SPECIAL REVIEW REPORT OF INDEPENDENT AUDITORS

(A free translation of the original issued in Portuguese)

To the Board of Directors and Shareholders

Telecomunicações de São Paulo S.A. - TELESP

São Paulo - SP

1. We have conducted a special review of the Quarterly Information (ITR) (Parent Company and Consolidated) of Telecomunicações de São Paulo S.A. - TELESP and its subsidiaries for the quarter and nine-months period ended September 30, 2006, which comprised the balance sheet, the statements of income, the performance report and other relevant information, prepared under responsibility of the Company and subsidiaries' management and in accordance with the accounting practices adopted in Brazil.
2. Our review was conducted in accordance with specific standards established by the Brazilian Institute of Independent Public Accountants - IBRACON, in conjunction with the Federal Accounting Council, mainly comprising: (a) inquiries of and discussions with the officials responsible for the Company and subsidiaries' accounting, financial and operational areas, as to the main criteria adopted in preparing the quarterly information; and (b) review of information and subsequent events that had or might have had relevant effects on the Company and its subsidiaries' financial position and operations.
3. Based on our special review, we are not aware of any material modifications that should be made to the above mentioned Quarterly Information (Parent Company and Consolidated), for it to be in conformity with the accounting practices adopted in Brazil, applied consistently with the standards established by the Brazilian Securities Commission (Comissão de Valores Mobiliários - CVM), specifically applicable to the preparation of Quarterly Information.

1. Operations and Background

a) Shareholding control

Telecomunicações de São Paulo S.A. - Telesp, hereinafter referred to as the Company or Telesp, is headquartered at Rua Martiniano de Carvalho, 851, in the capital of the State of São Paulo. Telesp belongs to the Telefónica Group, telecommunications industry leader in Spain and present in several European and Latin American countries. At September 30, 2006, Telefónica S.A., the Group head company, held total indirect shareholding in the Company capital of 87.95%, 85.57% of which are common shares and 89.13% are preferred shares.

b) Operations

The Company renders fixed line telephone services in the São Paulo State under a Fixed Switch Telephone Service Concession Agreement STFC granted by the National Telecommunications Agency Anatel, which is in charge of regulating the telecommunications sector in Brazil. The Company's area of operation reaches approximately 95.0% of the São Paulo State, and approximately 97.8% of its population, including the municipality of São Paulo, the biggest in Brazil.

The Company is registered with the Brazilian Securities Commission (CVM) as a publicly held company and its shares are traded on the São Paulo Stock Exchange (BOVESPA). The Company is also registered with the US Securities and Exchange Commission (SEC) and its American Depository Shares (ADSs - level II) are traded on the New York Stock Exchange (NYSE).

c) Concession agreement

The Company is a concessionaire of the fixed switch telephone service (STFC) in Region 3, which comprises the State of São Paulo, in Sectors 31, 32 and 34 established in the General Concession Plan (PGO).

1. Operations and Background (Continued)

c) **Concession agreement** (Continued)

The STFC Concession Agreement was extended at December 22, 2005, for a period of 20 years, and may be amended at December 31, 2010, December 31, 2015 and December 31, 2020. This condition allows ANATEL to establish new conditions and new universalization and quality goals, under the conditions prevailing at the time.

Pursuant to the Concession Agreement, all assets pertaining to the Company's equity and indispensable to the provision of the services described in said agreement are considered returnable and are part of the concession assets. These assets will be automatically returned to ANATEL upon expiration of the Concession Agreement. As of September 30, 2006, the net book value of such returnable assets is estimated at R\$8,171,159 (R\$8,453,497 as of June 30, 2006), comprised of switching and transmission equipment, public use terminals, external network equipment, energy equipment, and system and operation support equipment.

Every two years, over the twenty years of the new period, the public companies shall pay a renewal fee equivalent to 2% (two per cent) of the STFC income for the year prior to payment, net of taxes payable thereon.

Beginning 2006, the Company has been recording a provision for the concession renewal fee on an accrual basis (Note 22). Exceptionally, the first payment of this biannual fee will be in April 2007 based on the 2006 net income. Since this fee refers to two years, the Company will recognize 1% of the annual net income as cost of services in the net income for each year.

1. Operations and Background (Continued)

d) Telecommunication service providers and subsidiaries

A. Telecom S.A.

New corporate name of Assist Telefônica S.A., still a wholly-owned subsidiary and closely-held company, including in its business purpose the rendering of services related to: electronic monitoring, including sale, rent, installation, operation and maintenance; billing and collection of voice and data communication services; automated voice services, providing access to information and services through fixed telephones, mobiles or public telephones, using voice and text recognition and authentication; administration and exploration of service stores and other similar or related services, including administration of franchises; production of property items in connection with equipment, devices and telecommunications and IT networks in general, in addition to installation services already rendered; operation and maintenance of telephony, data and IT internal networks; value-added services, including services related to internet content, connection and access, technology services and all necessary support referring to worldwide computer network; installation, operation and maintenance of internet, intranet and extranet solutions; sale, rent and maintenance of telecommunications and IT equipment and devices in general.

On March 1, 2006 the then subsidiary Santo Genovese Participações Ltda., after having merged into its subsidiary Atrium Telecomunicações Ltda., was acquired by A.Telecom S.A., ceasing to exist as a result of such operation. A. Telecom remained a wholly-owned subsidiary of Telesp, and also began carrying out the activities formerly performed by Atrium.

The Company believes that the acquisition of Santo Genovese by A.Telecom meets the interests of the shareholders, members and customers, and will allow the maximization of synergies through the unification of activities within a single company. It will also help rationalize the management, simplify the corporate and administrative structure and, at the same time, offer its customers more integrated services with strengthened commercial structure.

1. Operations and Background (Continued)

d) Telecommunication service providers and subsidiaries (Continued)

Aliança Atlântica Holding B.V.

This company headquartered in Amsterdam, Netherlands, is a 50-50 joint venture formed in 1997 between Telebrás and Portugal Telecom. With the spin-off of Telebrás in February 1998, Telebrás' equity interest in Aliança Atlântica was transferred to the Company. Currently, 50% of Aliança Atlântica is owned by the Company and 50% by Telefónica S.A.

Companhia AIX de Participações

This company is engaged in both direct and indirect development of activities related to the construction, conclusion and operation of underground fiber optic networks. Currently, Telesp holds 50% interest in this company.

Companhia ACT de Participações

The business purpose is to participate in Refibra Consortium, render technical advisory services for preparation of projects for the conclusion of the Refibra Network, making the necessary studies to render them economically feasible, as well as monitoring of status of activities related to the Consortium. Currently, Telesp holds 50% interest in this company.

Telefônica Empresas S.A.

The business purpose is to render telecommunications services as well as the development, implementation and installation of projects related to integrated business solutions and telecommunications consulting as well as activities related to rendering of technical assistance and equipment and telecommunications network maintenance services. Telefônica Empresas became a wholly-owned subsidiary of the Company after the corporate reorganization which was carried out (see Note 2).

2. Corporate Restructuring

On March 9, 2006, the Board of Directors of Telesp and of Telefônica Data Brasil Holding Ltda. (TDBH), both under control of the Telefônica Group, approved the proposal that aims at a restructuring of the Multimedia Communication Services (MCS) of Telefônica Empresas S.A. and Telesp. The operation will have the following steps:

- (i) acquisition of TDBH by Telesp, whereby TDBH members will receive Telesp shares in accordance with the exchange ratio announced. With this operation, Telefônica Empresas S.A. will become a fully-owned subsidiary of Telesp. Telesp will succeed TDBH in all its rights and obligations; and,
- (ii) split-off of Telefônica Empresas, with transfer of the SCM activities and assets to Telesp in the regions in which such services is already provided by Telesp.

The Extraordinary General Meetings of the Companies held on April 28, 2006 approved the proposed corporate reorganization. However, due to a preliminary injunction granted in connection with a judicial proceeding filed against TDBH with the 14th Civil Court of the São Paulo State by minority shareholders, the General Shareholders Meeting of TDBH was authorized by the Judiciary Branch, however the effects thereof were temporarily suspended until the referred to ruling was reconsidered by the Reporting Judge of Appeal No. 448.590-4/3 with the 10th Appellate Court of the São Paulo state.

The referred to injunction was revoked on July 25, 2006, as such, the effects of the corporate reorganization were generated as from publication of the judicial proceeding on July 28, 2006.

7. Deferred and Recoverable Taxes (Continued)**Deferred income and social contribution taxes**

Considering the existence of taxable income in the last five fiscal years and the expected generation of future taxable income discounted to present value based on a technical feasibility study, approved by the Board of Directors on November 21, 2005, as provided for in CVM Instruction No. 371/2002, the Company estimates the realization of the deferred taxes as of September 30, 2006 as follows:

Year	Parent	
	Company	Consolidated
2006	187,482	141,523
2007	263,634	315,415
2008	155,797	159,811
2009	112,675	112,699
After 2010	205,162	236,683
Total	924,750	966,131

The recoverable amounts above are based on projections subject to changes in the future.

Merged tax credit

As mentioned in Note 2, as a result of the corporate restructuring of July 28, 2006, the Company merged goodwill generated from the acquisition of investment at Figueira Administração e Participações S.A., which held telecommunications network operating assets of Banco Itaú S.A., in addition to investments in Galáxia Administrações e Participações S.A., a company having authorization for SCM (Multimedia Communication Service).

7. Deferred and Recoverable Taxes (Continued)**Merged tax credit** (Continued)

The book entries maintained for Company's corporate and tax purposes were made in specific goodwill and provision accounts (merged) and the corresponding amortization, reversal of provision and tax credit realization are as follows:

	Parent Company Sept/2006
Goodwill, net of accumulated amortization	398,209
Provision, net of reversals	(262,818)
Net amount	135,391

	Parent Company Sept/2006
Goodwill amortization during the period	(13,681)
Reversal of provision during the period	9,029
Tax credit during the period	4,652

Effect on result for the year

For purposes of calculation of the tax credit resulting from the takeover, the income and social contribution tax rates are 25% and 9% respectively.

As shown above, goodwill amortization, net of provision reversal and the related tax credit, did not generate any effects on net income for the period ended September 30, 2006.

7. Deferred and Recoverable Taxes (Continued)**Merged tax credit (Continued)**

For a fair presentation of the Company's financial position and results of its operations, the net amount of R\$135,391 (R\$107,379 in noncurrent assets and R\$28,012 in current assets), which essentially represents the merged tax credit, was reclassified in the balance sheet to deferred and recoverable taxes, in noncurrent assets, in accordance with CVM Instruction No. 349, of March 6, 2001. Goodwill amortization and provision reversal are recognized in the accounting records as operating income and expenses and the corresponding tax credit is recognized in the financial statements as provision for income and social contribution taxes.

12. Investments (Continued)Acquisition of Santo Genovese Participações Ltda. by A.Telecom S.A.

On March 1, 2006 the Company approved the proposed acquisition of Santo Genovese by A.Telecom, kicking off the corporate reorganization process of its subsidiaries A.Telecom S.A. (former Assist Telefônica S.A), Santo Genovese Participações Ltda. and Atrium Telecomunicações Ltda., which entailed substitution of units of interest of Santo Genovese, held by Telesp, for shares issued by A.Telecom and fully attributed to the Company in lieu of the investment held in Santo Genovese.

The merger of the net equity of Santo Genovese resulted in a capital increase in A. Telecom, of R\$16,969.

The main financial information of the subsidiaries, as of September 30, 2006 and June 30, 2006, is as follows:

On September 3, 2004, the Company announced a Securities Distribution Program (Program) and, under the Program, the first issue of Telesp debentures (Offering).

The Offering consisted of the issue of 150,000 simple nonconvertible unsecured debentures, with a face value of R\$10, in the total amount of R\$1,500,000, of a single series, maturing on September 1, 2010 (six years). The debentures bear interest with quarterly payments, equivalent to 103.5% of the DI (interbank deposit) average daily rate calculated and published by the CETIP (Clearing House for the Custody and Financial Settlement of Securities).

The adjustment to the interest rate of debentures is estimated for September 1, 2007.

21. Provisions for Contingencies

The Company, as an entity and also as the successor to the merged companies, and its subsidiaries are involved in labor, tax and civil lawsuits filed with different courts. The Company's management, based on the opinion of its legal counsel, recognized reserves for those cases in which an unfavorable outcome is considered probable. The table below shows the composition of the provision by nature of the claims and the evolution in the third quarter of 2006:

(*) The Company filed a lawsuit challenging the extension of the COFINS (Social Contribution Tax on Gross Revenue for Social Security Financing until February 2004) and PIS (Social Contribution Tax on Gross Revenue for Social Integration Program until November 2002) tax bases, with the inclusion of financial revenues, securitization and changes in foreign exchange rate. Despite the preliminary injunction suspending the change in the calculation criteria, the recent Federal Supreme Court precedent on the unconstitutionality of the tax base broadening, and the risk being classified as possible by the legal counsel, the Company maintained the provision of R\$274,277 in the event the judicial understanding is unfavorable.

However, a judicially determined favorable decision was handed down on October 20, 2006. Consequently, the Company carried out the reversal of the amounts accrued, R\$257,623 of which concerned reversal of provision for contingencies and R\$16,654 referring to monetary restatement for 2006. Such effects are included in the balance sheet and statement of income as of September 30, 2006.

(**) On August 14, 2006, the São Paulo Court of Justice judged the motions to clarify presented by the Company requesting the change in the date in which interest is accrued on the amount challenged by WCR do Brasil Serviços Ltda., handing down a favorable decision to the Company.

21.1. Labor contingencies

The Company has various labor contingencies and recorded a provision of R\$400,315, consolidated, to cover probable losses. The amounts involved and respective degrees of risk are as follows:

Risk	Amount Involved		
	Telesp	A. Telecom	Total
Probable	400,072	243	400,315
Possible	119,852		119,852
Remote	2,098,655	6,685	2,105,340
Total	2,618,579	6,928	2,625,507

These contingencies involve a number of lawsuits, mainly related to salary differences, salary equalization, overtime, employment relationship with employees of outsourced companies and hazardous duty premium, among others.

None of these contingencies recorded is higher than 1% of the total amount recorded.

21.2. Tax contingencies

Risk	Amount involved		
	Telesp	A. Telecom	Total
Probable	364,120		364,120
Possible	2,416,143	9,881	2,426,024
Remote	2,443,235	11,168	2,454,403
Total	5,223,498	21,049	5,244,547

Based on the assessment of the Company's legal counsel and management, a reserve for tax contingencies was recorded for the claims considered as probable risk amounting to R\$364,120 as of September 30, 2006. The principal tax contingencies, assessed as remote, possible and probable risk, are as follows:

21.2. Tax contingencies (Continued)

Claims by the National Institute of Social Security (INSS) referring to:

- a) Legal proceedings for the collection of Workers Compensation Insurance (SAT) and joint liability of the Company for payment of social security contributions allegedly not made by contractors, considered a possible risk, in the amount of R\$282,933. Based on a partially unfavorable court decision, management decided to provide for R\$101,375 relating to the portion of the total amount for which the likelihood of loss is probable.
- b) Discussion regarding social security contribution on certain amounts paid for compensation of salary losses resulting from economic plans (Plano Verão and Plano Bresser), in the approximate amount of R\$135,654 for which an unfavorable outcome is considered possible. Based on higher court decisions and an unfavorable court decision in a similar case involving another company of the group, the Company's management decided to provide for R\$93,504 to cover potential losses, despite the legal counsel's classification of possible risk.
- c) Notification demanding social security contributions, SAT and amounts for third parties (National Institute for Agrarian Reform and Settlement (INCRA) and Brazilian Mini and Small Business Support Agency (SEBRAE)) on the payment of various salary amounts for the period from January 1999 to December 2000, in the amount of approximately R\$57,099, considered a possible risk. These lawsuits are awaiting trial court decision and at the last administrative stage, respectively. No provision was recorded based on the risk classification of this matter.
- d) Notification demanding social security contributions for joint liability in 1993, in the amount of approximately R\$185,348, for which the risk is considered possible. This proceeding is at the second administrative stage. No provision was made based on the risk classification of this matter.
- e) Legal proceedings imposing fines of R\$161,982 for payment of dividends when the Company had allegedly a debt to the INSS. No provision was made for the balance, for which the likelihood of loss is assessed as possible. This proceeding is at the second administrative stage. No provision was made based on the risk classification of this matter.

Claims by the National Institute of Social Security (INSS) referring to: (Continued)

- f) On December 20, 2005 notices were served concerning the period from May 1995 to December 1998 requiring the payment of social security contributions by means of arbitration of the tax base and considering the existence of joint liability between the Company and the service providers in general and those related to civil construction. The amount of R\$233,946, which refers to the use of inadequate criteria for calculation of the arbitrated tax base, and of R\$176,524, corresponding to the wrong definition of civil construction for arbitration, as will be shown by means of technical reports requested to Engineering Institutes, were assessed as remote risk of loss by the legal counsel. The amount of R\$782,277 is classified as possible risk of loss in view of the legal arguments that support the procedure adopted by the Company and does not consider the joint liability. The process is at the first lower court. No provision was made based on the risk classification of this matter.

- g) On December 20, 2005, notices were served concerning the period from January 1995 to December 1998, requiring the payment of social security contributions on amounts paid for Labor Claims of CETERP and CTBC, using the provision recorded in the Company's balance sheet as calculation base. As per legal counsel, the risk is classified as possible in view of the lack of legal grounds for arbitration of the contributions based on accounting provision. An administrative defense was presented, and the amount totals R\$5,268. No provision was made based on the risk classification of this matter

Claims by the Finance Secretary of the State of São Paulo, referring to:

- h) Tax assessments on October 31 and December 13, 2001, related to ICMS (state VAT) allegedly due on international long-distance calls, amounting to approximately R\$20,216 for November and December 1996 and amounting to R\$150,940 from January 1997 to March 1998, at the second administrative stage, assessed as possible risk, and R\$185,564 for the period from April 1998 to December 1999, at the second administrative stage, assessed as remote risk. No provision was recorded based on the risk classification of these matters.

- i) Tax assessment on February 29, 2000 demanding payment of the ICMS allegedly due on cell phone activation tariff in the period from January 1995 to December 1997, plus fines and interest, amounting to approximately R\$289,600 assessed as remote risk. The claim is at the 1st administrative stage. No provision was recorded based on the risk classification of this matter.
- j) Tax assessment on July 2, 2001 demanding the difference in ICMS paid without late-payment fine, amounting to R\$6,092, assessed as possible risk. The claim is awaiting appellate court decision. No provision was recorded based on the risk classification of this matter.
- k) Tax assessment notice related to the untimely used credits in the period from January to April 2002, in the amount of R\$31,090, for which the risk is considered possible. The claim is at the 2nd administrative stage. No provision was recorded based on the risk classification of this matter.
- l) Tax assessment notice related to the use of ICMS credits on acquisition of consumption materials, in the amount of R\$11,256, for which the risk is considered possible. The claim is at the 2nd administrative stage. No provision was recorded based on the risk classification of this matter.
- m) Tax assessment notices related to the non-reversal of ICMS credits in proportion to tax-exempt and non-taxed sales and services in the period from January 1999 to June 2000, in addition to an ICMS credit unduly taken in March 1999. The total amount involved is R\$109,836. The risk is considered possible by legal counsel. The claim is at the 2nd administrative stage. No provision was recorded based on the risk classification of this matter.
- n) Notifications of around R\$8,213 regarding the former Ceterp's loss of the tax benefit established by State Decree No. 48237/03, due to underpayment for an error in the calculation of the debt, assessed as possible risk. The claim is at the 2nd administrative stage. No provision was recorded based on the risk classification of this matter.

Claims by the Finance Secretary of the State of São Paulo, referring to: (Continued)

- o) Tax collection lawsuits demanding about R\$4,552 of ICMS differences for the period from May 1999 to June 2003. The Company is gathering the documents to prove that the amounts have been effectively paid. Guarantee is being provided and defense is being prepared for presentation in the lower court. The risk is assessed as possible. No provision was recorded based on the risk classification of this matter.

Litigation at the Federal and Municipal levels:

- p) FINSOCIAL, currently COFINS, was a tax on gross operating revenues, originally established at a rate of 0.5% and gradually and subsequently raised to 2.0%. Such rate increases were judicially challenged with success by several companies, which resulted in tax credits from overpayments. These credits were offset by CTBC (company merged into the Company in November 1999) against current amounts of COFINS due. Claiming that those offsets made by CTBC were improper, the Federal Government made an assessment in the amount of R\$16,735, considered a possible loss. The claim is at the higher court. No provision was recorded based on the risk classification of this matter.
- q) Litigation contesting the levy of corporate income tax, social contribution tax, PASEP and COFINS on telecommunications services of Centrais Telefônicas de Ribeirão Preto S.A. - CETERP, merged in November 2000, based on paragraph 3 of Article 155 of the Federal Constitution, according to which, with the exception of ICMS (state VAT) and taxes on exports and imports, no other taxation applies to services. The Company assesses this case as probable loss and has recorded a reserve of R\$52,653. The claim is in the higher court.

21.2. Tax contingencies (Continued)

Litigation at the Federal and Municipal levels: (Continued)

- r) Lawsuit seeking a court decision declaring the nonexistence of a legal tax relationship between Telesp and the Federal Government, the defendant, which would require the Company to pay the Social Contribution for Intervention in the Economic Order (CIDE) on remittances to be made based on contracts with foreign residents, since the unconstitutionality of said tax is clear. The lawsuit also seeks offset against other taxes payable, in the amount of R\$2,190, monetarily restated, related to the CIDE payment made in March 2002. The Company made an escrow deposit of R\$2,178 for the remittance made on October 18, 2002. Despite the risk considered to be possible, the Company recognized a reserve for the unpaid amounts, in the amount of R\$29,162. The claim is at the lower court.
- s) Tax collection claim demanding differences regarding income tax, based on DCTF's (Declaration of Federal Tax Credits and Debits) for the first half of 1999, amounting to approximately R\$5,292, assessed as possible risk. These claims are at the 1st administrative stage and no provision was recorded based on the risk classification.
- t) At the municipal level, the Company has contingencies related to IPTU (municipal real property tax), ISS (municipal service tax), fine and interest in the amount of R\$12,511, which have all been accrued for due to the existence of favorable and unfavorable decisions regarding this matter.
- u) The Municipal Government of São Paulo assessed the Company, alleging differences in the payment of the ISS (municipal service tax), a fine of 20% not paid, in the amount of R\$18,894. No reserve has been recorded for this contingency, since the attorneys responsible for this case assessed the risk as possible. The claim is at the lower court.

21.2. Tax contingencies (Continued)

Litigation at the Federal and Municipal levels: (Continued)

- v) On December 15, 2005, ANATEL issued Pronouncement No. 1 (subsequently renumbered to Pronouncement No. 7), whereby it confirmed the understanding that interconnection expenses are not excluded from FUST, thus changing the previous position which provided for such exclusion. The Pronouncement is applied retroactively to January 2001. Thus, through ABRAFIX (Brazilian Association of Fixed Telephony Companies), on January 9, 2006, the Company filed for a writ of mandamus with a view to ensuring the possibility of excluding interconnection expenses from the FUST calculation base. The proceeding is at trial court, and on April 10, 2006, a decision was issued whereby retroactive application of the Pronouncement was denied. The contingency risk was assessed as possible by the Company's legal advisors. The amount involved in the period from January 2001 through November 2005 totals R\$117,837. No provision was recorded based on the risk classification of this matter.
- x) IRS tax delinquency notice claiming Corporate Income Tax (IRPJ) that was offset in the Corporate Income Tax Return DIPJ/2002 with Withholding Income Tax (IRRF) retained by public agencies on services rendered in 2001. This case is pending judgment at first administrative level. Since it involves the risk of a probable loss, a provision was set in the amount of R\$1,330.

There are other contingencies that have also been accrued for, in the amount of R\$62,329, for which the risk is assessed by management as probable.

21.3. Civil contingencies (Continued)

These contingencies assessed as possible risk involve various matters: unacknowledged title to telephone line, indemnity for material and personal damages, among others, in the amount of approximately R\$267,242.

In addition, we describe below the most relevant civil contingencies, including their risk assessment:

- The Company is also involved in civil class actions related to the Community Telephone Plan (PCT), where the telephone expansion plan buyers who did not receive shares in return for their financial investments seek an indemnity, in the municipalities of Diadema, São Caetano do Sul, São Bernardo do Campo and Ribeirão Pires, involving a total amount of approximately R\$288,284. The risks involved were assessed as possible by legal counsel. The claims are at appellate court level.

- The Association of the Participants of the Sistel in the State of São Paulo - ASTEL moved against the Company, Fundação Sistel de Seguridade Social and others, a class action questioning subjects related to the Plan of Medical Assistance for Retirees - PAMA, considering in synthesis: (i) prohibition of the collection of contribution of the retirees included in the PAMA; (ii) the registration in the PAMA of the retirees and assisted people whose registrations were suspended for insolvency; (iii) revaluation of the economic necessities of the PAMA; (iv) restoration of the basis of incidence of the contributions on the total and gross amount of the payroll of all the employees of the company; (v) reaccreditation of all the hospitals, clinics, laboratories and doctors discredited by Sistel and (vi) review of the accounting distribution of shareholders' equity. Company Management, based on the opinion of its legal counsel, assessed this suit as a possible risk, and the respective amount involved is estimated to be R\$131,882. Based on the risk classification, no provision was recorded.

21.3. Civil contingencies (Continued)

On June 9, 2000, WCR do Brasil Serviços Ltda. proposed enforcement proceedings following ordinary procedural steps against the Company, claiming the collection of the alleged difference between the amounts calculated by Telesp regarding the use of the 0900 Service and the amounts transferred to that company. The duly updated proceeding amount at September 30, 2006 totals R\$59,328 (R\$94,707 as of June 30, 2006). On October 1, 2004 the decision handed down by the 13th Civil Court of the central jurisdiction of São Paulo was published, by which the proceeding was deemed valid. On December 14, 2004 an appeal against the decision was filed, which was distributed to the 26th Panel of Judges of São Paulo. On May 26, 2006, the appeal against the decision was judged partially valid, and the content was maintained. On August 14, 2006, the São Paulo Court of Justice judged the motions to clarify presented by the Company requesting the change in the date in which interest is accrued on the amount challenged by WCR do Brasil Serviços Ltda., handing down a favorable decision to the Company, reducing the originally accrued amount of R\$35,379. In view of the result of the proceeding, the risk is considered probable and a provision was therefore set up.

33. Post Retirement Benefit Plans

Telesp, together with other companies of the former Telebrás System, sponsors private pension benefit plans and health care plans for retirees, managed by Fundação Sistel de Seguridade Social (Sistel). Until December 1999, the plans managed by Sistel were multiemployer benefit plans. On December 28, 1999, the sponsors of the plans managed by Sistel negotiated the conditions for the creation of plans separated by sponsor (PBS Telesp Plan) and the continuation of participation in the multiemployer plans only for participants who were already retired on January 31, 2000 (PBS-A), resulting in a proposal for restructuring the statutes and regulations of Sistel, which was approved by the Secretariat for Pension Plans on January 13, 2000.

33. Post Retirement Benefit Plans (Continued)

In December 2004, the entity Visão Prev Sociedade de Previdência Complementar was formed to manage the Visão and PBS Telesp plans, which were transferred from Sistel to new entity. The process of transfer was approved by the Secretariat for Pension Plans (currently Previc) through Official Letter No. 123, of October 7, 2004. The transfer of assets and liabilities of the plans was made on February 18, 2005.

The process of transference of the plans Visão Telesp and PBS Telesp was approved by the Secretary of Complementary Previdence through the publication of the Official Letters number 49/DEPAT/SPC and 50/DEPAT/SPC, of January 12, 2005, respectively.

The transfer of plans did not impose any burden on the plan participants, because the wording of the regulations and all rights of the participants were maintained. Sistel will continue to manage the PBS-A and PAMA plans, and Telesp will continue to sponsor these plans jointly with other Sistel's sponsors.

Telesp individually sponsors a defined benefit retirement plan (PBS Telesp Plan), which covers approximately 1% of the Company's employees. In addition to the supplemental pension benefit, health care (PAMA) is provided to retired employees and their dependents, at shared costs. Contributions to the PBS Telesp Plan are determined based on actuarial valuations prepared by independent actuaries, in accordance with the rules in force in Brazil. The funding procedure is the capitalization method and the sponsor's contribution is 6.93% of payroll of employees covered by the plan, of which 5.43% is allocated to fund the PBS Telesp Plan and 1.5% to the PAMA Plan.

In view of the favorable results from Telesp's PBS Plan, exceptionally in 2006 there will be no contributions for Past Service.

For other Telesp employees, there is an individual defined contribution plan - Visão Telesp Benefit Plan, established by Sistel in August 2000. The Visão Telesp Plan is funded by contributions made by the participants (employees) and by the sponsor which are credited to participants individual accounts. Telesp is responsible for bearing all plan administrative and maintenance expenses, including participant's death and disability risks. The employees participating in the defined benefit plan (PBS Telesp Plan) were granted the option of migrating to the Visão Telesp Plan. The new Plan was also offered to the other employees who did not participate in the PBS Telesp Plan, as well as to new hires. The Company's contributions to the Visão Telesp Plan are equal to those of the employees, varying from 2% to 9% of the contribution salary, based on the percentage chosen by the participant.

33. Post Retirement Benefit Plans (Continued)

Additionally, the Company supplements the retirement benefits of certain employees of the former CTB - Companhia Telefônica Brasileira.

In the period from January through September 2006, the Company made contributions to the PBS Telesp Plan in the amount of R\$39 (R\$331 in the same period of 2005) and to the Visão Telesp Plan in the amount of R\$16.930 (R\$16.097 in the same period of 2005).

A. Telecom individually sponsors a defined contribution plan similar to that of Telesp, the Visão Assist Benefit Plan, which covers about 27% of its employees. A. Telecom's contributions to that plan totaled R\$190 in 2006 (R\$215 in the same period of 2005).

Telefonica Empresas S.A. individually sponsors a defined contribution plan similar to that of the Company, the Visão Telefonica Empresas Benefit Plan. Contributions to such plan in August and September 2006 totaled R\$195.

The status of the plans as of September 30, 2006 and June 30, 2006, whose liabilities are recorded in the caption Other (Note 22), is as follows:

Plan	Sept/2006	June/2006
CTB	23,566	22,996
PAMA	24,435	23,992
Total	48,001	46,988

Other plans sponsored by the Company recording surplus (PBS-A, PBS Telesp, Visão Telesp and Visão Telefônica Empresas) are not registered in accounting and the last actuarial valuation occurred in December 2005.

Shown below are expenses estimated for 2006 as per actuaries' report:

34. Insurance (not reviewed by the auditors)

The policy of the Company and its subsidiaries, as well as that of the Telefónica Group, includes the maintenance of insurance coverage for all assets and liabilities involving significant amounts and high risks based on management's judgment, following Telefónica S.A.'s corporate program guidelines. In this context, Telecomunicações de São Paulo S.A. - Telesp complies with the Brazilian legislation for contracting insurance coverage.

Below are listed the main insurance coverage contracted by the Company:

Type	Insurance Coverage
Operating risks (loss of profits)	US\$ 7,725,527 thousand
Optional third-party liability - vehicles	R\$ 1,000
ANATEL guarantee insurance	R\$ 5,178

35. Financial Instruments

In compliance with the terms of CVM Instruction No. 235/95, the Company and its subsidiaries made a valuation of their assets and liabilities based on fair values, based on available information and appropriate valuation methodologies. However, the interpretation of market information, as well as the selection of methodologies, requires considerable judgment and reasonable estimates in order to produce adequate realizable values. As a result, the estimates presented do not necessarily indicate the amounts which might be realized in the current market. The use of different market approaches and/or methodologies for the estimates may have a significant effect on the estimated realizable values.

35. Financial Instruments (Continued)

The principal market risk factors that affect the Company's business are detailed below:

a) Exchange rate risk

This risk arises from the possibility that the Company may incur losses due to exchange rate fluctuations, which would increase the balances of loans and financing denominated in foreign currency and the related financial expenses. To reduce this risk, the Company enters into hedge contracts (swaps) with financial institutions.

The Company's indebtedness and the result of loan, financing and purchase commitment liabilities denominated in foreign currency are significantly affected by the foreign exchange rate risk. As of September 30, 2006, 30.49% (30.61% as of June 30, 2006) of the debt was denominated in foreign currency (U.S. dollar and yen); 99.76% (99.67% as of June 30, 2006) of this debt was covered by asset positions on currency hedge transactions (swaps for CDI). Gains or losses on these operations are recorded in income. As of September 30, 2006, these transactions generated a net loss of R\$128,462 (consolidated). As of September 30, 2006, the Company has recorded a liability of R\$284,524 to reflect the existing temporary loss. As these concern hedging transactions, part of the net consolidated negative result of R\$128,462 with derivatives is offset against exchange gains on debts, in the amount of R\$52,001.

The carrying and fair values of the Company's net excess (exposure) to the exchange rate risk as of September 30, 2006 and June 30, 2006 are as follows:

	Consolidated		Consolidated	
	Sept/2006	June/2006	Sept/2006	June/2006
	Carrying	Fair	Carrying	Fair
	value	value	value	value
Liabilities				
Loans and financing	665,058	656,827	669,444	666,355
Purchase commitments	53,769	53,769	76,750	76,750
Asset position on swaps	663,471	662,355	667,260	671,795

35. Financial Instruments (Continued)

a) Exchange rate risk (Continued)

In view of the complexity of the process and insignificance of results, the Company decided not to renew the coverage of non-financial liabilities denominated in foreign currency. However, the exposure will continue to be monitored, and the Company may take out new coverage should the exposure become significant or be defined by the Company as material.

The valuation method used to calculate the fair value of loans, financing and hedge instruments (foreign exchange swaps) was the discounted cash flow method, considering expected settlement or realization of liabilities and assets, at market rates prevailing on the balance sheet date.

For purposes of accounting practices adopted in Brazil, hedge operations (swap) are valued on the accrual basis, considering the contractual provisions.

b) Interest rate risk

This risk arises from the possibility that the Company may incur losses due to internal and external interest rate fluctuations affecting the Company's results.

As of September 30, 2006, the Company had R\$665,058 (R\$669,444 as of June 30, 2006) of loans and financing in foreign currency, of which R\$390,247 (R\$339,069 as of June 30, 2006) was at fixed interest rates and R\$274,811 (R\$330,375 as of June 30, 2006) was at variable interest rates (Libor). To hedge against the exchange risk on these foreign currency debts, the Company has hedge transactions in order to peg these debts to local currency, at floating rates indexed to the CDI (interbank deposit rate), in a way that the Company's financial result is affected by the CDI. The balance of loans and financing also includes debentures issued in 2004 with interest based on the variation of the CDI of R\$1,515,528 (R\$1,517,476 as of June 30, 2006), as described in Note 16. On the other hand, the Company invests its cash surplus (temporary cash investments) of R\$919,391 (R\$264,979 as of June 30, 2006) mainly in short-term instruments, based on the CDI variation, which also reduces this risk. The carrying values of these instruments approximate their corresponding fair values, since they may be redeemed in the short term.

35. Financial Instruments (Continued)

b) Interest rate risk (Continued)

As of September 30, 2006, the Company had swap transactions CDI vs. fixed rate, to partially hedge against fluctuations in internal interest rates. Maturity of such hedged operations, in the total amount of R\$798,439 (R\$771,325 as of June 30, 2006), is January 2007. These derivative operations generated a net consolidated positive result of R\$482, and this temporary gain is recorded in liabilities, to offset the temporary loss on the currency hedge transaction.

Another risk to which the Company is exposed is the non-matching of the monetary restatement indices for its debt and accounts receivable. Telephone tariff adjustments do not necessarily match increases in local interest rates which affect the Company's debt.

c) Debt acceleration risk

As of September 30, 2006, the Company's loan and financing agreements contain restrictive covenants, typically applicable to such agreements, relating to cash generation, indebtedness ratios and other. These restrictive covenants have been met by the Company and have not restricted the Company's ability to conduct its normal course of business.

d) Credit risk

This risk arises from the possibility that the Company may incur losses due to the difficulty in receiving amounts billed to its customers. The credit risk on accounts receivable is dispersed. The Company constantly monitors the level of accounts receivable and limits the risk of past-due accounts, interrupting access to telephone lines in case the customer bill has been overdue for more than 64 days. Exceptions are made for telecommunication services that must be maintained for security or national defense reasons.

As of September 30, 2006, the Company's consolidated customer portfolio had no subscribers whose receivables were individually higher than 1% of the total trade accounts receivable.

35. Financial Instruments (Continued)

d) Credit risk (Continued)

The Company is also subject to credit risk related to temporary cash investments and receivables from swap transactions. The Company reduces this exposure by dispersing it among top-tier financial institutions.

36. Subsequent Events

- a) On October 29, 2006, in compliance with the Brazilian Securities and Exchange Commission (CVM) Instruction No. 358, dated 1/3/2002, the Company published the agreement entered into with Abril Comunicações S.A., TVA Sistema de Televisão S.A., and the companies Comercial Cabo TV São Paulo Ltda., TVA Sul Paraná Ltda., and TVA Radioenlaces Ltda. (Abril), the Private Agreement of Convergence, Purchase and Sale of business, assets, shares and other agreements (Contract), with a view to converging the supply of telephone, broad band and cable TV services (triple play), and thus broaden the services to meet the increasing demand of such service users. The operation seeks to combine the expertise of the Abril Group in the production and placement of content and media, and of the Telefônica Group in the telecommunications segment.

For such, according to the terms of the Contract, the Company and Abril will put forth their combined efforts through several formal contract relations of commercial and operating natures. After implementation of a corporate restructuring involving Tevecap S.A. and the companies under its control, referred to above, holders of licenses and assets for rendering of Multichannel Multipoint Distribution Service (MMDS), Cable and Multimedia Communication Services (SCM) for broad band purposes, the objects of acquisition by the Company will be the shares representing 100% of the capital of a company which, on the closing date provided for in the Contract, will hold (i) directly, 100% of the shares representing an MMDS and broad band service company within and out of the state of São Paulo; (ii) indirectly, 100% of the preferred shares, in addition to part of the common shares, within the limits established in current legislation and regulations, of a Cable television service company out of the state of São Paulo; and (iii) indirectly, 100% of the preferred shares, in addition to part of the common shares, within the limits established in current legislation and regulations, of the capital of a Cable television service company within the state of São Paulo.

36. Subsequent Events (Continued)

The Company understands that the combined performance with Abril, as established in the Contract, will enable that its obligations to the telecommunications services universalization goals be met, in addition to the improvement, by both Groups, of the telecommunications services rendered to the related clients, with association of the Company's capacity and know-how regarding voice services and data transmission, and Abril's experience in the journalistic and audiovisual content production market, resulting in a synergetic and combined offering of quality services.

The effective acquisition of shareholding and the consequent transfer of shares, particularly the acquisition of control of the company holder of the MMDS license, are conditional upon previous approval by the National Communications Agency (ANATEL) and compliance with the other condition precedents provided for in the Contract. The Brazilian Antitrust Agency (CADE) must also analyze the transaction from the competitiveness point of view.

The Company further informs that a Special General Meeting will be held to confirm the Contract signature, in the terms of paragraph 1, article 256 of Law No. 6404/76, after its execution as per the terms above.

- b) On October 27, 2006, Decree No. 47817 was published in the Official Gazette of the Municipality of São Paulo, regulating Law No. 14023/05, which establishes that all aerial cabling in the city of São Paulo should be buried and calls on all public utilities operating in the city to comply with said Law. The Company is analyzing the effects of the referred to regulation in order to evaluate its impacts.

1. Net Operating Revenue in late September 2006 amounted to R\$10,877.5 which is 2.2%, or R\$237.7, up on the same period last year, of R\$10,639.8, mainly due to the tariff increase that took place in 2005 and to expansion of the Speedy service and number of economic lines, partially offset by the fall in network usage revenues resulting from the new interconnection rules, effective as from January 1, 2006, the negative readjustment of 13.3% in the TU-RL, in June 2005, and investment in long-distance infrastructure by other operating companies in the São Paulo State that caused a decrease in National Long-Distance revenues.
2. Cost of Services is 1.6% up on the same period last year, increasing by R\$89.2, mainly due to Personnel expenses resulting from the Voluntary Resignation Program starting on February 2006, network interconnection due to increased fixed-mobile telephone traffic caused by the expansion of the mobile plant and the tariff increase of 4.5% that took place in June 2006, and increase in Third-party services for maintenance of public telephone terminals. In addition, we point out the renewal of the concession agreement approved in December 2005, effective until December 2025, which determines that the concessionaire pay, every two years, during the new concession period, a fee corresponding to 2% of revenues with STFC for the previous year, net of taxes and contributions.
3. The negative financial results improved by R\$386.1 due to the large average volume of short-term financial investments (CDB), decrease in the payment of Interest on Own Capital and decrease in the losses on Hedge Operations caused by the increase in the payments of loans in foreign currency.

7.2 Concession contracts

The STFC concession contract was extended on December 22, 2005 for 20 years more and may be amended on December 31, 2010, December 31, 2015 and December 31, 2020. ANATEL is thereby allowed to establish new conditions and new universalization and quality goals in light of the conditions existing then.

8. A.Telecom S.A.

On March 1, 2006 the Company approved the merger of its wholly-owned subsidiary Santo Genovese Participações Ltda. into wholly-owned subsidiary A.Telecom S.A., in the belief that such merger meets the interests of shareholders and customers and will allow enhanced synergies by the consolidation of the activities into a sole company, rationalized and simplified management and shareholding structure and, at the same time, provide customers with broadened and more integrated service.

Such wholly-owned subsidiary of the Company has been positively contributing to results due to its successful and constant growth of the operations related to management of telephone services in office buildings.

9. Alternative Fixed Telephone Service Plans

The alternative fixed telephone service plans make Telesp installed capacity more profitable and serve market segments then lacking more economic options to access fixed telephones. This reflects the Telesp commitment to the universalization of telecommunication services in the São Paulo State, which outperform regulatory requirements, and to the socialization of access to communication and information. In the beginning of 2006, alternative plans were deployed for certain market segments, in addition to the alternative plans implemented in 2005 (Economic Line, Super Economic Line and Economic Family Line), as follows:

Leisure Line, released on January 13, 2006, this service is intended for holiday or temporary use homes, with no installed telephone line. The control over telephone use is performed through a call lock and unlock password. Monthly rate is R\$34.90 (unlimited use), with a promotional price of R\$19.90 for customers who own a traditional line installed in another city. The Leisure line activation rate is R\$88.00, payable in 10 installments. Calls are charged by minutes, including local calls.

10. Acquisition of TVA Sistema de Televisão S/A (Continued)

Relevant Fact: (Continued)

For such, according to the terms of the Contract, the Company and Abril will put forth their combined efforts through several formal contract relations of commercial and operating natures. After implementation of a corporate restructuring involving Tevecap S.A. and the companies under its control, referred to above, holders of licenses and assets for rendering of Multichannel Multipoint Distribution Service (MMDS), Cable and Multimedia Communication Services (SCM) for broad band purposes, the objects of acquisition by the Company will be the shares representing 100% of the capital of a company which, on the closing date provided for in the Contract, will hold (i) directly, 100% of the shares representing an MMDS and broad band service company within and out of the state of São Paulo; (ii) indirectly, 100% of the preferred shares, in addition to part of the common shares, within the limits established in current legislation and regulations, of a Cable television service company out of the state of São Paulo; and (iii) indirectly, 100% of the preferred shares, in addition to part of the common shares, within the limits established in current legislation and regulations, of the capital of a Cable television service company within the state of São Paulo.

The Company understands that the combined performance with Abril, as established in the Contract, will enable that its obligations to the telecommunications services universalization goals be met, in addition to the improvement, by both Groups, of the telecommunications services rendered to the related clients, with association of the Company's capacity and know-how regarding voice services and data transmission, and Abril's experience in the journalistic and audiovisual content production market, resulting in a synergetic and combined offering of quality services.

The effective acquisition of shareholding and the consequent transfer of shares, particularly the acquisition of control of the company holder of the MMDS license, are conditional upon previous approval by the National Communications Agency (ANATEL) and compliance with the other condition precedents provided for in the Contract. The Brazilian Antitrust Agency (CADE) must also analyze the transaction from the competitiveness point of view.

The Company further informs that a Special General Meeting will be held to confirm the Contract signature, in the terms of paragraph 1, article 256 of Law No. 6404/76, after its execution as per the terms above.
