**LG.PHILIPS LCD REPORTS FIRST QUARTER 2007 RESULTS**

SEOUL, Korea April 10, 2007 LG.Philips LCD [NYSE: LPL, KRX: 034220], one of the world's leading TFT-LCD manufacturers, today reported unaudited earnings results based on consolidated Korean GAAP for the three-month period ended March 31, 2007. Amounts in Korean Won (KRW) are translated into US dollars (USD) at the noon buying rate in effect on March 30, 2007, which was KRW 941 per US dollar.

Sales in the first quarter of 2007 decreased by 11% to KRW 2,722 billion (USD 2,893 million) from sales of KRW 3,065 billion (USD 3,257 million) in the fourth quarter of 2006 and increased 10% compared to KRW 2,471 billion (USD 2,626 million) in the first quarter of 2006.

Operating loss in the first quarter of 2007 was KRW 208 billion (USD 221 million) compared to an operating loss of KRW 177 billion (USD 188 million) in the fourth quarter of 2006, and an operating profit of KRW 52 billion (USD 55 million) in the first quarter of 2006.

EBITDA in the first quarter of 2007 was KRW 515 billion (USD 547 million), a decrease of 8% from KRW 559 billion (USD 594 million) in the fourth quarter of 2006 and a year-over-year decline of 23% from KRW 670 billion (USD 712 million) in the first quarter of 2006.

Net income in the first quarter of 2007 was a loss of KRW 169 billion (USD 180 million) compared to a loss of KRW 174 billion (USD 185 million) in the fourth quarter of 2006 and a profit of KRW 48 billion (USD 51 million) in the first quarter of 2006. Young Soo Kwon, CEO of LG.Philips LCD, said, "During the first quarter, our sales performance was encouraging, particularly in the TV and notebook PC segments, as the supply/demand environment improved and pricing began to stabilize. While we are pleased with these results, we continue to direct our resources on a number of key areas that we believe will bring about long-term shareholder value creation.

First, our efforts to better collaborate with our customers continue to pay off, as exemplified by major customers ranking us among their top suppliers. Second, our continued focus on intensive cost reduction resulted in a sequential 9% decrease in cost of goods sold on a square meter basis. Third, our finished goods inventory levels came in at approximately two weeks at the end of the quarter. Lastly, our approach to CAPEX has made certain that investments specifically correspond with market demand.

Mr. Kwon continued, "While the first quarter presented many of the same industry-wide challenges that have been affecting the Company for the past several quarters, there are a few recent trends that are now positively impacting the industry: consumers are demanding LCDs over plasma display panels due to superior technology at comparative pricing in the 40" TV segment; and the industry is taking a more conservative and realistic approach to production and capital spending. We expect that going forward these dynamics will bring further strength to the market and are indicative of an industry turnaround in the very near future.

## **First Quarter Financial Review**

### *Revenue and Cost*

Revenue for the three-month period ended March 31, 2007, increased by 10% to KRW 2,722 billion (USD 2,893 million) from KRW 2,471 billion (USD 2,626 million) for the corresponding period of 2006. TFT-LCD panels for TVs, monitors, notebook PCs and other applications accounted for 45%, 28%, 22% and 5%, respectively, on a revenue basis in the first quarter of 2007.

Overall, the Company shipped a total of 2.2 million square meters of net display area in the first quarter of 2007, a 1% decrease quarter-on-quarter. The average selling price per square meter of net display shipped was USD 1,287, which was a decrease of approximately 9% compared to the average of the fourth quarter of 2006. The ending average selling price per square meter was USD 1,246, a decrease of approximately 10% compared to the end of the fourth quarter of 2006.

The total cost of goods sold decreased 10% sequentially to KRW 2,771 billion (USD 2,945 million), and increased 21% year-over-year. The sequential decrease is largely attributable to cost reduction. The cost of goods sold per square meter of net display area shipped was KRW 1.2 million (USD 1,314) for the first quarter of 2007, down 9% from the fourth quarter of 2006.

### *Liquidity*

As of March 31, 2007, LG.Philips LCD had KRW 980 billion (USD 1,041 million) of cash and cash equivalents. Total debt was KRW 4,332 billion (USD 4,604 million), and the net debt-to-equity ratio was 50% as of March 31, 2007, compared to 46% as of December 31, 2006.

### *Capital Spending*

Capital expenditures in the first quarter of 2007 were KRW 492 billion (USD 523 million) compared to KRW 845 billion (USD 898 million) in the first quarter of 2006, and were largely for P7 and the Poland module plant.

### *Utilization and Capacity*

Total input capacity on an area basis decreased approximately 4% sequentially in the first quarter. This decrease was largely due to reduction of production.

## **Outlook**

The following expectations are based on information as of April 10, 2007. The Company does not expect to update its expectations until next quarter's earnings announcement. However, the Company reserves the right to update its full business outlook, or any portion thereof, at any time and for any reason.

Generally, our results in the first quarter of 2007 came in better than the guidance provided last quarter. Looking ahead, we expect continued execution on our core operational drivers and a healthier market situation. This will have a direct and positive impact on our sequential improvement in profitability, said Ron Wirahadiraksa, CFO of LG.Philips LCD.

For the second quarter of 2007, in the TV segment we expect shipments to increase by a high twenties percentage with an average and ending ASP decline of a mid-single digit percentage. In

the IT segment, we anticipate shipments to increase by a low teens percentage with an average ASP decline of a low-single digit percentage and an ending ASP increase of a mid-single digit percentage. Overall, we expect shipments in the second quarter of 2007 to increase by a high teens percentage with an average ASP decline of a mid-single digit percentage and an ending ASP decline of a low-single digit percentage. Our COGS reduction per square meter is expected to be a low teens percentage in the second quarter. As a result, EBITDA margin for the second quarter of 2007 is expected to be a low twenties percentage. As previously discussed, we plan to maintain our capital expenditures in 2007 at approximately KRW 1 trillion, and expect to increase P7 input capacity to 110,000 input sheets per month in the third quarter, gearing us up for the anticipated demand increase in the second half of the year. Mr. Wirahadiraksa concluded.

**Earnings Conference and Conference Call**

LG.Philips LCD will hold a Korean language earnings conference on April 10, 2007, at 4:30 p.m. Korea Standard Time on the 21<sup>st</sup> floor, in the Main Conference Room of the Korea Exchange Building (KRX). An English language conference call will follow at 9:00 p.m. Korea Standard Time, 8:00 a.m. EDT and 12:00 p.m. GMT. The call-in number is +82 (0)31-810-3001 for both callers in Korea and callers outside of Korea. The confirmation number is 3777. Corresponding slides will be available at the Investor Relations section of the LG.Philips LCD web site: <http://www.lgphilips-lcd.com>

Investors can listen to the conference call via the Internet at <http://www.lgphilips-lcd.com>. To listen to the live call, please go to the Investor Relations section of the web site at least 15 minutes prior to the call to register and install any necessary audio software.

For those who are unable to participate in the call, a replay will be available for 30 days after the call. The call-in number is 031-810-3100 for callers in Korea and +82-31-810-3100 for callers outside of Korea. The confirmation number for the replay is 91448#.

**About LG.Philips LCD**

LG.Philips LCD Co., Ltd. [NYSE: LPL, KRX: 034220] is a leading manufacturer and supplier of thin-film transistor liquid crystal display (TFT-LCD) panels. The Company manufactures TFT-LCD panels in a wide range of sizes and specifications for use in TVs, monitors, notebook PCs, and various applications. LG.Philips LCD currently operates seven fabrication facilities and four back-end assembly facilities in Korea, China and Poland. In addition, LG.Philips LCD has sales and representative offices in ten countries and has approximately 23,000 employees globally. Please visit <http://www.lgphilips-lcd.com> for more information.

to

shareholders,

in

our

proxy

statements,

in

our

offering

circulars

and

prospectuses,

in

press

releases

and

other

written

materials  
and  
in  
oral  
statements  
made  
by  
our  
officers,  
directors  
or  
employees  
to  
third  
parties.  
Statements  
that  
are  
not  
historical  
facts,  
including  
statements  
about  
our  
beliefs  
and  
expectations,  
are  
forward-looking  
statements.  
These  
statements  
are  
based  
on  
current  
plans,  
estimates  
and  
projections,  
and  
therefore  
you  
should  
not  
place  
undue  
reliance  
on

them.

Forward-looking  
statements

speak

only

as

of

the

date

they

are

made,

and

we

undertake

no

obligation

to

update

publicly

any

of

them

in

light

of

new

information

or

future

events.

Forward-looking

statements

involve

inherent

risks

and

uncertainties.

We

caution

you

that

a

number

of

important

factors

could

cause

actual

results  
to  
differ  
materially  
from  
those  
contained  
in  
any  
forward-looking  
statement.  
Such  
factors  
include,  
but  
are  
not  
limited  
to:  
our  
highly  
competitive  
environment;  
the  
cyclical  
nature  
of  
our  
industry;  
our  
ability  
to  
introduce  
new  
products  
on  
a  
timely  
basis;  
our  
dependence  
on  
growth  
in  
the  
demand  
for  
our  
products;  
our

ability  
to  
successfully  
execute  
our  
expansion  
strategy;  
our  
dependence  
on  
key  
personnel;  
and  
general  
economic  
and  
political  
conditions,  
including  
those  
related  
to  
the  
TFT-LCD  
industry;  
possible  
disruptions  
in  
business  
activities  
caused  
by  
natural  
and  
human-induced  
disasters,  
including  
terrorist  
activity  
and  
armed  
conflict;  
and  
fluctuations  
in  
foreign  
currency  
exchange  
rates.  
Additional

information  
as  
to  
these  
and  
other  
factors  
that  
may  
cause  
actual  
results  
to  
differ  
materially  
from  
our  
forward-looking  
statements  
can  
be  
found  
in  
our  
filings  
with  
the  
United  
States  
Securities  
and  
Exchange  
Commission.  
This  
presentation  
also  
includes  
information  
regarding  
our  
historical  
financial  
performance  
through  
March  
31,  
2007,  
and  
our  
expectations

regarding  
future  
performance  
as  
reflected  
in  
certain  
non-GAAP  
financial  
measures  
as  
defined  
by  
United  
States  
Securities  
and  
Exchange  
Commission  
rules.

As  
required  
by  
such  
rules,  
we  
have  
provided  
a  
reconciliation  
of  
those  
measures  
to  
the  
most  
directly  
comparable  
GAAP  
measures,  
which  
is  
available  
on

EBITDA Reconciliation

EBITDA Reconciliation

23

EBITDA Reconciliation (Continued)

EBITDA Reconciliation (Continued)

EBITDA is defined as net income (loss) plus: interest income (expense); provision (benefit) for income taxes; depreciation of property, plant and equipment; amortization of intangible assets; and amortization of debt issuance cost. EBITDA is a key financial measure used by our senior management to internally evaluate the performance of our business and for other required or discretionary purposes.

We believe that the presentation of EBITDA will enhance an investor's understanding of our operating performance as we believe it is commonly reported and widely used by analysts and investors in our industry. It also provides useful information for comparison on a more comparable basis of our operating performance and those of our competitors, who follow different accounting policies.

EBITDA is not a measure determined in accordance with U.S. GAAP.

EBITDA should not be considered as an alternative to operating income, cash flows from operating activities or net income, as determined in accordance with U.S. GAAP. Our calculation of EBITDA may not be comparable to similarly titled measures reported by other companies.
