Annual Report

October 31, 2006

Letter to Shareholders

December 18, 2006

Dear Shareholder,

We present this Annual Report which covers the activities of Aberdeen Global Income Fund, Inc. (the "Fund") for the year ended October 31, 2006. The Fund's principal investment objective is to provide high current income by investing primarily in fixed income securities. As a secondary investment objective, the Fund seeks capital appreciation, but only when consistent with its principal investment objective.

Net Asset Value Performance

The Fund's total return based on net asset value ("NAV") was 5.4% for the year ended October 31, 2006 and 8.2% per annum since inception, assuming the reinvestment of distributions.

Share Price Performance

The Fund's share price decreased by 0.4% over the year, from \$13.05 on October 31, 2005 to \$13.00 on October 31, 2006. The Fund's share price on October 31, 2006 represented a discount of 3.4% to the NAV per share of \$13.46 on that date, compared with a discount of 5.9% to the NAV per share of \$13.87 on October 31, 2005. At the date of this letter, the share price was \$13.44, representing a discount of 0.4% to the NAV per share of \$13.50

Credit Quality: 86.3% of Securities Rated or Deemed Equivalent to A or Better

The credit quality of the Fund's investments has been maintained. As of October 31, 2006, 86.3% of the portfolio was invested in securities where either the issue or the issuer was rated A or better, or judged by Aberdeen Asset Management Asia Limited (the "Investment Manager") to be of equivalent quality.

Distributions

Distributions to common shareholders for the twelve months ended October 31, 2006 totaled \$1.085 per share (including a special distribution of 34 cents per share). Based on the share price of \$13.00 on October 31, 2006, the distribution rate over the twelve months then ended was 8.3% (5.7% excluding the special distribution). Since all distributions are paid after deducting applicable withholding taxes, the effective distribution rate may be higher for those U.S. investors who are able to claim a tax credit.

On December 13, 2006, the Board of Directors authorized a monthly distribution of 6.5 cents per share, payable on January 12, 2007 to common shareholders of record as of December 29, 2006.

Edgar Filing: ABERDEEN GLOBAL INCOME FUND INC - Form N-CSR

The Board's policy is to provide investors with a stable monthly distribution out of current income, supplemented by realized capital gains and, to the extent necessary, paid-in-capital. It is the Board's intention that a monthly distribution of at least 6.5 cents per share be maintained for twelve months, beginning with the July 2006 distribution payment. This policy is subject to regular review at the Board's quarterly meetings, unless market conditions require an earlier evaluation. The next review is scheduled to take place in March 2007.

Quarterly Reports to Shareholders

In 2004, in an effort to reduce Fund expenses, the Fund discontinued the printing and mailing of quarterly reports to shareholders for the three-month periods ending January 31 and July 31, and instead posted such reports on the Fund's website. The Board of Directors has determined that the Fund will no longer prepare formal quarterly reports for the periods ending January 31 and July 31, but, as noted above, shareholders will be able to obtain essential information about the Fund for such periods through the Fund's reports on Form N-Q, available on the Fund's website or upon request and without charge by calling Investor Relations toll-free at 1-866-839-5233. Aberdeen Global Income Fund, Inc.

2

Your Board's policy is to provide investors with a stable monthly distribution out of current income, supplemented by realized capital gains and, to the extent necessary, paid-in capital.

The Fund is subject to U.S. corporate, tax and securities laws. Under U.S. tax accounting rules, the amount of distributable income for each fiscal period depends on the actual exchange rates during the entire year between the U.S. dollar and the currencies in which Fund assets are denominated and on the aggregate gains and losses realized by the Fund during the entire year.

Therefore, the exact amount of distributable income for each fiscal year can only be determined as of the end of the Fund's fiscal year, October 31. However, under the U.S. Investment Company Act of 1940, the Fund may be required to indicate the sources of certain distributions to shareholders. This estimated distribution composition may vary from month to month because it may be materially impacted by future realized gains and losses on securities and fluctuations in the value of the currencies in which Fund assets are denominated.

The distributions for the fiscal year ended October 31, 2006 were comprised of 91% net investment income and 9% return of paid-in capital.

In January 2007, a Form 1099-DIV will be sent to shareholders, which will state the amount and composition of distributions and provide information with respect to their appropriate tax treatment for the 2006 calendar year.

Aberdeen Global Income Fund, Inc.

Automatic Dividend Reinvestment and Cash Purchase Plan

Common shareholders are automatically enrolled in the Fund's Automatic Dividend Reinvestment and Cash Purchase Plan (the Plan), which allows you to automatically reinvest your distributions in shares of the Fund's common stock at favorable commission rates, unless an election is made to receive distributions in cash. Distributions made under the Plan are taxable to the same extent as are cash distributions. The Plan also enables you to make additional cash investments in shares of at least \$100 per transaction, with a maximum of \$10,000 per month, and an aggregate annual limit of \$120,000. Under this arrangement, The Bank of New York (the Plan Agent) will purchase shares for you on the American Stock Exchange or otherwise on the open market on or before the investment date. The investment date is the 15th day of each month, but if such date is not a business day, the preceding business day.

As a participant in the Plan you will benefit from:

Automatic reinvestment - the Plan Agent will automatically reinvest your distributions, allowing you to gradually grow your holdings in the Fund;

Lower costs - shares are purchased on your behalf under the Plan at low brokerage rates. Brokerage on share purchases is currently 2 cents per share;

Convenience - the Plan Agent will hold your shares in non-certificated form and will provide a detailed plan account statement of your holdings at the end of each month.

To request a brochure containing information on the Plan, please contact the Plan Agent, The Bank of New York, Shareholder Relations Department, P.O. Box 11258, Church Street Station, New York, NY 10286 or call toll free on 1-800-432-8224.

Report of the Investment Manager

Share Price Performance

On October 31, 2006, the Fund's share price was \$13.00, which represented a discount of 3.4% to the NAV per share of \$13.46. As of December 18, 2006, the share price was \$13.44, representing a discount of 0.4% to the NAV per share of \$13.50.

Auction Market Preferred Stock (AMPS)

The Fund's \$30 million of AMPS continued to be well bid at the regular auctions. The average interest rate paid was 4.926% over the year ended October 31, 2006, compared with an interest rate of 4.8234% for 30-day U.S. commercial paper over the same period. These rates were higher than for the preceding year. The key driver of the increase in the AMPS interest rates was a general rise in market interest rates following the U.S. Federal Reserve's tightening of monetary policy on six occasions by a cumulative 1.5% during the year ended October 31, 2006.

Over the year ended October 31, 2006, the impact of the AMPS on the net asset value attributable to common shareholders was negative. Bond movements made a negative contribution, as ongoing inflation concerns placed upward pressure on global bond yields. However, this negative effect was mitigated by the locking in of fixed rates on 80% of the AMPS, pursuant to the interest rate swap agreement referred to below, prior to the U.S. Federal Reserve commencing its current monetary policy tightening cycle. The Fund's locking in of fixed rates on a portion of the AMPS has meant that the differential between the AMPS funding rates and the yields at which the Fund invests remained positive despite the rise in U.S. short-term interest rates. Currency movements also made a small positive contribution.

These factors, in combination, produced a loss of 1.2% due to AMPS over the year ended October 31, 2006.

The Fund has entered into an interest rate swap agreement, based on an initial aggregate notional amount of \$24 million, which represented 80% of the total AMPS outstanding. A portion of the interest rate swaps, with a nominal value of \$4.8 million, expired on October 31, 2006. Upon expiration, the unhedged portion of the AMPS increased from a nominal value of \$6 million to \$10.8 million, and the coverage of the AMPS decreased from 80% to 64% of the outstanding AMPS. Under the terms of the agreement, as currently in effect, the Fund receives a floating rate of interest (one month USD-LIBOR BBA rate) and pays fixed rates of interest for the terms and based upon the notional amounts set forth below:

Remaining Term as of	Amount (in \$ million)	Fixed Rate Payable (%)
October 31, 2006		
48 months	4.8	4.055
24 months	7.2	3.540
12 months	7.2	3.160

Aberdeen Global Income Fund, Inc.

Report of the Investment Manager (continued)

A significant risk associated with interest rate swaps is the risk that the counterparty may default or file for bankruptcy, in which case the Fund would bear the risk of loss of the amount expected to be received under the swap agreement. There can be no assurance that the Fund will have an interest rate swap in place at any given time nor can there be any assurance that, if an interest rate swap is in place, it will be successful in hedging the Fund's interest rate risk with respect to the AMPS. The implementation of this strategy is at the discretion of the AMPS Hedging Committee of the Board of Directors.

Notes to Financial Statements

Aberdeen Global Income Fund, Inc. (the Fund) was incorporated in Maryland on June 28, 1991, as a closed-end, non-diversified investment company.

The Fund's principal investment objective is to provide high current income by investing primarily in fixed-income securities. As a secondary investment objective, the Fund seeks capital appreciation, but only when consistent with its principal investment objective. The Fund's investments are divided into three categories: investments in Developed Markets, Investment Grade Developing Markets and Sub-Investment Grade Developing Markets. Developed Markets are those countries contained in the Citigroup World Government Bond Index, Luxembourg and the Hong Kong Special Administrative Region. Investment Grade Developing Markets are those countries whose sovereign debt is rated not less than Baa3 by Moody's or BBB- by S&P. Sub-Investment Grade Developing Markets are those countries that are not Developed Markets or Investment Grade Developing Markets. Under normal circumstances, at least 60% of the Fund's total assets would be invested in a portfolio of fixed income securities from issuers in Developed Markets or Investment Grade Developing Markets, whether or not denominated in the currency of such country; provided, however, that the Fund will invest at least 40% of its total assets in fixed income securities of issuers in Developed Markets. The Fund may only invest up to 40% of its total assets in fixed income securities of issuers in Sub-Investment Grade Developing Markets whether or not denominated in the currency of such country.

In order to comply with a rule adopted by the Securities and Exchange Commission under the Investment Company Act of 1940 regarding fund names, the Board of Directors has adopted an investment policy that, for as long as the name of the Fund remains Aberdeen Global Income Fund, Inc., it shall be the policy of the Fund normally to invest at least 80% of its net assets plus the amount of any borrowings for investment purposes, in debt securities. This 80% investment policy is a non-fundamental policy of the Fund and may be changed by the Board of Directors upon 60 days prior written notice to shareholders. The ability of issuers of debt securities held by the Fund to meet their obligations may be affected by economic developments in a specific industry, country or region.

Note 1. Accounting Policies

The following is a summary of significant accounting policies followed by the Fund in the preparation of its financial statements.

Basis of Presentation:

The financial statements of the Fund are prepared in accordance with accounting principles generally accepted in the United States of America using the United States dollar as both the functional and reporting currency. However, the Australian Dollar, Canadian Dollar and British Pound are the functional currencies for Federal tax purposes (see Taxes below).

Securities Valuation:

The Fund's Board of Directors has adopted Pricing and Valuation Procedures (the Procedures) to be used in determining the value of the assets held by the Fund. In

Notes to Financial Statements (continued)

accordance with the Procedures, investments are stated at value. Investments for which

market quotations are readily available are valued at the last trade price on the date of determination as obtained from a pricing source. If no such trade price is available, such investments are valued at the quoted bid price or the mean between the quoted bid and ask price on the date of determination as obtained from a pricing source.

Short-term securities which mature in more than 60 days are valued at current market quotations. Short-term securities which mature in 60 days or less are valued at amortized cost, which approximates market value.

Securities for which market quotations are not readily available (including investments which are subject to limitations as to their sale) are to be valued at fair value. As a general rule, whether or not the Fund is required to fair value price an asset is dependent on the ready availability of current market quotes or, even if readily available, the reliability of

such quotes. Any assets for which market quotations are not readily available or for which available prices are not reliable, shall be determined in a manner that most fairly reflects the asset's (or group of assets) fair value (i.e., the amount that the Fund might reasonably expect to receive for the asset upon its current sale) on the valuation date, based on a consideration of all available information.

The Procedures provide that in certain instances, including without limitation, if there is a stale price for a portfolio security, in an emergency situation, or if a significant event occurs after the close of trading of a portfolio security, but before the calculation of the Fund's net asset value, the security may be valued at its fair value.

Repurchase Agreements:

In connection with transactions in repurchase agreements with U.S. financial institutions, it is the Fund's policy that its custodian/counterparty segregates the underlying collateral securities, the value of which exceeds the principal amount of the repurchase transaction, including accrued interest. To the extent that any repurchase transaction exceeds one business day, the collateral is valued on a daily basis to determine its adequacy. If the seller defaults and the value of the collateral declines or if bankruptcy proceedings are commenced with respect to the seller of the security, realization of the collateral by the Fund may be delayed or limited.

Foreign Currency Translation:

Foreign currency amounts are translated into United States dollars on the following basis:

(i) market value of investment securities, other assets and liabilities at the exchange rates at the end of the reporting period;

(ii) purchases and sales of investment securities, income and expenses at the rates of exchange prevailing on the respective dates of such transactions.

The Fund isolates that portion of the results of operations arising as a result of changes in the foreign exchange rates from the fluctuations arising from changes in the market prices of

Aberdeen Global Income Fund, Inc.

Notes to Financial Statements (continued)

the securities held at the end of the reporting period. Similarly, the Fund isolates the effect of changes in foreign exchange rates from the fluctuations arising from changes in the market prices of portfolio securities sold during the reporting period.

Net realized foreign exchange gains/(losses) includes realized foreign exchange gains/(losses) from sales and maturities of portfolio securities, sales of foreign currencies, currency gains or losses realized between the trade and settlement dates on securities transactions and the difference between the amounts of interest, discount and foreign withholding taxes recorded on the Fund's books and the U.S. dollar equivalent amounts actually received or paid. Net unrealized foreign exchange gains/(losses) include changes in the value of portfolio securities and other assets and liabilities arising as a result of changes in the exchange rate. Accumulated realized and unrealized foreign exchange gains/(losses) shown in the

composition of net assets represent foreign exchange gains/(losses) for book purposes that have not yet been recognized for tax purposes.

Foreign security and currency transactions may involve certain considerations and risks not typically associated with those of domestic origin, including unanticipated movements in the value of the foreign currency relative to the U.S. dollar.

Securities Transactions and Investment Income:

Securities transactions are recorded on the trade date. Realized and unrealized gains/(losses) from security and currency transactions are calculated on the identified cost basis. Interest income is recorded on an accrual basis. Discounts and premiums on securities purchased are accreted or amortized on an effective yield basis over the estimated lives of the respective securities. Expenses are accrued on a daily basis.

Derivative Financial Instruments:

The Fund is authorized to use derivatives to manage currency risk, credit risk and interest rate risk and to replicate or as a substitute for physical securities. Losses may arise due to changes in the value of the contract if the counterparty does not perform under the contract. The use of derivative instruments involves, to varying degrees, elements of market risk in excess of the amount recognized in the Statement of Assets and Liabilities.

Interest Rate Swaps:

The Fund may engage in certain interest rate swap transactions to hedge the Fund's AMPS. An interest rate swap is an agreement between two parties, which involves the exchange of floating and fixed rate interest payments for a specified period of time. Interest rate swaps involve the accrual and exchange of interest payments between the parties. These payments are recorded as realized gain/(loss).

During the term of the swap, changes in the value of the swap are recognized as unrealized appreciation or depreciation by marking-to-market to reflect the fair market value of the swap. When the swap is terminated, the Fund will record a realized gain/(loss) equal to the difference, if any, between the proceeds from (or cost of) the closing transaction and the

Notes to Financial Statements (continued)

Fund's basis in the contract. The Fund is exposed to credit risk in the event of non-performance by the counter party to the swap. However, the Fund does not anticipate non-performance by any counterparty.

Foreign Forward Currency Exchange Contracts:

A forward currency contract involves an obligation to purchase and sell a specific currency at a future date, which may be any fixed number of days from the date of the contract agreed upon by the parties, at a price set at the time of the contract. The foreign currency contract is marked-to-market daily and the change in market value is recorded by the Fund as unrealized appreciation or depreciation. When the forward currency contract is closed, the Fund records a realized gain or loss equal to the difference between the value at the time it was opened and the value at the time it was closed. Risks arise from the unanticipated movements in the value of the foreign currency relative to the functional currencies and from potential inability of counterparties to meet the terms of their contracts.

Futures Contracts:

A futures contract is an agreement between two parties to buy and sell a security for a set price on a future date. Upon entering into a contract, the Fund deposits and maintains as collateral such initial margin as required by the exchange on which the transaction is effected. Pursuant to the contract, the Fund agrees to receive from or pay to the broker an amount of cash equal to the daily fluctuation in the value of the contract. Such receipts or payments are known as variation margin and are recorded by the Fund as unrealized appreciation or depreciation. When the contract is closed, the Fund records a realized gain or loss equal to the difference between the value of the contract at the time it was opened and the value at the time it was closed.

Options:

When the Fund writes an option, an amount equal to the premium received by the Fund is reflected as an asset and an equivalent liability. The amount of the liability is subsequently marked-to-market to reflect the current market value of the option written. When a security is purchased or sold through an exercise of an option, the related premium paid (or received) is added to (or deducted from) the basis of the security acquired or deducted from (or added to) the proceeds of the security sold. When an option expires (or the Fund enters into a closing transaction), the Fund realizes a gain or loss on the option to the extent of the premiums received or paid (or gain or loss to the extent the cost of the closing transaction exceeds the premium paid or received). As of October 31, 2006, there were no open option contracts.

Distributions:

It is the Fund's current policy to pay distributions from net investment income supplemented by net realized foreign exchange gains, net realized short-term capital gains and return of capital distributions if necessary, on a monthly basis. The Fund will also declare and pay distributions at least annually from net realized gains on investment transactions and net

Aberdeen Global Income Fund, Inc.

Notes to Financial Statements (continued)

realized foreign exchange gains, if any. Distributions to common shareholders are recorded on the ex-dividend date. Distributions to preferred shareholders are accrued on a daily basis and are determined as described in Note 6.

Income distributions and capital and currency gains distributions are determined in accordance with income tax regulations which may differ from accounting principles generally accepted in the United States of America. These differences are primarily due to differing treatments for foreign currencies, loss deferrals and recognition of market discount and premium.

Recent Accounting Pronouncements:

In July 2006, the Financial Accounting Standards Board (FASB) issued interpretation No. 48 (FIN 48) entitled Accounting for Uncertainty in Income Taxes - an interpretation of FASB Statement No. 109 . FIN 48 prescribes the minimum recognition threshold a tax position must meet in connection with accounting for uncertainties in income tax positions taken or expected to be taken by an entity including mutual funds before being measured and recognized in the financial statements. FIN 48 is effective for fiscal years beginning after December 15, 2006. The Fund will adopt FIN 48 during the fiscal 2008 year-end and the impact on the Fund 's financial statements, if any, is currently being assessed.

In addition, in September 2006, Statement of Financial Accounting Standards No. 157, *Fair Value Measurements* (SFAS 157), was issued and is effective for fiscal years beginning after November 15, 2007. SFAS 157 defines fair value, establishes a framework for measuring fair value and expands disclosures about fair value measurements. The impact of the adoption of SFAS 157 on the Fund 's financial statement disclosures is currently being evaluated.

Reclassification of Capital Accounts:

For the year ended October 31, 2006, the Fund decreased distributions in excess of net investment income by \$1,710,541, increased accumulated net realized losses on investment transactions by \$1,500,388, increased accumulated net realized foreign exchange gains by \$744,486 and decreased paid-in capital in excess of par by \$954,639. These reclassifications are a result of permanent differences primarily attributable to foreign currency transactions, amortization methods on fixed income securities and accounting for swap agreements. Net investment income, net realized loss on investments and net assets were not affected by this change.

Taxes:

For Federal income and excise tax purposes, substantially all of the Fund 's transactions are accounted for using the functional currencies. Accordingly, only realized currency gains/(losses) resulting from the repatriation of any of the functional currencies (Australian Dollar, Canadian Dollar or British Pound) into U.S. dollars or another functional currency and realized currency gains and losses on non-functional currencies are recognized for U.S. tax purposes.

Aberdeen Global Income Fund, Inc.

Notes to Financial Statements (continued)

No provision has been made for United States of America Federal income taxes because it is the Fund's policy to meet the requirements of the United States of America Internal Revenue Code applicable to regulated investment companies and to distribute substantially all of its taxable income to shareholders. Under the applicable foreign tax law, a withholding tax may be imposed on interest and discounts earned at various rates.

Use of Estimates:

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts and disclosures in the financial statements. Actual results could differ from those estimates.

Note 2. Agreements

Aberdeen Asset Management Asia Limited (the Investment Manager) serves as the investment manager to the Fund and Aberdeen Asset Management Limited (the Investment Adviser) serves as investment adviser to the Fund, pursuant to a management agreement and an advisory agreement, respectively. The Investment Adviser is an indirect wholly-owned subsidiary of the Investment Manager, which is a direct wholly-owned subsidiary of Aberdeen Asset Management PLC. The Investment Manager has also entered into an agreement with CIBC World Markets, Inc. (the Consultant).

The Investment Manager makes investment decisions on behalf of the Fund on the basis of recommendations and information furnished to it by the Investment Adviser and the Consultant, including the selection of and the placement of orders with brokers and dealers to execute portfolio transactions on behalf of the Fund.

The management agreement as in effect prior to June 7, 2006, provided the Investment Manager with a fee, payable monthly, at the following annual rates: 0.65% of the Fund's average weekly total net assets of both common and preferred shareholders up to \$200 million, 0.60% of such assets between \$200 million and \$500 million and 0.55% of such assets in excess of \$500 million. Effective June 7, 2006, the management agreement was amended to provide the Investment Manager with a fee, payable monthly, at the following annual rates: 0.65% of the Fund's average weekly Managed Assets up to \$200 million, 0.60% of Managed Assets between \$200 million and \$500 million, and 0.55% of Managed Assets in excess of \$500 million. Managed Assets are defined in the management agreement as net assets plus the amount of any borrowings for investment purposes. The Investment Manager pays fees to the Investment Adviser and the Consultant for their services rendered. The Fund's Investment Manager informed the Fund that it paid \$384,599 to the Investment Adviser and approximately \$5,300 to the Consultant during the year ended October 31, 2006.

Aberdeen Asset Management Inc. (AAMI), an affiliate of the Investment Manager and the Investment Adviser, is the Fund's Administrator. Pursuant to the administration agreement, as in effect prior to January 12, 2006, AAMI received a fee at an annual rate of 0.15% of the Fund's average weekly net assets of both common and preferred shareholders. Effective January 12, 2006, the administration agreement was amended to provide that AAMI

Notes to Financial Statements (continued)

receives a fee at an annual rate equal to 0.15% of the Fund's average weekly Managed Assets, which are defined as net assets plus the amount of any borrowings for investment purposes.

Under terms of an Investor Relations Services Agreement, AAMI serves as the Fund's investor relations services provider. This agreement provides AAMI with a monthly retainer of \$4,000 plus out-of-pocket expenses. During the year ended October 31, 2006, the Fund incurred fees of \$49,759 for the services of AAMI. Investor relations fees and expenses in the Statement of Operations include certain out-of-pocket expenses.

Note 3. Portfolio Securities

Purchases and sales of investment securities, other than short-term investments, for the year ended October 31, 2006, aggregated \$46,771,800 and \$40,449,551, respectively.

Note 4. Tax Information

The tax character of distributions paid during the fiscal years ended October 31, 2006 and October 31, 2005 was as follows:

Edgar Filing: ABERDEEN GLOBAL INCOME FUND INC - Form N-CSR

* On October 31, 2006, the Fund had a net capital loss carryforward of \$1,383,179 of which \$991,666 expires in 2010, \$116,280 expires in 2011 and \$275,233 expires in 2014. This amount will be available to offset like amounts of any future taxable gains.

** The difference between book-basis and tax-basis unrealized appreciation or depreciation is attributable to the difference between book and tax amortization methods for premiums and discounts on fixed income securities, differing treatments for foreign currencies, and the tax deferral of wash sales and straddles.

The United States Federal income tax basis of the Fund's investments and the net unrealized depreciation as of October 31, 2006 were as follows:

<u>Tax Basis of Investments</u>	<u>Appreciation</u>	<u>Depreciation</u>	<u>Net Unrealized Depreciation</u>

Note 5. Common Stock

There are 300 million shares of \$.001 par value common stock authorized. At October 31, 2006, there were 9,305,708 shares issued and outstanding.

On March 1, 2001, the Board of Directors approved a stock repurchase program. The stock repurchase program allows the Fund to repurchase up to 10% of its common stock in the open market during any 12-month period, if and when the discount to NAV is at least 10%. Through October 31, 2006, there have been no share repurchases through this program.

Note 6. Preferred Stock

There are 100 million shares of \$.001 par value of Auction Market Preferred Stock (AMPS) authorized. The 1,200 shares of AMPS outstanding consist of one series, W-7. The AMPS have a liquidation value of \$25,000 per share plus any accumulated but unpaid dividends whether or not declared. The AMPS have rights set forth in the Fund's Articles of Amendment and Restatement.

Dividends on the AMPS are cumulative at a rate typically reset every 28 days based on the results of an auction. Dividend rates ranged from 4.20% to 5.35% during the year ended October 31, 2006. Under the Investment Company Act of 1940, the Fund may not declare dividends or make other distributions on shares of common stock or purchase any such shares if, at the time of the declaration, distribution or purchase, asset coverage with respect to the outstanding AMPS would be less than 200%.

The AMPS are redeemable at the option of the Fund, in whole or in part, on any dividend payment date at \$25,000 per share plus any accumulated but unpaid dividends. The AMPS are also subject to mandatory redemption at \$25,000 per share plus any accumulated but unpaid dividends, whether or not declared, if certain requirements relating to the composition of the assets and liabilities of the Fund as set forth in the Articles are not satisfied.

The holders of AMPS have voting rights equal to the holders of common stock (one vote per share) and will vote together with holders of shares of common stock as a single class. However, holders of AMPS are also entitled to elect two of the Fund's directors.

Note 7. Subsequent Events

Subsequent to October 31, 2006, the Fund declared a monthly distribution of 6.5 cents per common share payable on December 15, 2006 and January 12, 2007 to common shareholders of record on November 30, 2006 and December 29, 2006, respectively.

Edgar Filing: ABERDEEN GLOBAL INCOME FUND INC - Form N-CSR

Subsequent to October 31, 2006, distributions declared and paid on the AMPS totaled \$126,324 for the outstanding preferred share series through November 24, 2006.

Automatic Dividend Reinvestment and Cash Purchase Plan (unaudited)

Common shareholders are automatically enrolled in the Fund's Automatic Dividend Reinvestment and Cash Purchase Plan (the Plan). Under the Plan, all distributions, net of any applicable withholding tax, will automatically be reinvested by The Bank of New York (the Plan Agent) in additional shares of common stock of the Fund unless an election is made to receive distributions in cash. Generally, shareholders who do not participate in the Plan will receive all distributions in cash paid by check in United States dollars mailed directly to the shareholders of record (or if the shares are held in street or other nominee name, then to the nominee) by the Plan Agent. A shareholder whose shares are held by a broker or nominee that is unable to participate in the Plan may be required to have his shares re-registered in his own name to participate in the Plan.

The Plan Agent serves as agent for the shareholders in administering the Plan. Distributions payable to Plan participants will be promptly invested. If the Fund declares a distribution payable in stock to shareholders who are not Plan participants, then Plan participants will receive that distribution in newly-issued shares of common stock on identical terms and conditions.

In every other case, Plan participants will receive shares on the following basis: if, on payable date, the market price of the Fund's common stock plus any brokerage commission is equal to or exceeds NAV, Plan participants will receive newly-issued shares of the Fund's common stock valued at the greater of NAV or 95% of the then-current market price. If, on the other hand, the NAV, plus any applicable brokerage commission, exceeds the market price at such time, the Plan Agent will buy shares of common stock in the open market. If the market price plus any applicable brokerage commission exceeds the NAV as last determined before the Plan Agent has completed its purchases, the Plan Agent will suspend making open market purchases and shall invest the balance available in newly issued shares valued at the greater of NAV or 95% of the then-current market value. All reinvestments are in full and fractional shares carried to four decimal places.

There is no direct charge to participants for reinvesting distributions, except for brokerage commissions. The Plan Agent's fees for the handling of the reinvestment of distributions are paid by the Fund. There will be no brokerage commissions charged with respect to shares issued directly by the Fund. However, each participant pays a pro-rata share of brokerage commissions incurred with respect to the Plan Agent's open market purchases. Purchases and sales may be made through a broker affiliated with the Plan Agent. The automatic reinvestment of distributions does not relieve participants of any federal income tax that may be payable on such distributions.

The Plan also allows participants to make voluntary cash investments by sending additional funds by a check drawn on a U.S. bank, in U.S. dollars, payable to the Plan Agent. Additional voluntary cash investments must be in an amount of at least \$100, with a maximum of \$10,000 per month, with an aggregate annual limit of \$120,000 for the

Aberdeen Global Income Fund, Inc.

Automatic Dividend Reinvestment and Cash Purchase Plan (unaudited) (concluded)

purchase of shares of the Fund's common stock on the open market. Voluntary cash investments will be invested on or before the 15th day of the month, and in no event more than 45 days after such date except where temporary curtailment or suspension of purchases is necessary to comply with applicable provisions of the federal securities law. Cash investments may be commingled with the funds held by the Plan Agent for other shareholders of the Fund, and the average price (including brokerage commissions) of all shares purchased by the Plan Agent will be the price per share allocable to each participant. In the event a participant's voluntary cash investment check is returned unpaid for any reason, the participant will be charged a \$20.00 return fee.

Participants in the Plan may withdraw some or all of their shares from the Plan upon written notice or pursuant to telephonic procedures established by the Plan Agent and will receive stock certificates for all full shares. The Plan Agent will convert any fractional shares to cash at the then-current market price, less a sales fee, and send a check to the participant for the proceeds. The sales fee payable will be the lesser of \$10 or the net proceeds from the sale of the fractional share. If the transaction fee and commissions exceed the proceeds from the sale of the fractional share, participants will receive a transaction advice instead of a check. If, by giving proper notice to the Plan Agent, participants request cash in lieu of shares upon any withdrawal from the Plan, the Plan Agent will sell the shares and send the participant the proceeds, less a sales fee of \$10 plus brokerage commissions of \$0.10 per share.

The Fund or the Plan Agent reserves the right to amend or terminate the Plan either in full or partially upon 90 days' written notice to each Plan participant.

All questions concerning the Plan should be directed to the Plan Agent, The Bank of New York, Shareholder Relations Department, P.O. Box 11258, Church Street Station, New York, NY 10286 or by calling 1-800-432-8224.

(3) Aberdeen recognizes the need to provide a competitive compensation package in order to attract and retain high calibre staff. In addition to an attractive base salary and performance-related bonus, investment professionals also receive a competitive benefits package and participation in a company-wide stock ownership plan. Key executives participate in a substantial stock option plan; also cash-backed and equity-backed long-term incentive plans. The Portfolio Manager does not receive compensation from additional sources. In addition, the Portfolio Manager receives no difference in compensation between work done for the Registrant or other accounts. A description of the various compensation plans is provided below:

Executive Share Option Plan. The Aberdeen Group has an executive share option plan. Options are granted based on assessment of the individual's expected contribution to future Aberdeen Group performance. Options are granted for no consideration. Options granted may only be exercised once the Aberdeen Group's Remuneration Committee is satisfied that the prescribed performance criteria are met. The criteria have been chosen as being reflective of success in the industry sector within which the Aberdeen Group operates. The criteria have also been deemed to be appropriate in order to achieve the goal of delivering good returns to clients and shareholders alike.

Share Incentive Plan. The Share Incentive Plan is intended to encourage ownership of shares of Aberdeen PLC by employees of the Aberdeen Group, and is available to all executive directors and employees of the Aberdeen Group, thus aligning their interests with those of the shareholders. All executive directors and employees who have been employed for a minimum period of 12 months may participate in the Share Incentive Plan.

Pension. The Aberdeen Group offers a contributory money purchase pension plan to which the employer's contribution is 15% of basic salary and the employee contributes 5%. Once an employee becomes a member of the Aberdeen Group's pension plan, the Aberdeen Group will provide life insurance coverage that provides death-in-service benefits.

Deferred Bonus. During 2003, the Aberdeen Group implemented a deferred bonus plan designed to encourage the retention of certain key employees identified as critical to the Aberdeen Group's achievement of its long-term goals. An employee benefit trust was established and funded for the purpose of paying potential awards under this plan. Deferred payments made in the form of cash bonuses will be paid to qualifying employees over a three year period from 2004 to 2006.

Long Term Incentive Plan (LTIP). The LTIP is administered by an independent professional trustee. Under the LTIP, an award made by the trustee to an eligible participant may take one of the following two forms:

1. The right to acquire a specified number of shares. The number of shares which may be acquired will be determined by the performance of the Aberdeen Group over the relevant measurement period; or
2. The acquisition of shares by a participant at the time the award is made. The participant's ownership of any shares is contingent upon the satisfaction of the Aberdeen Group's performance targets.

In each case, the rules of the LTIP will ensure that the participant does not acquire ownership of the relevant shares until the end of the measurement period and then only to the extent that the performance targets have been satisfied.

Performance is reviewed on a formal basis once a year and this review influences individual staff members' subsequent remuneration. The review process looks at all of the ways in which an individual has contributed to the organization, and specifically, in the case of investment managers, to the investment team. Discretionary bonuses are based on a combination of the team and the individual's performance, as well as industry comparatives and the Aberdeen Group's performance as a whole. The weighting of these factors varies and overall participation in team meetings, generation of original research ideas and contribution to presenting the team externally are also contributory factors. Discretionary bonuses generally range from 10% to 50% of a portfolio manager's annual salary; equity incentives could provide a substantially greater part of compensation over the longer term (3 years or more).
