AMPEX CORPORATION

NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS

Note 1 Ampex Corporation

Ampex Corporation (Ampex or the Company) is a leading innovator and licensor of visual information technology. During its 63-year history, the Company has developed substantial proprietary technology relating to the electronic storage, processing and retrieval of data, particularly images. The Company currently holds patents and patent applications covering digital image-processing, data compression and recording technologies. The Company leverages its investment in technology through its corporate licensing division, which licenses its patents to manufacturers of consumer electronics products. Through its wholly-owned subsidiary, Ampex Data Systems Corporation (Data Systems), the Company develops and incorporates technology in the design and manufacture of very high performance data storage products, principally used in defense applications to gather digital images and other data from aircraft, satellites and submarines. These products are also used in flight and sensor test applications.

As discussed below in Note 3, on March 30, 2008, Ampex and certain of its U.S. subsidiaries (the Debtors) filed voluntary petitions for relief under chapter 11 of title 11 of the United States Code (the Bankruptcy Code) in the United States Bankruptcy Court for the Southern District of New York (the Bankruptcy Court). The accompanying consolidated financial statements have been prepared assuming the Company will continue as a going concern once it emerges from chapter 11. The Company's ability to continue as a going concern is dependent upon, among other things, its ability to successfully restructure its indebtedness and to emerge from bankruptcy with viable and profitable operations and with adequate liquidity. The Company believes the chapter 11 reorganization will achieve these objectives. On or about March 30, 2008, the Debtors filed a pre-negotiated plan of reorganization (as amended, the Plan) and related disclosure statement (as amended, the Disclosure Statement). The Bankruptcy Court approved the Disclosure Statement, as amended, on June 11, 2008, and authorized the Debtors to solicit votes to accept or reject the Plan from certain creditors. Solicitation commenced on June 18, 2008. On July 9, 2008, the Debtors filed a modified Plan which incorporated, among other things, certain changes to the lump sum cash payment election available to the holders of allowed general unsecured claims (the Plan Modifications). On July 14, 2008, the Bankruptcy Court approved a supplement to the Disclosure Statement related to the Plan Modifications and authorized the re-solicitation of the holders of certain general unsecured claims. Prior to filing petitions for relief under chapter 11, the Debtors negotiated the terms of the Plan with and obtained the support of the Consenting Holders and subsequently received the support of the Creditors' Committee. This support is evidenced by the Plan Support Agreement (as amended from time to time, the PSA).

All creditors entitled to vote on the Plan overwhelmingly voted in favor of the Plan. On July 31, 2008, the Bankruptcy Court entered an order confirming the Plan. The Debtors anticipate that all remaining conditions to consummation of the Plan will be able to be satisfied and that Ampex and its U.S. subsidiaries will emerge from chapter 11 within the next few months.

The consolidated financial statements as of June 30, 2008 and December 31, 2007 do not give effect to any adjustments in the carrying values of assets or liabilities that will be recorded upon implementation of the Plan and the adoption of fresh-start accounting. Legal expenses incurred in connection with the restructuring of the 12% Senior Notes due August 15, 2008 (the Senior Notes) and the Notes issued to Hillside Capital Incorporated (the Hillside Notes) and in preparing for the Chapter 11 Cases, have been reported separately as Reorganization Costs in the consolidated statements of operations.

The Company believes that it will emerge from chapter 11 before the end of the year with a viable capital structure and with sufficient liquidity for it to continue operating as a going concern, but cannot give assurances that it will do so, due to uncertainties inherent in the bankruptcy process. The consolidated financial statements do not include any adjustments that might be required should the Company be unable to continue to operate as a going concern.

The consolidated financial statements as of June 30, 2008 and December 31, 2007, reflect all of the Company's debt under its credit agreements as current liabilities since under their respective indentures, filing a bankruptcy petition may give rise to an event of default.

AMPEX CORPORATION

NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS (Continued)

Note 2 Summary of Significant Accounting Policies

Basis of Presentation

The accompanying consolidated financial statements include the accounts of the Company and its subsidiaries. Intercompany accounts and transactions have been eliminated. Interim information included herein has been prepared by the Company, without audit, pursuant to the rules and regulations of the Securities and Exchange Commission for reporting on Form 10-Q. Certain information and footnote disclosures normally included in financial statements prepared in accordance with generally accepted accounting principles have been condensed or omitted pursuant to such rules and regulations. In addition, certain reclassifications have been made to the prior period financial statements to conform to the current period's presentation. The statements should be read in conjunction with the Company's report on Form 10-K for the year ended December 31, 2007, and the Audited Consolidated Financial Statements included therein.

In the opinion of management, the financial statements reflect all adjustments (consisting only of normal recurring adjustments) necessary for a fair presentation of financial position, results of operations and cash flows for the interim periods presented. The results of operations for the three and six month periods ended June 30, 2008, are not necessarily indicative of the results to be expected for the full year. With effect from the March 30, 2008 bankruptcy filing date, the accompanying consolidated financial statements were prepared in accordance with Statement of Position 90-7, Financial Reporting by Entities in Reorganization Under the Bankruptcy Code (SOP 90-7). Accordingly, all pre-petition liabilities subject to compromise were segregated in the condensed consolidated balance sheet and classified as liabilities subject to compromise at the estimated amounts of allowable claims. Reorganization costs, which included legal expenses incurred in connection with negotiations to restructure the Senior Notes and the Hillside Notes (defined below in Note 3) as well as expenses incurred in connection with the Chapter 11 Cases, have been reported separately as Reorganization Costs in the Company's consolidated statements.

The financial statements presented in this Form 10-Q do not include any adjustments to the carrying values of assets or liabilities or to the classification of debt that might result from any debt restructuring or plan of reorganization that might ultimately be approved by the Bankruptcy Court as more fully described in Note 3 nor the adoption of fresh start accounting upon emergence from the Chapter 11 Cases.

Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires Management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of net revenue and expenses during the reporting period. Actual results could differ from those estimates. Management's more significant judgments and estimates used in the preparation of its consolidated financial statements include revenue recognition, accounts receivable, inventories, deferred taxes, warranty reserves, pension liabilities, valuation of long-lived assets and investments, contingencies and environmental liabilities.

Cash Equivalents and Short-term Investments

Highly liquid investments with original maturities of three months or less are classified as cash equivalents. Highly liquid investments with maturities greater than three months and less than one year are classified as short-term investments. Management determines the appropriate classification of its investments in debt and marketable equity securities at the time of purchase and reevaluates such designation as of each balance sheet date. The Company's debt and marketable equity securities have been classified and accounted for as available-for-sale. These securities are carried at fair value, with the unrealized gains and losses, net of taxes, reported as a component of shareholders' deficit. The cost of securities sold is based upon the specific identification method.

Table of Contents

AMPEX CORPORATION

NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS (Continued)

Long-Term Investments

The Company owns a 1.5% minority equity investment in a private company that is carried on the cost method. The company conducts research and development and performs contract engineering services for the U.S. Department of Defense and high technology industries. The carrying value of this investment amounted to \$225,000 at June 30, 2008 and December 31, 2007 and is included in other long-term assets. This investment is inherently risky because the products and technologies in development are not fully commercialized. The Company monitors its investment for impairment on a periodic basis. In the event that the carrying value of an investment exceeds its fair value and the decline in value is determined to be other-than-temporary, the Company records an impairment charge and establishes a new cost basis for the investment at its current fair value. In order to determine whether a decline in value is other-than-temporary, the Company evaluates the duration and extent to which the fair value has been less than the carrying value, the financial condition of and business outlook for the company and the Company's intent and ability to retain the investment for a period of time sufficient to allow for any anticipated recovery in fair value.

Inventories

Inventories are stated at the lower of cost or market. Cost is determined on a standard cost basis, which approximates actual cost under the first in, first out method. Abnormal amounts of facility expense, freight, handling costs and scrap material are excluded from inventory cost and expensed during the period in which they are incurred. Appropriate consideration is given to obsolescence, excessive levels, deterioration and other factors in evaluating net realizable value.

Property, Plant and Equipment

Property, plant and equipment are recorded at cost and stated net of accumulated depreciation. Depreciation is computed on a straight-line basis over the estimated useful lives of the assets ranging from three to nine years for furniture, fixtures and equipment, two to ten years for leasehold improvements, which represents the shorter of the lease term or the estimated useful lives. When assets are disposed of, the cost and related accumulated depreciation are removed from the accounts and the resulting gains or losses are included in the results of operations.

Warranty

Products sold are generally covered by a warranty for periods ranging from 90 days to one year. The Company accrues a warranty reserve at the time of sale for estimated costs to provide warranty services. The Company's estimate of costs to service its warranty obligation is based on historical experience and expectation of future conditions. To the extent the Company experiences increased warranty claim activity or increased costs associated with servicing those claims, its warranty accrual will increase, resulting in decreased gross profit.

Environmental Liabilities

The Company's facilities and business practices are subject to numerous federal, state and local laws and regulations designed to protect the environment from waste emissions and hazardous substances. Also, the Company may have continuing liability with respect to environmental contamination related to the facilities and disposal activities of its former subsidiary Media (Media). The Company recognizes a liability for any contingency that is probable of occurrence and reasonably estimable in accordance with American Institute of Certified Public Accountants (the AICPA) Statement of Position No. 96-1, Environmental Remediation Liabilities. The Company continually assesses these contingencies based on a careful analysis of each matter with the assistance of outside legal counsel and, if applicable, other experts. Such analysis includes making judgments concerning matters such as the extent of environmental damage and the Company's pro rata participation, if applicable, the most desirable remediation techniques and the time period during which the cleanup costs may be incurred. Because most contingencies are resolved over long periods of time, liabilities may change in the future due to new developments or other changes. In the second quarter of 2008, the Company increased its reserve for environmental remediation costs related to the Seaboard site based on terms contained in a settlement agreement subject to approval by the Bankruptcy Court. Given the uncertainties regarding the status of laws, regulations, enforcement policies, the impact of other potentially responsible parties, technology and information related to individual sites, the Company does not believe it is possible to develop an estimate of the range of reasonably possible environmental loss in excess of its accruals.

Table of Contents

AMPEX CORPORATION

NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS (Continued)

Foreign Currency Translation

Assets and liabilities of subsidiaries located outside the United States have been translated at rates in effect at the end of the reporting period. Revenues and expenses are translated at average rates during the period. Local currencies are considered to be the functional currencies for all of the Company's foreign subsidiaries. Accordingly, the effects of translating the financial statements of foreign subsidiaries into U.S. dollars are reported in the cumulative translation adjustment, a separate component of stockholders' deficit and comprehensive income (loss). Foreign currency transaction gains and losses, which are included in other expense, were not material in the periods reported.

Revenue Recognition

The Company recognizes revenue in accordance with applicable accounting standards including Staff Accounting Bulletin (SAB) No. 104, Revenue Recognition and the AICPA Statement of Position No. 97-2, Software Revenue Recognition, as amended. Revenue is recognized when (1) persuasive evidence of an arrangement exists, (2) delivery and, where applicable, acceptance has occurred or services have been rendered, (3) the fee is fixed or determinable, and (4) collection is reasonably assured. The Company derives its revenue from two principal sources: license fees (including royalties) through its Licensing segment, and product and parts sales and service contracts through its Recorders segment.

Determination of criteria (3) and (4) are based on Management's judgments regarding the fixed nature of the fee charged for services rendered and products delivered and the collectibility of those fees. Should changes in conditions cause Management to determine these criteria are not met for certain future transactions, revenue recognized for any reporting period could be adversely affected.

The Company's revenue recognition policy with respect to royalty income is as follows: when the Company enters into an agreement with a new licensee for use of its patents, the Company may receive settlement of past due royalties. This is a negotiated amount and is typically paid by the licensee within 30 days of signing the license agreement. Past due royalties cover the licensee's product shipments from the period when they were first notified of infringement up through the effective date of the license. The Company may also negotiate a prepayment of royalties that would otherwise be due up to a specific future date. The dollar amounts due under a negotiated agreement for both past due royalties and for prepayment of royalties are non-refundable and non-forfeitable. The Company recognizes both past due and prepayment amounts as revenue in the period when the agreement has been executed by both parties, which is when there is persuasive evidence of an arrangement, fees become fixed or determinable and collection becomes probable, as the Company has no future obligations with respect to these agreements and delivery has occurred. Alternatively, the Company's licensing agreement may include a running royalty which covers products shipped by the licensee after the date that the license agreement has been entered into and until the patent has expired or when the patent is no longer contractually available to the licensee, if shorter. The Company's running royalties are computed as a percentage of the selling price of the licensee's products and are paid quarterly in arrears and recognized as revenue at the time the amount of the quarterly royalty payment becomes determinable, generally upon receipt of the licensee's sales report upon which royalties are determined, and collection is reasonably assured.

Revenue on product sales and services is recorded when all of the following have occurred: an agreement of sale exists, product delivery (principally FOB Ampex Factory) and acceptance has occurred or services have been rendered, pricing is fixed or determinable, and collection is reasonably assured. Prepaid service revenue is recognized ratably over the life of the service contract.

Table of Contents

AMPEX CORPORATION

NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS (Continued)

Pension and Other Post-Retirement Benefits/Obligations

The Company adopted Statement of Financial Accounting Standards (SFAS) No. 158, Employers' Accounting for Defined Benefit Pension and Other Postretirement Plans, an amendment of Financial Accounting Standards Board (FASB) Statements No. 87, 88, 106 and 132(R), as of December 31, 2006. Under SFAS No. 158, the funded status of each pension and other postretirement benefit plan is required to be reported as an asset (for overfunded plans) or a liability (for underfunded plans). The Company's net pension obligation (liability) reflected in the Consolidated Balance Sheets under SFAS No. 87 was equal to the unfunded projected benefit obligation determined under SFAS No. 158; accordingly, the implementation of SFAS No. 158 had no impact on the Company's Consolidated Balance Sheets or Statements of Operations and Comprehensive Income (Loss). The determination of the Company's obligation and expense for pension and other postretirement benefits payable to Ampex's and Media's employees and retirees is dependent on the Company's selection of certain assumptions used by actuaries in calculating such amounts. Those assumptions include, among others, the discount rate, expected long-term rate of return on plan assets and mortality assumptions for the plan participants. In accordance with SFAS No. 158, the underfunded status of the defined benefit plans is recorded as a net liability with a corresponding adjustment to accumulated other comprehensive income (AOCI) in shareholders' equity. Amounts recognized in AOCI represent unrecognized gains and losses that are expected to be amortized to pension cost over future periods.

While the Company believes that its assumptions are appropriate, significant differences in its actual experience or significant changes in the Company's assumptions that may be required under new legislation or otherwise may materially affect its pension and other postretirement obligations and its future expense as well as amounts that may ultimately be required to be paid to fund the Company's and Media pension plans.

Research, Development and Engineering

Research and development costs are expensed as incurred and amounted to \$2.6 million and \$2.3 million in the six months ended June 30, 2008 and 2007, respectively. Other engineering costs, principally incurred in connection with product introductions and process enhancements, amounted to \$1 thousand and \$0.1 million in the six months ended June 30, 2008 and 2007, respectively.

Restructuring Charges

The Company accounts for severance and benefit termination costs and other costs associated with an exit or disposal activity initiated after January 1, 2003 in accordance with SFAS No. 146, Accounting for Costs Associated with Exit or Disposal Activities. SFAS No. 146 requires that a liability for a cost associated with an exit or disposal activity be recognized and measured initially at fair value only when the liability is incurred, as opposed to when management commits to an exit plan. SFAS No. 146 also establishes that the liability should initially be measured and recorded at fair value, and subsequent adjustments to the liability shall be measured using the credit-adjusted risk-free rate that was used to measure the liability initially.

Income Taxes

The Company follows SFAS No. 109, Accounting for Income Taxes. Under this method, deferred income taxes are recognized for temporary differences by applying enacted statutory rates applicable to future years to differences between the financial statement carrying amounts and the tax basis of existing assets and liabilities. The effect on deferred taxes of a change in tax rates is recognized in income in the period that includes the enactment date. Valuation allowances are established when necessary to reduce deferred tax assets to the amounts expected to be realized. See Note 19.

Foreign withholding taxes have been provided on the undistributed earnings of foreign subsidiaries, giving recognition to applicable tax rates.

Table of Contents

AMPEX CORPORATION

NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS (Continued)

Concentrations of Credit Risk

Financial instruments that potentially subject the Company to concentrations of risk consist principally of short-term and long-term investments and trade receivables. The Company invests its temporary cash balances in U.S. treasury obligations and U.S. corporate securities and, by policy, limits the investment maturity and the amount of credit exposure to any one financial institution or type of investment. The Company performs ongoing credit evaluations on its customers, and collateral is generally not required for trade receivables.

Comprehensive Income (Loss)

Comprehensive income (loss) consists of two components, undistributed income applicable to common stockholders and other comprehensive income (loss), net of tax. Other comprehensive income (loss) refers to revenue, expenses, gains and losses that under generally accepted accounting principles are recorded as an element of total shareholders' deficit but are excluded from net income (loss). Accumulated other comprehensive income (loss), as presented on the accompanying Consolidated Balance Sheets, consists of foreign currency translation adjustments and accumulated unrecognized gains and losses under the Company's defined benefit plans.

Segment Information

The Company reports segment information based on the management approach. The management approach designates the internal reporting used by management for making decisions and assessing performance as the source of the Company's reportable segments. See Note 20.

Basic and Diluted Income (Loss) Per Share

Basic income (loss) per share is computed by dividing net income (loss) available to common shareholders by the weighted average number of basic common shares outstanding during the period. Diluted income (loss) per share is computed by dividing net income (loss) available to common shareholders by the weighted average number of basic common shares outstanding during the period increased to include the number of additional shares of common stock that would have been outstanding if the dilutive potential shares of common stock had been issued. The dilutive effect of outstanding options and restricted stock is reflected in diluted income per share by application of the treasury stock method. Under the treasury stock method, an increase in the fair market value of the Company's common stock can result in a greater dilutive effect from outstanding options and restricted stock. Additionally, the exercise of employee stock options and the vesting of restricted stock can result in a greater dilutive effect on income per share. Under the Plan, all shares of the Company's existing common stock, stock options and restricted stock awards will be canceled upon emergence from chapter 11. See Management's Discussion and Analysis of Financial Condition and Results of Operations' Plan of Reorganization.

AMPEX CORPORATION

NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS (Continued)

Stock-Based Compensation

Effective January 1, 2006, the Company adopted SFAS No. 123 (revised 2004) (SFAS No. 123R), Share-Based Payment, which addresses the accounting for stock-based payment transactions in which an enterprise receives employee services in exchange for (a) equity instruments of the enterprise or (b) liabilities that are based on the fair value of the enterprise's equity instruments or that may be settled by the issuance of such equity instruments. In January 2005, the SEC issued SAB No. 107, which provides supplemental implementation guidance for SFAS No. 123R. SFAS No. 123R eliminates the ability to account for stock-based compensation transactions using the intrinsic value method under Accounting Principles Board (APB) Opinion No. 25, Accounting for Stock Issued to Employees, and instead generally requires that such transactions be accounted for using a fair-value-based method. The Company uses the Black-Scholes-Merton (BSM) option-pricing model to determine the fair-value of stock-based awards under SFAS No. 123R, consistent with that used for pro forma disclosures provided under SFAS No. 123,

Accounting for Stock-Based Compensation. The Company has elected the modified prospective transition method as permitted by SFAS No. 123R and, accordingly, prior periods have not been restated to reflect the impact of SFAS No. 123R. The modified prospective transition method requires that stock-based compensation expense be recorded for all new and unvested stock options and restricted stock that are ultimately expected to vest as the requisite service is rendered beginning on January 1, 2006. Stock-based compensation expense for awards granted prior to January 1, 2006 is based on the grant date fair-value as determined under the pro forma provisions of SFAS No. 123. The Company has recorded incremental stock-based compensation expense of \$194 thousand and \$186 thousand, included in selling and administrative expenses, during the six months ended June 30, 2008 and 2007, respectively, as a result of the adoption of SFAS No. 123R. In accordance with SFAS No. 123R, beginning in the first quarter of 2006 the Company has not recognized excess tax benefits realized from the exercise of stock-based compensation awards as a financing activity in the Consolidated Statements of Cash Flows due to its net operating loss position.

No stock-based compensation costs were capitalized as part of the cost of an asset as of June 30, 2008. Deferred tax assets recorded in connection with stock-based compensation expenses for financial statement purposes have been offset by a corresponding valuation reserve. As of June 30, 2008, \$252 thousand of total unrecognized compensation cost related to unvested outstanding stock options and restricted stock is expected to be recognized over the next seven quarters.

Prior to the adoption of SFAS No. 123R, the Company measured compensation expense for its employee stock-based compensation plans using the intrinsic value method prescribed by APB Opinion No. 25. The Company applied the disclosure provisions of SFAS No. 123 as amended by SFAS No. 148, Accounting for Stock-Based Compensation Transition and Disclosure as if the fair-value-based method had been applied in measuring compensation expense. Under APB Opinion No. 25, when the exercise price of the Company's employee stock options was equal to the market price of the underlying stock on the date of the grant, no compensation expense was recognized.

Fair Value of Financial Instruments

For certain instruments that are short-term in nature, such as cash and cash equivalents, short-term investments and working capital facilities, carrying value approximates fair value. The Company's Senior Notes have been valued at approximately par value at June 30, 2008 and December 31, 2007 by the Company; however no securities have traded recently in the secondary market. Management has determined that it is not practical to estimate the fair value of the Hillside Notes and note payable-other, as no market for such instruments currently exists. See Note 13.

Recent Pronouncements

In July 2006, the FASB issued FASB Interpretation No. 48, Accounting for Uncertainty in Income Taxes, an interpretation of FASB Statement No. 109 (FIN 48). FIN 48 clarifies the accounting for uncertainty in income taxes by prescribing the recognition threshold a tax position is required to meet before being recognized in the financial statements. It also provides guidance on derecognition, classification, interest and penalties, accounting in interim periods, disclosure, and transition. FIN 48 is effective for fiscal years beginning after December 15, 2006 and was adopted by the Company on a prospective basis in the first quarter ended March 31, 2007. The adoption of FIN 48 did not have any effect on its financial statements.

Table of Contents**AMPEX CORPORATION****NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

In September 2006, the FASB issued SFAS No. 157, Fair Value Measurements (SFAS 157). SFAS 157 provides guidance for using fair value to measure assets and liabilities. It also responds to investors' requests for expanded information about the extent to which companies measure assets and liabilities at fair value, the information used to measure fair value, and the effect of fair value measurements on earnings. SFAS 157 applies whenever other standards require (or permit) assets or liabilities to be measured at fair value, and does not expand the use of fair value in any new circumstances. SFAS 157 is effective for financial instruments beginning in January 2008 and non-financial instruments beginning in January 2009 and was adopted by the Company in the quarter ended March 31, 2008. The adoption of SFAS 157 did not have a material effect on its consolidated results of operations and financial conditions.

In February 2007, the FASB issued SFAS No. 159, The Fair Value Option for Financial Assets and Financial Liabilities Including an amendment of FASB Statement No. 115 (SFAS 159). SFAS 159 expands the use of fair value accounting but does not affect existing standards which require assets or liabilities to be carried at fair value. Under SFAS 159, a company may elect to use fair value to measure accounts and loans receivable, available-for-sale and held-to-maturity securities, equity method investments, accounts payable, guarantees and issued debt. Other eligible items include firm commitments for financial instruments that otherwise would not be recognized at inception and non-cash warranty obligations where a warrantor is permitted to pay a third party to provide the warranty goods or services. If the use of fair value is elected, any upfront costs and fees related to the item must be recognized in earnings and cannot be deferred, e.g., debt issue costs. The fair value election is irrevocable and generally made on an instrument-by-instrument basis, even if a company has similar instruments that it elects not to measure based on fair value. At the adoption date, unrealized gains and losses on existing items for which fair value has been elected are reported as a cumulative adjustment to beginning retained earnings. Subsequent to the adoption of SFAS 159, changes in fair value are recognized in earnings. SFAS 159 is effective for fiscal years beginning after November 15, 2007 and was adopted by the Company in the first quarter of fiscal 2008. The Company has not elected to expand the use of fair value accounting to any of its eligible items. Accordingly, the adoption of SFAS 159 did not have a material effect on its consolidated results of operations and financial condition.

In December 2007, the FASB issued SFAS No. 141R, Business Combinations (SFAS 141R). SFAS 141R requires the acquiring entity in a business combination to recognize all the assets acquired and liabilities assumed in the transaction at fair value as of the acquisition date. SFAS 141R is effective for business combinations for which the acquisition date is on or after the beginning of the first annual reporting period beginning on or after December 15, 2008. The Company is required to adopt SFAS 141R in the first quarter of 2009.

Note 3 Plan of Reorganization

As discussed above in Note 1, on March 30, 2008, the Company filed voluntary petitions for relief under chapter 11 of the Bankruptcy Code in the United States Bankruptcy Court for the Southern District of New York. The Company is operating its business as a debtor-in-possession under the jurisdiction of the Bankruptcy Court and in accordance with the provisions of the Bankruptcy Code. On April 16, 2008, the United States Trustee for the Southern District of New York appointed a committee to represent the interests of unsecured creditors in the Debtors' chapter 11 cases (the Chapter 11 Cases). On March 31, 2008, April 1, 2008, and April 22, 2008, the Bankruptcy Court entered certain orders that permit the Debtors to pay certain prepetition employee salary and benefit obligations, as well as certain vendor obligations. On March 31, 2008, the Bankruptcy Court also entered an order authorizing the Debtor to continue to honor its customer warranties and other programs in the ordinary course of business. On June 26, 2008, the Bankruptcy Court approved a stipulation among the Debtors and certain creditors holding a majority of its secured debt and its largest unsecured creditor (the Consenting Holders) authorizing the use of cash claimed as collateral (Cash Collateral) by such lenders, subject to certain terms and conditions.

On or about March 30, 2008, the Debtors filed a pre-negotiated plan of reorganization (as amended, the Plan) and related disclosure statement (as amended, the Disclosure Statement). The Bankruptcy Court approved the Disclosure Statement, as amended, on June 11, 2008, and authorized the Debtors to solicit votes to accept or reject the Plan from certain creditors. Solicitation commenced on June 18, 2008. On July 9, 2008, the Debtors filed a modified Plan which incorporated, among other things, certain changes to the lump sum cash payment election available to the holders of allowed general unsecured claims (the Plan Modifications). On July 14, 2008, the Bankruptcy Court approved a supplement to the Disclosure Statement related to the Plan Modifications and authorized the re-solicitation of the holders of certain general unsecured claims. Prior to filing petitions for relief under chapter 11, the Debtors negotiated the terms of the Plan with and obtained the support of the Consenting Holders and subsequently received the support of the Creditors' Committee. This support is evidenced by the Plan Support Agreement (which has been amended from time to time, the PSA).

AMPEX CORPORATION

NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS (Continued)

All creditors entitled to vote on the Plan overwhelmingly voted in favor of the Plan. On July 31, 2008, the Bankruptcy Court entered an order confirming the Plan. The Debtors anticipate that all remaining conditions to consummation of the Plan will be able to be satisfied and that Ampex and its U.S. subsidiaries will emerge from chapter 11 within the next few months. However, there are a number of risks related to consummation of the Plan that could impact the Company's ability to continue as a going concern. See Risk Factors.

The overall purpose of the Plan is to provide for the restructuring of the Company's liabilities in a manner designed to maximize recovery to all stakeholders and to enhance the financial viability of the newly reorganized Ampex Corporation after it emerges from chapter 11 (Reorganized Ampex) by de-leveraging the Company, providing additional liquidity and arranging a long-term financing solution to future pension contributions that does not over-leverage the Company in future years. At June 30, 2008, the Company had outstanding debt totaling \$62.6 million, which consisted of \$7.1 million of 12% Senior Notes due August 15, 2008 (Senior Notes), and \$55.5 million of principal and interest outstanding on certain secured notes (the Hillside Notes) issued to Hillside Capital Incorporated (Hillside), a former affiliate of the Company. Under the terms of the Hillside Notes, \$4.7 million is due currently and another \$4.5 million of principal and interest is due at various times in 2008. Substantial debt service under the Hillside Notes is due in 2009 and beyond. As more fully explained in Note 13, the Hillside Notes were issued pursuant to the terms of a funding agreement by and between Hillside, the Company, and certain other parties, in connection with a settlement between the Company, Hillside and the PBGC whereby Hillside is jointly and severally obligated along with Ampex to make pension contributions under the Ampex and Media pension plans in the event that the Company is unable to make such payments. Pension contributions under these plans from 2008 through 2013 are estimated to total \$44 million.

Under the terms of the Plan, the Debtors and Hillside are agreeing to enter into a credit agreement (the Credit Agreement) which generally consists of three components: (1) obligations to satisfy existing secured debts; (2) new borrowings; and (3) any future obligations incurred in connection with Hillside's payment of required contributions or termination liability under the pension plans. Pursuant to the terms of the Plan and the PSA, Hillside will agree to accept the Debtors' obligation to repay \$10.5 million under the Credit Agreement in full and final satisfaction of its \$11 million secured claim against the Debtors on account of the Hillside Notes. The remaining \$0.5 million of Hillside's secured claim is contemplated to be gifted to the holders of existing common stock who do not object to the Plan. This gift will be distributed in the form of certain rights which are described below. In addition, under a separate tranche of the Credit Agreement, Hillside will lend the Company \$5 million to be used for general working capital purposes and to repay approximately \$3.5 million of the Senior Notes. Furthermore, if Hillside is required to fund future required contributions to the pension plans, Hillside will be deemed to have granted another new senior loan in the amount of such contribution. All three elements of this Credit Agreement (i.e., the \$10.5 million of debt in exchange for Hillside's secured claim, the \$5 million in new borrowings, and any amounts borrowed on account of the future required contributions or termination liability under the pension plans satisfied by Hillside) shall be equal to an aggregate amount not to exceed \$25 million outstanding under the Credit Agreement. Thereafter, the Debtors will issue to Hillside new preferred stock of Reorganized Ampex (the New Preferred Stock) in the amount of each required contribution made by Hillside to the pension plans. At the time of Plan confirmation, Hillside has already made the April and July contributions. The loans under the Credit Agreement will bear interest at 10% per annum. The balance of amounts outstanding under the Credit Agreement will be repayable, under various terms of the Credit Agreement, in annual installments ranging from \$2.9 million to \$5.0 million beginning in September 2010. The holders of the Senior Notes will receive amended senior notes in the amount of the outstanding portion of their claims held on account of the Senior Notes on the effective date of the Plan.

Under the Plan, it is contemplated that unsecured creditors, who include, but are not limited to, the Company's trade creditors, Hillside with respect to its unsecured claims, certain participants in our Supplemental Retirement Plans and holders of claims arising from environmental remediation obligations, will receive shares of new common stock in Reorganized Ampex (New Common Stock) or, creditors other than Hillside may receive at their option, cash that equals the greater of: (a) the cash equal to the percentage of recovery that such creditor would have received had there been no cash election, up to a maximum payment of \$5,000; or (b) 7% of the allowed amount of the unsecured claim (Lump Sum Cash Payment). Shares of New Common Stock are not expected to be registered or traded on any public exchange.

Table of Contents**AMPEX CORPORATION****NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

Under the Plan, all of the Company's existing common stock, stock options and restricted stock awards will be cancelled upon emergence from chapter 11. Upon the Company's emergence from chapter 11 the New Common Stock will not be publicly traded. As a result of the Chapter 11 Cases, the existing Common Stock was suspended from trading on the Nasdaq Stock Market on May 8, 2008, and was delisted from Nasdaq on July 21, 2008. Holders of existing Common Stock, stock options or restricted stock awards will receive no distribution. Although holders of existing Common Stock will not receive any distributions on account of their interests, as a result of the compromises and settlements set forth in the Plan, holders of existing Common Stock (including restricted stock) that do not object to the Plan will be eligible to receive certain rights that provide for the pro rata distribution of net cash proceeds from new licensing and other monetization initiatives related to the Debtors' intellectual property after amounts required to retire all outstanding debt, preferred stock and scheduled pension contributions and other obligations are first recovered. Once net cash proceeds totaling approximately \$83.8 million have been received by the Reorganized Debtors, the holders of these rights will be entitled to receive their pro rata share of 50% of all subsequent net proceeds related to the Debtors' intellectual property as set forth above, net of expenses of administering those rights (the Contingent Payment Rights or CPRs). There can be no assurance that the Reorganized Debtors will be able to generate any future licensing revenue or other proceeds from other monetization initiatives or, if they do, whether they will attain sufficient levels required to provide for distributions to the holders of these rights. The Debtors do not believe that the CPRs will constitute securities; the CPRs will not be registered and will have limited rights of transferability.

Liabilities Subject to Compromise

Liabilities subject to compromise represent the liabilities of the Company incurred prior to March 30, 2008, except those that will not be impaired under the Plan. Liabilities subject to compromise consisted of the following (in thousands):

	June 30, 2008
12% Senior Notes due August 15, 2008	\$ 7,102
Hillside Notes	53,268
Notes payable – other, disputed NHI claim	15
Accounts payable	617
Environmental remediation obligations	765
Accrued interest on the Hillside Notes	2,281
Obligations under supplemental retirement plans	748
 Current liabilities subject to compromise	 \$ 64,796
 Environmental remediation obligations	 2,239
Obligations under supplemental retirement plans	6,001
Accrued expenses, disputed NHI claims	292
Accrued expenses, allowed NHI claims	33
 Long-term liabilities subject to compromise	 \$ 8,565

Interest expense

The Debtors have discontinued recording interest on liabilities subject to compromise during the chapter 11 proceedings, except for interest on the Senior Notes.

Note 4 Stock Options and Awards

Edgar Filing: AMPEX CORP /DE/ - Form 10-Q

The Company's 1992 Stock Incentive Plan, as amended (the "Stock Incentive Plan"), for officers, employees, directors, consultants, advisors and service providers, provides for the granting of nonqualified stock options and incentive stock options to acquire Common Stock and/or the granting of stock appreciation rights to obtain, in shares of Common Stock, the benefit of the appreciation of the value of shares of Common Stock after the grant date.

The Company is authorized to issue up to 712,500 shares of Common Stock under the Stock Incentive Plan, of which 314,672 shares were available for grant as of June 30, 2008.

Table of Contents**AMPEX CORPORATION****NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

The Company's 2000 Stock Bonus Plan (the "Stock Bonus Plan"), as amended, provides for the issuance of up to 125,000 shares of Class A Common Stock, par value \$0.01 per share, to directors, officers and employees as well as certain consultants and advisors to the Company and to its subsidiaries. Stock awards that are unvested at the time of grant are subject to vesting at such later date as specified in the terms of the particular award.

On February 16, 2007, the Board of Directors elected D. Gordon Strickland as the Company's Chief Executive Officer, President and a director, and pursuant to an employment agreement granted to Mr. Strickland stock options under the Company's Stock Incentive Plan to purchase 25,000 shares of Common Stock. The options are exercisable at \$19.63 per share, which was the fair market value on the date of grant. The options are exercisable as to 12,500 of the underlying shares on each of February 16, 2008 and February 16, 2009 and will expire as to all such shares on February 16, 2010. No stock options were granted during the six month period ended June 30, 2008.

At June 30, 2008, there were 32,953 options outstanding under the Stock Incentive Plan, including 20,453 vested options. The exercise prices range from \$19.63 to \$21.25 per share and vesting schedules vary from a one to two year period. The contractual term of stock options is three years or ten years. In the six months ended June 30, 2008, 12,500 stock options vested during the period. No stock options vested during the six months ended June 30, 2007.

	Shares Available for Grant	Number of Options	Price per Share	Aggregate Exercise Price	Weighted Average Exercise Price
Balances, December 31, 2006	311,292	106,366	\$ 1.15- 38.25	\$ 1,328,614	\$ 12.49
Granted	(25,000)	25,000	19.63	490,750	\$ 19.63
Exercised		(70,033)	1.15	(80,538)	1.15
Cancellations	25,198	(25,198)	21.25- 38.25	(960,458)	38.12
Balances, June 30, 2007	311,490	36,135	\$ 19.63- 38.25	\$ 778,368	\$ 21.54

	Shares Available for Grant	Number of Options	Price per Share	Aggregate Exercise Price	Weighted Average Exercise Price
Balances, December 31, 2007	314,490	33,135	\$ 19.63- 21.25	\$ 663,618	\$ 20.03
Cancellations	182	(182)	21.25	(3,868)	21.25
Balances, June 30, 2008	314,672	32,953	\$ 19.63- 21.25	\$ 659,750	\$ 20.02

The options outstanding and currently exercisable by exercise price at June 30, 2008 are as follows:

Options Outstanding			Options Currently Exercisable		
Exercise Prices	Number Outstanding	Weighted Average Remaining Contractual Life (Years)	Weighted Average Exercise Price	Number Exercisable	Weighted Average Exercise Price
\$ 19.63	25,000	1.64	\$ 19.63	12,500	\$ 19.63

Edgar Filing: AMPEX CORP /DE/ - Form 10-Q

\$ 21.25	7,953	0.36	21.25	7,953	21.25
	32,953	1.33	\$ 20.02	20,453	\$ 20.26

Table of Contents**AMPEX CORPORATION****NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

There was no aggregate intrinsic value of options outstanding or options exercisable at June 30, 2008. Aggregate intrinsic value represents the difference between the Company's closing stock price on the last trading day of the fiscal period, which was \$0.31 as of June 30, 2008, and the exercise price multiplied by the number of options outstanding. The total intrinsic value of options exercised was \$1.2 million for the six-month period ended June 30, 2007. There were no stock options exercised in the six months ended June 30, 2008.

The fair values of options at the date of grant were estimated using the Black-Scholes model with the following weighted average assumptions:

	For the six months ended June 30,	
	2008	2007
Expected life (years)		2.0
Risk-free interest rate		4.86%
Expected volatility		83%
Expected dividend yield		

The weighted average assumptions used for restricted stock granted for the three and six-month periods ended June 30, 2008 and 2007 are set forth in the following table:

	Three Months Ended		Six Months Ended	
	June 30,	June 30,	June 30,	June 30,
	2008	2007	2008	2007
Expected life (years) of restricted stock		3.1		3.1

During the six months ended June 30, 2008, the Company did not issue any restricted Common Stock under the Stock Bonus Plan. In 2007, the Company issued 35,000 shares of unvested restricted Common Stock under the Stock Bonus Plan, which had a total grant date fair value of \$521 thousand. The Company issued 1,000 shares of unvested restricted Common Stock to each of its five outside directors, 16,000 shares to executive officers and the remaining 14,000 shares to certain employees. The shares for the outside directors vest on the date of the 2008 Annual Meeting of Stockholders and the other shares issued vest as to half on January 18, 2009 and half on January 18, 2010 under condition of continuing employment. 1,000 employee shares and 1,000 shares for an outside director have been cancelled and the remaining 33,000 shares issued remain unvested as of June 30, 2008. In the three and six months ended June 30, 2008, total compensation cost recognized related to unvested restricted stock was \$65 thousand and \$138 thousand, respectively. For the three and six months ended June 30, 2007, total compensation cost recognized related to unvested restricted stock was \$39 thousand and \$48 thousand, respectively.

Under the Plan, all existing Common Stock, stock options and restricted shares will be cancelled. See Management's Discussion and Analysis of Financial Condition and Results of Operations Plan of Reorganization.

Table of Contents**AMPEX CORPORATION****NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS (Continued)****Note 5 Computation of Basic and Diluted Income (Loss) per Share**

In accordance with the disclosure requirements of SFAS 128, a reconciliation of the numerator and denominator of basic and diluted income (loss) per common share is provided as follows:

	Three Months Ended		Six Months Ended	
	June 30, 2008	June 30, 2007	June 30, 2008	June 30, 2007
	(in thousands, except share and per share amounts)			
Numerator				
Income (loss) from continuing operations	\$ (3,260)	\$ (759)	\$ (7,072)	\$ 1,714
Net income (loss)	\$ (4,213)	\$ (759)	\$ (8,025)	\$ 1,714
Denominator				
Weighted average number of basic common shares outstanding	3,897,035	3,888,406	3,893,878	3,862,280
Effect of dilutive stock options and restricted stock				5,917
Weighted average number of diluted common shares outstanding	3,897,035	3,888,406	3,893,878	3,868,197
Basic income (loss) per share from continuing operations	\$ (0.84)	\$ (0.20)	\$ (1.82)	\$ 0.44
Basic income (loss) per share	\$ (1.08)	\$ (0.20)	\$ (2.06)	\$ 0.44
Diluted income (loss) per share from continuing operations	\$ (0.84)	\$ (0.20)	\$ (1.82)	\$ 0.44
Diluted income (loss) per share	\$ (1.08)	\$ (0.20)	\$ (2.06)	\$ 0.44

Stock options and restricted stock are not included in the calculation of weighted average number of diluted common shares outstanding if they are anti-dilutive. Stock options are included in the calculation of weighted average number of diluted common shares outstanding, if the exercise price is lower than the average market value of common shares during the period. The number of stock options and restricted shares outstanding, the range of exercise prices of stock options outstanding and the number of common shares included in the calculation of the weighted average number of diluted common shares outstanding during the period were as follows:

	Six Months Ended June 30,	
	2008	2007
Stock options outstanding	32,953	36,135
Range of exercise prices	\$ 19.63 21.25	\$ 19.63 38.25
Stock options outstanding included in the calculation of weighted average number of diluted common shares outstanding during the period		
Restricted shares outstanding	33,000	34,000

In April 2008, the lease of the facility in New York expired and was not renewed, resulting in a decline in fully depreciated leasehold improvements of \$2.4 million.

Table of Contents**AMPEX CORPORATION****NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS (Continued)****Note 10 Discontinued Operations**

The Company disposed of the Media subsidiary in 1995. However, the Company has a continuing liability with respect to environmental matters pertaining to Media's sites and activities. The measurement of its obligation and recognition of expense for environmental matters directly related to Media's operations is accounted for under SFAS No. 5, Accounting for Contingencies. On January 10, 2005, Media filed under chapter 11 of the Bankruptcy Code. Based on the Company's assessment of Media's financial condition and understanding of its environmental remediation obligations, the Company recorded an estimate of amounts probable of incurrence by the Company for future clean up costs of \$2.5 million at December 31, 2004. During the six months ended June 30, 2007, the Company paid \$0.2 million against the net liabilities of these discontinued operations. There were no payments made against the net liabilities of these discontinued operations in the six months ended June 30, 2008. The unamortized balance in the net liabilities of discontinued operations pertaining to the environmental matters of the former Media subsidiary totaled \$3.0 million at June 30, 2008. In the second quarter of 2008, the Company increased its reserve for environmental remediation costs related to the Seaboard site based on terms contained in a settlement agreement subject to approval by the Bankruptcy Court. The Company expects to be assessed in 2008 its pro rata share of the remediation costs totaling \$0.8 million with the balance to be paid out over the next ten years. This obligation has not been discounted to present value. Under the Plan, the Company intends to seek a discharge of its environmental obligations. See Note 3.

In 2001, the Company closed its Internet video operations. During the six months ended June 30, 2008 and 2007, the Company paid \$192 thousand and \$136 thousand, respectively, against the net liabilities of these discontinued operations. There was no unamortized balance in the net liabilities of discontinued operations pertaining to the former Internet video operations at June 30, 2008. The Company made payments on office leases and received sublet income as it relates to this discontinued operation through April 2008.

A reconciliation of the changes in the net liabilities of the above-discussed discontinued operations for the six months ended June 30, 2008 and 2007 is as follows:

	2008	2007
	(in thousands)	
Balance at January 1	\$ 2,243	\$ 2,654

Liabilities subject to compromise	(3,004)	
Balance adjusted for liabilities subject to compromise	\$	\$ 2,350

Table of Contents**AMPEX CORPORATION****NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS (Continued)****Note 11 Restructuring Charges (Credits)**

Data Systems vacated certain administrative offices in Redwood City, CA in 2001 and 2002 to consolidate operations in order to lower continuing operating expenses, and recorded a net restructuring charge of \$4.2 million. In 2003, the Company established an additional reserve of \$3.1 million to reflect the inability to sublease the premises due to the continued depressed real estate market. In 2004, the Company decided to seek a buyer for its Colorado Springs manufacturing facility and reutilize, in part, the Redwood City leased facilities that had been charged to restructuring in prior periods. As a result, the Company recognized a restructuring credit of \$1.4 million. The Company remeasured the restructuring accrual pursuant to SFAS No. 146, Accounting for Costs Associated with Exit or Disposal Activities. Lease costs associated with the manufacturing activities in Redwood City are charged as incurred to the Cost of product sales of Data Systems. During the six months ended June 30, 2008 and 2007, the Company paid and charged the restructuring accrual \$0.3 million and \$0.3 million, respectively, related to costs associated with the vacated portion of the facilities. The Company has paid and charged the restructuring accrual \$5.8 million since the inception of the 2001-2002 restructuring program. The remaining balance in accrued restructuring totaled \$0.1 million at June 30, 2008. This obligation has been discounted at 5.5% per annum. The Company expects to make payments as it relates to the remaining balance of accrued restructuring through 2008. The Company evaluates the amount of accrued restructuring costs, including projected sublet income, on a quarterly basis, and it may make additional adjustments in future periods if the Company determines that its actual obligations will differ significantly from remaining amounts accrued.

A reconciliation of the changes in the restructuring liability accounts for the six months ended June 30, 2008 and 2007 is as follows:

	2008	2007
	(in thousands)	
Balance at January 1	\$ 436	\$ 1,030

Note Payable Other

The note payable other relates to a promissory note issued to NH Holding Incorporated (NHI), the Company's former parent, and other amounts due to NHI. These amounts are disputed and shall be resolved as described in Note 14.

Hillside Notes

In 1994, the Company, the Pension Benefit Guaranty Corporation (the PBGC) and certain affiliates, including Hillside, who were members of a group under common control for purposes of the Employee Retirement Income Security Act (ERISA) entered into a Joint Settlement Agreement (Agreement) in connection with the 1994 reorganization of the Company's former parent, NHI. The Agreement relates to the pension plans of the Company (the Ampex pension plan) and of its former Media subsidiaries (the Media pension plan), which are substantially underfunded. Under the terms of the Agreement, the Company and Hillside are held jointly and severally liable to the PBGC to fund the required contributions under the Ampex and Media pension plans. Pursuant to this Agreement, Hillside is obligated to advance pension contributions for the Ampex and Media pension plans in the event the Company is unable to make the required contributions necessary in order to satisfy the minimum funding standard. Failure by Hillside to advance funds as may be required would enable the PBGC to terminate the plans and seek recovery of termination benefits from Hillside and Ampex.

Edgar Filing: AMPEX CORP /DE/ - Form 10-Q

Through June 30, 2008, Hillside made pension contributions totaling \$55.1 million pertaining to the Ampex pension plan and the Media pension plan, of which \$6.0 million was paid in 2008.

Table of Contents

AMPEX CORPORATION

NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS (Continued)

Pursuant to the Hillside-Ampex/Sherborne Agreement, dated December 1, 1994 (the "Hillside Agreement"), Ampex is required to issue a Hillside Note in the amount of any pension contributions it makes to the Ampex or Media pension plans. Under the terms of the Hillside Notes, \$150,000 of principal is due on the first anniversary of the notes with the remaining principal due on the fourth anniversary of the notes. Pursuant to amendments to the Company's senior debt agreements, all principal payments on the Hillside Notes were deferred until various dates occurring after December 31, 2006. The Hillside Notes provide for interest paid quarterly at 1 percent plus 175% of the applicable mid-term federal rate (effective rate of 6.51% at June 30, 2008). The Company granted to Hillside a security interest in Data Systems' inventory and subsequent proceeds from the sale of inventory as collateral for the Hillside Notes. The Hillside Agreement contains certain restrictive covenants which, among other things, restrict the Company's ability to declare dividends, sell all or substantially all of its assets or commence liquidation, or engage in specified transactions with certain related parties, breach of which could result in acceleration of our potential termination liabilities. Filing for bankruptcy protection may give rise to an event of default under the Hillside Notes. Accordingly, all Hillside Notes are classified as current obligations of the Company at December 31, 2007 and June 30, 2008. No adjustment to the notes to give effect to the Plan has been reflected in these financial statements.

On July 13, 2007, the Company received notice from Hillside alleging that the Company had breached the Hillside Agreement, and further alleging that if this breach was not cured by July 23, 2007, it would constitute an event of default under the Hillside Agreement, which would entitle Hillside to declare the Hillside Notes immediately due and payable (approximately \$45 million) as of that time. The Company notified Hillside that the Company does not believe that any breach had occurred, or that there was any basis for declaring a default under the Hillside Agreement or accelerating the Hillside Notes. Any acceleration of the Hillside Notes, unless waived or rescinded, would have resulted in the occurrence of an event of default under the Senior Notes, and would have entitled holders of the Senior Notes totaling \$7.1 million at June 30, 2008 to accelerate the maturity of those obligations.

On September 12, 2007, the Company disclosed that it had entered into a standstill agreement with Hillside, whereby Hillside agreed not to accelerate the maturity of the Hillside Notes or commence legal actions against the Company for sixty days while the parties worked to complete documentation of a restructuring of the Hillside Notes, clarify how future pension contributions would be funded and permit the Company to raise additional equity financing to pursue its patent monetization program (as the same was amended and or modified from time to time, the "Standstill Agreement"). From September 12, 2007 through January 14, 2008 (the "Standstill Period"), the Company operated under the Standstill Agreement, and during that time, attempted to restructure the Hillside Notes. Prior to the expiration of the Standstill Agreement, which was due to expire on its own terms on January 15, 2008, Hillside terminated the Standstill Agreement and demanded immediate payment of approximately \$1.3 million of outstanding principal due on the Hillside Notes, and demanded payment of approximately \$1.4 million of accrued interest due on the Hillside Notes within ten days. At that time, Hillside further reasserted its allegation that the Company had breached the Hillside Agreement. Hillside stated in its notice to the Company that if the Company failed to make the principal and interest payments then due on the Hillside Notes and cure the alleged breach within the specified periods, it would constitute an event of default under the Hillside Agreement, which would entitle Hillside to accelerate repayment of the outstanding Hillside Notes. Based upon its cash position, the Company determined that it was not financially prudent to repay the \$2.7 million demanded by and due to Hillside, but the Company continued its efforts to negotiate a restructuring plan for the Hillside debt.

During and after the Standstill Period, the Company and Hillside engaged in negotiations over the terms of a consensual restructuring. Several different proposals were presented and considered by the Company's officers (the "Management") and board of directors (the "Board"). The Company also analyzed several other possibilities for reorganizing its capital structure. On January 29, 2008, Hillside delivered a revised restructuring proposal (as the same was amended or modified from time to time, the "Hillside Term Sheet"). The Board and Management reviewed the Hillside Term Sheet and determined that it presented the best option for a consensual restructuring of the Hillside Notes and the best opportunity to maximize value for the Company's noteholders and perhaps the only opportunity to realize the value of Ampex's unlicensed patents. The Plan is based on the Hillside Term Sheet, as amended during the course of the Company's and Hillside's negotiations. A summary of the terms of the Plan is described in Note 3.

Table of Contents**AMPEX CORPORATION****NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

Accrued interest, interest expense and principal transactions for the Senior Notes are as follows:

	Six Months Ended June 30,	
	2008	2007
	(in thousands)	
Senior Notes		
Accrued interest, beginning of the period	\$ 288	\$ 283
Interest expense	402	394
Cash payments applied to interest		
Issuance of Notes in lieu of cash payment of interest	(384)	(377)
Accrued interest, end of period	\$ 306	\$ 300
Cash payments applied to principal	\$	\$

The Senior Notes mature on August 15, 2008 and are secured by liens granted by the Company on its future patent royalty stream. The indenture under which the Senior Notes were issued contains customary affirmative and negative restrictive covenants that limit the payment of dividends, the incurrence of additional indebtedness or liens, certain sales of assets and other actions by the Company and its restricted subsidiaries. Under the terms of the indenture with respect to the Senior Notes, filing for bankruptcy protection may give rise to an event of default. The Plan provides for repayment of the Senior Notes in full, as more fully described in Note 3.

Maturities of Debt

The following table summarizes the scheduled maturities of the Company's debt as of June 30, 2008, without considering the debt default and restructuring proposed in the Plan:

Year	(in thousands)
Remainder of 2008	\$ 11,543
2009	1,350
2010	9,850
2011	23,506

AMPEX CORPORATION

NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS (Continued)

As of December 31, 2007, the Company recorded aggregate claims held by NHI against the Company of approximately \$505,500, which amount is net of a \$76,200 claim held by the Company against NHI. Of this amount, on or about March 27, 2008, approximately \$165,700 of this claim was satisfied by the conversion of such amount of the claim into 6,529 shares of the Company's Class A Common Stock, which stock is intended to be distributed to creditors of NHI pursuant to NHI's 1994 chapter 11 plan. Of the remaining \$339,800 of NHI's asserted claims against the Company, the Company disputed and, in the context of its chapter 11 case, was granted the objection to the allowance of \$307,300 of this amount. The remaining \$32,500 of this claim, which the Company does not presently dispute, is intended to be satisfied pursuant to the Company's Plan in 2008. This \$32,500 claim will be classified as a General Unsecured Claim in the Plan. Holders of General Unsecured Claims are contemplated to receive their pro rata share of New Common Stock, unless such holders elect to receive the Lump Sum Cash Payment in full and final satisfaction of their claims. See Note 3.

Note 15 Commitments and Contingencies

Legal Proceedings and Foreign Tax Assessments

In October 2004, the Company initiated litigation against Eastman Kodak Company ("Kodak") for their infringement of one of its patents, the 121 patent, in the International Trade Commission ("ITC") and also, at the same time, in U.S. District Court in Delaware ("District Court"). The ITC case was subsequently withdrawn to enable the District Court case to proceed.

On November 21, 2006, the District Court granted final judgment in favor of Kodak. The Company appealed this decision to the Court of Appeals for the Federal Circuit, and this court ruled on February 7, 2008, affirming the decision of the District Court without opinion. Since the 121 patent expired on April 11, 2006, the Court's decision will not affect past or future licensing revenues from existing licensees. Kodak filed an unsecured claim in the amount of approximately \$145 thousand in the Chapter 11 Cases, which was reduced to \$9 thousand pursuant to an order of the Bankruptcy Court entered on July 31, 2008.

Also, the Company is currently a defendant in lawsuits that have arisen in the ordinary course of its business. Management does not believe that any such lawsuits, assessments or unasserted claims will have a material adverse effect on the Company's financial position, results of operations or cash flows.

Environmental Matters

Ampex's facilities are subject to numerous federal, state and local laws and regulations designed to protect the environment from waste emissions and hazardous substances. Also, the Company may have continuing liability with respect to environmental contamination related to the facilities and disposal activities of its former Media subsidiary. The Company is also subject to the federal Occupational Safety and Health Act and other laws and regulations affecting the safety and health of employees in its facilities. Management believes that the Company is generally in compliance in all material respects with all applicable environmental and occupational safety laws and regulations or has plans to bring operations into compliance. Management does not anticipate that capital expenditures for pollution control equipment for fiscal 2008 will be material.

Owners and occupiers of sites containing hazardous substances, as well as generators and transporters of hazardous substances, are subject to broad liability under various federal and state environmental laws and regulations, including liability for investigative and cleanup costs and damages arising out of past disposal activities. The Company has four environmental investigation, remediation and/or monitoring activities outstanding at June 30, 2008. Three sites are associated with the operations of Media while the fourth relates directly to a disposal activity of the Company. Some of these activities involve the participation of state and local government agencies. Although the Company disposed of Media in November 1995, it remains liable with respect to environmental contamination at these sites if Media fails to discharge its responsibilities with respect to such sites. On January 10, 2005, Media filed for relief under chapter 11 of the Bankruptcy Code. Subsequently Media's assets were sold for nominal consideration to an investor group that is operating the Company, and is performing mandated clean up activities at the manufacturing facility.

Table of Contents**AMPEX CORPORATION****NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

With respect to environmental matters involving site contamination, the Company continually conducts studies, individually or jointly with other responsible parties, to determine the feasibility of various remedial techniques to address environmental matters. It is the Company's policy to record appropriate liabilities for environmental matters when remedial efforts or damage claim payments are probable and the costs can be reasonably estimated. Such liabilities are based on the Company's best estimate of the undiscounted future costs required to complete the remedial work. At June 30, 2008, the Company has recorded a liability of \$0.1 million for pending environmental liabilities associated with activities by the Company and has recorded a liability with respect to discontinued operations of \$3.0 million, of which \$0.8 million is classified as a current liability as it is expected to be paid in 2008, for the estimated expenses it projects it will incur with respect to the three Media sites discussed above. In the three months ended June 30, 2008, the Company increased the liability with respect to discontinued operations to increase amounts accrued related to environmental remediation of the Seaboard site, which had been used for waste disposal by the Media operations. During the period, Seaboard agreed to cap Ampex's pro rata share of remediation costs at \$2.3 million, resulting in an increased liability of \$1.0 million. The Company is seeking approval of the revised claim from the Bankruptcy Court. Upon emergence from bankruptcy, it is anticipated that Seaboard will elect a Lump Sum Cash Payment and receive \$162 thousand in full satisfaction of its claim. The Company does not currently possess sufficient information to reasonably estimate the range of reasonably possible environmental loss in excess of its accruals. The amounts of additional liabilities that may be recorded upon future completion of studies, litigation or settlements could be material to its consolidated results of operations or operating cash flows in the periods recognized or paid. However, considering past experience and existing reserves, the Company does not expect that these environmental matters will have a material effect on its consolidated results of operations in the periods recognized. These liabilities have not been discounted, as neither the amount nor timing of future payments are fixed. The recorded liabilities are adjusted periodically as remediation efforts progress or as additional technical or legal information becomes available. The timing of cash expenditures depends on a number of factors, including regulatory approval of cleanup projects, remedial techniques to be utilized and agreements with other parties.

Under the Plan, certain environmental remediation obligations may be cancelled in exchange for New Common Stock after the Company emerges from chapter 11, unless the holders of such claims elect to receive the Lump Sum Cash Payment in full and final satisfaction of their claim. Consummation of the Plan is subject to the satisfaction of certain conditions, including that unasserted governmental and environmental claims will not exceed the maximum amounts specified in the Plan.

Guarantees

The Company, as permitted under Delaware law and in accordance with its Bylaws, indemnifies its officers and directors for certain events or occurrences, subject to certain limits, while they were serving at its request in such capacity. The maximum amount of potential future indemnification is unlimited; however, the Company has a Director and Officer Insurance Policy that enables the Company to recover a portion of any future amounts paid. As a result of the insurance policy coverage, the Company believes the fair value of these indemnification agreements is minimal.

The Company's sales agreements indemnify its customers for any expenses or liability resulting from claimed infringements of patents, trademarks or copyrights of third parties. The terms of these indemnification agreements are generally perpetual after execution of the agreement. The maximum amount of potential future indemnification is unlimited. However, to date, the Company has not paid any claims nor been required to defend any lawsuits with respect to any claim.

Products sold are generally covered by a warranty for periods ranging from 90 days to one year. The Company accrues a warranty reserve at the time of sale for estimated costs to provide warranty services over the warranty period. The estimate of costs to service the Company's warranty obligations is based on historical experience and expectation of future conditions. To the extent that the Company experiences increased warranty claim activity or increased costs associated with servicing those claims, the warranty accrual will increase, resulting in decreased gross profit.

Plan Sponsor of Pension and Other Retirement Plans

The Company is the Plan Sponsor of various domestic and foreign non-contributory defined benefit pension plans. In addition, the Company provides supplemental retirement payments to certain former employees of the Company, which were earned under prior corporate ownership. See Note 17.

Table of Contents**AMPEX CORPORATION****NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS (Continued)****Note 16 Related Party Transactions**

In November 2006, the Company entered into an office sharing agreement with Sherborne Investors Management LP (Sherborne LP) permitting Sherborne LP and certain affiliates to use and occupy a portion of the New York office space, in exchange for Sherborne LP's payment to the Company of \$21,000 per month less certain salary and benefit expenses. Sherborne LP is controlled by Sherborne Investors Management GP, LLC, an entity in which Mr. Bramson, the Company's former CEO, is the managing member and Mr. McKibben, the Company's CFO, is a member. Under the agreement, Sherborne LP paid these amounts to the Company from December 2006 until the lease terminated in April 2008. During the six months ended June 30, 2008, Sherborne LP paid the Company a total of \$84,000 under this agreement. This agreement expired on April 30, 2008.

Note 17 Pension and Other Retirement Plans

The following is a summary of pension and other retirement plans:

	June 30, 2008	December 31, 2007
Current Obligations	(in thousands)	
Foreign subsidiary plan	\$ 185	\$ 186
Supplemental retirement plan	741	741
Total current pension and other retirement plans	926	927
Liabilities subject to compromise	(741)	
Total adjusted for liabilities subject to compromise	\$ 185	\$ 927

	June 30, 2008	December 31, 2007
Long-term Obligations	(in thousands)	
Ampex pension plan	\$ 39,610	\$ 44,179
Media pension plan	12,032	13,482
Foreign subsidiary plan	2,827	2,663
Supplemental retirement plan	5,993	6,174
Total long-term pension and other retirement plans	60,462	66,498
Liabilities subject to compromise	(5,993)	
Total adjusted for liabilities subject to compromise	\$ 54,469	\$ 66,498

The remaining pension contributions for the Ampex and Media pension plans due in 2008 and the six months ended June 30, 2009, which are estimated to total \$9.6 million, have been excluded from current pension and other retirement plans and have been classified as long-term obligations.

The Company's domestic employees participate in a qualified noncontributory defined benefit pension plan. Benefits are based on years of service and salary levels during the highest 60 consecutive months of the last 120 consecutive months of service. The Company is also the Plan Sponsor of the pension plan of Media, a former subsidiary that was sold in 1995. In early 1994, the Company amended the plans to terminate benefit service and compensation credit accruals as of February 1, 1994. The impact of this curtailment was not material to the Company's

liability accounts relating to its pension plans.

The 1995 sale agreement for Media required the buyer, Quantegy Corporation, to pay directly or to reimburse Ampex for required contributions to the Media pension plan. This agreement was intended to make Ampex whole from any expense or cash outlay as it pertained to the Media pension plan. However, the Company remained the Plan Sponsor of the Media pension plan and remained obligated to make pension contributions to that plan. During 2006 and 2005, Media did not pay directly or reimburse Ampex for pension contributions made on Media's behalf. Reimbursement payments reduce actuarially determined Media pension costs and are reflected in the Statement of Operations and Comprehensive Income (Loss) when such payments are assured of collection.

Table of Contents**AMPEX CORPORATION****NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

On January 10, 2005, Media filed under chapter 11 of the Bankruptcy Code. Accordingly, the Company does not expect to receive any additional payments or to be reimbursed for future pension contributions that Ampex will be required to make under the Media pension plan as its Plan Sponsor.

The following schedule lists the annual estimated contributions as computed by the plans' actuary for the Ampex pension plan and Media pension plan through 2013.

	Estimated Contributions	
	Ampex Pension Plan	Media Pension Plan
	(in thousands)	
Remainder of 2008	\$ 5,471	\$ 1,621
2009	5,736	1,788
2010	7,386	2,288
2011	6,366	1,855
2012	7,337	2,314
2013	1,695	509
Total	\$ 33,991	\$ 10,375

Certain of the Company's employees employed by a foreign subsidiary are covered by an unfunded pension plan maintained in accordance with local laws. Amounts included as a current and long-term obligation in pension and other retirement plans for the foreign pension plan were \$0.2 million and \$2.8 million, respectively, at June 30, 2008. The Company also remains obligated to make supplemental retirement benefit payments to certain retired employees pursuant to plans that were established under prior ownership. Benefit payments are determined based on a percentage of the employee's compensation and are funded out of cash flow generated by the business. The Company has accrued the actuarial present value of the estimated future payments due under the plans based on the same discount rate and mortality assumption used in the defined benefit plans. Amounts included as a current and long-term obligation in pension and other retirement plans for the supplemental retirement programs were \$0.7 million and \$6.0 million, respectively, at June 30, 2008. Under the Plan, certain supplemental retirement program obligations will be cancelled in exchange for New Common Stock after the Company emerges from chapter 11, unless the holders of such claims elect to receive the Lump Sum Cash Payment in full and final satisfaction of their claim. See Note 3.

The determination of the obligation and expense for pension benefits is dependent on the selection of certain assumptions used by actuaries in calculating such amounts. Those assumptions include, among others, the discount rate, expected long-term rate of return on plan assets and mortality assumptions for the plan participants.

Note 18 Accumulated Other Comprehensive Loss

The balances of each classification within accumulated other comprehensive income (loss) are as follows:

	Minimum Pension Liability	Foreign Currency Items (in thousands)	Accumulated Other Comprehensive Loss
December 31, 2007	\$ (104,703)	\$ 660	\$ (104,043)
Current period change	2,079	104	2,183

AMPEX CORPORATION

NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS (Continued)

The net periodic pension cost for the Ampex and Media pension plans for the six months ended June 30, 2008 is reflected as the current period change in minimum pension liability. The net periodic pension cost for 2008, which is charged to the Consolidated Statements of Operations and Comprehensive Income (Loss) ratably over the year to Selling and administrative expenses for the Ampex pension plan and to Media pension costs for the Media pension plan, was determined by the Company's actuary.

Note 19 Income Taxes

On January 1, 2007, the Company adopted the provisions of Financial Accounting Standards Board Interpretation No. 48, Accounting for Uncertainty in Income Taxes an interpretation of FASB Statement No. 109 (FIN 48). The total amount of unrecognized tax benefits as of the date of adoption of FIN 48 was immaterial. As a result of the adoption of FIN 48, the Company recognized no material adjustment in the liability for unrecognized income tax benefits. During the six months ended June 30, 2008, there were no changes to the amount of unrecognized tax benefits. The Company does not believe it is reasonably possible that its unrecognized tax benefits will significantly change within the next twelve months.

The Company classifies any interest and penalties as income tax expense in its statements of operations. The Company has not recognized any amount of interest or penalties in its statement of operations during the six months ended June 30, 2008 or in its balance sheet as of June 30, 2008.

The Company is subject to taxation in the U.S. and various state (principally California) and foreign (principally Japan) jurisdictions. The tax years 1994-2007 remain open to examination by the federal and state tax authorities due to certain net operation loss and overall credit carryforward positions.

The Company must make certain estimates and judgments in determining income tax expense for financial statement purposes. These estimates and judgments occur in the calculation of certain tax assets and liabilities, which arise from differences in the timing of recognition of revenue and expense for tax and financial statement purposes.

The Company must assess the likelihood that it will be able to recover the net deferred tax assets. If recovery is not likely, the Company must increase its provision for taxes by recording a valuation allowance against the deferred tax assets and NOLs that the Company estimates will more likely than not ultimately not be recoverable. Since the Company has reported losses in recent years, it cannot determine that it is probable that it will recover the deferred tax assets. Accordingly, the Company has established a valuation allowance equal to such deferred tax assets.

The provision for income taxes for the six month periods ended June 30, 2008 and 2007 included foreign and state income taxes and withholding taxes on royalty revenue. At December 31, 2007, the Company had federal NOLs for income tax purposes of approximately \$200 million, expiring in the years 2009 through 2027. In addition, the Company had federal capital loss carryforwards totaling \$8.8 million at December 31, 2007, which may be utilized to offset capital gains, if any, generated in future periods. Cancellation of indebtedness arising from the chapter 11 reorganization will reduce the amount of NOL carryforwards by approximately \$50 million. The remaining NOL carryforwards may be subject to limitation under U.S. and state income tax laws. Pursuant to these loss limitation rules, the utilization of NOL and credit carry forwards of a loss corporation are limited if there is greater than a 50% cumulative shift in the ownership of its stock. However section 382(l)(5) and section 382(l)(6) of the Internal Revenue Code provide exceptions to the above described limitation if the shift in ownership is as a result of bankruptcy filing under chapter 11 of the Bankruptcy Code. A taxpayer that takes advantage of the section 382(l)(5) exception will lose its entire pre-bankruptcy NOLs if within a period of two years from the date of the first shift in the ownership of its stock, it experiences a second shift in ownership that is greater than 50%. If the New Common Stock experiences such a shift, the Company will not be able to utilize its NOLs in future years, thereby negatively affecting the value ascribed to the business upon emergence, its cash balances and liquidity. Under section 382(l)(6) NOL carryforwards are limited to an annual amount based on the new equity value of the Company multiplied by the long-term Federal discount rate.

Table of Contents**AMPEX CORPORATION****NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS (Continued)****Note 20 Segment Reporting**

The Company has two operating segments, referred to as the Recorders segment and the Licensing segment. The Recorders segment includes the sale and service of data storage systems, instrumentation recorders and professional video products, substantially all of which are made by the manufacturing subsidiary Data Systems. The Licensing segment involves the licensing of Ampex intellectual property through the corporate licensing division. The accounting policies of the segments are the same as those described in the summary of significant accounting policies.

The Company evaluates segment performance based on return on operating assets employed. Profitability is measured as income (loss) from continuing operations before income taxes, excluding restructuring charges (credits), reorganization costs and corporate administrative costs and elimination entries. Corporate administrative costs are not allocated to either business segment.

There were no intersegment sales or transfers.

Forward-Looking Statements

This Form 10-Q contains predictions, projections and other statements about the future that are intended to be forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. Such forward-looking statements involve known and unknown risks, uncertainties and other important factors that could cause our actual results, performance or achievements, or industry results, to differ materially from any future results, performance or achievements expressed or implied by such forward-looking statements. Such risks, uncertainties and other important factors include, among others, those described under Risk Factors in our Annual Report on Form 10-K for the fiscal year ended December 31, 2007 (2007 Form 10-K) and in Item 1A. Risk Factors of Part II Other Information of this Form 10-Q. These forward-looking statements speak only as of the date of this Report. We disclaim any obligation or undertaking to disseminate updates or revisions of any expectations with regard thereto or any change in events, conditions or circumstances on which any such statement is based. **IN ASSESSING FORWARD-LOOKING STATEMENTS CONTAINED IN THIS FORM 10-Q, READERS ARE URGED TO READ CAREFULLY ALL SUCH CAUTIONARY STATEMENTS.**

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS **Chapter 11 Reorganization**

On March 30, 2008, Ampex Corporation and its U.S. subsidiaries (collectively, the Debtors) filed voluntary petitions for relief under chapter 11 of title 11 of the United States Code (the Bankruptcy Code) in the United States Bankruptcy Court for the Southern District of New York (the Bankruptcy Court). We have continued to operate our business as a debtor-in-possession under the jurisdiction of the Bankruptcy Court and in accordance with the provisions of the Bankruptcy Code. On April 16, 2008, the United States Trustee for the Southern District of New York appointed a committee to represent the interests of unsecured creditors in the Debtors' chapter 11 cases (the Chapter 11 Cases).

On March 31, 2008, April 1, 2008, and April 22, 2008, the Bankruptcy Court entered certain orders that permit us to pay certain prepetition employee salary and benefit obligations, as well as certain vendor obligations. On March 31, 2008, the Bankruptcy Court also entered an order authorizing us to continue to honor our customer warranties and other programs in the ordinary course of business. On June 26, 2008, the Bankruptcy Court approved a stipulation among the Debtors and certain creditors holding a majority of our secured debt and our largest unsecured creditor (the Consenting Holders) authorizing the use of cash claimed as collateral (Cash Collateral) by such lenders, subject to certain terms and conditions.

On or about March 30, 2008, we filed a pre-negotiated plan of reorganization (as amended, the Plan) and related disclosure statement (as amended, the Disclosure Statement). The Bankruptcy Court approved the Disclosure Statement, as amended, on June 11, 2008, and authorized the Debtors to solicit votes to accept or reject the Plan from certain creditors. Solicitation commenced on June 18, 2008. On July 9, 2008, the Debtors filed a modified Plan which incorporated, among other things, certain changes to the lump sum cash payment election available to the holders of allowed general unsecured claims (the Plan Modifications). On July 14, 2008, the Bankruptcy Court approved a supplement to the Disclosure Statement related to the Plan Modifications and authorized the re-solicitation of the holders of certain general unsecured claims. Prior to filing petitions for relief under chapter 11, we negotiated the terms of the Plan with and obtained the support of the Consenting Holders and subsequently received the support of the Creditors' Committee. This support is evidenced by the Plan Support Agreement (as amended from time to time, the PSA).

Table of Contents

All creditors entitled to vote on the Plan overwhelmingly voted in favor of the Plan. On July 31, 2008, the Bankruptcy Court entered an order confirming the Plan. We anticipate that all remaining conditions to consummation of the Plan will be able to be satisfied and that Ampex and its U.S. subsidiaries will emerge from chapter 11 within the next few months. However, there are a number of risks related to consummation of the Plan that could impact our ability to continue as a going concern. See Item 1A. Risk Factors, below.

The consolidated financial statements as of June 30, 2008 and December 31, 2007 do not give effect to any adjustments in the carrying values of assets or liabilities that will be recorded upon implementation of the Plan and the adoption of fresh-start accounting. Legal expenses incurred in connection with the restructuring of our 12% Senior Notes due August 15, 2008 (the Senior Notes) and our Notes issued to Hillside Capital Incorporated (the Hillside Notes) and in preparing for the Chapter 11 Cases, have been reported separately as Reorganization Costs in our consolidated statements of operations.

Plan of Reorganization

The overall purpose of the Plan is to provide for the restructuring of our liabilities in a manner designed to maximize recovery to all stakeholders and to enhance the financial viability of the newly reorganized Company after it emerges from chapter 11 (Reorganized Ampex) by de-leveraging the Company, providing additional liquidity and arranging a long-term financing solution to future pension contributions that does not over-leverage us in future years. At June 30, 2008, we had outstanding debt totaling \$62.6 million, which consisted of \$7.1 million of Senior Notes, and \$55.5 million of principal and interest outstanding under the Hillside Notes. Under the terms of the Hillside Notes, \$4.7 million is due currently and another \$4.5 million of principal and interest is due at various times in 2008. Substantial debt service under the Hillside Notes is due in 2009 and beyond. As more fully explained in Note 13, the Hillside Notes were issued pursuant to the terms of a funding agreement by and between Hillside, the Company and certain other parties, in connection with a settlement agreement between the Company, Hillside and the Pension Benefit Guaranty Corporation (PBGC) whereby Hillside Capital Incorporated (Hillside) is jointly and severally obligated along with us to make pension contributions under the Ampex pension plan and the pension plan of our former subsidiaries (the Media pension plan) in the event that we are unable to make such payments. Pension contributions under these plans from 2008 through 2013 are estimated to total approximately \$44 million.

Under the terms of the Plan, the Debtors and Hillside are agreeing to enter into a credit agreement (the Credit Agreement) which generally consists of three components: (1) obligations to satisfy existing secured debts; (2) new borrowings; and (3) any future obligations incurred in connection with Hillside's payment of required contributions or termination liability under the pension plans. Pursuant to the terms of the Plan and the PSA, Hillside will agree to accept the Debtors' obligation to repay \$10.5 million under the Credit Agreement in full and final satisfaction of its \$11 million secured claims against the Debtors on account of the Hillside Notes. The remaining \$0.5 million of Hillside's secured claim is contemplated to be gifted to the holders of existing Common Stock who do not object to the Plan. This gift will be distributed in the form of certain rights which are described below. In addition, under a separate tranche of the Credit Agreement, Hillside will lend the Company \$5 million to be used for general working capital purposes and to repay approximately \$3.5 million of the Senior Notes. Furthermore, if Hillside is required to fund future required contributions to the pension plans, Hillside will be deemed to have granted another new senior loan in the amount of such contribution.

All three elements of this Credit Agreement (i.e., the \$10.5 million of debt in exchange for Hillside's secured claim, the \$5 million in new borrowings, and any amounts borrowed on account of the future required contributions or termination liability under the pension plans satisfied by Hillside) shall be equal to an aggregate amount not to exceed \$25 million outstanding under the Credit Agreement. Thereafter, the Debtors will issue to Hillside new preferred stock of Reorganized Ampex (the New Preferred Stock) in the amount of each required contribution made by Hillside to the pension plans. At the time of Plan confirmation, Hillside has already made the April and July pension contributions.

Table of Contents

The loans under the Credit Agreement will bear interest at 10% per annum. The balance of amounts outstanding under the Credit Agreement will be repayable, under various terms of the Credit Agreement, in annual installments ranging from \$2.9 million to \$5.0 million beginning in September 2010.

The holders of the Senior Notes will receive amended senior notes in the amount of the outstanding portion of their claims held on account of the Senior Notes on the effective date of the Plan.

Under the Plan, it is contemplated that unsecured creditors, who include, but are not limited to, the Company's trade creditors, Hillside with respect to its unsecured claims, certain participants in our Supplemental Retirement Plans and holders of claims arising from environmental remediation obligations, will receive shares of new common stock in Reorganized Ampex (New Common Stock) or, creditors other than Hillside may receive at their option, cash that equals the greater of: (a) the cash equal to the percentage of recovery that such creditor would have received had there been no cash election, up to a maximum payment of \$5,000; or (b) 7% of the allowed amount of the unsecured claim (Lump Sum Cash Payment). Shares of New Common Stock are not expected to be registered or traded on any public exchange.

Under the Plan, all of the Company's existing common stock (Common Stock), stock options, and restricted stock awards will be cancelled upon emergence. Upon the Company's emergence from chapter 11, the New Common Stock will not be publicly traded. Holders of existing Common Stock, stock options or restricted stock awards will receive no distribution. Although holders of existing Common Stock will not receive any distributions on account of their interests, as a result of the compromises and settlements set forth in the Plan, holders of existing Common Stock that do not object to the Plan will be eligible to receive certain contingent payments rights (CPRs) that provide for the pro rata distribution of net cash proceeds from new licensing and other monetization initiatives related to the Debtors' intellectual property after amounts required to retire all outstanding debt and scheduled pension contributions and other obligations are first recovered. Once net cash proceeds totaling approximately \$83.8 million have been received by the Reorganized Debtors, the holders of the CPRs will be entitled to receive their pro rata share of 50% of all subsequent proceeds related to the Debtors' intellectual property as set forth above, net of expenses of administering the CPRs. There can be no assurance that the Debtors will be able to generate any future licensing revenue or other proceeds from other monetization initiatives or, if they do, whether they will attain sufficient levels required to provide for distributions to the holders of these rights. The Debtors do not believe that the CPRs will constitute securities; the CPRs will not be registered and will have limited rights of transferability.

The cancellation of our Common Stock and the issuance of New Common Stock to certain of our unsecured creditors, as contemplated by the Plan, will result in a change of control of Ampex. Upon consummation of the Plan, it is contemplated that Hillside, which is currently our largest unsecured creditor, will own at least 80% of the New Common Stock, and will be entitled to appoint all of the members of our Board of Directors. Accordingly, due to the anticipated change of control and the pendency of the Chapter 11 Cases, we expect that we will not have a 2008 Annual Meeting of Stockholders.

As a result of the filing of the Chapter 11 Cases, our Common Stock was suspended from trading on the Nasdaq Stock Market on May 8, 2008, and was delisted on July 21, 2008. The Common Stock is currently trading on the Pink Sheets. Although one or more market makers may apply to quote the Common Stock on the OTC Bulletin Board, we cannot assure you that they will do so, or that the Common Stock will be eligible for quotation on the OTC Bulletin Board. Under the Plan, the Common Stock is expected to be canceled upon emergence from chapter 11.

Table of Contents

Overview

Our continuing operations include the results of our Licensing and Recorders segments. Our licensing segment generates revenues from licenses we grant to companies covering a variety of technologies that we developed in prior years when we designed and manufactured digital video tape recorders and special effects products used in the professional television broadcast and post production industries. Historically, our licensees included other competitive manufacturers of professional products as well as manufacturers of consumer products where we did not compete but where our technology was relevant to their products' functionality. Licensing our intellectual property has been a significant business segment since 1968.

In recent years, we received substantial royalties from manufacturers of digital still cameras who licensed our rapid image retrieval (121) patent. This patent expired in April 2006. Today, the majority of our licensing revenue is derived from manufacturers of digital camcorders who we believe use several of our digital compression and image processing patents. These patents expire from 2012 to 2014.

We believe that many of these same patents are also used, or may be used in the future as improved image quality is desired, by manufacturers of digital still cameras, camera-equipped cellular phones and cable set top boxes. These are very large markets and, if we are successful in executing license agreements with the major manufacturers of these products, we would realize a substantial increase in revenues and profitability. We have had numerous discussions with manufacturers of a variety of additional digital video consumer products regarding the possible use of several of our patents, including those discussed above. However, we have not been able to prove infringement and as a result have been unable to conclude new licensing agreements. Due to changes in patent laws and our limited financial resources we do not believe it is practical to pursue a traditional patent licensing strategy, but we are evaluating other strategies to monetize our intellectual property, including the sale of patents or formation of joint ventures with third parties that have greater financial resources and may be able to pursue patent licensing strategies.

Many of our patents that are relevant to consumer products are the result of design work on professional and broadcast television products. These are markets that we do not presently pursue actively. Therefore, as our patents that are useful in consumer products expire, we may not be able to replace them, with the result that we might cease to receive patent royalties in the future.

In recent years, we have focused product development activities of our Recorders segment on data acquisition and instrumentation recorders which are used in defense applications and in airframe and sensor test applications. Our DDRs and DSRs disk- and solid state-based data acquisition recorders are intended to replace over several years the large installed base of tape-based data recorders and, if successful, should generate increased sales and profits for the Recorders segment. In addition, we have recently introduced several new multiplexer modules, devices that permit various signals to be recorded simultaneously from different sources, for use with our instrumentation recorders, a new miniature recorder for use in applications where space is especially constrained, and the new high definition video recorder.

Table of Contents

The following discussion and analysis of the financial condition and results of operations of the Company and its subsidiaries should be read in conjunction with the Unaudited Consolidated Financial Statements and the Notes thereto, included elsewhere in this Report.

Recent Pronouncements

In July 2006, the Financial Accounting Standards Board (FASB) issued FASB Interpretation No. 48, Accounting for Uncertainty in Income Taxes, an interpretation of FASB Statement No. 109 (FIN 48). FIN 48 clarifies the accounting for uncertainty in income taxes by prescribing the recognition threshold a tax position is required to meet before being recognized in the financial statements. It also provides guidance on derecognition, classification, interest and penalties, accounting in interim periods, disclosure, and transition. FIN 48 is effective for fiscal years beginning after December 15, 2006 and was adopted by us on a prospective basis in the first quarter ended March 31, 2007. The adoption of FIN 48 did not have any effect on our financial statements.

In September 2006, the FASB issued SFAS No. 157, Fair Value Measurements (SFAS 157). SFAS 157 provides guidance for using fair value to measure assets and liabilities. It also responds to investors' requests for expanded information about the extent to which companies measure assets and liabilities at fair value, the information used to measure fair value, and the effect of fair value measurements on earnings. SFAS 157 applies whenever other standards require (or permit) assets or liabilities to be measured at fair value, and does not expand the use of fair value in any new circumstances. SFAS 157 is effective for financial instruments beginning in January 2008 and non-financial interests beginning in January 2009 and was adopted by us in the quarter ended March 31, 2008. The adoption of SFAS 157 did not have a material effect on our consolidated results of operations and financial condition.

In February 2007, the FASB issued SFAS No. 159, The Fair Value Option for Financial Assets and Financial Liabilities Including an amendment of FASB Statement No. 115 (SFAS 159). SFAS 159 expands the use of fair value accounting but does not affect existing standards which require assets or liabilities to be carried at fair value. Under SFAS 159, a company may elect to use fair value to measure accounts and loans receivable, available-for-sale and held-to-maturity securities, equity method investments, accounts payable, guarantees and issued debt. Other eligible items include firm commitments for financial instruments that otherwise would not be recognized at inception and non-cash warranty obligations where a warrantor is permitted to pay a third party to provide the warranty goods or services. If the use of fair value is elected, any upfront costs and fees related to the item must be recognized in earnings and cannot be deferred, e.g., debt issue costs. The fair value election is irrevocable and generally made on an instrument-by-instrument basis, even if a company has similar instruments that it elects not to measure based on fair value. At the adoption date, unrealized gains and losses on existing items for which fair value has been elected are reported as a cumulative adjustment to beginning retained earnings. Subsequent to the adoption of SFAS 159, changes in fair value are recognized in earnings. SFAS 159 is effective for fiscal years beginning after November 15, 2007 and was adopted by us in the first quarter of fiscal 2008. We have not expanded the use of fair value accounting to any of our eligible items, accordingly, the adoption of SFAS 159 did not have a material effect on our consolidated results of operations and financial condition.

In December 2007, the FASB issued SFAS No. 141R, Business Combinations (SFAS 141R). SFAS 141R requires the acquiring entity in a business combination to recognize all the assets acquired and liabilities assumed in the transaction at fair value as of the acquisition date. SFAS 141R is effective for business combinations for which the acquisition date is on or after the beginning of the first annual reporting period beginning on or after December 15, 2008. We are required to adopt SFAS 141R in the first quarter of 2009.

Table of Contents

Critical Accounting Policies and Estimates

General

Our discussion and analysis of our financial condition and results of operations are based upon our consolidated financial statements, which have been prepared in accordance with accounting principles generally accepted in the United States. The preparation of these financial statements requires us to make estimates and judgments that affect the reported amounts of assets, liabilities, revenues and expenses, and related disclosure of contingent assets and liabilities. On an ongoing basis, we evaluate our most significant estimates and assumptions, including those related to revenue recognition, bad debts, warranty obligations, inventories, pension costs and unfunded accumulated benefit obligations, litigation expense and environmental obligations. We base our estimates on historical experience and on various other factors that we believe to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ significantly from these estimates.

We believe the following critical accounting policies affect our more significant estimates used in the preparation of our consolidated financial statements.

Revenue Recognition

We recognize revenue in accordance with applicable accounting standards including Staff Accounting Bulletin (SAB) No. 104, Revenue Recognition and American Institute of Certified Public Accountants (the AICPA) Statement of Position (SOP) 97-2, Software Revenue Recognition, as amended. Revenue is recognized when (1) persuasive evidence of an arrangement exists, (2) delivery and acceptance has occurred or services have been rendered, (3) the fee is fixed or determinable, and (4) collection is reasonably assured. We derive our revenues from two principal sources: license fees (including royalties) through our Licensing segment, and product and parts sales and service contracts through our Recorders segment.

Determination of criteria (3) and (4) are based on Management's judgments regarding the fixed nature of the fee charged for services rendered and products delivered and the collectibility of those fees. Should changes in conditions cause Management to determine these criteria are not met for certain future transactions, revenue recognized for any reporting period could be adversely affected.

Our revenue recognition policy with respect to royalty income is as follows: when we enter into an agreement with a new licensee for use of our patents, we may receive settlement of past due royalties. This is a negotiated amount and is typically paid by the licensee within 30 days of signing the license agreement. Past due royalties cover the licensee's product shipments from the period when they were first notified of infringement up through the effective date of the license. We may also negotiate a prepayment of royalties that would otherwise be due up to a specific future date. The amounts due under our negotiated agreements for both past due royalties and prepayment of royalties are non-refundable and non-forfeitable. We recognize both past due and prepayment amounts as revenue in the period when the agreement has been executed by both parties, which is when there is persuasive evidence of an arrangement, fees become fixed or determinable and collection becomes probable, as we have no future obligations with respect to these agreements and delivery has occurred. Alternatively, our licensing agreement may include a running royalty which covers products shipped by the licensee in the current period after the date that the license agreement has been entered into and until the patent has expired or when the patent is no longer contractually available to the licensee, if shorter. Our running royalties are computed as a percentage of the selling price of the licensee's products and are paid quarterly in arrears and recognized as revenue at the time the amount of the quarterly royalty payment becomes determinable, generally upon receipt of the licensee's sales report upon which royalties are determined, and collection is reasonably assured.

Table of Contents

Revenue on product sales and services is recorded when all of the following have occurred: an agreement of sale exists, product delivery (principally FOB Ampex Factory) and, where applicable, acceptance has occurred or services have been rendered, pricing is fixed or determinable, and collection is reasonably assured. Service revenue is recognized ratably over the life of the service contract.

Accounts Receivable

We perform ongoing credit evaluations of our customers and adjust credit limits based upon payment history and the customer's current credit worthiness, as determined by our review of their current credit information. We continuously monitor collections and payments from our customers and maintain a provision for estimated credit losses based upon our historical experience and any specific customer collection issues that we have identified. While such credit losses have historically been within our expectations and the provisions established, we cannot guarantee that we will continue to experience the same credit loss rates that we have in the past. Since our accounts receivable are concentrated in a relatively few number of customers, a significant change in the liquidity or financial position of any one of these customers could have a material adverse impact on the collectibility of our accounts receivable and our future operating results.

Inventories

We value our inventory at the lower of the actual cost to purchase and/or manufacture the inventory or the current estimated market value of the inventory. Abnormal amounts of facility expense, freight, handling costs and scrap material are excluded from inventory cost and expensed during the period in which they are incurred. We regularly review inventory quantities on hand and record a provision for excess and obsolete inventory based primarily on our estimated forecast of product demand and production requirements for the next eighteen months. A significant increase in the demand for our products could result in a short-term increase in the cost of inventory purchases while a significant decrease in demand could result in an increase in the amount of excess inventory quantities on hand. We also maintain an inventory of tape and spare parts to service our customers' products after the date of sale. We amortize tape and spare parts inventories over the expected number of years we expect to support such products but not in excess of 30 months. If actual market conditions are less favorable than those projected by Management, additional inventory write-downs may be required. Additionally, our estimates of future product demand may prove to be inaccurate, in which case we may have understated or overstated the provision required for excess and obsolete inventory. If our inventory were determined to be overvalued, we would be required to recognize such costs in our cost of goods sold at the time of such determination. We make every effort to ensure the accuracy of our forecasts of future product demand, however, any significant unanticipated change in demand or technological development could have a significant impact on the value of our inventory and our reported operating results.

Deferred Taxes

We must make certain estimates and judgments in determining income tax expense for financial statement purposes. These estimates and judgments occur in the calculation of certain deferred tax assets and liabilities, which arise from differences in the timing of recognition of revenue and expense for tax and financial statement purposes.

We must assess the likelihood that we will be able to recover our deferred tax assets and net operating loss carryforwards. We must increase our provision for taxes by recording a valuation allowance against the deferred tax assets and net operating loss carryforwards that we estimate will more likely than not ultimately not

Table of Contents

be recoverable. Although we reported net income in 2005 and 2007, we have reported losses in recent years and during 2006 and for the six months ended June 30, 2008. Accordingly, we cannot determine that it is more likely than not that we will recover our deferred tax assets and net operating loss carryforwards, and therefore have established a valuation allowance equal to such assets. If we recognize and/or realize deferred tax assets or net operating loss carryforwards in subsequent years, through absorption of taxable income or reversal of deferred tax asset reserves, our tax provision in that period will be less than the statutory tax rate.

In addition, the calculation of our tax liabilities involves dealing with uncertainties in the application of complex tax regulations. We recognize liabilities for anticipated tax audit issues in the U.S. and other tax jurisdictions based on our estimate of whether, and the extent to which, additional taxes will be due. If we ultimately determine that payment of these amounts is unnecessary, we reverse the liability and recognize a tax benefit during the period in which we determine that the liability is no longer necessary. We record an additional charge in our provision for taxes in the period in which we determine that the recorded tax liability is less than we expect the ultimate assessment to be.

Warranty

Products sold are generally covered by a warranty for periods ranging from 90 days to one year. We accrue a warranty reserve at the time of sale for estimated costs to provide warranty services. Our estimate of costs to service our warranty obligations is based on historical experience and expectation of future conditions. To the extent we experience increased warranty claim activity or increased costs associated with servicing those claims, our warranty accrual will increase, resulting in decreased gross profit.

Pension and Other Postretirement Benefits/ Obligations

We adopted SFAS No. 158, *Employers' Accounting for Defined Benefit Pension and Other Postretirement Plans*, an amendment of FASB Statements No. 87, 88, 106 and 132(R), as of December 31, 2006. Under SFAS No. 158, the funded status of each pension and other postretirement benefit plan is required to be reported as an asset (for overfunded plans) or a liability (for underfunded plans) at December 31, 2006. The implementation of SFAS No. 158 had no impact on our Consolidated Balance Sheets or Statement of Operations and Comprehensive Income (Loss). The determination of our obligation and expense for pension and other postretirement benefits payable to Ampex's and Media's employees and retirees is dependent on our selection of certain assumptions used by actuaries in calculating such amounts. Those assumptions include, among others, the discount rate, expected long-term rate of return on plan assets and mortality assumptions for the plan participants. In accordance with SFAS No. 158, actual results that differ from our assumptions are accumulated and amortized over future periods and, therefore, generally affect our recognized expense and recorded obligation in such future periods.

While we believe that our assumptions are appropriate, significant differences in our actual experience or significant changes in our assumptions that may be required under new legislation or otherwise may materially affect our pension and other postretirement obligations and our future expense as well as amounts that may ultimately be required to be paid to fund the plans.

Valuation of Long-Lived Assets and Investments

We periodically review the carrying value of our long-lived assets and investments for continued appropriateness. This review is based upon our projections of anticipated future cash flows or other methods used to determine fair value. While we believe that our estimates of fair value are reasonable, different assumptions could materially affect our evaluations. We record an impairment provision to reduce the carrying value of minority equity investments carried on the cost method if our estimate of their fair value is below their original cost and the impairment is other than temporary.

Table of Contents

Stock-Based Compensation

The Company accounts for stock-based compensation in accordance with SFAS No. 123 (revised 2004) (SFAS No. 123R), Share-Based Payment. Under the provisions of SFAS No. 123R, stock-based compensation cost is estimated at the grant date based on the award's fair-value as calculated by the Black-Scholes-Merton (BSM) option-pricing model and is recognized as expense ratably over the requisite service period. The BSM model requires various highly judgmental assumptions including volatility, forfeiture rates, and expected option life. If any of the assumptions used in the BSM model change significantly, stock-based compensation expense may differ materially in the future from that recorded in the current period. Prior to 2006, we accounted for stock-based compensation under the intrinsic method prescribed by Accounting Principles Board (APB) Opinion No. 25, Accounting for Stock Issued to Employees, which historically did not result in a charge to operations.

Contingencies

We account for contingencies in accordance with SFAS No. 5, Accounting for Contingencies. SFAS No. 5 requires that we record an estimated loss from a loss contingency when information available prior to issuance of our financial statements indicates that it is probable that an asset has been impaired or a liability has been incurred at the date of the financial statements and the amount of the loss can be reasonably estimated. Accounting for contingencies such as our obligations to fund Media's environmental remediation costs, as well as obligations involving legal, income tax and other matters, requires us to use our judgment. While we believe that our accruals for these matters are adequate, if the actual loss from a loss contingency is significantly different than the estimated loss, our results of operations may be over- or understated.

Environmental Liabilities

Our facilities and business practices are subject to numerous federal, state and local laws and regulations designed to protect the environment from waste emissions and hazardous substances. Also, we have continuing liability with respect to environmental contamination related to the facilities and disposal activities of our former Media subsidiary. We are engaged in a number of environmental investigations, remediation and/or monitoring activities, some of which involve the participation of state and local government agencies. We recognize a liability for any contingency that is probable of occurrence and reasonably estimable in accordance with AICPA Statement of Position No. 96-1: Environmental Remediation Liabilities. We continually assess these contingencies based on a careful analysis of each matter with the assistance of outside legal counsel and, if applicable, other experts. Such analysis includes making judgments concerning matters such as the extent of environmental damage and our pro rata participation, if applicable, the most desirable remediation techniques and the time period during which the cleanup costs may be incurred. Because most contingencies are resolved over long periods of time, liabilities may change in the future due to new developments or other changes. In the second quarter of 2008, we increased our reserve for environmental remediation costs related to the Seaboard site based on terms contained in a settlement agreement subject to approval by the Bankruptcy Court. For a discussion of our contingencies related to environmental matters, including management's judgment applied in the recognition and measurement of specific liabilities, see Note 15 of Notes to Unaudited Consolidated Financial Statements.

Table of Contents

The following discussion and analysis of the financial condition and results of operations of the Company and its subsidiaries should be read in conjunction with the Unaudited Consolidated Financial Statements and the Notes thereto, included elsewhere in this Report.

Business Segments

We have two business segments, which we refer to as our Recorders segment and our Licensing segment. Our Recorders segment involves the sale and service of instrumentation recorders and mass data storage systems, all of which are made by Data Systems. Our Licensing segment involves the licensing of our intellectual property to manufacturers of consumer digital imaging products through our corporate licensing division. For information regarding revenues, income or loss, assets and other financial data for each business segment, see Note 20 of the Notes to Unaudited Consolidated Financial Statements.

Our Recorders segment includes Data Systems' three principal product groups and its service revenue, which are described more fully below. Data Systems also conducts an aftermarket operation consisting primarily of the supply of spare parts for certain products.

Instrumentation recorders, including Data Systems' data acquisition and instrumentation products (including disk-based DDRs instrumentation recorders, solid state memory-based DSRs instrumentation recorders and tape-based DCRsi instrumentation recorders) and related tape and aftermarket parts;

Mass data storage systems, including Data Systems' 19-millimeter scanning recorders and library systems (DST and DIS products) and related tape and aftermarket parts;

Professional video products, consisting principally of television aftermarket products that Data Systems continues to support but no longer manufactures; and

Service revenue, consisting principally of maintenance contracts on Data Systems' products.
AMPEX, DST, DIS, DCRsi, DDRs and DSRs are trademarks of Ampex Corporation.

Our Licensing segment generates revenue from licenses granted to companies that manufacture consumer imaging products (digital video camcorders, digital still cameras, camera-equipped cellular phones, and DVD recorders). We also license our patents to certain manufacturers of professional videotape recorders and image processing devices such as digital special effects processors.

Table of Contents

The following table shows (i) licensing revenue generated by our Licensing segment, (ii) revenue generated by our Recorders segment through sales of Data Systems products by product group and (iii) service revenue generated by our Recorders segment for the three and six months ended June 30, 2008 and 2007.

	For the Three Months			
	Ended		For the Six Months	
	June 30,	June 30,	Ended June 30,	Ended June 30,
	2008	2007	2008	2007
	(in millions)			
Licensing Segment				
Running licensing revenues	\$ 2.6	\$ 2.5	\$ 5.1	\$ 5.3
Prior period and prepaid licensing revenues				1.9
Total licensing revenues	\$ 2.6	\$ 2.5	\$ 5.1	\$ 7.2
Recorders Segment				
Data acquisition and instrumentation recorders	\$ 2.4	\$ 2.7	\$ 3.8	\$ 7.0
Mass data storage tape drives and library systems	0.8	0.9	1.7	1.9
Service revenue	1.6	1.8	3.1	3.6
Other (including professional video products)	0.2	0.3	0.9	0.9
Total net product and service revenue	\$ 5.0	\$ 5.7	\$ 9.5	\$ 13.4

Results of Operations for the Three and Six Months Ended June 30, 2008 and 2007

Licensing Revenue. Licensing revenue is derived from royalties that we receive from licensing our patents. Licensing revenue in the three and six months ended June 30, 2008 totaled \$2.6 million and \$5.1 million and in the three and six months ended June 30, 2007 totaled \$2.5 million and \$7.2 million, of which \$1.9 million related to negotiated settlements covering a prepayment of royalty obligations through 2011. All other royalties were running royalties which are based on quarterly sales by the licensees reported to the Company within 60 days after the end of the respective quarter, substantially all of which was earned from manufacturers of digital camcorders. Due to one-time royalty settlements covering prior and future periods, the expiration of certain patents and the terms and periods covered by licensing agreements, licensing revenues are not comparable between the periods presented and are not indicative of licensing revenues to be received in future periods.

Our relevant digital imaging patents were developed when we manufactured still stores, video special effects products and digital videotape recorders, which we sold into the professional broadcast and postproduction markets in prior years. As discussed above, these patents have expiration dates through 2014. After they expire, our future licensing revenues are expected to decline materially.

Table of Contents

Product Revenue. Product revenue generated by our Recorders segment decreased to \$3.5 million and \$6.5 million in the three and six months ended June 30, 2008 from \$3.9 million and \$9.8 million in the three and six months ended June 30, 2007. During these periods product revenue was principally derived from sales of our DDRs and DSRs instrumentation recorders, which are disk-based and solid state memory-based data acquisition recorders used in intelligence gathering activities and airframe flight certification. Revenues in the three and six months ended June 30, 2008 from these new data acquisition recorders declined to \$2.3 million and \$3.5 million from \$2.5 million and \$6.5 million in the three and six months ended June 30, 2007. The decline in product revenue in 2008 from 2007 is due to the completion of a multi-year contract with The Boeing Company for our new disk- and solid state-based data instrumentation recorders used in the development of the 787 airplane. In the second quarter of 2008, we received a \$3.2 million order from The Boeing Company to provide new disk- and solid state-based instrumentation recorders, of which we delivered \$0.7 million in the three months ended June 30, 2008 and expect the remainder to be delivered over the next several quarters. Government agencies and defense contractors have historically experienced significant pressure to reduce spending and we expect them to experience such pressure in the future, which may lead to further sales declines.

Our backlog of firm orders was \$4.3 million at June 30, 2008 and \$2.7 million at December 31, 2007. We typically operate with low levels of backlog, requiring us to obtain the majority of each period's orders in the same period that they must be shipped to the customer. Historically, a small number of large orders have significantly impacted sales levels and often orders are received late in the quarter, making it difficult to predict revenue levels in future periods.

Service Revenue. Total service revenue generated by our Recorders segment in the three and six months ended June 30, 2008 was \$1.6 million and \$3.1 million compared to \$1.8 million and \$3.6 million for the three and six months ended June 30, 2007. We expect that service revenue will decline over time as older tape-based products are replaced with newer disk- or solid state memory-based instrumentation recorders which require less service.

Intellectual Property Costs. Intellectual property costs include external legal costs, amounts paid to external consultants as well as certain internal costs, described below, pertaining to efforts to monetize our patents. Intellectual property costs also include external accounting costs incurred in investigating the validity and enforceability of our patents and auditing royalty reports. Intellectual property costs fluctuate widely between periods based primarily on whether or not we are pursuing patent litigation. During the years ended 2007, 2006 and 2005, we incurred significant external legal costs in preparing for patent enforcement suits in the International Trade Commission (ITC) and in the District Court that totaled \$0.5 million, \$8.6 million and \$9.5 million, respectively. Our external litigation costs related to patent infringement are expected to remain at low levels during 2008. While our strategy is to negotiate reasonable royalty agreements, we may seek to enforce our patents by instituting additional litigation against other manufacturers of digital still cameras and other products where our technology is being used, if licensing agreements are not completed on satisfactory terms. There is no direct cost of goods sold associated with licensing revenue. We have an internal staff of lawyers, engineers and employ outside contractors that are principally involved in negotiating and monitoring our licensing agreements. Their compensation, travel expenditures and other direct costs are included as intellectual property costs. We do not allocate any general corporate overhead to our Licensing segment. Compensation includes incentive payments under long-term incentive plans earned by our employees based on amounts collected from our licensees. Beginning in 2007 we engaged independent patent research and evaluation companies to appraise our intellectual property and to identify third parties that might be interested in forming joint ventures or otherwise help us monetize our intellectual property. However, these efforts have not resulted in any new license agreements or patent related revenues to date, and we cannot assure you that they will do so in the future.

Table of Contents

Cost of Product Revenue. Cost of product sales includes the cost of materials, labor and overhead incurred in the manufacture of our products. Cost of product sales as a percentage of product revenue was 52.8% and 57.3% in the three and six months ended June 30, 2008 compared to 49.0% and 49.3% in the three and six months ended June 30, 2007. Our cost of product sales percentage fluctuates based on a number of factors, including the volume and mix of product shipped in the period. The increase in the cost of product revenue percentage in 2008 when compared to 2007 was due to the decreased sales volume in 2008, which resulted in lower absorption of fixed manufacturing costs.

Cost of Service Revenue. Cost of service revenue includes materials and labor used in maintaining and repairing our customers' systems that we provide under service contracts. Cost of service revenue as a percentage of service revenue was 32.2% and 33.4% in the three and six months ended June 30, 2008 compared to 29.1% and 28.7% in the three and six months ended June 30, 2007. The cost of service revenue fluctuates based largely on the level of services we provide to repair or replace equipment in a particular period and the cost of material used to repair or replace such equipment.

Research, Development and Engineering Expenses. All of our research, development and engineering expenses relate to our Recorders segment. The increase in research, development and engineering expenditures during the three and six months ended June 30, 2008 compared to the three and six months ended June 30, 2007 is due primarily to an increase in engineering personnel coupled with costs incurred to produce peripheral products to enhance the DDRs ruggedized disk- and DSRs solid state memory-based data acquisition recorders. Such costs are expected to continue to increase as we develop new and enhanced products.

Selling and Administrative Expenses. Selling and administrative expenses decreased to \$3.5 million and \$7.0 million in the three and six months ended June 30, 2008 from \$3.6 million and \$7.3 million in the three and six months ended June 30, 2007. Selling and administrative expenses for the Recorders segment and the unallocated corporate administrative expenses (no corporate administrative expenses are allocated to the Licensing segment) are shown in the following table:

	For the Three Months Ended June 30, 2008		For the Six Months Ended June 30, 2008	
	2007		2007	
	(in millions)			
Recorders segment	\$ 1.7	\$ 1.6	\$ 3.1	\$ 3.3
Corporate	1.8	2.0	3.9	4.0
Total	\$ 3.5	\$ 3.6	\$ 7.0	\$ 7.3

The principal components of corporate selling and administrative expense are listed below:

	For the Three Months Ended June 30, 2008		For the Six Months Ended June 30, 2008	
	2007		2007	
	(in millions)			
U.S. and foreign pension expense	\$ 0.9	\$ 0.7	\$ 1.8	\$ 1.5
Legal and accounting fees	0.3	0.3	0.5	0.6
Corporate salaries and benefits	0.2	0.4	0.5	0.7
Stock based compensation expense	0.1	0.1	0.2	0.2

Table of Contents

Beginning in 2006, we began to expense the fair value of stock options and restricted stock awards over the period such options and awards vest. We expensed \$0.1 million and \$0.2 million in each of the three and six months ended June 30, 2008 and 2007.

Reorganization Costs. To date, we have incurred legal costs of \$4.7 million in connection with the restructuring of our liabilities, of which \$4.1 million was incurred during the six months ended June 30, 2008. We expect to incur significant additional reorganization costs during the remainder of 2008 while we are in chapter 11 which will be funded in part by additional financing supplied by Hillside upon emergence. See Plan of Reorganization.

Operating Income (Loss). We reported an operating loss of \$2.9 million and \$5.3 million in the three and six months ended June 30, 2008 compared to an operating income of \$0.2 million and \$3.6 million for the three and six months ended June 30, 2007. The operating income (loss) for the Licensing segment, Recorders segment and corporate administrative expenses is shown in the following table:

	For the Three Months Ended June 30, 2008		For the Six Months Ended June 30, 2008	
	2007		2007	
	(in millions)			
Licensing segment	\$ 2.1	\$ 1.8	\$ 3.5	\$ 5.7
Recorders segment	(0.2)	0.4	(0.9)	1.9
Unallocated corporate	(4.8)	(2.0)	(7.9)	(4.0)
Operating income (loss)	\$ (2.9)	\$ 0.2	\$ (5.3)	\$ 3.6

See corporate selling and administrative expenses discussed above under Selling and Administrative Expenses and Reorganization Costs for a discussion of the major components of Unallocated corporate loss.

Media Pension Costs. We remain the plan sponsor of the pension plan of Media, a former subsidiary that was sold to Quantegy Corporation (Quantegy) in 1995, and we remain obligated to make pension contributions to that plan. Pension costs (credits) are recognized under SFAS No. 87, Employers Accounting for Pensions.

Interest Expense. Interest expense decreased to \$0.2 million and \$1.3 million in the three and six months ended June 30, 2008 compared to \$1.0 million and \$1.9 million in the three and six months ended June 30, 2007, as we have discontinued accruing interest on the Hillside Notes while we are in chapter 11. We made cash payments of interest totaling \$0.7 million and \$1.4 million in the three and six months ended June 30, 2007. We did not make any interest payments in the three and six months ended June 30, 2008. Interest on the Senior Notes of \$0.4 million and \$0.4 million not paid in cash in the six months ended June 30, 2008 and 2007, respectively, was capitalized and added to the principal amount of the related debt obligation.

Amortization of Debt Financing Costs. Financing costs associated with the original issuance of the Senior Notes are being charged to expense through the maturity date in 2008.

Interest Income. Interest income is earned on cash balances and short-term investments.

Other (Income) Expense, Net. Other income (expense), net, includes foreign currency translation gains and losses resulting from our foreign operations, which were not significant.

Table of Contents

Provision for Income Taxes. The provision for income taxes in the three and six months ended June 30, 2008 and 2007 included foreign and state income taxes and withholding taxes on royalty revenue generated in certain Far East locations. At December 31, 2007, we had federal NOLs for income tax purposes of approximately \$200 million, expiring in the years 2009 through 2027. In addition, we have federal capital loss carryforwards totaling \$8.8 million at December 31, 2007, which may be utilized to offset capital gains, if any, generated in future periods. Cancellation of indebtedness arising from the chapter 11 reorganization will reduce the amount of NOL carryforwards by approximately \$50 million. The remaining NOL carryforwards may be subject to limitation under U.S. and state income tax laws. Pursuant to these loss limitation rules, the utilization of NOL and credit carryforwards of a loss corporation are limited if there is greater than a 50% cumulative shift in the ownership of its stock. However section 382(l)(5) and section 382(l)(6) of the Internal Revenue Code provide exceptions to the above described limitation if the shift in ownership is as a result of bankruptcy filing under chapter 11 of the Bankruptcy Code. A taxpayer that takes advantage of the section 382(l)(5) exception will lose its entire pre-bankruptcy NOLs if within a period of two years from the date of the first shift in the ownership of its stock, it experiences a second shift in ownership that is greater than 50%. If the New Common Stock experiences such a shift, we will not be able to utilize our NOLs in future years, thereby negatively affecting the value ascribed to the business upon emergence, our cash balances and liquidity. Under section 382(l)(6) NOL carryforwards are limited to an annual amount based on the new equity value of the company multiplied by the long-term Federal discount rate.

Loss from Discontinued Operations. In the three and six months ended June 30, 2008, we increased the liability with respect to discontinued operations to increase amounts accrued related to environmental remediation of the Seaboard site, which had been used for waste disposal by the Media operations. During the period, Seaboard agreed to cap our pro rata share of remediation costs at \$2.3 million, resulting in an increased liability of \$1.0 million. We are seeking approval of the revised claim from the Bankruptcy Court. Upon emergence from bankruptcy, it is anticipated that Seaboard will elect a Lump Sum Cash Payment and receive \$162 thousand in full satisfaction of its claim. In the three and six months ended June 30, 2007, there was no adjustment to the net liabilities for discontinued operations required. See Note 10 of Notes to Unaudited Consolidated Financial Statements.

Net Income (Loss). We reported a net loss of \$4.2 million and \$8.0 million in the three and six months ended June 30, 2008 and net loss of \$0.8 million and net income of \$1.7 million in the three and six months ended June 30, 2007, primarily as a result of the factors discussed above.

Other Comprehensive Income (Loss). Other comprehensive income (loss) includes foreign currency transaction adjustments resulting from our foreign operations.

Inflation and Changing Prices. We do not believe that inflation or changing prices have had any material impact on our product and service revenue, licensing revenue or income from continuing operations for the periods ended June 30, 2008 and 2007.

Liquidity and Capital Resources

General. Our cash balance at June 30, 2008 totalled \$10.9 million, of which our foreign subsidiaries held \$2.6 million. The foreign subsidiaries cash balances are generally required to fund their working capital requirements and for other obligations and cannot be remitted to the parent company. Substantially all cash generated by our Licensing segment in excess of related operating expenses and certain other expenses, including patent litigation costs, is first required to be applied to reduce debt, which at June 30, 2008 totaled \$62.6 million. During 2007, we initiated discussions with Hillside to restructure the Hillside Notes which

Table of Contents

ultimately lead to the commencement of our Chapter 11 Cases. The Plan, which is more fully described above under Plan of Reorganization, has received the support of the holders of a majority of our secured debt, our largest unsecured creditor and the Unsecured Creditors Committee. On July 31, 2008 the Bankruptcy Court entered an order confirming the plan of reorganization. All creditors entitled to vote on the Plan overwhelmingly voted in favour of the Plan. We anticipate that all remaining conditions to consummation of the Plan will be able to be satisfied and Ampex will emerge from bankruptcy within the next few months with a viable capital structure and sufficient liquidity to remain a going concern. However, there are a number of risks related to the consummation of the Plan that could impact our ability to continue as a going concern. The consolidated financial statements do not include any adjustments that might result should we be unable to continue as a going concern. The Plan is subject to certain deadlines, approvals and other contingencies, which are more fully described in our Form 10-K and Part II, Item 1A. Risk Factors below.

Cash Flow. We used cash from continuing operating activities totaling \$3.7 million and \$6.4 million in the six months ended June 30, 2008 and 2007, respectively, due largely to significant pension contributions, patent litigation costs, reorganization costs and interest expense. Cash used by discontinued operations totaled \$0.2 million and \$0.3 million in each of the six months ended June 30, 2008 and 2007, respectively.

Under the Plan, our current debt levels will be substantially reduced. Hillside will continue to be jointly and severally obligated to make pension contributions under our defined benefit plans. Future contributions from 2008 through 2013 are projected to total approximately \$44 million. Hillside will provide additional funding to us in the form of new senior loans under the Credit Agreement upon emergence from chapter 11 and may be deemed to have issued additional new senior loans if it makes future pension contributions. However, new senior loans issued under the Credit Agreement will be capped at \$25 million and, thereafter, the Company will issue to Hillside New Preferred Stock of the Company in satisfaction of future pension contributions that have been made by Hillside.

We also expect to incur certain reorganization costs in connection with the Chapter 11 Cases.

Debt. As of June 30, 2008 we had outstanding approximately \$62.6 million of total debt and interest, which includes approximately \$7.1 million of Senior Notes and \$55.5 million of Hillside Notes. See Plan of Reorganization above for a more detailed discussion of the restructuring proposal of our outstanding debt securities included in the Plan. The Plan has received the support of the holders of a majority of our secured debt, our largest unsecured creditor and the Creditors Committee.

Pension Contributions and Pension-Related Funding Obligations. We are the Plan Sponsor of the Ampex pension plan and the Media pension plan. We amended these plans in early 1994 to terminate benefit service and compensation accruals as of February 1, 1994 in order to reduce payments that would otherwise be required. These pension plans remain underfunded and actuaries have forecasted that substantial pension contributions will be required through 2013. The following amounts are less than the unfunded projected benefit obligation recognized by us as liabilities on our Consolidated Balance Sheets due to differing actuarial assumptions prescribed by ERISA in each instance.

Table of Contents

	Estimated Contributions	
	Ampex	Media
	Pension Plan	Pension Plan
	(in thousands)	
Remainder of 2008	\$ 5,471	\$ 1,621
2009	5,736	1,788
2010	7,386	2,288
2011	6,366	1,855
2012	7,337	2,314
2013	1,695	509
Total	\$ 33,991	\$ 10,375

Pension contributions are payable quarterly in April, July and October of the current year, and January and September following the plan year. Pension contributions payable in the remainder of 2008 are estimated as follows:

	Estimated Contributions	
	Ampex	Media
	Pension Plan	Pension Plan
	(in thousands)	
July 2008	\$ 1,642	\$ 536
September 2008	1,637	553
October 2008	2,192	532
	\$ 5,471	\$ 1,621

Hillside made the July 2008 contributions to the Ampex and Media pension plans.

In 1994, the Company, the PBGC, Hillside, and certain other parties, entered into the Joint Settlement Agreement (the Agreement) in connection with the 1994 reorganization of our former parent, NHI, relating to the Ampex and Media pension plans, which are substantially underfunded. Under the terms of the Agreement, the Company and Hillside are held jointly and severally liable to the PBGC to fund the required contributions under the Ampex and Media pension plans. Pursuant to this Agreement, Hillside is obligated to advance pension contributions for the Ampex and Media pension plans in the event we are unable to make the required contributions necessary in order to satisfy the minimum funding standard. Failure by Hillside to advance funds as may be required would enable the PBGC to terminate the plans and seek recovery of termination benefits from Hillside.

Hillside is legally obligated to comply with the terms of the Agreement, and has represented that it has sufficient assets to fund pension contributions that are scheduled in future years. We have no direct or indirect financial ownership interest in Hillside and, accordingly, have no ability to control Hillside or to mandate its compliance with the terms of the Agreement. Accordingly, our ability to borrow pension contributions from Hillside is beyond our control.

Off-Balance Sheet Arrangements. During the six months ended June 30, 2008 and 2007, we did not have any off-balance sheet arrangements that have or are reasonably likely to have a current or future effect on our financial condition, changes in financial condition, revenues or expenses, results of operations, liquidity, capital expenditures or capital resources that our Management believes is material to investors.

Table of Contents

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Not applicable.

ITEM 4. CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures

Based on an evaluation under the supervision and with the participation of our management, our principal executive officer and principal financial officer have concluded that our disclosure controls and procedures as defined in rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (Exchange Act), were effective as of June 30, 2008 to ensure that information required to be disclosed by us in reports that we file or submit under the Exchange Act is (i) recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission rules and forms and (ii) accumulated and communicated to our management, including our principal executive officer and principal financial officer, as appropriate to allow timely decisions regarding required disclosure.

Changes in Internal Control Over Financial Reporting

There were no significant changes in our internal control over financial reporting identified in management's evaluation that occurred during the second quarter of 2008 that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

PART II OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

We are a party to routine litigation incidental to our business. In the opinion of management, no such current or pending lawsuits, either individually or in the aggregate, is likely to have a material adverse effect on our financial condition, results of operations or cash flows.

On March 30, 2008, the Company and its U.S. subsidiaries commenced the jointly administered Chapter 11 Cases under the caption In re Ampex Corporation, et al., Case No. 08-11094. For more information about the Chapter 11 Cases, see Part I, Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations - Plan of Reorganization above.

In October 2004, we initiated litigation against Eastman Kodak Company (Kodak) for its infringement of one of our patents, the 121 patent, in the ITC and also, at the same time, in the District Court. In the International Trade Commission (ITC) proceeding, the remedies available would have been to bar Kodak from the importation or sale of digital still cameras or in certain circumstances to require Kodak to post a forfeitable bond on digital still cameras imported into the United States, in each case for the life of the 121 patent which expired in April 2006. In the separate District Court case, we sought monetary damages for infringement of the patent from August 2001 (the date on which we gave notice of infringement) through April 11, 2006, the date the patent expired. The ITC case was withdrawn to enable the District Court case to proceed. On November 21, 2006, the District Court granted final judgment in favor of Kodak. We appealed this decision to the Court of Appeals for the Federal Circuit, and this court ruled on February 7, 2008, affirming the decision of the District Court without opinion. Kodak filed an unsecured claim in the amount of approximately \$145 thousand in the Chapter 11 Cases, which was reduced to \$9 thousand pursuant to an order of the Bankruptcy Court entered on July 31, 2008.

Table of Contents

Our facilities are subject to numerous federal, state and local laws and regulations designed to protect the environment from waste emissions and hazardous substances. We are also subject to the federal Occupational Safety and Health Act and other laws and regulations affecting the safety and health of employees in its facilities. Management believes that we are generally in compliance in all material respects with all applicable environmental and occupational safety laws and regulations or have plans to bring operations into compliance. Management does not anticipate that capital expenditures for pollution control equipment for fiscal year 2008 will be material.

Owners and occupiers of sites containing hazardous substances, as well as generators and transporters of hazardous substances, are subject to broad liability under various federal and state environmental laws and regulations, including liability for investigative and cleanup costs and damages arising out of past disposal activities. We have four environmental investigations, remediation and/or monitoring activities outstanding at June 30, 2008. Three sites are associated with the operations of Media while the fourth relates directly to a disposal activity of the Company. Some of these activities involve the participation of state and local government agencies. Although we sold Media in November 1995, we have continuing liability with respect to environmental contamination at these sites if Media fails to discharge its responsibilities with respect to such sites. On January 10, 2005, Media filed under chapter 11 of the Bankruptcy Code. During the six months ended June 30, 2007, we spent a total of approximately \$0.2 million in connection with environmental investigation, remediation and monitoring activities. We expect certain of these liabilities to be resolved through the Chapter 11 Cases claims process.

Because of the inherent uncertainty as to various aspects of environmental matters, including the extent of environmental damage, the most desirable remediation techniques and the time period during which cleanup costs may be incurred, it is not possible for us to estimate with certainty the ultimate costs to be incurred with respect to the currently pending environmental matters referred to above. At June 30, 2008, we had an accrued liability of \$0.1 million for pending environmental liabilities associated with activities by us and \$3.0 million of net liabilities for discontinued operations for the estimated liabilities we may incur with respect to former Media sites discussed above. In the three months ended June 30, 2008, we increased the liability with respect to discontinued operations to increase amounts accrued related to environmental remediation of the Seaboard site, which had been used for waste disposal by the Media operations. During the period, Seaboard agreed to cap our pro rata share of remediation costs at \$2.3 million, resulting in an increased liability of \$1.0 million. We are seeking approval of the revised claim from the Bankruptcy Court. Upon emergence from bankruptcy, it is anticipated that Seaboard will elect a Lump Sum Cash Payment and receive \$162 thousand in full satisfaction of its revised claim. Although we do not currently possess sufficient information to estimate with certainty the ultimate costs to be incurred upon future completion of studies, litigation or settlements, and neither the timing nor the amount of the ultimate costs associated with environmental matters can be determined, they could be material to our consolidated results of operations or operating cash flows in the periods recognized or paid. However, considering our past experience and existing reserves, we do not expect that these environmental matters will have a material adverse effect on our consolidated financial position. These liabilities have not been discounted. Under the Plan, we intend to seek a discharge of our environmental obligations.

While we believe that we are generally in compliance with all applicable environmental laws and regulations or have plans to bring operations into compliance, it is possible that we will be named as a potentially responsible party in the future with respect to additional Superfund or other sites. Furthermore, because we conduct our business in foreign countries as well as in the U.S., it is not possible to predict the effect that future domestic or foreign regulation could have on our business, operating results or cash flow. There can be no assurance that we will not ultimately incur liability in excess of amounts currently accrued for pending environmental matters or that additional liabilities with respect to environmental matters will not be asserted. In addition, changes in environmental regulations could impose the need for additional capital equipment or other requirements. Such liabilities or regulations could have a material adverse effect on us in the future.

Table of Contents

ITEM 1A. RISK FACTORS

Our 2007 Form 10-K contains a detailed discussion of certain risk factors that could materially adversely affect our business, operating results or financial condition. The following risk factors reflect recent events, and should be read in conjunction with the risk factors and information disclosed in the 2007 Form 10-K.

Our ability to emerge from chapter 11 as a going concern is conditioned upon compliance with certain conditions that are beyond our control.

Our ability to continue operating as a going concern is dependent upon, among other things, our ability to successfully restructure our indebtedness and to emerge from bankruptcy with viable and profitable operations and with adequate liquidity. We believe the Plan will achieve these objectives. All creditors entitled to vote on the Plan voted overwhelmingly in favor of the Plan and the Bankruptcy Court has confirmed the Plan. However, consummation of the Plan is subject to the satisfaction of certain conditions, which are not within our control. These include the requirements that certain unasserted governmental and environmental claims will not exceed the maximum amounts specified in the Plan. Based upon information available to us at this time, we believe that we will be able to satisfy these conditions to consummation of the Plan, and will be able to emerge from chapter 11 within the next few months. However, if these conditions are not met, we may be unable to pay our debts as presently scheduled, which would require us to seek protection in chapter 11 without the support of our creditors and could force us to liquidate the Company under chapter 7 of the Bankruptcy Code due to our limited unencumbered available resources. Accordingly, we may not be able to continue as a going concern. The consolidated financial statements do not include any adjustments that might be required should we be unable to continue to operate as a going concern.

Our bankruptcy reorganization may negatively impact our future operations.

The Plan, as confirmed on July 31, 2008, provides that all unsecured creditors, including the Company's trade creditors, will be entitled to receive at their option either a pro rata share of the New Common Stock or a Lump Sum Cash Payment, as defined above, in full satisfaction of their claims. We believe we will be able to emerge from chapter 11 before the end of 2008 with a viable capital structure and with sufficient liquidity to continue operating as a going concern.

Upon emergence, the Plan provides that we will enter into a new credit agreement with our largest unsecured creditor, Hillside Capital Inc. (Hillside), to provide exit financing. Under this facility, we will be entitled to borrow up to \$25 million of additional funds, and repayment of borrowed amounts may be deferred until 2010. The credit agreement contains certain terms and conditions, including restrictions on incurring additional indebtedness. In the event that we need to raise additional funds in excess of \$25 million to fund future pension obligations, we will be able to issue to Hillside shares of New Preferred Stock, which will entitle Hillside to exercise certain rights, including control of our Board of Directors. We believe that the credit agreement and the ability to issue the New Preferred Stock will provide us with adequate liquidity to conduct our operations upon emergence from chapter 11, and that we will be able to comply with the terms and conditions of these agreements. However, if we are unable to satisfy these terms and conditions in the future, or if these arrangements do not provide adequate liquidity, our ability to raise additional funds may be impaired, which could affect our ability to continue as a going concern.

Table of Contents

Although we have not experienced significant disruption in our relationships with suppliers, vendors or employees as a result of the Chapter 11 Cases, they could in the future adversely affect our ability to retain existing customers, attract new customers, maintain contracts that are critical to our operations, and to retain key executives, managers and employees.

As a result of the Chapter 11 Cases, our Common Stock was delisted from Nasdaq.

As a result of the filing of the Chapter 11 Cases, our Common Stock was suspended from trading on the Nasdaq Stock Market on May 8, 2008, and was delisted on July 21, 2008. The Common Stock is currently trading on the Pink Sheets. Although one or more market makers may apply to quote the Common Stock on the OTC Bulletin Board, we cannot assure you that they will do so, or that the Common Stock will be eligible for quotation on the OTC Bulletin Board. Under the Plan, the Common Stock is expected to be canceled upon emergence from chapter 11.

The existing Common Stock of the Company is contemplated to be cancelled pursuant to the Plan and may have no value. Our current shareholders may be entitled to receive rights to future payment upon consummation of the reorganization.

Under the Plan, all of the Debtors' existing Common Stock, stock options, warrants and unvested restricted stock awards will be cancelled upon emergence from chapter 11. Upon the Debtors' emergence from chapter 11, certain unsecured creditors will have the option to receive shares of New Common Stock or a Lump Sum Cash Payment. The New Common Stock will not be publicly traded. Holders of existing Common Stock, stock options, warrants or unvested restricted stock awards will receive no distribution. Although holders of existing Common Stock will not receive any distributions on account of their interests, as a result of the compromises and settlements set forth in the Plan, holders of existing Common Stock, including restricted stock, who did not object to the Plan will be eligible to receive CPRs (defined below) that provide for the pro rata distribution of net cash proceeds from new licensing and other monetization initiatives related to the Debtors' intellectual property after amounts required to retire all outstanding debt, preferred stock and scheduled pension contributions and other obligations are first recovered.

Once net cash proceeds totaling approximately \$83.8 million have been received by the newly reorganized Debtors after they emerge from chapter 11 ("Reorganized Debtors"), the holders of these rights will be entitled to receive their pro rata share of 50% of all subsequent proceeds related to the Debtors' intellectual property as set forth above, net of expenses of administering the CPRs (the "Contingent Payment Rights" or

CPRs). There can be no assurance that the Debtors will be able to generate any future licensing revenue or other proceeds from other monetization initiatives or, if they do, whether they will attain sufficient levels required to provide for distributions to the holders of the CPRs. We do not believe that the CPRs will constitute securities; the CPRs will not be registered and will have limited rights of transferability.

Implementation of the Plan will result in a Change of Control.

The cancellation of our existing Common Stock and the issuance of New Common Stock to certain of our creditors, as contemplated by the Plan, will result in a change of control of the Debtors. Upon emergence from chapter 11, our largest unsecured creditor, Hillside, will own at least 80% of the New Common Stock of reorganized Ampex. As the majority holder, Hillside will be able to exercise substantial influence over the Company, and will control our Board of Directors. Certain other creditors who did not elect the Lump Sum Cash Payment may also receive shares of New Common Stock but, by virtue of Hillside's 80% interest, will hold a minority interest. The terms of the New Common Stock contain certain restrictions, including restrictions on such minority holders' rights to transfer their shares.

Table of Contents

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

We did not sell any equity securities during the second quarter of 2008 that were not registered under the Securities Act, and there were no purchases of any shares of our Common Stock made by or on behalf of Ampex or any of our affiliated purchasers (as defined in Rule 10b-18(a)(3) of the Exchange Act) during the second quarter of 2008.

ITEM 3. DEFAULTS UPON SENIOR SECURITIES

During the period 2001 through June 2008, Hillside made pension contributions totaling \$55.1 million pertaining to our pension plan and the Media pension plan, of which \$6.0 million was paid in 2008, \$19.0 million was paid in 2007 and \$9.5 million was paid in 2006. Additional pension contributions totaling approximately \$44 million are also scheduled to be paid to our pension plans over the next several years, which Hillside may be required to fund, depending on our liquidity.

Prior to our filing for chapter 11, when Hillside was required to make all or a portion of the above pension contributions, we issued Hillside Notes in the amount of its pension contribution. Under the terms of the Hillside Notes, \$150,000 of principal is due on the first anniversary of each of the notes with the remaining principal due on the fourth anniversary of the Notes. The Hillside Notes provide for interest paid quarterly at 1 percent plus 175% of the applicable mid-term federal rate (effective rate 6.51% at June 30, 2008). We granted to Hillside a security interest in Data Systems inventory and subsequent proceeds from the sale of inventory as collateral for the Hillside Notes. The Hillside Notes contain certain restrictive covenants which, among other things, restrict our ability to declare dividends, sell all or substantially all of our assets or commence liquidation, or engage in specified transactions with certain related parties, breach of which could result in acceleration of our potential termination liabilities.

On July 13, 2007, we received notice from Hillside alleging that we had breached the Hillside Agreement, and further alleging that if this breach was not cured by July 23, 2007, it would constitute an event of default under the Hillside Agreement, which would entitle Hillside to declare the Hillside Notes immediately due and payable (approximately \$45 million) as of that time. We notified Hillside that we believed and continue to believe that we did not breach the Hillside Agreement and that there was no basis for declaring a default under the Hillside Agreement or accelerating the Hillside Notes. Nonetheless, any acceleration of the Hillside Notes, unless waived or rescinded, would have resulted in the occurrence of an event of default under our Senior Notes, and would have entitled holders of the Senior Notes totaling \$6.7 million at December 31, 2007 to accelerate the maturity of those obligations.

On September 12, 2007, we disclosed that we had entered into a standstill agreement with Hillside, whereby Hillside agreed not to accelerate the maturity of the Hillside Notes or commence legal actions against us for sixty days while the parties worked to complete documentation of a restructuring of the Hillside Notes, clarify how future pension contributions would be funded and permit us to raise additional equity financing to pursue our patent monetization program (as the same was amended and or modified from time to time, the Standstill Agreement). From September 12, 2007 through January 14, 2008 (the Standstill Period), we operated under the Standstill Agreement, and during that time, attempted to restructure the Hillside Notes. Prior to the expiration of the Standstill Agreement, which was due to expire on its own terms on January 15, 2008, Hillside terminated the Standstill Agreement and demanded immediate payment of approximately \$1.3 million of outstanding principal due on the Hillside Notes, and demanded payment of approximately \$1.4 million of accrued interest due on the Hillside Notes within ten days. At that time, Hillside further reasserted its allegation that we had breached the Hillside Agreement. Hillside stated in its notice to us that if we failed to make the principal and interest payments then due on the Hillside Notes and cure the alleged breach within the specified periods, it would constitute an event of default under the Hillside Agreement, which would entitle Hillside to

Table of Contents

accelerate repayment of the outstanding Hillside Notes. Based upon our cash position, we determined that it was not financially prudent to repay the \$2.7 million demanded by and due to Hillside but we continued our efforts to negotiate a restructuring plan for the Hillside debt.

During and after the Standstill Period, we and Hillside engaged in negotiations over the terms of a consensual restructuring. Several different proposals were presented and considered by our officers (the Management) and our board of directors (the Board). We also analyzed several other possibilities for reorganizing our capital structure. On January 29, 2008, Hillside delivered a revised restructuring proposal (as the same was amended or modified from time to time, the Hillside Term Sheet). The Board and Management reviewed the Hillside Term Sheet and determined that it presented the best option for a consensual restructuring of the Hillside Notes and the best opportunity to maximize value for the Company's noteholders and perhaps the only opportunity to realize value of Ampex's unlicensed patents. The Plan is based on the Hillside Term Sheet, as amended during the course of the Company's and Hillside's negotiations. A summary of the terms of the Plan is described above in Plan of Reorganization.

ITEM 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS

Not applicable.

ITEM 5. OTHER INFORMATION

There is no information required to be disclosed in a report on Form 8-K during the second quarter of fiscal 2008 that was not so reported.

ITEM 6. EXHIBITS

The Exhibits filed with this Report are listed in the Exhibit Index included elsewhere herein and which is hereby incorporated by reference in this Item 6.

AMPEX CORPORATION

FORM 10-Q FOR THE QUARTER ENDED

June 30, 2008

EXHIBIT INDEX

Exhibit No.	Exhibit Description
2.1	First Modified Third Amended Joint Chapter 11 Plan of Reorganization for Ampex Corporation and its Affiliated Debtors, dated July 31, 2008 (filed as Exhibit 10.1 to the Company's Current Report on Form 8-K dated July 31, 2008 and incorporated herein by reference).
2.2	Disclosure Statement with Respect to Third Amended Joint Chapter 11 Plan of Reorganization for Ampex Corporation and its Affiliated Debtors, dated June 11, 2008 (filed as Exhibit 10.2 to the Company's Current Report on Form 8-K dated June 8, 2008 and incorporated herein by reference).
2.3	Supplement to Disclosure Statement with Respect to First Modified Third Amended Joint Chapter 11 Plan of Reorganization for Ampex Corporation and its Affiliated Debtors, dated July 14, 2008 (filed as Exhibit 10.2 to the Company's Current Report on Form 8-K dated July 14, 2008 and incorporated herein by reference).
2.4	Order Confirming First Modified Third Amended Joint Chapter 11 Plan of Reorganization for Ampex Corporation and its Affiliated Debtors, dated July 31, 2008 (filed as Exhibit 10.2 to the Company's Current Report on Form 8-K dated July 31, 2008 and incorporated herein by reference).
2.5	Joinder to Plan Support Agreement dated as of March 30, 2008 among the Company, Hillside Capital Incorporated, Credit Suisse Asset Management LLC and GMAM Investment Funds Trust II, on behalf of which DDJ Capital Management LLC acts as investment manager, executed and delivered by Prudential Investment Management Inc. as of April 28, 2008 (filed as Exhibit 10.3 to the Company's Current Report on Form 8-K dated May 30, 2008 and incorporated herein by reference).
2.6	Plan Support Agreement dated as of July 9, 2008 among Debtors and the Committee (filed as Exhibit 10.3 to the Company's Current Report on Form 8-K dated July 14, 2008 and incorporated herein by reference).
31.1*	Chief Executive Officer certification pursuant to Rules 13a-14(a) and 15d-14(a) of the Exchange Act.
31.2*	Chief Financial Officer certification pursuant to Rules 13a-14(a) and 15d-14(a) of the Exchange Act.
32.1*	Chief Executive Officer and Chief Financial Officer certification pursuant to 18 U.S.C. Section 1350, as adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002.

* Filed herewith.
