### Forward-Looking Statements

This Report on Economic and Financial Analysis contains forward-looking statements relating to our business which are based on management s current expectations, estimates and projections about future events and financial trends which could affect our business. Words such as: believes, anticipates, plans, expects, intends, aims, evaluates, predicts, foresees, projects, guidelines, should and similar expresidentify forward-looking statements. These statements are not guarantees of future performance and involve risks and uncertainties which are difficult to predict and which could be beyond our control. Furthermore, certain forward-looking statements are based on assumptions which future events may prove to be inaccurate. Therefore, actual results may differ materially from the plans, objectives, expectations, projections and intentions expressed or implied in such forward-looking statements.

Factors which could cause actual results to differ materially include, among others, changes in regional, national and international commercial and economic conditions; inflation rates, increases in customer default and any other delays in credit operations; increases in the allowance for loan loss; loss of funding capacity; loss of clientele or revenues; our capacity to sustain and improve performance; changes in interest rates which could, among others, have an adverse effect on our margins; competition in the banking sector, in financial services, credit card services, insurance, asset management and other related sectors; government regulations and fiscal matters; disputes or adverse legal proceedings or ruling; as well as credit risks and other loan and investment activity risks.

Accordingly, the reader should not place undue reliance on these forward-looking statements. In all cases, these forward-looking statements are valid only as at the date they are made. Except as required under applicable legislation, we assume no obligation whatsoever to update these statements, whether as a result of new information, future events or any other motive.

<sup>(\*\*)</sup> Reference equity may not be lower than 11% of weighted assets.

### **CONTENTS**

### 1 Analysis of Consolidated Results

- Profitability
- Comparative Statement of Income
- Analysis of the Statement of Income
- Results by Activity
- Increase in the Main Statement of Income Items for the Six-month Period
- Increase in the Main Statement of Income Items for the Quarter
- Increase in Financial Margin Items plus Exchange Adjustment for the Six-month Period
- Increase in Financial Margin Items plus Exchange Adjustment for the Quarter
- Analysis of the Adjusted Financial Margin and Average Rates
- Provision for Loan Losses
- Commissions and Fees
- Administrative and Personnel Expenses
- Human Resources
- Operating Efficiency
- Activity-Based Costing

### 2 Consolidated Equity Analysis

- Balance Sheet by Currency
- Balance Sheet by Maturities
- Comparative Balance Sheet
- Equity Analysis
- Securities
- Credit Operations
- Funding
- Savings Accounts
- Asset Management

### 3 Consolidated Information for the Period and Operating Structure

- Balance Sheet
- Statement of Income for the Period
- Results per Thousand Shares
- Net Book Value and Market Value
- Cash Generation
- Change in Number of Outstanding Shares
- Performance Ratios
- Historical Data
- Other Ratios
- Risk Management
- Added Value
- Customers
- Customer Service Network
- Banco Postal
- Bradesco Day and Night Customer Service Channels
- Cards
- Corporate Banking
- Bradesco Empresas (Middle Market)
- Structured Transactions
- Private Banking
- Bradesco Prime
- Capital Market
- Foreign Exchange

- Collection and Tax and Utility Collections
- Stock, Custody and Controllership Services
- Investments in Infrastructure, Information Technology and Telecommunications
- BCN
- Banco Finasa S.A.
- Banco Bilbao Vizcaya Argentaria Brasil S.A. (BBV Banco)

1 Analysis of Consolidated Results

# Profitability

Bradesco reported first-half net income of R\$ 1.027 billion, corresponding to R\$ 0.65 per thousand shares and a return of 17.08% on stockholders equity, annualized, and 18.66% on average stockholders equity.

Net income for 1H03 increased by 13.61%, compared to the same period in 2002.

Net income for the second quarter of 2003 (2Q03) was R\$ 519 million, an increase of 2.39% in comparison with the first quarter of 2003 (1Q03).

The annualized return on total assets was 1.33%.

Comparative Statement of Income (in millions of reais)

# **Income from Credit and Leasing Operations**

1st Half			_	Quarter 2003			
2002	2003	% Variation		1st Qtr.	2nd Qtr.	% Variation	
7,062	5,765	(18.4)	_	3,014	2,751	(8.7)	

This decrease mainly reflects: (i) negative exchange variation of 18.72% in 1H03 against positive exchange variation of 22.58% in 1H02, impacting U.S. dollar-denominated or dollar-indexed operations, comprising 23.67% of total credit and leasing operations.

This decrease mainly reflects negative exchange variation of 14.35% in 2Q03 against negative exchange variation of 5.10% in 1Q03, impacting U.S. dollar-denominated or dollar-indexed operations.

### **Results of Securities and Derivative Financial Instrument Operations**

1st Half		Quarter 2003			
2002	2003	% Variation	1st Qtr.	2nd Qtr.	% Variation
3,126	2,799	(10.5)	2,165	634	(70.7)

The variation was mainly due to: (i) negative exchange variation for the period; and (ii) increase in the compulsory deposit rate; offset by (iii) market recovery; and by (iv) increase in financial volume. The decrease was mainly generated by negative exchange variation in 2Q03, impacting securities denominated or indexed in U.S. dollars and derivative financial instruments, used to hedge operations. In addition, the positive impact verified in 1Q03 as a result of market recovery, was not repeated.

### Financial Income on Insurance, Private Pension Plans and Savings Bonds

1st Half				Quarter 2003	
2002	2003	% Variation	1st Qtr.	2nd Qtr.	% Variation
1,103	2,613	136.9	1,441	1,172	(18.7)

The increase for the period was derived from (i) the growth in the average volume of investments; (ii) market recovery; and (iii) the increase in investment rates.

This variation was mainly generated by: (i) the downturn in IGPM-indexed securities; (ii) non-repetition in 2Q03 of the positive impact following the market recovery verified in 1Q03; partially offset by (iii) the increase in the volume of securities subject to technical reserves.

### **Results of Foreign Exchange Transactions**

1st Half			Quarter 2003			
2002	2003	% Variation	1st Qtr.	2nd Qtr.	% Variation	
1,580	268	(83.0)	99	169	70.7	

This account should be analyzed net of foreign funding expenses used to finance import/export operations, as described in Note 14a to the financial statements. Net of these deductions, results would total R\$ 173 in 1H02 and R\$ 178 in 1H03.

This account should be analyzed net of foreign funding expenses used to finance import/export operations. Net of these deductions, results would total R\$ 72 in 1Q03 and R\$ 106 in 2Q03, affected by an increase in foreign exchange portfolio volume.

### **Results of Compulsory Deposits**

1st Half				Quarter 2003	
2002	2003	% Variation	1st Qtr.	2nd Qtr.	% Variation

141	731	418.4	361	370	2.5

This variation was mainly due to: (i) the creation of an additional rate of 8% for demand and time deposits and of 10% for savings account deposits, both remunerated based on the SELIC rate; (ii) the 5% increase in the compulsory savings account deposit rate; (iii) the increase in the TR reference rate used to remunerate savings account deposits, from 1.16% in 1H02 to 2.61% in 1H03; and (iv) the increase in the average volume of deposits.

This increase mainly reflects: (i) the variation in the balance of deposits as a result of the consolidation of BBV Banco; and, to a lesser degree, (ii) the increase in the TR reference rate used to remunerate savings account deposits, from 1.28% in 1Q03 to 1.31% in 2Q03.

### **Interest and Charges on Deposits**

	1st Half		Quarter 2003		
2002	2003	% Variation	1st Qtr.	2nd Qtr.	% Variation
4,949	4,496	(9.2)	2,670	1,826	(31.6)

This decrease mainly reflects: negative exchange variation in 1H03, particularly impacting securities issued abroad, offset by an increase in deposit volume /rates.

This decrease mainly reflects negative exchange variation in 2Q03, particularly impacting securities issued abroad.

### Price-level Restatement and Interest on Technical Reserves for Insurance, Private Pension Plans and Savings Bonds

	1st Half			Quarter 2003		
2002	2003	% Variation		1st Qtr.	2nd Qtr.	% Variation
743	1.658	123,1		902	756	(16,2)

The increase for the period was derived from: (i) the increase in the average volume of technical reserves; (ii) market recovery and the increase in the investment rates of assets subject to technical reserves, reflected accordingly.

The variation was mainly generated by: (i) the downturn in IGPM-indexed reserves; (ii) the positive impact following market recovery verified in 1Q03, affecting assets subject to technical reserves, reflected accordingly, partially offset by the increase in the volume of technical reserves.

### **Expenses for Borrowings and Onlendings**

	1st Half		Quarter 2003		
2002	2003	% Variation	1st Qtr.	2nd Qtr.	% Variation
2,619	38	(98.5)	141	(103)	(173.0)

This decrease was mainly due to: (i) negative exchange variation in 1H03 against positive exchange variation in 1H02.

This decrease was mainly generated by negative exchange variation on foreign borrowings and onlendings.

### **Financial Margin**

	1st Half			Quarter 2003	
2002	2003	% Variation	1st Qtr.	2nd Qtr.	% Variation
4,701	5,984	27.3	3,367	2,617	(22.3)

Margin growth reflects increased volume and market recovery, partially offset by the increase in the compulsory deposit rate and negative exchange variation in 1H03. The annualized financial margin on average total assets increased from 8.1% in 1H02 to 8.3% in 1H03. Adjusting the additional provision for market risk fluctuation recorded/reversed for these periods, the annualized financial margin would be 8.3% and 9.0%, respectively.

The decrease in this margin reflects the increase in the compulsory deposit rate, greater negative exchange variation in 2Q03 and non-repetition in 2Q03 of the positive impact following market recovery verified in 1Q03. The annualized financial margin on average total assets decreased from 9.7% in 1Q03 to 7.2% in 2Q03. Adjusting the additional provision for market risk fluctuation recorded/reversed for these periods, the annualized financial margin would be 10.2% and 8.1%, respectively.

#### **Expenses for Provision for Loan Losses**

	1st Half		Quarter 2003		
2002	2003	% Variation	1st Qtr.	2nd Qtr.	% Variation
1,344	1,395	3.8	809	586	(27.6)

Excluding the additional provisions of R\$ 57 and R\$ 312, recorded in 1H02 and 1H03, respectively, the decrease of R\$ 203 in this expense reflects the Bank s selective credit granting policy.

Excluding the additional provisions of R\$ 298 and R\$ 14, recorded in 1Q03 and 2Q03, respectively, there is an increase of R\$ 63.

### **Income on Commissions and Fees**

	1st Half		Quarter 2003		
2002	2003	% Variation	1st Qtr.	2nd Qtr.	% Variation
1,786	2,093	17.2	1,013	1,080	6.6

This growth reflects increased revenue from: (i) cards - R\$ 99; (ii) checking accounts R\$ 79, mainly maintenance charges; (iii) credit operations - R\$ 79, mainly from contracting and opening of credit; (iv) collection - R\$ 18; and (v) the consolidation of BBV Banco R\$ 10; offset by decreased revenue from (vi) managed funds R\$ 11.

Growth for the quarter reflects increased revenue from: (i) income on fund management R\$ 23; (ii) checking accounts R\$ 15, mainly maintenance charges; (iii) credit operations R\$ 13, mainly from contracting and opening of credit; (iv) the consolidation of BBV Banco R\$ 10; and (v) collection - R\$ 5, offset by decreased revenue from (vi) credit cards R\$ 8.

### Income on Insurance Premiums, Private Pension Plans and Savings Bonds

1st Half Quarter 2003

2002	2003	% Variation	1st Qtr.	2nd Qtr.	% Variation
4,212	5,679	34.8	2,770	2,909	5.0

This variation was mainly derived from a greater sales volume of Vida e Previdência (VGBL/PGBL) line products, as well as savings bonds and auto-line insurance.

This variation was mainly derived from an increase in auto-line sales and savings bonds.

### Variation in Technical Reserves for Insurance, Pension Plans and Savings Bonds

	1st Half			Quarter 2003		
2002	2003	% Variation		1st Qtr.	2nd Qtr.	% Variation
(427)	(1,725)	304.0		(988)	(737)	(25.4)

This variation was derived from the growth in technical reserves, mainly as a result of an increase in VGBL and auto product sales, as well as savings bond certificates.

This variation was generated by: (i) fewer supplementary pension plan product sales in 2Q03; offset by (ii) increased sales of auto-line products and savings bond certificates.

#### **Insurance Claims**

	1st Half			Quarter 2003		
2002	2003	% Variation		1st Qtr.	2nd Qtr.	% Variation
(1,758)	(2,256)	28.3		(1,019)	(1,237)	21.4

The increase in claims was mainly generated by: (i) increased Life and VGBL insurance premium redemptions, as well as the lengthening of the provision for claims incurred but not reported (IBNR) from 6 to 12 months in the health line and to a lesser degree: (ii) the increase in Auto-line claims.

The increase in claims was mainly generated by: (i) increased Life and VGBL insurance premium redemptions, as well as the lengthening of the provision for claims incurred but not reported (IBNR) from 6 to 12 months in the health line and to a lesser degree: (ii) the increase in Auto-line claims.

### **Savings Bond Redemptions**

	1st Half			Quarter 2003		
2002	2003	% Variation		1st Qtr.	2nd Qtr.	% Variation
(372)	(452)	21.5		(198)	(254)	28.3

This growth is a direct reflection of the increase in the volume of single payment bonds falling due in 1H03, which were redeemed.

This growth is a direct reflection of the increase in the volume of single payment bonds falling due in 2Q03, which were redeemed.

### **Insurance and Pension Plan Selling Expenses**

	1st Half			Quarter 2003	
2002	2003	% Variation	1st Qtr.	2nd Qtr.	% Variation
(321)	(363)	13.1	(180)	(183)	1.7

This increase was generated for the most part by growing Auto and Basic line insurance sales even though the ratio of sales to premiums remained consistent with the prior period.

Selling expenses remained practically stable for the quarter.

### **Expenses with Pension Plan Benefits and Redemptions**

	1st Half			Quarter 2003	
2002	2003	% Variation	1st Qtr.	2nd Qtr.	% Variation
(760)	(851)	12.0	(390)	(461)	18.2

The variation in this account was mainly due to the increase in the payment of pension plan redemptions as a result of specific PGBL plan features which permit withdrawals at any time.

The variation in this account was mainly due to the increase in the payment of pension plan redemptions as a result of specific PGBL plan features which permit withdrawals at any time.

### **Personnel Expenses**

1st Half			Quarter 2003			
2002	2003	% Variation		1st Qtr.	2nd Qtr.	% Variation
(1,884)	(2,201)	16.8		(1,053)	(1,148)	9.0

This increase was mainly generated by: (i) salary increases, pursuant to trade-union agreements (September/02); (ii) increased expenses for benefits; and (iii) an increase in the number of employees, subsequent to the acquisition of BBV Banco in 2Q03 R\$ 29 and Banco Mercantil R\$ 70, following consolidation in 2Q02.

This increase was generated mainly by: (i) increased expenses for benefits R\$ 36; (ii) an increase in the number of employees, following the consolidation of BBV Banco, with expenses of R\$ 29; (iii) training R\$ 10; and (iv) lower expenses as a result of the concentration of vacation pay in 1Q03.

### Other Administrative Expenses

1st Half			Quarter 2003			
2002	2003	% Variation	1st Qtr.	2nd Qtr.	% Variation	
(1,854)	(2,254)	21.6	(1,101)	(1,153)	4.7	

The increase in this expense mainly reflects expansion in the customer service network, in particular: (i) depreciation and amortization - R\$ 60; (ii) third-party services - R\$ 50; (iii) rents - R\$ 44, mainly relating to branches which were auctioned subsequent to June 2002; (iv) communications R\$ 39, mainly as a result of increases in public utility tariffs; (v) leasing R\$ 36; and (vi) consolidation of BBV Banco R\$ 31.

The increase for this quarter reflects increased expenses for: (i) consolidation of BBV Banco - R\$ 31; (ii) publicity and advertising - R\$ 11; and (iii) third-party services R\$ 9.

### **Tax Expenses**

1st Half			Quarter 2003			
2002	2003	% Variation	1st Qtr.	2nd Qtr.	% Variation	
(404)	(506)	25.2	(268)	(238)	(11.2)	

The growth rate mainly reflects increases in expenses for: (i) PIS/COFINS, consistent with taxable income growth for the period and (ii) CPMF.

The variation in this quarter mainly reflects less expense for PIS, COFINS and CPMF.

### **Equity in the Earnings of Subsidiary and Associated Companies**

1st Half			Quarter 2003			
2002	2003	% Variation	1st Qtr.	2nd Qtr.	% Variation	
23	(33)	(243.5)	(5)	(28)	460.0	

This variation was mainly generated by equity in earnings determined in IRB Brasil Resseguros S.A. of R\$ 22 in 1H02 against equity in loss of R\$ 28 in 1H03.

The variation mainly reflects equity in loss determined in IRB Brasil Resseguros S.A. R\$ 1 in 1Q03 and R\$ 27 in 2Q03.

### **Other Operating Income**

1st Half			Quarter 2003			
2002	2003	% Variation	1st Qtr.	2nd Qtr.	% Variation	
660	1,494	126.4	657	837	27.4	

The increase for the period is mainly due to reversal of the provision for exchange variation R\$ 504 and other operating provisions - R\$ 322 in 1H03.

The increase for the quarter is mainly due to reversal of the provision for exchange variation - R\$ 166 in 1Q03 and R\$ 338 in 2Q03.

# **Other Operating Expenses**

1st Half Quarter 2003

2002	2003	% Variation	1st Qtr.	2nd Qtr.	% Variation
(1,102)	(1,215)	10.3	(656)	(559)	(14.8)

The variation is mainly due to: (i) increase in financial expenses R\$ 48; (ii) cost of services rendered R\$ 37; and (iii) amortization of goodwill in subsidiary and associated companies - R\$ 23.

The quarterly variation is mainly due to lower financial expenses.

### **Operating Income**

1st Half			Quarter 2003			
2002	2003	% Variation	1st Qtr.	2nd Qtr.	% Variation	
1,156	1,999	72.9	1,140	859	(24.6)	

This growth is mainly derived from: (i) the positive variation in financial margin; (ii) reversal of provisions, mainly for exchange variation; (iii) increase in income from commissions and fees; partially offset by (iv) lower income from insurance; and by (v) an increase in personnel and administrative expenses.

This oscillation was mainly generated by: (i) negative variation in financial margin; (ii) increase in personnel and administrative expenses; partially offset by (iii) reversal of provisions, mainly for exchange variation; (iv) decrease in expenses for PDD; and (v) increase in income from commissions and fees.

#### Non-operating Income

1st Half			Quarter 2003			
2002	2003	% Variation	1st Qtr.	2nd Qtr.	% Variation	
(10)	(777)	7,670.0	(682)	(95)	(86.1)	

The variation for the period is mainly due to extraordinary amortization of goodwill of Banco Mercantil R\$ 681. N.B. Goodwill held by Boavista DTVM in Banco Mercantil, following the merger approved on March 31, 2003, was amortized on an extraordinary basis pursuant to BACEN Circular 3017/2000.

The variation for the quarter mainly reflects extraordinary amortization of goodwill of Banco Mercantil - R\$ 681, in 1Q03. N.B. Goodwill held by Boavista DTVM in Banco Mercantil, following the merger approved on March 31, 2003, was amortized on an extraordinary basis pursuant to BACEN Circular 3017/2000.

### **Income Tax and Social Contribution**

1st Half				Quarter 2003			
2002	2003	% Variation		1st Qtr.	2nd Qtr.	% Variation	
(234)	(190)	(18.8)	•	53	(243)	(558.5)	

The variation in income tax and social contribution expense reflects tax charges on pre-tax income adjusted by permanent additions and exclusions, as described in Note 36 to the financial statements.

The variation in income tax and social contribution expense reflects tax charges on pre-tax income adjusted by permanent additions and exclusions.

Analysis of the Adjusted Financial Margin and Average Rates

Bradesco s consolidated financial margin (before PDD) totaled R\$ 5,983 million for 1H03, a 27% increase compared with R\$ 4,700 million for the same period in 2002. However, in comparison with the prior quarter, the second-quarter margin dropped by some 22%.

We stress that a number of economic factors motivated this drop in financial margin, among which we highlight the following:

- The increase in the compulsory demand deposit rate from 45% to 60%, following the introduction of the corresponding Central Bank Circular published on February 19, 2003. However, the impact on Bradesco s bank reserves was verified as from February 26, 2003, generating a drop in the volume of resources earmarked for investment for the quarter.
- Activity and credit growth failed to respond to the downturn in the future interest rate between 1Q03 and 2Q03 (see following exhibit),
  mainly as a result of greater selectivity and increased competition, which prompted lower charges and a consequent decrease in
  banking spreads.

### **Future interest rates**

Period	Average 1st Qtr. 2003	Average 2nd Qtr. 2003	June 2003
30 days	26.1%	26.0%	25.7%
60 days	26.4%	25.7%	25.4%
90 days	26.7%	25.4%	24.9%
120 days	26.8%	25.0%	24.4%
360 days	28.1%	23.6%	22.2%

Source: Bloomberg

- Following the improved economic scenario (falling inflation and U.S. dollar rates in 2Q03) and the increase in external facilities, the spreads for export and import financing returned to historical rates.
- As mentioned above, slowing economic activity levels and the upturn in default rates prompted Bradesco to maintain its more selective credit granting strategy during the period, reflected by Credit Portfolio growth for the second quarter. If we disregard the incorporation of BBV Banco, Bradesco s credit volume would have remained almost stable compared to the prior quarter.

In 1Q03, income on securities transactions was favored by the recovery, affected by prior year volatility. This effect was not repeated in 2Q03.

Accordingly, the annualized financial margin for 2Q03 (obtained from dividing the lending and trading margin by the average balance of total assets) dropped from 9.7% to 7.2% as compared to 1Q03.

Adjusting the additional provision for market risk fluctuation recorded/reversed for the periods (exchange provision), annualized financial margin would be 8.1% for the quarter, compared with 10.2% in 1Q03.

Nevertheless, comparing growth for 1H03 with the same period in 2002, the financial margin increased by 8.3% in 1H03 and 8.1% in 1H02. Adjusting the additional provision for market risk fluctuation, these rates would increase to 9.0% in 1H03 and 8.3% in 1H02.

**Human Resources** 

At June 30, 2003, Bradesco s headcount, including its subsidiaries, totaled 78,148 employees. This increase compared with the headcount at December 2002 was generated mainly by the acquisition of BBV Banco. The following table presents the evolution of Bradesco s headcount.

# Personnel Expenses

At June 30, 2003, Bradesco s personnel expenses totaled R\$ 2.2 billion, including expenses for remuneration, social charges, benefits, training, employee profit sharing and others.

Benefits offered by Bradesco to its employees include health insurance and dental care, as well as a supplementary retirement pension plan.

The following pie graph presents the percentage share of each item in relation to total Bradesco personnel expenditure:

Composition of Personnel Expenses

Personnel Expenses by Types of Company

### Training

Bradesco s staff training activities are tuned to its organizational strategies, to the ongoing improvement of its customer service quality and to its capacity to produce results.

Accordingly, the Training Program uses tailor-made methodologies, offering in-class or self-training courses to all its staff, designed to meet both their professional and personal development needs.

The most innovative of these training methodologies, permitting the rapid inclusion of a considerable number of employees, is the TreiNet , online training program which was used in the first six-month period of 2003 by 113,328 participants for courses in Integration and Basic Banking, Financial Mathematics, Business Accounting and Balance Sheet Analysis, Financial Market and Investments, Loans and Financing, Business Support Platforms, Convenience Services, Internal Control Systems, Savings Bonds, Vida e Previdência pension plans, Cashier Training and Written Communication.

Through the important partnerships entered into with Consulting Firms, Universities and Business Schools, such as USP, FGV and IBMEC, the Bank qualifies its professional staff to operate in the Organization s diverse specialist segments, such as Bradesco Empresas (Middle Market), Corporate and Private Banking, Prime and Consortium.

Particular emphasis should also be given to the specialization courses offered at post-graduate level. Two groups have been formed for courses such as: Business Process Management and Foreign Trade and International Operations, given at the following institutions, FIA, and FIPE.

Bradesco s compliance culture was also strengthened through distance learning courses, via manuals and TreiNet programs available to all the Organization s employees.

During the first half of 2003, 702 courses were given, in 7,444 groups, with 206,056 employee participations and a total of 3,659,210 hours spent in training, as well as investments to the order of R\$ 30.0 million.

<sup>(\*)</sup> For comparison purposes, first-half amounts are accumulated over the prior 12-month period.

Operating Efficiency (%)

The slight downturn in the operating efficiency ratio was motivated by acquisitions made by the Bradesco Organization in the prior 12 months. We stress that the synergy process of these acquisitions has still not been fully concluded.

## **Activity-Based Costing**

As part of the Organization s ongoing pursuit to optimize its results and performance, Bradesco commenced a process in 2000 designed to introduce a cost control culture through the implementation of Activity-Based Costing (ABC) methodology which provided, among others, support for studies relating to the formation and negotiation of banking charges, costing information for performance and decision-making support management and for customer profitability purposes, and for the formation of a database for analyses regarding the unification and rationalization of the Bank s different units.

The Organization is currently implementing ABM (Activity-Based Management) methodology which will rapidly lead to cost prevention practices and a pro-active approach as regards the identification of opportunities. Thus, at the same time as we improve our processes, we are also able to seamlessly integrate operating performance with strategic objectives, in the pursuit to create and/or sustain competitive advantages and value for both our customers and stockholders.

Accordingly, the future mission of the activity-based management model is to provide ongoing support for planning and controlling the Bank s business processes and to promote the permanent improvement of operating and tactical issues and to provide a firm basis for their strategic gearing.

Equity Analysis (in millions of reais)

# **Funds Available**

	1st Half			Quarter 2003	
2002	2003	% Variation	1st Qtr.	2nd Qtr.	% Variation
2,131	1,773	(16.8)	3,718	1,773	(52.3)

The variation for the period mainly reflects the decrease in the volume of foreign currency cash funds.

The variation for the quarter mainly reflects the decrease in the volume of foreign currency cash funds.

### **Interbank Investments**

	1st Half			Quarter 2003	
2002	2003	% Variation	1st Qtr.	2nd Qtr.	% Variation
5,402	20,996	288.7	23,411	20,996	(10.3)

The variation in the balance of this account reflects the increase in deposits received under security repurchase agreements, principally in the third-party portfolio, which grew from R\$ 3,625 in 1H02 to R\$ 16,686 in 1H03, reflecting the option to invest in assets with greater liquidity, during the period.

This decrease was generated mainly by the migration of resources to securities.

### **Securities and Derivative Financial Instruments**

	1st Half			Quarter 2003			
_	2002	2003	% Variation	1st Qtr.	2nd Qtr.	% Variation	

37,909 42,796 12.9 34,430 42,796 24.3						
- , - , - , - , - , - , - , - , - , - ,	37,909	42,796	12.9	34,430	42,796	24.3

The variation in this account balance reflects mainly: (i) additional funds derived from the increase in funding, particularly technical reserves; (ii) the consolidation of BBV Banco; and (iii) adjustments in securities; partially mitigated by (iv) redemption/maturity of securities during the period.

The variation in this account balance reflects: (i) migration of interbank investments; (ii) additional funds derived from the increase in funding, particularly technical reserves; (iii) the consolidation of BBV Banco; partially mitigated by (iv) negative exchange variance in 2Q03 of 14.35%.

### **Interbank and Interdepartmental Accounts**

1st Half				Quarter 2003			
2002	2003	% Variation		1st Qtr.	2nd Qtr.	% Variation	
6,978	15,024	115.3		15,059	15,024	(0.2)	

The variation mainly reflects the increase in compulsory Brazilian Central Bank deposits as a result of: (i) the increase in the compulsory deposit rate by 5% on savings account deposits and by 15% for demand deposits; (ii) the creation of an additional compulsory rate of 8% on demand and time deposits and of 10% on savings account deposits; and (iii) the increase in the average volume of deposits for the period.

These account balances remained practically stable.

### **Credit and Leasing Operations**

1st Half			Quarter 2003		
2002	2003	% Variation	1st Qtr.	2nd Qtr.	% Variation
52,576	53,048	0.9	49,655	53,048	6.8

The variation in the credit portfolio for the period is mainly due to: (i) the consolidation of BBV Banco; offset by (ii) contract settlements, and (iii) less credit demand for the period and as a result of greater credit granting selectivity.

N.B. Includes advances on foreign exchange contracts, other receivables and does not consider the allowance for loan losses, as described in Note 13 to the financial statements.

The variation in the credit portfolio for the quarter is mainly due to: (i) the consolidation of BBV Banco; partially offset by (ii) negative exchange variance in 2Q03, affecting operations which are indexed or denominated in foreign currency.

N.B. Includes advances on foreign exchange contracts, other receivables and does not consider the allowance for loan losses, as described in Note 13 to the financial statements.

### Allowance for Loan Losses (PDD)

1st Half					Quarter 2003	
2002	2003	% Variation		1st Qtr.	2nd Qtr.	% Variation
3,529	4,109	16.4	_	3,902	4,109	5.3

The nominal increase in PDD for the period was 16.4%, however, if we disregard the additional provisions of R\$ 289 recorded in 1H02 and of R\$ 817 recorded in 1H03, the allowance would present an increase of 1.5%. Total PDD on credit operations increased from 6.7% to 7.7% for the period. The total allowance on the abnormal course credit portfolio, rated from D to H, increased from 114.3% in 1H02 to 143.1% in 1H03.

The variation for the quarter was mainly derived from the consolidation of BBV Banco. Total PDD on credit operations decreased from 7.9% in 1Q03 to 7.7% in 2Q03. On the other hand, the total allowance on the abnormal course credit portfolio, rated from D to H, increased from 142.3% in 1Q03 to 143.1% in 2Q03.

#### Other Receivables and Assets

1st Half						
2002	2003	% Variation				
23,693	25,602	8.1				

Quarter 2003

1st Qtr. 2nd Qtr. % Variation

23,494 25,602 9.0

The increase is mainly derived from: (i) growth in the average volume of the foreign exchange portfolio; and (ii) the consolidation of BBV Banco.

N.B. This total is less (net of corresponding PDD) an amount of R\$ 444 in 1H02 and R\$ 607 in 1H03, allocated to credit and leasing operations and allowance for doubtful accounts  $\,$ .

This variation is mainly derived from: (i) growth in the average volume of the foreign exchange portfolio; and (ii) the consolidation of BBV Banco.

N.B. This total is less (net of corresponding PDD) of an amount of R\$ 438 in 1Q03 and of R\$ 607 in 2Q03, allocated to credit and leasing operations and allowance for doubtful accounts .

#### **Permanent Assets**

	1st Half				
2002	2003	% Variation			
5,905	5,173	(12.4)			

 Quarter 2003

 1st Qtr.
 2nd Qtr.
 % Variation

 4,868
 5,173
 6.3

The decrease for the period was mainly generated by (i) sale of branches by auction; and (ii) amortization of goodwill in subsidiary companies; partially offset by (iii) the consolidation of BBV Banco.

This increase was mainly derived from the consolidation of BBV Banco in June 2003 and was partially offset by amortization of goodwill in subsidiaries.

### **Deposits**

	1st Half				
2002	2003	% Variation			
50,849	56,822	11.7			

 Quarter 2003

 1st Qtr.
 2nd Qtr.
 % Variation

 54,871
 56,822
 3.6

The increase in this account balance for the period reflects: (i) increase in the number of customers; (ii) migration of resources from managed funds; and (iii) consolidation of BBV Banco R\$ 3,469.

The variation was mainly derived from the consolidation of BBV Banco R\$ 3,469 and was offset by the partial migration of resources from deposits, returning to managed funds.

### **Deposits Received Under Security Repurchase Agreements**

1st Half			Quarter 2003			
2002	2003	% Variation	1st Qtr.	2nd Qtr.	% Variation	
8,695	18,569	113.6	14,342	18,569	29.5	

The increase in this account balance was due to the intensification of this type of funding.

The increase in this account balance for the quarter was derived from the intensification of this type of funding.

### **Funds from Acceptance and Issuance of Securities**

1st Half				Quarter 2003		
2002	2003	% Variation	1st Qtr.	2nd Qtr.	% Variation	
5,123	5,745	12.1	4,963	5,745	15.8	

This increase mainly reflects new securities issued abroad, net of payments, as well as the consolidation of BBV Banco.

This increase mainly reflects: (i) new securities issued abroad, net of payments; (ii) the consolidation of BBV Banco; and was partially offset by (iii) negative exchange variation in 2Q03.

### **Interbank and Interdepartmental Accounts**

1st Half			Quarter 2003			
2002	2003	% Variation	1st Qtr.	2nd Qtr.	% Variation	
956	1,735	81.5	1,823	1,735	(4.8)	

This growth is mainly derived from the increase in the volume of collection and money orders, following the increase in the number of customers and in the customer service network.

The variation is mainly due to a decrease in the volume of collection and money orders in 2Q03.

### **Borrowings and Onlendings**

1st Half			Quarter 2003			
2002	2003	% Variation		1st Qtr.	2nd Qtr.	% Variation
16,302	14,572	(10.6)		16,229	14,572	(10.2)

The decrease for the period reflects mainly the settlement of a number of overdue and non-renewable operations, indexed or denominated in foreign currency. The decrease is mainly due to negative exchange variance in 2Q03, affecting principally the foreign borrowings and onlendings account, indexed or denominated in foreign currency.

#### Other Liabilities and Derivative Financial Instruments

	1st Half			Quarter 2003	
2002	2003	% Variation	1st Qtr.	2nd Qtr.	% Variation
23,459	27,462	17.1	25,608	27,462	7.2

Growth for the period mainly reflects: (i) the increase in the volume of the foreign exchange portfolio; (ii) issuance of subordinated debt, in local currency; and (iii) the consolidation of BBV Banco.

N.B. Excluding advances on foreign exchange contracts of R\$ 6,339 and R\$ 5,814, allocated to credit operations and technical reserves of R\$ 2,006 and R\$ 2,875 in 2002 and 2003, respectively.

This oscillation mainly reflects: (i) the increase in the volume of the foreign exchange portfolio; and (ii) the consolidation of BBV Banco. N.B. Excluding advances on foreign exchange contracts of R\$ 5,733 and R\$ 5,814, allocated to credit operations and technical reserves of R\$ 2,545 and R\$ 2,875 in 1Q03 and 2Q03, respectively.

### Technical Reserves for Insurance, Private Pension Plans and Savings Bonds

	1st Half				Quarter 2003	
2002	2003	% Variation	•	1st Qtr.	2nd Qtr.	% Variation
15,212	22,732	49.4	•	21,050	22,732	8.0

This variation was derived principally from an ongoing strengthening of reserves arising from the increased sales of private pension plans, insurance policies and, in particular, VGBL. N.B. Includes technical reserves of R\$ 2,006 and R\$ 2,875 in 1H02 and 1H03, respectively, classified in other liabilities .

This variation was derived principally from an ongoing strengthening of reserves arising from the increased sales of private pension plans, insurance policies and, in particular, VGBL. N.B. Includes technical reserves of R\$ 2,545 and R\$ 2,875 in 1Q03 and 2Q03, respectively, classified in other liabilities .

### **Minority Interest in Subsidiaries**

	1st Half			Quarter 2003	
2002	2003	% Variation	1st Qtr.	2nd Qtr.	% Variation
314	107	(65.9)	113	107	(5.3)

This decrease was mainly generated by incorporation of the minority stockholders of Banco Mercantil.

The slight decrease was generated by the acquisition of minority interest during the quarter.

### Stockholders Equity

	1st Half			Quarter 2003	
2002	2003	% Variation	1st Qtr.	2nd Qtr.	% Variation
10,119	12,522	23.7	11,708	12,522	7.0

This variation reflects: (i) capital increase - R\$ 1,290; (ii) appropriation of net income for the period - R\$ 2,146; (iii) share premium - R\$ 7; (iv) mark-to-market adjustment of securities and derivatives - R\$ 304; offset by: (v) acquisition of treasury stock - R\$ 80; and (vi) Interest attributed to Own Capital, paid and accrued R\$ 1,264.

This variation reflects: (i) capital increase R\$ 630; (ii) appropriation of net income in 2Q03 R\$ 520; and (iii) increase in the reserve for mark-to-market adjustment of securities and derivatives - R\$ 7; and was offset by: (iv) Interest attributed to Own Capital, paid and accrued - R\$ 343.

Securities (in millions of reais)

Total credit operations	48,998	52,067	49,055	52,250
Other receivables	548	509	600	798
Total for the period	49,546	52,576	49,655	53,048
Sureties and guarantees recorded in memorandum accounts	3,037	3,434	4,308	5,581

Credit Portfolio by Activity Sector (in millions of reais)

	2003						
	March	%	June	%			
Public Sector	245	0.5	196	0.4			
Private Sector	49,410	99.5	52,852	99.6			
Manufacturing	15,755 7,914	31.7 16.0	17,150 8,617	32.4 16.3			
Commerce							
Financial intermediation	758	1.5	605	1.1			
Services	10,731	21.6	11,248	21.0			
Agriculture, livestock raising, fishing, forest							
development and management	830	1.7	826	1.6			
Consumers	13,422	27.0	14,406	27.2			
TOTAL	49,655	100.0	53,048	100.0			

At the end of the second quarter of 2003, some 99.6% of the credit portfolio was directed to the private sector, with no significant movement compared with the prior quarter. By economic activity sector, manufacturing maintained the majority of credit volume, with a 32.4% share of total operations, particularly food and beverages, steel, metal products and mechanics. Credits directed to the service sector, including financial intermediaries, comprised 22.1%, whereas commerce and farming/livestock activities recorded a 16.3% and 1.6% portfolio share, respectively. Loans to consumers comprised 27.2% of the portfolio.

### Portfolio Performance

Maintaining a similar trend to that presented in the first quarter of 2003, the credit operation portfolio was down slightly by 1.2% in 2Q03 with a total consolidated balance of R\$ 49.1 billion in June, excluding operations derived from the acquisition of BBV Banco. As a result, the accumulated decline in the credit portfolio for the first half was 3.4%, lower than that recorded for the prior twelve months of 6.7%.

Base date	In million of reais	% Variation
March 31, 2003 June 30, 2003	49,655	-
Consolidated excluding BBV Banco Consolidated including BBV Banco	49,057 53,048	(1.2) 6.8

These results were motivated once again by the weak economic activity prevailing throughout the period, confirmed by a declining GDP and affecting both the level of consumption as well as the volume of new investments. The downturn was particularly felt in the decreasing amount of credit granted to corporate entities, and as a result of the appreciation of the real against the U.S. dollar verified since the beginning of the year.

For the second half, if the government decides to cut the basic interest rate and compulsory deposit rates as projected by the majority of analysts, the forecast for Brazil s future economic performance will be much brighter, facilitating a progressive return to consumption and private-sector investment, as well as gradually increasing the demand for bank credit as a result.

#### Composition of the Credit Portfolio by Risk Levels

The distribution and quality of the credit portfolio by risk level, at June 30, 2003, remained stable in comparison with the first quarter. The operations concentrated from levels AA to C, classified by BACEN as normal course operations, totaled 90.2% of the accumulated balance. 3.4% of operations were classified at risk administration level D and will remain so until this risk is reduced or guarantees with greater liquidity are obtained. Only 6.4% were considered to be abnormal course operations, subject to partial loss after the application of customary recovery procedures. The maintenance of these rates reflects the Bank s permanent use of credit assessment and monitoring instruments.

A 4 Torre 20 2002

#### Consolidated

Total at June 30, 2003	53,048	-	1,177	828	1,286	3,292	817	4,109
Total at March 31, 2003	49,655	-	1,098	845	1,156	3,099	803	3,902

<sup>(1)</sup> On total portfolio.

The volume of the allowance for loan losses for the first half of 2003 totaled R\$ 4,109 million, corresponding to 7.7% of total credit operations. However, of this amount, only 48.8% effectively comprises overdue operations (past due and falling due) compared to 49.8% in March and the remaining portion is recorded as a precaution only, based on the customers' internal classification or to cover specific and general portfolio risks.

# Movement of the Portfolio between June 2002 and June 2003 - In millions of reais

The performance of the consolidated credit portfolio for the prior twelve months ended June 30, 2003, despite the low level of economic activity, evidences the maintenance of the quality of the assets, mainly as a result of new borrowers and acquisitions during the period, corresponding to increases of 13.4% and 7.6%, respectively, in total loans for the period.

<sup>(2)</sup> For operations with installments overdue by more than 14 days.

<sup>(3)</sup> Recorded based on the customer/transaction classification.

<sup>(4)</sup> The additional provision is recorded based on management's experience and expected collection of the credit portfolio to determine the total allowance deemed sufficient to cover specific and general portfolio risks, as well as the provision calculated based on risk level ratings and the corresponding minimum provision requirements established by CMN Resolution 2,682. The additional provision per customer was classified in the above table according to the corresponding risk levels.

## Portfolio Movement between June 2002 and June 2003

	Borrowers remaining from June 2002		New borrowers between June 2002 and June 2003		New borrower from acquisi June 20	tions in	Total assets at June 2003		
Level	In millions of reais	%	In millions of reais	%	In millions of reais	%	In millions of reais	%	
AA to C	37,499	89.2	6,606	94.0	3,727	93.4	47,832	90.2	
D to H	4,526	10.8	425	6.0	265	6.6	5,216	9.8	
Total	42,025	100.0	7,031	100.0	3,992	100.0	53,048	100.0	

As a result, the quality of the credits granted to new borrowers in annual terms is proving to be satisfactory and accordingly the percentage of credit operations classified as normal course (from AA to C) maintained its customary high level, totaling 90.2% at the end of the first half.

## Concentration of Credit Portfolio

#### Credit Portfolio Indicators

To facilitate the analysis of the Bank's credit portfolio performance, we present below, on a consolidated basis, a comparative summary of the main parameters, based on the rules established by BACEN for recording provisions.

#### In millions of reais

	2002	2003		
Items	June	March	June	
Total Credit Operations	52,576	49,655	53,048	
- Consumer	14,255	13,422	14,406	
- Corporate	38,321	36,233	38,642	
Existing Allowance	3,529	3,902	4,109	
- Specific	2,231	1,943	2,006	
- Generic	1,009	1,156	1,286	
- Additional	289	803	817	
Existing Allowance/Specific Allowance (%)	158.2	200.8	204.9	
Existing Allowance/Total Credit Operations (%)	6.7	7.9	7.7	

Normal Course Operations (from AA to C)/Total Credit Operations (%)	91.1	90.8	90.2
Operations under risk management (D)/Total Credit Operations (%)	2.4	2.8	3.4
Abnormal Course Operations (from E to H)/Total Credit Operations (%)	6.5	6.4	6.4
Credit Operations (D)	1,277	1,370	1,841
Existing Allowance (D)	242	372	520
Allowance/Credit Operations (D) (%)	19.0	27.2	28.2
Credit Operations (from E to H)	3,406	3,223	3,375
Existing Provision (from E to H)	2,887	2,799	2,939
Allowance/Credit Operations (from E to H) (%)	84.8	86.8	87.1

The figures at the end of June 2003 confirm the low credit risk of the Bradesco portfolio, as a result of its comfortable coverage levels and moreover that the Organization's credit asset expansion strategy is being applied on a secure and consistent basis.

Other Indicators

Risk Management

Structure

The economic stability brought by the Real Plan prompted the Brazilian financial sector to develop sophisticated risk management policies. An increasingly high-powered market, globalization and advanced technology motivated the creation of specific procedures for monitoring and controlling risks.

Bradesco, permanently alert to these changes, has developed a number of mechanisms in recent years designed to plan, control and manage the risks inherent to its banking activities and which include the following: credit, market, operating and liquidity risks, as well as the management of risk capital and internal controls.

A culture focusing Risk Management and Compliance, allied with a thorough knowledge of latest-generation risk management processes, provides a decisive competitive edge, aiding the maintenance of stability, continuity and supporting profit growth, adding value to the Bradesco brand name. This culture facilitates transparency and ensures that intelligent decisions are made, controlling risks in proportion to yield and optimizing the allocation of capital in benefit of stockholders and investors.

In addition to its banking activity, Bradesco has extended its risk analysis culture to encompass its equity related companies such as Bradesco Vida e Previdência, Bradesco Saúde, Bradesco Seguros and Bradesco Capitalização, as regards actuarial and market risks.

In the first quarter of 2002, the Risk Management area incorporated the activities carried out by other areas of the Institution responsible for compliance, including Brazilian Payment System (SPB) risk management, transaction validation, internal controls, operating risks, information security and money laundering prevention.

The Risk Management and Compliance area is independent from other operating areas, reporting directly to the president:

An independent process for monitoring, controlling and managing risks is critical to effective management. The area s activities are governed by a standing committee, which evaluates positions and ratifies decisions involving control and limit policies.

A financial institution complies when all its transactions are carried out in accordance with the laws and rules in force in an ethical manner and avoiding conflict of interests. The Compliance department is designed to prevent damage and to manage legal, regulatory and reputation risks, supporting the Branches and Departments in their daily activities.

Particular emphasis is given to personnel and technology resources, ensuring that the Bradesco Group has permanent access to the cutting-edge technology required for managing the Organization s risks.

The new organizational structure is designed to facilitate a greater focus on these critical activities and confirms the Organization's adherence to best corporate governance practices.

Credit Risk Management

Credit risk is the risk arising from the possibility of loss due to the non-receipt of amounts contracted with counterparties and related creditors. Credit risk management requires a strictly disciplined control over all analyses and transactions carried out, safeguarding process integrity and independence.

Credit Policy

Designed to ensure maximum security, quality and liquidity in the investment of assets, minimizing risks inherent to all types of credit operation, the Organization's Credit Policy also seeks to offer agile and profitable business, applying appropriate methodology for each of the Bank s business segments, set forth in the following topic, as well as directing the establishment of operating limits and the granting of credit.

Credit is granted based on a highly automated and efficient approvals system, supported by assessment policies which are geared by constantly improving technical parameters designed to ensure proper support for credit decisions.

As part of this system, the Branches operate within varying limits depending on the size and type of guarantee offered, while specialized credit scoring systems maximize the speed and security of the approvals process, based on strict protection standards.

The credit committees located at the Bank's headquarters also play an important role, centralizing, analyzing and authorizing credit operations at amounts above the branch limits and managing this core strategic activity.

Operations are diversified, non-selective and focused on consumer and corporate customers with sound payment capacity and proven creditworthiness. Care is taken to ensure that the underlying guarantees are sufficient to cover the risks assumed, considering the purpose and terms of the credit granted.

#### Market Segmentation

Bradesco operates on a segmented service basis, seeking to match its different products and services to the different profiles and size of its target public. In line with a world market trend, Bradesco s structure permits the grouping together of customers with similar profiles facilitating superior quality customer service, extending business opportunities with a greater focus on relationship actions.

Major corporations with annual billings in excess of R\$ 180 million are served since June 1999 by Bradesco Corporate Banking which provides a range of sophisticated financial solutions, enhancing its service structure through the use of the Asian and Euro Desks, focused on prospecting new business in these regions.

Middle market companies, with annual billings from R\$ 15 million to R\$ 180 million, are served by Bradesco Empresas which came into operation in January 2002 designed to offer a differentiated service in exclusive VIP areas, tailored to the specific needs of this type of customer, who in general prefer the use of alternative channels such as telephone, ATMs and the Internet, instruments in which Bradesco technology is outstanding.

In the consumer customer area, the first step in terms of customer segmentation was taken via Bradesco Private Banking, focused on the personalized management of high-income customer accounts with funds available for investment in excess of R\$ 1 million, which commenced operations in November 2000.

More recently in May 2003, following the incorporation of Banco Mercantil de São Paulo, the Bradesco Prime service was launched targeting consumer customers with monthly incomes in excess of R\$ 4 thousand or investments in excess of R\$ 50 thousand. Through exclusive branches, or specifically reserved areas in traditional branches, this public receives a high standard of personalized customer service with a wide range of products and services, including diverse credit lines, insurance policies and private pension plans.

Other customers are classified on a retail basis as companies or consumers. Bradesco s activities in this segment were strengthened through the partnership entered into last year with the Brazilian Postal and Telegraph Company Correios for the purpose of creating Banco Postal, the post-office bank. Dedicated to extending banking service access to low-income bracket consumers, particularly those who live in the country s remote interior regions, Bradesco is now present in all of Brazil s states.

Methodology used for Credit Portfolio classification

In addition to supporting the establishment of minimum parameters for granting credit and managing risk, the credit risk scoring system established by the Brazilian Central Bank also facilitates the definition of differentiated credit policies based on the customer's specific, characteristics and size, providing a basis for the correct pricing of operations and for establishing the most appropriate guarantees for each situation.

In accordance with internal policy, Bradesco customer risk ratings are established on a corporate basis and are permanently reviewed to maintain the quality of the credit portfolio. These ratings are segmented as follows:

#### **Classification** Corporate

Rating	Bradesco	%	Concept
AA	Excellent	0.0	Premium company/group, with size, tradition and market leadership, with excellent reputation and economic and financial position.
A	Very Good	0.5	Company/group with size, sound economic and financial position, acting in markets with good prospects and/or potential for expansion.
В	Good	1.0	Company/group which, regardless of size, has a good economic and financial position.
С	Acceptable	3.0	Company/group with a satisfactory economic and financial situation but with performance subject to economic scenario variations.
D	Fair	10.0	Company/group with economic and financial position in decline or unsatisfactory accounting information, under risk management.
E	Deficient	30.0	
F	Bad	50.0	Abnormal course credit operations, classified based on expected loss as per
G	Critical	70.0	percentage shown.
Н	Uncollectible	100.0	

In the case of consumer customers, the above risk ratings are mainly defined based on their registered reference variables which include: income, equity, restrictions and indebtedness, as well as performance and past relationship with the Bank.

#### Market Risk Management

Market risk is related to the possibility of the loss of income from fluctuating rates caused by mismatched maturities, currencies and indices of the Institution's asset and liability portfolios. This risk is monitored on a strict basis by the financial market to avoid losses for institutions.

At Bradesco, market risks are managed through methodologies and models which are consistent with local and international market realities, ensuring that the Organization's strategic decisions are implemented with speed and a high level of reliability.

The Organization adopts a conservative policy regarding market risk exposure; VaR (Value at Risk) limits are defined by Senior Management, and compliance is monitored daily by an area which is independent from portfolio management. The methodology used to determine VaR has a reliability level of 97.5%. The volatilities and correlations used by the models are calculated on statistical bases, whereas future prospects are calculated based on economic studies. The methodology applied and current statistical models are validated daily using backtesting techniques.

We present below the VaR of the Own Portfolio positions (Treasury):

#### In thousands of reais

		2002				
Risk Factors	March	June	September	December	March	June
Prefixed	3,548	4,881	7,108	5,407	6,293	6,541
Exchange coupon	10,488	48,259	23,041	33,142	9,662	14,717
Foreign currency	3,197	8,422	8,422 1,988	2,876	1,807	439
Floating rate	183	14	75	11	105	10
Correlated effect	(6,665)	(15,809)	(8,008)	(4,014)	(3,803)	(3,243)
VaR	10,751	45,767	24,204	37,422	14,064	18,464

In addition, a daily Gap Analysis is performed to measure the effect of the movement in the internal interest rate and foreign exchange coupon curves (interest spread paid above the foreign exchange variation) on the portfolio.

Complementing the market risk monitoring, control and management structure and in accordance with Central Bank regulations, a daily verification is made of the values at risk for the fixed and foreign exchange positions of the Organization s entire portfolio and of minimum capital requirements.

#### Operating Risk Management

Operating risks are those inherent to activities which provide support for transactions in which the Organization participates and may occur as a result of the interruption of business, system failures, errors, omission, fraud or external events impacting the Institution s results.

Following recent guidelines issued by the Basel Committee, the Organization is working to adapt its processes to comply with possible future Central Bank demands, complementing its present capital management policies, based on an analysis of operating losses.

Operating risk is managed at Bradesco based on the dissemination of its culture, disclosure of its policies and development of own methodologies, models and tools designed to permit, among other factors, decreases in the cost of regulatory capital to be subscribed and at the same time increases in operating efficiency.

Bradesco s adherence to the 10 principles of good operating-risk-management practice determined by the Basel Committee was appraised by the Operating Risk Management area. As a result, a specific area activity plan and schedule was put into place, for the purpose of identifying and mapping the current processes used to record operating losses and the accounts used by the initially selected areas.

As a result of the need to compile and maintain consistent historical data on operating losses for a 5-year period, the information relating to losses managed at present was analyzed from 2000. At the same time, a number of performance indicators were selected to serve as a basis for analyzing and projecting the relevance of these operating losses in relation to the Organization s overall activities.

In line with the definition and development of the methodology and accounting and management criteria used for managing operating risk, the area is now implementing a specific Internal Management System for streamlining this information, designed to manage, enhance and increase the knowledge used to administrate operating loss events, facilitating an in-depth assessment, based on either management or accounting controls.

The cutting-edge nature of this internal operating risk management process can be regarded as a benchmark of Bradesco s important status within Brazil s financial scenario, increasing its competitive edge as a result of greater operating efficiency and adding stockholder value, as well as extending its relationship of trust with customers, the market and regulatory bodies.

#### Liquidity Risk Management

Liquidity risk management is designed to control the different mismatched liquidation terms of the Institution's rights and obligations, as well as the liquidity of the financial instruments used to manage the financial positions.

Knowledge and monitoring of this risk are critical since they enable the Organization to settle transactions on a timely and secure basis.

At Bradesco, liquidity risk management involves a series of controls, mainly, the establishment of technical limits and an ongoing assessment of the positions assumed and financial instruments used.

#### Capital Risk Management

The Organization's capital is managed to optimize the risk-return ratio, minimizing losses through the implementation of well-defined business strategies and maximizing efficiency in the combination of factors which impact the Capital Adequacy Ratio (Basel).

Capital Adequacy Ratio (Basel) June 2003 - In millions of reais

Internal Controls		

Complementing its operating risk control and management activities, the Organization has developed a number of systems, policies and internal controls over the years to mitigate possible potential losses generated by its exposure to this type of risk.

Aware of the importance of these controls, Bradesco has developed and implemented certain tools designed to optimize these processes and procedures, among which we highlight the following:

- Implementation of an internal controls system (Compliance), based on the pillars defined by Basel and the methodology of the Committee of Sponsoring Organizations (COSO), mainly as regards components in the following areas: control environment, risk assessment, control activities, information, communications and monitoring, ensuring that activities, policies and normative instructions are in constant compliance with legal and regulatory standards.
- Implementation of a Brazilian Payments System (SPB) risk management process for the specific purpose of monitoring the flow of messages transmitted between the Organization s banks and the external entities such as the Brazilian Central Bank, Special Clearance and Custody System (SELIC), clearing houses and other financial institutions. This monitoring process is based on information system tools and intense staff training activities to facilitate the identification and rectification of events in environments and systems and also to ensure that online cash transfers (TEDs) processed via SPB are properly validated. Complementing these monitoring activities, the Bank also adopts a Systems Contingency Plan for SPB to cover the main departments handling critical transactions, addressing pre-established scenarios and actions and reducing the possibility of messages not being correctly processed.
- Ongoing improvement of technology tools and employee training, focused on the process used to monitor the financial activity of customers and designed to prevent money laundering and utilization of the Organization for processing illegal transactions.
- Dissemination of processes and procedures to guarantee information security, based on Corporate Information Security Policy and Standards, the guidelines of which establish premises for protecting the confidentiality, integrity and availability of information.

# Customer Service Network (Branches) Market Share June 2003

### **Customer to Branch Ratio - Thousand**

### Banco Postal

The results presented by Banco Postal, at the end of the first half, confirm Bradesco s commitment to attend customers from all income brackets.

Post-office Bank Branches now total 2,830 with 331 new units opened during the period. Banco Postal increased its number of accounts by 87.78%, with 272,279 new accounts opened in the first six months of 2003, totaling 582,446 accounts in all.

The steadily growing credit operations and volume of deposits substantiates Banco Postal s important role as a channel for delivering credit and other banking services to Brazil s low-income public.

Out of a total of 1,623 municipalities with no previous access to banking services, 898, with a population of 8.9 million, now benefit from the services offered by Banco Postal. The Bank s active presence in these regions encourages business expansion, increases Bradesco s competitive edge and promotes Brazil s nationwide development.

Banco Postal plays an important role in these remote regions. For example, the 250 pensioners living in the region of Castelo dos Sonhos, in the state of Pará, had to travel over 158 km on roads which are little more than dirt tracks to the town of Novo Progresso to receive their monthly pensions, spending more than 20% of their income in travel expenses alone. The installation of a Banco Postal branch in their town has produced effective savings for these people, as well as facilitating access to other basic banking services.

In major cities or towns which already have Bradesco Branches, Banco Postal s role is still important since Bradesco Customers now have access to a greater number of outlets close to their workplaces or homes.

<sup>(2)</sup> Includes 1 Banco Finasa Branch.

Increase in Accounts Opened (Accumulated) Transactions Carried Out (Monthly) Units Installed (accumulated) Bradesco Day and Night Customer Service Channels As well as the traditional Customer Service Network (Branches), Bradesco customers are able to consult their banking affairs, carry out financial transactions and purchase products and services deployed via state-of-the-art technology through the following alternative channels: Self-service (Auto-Atendimento), Easy Phone (Fone Fácil) and Internet Banking. Bradesco Day and Night Self-Service ATM Network Brazil s largest Private-Sector Self-service Network, with 22,865 ATMs (Bradesco - 21,491, BCN - 884 and BBV Banco - 490). Located in bank branches and in all areas of important economic agglomeration: Shopping Malls, Hypermarkets, Supermarkets, Airports, Service Stations, Bus Stations etc. Bradesco Self-Service Network Distribution Monthly Productivity June 2003 Bradesco Day and Night Easy Phone Service Nationwide 24-hour access, 7 days a week, with Electronic Voice Response (EVR) technology covering 68 regions and personalized calls in 59 regions. Personalized calls are routed via Bradesco s Data and Voice Network to call centers in São Paulo Santa Cecília and Osasco Headquarters. The Easy Phone service is widely used as a result of the large number of fixed and mobile telephones now in use throughout Brazil. Bradesco Day and Night Internet Banking The Bradesco Portal contains links to 21 related websites and to the BCN, BBV Banco and Finasa Bank websites. Bradesco Internet Banking (www.bradesco.com.br) online since May 31, 1996 is a worldwide benchmark for Home Banking services. Since it was first launched, Bradesco Internet Banking has focused on innovating and deploying the largest number of online services possible for its customers.

At present, Bradesco Internet Banking offers its customers more than 210 different services, which can be accessed 24 hours a day, seven days a week anywhere on earth.

**Internet Banking Thousand users** 

Internet Banking
Thousand transactions

Bradesco online services were created to facilitate the day-to-day life of its customers, offering access to the transactions available through the branch network from any point on the globe.

The internet is an important and profitable customer relationship channel, generating benefits for both customers and stockholders.

ShopInvest Bradesco

In March 1999, Bradesco launched ShopInvest (www.shopinvest.com.br), the first Brazilian retail bank broker to operate in BOVESPA's online Home Broker.

Through ShopInvest, investors can access a variety of different information and trade shares in BOVESPA, even if they are not Bradesco account holders. All of these services are provided free-of-charge and comply with the same rules applicable to bricks-and-mortar trading.

ShopInvest stands out for its wide range of investment options, available in nine Investment Rooms: Shares; Savings Bonds; CDB; Funds; Real Estate; BM&F; Savings Accounts; Private Pension Plans and Insurance.

#### ShopCredit

In May 2001, Bradesco launched ShopCredit (www.shopcredit.com.br), the Bank s Financing and Loan website, which offers a complete portfolio of Bradesco's credit lines. The products are grouped together for purchase by consumer or corporate customers with full details on each option and visitors can use a simulator to calculate amounts and terms in the Personal Credit, Consumer Financing (CDC), Leasing, Housing Loans and Finame (Moderfrota, Prefixado and Proleite) modes. ShopCredit visitors can also request instant personal credit, quickly and securely.

Bradesco Net Empresa

On September 18, 2001, Bradesco launched its new corporate banking website.

With Bradesco Net Empresa, companies gained a new ally for optimizing the financial management of their businesses. Through this website, companies can operate bank accounts, make payments and collections and perform other transactions online without having to visit a bricks-and-mortar branch.

B2C (Business to Consumer)

Bradesco Electronic Trade was created in 1998 and soon became a successful hallmark. In the wake of this success, ShopFácil was launched in 2000, offering, among other services, Meios de Pagamento Eletrônico Bradesco (Bradesco Online Payment Methods) the safest, most practical and economic way to shop online.

Bradesco is currently the only Bank in the world to date to receive ISO 9001:2000 accreditation for its Online Commercial Payment Methods.

Bradesco Electronic Payment Methods comprise: Electronic Wallet (Bradesco debit cards, PoupCard and Bradesco Visa and MasterCard Credit Cards), Pagamento Fácil (Easy Payment), Boleto Bancário (Online Dockets), Interaccount Transfers and Bradesco Online Credit.

B2B (Business to Business)

In the B2B area, emphasis should be given to the business solutions offered by Bradesco comprising the following: a security and limits module, B2B payment methods, management tools (buyer, seller and bank) and a financial reconciliation module for the seller.

At present, the Bank offers the following B2B Payment Methods:

- Online Docket;
- Electronic Wallet (Credit Cards); and
- Financing lines.

First-half highlights for 2003:

- Launching of the Bradesco Consórcios website.
- Online transmission of Bradesco Consortium Member Meetings.

- New layout of the Bradesco website index page.
- New layout of the Bradesco Corporate Banking website.
- Implementation of the Bradesco Pocket Banking transaction area.
- Launching of Personal Online Credit.
- Launching of the Bradesco University Student website.
- Launching of the Bradesco Prime website.
- Launching of the Bradesco Guidebook.

Services	First-Half Position:

Credit Cards						

2002

2003

The number of Bradesco credit cards increased by 23% in the first six months compared with the same period in 2002, while the Visa and Mastercard market grew by some 11%. This growth rate expanded our market share from 14% in 2002 to 16% in 2003.

First-half billings totaled R\$ 4.7 billion, a growth rate of 24% as compared to the same period in 2002, with a 15% increase in the number of transactions.

Debit Cards (Electron)

The number of debit cards increased by 15% in the first six months of 2003, compared to the same period in the prior year, strengthening Bradesco s leadership of the Visa Electron market. In terms of billings this increase totaled 61%. These figures demonstrate clearly that Brazilians are changing their payment habits, substituting checks and cash for the use of debit cards. The commercial establishments are our allies in this market, since debit cards are preferred for their guaranteed liquidity, security and easy operation.

Acquiring Market

The network of commercial establishments in Brazil, accredited by the Visa system, is administered by Companhia Brasileira de Meios de Pagamentos - Visanet, in which Bradesco has a direct capital holding of 39%. In the first half of 2003, Visanet processed some R\$ 25.1 billion in transactions, including both credit and debit card billings, a 36% increase over the same period in 2002. Visanet expanded its network by 17% compared to the prior year and at present has 800 thousand associated establishments nationwide. The Visa network is preferred by customers precisely because of the card s wide market acceptance.

#### Corporate Banking

Since its creation in 1999, Bradesco Corporate Banking has focused on enhancing its specialized structures designed to provide the best possible service to 1,159 Economic Groups comprising its target market, segmented as follows:

Corporate: The structure devised to conduct the Bank s relationship with Brazil s major corporations is growing and improving year by year. Every effort is made to ensure that the related-area professionals have a thorough working knowledge of the corresponding economic sectors and companies and as a result are able to offer complete solutions and genuine added value, developing solutions in the areas of cash management, private pension plans, asset management, overseas trade and risk management.

Sugar and Alcohol/Coffee: A specialized team formed to attend these sector companies on a national level, with business, products and services specifically focused on this target public.

Asian Desk: Created through an agreement entered into with UFJ Bank, for the purpose of developing financial solutions for fomenting the commercial and financial flows with countries in eastern Asia where UFJ has an important presence such as China, Hong Kong, Taiwan, Korea, Singapore, Malaysia, Thailand, Indonesia, Philippines, India and Vietnam.

Following the conclusion of the acquisition process of BBV Banco, a Euro Desk will also be formed for the same purpose as the Asian Desk, to develop financial solutions designed to provide leverage to the Bank s relationship with companies in Brazil that do business with other countries

in which BBVA has a strong presence.

Bradesco Empresas (middle market)

Bradesco s middle market segment, Bradesco Empresas, was created in April 2002, designed to offer quality corporate customer service for companies all over Brazil.

Bradesco Empresas targets middle market companies with annual billings from R\$ 15 million to R\$ 180 million.

The Bank s traditional Branch customers who are compatible with this profile are invited to join Bradesco Empresas.

The Bradesco Empresas service offers exclusively reserved Branches for its corporate customers in this segment, located in strategic areas.

Up to June 30, 2003, 35 service outlets were located in São Paulo and Rio de Janeiro with 4,623 customers from the different production chain sectors.

The personalized service offered by Bradesco Empresas prompted significant investments in this area, including specific training for our Relationship Managers and the restructuring of the IT structure, designed to provide added value and increase the Bank s share of this segment.

Since they are responsible for a maximum portfolio of 25 to 30 organizations, each Relationship Manager is able to focus on increasing business in the following areas: Loans, Investments, Foreign Trade, Derivatives, Cash Management and Structured Transactions.

The recent mergers of other financial institutions by Bradesco have had a positive effect, increasing the Bank s product portfolio and market share.

Up to the end of December 2003, there will be a total of 72 Middle Market Branches with some 18,000 corporate customers.

#### Structured Transactions

Launched on June 23, 2003, this service is part of the Organization s trategy to strengthen its positions, considering the highly competitive scenario produced by the policies of recent governments in their pursuit for economic stability.

Designed principally to attend customers from Bradesco Corporate Banking and Bradesco Empresas, this service is focused on developing personalized solutions for customer needs in the following areas: project financing, securitization of assets, loan syndication, etc. which are known in the financial market as structured transactions.

#### Private Banking

Bradesco Private Banking deploys tailor-made ISO 9001:2000-accredited products and services, in both local and international markets. High-income customers receive financial advice from qualified experts on how to form the best possible investment portfolio designed to increase their wealth and maximize returns.

## Bradesco Prime

As part of the segmentation strategy implemented by the Organization in 1999, Bradesco Prime commenced activities on May 19, 2003, with a Network of 109 Branches distributed nationwide.

Bradesco Prime is designed to coordinate the Bank s commercial relationship with high-wealth consumer customers, providing personalized attendance by Relationship Managers in exclusively reserved areas and offering products specifically developed for this segment s needs.

#### Capital Market

#### **Underwriting Transactions**

Up to June 2003, Bradesco coordinated transactions with stock, debentures and promissory notes which totaled R\$ 2.999 billion, comprising 70.78% of all issues registered at the Brazilian Securities Commission (CVM).

Of the total number of floating and fixed-return transactions registered at CVM up to June 30, 2003, Bradesco participated in 33% of the primary and secondary stock issues and in 20% of debenture issues and 33% of promissory notes issues.

#### Bradesco's Share of the Issues Market (in millions of reais)

Mergers, Acquisitions, Project Finance, Corporate Reorganization and Privatizations

Confirming its dynamic approach in the prospecting of new business, Bradesco ended the first half of 2003 with 4 operations in the Mergers and Acquisitions segment totaling more than R\$ 2.6 billion.

Bradesco s presence is also notable in Project Finance operations, acting as a financial advisor to major corporations operating in electric power generation and co-related projects such as the construction of gas pipelines. These projects currently amount to some R\$ 5.5 billion.

Foreign Exchange

Structure

The Organization has 27 specialized units operating in Brazil (Bradesco - 12, BCN - 5 and BBV Banco - 10), 1 Branch in New York (Bradesco), 4 Branches in Grand Cayman (Bradesco, BCN, Boavista and Mercantil), 2 Branches in Nassau (BBV Banco and Boavista), 1 subsidiary in Buenos Aires, Banco Bradesco Argentina S.A., 1 subsidiary in Nassau, Boavista Banking Limited and 2 subsidiaries in Luxembourg, Banco Bradesco Luxembourg S.A. and Banco Mercantil de São Paulo International S.A. and 1 subsidiary in Tokyo, Bradesco Services Co., Ltd. and 1 subsidiary in Grand Cayman, Cidade Capital Markets Ltd.

In the Exchange area, emphasis should be given to the traditionally important support offered by the Bradesco Organization to Foreign Trade, with a balance of US\$ 6.0 billion recorded in the foreign exchange trading portfolio for financing imports and exports, as well as for onlending to local customers.

Foreign exchange trading for exports up to May 2003 totaled US\$ 5.4 billion, an 10.5% increase compared to the same period in 2002. We also highlight the 32% increase in foreign exchange trading for imports which totaled US\$ 2.2 billion, as compared to US\$ 1.7 billion posted for the first five months of 2002.

#### Volume of Foreign Currency Trade -In billions of U.S. dollars

#### **Export Market**

# **Import Market**

We present below the composition of the foreign trade portfolio at June 30, 2003:

	In millions of U.S. dollars	In millions of reais
Export financing		
Advance on Foreign Exchange Contracts - undelivered bills	1,468	4,215
Advance on Export Contracts delivered bills	457	1,313
Exchange discounted in advance	27	77
Prepayments	474	1,360
Loans according to Export Incentive Program (Proex)	0.1	0.3
Onlending of funds borrowed from BNDES/EXIM	60	173
Documentary drafts and bills of exchange in foreign currency	9	25
Indirect exports	4	12

Total export financing	2,499.1	7,175.3
Import financing		
Foreign currency import loans	309	887
Exchange discounted in advance	65	186
Open import credit	54	156
Total import financing	428	1,229
Total export and import financing	2,927.1	8,404.3

As well as the funds obtained through the Commercial Paper program in the United States, the foreign exchange portfolio is financed mainly by credit lines obtained from Correspondent Banks.

At the end of the first half, approximately 107 American, European and Asian Banks had extended credit lines to Bradesco.

Along the same lines, emphasis should also be given to two significant foreign trade finance facilities which were contracted with the Inter American Development Bank (IDB) and the International Finance Corporation (IFC) on April 17, 2003, permitting drawdowns of up to US\$ 110 million and US\$ 70 million, respectively.

The core objective of the foreign branches is to obtain funds in the international market for onlending to customers, principally through the financing of Brazilian foreign trade.

The main activity of the subsidiaries Banco Bradesco Luxembourg S.A. and Banco Mercantil de São Paulo International S.A. is to provide additional services to private banking customers and to increase foreign trade operations.

In the first six months of 2003, as well as short-term funds obtained from correspondent Banks for foreign trade financing, loans of US\$ 1.587 billion on a consolidated basis were raised through public and private placements in the international capital market, earmarked for foreign trade financing and working capital loans.

This amount corresponds to a 228% increase over the same period in 2002 when the Organization obtained some US\$ 483 million.

Collection and Tax and Utility Collections		

Collection

Bradesco Collection strengthens its position yearly as an authentic partner in the management of corporate business. Combining high standards of efficiency with latest-generation IT resources, Bradesco collection services are an efficient and secure tool for use by a universe of corporate entities.

Bradesco s computer-recorded Collection services, transmitting and receiving data on a direct computer-to-computer basis, rely on one of the most advanced banking technology systems available, offering important productivity gains to companies by permitting the streamlining of services. The available services include electronic collection (computer-recorded) permitting online information consultation by user companies. This system processes approximately 98% of all documents recorded in the Bradesco collection portfolio.

Pag-For Bradesco facilitates the management of Trade Accounts Payable for more than 38 thousand companies.

#### Tax and Utility Collections

Developed based on high standards of efficiency and quality, Bradesco s tax and utility collections serve a dual purpose. On the one hand, they seek to provide customer satisfaction with appropriate and innovative solutions for the settlement of taxes, duties and contributions. On the other, they effectively interact with the different Government Departments in the federal, state and municipal spheres and with public utility concessionaires.

Bradesco s tax and utility collection services are noted for the speed and security of the data transmitted and amounts collected.

#### **PROFILE**

One of the Bradesco Organization companies, BCN is recognized in the market as the RELATIONSHIP BANK, as a result of the high-quality customer service provided to its consumer and corporate account holders and non-account holders alike.

The BCN customer service network comprises 222 Branches throughout Brazil, a branch in Grand Cayman, as well as 95 Banking Service Posts and 98 Online Service Outlets installed on corporate customer premises and a branch of Banco Finasa S.A., wholly owned subsidiary of BCN and the self-service network consists of 884 BCN ATMs, 2,207 ATMs comprising the 24-Hour Bank Network as well as 10,564 Bradesco Day and Night ATMs, which can be used by BCN customers.

Customers also have access to two BCN Digital Branches (in São Paulo and Rio de Janeiro). These branches offer an advanced concept in phonebank services whereby products and services are sold by management teams and delivered by courier service with no need for customers to leave their homes or the office. Another phone service, the BCN Live Line, is also available to branch customers nationwide, in addition to the services offered by BCN Office Banking and BCNNet Internet Banking.

At the end of the first half, Finasa Promotora de Vendas Ltda., subsidiary of Banco Finasa S.A., had 55 Branches focused on securing customers throughout Brazil, at 12,596 registered new and used vehicle dealership outlets and in 730 stores selling furniture, home décor, IT related equipment, tourism and finishing materials, among others.

At June 30, BCN had some 845 thousand customers 711 thousand account holders and 134 thousand non-account holders and had issued a total of 219 thousand credit cards. Customers served by Banco Finasa S.A totaled approximately 844 thousand.

#### Corporate Reorganization

As part of the ongoing process to rationalize and decrease operating, administrative and legal costs in the pursuit to improve its competitiveness and productivity, on February 28, 2003, BCN Leasing Arrendamento Mercantil S.A. incorporated Bradesco Leasing S.A. Arrendamento Mercantil and changed its name to Bradesco BCN Leasing S.A. Arrendamento Mercantil. On April 30, the company also incorporated Finasa Leasing Arrendamento Mercantil S.A., currently pending ratification by the Brazilian Central Bank

Net Income and Stockholders Equity

First-half net income of BCN totaled R\$ 280.8 million, an increase of 84.6% compared to the same period in 2002, corresponding to an annualized return of 35.2% on stockholders equity of R\$ 1.7 billion. Non-recurring income for the period was recorded in the amount of some R\$ 132.5 million, derived from deferred tax assets recorded on prior-year tax losses and negative bases of social contribution in Potenza Leasing S.A. Arrendamento Mercantil, a wholly owned subsidiary of BCN. Disregarding this effect, results for the six-month period totaled R\$ 148.3 million and an annualized return of 19.0% on stockholders equity

Operating Performance

Funding and Portfolio Administration

At June 30, 2003, the overall funds obtained and managed totaled R\$ 24.4 billion, a 11.7% increase compared with the same period in 2002. Deposits totaled R\$ 12.8 billion, an increase of 17.4%, especially Interbank deposits, with a balance of R\$ 7.1 billion, and Time deposits with a balance of R\$ 4.1 billion. Total funds include an amount of R\$ 2.8 billion in Investment Funds, obtained by BCN Branches, managed by BRAM Bradesco Asset Management Ltda. and administrated by Banco Bradesco S.A.

**Total Assets and Credit Operations** 

At the end of the first half, total assets were R\$ 24.0 billion, a 13.5% increase over the same period in 2002.

The balance of credit operations totaled R\$ 12.1 billion, including leasing operations and advances on foreign exchange contracts. Special emphasis should be given to the Consumer Sales Financing (CDC) portfolio with a balance of R\$ 4.7 billion, a 26.0% increase over the balance at June 30, 2002.

#### Ratings

According to Fitch Atlantic Ratings, BCN received the best rating among all banks operating in Brazil and Austin Rating gave Banco Finasa a maximum triple A rating for financial soundness and a Low Risk long-term rating.

#### Products and Services

#### Consumer Customers

The customer service segmentation strategy, based on the consumer customers income and investment resources, ensures that highly specialized Management teams are capable of attending account holders at all times, anticipating their every needs.

The Relationship Account continues in its position as the financial market s most advantageous program, guaranteeing current account holders, based on their level of use of the Bank s products and services, the benefit of an interest-free period of 12 to 18 days per month on special check account overdraft facilities or a reduction of up to 60% of the interest rates charged on overdrafts which overrun the interest-free period; free choice of repayment dates for interest on authorized overdrafts; weekly draws for cash prizes of up to R\$ 60 thousand; decreases of up to 100% in bank charges and Smart Club Program points which can be converted into prizes.

#### Corporate Customers

Among the products and services offered to corporate customers, the most diversified range in the market, we highlight BCN Collection, BCNPag supplier payment and the BCN Payroll service, with special emphasis on the growing use of online services.

#### Social Actions

The Bank continues its important support of sports activities through the BCN Sports program, which focuses on the formation, maintenance and dissemination of women s basketball and volleyball at 81 training centers, 49 for volleyball and 32 for basketball. At these centers, some 4,300 young athletes from 10 to 15 years of age have access to courts, uniforms, sports material, instructors and all the infrastructure required to practice these sports, completely free of charge.

Banco Finasa S.A., formerly Continental Banco S.A., a wholly owned subsidiary of Banco BCN S.A., operates in the financing segment, through the intermediation of Finasa Promotora de Vendas Ltda., which is responsible for securing new customers and preparing credit proposals.

Seeking to increase the volume of its business, in addition to the partnerships entered into in 2002 with Ford Credit and Microsoft, Banco Finasa signed an operating agreement during the first half with the Brazilian Association of Fiat Automobile Dealerships ABRACAF, for financing vehicles sold by the associated dealerships.

At the end of June, Finasa Promotora had 55 Branches and was present in 12,596 new and used vehicle dealership outlets and 730 stores selling furniture and home decor, IT related equipment, tourism and finishing materials, among others.

Customers served by Banco Finasa totaled some 844 thousand.

In 2002, the Bank was rated for the first time by Austin Rating, receiving the maximum triple A rating for financial soundness and Low Risk for long-term transactions.

Net Income and Stockholders Equity

The Bank's first-half net income was R\$ 52.9 million, an annualized return of 44.6% on stockholders equity of R\$ 261.2 million.

#### Assets

At June 30, 2003, assets totaled R\$ 4.3 billion, an increase of 37.9% over the same period in 2002. Of this amount, R\$ 3.8 billion comprised funds for new and used auto financing, an increase of 43.0%, as compared to June 2002.

Auto-financing production for the first six months of 2003 totaled R\$ 1.6 billion, growing by 75.8% compared to R\$ 923.1 million produced for the same period in 2002.

This performance ensures that that portfolio is maintained above the levels attained following the acquisition of Banco Ford S.A. s operations and the incorporation of the financing portfolio of Finasa S.A. Crédito Financiamento e Investimento in 2002.

BBV Banco commenced its activities in Brazil on August 28, 1998 following the acquisition by Banco Espanhol Bilbao Vizcaya (BBVA), of Banco Excel Econômico S.A. At that time, the Bank s customer service network comprised 222 branches with 6,116 employees.

In 1999, following a turnaround process which began in the prior year, the Bank centered its strategy on the preparation of its technology infrastructure, which was to provide the basis of its expansion project forecast to commence in 2000.

From 2000 up to the end of 2001, the Bank implemented an aggressive investment plan designed to open more than 200 branches, which would effectively double its network. As a result, the Bank is now present in all of Brazil s states and is growing steadily with the launching of differentiated customer products such as Hiperfundo, a fund in which a draw for an automobile is held every business day among investors.

In 2002, despite external market fears regarding the outcome of Brazil s presidential election, the Bank consolidated its expansion plan with the new branches recording profitable returns much earlier than expected.

Sale to Bradesco

The sales process of BBV Banco to Bradesco commenced on January 10, 2003, following the signature of the Private Business Integration Agreement and Other Accords , by Bradesco and BBVA for the acquisition of the control of BBV Banco and its subsidiaries.

On January 20, 2003, BBV Banco opened up a data room with all the information and documentation required by Bradesco s auditors. This audit was concluded on February 28, 2003.

Subsequent to the conclusion of the due diligence and approval of the transaction by the corresponding regulatory authorities, Bradesco assumed definitive control of BBV Banco on June 9, 2003.

The transaction was carried out through the acquisition by Bradesco of 4,631,991,278 shares of BBV Banco, owned by BBVA, of which 1,523,283,014 were common and 3,108,708,264 were preferred shares, corresponding to 49% of common capital and 99.99% of preferred capital for the amount of R\$ 1,849,970,549.00.

The transaction also involved the transfer to Bradesco, as payment of capital increase through incorporation of shares, of 1,585,490,409 nominative registered shares, with no par value, of which 1,585,457,830 are common and 32,579 are preferred shares of BBV Banco, corresponding to 51% of voting capital and 25.50% of total capital, transforming BBV Banco into a wholly owned subsidiary of Bradesco, under the terms of Article 252 of Law 6,404/76.

Performance/achievements during the first six months of 2003

After only five years in Brazil, BBV Banco has grown and gained an important position in the local market. With equity of R\$ 2.3 billion, the Bank is the 8th largest financial institution in the Brazilian private-sector market.

In the consolidated balance sheet, at June 30, 2003, the Bank presented assets of R\$ 10.1 billion and currently has one of the lowest default rates in the market: only 5.1% of the institution s credit operations are classified from D to H, which is particularly significant considering that the market s average default rate totals approximately 13.3%.

With R\$ 3.5 billion in demand, time, interbank and savings account deposits, the Bank commenced the gradual adaptation, during the first half, of its prices to comply with Bradesco policy, decreasing accordingly its financial costs.

One of the highlights of BBV Banco product and service portfolio is Hiperfundo, a DI fund which since its launching in May 2000 has surpassed all expectations. The fund offers the added advantage of a daily draw with prizes ranging from an automobile to thousands of other smaller prizes. Up to June 30, 2003, the BBV Hiperfundo delivered a total of 787 automobiles and some 90,000 other prizes including bicycles, CD players, microsystems, etc.

Checking accounts: consumer and corporate customers

At the end of the first half, BBV Banco had a total of 458,802 accounts of which 395,906 are held by consumer and 62,896 by corporate customers.

Savings Accounts

At the end of the first half, BBV Banco had a total of 597,731 accounts, of which 549,788 are held by consumer and 47,943 by corporate customers.

Internet users

At June 30, 2003, a total of 146,065 BBV Banco customers were internet banking service users.

# ATMs

At June 30, 2003, BBV Banco had 490 ATMs.

### Branches

At the end of the first half, BBV Banco had a total of 439 branches distributed as follows:

Retail/Commercial	385
Company	47
Institutional	04
Corporate	03
Employees	

At the end of the six-month period, the Group had 4,677 employees, 4,638 at BBV Banco and 39 at the subsidiaries.

At the end of the first half, Bradesco Corretora maintained its outstanding position in the Capital Market.

We present below a summary of the company s main activities for the six-month period:

Bradesco Corretora ended the 1st half of 2003, among the 10 most important brokerage firms, out of more than 90 operating in the São Paulo Stock Exchange (BOVESPA). During this period, services were provided to 27,045 investors and 117,172 buy and sell orders were carried out for a total financial volume of R\$ 4.4 billion. The Corretora participates with BOVESPA in the Bovespa vai até você campaign in an important effort to raise public awareness regarding the benefits of investing in the stock market.

Bradesco Corretora negotiated 962.4 thousand contracts in the Mercantile and Futures Exchange (BM&F) for a financial volume of R\$ 127.6 billion, ranking the Corretora among the 20 most important brokerage firms out of more than 100 participants. The Corretora has centered its efforts on the continued expansion of its business, as well as promoting the futures market. For example, in the agricultural area it acts directly in the country s main production centers, through visits, seminars and participation in agricultural fairs and expos. In conjunction with the BM&F, the company sponsored visits to the exchange and Bradesco Corretora in São Paulo by investors from all over the country. At the same time, the company hosted numerous visits by farmers, teachers, opinion-makers and brokers from the physical commodities market.

Online web trading for the six-month period totaled 70,765 orders with a financial volume of R\$ 391.6 million, representing 5.3% of all Home-Broker operations carried out in BOVESPA and placing the Corretora fourth in the overall ranking. The customer base increased by 11.8% with more than 1,691 new customers registered during the period and more than 18,195 e-mails received.

As a result of its role in Public Offerings of Share Purchases, Special Operations, Stock Swapping Auctions and Privatization Auctions, Bradesco Corretora continues in its important market position, with financial volume of R\$ 27.8 million for the six-month period.

Net income recorded for the first half totaled R\$ 7.0 million.

Stockholders' equity at the end of the six months increased to R\$ 93.8 million, corresponding to 54.3% of total assets of R\$ 172.8 million.

Bradesco Securities, Inc., a wholly owned subsidiary of Bradesco, operates as a broker dealer in the United States. The company's activities are focused on the intermediation of share purchases and sales, with emphasis on ADR operations. The company is also authorized to operate with Bonds, Commercial Paper and Certificates of Deposit, among others, and to provide Investment Advisory services. This Bradesco initiative was motivated by more than 90 programs involving ADRs of Brazilian companies traded in New York and by the growing interest of foreign investors in the emerging markets and is designed to offer support for global economy investors who invest part of this flow in countries such as Brazil.

Designed to provide leverage to its brokerage transactions abroad, Bradesco Securities, Inc. increased company capital in the amount of US\$ 20 million in May 2003.

Designed to achieve higher levels of competitiveness and productivity, consequently rationalizing and reducing operating, administrative and legal costs, the following corporate restructuring was carried out by Bradesco Organization during the first half of 2003:

- On February 28, BCN Leasing Arrendamento Mercantil S.A., a wholly owned subsidiary of Banco BCN S.A., incorporated Bradesco Leasing S.A. Arrendamento Mercantil, at book value on January 31 and changed its name to Bradesco BCN Leasing S.A. Arrendamento Mercantil on the same date.
- On April 30, Bradesco BCN Leasing incorporated Finasa Leasing Arrendamento Mercantil S.A., at book values on March 31, 2003.
- On June 9, the Organization acquired BBV Leasing Brasil S.A., at book values on May 31, 2003.

The increase in stockholders—equity between 2002 and 2003 was mainly derived from a capital increase of R\$ 500 million in Potenza Leasing S.A. Arrendamento Mercantil, in November 2002, and deferred tax assets recorded in the latter as a result of tax losses and negative basis of social contribution in the amount of R\$ 132.5 million, in March 2003. Boavista S.A. Arrendamento Mercantil also received a capital increase of R\$ 180 million in November 2002.

Leasing Performance Consolidated Bradesco

Bradesco's leasing operations are carried out through its subsidiaries: Bradesco BCN Leasing S.A. Arrendamento Mercantil, Banco Finasa S.A. and BBV Leasing Brasil S.A.

At June 30, 2003, leasing operations totaled R\$ 1,513.7 million (present value), as well as an amount of R\$ 28.2 million receivable in operating leases.

According to the Brazilian Association of Leasing Companies (ABEL), Bradesco is leader in the national ranking of leasing companies, with a 19.0% market share (Base date: May 2003).

Bradesco leases different types of asset, including light vehicles (cars) and heavy vehicles (buses and trucks), airplanes, machinery, equipment and computers.

The following pie graph presents the composition of Bradesco's consolidated leasing portfolio by types of asset:

### Operations

On June 11, 2002, all the quotas of Administradora de Consórcios Potenza Ltda. were transferred from Banco BCN S.A. to Banco Bradesco S A

On June 24, 2002, approval was given to change the company s name to Bradesco Consórcios Ltda. and its principal place of business to Osasco, SP

These acts were ratified by the Brazilian Central Bank (BACEN) on July 22, 2002.

On December 9, 2002, Bradesco Consórcios commenced the sale of consortium quotas exclusively to Bradesco Organization employees.

On January 21, 2003, Bradesco commenced the sale of consortium quotas to its account holders and non-account holders.

At June 30, 2003, a total of 31 thousand consortium quotas had been sold, with billings in excess of R\$ 1.0 billion.

The first online meeting of Bradesco Consortium holders was held on February 26, 2003 and by June 30, 2003, 10 meetings had been held.

Up to June 30, 2003, a total of 841 items had been received by consortium group participants.

The company uses all the facilities of the Bradesco Organization customer service network to commercialize the products offered.

The consortium groups managed by the former company are now closed.

Mission

The company s mission is to manage consortium plans and groups for consumer and corporate purchasers regardless of whether they are Bradesco account holders or not, and to operate in the light and heavy vehicle (including cars, trucks, tractors and combine harvesters) and real estate segments, maintaining excellent standards in the quality of the services offered and in consortium system practice, pursuant to regulations determined by the Brazilian Central Bank and in line with the Bradesco Organization s philosophy.

### Segmentation

The Bradesco Organization s entry into this segment is part of its strategy to offer the most complete range of product and services possible to its customers.

Providing all income brackets with the opportunity to purchase items through the consortium quota system, filling a market lacuna at accessible prices and considering especially regarding real estate products, the country s present housing deficit.

The Consortium segment is a complementary niche to regular banking activities and at present there are 3 million (\*) consortium group members nationwide. According to information gathered, only 15% (\*) of vehicles sold in Brazil are sold via the Consortium method.

At present an average 64.3 thousand (\*) participants receive items monthly through this purchase method as compared to 61.3 thousand 12 months ago, an increase of 4.7% (\*), including first homes and new cars and more than 20 other products sold through the consortium quota system.

In April, sales reached a record 134.9 thousand plans, a 12.4% increase over the balance for March, with Bradesco Consórcios making an important contribution towards this growth.

(\*) Source: ABAC Brazilian Association of Consortium Group Management Companies.

#### Representation

Bradesco plays a central role in this segment, providing Brazilians with more opportunities to acquire goods and real estate.

As a result of this activity our medium and long-term results will undoubtedly grow, with positive effects on our capacity to secure new customers.

Total Claims Ratio - Prior 12 months (%)

N.B. Retained claims (from 2002, excluding Life redemptions and from 2003 VGBL redemptions)/Earned premiums.

### Number of Policyholders - Thousand

Up to June 30, 2003, the number of customers grew by 5.4% for the six-month period in comparison to the same period in 2002.

Bradesco Saúde continues to maintain its outstanding market position, especially in the corporate health insurance segment. Brazilian consumers are increasingly convinced that Health and Dental Insurance are the best alternatives for meeting their medical, hospital and dental care needs. At present, Bradesco Saúde has more than 2.3 million customers.

The increasing number of beneficiaries employed by micro, small and medium companies, as well as major corporations that have contracted Bradesco Saúde, confirms the company s high level of expertise and personalization in Corporate Insurance services, a distinct advantage in the Health Insurance market.

Approximately 11 thousand companies in Brazil have acquired Bradesco Health Insurance. Out of the 100 largest companies in Brazil, 35 are Bradesco clients in the Health and Dental Health lines and out of the country s 10 largest companies, 60% are Bradesco Saúde clients.

Emphasis should also be given to the practical nature of the Bradesco Saúde Portal (http://www.bradescosaude.com.br), which, in addition to providing information on available products, also offers a number of services to policyholders, prospects and brokers.

The Bradesco Insurance Group occupies a leadership position in the Basic Line Brazilian market, which comprises the following main types of insurance, named and operating risks, national and international transport, oil risks, engineering risks, third-party liability and aircraft risks, among others.

In the mass market insurance segment, focusing on consumer and small and medium corporate customers, the results achieved from policy sales continue significant, particularly Bradesco Seguro Residencial Simplificado (Bradesco Simplified Residential Insurance).

In the Corporate Insurance area, the Group consolidated its leadership position, insuring business conglomerates operating in the automobile, mining, steel, oil, electrical power, agribusiness, paper and pulp, chemical, aluminum and aircraft industries, confirming the Bradesco Insurance Group s significant presence among Brazil s major corporations.

The Automotive and RCF (Optional Third Party Liability) line posted an important increase in the number of policyholders and the technically correct pricing policy was maintained. Emphasis should also be given to the implementation of the differentiated services which add value to products, such as discounts given through the nationwide customer service networks and the increase in the number of relationships with brokers which are carried out exclusively online via the Internet.

With R\$ 591 million in accumulated premiums from January to May 2003, the Company maintained its leadership of the Auto line a 5.2% increase over the amount determined by the second-ranked company (source: SUSEP).

#### Awards

- 1. On April 25, Bradesco Seguros won the Top de Marketing 2003 award given by the Brazilian Association of Sales and Marketing Directors ADVB with the following case: Bradesco Seguros. Liderança de ponta a ponta é isso: 1ª em share of market, e agora também a 1ª em top of mind .
- 2. The Bradesco Seguros website, which had already won the iBEST internet award in the Insurance and Revelation categories in 2002, also won this year s Grand Prix internet oscar awarded by popular vote and the site was also rated best Insurance category site by the Academy and popular votes.

<sup>(1)</sup> Including BBV Previdência e Seguradora Brasil S.A. from June 2003.

Income from Plans Market Share (%)

Since its foundation in 1981, Bradesco Vida e Previdência has recorded consistently high levels of growth confirming its leadership of a sector which from the early nineties has shown considerable potential for expansion.

Income from its private pension plans has grown some 43.3% per year over the last five years, enabling the company to maintain its leadership position with 38.3% of the market, the result of a sound product development policy structured around innovative and flexible options.

Products bearing the Bradesco Vida e Previdência hallmark reflect the company's efforts to remain ahead of its time, sensitive to future trends.

Growth in Technical Reserves
In millions of reais

Providing a secure option for participants, policyholders and beneficiaries, Bradesco Vida e Previdência has recorded an increasing growth rate in the volume of its technical reserves. During the first half, technical reserves presented an increase of 20.5% over the same period in 2002,

highlighting the company's capacity to meet the commitments assumed.

Bradesco Vida e Previdência's unquestionable commitment to providing a care-free future for its participants has ensured its ranking as Brazil's largest listed supplementary pension plan company.

Growth in Guaranteeing Assets of Technical Reserves
In millions of reais

Private Pension Plan and VGBL Investment Portfolio - Market Share (%)

Reflecting the growth in income from private pension plans, Bradesco Vida e Previdência ended the first half of 2003 with a high level of capitalization. The investment portfolio presents an ongoing growth in financial volume and results, well above the required volume of technical reserves.

The company's success and commitment to the implementation of its policies are confirmed by its 52.1% share of this segment, one of most important market indicators.

Increase in Number of Participants - Thousand

During the six-month period, Bradesco Vida e Previdência signed new contracts for individual and company plans, which accounted for a 4.6% increase in the number of participants compared to the performance recorded for the same period in 2002. Total plan participants surpassed the 1.2 million mark.

<sup>(1)</sup> Includes: Bradesco Capitalização and Atlântica Capitalização (formerly BCN Capitalização).

Bradesco Capitalização s outstanding position in the premium bond market is the result of its transparent operating policy, which is focused on the deployment of products in line with potential consumer demand.

The company is consolidating its outstanding position in diverse regions and holds a leadership position in four Brazilian states, according to the latest figures for May published by SUSEP. The company s market share in these states was as follows: 32.7% in Bahia, 27.9% in Amazonas, 26.5% in Santa Catarina and 23.3% in São Paulo.

In pursuit of a bond which is suited to its customers different profiles and budgets, the company developed a number of products varying in accordance with the type of payment (single or monthly), contribution terms, regularity of draws (weekly or monthly) and related prize amounts. This phase brought the company closer to the general public and consolidated the success of its Pé Quente (Lucky Bond) savings bond series.

Bradesco Capitalização was the first private savings bond company in Brazil to receive ISO9002 accreditation and in December 2002 this certificate was upgraded to the 2000 Version. ISO 9001:2000. This accreditation from Fundação Vanzolini attests to the management quality of Bradesco savings bonds and confirms the principles on which their creation was based: good products, good services and continuous growth.

Income from Plans Market Share (%)

Technical Reserves Market Share (%)

Growth in Technical Reserves - In millions of reais

With its fast-growing volume of technical reserves, Bradesco Capitalização surpassed the mark of R\$ 1.7 billion in the first six months of 2003, presenting a growth rate of 24.47% compared to the same period in 2002. According to data from SUSEP for May 2003, the company has 21.78% of the total market volume of technical reserves.

These results transmit confidence and confirm the company s financial soundness and capacity to honor the commitments assumed with its customers.

Growth in Assets guaranteeing Technical Reserves - In millions of reais

Number of Customers - Thousand

Outstanding Savings Bonds - Thousand

In line with its customer loyalty building policy focused on customer service and the offer of innovative products, the number of Bradesco Capitalização customers increased by 30% in the first six-month period of 2003, compared to the same period in 2002, totaling 2.7 million. The outstanding savings bond portfolio also presented a significant 25% increase over the same period in the prior year, reaching a total of 7.6 million outstanding bonds.

### Highlights

Bradesco Capitalização was highlighted in an article published in the April edition of the Conjuntura Econômica magazine, in which it was ranked as leader of its corresponding sector, based on a study conducted by Austin Rating. The methodology used to rank the best companies considered indicators such as stockholders equity, liquidity and profitability.

#### Awards

Bradesco Capitalização received the Top de Marketing 2003 award, given by the Brazilian Association of Sales and Marketing Directors - ADVB for the following case: Título de Capitalização Pé Quente Reserva Especial em proeza inédita: quebra paradigma e conquista público de alta renda . This award is designed to give proper recognition for the work of organizations which demonstrate excellence in sustaining their products, services or trademarks through innovative and consistent marketing tactics.

# Awards

Bradesco was rated best financial institution in a poll carried out by IBOPE for the National Association of Construction Material Retailers (Anamaco). This traditional award reveals the best institution based on customer satisfaction levels. IBOPE interviewed 1,352 retailers in all of Brazil s states.

For the second year running, Bradesco was considered best Brazilian Retail Bank by Austin Rating/ Conjuntura Econômica magazine, published by Fundação Getulio Vargas. The Bank received the Prêmio Comunicação 2002 award as Best Advertiser of the Year, from the Brazilian Advertising Association (ABP), the main representative of Brazilian advertising activities.

In the second quarter of this year, Bradesco Investment Funds took the Top de Gestão de Fundos 2003 award by Valor Econômico newspaper, in the Derivative and Balanced funds category.

Bradesco also received an award for excellence in customer service Prêmio Consumidor Moderno de Excelência em Serviços ao Cliente 2003. According to a study prepared by the Business Standard magazine in partnership with the Center for Banking Excellence of Fundação Getulio Vargas in São Paulo, Bradesco Internet Banking was rated best Brazilian Internet Banking service for the second year in a row.

Bradesco also received the e-finance 2003 award given by the Executivos Financeiros magazine in three categories: Internet Banking with ShopCredit, Corporate Internet Banking with Bradesco Net Empresa and Self-service/Security with Letras de Acesso Bradesco Dia e Noite.

Confirmed as overall winner of the iBest 2003, the Bradesco Organization received eight awards at this year s internet oscars ceremony. For the seventh consecutive year, Bradesco was ranked first place in the Banks category. Bradesco Seguros won the Grand Prix as the most voted site at the 2003 awards.

Bradesco was also ranked first place among Brazil s 100 most-wired Companies by INFO Exame magazine which rates companies at the vanguard in terms of Information Technology (IT). As well as leading the overall ranking, Bradesco was also rated leader in two other categories: the most-wired banking sector company, among 17 economic segments under analysis and leader in São Paulo in the ranking which rates Brazil s six most industrialized states.

### Sociocultural Events

Bradesco is a benchmark in social responsibility, implementing innumerous sociocultural projects and events which help to promote citizenship values in Brazil.

In the first six months of 2003, Bradesco gave support to innumerous social projects. These comprised regional, sector or professional venues, including trade fairs, seminars, congresses and community events.

As part of its strategy to provide incentives to agricultural development in Brazil s interior, Bradesco was present in events such as the Agricultural Fair in Londrina, Paraná, the Cerrado Agrishow in Rondonópolis, Mato Grosso and the Agrishow in Ribeirão Preto, São Paulo, which is the third largest farming technology exposition in the world. The Organization was also present at the International Machinery and Equipment Fair (Feimafe), recognized as one of the most traditional and important fairs in this segment.

Bradesco sponsored a number of important cultural events during the period, including the Parintins Folklore Festival in Amazonia, one of the Country s most important cultural expressions, as well as the Summer Festival and Carnival in Salvador and the St John s Day Festival in Caruaru, in Pernambuco, events which attract an increasing number of visitors each year.

For the fourth year running, Bradesco Seguros sponsored the Rio de Janeiro Book Bienal, now in its 11th year. The insurance company presented a number of books published under its sponsorship including Aquarelas Brasil XIX: Paisagem, Flores e Frutos (19th Century Brazilian Watercolors: Landscapes, Flowers and Fruit), Poesia Completa Carlos Drummond de Andrade (The Complete Anthology), Documentos Históricos do Brasil (Historical Documents of Brazil), among others. Bradesco Seguros was also one of the most important sponsors of the Dell'Arte series of International Classical Concerts which brought to Brazil the Russian Chamber Ensemble from Moscow, the Dutch ensemble Combattimento Consort from Amsterdam, specialized in baroque music and the Symphony Orchestra Giuseppe Verdi from Milan, one of the most important symphony orchestras in Italy, with special guest pianist, Nelson Freire.

In the educational area, the Bradesco Foundation extended its activities with the opening of its 39th school in Boa Vista, Roraima, the only state in Brazil still without a Bradesco Foundation school. More than 105 thousand students receive free education at the Foundation schools all over Brazil.

In the second quarter, BCN organized its XIII Sports Training Center Festival, with basketball and volleyball games which attracted more than 7,000 people including students, parents, instructors and professional athletes in Osasco, São Paulo. Created 15 years ago, the BCN project provides the opportunity for thousands of young girls from 10 to 15 years of age to practice sports. BCN s main women s professional volleyball team was the 2002/2003 super-league champion.

### Administrative Body

Fundação Bradesco The Bradesco Organization s Social Arm

### Background

The Bradesco Foundation, a not-for-profit entity, headquartered at Cidade de Deus, Osasco (SP), was founded in 1956 and declared to be of Federal Public Utility by Decree 86,238, on July 30, 1981.

Convinced that education lies at the roots of equal opportunity and personal and collective fulfillment, the Bradesco Foundation currently maintains 39 schools installed as priority in the country s most underprivileged regions, in all of Brazil s states and in the Federal District.

### Objectives and Goals

Through its pioneer action in private social investment, the Bradesco Foundation s chief mission is to provide formal quality education to children, young people and adults ensuring that they receive the qualifications required to achieve personal fulfillment through their work and the exercising of their rights and duties as citizens.

Accordingly, the Foundation has expanded its activities yearly, increasing the number of students matriculated in its schools from 13,080 to more than 103,000 over the last twenty-three years. The Bradesco Foundation schools offer education free-of-charge at pre, junior and high school levels, as well as basic professional and technical training in IT, electronics, industry, management and agriculture and livestock raising. Distance learning is also offered as part of its Youth and Adult Education programs.

### Important Events

The 39th Bradesco Foundation School, in the city of Boa Vista, Roraima, opened its doors on February 6 this year with modern facilities and the capacity to attend more than 1,200 students.

On March 9, all the Foundation Schools took part in Brazil s National Voluntary Action Day. More than 190 thousand people benefited from activities promoted in the leisure and entertainment, education, culture, sports, prevention and healthcare, community development and citizenship action areas. Four thousand volunteers participated, including students, parents, teachers and professionals from partner organizations, providing more than 200 quality services to community members residing in the vicinity of the Foundation schools.

During the period, Bradesco announced the construction of another Bradesco Foundation School in the town of Osasco (SP), located in the Jardim Conceição neighborhood, the school will have the capacity to attend approximately 2,000 students from the local community.

### School Locations

The majority of the Foundation's educational units are located on the outskirts of major cities or in rural areas where there is a significant lack of educational and welfare assistance. Thousands of students in all four corners of Brazil are given the opportunity to study at the Foundation schools.

Independent auditors report on supplementary account information

To
The Administrative Council and Stockholders
Banco Bradesco S.A.
Osasco - SP

We have examined, in accordance with auditing standards generally accepted in Brazil, the financial statements of Banco Bradesco S.A. and the consolidated financial statements of Banco Bradesco S.A. and its subsidiaries as of and for the semesters ended June 30, 2003 and 2002 and have issued our an unqualified report, dated July 28, 2003.

Our examinations were made for the purpose of forming an opinion on the financial statements of Banco Bradesco S.A., and on the consolidated financial statements of Banco Bradesco S.A. and its subsidiaries taken as a whole. In connection with our examinations, we have performed a review of the supplementary account information included in the Report on Economic and Financial Analysis that is presented exclusively for the purpose of additional analysis and is not a required part of the financial statements.

Based in our examinations, we are not aware of any significant modifications that should be made to the supplementary account information for it to be presented adequately, in all material respects, in relation to the financial statements taken as a whole.

### Directors Report

To Our Stockholders,

We are pleased to present the financial statements for the six-month period ended June 30, 2003 of Banco Bradesco S.A., as well as the consolidated financial statements prepared in accordance with the requirements of Brazilian corporate legislation.

The consistent macroeconomic policy practiced during the first half of 2003 prompted a significant downturn in the foreign exchange rate. While this downturn and the reduction in uncertainties regarding future projected inflation, solid export performance and import substitution sustained economic activity for the period. The presentation of the proposed reform bills at congress and the maintenance of rigid fiscal policies will allow the Brazilian Central Bank to reduce the basic interest rate, stimulating economic recovery.

On March 10, Bradesco commemorated its 60th anniversary, with an active presence in Brazilian everyday life, playing an important role in providing access to banking services and products for all income brackets and with renewed disposition to serve its customers and expand its business horizons. As a result, significant events marked the first half of the year at Bradesco, among which we highlight the following:

- In March, conclusion of the process to acquire the activities of Administration and Management of the Securities and Investment Fund Portfolios managed by JPMorgan Fleming Asset Management. The operation involved the transfer of approximately R\$ 7 billion in third-party funds to Bradesco, to be managed by BRAM Bradesco Asset Management Ltda.
- In March, a 20% increase in monthly interest attributed to own capital to be paid as from April 2003, from R\$ 0.0117650 to R\$ 0.0141180 (net of withholding tax R\$ 0.0120) per thousand common shares and from R\$ 0.0129415 to R\$ 0.0155298 (net of withholding tax R\$ 0.0132), per thousand preferred shares, traditionally paid in advance to stockholders on account of the results determined at the end of the year.
- On March 31, the Stockholders Meeting held to approve the incorporation of the shares of the minority stockholders of Banco Mercantil de São Paulo S.A., converting Mercantil into a wholly owned subsidiary of Bradesco. For each Mercantil share held, the minority stockholders received 23.94439086 Bradesco shares of which 12.06279162 were common and 11.88159924 were preferred shares.
- Conclusion of the integration process of Banco Mercantil de São Paulo with Bradesco, on May 19, with the conversion of the Mercantil Branches into Bradesco Branches. This initiative optimized resources, combining specialized services and staff dedication in the pursuit to offer customers maximum quality in products and services.
- On May 19, start-up of Bradesco Prime activities. As a result of this initiative, the Bank has made important headway in its customer service segmentation process, offering differentiated products and services based on the principle of superior quality. At the end of the first half, there were 109 Bradesco Prime branches and 99 exclusively reserved service areas in conventional branches.
- In June, conclusion of the acquisition of 49% of the voting capital and 99.99% of the non-voting capital of Banco Bilbao Vizcaya Argentaria Brasil S.A. and subsequent incorporation of the shares of the remaining stockholders by Bradesco, transforming BBV Banco into a wholly owned subsidiary. 44.422475667 Bradesco shares were attributed for each BBV Banco share, of which 22.379315072 were common and 22.043160595 were preferred shares.

- On June 9, the election of two External Members to the Bank s Board of Directors, José Fonollosa García and Ricardo Espírito Santo Silva Salgado, representing respectively Banco Bilbao Vizcaya Argentaria, S.A. BBVA, Spain and Banco Espírito Santo, S.A. BES, Portugal. Specialists in both Brazilian and International Financial Systems, the new Board Members, with their professional experience and top qualifications, will join forces with the other members enhancing the Board s present activities orienting business and monitoring the Bank s development.
- Bradesco Consortium sales commenced, recording first-half billings in excess of R\$ 1.046 billion and corresponding to 31 thousand members and with more than 840 items received.
- At June 30, approval of the payment to stockholders of interest attributed to own capital on July 31, for the first half of 2003, corresponding to 10 times the monthly interest amount.

#### 1 Results for the Period

Bradesco reported first-half net income of R\$ 1.027 billion, corresponding to R\$ 0.65 per thousand shares and an annualized return of 17.08% on stockholders equity and 18.66% on average stockholders equity.

Taxes and contributions, including social security contributions, payable or accrued on the main activities carried out by the Bradesco Organization, amounted to R\$ 1.634 billion, 159.06% of net income for the first half.

Monthly and interim interest attributed to own capital distributed to the stockholders totaled R\$ 354.730 million. This represents R\$ 0.2433002 (R\$ 0.2068052, net of withholding tax), including the additional 10%, per thousand preferred shares and R\$ 0.2211820 (R\$ 0.1880047, net of withholding tax) per thousand common shares.

### 2 - Capital and Reserves

At the end of the first half, paid-up capital totaled R\$ 7 billion, as a result of the incorporation of reserves in the amount of R\$ 510.265 million, with no new issue of shares, approved on March 10 and 31 and on June 9; the conclusion of the capital increase process through the subscription of new shares by the stockholders, in the amount of R\$ 501 million, approved on January 10 and ratified on March 31, which produced a further R\$ 7.046 million in share premium determined at the auction for the placement of the remaining shares, recorded in the Capital Reserve account as Share Premium; the increase of R\$ 158.735 million as a result of the attribution of new shares to the minority stockholders of Mercantil; and the increase of R\$ 630 million as a result of the attribution of new shares to the stockholders of BBV Banco. Paid-up capital plus reserves of R\$ 5.522 billion comprised the total stockholders equity of R\$ 12.522 billion. Net equity per thousand shares was equivalent to R\$ 7.90.

Managed stockholders equity corresponds to 8.17% of consolidated assets which totaled R\$ 154.489 billion, a 23.89% growth rate compared to June 2002. As a result, the capital adequacy ratios were 16.36% on a consolidated financial basis and 14.48% on a consolidated economic and financial basis, accordingly, above the 11% required minimum established by National Monetary Council Resolution 2,099 of August 17, 1994, in conformity with the Basel Accord. At the end of the first half, the ratio of permanent assets to stockholders equity, in relation to consolidated reference equity was 43.91% on a consolidated financial basis and 31.63% on a consolidated economic and financial basis, accordingly within the maximum 50% limit.

In compliance with the provisions of Article 8 of Brazilian Central Bank Circular 3,068, of November 8, 2001, Bradesco declares that it has both the financial capacity and the intention to hold to maturity the securities classified in the securities held to maturity category.

### 3 Funding and Portfolio Administration

With a growth rate of 29.94% over the same period in 2002, overall funding obtained by the Bradesco Organization amounted to R\$ 221.301 billion, at June 30 and comprised the following:

- R\$ 75.391 billion in demand, time and interbank deposits, open market and savings accounts.
- R\$ 83.360 billion in managed assets, comprising investment funds and customer portfolios.
- R\$ 33.963 billion in foreign exchange portfolio, borrowings and onlendings, working capital funds, collection and tax and utility collections and similar, as well as funds from the issuance of securities and local subordinated debt.
- R\$ 22.732 billion recorded in technical reserves for insurance, private pension plans and savings bonds, a growth rate of 49.44% compared to the same period in 2002.
- R\$ 5.855 billion in foreign resources through public and private issues and subordinated debt, corresponding to a total of US\$ 2.038 billion.

### 4 Credit Operations

At the end of the first half, the balance of consolidated credit operations totaled R\$ 53.048 billion, a 0.90% increase over the balance for the same period in the prior year and includes the following:

- R\$ 5.814 billion in advances on foreign exchange contracts, for a portfolio of US\$ 2.499 billion in export financing.
- US\$ 428.132 million in foreign currency import financing.
- R\$ 1.521 billion in leasing.
- R\$ 4.008 billion in agricultural loans
- R\$ 7.243 billion in foreign and domestic onlendings, mainly comprising funds from the National Bank for Economic and Social Development (BNDES).

In the housing loan area, Bradesco provided funds during the first half for the construction and purchase of residential housing in the amount of R\$ 578.150 million, comprising 9.695 properties.

### 5 Capital Market

Bradesco maintained its important role coordinating and intermediating the public placement of shares, debentures and promissory notes, with a total volume of R\$ 2.999 billion recorded during the period, corresponding to 70.78% of all issues registered with the Brazilian Securities Commission (CVM). The Bank also gained recognition for its role as advisor in mergers and acquisitions and project finance.

### 6 - Corporate Governance

The modern corporate governance practices adopted by the Bradesco Organization are chiefly designed to improve the performance of all of its activity segments. The figures posted to date confirm that this goal is being met, both in terms of increased operating efficiency and in the expansion of the Institution s funding capacity at home and abroad.

Bradesco shares are listed in BOVESPA s Level 1 Corporate Governance index since June 2001. Moreover, since Bradesco s shares are traded in foreign stock exchanges, the Bank also prepares its financial statements in US-GAAP, accepted on an international basis.

The Bradesco Organization declares that, in the first six-months of 2003, no non-audit services were contracted or rendered by KPMG Auditores Independentes for an amount which exceeds 5% of total external audit costs. The policy adopted by the Organization complies with the principles designed to maintain the independence of external auditors, based on internationally accepted criteria which determine that auditors should not audit their own work, exercise management functions for their clients or promote their interests. As recommended by the Brazilian Central Bank, the independent auditors are contracted for a maximum five-year period.

At the Ordinary General Meeting of March 10, the Audit Committee was reinstated and comprises 3 full members and 3 alternates who will hold office up to 2004. At the Extraordinary General Meeting of June 9, the Bradesco stockholders made an important decision, in line with their commitment to adopt modern corporate governance practices, nominating and electing, by unanimous decision, two external members to the Board of Directors, who based on their vast experience and knowledge of the Brazilian and international markets, will undoubtedly add significant value to the already important activities of this committee.

### 6.1 Internal Control Systems

Compliance is geared and monitored by the Board of Directors who ensure that related activities, policies and normative instructions comply with legal and regulatory standards on a consistent basis. The Board is also responsible for analyzing and approving the Compliance Reports prepared by the Internal Controls Area.

### 6.2 - Information Transparency and Dissemination Policies

During the first half, as part of its market relationship strategy, Bradesco organized 101 internal and external meetings with analysts, 4 conference calls and 5 presentations abroad. In addition to this intense activity, Bradesco publishes its results for the half year, accompanied by the Report on Economic and Financial Analysis. All significant related information is available in real time on the Bradesco website at www.bradesco.com.br in Portuguese, English and Spanish. The Bank distributes a monthly customer news bulletin called Cliente Sempre em Dia with a circulation of 900 thousand copies, as well as a quarterly magazine called Revista Bradesco, also focusing its external public, with a circulation of 110 thousand copies.

### 6.3 Risk Management

At the Bradesco Organization, the analysis and control of market risks is directly subordinated to the Board of Executive Officers and the Bank s President. The management of market risks involves a series of controls over exposure of financial positions to interest, exchange and liquidity

rates, based, for the most part, on technical limits and the constant monitoring of the positions assumed. Bradesco follows a conservative policy in terms of exposure to market risks and VaR (Value at Risk) limits are defined by Senior Management and compliance therewith monitored on daily basis by a completely separate area, as are also the risks directly affecting the financial economic Group s minimum capital requirement.

### 6.4 Operating Risk

In compliance with the new Basel Accord and Brazilian regulatory agency requirements, operating risk is managed at Bradesco based on the dissemination of the Bank s culture, policy disclosure and development of its own methodologies, models and tools, facilitating, among other factors, a decrease in the amount of regulatory capital to be subscribed. The Operating Risk Area provides support for the decisions made to enhance processes and activities based on risk perception, generating information which permits the qualitative and quantitative assessment of operating risks, identifying existing exposure levels and accordingly decreasing losses. The combination of these assessments hones the Bank s competitive edge, by increasing the institution s operating efficiency.

### 6.5 Information System Security

The efficient use of information is an inseparable part of the Bradesco Organization s culture and day-to-day activities and is considered to be a key business success factor. The Corporate Information Security Policy and Guidelines cover the database, all of the IT environments, documents, files and other tools. Restricted data and information which is of exclusive interest to customers is treated internally with strict secrecy and fully protected by secure computerized systems. As well as specific staff training programs, independent reviews and updates are carried out periodically, designed to ensure compliance and maximum efficiency.

### 6.6 Credit Policy

As well as seeking security, quality and liquidity in the investment of assets, minimizing risks inherent to all credit operations, the Organization s credit policy is also designed to offer agile and profitable business and to guide the setting of operating limits and granting of credit, based on assessment policies geared by constantly improving technical parameters.

As part of this system, the Branches operate within varying limits based on their size and type of guarantee, while the specialized credit scoring systems expedite and protect the approvals process, based on strict security standards. The credit committees located at the Bank s headquarters also play an important role, centralizing, analyzing and authorizing credit operations at amounts above the branch limits and managing this core strategic activity.

Operations are diversified, non-selective and focused on consumer and corporate customers with sound payment capacity and proven creditworthiness, ensuring that underlying guarantees are sufficient to cover the risks assumed, considering the purpose and terms of the credit granted.

### 6.7 Money Laundering Prevention

The employee training programs and ongoing enhancement of technology tools ensures that financial activity is efficiently monitored, preventing use of the Organization for illegal transactions.

### 7 Bradesco Insurance Group

Operating in the insurance, private pension plan and savings bond areas, the Bradesco Insurance Group reported net income of R\$ 246.691 million at june 30, 2003 and stockholders—equity of R\$ 2.888 billion. The overall premium income totaled R\$ 6.058 billion, an increase of 32.76% over the same period in 2002. Insurance group customers are served by more than 29 thousand attendants at vehicle dealerships and brokers nationwide.

### 8 Bradesco Customer Service Network

Based on high standards of quality, efficiency and state-of-the-art technology, at June 30, the Bradesco Organization Customer Service Network offered its customers and other users access to 9.969 service outlets:

- 3,362 Branches in Brazil (Bradesco 2,700, Banco BCN 222, BBV Banco 439 and Banco Finasa 1).
- 7 Branches abroad, 1 in New York (Bradesco), 4 in Grand Cayman (Bradesco, Banco BCN, Mercantil and Banco Boavista) and 2 in Nassau, Bahamas (Boavista and BBV Banco).
- 7 Subsidiaries abroad (Banco Bradesco Argentina S.A. in Buenos Aires, Banco Bradesco Luxembourg S.A. and Banco Mercantil de São Paulo International S.A., both in Luxembourg, Boavista Banking Ltd. In Nassau, Cidade Capital Markets Ltd. in Grand Cayman, Bradesco Services Co. Ltd. in Tokyo and Bradesco Securities, Inc. in New York).

- 2,830 Banco Postal branches.
- 1,936 Banking service posts and outlets in companies (Bradesco 1,678, BBV Banco 65 and Banco BCN 193).
- 1,772 Outplaced terminals in the BDN Bradesco Day and Night Network.
- 55 Branches of Finasa Promotora de Vendas, present in 12,596 vehicle dealerships and 730 stores selling furniture and home decor, mobile phones and IT related equipment.
- 21,491 ATMs in the BDN Bradesco Day and Night Self-service Network, 12,272 of which also operate at weekends and on bank holidays.

### 9 The Bradesco Organization s Social Action Program

In the social area, the Organization s central pillar is firmly rooted in the educational program, developed by Fundação Bradesco (Bradesco Foundation), which provides education for more than 105 thousand students completely free of charge, including youth/adult education and basic professional training courses. As part of this program, the Foundation also offers its more than 49,463 infant, junior, middle and technical school pupils free meals, uniforms and school materials, as well as medical/dental care.

Following the opening this year of its new unit in Boa Vista, capital of the state of Roraima, the Bradesco Foundation has extended its reach and gained an even greater presence in Brazilian day-to-day life, and now has a total of 39 Schools, installed as a priority in Brazil s most socially and economically deprived regions, throughout its 26 states and in the Federal District.

### 10 Human Resources

The Bank continued its extensive training program focused on the professional qualification and development of its staff, in the ongoing pursuit to improve the quality of its customer service and standards. During the first six months of the year 702 courses were given with 206,056 employee participations.

### 11 Acknowledgements

The results achieved confirm Bradesco s determination and efforts to surpass expectations and offer only the very best. This headway was made possible thanks to the support and trust of our stockholders and customers and the dedicated work of our staff and other stakeholders. To all of them we offer our sincere gratitude.

Cidade de Deus, August 1, 2003

- 37) OTHER INFORMATION

#### 1) Operations

Banco Bradesco S.A. is a private-sector open-capital company which, operating as a multiple bank, carries out all types of authorized banking activities including foreign exchange transactions through its commercial, investment, consumer financing, housing loan and credit card portfolios. The Bank also operates in a number of other activities through its direct and indirect subsidiary companies, particularly in leasing, consortium management, insurance, savings bond and private pension plan activities. Operations are conducted within the context of the companies comprising the Bradesco Group, which are jointly active in the market.

#### 2) Presentation of the Financial Statements

The financial statements of Banco Bradesco S.A. and its foreign branches (BRADESCO) are presented in conjunction with the consolidated financial statements of Banco Bradesco S.A., which include the financial statements of Banco Bradesco S.A., its foreign branches and its direct and indirect subsidiaries and jointly controlled investments (CONSOLIDATED BRADESCO).

The financial statements of Banco Bradesco S.A. and the consolidated financial statements were prepared based on accounting policies determined by Brazilian Corporation Law for the recording of operations, as well as the rules and instructions of the National Monetary Council (CMN), Brazilian Central Bank (BACEN), Brazilian Securities Commission (CVM) and Superintendency of Private Insurance (SUSEP), and comprise the financial statements of the leasing companies based on the capital leasing method of accounting, which requires the reclassification of leasing operations to the current-asset and long-term-receivable accounts.

Accordingly, upon consolidation, intercompany investments, account balances, revenue, expenses and unrealized income were eliminated from the financial statements and, in the case of investments which are jointly controlled with other stockholders, asset, liability and income components are included in the consolidated financial statements in proportion to the parent company's percentage capital ownership of each investee. Goodwill on the acquisition of investments in subsidiaries is presented in deferred assets and minority interests in net income and stockholders equity are separately disclosed. Exchange variation arising from permanent investments in subsidiaries and foreign branches was allocated to the statement of income accounts in accordance with the corresponding assets and liabilities from which it originated.

The financial statements include estimates and assumptions, such as the calculation of the allowance for loan losses, the estimation of the fair value of certain financial instruments, the quantification of technical reserves for insurance, pension plans and savings bonds and the determination of the useful economic life of specific assets. Actual results could differ from these estimates and assumptions.

We present below the main direct and indirect subsidiaries, including their foreign branches and subsidiaries and jointly controlled investments:

- (22) Percentage ownership increased through acquisition of quotas in October 2002.
- 3) Significant Accounting Policies

#### a) Determination of net income

Income and expenses are recorded on the accrual basis and are prorated daily when of a financial nature. Transactions with prefixed rates are recorded at their redemption amounts and income and expenses for the future period are recorded as a discount to the corresponding asset and liability accounts. Post-fixed or foreign-currency-indexed transactions are adjusted to the balance sheet date. Income and expenses of a financial nature are calculated based on the exponential method, except when relating to discounted notes or to cross-border transactions which are calculated on the straight-line method.

The insurance and coinsurance premiums and income on commissions, net of premiums assigned in coinsurance and reinsurance and corresponding expenses for commission, are appropriated to results upon issuance of the corresponding insurance policies and are deferred for appropriation on a straight-line basis over the terms of the policies, through the recording and reversal of a provision for unearned premiums and deferred selling expenses. The accepted coinsurance and retrocession operations are recorded based on the information received from other companies and the Brazilian Institute of Reinsurers (IRB), respectively.

The revenue from savings bond plans is recognized at the time it is effectively received. The expenses for placement of bonds, classified as Selling Expenses, are recorded as they are incurred. Brokerage expenses are recorded at the time the savings bond plan contributions are effectively received. The payment of prizes on winning bonds is recorded as an expense in the month in which the draw takes places.

The private pension plan contributions are recorded in income at the time they are effectively received.

#### b) Interbank investments

These are recorded at purchase cost, including accrued income up to the balance sheet date, net of loss accrual, where applicable.

### c) Securities

Pursuant to BACEN Circular 3068/2001, as from June 30, 2002, securities are classified and recorded as presented below:

- Trading securities securities which are acquired for the purpose of being actively and frequently traded are adjusted to market value as a counter-entry to results for the period.
- Securities available for sale securities which are not specifically intended for trading purposes or as held to maturity, are adjusted to market value as a counter-entry to a specific account in stockholders' equity, at amounts net of tax effects.
- Securities held to maturity securities for which there exists intention and financial capacity for maintenance through to maturity are recorded at cost, plus accrued earnings, as a counter-entry to results for the period.

Up to June 2002, securities were valued at cost of acquisition, plus accrued earnings and less of the provision for adjustment to probable realizable value.

### d) Derivative financial instruments (assets and liabilities)

Pursuant to BACEN Circular 3082/2002 and complementary regulations, the derivative financial instruments are classified based on management s intended use thereof on the date of the operation and whether it was carried out for hedging purposes or not.

The derivative financial instruments which do not comply with the hedging criteria established by BACEN, particularly derivatives used to manage general exposure to risk, are recorded at market values, with the corresponding mark-to-market adjustments taken directly to income for the period.

The derivative financial instruments used for protection against exposure to risk or for changing the characteristics of financial assets and liabilities and which are: (i) significantly co-related in relation to the adjustment of their market value to the market value of the hedged item, at both the start and over the duration of the contract; and (ii) considered to be effective in mitigating the risk associated with the exposure which is to be protected, are classified as hedges in accordance with their specific nature:

- Market risk hedge the hedged financial assets and liabilities and the corresponding derivative financial instruments are recorded at market value, with corresponding mark-to-market adjustments recorded directly in income for the period.
- Cash flow hedge hedged financial assets and liabilities and the corresponding derivative financial instruments are recorded at market value, with corresponding mark-to-market adjustments, net of tax effects, recorded in the stockholders equity account. The non-hedged portion is recorded directly in results for the period.

#### e) Credit and leasing operations and allowance for loan and leasing losses

The credit and leasing operations are classified in compliance with: (i) the parameters established by CMN Resolution 2682/1999 at nine levels from AA (minimum risk) to H (maximum risk); and (ii) management s risk level assessment. This assessment, which is carried out on a periodic basis, considers current economic conditions, and past loan loss experience, as well as specific and general risks relating to operations, borrowers and guarantors. The length of the delay in payment defined in CMN Resolution 2682/1999 is also taken into account for customer risk classification purposes as follows:

Length of Delay	Customer Classification
No delay	AA
Up to 14 days	A
From 15 to 30 days	В
From 31 to 60 days	C
From 61 to 90 days	D
From 91 to 120 days	Е
From 121 to 150 days	F
From 151 to 180 days	G
More than 180 days	Н

The accrual of credit operations past due up to 60 days is recorded in income on credit operations and subsequent to the 61st day, in unearned income.

Past-due operations classified at H level remain at this level for six months, subsequent to which time they are written off against the existing allowance and controlled over a five-year period in memorandum accounts and no longer presented in the balance sheet.

Renegotiated operations are maintained with a maximum classification equal to their prior classification. Renegotiated operations, already written off against the allowance and which are recorded in memorandum accounts are classified at H level and any gains derived from their renegotiation are recognized as revenue only when they are effectively received.

In the case of mortgage loans, the contractual capitalization period (monthly or quarterly) for income appropriation purposes complies with applicable legislation and end-borrower financings are adjusted to the present value of the installments receivable.

The allowance for loan losses is recorded at an amount considered sufficient to cover estimated losses and is based upon current economic conditions, past loan loss experience, specific and general portfolio risks and on BACEN requirements and instructions (Notes 13 f and g).

#### f) Income tax and social contribution (asset and liability)

Deferred income tax and social contribution calculated on tax losses, negative basis of social contribution and temporary additions are recorded in Other receivables - sundry , and the provision for deferred income tax on excess depreciation and mark-to-market adjustments is recorded in Other liabilities taxes and social security contributions . Only deferred tax assets which have already acquired tax deductibility rights are recorded on amortization of goodwill.

Deferred tax assets on temporary additions are realized upon use and/or reversal of the corresponding provisions on which they were recorded. Deferred tax assets on tax losses and negative basis of social contribution will be realized as taxable income is generated (Note 36).

The provision for federal income tax is calculated at the standard rate of 15% of taxable income, plus an additional rate of 10% for income over established limits. The provision for social contribution is recorded at the rate of 9% of pre-tax income. Provisions were recorded for other taxes and social contributions in accordance with specific applicable legislation.

g) Technical reserves relating to insurance, pension plan and savings bond activities

#### Provision for unearned premiums

These are recorded at the amount of that portion of the insurance premiums issued/retained corresponding to the unexpired risk periods of the insurance contracts, in accordance with the criteria determined by SUSEP standards.

#### Benefits to be granted and benefits granted

Mathematical provisions comprise the amount of the liabilities assumed under the form of income, pension and savings plans and are calculated based on the financial method determined in the contract under the responsibility of a legally qualified actuary registered with the Brazilian Institute of Actuaries (IBA). The mathematical provisions comprise the present value of future benefits estimated based on actuarial methods and assumptions. The provision for benefits to be granted comprises participants whose receipt of benefits has not yet commenced and the provision for benefits granted comprises participants who are currently receiving benefits.

#### Savings Bonds mathematical provisions

These are recorded in conformity with the technical notes approved by SUSEP, based on a variable percentage applicable to the amounts effectively received.

#### Unsettled claims and IBNR

The provision for payment of unsettled claims is recorded based on estimated probable payments, net of recoveries and adjusted for price-level restatement up to the balance sheet date. The reserve for claims incurred but not reported (IBNR) is calculated on an actuarial basis to quantify the volume and amount of the claims incurred, but which have not yet been reported to the insurance companies by the policyholders/beneficiaries.

#### h) Investments

Significant investments in subsidiaries, associated companies and jointly controlled investments are recorded on the equity method. The financial statements of the foreign branches and subsidiaries are adjusted to comply with the accounting practices adopted in Brazil, translated into reais and their related effects recognized in income for the period.

The exchange membership certificates of Stock Exchanges, the Center for the Financial Clearance and Custody of Private Securities (CETIP) and the Mercantile and Futures Exchange (BM&F) were recorded at net book value and fiscal incentives and other investments were recorded at cost, plus restatements through December 31, 1995, net of the provision for loss, where applicable.

#### i) Property and equipment in use

Property and equipment in use is stated at cost plus restatements through December 31, 1995, net of the corresponding accumulated depreciation, calculated on the straight-line method at annual rates which take into consideration the economic useful lives of the assets as follows: buildings in use - 4%; furniture and fixtures and machinery and equipment - 10%; data processing systems - 20% to 50%; and transport systems - 20%.

#### j) Deferred charges

Deferred charges, other than goodwill, are recorded at cost of acquisition or formation, net of the corresponding accumulated amortization, calculated on the straight-line method and amortized at a rate of 20% to 50% per annum. Goodwill on the acquisition of investments in subsidiary companies, based on expected future results, is amortized at rates of 10% to 20% per annum and is presented on a consolidated basis in deferred charges and in investments on an unconsolidated basis.

### k) Deposits and deposits received under security repurchase agreements

These are stated at the amount of the liabilities and include related charges up to the balance sheet date, on a daily pro rata basis.

### 1) Other assets and liabilities

The assets are stated at their realizable amounts, including, where applicable, related income and monetary (on a daily pro rata basis) and exchange variations, less provisions when deemed appropriate. The liabilities include known or estimated amounts, plus related charges and monetary (on a pro rata basis) and exchange variations.

### 4) Information for Comparison Purposes

#### a) Reclassifications

In order to facilitate comparison of the financial statements, certain June 30, 2002 account balances were reclassified in line with the accounting procedures/classification used at June 30, 2003.

At June 30, 2002 - In thousands of reais

<sup>(1)</sup> Investment fund applications were distributed based on the securities comprising their portfolios, maintaining the fund category classification.

<sup>(2)</sup> The number of days to maturity was based on the maturity of the securities, regardless of accounting classification.

- (3) This column reflects book value subsequent to mark-to-market, except for securities held to maturity, whose market value is higher than book value by R\$ 159,054 thousand, net of tax effects.
- (4) The market value of securities is determined based on the market price practiced on the balance sheet date. In the event no market prices are available, amounts are estimated based on the prices quoted by dealers, on price definition models, quotation models or quotations for instruments with similar characteristics.
- d) Composition of the portfolios by account:

Investment fund applications were distributed based on the securities comprising their portfolios. The number of days to maturity was based on the maturity of the securities, regardless of accounting classification.

- e) At June 30, 2003, an amount of R\$ 1,521,134 thousand of investment fund applications was reclassified from securities available for sale to trading securities and an amount of R\$ 215,137 thousand of Brazilian foreign debt notes from securities held to maturity to securities available for sale. These reclassifications decreased stockholders equity by R\$ 53,757 thousand with no effect, however, on income. The reclassifications were based on Management s reassessment of the new profile of the securities portfolio following the acquisition of BBV Banco.
- f) Income on security transactions, financial income on insurance, private pension plans and savings bonds and derivative financial instruments

We present below the composition of the results of transactions with securities and derivative financial instruments:

Expense for provision for loan losses, net of recoveries of written-off credits:

Six-month periods ended June 30 - In thousands of reais

g) Movement of allowance for loan losses

<sup>(2)</sup> For operations with installments overdue by more than 14 days.

<sup>(3)</sup> Recorded based on the customer/transaction classification and accordingly not included in the preceding item.

<sup>(4)</sup> The additional provision is recorded based on management's experience and expected collection of the credit portfolio, to determine the total allowance deemed sufficient to cover specific and general portfolio risks, as well as the provision calculated based on risk level ratings and the corresponding minimum provision requirements established by CMN Resolution 2682. The additional provision per customer was classified (Note 13f) according to the corresponding risk levels.

<sup>(5)</sup> BBV Banco R\$ 170,737 thousand.

h) Recovery and renegotiation of credit operations:

Land and buildings in use of the Bradesco Organization present an unrecorded increment of R\$ 926,432 thousand, based on appraisal reports prepared by independent experts in 2002.

The permanent assets to stockholders equity ratio in relation to consolidated reference equity is 31.63% on a consolidated basis and 43.91% on a consolidated financial basis, within the maximum 50% limit.

#### 18) Deferred Charges

#### a) Goodwill

Goodwill on the acquisition of investments, based on future profitability, mainly results from goodwill on the acquisition of BCN R\$ 150,124 thousand (2002 - R\$ 184,114 thousand); Credireal R\$ 54,909 thousand (2002 R\$ 67,341 thousand); Baneb R\$ 75,368 thousand (2002 R\$ 87,930 thousand); Boavista R\$ 330,951 thousand (2002 R\$ 376,080 thousand); BEA R\$ 61,651 thousand (2002 R\$ 63,160 thousand); Mercantil - R\$ 90,535 thousand (2002 R\$ 717,356 thousand); Bancocidade - R\$ 152,612 thousand (2002 R\$ 193,200 thousand); BBV Banco - R\$ 197,871 thousand; and Bradesco BCN Leasing S.A. Arrendamento Mercantil in the amount of R\$ 50,117 thousand (2002 R\$ 57,317 thousand). Amortization of goodwill for the first half of 2003 totaled R\$ 799,889 thousand (2002 R\$ 96,125 thousand), of which R\$ 680,759 thousand comprises extraordinary amortization of goodwill in Banco Mercantil de São Paulo S.A. (Note 32). Remaining goodwill will be amortized over a period varying from 4 to 10 years.

a) Deposits and deposits received under security repurchase agreements

b) Funds from acceptance and issuance of securities

These consist of funds obtained from banks abroad and official institutions from the issuance of notes in the international market (Eurobonds) and under National Monetary Council (CMN) Resolution 2770/2000 for (i) onlending to local customers, repayable monthly through 2006, with interest payable semiannually at LIBOR or prime rate, plus a spread, and (ii) for financing exchange operations for customers, through purchase and sale of foreign currencies, discounts of export bills, pre-financing of exports and financing of imports, mainly on a short-term basis.

c) Expenses with funding and price-level restatement and interest on technical reserves for insurance, private pension plans and saving bonds

We present below the composition of expenses with funding:

21) Contingent Liabilities	,		,	

The Bradesco Organization is currently a defendant in a number of legal suits in the labor, civil and tax spheres, arising from the normal course of its business activities.

The provisions were recorded based on the opinion of the Organization s legal advisors, the types of lawsuit, similarity with previous suits and complexity, available jurisprudence and court sentences, whenever loss is deemed probable.

The Organization s Management considers that the provision recorded for contingencies is sufficient to cover probable losses generated by the corresponding legal proceedings.

#### Labor Claims

Labor claims are generated by normal employee turnover matters and mostly comprise claims for unpaid overtime.

From 1992, employee hours are controlled electronically and accordingly claims on an individual basis are, for the most part, no longer significant.

#### Civil Suits

These arise during the normal course of certain work routines and comprise claims for pain and suffering and pecuniary damages, mainly protests, bounced checks and the inclusion of names in the restricted credit registry.

In general, these claims do not comprise facts which could cause a significant effect on financial results.

#### Tax Proceedings

The Bradesco Organization is disputing the legality of certain taxes and contributions, for which provisions have been recorded in full, despite the likelihood of a successful medium and long-term outcome based on the opinion of their legal advisors.

The provisions recorded, segregated by legal sphere are as follows:

At June 30, 2003 798,940,057,872 786,939,365,428 1,585,879,423,300

At the Extraordinary General Meeting held on January 10, 2003, approval was given for the cancellation of 9,797,900,000 common nominative-registered shares, of the Bank s own capital, with no par value, held in treasury, without decreasing capital, which were acquired by the Bank by decision of the Board of Directors at the meetings held on April 1, July 11 and November 26, 2002.

At the Extraordinary General Meeting held on March 10, 2003, approval was given to increase capital by R\$ 399,000 thousand to R\$ 5,599,000 thousand, through the capitalization of the balance of the following reserve: Capital reserve Share premium - R\$ 7,435 thousand and a portion of the Revenue reserve Statutory account - R\$ 391,565 thousand, with no new issue of shares pursuant to Clause One of Article 169 of Law 6404/76.

At the Extraordinary General Meeting held on March 31, 2003, approval was given to ratify the capital increase approved at the Extraordinary General Meeting held on January 10, 2003 in the amount of R\$ 501,000 thousand from R\$ 5,599,000 thousand to R\$ 6,100,000 thousand, through the subscription of 66,800,000,000 new nominative-registered shares with no par value, of which 33,652,745,021 are common and 33,147,254,979 are preferred shares.

At the Extraordinary General Meeting held on March 31, 2003, approval was given for a capital increase in the amount of R\$ 158,735 thousand, from R\$ 6,100,000 thousand to R\$ 6,258,735 thousand, through the issue of 20,767,712,349 new nominative-registered shares with no par value, of which 10,462,433,059 are common and 10,305,279,290 are preferred shares, in the proportion of 23.94439086 Bradesco shares for each Banco Mercantil share and of which 12.06279162 are common and 11.88159924 are preferred shares, to be attributed to the minority stockholders of Banco Mercantil, regardless of the type of shares held by them in Mercantil. At the same meeting, approval was given to increase capital by R\$ 41,265 thousand to R\$ 6,300,000 thousand through the capitalization of a portion of the account balance of Revenue reserve Statutory, with no new issue of shares.

At the Extraordinary General Meeting held on June 9, 2003, approval was given for a capital increase of R\$ 630,000 thousand, from R\$ 6,300,000 thousand to R\$ 6,930,000 thousand, through the issue of 70,431,409,114 new nominative-registered shares, with no par value, of which 35,482,189,407 are common and 34,949,219,707 are preferred shares, in the proportion of 44.422475667 Bradesco shares for each BBV Banco share, of which 22.379315072 are common and 22.043160595 are preferred shares, to be attributed to the minority stockholders of BBV Banco, regardless of the type of shares held by them in BBV Banco. At the same meeting, approval was given to increase capital by R\$ 70,000 thousand to R\$ 7,000,000 thousand, through the capitalization of a portion of the account balance of Revenue reserve Statutory, with no new issue of shares.

#### c) Interest attributed to own capital

Non-voting preferred shares are entitled to all rights and benefits attributed to common shares and in conformity with the Bank s statutes have priority to repayment of capital and 10% additional interest attributed to own capital and/or dividends, in accordance with the provisions of paragraph 1, item II of Article 17 of Law 6404/76, as amended by Law 10303/2001.

In conformity with the Bank s statutes, stockholders are entitled to interest attributed to own capital and/or dividends which total at least 30% of net income for the year, adjusted in accordance with Brazilian corporate legislation.

Interest attributed to own capital is calculated based on the stockholders' equity accounts and limited to the variation in the long-term interest rate (TJLP), subject to the existence of profits, computed prior to the deduction thereof, or of retained earnings and revenue reserves in amounts that are equivalent to or exceed twice the amount of such interest.

At the Board of Directors meeting held on March 5, 2003, approval was given to increase monthly interest attributed to own capital, paid in advance to stockholders, by 20%, from R\$ 0.0117650 to R\$ 0.0141180, per thousand common shares and from R\$ 0.0129415 to R\$ 0.0155298, per thousand preferred shares, effective as from March 2003.

It is the Bank s policy to distribute, during the year, all the interest attributed to own capital, determined in conformity with the above criteria and to compute this interest for the minimum compulsory dividend, net of withholding tax (IRRF).

Interest attributed to own capital January 1 to June 30, 2003

- n) Payments made by Banco Bradesco S.A. for healthcare plans of employees and their dependents.
- o) Contributions made by Banco Bradesco S.A. to private pension plans for employees and directors.
- 34) Financial Instruments
- a) Risk and risk management

The main risks related to financial instruments, arising from the business carried out by the Bank and its subsidiaries are as follows: credit risk; market risk; liquidity risk; and capital risk. The process used to manage these risks involves the Organization's diverse levels and embraces a range of different policies and strategies. The risk management policies are generally conservative and seek to limit absolute loss to a minimum.

#### Credit Risk

Credit risk is the risk arising from the possibility of loss due to the non-receipt of amounts contracted with borrowers and their related creditors. Credit risk management requires a strictly disciplined control over all analyses and transactions carried out, safeguarding process integrity and independence. Bradesco's credit policy is designed to ensure maximum security, quality and liquidity in the investment of assets, as well as flexible and profitable business, minimizing risks inherent to this type of operation and directing the establishment of operating limits and the granting of credit. Accordingly, the Credit Department and Committees located at the Bank's Headquarters are critical to policy implementation since they are responsible for gearing and managing this core strategic activity. The Branches work within varying limits, according to the size and types of underlying guarantee, subject to a centralized evaluation and accordingly in line with the Organization s credit and risk management policy. Operations involving less significant amounts are subject to specialized automated credit scoring systems, maximizing the speed and security of the approvals process, based on strict protection standards. Operations are diversified, non-selective and focused on Consumer and Corporate customers with sound payment capacity and proven creditworthiness. Care is taken to ensure that related guarantees are sufficient to cover the risks assumed, considering the purpose and terms of the credit granted.

#### Market Risk

Market risk is related to the possibility of the loss of income from fluctuating rates caused by the unhedged terms, currencies and indices of the Bank's asset and liability portfolio. At Bradesco, market risks are managed through methodologies and models which are consistent with local and international market reality, ensuring that the Organization's strategic decisions are implemented with speed and a high level of reliability. The Organization adopts a conservative policy regarding market risk exposure and VaR (Value at Risk) limits are defined by Senior Management, and compliance is monitored daily by an area which is independent from portfolio management. The methodology used to determine VaR has a reliability level of 97.5%. The fluctuations and correlations used by the models are calculated on statistical bases and future prospects are calculated based on economic studies. The methodology applied and current statistical models are validated daily using backtesting techniques. We present below the VaR of the Consolidated Own Portfolio positions (Treasury):

	In thousan	ds of reais
Risk Factors	2003	2002

Prefixed         6,541         4,881           Exchange coupon         14,717         48,259           Foreign currency         439         8,422           Floating rate         10         14           Correlated effect         (3,243)         (15,809)	VaR (Value at Risk)	18,464	45,767
Exchange coupon         14,717         48,259           Foreign currency         439         8,422	Correlated effect	(3,243)	(15,809)
Exchange coupon 14,717 48,259	Floating rate	10	14
	Foreign currency	439	8,422
Prefixed 6,541 4,881	Exchange coupon	14,717	48,259
	Prefixed	6,541	4,881

In addition, a daily Gap Analysis is performed to measure the effect of the movement in the internal interest rate and foreign exchange coupon curves (interest spread paid above the foreign exchange variation) on the portfolio. Complementing the market risk monitoring, control and management structure and in accordance with Central Bank regulations, a daily verification is made of the values at risk for the fixed and foreign exchange positions of the Organization s entire portfolio and of minimum capital requirements.

#### Liquidity Risk

Liquidity risk management is designed to control the different unhedged liquidation terms of the Bank's rights and obligations as well as the liquidity of the financial instruments used to manage the financial positions. Knowledge and monitoring of this risk is critical since it enables the Organization to settle transactions on a timely and secure basis. At Bradesco, liquidity risk management involves a series of controls, mainly, the establishment of technical limits and an ongoing assessment of the positions assumed and financial instruments used.

#### Capital Risk

The Organization's capital is managed to optimize the risk-return ratio, minimizing losses through the implementation of well-defined business strategies and maximizing efficiency in the combination of factors which impact the Capital Adequacy Ratio (Basel).

In thousands of reais Calculation Basis - Capital Adequacy Ratio (Basel): CONSOLIDATED BRADESCO **Economic-**Financial (1) Financial (2) 12,522,104 Stockholders equity 12,522,104 Minority interest 9,525 107,257 Reference equity - Level I 12,531,629 12,629,361 3,293,011 3,293,011 Reference equity - Level II (Subordinated Debt) Total reference equity (Level I + Level II) 15,824,640 15,922,372 96,733,671 109,989,262 Risk weighted assets Capital adequacy ratio at June 30, 2003 (3) 16.36% 14.48% 14.65% 12.96% Capital adequacy ratio at June 30, 2002

- (1) Financial companies only.
- (2) Financial and non-financial companies.
- (3) Considering the effects of BACEN Circular 3194, effective as from July 2003, the capital adequacy ratios on a consolidated financial and consolidated economic financial basis, would be 17.30% and 15.20%, respectively.

#### b) Market Value

The book value, net of allowances for mark-to-market, of the main financial instruments and their corresponding market value at June 30, 2003 are summarized as follows:

At June 30, 2003 - In thousands of reais

#### CONSOLIDATED BRADESCO

	Book value	Market value	Potential gain (loss)	Potential gain (loss), net of tax effects
Assets:				
Securities and derivative financial instruments	42,795,532	42,890,846	95,314	62,907
Credit and leasing operations	53,048,494	53,102,448	53,954	35,610
Investments (1)	494,593	496,940	2,347	1,549
Liabilities:				
Time deposits	24,521,371	24,519,525	1,846	1,218
Funds from acceptance and issuance of securities	5,744,955	5,761,168	(16,213)	(10,700)
Borrowings and onlendings	14,572,370	14,611,366	(38,996)	(25,737)
Subordinated debt	3,337,745	3,329,937	7,808	5,153
Total	-	-	106,060	70,000

- (1) Not including increment in investments in associated companies.
- Determination of market value of financial instruments:
  - Securities, investments, subordinated debt and other liabilities are based on the average quotation prevailing in the corresponding markets at the balance sheet date. In the event no market prices are available, amounts are estimated based on the prices quoted by dealers, price definition models, quotation models or quotations for instruments with similar characteristics.
  - Prefixed credit operations were determined by discounting estimated cash flows, using interest rates which are equivalent to interest rates applied by the Bank for new contracts with similar features practiced on the balance sheet date.
  - Time deposits, funds for issuance of securities and borrowings and onlendings were calculated by discounting the difference between the cash flows under the contract terms and the rates practiced in the market on the balance sheet date.

#### c) Derivatives

Bradesco carries out transactions involving financial instruments, which are recorded in balance sheet or memorandum accounts, for its own account and for customers. The derivative financial instruments are used by the Bank to hedge its asset and liability positions against the effect of exchange variations. The derivatives generally represent future commitments for exchanging currencies or indices, or purchasing and selling other financial instruments according to the terms and dates set forth in the contracts. Under the option contracts, the purchaser is entitled, but not obliged, to purchase or sell a financial instrument at a specific strike price in the future.

(I) The amounts of the instruments recorded in balance sheet and memorandum accounts at June 30, 2003 are summarized below:

35) Employee Benefits				

Banco Bradesco and its subsidiaries sponsor a supplementary retirement pension plan for employees and directors. The unrestricted benefits generating plan (PGBL) is of the defined contribution type, which permits the accumulation of savings by participants over their professional careers through contributions paid by themselves and the sponsoring company. The related resources are invested in an Exclusive Financial Investment Fund FIFE.

The program is managed by Bradesco Vida e Previdência S.A. and BRAM Bradesco Asset Management Ltda. is responsible for the financial administration of the FIFE funds.

The contributions paid by employees and by Bradesco and its subsidiaries total 4% of salary, except for participants who in 2001 opted to migrate to the PGBL plan from the defined benefits plan and whose contributions to the PGBL plan were maintained at the levels in force for the defined benefits plan at the time of migration, respecting nevertheless the 4% minimum.

The actuarial liabilities of the defined contribution plan (PGBL) at June 30, 2003 total R\$ 764,978 thousand and are fully covered by the net equity of the corresponding FIFE fund.

As well as the aforementioned defined contribution plan (PGBL), former participants of the defined benefits plan are guaranteed a proportional deferred benefit, corresponding to their accumulated rights in the latter plan. For participants of the defined benefits plan, transferred or not to the PGBL plan, retired participants and pensioners, the present value of the plan s actuarial liabilities at June 30, 2003 totals R\$ 1,548,361 thousand and is fully covered by technical reserves.

The subsidiary Banco BEA S.A. maintains a supplementary pension plan managed by Caixa de Previdência dos Funcionários do BEA CABEA, which is currently undergoing a sponsorship withdrawal process, with base date established at November 30, 2002 and whose sponsor s contributions ceased from December 1, 2002. The participants ceased to contribute as from the same date. The plan s actuarial liabilities are fully covered by technical reserves.

The subsidiary Banco Baneb S.A. and its subsidiaries are sponsors of supplementary pension plans of the defined contribution (PGBL) and defined benefits type, through Fundação Baneb de Seguridade Social BASES (for former Baneb employees). The actuarial liabilities of the defined contribution and defined benefit plans are fully covered by the net assets of the plans.

The funds guaranteeing the private pension plans are invested in compliance with applicable legislation (government securities and corporate bonds, listed company stock and real estate).

Expenses with contributions made during the period totaled R\$ 132,347 thousand (2002 - R\$ 65,849 thousand), BRADESCO R\$ 103,786 thousand (2002 - R\$ 48,497 thousand).

In addition, Bradesco and its subsidiaries offer their employees and directors a number of other benefits including: healthcare insurance, dental care, group life and personal accident insurance, as well as professional training, the expenses for which, including the aforementioned contributions, totaled R\$ 471,388 thousand (2002 - R\$ 372,636 thousand), BRADESCO R\$ 365,338 thousand (2002 - R\$ 283,494 thousand) for the six-month period.

Report of the Audit Committee

Banco Bradesco S.A.

The undersigned members of the Audit Committee of Banco Bradesco S.A., in the performance of their legal and statutory duties, having reviewed the Directors Report and the Financial Statements for the first half of 2003, as well as the technical study addressing the feasibility of the generation of taxable income, brought to present value, for the purpose of realizing deferred tax assets, in compliance with CVM Instruction 371 of June 27, 2002, Resolution 3,059 of December 20, 2002, of the National Monetary Council and Circular 3,171 of December 30, 2002, of the Brazilian Central Bank and based on the unqualified report of KPMG Auditores Independentes, declare that said documents, based on the corporate legislation in force, present fairly the financial position of the Company, recommending the approval thereof by the Board of Directors.

Independent auditors report

To The Administrative Council and Stockholders Banco Bradesco S.A. Osasco - SP

We have examined the balance sheets of Banco Bradesco S.A. and the consolidated balance sheets of Banco Bradesco S.A. and its subsidiaries as of June 30, 2003 and 2002 and the related statements of income, changes in stockholders—equity and changes in financial position for the semesters then ended, which are the responsibility of its management. Our responsibility is to express an opinion on these financial statements.

Our examinations were conducted in accordance with auditing standards generally accepted in Brazil and included: (a) planning of the audit work, considering the materiality of the balances, the volume of transactions and the accounting systems and internal accounting controls of the Bank and its subsidiaries; (b) verification, on a test basis, of the evidence and records which support the amounts and accounting information disclosed; and (c) evaluation of the most significant accounting policies and estimates adopted by management of the Bank and its subsidiaries, as well as the presentation of the financial statements taken as a whole.

In our opinion, the aforementioned financial statements present fairly, in all material respects, the financial position of Banco Bradesco S.A. and the consolidated financial position of Banco Bradesco S.A. and its subsidiaries as of June 30, 2003 and 2002 and the results of its operations, changes in its stockholders equity and changes in its financial position for the semesters then ended, in conformity with accounting practices adopted in Brazil.

#### FORWARD-LOOKING STATEMENTS

This press release may contain forward-looking statements. These statements are statements that are not historical facts, and are based on management's current view and estimates of future economic circumstances, industry conditions, company performance and financial results. The words "anticipates", "believes", "estimates", "expects", "plans" and similar expressions, as they relate to the company, are intended to identify forward-looking statements. Statements regarding the declaration or payment of dividends, the implementation of principal operating and financing strategies and capital expenditure plans, the direction of future operations and the factors or trends affecting financial condition, liquidity or results of operations are examples of forward-looking statements. Such statements reflect the current views of management and are subject to a number of risks and uncertainties. There is no guarantee that the expected events, trends or results will actually occur. The statements are based on many assumptions and factors, including general economic and market conditions, industry conditions, and operating factors. Any changes in such assumptions or factors could cause actual results to differ materially from current expectations.
