**Report of Independent Registered Public Accounting Firm**

To the Participants and Administrator of MBIA Inc. 401(k) Plan:

We have audited the accompanying statements of net assets available for benefits of MBIA Inc. 401(k) Plan (the Plan ) as of December 31, 2008 and 2007, and the related statements of changes in net assets available for benefits for the years then ended. These financial statements are the responsibility of the Plan s management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. We were not engaged to perform an audit of the Plan s internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan s internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan at December 31, 2008 and 2007 and the changes in net assets available for benefits for the years then ended in conformity with accounting principles generally accepted in the United States of America.

Our audits were performed for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental schedule of assets (held at end of year) as of December 31, 2008 is presented for the purpose of additional analysis and is not a required part of the basic financial statements but is supplementary information required by the Department of Labor s Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. This supplemental schedule is the responsibility of the Plan s management. The supplemental schedule has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

**Table of Contents**

**MBIA INC.**

**401(k) PLAN**

**NOTES TO FINANCIAL STATEMENTS**

**AS OF AND FOR THE YEARS ENDED**

**DECEMBER 31, 2008 AND 2007**

**1. Plan Description**

The MBIA Inc. 401(k) Plan (the Plan) is a defined contribution plan for employees of MBIA Inc. and Subsidiaries (the Company or Employer) who are at least 21 years of age. Leased employees, temporary employees and employees classified as interns are not eligible to participate in the Plan. Effective January 1, 2008, eligible participants may contribute up to 25% of their total eligible compensation into the Plan. Prior to 2008, eligible participants were able to contribute up to 10% of such compensation. The Company matches employee contributions at the rate of 100% of each participant's contribution up to a maximum of 5%. Contributions are subject to certain limitations. During 2008, the Plan was amended to allow employer matching contributions to be made in the form of cash, whereby participants may direct the Company match to an investment of their choice. Prior to the amendment, the Company matching contribution was made in the form of MBIA Inc. common stock. Participants may request loans from their accounts in accordance with established guidelines.

The Plan is administered by the Company and the Plan's assets are managed by Fidelity Management Trust Company (Fidelity), the investment advisor, trustee and custodian. At January 1, 2007, the participants of the Plan had the option to direct their investment into one or more of twenty-five funds (nineteen Fidelity funds, two Baron Asset Management Company, Inc. (Baron) funds, one Pacific Investment Management Company LLC (PIMCO) fund, one Van Kampen Investments fund, one Morgan Stanley Investment Management fund, and the Employer Stock Fund). During 2007, the Plan added eight new funds (three Fidelity funds, one PIMCO fund, one Allianz Global Investors fund, one Davis Advisors fund, one Royce & Associates, LLC (Royce) fund, and one Cohen and Steers Realty Shares, Inc. fund) and removed one Fidelity fund, bringing the number of investment options available to the participants to thirty-two funds at December 31, 2007. During 2008, the Plan added one Dodge & Cox Funds fund and removed one Fidelity fund. The transactions with Fidelity and the Company qualify as exempt party-in-interest transactions.

Vesting in employer contributions begins after two years of service and full vesting is achieved after five years of service. Participants are fully vested in their salary deferred contributions at all times. Upon reaching the normal retirement date, death or becoming disabled, a participant will be entitled to receive benefit payments. Nonvested benefits remaining after termination of employment are forfeited and generally may serve to pay the Plan's administrative expenses and to reduce future Company contributions. During 2008 and 2007, \$84,331 and \$233,085, respectively, of forfeitures were used to fund the Company's matching obligation pursuant to the terms of the Plan. The forfeiture balance as of December 31, 2008 and 2007 was \$7,563 and \$15,967, respectively.

A participant is entitled to the benefit that can be provided by the contributions and income thereon, including net realized and unrealized investment gains and losses, of each participant's account. Upon retirement, disability, death or termination, a participant or beneficiary can elect to receive either a lump-sum distribution or installment distributions.

**MBIA INC.**

**401(k) PLAN**

**NOTES TO FINANCIAL STATEMENTS (Continued)**

**AS OF AND FOR THE YEARS ENDED**

**DECEMBER 31, 2008 AND 2007**

A participant may borrow from their account a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 reduced by the excess, if any, of the highest outstanding balance of loans from the Plan during the one-year period prior to the date of the loan over the current outstanding balance of loans or 50% of their vested account balance. Loan terms may range from 1 to 5 years, or longer for the purchase of a principal residence but not to exceed 10 years. The loans are collateralized by 50% of the vested account balance and bear a reasonable rate of interest as determined by the Plan Administrator based on the interest rates charged for similar types of loans by other lenders. Principal and interest is paid ratably through semi-monthly payroll deductions or through direct payment from former employees.

The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ( ERISA ). Participants should refer to the Summary Plan Description and Plan Document for specific information regarding Plan provisions.

**2. Summary of Significant Accounting Policies**

The financial statements have been prepared on the basis of accounting principles generally accepted in the United States of America ( GAAP ). The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, changes therein and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. As additional information becomes available or actual amounts become determinable, the recorded estimates are revised. Actual results could differ from those estimates.

Significant accounting policies are as follows:

***Basis of Accounting***

The financial statements of the Plan are prepared under the accrual method of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investments contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. Contract value represents contributions, transfers in or loan repayments made by participants plus interest and dividends, less withdrawals, transfers out or loan initiations by participants. The statement of net assets available for benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts, held by the commingled fund, from fair value to contract value. The statements of changes in net assets available for benefits are prepared on a contract value basis.

**Table of Contents**

**MBIA INC.**

**401(k) PLAN**

**NOTES TO FINANCIAL STATEMENTS (Continued)**

**AS OF AND FOR THE YEARS ENDED**

**DECEMBER 31, 2008 AND 2007**

***Investments***

The Plan's shares of mutual funds are valued at the net asset value of shares held by the Plan at each year end. Investment in the commingled fund is stated at fair value as determined by the issuer based on the value of the underlying investments. The Plan's common stock is stated at fair value based on the last reported sales price on the last business day of the year.

Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits. The Company's common stock comprises approximately 6% and 13% of the net assets available for benefits at December 31, 2008 and 2007, respectively.

Interest income from investments is recorded on an accrual basis. Dividend income is recorded on the ex-dividend date.

The Plan's net appreciation (depreciation) in the fair value of its investments consists of realized gains and losses and unrealized appreciation and depreciation on investments.

For further information regarding investments see Note 4, Investments .

***Contributions***

Contributions from eligible participants and matching Company contributions are recorded in the month the related payroll deductions are made.

***Participant Accounts***

Each participant has an account which is credited with the Company's contribution, employee's contribution, and net results from the investment activities of the participant's account, reduced for any withdrawal activity.

***Participant Loans***

Participant loan balances are stated at cost, plus accrued interest, which approximates market value. Loans outstanding are reflected as assets of the Plan. Interest income on the loans is recorded as earned.

***Payment of Benefits***

Benefits are recorded when paid.

***Administrative Expenses***

Administrative expenses, which consist primarily of investment management, recordkeeping and auditing fees, are paid directly by the Company rather than from Plan assets. Employee loan fees are paid from the participants accounts.

---

**Table of Contents**

**MBIA INC.**

**401(k) PLAN**

**NOTES TO FINANCIAL STATEMENTS (Continued)**

**AS OF AND FOR THE YEARS ENDED**

**DECEMBER 31, 2008 AND 2007**

***Income Taxes***

Effective January 1, 2007, the Plan adopted FASB Interpretation No. 48 ( FIN 48 ), Accounting for Uncertainty in Income Taxes , an interpretation of FASB Statement No. 109, Accounting for Income Taxes . FIN 48 establishes financial accounting and disclosure requirements for recognition and measurement of tax positions taken or expected to be taken on a tax return. The adoption of FIN 48 had no impact on the Plan's net assets available for benefits as of December 31, 2008 and December 31, 2007, respectively, or changes in net assets available for benefits for the years then ended.

***Fair Value Measurements***

Effective January 1, 2008, the Plan adopted Statement of Financial Accounting Standards No. 157, Fair Value Measurements, ( SFAS 157 ). Under SFAS 157, the fair value is defined as the price that would be received to sell an asset or paid to transfer a liability (i.e., the exit price) in an orderly transaction between market participants at the measurement date.

In determining fair value, the Plan uses various valuation approaches. SFAS 157 establishes a fair value hierarchy for inputs used in measuring fair value that maximizes the use of observable inputs and minimizes the use of unobservable inputs by requiring that the most observable inputs be used when available. Observable inputs are those that market participants would use in pricing the asset or liability based on market data obtained from sources independent of the Plan. Unobservable inputs reflect the Plan's assumption about the inputs market participants would use in pricing the asset or liability developed based on the best information available in current circumstances. The fair value hierarchy is categorized into three levels based on valuation inputs as follows:

Level 1 Valuations based on unadjusted quoted prices in active markets for identical assets or liabilities that the Plan has the ability to access. Valuation adjustments and block discounts are not applied to Level 1 securities. Since valuations are based on quoted prices that are readily and regularly available in an active market, valuation of these securities does not entail a significant degree of judgment.

Level 2 Valuations based on: a) quoted prices for similar assets or liabilities in active markets, b) quoted prices for identical or similar assets or liabilities in markets that are not active, c) inputs other than quoted prices that are observable for the asset or liability, and d) inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Level 3 Valuations based on inputs that are unobservable and supported by little or no market activity and that are significant to the overall fair value measurement.

To the extent that the valuation is based on inputs that are less observable or unobservable, the determination of fair value requires more judgment accordingly, the degree of judgment exercised

**Table of Contents**

**MBIA INC.**

**401(k) PLAN**

**NOTES TO FINANCIAL STATEMENTS (Continued)**

**AS OF AND FOR THE YEARS ENDED**

**DECEMBER 31, 2008 AND 2007**

in determining fair value is the greatest for the investments categorized in Level 3. Estimated values do not necessarily represent the amounts that may be ultimately realized due to the occurrence of future circumstances that cannot be reasonably determined. Because of the inherent uncertainty of valuation, those estimated values may be materially higher or lower than the values that would have been used had the securities been readily marketable.

***New Accounting Pronouncement***

Effective January 1, 2008, the Plan adopted Statement of Financial Accounting Standards No. 159, The Fair Value Option for Financial Assets and Financial Liabilities, ( SFAS 159 ). SFAS 159 provides for an irrevocable option to measure eligible financial assets and liabilities at fair value, with changes in fair value recorded in earnings, that otherwise are not permitted to be accounted for at fair value under other accounting standards. SFAS 159 also establishes presentation and disclosure requirements designed to facilitate comparisons between companies that choose different measurement attributes for similar types of assets and liabilities. The adoption of SFAS 159 had no impact on the Plan's net assets available for benefits as of December 31, 2008 or changes in net assets available for benefits for the year then ended.

***Reclassification***

Certain amounts included in the financial statements as of and for the year ended December 31, 2007 have been reclassified for comparative purposes.

**3. Plan Termination**

The Company has not expressed any intent to discontinue its contributions or terminate the Plan. However, it reserves the right to temporarily suspend contributions to or amend or terminate the Plan. Upon termination of the Plan, the accounts of all participants shall become fully vested, and the net assets of the Plan shall be distributed among the participants and beneficiaries of the Plan in proportion to their respective account balances, subject to the provisions of ERISA.

Net change in fair value	\$	(12,033,820)

---

**Table of Contents**

**MBIA INC.**

**401(k) PLAN**

**NOTES TO FINANCIAL STATEMENTS (Continued)**

**AS OF AND FOR THE YEARS ENDED**

**DECEMBER 31, 2008 AND 2007**

**6. Investment Contract**

The Plan holds an investment in a commingled fund, specifically the Fidelity Managed Income Portfolio Fund (the MIP). The MIP invests in investment contracts issued by insurance companies and other financial institutions, fixed income securities, money market funds and may include derivative instruments such as futures contracts and swap agreements to provide daily liquidity. The investment contract issuers seek to preserve the principal investment and earnings, but cannot guarantee that they will be able to do so. The MIP is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The MIP is included in the Plan's financial statements at contract value as described in Note 2. There are no reserves against contract values for credit risk of the contract issuers or otherwise.

As of December 31, 2008 and 2007, the MIP had an average crediting interest rate of 3.57% and 4.82%, respectively. For the years ended December 31, 2008 and 2007, the Plan investment at contract value had an average yield, based on both actual earnings and interest rate credited to participants, of 3.04% and 4.40%, respectively.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (a) amendments to the Plan documents (including complete or partial plan termination or merger with another plan), (b) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (c) bankruptcy of the plan sponsor or other plan sponsor events (e.g., divestitures or spin-offs of a subsidiary) which cause a significant withdrawal from the Plan, or (d) the failure of the Plan to qualify for exemption from federal income taxes or any other prohibited transaction exception under ERISA. The Plan Administrator does not believe that the occurrence of any such event, which would limit the Plan's ability to transact at contract value with participants, is probable.

**7. Tax Status**

The Internal Revenue Service has advised that the Plan constitutes a qualified plan under Section 401(a) of the Internal Revenue Code and is therefore exempt from federal income taxes under provisions of Section 501(a). The Plan obtained its latest determination letter on April 30, 2003 in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. Since the date of the determination letter, there have been no significant Plan amendments. The Company is in the process of updating the Plan document for submission to the Internal Revenue Service in order to obtain a more current determination letter. In the Company's view, the Plan has continued to maintain its tax exempt status and is in compliance with all applicable requirements of the Internal Revenue Code.
