CHOICE HOTELS INTERNATIONAL, INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

1. Company Information and Significant Accounting Policies

The accompanying unaudited consolidated financial statements of Choice Hotels International, Inc. and subsidiaries (together the Company) have been prepared by the Company pursuant to the rules and regulations of the Securities and Exchange Commission. In the opinion of management, all adjustments (which include any normal recurring adjustments) considered necessary for a fair presentation have been included. Certain information and footnote disclosures normally included in financial statements presented in accordance with accounting principles generally accepted in the United States of America have been omitted. The year end balance sheet information was derived from audited financial statements, but does not include all disclosures required by accounting principles generally accepted in the United States of America. The Company believes the disclosures made are adequate to make the information presented not misleading. The consolidated financial statements should be read in conjunction with the consolidated financial statements for the year ended December 31, 2007 and notes thereto included in the Company's Form 10-K, filed with the Securities and Exchange Commission on February 29, 2008 (the 10-K). Interim results are not necessarily indicative of the entire year results because of seasonal variations. All intercompany transactions and balances between Choice Hotels International, Inc. and its subsidiaries have been eliminated in consolidation.

The preparation of consolidated financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Reclassifications in Consolidated Financial Statements

Marketing and reservation revenues and expenses in the prior year's financial statements have been reclassified to conform to the current year presentation with no effect on previously reported net income or shareholders' deficit.

The Company revised its presentation of operating and investing cash flows for all periods presented related to the effect of foreign currency exchange rate changes on cash and cash equivalents. There was no effect on any other previously reported cash flows from financing activities or income statement and balance sheet amounts.

Cash and Cash Equivalents

The Company considers all highly liquid investments purchased with a maturity of three months or less at the date of purchase to be cash equivalents. As of September 30, 2008 and December 31, 2007, \$5.8 million and \$12.5 million, respectively, of book overdrafts representing outstanding checks in excess of funds on deposit are included in accounts payable in the accompanying consolidated balance sheets.

The Company maintains cash balances in domestic banks, which at times, may exceed the limits of amounts insured by the Federal Deposit Insurance Corporation. In addition, the Company also maintains cash balances in international banks which do not provide deposit insurance.

2. Marketing Fees Receivable and Cumulative Reservation Fees in Excess of Expenses

The marketing fees receivable at September 30, 2008 and December 31, 2007 was \$12.3 million and \$6.8 million, respectively. As of September 30, 2008 and December 31, 2007, cumulative reservation fees collected exceeded expenses by \$7.2 million and \$11.9 million, respectively, and the excess has been reflected as a long-term liability in the accompanying consolidated balance sheets. Depreciation and amortization expense attributable to marketing and reservation activities was \$2.3 million and \$2.0 million for the three months ended September 30, 2008 and 2007, respectively, and \$6.4 million and \$6.0 million for the nine months ended September 30, 2008 and 2007, respectively. Interest expense attributable to reservation activities was approximately \$0.05 million and \$0.1 million for the three months ended September 30, 2008 and 2007, respectively, and \$0.2 million and \$0.4 million for the nine months ended September 30, 2008 and 2007, respectively.

Table of Contents**3. Income Taxes**

The effective income tax rate of 37.0% and 36.2% for the nine months ended September 30, 2008 and September 30, 2007, respectively, differs from the statutory rate due to foreign income earned, which is taxed at lower rates than statutory federal income tax rates, state income taxes and certain federal and state income tax credits.

Effective January 1, 2007, the Company adopted the provisions of Financial Accounting Standards Board (FASB) Interpretation No. 48, Accounting for Uncertainty in Income Taxes (FIN 48). FIN 48 clarifies the accounting for uncertainty in income taxes recognized in an enterprise's financial statements in accordance with SFAS No. 109, Accounting for Income Taxes . FIN 48 prescribes a recognition threshold and measurement attribute for the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. This pronouncement also provides guidance on derecognition, classification, interest and penalties, accounting in interim periods, disclosure, and transition. As a result of the implementation of FIN 48, the Company increased its existing reserves for uncertain tax positions by \$3.1 million as of January 1, 2007, with a corresponding net reduction to opening additional paid-in-capital and retained earnings.

As of September 30, 2008 and December 31, 2007, the Company had \$6.2 million and \$6.7 million, respectively of total unrecognized tax benefits of which approximately \$3.2 million would affect the effective tax rate if recognized. These unrecognized tax benefits relate principally to state tax filing positions and stock-based compensation deductions. The Company believes it is reasonably possible it will recognize tax benefits of up to \$2.1 million within the next twelve months. This is due to the anticipated lapse of applicable statutes of limitations regarding state tax positions and stock-based compensation deductions.

The Company's uncertain tax positions are related to tax years that remain subject to examination by the relevant tax authorities. The Company and its subsidiaries are subject to U.S. federal income tax as well as income tax of multiple state and foreign jurisdictions. The Company has substantially concluded all U.S. federal income tax matters for years through 2004. Substantially all material state and local and foreign income tax matters have been concluded for years through 2004. U.S. federal income tax returns for 2005 through 2007 are currently open for examination.

Estimated interest and penalties related to the uncertain tax benefits are classified as a component of income tax expense in the consolidated statements of income. During the three and nine months ended September 30, 2008, the Company reversed \$0.3 million and \$0.1 million, respectively of accrued interest and penalties related to the resolution of previously unrecognized tax benefits. Accrued interest and penalties were \$1.2 million and \$1.3 million as of September 30, 2008 and December 31, 2007, respectively.

We have estimated and accrued for certain tax assessments and the expected resolution of tax contingencies which arise in the course of our business. The ultimate outcome of these tax-related contingencies impact the determination of income tax expense and may not be resolved until several years after the related tax returns have been filed. Predicting the outcome of such tax assessments involves uncertainty and accordingly, actual results could differ from those estimates.

4. Other Current Assets

Other current assets consist of the following at:

	September 30, 2008	December 31, 2007
	(In thousands)	
Prepaid expenses	\$ 7,415	\$ 9,952
Non-interest bearing note receivable (net of allowance and unamortized discount of \$0.1 million)	863

Other current assets	150	236
Total	\$ 16,693	\$ 13,632

Table of Contents*Non-interest bearing note receivable*

In March 2007, the Company advanced \$1 million to a franchisee for Cambria Suites development. The note does not bear interest and is due on April 1, 2009. The note receivable was recorded at a \$0.1 million discount based on an effective interest rate of 8.25%. This note has been personally guaranteed by one of the franchisee's principal owners.

Notes receivable

The Company has provided financing to a franchisee in support of the development of Cambria Suites properties. These notes bear interest at rates ranging from 10% to 14% per annum and are due upon maturity. At September 30, 2008, the balance of these notes, including accrued interest, totaled \$8.3 million, net of a \$0.9 million allowance. These notes have been personally guaranteed by one of the franchisee's principal owners and are further secured by a pledge of the principal owners equity interest in certain real estate partnerships.

5. Comprehensive Income

The differences between net income and comprehensive income are described in the following table.

Comprehensive income	\$ 33,414	\$ 38,846	\$ 79,901	\$ 84,956

6. Capital Stock*Stock Options*

The Company granted 0.6 million and 0.2 million options to certain officers of the Company at a fair value of \$4.7 million and \$2.6 million during the nine months ended September 30, 2008 and 2007, respectively. No options were granted during the three months ended September 30, 2008 and 2007. The stock options granted by the Company had an exercise price equal to the market price of the Company's common stock on the date of grant. The fair value of the options granted was estimated on the grant date using the Black-Scholes option-pricing model with the following weighted average assumptions:

	2008 Grants	2007 Grants
Risk-free interest rate	2.79%	4.84%
Expected volatility	30.13%	32.31%
Expected life of stock option	4.4 years	4.5 years
Dividend yield	2.00%	1.49%
Requisite service period	4 years	4 years
Contractual life	7 years	7 years
Weighted average fair value of options granted	\$ 8.11	\$ 12.15

Edgar Filing: CHOICE HOTELS INTERNATIONAL INC /DE - Form 10-Q

The expected life of the options and volatility are based on historical data and are not necessarily indicative of exercise patterns or actual volatility that may occur. The dividend yield and the risk-free rate of return are calculated on the grant date based on the then current dividend rate and the risk-free rate of return for the period corresponding to the expected life of the stock option. Compensation expense related to the fair value of these awards is recognized straight-line over the requisite service period based on those awards that ultimately vest.

Table of Contents

The aggregate intrinsic value of the stock options outstanding and exercisable at September 30, 2008 was \$21.9 million and \$21.9 million, respectively. The total intrinsic value of options exercised during the three months ended September 30, 2008 and 2007 was \$0.6 million and \$1.6 million, respectively, and \$13.3 million and \$14.4 million during the nine months ended September 30, 2008 and 2007, respectively.

The Company received \$0.2 million and \$6.1 million in proceeds from the exercise of approximately 25,000 and 0.6 million employee stock options during the three and nine months ended September 2008, respectively. During the three and nine months ended September 30, 2007, the Company received \$0.6 million and \$5.1 million in proceeds from the exercise of approximately 0.1 million and 0.5 million employee stock options, respectively.

Restricted Stock

The following table is a summary of activity related to restricted stock grants:

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2008	2007	2008	2007
Restricted share grants	7,757	10,500	281,148	157,467
Weighted average grant date fair value per share	\$ 29.52	\$ 38.85	\$ 33.53	\$ 40.28
Aggregate grant date fair value (\$000)	\$ 229	\$ 408	\$ 9,428	\$ 6,343
Restricted shares forfeited	6,762	10,670	50,628	36,460
Vesting service period of shares granted	3-4 years	4 years	3-5 years	3-4 years
Fair value of shares vested (\$000)	\$ 270	\$ 357	\$ 6,408	\$ 5,794

Compensation expense related to the fair value of these awards is recognized straight-line over the requisite service period on those restricted stock grants that ultimately vest. The fair value of the 2008 grants is measured by the closing price of the Company's common stock on the date of grant except for one grant in February 2008 which was measured by the average of the high and low market price of the Company's common stock on the date of the grant. The fair value of the 2007 grants was measured by the average of the high and low market price of the Company's common stock on the date of the grant. Restricted stock awards generally vest ratably over the service period beginning with the first anniversary of the grant date.

Performance Vested Restricted Stock Units

The Company has granted performance vested restricted stock units (PVRSU) to certain employees. The vesting of these stock awards is contingent upon the Company achieving performance targets at the end of specified performance periods and the employees' continued employment. The performance conditions affect the number of shares that will ultimately vest. The range of possible stock-based award vesting is between 50% and 200% of the initial target. Under SFAS No. 123 (Revised), Share-Based Payment (SFAS No. 123R), compensation expense related to these awards will be recognized over the requisite service period regardless of whether the performance targets have been met based on the Company's estimate of the achievement of the performance target. The Company has currently estimated that between 100% and 145% of the various award targets will be achieved. The fair value of the 2008 grant was measured by the closing price of the Company's common stock on the date of grant. Compensation expense is recognized ratably over the requisite service period based on those PVRSU that ultimately vest.

The following table is a summary of activity related to PVRSU grants:

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2008	2007	2008	2007
Performance vested restricted stock units granted			103,746	21,141

The components of the Company's pretax stock-based compensation expense and associated income tax benefits are as follows for the three and nine months ended September 30:

(in millions)	Three Months Ended September 30,		Nine Months Ended September 30,	
	2008	2007	2008	2007

Stock-based compensation expense on stock option and performance vested restricted stock units made to a retirement eligible executive officer during the nine months ended September 30, 2008 and 2007 was recognized upon issuance of the grants rather than over the awards' vesting periods since the terms of these grants provide that the awards will vest upon retirement of the employee. Compensation costs for stock options and performance vested restricted stock related to vesting upon retirement eligibility totaled \$1.3 million and \$1.2 million for the nine months ended September 30, 2008 and 2007, respectively. In conjunction with the acceleration of the Company's management succession plan in the second quarter of 2008, restricted stock and stock option compensation expense for the nine months ended September 30, 2008 includes \$1.1 million and \$0.8 million of additional stock compensation expense due to the acceleration of award vesting condition and modification of award terms for an executive officer, respectively.

Dividends

On September 10, 2008, the Company's board of directors approved an increase in the quarterly dividend rate from \$0.17 to \$0.185 per share (or approximately \$11.6 million in the aggregate), which was paid on October 17, 2008 to shareholders of record on October 3, 2008. Dividends paid in the nine months ended September 30, 2008 were approximately \$31.6 million.

In September 2007, the Company's board of directors approved an increase in the quarterly dividend rate from \$0.15 to \$0.17 per share (or approximately \$10.6 million in the aggregate), which was paid on October 19, 2007 to shareholders of record on October 5, 2007. Dividends paid in the nine months ended September 30, 2007 were approximately \$29.5 million.

Table of Contents*Stock Repurchase Program*

The Company did not purchase any common stock during the three and nine months ended September 30, 2008 under the share repurchase program. During the three and nine months ended September 30, 2007, the Company purchased 2.9 million and 4.1 million shares of common stock under the share repurchase program at a total cost of \$109.2 million and \$155.2 million, respectively.

During the three and nine months ended September 30, 2008, the Company redeemed 2,019 and 47,778 shares of common stock at a total cost of approximately \$0.1 million and \$1.6 million, respectively, from employee awards to satisfy statutory minimum tax requirements from the vesting of restricted stock grants. During the three and nine months ended September 30, 2007, the Company redeemed 6,447 and 37,586 shares of common stock at a total cost of \$0.2 million and \$1.5 million, respectively, from employees to satisfy statutory minimum tax-withholding requirements from the vesting of restricted stock grants. These purchases were outside the share repurchase program initiated in June 1998.

7. Earnings Per Share

The following table reconciles the number of shares used in the basic and diluted earnings per share calculations.

(In thousands, except per share amounts)	Three Months Ended		Nine Months Ended	
	September 30, 2008	2007	September 30, 2008	2007
Computation of Basic Earnings Per Share:				
Net income	\$ 35,915	\$ 38,394	\$ 81,500	\$ 83,354
Weighted average shares outstanding-basic	62,316	63,556	62,084	64,929
Basic earnings per share	\$ 0.58	\$ 0.60	\$ 1.31	\$ 1.28
Computation of Diluted Earnings Per Share:				
Net income for diluted earnings per share	\$ 35,915	\$ 38,394	\$ 81,500	\$ 83,354
Weighted average shares outstanding-basic	62,316	63,556	62,084	64,929
Effect of Dilutive Securities:				
Employee stock option and restricted stock plan	571	1,046	694	1,148
Weighted average shares outstanding-diluted	62,887	64,602	62,778	66,077
Diluted earnings per share	\$ 0.57	\$ 0.59	\$ 1.30	\$ 1.26

Basic earnings per share exclude dilution and are computed by dividing net income by the weighted-average number of common shares outstanding. Diluted earnings per share assumes dilution and is computed based on the weighted-average number of common shares outstanding after consideration of the dilutive effect of stock options and unvested restricted stock. The effect of dilutive securities is computed using the treasury stock method and average market prices during the period. However, at September 30, 2008 and 2007, PVRsUs totaling 140,709 and 70,921 were excluded from the computation since the performance conditions had not been met at the reporting date. In addition the Company excluded 1.1 million and 0.9 million anti-dilutive options from the computation for diluted earnings per share for the three and nine months ended September 30, 2008, respectively. The Company excluded 0.4 million anti-dilutive options from the computation of diluted earnings per share for both the three and nine months ended September 30, 2007.

8. Pension Plans

The Company sponsors an unfunded non-qualified defined benefit plan (SERP) for certain senior executives. No assets are held with respect to the plan, therefore benefits are funded as paid to participants. Effective December 31, 2006, the Company began accounting for the SERP in accordance with SFAS No. 158, Employers Accounting for Defined Benefit Pension and Other Postretirement Plans an amendment of FASB Statements No. 87, 88, 106, and 132(R) (SFAS No. 158). For the three and nine months ended September 30, 2008, the Company recorded \$0.3 million and \$0.9 million, respectively for the expenses related to the SERP which are included in selling, general and administrative expense in the accompanying consolidated statements of income. For the three and nine months ended September 30, 2007, the Company recorded \$0.2

Edgar Filing: CHOICE HOTELS INTERNATIONAL INC /DE - Form 10-Q

million and \$1.0 million, respectively for the expenses related to the SERP. Benefit payments totaling \$0.4 million are currently scheduled to be remitted within the next twelve months.

Curtailment

During the nine months ended September 30, 2007, the Company recognized a curtailment loss due to the termination of certain senior executive officers from the Company. The curtailment loss was equal to the unrecognized prior service costs attributed to these employees' expected aggregate future services which totaled approximately \$248,000.

Table of Contents**9. Non-Qualified Retirement, Savings and Investment Plans**

The Company sponsors two non-qualified retirement savings and investment plans for certain employees and senior executives. Employee and Company contributions are maintained in separate irrevocable trusts. Legally, the assets of the trusts remain those of the Company; however, access to the trusts' assets is severely restricted. The trusts cannot be revoked by the Company or an acquirer, but the assets are subject to the claims of the Company's general creditors. The participants do not have the right to assign or transfer contractual rights in the trusts. The Company accounts for these plans in accordance with Emerging Issues Task Force (EITF) No. 97-14, Accounting for Deferred Compensation Arrangements Where Amounts Earned Are Held in a Rabbi Trust and Invested.

In 2002, the Company adopted the Choice Hotels International, Inc. Executive Deferred Compensation Plan (EDCP) which became effective January 1, 2003. Under the EDCP, certain executive officers may defer a portion of their salary into an irrevocable trust. A participant may elect an investment return of either the annual yield of the Moody's Average Corporate Bond Rate Yield Index plus 300 basis points, or a return based on a selection of available diversified investment options. As of September 30, 2008 and December 31, 2007, the Company recorded a deferred compensation liability of \$25.5 million and \$22.3 million, respectively related to these deferrals and credited investment returns. The change in the deferred compensation obligation recorded in compensation expense relates to earnings credited to participants as well as changes in the fair value of the diversified investments. The Company has invested the employee salary deferrals in diversified long-term investments which are intended to provide investment returns that partially offset the earnings credited to the participants. The diversified investments held in the trusts totaled \$19.6 million and \$21.5 million as of September 30, 2008 and December 31, 2007, respectively, and are recorded at their fair value, based on quoted market prices. The change in the fair value of the diversified assets held in trust is recorded in accordance with SFAS 115 as trading security income (loss) and is included in other income and expenses, net in the accompanying statements of income.

In 1997, the Company adopted the Choice Hotels International, Inc. Nonqualified Retirement Savings and Investment Plan (Non-Qualified Plan). The Non-Qualified Plan allows certain employees who do not participate in the EDCP to defer a portion of their salary and invest these amounts in a selection of available diversified investment options. As of September 30, 2008 and December 31, 2007, the Company had recorded a deferred compensation liability of \$11.5 million and \$14.1 million, respectively related to these deferrals. The change in the deferred compensation obligation recorded in compensation expense relates to earnings credited to participants as well as changes in the fair value of the diversified investments. The diversified investments held in the trusts were \$10.6 million and \$13.0 million as of September 30, 2008 and December 31, 2007, respectively, and are recorded at their fair value, based on quoted market prices. The change in the fair value of the diversified assets held in trust is recorded in accordance with SFAS 115 as trading security income (loss) and is included in other income and expenses, net in the accompanying statements of income. In addition, at September 30, 2008 and December 31, 2007, the Non-Qualified Plan held shares of the Company's common stock with a market value of \$0.9 million and \$1.1 million, respectively. We are subject to risk from changes in debt and equity prices from our non-qualified retirement savings plan investments in debt securities and common stock.

The Company has determined the fair value of the investments in the Non-Qualified Plan and EDCP in accordance with SFAS No. 157, Fair Value Measurements (SFAS No. 157) three-tier fair value hierarchy, which prioritizes the inputs used in measuring fair value. The Company's investments associated with the EDCP and Non-Qualified Plan consist of investments that are either publicly traded or for which market prices are readily available.

Table of Contents**10. Debt**

On June 16, 2006, the Company entered into a new \$350 million senior unsecured revolving credit agreement (the Revolver), with a syndicate of lenders. The proceeds from the Revolver were used to refinance and terminate a previous revolving credit facility. The Revolver allows the Company to borrow, repay and reborrow revolving loans up to \$350 million (which includes swingline loans for up to \$20 million and standby letters of credit up to \$30 million) until the scheduled maturity date of June 16, 2011. The Company has the ability to request an increase in available borrowings under the Revolver by an additional amount of up to \$150 million by obtaining the agreement of the existing lenders to increase their lending commitments or by adding additional lenders. The rate of interest generally applicable for revolving loans under the Revolver are, at the Company's option, equal to either (i) the greater of the prime rate or the federal funds effective rate plus 50 basis points, or (ii) an adjusted LIBOR rate plus a margin between 22 and 70 basis points based on the Company's credit rating. The Revolver requires the Company to pay a quarterly facility fee, based upon the credit rating of the Company, at a rate between 8 and 17^{1/2} basis points, on the full amount of the commitment (regardless of usage). The Revolver also requires the payment of a quarterly usage fee, based upon the credit rating of the Company, at a rate between 10 and 12^{1/2} basis points, on the amount outstanding under the commitment, at all times when the amount borrowed under the Revolver exceeds 50% of the total commitment. The Revolver includes customary financial and other covenants that require the maintenance of certain ratios including maximum leverage and interest coverage. The Revolver also restricts the Company's ability to make certain investments, incur certain debt, and dispose of assets, among other restrictions. As of September 30, 2008, the Company had \$230.0 million of revolving loans outstanding pursuant to the Revolver and the Company was in compliance with all covenants.

In 1998, the Company completed a \$100 million senior unsecured note offering (Senior Notes) at a discount of \$0.6 million, bearing a coupon rate of 7.13% with an effective rate of 7.22%. Interest on the Senior Notes was paid semi-annually. The Senior Notes matured on May 1, 2008 and the Company repaid the Senior Notes by utilizing the available Revolver capacity. In conjunction with the repayment of the Senior Notes, the Company's seven wholly-owned domestic subsidiaries that had guaranteed the Senior Notes were each released from their obligations.

The Company has a line of credit with a bank providing an aggregate of \$10 million of borrowings, which is due upon demand. The line of credit ranks pari-pasu (or equally) with the Revolver. Borrowings under the line of credit bear interest at rates established at the time of borrowing based on prime rate minus 175 basis points. There was \$4.4 million outstanding under the line of credit at September 30, 2008. Borrowings under this line of credit have been classified as a long-term liability at September 30, 2008, since the Company has the ability and intent to repay the outstanding borrowings by utilizing the available capacity of the Revolver.

As of September 30, 2008, total debt outstanding for the Company was \$234.4 million. With the exception of the \$4.4 million borrowed under the Company's line of credit, which is due upon demand, no outstanding debt amounts at September 30, 2008 were scheduled to mature in the twelve months ending September 30, 2009.

11. Deferred Revenue

Deferred revenue consists of the following:

	September 30, 2008	December 31, 2007
	(In thousands)	
Loyalty programs	\$ 45,028	\$ 43,488
Initial, relicensing and franchise fees	3,519	4,151
Procurement services fees	1,350	1,021
Total	\$ 49,897	\$ 48,660

12. Reportable Segment Information

The Company has a single reportable segment encompassing its franchising business. Revenues from the franchising business include royalty fees, initial franchise and relicensing fees, marketing and reservation fees, procurement services revenue and other revenue. The Company is obligated under its franchise agreements to provide marketing and reservation services appropriate for the successful operation of its systems. These services do not represent separate reportable segments as their operations are directly related to the Company's franchising business. The revenues received from franchisees that are used to pay for part of the Company's central ongoing operations are included in franchising revenues and are offset by the related expenses paid for marketing and reservation activities to calculate franchising operating income. Corporate

and other revenue consists of hotel operations. Except as described in Note 2, the Company does not allocate interest income, interest expense or income taxes to its franchising segment.

13. Commitments and Contingencies

The Company is a defendant in a number of lawsuits arising in the ordinary course of business. In the opinion of management and the Company's legal counsel, the ultimate outcome of any such lawsuit individually will not have a material adverse effect on the Company's business, financial position, results of operations or cash flows.

In April 2007, two putative federal securities law class actions were filed in the United States District Court for the District of Colorado on behalf of persons who purchased the Company's stock between April 25, 2006 and July 26, 2006. These substantially similar lawsuits were consolidated and together asserted claims pursuant to Sections 10(b) and 20(a) of the Securities Exchange Act of 1934, and Rule 10b-5 promulgated thereunder, against the Company, its current Vice Chairman and former Chief Executive Officer, and its former Executive Vice President and Chief Financial Officer. These claims were related to the Company's July 25, 2006 announcement of its results of operations for the second quarter of 2006. On the Company's motion, the action was transferred from Colorado to the United States District Court for the District of Maryland. The United States District Court for the District of Maryland subsequently appointed Macomb County Employees Retirement System as Lead Plaintiff. On August 15, 2008, Lead Plaintiff, and its counsel, determined to voluntarily dismiss its claims and the Court entered an Order dismissing the consolidated action.

In May 2007, the Company guaranteed \$1 million of a bank loan funding a franchisee's construction of a Cambria Suites in Green Bay, Wisconsin. The guaranty was scheduled to expire in August 2010. In April 2008, the Company was released from its obligations under the May 2007 guaranty, and simultaneously issued a new \$1 million guaranty, in connection with a loan refinancing for the same franchisee's Cambria Suites in Green Bay, Wisconsin. The newly issued guaranty expires in June 2010. The Company has received personal guarantees from several of the franchisee's principal owners related to the repayment of any amounts the Company may be required to pay under this guaranty.

In June 2008, the Company guaranteed \$1 million of a bank loan funding a franchisee's construction of a Cambria Suites in Columbus, Ohio. The guaranty will terminate on the earlier of (i) the repayment of all outstanding obligations under the bank loan that it supports (the current initial loan term runs through June 2013), or (ii) or when the franchisee achieves certain debt service coverage ratios outlined in the underlying bank loan agreement. The Company has received a pledge of an equity interest in the entity constructing the property as well as personal guarantees from several of the franchisee's principal owners related to the repayment of any amounts the Company may be required to pay under this guaranty.

In July 2008, the Company guaranteed \$1 million of a bank loan funding a franchisee's construction of a Cambria Suites in Noblesville, Indiana. The guaranty will terminate on the earlier of (i) the repayment of all outstanding obligations under the bank loan that it supports (the current initial loan term runs through September 2011), or (ii) or when the franchisee achieves certain debt service coverage ratios outlined in the underlying bank loan agreement. The Company has received a pledge of an equity interest in the entity constructing the property as well as personal guarantees from several of the franchisee's principal owners related to the repayment of any amounts the Company may be required to pay under this guaranty.

In the ordinary course of business, the Company enters into numerous agreements that contain standard indemnities whereby the Company indemnifies another party for breaches of representations and warranties. Such indemnifications are granted under various agreements, including those governing (i) purchases or sales of assets or businesses, (ii) leases of real estate, (iii) licensing of trademarks, (iv) access to credit facilities, (v) issuances of debt or equity securities, and (vi) certain operating agreements. The indemnifications issued are for the benefit of the (i) buyers in sale agreements and sellers in purchase

Table of Contents

agreements, (ii) landlords in lease contracts, (iii) franchisees in licensing agreements, (iv) financial institutions in credit facility arrangements, (v) underwriters in debt or equity security issuances and (vi) parties under certain operating agreements. In addition, these parties are also generally indemnified against any third party claim resulting from the transaction that is contemplated in the underlying agreement. While some of these indemnities extend only for the duration of the underlying agreement, many survive the expiration of the term of the agreement or extend into perpetuity (unless subject to a legal statute of limitations). There are no specific limitations on the maximum potential amount of future payments that the Company could be required to make under these indemnities, nor is the Company able to develop an estimate of the maximum potential amount of future payments to be made under these indemnifications as the triggering events are not subject to predictability. With respect to certain of the aforementioned indemnities, such as indemnifications of landlords against third party claims for the use of real estate property leased by the Company, the Company maintains insurance coverage that mitigates potential liability.

14. Termination Charges

During the nine months ended September 30, 2008, the Company recorded a charge of \$6.1 million in selling, general and administrative expenses related to the acceleration of the Company's management succession plan. The expenses include salary and benefits continuation of approximately \$4.2 million, \$1.1 million of accelerated share-based compensation and \$0.8 million related to the modification of stock option award terms. Benefits payable to the executive were accounted for under SFAS No. 112 Employer's Accounting for Post-employment Benefits (SFAS No. 112). At September 30, 2008, approximately \$4.0 million of benefits remained unpaid and are included as current and non-current liabilities in the Company's consolidated financial statements. The Company expects \$2.1 million of benefits to be paid within the next twelve months.

During the first quarter of 2007, the Company recorded a \$3.7 million charge in selling, general and administrative expenses for employee termination benefits relating to the termination of certain executive officers. Termination benefits include salary continuation of approximately \$2.5 million, SERP curtailment expenses of \$0.2 million and \$1.0 million of accelerated share based compensation. Termination benefits payable to the executives were accounted for under SFAS No. 112. At September 30, 2008, approximately \$0.1 million of termination benefits remained and are included in current liabilities in the Company's consolidated financial statements.

15. Recently Issued Accounting Standards

In September 2006, the FASB issued SFAS No. 157 which defines fair value, establishes a framework for measuring fair value in accordance with accounting principles generally accepted in the United States, and expands disclosures about fair value measurements. The Company has adopted the provisions of SFAS No. 157 as of January 1, 2008, for financial instruments. Although the adoption of SFAS No. 157 did not impact the Company's financial condition, results of operations, or cash flow, the Company is now required to provide additional disclosures as part of its financial statements.

In February 2007, the FASB issued SFAS No. 159, The Fair Value for Financial Assets and Financial Liabilities (SFAS No. 159) which provides reporting entities an option to report certain financial instruments and other items at fair value that are not currently required to be measured at fair value. SFAS No. 159 is effective as of the beginning of a reporting entity's first fiscal year beginning after November 15, 2007. The Company has not currently elected the fair value measurement option for any financial assets or liabilities that were not previously recorded at fair value.

In December 2007, the FASB issued SFAS No. 160, Non-controlling Interests in Consolidated Financial Statements An Amendment of ARB No. 51 (SFAS No. 160). SFAS No. 160 establishes new accounting and reporting standards for the non-controlling interest in a subsidiary and for the deconsolidation of a subsidiary. SFAS No. 160 is effective for fiscal years beginning on or after December 15, 2008. The Company is currently evaluating the impact, if any, the adoption of this statement will have on our consolidated financial statements.

In December 2007, the FASB issued SFAS No. 141 (Revised 2007), Business Combinations (SFAS No. 141R). SFAS No. 141R will change the accounting for business combinations by requiring an acquiring entity to recognize all the assets acquired, the liabilities assumed and any non-controlling interest in a transaction at the acquisition-date fair value with limited exceptions. SFAS No. 141R will also change the accounting treatment and disclosure for certain specific items in a business combination. SFAS No. 141R applies prospectively to business combinations for which the acquisition date is on or after the beginning of the first annual reporting period beginning on or after December 15, 2008.

In June 2007, the FASB ratified EITF 06-11 Accounting for the Income Tax Benefits of Dividends on Share-Based Payment Awards (EITF No. 06-11). EITF 06-11 provides that tax benefits associated with dividends on share-based payment awards be recorded as a component of additional paid-in capital. EITF No. 06-11 is effective, on a prospective basis, for fiscal years beginning after December 15, 2007. The implementation of this standard did not have a material impact on our consolidated financial position and results of operations.

Table of Contents

In March 2008, the FASB issued SFAS No. 161, *Disclosures about Derivative Instruments and Hedging Activities* an amendment of FASB Statement No. 133 (SFAS No. 161). SFAS No. 161 requires entities that utilize derivative instruments to provide qualitative disclosures about their objectives and strategies for using such instruments, as well as any details of credit-risk-related contingent features contained within derivatives. SFAS No. 161 also requires entities to disclose additional information about the amounts and location of derivatives located within the financial statements, how the provisions of SFAS 133 have been applied, and the impact that hedges have on an entity's financial position, financial performance, and cash flows. SFAS No. 161 is effective for fiscal years and interim periods beginning after November 15, 2008, with early application encouraged. The Company is currently evaluating the impact, if any, the adoption of this statement will have on our consolidated financial statements.

In April 2008, the FASB issued FASB Staff Position (FSP) 142-3, *Determination of the Useful Life of Intangible Assets* (FSP 142-3). FSP 142-3 amends the factors that should be considered in developing renewal or extension assumptions used to determine the useful life of a recognized intangible asset under SFAS No. 142, *Goodwill and Other Intangible Assets* . FSP 142-3 is effective for fiscal years beginning after December 15, 2008. The Company is currently assessing the impact of FSP 142-3 on its consolidated financial position and results of operations.

In May 2008, the FASB issued SFAS No. 162, *The Hierarchy of Generally Accepted Accounting Principles* (SFAS No. 162). SFAS No. 162 identifies the sources of accounting principles and the framework for selecting the principles used in the preparation of financial statements. SFAS No. 162 is effective 60 days following the SEC's approval of the Public Company Accounting Oversight Board amendments to AU Section 411, *The Meaning of Present Fairly in Conformity with Generally Accepted Accounting Principles* . The Company is currently evaluating the impact, if any, the adoption of this statement will have on our consolidated financial statements.

In June 2008, the FASB issued FSP EITF 03-6-1, *Determining Whether Instruments Granted in Share-Based Payment Transactions Are Participating Securities* (FSP EITF 03-6-1). FSP EITF 03-6-1 clarified that all outstanding unvested share-based payment awards that contain rights to nonforfeitable dividends participate in undistributed earnings with common shareholders. Awards of this nature are considered participating securities and the two-class method of computing basic and diluted earnings per share must be applied. FSP EITF 03-6-1 is effective for fiscal years beginning after December 15, 2008. The Company is currently evaluating the impact, if any; the adoption of this statement will have on our consolidated financial statements.

In September 2008, the FASB issued FSP 133-1 and FIN 45-4, *Disclosures about Credit Derivatives and Certain Guarantees: An Amendment of FASB Statement No. 133 and FASB Interpretation No. 45; and Clarification of the Effective Date of FASB Statement No. 161* (FSP 133-1 and FIN 45-4). FSP 133-1 and FIN 45-4 amends and enhances disclosure requirements for sellers of credit derivatives and financial guarantees. It also clarifies that the disclosure requirements of SFAS No. 161 are effective for quarterly periods beginning after November 15, 2008, and fiscal years that include those periods. FSP 133-1 and FIN 45-4 is effective for reporting periods (annual or interim) ending after November 15, 2008. The Company will update its disclosures, as appropriate, upon implementation of this guidance.

In September 2008, the FASB ratified EITF Issue No. 08-5, *Issuer's Accounting for Liabilities Measured at Fair Value With a Third-Party Credit Enhancement* (EITF 08-5). EITF 08-5 provides guidance for measuring liabilities issued with an attached third-party credit enhancement (such as a guarantee). It clarifies that the issuer of a liability with a third-party credit enhancement (such as a guarantee) should not include the effect of the credit enhancement in the fair value measurement of the liability. EITF 08-5 is effective for the first reporting period beginning after December 15, 2008. The Company is currently assessing the impact of EITF 08-5 on its consolidated financial position and results of operations.

In October 2008, the FASB issued FSP 157-3 *Determining Fair Value of a Financial Asset in a Market That Is Not Active* (FSP 157-3). FSP 157-3 clarified the application of SFAS No. 157 in an inactive market. It demonstrated how the fair value of a financial asset is determined when the market for that financial asset is inactive. FSP 157-3 was effective upon issuance, including prior periods for which financial statements had not been issued. The implementation of this standard did not have an impact on our consolidated financial position and results of operations.

16. Subsequent Events

Subsequent to September 30, 2008 through November 10, 2008, the Company repurchased an additional 1.0 million shares of its common stock at a total cost of \$23.5 million.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following Management's Discussion and Analysis (MD&A) is intended to help the reader understand Choice Hotels International, Inc. and subsidiaries (together the Company). MD&A is provided as a supplement to and should be read in conjunction with our consolidated financial statements and the accompanying notes.

Overview

We are a hotel franchisor with franchise agreements representing 5,771 hotels open and 1,074 hotels under construction, awaiting conversion or approved for development as of September 30, 2008, with 468,367 rooms and 85,916 rooms, respectively, in 49 states, the District of Columbia and 38 countries and territories outside the United States. Our brand names include Comfort Inn®, Comfort Suites®, Quality®, Clarion®, Sleep Inn®, Econo Lodge®, Rodeway Inn®, MainStay Suites®, Suburban Extended Stay Hotel® and Cambria Suites® (collectively, the Choice brands).

The Company conducts its international franchise operations through a combination of direct franchising and master franchising arrangements which allow the use of the Choice brands by third parties in foreign countries. The Company has made equity investments in certain non-domestic lodging franchise companies that conduct franchise operations for the Choice brands under master franchising relationships. As a result of our use of master franchising relationships and international market conditions, total revenues from international operations comprised only 7% and 8% of our total revenues for the three and nine month periods ended September 30, 2008, respectively, while representing approximately 19% of hotels open at September 30, 2008.

On January 31, 2008, the Company terminated the master franchise agreement with The Real Hotel Company PLC (RHC) related to RHC's franchised hotels under the Choice brands in the United Kingdom. In conjunction with the termination of the master franchise agreement, the Company acquired the RHC's franchise contracts under the master franchise agreement and commenced direct franchising operations in the United Kingdom. This transaction enables the Company to continue its strategy of more closely directing the growth of our franchise operations in the United Kingdom.

The Company generates revenues, income and cash flows primarily from initial and continuing royalty fees attributable to our franchise agreements. Revenues are also generated from procurement services (formerly brand solutions) endorsed vendor arrangements, hotel operations and other sources. The hotel industry is seasonal in nature. For most hotels, demand is lower in December through March than during the remainder of the year. Our principal source of revenues is franchise fees based on the gross room revenues of our franchised properties. The Company's franchise fee revenues and operating income reflect the industry's seasonality and historically have been lower in the first quarter than in the second, third or fourth quarters.

With a focus on hotel franchising instead of ownership, we benefit from the economies of scale inherent in the franchising business. The fee and cost structure of our business provides opportunities to improve operating results by increasing the number of franchised hotel rooms and effective royalty rates of our franchise contracts resulting in increased initial fee revenue, ongoing royalty fees and procurement services revenues. In addition, our operating results can also be improved through our company-wide efforts related to improving property level performance. The Company estimates that based on its current domestic portfolio of hotels under franchise that a 1% change in revenue per available room (RevPAR) or rooms under franchise would increase or decrease royalty revenues by approximately \$2.3 million and a 1 basis point change in the Company's effective royalty rate would increase or decrease domestic royalties by approximately \$0.5 million. In addition to these revenues, we also collect marketing and reservation fees to support centralized marketing and reservation activities for the franchise system. As a lodging franchisor, the Company has relatively low capital expenditure requirements.

The principal factors that affect the Company's results are: the number and relative mix of franchised hotel rooms; growth in the number of hotel rooms under franchise; occupancy and room rates achieved by the hotels under franchise; the effective royalty rate achieved; and our ability to manage costs. The number of rooms at franchised properties and occupancy and room rates at those properties significantly affect the Company's results because our fees are based upon room revenues at franchised hotels. The key industry standard for measuring hotel-operating performance is RevPAR, which is calculated by multiplying the percentage of occupied rooms by the average daily room rate realized. Our variable overhead costs associated with franchise system growth have historically been less than incremental royalty fees generated from new franchises. Accordingly, continued growth of our franchise business should enable us to realize benefits from the operating leverage in place and improve operating results.

Table of Contents

We are contractually required by our franchise agreements to use the marketing and reservation fees we collect for system-wide marketing and reservation activities. These expenditures, which include advertising costs and costs to maintain our central reservations system, help to enhance awareness and increase consumer preference for our brands. Greater awareness and preference promotes long-term growth in business delivery to our franchisees, which ultimately increases franchise fees earned by the Company.

Our Company articulates its mission as a commitment to our franchisees' profitability by aspiring to provide them with hotel franchises that generate the highest return on investment of any hotel franchise. We have developed an operating system dedicated to our franchisees' success that focuses on delivering guests to our franchised hotels and reducing costs for our hotel owners. We strive every day to continuously improve our franchise offerings to enhance our franchisees' profitability.

We believe that executing our strategic priorities creates value. Our Company focuses on two key value drivers:

Profitable Growth. Our success is dependent on improving the performance of our hotels, increasing our system size by selling additional hotel franchises and effective royalty rate improvement. We attempt to improve our franchisees' revenues and overall profitability by providing a variety of products and services designed to increase business delivery to and/or reduce operating and development costs for our franchisees. These products and services include national marketing campaigns, a central reservation system, property and yield management systems, quality assurance standards and endorsed vendor relationships. We believe that healthy brands, which deliver a compelling return on investment for franchisees, will enable us to sell additional hotel franchises and raise royalty rates. We have established multiple brands that meet the needs of many types of guests, and can be developed at various price points and applied to both new and existing hotels. This ensures that we have brands suitable for creating growth in a variety of market conditions. Improving the performance of the hotels under franchise, growing the system through additional franchise sales and improving franchise agreement pricing while maintaining a disciplined cost structure are the keys to profitable growth.

Maximizing Financial Returns and Creating Value for Shareholders. Our capital allocation decisions, including capital structure and uses of capital, are intended to maximize our return on invested capital and create value for our shareholders. We believe our strong and predictable cash flows create a strong financial position that provides us a competitive advantage. Currently, our business does not require significant capital to operate and grow, therefore, we can maintain a capital structure that generates high financial returns and use our excess cash flow to increase returns to our shareholders. We have returned value to our shareholders in two primary ways: share repurchases and dividends. In 1998, we instituted a share repurchase program which has generated substantial value for our shareholders. Through September 30, 2008, we have repurchased 38.6 million shares (including 33.0 million prior to the two-for-one stock split effected in October 2005) of common stock at a total cost of \$895.9 million since the program's inception. Considering the effect of the two-for-one stock split, the Company has repurchased 71.5 million shares at an average price of \$12.52 per share through September 30, 2008. At September 30, 2008 the Company had 3.2 million shares remaining under the current stock repurchase authorization of the board of directors. Upon completion of the current authorization, our board of directors will evaluate the propriety of additional share repurchases. During the three and nine months ended September 30, 2008, we paid cash dividends totaling approximately \$10.6 million and \$31.6 million, respectively, and we presently expect to continue to pay dividends in the future. Based on our present dividend rate and outstanding share count, aggregate annual dividends for 2008 would be approximately \$43.3 million.

Our Board has authorized us to enter into programs which permit us to offer investment, financing and guaranty support to qualified franchisees to incent multi-unit franchise development in top markets primarily for the Company's Cambria Suites and extended stay brands. We expect to opportunistically deploy this capital over the next several years. Our current expectation is that our annual investment in these programs would range from \$20 to \$40 million beginning in 2009 (2008 investment in these programs is not expected to be significant), depending on market and other conditions. In addition to these programs, the Company expects to continue to return value to its shareholders through a combination of share repurchases and dividends, also subject to market and other conditions.

We believe these value drivers, when properly implemented, will enhance our profitability, maximize our financial returns and continue to generate value for our shareholders. The ultimate measure of our success will be reflected in the items below.

Results of Operation: Royalty fees, operating income, net income and diluted earnings per share (EPS) represent key measurements of these value drivers. In the three months ended September 30, 2008, royalty fees revenue totaled \$76.6 million, a 5% increase from the same period in 2007. Operating income totaled \$61.9 million for the three months ended September 30, 2008, a \$0.5 million or 1% decline from the same period in 2007. Net income decreased \$2.5 million or 6% from the same period of the prior year to \$35.9 million. Diluted earnings per share for the quarter ended September 30, 2008 were \$0.57 compared to \$0.59 for the three months ended September 30, 2007. These measurements will continue to be a key management focus in 2008 and beyond.

Liquidity and Capital Resources: The Company generates significant cash flows from operations. In the nine months ended September 30, 2008 and 2007, net cash provided by operating activities was \$92.4 million and \$100.2 million, respectively. Since our business does not currently require significant reinvestment of capital, we utilize cash in ways that management believes provide the greatest returns to our shareholders, which include share repurchases and dividends. We believe the Company's cash flow from operations and available financing capacity is sufficient to meet the expected future operating, investing and financing needs of the business.

Operations Review**Comparison of Operating Results for the Three-Month Periods Ended September 30, 2008 and September 30, 2007**

The Company recorded net income of \$35.9 million for the three months ended September 30, 2008, a \$2.5 million, or 6% decline from the \$38.4 million for the quarter ended September 30, 2007. The decrease in net income for the three months ended September 30, 2008, is primarily attributable to a \$0.5 million or 1% decline in operating income, depreciation in the fair value of investments held in the Company's non-qualified employee benefit plans compared to the prior year period and an increase in the Company's effective income tax rate from 35.3% to 37.8%. These declines were partially offset by lower effective borrowing rates. Operating income declined \$0.5 million as the Company's selling general and administrative costs increased \$1.3 million or 6% while franchising revenues (total revenues excluding marketing and reservations revenues and hotel operations) increased \$0.6 million or 1% from the same period of the prior year.

Franchising Revenues: Franchising revenues were \$89.0 million for the three months ended September 30, 2008 compared to \$88.4 million for the three months ended September 30, 2007. The growth in franchising revenues is primarily due to a 5% increase in royalty revenues and a 6% increase in procurement services revenues offset by a 21% decrease in initial franchise and relicensing fees and a 40% decline in other income.

Domestic royalty fees for the three months ended September 30, 2008 increased \$2.3 million to \$69.5 million from \$67.2 million in the three months ended September 30, 2007, an increase of 3%. The increase in royalties is attributable to a combination of factors including a 5.4% increase in the number of domestic franchised hotel rooms and an increase in the effective royalty rate of the domestic hotel system from 4.12% to 4.19%, partially offset by a 1.6% decline in RevPAR. System-wide RevPAR declined due to a 280 basis point decline in occupancy, which was partially offset by a 2.7% increase in average daily rates (ADR).

International rooms on-line declined slightly to 98,628 as of September 30, 2008 from 99,579 as of September 30, 2007. The total number of international hotels on-line declined from 1,137 as of September 30, 2007 to 1,110 as of September 30, 2008.

As of September 30, 2008, the Company had 955 franchised hotels with 76,269 rooms under construction, awaiting conversion or approved for development in its domestic system as compared to 872 hotels and 68,853 rooms at September 30, 2007. The number of new construction franchised hotels in the Company's domestic pipeline increased 13% to 724 at September 30, 2008 from 642 at September 30, 2007. The Company had an additional 119 franchised hotels with 9,647 rooms under construction, awaiting conversion or approved for development in its international system as of September 30, 2008 compared to 82 hotels and 7,970 rooms at September 30, 2007. While the Company's hotel pipeline provides a strong platform for growth, a hotel in the pipeline does not always result in an open and operating hotel due to various factors.

There were 68 net domestic franchise additions during the three months ended September 30, 2008 compared to 70 net domestic franchise additions during the three months ended September 30, 2007. Gross domestic franchise additions increased from 118 for the three months ended September 30, 2007 to 142 for the same period in 2008 primarily due to 16 additional hotel openings within the Company's midscale without food and beverage category. Net domestic franchise terminations increased to 74 for the three months ended September 30, 2008 from 48 for the same period of the prior year. The Company continues to execute its strategy to replace franchised hotels that do not meet our brand standards or are underperforming in their market. As the competition gets stronger and more focused on limited service franchising, the Company will continue to focus on improving its system of hotels and utilizing the domestic hotels under development as a strong platform for continued system growth.

International royalties increased \$1.1 million or 18% from \$6.0 million in the third quarter of 2007 to \$7.1 million for the same period in 2008 primarily due to the commencement of direct franchising operations in the United Kingdom and foreign currency fluctuations.

New domestic franchise agreements executed in the three months ended September 30, 2008 totaled 160 representing 12,820 rooms compared to 182 agreements representing 14,372 rooms executed in the third quarter of 2007. During the third quarter of 2008, 71 of the executed agreements were for new construction hotel franchises, representing 5,652 rooms, compared to 83 contracts, representing 6,357 rooms for the same period a year ago. Conversion hotel franchise executed contracts totaled 89 representing 7,168 rooms for the three months ended September 30, 2008 compared to 99 agreements representing 8,015 rooms for the same period a year ago. Domestic initial fee revenue, included in the initial franchise and relicensing fees caption above, generated from executed franchise agreements decreased 8% to \$4.9 million for the three months ended September 30, 2008 from \$5.3 million for the three months ended September 30, 2007. The decline in revenues primarily reflects fewer executed agreements compared to the same period of the prior year.

Table of Contents

Based on the uncertainty around the current economic and credit market conditions and the volume of franchise applications recently received by the Company, we expect the number of new construction hotel contracts executed to decline in the fourth quarter of 2008. In addition, we believe this trend is likely to continue while the lodging industry experiences negative operating conditions and the availability of hotel financing continues to be limited. During prior lodging industry down turns, the Company has experienced an increase in the number of new domestic franchise agreement from conversion hotels. While the Company believes that a greater percentage of its new contracts will result from conversion hotel agreements, the length and breadth of the current economic crisis and the disruption of the credit markets could result in fewer conversion and new construction hotel contracts in the future.

A summary of executed domestic franchise agreements by brand for the three months ended September 30, 2008 and 2007 is as follows:

Relicensing fees are charged to the new property owner of a franchised property whenever an ownership change occurs and the property remains in the franchise system. Relicensing contracts declined 36% from 123 in the third quarter of 2007 to 79 for the three months ended September 30, 2008. As a result of the decline in contracts and the mix of brands relicensing, relicensing revenues declined 42% from \$3.6 million for the three months ended September 30, 2007 to \$2.1 million for the three months ended September 30, 2008. Due to current economic conditions, the Company projects that the level of relicensing activity will continue to decline in the fourth quarter of 2008 and potentially in 2009.

Procurement services revenue increased \$0.2 million or 6% for the three months ended September 30, 2008 to \$3.8 million compared to the same period of the prior year resulting from the growth in our system size which positively impacts the volume of business transacted with our endorsed vendors.

Edgar Filing: CHOICE HOTELS INTERNATIONAL INC /DE - Form 10-Q

Other income decreased \$1.1 million or 40% to \$1.6 million for the three months ended September 30, 2008 compared to the same period last year primarily due to lower liquidated damage collections related to the early termination of franchise agreements.

Table of Contents

Selling General and Administrative Expenses: The cost to operate the franchising business is reflected in selling, general and administrative expenses (SG&A). SG&A administrative expenses were \$25.6 million for the three months ended September 30, 2008, a \$1.3 million or 6% increase from the three months ended September 30, 2007. As a percentage of revenues, excluding marketing and reservation fees and hotel operations, total SG&A expenses were 28.7% for the three months ended September 30, 2008 compared to 27.4% for the three months ended September 30, 2007.

Marketing and Reservations: The Company's franchise agreements require the payment of franchise fees, which include marketing and reservation fees. The marketing and reservation fees, which are primarily based on a percentage of the franchisees' gross room revenues, are used exclusively by the Company for expenses associated with providing franchise services such as central reservation systems, national marketing and media advertising. The Company is contractually obligated to expend the marketing and reservation fees it collects from franchisees in accordance with the franchise agreements; as such, no income or loss to the Company is generated from these fees.

Total marketing and reservations revenues were \$100.8 million and \$85.5 million for the three months ended September 30, 2008 and 2007, respectively. Depreciation and amortization attributable to marketing and reservation activities were \$2.3 million for the three months ended September 30, 2008 compared to \$2.0 million for the three months ended September 30, 2007. Interest expense attributable to reservation activities was approximately \$0.05 million for the three month period ended September 30, 2008 compared to \$0.1 million for the three months ended September 30, 2007. As of September 30, 2008 and December 31, 2007, the Company's balance sheet includes a receivable of \$12.3 million and \$6.8 million, respectively, resulting from the cumulative marketing expenses incurred in excess of cumulative marketing fees earned. These receivables are recorded as assets in the financial statements as the Company has the contractual authority to require that the franchisees in the system at any given point repay the Company for any deficits related to marketing and reservation activities. The Company's current franchisees are legally obligated to pay any assessment the Company imposes on its franchisees to obtain reimbursement of such deficit regardless of whether those constituents continue to generate gross room revenue. The Company has no present intention to accelerate repayment of the deficit from current franchisees. A payable has been recorded in the Company's balance sheet within other long-term liabilities related to cumulative reservation fee revenues received in excess of reservation fee expenses incurred totaling \$7.2 million and \$11.9 million at September 30, 2008 and December 31, 2007, respectively. Cumulative reservation and marketing fees not expended are recorded as a payable on the financial statements and are carried over to the next fiscal year and expended in accordance with the franchise agreements.

Other Income and Expenses, Net: Other income and expenses, net, increased \$1.1 million to an expense of \$4.1 million for the three months ended September 30, 2008 compared to the same period of the prior year. Interest expense decreased \$1.8 million from \$4.0 million for the three months ended September 30, 2007 to \$2.2 million for the same period of 2008. Interest expense decreased due to a decline in the Company's weighted average interest rate from 6.09% as of September 30, 2007 to 3.70% as of September 30, 2008 and lower average outstanding borrowings. The decline in the weighted average interest rate is due primarily to the Company's repayment of its Senior Notes with proceeds from the Revolver. Interest and other investment income(loss) declined \$2.9 million primarily due to the performance of investments held in the Company's non-qualified employee benefit plans compared to the prior year period.

Income Taxes: The Company's effective income tax rate was 37.8% for three months ended September 30, 2008, compared to an effective income tax rate of 35.3% for the three months ended September 30, 2007. The effective income tax rate for 2008 increased primarily due to an increase in taxes on certain foreign earnings. Depending on the outcome of certain income tax contingencies up to an additional \$0.3 million of additional tax benefits may be reflected in our 2008 results of operations from the resolution of tax contingency reserves.

Net income: Net income for the three months ended September 30, 2008 decreased by 6% to \$35.9 million from \$38.4 million in the same period of the prior year, and diluted earnings per share declined from \$0.59 for the three months ended September 30, 2007 to \$0.57 for the same period of 2008.

Comparison of Operating Results for the Nine-Month Periods Ended September 30, 2008 and September 30, 2007

The Company recorded net income of \$81.5 million for the nine months ended September 30, 2008, a decline of \$1.9 million, or 2% from the \$83.4 million for the nine months ended September 30, 2007. The decline in net income for the nine months ended September 30, 2008, is primarily attributable to a decline in the fair value of investments held in the Company's non-qualified employee benefits plans compared to an appreciation of these investments in the prior year offset by a \$3.4 million increase in operating income over the same period of the prior year and a \$1.5 million decline in interest expense due to lower average borrowing rates. Operating income increased as a result of an increase in franchising revenues (total revenues excluding marketing and reservations revenues and hotel operations) of approximately \$12.8 million or 6% partially offset by a \$9.7 million increase in SG&A. SG&A increased from \$73.7 million in

Table of Contents

the nine months ended September 30, 2007 to \$83.4 million for the same period of 2008. SG&A expenses for the nine months ended September 30, 2008 include a \$6.1 million charge related to the Company's acceleration of a previously announced management succession plan. In addition, SG&A expenses for the nine months ended September 30, 2007 include termination benefits totaling \$3.7 million resulting from the separation of certain executive officers.

Management analyzes its business based on franchising revenues, which is total revenues excluding marketing and reservation revenues and hotel operations, and franchise operating expenses that are reflected as selling, general and administrative expenses.

Franchising Revenues: Franchising revenues were \$228.9 million for the nine months ended September 30, 2008 compared to \$216.2 million for the nine months ended September 30, 2007. The growth in franchising revenues is primarily due to a 7% increase in royalty revenues, an 8% increase in procurement services revenue, offset by a 1% decline in initial franchise and relicensing fees and a 7% decrease in other income.

Domestic royalty fees for the nine months ended September 30, 2008 increased \$8.8 million to \$168.8 million from \$160.0 million in the nine months ended September 30, 2007, an increase of 6%. The increase in royalties is attributable to a combination of factors including a 5.4%

Edgar Filing: CHOICE HOTELS INTERNATIONAL INC /DE - Form 10-Q

increase in the number of domestic franchised hotel rooms, a 0.2% increase in RevPAR and an increase in the effective royalty rate of the domestic hotel system from 4.13% to 4.19%. System-wide RevPAR increases resulted primarily from average daily rate (ADR) increases of 3.4% over the prior year partially offset by a 180 basis point decline in occupancy rates.

* Operating statistics represent hotel operations from December through August of 2008 and 2007, respectively.

There were 216 net domestic franchise additions during the nine months ended September 30, 2008 compared to 185 net domestic franchise additions during the nine months ended September 30, 2007. Gross domestic franchise additions increased from 333 for the nine months ended September 30, 2007 to 389 for the same period in 2008 primarily due to 15 additional hotel openings within the Company's midscale without food and beverage category and 31 additional economy brand openings. Net domestic franchise terminations were 173 for the nine months ended September 30, 2008 compared to 148 for the same period of the prior year. The Company continues to execute its strategy to replace franchised hotels that do not meet our brand standards or are underperforming in their market. As the competition gets stronger and more focused on limited service franchising, the Company will continue to focus on improving its system of hotels and utilizing the domestic hotels under development as a strong platform for continued system growth.

International royalties increased \$3.7 million or 24% from \$15.7 million in the first nine months of 2007 to \$19.4 million for the same period in 2008 primarily due to the commencement of direct franchising operations in the United Kingdom and foreign currency fluctuations.

New domestic franchise agreements executed in the nine months ended September 30, 2008 totaled 491 representing 40,110 rooms compared to 469 agreements representing 37,965 rooms executed in the first nine months of 2007. During the first nine months of 2008, 187 of the executed agreements were for new construction hotel franchises, representing 14,339 rooms, compared to 192 contracts, representing 15,258 rooms for the same period a year ago. Conversion hotel franchise executed contracts totaled 304 representing 25,771 rooms for the nine months ended September 30, 2008 compared to 277 agreements representing 22,707 rooms for the same period a year ago. Domestic initial fee revenue, included in the initial franchise and relicensing fees caption above, generated from executed franchise agreements increased 12% to \$14.4

million for the nine months ended September 30, 2008 from \$12.9 million for the nine months ended September 30, 2007. The increased revenues primarily reflect an increase in executed agreements over the same period of the prior year.

Relicensing contracts declined 7% from 281 for the nine months ending September 30, 2007 to 261 for the nine months ended September 30, 2008. As a result of the decline in the number of contracts and the mix of brands relicensing, relicensing fees declined 21% to \$6.8 million for the nine months ended September 30, 2008 from \$8.6 million for the nine months ended September 30, 2007.

Procurement services revenue increased \$1.0 million or 8% for the nine months ended September 30, 2008 to \$13.7 million compared to the same period of the prior year resulting from the growth in our system size which positively impacts the volume of business transacted with our endorsed vendors, as well as higher interest, participation and fees from our endorsed vendors for booths at our 2008 annual franchisee convention.

Other income decreased \$0.4 million or 7% to \$5.9 million for the nine months ended September 30, 2008 compared to the same period last year primarily due to fewer liquidated damage collections related to the early termination of franchise agreements.

Selling General and Administrative Expenses: The cost to operate the franchising business is reflected in SG&A. SG&A expenses were \$83.4 million for the nine months ended September 30, 2008, a \$9.7 million increase from the nine months ended September 30, 2007. As a percentage of revenues, excluding marketing and reservation fees and hotel operations, total SG&A expenses were 36.4% for the nine months ended September 30, 2008 compared to 34.1% for the nine months ended September 30, 2007. SG&A as a percentage of franchise revenues increased primarily due to a \$6.1 million charge in the second quarter of 2008 related to the Company's acceleration of a previously announced management succession plan. In addition, SG&A expenses for the nine months ended September 30, 2007 include termination benefits totaling \$3.7 million resulting from the separation of certain executives.

franchisees' gross room revenues, are used exclusively by the Company for expenses associated with providing franchise services such as central reservation systems, national marketing and media advertising. The Company is contractually obligated to expend the marketing and reservation fees it collects from franchisees in accordance with the franchise agreements; as such, no income or loss to the Company is generated from these fees.

Total marketing and reservations revenues were \$254.6 million and \$226.9 million for the nine months ended September 30, 2008 and 2007, respectively. Depreciation and amortization attributable to marketing and reservation activities were \$6.4 million for the nine months ended September 30, 2008 compared to \$6.0 million for the nine months ended September 30, 2007. Interest expense attributable to reservation activities was approximately \$0.2 million and \$0.4 million for the nine month periods ended September 30, 2008 and 2007, respectively.

Other Income and Expenses, Net: Other income and expenses, net, increased \$4.6 million to an expense of \$11.1 million for the nine months ended September 30, 2008 from the same period in 2007. Interest expense decreased by \$1.5 million from \$10.2 million for the nine months ended September 30, 2007 to \$8.7 million for the same period in 2008. Interest expense decreased due to a decline in the Company's weighted average interest rate from 6.09% as of September 30, 2007 to 3.70% as of September 30, 2008 and lower average outstanding borrowings. Interest and other investment income declined \$6.2 million primarily due to a decline in the fair value of investments held in the Company's non-qualified employee benefit plans compared to an appreciation of these investments in the prior year period.

Income Taxes: The Company's effective income tax rate was 37% for the nine months ended September 30, 2008, compared to an effective income tax rate of 36.2% for the nine months ended September 30, 2007. Depending on the outcome of certain income tax contingencies up to an additional \$0.3 million of additional tax benefits may be reflected in our 2008 results of operations from the resolution of tax contingency reserves.

Net income: Net income for the nine months ended September 30, 2008 decreased by 2% to \$81.5 million from \$83.4 million in the prior year period, and diluted earnings per share increased 3% to \$1.30 for the nine months ended September 30, 2008 from \$1.26 reported for the nine months ended September 30, 2007. Diluted earnings per share increased 3% despite the decline in net income due to the repurchase of the Company's common stock during 2007.

Liquidity and Capital Resources

Net cash provided by operating activities was \$92.4 million and \$100.2 million for the nine months ended September 30, 2008 and 2007, respectively. The decline in cash flows from operating activities primarily reflects investments in marketing and reservation activities.

Net cash advanced (provided) related to marketing and reservations activities totaled \$3.8 million and (\$17.2) million during the nine months ended September 30, 2008 and 2007, respectively. Cash advances related primarily to planned increases in advertising and promotional cost spending in excess of fees collected. Based on the current economic conditions, the Company expects marketing and reservation activities to be a net use of cash ranging between \$10 million and \$12 million in 2008.

Cash used in investing activities for the nine months ended September 30, 2008 and 2007 was \$14.9 million and \$18.6 million, respectively. During the nine months ended September 30, 2008 and 2007, capital expenditures totaled \$7.9 million and \$8.7 million, respectively. Capital expenditures for 2008 primarily include upgrades of system-wide property and yield management systems, improvements to Company facilities and the purchase of computer software and equipment. In addition, the Company occasionally provides financing to franchisees for property improvements, hotel development efforts and other purposes. During the nine months ended September 30, 2008 and 2007, the Company advanced \$6.4 million and \$6.1 million, respectively for these purposes. At September 30, 2008, the Company had commitments to extend an additional \$6.5 million for these purposes provided certain conditions are met by its franchisees, of which \$1.6 million is expected to be advanced during the remainder of 2008.

Financing cash flows relate primarily to the Company's borrowings under its credit lines, treasury stock purchases and dividends. On June 16, 2006, the Company entered into a new \$350 million senior unsecured revolving credit agreement (the "Revolver"), with a syndicate of lenders. The Revolver allows the Company to borrow, repay and reborrow revolving loans up to \$350 million (which includes swingline loans for up to \$20 million and standby letters of credit of up to \$30 million) until the scheduled maturity date of June 16, 2011. The Company has the ability to request an increase in available borrowings under the Revolver by an additional amount of up to \$150 million by obtaining the agreement of the existing lenders to increase their lending commitments or by adding additional lenders. The rate of interest generally applicable for revolving loans under the Revolver are, at the Company's option, equal to either (i) the greater of the prime rate or the federal funds effective rate plus 50 basis points, or (ii) an adjusted LIBOR rate plus a margin between 22 and 70 basis points based on the Company's credit rating. The Revolver requires the Company to pay a quarterly facility fee, based upon the credit

Table of Contents

rating of the Company, at a rate between 8 and 17 ^{1/2} basis points, on the full amount of the commitment (regardless of usage). The Revolver also requires the payment of a quarterly usage fee, based upon the credit rating of the Company, at a rate between 10 and 12 ^{1/2} basis points, on the amount outstanding under the commitment, at all times when the amount borrowed under the Revolver exceeds 50% of the total commitment. The Revolver includes customary financial and other covenants that require the maintenance of certain ratios including maximum leverage and interest coverage. The Revolver also restricts the Company's ability to make certain investments, incur certain debt, and dispose of assets, among other restrictions. As of September 30, 2008, the Company had \$230.0 million of revolving loans outstanding pursuant to the Revolver and was in compliance with all covenants.

The proceeds of the Revolver are used for general corporate purposes, including working capital, debt repayment, stock repurchases, dividends and investments.

In 1998, the Company completed a \$100 million senior unsecured note offering (Senior Notes) at a discount of \$0.6 million, bearing a coupon rate of 7.13% with an effective rate of 7.22%. Interest on the Senior Notes was paid semi-annually. The Senior Notes matured on May 1, 2008 and the Company repaid the Senior Notes by utilizing the available Revolver capacity. In conjunction with the repayment of the Senior Notes, the Company's seven wholly-owned domestic subsidiaries that had guaranteed the Senior Notes were each released from their obligations.

The Company has a line of credit with a bank providing an aggregate of \$10 million of borrowings, which is due upon demand. The line of credit ranks pari-pasu (or equally) with the Revolver. Borrowings under the line of credit bear interest at rates established at the time of borrowing based on prime rate minus 175 basis points. There was \$4.4 million outstanding under the line of credit at September 30, 2008. Borrowings under this line of credit have been classified as a long-term liability at September 30, 2008, since the Company's has the ability and intent to repay the outstanding borrowings by utilizing the available capacity of the Revolver.

As of September 30, 2008, total debt outstanding for the Company was \$234.4 million. With the exception of the \$4.4 million borrowed under the Company's line of credit, which is due upon demand, no outstanding debt amounts at September 30, 2008 were scheduled to mature in the twelve months ending September 30, 2009.

On September 10, 2008, the Company declared a cash dividend of \$0.185 per share (or approximately \$11.6 million in the aggregate), which was paid on October 17, 2008 to shareholders of record on October 3, 2008. Dividends paid in the nine months ended September 30, 2008 were approximately \$31.6 million. We expect dividends paid in 2008 to be approximately \$43.3 million.

Through September 30, 2008, the Company had purchased 38.6 million shares (including 33.0 million prior to the 2 for 1 stock split effected in October 2005) of common stock under the Company's share repurchase program at a total cost of \$895.9 million. Considering the effect of the two-for-one stock split, the Company has repurchased 71.5 million shares at an average price of \$12.52 per share. During the nine months ended September 30, 2008, the Company purchased no shares under its repurchase program. At September 30, 2008, the Company had approximately 62.9 million shares of common stock outstanding and had remaining under its repurchase program authorization to purchase up to 3.2 million shares. Subsequent to September 30, 2008 through November 10, 2008, the Company repurchased an additional 1.0 million shares of its common stock at a total cost of \$23.5 million.

Our Board has authorized us to enter into programs which permit us to offer investment, financing and guaranty support to qualified franchisees to incent multi-unit franchise development in top markets primarily for the Company's Cambria Suites and extended stay brands. We expect to opportunistically deploy this capital over the next several years. Our current expectation is that our annual investment in these programs would range from \$20 to \$40 million beginning in 2009 (2008 investment in these programs is not expected to be significant), depending on market and other conditions. In addition to these programs, the company expects to continue to return value to its shareholders through a combination of share repurchases and dividends, also subject to market and other conditions.

As of September 30, 2008, the Company had \$6.2 million of total unrecognized tax benefits of which approximately \$3.2 million would affect the effective tax rate if recognized. These unrecognized tax benefits relate principally to state tax filing positions and stock-based compensation deductions. The Company believes it is reasonably possible it will recognize tax benefits of up to \$2.1 million within the next twelve months. This is due to the anticipated lapse of applicable statutes of limitations regarding state tax positions and stock-based compensation deductions.

The Company believes that cash flows from operations and available financing capacity are adequate to meet the expected future operating, investing and financing needs of the business. However, events over the past several months, including recent failures and near failures of a number of large financial service companies, have made the capital markets increasingly volatile. As a result of the dislocation in the credit markets, the availability of reasonably priced credit may be limited and therefore reduce the Company's ability to return value to shareholders through its share repurchase program.

Critical Accounting Policies

Our accounting policies comply with principles generally accepted in the United States. We have described below those policies that we believe are critical and require the use of complex judgment or significant estimates in their application. Additional discussion of these policies is included in Note 1 to our consolidated financial statements as of and for the year ended December 31, 2007 included in our Annual Report on Form 10-K.

Revenue Recognition.

The Company accounts for initial, relicensing and continuing franchise fees in accordance with Statement of Financial Accounting Standards (SFAS) No. 45, Accounting for Franchise Fee Revenue. We recognize continuing franchise fees, including royalty, marketing and reservations fees, when earned and receivable from our franchisees. Franchise fees are typically based on a percentage of gross room revenues of each franchisee. Our estimate of the allowance for uncollectible royalty fees is charged to selling, general and administrative expense.

The Company may also enter into master development agreements (MDAs) with developers which grant limited exclusive development rights and preferential franchise agreement terms for one-time, non-refundable fees. When these fees are not contingent upon the number of agreements executed under the MDAs, the Company accounts for these up-front fees in accordance with Staff Accounting Bulletin (SAB) No. 104, Revenue Recognition (SAB No. 104) and recognizes the up-front fees over the MDAs contractual life.

Initial franchise and relicensing fees are recognized, in most instances, in the period the related franchise agreement is executed because the initial franchise and relicensing fees are non-refundable and the Company is not required to provide initial services to the franchisee prior to hotel opening. We defer the initial franchise and relicensing fee revenue related to franchise agreements which include incentives until the incentive criteria are met or the agreement is terminated, whichever occurs first.

We account for procurement services revenues from endorsed vendors in accordance with SAB 104. SAB 104 provides guidance on the recognition, presentation and disclosure of revenue in financial statements. Pursuant to SAB 104, the Company recognizes procurement services revenues when the services are performed or the product delivered, evidence of an arrangement exists, the fee is fixed and determinable and collectability is probable. We defer the recognition of procurement services revenues related to certain upfront fees and recognize them over a period corresponding to the Company s estimate of the life of the arrangement.

Marketing and Reservation Revenues and Expenses.

The Company records marketing and reservation revenues and expenses in accordance with Emerging Issues Task Force (EITF) Issue No. 99-19, Reporting Revenue Gross as a Principal versus Net as an Agent, which requires that these revenues and expenses be recorded gross. In addition, net advances to and repayments from the franchise system for marketing and reservation activities are presented as cash flows from operating activities.

Reservation fees and marketing fees not expended in the current year are carried over to the next fiscal year and expended in accordance with the franchise agreements. Shortfall amounts are similarly recovered in subsequent years. Cumulative excess or shortfall amounts from the operation of these programs are recorded as a marketing or reservation fee payable or receivable. Under the terms of the franchise agreements, the Company may advance capital as necessary for marketing and reservation activities and recover such advances through future fees. Our current assessment is that the credit risk associated with the marketing fee receivable is mitigated due to our contractual right to recover these amounts from a large geographically dispersed group of franchisees.

Choice Privileges is our frequent guest incentive marketing program. Choice Privileges enables members to earn points based on their spending levels at participating brands and, to a lesser degree, through participation in affiliated partners programs, such as those offered by credit card companies. The points may be redeemed for free accommodations or other benefits. Points cannot be redeemed for cash. The Company collects a percentage of program members room revenue from participating franchises. Revenues are deferred in an amount equal to the fair value of the future redemption obligation. A third-party actuary estimates the eventual redemption rates and point values using various actuarial methods. These judgmental factors determine the required liability attributable to outstanding points. Upon redemption of the points, the Company recognizes the previously deferred revenue as well as the corresponding expense relating to the cost of the awards redeemed. Revenues in excess of the estimated future redemption obligation are recognized when earned to reimburse the Company for costs incurred to operate the program, including administrative costs, marketing, promotion and performing member services. Costs to operate the program, excluding estimated redemption values, are expensed when incurred.

Table of Contents

Impairment Policy.

We evaluate the fair value of goodwill to assess potential impairments on an annual basis, or during the year if an event or other circumstance indicates that we may not be able to recover the carrying amount of the asset. We evaluate impairment of goodwill by comparing the fair value of our net assets with the carrying amount of goodwill. We evaluate the potential impairment of property and equipment and other long-lived assets, including franchise rights on an annual basis or whenever an event or other circumstance indicates that we may not be able to recover the carrying value of the asset. Our evaluation is based upon future cash flow projections. These projections reflect management's best assumptions and estimates. Significant management judgment is involved in developing these projections, and they include inherent uncertainties. If different projections had been used in the current period, the balances for non-current assets could have been materially impacted. Furthermore, if management uses different projections or if different conditions occur in future periods, future-operating results could be materially impacted.

Income Taxes.

Our income tax expense and related balance sheet amounts involve significant management estimates and judgments. Judgments regarding realization of deferred tax assets and the ultimate outcome of tax-related contingencies represent key items involved in the determination of income tax expense and related balance sheet accounts.

The Company does not provide additional United States income taxes on undistributed earnings of consolidated foreign subsidiaries included in retained earnings. Such earnings could become taxable upon the sale or liquidation of these foreign subsidiaries or upon dividend repatriation. The Company's intent is for such earnings to be reinvested by the subsidiaries.

Deferred tax assets represent items to be used as a tax deduction or credit in future tax returns for which we have already properly recorded the tax benefit in our income statement. Realization of our deferred tax assets reflects our tax planning strategies. We establish valuation allowances for deferred tax assets that we do not believe will be realized.

Tax assessments and resolution of tax contingencies may arise several years after tax returns have been filed. Predicting the outcome of such tax assessments involves uncertainty; however, we believe that recorded tax liabilities adequately account for our analysis of probable outcomes.

In September 2006, the FASB issued FASB Interpretation No. 48 Accounting for Uncertainty in Income Taxes, an interpretation of FASB Statement No. 109, (FIN 48). FIN 48 clarifies FASB Statement No. 109, Accounting for Income Taxes by prescribing a recognition threshold a tax position is required to meet before being recognized in the financial statements. FIN 48 provides guidance on de-recognition, measurement, classification, interest and penalties, accounting in interim periods, disclosure and transition. FIN 48 is effective for fiscal years beginning after December 15, 2006. The Company adopted FIN 48 as of January 1, 2007, as required. The cumulative effect of adopting FIN 48 was recorded in retained earnings and other accounts as applicable. Uncertain tax benefits of \$7.1 million were recorded against tax contingencies and additional paid-in capital as of January 1, 2007, which represents a \$3.1 million increase in tax contingencies recorded as of December 31, 2006. Accrued interest and penalties of \$0.1 million were recorded against retained earnings as of January 1, 2007.

Estimated interest and penalties related to the uncertain tax benefits are classified as a component of income tax expense in the consolidated statements of income. During the nine months ended September 30, 2008, the Company reversed \$0.1 million of accrued interest and penalties related to the resolution of previously unrecognized tax benefits. Accrued interest and penalties were \$1.2 million and \$1.3 million as of September 30, 2008 and December 31, 2007, respectively.

As of September 30, 2008 and December 31, 2007, the Company had \$6.2 million and \$6.7 million, respectively of total unrecognized tax benefits of which approximately \$3.2 million would affect the effective tax rate if recognized. These unrecognized tax benefits relate principally to state tax filing positions and stock-based compensation deductions. The Company believes it is reasonably possible it will recognize tax benefits of up to \$2.1 million within the next twelve months. This is due to the anticipated lapse of applicable statutes of limitations regarding state tax positions and stock-based compensation deductions.

The Company's uncertain tax positions are related to tax years that remain subject to examination by the relevant tax authorities. The Company and its subsidiaries are subject to U.S. federal income tax as well as income tax of multiple state and foreign jurisdictions. The Company has substantially concluded all U.S. federal income tax matters for years through 2004. Substantially all material state and local and foreign income tax matters have been concluded for years through 2004. U.S. federal income tax returns for 2005 through 2007 are currently open for examination.

Table of Contents*Pension, Profit Sharing and Incentive Plans*

The Company sponsors two non-qualified retirement savings and investment plans for certain employees and senior executives. Employee and Company contributions are maintained in separate irrevocable trusts. Legally, the assets of the trusts remain those of the Company; however, access to the trusts' assets is severely restricted. The trusts cannot be revoked by the Company or an acquirer, but the assets are subject to the claims of the Company's general creditors. The participants do not have the right to assign or transfer contractual rights in the trusts. The Company accounts for these plans in accordance with Emerging Issues Task Force (EITF) No. 97-14, Accounting for Deferred Compensation Arrangements Where Amounts Earned Are Held in a Rabbi Trust and Invested.

In 2002, the Company adopted the Choice Hotels International, Inc. Executive Deferred Compensation Plan (EDCP) which became effective January 1, 2003. Under the EDCP, certain executive officers may defer a portion of their salary into an irrevocable trust. A participant may elect an investment return of either the annual yield of the Moody's Average Corporate Bond Rate Yield Index plus 300 basis points, or a return based on a selection of available diversified investment options. As of September 30, 2008 and December 31, 2007, the Company recorded a deferred compensation liability of \$25.5 million and \$22.3 million, respectively related to these deferrals and credited investment returns. The change in the deferred compensation obligation recorded in compensation expense relates to earnings credited to participants as well as changes in the fair value of the diversified investments. The Company has invested the employee salary deferrals in diversified long-term investments which are intended to provide investment returns that partially offset the earnings credited to the participants. The diversified investments held in the trusts totaled \$19.6 million and \$21.5 million as of September 30, 2008 and December 31, 2007, respectively, and are recorded at their fair value, based on quoted market prices. The change in the fair value of the diversified assets held in trust is recorded in accordance with SFAS 115 as trading security income (loss) and is included in other income and expenses, net in the accompanying statements of income.

In 1997, the Company adopted the Choice Hotels International, Inc. Nonqualified Retirement Savings and Investment Plan (Non-Qualified Plan). The Non-Qualified Plan allows certain employees who do not participate in the EDCP to defer a portion of their salary and invest these amounts in a selection of available diversified investment options. As of September 30, 2008 and December 31, 2007, the Company had recorded a deferred compensation liability of \$11.5 million and \$14.1 million, respectively related to these deferrals. The change in the deferred compensation obligation recorded in compensation expense relates to earnings credited to participants as well as changes in the fair value of the diversified investments. The diversified investments held in the trusts were \$10.6 million and \$13.0 million as of September 30, 2008 and December 31, 2007, respectively, and are recorded at their fair value, based on quoted market prices. The change in the fair value of the diversified assets held in trust is recorded in accordance with SFAS 115 as trading security income (loss) and is included in other income and expenses, net in the accompanying statements of income. In addition, at September 30, 2008 and December 31, 2007, the Non-Qualified Plan held shares of the Company's common stock with a market value of \$0.9 million and \$1.1 million, respectively. We are subject to risk from changes in debt and equity prices from our non-qualified retirement savings plan investments in debt securities and common stock.

The Company sponsors an unfunded non-qualified defined benefit plan (SERP) for certain senior executives. No assets are held with respect to the plan; therefore benefits are funded as paid to participants. Effective December 31, 2006, the Company accounts for the SERP in accordance with SFAS No. 158, Employers' Accounting for Defined Benefit Pension and Other Postretirement Plans, an amendment of FASB Statements No. 87, 88, 106, and 132(R). Benefit payments totaling \$0.4 million are currently scheduled to be remitted within the next twelve months.

Stock Compensation

The Company accounts for share-based payment transactions in accordance with SFAS No. 123 (Revised 2004), Share-Based Payment (SFAS No. 123R). SFAS No. 123R requires that the compensation cost relating to share-based payment transactions be recognized in financial statements based on the fair value of the equity or liability instruments issued.

Recently Issued Accounting Standards

In September 2006, the FASB issued SFAS No. 157, Fair Value Measurements (SFAS No. 157) which defines fair value, establishes a framework for measuring fair value in generally accepted accounting principles and expands disclosures about fair value measurements. This Statement is effective for financial statements issued for fiscal years beginning after November 15, 2007 and interim periods within those fiscal years. In November 2007, the FASB agreed to partially defer the effective date, for one year, of SFAS No. 157 for non-financial assets and liabilities, except those that are recognized or disclosed at fair value in the financial statements on a recurring basis. The Company has adopted the provisions of SFAS

Table of Contents

No. 157 as of January 1, 2008, for financial instruments. Although the adoption of SFAS No. 157 did not impact the Company's financial condition, results of operations, or cash flow, the Company is now required to provide additional disclosures as part of its financial statements.

In February 2007, the FASB issued SFAS No. 159, *The Fair Value for Financial Assets and Financial Liabilities* (SFAS No. 159) which provides reporting entities an option to report certain financial instruments and other items at fair value that are not currently required to be measured at fair value. SFAS No. 159 is effective as of the beginning of a reporting entity's first fiscal year beginning after November 15, 2007. The Company has not currently elected the fair value measurement option for any financial assets or liabilities that were not previously recorded at fair value.

In December 2007, the FASB issued SFAS No. 160, *Non-controlling Interests in Consolidated Financial Statements - An Amendment of ARB No. 51* (SFAS No. 160). SFAS No. 160 establishes new accounting and reporting standards for the non-controlling interest in a subsidiary and for the deconsolidation of a subsidiary. SFAS No. 160 is effective for fiscal years beginning on or after December 15, 2008. The Company is currently evaluating the impact, if any, the adoption of this statement will have on our consolidated financial statements.

In December 2007, the FASB issued SFAS No. 141 (Revised 2007), *Business Combinations* (SFAS No. 141R). SFAS No. 141R will change the accounting for business combinations by requiring an acquiring entity to recognize all the assets acquired, the liabilities assumed and any non-controlling interest in a transaction at the acquisition-date fair value with limited exceptions. SFAS No. 141R will also change the accounting treatment and disclosure for certain specific items in a business combination. SFAS No. 141R applies prospectively to business combinations for which the acquisition date is on or after the beginning of the first annual reporting period beginning on or after December 15, 2008.

In June 2007, the FASB ratified EITF 06-11 *Accounting for the Income Tax Benefits of Dividends on Share-Based Payment Awards* (EITF No. 06-11). EITF 06-11 provides that tax benefits associated with dividends on share-based payment awards be recorded as a component of additional paid-in capital. EITF No. 06-11 is effective, on a prospective basis, for fiscal years beginning after December 15, 2007. The implementation of this standard did not have a material impact on our consolidated financial position and results of operations.

In March 2008, the FASB issued SFAS No. 161, *Disclosures about Derivative Instruments and Hedging Activities* an amendment of FASB Statement No. 133 (SFAS No. 161). SFAS No. 161 requires entities that utilize derivative instruments to provide qualitative disclosures about their objectives and strategies for using such instruments, as well as any details of credit-risk-related contingent features contained within derivatives. SFAS No. 161 also requires entities to disclose additional information about the amounts and location of derivatives located within the financial statements, how the provisions of SFAS 133 have been applied, and the impact that hedges have on an entity's financial position, financial performance, and cash flows. SFAS No. 161 is effective for fiscal years and interim periods beginning after November 15, 2008, with early application encouraged. The Company is currently evaluating the impact, if any, the adoption of this statement will have on our consolidated financial statements.

In April 2008, the FASB issued FASB Staff Position (FSP) 142-3, *Determination of the Useful Life of Intangible Assets* (FSP 142-3). FSP 142-3 amends the factors that should be considered in developing renewal or extension assumptions used to determine the useful life of a recognized intangible asset under SFAS No. 142, *Goodwill and Other Intangible Assets* . FSP 142-3 is effective for fiscal years beginning after December 15, 2008. The Company is currently assessing the impact of FSP 142-3 on its consolidated financial position and results of operations.

In May 2008, the FASB issued SFAS No. 162, *The Hierarchy of Generally Accepted Accounting Principles* (SFAS No. 162). SFAS No. 162 identifies the sources of accounting principles and the framework for selecting the principles used in the preparation of financial statements. SFAS No. 162 is effective 60 days following the SEC's approval of the Public Company Accounting Oversight Board amendments to AU Section 411, *The Meaning of Present Fairly in Conformity with Generally Accepted Accounting Principles* . The Company is currently evaluating the impact, if any, the adoption of this statement will have on our consolidated financial statements.

In June 2008, the FASB issued FSP EITF 03-6-1, *Determining Whether Instruments Granted in Share-Based Payment Transactions Are Participating Securities* (FSP EITF 03-6-1). FSP EITF 03-6-1 clarified that all outstanding unvested share-based payment awards that contain rights to nonforfeitable dividends participate in undistributed earnings with common shareholders. Awards of this nature are considered participating securities and the two-class method of computing basic and diluted earnings per share must be applied. FSP EITF 03-6-1 is effective for fiscal years beginning after December 15, 2008. The Company is currently evaluating the impact, if any; the adoption of this statement will have on our consolidated financial statements.

In September 2008, the FASB issued FSP 133-1 and FIN 45-4, Disclosures about Credit Derivatives and Certain Guarantees: An Amendment of FASB Statement No. 133 and FASB Interpretation No. 45; and Clarification of the Effective Date of FASB Statement No. 161 (FSP 133-1 and FIN 45-4). FSP 133-1 and FIN 45-4 amends and enhances disclosure requirements for sellers of credit derivatives and financial guarantees. It also clarifies that the disclosure requirements of SFAS No. 161 are effective for quarterly periods beginning after November 15, 2008, and fiscal years that include those periods. FSP 133-1 and FIN 45-4 is effective for reporting periods (annual or interim) ending after November 15, 2008. The Company will update its disclosures, as appropriate, upon implementation of this guidance.

In September 2008, the FASB ratified EITF Issue No. 08-5, Issuer s Accounting for Liabilities Measured at Fair Value With a Third-Party Credit Enhancement (EITF 08-5). EITF 08-5 provides guidance for measuring liabilities issued with an attached third-party credit enhancement (such as a guarantee). It clarifies that the issuer of a liability with a third-party credit enhancement (such as a guarantee) should not include the effect of the credit enhancement in the fair value measurement of the liability. EITF 08-5 is effective for the first reporting period beginning after December 15, 2008. The Company is currently assessing the impact of EITF 08-5 on its consolidated financial position and results of operations.

In October 2008, the FASB issued FSP 157-3 Determining Fair Value of a Financial Asset in a Market That Is Not Active (FSP 157-3). FSP 157-3 clarified the application of SFAS No. 157 in an inactive market. It demonstrated how the fair value of a financial asset is determined when the market for that financial asset is inactive. FSP 157-3 was effective upon issuance, including prior periods for which financial statements had not been issued. The implementation of this standard did not have an impact on our consolidated financial position and results of operations.

FORWARD-LOOKING STATEMENTS

Certain matters discussed in this quarterly report constitute forward-looking statements within the meaning of federal securities law. Generally, our use of words such as expect, estimate, believe, anticipate, will, forecast, plan, project, assume or similar words of futurity identify matters that are forward-looking and that we intend to be included within the Safe Harbor protections provided by Section 27A of the Securities Act and Section 21E of the Securities Exchange Act of 1934. Such forward-looking statements are based on management s current beliefs, assumptions and expectations regarding future events, which in turn are based on information currently available to management. Such statements may relate to projections of the Company s revenue, earnings and other financial and operational measures, Company debt levels, payment of stock dividends, and future operations or other matters. We caution you not to place undue reliance on any forward-looking statements, which are made as of the date of this quarterly report. Forward-looking statements do not guarantee future performance and involve known and unknown risks, uncertainties and other factors.

Several factors could cause actual results, performance or achievements of the Company to differ materially from those expressed in or contemplated by the forward-looking statements. Such risks include, but are not limited to, changes to general, domestic and foreign economic conditions; operating risks common in the lodging and franchising industries; changes to the desirability of our brands as viewed by hotel operators and customers; changes to the terms or termination of our contracts with franchisees; our ability to keep pace with improvements in technology utilized for reservations systems and other operating systems; fluctuations in the supply and demand for hotels rooms; and our ability to manage effectively our indebtedness, among other factors. These and other risk factors are discussed in detail in Item 1A Risk Factors of the Company s Form 10-K for the year ended December 31, 2007, filed with the Securities and Exchange Commission on February 29, 2008. We undertake no obligation to publicly update or revise any forward-looking statement, whether as a result of new information, future events or otherwise.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

The Company is exposed to market risk from changes in interest rates and the impact of fluctuations in foreign currencies on the Company s foreign investments and operations. The Company manages its exposure to these market risks through the monitoring of its available financing alternatives including in certain circumstances the use of derivative financial instruments. We are also subject to risk from changes in debt and equity prices from our non-qualified retirement savings plan investments in debt securities and common stock, which had a carrying value of \$30.2 million and \$34.5 million at September 30, 2008 and December 31, 2007, respectively, which we account for as trading securities under SFAS No. 115. The Company will continue to monitor the exposure in these areas and make the appropriate adjustments as market conditions dictate.

At September 30, 2008 and December 31, 2007, the Company had \$234.4 million and \$272.4 million of debt outstanding at a weighted average effective interest rate of 3.7% and 6.0%, respectively. A hypothetical change of 10% in the Company s effective interest rate from September 30, 2008 levels would increase or decrease interest expense by \$0.9 million. Prior to scheduled maturities, the Company expects to refinance its long-term debt obligations.

The Company does not presently have any derivative financial instruments.

ITEM 4. CONTROLS AND PROCEDURES

The Company formed a disclosure review committee whose membership includes the Chief Executive Officer (CEO) and Chief Financial Officer (CFO), among others. The CEO and CFO consider the disclosure review committee s procedures in performing their evaluations of the Company s disclosure controls and procedures and in assessing the accuracy and completeness of the Company s disclosures.

An evaluation was performed under the supervision and with the participation of the Company s CEO and CFO of the effectiveness of the design and operation of the Company s disclosure controls and procedures. Based on that evaluation, the Company s management, including the CEO and CFO, concluded that the Company s disclosure controls and procedures were effective as of September 30, 2008.

There has been no change in the Company s internal control over financial reporting that occurred during the quarter ended September 30, 2008, that materially affected, or is reasonably likely to materially affect the Company s internal controls over financial reporting.

PART II. OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

In April 2007, two putative federal securities law class actions were filed in the United States District Court for the District of Colorado on behalf of persons who purchased the Company s stock between April 25, 2006 and July 26, 2006. These substantially similar lawsuits were consolidated and together asserted claims pursuant to Sections 10(b) and 20(a) of the Securities Exchange Act of 1934, and Rule 10b-5 promulgated thereunder, against the Company, its current Vice Chairman and former Chief Executive Officer, and its former Executive Vice President and Chief Financial Officer. These claims were related to the Company s July 25, 2006 announcement of its results of operations for the second quarter of 2006. On the Company s motion, the action was transferred from Colorado to the United States District Court for the District of Maryland. The United States District Court for the District of Maryland subsequently appointed Macomb County Employees Retirement System as Lead Plaintiff. On August 15, 2008, Lead Plaintiff, and its counsel, determined to voluntarily dismiss its claims and the Court entered an Order dismissing the consolidated action.

ITEM 1A. RISK FACTORS

In addition to the other information set forth in this report, you should carefully consider the risk factors discussed in Part I, Item 1A. Risk Factors in our Annual Report on Form 10-K for the year ended December 31, 2007, which could materially affect our business, financial condition or future results. The risks described in our Annual Report on Form 10-K are not the only risks facing our Company. Additional risks and uncertainties not currently known to us or that we currently deem to be immaterial also may materially adversely affect our business, financial condition and/or operating results.
