B.O.S 1-for-5 Reverse Split of Ordinary Shares Effective as of January 12, 2010

The Company hereby announces that the reverse share split previously announced by the Company on December 23, 2009, shall become effective prior to the opening of the market on January 12, 2010. Pursuant to the reverse split, each 5 Ordinary Shares, NIS 4.00 nominal value per share, will be converted into one Ordinary Share, NIS 20.00 nominal value per share. No fractional shares will be issued as a result of the reverse-split. Instead, all fractional shares will be rounded up to the next higher whole number of shares.

As of January 11, 2010, there were 13,090,346 Ordinary Shares outstanding and after the reverse split there will be 2,607,831 Ordinary Shares outstanding. The exchange agent for the reverse split is American Stock Transfer & Trust Company, whose address is 6201 15th Avenue, Brooklyn, New York 11219 (tel: (718) 921- 8317 or (877) 248-6417). Once effective, the post-split shares will trade on the Nasdaq Capital Market under the symbol "BOSCD". The trading symbol will be reverted to BOSC on Wednesday, February 10, 2010.

About BOS

**B.O.S. Better Online Solutions Ltd. Announces Delivery of RFID Vehicle
Location Devices to Leading Israeli Vehicle Importer**

Exclusive distributor of Mercedes-Benz, Smart, Mitsubishi and Hyundai in Israel
utilizing RFID devices for vehicle automatic identification and location management

Rishon Letzion, Israel — January 11, 2010 — B.O.S. Better Online Solutions Ltd. (“BOS”) (NASDAQ: BOSC) today announced the successful implementation and delivery of a RFID-enabled vehicle location system for Colmobil, the exclusive importer and distributor of Mercedes-Benz, Smart, Mitsubishi and Hyundai in Israel.

Colmobil uses the RFID devices in sea ports, storage locations and its distribution center to locate, track and manage vehicles and improve the delivery process to its agencies. The BOS vehicle location devices include RFID tags, RFID readers and hand-held rugged terminals from Intermec. As the cars are being fitted with customized accessories along Colmobil’s pre-delivery inspection and installation line, the BOS system enables the automatic identification of each car. In addition, the receive, store and dispatch processes of the vehicles are computerized and automated, and all information is sent to Colmobil’s SAP ERP system.

“BOS’ RFID solution has made a major impact on the accuracy of our vehicle stock and location management,” said Gil Katz, Colmobil's CIO. “The new RFID devices empower us to move from manual data collection process to an automated one, for more than 25,000 new vehicles each year. By using RFID technology we’ve been able to expedite delivery of vehicles to all our dealerships.”

Yuval Viner, BOS acting CEO added, “We’re pleased that Colmobil chose BOS’ RFID and mobile division to provide real-time location RFID devices for its distribution center. Our expertise in RFID enabled us to implement a highly efficient data collection solution for Colmobil.”
