. The reserve may be used to offset a deficit, or be distributed as dividends and bonuses for the portion in excess of 50% of the paid-in capital if the Company has no unappropriated earnings and the reserve balance has exceeded 50% of the Company s paid-in capital. The Company Law also prescribes that, when the reserve has reached 50% of the Company s paid-in capital, up to 50% of the reserve may be transferred to capital.

A special capital reserve equivalent to the net debit balance of the other components of shareholders equity (for example, cumulative translation adjustments and unrealized loss on financial instruments, but excluding treasury stock) shall be made from unappropriated earnings pursuant to existing regulations promulgated by the Securities and Futures Bureau (SFB). Any special reserve appropriated may be reversed to the extent that the net debit balance reverses.

The appropriations of earnings for 2007 and 2006 had been approved in a Board of Directors meeting held on February 19, 2008 and a shareholders meeting held on May 7, 2007, respectively. The appropriations and dividends per share were as follows:

	Appropriations of Earnings			ds Per Share NT\$)	
	For Fiscal Year 2007	For Fiscal Year 2006	For Fiscal Year 2007	F	For 'iscal Year 2006
Legal capital reserve Special capital reserve Bonus to employees in cash Bonus to employees in stock Cash dividends to shareholders Stock dividends to shareholders Bonus to directors and supervisors	\$ 10,917,709 (237,693) 3,939,883 3,939,883 76,881,311 512,542 176,890	\$ 12,700,973 (11,192) 4,572,798 4,572,798 77,489,064 516,594 285,800	\$ 3.00 0.02	\$	3.00 0.02
	\$ 96,130,525	\$ 100,126,835			

The Board of Directors meeting held on February 19, 2008 and the shareholders meeting held on May 7, 2007 also resolved to distribute stock dividends out of capital surplus in the amount of NT\$768,813 thousand and NT\$774,891 thousand, respectively.

The amounts of the appropriations of earnings for 2006 are consistent with the resolutions of the meeting of the Board of Directors held on February 6, 2007. The amounts of the appropriations of earnings for 2007 and the stock dividends to be distributed out of capital surplus have not yet been resolved by the shareholders. If the above bonuses to employees, directors and supervisors had been paid entirely in cash and charged to earnings of 2007 and 2006, the basic earnings per share (after income tax) for the years ended December 31, 2007 and 2006 shown in the respective financial statements would have decreased from NT\$4.14 to NT\$3.84 and NT\$4.93 to NT\$4.56, respectively. The shares distributed as a bonus to employees represented 1.49% and 1.77% of the Company s total outstanding common shares as of December 31, 2007 and 2006, respectively.

The information about the appropriations of bonuses to employees, directors and supervisors is available at the Market Observation Post System website.

Under the Integrated Income Tax System that became effective on January 1, 1998, R.O.C. resident shareholders are allowed a tax credit for their proportionate share of the income tax paid by the Company on earnings generated since January 1, 1998.

#### 20. STOCK-BASED COMPENSATION PLANS

The Company s Employee Stock Option Plans under the 2004 Plan, 2003 Plan and 2002 Plan were approved by the SFB on January 6, 2005, October 29, 2003 and June 25, 2002, respectively. The maximum number of options authorized to be granted under the 2004 Plan, 2003 Plan and 2002 Plan was 11,000 thousand, 120,000 thousand and 100,000 thousand, respectively, with each option eligible to subscribe for one common share when exercisable. The options may be granted to qualified employees of the Company or any of its domestic or foreign subsidiaries, in which the Company s shareholding with voting rights, directly or indirectly, is more than fifty percent (50%). The options of all the plans are valid for ten years and exercisable at certain percentages subsequent to the second anniversary of the grant date. Under the terms of the plans, the options are granted at an exercise price equal to the closing price of the Company s common shares listed on the TSE on the grant date.

Options of the aforementioned plans that had never been granted or had been granted but subsequently cancelled had expired as of March 31, 2008.

Information about outstanding options for the three months ended March 31, 2008 and 2007 was as follows:

	Number of Options (in Thousands)	Weighted- Average Exercise Price (NT\$)
Three months ended March 31, 2008		
Balance, beginning of period Options exercised Options cancelled	41,875 (2,138) (193)	\$ 37.4 37.9 46.8
Balance, end of period	39,544	37.3
-26-		(Continued)

	Number of Options (in Thousands)	Weighted- Average Exercise Price (NT\$)
Three months ended March 31, 2007 Balance, beginning of period	52,814	\$ 39.6
Options exercised	(3,271)	37.3
Options cancelled	(252)	47.2
Balance, end of period	49,291	39.7

(Concluded)

The number of outstanding options and exercise prices have been adjusted to reflect the distribution of earnings in accordance with the plans.

As of March 31, 2008, information about outstanding and exercisable options was as follows:

	Opt	<b>Options Outstanding</b>			ercisable
Range of	Number of	Weighted- average Remaining	Weighted- average Exercise	Number of	Weighted- average Exercise
Exercise	Options (in	Contractual Life	Price	Options (in	Price
Price (NT\$)	Thousands)	(Years)	(NT\$)	Thousands)	(NT\$)
\$25.9-\$36.4	27,070	4.91	\$33.0	27,070	\$33.0
38.9 51.3	12,474	6.65	46.6	6,162	46.4
	39,544		37.3	33,232	35.5
	39,344		31.3	33,232	33.3

No compensation cost was recognized under the intrinsic value method for the three months ended March 31, 2008 and 2007. Had the Company used the fair value based method to evaluate the options using the Black-Scholes model, the assumptions and pro forma results of the Company for the three months ended March 31, 2008 and 2007 would have been as follows:

	Three Months Ended March 31			
	2008	2007		
Assumptions:				
Expected dividend yield	1.00%-3.44%	1.00%-3.44%		
Expected volatility	43.77%-46.15%	43.77%-46.15%

		-27-		

#### 21.TREASURY STOCK

(Shares in Thousands)

Three months ended March 31, 2008	Beginning Shares	Addition	Retirement	Ending Shares
Parent company stock held by subsidiaries Repurchase under share buyback plan	34,096 800,000		800,000	34,096
	834,096		800,000	34,096
Three months ended March 31, 2007				
Parent company stock held by subsidiaries	33,926			33,926

As of March 31, 2008 and 2007, the book value of the treasury stock was NT\$918,075 thousand each and its market value was NT\$2,151,452 thousand and NT\$2,303,596 thousand, respectively. The Company s common shares held by subsidiaries were treated as treasury stock and the holders are entitled to the rights of shareholders, with the exception of voting rights.

The Company held a meeting of the Board of Directors and approved a share buyback plan to repurchase the Company s common shares up to 800,000 shares listed on the TSE during the period from November 14, 2007 to January 13, 2008 for the buyback price in the range from NT\$43.2 to NT\$94.2. As of December 31, 2007, the Company had repurchased 800,000 thousand common shares. All the treasury stock repurchased was retired on February 27, 2008.

#### 22. EARNINGS PER SHARE

EPS was computed as follows:

			<b>Number of</b>	EPS (	(NT\$)
	Amounts (N	(umerator)	Shares	Before	After
	Before	After	(Denominator)	Income	Income
Three months ended March 31, 2008	Income Tax	Income Tax	(in Thousands)	Tax	Tax

Effect of dilutive potential common stock stock options			16,225		
Diluted EPS Income available to common shareholders (including effect of	\$ 31,407,155	\$ 28,143,382	25,610,060	\$ 1.23	\$ 1.10

dilutive potential common stock)

Three months ended March 31, 2007

Basic EPS

Income available to common

shareholders \$19,894,908 \$18,838,639 26,384,121 \$0.75 \$0.71

Effect of dilutive potential common

stock stock options 21,538

Diluted EPS

Income available to common shareholders (including effect of

dilutive potential common stock) \$19,894,908 \$18,838,639 26,405,659 \$ 0.75 \$ 0.71

-28-

The average number of shares outstanding for EPS calculation has been retroactively adjusted for the issuance of stock dividends and employee stock bonuses. This adjustment caused each of the basic and diluted after income tax EPS for the three months ended March 31, 2007 to decrease from NT\$0.73 to NT\$0.71.

#### 23. DISCLOSURES FOR FINANCIAL INSTRUMENTS

a. Fair values of financial instruments were as follows:

	March 31					
	20	008	2007			
	Carrying Amount	Fair Value	Carrying Amount	Fair Value		
Assets	1 2222 0 4222	<b>- 0.11</b> , <b>0.10.0</b>	1	<b>- 44.1</b>		
Financial assets at fair value through						
profit or loss	\$ 160,249	\$ 160,249	\$ 159	\$ 159		
Available-for-sale financial assets	18,591,721	18,591,721	32,791,995	32,791,995		
Held-to-maturity financial assets	18,000,139	18,001,071	33,220,796	33,203,292		
Liabilities						
Financial liabilities at fair value through						
profit or loss	239,893	239,893	133,802	133,802		
Bonds payable (including current						
portion)	12,500,000	12,657,936	17,000,000	17,279,497		
Other long-term payables (including						
current portion)	4,644,036	4,644,036	3,994,705	3,994,705		

- b. Methods and assumptions used in the estimation of fair values of financial instruments
  - 1) The aforementioned financial instruments do not include cash and cash equivalents, receivables, other financial assets, payables, and payables to contractors and equipment suppliers. The carrying amounts of these financial instruments approximate their fair values due to their short maturities.
  - 2) Fair values of financial assets/liabilities at fair value through profit or loss were estimated using valuation techniques incorporating estimates and assumptions that were consistent with prevailing market conditions.
  - 3) Fair values of available-for-sale and held-to-maturity financial assets were based on their quoted market prices, except for structured time deposits of which fair values were estimated using valuation techniques.
  - 4) Fair value of bonds payable was based on their quoted market price.
  - 5) Fair value of other long-term payables was based on the present value of expected cash flows, which approximates their carrying amount.
- c. The changes in fair value during the three months ended March 31, 2008 and 2007 of derivatives estimated using valuation techniques were recognized as gains of NT\$125,919 thousand and losses of NT\$167,493 thousand, respectively.

- d. As of March 31, 2008 and 2007, financial assets exposed to fair value interest rate risk were NT\$36,752,109 thousand and NT\$66,012,950 thousand, respectively, financial liabilities exposed to fair value interest rate risk were NT\$239,893 thousand and NT\$133,802 thousand, respectively, and financial assets exposed to cash flow interest rate risk were nil and NT\$6,617,800 thousand, respectively.
- e. Movements of unrealized gains or losses on financial instruments for the three months ended March 31, 2008 and 2007 were as follows:

	Three M		Ended March Equity in	31, 2008
	Valuation Gain on Available- for-sale	Valuation Gain on  Available-for- sale Financial Assets Held		
	Financial Assets		by nvestees	Total
Balance, beginning of period Recognized directly in shareholders equity Removed from shareholders equity and recognized in earnings	\$ 266,573 69,584 (23,271)	\$	414,424 (326,449)	\$ 680,997 (256,865) (23,271)
Balance, end of period	\$ 312,886	\$	87,975	\$ 400,861

	Three Months Ended March . Equity in			31, 2007
	Valuation Gain on	Valuation Gain on  Available-for- sale Financial Assets Held		
	Available- for-sale			
	Financial Assets		by nvestees	Total
Balance, beginning of period	\$ 242,248	\$	319,367	\$ 561,615
Recognized directly in shareholders equity Removed from shareholders equity and recognized in earnings	93,451 (29,611)		94,679	188,130 (29,611)
Balance, end of period	\$ 306,088	\$	414,046	\$ 720,134

#### f. Information about financial risks

1) Market risk. The derivative financial instruments categorized as financial assets/liabilities at fair value through profit or loss are mainly used to hedge the exchange rate fluctuations of foreign-currency assets and liabilities; therefore, the market risk of derivatives will be offset by the foreign exchange risk of these hedged items. Available-for-sale financial assets held by the Company are mainly fixed-interest-rate debt

securities; therefore, the fluctuations in market interest rates will result in changes in fair value of these debt securities.

2) Credit risk. Credit risk represents the potential loss that would be incurred by the Company if the counter-parties or third-parties breached contracts. Financial instruments with positive fair values at the balance sheet date are evaluated for credit risk. The counter-parties or third-parties to the foregoing financial instruments are reputable financial institutions, business organizations, and government agencies. Management believes that the Company s exposure to default by those parties is low.

-30-

- 3) Liquidity risk. The Company has sufficient operating capital to meet cash needs upon settlement of derivative financial instruments and bonds payable. Therefore, the liquidity risk is low.
- 4) Cash flow interest rate risk. The Company mainly invests in fixed-interest-rate debt securities. Therefore, cash flows are not expected to fluctuate significantly due to changes in market interest rates.

#### 24. RELATED PARTY TRANSACTIONS

The Company engages in business transactions with the following related parties:

#### a. Subsidiaries

TSMC North America

TSMC Shanghai

TSMC Europe

TSMC Japan

TSMC Korea

#### b. Investees

GUC (with a controlling interest)

VIS (accounted for using equity method)

SSMC (accounted for using equity method)

#### Indirect subsidiaries

WaferTech, LLC (WaferTech)

TSMC Technology, Inc. (TSMC Technology)

TSMC Design Technology Canada Inc. (TSMC Canada) (established in May 2007)

#### d. Indirect investee

VisEra Technology Company, Ltd. (VisEra), an indirect investee accounted for using equity method.

#### e. Others

Related parties over which the Company has control or exercises significant influence but with which the Company had no material transactions.

Transactions with the aforementioned parties, other than those disclosed in other notes, are summarized as follows:

	2008		2007

violia	40,031	J	100,000	10	
	\$ 503,921	57	\$ 779,193	71	

The terms of sales to related parties were not significantly different from those of sales to third parties. For other related party transactions, prices were determined in accordance with mutual agreements.

The Company deferred the gains (classified under deferred credits) derived from sales of property, plant and equipment to TSMC Shanghai and VisEra, and then recognized such gains (classified under the non-operating income and gains) over the depreciable lives of the disposed assets.

The Company leased part of its office space from GUC and also leased certain buildings and facilities to VisEra. The related rental expense and rental income were classified under non-operating expenses and income, respectively. The lease terms and prices were determined in accordance with mutual agreements.

#### 25. SIGNIFICANT LONG-TERM LEASES

The Company leases several parcels of land from the Science Park Administration. These operating leases expire on various dates from December 2008 to December 2028 and can be renewed upon expiration.

As of March 31, 2008, future lease payments were as follows:

	Year	Amount
2008 (2 <sup>nd</sup> to 4 <sup>th</sup> quarter) 2009 2010 2011 2012 2013 and thereafter		\$ 262,988 340,443 291,245 289,664 289,664 2,315,796
	-33-	\$3,789,800

#### 26. SIGNIFICANT COMMITMENTS AND CONTINGENCIES

The significant commitments and contingencies of the Company as of March 31, 2008, except those disclosed in other notes, were as follows:

- a. On June 20, 2004, the Company and Philips (Philips parted with its semiconductor company which was renamed as NXP B.V. in September 2006) amended the Technical Cooperation Agreement, which was originally signed on May 12, 1997. The amended Technical Cooperation Agreement is for five years beginning from January 1, 2004. Upon expiration, this amended Technical Cooperation Agreement will be terminated and will not be automatically renewed; however, the patent cross license arrangement between the Company and Philips (now NXP B.V.) will survive the expiration of the amended Technical Cooperation Agreement. Under this amended Technical Cooperation Agreement, the Company will pay Philips (now NXP B.V.) royalties based on a fixed amount mutually agreed-on, rather than under a certain percentage of the Company s annual net sales. The Company and Philips (now NXP B.V.) agreed to cross license the patents owned by each party. The Company also obtained through Philips (now NXP B.V.) a number of cross patent licenses.
- b. Under a technical cooperation agreement with ITRI, the R.O.C. Government or its designee approved by the Company can use up to 35% of the Company s capacity if the Company s outstanding commitments to its customers are not prejudiced. The term of this agreement is for five years beginning from January 1, 1987 and is automatically renewed for successive periods of five years unless otherwise terminated by either party with one year prior notice.
- c. Under several foundry agreements, the Company shall reserve a portion of its production capacity for certain major customers that have guarantee deposits with the Company. As of March 31, 2008, the Company had a total of US\$60,730 thousand of guarantee deposits.
- d. Under a Shareholders Agreement entered into with Philips and EDB Investments Pte Ltd. on March 30, 1999, the parties formed a joint venture company, SSMC, which is an integrated circuit foundry in Singapore. The Company s equity interest in SSMC was 32%. Nevertheless, Philips parted with its semiconductor company which was renamed as NXP B.V. in September 2006. The Company and NXP B.V. purchased all the SSMC shares owned by EDB Investments Pte Ltd. pro rata according to the Shareholders Agreement on November 15, 2006. After the purchase, the Company and NXP B.V. currently own approximately 39% and 61% of the SSMC shares respectively. The Company and Philips (now NXP) committed to buy specific percentages of the production capacity of SSMC. The Company and Philips (now NXP B.V.) are required, in the aggregate, to purchase up to 70% of SSMC s capacity, but the Company alone is not required to purchase more than 28% of the capacity. If any party defaults on the commitment and the capacity utilization of SSMC fall below a specific percentage of its capacity, the defaulting party is required to compensate SSMC for all related unavoidable costs.
- e. The Company provides technical services to SSMC under a Technical Cooperation Agreement (the Agreement) effective March 30, 1999. The Company receives compensation for such services computed at a specific percentage of net selling price of all products sold by SSMC. The Agreement shall remain in force for ten years and may be automatically renewed for successive periods of five years each unless pre-terminated by either party under certain conditions.

- f. Under a Technology Transfer Agreement (TTA) with National Semiconductor Corporation (National) entered into on June 27, 2000, the Company shall receive payments for the licensing of certain technology to National. The agreement was to remain in force for ten years and could be automatically renewed for successive periods of two years thereafter unless either party gives written notice for early termination under certain conditions. In January 2003, the Company and National entered into a Termination Agreement whereby the TTA was terminated. Under the Termination Agreement, the Company would be relieved of any further obligation to transfer any additional technology. In addition, the Company granted National an option to request prior to January 2008 the transfer of certain technologies under the same terms and conditions as the terminated TTA. National did not make such request by the deadline, therefore the option expired in January 2008.
- g. In December 2003, the Company entered into a Technology Development and License Agreement with Freescale Semiconductor, Inc. to jointly develop 65-nm SOI (silicon on insulator) technology. The Company would also license related 90-nm SOI technology from Freescale Semiconductor, Inc. Any intellectual properties arising out of the co-development project shall be jointly owned by the parties. In accordance with the agreement, the Company would pay royalties to Freescale Semiconductor, Inc. and would share a portion of the costs associated with the joint development project. The agreement expired in December 2007. The Company did not capitalize related intellectual properties arising from the co-development project because those intellectual properties did not meet the capitalization criteria set forth in Statement of Financial Accounting Standards No. 37 Accounting for Intangible Assets .
- h. The Company provides a technology transfer to VIS under a Manufacturing License and Technology Transfer Agreement entered into on April 1, 2004. The Company receives compensation for such technology transfer in the form of royalty payments from VIS computed at specific percentages of net selling price of certain products sold by VIS. VIS agreed to reserve its certain capacity to manufacture for the Company certain products at prices as agreed by the parties.
- TSMC, TSMC North America and WaferTech filed a series of lawsuits in late 2003 and 2004 against Semiconductor Manufacturing International Corporation, SMIC (Shanghai) and SMIC Americas (aggregately referring to as SMIC ). The lawsuits alleged that SMIC infringed multiple TSMC, TSMC North America and WaferTech patents and misappropriated TSMC, TSMC North America and WaferTech s trade secrets. These suits were settled out of court on January 30, 2005. As part of the settlement, Semiconductor Manufacturing International Corporation shall pay US\$175 million over six years to resolve TSMC, TSMC North America and WaferTech s claims. As of March 31, 2008, SMIC had paid US\$90 million in accordance with the terms of this settlement agreement. In August 2006, TSMC, TSMC North America and WaferTech filed a lawsuit against SMIC in Alameda County Superior Court in California for breach of aforementioned settlement agreement, breach of promissory notes and trade secret misappropriation, seeking injunctive relief and monetary damages. In September 2006, SMIC filed a cross-complaint against TSMC, TSMC North America and WaferTech in the same court, alleging TSMC, TSMC North America and WaferTech of breach of the settlement agreement and implied covenant of good faith and fair dealing, in response to TSMC, TSMC North America and WaferTech s August complaint. In November 2006, SMIC filed a complaint with Beijing People s High Court against TSMC, TSMC North America and WaferTech alleging defamation and breach of good faith. The California State Superior Court of Alameda County issued an Order on TSMC, TSMC North America and WaferTech s pre-trial motion for a preliminary injunction against SMIC on September 7, 2007. In the Order, the Court found TSMC has demonstrated a significant likelihood that it will ultimately prevail on the merits of its claim for breach of certain paragraphs of the (2005) Settlement Agreement with SMIC. The Court also found TSMC has demonstrated a significant probability of establishing that SMIC retains and is using TSMC Information in SMIC s 0.13um and smaller technologies, and there is significant threat of serious irreparable harm to TSMC if SMIC were to disclose or transfer that information before final resolution of the case. Therefore, the Court ordered that, effective immediately, SMIC must provide advance notice and

an opportunity for TSMC, TSMC North America and WaferTech to object before disclosing items enumerated in the Court Order to SMIC s third party partners. The Court, however, did not grant a preliminary injunction as requested by TSMC, TSMC North America and WaferTech. The result of the above-mentioned litigation cannot be determined at this time.

-35-

j. In April 2004, UniRAM Technology, Inc. (UniRAM) filed an action against MoSys Inc., TSMC and TSMC North America in the U.S. District Court for the Northern District of California, alleging patent infringement and trade secret misappropriation and seeking injunctive relief and damages. UniRAM later dropped its patent infringement claims during the course of litigation, but TSMC s inequitable conduct counterclaim against UniRAM s asserted patents remained. In 2007, the trade secret misappropriation portion of the case went to trial, and in September 2007, a jury-rendered a verdict awarding US\$30.5 million to UniRAM Technology, Inc. The court held a separate bench trial on the inequitable conduct counterclaims in January 2008, but has yet to issue a decision as of March 25, 2008. During the January bench trial, UniRAM has also raised anew its motion to enjoin TSMC from offering certain technologies that UniRAM alleges to contain its confidential information. This issue has also not been decided. As a procedural matter, the jury verdict cannot be entered into the record while the inequitable conduct issues remain undecided. Nevertheless, as a result of the verdict, TSMC has accrued the full amount of the jury award in September 2007 as part of the non-operating expenses. TSMC intends to continue to pursue remedies against this verdict.

#### 27. ADDITIONAL DISCLOSURES

Following are the additional disclosures required by the SFB for the Company and its investees:

- a. Financing provided: None;
- b. Endorsement/guarantee provided: None;
- c. Marketable securities held: Please see Table 1 attached;
- d. Marketable securities acquired or disposed of at costs or prices of at least NT\$100 million or 20% of the paid-in capital: Please see Table 2 attached;
- e. Acquisition of individual real estate properties at costs of at least NT\$100 million or 20% of the paid-in capital: Please see Table 3 attached;
- f. Disposal of individual real estate properties at prices of at least NT\$100 million or 20% of the paid-in capital: None:
- g. Total purchases from or sales to related parties of at least NT\$100 million or 20% of the paid-in capital: Please see Table 4 attached;
- h. Receivable from related parties amounting to at least NT\$100 million or 20% of the paid-in capital: Please see Table 5 attached;
- i. Names, locations, and related information of investees on which the Company exercises significant influence: Please see Table 6 attached;

j. Information about derivatives of investees over which the Company has a controlling interest:

TSMC Shanghai entered into forward exchange contracts during the three months ended March 31, 2008 to manage exposures due to foreign exchange rate fluctuations. Outstanding forward exchange contracts outstanding as of March 31, 2008:

Contract
Amount
Maturity Date (in Thousands)

Sell RMB/buy US\$ Sell US\$/buy JPY

April 2008 to July 2008 April 2008 RMB 369,259 US\$ 886

For the three months ended March 31, 2008, net losses arising from forward exchange contracts of TSMC Shanghai were NT\$2,151 thousand (including realized settlement gains of NT\$907 thousand and valuation losses of NT\$3.058 thousand).

XinTec entered into forward exchange contracts during the three months ended March 31, 2008 to manage exposures due to foreign exchange rate fluctuations. Outstanding forward exchange contract as of March 31, 2008:

Contract
Amount
Maturity Date (in Thousands)

Sell US\$/buy NT\$

April 2008 US \$5,000

For the three months ended March 31, 2008, net gains arising from forward exchange contracts of XinTec were NT\$12,727 thousand (including realized settlement gains of NT\$11,276 thousand and valuation gains of NT\$1,451 thousand).

- k. Information on investment in Mainland China
  - 1) The name of the investee in mainland China, the main businesses and products, its issued capital, method of investment, information on inflow or outflow of capital, percentage of ownership, equity in the net gain or net loss, ending balance, amount received as dividends from the investee, and the limitation on investee: Please see Table 7 attached.
  - 2) Significant direct or indirect transactions with the investee, its prices and terms of payment, unrealized gain or loss, and other related information which is helpful to understand the impact of investment in mainland China on financial reports: Please see Note 24.

Taiwan Semiconductor Manufacturing
Company Limited and Subsidiaries
Consolidated Financial Statements for the
Three Months Ended March 31, 2008 and 2007 and
Independent Accountants Review Report

#### INDEPENDENT ACCOUNTANTS REVIEW REPORT

The Board of Directors and Shareholders

Taiwan Semiconductor Manufacturing Company Limited

We have reviewed the accompanying consolidated balance sheets of Taiwan Semiconductor Manufacturing Company Limited and subsidiaries as of March 31, 2008 and 2007, and the related consolidated statements of income and cash flows for the three months then ended. These consolidated financial statements are the responsibility of the Company s management. Our responsibility is to issue a report on these consolidated financial statements based on our reviews. We conducted our reviews in accordance with Statement on Auditing Standards No. 36, Review of Financial Statements issued by the Auditing Standards Committee of the Accounting Research and Development Foundation of the Republic of China. A review consists principally of applying analytical procedures to financial data and making inquiries of persons responsible for financial and accounting matters. It is substantially less in scope than an audit conducted in accordance with auditing standards generally accepted in the Republic of China, the objective of which is the expression of an opinion regarding the consolidated financial statements taken as a whole. Accordingly, we do not express such an opinion.

Based on our reviews, we are not aware of any material modifications that should be made to the consolidated financial statements referred to above for them to be in conformity with the Guidelines Governing the Preparation of Financial Reports by Securities Issuers, requirements of the Business Accounting Law and Guidelines Governing Business Accounting with respect to financial accounting standards, and accounting principles generally accepted in the Republic of China.

As discussed in Note 3 to the consolidated financial statements, effective January 1, 2008, Taiwan Semiconductor Manufacturing Company Limited and subsidiaries adopted Interpretation 2007-052, Accounting for Bonuses to Employees, Directors and Supervisors issued by the Accounting Research and Development Foundation of the Republic of China and relevant requirements promulgated by the Financial Supervisory Commission of the Executive Yuan.

April 9, 2008

#### Notice to Readers

The accompanying consolidated financial statements are intended only to present the consolidated financial position, results of operations and cash flows in accordance with accounting principles and practices generally accepted in the Republic of China and not those of any other jurisdiction. The standards, procedures and practices to review such consolidated financial statements are those generally accepted and applied in the Republic of China. For the convenience of readers, the accountants—review report and the accompanying consolidated financial statements have been translated into English from the original Chinese version prepared and used in the Republic of China. If there is any conflict between the English version and the original Chinese version or any difference in the interpretation of the two versions, the Chinese-language accountants—review report and consolidated financial statements shall prevail.

Taiwan Semiconductor Manufacturing Company Limited and Subsidiaries NOTES TO CONSOLIDATED FINANCIAL STATEMENTS FOR THE THREE MONTHS ENDED MARCH 31, 2008 AND 2007 (Amounts in Thousands of New Taiwan Dollars, Unless Specified Otherwise) (Reviewed, Not Audited)

#### 1. GENERAL

Taiwan Semiconductor Manufacturing Company, Limited (TSMC), a Republic of China (R.O.C.) corporation, was incorporated as a venture among the Government of the R.O.C., acting through the Development Fund of the Executive Yuan; Philips Electronics N.V. and certain of its affiliates (Philips); and certain other private investors. On September 5, 1994, its shares were listed on the Taiwan Stock Exchange (TSE). On October 8, 1997, TSMC listed some of its shares of stock on the New York Stock Exchange (NYSE) in the form of American Depositary Shares (ADSs).

TSMC is engaged mainly in the manufacturing, selling, packaging, testing and computer-aided designing of integrated circuits and other semiconductor devices and the manufacturing of masks.

As of March 31, 2008 and 2007, TSMC and its subsidiaries had 25,107 and 23,983 employees, respectively.

#### 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The consolidated financial statements are presented in conformity with the Guidelines Governing the Preparation of Financial Reports by Securities Issuers, Business Accounting Law, Guidelines Governing Business Accounting, and accounting principles generally accepted in the R.O.C.

For the convenience of readers, the accompanying consolidated financial statements have been translated into English from the original Chinese version prepared and used in the R.O.C. If there is any conflict between the English version and the original Chinese version or any difference in the interpretation of the two versions, the Chinese-language consolidated financial statements shall prevail.

Significant accounting policies are summarized as follows:

#### **Principles of Consolidation**

The accompanying consolidated financial statements include the accounts of all directly and indirectly majority owned subsidiaries of TSMC, and the accounts of investees in which TSMC s ownership percentage is less than 50% but over which TSMC has a controlling interest. All significant intercompany balances and transactions are eliminated upon consolidation.

The consolidated entities were as follows:

Name of Investor	Name of Investee	Percentage of March 31, 2008	of Ownership March 31, 2007	Remark
TSMC	TSMC North America	100%	100%	
	TSMC Japan Limited (TSMC Japan)	100%	100%	
	TSMC Korea Limited (TSMC Korea)	100%	100%	
	Taiwan Semiconductor Manufacturing Company Europe B.V. (TSMC Europe)	100%	100%

(Concluded)

The following diagram presents information regarding the relationship and ownership percentages between TSMC and its consolidated investees as of March 31, 2008:

TSMC North America is engaged in selling and marketing of integrated circuits and semiconductor devices. TSMC Japan, TSMC Korea and TSMC Europe are engaged mainly in marketing activities. TSMC International is engaged in investment in companies involved in the design, manufacture, and other related business in the semiconductor industry. TSMC Global, TSMC Partners, TSMC Development, Chi Cherng and Hsin Ruey are engaged in investing activities. TSMC Shanghai is engaged in the manufacturing and selling of integrated circuits pursuant to the orders from and product design specifications provided by customers. Emerging Alliance, VTAF II, VTAF III, VTA Holdings, ISDF, and ISDF II are engaged in investing in new start-up technology companies. TSMC Canada and TSMC Technology are engaged mainly in engineering support activities. WaferTech is engaged in the manufacturing, selling, testing and computer-aided designing of integrated circuits and other semiconductor devices. GUC is engaged in researching, developing, manufacturing, testing and marketing of integrated circuits. GUC-NA and GUC-Japan are engaged in providing products consulting in North America and Japan, respectively. XinTec is engaged in the provision of wafer packaging service. Mutual-Pak is engaged in the manufacturing and selling of electronic parts, and researching, developing and testing of RFID.

TSMC together with its subsidiaries are hereinafter referred to collectively as the Company.

Minority interests in the aforementioned subsidiaries are presented as a separate component of shareholders equity.

#### **Use of Estimates**

The preparation of consolidated financial statements in conformity with the aforementioned guidelines, law and principles requires management to make reasonable assumptions and estimates of matters that are inherently uncertain. The actual results may differ from management s estimates.

#### Classification of Current and Noncurrent Assets and Liabilities

Current assets are assets held for trading purposes and assets expected to be converted to cash, sold or consumed within one year from the balance sheet date. Current liabilities are obligations incurred for trading purposes and obligations expected to be settled within one year from the balance sheet date. Assets and liabilities that are not classified as current are noncurrent assets and liabilities, respectively.

# **Cash Equivalents**

Repurchase agreements collateralized by government bonds, asset-backed commercial papers, corporate notes, and treasury bills acquired with maturities of less than three months from the date of purchase are classified as cash equivalents. The carrying amount approximates fair value.

# Financial Assets/Liabilities at Fair Value Through Profit or Loss

Derivatives that do not meet the criteria for hedge accounting and financial assets acquired principally for the purpose of selling them in the near term are initially recognized at fair value, with transaction costs expensed as incurred. The derivatives and financial assets are remeasured at fair value subsequently with changes in fair value recognized in earnings. A regular way purchase or sale of financial assets is accounted for using settlement date accounting. Fair value is determined as follows: Publicly traded stocks—closing prices at the end of the period; derivatives—using valuation techniques incorporating estimates and assumptions that are consistent with prevailing market conditions. When the fair value is positive, the derivative is recognized as a financial liability.

# **Available-for-sale Financial Assets**

Investments designated as available-for-sale financial assets include debt securities and equity securities. Available-for-sale financial assets are initially recognized at fair value plus transaction costs that are directly attributable to the acquisition. Changes in fair value from subsequent remeasurement are reported as a separate component of shareholders—equity. The corresponding accumulated gains or losses are recognized in earnings when the financial asset is derecognized from the balance sheet. A regular way purchase or sale of financial assets is accounted for using settlement date accounting.

Fair value is determined as follows: Structured time deposits—using valuation techniques; open-end mutual funds and money market funds—net asset values at the end of the period; publicly traded stocks—closing prices at the end of the period; and other debt securities - average of bid and asked prices at the end of the period.

Cash dividends are recognized as investment income upon resolution of shareholders of an investee but are accounted for as a reduction to the original cost of investment if such dividends are declared on the earnings of the investee attributable to the period prior to the purchase of the investment. Stock dividends are recorded as an increase in the number of shares held and do not affect investment income. The cost per share is recalculated based on the new total number of shares.

Any difference between the initial carrying amount of a debt security and the amount due at maturity is amortized using the effective interest method, with the amortization recognized in earnings.

If there is objective evidence which indicates that a financial asset is impaired, a loss is recognized. If, in a subsequent period, the amount of the impairment loss decreases, for equity securities, the previously recognized impairment loss is reversed to the extent of the decrease and recorded as an adjustment to shareholders—equity; for debt securities, the amount of the decrease is recognized in earnings, provided that the decrease is clearly attributable to an event which occurred after the impairment loss was recognized.

# **Held-to-maturity Financial Assets**

Debt securities for which the Company has a positive intention and ability to hold to maturity are categorized as held-to-maturity financial assets and are carried at amortized cost under the effective interest method except for structured time deposits which are carried at acquisition cost. Those financial assets are initially recognized at fair value plus transaction costs that are directly attributable to the acquisition. Gains or losses are recognized at the time of derecognition, impairment or amortization. A regular way purchase or sale of financial assets is accounted for using settlement date accounting.

If there is objective evidence which indicates that a financial asset is impaired, a loss is recognized. If, in a subsequent period, the amount of the impairment loss decreases and the decrease is clearly attributable to an event which occurred after the impairment loss was recognized, the previously recognized impairment loss is reversed to the extent of the decrease. The reversal may not result in a carrying amount that exceeds the amortized cost that would have been determined as if no impairment loss had been recognized.

#### Allowance for Doubtful Receivables

An allowance for doubtful receivables is provided based on a review of the collectibility of notes and accounts receivable. The Company determines the amount of the allowance for doubtful receivables by examining the aging analysis of outstanding notes and accounts receivable and current trends in the credit quality of its customers as well as its internal credit policies.

#### Revenue Recognition and Allowance for Sales Returns and Others

The Company recognizes revenue when evidence of an arrangement exists, the rewards of ownership and significant risk of the goods has been transferred to the buyer; price is fixed or determinable, and collectibility is reasonably assured. Provisions for estimated sales returns and others are recorded in the period the related revenue is recognized, based on historical experience, management s judgment, and any known factors that would significantly affect the allowance.

Sales prices are determined using fair value taking into account related sales discounts agreed to by the Company and its customers. Sales agreements typically provide that payment is due 30 days from invoice date for a majority of the customers and 30 to 45 days after the end of the month in which sales occur for some customers. Since the receivables from sales are collectible within one year and such transactions are frequent, fair value of the receivables is equivalent to the nominal amount of the cash to be received.

# **Inventories**

Inventories are stated at the lower of cost or market value. Inventories are recorded at standard cost and adjusted to the approximate weighted-average cost at the balance sheet date. Market value represents replacement cost for raw materials, supplies and spare parts and net realizable value for work in process and finished goods. The Company assesses the impact of changing technology on its inventories on hand and writes off inventories that are considered obsolete. Period-end inventories are evaluated for estimated excess quantities and obsolescence based on a demand forecast within a specific time horizon, which is generally 180 days or less. Estimated losses on scrap and slow-moving items are recognized and included in the allowance for losses.

#### **Investments Accounted for Using Equity Method**

Investments in companies wherein the Company exercises significant influence over the operating and financial policy decisions are accounted for using the equity method. The Company's share of the net income or net loss of an investee is recognized in the equity in earnings/losses of equity method investees, net account. Effective January 1, 2006, pursuant to the revised Statement of Financial Accounting Standards No. 5, Long-term Investments Accounted for Using the Equity Method, the cost of an investment shall be analyzed and the cost of investment in excess of the fair value of identifiable net assets acquired, representing goodwill, shall not be amortized and instead shall be tested for impairment annually. If the fair value of identifiable net assets acquired exceeds the cost of investment, the excess shall be proportionately allocated as reductions to fair values of non-current assets (except for financial assets other than investments accounted for using the equity method and deferred income tax assets). When an indication of impairment is identified, the carrying amount of the investment is reduced, with the related impairment loss recognized in earnings.

When the Company subscribes for additional investee s shares at a percentage different from its existing ownership percentage, the resulting carrying amount of the investment in the investee differs from the amount of the Company s share of the investee s equity. The Company records such a difference as an adjustment to long-term investments with the corresponding amount charged or credited to capital surplus.

Gains or losses on sales from the Company to equity method investees or from equity method investees to the Company are deferred in proportion to the Company s ownership percentages in the investees until they are realized through transactions with third parties.

If an investee s functional currency is a foreign currency, differences will result from the translation of the investee s financial statements into the reporting currency of the Company. Such differences are charged or credited to cumulative translation adjustments, a separate component of shareholders equity.

#### **Financial Assets Carried at Cost**

Investments for which the Company does not exercise significant influence and that do not have a quoted market price in an active market and whose fair value cannot be reliably measured, such as non-publicly traded stocks and mutual funds, are carried at their original cost. The costs of non-publicly traded stocks and mutual funds are determined using the weighted-average method. If there is objective evidence which indicates that a financial asset is impaired, a loss is recognized. A subsequent reversal of such impairment loss is not allowed.

The accounting treatment for cash dividends and stock dividends arising from financial assets carried at cost is the same as that for cash and stock dividends arising from available-for-sale financial assets.

#### Property, Plant and Equipment, Assets Leased to Others and Idle Assets

Property, plant and equipment and assets leased to others are stated at cost less accumulated depreciation. Properties covered by agreements qualifying as capital leases are carried at the lower of the leased equipment s market value or the present value of the minimum lease payments at the inception date of the lease, with the corresponding amount recorded as obligations under capital leases. When an indication of impairment is identified, any excess of the carrying amount of an asset over its recoverable amount is recognized as a loss. If the recoverable amount increases in a subsequent period, the amount previously recognized as impairment would be reversed and recognized as a gain. However, the adjusted amount may not exceed the carrying amount that would have been determined, net of depreciation, as if no impairment loss had been recognized. Significant additions, renewals and betterments incurred during the construction period are capitalized. Maintenance and repairs are expensed as incurred. Depreciation is computed using the straight-line method over the following estimated service lives: land improvements 20 years; buildings 10 to 20 years; machinery and equipment 3 to 10 years; office equipment 3 to 15 years; and leased assets 20 years.

Upon sale or disposal of property, plant and equipment and assets leased to others, the related cost and accumulated depreciation are deducted from the corresponding accounts, with any gain or loss recorded as non-operating gains or losses in the period of sale or disposal.

When property, plant and equipment are determined to be idle or useless, they are transferred to idle assets at the lower of the net realizable value or carrying amount. Depreciation on the idle assets is provided continuously, and the idle assets are tested for impairment on a periodical basis.

#### **Intangible Assets**

Goodwill represents the excess of the consideration paid for acquisition over the fair value of identifiable net assets acquired. Prior to January 1, 2006, goodwill was amortized using the straight-line method over the estimated life of 10 years. Effective January 1, 2006, pursuant to the newly revised Statement of Financial Accounting Standards No. 25, Business Combinations Accounting Treatment under Purchase Method (SFAS No. 25), goodwill is no longer amortized and instead is tested for impairment annually. If an event occurs or circumstances change which indicated that the fair value of goodwill is more likely than not below its carrying amount, an impairment loss is recognized. A subsequent reversal of such impairment loss is not allowed.

Deferred charges consist of technology license fees, software and system design costs and other charges. The amounts are amortized over the following periods: Technology license fees—the shorter of the estimated life of the technology or the term of the technology transfer contract; software and system design costs and other charges—2 to 5 years. When an indication of impairment is identified, any excess of the carrying amount of an asset over its recoverable amount is recognized as a loss. If the recoverable amount increases in a subsequent period, the previously recognized impairment loss would be reversed and recognized as a gain. However, the adjusted amount may not exceed the carrying amount that would have been determined, net of amortization, as if no impairment loss had been recognized. Expenditures related to research activities and those related to development activities that do not meet the criteria for capitalization are charged to expenses when incurred.

#### **Pension Costs**

For employees who participate in defined contribution pension plans, pension costs are recorded based on the actual contributions made to employees individual pension accounts during their service periods. For employees who participate in defined benefit pension plans, pension costs are recorded based on actuarial calculations.

#### **Government Subsidies**

Income-related subsidies from governments are recognized in earnings when the requirements for subsidies are met.

### **Income Tax**

The Company applies an inter-period allocation for its income tax whereby deferred income tax assets and liabilities are recognized for the tax effects of temporary differences, net operating loss carryforwards and unused tax credits. Valuation allowances are provided to the extent, if any, that it is more likely than not that deferred income tax assets will not be realized. A deferred tax asset or liability is classified as current or noncurrent in accordance with the classification of its related asset or liability. However, if a deferred tax asset or liability does not relate to an asset or liability in the financial statements, then it is classified as either current or noncurrent based on the expected length of time before it is realized or settled.

Any tax credits arising from purchases of machinery, equipment and technology, research and development expenditures, personnel training expenditures, and investments in important technology-based enterprises are recognized using the flow-through method.

Adjustments of prior years tax liabilities are added to or deducted from the current period s tax provision. Income tax on unappropriated earnings (excluding earnings from foreign consolidated subsidiaries) at a rate of 10% is expensed in the year of shareholder approval which is the year subsequent to the year the earnings are generated. The R.O.C. government enacted the Alternative Minimum Tax Act (the AMT Act), which became effective on January 1, 2006. The alternative minimum tax (AMT) imposed under the AMT Act is a supplemental tax levied at a rate of 10% which is payable if the income tax payable determined pursuant to the Income Tax Law is below the minimum amount prescribed under the AMT Act. The taxable income for calculating the AMT includes most of the tax-exempt income under various laws and statutes. TSMC and subsidiaries domiciled in the R.O.C. have considered the impact of the AMT Act in the determination of their tax liabilities.

#### **Stock-based Compensation**

Employee stock options that were modified or granted in the period from January 1, 2004 to December 31, 2007 are accounted for by the interpretations issued by the Accounting Research and Development Foundation of the Republic of China. The Company adopted the intrinsic value method and any compensation cost determined using this method is recognized in earnings over the employee vesting period. Employee stock option plans that were granted or modified after December 31, 2007 are accounted for using fair value method in accordance with Statement of Financial Accounting Standards No.39, Accounting for Share-based Payment . The Company did not grant or modify employee stock options during the three months ended March 31, 2008.

#### **Treasury Stock**

Treasury stock is stated at cost and shown as a deduction in shareholders equity. When TSMC retires treasury stock, the treasury stock account is reduced and the common stock as well as the capital surplus additional paid-in capital are reversed on a pro rata basis. When the book value of the treasury stock exceeds the sum of the par value and additional paid-in capital, the difference is charged to capital surplus treasury stock transactions and to retained earnings for any remaining amount.

TSMC s stock held by its subsidiaries is treated as treasury stock and reclassified from investments accounted for using equity method to treasury stock. The gains resulted from disposal of the treasury stock held by subsidiaries and cash dividends received by subsidiaries from TSMC are recorded under capital surplus treasury stock transactions.

### **Foreign-currency Transactions**

Foreign-currency transactions are recorded in New Taiwan dollars at the rates of exchange in effect when the transactions occur. Exchange gains or losses derived from foreign-currency transactions or monetary assets and liabilities denominated in foreign currencies are recognized in earnings.

At the balance sheet date, monetary assets and liabilities denominated in foreign currencies are revalued at prevailing exchange rates with the resulting gains or losses recognized in earnings.

#### **Translation of Foreign-currency Financial Statements**

The financial statements of foreign subsidiaries are translated into New Taiwan dollars at the following exchange rates: Assets and liabilities—spot rates at period-end; shareholders—equity—historical rates; income and expenses average rates during the period. The resulting translation adjustments are recorded as a separate component of shareholders—equity.

# **Recent Accounting Pronouncements**

The Accounting Research and Development Foundation (ARDF) of the R.O.C. revised Statement of Financial Accounting Standards No. 10, Accounting for Inventories (SFAS No. 10) in November 2007, which requires inventories to be stated at the lower of cost or net realizable value item by item. Inventories are recorded by the specific identification method, first-in, first-out method or weighted average method. The last-in, first-out method is no longer permitted. The revised SFAS No. 10 should be applied to financial statements for the fiscal years beginning on or after January 1, 2009. Early adoption is permitted.

# 3. ACCOUNTING CHANGES

Effective January 1, 2008, the Company adopted Interpretation 2007-052, Accounting for Bonuses to Employees, Directors and Supervisors issued in March 2007 by the ARDF, which requires companies to record bonuses paid to employees, directors and supervisors as an expense rather than as an appropriation of earnings. The adoption of this interpretation resulted in a decrease in net income and earnings per share (after income tax) of NT\$3,632,644 thousand and NT\$0.14, respectively, for the three months ended March 31, 2008.

Effective January 1, 2008, the Company adopted Statement of Financial Accounting Standards No. 39, Accounting for Share-based Payment , which requires companies to record share-based payment transactions in the financial statements at fair value. Such a change in accounting principle did not have any effect on the Company s financial statements as of and for the three months ended March 31, 2008.

# 4. CASH AND CASH EQUIVALENTS

	March 31	
	2008	2007
Cash and deposits in banks	\$ 137,769,493	\$ 97,040,591

For the three months ended March 31, 2008 and 2007, derivative transactions resulted in net gains of NT\$1,751,280 thousand (including realized settlement gains of NT\$1,626,968 thousand and valuation gains of NT\$124,312 thousand) and net losses of NT\$678,015 thousand (including realized settlement losses of NT\$510,632 thousand and valuation losses of NT\$167,383 thousand), respectively.

# 6. AVAILABLE-FOR-SALE FINANCIAL ASSETS

	Marc	ch 31
	2008	2007
Open-end mutual funds	\$ 14,146,226	\$ 24,092,104
Money market funds	13,960,741	246,588
Corporate bonds	10,139,449	15,612,472
Agency bonds	7,426,193	13,690,016
Corporate issued asset-backed securities	4,545,210	10,491,137
Government bonds	3,941,554	10,835,734
Publicly-traded stocks	524,695	210,226
Structured time deposits		499,288
	54,684,068	75,677,565
Current portion	(54,681,566)	(69,208,468)
	\$ 2,502	\$ 6,469,097

As of March 31, 2007, structured time deposits categorized as available-for-sale financial assets consisted of the following:

	Principal				
	<b>A 4</b>	Carrying	Interest	Maturity	
	Amount	Amount	Rate	<b>Date</b> March	
Step-up callable deposits Domestic deposits	\$ 500,000	\$ 499,288	1.76%	2008	

The interest rate of the step-up callable deposits is pre-determined by the Company and the banks.

# 7. HELD-TO-MATURITY FINANCIAL ASSETS

	March 31	
	2008	2007
Corporate bonds	\$ 10,908,455	\$ 13,426,614
Government bonds	6,091,684	8,676,382
Structured time deposits	1,000,000	11,117,800
	18,000,139	33,220,796
Current portion	(9,976,745)	(6,523,668)
	\$ 8,023,394	\$ 26,697,128

As of March 31, 2008 and 2007, structured time deposits categorized as held-to-maturity financial assets consisted of the following:

	Principal	I	nterest	Range of	
March 31, 2008	Amount	Re	ceivable	Interest Rates	Maturity Date
Step-up callable deposits					April 2008 to October
Domestic deposits	\$ 1,000,000	\$	3,844	1.77%-1.83%	April 2008 to October 2008
March 31, 2007					
Step-up callable deposits Domestic deposits Callable range accrual deposits	\$ 4,500,000	\$	13,593	1.50%-1.83%	June 2007 to October 2008
Domestic deposits	3,970,680		14,752	(See below)	September 2009 to December 2009 October 2009 to December
Foreign deposits	2,647,120		7,390	(See below)	2009
	\$ 11,117,800	\$	35,735		

The amount of interest earned from the Company for the callable range accrual deposits is based on a pre-defined range as determined by the 3-month or 6-month LIBOR plus an agreed upon rate ranging between 2.10% and 3.45%. Based on the terms of the contracts, if the 3-month or 6-month LIBOR moves outside of the pre-defined range, the interest paid to the Company is at a fixed rate between zero and 1.5%. Under the terms of the contracts, the bank has the right to cancel the contracts prior to the maturity date.

As of March 31, 2008, no structured time deposit resided in banks located in foreign countries. As of March 31, 2007, the principal of the deposits that resided in banks located in Hong Kong and Singapore amounted to US\$60,000 thousand and US\$20,000 thousand, respectively.

# 8. ALLOWANCES FOR DOUBTFUL RECEIVABLES, SALES RETURNS AND OTHERS

Movements of the allowance for doubtful receivables were as follows:

	Three Months Ended March 31	
	2008	2007

-24-		

Pursuant to the loan agreements, financial ratios calculated based on annual audited financial statements of TSMC Shanghai as well as semi-annual and annual financial statements of XinTec must comply with predetermined financial covenants. As of March 31, 2008, TSMC Shanghai and XinTec were in compliance with all such financial covenants. As of March 31, 2008, future principal repayments for the long-term bank loans were as follows:

Year of Repayment	Amount
2008 (2 <sup>nd</sup> to 4 <sup>th</sup> quarter) 2009	\$ 243,061 313,034
2010	929,088
2011 2012 and thereafter	242,541 288,480

\$2,016,204

#### 17. OTHER LONG-TERM PAYABLES

	March 31		
	2008	2007	
Payables for acquisition of property, plant and equipment (Note 291)	\$ 7,719,794	\$ 7,620,093	
Payables for royalties	4,644,036	3,994,705	
	12,363,830	11,614,798	
Current portion (classified under accrued expenses and other current liabilities)	(3,308,040)	(2,371,524)	
	\$ 9,055,790	\$ 9,243,274	
	φ 9,033,790	φ 9,243,274	

The payables for royalties were primarily attributable to several license arrangements that TSMC entered into for certain semiconductor-related patents.

As of March 31, 2008, future payments for other long-term payables were as follows:

Year of Payment	Amount
2008 (2 <sup>nd</sup> to 4 <sup>th</sup> quarter) 2009 2010 2011	\$ 3,236,893 545,466 466,412 395,265
2012 and thereafter	7,719,794

### 18. PENSION PLANS

The Labor Pension Act (the Act) became effective on July 1, 2005. The employees of TSMC, GUC and XinTec who were subject to the Labor Standards Law prior to July 1, 2005 were allowed to choose to be subject to the pension mechanism under the Act with their seniority as of July 1, 2005 retained or continue to be subject to the pension

\$12,363,830

mechanism under the Labor Standards Law. Employees who joined TSMC, GUC, XinTec and Mutual-Pak after July 1, 2005 can only be subject to the pension mechanism under the Act.

The pension mechanism under the Act is deemed a defined contribution plan. Pursuant to the Act, TSMC, GUC, XinTec and Mutual-Pak have made monthly contributions equal to 6% of each employee s monthly salary to employees pension accounts starting from July 1, 2005. Furthermore, TSMC North America, TSMC Shanghai, TSMC Europe, and TSMC Canada are required by local regulations to make monthly contributions, at a certain percentages of the monthly basic salary of their local employees. Pursuant to the aforementioned Act and local regulations, the Company made monthly contributions and recognized pension cost of NT\$203,360 thousand and NT\$171,440 thousand for the three months ended March 31, 2008 and 2007, respectively.

TSMC, GUC and XinTec have defined benefit plans under the Labor Standards Law that provide benefits based on an employee s length of service and average monthly salary for the six-month period prior to retirement. TSMC, GUC and XinTec contribute an amount equal to 2% of salaries paid each month to their respective pension funds (the Funds), which are administered by the Labor Pension Fund Supervisory Committees (the Committees) and deposited in the name of the Committees in the Bank of Taiwan (originally the Central Trust of China, which was merged into the Bank of Taiwan on July 1, 2007). The Company recognized pension cost of NT\$67,462 thousand and NT\$81,236 thousand for the three months ended March 31, 2008 and 2007, respectively. As of March 31, 2008 and 2007, the balance of the Funds was NT\$2,319,688 thousand and NT\$2,060,634 thousand, respectively.

#### 19. INCOME TAX

a. A reconciliation of income tax expense based on income before income tax at statutory rates and income tax currently payable was as follows:

	Three Months Ended March 31		
	2008	2007	
Income tax expense based on income before income tax at statutory rates  Tax effect of the following	\$ 7,968,898	\$ 5,053,273	
Tax-exempt income	(2,648,723)	(1,004,095)	
Temporary and permanent differences	550,838	3,006	
Others	41,235		
Additional tax at 10% on unappropriated earnings	13,926		
Income tax credits used	(3,014,023)	(1,973,283)	
Income tax currently payable	\$ 2,912,151	\$ 2,078,901	
b. Income tax expense consisted of the following:			
Income tax currently payable	\$ 2,912,151	\$ 2,078,901	
Other income tax adjustments	5,547	1,004	
Net change in deferred income tax assets			
Investment tax credits	1,357,191	485,059	
Net operating loss carryforwards	100,564	172,735	
Temporary differences	(284,807)	(850,859)	
Valuation allowance	(754,848)	(779,547)	
Income tax expense	\$ 3,335,798	\$ 1,107,293	
-26-			

c. Net deferred income tax assets consisted of the following:

	Marc	March 31			
	2008	2007			
Current deferred income tax assets, net					
Investment tax credits	\$ 8,217,617	\$ 9,604,294			
Temporary differences	783,544	677,152			
Valuation allowance	(521,197)	(523,758)			
	\$ 8,479,964	\$ 9,757,688			
Noncurrent deferred income tax assets, net					
Investment tax credits	\$ 5,683,405	\$ 10,275,634			
Net operating loss carryforwards	3,617,579	4,707,146			
Temporary differences	(2,471,405)	(2,812,883)			
Valuation allowance	(2,859,259)	(7,129,635)			
	\$ 3,970,320	\$ 5,040,262			

As of March 31, 2008, the net operating loss carryforwards were generated by WaferTech, TSMC Development, TSMC Technology and XinTec and would expire on various dates through 2026.

d. Integrated income tax information:

The balance of the imputation credit account of TSMC as of March 31, 2008 and 2007 was NT\$3,012,848 thousand and NT\$828,612 thousand, respectively.

The estimated and actual creditable ratio for distribution of TSMC s earnings of 2007 and 2006 was 1.86% and 5.23%, respectively.

The imputation credit allocated to the shareholders is based on its balance as of the date of dividend distribution. The estimated creditable ratio may change when the actual distribution of the imputation credit is made.

- e. All of TSMC s earnings generated prior to December 31, 1997 have been appropriated.
- f. As of March 31, 2008, investment tax credits of TSMC, GUC, XinTec and Mutual-Pak consisted of the following:

Law/Statute	Item	Total Creditable Amount	Remaining Creditable Amount	Expiry Year
Statute for Upgrading Industries	Purchase of machinery and equipment	\$ 24,335 14,328 6,192,393 4,490,475 13,756	\$ 24,335 14,328 4,958,114 4,490,475 13,756	2008 2009 2010 2011 2012
		\$ 10,735,287	\$ 9,501,008

#### 21. SHAREHOLDERS EQUITY

As of March 31, 2008, 1,110,083 thousand ADSs of TSMC were traded on the NYSE. The number of common shares represented by the ADSs was 5,550,414 thousand (one ADS represents five common shares).

Capital surplus can only be used to offset a deficit under the Company Law. However, the capital surplus generated from donations and the excess of the issuance price over the par value of capital stock (including the stock issued for new capital, mergers, convertible bonds and the surplus from treasury stock transactions) may be appropriated as stock dividends, which are limited to a certain percentage of TSMC s paid-in capital. Capital surplus consisted of the following:

	March 31		
	2008	2007	
From merger	\$ 23,276,911	\$ 24,003,546	
Additional paid-in capital	18,994,954	20,063,728	
From convertible bonds	9,077,065	9,360,424	
From long-term investments	347,180	414,524	
Donations	55	55	
From treasury stock transactions		389,188	
	\$51,696,165	\$ 54,231,465	

TSMC s Articles of Incorporation provide that, when allocating the net profits for each fiscal year, TSMC shall first offset its losses in previous years and then set aside the following items accordingly:

Legal capital reserve at 10% of the profits left over, until the accumulated legal capital reserve has equaled TSMC s paid-in capital;

b. Special capital reserve in accordance with relevant laws or regulations or as requested by the authorities in charge;

-29-

- c. Bonus to directors and bonus to employees of TSMC of not more than 0.3% and not less than 1% of the remainder, respectively. Directors who also serve as executive officers of TSMC are not entitled to receive the bonus to directors. TSMC may issue stock bonuses to employees of an affiliated company meeting the conditions set by the Board of Directors or, by the person duly authorized by the Board of Directors;
- d. Any balance left over shall be allocated according to the resolution of the shareholders meeting. TSMC s Articles of Incorporation also provide that profits of TSMC may be distributed by way of cash dividend and/or stock dividend. However, distribution of profits shall be made preferably by way of cash dividend. Distribution of profits may also be made by way of stock dividend; provided that the ratio for stock dividend shall not exceed 50% of the total distribution.

Any appropriations of the profits are subject to shareholders approval in the following year.

For the three months ended March 31, 2008, TSMC has recorded bonuses to employees and directors with a charge to earnings of approximately 15.3% of its net income. Material differences between such estimated amounts and the amounts proposed by the Board of Directors subsequently are retroactively adjusted for in the current year. If the actual amounts subsequently resolved by the shareholders differ from the proposed amounts, the differences are recorded in the year of shareholders—resolution as a change in accounting estimate.

TSMC no longer has supervisors since January 1, 2007. The required duties of supervisors are being fulfilled by the Audit Committee.

The appropriation for legal capital reserve shall be made until the reserve equals TSMC s paid-in capital. The reserve may be used to offset a deficit, or be distributed as dividends and bonuses for the portion in excess of 50% of the paid-in capital if TSMC has no unappropriated earnings and the reserve balance has exceeded 50% of TSMC s paid-in capital. The Company Law also prescribes that, when the reserve has reached 50% of TSMC s paid-in capital, up to 50% of the reserve may be transferred to capital.

A special capital reserve equivalent to the net debit balance of the other components of shareholders equity (for example, cumulative translation adjustments and unrealized loss on financial instruments, but excluding treasury stock) shall be made from unappropriated earnings pursuant to existing regulations promulgated by the Securities and Futures Bureau (SFB). Any special reserve appropriated may be reversed to the extent that the net debit balance reverses.

The appropriations of earnings for 2007 and 2006 had been approved in TSMC s Board of Directors meeting held on February 19, 2008 and a shareholders meeting held on May 7, 2007, respectively. The appropriations and dividends per share were as follows:

	Appropriations of Earnings			ds Per Share (NT\$)	
	For Fiscal Year 2007	For Fiscal Year 2006	For Fiscal Year 2007	F Y	For Tiscal Year 2006
Legal capital reserve Special capital reserve Bonus to employees in cash Bonus to employees in stock Cash dividends to shareholders Stock dividends to shareholders Bonus to directors and supervisors	\$ 10,917,709 (237,693) 3,939,883 3,939,883 76,881,311 512,542 176,890	\$ 12,700,973 (11,192) 4,572,798 4,572,798 77,489,064 516,594 285,800	\$ 3.00 0.02	\$	3.00 0.02
	\$ 96,130,525	\$ 100,126,835			

The Board of Directors meeting held on February 19, 2008 and the shareholders meeting held on May 7, 2007 also resolved to distribute stock dividends out of capital surplus in the amount of NT\$768,813 thousand and NT\$774,891 thousand, respectively.

The amounts of the appropriations of earnings for 2006 are consistent with the resolutions of the meetings of the Board of Directors held on February 6, 2007. The amounts of the appropriations of earnings for 2007 and the stock dividends to be distributed out of capital surplus have not yet been resolved by the shareholders. If the above bonuses to employees, directors and supervisors had been paid entirely in cash and charged to earnings of 2007 and 2006, the basic earnings per share (after income tax) for the years ended December 31, 2007 and 2006 shown in the respective financial statements would have decreased from NT\$4.14 to NT\$3.84 and NT\$4.93 to NT\$4.56, respectively. The shares distributed as a bonus to employees represented 1.49% and 1.77% of TSMC s total outstanding common shares as of December 31, 2007 and 2006, respectively.

The information about the appropriations of bonuses to employees, directors and supervisors is available at the Market Observation Post System website.

Under the Integrated Income Tax System that became effective on January 1, 1998, the R.O.C. resident shareholders are allowed a tax credit for their proportionate share of the income tax paid by TSMC on earnings generated since January 1, 1998.

#### 22. STOCK-BASED COMPENSATION PLANS

TSMC s Employee Stock Option Plans under the TSMC 2004 Plan, TSMC 2003 Plan and TSMC 2002 Plan were approved by the SFB on January 6, 2005, October 29, 2003 and June 25, 2002, respectively. The maximum number of options authorized to be granted under the TSMC 2004 Plan, TSMC 2003 Plan and TSMC 2002 Plan was 11,000 thousand, 120,000 thousand and 100,000 thousand, respectively, with each option eligible to subscribe for one common share when exercisable. The options may be granted to qualified employees of TSMC or any of its domestic or foreign subsidiaries, in which TSMC s shareholding with voting rights, directly or indirectly, is more than fifty percent (50%). The options of all the plans are valid for ten years and exercisable at certain percentages subsequent to the second anniversary of the grant date. Under the terms of the plans, the options are granted at an exercise price equal to the closing price of TSMC s common shares listed on the TSE on the grant date.

Options of the aforementioned plans that had never been granted or had been granted but subsequently cancelled had expired as of March 31, 2008.

Information about TSMC s outstanding stock options for the three months ended March 31, 2008 and 2007 was as follows:

Three months ended March 31, 2008		Number of Options (in Thousands)	Weighted- average Exercise Price (NT\$)
Balance, beginning of period Options exercised Options cancelled		41,875 (2,138) (193)	\$ 37.4 37.9 46.8
Balance, end of period		39,544	37.3
	-31-		(Continued)

Three months ended March 31, 2007	Number of Options (in Thousands)	Weighted- average Exercise Price (NT\$)
Balance, beginning of period Options exercised Options cancelled	52,814 (3,271) (252)	\$ 39.6 37.3 47.2
Balance, end of period	49,291	39.7

(Concluded)

The number of outstanding options and exercise prices have been adjusted to reflect the distribution of earnings by TSMC in accordance with the plans.

As of March 31, 2008, information about TSMC s outstanding and exercisable options was as follows:

	O	<b>Options Outstanding</b>		Options Ex	xercisable
Range of Exercise Price (NT\$)	Number of Options (in Thousands)	Weighted- average Remaining Contractual Life (Years)	Weighted- average Exercise Price (NT\$)	Number of Options (in Thousands)	Weighted- average Exercise Price (NT\$)

38.9-51.3	12,474	6.65	46.6	6,162	46.4
	39,544		37.3	33,232	35.5

GUC s Employee Stock Option Plans, consisting of the GUC 2003 Plan and GUC 2002 Plan, were approved by its Board of Directors on January 23, 2003 and July 1, 2002, respectively. The maximum number of options authorized to be granted under the GUC 2003 Plan and GUC 2002 Plan was 7,535 and 5,000, respectively, with each option eligible to subscribe for one thousand common shares when exercisable. The options may be granted to qualified employees of GUC. The options of all the plans are valid for six years and exercisable at certain percentages subsequent to the second anniversary of the grant date.

Moreover, the GUC 2007 Plan, GUC 2006 Plan, and GUC 2004 Plan were approved by the SFB on November 28, 2007, July 3, 2006, and August 16, 2004 to grant a maximum of 1,999 options, 3,665 options and 2,500 options, respectively, with each option eligible to subscribe for one thousand common shares when exercisable. The options may be granted to qualified employees of GUC or any of its subsidiaries. Except for the options of the GUC 2006 Plan which are valid until August 15, 2011, the options of the other two GUC option Plans are valid for six years. Options of all three Plans are exercisable at certain percentages subsequent to the second anniversary of the grant date.

Information about GUC s outstanding stock options for the three months ended March 31, 2008 and 2007 was as follows:

	Number of	average Exercise Price	
	Options	(NT\$)	
Three months ended March 31, 2008			
Balance, beginning of period	7,598	\$ 60.3

194.0	1,838	5.75	194.0		
	7,230		60.4	737	10.3

XinTec s Employee Stock Option Plans, consisting of the XinTec 2007 Plan and XinTec 2006 Plan, were approved by the SFB on June 26, 2007 and July 3, 2006, respectively. The maximum number of options authorized to be granted under the XinTec 2007 Plan and XinTec 2006 Plan was 6,000 thousand each, with each option eligible to subscribe

for one common share of XinTec when exercisable. The options may be granted to qualified employees of XinTec or any of its subsidiaries. The options of all the plans are valid for ten years and exercisable at certain percentages subsequent to the second anniversary of the grant date.

-33-

Information about XinTec s outstanding stock options for the three months ended March 31, 2008 and 2007 was as follows:

Three months ended March 31, 2008	Number of Options (in Thousands)	Weighted- average Exercise Price (NT\$)
Balance, beginning of period	9,642	\$ 15.1
Options cancelled	(144)	14.5

23. TREASURY STOCK					

(Shares in Thousands)

Three months ended March 31, 2008	Beginning Shares	Addition	Retirement	Ending Shares
Parent company stock held by subsidiaries Repurchase under share buyback plan	34,096 800,000		800,000	34,096
	834,096		800,000	34,096
Three months ended March 31, 2007				
Parent company stock held by subsidiaries	33,926			33,926

As of March 31, 2008 and 2007, the book value of the treasury stock was NT\$918,075 thousand each and its market value was NT\$2,151,452 thousand and NT\$2,303,596 thousand, respectively. TSMC s common shares held by subsidiaries is treated as treasury stock and the holders are entitled to the rights of shareholders, with the exception of voting rights.

TSMC held a meeting of the Board of Directors and approved a share buyback plan to repurchase the TSMC s common shares up to 800,000 shares listed on the TSE during the period from November 14, 2007 to January 13, 2008 for the buyback price in the range from NT\$43.2 to NT\$94.2. As of December 31, 2007, TSMC had repurchased 800,000 thousand common shares. All the treasury stock repurchased was retired on February 27, 2008.

#### 24. EARNINGS PER SHARE

EPS was computed as follows:

			<b>Number of</b>	EPS (NT\$)		
	Amounts (N		Shares	Before	After	
	Before	After	(Denominator) (in	Income	Income	
	<b>Income Tax</b>	<b>Income Tax</b>	Thousands)	Tax	Tax	
Three months ended March 31, 2008						
Basic EPS Income available to common shareholders of the parent	\$31,471,701	\$ 28,143,382	25,593,835	\$ 1.23	\$ 1.10	
Effect of dilutive potential common stock stock options			16,225			
Diluted EPS Income available to common shareholders of the parent (including effect of dilutive potential common stock)	\$31,471,701	\$ 28,143,382	25,610,060	\$ 1.23	\$ 1.10	
Three months ended March 31, 2007						
Basic EPS Income available to common shareholders of the parent	\$ 19,944,094	\$ 18,838,639	26,384,121	\$ 0.76	\$ 0.71	
Effect of dilutive potential common stock stock options			21,538			
Diluted EPS Income available to common shareholders of the parent (including effect of dilutive potential common stock)	\$ 19,944,094	\$ 18,838,639	26,405,659	\$ 0.76	\$ 0.71	

The average number of shares outstanding for EPS calculation has been retroactively adjusted for the issuance of stock dividends and employee stock bonuses. This adjustment caused each of the basic and diluted after income tax EPS for the three months ended March 31, 2007 to decrease from NT\$0.73 to NT\$0.71.

### 25. DISCLOSURES FOR FINANCIAL INSTRUMENTS

a. Fair values of financial instruments were as follows:

# March 31

	2008		20	007
	Carrying		Carrying	
	Amount	Fair Value	Amount	Fair Value
Assets				
Financial assets at fair value through				
profit or loss	\$ 1,375,693	\$ 1,375,693	\$ 1,364,325	\$ 1,364,325
Available-for-sale financial assets	54,684,068	54,684,068	75,677,565	75,677,565
Held-to-maturity financial assets	18,000,139	18,001,071	33,220,796	33,203,292
Liabilities				
Financial liabilities at fair value through				
profit or loss	244,283	244,283	133,808	133,808
Bonds payable (including current				
portion)	12,500,000	12,657,936	17,000,000	17,279,497
Long-term bank loans (including				
current portion)	2,016,204	2,016,204	1,542,298	1,542,298
Other long-term payables (including				
current portion)	12,363,830	12,363,830	11,614,798	11,614,798
Obligations under capital leases	649,941	649,941	628,506	628,506
	-36	-		

- Methods and assumptions used in the estimation of fair values of financial instruments
  - The aforementioned financial instruments do not include cash and cash equivalents, receivables, other financial assets, short-term bank loans, payables, and payables to contractors and equipment suppliers. The carrying amounts of these financial instruments approximate their fair values due to their short maturities.
  - Fair values of financial assets/liabilities at fair value through profit or loss, available-for-sale and held-to-maturity financial assets other than derivatives and structured time deposits were based on their quoted market prices.
  - 3) Fair values of derivatives and structured time deposits were determined using valuation techniques incorporating estimates and assumptions that were consistent with prevailing market conditions.
  - 4) Fair value of bonds payable was based on their quoted market price.
  - 5) Fair values of long-term bank loans, other long-term payables and obligations under capital leases were based on the present value of expected cash flows, which approximates their carrying amount.
- The changes in fair value during the three months ended March 31, 2008 and 2007 of financial assets/liabilities at fair value through profit or loss, including derivatives estimated using valuation techniques and publicly traded stocks, were recognized as losses of NT\$163,750 thousand and gains of NT\$16,688 thousand, respectively.
- As of March 31, 2008 and 2007, financial assets exposed to fair value interest rate risk were NT\$72,322,594 thousand and NT\$108,688,294 thousand, respectively, financial liabilities exposed to fair value interest rate risk were NT\$244,283 thousand and NT\$133,808 thousand, respectively. Financial assets exposed to cash flow interest rate risk as of March 31, 2007 were NT\$6,617,800 thousand.
- Movements of the unrealized gain on financial instruments for the three months ended March 31, 2008 and 2007 were as follows:

	Valuation Gain on Available- for-sale Financial Assets	E V: Av f Fi Ass	Ended March quity in aluation Gain on vailable- for-sale inancial sets Held by	th 31, 2008
Balance, beginning of period Recognized directly in shareholders equity Removed from shareholders equity and recognized in earnings	\$ 627,838 (151,003) (117,312)	\$	53,159 (11,821)	\$ 680,997 (162,824) (117,312)
Balance, end of period	\$ 359,523	\$	41,338	\$ 400,861

	Three Mo Valuation Gain on Available- for-sale Financial	onths Ended Marc Equity in Valuation Gain on Available- for-sale Financial Assets Held by		h 31, 2007	
	Assets	I	nvestees	Total	
Balance, beginning of period Recognized directly in shareholders equity Removed from shareholders equity and recognized in earnings	\$ 386,017 219,731 (63,314)	\$	175,598 2,102	\$ 561,615 221,833 (63,314)	
Balance, end of period	\$ 542,434	\$	177,700	\$ 720,134	

#### f. Information about financial risk

- 1) Market risk. The publicly traded stocks categorized as financial assets at fair value through profit or loss are exposed to market price fluctuations. The derivative financial instruments categorized as financial assets/liabilities at fair value through profit or loss are mainly used to hedge the exchange rate fluctuations of foreign-currency assets and liabilities; therefore, the market risk of derivatives will be offset by the foreign exchange risk of these hedged items. Available-for-sale financial assets held by the Company are mainly fixed-interest-rate debt securities; therefore, the fluctuations in market interest rates would result in changes in fair value of these debt securities. The fair value of asset-backed securities is subject to price fluctuations in an unstable United States credit environment.
- 2) Credit risk. Credit risk represents the potential loss that would be incurred by the Company if the counter-parties or third-parties breached contracts. Financial instruments with positive fair values at the balance sheet date are evaluated for credit risk. The counter-parties or third-parties to the foregoing financial instruments are reputable financial institutions, business organizations, and government agencies. Management believes that the Company s exposure to default by those parties is low.
- 3) Liquidity risk. The Company has sufficient operating capital to meet cash needs upon settlement of derivative financial instruments, bonds payable and bank loans. Therefore, the liquidity risk is low.
- 4) Cash flow interest rate risk. The Company mainly invests in fixed-interest-rate debt securities. Therefore, cash flows are not expected to fluctuate significantly due to changes in market interest rates.

## 26. RELATED PARTY TRANSACTIONS

Except as disclosed elsewhere in the consolidated financial statements and other notes, the following is a summary of significant related party transactions:

a. Investees of TSMC

VIS (accounted for using equity method) SSMC (accounted for using equity method)

- b. VisEra Technology Company, Ltd. (VisEra), an indirect investee accounted for using equity method by TSMC
- d. Others: Related parties over which the Company has control or exercises significant influence but with which the Company had no material transactions

	2008	2008		2007	
	Amount	<b>%</b>	Amount	%

	\$ 956,105	100	\$ 1,156,273	100
Deferred credits VisEra	\$ 46,631	9	\$ 108,806	9

The terms of sales to related parties were not significantly different from those of sales to third parties. For other related party transactions, prices were determined in accordance with mutual agreements.

TSMC deferred the gains (classified under deferred credits) derived from sales of property, plant and equipment to VisEra, and then recognized such gains (classified under non-operating income and gains) over the depreciable lives of the disposed assets.

TSMC leased certain buildings and facilities to VisEra. The related rental income was classified under non-operating income. The lease terms and prices were determined in accordance with mutual agreements.

#### 27. PLEDGED OR MORTGAGED ASSETS

The Company provided certain assets as collateral mainly for long-term bank loans and land lease agreements, which were as follows:

	March 31			
	2008	2007		
Other financial assets	\$ 28,511	\$ 62,166		
Property, plant and equipment, net	5,206,652	5,355,056		
	φ.σ. <b>20</b> σ. 1 60	Φ.5. 415. OO		
	\$ 5,235,163	\$5,417,222		

#### 28. SIGNIFICANT LONG-TERM LEASES

The Company leases several parcels of land and office premises from the SPA and Jhongli Industrial Park Service Center. These operating leases expire on various dates from September 2008 to December 2028 and can be renewed upon expiration.

The Company entered into lease agreements for its office premises and certain equipment located in the United States, Europe, Japan, Shanghai and Taiwan. These operating leases expire between 2008 and 2016 and can be renewed upon expiration.

As of March 31, 2008, future lease payments were as follows:

	Year	Amount
2008 (2 <sup>nd</sup> to 4 <sup>th</sup> quarter) 2009 2010 2011 2012 and thereafter		\$ 441,645 557,832 474,950 331,678 2,703,159

\$4,509,264

#### 29. SIGNIFICANT COMMITMENTS AND CONTINGENCIES

Significant commitments and contingencies of the Company as of March 31, 2008, excluding those disclosed in other notes, were as follows:

- a. On June 20, 2004, TSMC and Philips (Philips parted with its semiconductor company which was renamed as NXP B.V. in September 2006) amended the Technical Cooperation Agreement, which was originally signed on May 12, 1997. The amended Technical Cooperation Agreement is for five years beginning from January 1, 2004. Upon expiration, this amended Technical Cooperation Agreement will be terminated and will not be automatically renewed; however, the patent cross license arrangement between TSMC and Philips (now NXP B.V.) will survive the expiration of the amended Technical Cooperation Agreement. Under this amended Technical Cooperation Agreement, TSMC will pay Philips (now NXP B.V.) royalties based on a fixed amount mutually agreed-on, rather than under a certain percentage of TSMC s annual net sales. TSMC and Philips (now NXP B.V.) agreed to cross license the patents owned by each party. TSMC also obtained through Philips (now NXP B.V.) a number of cross patent licenses.
- b. Under a technical cooperation agreement with ITRI, the R.O.C. Government or its designee approved by TSMC can use up to 35% of TSMC s capacity if TSMC s outstanding commitments to its customers are not prejudiced. The term of this agreement is for five years beginning from January 1, 1987 and is automatically renewed for successive periods of five years unless otherwise terminated by either party with one year prior notice.
- c. Under several foundry agreements, TSMC shall reserve a portion of its production capacity for certain major customers that have guarantee deposits with TSMC. As of March 31, 2008, TSMC had a total of US\$60,730 thousand of guarantee deposits.
- d. Under a Shareholders Agreement entered into with Philips and EDB Investments Pte Ltd. on March 30, 1999, the parties formed a joint venture company, SSMC, which is an integrated circuit foundry in Singapore. TSMC s equity interest in SSMC was 32%. Nevertheless, Philips parted with its semiconductor company which was renamed as NXP B.V. in September 2006. TSMC and NXP B.V. purchased all the SSMC shares owned by EDB Investments Pte Ltd. pro rata according to the Shareholders Agreement on November 15, 2006. After the purchase, TSMC and NXP B.V. currently own approximately 39% and 61% of the SSMC shares respectively. TSMC and Philips (now NXP) committed to buy specific percentages of the production capacity of SSMC. TSMC and Philips (now NXP B.V.) are required, in the aggregate, to purchase up to 70% of SSMC s capacity, but TSMC alone is not required to purchase more than 28% of the capacity. If any party defaults on the commitment and the capacity utilization of SSMC fall below a specific percentage of its capacity, the defaulting party is required to compensate SSMC for all related unavoidable costs.

- e. TSMC provides technical services to SSMC under a Technical Cooperation Agreement (the Agreement) effective March 30, 1999. TSMC receives compensation for such services computed at a specific percentage of net selling price of all products sold by SSMC. The Agreement shall remain in force for ten years and may be automatically renewed for successive periods of five years each unless pre-terminated by either party under certain conditions.
- f. Under a Technology Transfer Agreement (TTA) with National Semiconductor Corporation (National) entered into on June 27, 2000, TSMC shall receive payments for the licensing of certain technology to National. The agreement was to remain in force for ten years and could be automatically renewed for successive periods of two years thereafter unless either party gives written notice for early termination under certain conditions. In January 2003, TSMC and National entered into a Termination Agreement whereby the TTA was terminated. Under the Termination Agreement, TSMC would be relieved of any further obligation to transfer any additional technology. In addition, TSMC granted National an option to request prior to January 2008 the transfer of certain technologies under the same terms and conditions as the terminated TTA. National did not make such request by the deadline, therefore the option expired in January 2008.
- g. In December 2003, TSMC entered into a Technology Development and License Agreement with Freescale Semiconductor, Inc. to jointly develop 65-nm SOI (silicon on insulator) technology. TSMC would also license related 90-nm SOI technology from Freescale Semiconductor, Inc. Any intellectual properties arising out of the co-development project shall be jointly owned by the parties. In accordance with the agreement, TSMC would pay royalties to Freescale Semiconductor, Inc. and would share a portion of the costs associated with the joint development project. The agreement expired in December 2007. TSMC did not capitalize related intellectual properties arising from the co-development project because those intellectual properties did not meet the capitalization criteria set forth in Statement of Financial Accounting Standards No. 37 Accounting for Intangible Assets .
- h. TSMC provides a technology transfer to VIS under a Manufacturing License and Technology Transfer Agreement entered into on April 1, 2004. TSMC receives compensation for such technology transfer in the form of royalty payments from VIS computed at specific percentages of net selling price of certain products sold by VIS. VIS agreed to reserve its certain capacity to manufacture for TSMC certain products at prices as agreed by the parties.
- i. Effective January 1, 2006, The Company entered into the Joint Technology Cooperation Agreement with Philips (now NXP B.V.), Freescale Semiconductor, Inc. and STMicroelectronics to jointly develop 45-nm and beyond advanced CMOS Logic and e-DRAM technologies. The Company would contribute process technologies and share a portion of the costs associated with this joint development project. This agreement was to expire on December 31, 2008, but the Company had ended its participation in the project. For the Company, this agreement had terminated as of January 26, 2008.
- j. TSMC, TSMC North America and WaferTech filed a series of lawsuits in late 2003 and 2004 against Semiconductor Manufacturing International Corporation, SMIC (Shanghai) and SMIC Americas (aggregately referring to as SMIC). The lawsuits alleged that SMIC infringed multiple TSMC, TSMC North America and WaferTech patents and misappropriated TSMC, TSMC North America and WaferTech s trade secrets. These suits were settled out of court on January 30, 2005. As part of the settlement, Semiconductor Manufacturing International Corporation shall pay US\$175 million over six years to resolve TSMC, TSMC North America and WaferTech s claims. As of March 31, 2008, SMIC had paid US\$90 million in accordance with the terms of this settlement agreement. In August 2006, TSMC, TSMC North America and WaferTech filed a lawsuit against SMIC in Alameda County Superior Court in California for breach of aforementioned settlement agreement, breach of promissory notes and trade secret misappropriation, seeking injunctive relief and

monetary damages. In September 2006, SMIC filed a cross-complaint against TSMC, TSMC North America and WaferTech in the same court, alleging TSMC, TSMC North America and WaferTech of breach of the settlement agreement and implied covenant of good faith and fair dealing, in response to TSMC, TSMC North America and WaferTech s August complaint. In November 2006, SMIC filed a complaint with Beijing People s High Court against TSMC, TSMC North America and WaferTech alleging defamation

and breach of good faith. The California State Superior Court of Alameda County issued an Order on TSMC, TSMC North America and WaferTech s pre-trial motion for a preliminary injunction against SMIC on September 7, 2007. In the Order, the Court found TSMC has demonstrated a significant likelihood that it will ultimately prevail on the merits of its claim for breach of certain paragraphs of the (2005) Settlement Agreement with SMIC. The Court also found TSMC has demonstrated a significant probability of establishing that SMIC retains and is using TSMC Information in SMIC s 0.13um and smaller technologies, and there is significant threat of serious irreparable harm to TSMC if SMIC were to disclose or transfer that information before final resolution of the case. Therefore, the Court ordered that, effective immediately, SMIC must provide advance notice and an opportunity for TSMC, TSMC North America and WaferTech to object before disclosing items enumerated in the Court Order to SMIC s third party partners. The Court, however, did not grant a preliminary injunction as requested by TSMC, TSMC North America and WaferTech. The result of the above-mentioned litigation cannot be determined at this time.

- k. In April 2004, UniRAM Technology, Inc. (UniRAM) filed an action against MoSys Inc., TSMC and TSMC North America in the U.S. District Court for the Northern District of California, alleging patent infringement and trade secret misappropriation and seeking injunctive relief and damages. UniRAM later dropped its patent infringement claims during the course of litigation, but TSMC s inequitable conduct counterclaim against UniRAM s asserted patents remained. In 2007, the trade secret misappropriation portion of the case went to trial, and in September 2007, a jury-rendered a verdict awarding US\$30.5 million to UniRAM Technology, Inc. The court held a separate bench trial on the inequitable conduct counterclaims in January 2008, but has yet to issue a decision as of March 25, 2008. During the January bench trial, UniRAM has also raised anew its motion to enjoin TSMC from offering certain technologies that UniRAM alleges to contain its confidential information. This issue has also not been decided. As a procedural matter, the jury verdict cannot be entered into the record while the inequitable conduct issues remain undecided. Nevertheless, as a result of the verdict, TSMC has accrued the full amount of the jury award in September 2007 as part of the non-operating expenses. TSMC intends to continue to pursue remedies against this verdict.
- 1. The Company entered into an agreement with a counterparty in 2003 whereby TSMC Shanghai is obligated to purchase certain property, plant and equipment at the agreed-upon price within the contract period. If the purchase is not completed, TSMC Shanghai is obligated to compensate the counterparty for the loss incurred. The property, plant and equipment have been in use by TSMC Shanghai since 2004 and are being depreciated over their estimated service lives. The related obligation totaled NT\$7,719,794 thousand and NT\$7,620,093 thousand as of March 31, 2008 and 2007, respectively, which is included in other long-term payables on the Company s consolidated balance sheets.
- m. Amounts available under unused letters of credit as of March 31, 2008 were NT\$474 thousand.

#### 30. ADDITIONAL DISCLOSURES

Following are the additional disclosures required by the SFB for TSMC and its investees:

- a. Financing provided: None
- b. Endorsement/guarantee provided: None
- c. Marketable securities held: Please see Table 1 attached;
- d. Marketable securities acquired and disposed of at costs or prices of at least NT\$100 million or 20% of the paid-in capital: Please see Table 2 attached;
- e. Acquisition of individual real estate properties at costs of at least NT\$100 million or 20% of the paid-in capital: Please see Table 3 attached;

- f. Disposal of individual real estate properties at prices of at least NT\$100 million or 20% of the paid-in capital: None;
- g. Total purchases from or sales to related parties amounting to at least NT\$100 million or 20% of the paid-in capital: Please see Table 4 attached;
- h. Receivable from related parties amounting to at least NT\$100 million or 20% of the paid-in capital: Please see Table 5 attached;
- i. Names, locations, and related information of investees over which TSMC exercises significant influence: Please see Table 6 attached;
- j. Information on investment in Mainland China
  - 1) The name of the investee in mainland China, the main businesses and products, its issued capital, method of investment, information on inflow or outflow of capital, percentage of ownership, equity in the net gain or net loss, ending balance, amount received as dividends from the investee, and the limitation on investee: Please see Table 7 attached.
  - 2) Significant direct or indirect transactions with the investee, its prices and terms of payment, unrealized gain or loss, and other related information which is helpful to understand the impact of investment in mainland China on financial reports: Please see Table 8 attached.
- k. Intercompany relationships and significant intercompany transactions: Please see Table 8 attached.
