Business Update

- **Powerful and distinct brands:** The \$1 billion relaunch of Holiday Inn remains on track. 2,585 hotels are now operating under the new Holiday Inn standards, 76% of the total estate. Relunched hotels are performing at the top end of our expected range. We continue to drive up the overall quality of the estate with 75,000 new rooms under construction of which c.140 hotels (21,000 rooms) are expected to open in the remainder of this year. 9,021 rooms (83 hotels) were removed from the system in the first half. Total room removals are still expected to be in the region of 40,000 in 2010.
- **Leadership position in Greater China:** with 132 hotels open and 148 in our development pipeline we continue to build our leading position in the region. Over 50% of our pipeline comprises our upscale brands, illustrating the potential speed of revenue growth from this rapidly expanding market.
- **System delivery:** this continued to improve with 68% of rooms revenue booked through IHG's channels or by Priority Club Rewards members direct to hotel (2009: 66%). Priority Club Rewards members now total almost 52m (2009: 44m).
- **Focus on efficiency:** First half regional and central costs of \$108m increased \$9m at constant exchange rates (\$12m at reported rates) due to higher performance based short term incentive costs. IHG is on track to maintain the c. \$75m of sustainable savings achieved in 2009 across regional and central costs and managed and franchised cost of sales.

Commenting on the results, Andrew Cosslett, Chief Executive of InterContinental Hotels Group PLC said:

“Trading strengthened as the first half progressed with global Revenue per Available Room (RevPAR) up 3.9% overall and 7.4% in the second quarter. Asia is leading the recovery with Greater China reporting RevPAR up 29.4% in the half. As anticipated, occupancy drove RevPAR increases, with business travellers returning in greater numbers. Rates are now stabilising across the world, with most markets seeing rate growth towards the end of the first half. The economic environment does remain uncertain, however, with short booking windows and limited visibility.

“During the downturn we worked closely with our owners to reduce costs, drive revenue and build the strength of our system and brands. In the first half we signed 130 hotels and opened 148, despite the tough financing environment. The quality of these new hotels is exceptionally high, particularly in China where both our pipeline and system of open hotels are skewed towards more upscale developments. We have now completed the relaunch of nearly 2,600 Holiday Inn hotels worldwide out of a total of 3,400, and the performance of these hotels continues to meet or beat our expectations.

“These efforts put us in great shape to increase share in what is now a rising market. Having maintained the dividend through the recession and balancing the improvement in trading with the continued economic uncertainty, the Board is announcing an increase in the dividend of 5%.”

Americas

Revenue performance

RevPAR increased 2.2% in the first half, with second quarter growth of 5.8 %. In the US, Holiday Inn and Holiday Inn Express outperformed their segments by 1.4 and 0.4 percentage points respectively, reporting RevPAR growth of 0.1% at Holiday Inn (including 3.2% for Q2) and 0.4% at Holiday Inn Express (including 3.6% for Q2). Revenues increased 5% to \$393m.

Operating profit performance

Operating profit increased 20% from \$149m to \$179m. Franchised hotels' operating profit grew 6% driven by a royalty fee revenue increase of 8%. In the managed business, operating profit of \$13m compares to a loss of \$9m in 2009 which included a \$19m charge for priority guarantee shortfalls. Owned and leased hotels' operating profit of \$4m was flat on 2009 reflecting RevPAR growth of 5.9% offset by a \$3m reinstatement of depreciation on hotels classified as held for sale in the first half of 2009.

EMEA

Revenue performance

RevPAR increased 4.0% in the first half, with second quarter growth of 7.2 %. Performance was strongest in Germany where RevPAR grew 16.5% whilst mixed trading conditions across the Middle East led to a 4.8% RevPAR decline in that region. RevPAR growth of just 1.2% in the UK was due primarily to previously contracted lower rate business. Revenues increased 3% to \$192m (4% CER). Excluding one liquidated damages receipt of \$3m in 2009, revenues increased 5% to \$192m (5% CER).

Operating profit performance

Excluding the impact of the \$3m liquidated damages receipt in 2009, operating profit grew 5% to \$58m (9% CER). On this same basis franchised hotels' operating profit grew \$1m to \$28 m driven by a 4% increase in room count offset by a \$2m reduction in initial franchising, relicensing and termination fees. Managed hotels' operating profit declined by \$1m to \$32m, with growth in Europe being offset by difficult trading in certain parts of the Middle East. Owned and leased hotels' operating profit grew \$5m to \$15m driven by 15.0% RevPAR growth at InterContinental Park Lane and 13.1% growth at InterContinental Paris Le Grand.

Asia Pacific

Revenue performance

RevPAR increased 13.0% in the first half, with second quarter growth of 16.1%. Greater China was the strongest performing region with RevPAR growth of 29.4%, boosted by the Global Expo in Shanghai where RevPAR grew 48.4%. Revenues increased 29% to \$137m (25% CER).

Operating profit performance

Operating profit increased 106% to \$35m (94% CER). Franchised hotels' operating profit increased \$1m to \$3m. Managed hotels' operating profit grew 76% to \$30m (65% CER) primarily driven by 31.2% RevPAR growth across IHG's managed operations in Greater China and 12% rooms growth across the region. Operating profit at owned and leased hotels increased 27% to \$14m reflecting RevPAR growth of 16.5% at InterContinental Hong Kong.

Interest and tax

The interest charge for the period increased \$3m to \$31m as the impact of lower levels of average net debt was offset by a higher average cost of debt.

Based on the position at the end of the half, the tax charge has been calculated using an estimated annual tax rate of 28% (Estimated annual tax rate at H1 2009: 22%).

Cash flow & net debt

IHG's balance sheet has been strengthened with net debt down to \$1.0bn (including the \$205m finance lease on the InterContinental Boston) from \$1.3bn as at 30 June 2009. Post period end, the InterContinental Buckhead, Atlanta was sold on 1 July 2010 for \$105m, \$23m above net book value. Proceeds have been used to reduce debt.

Following the 2009 actuarial review of the UK Pension Plan, the Company has agreed with the Plan Trustees to make additional contributions up to a total of £100m by 31 March 2017. The agreement includes three additional annual contributions of £10m payable over the period 2010-2012, a 7.5% share of net proceeds from the disposal of hotels and a top-up in 2017 to the £100m total if required. The scheme is formally valued every three years and any future valuations could lead to changes in the amounts payable.

During 2009 IHG extended the maturity and diversification of its debt profile issuing a seven year £250m bond in the fourth quarter using this to refinance \$415m of the \$500m term loan expiring in November 2010. In addition, IHG has a \$1.6bn revolving credit facility expiring May 2013.

Appendix 5: Definition of total gross revenue

Total gross revenue is defined as total room revenue from franchised hotels and total hotel revenue from managed, owned and leased hotels. It is not revenue attributable to IHG, as it is derived mainly from hotels owned by third parties. The metric is highlighted as an indicator of the scale and reach of IHG's brands.

Revenue increased by 6.3% to \$772m and operating profit before exceptional items increased by 22.3% to \$219m during the six months ended 30 June 2010. At constant exchange rates, revenue and operating profit before exceptional items increased 5.6% and 22.9% respectively.

The results for 2009 also included \$3m of liquidated damages received by IHG in respect of the settlement of a franchise contract in the EMEA region. Excluding these receipts, revenue and operating profit before exceptional items increased by 6.8% and 24.4% and at constant exchange rates by 6.1% and 25.0% respectively.

Group RevPAR increased by 3.9% during the six months ended 30 June 2010 and by 7.4% in the second quarter.

Central and regional overheads increased by \$12m to \$108m (\$9m on a constant currency basis). Included in this increase are higher performance based short term incentive costs where no payments were made in 2009.

Profit before tax increased by \$242m from a loss of \$50m to a profit of \$192m. Adjusted earnings per ordinary share increased by 13.3% to 47.0¢.

The IHG global system (the number of hotels which are franchised, managed, owned or leased) increased in the first half of 2010 by 65 hotels (9,982 rooms) with openings of 148 hotels (19,003 rooms) and removals of 83 hotels (9,021 rooms) continuing IHG's strategy to reinvigorate brands through the removal of lower quality, non-brand conforming hotels. The \$1bn relaunch of the Holiday Inn remains on schedule. At 30 June 2010, 2,523 hotels were open under the updated signage and brand standards.

At 30 June 2010, the IHG pipeline which represents hotels and rooms where a contract has been signed and the appropriate fees paid, totalled 1,302 hotels (197,431 rooms), a decline of 136 hotels (12,932 rooms) since the year end. The movement comprised additions to the pipeline totalling 130 hotels (19,126 rooms), offset by openings and pipeline terminations which occur for a number of reasons such as withdrawal of financing and changes in local market conditions.

Revenue and operating profit before exceptional items increased by \$18m to \$393m (4.8%) and \$30m to \$179m (20.1%) respectively during the six months ended 30 June 2010. RevPAR in the first half of the year increased by 2.2% with growth strengthening to 5.8% in the second quarter following a decline of 1.9% in the first quarter. All brands experienced growth in the second quarter, led by occupancy improvements.

During the first half of 2010, franchised revenue and operating profit increased by \$7m to \$221m (3.3%) and \$11m to \$188m (6.2%) respectively, compared to the same period in 2009. These increases were predominantly driven by an increase in royalty revenues as a consequence of RevPAR and system size growth.

Managed revenue increased by \$4m to \$59m (7.3%), driven by RevPAR growth of 4.7%. The prior year operating profit included a charge of \$19m for priority returns on a portfolio of hotels for which a provision for onerous contracts was established on 31 December 2009. Excluding this, managed operating profit increased \$3m (30.0%).

The managed results include \$36m (2009 \$36m) of revenue and \$1m (2009 \$3m) of operating profit from four properties that are structured for legal reasons as operating leases but with the same characteristics as management

contracts.

Owned and leased revenue increased by \$7m to \$113m (6.6%). RevPAR across the owned and leased estate increased by 5.9% driven by occupancy increasing by 4.6 percentage points, with rate decreasing by 0.6%. Operating profit remained flat on 2009 at \$4m. The first half of 2010 included depreciation of \$3m for the InterContinental Buckhead and InterContinental Mark Hopkins. During the same period in 2009 no depreciation was charged as they were classified as held for sale assets. Excluding the impact of this change, owned and leased operating profit increased by \$3m.

Regional Overheads increased by \$3m to \$26m (2009 \$23m).

Total	935	(138)	100,568	(13,160)

The Americas system size increased in the first half of 2010 by 51 hotels (5,260 rooms), with 120 hotels (12,320 rooms) joining the system and 69 hotels (7,060 rooms) leaving the system. The majority of removals (6,153 rooms) were planned and relate to the reinvigoration and global relaunch of the Holiday Inn brand.

The Americas pipeline at 30 June 2010 totalled 935 hotels (100,568 rooms) representing a decline of 13,160 rooms over the pipeline at 31 December 2009. This was primarily due to a decrease in signings in the first half of 2010 at 86 hotels (10,124 rooms), compared to 130 hotels (15,004 rooms) in the first half of 2009.

Revenue increased by \$6m to \$192m (3.2%) and operating profit remained flat at \$58m during the six months ended 30 June 2010. The region received liquidated damages of \$3m in the first half of 2009. Excluding these receipts, revenue increased by 4.9% and operating profit increased by 5.5% and at constant exchange rates by 5.5% and 9.1%

respectively. RevPAR increased by 4.0% in the six months to 30 June 2010, including a 7.2% increase in the second quarter.

Franchised revenue and operating profit decreased by \$3m to \$37m (7.5%) and by \$2m to \$28m (6.7%) respectively. The decrease includes the receipt of \$3m liquidated damages in the first six months of 2009. Excluding this, revenue was flat on 2009 at \$37m and operating profit increased by \$1m (3.7%).

Royalty revenues in EMEA increased by \$3m due to growth in RevPAR of 5.6% and increased system size during the first half of 2010. RevPAR growth was strongest in Germany attributable in part to increased trade fair and corporate event activity, while system size grew most through the Holiday Inn and Holiday Inn Express brands in the Middle East. Declines in non-royalty revenues, such as fees associated with new signings, relicensing and terminations, lowered franchise revenue growth.

Managed revenue increased by \$2m to \$61m (3.4%). Overall managed RevPAR increased by 0.6%. Trading has improved in European markets in the first six months of 2010 with mixed conditions in the Middle East where year on year growth in Egypt, Lebanon and Saudi Arabia was offset by declines in the Gulf region. For the UK, RevPAR increases in London were offset by declines in the Provinces. EMEA managed operating profit decreased marginally by \$1m.

In the owned and leased estate RevPAR increased by 12.7%, resulting in a revenue increase of \$7m to \$94m (8.0%). Operating profit increased by \$5m to \$15m (50%) reflecting strong RevPAR growth of 13.1% at the InterContinental Paris Le Grand and year on year margin improvement.

Regional overheads increased by \$2m to \$17m compared to the first half of 2009. This was impacted by an unfavourable sterling to dollar exchange rate during the period. Excluding this, net overheads increased by \$1m.

Asia Pacific system size increased by 10 hotels (3,832 rooms) in the first half of 2010 to 274 hotels (84,861 rooms), including openings of 12 hotels (3,745 rooms). Openings included 8 hotels (2,869 rooms) in Greater China.

The pipeline in Asia Pacific increased by 7 hotels (1,663 rooms) to 220 hotels (66,837 rooms). This included signings of 22 hotels (5,710 rooms) compared to 13 hotels (3,969 rooms) in the first half of 2009. Signings included 19 hotels (5,217 rooms) in Greater China.

Central

Net central costs increased by \$8m to \$53m during the six months ended 30 June 2010. On a constant currency basis net central costs increased by \$6m, due mainly to higher performance based short term incentive costs where no payments were made in 2009.

System Funds

In the six months ended 30 June 2010, system fund assessments increased by \$47m to \$520m due to the growth in RevPAR and system size.

OTHER FINANCIAL INFORMATION

Exceptional Operating Items

Exceptional operating items, a credit of \$4m in the six months ended 30 June 2010, included an \$8m gain on sale of other financial assets offset by \$3m in relation to the ongoing Holiday Inn relaunch and \$1m of non-cash impairment.

Net Financial Expenses

Net financial expenses increased from \$28m to \$31m for the six months ended 30 June 2010 as a higher average cost of debt as a result of the £250m 6% bonds issued in December 2009 offset lower net debt levels.

Taxation

The tax charge on profit before tax, excluding the impact of exceptional items, has been calculated using an estimated effective annual tax rate of 28%. By also excluding the effect of prior year items, the equivalent effective tax rate would be approximately 34%. This rate is higher than the UK statutory rate of 28% due mainly to certain overseas profits (particularly in the US) being subject to statutory rates higher than the UK statutory rate, unrelieved foreign taxes and disallowable expenses.

Taxation within exceptional items totalled a credit of \$2m. This represented tax refunded relating to a prior year hotel disposal, deferred and current tax relief on exceptional costs and tax arising on the sale of other financial assets.

Net tax paid in the six months ended 30 June 2010 totalled \$38m.

Dividends

The Board has proposed an interim dividend per share of 12.8¢ (8.0p).

Capital Structure and Liquidity Management

The Group has continued its focus on cash management during the six months ended 30 June 2010. In the period, \$181m of cash was generated from operating activities, an increase of \$90m over the same period in 2009. The other key elements of the cash flow included proceeds from the disposal of hotels and investments of \$17m and capital expenditure of \$47m.

Net debt at 30 June 2010 of \$1,019m comprised cash and cash equivalents of \$48m, loans and other borrowings of \$1,027m and the exchange element of the fair value of currency swaps of \$40m that fix the value of the Group's £250m 6% bonds at \$415m.

Asset Disposals

The Holiday Inn Lexington was sold on 25 March 2010. On 1 July 2010 the InterContinental Buckhead, Atlanta was sold for \$105m with IHG retaining a 20 year management contract on the hotel with two 10 year extension periods at IHG's option. The combined first half operating profit of these two hotels was \$3m.

Risks and Uncertainties

The principal risks and uncertainties which could affect the Group for the remainder of the financial year remain those set out on pages 32 to 34 of the IHG Annual Report and Financial Statements 2009.

In summary, the Group is exposed to risks relating to:

- the reputation of its brands and the protection of intellectual property rights;
- identifying, securing and retaining franchise and management agreements;
- political and economic developments;
- managing changes in key personnel and senior management;
- events that adversely impact domestic or international travel;
- reliance upon its proprietary reservations system and exposure to the risk of failures in the system and increased competition in reservations infrastructure;

- technology and systems;
- the hotel industry supply and demand cycle;
- a lack of selected development opportunities;
- corporate responsibility;
- litigation;
- difficulties insuring the business;
- the ability to borrow and satisfy debt covenants;
- compliance with data privacy regulations;
- information security; and
- funding in relation to the defined benefits under its pension plans.

The economic environment remains uncertain. However there are encouraging signs of positive momentum in the industry. Trading strengthened during the first half of the year driven primarily by occupancy as business travellers returned in greater numbers. Rates are now stabilising across the world, with most markets experiencing rate growth towards the end of the first half. Booking windows do, however, remain short and visibility limited.

The financing environment remains tough, however IHG continues to open and sign high quality hotels, although the pace of movement through the pipeline remains slow. The Holiday Inn relaunch programme is on schedule to complete later this year, and the performance of hotels currently operating under the new brand standards is ahead of expectations.

IHG's continued investment in the business through the downturn means we are well placed to grow our market share. Our global scale, powerful brands, revenue delivery systems, resilient cash generative business model and focus on efficiency combined with a more optimistic market outlook give us confidence in the future.

Directors' Responsibility Statement

The Directors confirm that to the best of their knowledge:

- The condensed set of financial statements has been prepared in accordance with IAS 34;
- The interim management report includes a fair review of the important events during the first six months and a description of the principal risks and uncertainties for the remaining six months of the year, as required by DTR 4.2.7R; and
- The interim management report includes a fair review of disclosure of related party transactions and changes therein, as required by DTR 4.2.8R.

InterContinental Hotels Group plc

NOTES TO THE INTERIM FINANCIAL STATEMENTS

1. Basis of preparation

These condensed interim financial statements have been prepared in accordance with the Disclosure and Transparency Rules of the United Kingdom's Financial Services Authority and IAS 34 'Interim Financial Reporting'. Other than the changes listed below, they have been prepared on a consistent basis using the accounting policies set out in the InterContinental Hotels Group PLC (the Group or IHG) Annual Report and Financial Statements for the year ended 31 December 2009.

With effect from 1 January 2010, the Group has implemented IFRS 3 (Revised) 'Business Combinations' and IAS 27 (Revised) 'Consolidated and Separate Financial Statements'. The adoption of these standards has had no material impact on the financial statements and there has been no requirement to restate prior year comparatives.

These condensed interim financial statements are unaudited and do not constitute statutory accounts of the Group within the meaning of Section 435 of the Companies Act 2006. The auditors have carried out a review of the financial information in accordance with the guidance contained in ISRE 2410 (UK and Ireland) 'Review of Interim Financial Information Performed by the Independent Auditor of the Entity' issued by the Auditing Practices Board.

The financial information for the year ended 31 December 2009 has been extracted from the Group's published financial statements for that year which contain an unqualified audit report and which have been filed with the Registrar of Companies, subject to a \$13m reclassification from current trade and other payables to non-current trade and other payables in the Group statement of financial position.

2. Exchange rates

The results of operations have been translated into US dollars at the average rates of exchange for the period. In the case of sterling, the translation rate for the six months ended 30 June is \$1 = £0.66 (2010 3 months, \$1 = £0.67; 2009 6 months, \$1 = £0.67; 2009 3 months, \$1 = £0.65). In the case of the euro, the translation rate for the six months ended 30 June is \$1 = €0.75 (2010 3 months, \$1 = €0.79; 2009 6 months, \$1 = €0.75; 2009 3 months, \$1 = €0.73).

Assets and liabilities have been translated into US dollars at the rates of exchange on the last day of the period. In the case of sterling, the translation rate is \$1 = £0.67 (2009 31 December \$1 = £0.62; 2009 30 June \$1 = £0.60). In the case of the euro, the translation rate is \$1 = €0.81 (2009 31 December \$1 = €0.69; 2009 30 June \$1 = €0.71).

Exceptional items (continued)

These items are treated as exceptional by reason of their size or nature.

- a) Relates to costs incurred in support of the worldwide relaunch of the Holiday Inn brand family that was announced on 24 October 2007.
- b) Related to the payment of enhanced pension transfers to those deferred members of the InterContinental Hotels UK Pension Plan who had accepted an offer to receive the enhancement either as a cash lump sum or as an additional transfer value to an alternative pension plan provider. The exceptional item in 2009 comprises the lump sum payments (\$9m), the IAS 19 settlement loss arising on the pension transfers (\$11m) and the costs of the arrangement (\$1m). The payments and transfers were made in January 2009.
- c) Primarily related to the closure of certain corporate offices together with severance costs arising from a review of the Group's cost base.
- d) Relates to the gain on sale of an investment in the EMEA region.
- e) Comprised \$20m relating to a North American hotel and \$8m relating to a European hotel, arising from a review of estimated recoverable amounts taking into account the prevailing economic climate.
- f) Related to the Americas managed operations, reflecting the impact of the global economic downturn and, in particular, IHG's funding obligations under certain management contracts with one US hotel owner.
- g) Related to the capitalised value of management contracts and arose from revisions to expected fee income. The impairment was recorded at 30 June 2009 and related to Americas managed operations.
- h) Related to the valuation adjustments required at 30 June 2009 on the reclassification to property, plant and equipment of four North American hotels no longer meeting the 'held for sale' criteria of IFRS 5 'Non-current Assets Held for Sale and Discontinued Operations' as sales were not considered to be highly probable within the next 12 months. The adjustments comprised \$14m of depreciation not charged whilst held for sale and \$31m of further write-downs to recoverable amounts, as required by IFRS 5.
- i) Relates to available-for-sale equity investments and arises as a result of a prolonged decline in their fair value below cost.

- j) In 2010, relates to tax refunded relating to the sale of a hotel in a prior year. In 2009, related to tax arising on disposals together with the release of provisions no longer required in respect of hotels disposed of in prior years.

5. Tax

The tax charge on the combined profit from continuing and discontinued operations, excluding the impact of exceptional items (note 4), has been calculated using an estimated effective annual tax rate of 28% (2009 22%) analysed as follows.

3 months ended 30 June	2010 Profit	2010 Tax	2010 Tax rate	2009 Profit	2009 Tax	2009 Tax

By also excluding the effect of prior year items, the equivalent effective tax rate for the six months ended 30 June would be approximately 34% (2009 39%). Prior year items have been treated as relating wholly to continuing operations.

6. Earnings per ordinary share

Basic earnings per ordinary share is calculated by dividing the profit for the period available for IHG equity holders by the weighted average number of ordinary shares, excluding investment in own shares, in issue during the period.

Diluted earnings per ordinary share is calculated by adjusting basic earnings per ordinary share to reflect the notional exercise of the weighted average number of dilutive ordinary share options outstanding during the period.

Adjusted earnings per ordinary share is disclosed in order to show performance undistorted by exceptional items, to give a more meaningful comparison of the Group's performance.

10. Capital commitments and contingencies

At 30 June 2010, the amount contracted for but not provided for in the financial statements for expenditure on property, plant and equipment and intangible assets was \$5m (2009 31 December \$9m, 30 June \$16m).

At 30 June 2010, the Group had contingent liabilities of \$10m (2009 31 December \$16m, 30 June \$36m) mainly relating to litigation claims.

In limited cases, the Group may provide performance guarantees to third-party owners to secure management contracts. The maximum unprovided exposure under such guarantees is \$86m (2009 31 December \$106m, 30 June \$223m).

From time to time, the Group is subject to legal proceedings the ultimate outcome of each being always subject to many uncertainties inherent in litigation. The Group has also given warranties in respect of the disposal of certain of its former subsidiaries. It is the view of the Directors that, other than to the extent that liabilities have been provided for in these financial statements, such legal proceedings and warranties are not expected to result in material financial loss to the Group.

11. Events after the reporting period

On 1 July 2010, the Group sold the InterContinental Buckhead, Atlanta for \$105m in cash. IHG continues to manage the hotel under a long-term management contract.

Following the 2009 actuarial review of the UK Pension Plan, the Company has agreed with the Plan Trustees to make additional contributions up to a total of £100m by 31 March 2017. The agreement includes three guaranteed additional annual contributions of £10m payable over the period 2010-2012, a 7.5% share of net proceeds from the disposal of hotels and a top-up in 2017 to the £100m total if required. The scheme is formally valued every three years and any valuations could lead to changes in the future amounts payable.

INDEPENDENT REVIEW REPORT TO InterContinental Hotels Group pLC

Introduction

We have been engaged by the Company to review the condensed set of financial statements in the interim financial report for the three and six months ended 30 June 2010 which comprises the Group income statement, Group statement of comprehensive income, Group statement of changes in equity, Group statement of financial position, Group statement of cash flows and the related notes 1 to 11. We have read the other information contained in the interim financial report and considered whether it contains any apparent misstatements or material inconsistencies with the information in the condensed set of financial statements.

This report is made solely to the Company in accordance with guidance contained in International Standard on Review Engagements (UK and Ireland) 2410, 'Review of Interim Financial Information Performed by the Independent Auditor of the Entity' issued by the Auditing Practices Board. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the Company, for our work, for this report, or for the conclusions we have formed.

Directors' Responsibilities

The interim financial report is the responsibility of, and has been approved by, the Directors. The Directors are responsible for preparing the interim financial report in accordance with the Disclosure and Transparency Rules of the United Kingdom's Financial Services Authority.

As disclosed in note 1, the annual financial statements of the Group are prepared in accordance with IFRSs as adopted by the European Union. The condensed set of financial statements included in this interim financial report has been prepared in accordance with International Accounting Standard 34, 'Interim Financial Reporting', as adopted by the European Union.

Our Responsibility

Our responsibility is to express to the Company a conclusion on the condensed set of financial statements in the interim financial report based on our review.

Scope of Review

We conducted our review in accordance with International Standard on Review Engagements (UK and Ireland) 2410, 'Review of Interim Financial Information Performed by the Independent Auditor of the Entity' issued by the Auditing Practices Board for use in the United Kingdom. A review of interim financial information consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing (UK and Ireland) and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the condensed set of financial statements in the interim financial report for the three and six months ended 30 June 2010 is not prepared, in all material respects, in accordance with International Accounting Standard 34 as adopted by the European Union and the Disclosure and Transparency Rules of the United Kingdom's Financial Services Authority.
