We have audited the accompanying statement of net assets available for benefits of the Heritage Financial Corporation 401 (k) Employee Stock Ownership Plan and Trust (the Plan) as of December 31, 2005 and the related statement of changes in net assets available for benefits for the year then ended. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2005, and the changes in net assets available for benefits for the year then ended in conformity with U.S. generally accepted accounting principles.

Our audit was performed for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental schedules H, line 4i schedule of assets (held at end of year) and line 4j schedule of reportable transactions, are presented for the purpose of additional analysis and are not a required part of the basic financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The supplemental schedules are the responsibility of the Plan's management. The supplemental schedules have been subjected to the auditing procedures applied in our audit of the basic financial statements and in our opinion, are fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Notes to Financial Statements

December 31, 2005 and 2004

- 1. Description of Plan** The following description of the Heritage Financial Corporation 401(k) Employee Stock Ownership Plan and Trust (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

Heritage Financial Corporation (the Company) is a bank holding company with headquarters in Olympia, Washington.

The Plan is a qualified defined contribution plan established by the Company under the provisions of Section 401(a) and Section 4975(e)(7) of the Internal Revenue Code (IRC) with salary reduction and employer stock ownership features for the benefit of eligible employees of the Company. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended. The Plan is administered by the KSOP Committee, which consists of certain officers and employees of the Company. U.S. Bank serves as the trustee.

Eligibility

Employees of the Company are generally eligible to participate in the Plan after three months of service, providing they worked at least 250 hours during a three-month period and have reached the age of twenty-one.

Contributions

Participants may elect to contribute up to the lesser of 75% of their eligible compensation or \$14,000 (in 2005), subject to certain eliminations under the IRC. Additionally, participants over age 50 may make catch-up contributions up to \$4,000 (in 2005). Participants may also contribute amounts representing distributions from other qualified plans.

**1. Description of Plan
(Continued)**

The Company makes contributions to participant accounts as follows:

1) a matching contribution equal to 50% of the participant's contribution up to 6% of the participant's eligible compensation.

2) required contribution of 2% of the participant's eligible compensation.

3) discretionary contributions beyond the required 2% contribution.

4) Employee Stock Ownership Plan (ESOP) allocation calculated based on the current year ESOP loan principal and interest payment. See note 3.

During 2005, the Company's discretionary contribution totaled 3% of eligible compensation. Company contributions are made in the form of Heritage Financial Corporation common stock. Participants who do not have at least 1,000 hours of service during the Plan year are not eligible for the matching contributions. Participants who do not have at least 1,000 hours of service during the Plan year and are not employed on the last working day of a Plan year, are not eligible for an allocation of non-matching Company contributions for that year except in the event of the participant's death, disability or retirement. Employer contributions to the Plan are invested primarily in shares of Company stock. In 2005 the Company met the minimum funding requirements as defined by ERISA.

Participants' Accounts

Each participant's account is credited with the participant's contribution and allocations of the Company's contributions and Plan earnings net of expenses. Allocations are made on a quarterly basis and based on participant earnings or account balances as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account.

Vesting

Vesting in the Company's contributions plus earnings thereon is based on years of continuous service. A participant's matching contribution is 100% vested after six years of credited service or upon death, disability or retirement with 20% vesting at two years of service increasing by an additional 20% with each additional year of service. All other employer contributions are 100% vested after seven years of credited service or upon death, disability or retirement with 20% vesting at three years of service increasing by an additional 20% with each additional year of service. The vesting schedule applicable to the prior plans merged into the Plan will continue to apply to existing accounts and on an ongoing basis to accounts after October 1, 1999. However, no credit for service prior to

Investment Options

The Plan's ESOP component is designed to invest primarily in Company common stock in order to comply with Section 4975(e)(7) of the IRC and Income Tax Regulation 54.4975-11. The Plan's assets are maintained in funds and Company stock held in a trust account at U.S. Bank. Upon enrollment in the Plan, a participant may direct his or her employee contributions in 1% increments among five registered investment company funds, a money market fund, and Company stock.

Participants may make changes to their deferral amounts and investment options for new deferrals and may reallocate their account at the beginning of each quarter. Contributions may be temporarily held as cash balances prior to the execution of the investment according to the participant's direction.

Because investments in Company stock are not diversified, this investment may present higher than average volatility. Therefore, the Plan states that a participant is limited to investing no more than 20% of his or her 401(k) deferrals into Company stock.

Payment of Benefits

No distributions from the Plan will be made until a participant retires, dies (in which case, payment shall be made to his or her beneficiary or, if none, to his or her legal representatives), becomes disabled or otherwise terminates employment with the Company. Distributions are made in cash, Company stock, or both.

Benefit distributions are based on the participant's vested account balance and may be distributed in a lump sum, installments over a period of not more than the participant's life expectancy, or through the purchase of an annuity if the participant's vested account balance is greater than \$5,000.

1. Description of Plan

(Continued)

Under certain conditions, participants, while still employed by the Company, are permitted to withdraw in a single sum, the employee contribution portion of their account balance. These conditions include unreimbursed medical expenses, the purchase of the participant's principal residence, the payment of postsecondary education tuition or to prevent eviction or foreclosure from the participant's principal residence. A participant's right to make deferrals to the Plan will be suspended for 6 months after the receipt of a hardship withdrawal.

The Plan has the right to automatically distribute participant accounts upon termination of service for participants with balances not exceeding \$1,000 as a lump sum distribution.

Diversification

Participants who are at least age 55 with 10 years of participation in the Plan may elect to diversify a portion of their account invested in Company stock. The qualified election period is the six-year period commencing with the Plan year in which the participant becomes a qualified participant. In each of the first five years, a participant may diversify up to 25 percent of the number of post-1986 shares allocated to his or her account, less any shares previously diversified. In the sixth year, the diversification percentage changes to 50 percent.

Voting and Dividend Rights

No participant shall have any voting or dividend rights or other rights of a stockholder prior to the time that shares are allocated to the participant.

Each participant is entitled to exercise voting rights attributable to the shares of Company stock allocated to his or her account and is notified by the trustee prior to the time that such rights are to be exercised.

Forfeitures

Forfeitures may be used to reduce employer contributions. At December 31, 2005 and 2004, forfeited non-vested accounts totaled \$40,362 and \$51,811. Forfeitures used to reduce employer contributions during 2005 totaled \$55,085.

1. Description of Plan Participant Loans

(Continued)

Participants may borrow, upon written application, any amount provided that the aggregate amount of all outstanding loans to the participant from the Plan and from any other qualified plan maintained by the employer, including accrued interest thereon, shall not exceed the lesser of \$50,000 or 50% of the participant's vested account balance. Loan terms shall not exceed five years, except for the purchase of a primary residence. The loans are collateralized by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates. Principal and interest is paid ratably not less than quarterly through payroll deductions. The interest rate on outstanding loans as of December 31, 2005 ranged from 4.25% to 7.0% and the loans mature through March 2014.

Administrative Expenses

Administrative expenses including trust, recordkeeping, audit, legal and investment fees are paid by the Plan. Some other expenses may be paid by the Company.

**2. Summary of
Significant
Accounting Policies**

Basis of Accounting

The accompanying financial statements have been prepared under the accrual method of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, and the disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

**2. Summary of
Significant
Accounting Policies
(Continued)**

Risks and Uncertainties

The Plan allows participants to direct contributions into a money market fund, various registered investment company funds, and Company stock. Company contributions are used to purchase Company stock. The underlying investment securities of these funds and Company stock are exposed to various risks, such as interest rate, market and credit risk. Due to the level of risk associated with certain underlying investment securities and the level of uncertainty related to changes in the value of the funds and the Company stock, it is reasonably possible that changes in the value of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits and the statement of changes in net assets available for benefits.

Participants should refer to Heritage Financial Corporation's annual and quarterly financial statements filed with the Securities and Exchange Commission (Form 10K and 10Q) regarding risks associated with Company stock.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Shares of registered investment company funds and the Company stock are valued at quoted market prices. Fair value of the Company stock is based on the closing price of stock on the NASDAQ National Market System on the last trading day of the Plan year. Participant loans and money market funds are valued at cost.

Purchases and sales of securities are recorded on a trade-date basis. Dividend income is accrued on the ex-dividend date. Interest income is recorded on the accrual basis. Realized gains and losses from security transactions are reported on the moving average method. Net appreciation in fair value of investments represents the change in fair value from one period to the next and realized gains and losses.

Payment of Benefits

Benefits are recorded when paid. At December 31, 2005 and 2004, assets allocated to withdrawing participants totaled \$10,453 and \$271,807, respectively.

Table of Contents**Heritage Financial Corporation****401(k) Employee Stock Ownership Plan and Trust****Notes to Financial Statements****December 31, 2005 and 2004****Excess Deferrals**

Excess deferrals over maximum IRS limits totaled \$9,052 for the year ended December 31, 2005. The excess deferrals were returned to participants in the first quarter of 2006.

3. Leveraged ESOP Feature

The Plan purchased shares of the Company's stock using the proceeds of a borrowing from the Company and holds the stock in a trust established under the Plan. The borrowing is to be repaid over a period of 15 years by deductible Company contributions to the trust fund.

Under the ESOP feature of the Plan, the Company is obligated to make contributions in cash to the Plan which, when aggregated with the Plan's dividends and interest earnings, equal the amount necessary to enable the Plan to make its regularly scheduled payments of principal and interest due on its term indebtedness to the Company. As the Plan makes each payment of principal and interest, an appropriate percentage of stock is allocated to eligible employees' accounts in accordance with applicable regulations under the IRC.

The loan is collateralized by all unallocated shares of Company stock. The lender has no rights against shares once they are allocated under the Plan. Accordingly, the table below presents separately the assets and liabilities and changes therein pertaining to:

(a) accounts of employees with rights in allocated stock and

(b) stock not yet allocated to employees.

The Plan's ESOP assets at year-end are summarized as follows:

<i>December 31,</i>	2005		2004

- 5. Plan Termination** The Company reserves the right to terminate the Plan at any time, subject to Plan provisions. Upon termination of the Plan, participant accounts become fully vested and will be distributed to the participant or his or her beneficiary at the time prescribed by the Plan terms and the IRC. Upon termination of the Plan, the trustee will direct the Plan administrator to pay all liabilities and expenses of the trust fund and to sell shares of unallocated stock to the extent it determines such sale necessary to repay the loan. Remaining unallocated shares will be allocated to participants.
- 6. Tax Status** The Plan obtained its latest determination letter on October 25, 2002, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the IRC. Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.
- 7. Related Party and Party in Interest Transactions** The Plan's assets, which consist primarily of shares of Company stock, registered investment company funds, and U.S. Bank money market fund, are held by U.S. Bank, the trustee of the Plan. The Company's contributions are held and managed by the trustee, which invests cash received, interest and dividend income, and makes distributions to participants. The record keeper administers the payment of interest and principal on the loan, which is reimbursed to the trustee through contributions determined by the Company.
- Certain administrative functions are performed by officers or employees of the Company. No officer or employee receives compensation from the Plan.
- For the year ended December 31, 2005, the Plan paid U.S. Bank \$45,672 for services as trustee and asset custodian of the Plan. For the year ended December 31, 2005, the Plan paid \$53,436 to other service providers that are defined as a Party in Interest under ERISA.
