HSBC FRANCE SETS OUT STRATEGIC PLAN

HSBC France today presented its latest strategic plan to its Works Council and reiterated its aim to develop as part of a global bank.

The strategic plan is in line with the HSBC Group's strategy. Under the plan, HSBC France will accelerate its growth while improving efficiency by:

- focusing on wealth management for personal customers;
- bolstering international connectivity for business customers;
- further developing the Global Banking and Markets platform in Paris as a strategic hub for the HSBC Group; and
- strengthening synergies between customer groups.

Through the implementation of the plan, HSBC France will aim to:

- improve its cost efficiency ratio to around 62-64%, in line with best-in-class French banks and supporting the HSBC Group's target; and
- achieve a return on equity in line with the HSBC Group's target of 12-15%.

Highlights

Retail Banking and Wealth Management

- Improve the investment and advice offering in multi-management, discretionary management, advisory management, annuities solutions and brokerage platform. This will support and promote the long-term investment needs of customers, particularly with the growing focus on retirement planning.
- Develop the expertise of wealth management staff, particularly within HSBC Premier, providing customers with products and services tailored to their individual circumstances.
- Develop the bank's branch network, opening 25 new branches by 2015, as well as addressing the demand for multi-channel services and growing HSBC France's Premier customer base by a third.

Commercial Banking

- Continue to strengthen the international capabilities of the 10 corporate business centres and the 50 commercial centres by increasing the number of relationship managers with an international focus. Payments and cash management and trade services teams will be strengthened, with dedicated teams for each customer segment, to focus on international flows.
- Develop the direct banking model, offering dedicated relationship managers, longer branch opening hours and attractive banking packages for small business clients. HSBC France aims to acquire 8,000 new customers on a yearly basis within the plan timeframe.

Global Banking and Markets

- Consolidate the Global Banking and Markets platform so it remains a strategic platform for Continental Europe and a centre of excellence in euro rates and equity derivatives, by increasing synergies with other countries and

broadening the products offered to large corporate clients.

Private Banking

Accelerate growth in France through the opening of three new regional offices (bringing the network to six private banking regional offices), strengthening sales teams and increasing the synergies between the different customer groups, in particular Commercial Banking.

HSBC France will focus on further improvements in operational efficiency and effectiveness throughout the organisation. No compulsory redundancy programmes are planned.

Christophe de Backer, HSBC France CEO, commented: "This plan demonstrates the high level of ambition HSBC has for the French market. HSBC France's strength in strategic businesses provides the perfect foundation for future growth."

The implementation of the plan is subject to further consultation with employee representative bodies.
