Announcement of LM Ericsson Telephone Company, dated July 21 , 2005, regarding Ericsson 's second quarter report 2005.

**Second quarter report 2005  
July 21, 2005**

**Ericsson reports continued good development**

*Net sales SEK 38.4 (32.6) b. in the quarter, SEK 69.9 (60.7) b. first six months*

*Net income SEK 5.8 (5.0) b. in the quarter, SEK 10.5 (7.6) b. first six months<sup>1)</sup>*

*Earnings per share SEK 0.37 (0.31) in the quarter, SEK 0.66 (0.48) first six months<sup>1)</sup>*

**CEO COMMENTS**

We report yet another quarter of robust performance, says Carl-Henric Svanberg, President and CEO of Ericsson. Our employees' impressive drive for operational excellence and responsiveness to customer needs continues to yield positive results. Technology leadership, long customer relationships and deep consumer understanding are key factors behind our leading position.

The activity level in emerging markets is accelerating, which means more people have access to communication services. In parallel, operators seek new ways of working to meet the global trends of increased tariff competition and convergence of technologies and services. We continue to focus on supporting our customers in reducing the total cost of network ownership and developing new business models. Our competitive technology and services offering is a distinct advantage in this environment.

The services area develops strongly and operators show growing interest in our offering, particularly in outsourcing of network operations, and the synergies we are able to leverage throughout the value chain. Hosting and content services are also in high demand as operators continue to develop their business to meet consumer needs, concludes Carl-Henric Svanberg.

**FINANCIAL HIGHLIGHTS**

*2004 numbers restated in accordance with IFRS, please see [www.ericsson.com/investors/doc/ifrs\\_statement.pdf](http://www.ericsson.com/investors/doc/ifrs_statement.pdf). IAS 39 implemented as of January 1, 2005, related to financial instruments.*

**Income and cash flow**

SEK b.	Second quarter			First quarter		Six-month period		
	2005	2004	Change	2005	Change	2005	2004	Change

Edgar Filing: ERICSSON LM TELEPHONE CO - Form 6-K

Net sales	38.4	32.6	18%	31.5	22%	69.9	60.7	15%
Gross margin	45.9%	47.8%		48.5%		47.1%	46.4%	
Operating income	8.3	7.3	14.5%	6.6	26%	14.9	11.2	33%
Operating margin	21.6%	22.2%		21.0%		21.3%	18.4%	
Income after financial items	8.5	7.3		6.7		15.2	11.1	
Net income <sup>1)</sup>	5.8	5.0		4.6		10.5	7.6	
Earnings per share <sup>1)</sup>	0.37	0.31		0.29		0.66	0.48	
Cash flow before financial investing activities	5.4	4.3		-6.5		-1.1	7.2	
Cash flow before financial investing activities excl. pension trust funding	5.4	4.3		1.8		7.2	7.2	

<sup>1)</sup> *Attributable to stockholders of the parent company, excluding minority interest.*

Sales were up 18% year-over-year and showed a sequential increase of 22%. The ongoing network rollout in the North American market is well under way and invoicing included equipment worth close to two billion Swedish crowns originally planned for the third quarter.

Currency exchange effects negatively affected sales in the quarter by 2%, compared to currency exchange rates one year ago. In constant currencies, sales for the quarter grew by 20%. For the six-month period, currency exchange effects impacted sales negatively by 3%.

Gross margin was 45.9% in the quarter. The software content was somewhat lower in the quarter, and the services proportion grew compared to the previous quarter. The operating margin was 21.6%, a slight increase compared to the previous quarter.

Net effects of currency exchange differences on operating income compared to the rates one year ago were SEK -1.2 b. in the quarter.

Financial net amounted to SEK 0.2 b. for the quarter.

Cash flow before financial investing activities was SEK 5.4 b. in the second quarter. As previously reported, cash flow in the first quarter of 2005 was negatively affected by SEK 8.3 b. by the transfer of cash and cash equivalents into a Swedish pension trust.

#### Balance sheet and other performance indicators

SEK b.	Six months 2005	Three months 2005	Full year 2004
Net cash	42.4	43.1	42.9
Interest-bearing provisions and liabilities	29.8	28.4	33.6
Days sales outstanding	90	97	75
Inventory turnover	4.4	4.0	5.7
Net customer financing	4.4	4.2	3.6
Equity ratio	46.5%	46.5%	43.8%

The financial position is strong. Net cash decreased by SEK 0.7 b. in the quarter to SEK 42.4 (43.1) b., mainly as a consequence of the dividend payment of SEK 4.0 b.

Days sales outstanding were 90 days, an improvement by seven days compared to the first quarter. Inventories, including work in progress, were slightly up in the quarter by SEK 1.3 b. to SEK 19.3 (18.0) b., due to currency exchange effects. Excluding currency exchange effects, inventories, including work in progress, were flat in the quarter.

Net change of deferred tax assets amounted to SEK 0.3 b. in the second quarter. The balance decreased from SEK 20.8 b. at year-end to SEK 18.9 b.

Cash outlays with regards to restructuring amounted to SEK 0.4 b. for the quarter. Approximately SEK 2.3 b. of restructuring charges remains to be paid out during 2005 and beyond.

**MARKET AND BUSINESS HIGHLIGHTS**

There is continued growth in the GSM market where emerging markets show particularly good development in both network coverage and capacity.

Tariff competition is intensifying in Western Europe. This stimulates both traffic growth and the evolution of new business models and services. In parallel, richer services and more complex technology has made total cost of network ownership, including operating expenses, an obvious priority for operators.

As a consequence, operator focus on the services area is increasing. In this environment, our services offering is a key ingredient in assisting operators to lower costs and offer rich content services. An important step in helping our customers meet consumer demands is the recently announced Napster agreement, which will enable operators to offer branded music download services efficiently.

The WCDMA rollout continues, and Cingular Wireless' rapid buildout plan in the US is driving the industry forward. When complete, Cingular's buildout will have contributed to doubling the installed WCDMA base outside of Japan. More attractive handsets with more competitive prices also contribute to the fast WCDMA network expansions.

Our successful HSDPA offering is proving to be a crucial part of operator considerations in timing WCDMA deployments. With HSDPA, operators will be able to offer their customers even richer services including music and film downloads, TV, and enterprise applications. Triple play, which brings together telephony, Internet and broadcast media, continues to be a focus for both mobile and fixed operators.

In parallel, operators are considering fixed/mobile convergence also as a way of reducing operating expenses. A key element in this development is the deployment of all-IP softswitch-based networks. Ericsson announced several strategic wins during the quarter in this area, of which BT's 21st Century all-IP network was the most noteworthy.

### **Regional overview**

Western Europe sales grew 7% year-over-year. Also this quarter, Italy and Spain showed strong development, and the region as a whole continues to benefit from ongoing 3G deployments and GSM capacity enhancements.

Central Europe, Middle East and Africa sales grew 27% year-over-year and was the largest region. The development was solid across the markets with particularly good development in Nigeria and Turkey. There is a continued strong GSM development as well as an increased focus on 3G.

Asia Pacific sales were up by 8% year-over-year. China and India showed particularly strong development. While operators are evaluating different 3G technologies and performing large-scale trials with WCDMA, they continue to invest in GSM capacity enhancements to accommodate the strong subscriber growth.

North American sales are recovering. Growth year-over-year of 31% indicates a market rebound following operator consolidation. The ongoing network rollout in the North American market is well under way and invoicing included equipment worth close to two billion Swedish crowns originally planned for the third quarter.

Latin America shows continued positive development, and sales grew by 28% year-over-year through strong GSM sales. Argentina and Brazil, in particular, contributed to the year-over-year growth.

### **Subscriber growth**

During the quarter, four new WCDMA networks were commercially launched, bringing the total to 65. We are a supplier to 38 of these networks. The number of subscriptions grew from 21 million to more than 28 million during the quarter and WCDMA is now by far the fastest growing 3G technology. The number of CDMA2000 1xEV-DO subscriptions grew by two million and has reached 14 million.

We continue to see a steady increase in both subscribers and usage, which further contributes to the solid long-term industry growth. Net subscriber additions were more than 100 million in the quarter. At the end of the quarter, worldwide subscription penetration is 30%, with more than 1.9 billion total subscriptions, of which almost 1.5 billion are GSM.

## **OUTLOOK**

*All estimates are measured in USD and refer to market growth compared to previous year.*

The traffic growth in the world's mobile networks is expected to continue as a result of both new services and new subscribers. For 2005 we now believe that the global mobile systems market, measured in USD, will show moderate growth compared to 2004.

We previously estimated the global mobile systems market, measured in USD, to show slight growth compared to 2004.

We maintain our view that the addressable market for professional services is expected to continue to show good growth.

With our technology leadership and global presence we are well positioned to take advantage of these market opportunities.

## SEGMENT RESULTS

2004 numbers restated in accordance with IFRS, please see [www.ericsson.com/investors/doc/ifrs\\_statement.pdf](http://www.ericsson.com/investors/doc/ifrs_statement.pdf). IAS 39 implemented as of January 1, 2005, related to financial instruments.

### Systems

SEK b.	Second quarter			First quarter		Six-month period		
	2005	2004	Change	2005	Change	2005	2004	Change
Net sales	36.1	30.4	19%	29.0	25%	65.1	56.5	15%
Mobile Networks	28.8	24.3	19%	23.5	23%	52.2	45.4	15%
Fixed Networks	1.1	1.1	0%	1.0	8%	2.2	2.0	8%
Professional Services	6.2	5.0	25%	4.5	38%	10.7	9.1	18%
Operating income	8.2	5.9		6.2		14.4	9.4	
Operating margin	23%	20%		21%		22%	17%	

Sales in Mobile Networks grew by 19% year-over-year. In constant currencies, sales grew 21% year-over-year and 18% for the six-month period.

In the evolution from GSM to WCDMA most customers are deploying networks that combine GSM and WCDMA. The growth in the GSM/WCDMA track was approximately 22% in the quarter. Of radio access sales, 54% was WCDMA/EDGE related. The strong subscriber growth continues and supports the growth in Mobile Networks sales.

Sales within Professional Services have developed favorably during the quarter and grew approximately 25% year-over-year. In constant currencies the growth was 27% year-over-year. Supporting the strong growth the number of employees in services grew by 1,500 in the quarter.

### Other Operations

Edgar Filing: ERICSSON LM TELEPHONE CO - Form 6-K

SEK b.	Second quarter			First quarter		Six-month period		
	2005	2004	Change	2005	Change	2005	2004	Change
Net sales	2.7	2.8	-5%	2.7	-2%	5.4	5.3	2%
Operating income	-0.1	0.6		0.0		0.0	0.6	
Operating margin	-4%	20%		2%		-1%	11%	

Other Operations show a sequential sales decline of 2%. This includes 17% growth in Ericsson Mobile Platforms. Operating income of SEK -0.1 b. is affected by ongoing restructuring in Ericsson Power Modules and increased R&D investments in Enterprise and public safety.

**SONY ERICSSON MOBILE COMMUNICATIONS**

*For information on transactions with Sony Ericsson Mobile Communications please see Financial statements and additional information.*

Sony Ericsson Mobile Communications (Sony Ericsson) reported units shipped up 14% year-over-year and 26% sequentially. Sales increased by 7% year-over-year. Ericsson's share in Sony Ericsson's income before tax was SEK 0.4 b. for the quarter, compared to SEK 0.5 b. in the same period previous year.

**PARENT COMPANY INFORMATION**

Net sales for the six months period amounted to SEK 0.7 (0.9) b. and income after financial items was SEK 5.3 (4.5) b.

Major changes in the Parent Company's financial position for the six months period include increased short- and long-term receivables from subsidiaries of SEK 6.6 b. and decreased other current receivables of SEK 4.8 b. Current and long-term liabilities to subsidiaries decreased by SEK 7.3 b. and other current liabilities increased by SEK 2.4 b. At the end of the quarter, cash and short-term cash investments amounted to SEK 67.2 (71.7) b.

In accordance with the conditions of the Stock Purchase Plans and Option Plans for Ericsson employees, 5,294,648 shares from treasury stock were sold or distributed to employees during the second quarter. The holding of treasury stock at June 30, 2005 was 292,992,667 Class B shares.

Stockholm, July 21, 2005

Carl-Henric Svanberg

President and CEO

Date for next report: October 21, 2005

#### **AUDITORS REPORT**

We have reviewed the report for the second quarter ended June 30, 2005, for Telefonaktiebolaget LM Ericsson (publ.). We conducted our review in accordance with the recommendation issued by FAR. A review is limited primarily to enquiries of company personnel and analytical procedures applied to financial data and thus provides less assurance than an audit. We have not performed an audit and, accordingly, we do not express an audit opinion.

Based on our review, nothing has come to our attention that causes us to believe that the interim report does not comply with the requirements for interim reports in the Annual Accounts Act and IAS 34.

### **Accounting policies, Ericsson adoption of IAS/IFRS in 2005**

This interim report is in accordance with IAS 34. In June 2002, the EU's Council of Ministers adopted the so-called IAS 2005 regulation. From year 2005, all exchange-listed companies within EU shall prepare and issue Consolidated Financial Statements in accordance with International Financial Reporting Standards (IFRS), formerly known as International Accounting Standards (IAS). The term IFRS used in this document refers to the application of IAS and IFRS as well as interpretations of these standards as issued by Standards Interpretation Committee (SIC) and International Financial Reporting Standards Committee (IFRIC).

As from 2005, Ericsson will issue Consolidated Financial Statements prepared in accordance with IFRS adopted by EU. The Annual Report for 2005 as well as Interim Reports will include one comparison year, 2004, which will be restated in accordance with IFRS. As a result, January 1, 2004, is the date of transition to IFRS for Ericsson. The two standards IAS 32 and 39 are adopted as from January 1, 2005 as allowed by IFRS 1 First-time Adoption of International Financial Reporting Standards. An opening balance per January 1, 2005, including the effects of IAS 32 and 39 have been prepared. IAS 39 has been amended during 2005. According to this amendment, forecasted internal transactions can be designated as cash flow hedges of foreign exchange risk. Ericsson has chosen to partly designate and report hedges of forecasted transactions in accordance with this amendment. The amendment has not yet been adopted by EU, but is expected to be adopted before end of 2005.

The information below on expected effects is preliminary and could change since the IFRS standards may be revised during 2005. We will update the restated information for any such changes if and when they are made.

### **Comparison and information about effects**

The rules for first-time adoption of IFRS are set out in IFRS 1. IFRS 1 requires one comparative year to be presented and an opening IFRS balance sheet at the date of transition to IFRS to be prepared. The transition date for Ericsson is January 1, 2004.

In general, the accounting policies applied in the opening balance shall comply with each IFRS effective at the reporting date. Some exceptions from full retrospective application are granted, however. When preparing the IFRS opening balance, the following optional exceptions from full retrospective application of IFRS accounting policies will be applied:

Business combinations (IFRS 3): no restatement of business combinations prior to 2004 is made. IFRS 3 is applied prospectively from January 1, 2004.

Property, plant and equipment (IAS 16): prior revaluations are treated as deemed cost and no restatement made.

Employee Benefits (IAS 19): adoption of IAS 19 is not considered a transition effect since the Swedish standard RR 29 was implemented from January 1, 2004. RR 29 is, in almost every aspect, similar to IAS 19. Accumulated actuarial gains and losses for defined benefit plans were recognized in full in the pension liability and equity at transition date.

IAS 32 and 39 are applied from January 1, 2005, only and no restate of comparative information is necessary. Financial assets, liabilities and derivatives are accounted for in accordance with IAS 32 and 39 as from January 1, 2005.

Ericsson has until the end of 2004 prepared its consolidated financial statements in accordance with Swedish GAAP, which in recent years have been adapted to IAS/IFRS to a high degree. This, together with the optional exceptions described above, limits the effects of the adoption of IFRS to the following most significant elements:

Retrospective capitalization of development costs and amortization of such costs (IAS 38)

The cessation of goodwill amortizations (IFRS 3 and IAS 38)

The fair value of outstanding employee share options (IFRS 2) and recognition as expense for such share-based employee compensation in the income statement

The inclusion of financial instruments at fair value on the balance sheet (IAS 39) and recycling of gains and losses on cash flow hedges through equity (from January 1, 2005).

Employee benefits are already reported according to IAS 19 since the implementation of RR 29 as of January 1, 2004.

**The forthcoming rules:**

IAS 38 Intangible assets

When adopting the Swedish accounting standard RR 15 Intangible assets in 2002, the standard was implemented prospectively, i.e. no restatement was allowed, whereas IAS 38 Intangible assets shall be implemented retrospectively. The capitalization according to Swedish GAAP during 2002-2004 has been the same as per IFRS. Retrospective application led to an increase in the opening balance of intangible assets as of January 1, 2004, due to capitalized development costs related to periods prior to 2002, and increased amortizations on such assets during 2004 and onwards. The opening balance for 2004 is equal to the closing balance according to US GAAP per December 31, 2003, since capitalization of development costs has been made for US GAAP purposes historically. Due to the restatement to IFRS, intangible assets increased by SEK 6,408 million, deferred tax assets decreased by SEK 1,794 million and equity increased by SEK 4,614 million respectively. As a result amortization for 2004 increased by SEK 2,660 million under IFRS.

IFRS 3 Business combinations including goodwill

Rules applying to reporting of business combinations (IFRS 3) will result in changes in reporting of acquisitions of companies. A more detailed purchase price allocation is to be made, in which fair value is also assigned to acquired intangible assets, such as customer relations, brands and patents. Goodwill arises when the purchase price exceeds the fair value of acquired net assets. Goodwill arising from acquisitions is no longer amortized but instead subject to impairment review; both annually and when there are indicators that the carrying value may not be recoverable.

In Ericsson's reporting during 2005, acquisitions carried out in 2004 are accounted for in accordance with the new rules. There will be no adjustments for acquisitions prior to the transition date, January 1, 2004. The value of goodwill is frozen at January 1, 2004, and amortization reported under Swedish GAAP for 2004 is reversed in the IFRS restatements for 2004.

For Ericsson, the new standard result in an increase in reported operating profit for 2004 of SEK 475 million. No difference in reported net income attributable to stockholders of the parent company arises as a result of acquisitions carried out in 2004.

IFRS 2 Share-based Payments

Ericsson has chosen not to apply IFRS 2 to equity instruments granted before November 7, 2002. For one employee option program, granted after November 7, 2002, and not yet vested by January 1, 2005, Ericsson recognizes a charge to income representing the fair value at grant date of the outstanding employee options. The fair value of the options was calculated using an option-pricing model. The total costs are recognized during the vesting period (3 years). The impact on operating profit is a charge of SEK 45 million in 2004 and estimated to SEK 19 million in 2005.

For other programs there are no material differences.

IAS 32 and 39 Financial Instruments and Hedging

IAS 32 and 39 are standards that deal with disclosure, presentation, recognition and measurement of financial instruments. These standards are applied from January 1, 2005.

From 1 January 2005, Ericsson classifies its investments in the following categories for valuation purposes: financial assets at fair value through profit or loss, loans and receivables, held-to-maturity investments, and available-for-sale financial assets. The classification depends on the purpose for which the investments were acquired.

*(a) Financial assets at fair value through profit or loss*

This category has two sub-categories:

Financial assets held for trading. A financial asset is classified in this category if acquired principally for the purpose of selling in the short term. Derivatives are also categorized as held for trading unless they are designated as hedges. Assets in this category are classified as current.

Assets designated at fair value through profit or loss at inception. Ericsson has currently no investments in this category.

*(b) Loans and receivables*

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market and with no intention of trading. Loans and receivables are accounted for at amortized cost. They are included in current assets, except for maturities greater than 12 months after the balance sheet date. These are classified as non-current assets.

*(c) Held-to-maturity investments*

Held-to-maturity investments are non-derivative financial assets with fixed or determinable payments and fixed maturities that the Group's management has the positive intention and ability to hold to maturity. Held to maturity investments are accounted for at amortized cost. Ericsson did not hold any investments in this category during the period.

*(d) Available-for-sale financial assets*

Available-for-sale financial assets are non-derivatives that are either designated in this category or not classified in any of the other categories. Available for sale financial assets are accounted for at fair value with changes in fair value recorded in equity until disposal of the investment. They are included in non-current assets unless management intends to dispose of the investment within 12 months of the balance sheet date.

Derivatives are recognized at fair value on the balance sheet. Subsequent changes in fair value of derivatives are recognized in the income statement, unless the derivative is a hedging instrument in (i) a cash flow hedge or (ii) a hedge of a net investment in a foreign operation. In those cases, the effective portion of fair value changes of the derivative will be recognized in equity until the hedged transaction affects the income statement, at which moment the accumulated deferred amount in equity is recycled to the income statement. Fair value for derivative financial instruments are based upon externally quoted prices when available and estimated using fair value techniques using market rates for discounting of future cash flows.

For derivatives assigned as (iii) fair value hedges, fair value changes on both the derivative and the hedged item, attributable to the hedged risk, will be recognized in the income statement and offset each other to the extent the hedge is effective.

The opening balance January 1, 2005, was affected by SEK 3,556 million in assets, SEK 1,952 million in liabilities and SEK 1,155 million in equity net of deferred tax as a result of accounting for derivatives at fair value.

Other investments are under Swedish GAAP reported at the lower of acquisition cost or fair value. Those investments will be reported at fair value under IAS 39, and since they will be classified as Available-for-sale under IAS 39, changes in the fair value will be recognized directly in equity, unless impairment is determined. For investments in quoted companies, fair values are determined based on share prices at the balance sheet date and for non-quoted investments, fair values are estimated.

The effect in the opening balance January 1, 2005, is an increase of SEK 411 million in assets and an increase of SEK 334 million in the equity, net of deferred tax.

#### IAS 19 Employee Benefits

Ericsson reports pensions and similar benefits according to IFRS (IAS 19), which is similar to RR 29 that was implemented from January 1, 2004. The effect of adoption of IAS 19 is therefore not considered a transition effect. The reporting of pensions for Ericsson will continue to be in accordance with URA 43 awaiting further guidance.

The restatement for RR 29 resulted in an increased pension liability, reduced equity and increased deferred tax assets in the opening balance of 2004 under Swedish GAAP. The effect of implementing RR 29 was communicated in the first quarter interim report 2004. After taking into account the tax effects, the impact on stockholders' equity was a charge of SEK 1,275 million. Actuarial gains and losses were recognized in the opening balance. No other impact will occur according to IAS 19.

#### Impact of IFRS on the Statement of Cash Flows

According to IAS 7 Cash Flow, Ericsson will define cash and cash equivalents to include only short-term highly liquid investments with remaining maturity at acquisition date of three months or less. Under Swedish praxis, a broader interpretation was earlier made, where also readily marketable securities designated for liquidity management purposes only and with a low risk for value changes and with a maturity exceeding three months were included. The restated statements of cash flow for 2004 and the opening balance for the Ericsson group according to IAS 7 will therefore reflect cash and cash equivalents that are different to those previously reported under Swedish GAAP.

Reclassification of provisions

In accordance with IAS 1 Presentation of Financial Statements, provisions need to be presented as both current and non-current. A liability shall be classified as current when it satisfies any of the following criteria: a) it is expected to be settled in the entity's normal operating cycle; (b) it is held primarily for the purpose of being traded; (c) it is due to be settled within twelve months after the balance sheet date; or (d) the entity does not have an unconditional right to defer settlement of the liability for at least twelve months after the balance sheet date. All other liabilities shall be classified as non-current. Accordingly, Ericsson has reclassified provisions in the balance sheet to current and non-current liabilities under IFRS. The operating cycle for Ericsson is approximately 24 months.

Parent Company information

The Parent Company has adopted RR 32 Reporting in separate financial statements as from January 1, 2005. RR 32 requires the Parent Company to use similar accounting principles as for the Group, i.e. IFRS to the extent allowed by RR 32. The adoption of RR 32 has not had any effect on the reported profit or loss for 2004 or for the six month period ended June 30, 2005. As allowed by the transition rules in RR 32, the Parent Company has decided to adopt IAS 39 Financial instruments Recognition and Measurement, to the extent allowed by the Annual Accounts Act as from January 1, 2006. The most significant impact of this is expected to be the recognition of derivatives financial instruments at fair value on the balance sheet.
