UNITED STATES
SECURITIES AND EXCHANGE COMMISSION
Washington, D.C. 20549

FORM 10-Q

(Mark One)

QUARTERLY REPORT UNDER SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended June 30, 2017

TRANSITION REPORT UNDER SECTION 13 OR 15(d) OF THE EXCHANGE ACT

For the transition period from _____ to _____

Commission file number: 001-14088

Acacia Diversified Holdings, Inc.

(Exact name of small business issuer as specified in its charter)

Texas

(State or other jurisdiction of incorporation or organization)

75-2095676

(IRS Employer Identification No.)

13575 58th St. North #138 Clearwater, FL

(Address of principal executive offices)

33760

(Zip Code)

(727) 678-4420

(Registrant's telephone number)

(Former name, former address and former fiscal year, if changed since last report)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. (1) Yes No (2) Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required

Edgar Filing: Acacia Diversified Holdings, Inc. - Form 10-Q

to submit and post such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, smaller reporting company, or an emerging growth company. See definition of “large accelerated filer,” “accelerated filer,” “smaller reporting company,” and “emerging growth company” in Rule 12b-2 of the Exchange Act:

Large accelerated filer Accelerated filer

Non-accelerated filer Smaller Reporting Company

Emerging growth company

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act).
Yes No

APPLICABLE ONLY TO CORPORATE ISSUERS

State the number of shares outstanding of each of the issuer’s classes of common equity, as of August 4, 2017 is 17,434,462 common shares.

ACACIA DIVERSIFIED HOLDINGS, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
JUNE 30, 2017
(UNAUDITED)

NOTE 1 – THE COMPANY

Acacia Diversified Holdings, Inc. (“Acacia” or the “Company”) has two wholly-owned subsidiaries, MariJ Pharmaceuticals, Inc. (“MariJ Pharma”) and Canna-Cures Research & Development Center, Inc. (“Canna-Cures”)

During the quarter ended June 30, 2017, the Company formed a new wholly-owned subsidiary, Eufhoria Medical of Tennessee, Inc (“EMT”), a company incorporated in the state of Tennessee. The Company formed this new subsidiary to acquire a parcel of land and a license from one of its directors. See details in Note 4 - Related Party Transactions.

The Company’s primary source revenue is from the extraction of medicinal cannabis oil, from a non-psychoactive cannabis plant. All extraction services are currently limited to the State of Colorado, as the Company is attempting to obtain various licenses for business in the State of Florida.

NOTE 2 – GOING CONCERN

The Company has not generated profit to date. The Company expects to continue to incur operating losses as it proceeds with its extraction and research and development activities and continues to navigate through the regulatory process. The Company expects general and administrative costs to increase, as the Company adds personnel and other administrative expenses associated with its current efforts. As such, and without substantially increasing revenue or finding new sources of capital, the Company will find it difficult to continue to meet its obligations as they come due. The Company continues to seek working capital but there can be no assurance that the Company will be successful in its efforts to raise capital, or if it were successful in raising capital, that it would be successful in meeting its business plans. While the services performed by the Company’s MariJ Pharma subsidiary are anticipated to be sufficient to partly meet the Company’s liquidity needs, these factors raise substantial doubt as to the ability of the Company to continue as a going concern. Management’s plans include increasing production at the Company’s new MariJ Pharma subsidiary during 2017, attempting to start new businesses outside of Colorado, finding additional operational businesses to buy, and attempting to raise funds from the public through an equity offering of the Company’s common stock. Management intends to make every effort to identify and develop all these sources of funds, but there can be no assurance that Management’s plans will be successful.

The accompanying consolidated financial statements have been prepared on a going concern basis, which contemplates the realization of assets and the satisfaction of liabilities in the normal course of business. The Company has incurred losses for all periods presented and has a substantial accumulated deficit. As of June 30, 2017, these factors, among others, raise substantial doubt about the Company’s ability to continue as a going concern.

NOTE 3 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

BASIS OF PRESENTATION

The accompanying consolidated financial statements are unaudited and have been prepared in accordance with accounting principles generally accepted in the United States of America (“U.S. GAAP”) and reflect all adjustments, which consist solely of normal recurring adjustments, needed to fairly present the financial results for these periods. The consolidated financial statements and notes thereto are presented as prescribed by Form 10-Q. Accordingly, certain information and note disclosures normally included in financial statements prepared in accordance with U.S. GAAP have been omitted. The accompanying consolidated financial statements should be read in conjunction with

the financial statements for the fiscal year ended December 31, 2016 and notes thereto in the Company's Annual Report on Form 10-K for the fiscal year ended December 31, 2016, filed with the Securities and Exchange Commission on March 28, 2017. Operating results for the three and six months ended June 30, 2017 are not necessarily indicative of the results that may be expected for the entire fiscal year. In the opinion of management, all adjustments have been made, which consist only of normal recurring adjustments necessary for a fair statement of (a) the results of operations for the three and six-month periods ended June 30, 2017 and 2016, (b) the financial position at June 30, 2017 and (c) cash flows for the three and six-month periods ended June 30, 2017 and 2016.

F-4

Table of Contents

ACACIA DIVERSIFIED HOLDINGS, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
JUNE 30, 2017
(UNAUDITED)
(continued)

PRINCIPLES OF CONSOLIDATION

The consolidated financial statements include the accounts of Acacia Diversified Holdings, Inc. and its wholly-owned subsidiaries, MariJ Pharmaceuticals, Inc, Canna-Cures Research & Development Center, Inc., and Eufhoria Medical of Tennessee, Inc. All significant intercompany accounts and transactions are eliminated in consolidation.

USE OF ESTIMATES

The preparation of consolidated financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the reporting period. The actual results may differ materially and adversely from the Company's estimates. To the extent there are material differences between the estimates and the actual results, future results of operations will be affected.

RECLASSIFICATIONS

Certain prior year amounts shown in the accompanying consolidated financial statements have been reclassified to conform to the 2017 presentation. These reclassifications did not have any effect on total current assets, total assets, total current liabilities, total liabilities, total stockholders' equity, net loss or loss per share.

DEBT ISSUANCE COSTS

In March 2017, the Company incurred direct costs associated with the issuance of a convertible note, as described in Note 6. The Company follows Accounting Standard Update 2015-03 – Simplifying the Presentation of Debt Issuance Costs, which requires these costs to be presented in the balance sheet as a direct reduction from the carrying value of the associated debt liability. These costs should be amortized into interest expense over the contractual term of the note or a shorter amortization period when deemed appropriate. The Company amortizes debt issuance costs for its convertible note immediately upon issuance since the note is convertible on demand. There were no debt issuance costs incurred during 2016.

OFFERING COSTS

In March 2017, the Company issued shares of its common stock to pay for direct incremental costs associated with the expected future sale of its equity securities, as described in Note 7. These shares are valued at their fair value on commitment date and are recorded as deferred offering costs on the Company's consolidated balance sheets. These costs will offset any proceeds to be received in the future from the sale of common stock.

STOCK BASED COMPENSATION

The Company accounts for stock-based compensation under Accounting Standards Codification 718 - Compensation-Stock Compensation ("ASC 718"). ASC 718 requires that all stock-based compensation be recognized as expense in the financial statements and that such cost be measured at the fair value of the award at the grant date and recognized over the period during which an employee is required to provide services (requisite service period). An

additional requirement of ASC 718 is that estimated forfeitures be considered in determining compensation expense. Estimating forfeitures did not have a material impact on the determination of compensation expense during the three and six months ended June 30, 2017 and 2016.

The Company accounts for stock based awards based on the fair market value of the instrument using the Black-Scholes option pricing model and utilizing certain assumptions including the followings:

Risk-free interest rate – This is the yield on U.S. Treasury Securities posted at the date of grant (or date of modification) having a term equal to the expected life of the option. An increase in the risk-free interest rate will increase compensation expense.

F-5

Table of Contents

ACACIA DIVERSIFIED HOLDINGS, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
JUNE 30, 2017
(UNAUDITED)
(continued)

Expected life—years – This is the period of time over which the options granted are expected to remain outstanding. Options granted by the Company had a maximum term of ten years. An increase in the expected life will increase compensation expense.

Expected volatility – Actual changes in the market value of stock are used to calculate the volatility assumption. An increase in the expected volatility will increase compensation expense.

Dividend yield – This is the annual rate of dividends per share over the exercise price of the option. An increase in the dividend yield will decrease compensation expense. The Company does not currently pay dividends and has no immediate plans to do so in the near future.

The Company accounts for stock-based compensation issued to non-employees and consultants in accordance with the provisions of Accounting Standards Codification 505-50, Equity – Based Payments to Non-Employees. Measurement of share-based payment transactions with non-employees is based on the fair value of whichever is more reliably measurable: (a) the goods or services received; or (b) the equity instruments issued. The value of the common stock is measured at the earlier of (i) the date at which a firm commitment for performance by the counterparty to earn the equity instruments is reached or (ii) the date at which the counterparty's performance is complete.

During the six months ended June 30, 2017, the board of directors approved issuances of Company's restricted common stock to consultants and non-employee directors for past and future services:

1. 10,000 shares to each director for services rendered for fiscal year 2016 and 10,000 shares for services to be rendered for fiscal year 2017, total 60,000 shares, valued at \$99,000;
2. 17,646 shares to a consultant for investors relations services, valued at \$30,000;
3. 50,000 shares to the Company's SEC legal counsel for services performed, valued at \$82,500;
4. 15,000 shares to a consultant for continuing services, valued at \$23,400; and
5. 54,254 shares to a director as other considerations and to purchase and prepare assets acquired by the Company's subsidiary, valued at \$86,806.

The Company valued these shares at fair value on commitment dates and recorded stock based compensation expense over the respective requisite service periods. Share-based compensation expense for the three months ended June 30, 2017 and 2016 was \$113,169 and \$0, respectively. Share-based compensation expense for the six months ended June 30, 2017 and 2016 was \$324,669 and \$0, respectively.

FAIR VALUE ESTIMATES – The Company measures assets and liabilities it acquires at fair value in accordance with Accounting Standards Codification 820 – Fair Value Measurement (“ASC 820”). The objective of ASC 820 is to increase consistency and comparability in fair value measurements and to expand disclosures about fair value measurements. ASC 820 defines fair value, establishes a framework for measuring fair value in generally accepted accounting principles, and expands disclosures about fair value measurements. ASC 820 specifies a valuation hierarchy based on whether the inputs to those valuation techniques are observable or unobservable.

Observable inputs reflect market data obtained from independent sources, while unobservable inputs reflect the Company's own assumptions. These two types of inputs have created the following fair value hierarchy:

- Level 1 – Quoted prices for identical instruments in active markets;
- Level 2 – Quoted prices for similar instruments in active markets, quoted prices for identical or similar instruments in markets that are not active, and model-derived valuations in which all significant inputs and significant value drivers are observable in active markets; and
- Level 3 – Valuations derived from valuation techniques in which one or more significant inputs or significant value drivers are unobservable.

F-6

Table of Contents

ACACIA DIVERSIFIED HOLDINGS, INC.
 NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
 JUNE 30, 2017
 (UNAUDITED)
 (continued)

This hierarchy requires the Company to minimize the use of unobservable inputs and to use observable market data, if available, when estimating fair value.

During the three months ended, EMT acquired land and a license from one of the Company's directors (NOTE 4). The Company determined that the fair value of the land is \$26,194 which is a level 2 input.

NOTE 4 – RELATED PARTY TRANSACTIONS

Notes Payable to Related Party

In January 2017, the Company entered into a note agreement in the amount of \$300,000 with the Company's CEO. The note bears interest at a rate of 8% per annum and specifies no due date. The Company accrued interest of \$10,784 at June 30, 2017. Interest expense on this note for the three and six months ended was \$4,800 and \$5,984, respectively. Concurrently, the board of directors also approved issuance of 100,000 shares of the Company's common stock as additional interest. These shares are debt issuance costs, valued at \$182,000. The costs were expensed at the commitment date of the note as interest expense since the note is a short term capital advance with no stated term. It is expected to be repaid upon the company's future sale of equity securities.

In June 2017, the Company entered into a note agreement in the amount of \$105,000 with the Company's CEO for short term working capital advance. The note bears interest at a rate of 8% per annum and specifies no due date.

The total debt of \$405,000 is convertible into shares of the Company's common stock at \$.50/share, for a total of 810,000 shares.

Payable to Related Parties

Payable to related parties consisted of the followings at June 30, 2017 and December 31, 2016:

	June 30, 2017	December 31, 2016
Short term loan from related entity (1)	\$35,348	\$ -
Short term loan from related entity (1)	39,000	-
Storage and corporate housing and auto allowances owed to CEO (2)	8,000	4,000
Working capital advances from CEO (3)	130,050	-
	\$212,398	\$ 4,000

(1) In March 2017 and June 2017, the Company received a working capital advance of \$35,348 and \$39,000, respectively, from a related entity. These amounts have been included in payable to related parties on the consolidated balance sheet at June 30, 2017.

(2) On May 1, 2016, the Company entered into an employment agreement with its CEO. The term of the employment is through December 31, 2019. The agreement provides for a monthly storage and corporate housing allowance of

\$1,000 for a property owned by the CEO and a monthly automobile allowance of \$1,000. During the three and six months ended June 30, 2017, expenses related to the housing and automobile allowances totaled \$6,000 and \$12,000, respectively, of which \$8,000 and \$4,000 remained owed to the CEO at June 30, 2017 and December 31, 2016, respectively.

(3) In June 2017, the Company's CEO provided the Company with a short term working capital advance of \$130,050. This amount remained outstanding at June 30, 2017.

F-7

Table of Contents

ACACIA DIVERSIFIED HOLDINGS, INC.
 NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
 JUNE 30, 2017
 (UNAUDITED)
 (continued)

Other Related Party Transactions

In March 2017, the Company's board of directors approved issuance of 50,000 shares of the Company's common stock to a director for his service as a broker for the financing transaction and the equity purchase agreement described in NOTES 6 and 7. The Company determined that 16,000 shares of the total number of shares represent non-cash debt issuance costs directly related to the convertible notes financing and the remaining 34,000 shares represent non-cash offering costs directly related to the equity purchase agreement with this investor. These shares are valued at \$82,500.

In May 2017, the Company and EMT entered into an agreement to purchase a parcel in Tennessee and an Industrial Hemp Grower License issued by the Tennessee Department of Agriculture from one of the Company's directors. The purchase price of the transaction was 80,000 shares of the Company's restricted common stock. These shares were valued at \$1.60 per share, or \$128,000, on commitment date. EMT allocated the purchase price among the assets acquired based on their fair values as follow:

Land	\$26,194
Land preparation and cleanup	15,000
Industrial Hemp Grower License	-
Other considerations	86,806
Total Purchase Price	\$128,000

The Company determined the value of the land based on the purchase price paid by the director in December 2016. There has been no significant changes in the value of the land since that time. The Company estimated land preparation and cleanup costs at \$15,000. The director applied for and paid a fee of \$264 to obtain the license. The Company was not able to determine the value of the license since the license was granted as part of the hemp pilot program in Tennessee. The Company entered into this agreement with its director, in lieu of the state of Tennessee, as a result of the state's residency requirement to enter into the cannabis industry in Tennessee. Therefore, this director is also a registered agent and a director of EMT, a Tennessee corporation and the remaining purchase price of \$86,806 represented other considerations to this director in his effort in preparing the Company for operations in Tennessee.

NOTE 5 – INVENTORIES

The Company's inventories consisted of the followings at June 30, 2017 and December 31, 2016:

	June 30, 2017	December 31, 2016
Raw materials	\$46,880	\$ 52,363
Finished goods	11,141	10,722
	\$58,021	\$ 63,085

NOTE 6 – CONVERTIBLE NOTE PAYABLE

In March 2017, the Company entered into a financing agreement with an investor whereby the Company will issue unsecured convertible note agreements to the investor in the aggregate principal amount of \$400,000 at 10% discount. The financing will be funded in tranches, each with the issuance of a separate convertible note agreement by the Company.

On March 31, 2017, the Company issued the first convertible note agreement (“first note”) in the principal amount of \$100,000 at 10% discount. The first note matures on March 31, 2019 and is convertible into the Company’s common stock at a conversion price of \$1.60 per share if no event of default has occurred and is converted prior to 180 days after the issuance date. If an event of default has occurred or the date of conversion is 180 days after the issuance date, the conversion price will be the lesser of \$1.60 per share, or 70% of the second lowest closing bid price of the Company’s common stock for the 20 trading days immediately preceding the date of the conversion. In connection with the issuance of the first note, the Company paid \$2,500 of commitment fee to the investor and \$2,500 legal fees. Therefore, the Company received net proceeds of \$85,000 at closing.

ACACIA DIVERSIFIED HOLDINGS, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
JUNE 30, 2017
(UNAUDITED)
(continued)

The Company's board of directors approved issuance of 50,000 shares of the Company's common stock to a director for his service as a broker for the transaction. The Company determined that 16,000 shares of the total number of shares represent non-cash debt issuance costs directly related to the convertible notes financing and the remaining 34,000 shares represent non-cash offering costs directly related to the sale of the Company's common stock to this investor (see NOTE 7). As a result, the debt discount of \$10,000, commitment fee of \$2,500, legal fee of \$2,500, commission to a third party consultant of \$5,950 and the non-cash debt issuance costs of \$26,400, totaling \$47,350, were recorded as a direct reduction from the carrying value of the principal amount in the consolidated balance sheet at the time of the agreement. These costs were amortized as interest expense immediately upon issuance because the first note was immediately convertible by the note holder. The principle amount of \$100,000 was repaid in June 2017 together with interest expense of \$5,000.

NOTE 7 – STOCKHOLDERS' EQUITY

Common Stock

The Company has been authorized to issue 150,000,000 shares of common stock, \$.001 par value. Each share of issued and outstanding common stock shall entitle the holder thereof to fully participate in all shareholder meetings, to cast one vote on each matter with respect to which shareholders have the right to vote, and to share ratably in all dividends and other distributions declared and paid with respect to common stock, as well as in the net assets of the corporation upon liquidation or dissolution.

During the six months ended June 30, 2017, the Company issued 592,646 shares of its restricted common stock as follows:

- 1) 10,000 shares to each director for services rendered for fiscal year 2016 and 10,000 shares for services to be rendered for fiscal year 2017, total 60,000 shares, valued at \$99,000;
- 2) 17,646 shares to a consultant for investors relations services, valued at \$30,000;
- 3) 50,000 shares to the Company's SEC legal counsel for services performed, valued at \$82,500;
- 4) 10,000 shares to an employee for services performed, valued at \$12,800;
- 5) 110,000 shares to an investor and its affiliate as offering costs, valued at \$184,800;
- 6) 50,000 shares to a director as broker commission for the convertible note and equity purchase agreement transactions, valued at \$82,500;
- 7) 100,000 shares issued as debt issuance cost to CEO for related party advances, valued at \$182,000;
- 8) 100,000 shares issued as interest expense to CEO for related party advances, valued at \$158,000;
- 9) 15,000 shares to a consultant for continuing services, valued at \$23,400; and
- 10) 80,000 shares to a director as other considerations and to purchase and prepare assets acquired by the Company's subsidiary, valued at \$128,000.

Warrants and Options

At June 30, 2017, 75,000 options were outstanding and no warrants were outstanding. The Company did not issue any common stock purchase warrants or options during the six months ended June 30, 2017 and 2016.

Equity Purchase Agreement

In March 2017, the Company entered into an equity purchase agreement (“agreement”) with an investor whereby the investor will purchase up to \$5,000,000 of the Company’s common stock over a period of 24 months from the effective date of the Company’s Registration Statement. The investor will purchase the Company’s common stock at a 10% discount. Pursuant to the agreement, the Company issued to the investor, and its affiliate, 110,000 shares of its common stock as commitment fee. These shares are valued at \$184,800 at the commitment date and are recorded as deferred offering costs on the Company’s consolidated balance sheets. These costs will offset any proceeds to be received in the future from the expected sale of common stock.

Table of Contents

ACACIA DIVERSIFIED HOLDINGS, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
JUNE 30, 2017
(UNAUDITED)
(continued)

The Company's board of directors approved issuance of 50,000 shares of the Company's common stock to a director for his service as a broker of the transaction. The Company determined that 34,000 shares of the total number of shares approved for issuance represent non-cash offering costs directly related the sale of the Company's common stock to this investor. These shares are valued at \$56,100 on commitment date are recorded as deferred offering costs on the Company's consolidated balance sheets. These costs will offset any proceeds to be received in the future from the expected sale of common stock.

Restricted Stock Awards to Key Employees

In March 2017, the board of directors approved issuance of 100,000 shares of the Company's restricted common stock to each of its three key employees. As of the date of the issuance of the financial statements, only two key employees accepted the award. The award for the employees are subject to a four or five-year vesting requirements, i.e. the requisite service period. The shares are issued as the vesting restriction lapses. The Company valued these shares at fair value on commitment date which is the date on which the employee accepted the award and recorded stock based compensation expense over the requisite service period. During the six months ended June 30, 2017, the board of directors approved issuance of 10,000 shares of the Company's common stock to one of the key employees as the vesting requirement was met. These shares were valued at \$12,800 on commitment date. Stock based compensation expense for these awards for the three and six months ended June 30, 2017 was \$38,594 and \$63,127, respectively.

NOTE 8 – SUBSEQUENT EVENTS

In July 2017, the Company closed its retail location in the state of Colorado and retained all its inventory. The Company anticipates relocating its retail operation to Tennessee. The Company does not anticipate incurring significant costs in connection with this closure.

NOTE 9 – RECENT ACCOUNTING PRONOUNCEMENTS

Except as noted in our Form 10-K, the Company's management does not believe that recent codified pronouncements by the Financial Accounting Standards Board ("FASB") (including its EITF), the AICPA or the Securities and Exchange Commission will have a material impact on the Company's current or future consolidated financial statements.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations.

Forward-Looking Information

This Management's Discussion and Analysis of Financial Condition and Results of Operations (MD&A) contains forward-looking statements within the meaning of the Private Litigation Reform Act of 1995 that involve known and unknown risks, significant uncertainties and other factors that may cause our actual results, levels of activity, performance or achievements to be materially different from any future results, levels of activity, performance or achievements expressed, or implied, by those forward-looking statements. You can identify forward-looking statements by the use of the words such as "expects", "anticipates", "intends", "plans", "believes", "seeks", "estimates", "may", "should", "could", "predicts", "potential", "proposed", or "continue" or the negative of those terms. These statements are only predictions. In evaluating these statements, you should consider various factors which may cause our actual results to differ materially from any forward-looking statements. Although we believe that the exceptions reflected in the forward-looking statements are reasonable, we cannot guarantee future results, levels of activity, performance or achievements. Therefore, actual results may differ materially and adversely from those expressed in any forward-looking statements due to numerous factors, including, but not limited to, availability of financing for operations, successful performance of operations, impact of competition and other risks detailed below as well as those discussed elsewhere in this Form 10-Q and from time to time in the Company's Securities and Exchange Commission filings and reports. In addition, general economic and market conditions and growth rates could affect such statements. We undertake no obligation to revise or update publicly any forward-looking statements for any reason.

General

These unaudited interim consolidated financial statements should be read in conjunction with the annual financial statements for the Company most recently completed fiscal year ended December 31, 2016. These unaudited interim consolidated financial statements do not include all disclosures required in annual financial statements, but rather are prepared in accordance with recommendations for interim financial statements in conformity with accounting principles generally accepted in the United States of America ("U.S. GAAP"). These unaudited interim consolidated financial statements have been prepared using the same accounting policies and methods as those used by the Company in the annual audited financial statements for the year ended December 31, 2016.

Discussion on the Company's Operations and Recent Event

MariJ Pharmaceuticals, Inc.

MariJ Pharma has a mobile CO₂, supercritical extraction unit which was USDA certified Organic on September 28th, 2016, by OneCert, under the US National Organic Program; 7 CFR PART 205. MariJ Pharma extracts and processes very high quality, high-cannabinoid profile content medical grade cannabis oils from medicinal cannabis plants. As such, MariJ Pharma is authorized to process directly for certified organic farms and is able to produce certified organic cannabis oils.

The Company intends to acquire, through its MariJ Pharma subsidiary, portions or complete ownership of licenses and grow operations in one or more states and seeking to cultivate, organically extract and process its medicinal cannabis crops year round in indoor facilities. The acquisition of these licenses is anticipated to provide the Company with the opportunity to compound medicinal products using mixtures of high cannabinoid profile oils that have very little hallucinogenic properties but have significantly improved medicinal properties.

In addition, MariJ Pharma has the technical expertise and capability to process and formulate the oils and to employ them in its compounding operations. MariJ Pharma will seek to become engaged as owner or co-owner of a grow facility in Florida or other location(s) such as to produce its own plants for processing. MariJ Pharma has also been preparing for its newly-developed, proprietary GeoTraking Technology that is fully compliant with the Health Insurance Portability and Accountability standard (“HIPAA”) utilizing its “plant to patient” solution. This GeoTraking Technology is designed to provide a full-channel patient care tracking system that is fully compliant under today’s strict HIPAA regulations that require privacy and security of the patients’ information. Beginning with RFID labeling and tracking of every single seed employed in the grow program and continuing through the sale of prescription products in a sophisticated retail Point of Sale delivery system, the GeoTraking Technology will be one of the most advanced system available.

Table of Contents

The Company's primary source of revenue is from the extraction of medicinal cannabis oil, from a non-psychoactive cannabis plant. All extraction services are currently limited to the State of Colorado, as the Company is attempting to attain various licenses for business in the State of Florida.

It is anticipated that MariJ Pharma could generate revenues from the following activities:

- 1) Cannabis oil extraction and processing - MariJ Pharma has a unique mobile cannabis oil processing and extraction unit designed into a heavy-duty truck chassis. The unit has already begun performing extractions and processing of medical hemp oils at various sites in Colorado, and MariJ Pharma is currently developing additional contracts for services.
- 2) Wholesale sale of raw and processed medical cannabis oils.
- 3) Laboratory testing and certification services – As the demand for these services grows in the medical cannabis industry, MariJ Pharma is uniquely positioned to fulfill the growing demand for these services by utilizing its existing mobile laboratory and testing unit built on a heavy-duty truck chassis.
- 4) Licensing and support of the Company's GeoTraking Technology systems.
- 5) Processing and compounding services for medical grade cannabis oils.

The Company is preparing to seek additional investments and financing to pay the costs of constructing its second mobile oil extraction and processing unit, to finance final construction of its mobile laboratory and testing unit for the same industry, and to complete the roll-out of its GeoTraking Technology system. However, there can be no assurance that the Company will be successful in its plans to generate the required capital.

Canna-Cures Research and Development Center, Inc.

In August 2016, Canna-Cures began engaging in product development activities as well as retail distribution of medicinal Hemp products in Colorado. In July 2017, Canna-Cures closed its retail operations in Colorado and retained all its inventory as the Company begins to focus its developmental activities in Tennessee.

Euforia Medical of Tennessee, Inc.

In addition to our current operations in the State of Colorado, the Company has been invited to be part of the hemp pilot program in Tennessee. This program provides the Company the license to grow, manufacture, and dispense USDA organic hemp oil in Tennessee and represents the first step in moving its operations to the east coast of the United States. The Company plans on participating in this pilot program through this new, wholly-owned subsidiary.

EMT will seek to align itself with institutions of higher learning in working to develop new products and to identify and develop additional uses for its medical cannabis products. It is anticipated that EMT could generate revenues from the following activities:

- 1) EMT will seek to enter into product development projects with institutions of higher learning in efforts to develop new and better strains of medical cannabis related products for dispensing as medications, nutraceuticals, cosmeceuticals, and probably dietary supplements. EMT anticipates participating in state and federal grants in conjunction with one or more universities as a means to defray part of its costs in these efforts.
- 2) Private label packaging services - the Company has obtained a majority of the equipment required to engage in the business of packaging and labeling of medical cannabis oils, oil-infused products, and related items.
- 3) Retail sales of medical cannabis oils, oil-infused products, and other merchandise through its web-based portal or retail dispensaries planned for that purpose. These activities are dependent in large part upon meeting FDA regulations and criteria relating to the sale and distribution of cannabis-infused products, and the Company is currently in the process of determining the status of those criteria.

Edgar Filing: Acacia Diversified Holdings, Inc. - Form 10-Q

- 4) Retail and wholesale sales of cosmeceutical and nutraceutical products and dietary supplements containing its high-quality cannabis oil extracts, subject to compliance with FDA and other regulations.
- 5) Growing high quality cannabis plants and extracting oil for sale or for manufacturing of oil-infused products.

The Company will require additional capital to execute these plans and there can be no assurance that the Company will be successful in its plans to generate that capital.

2

Table of Contents

Operating results for the three months ended June 30, 2017 and 2016:

For the three months ended June 30, 2017, the Company generated revenues of \$132,715 from operations, compared to \$0 for the three months ended June 30, 2016 since the Company earned revenues from its extraction services in the first quarter of 2016 and none in the second quarter. In addition, the Company did not open its retail store operations in Colorado until third quarter of 2016.

For the three months ended June 30, 2017, costs of goods sold was \$69,999, compared to \$41,289 for the three months ended June 30, 2016, an increase of \$28,710, or 70%. The increase in our costs is primarily related to production based bonuses, recognition of non-cash stock based compensation expense from a restricted stock award granted to our extraction technician and costs of goods sold in our retail store in Colorado.

As a result of the changes in revenues and costs of goods sold discussed above, the Company's gross profit increased from a loss of \$41,289 for the three months ended June 30, 2016 to \$62,716, or 47% of revenues for the three months ended June 30, 2017.

For the three months ended June 30, 2017, selling, general and administrative expenses were \$399,291, compared to \$263,579 during the three months ended June 30, 2016, an increase of \$135,712, or 51%. The increase in these expenses are attributable to (1) an increase in employee compensation expenses in Canna-Cures which did not begin operations until third quarter of 2016, the hiring of additional administrative staff, stock based compensation to employees, and accrual of bonuses for current management, and (2) a decrease in general administrative expenses primarily due to fewer legal activities during the current period.

During the three months ended June 30, 2017, the Company incurred interest expense of \$168,984, compared to \$38 for the three months ended June 30, 2016. During the current period, the Company paid interest in the amount of \$5,000 to the convertible note holder, accrued \$5,984 of interest expense on the notes payable to related party and issued common stock valued at \$158,000 as interest to a related party for working capital advances. There were no such liabilities existed at June 30, 2016.

As a result of the changes in revenues, costs and expenses, the Company incurred a net loss of \$509,808 for the three months ended June 30, 2017, compared to a net loss of \$304,906 for the three months ended June 30, 2016.

The future trends of all expenses are expected to be primarily driven by the Company's ability to execute its business plans and the future outcome of its application to obtain operating licenses in other states. As the cannabis industry grows, additional expenses are anticipated to be incurred in complying with various state and federal regulatory requirements. The Company's ability to continue to fund operating expenses will depend on its ability to raise additional capital. There can be no assurance that the Company will be successful in doing so.

Operating results for the six months ended June 30, 2017 and 2016:

For the six months ended June 30, 2017, the Company generated revenues of \$280,361 from operations, compared to \$225,366 for the six months ended June 30, an increase of \$54,995 or 24%. The increase in revenues is primarily attributable to the increase in processing and revenues generated from its retail store operations in Colorado.

For the six months ended June 30, 2017, costs of goods sold was \$164,740, compared to \$113,064 for the six months ended June 30, 2016, an increase of \$51,676, or 46%. The increase in our costs is primarily related to production based bonuses, recognition of non-cash stock based compensation expense from a restricted stock award granted to our extraction technician and costs of goods sold in our retail store in Colorado.

As a result of the changes in revenues and costs of goods sold discussed above, the Company's gross profit increased from \$112,302 for the six months ended June 30, 2016 to \$115,621, or 41% of revenues for the six months ended June 30, 2017.

For the six months ended June 30, 2017, selling, general and administrative expenses were \$913,556, compared to \$634,658 during the six months ended June 30, 2016, an increase of \$278,898, or 44%. The increase in these expenses are attributable to (1) an increase in employee compensation expenses in Canna-Cures which did not begin operations until third quarter of 2016, the hiring of additional administrative staff, stock based compensation to employee, and accrual of bonuses for current management, and (2) an increase in general administrative expenses primarily due to stock based compensation to board of directors, third party vendors and outside counsel, and increase in professional fees.

Table of Contents

During the six months ended June 30, 2017, the Company incurred interest expense of \$403,134, compared to \$38 for the six months ended June 30, 2016. During the current period, the Company paid interest in the amount of \$5,000 to the convertible note holder, accrued \$10,784 of interest expense on the notes payable to related party, issued common stock valued at \$366,400 as interest to a related party for working capital advances and as debt issuance costs related to the issuance of the convertible note payable and \$20,950 as cash debt discount. There were no such liabilities existed at June 30, 2016.

As a result of the changes in revenues, costs and expenses, the Company incurred a net loss of \$1,204,318 for the six months ended June 30, 2017, compared to a net loss of \$565,381 for the six months ended June 30, 2016.

The future trends of all expenses are expected to be primarily driven by the Company's ability to execute its business plans and the future outcome of its application to obtain operating licenses in other states. As the cannabis industry grows, additional expenses are anticipated to be incurred in complying with various state and federal regulatory requirements. The Company's ability to continue to fund operating expenses will depend on its ability to raise additional capital. There can be no assurance that the Company will be successful in doing so.

Liquidity and Capital Resources

The Company's cash position at June 30, 2017 increased by \$91,292 to \$135,170, as compared to a balance of \$43,878, as of December 31, 2016. The net increase in cash for the six months ended June 30, 2017 was attributable to net cash used in operating activities of \$422,562, net cash used in investing activities of \$6,196, offset in part by net cash provided by financing activities of \$520,050.

As of June 30, 2017, the Company had negative working capital of \$604,144 compared to negative working capital of \$191,435, at December 31, 2016, a decrease of \$412,709, attributable primarily to issuance of notes payable to its CEO and amounts owed to related parties for working capital advances.

Net cash used in operating activities of \$422,562 during the six months ended June 30, 2017, was higher compared to the prior period of \$347,693, primarily due to higher net loss, offset by (i) non-cash items such as common stock issued for services and interest and amortization of debt discount and (ii) changes in operating assets and liabilities, including a settlement payment to our former CEO.

Net cash used in investing activities did not significantly contribute to the change in cash positions for both periods.

Net cash provided by financing activities of \$520,050 during the six months ended June 30, 2017 increased by \$260,196 compared to \$259,854 during the six months ended June 30, 2016. The increase in net cash provided from financing activities was attributable to a reduction in net proceeds from the reverse acquisition, coupled with an increase in proceeds from the issuances of notes payable to our CEO and working capital advances from related parties.

During the six months ended June 30, 2017, the Company also issued 25,746 shares of its common stock to acquire and prepare a parcel land from one of its directors. These shares are valued at \$41,194. The Company also issued 144,000 shares of its common stock as costs directly related to entering into the equity purchase agreement with an investor. These shares were valued at \$240,900.

As reported in the accompanying consolidated financial statements, for the six months ended June 30, 2017 and 2016, the Company incurred net losses of \$1,204,318 and \$565,381, respectively. The Company did not produce significant revenues in the periods presented and has sustained operating losses since inception. The Company's ability to continue as a going concern is dependent upon its ability to raise additional capital, obtain licenses to commence

operations in states outside of Colorado and achieve a level of profitability. Until recently where the Company obtained working capital from convertible notes financing and equity purchase agreement with an outside investor, the Company has financed its activities principally from working capital advances from its CEO and related parties since inception. It intends to finance its future operating activities and its working capital needs largely from proceeds from the convertible notes agreement, the sale of equity securities, combined with additional funding from its CEO. The sale of equity and convertible notes financing agreements may result in dilution to stockholders and those securities may have rights senior to those of common shares. If the Company raises additional funds through the issuance of convertible notes or other debt financing, these activities or other debt could contain covenants that would restrict the Company's operations. Any other third-party funding arrangements could require the Company to relinquish valuable rights. The Company will require additional capital beyond its currently anticipated needs. Additional capital, if available, may not be available on reasonable terms or at all.

The Company has not generated significant revenue to date, and will not generate significant revenue in the foreseeable future. The Company expects to continue to incur operating losses as it proceeds with its pursuit of operating licenses in various states. The future trends of all expenses are expected to be primarily driven by the Company's ability to execute its business plans and the future outcome of its application to obtain operating licenses in other states. As the cannabis industry grows, additional expenses are anticipated to be incurred in complying with various regulatory requirements. The Company's ability to continue to fund operating expenses will depend on its ability to raise additional capital. There can be no assurance that the Company will be successful in doing so.

Table of Contents

Financial Condition

The Company's total assets at June 30, 2017 and December 31, 2016 were \$1,023,165 and \$684,783, respectively, an increase of \$338,382. Total liabilities at June 30, 2017 and December 31, 2016 were \$900,941 and \$394,530, respectively, an increase of \$506,411. The significant change in the Company's financial condition is attributable to (i) issuance of notes payable to a related party, and (ii) increase in working capital advances from related parties. As a result of these transactions, the Company's cash position increased from \$43,878 to \$135,170, from December 31, 2016 to June 30, 2017 and incurred deferred offering costs of \$240,900.

Off-Balance Sheet Arrangements

We have made no off-balance sheet arrangements that have or are reasonably likely to have a current or future effect on our financial condition, changes in financial condition, revenues or expenses, results of operations, liquidity, capital expenditures or capital resources that is material to investors.

Item 3. Quantitative and Qualitative Disclosures About Market Risk.

We are a Smaller Reporting Company as defined by Rule 12b-2 of the Securities Exchange Act of 1934 and are not required to provide the information under this item.

Item 4. Controls and Procedures

Disclosure Controls and Procedures

The Company's Chief Executive Officer and Chief Financial Officer have evaluated the effectiveness of the Company's disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act) as of June 30, 2017. Based upon such evaluation, the Chief Executive Officer and Chief Financial Officer have concluded that, as of June 30, 2017, the Company's disclosure controls and procedures were not effective. The controls were determined to be ineffective due to the lack of segregation of duties. In January 2017, the Company hired a part-time financial controller to assist with technical accounting issues and the preparation of the filings. However, until the Company begins generating sufficient revenues, it is unable to remediate the weakness. Despite the existence of material weaknesses, management believes the financial information presented herein is materially correct and fairly presents the financial position and operating results of the three months ended June 30, 2017, in accordance with U.S. GAAP.

Changes in Internal Control Over Financial Reporting

No change in the Company's internal control over financial reporting occurred during the three months ended June 30, 2017, that materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.

PART II. OTHER INFORMATION

Item 1. Legal Proceedings.

None.

Item 1A. Risk Factors

The Company is a Smaller Reporting Company as defined by Rule 12b-2 of the Securities Exchange Act of 1934 and is not required to provide the information under this item.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds.

During the six months ended June 30, 2017, the Company issued 592,646 shares of its restricted common stock as follows:

- 1) 10,000 shares to each director for services rendered for fiscal year 2016 and 10,000 shares for services to be rendered for fiscal year 2017, total 60,000 shares, valued at \$99,000;
- 2) 17,646 shares to a consultant for investors relations services, valued at \$30,000;
- 3) 50,000 shares to the Company's SEC legal counsel for services performed, valued at \$82,500;
- 4) 10,000 shares to an employee for services performed, valued at \$12,800;
- 5) 110,000 shares to an investor and its affiliate as offering costs, valued at \$184,800;
- 6) 50,000 shares to a director as broker commission for the convertible note and equity purchase agreement transactions, valued at \$82,500;
- 7) 100,000 shares issued as debt issuance cost to CEO for related party advances, valued at \$182,000;
- 8) 100,000 shares issued as interest expense to CEO for related party advances, valued at \$158,000;
- 9) 15,000 shares to a consultant for continuing services, valued at \$23,400; and
- 10) 80,000 shares to a director as other considerations and to purchase and prepare assets acquired by the Company's subsidiary, valued at \$128,000.

The shares of our common stock were issued pursuant to an exemption from registration in Section 4(a)(2) of the Securities Act of 1933. These shares of our common stock qualified for exemption under Section 4(a)(2) of the Securities Act of 1933 since the issuance of shares by us did not involve a public offering. The offering was not a "public offering" as defined in Section 4(a)(2) due to the insubstantial number of persons involved in the deal, size of the offering, manner of the offering and number of shares offered. We did not undertake an offering in which we sold a high number of shares to a high number of investors. In addition, these shareholders had necessary investment intent as required by Section 4(a)(2) since they agreed to receive share certificates bearing a legend stating that such shares are restricted pursuant to Rule 144 of the 1933 Act. This restriction ensures that these shares would not be immediately redistributed into the market and therefore not be part of a "public offering." All shareholders are "sophisticated investors" and are business acquaintances of our officers and directors. Based on an analysis of the above factors, we believe we have met the requirements to qualify for exemption under section 4(a)(2) of the Securities Act of 1933 for this transaction.

Item 3. Defaults Upon Senior Securities

None.

Item 4. Mine Safety Disclosures

Not applicable.

Item 5. Other Information.

None.
