Forward-looking Statements

In addition to historical information, this Report contains forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Act of 1934, as amended. The forward-looking statements contained herein are subject to risks and uncertainties that could cause actual results to differ materially from those reflected in the forward-looking statements. For a discussion of some of the risks and important factors that could affect the Company's future results and financial condition, please see the sections entitled Risk Factors and Management's Discussion and Analysis of Financial Condition and Results of Operations, and our Annual Report on Form 20-F for the fiscal year ended March 31, 2011, filed with the Securities and Exchange Commission (the SEC) on October 13, 2011.

The forward-looking statements contained herein are identified by the use of terms and phrases such as anticipate, believe, could, estimate, expect, intend, may, plan, objectives, outlook, probably, project, will, seek, target and similar terms and phrases. Such forward-looking statements include, but are not limited to, statements concerning:

our expectations as to future revenue, margins, expenses and capital requirements;

our exposure to market risks, including the effect of foreign currency exchange rates and interest rates on our financial results;

the effect of the international economic slowdown on our business;

our ability to generate and manage growth and to manage our international operations;

projections that our cash and cash equivalents, along with cash generated from operations will be sufficient to meet certain of our obligations; and

the effect of future tax laws on our business.

Edgar Filing: SIFY TECHNOLOGIES LTD - Form 6-K

You are cautioned not to place undue reliance on these forward-looking statements, which reflect management's analysis only as of the date of this Report. We undertake no obligation to publicly update or revise any forward-looking statements, whether as a result of new information, future events or otherwise. SIFY TECHNOLOGIES LIMITED

UNAUDITED CONDENSED CONSOLIDATED INTERIM FINANCIAL STATEMENTS

(In thousands of Rupees, except share, per share data and as stated otherwise)

1. Reporting entity

Sify Technologies Limited, (Sify or the Company) formerly known as Sify Limited, is a leading internet services provider headquartered in Chennai, India. These Unaudited Condensed Consolidated Interim Financial Statements as at and for the three months and six months ended September 30, 2011 comprise the Company and its subsidiaries (Sify Software Limited, Sify International Inc and Sify Technologies (Singapore) Pte Limited) (together referred to as the Group and individually as Group entities) and the Group's interest in MF Global Sify Securities India Private Limited, an equity accounted investee. The Group is primarily involved in providing services, such as Corporate Network and Data Services, Internet Access Services, Online Portal and Content offerings and in selling hardware and software related to such services. Sify is listed on the NASDAQ Global Select market in the United States.

2. Basis of preparation

a. Statement of compliance

The Unaudited Condensed Consolidated Interim Financial Statements of the Group have been prepared in accordance with International Financial Reporting Standard (IFRS), *IAS 34 Interim Financial Reporting*. They do not include all of the information required for full annual financial statements, and should be read in conjunction with the consolidated financial statements of the Group as at and for the year ended March 31, 2011.

These Unaudited Condensed Consolidated Interim Financial Statements have been approved for issue by the Board of Directors on March 21, 2012.

b. Functional and presentation currency

Items included in the financial statements of each Group entity are measured using the currency of the primary economic environment in which the entity operates (the functional currency). Indian rupee is the functional currency of Sify, its domestic subsidiaries and affiliates. US dollar is the functional currency of Sify's foreign subsidiary located in the US and Singapore.

The Unaudited Condensed Consolidated Interim Financial Statements are presented in Indian Rupees which is the Group's presentation currency. All financial information presented in Indian Rupees has been rounded up to the nearest thousand except where otherwise indicated.

Convenience translation: Solely for the convenience of the reader, the financial statements as of and for the three months and six months ended September 30, 2011 have been translated into United States dollars (neither the presentation currency nor the functional currency) based on the reference rate in the City of Mumbai on September 30, 2011, for cable transfers in Indian rupees as published by the Reserve Bank of India which was Rs.48.93 per \$1.00. No representation is made that the Indian rupee amounts have been, could have been or could be converted into United States dollar at such a rate or at any other rate on September 30, 2011 or at any other date.

c. Use of estimates and judgements

The preparation of these Unaudited Condensed Consolidated Interim Financial Statements in conformity with IFRS requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses during the period. Accounting estimates could change from period to period. Actual results may differ from these estimates. Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period of change and future periods, if the change affects both and, if material, their effects are disclosed in the notes to the financial statements.

Edgar Filing: SIFY TECHNOLOGIES LTD - Form 6-K

In preparing the Unaudited Condensed Consolidated Interim Financial Statements, the significant judgements made by management in applying the Group's accounting policies and key sources of estimating uncertainties were the same as that were applied to the consolidated financial statements as at and for the year ended March 31, 2011.

11 of 41

3. Significant accounting policies

The accounting policies applied by the group in these Unaudited Condensed Consolidated Interim Financial Statements are the same as those applied by the Group in its consolidated financial statements as at and for the year ended March 31 2011.

4. Recent accounting pronouncements

A number of new standards, amendments to standards and interpretations are not yet effective for the period ended September 30, 2011, and have not been applied in preparing these consolidated financial statements:

IFRS 9 Financial Instruments: In November 2009, the International Accounting Standards Board issued IFRS 9, Financial Instruments: Recognition and Measurement, to reduce the complexity of the current rules on financial instruments as mandated in IAS 39. The effective date for IFRS 9 is annual periods beginning on or after January 1, 2013 with early adoption permitted. IFRS 9 has fewer classification and measurement categories as compared to IAS 39 and has eliminated the categories of held to maturity, available for sale and loans and receivables. Further it eliminates the rule-based requirement of segregating embedded derivatives and tainting rules pertaining to held to maturity investments. For an investment in an equity instrument which is not held for trading, IFRS 9 permits an irrevocable election, on initial recognition, on an individual share-by-share basis, to present all fair value changes from the investment in other comprehensive income. No amount recognized in other comprehensive income would ever be reclassified to profit or loss. IFRS 9, was further amended in October 2010, and such amendment introduced requirements on accounting for financial liabilities. This amendment addresses the issue of volatility in the profit or loss due to changes in the fair value of an entity's own debt. It requires the entity, which chooses to measure a liability at fair value, to present the portion of the fair value change attributable to the entity's own credit risk in the other comprehensive income. The company is required to adopt IFRS 9 by accounting year commencing April 1, 2013. The company is currently evaluating the requirements of IFRS 9, and has not yet determined the impact on the consolidated financial statements.

IFRS 10, Consolidated Financial Statements, IFRS 11, Joint Arrangements and IFRS 12, Disclosure of Interests in Other Entities:

In May 2011, the International Accounting Standards Board issued IFRS 10, IFRS 11 and IFRS 12. The effective date for IFRS 10, IFRS 11 and IFRS 12 is annual periods beginning on or after January 1, 2013 with early adoption permitted.

IFRS 10 Consolidated Financial Statements builds on existing principles by identifying the concept of control as the determining factor in whether an entity should be included within the consolidated financial statements of the parent company. IFRS 10 replaces the consolidation requirements in SIC-12 Consolidation of Special Purpose Entities and IAS 27 Consolidated and Separate Financial Statements. The standard provides additional guidance for determining of control in cases of ambiguity for instance in case of franchisor franchisee relationship, de facto agent, silos and potential voting rights.

IFRS 11 Joint Arrangements determines the nature of an arrangement by focusing on the rights and obligations of the arrangement, rather than its legal form. IFRS 11 replaces IAS 31 Interests in Joint Ventures and SIC-13 Jointly-controlled Entities-Non-monetary Contributions by Venturers. IFRS 11 addresses only forms of joint arrangements (joint operations and joint ventures) where there is joint control whereas IAS 31 had identified three forms of joint ventures, namely jointly controlled operations, jointly controlled assets and jointly controlled entities. The standard addresses inconsistencies in the reporting of joint arrangements by requiring a single method to account for interests in jointly controlled entities, which is the equity method.

IFRS 12 Disclosure of Interests in Other Entities is a new and comprehensive standard on disclosure requirements for all forms of interests in other entities, including joint arrangements, associates, special purpose vehicles and other off balance sheet vehicles. One major requirement of IFRS 12 is that an entity needs to disclose the significant judgments and assumptions it has made in determining:

whether it has control, joint control or significant influence over another entity; and

the type of joint arrangement when the joint arrangement is structured through a separate vehicle.

Edgar Filing: SIFY TECHNOLOGIES LTD - Form 6-K

IFRS 12 also expands the disclosure requirements for subsidiaries with non-controlling interest, joint arrangements and associates that are individually material. IFRS 12 introduces the term "structured entity" by replacing Special Purpose entities and requires enhanced disclosures by way of nature and extent of, and changes in, the risks associated with its interests in both its consolidated and unconsolidated structured entities.

The company is required to adopt IFRS 10, IFRS 11 and IFRS 12 effective April 1, 2013. The company is currently evaluating the requirements of IFRS 10, IFRS 11 and IFRS 12, and has not yet determined the impact on the consolidated financial statements.

IFRS 13 Fair Value Measurement: In May 2011, the International Accounting Standards Board issued IFRS 13, Fair Value Measurement to provide specific guidance on fair value measurement and requires enhanced disclosures for all assets and liabilities measured at fair value, and not restricted to financial assets and liabilities. The standard introduces a precise definition of fair value and a consistent measure for fair valuation across assets and liabilities, with a few specified exceptions. The effective date for IFRS 13 is annual periods beginning on or after January 1, 2013 with early adoption permitted. The company is required to adopt IFRS 13 by accounting year commencing April 1, 2013 and is currently evaluating the requirements of IFRS 13, and has not yet determined the impact on the consolidated financial statements.

IAS 1 (Amended) Presentation of Financial Statements: In June 2011, the International Accounting Standard Board published amendments to IAS 1 Presentation of Financial Statements. The amendments to IAS 1 Presentation of Financial Statements require companies preparing financial statements in accordance with IFRS to group items within other comprehensive income that may be reclassified to the profit or loss separately from those items which would not be recyclable in the profit or loss section of the income statement. It also requires the tax associated with items presented before tax to be shown separately for each of the two groups of other comprehensive income items (without changing the option to present items of other comprehensive income either before tax or net of tax).

The amendments also reaffirm existing requirements that items in other comprehensive income and profit or loss should be presented as either a single statement or two consecutive statements. This amendment is applicable to annual periods beginning on or after July 1, 2012, with early adoption permitted. The company is required to adopt IAS 1 (Amended) by accounting year commencing April 1, 2013. The company has evaluated the requirements of IAS 1 (Amended) and the company does not believe that the adoption of IAS 1 (Amended) will have a material effect on its consolidated financial statements.

IAS 19 (Amended) Employee Benefits: In June 2011, International Accounting Standards Board issued IAS 19 (Amended), Employee Benefits. The effective date for adoption of IAS 19 (Amended) is annual periods beginning on or after January 1, 2013, though early adoption is permitted.

IAS 19 (Amended) has eliminated an option to defer the recognition of gains and losses through re-measurements and requires such gain or loss to be recognized through other comprehensive income in the year of occurrence to reduce volatility. The amended standard requires immediate recognition of effects of any plan amendments. Further it also requires assets in profit or loss to be restricted to government bond yields or corporate bond yields, considered for valuation of Projected Benefit Obligation, irrespective of actual portfolio allocations. The actual return from the portfolio in excess of or less than such yields is recognized through other comprehensive income.

These amendments enhance the disclosure requirements for defined benefit plans by requiring information about the characteristics of defined benefit plans and risks that entities are exposed to through participation in those plans.

The amendments need to be adopted retrospectively. The company is required to adopt IAS 19 (Amended) by accounting year commencing April 1, 2013. The company is currently evaluating the requirements of IAS 19 (Amended) and has not yet determined the impact on the consolidated financial statements.

Other Intangibles	99,404	90,031
Total	113,999	104,626

In May 2006, the group acquired travel business for a consideration of USD 2.5 million (Rs. 112,220 thousands) in cash along with an option to purchase 125,000 shares of Sify Technologies Limited and certain earn out payments aggregating to USD 0.5 million (Rs. 22,444 thousands). The assets acquired consist of System software, customer contracts and goodwill. The said business operated from India and United States.

During the six months ended September 30, 2010, triggered by certain adverse market conditions such as decrease in revenue and increase in the cost of services, continued losses and other technological matters, which are confirmed by other subsequent events, the group tested the carrying value of the above business for impairment. The recoverable amount of these intangibles were determined based on the higher of the value in use (using discounted cash flow approach) and fair value less cost to sell. As a result of the above review, the group has recorded an impairment of the above intangibles amounting to Rs 1,857 and adjusted the carrying value of these intangibles accordingly. The above impairment relates to Commercial and Consumer Services segment.

The following table presents the changes in goodwill during the six months ended September 30, 2011 and the year ended March 31, 2011

During October 2010, Sify Technologies Ltd, the minority shareholder of MF Global holding 29.85 percent of the outstanding shares, requested MF Global s Board of Directors to reconsider certain costs charged to the MF Global by MF Global Holdings Ltd and its affiliated and associated group companies, who hold 70.15 percent of the outstanding shares of the MF Global. These charges are currently recorded in the financial statements of the MF Global for year ended March 31, 2008 aggregating to INR 43,478,911 and March 31, 2009 aggregating to INR 15,374,528. The resolution of this matter between the shareholders of MF Global remains uncertain and any financial adjustment that may arise is not presently known and accordingly no adjustment related to this matter has been provided for in MF Global s consolidated financial statements. Any financial adjustment that may arise on resolution of the said matter would be expected to be handled prospectively and therefore would be reported in the period in which it is resolved. Consequently, no adjustment related to the said matter was considered by Sify for equity method of accounting for MF Global. The effect of such recorded cross charge is not material to the financial statements of Sify Technologies Limited. Also refer to note 23 elsewhere in the Report.

14. Cost of goods sold and services rendered

Cost of goods sold and services rendered information is presented before any depreciation or amortization that is direct and attributable to revenue sources. The Group's asset base deployed in the business is not easily split into a component that is directly attributable to a business and a component that is common / indirect to all the businesses. Since a gross profit number without depreciation and amortization does not necessarily meet the objective of such a disclosure, the Group has not disclosed gross profit numbers but disclosed all expenses, direct and indirect, in a homogenous group leading directly from revenue to operating margin.

* Ordinary shares arising out of potential exercise of outstanding stock options as at September 30, 2011 and 2010 were not included in the computation of diluted earnings per share, as their effect was anti-dilutive.

Note 1: During the year ended March 31, 2011, 125,000,000 ordinary shares were issued to the existing promoter group on a private placement basis. As of September 30, 2011, these shares were partly paid up to the extent of Rs 5.00 per share.

18. Segment reporting

There has been change in the composition of reportable segments for the six months ended September 30, 2011 as compared to the year ended March 31, 2011.

Effective April 1, 2011, the primary operating segments of the Group are as below:

Enterprise Service: This segment includes Network Services and IT services. Connectivity and voice services will be offered as Network Services, while Data Center Hosting and Managed Services, along with System Integration, will comprise IT services. This segment would service both domestic and International clients from large corporate and mid-market customers.

Commercial and Consumer Service: The scope of the Consumer business is being expanded to include SOHOs and SMBs apart from the cybercafés, Portals and broadband-to-home services, offering network, IT services and applications through the Cloud.

Edgar Filing: SIFY TECHNOLOGIES LTD - Form 6-K

Software Service: The application services and e-learning would form Software services. This business line will offer applications through the Cloud, primarily targeted at enterprise and international customers.

Enterprise Services

Enterprise services revenue primarily includes Network services and IT services. Network Services include revenues from connectivity services such as recurring revenues, installation of the connectivity link, and, to a lesser extent, revenue from sale of hardware and software purchased from third party vendors and Voice services viz., NLD (National Long Distance) and ILD (International Long Distance) services carrying voice traffic for carriers. Connectivity services include IP VPN services, Internet connectivity, and last mile connectivity (predominantly through wireless). IT Services includes web hosting revenues, primarily generated from co-location services and Managed services including infrastructure management services offered in overseas markets and System Integration services, security and consulting services. Sify, part of international offering, offers Network management services, Data center services, Security and information assurance services. Sify remotely manages the Information Technology infrastructure of global enterprises from India.

Commercial and consumer Retail Internet access services and Online Portal and content offerings

Internet access service revenues are generated from providing internet connectivity to our retail customers through public access and home access services which are primarily provided through broadband connectivity in arrangement with Cable Television Operators (CTOs). Our public access services with host of value added services are provided through franchised and Company-owned cybercafés, or e-ports . Additionally, we generate revenue by providing Internet Telephony services, allowing customers to make international telephone calls over the Internet. We also offer the premium broadband connection, branded Platinum to the SOHO market segment including domain names, e mail Ids, static IP

Online portal services and content offerings revenues include advertising revenues from the various channels of our Internet portal, www.sify.com. We enter into contracts with customers to serve advertisements in the portal, and we are paid on the basis of impressions, click-through or leads.

Software services

Our software services offer Application management services and e Learning services. As part of Application management services we offer online assessment, Document management services, web development and mailing solutions. E-learning services consist of structuring of contents, developing modules, delivery and training users in the modules developed. As these activities represent development of customised services, revenue is recognised based on percentage of completion method.

As the revenue with a single external customer during the six months ended September 30, 2011 and 2010 did not exceed 10% of the Company's revenue for the respective periods, the disclosure regarding the revenue from major customers and identity and segment generating such revenue is not provided.

19. Capital Commitments

Contracts pending to be executed on capital account as at September 30, 2011 and not provided for amounted to Rs.311,878 (net of advances Rs.948,837), [March 31, 2011 Rs.521,562 (net of advances Rs.691,338)]. In addition, the Company has a commitment to make payments aggregating to USD 10 million to Emirates Integrated Telecommunications Company PJSC under the agreement for supply of capacity from the Europe India Gateway, of which the Company has already made payments amounting to Rs.410,609 (USD 8.80 million) as at September 30, 2011.

Operating leases: The Group leases office buildings and other equipments under operating lease arrangements that are renewable on a periodic basis at the option of both the Lessor and the lessee. The schedule of future minimum rental payments in respect of operating leases is set out below:

	Total	Less than 1 year	1-5 years	More than 5 years

20. Legal proceedings

(a) The Group and certain of its officers and directors are named as defendants in securities class action lawsuit filed in the United States District Court for the Southern District of New York. This action, which is captioned In re Satyam Infoway Ltd. Initial Public Offering Securities Litigation, also names several of the underwriters involved in Sify's initial public offering of American Depositary Shares as defendants. This

Edgar Filing: SIFY TECHNOLOGIES LTD - Form 6-K

class action is brought on behalf of a purported class of purchasers of Sify's ADSs from the time of Sify's Initial Public Offering (IPO) in October 1999 through December 2000. The central allegation in this action is that the underwriters in Sify's IPO solicited and received undisclosed commissions from, and entered into undisclosed arrangements with, certain investors who purchased Sify's ADSs in the IPO and the aftermarket. The complaint also alleges that Sify violated the United States Federal Securities laws by failing to disclose in the IPO prospectus that the underwriters had engaged in these allegedly undisclosed arrangements. More than 300 issuers have been named in similar lawsuits.

25 of 41

On April 2, 2009, the parties lodged with the Court a motion for preliminary approval of a proposed settlement between all parties, including the Company and its former officers and directors. The proposed settlement provides the plaintiffs with \$586 million in recoveries from all defendants. Under the proposed settlement, the Issuer Defendants collectively would be responsible for \$100 million, which would be paid by the Issuers' insurers, on behalf of the Issuer Defendants and their officers and directors.

Accordingly, any direct financial impact of the proposed settlement is expected to be borne by the Sify's insurers. On June 12, 2009, the Federal District Court granted preliminary approval of the proposed settlement. On October 6, 2009, the District Court issued an order granting final approval of the settlement. Subsequent to the final approval of Settlement agreement by the District court, there were several notices of appeal filed. Most were filed by the same parties that objected to the settlement in front of the District Court. These appeals were consolidated into a single appeal and briefing schedule was held. On January 9, 2012 the class counsel and objectors counsel entered into a settlement agreement, which agreement includes an agreement to dismiss the above appeal. Thus the above Appeal has been dismissed with prejudice confirming the Settlement agreement entered before the District Court.

The Company believes, the maximum exposure under this settlement is approximately USD 338,983, an amount which its insurer will pay as per the Settlement agreement on behalf of the Company.

(b) Proceedings before Department of Telecommunications

(i) License fees

On October 12, 2009 (as later clarified by the DoT), the Department of Telecommunications (DoT) raised a demand on Sify Technologies for INR 14 million after correcting the arithmetical error in the Assessment letter.

On February 26, 2010 DOT raised a demand on Sify Communications (erstwhile subsidiary merged with Sify Technologies Limited) for INR 26 million.

The above demands were made by the DoT on the premise that all amounts of income (whether direct or indirect) including certain items like other income, interest on deposits, gain on foreign exchange fluctuation, profit on sale of assets & provision written back, that have got anything to do with telecom operations of the Company or arise in connection with the Telecom business of the Company, are to be considered as income for the purpose of calculation of the license fee. The company has replied suitably on the above demand notice.

The service providers had approached Telecom Disputes Settlement & Appellate Tribunal (TDSAT) on what all items of income are liable for calculation of license fee and what all items of income on which license fees are not liable to be paid. TDSAT by its order clarified on the above. The TDSAT order was challenged by DoT in Supreme Court of India and the Supreme Court has set aside the TDSAT order. The service providers through their associations are contemplating for further appeal in Supreme Court by way of review petition. Sify believes that in spite of Supreme Court order, the above demands are not tenable under law nor fit into the definition of Adjusted Gross Revenue as defined by DoT. The company believes it has adequate defences for these demands and the ultimate outcome of these actions may not have a material adverse effect.

(ii) In November 2009, the Company received a demand notice pertaining to the allocation of spectrum in the 3.3-3.4 GHz frequency, from DoT, demanding INR 345 million (US \$ 7.05 million) towards spectrum charges payable from the date of issue of allocation letter for 170 Base Stations. As per the notice, in case no payment is received within 15 days from the date of issue of the notice, then it would be presumed that the Company is no longer interested for the frequency assignments in 3.3-3.4 GHz band.

Whilst the Company received allotment letter for Spectrum in 3.3 GHz band (3303.5/3353.5 MHz) (Total 12 MHz) the Company had neither started any operations in this frequency band nor had applied for any Operating License from DOT/ Wireless Planning Commission (WPC). Sify believes that the obligation to make payment will arise only after obtaining the operating license from DOT/WPC. Sify also believes that it has adequate legal defences for these demands, as the Company has not yet obtained any operative license, hence such demand is not tenable. Nevertheless, the Company has as a commitment to hold and use the spectrum in the above band has paid INR 11.56 million towards 40 Base Stations and has surrendered the remaining 130 Base Stations. The Company believes that the ultimate outcome of these actions will not have a material adverse effect.

c) The Group is party to additional legal actions arising in the ordinary course of business. Based on the available information, as at September 30, 2011, Group believes that it has adequate legal defences for these actions and that the ultimate outcome of these actions will not have a material adverse effect. However in the event of adverse judgement in all these cases, the maximum financial exposure would be Rs

12,668 (March 31, 2011: Rs 9,051)

This arrangement will be automatically renewed for a further period of two blocks of three years with all the terms remaining unchanged.

22. Financial risk management

The Group's financial risk management objectives and policies are consistent with that disclosed in the consolidated financial statements as of and for the year ended March 31, 2011.

Credit risk: Credit risk is the risk of financial loss to the Group if a customer or counterparty to a financial instrument fails to meet its contractual obligations and arises principally from the Group's trade receivables, treasury operations and other activities that are in the nature of leases.

Trade and other receivables

The Group's exposure to credit risk is influenced mainly by the individual characteristics of each customer. Management considers that the demographics of the Group's customer base, including the default risk of the industry and country in which customers operate, has less of an influence on credit risk. The group is not exposed to concentration of credit risk to any one single customer since the services are provided to and products are sold to customers who are spread over a vast spectrum. Credit risk is managed through credit approvals, establishing credit limits and continuously monitoring the credit worthiness of the customers to which the Company grants credit terms in the normal course of the business.

Cash and cash equivalents and other investments

In the area of treasury operations, the Group is presently exposed to counter-party risks relating to short term and medium term deposits placed with public-sector banks, and also to investments made in mutual funds.

Guarantees

The Group's policy is to provide financial guarantees only to subsidiaries and Companies within the Group.

The Chief Financial Officer is responsible for monitoring the counterparty credit risk, and has been vested with the authority to seek Board's approval to hedge such risks in case of need.

Liquidity risk: Liquidity risk is the risk that the Group will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Group's approach to managing liquidity is to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under normal and stressed conditions, without incurring unacceptable losses

Edgar Filing: SIFY TECHNOLOGIES LTD - Form 6-K

or risking damage to the Group's reputation. Typically the Group ensures that it has sufficient cash on demand to meet expected operational expenses, servicing of financial obligations. In addition, the Group has concluded arrangements with well reputed Banks, and has unused lines of credit that could be drawn upon should there be a need. The Company is also in the process of infusing further capital from its promoter group for funding its requirements.

27 of 41

Market risk: Market risk is the risk of loss of future earnings or fair values or future cash flows that may result from a change in the price of a financial instrument. The value of a financial instrument may change as a result of changes in the interest rates, foreign exchange rates and other market changes that affect market risk sensitive instruments. Market risk is attributable to all market risk sensitive financial instruments including foreign currency receivables and payables. The Group is exposed to market risk primarily related to foreign exchange rate risk (currency risk), interest rate risk and the market value of its investments. Thus the Group's exposure to market risk is a function of investing and borrowing activities and revenue generating and operating activities in foreign currencies.

Currency risk: The Group's exposure in USD, Euro and other foreign currency denominated transactions gives rise to Exchange Rate fluctuation risk. Group's policy in this regard incorporates:

Forecasting inflows and outflows denominated in US\$ for a twelve-month period

Estimating the net-exposure in foreign currency, in terms of timing and amount

Determining the extent to which exposure should be protected through one or more risk-mitigating instruments to maintain the permissible limits of uncovered exposures.

Carrying out a variance analysis between estimate and actual on an ongoing basis, and taking stop-loss action when the adverse movements breaches the 5% barrier of deviation, subject to review by Audit Committee.

23. Subsequent events

a) **Insolvency petition filed by MF Global Overseas Limited, holding company of MF Global Sify Securities India Private Limited (Associate)**

In the year 2000, REFCO - Sify Securities India Private Limited was formed as a Joint Venture company between REFCO Group Holdings Inc. and the Company. During November 2005, REFCO Group Holding Inc. sold its entire stake in REFCO Sify Securities India Private Limited to Man Financial Holdings Limited, the name which later changed into M F Global Overseas Limited (MFG). Consequent to this, MFG and the Company entered into a share holders Agreement dated 25th November 2005. MFG is a subsidiary of MF Global Holdings Limited, USA. Subsequent to the sale of shares to MFG, the name of the Joint Venture Company was changed into MF Global Sify Securities India Private Limited (Joint Venture Company).

As at September 30, 2011, the Company holds 29.85% in the Joint Venture Company and the remaining 70.15% was held by MFG. On October 31, 2011, M F Global Holding Limited, USA, sought bankruptcy protection through a chapter 11 filing in the U.S. Bankruptcy Court in New York. Consequent to this, MFG also filed for bankruptcy proceedings in the United Kingdom and 3 individual administrators from KPMG were appointed as Joint administrators for MFG which holds the shares in the Joint Venture Company.

The company was informed by the Joint Administrators that they are in the process of seeking bids for the stakes held by MFG in the Joint Venture Company. The Company believes that the auction process is in violation of the share holders' agreement entered between MFG and the Company.

Hence, the Company has filed a petition under section 9 of the Arbitration and Conciliation Act 1996 in Bombay High Court, seeking for an interim relief restraining the Joint Administrators and MFG from proceeding with the proposed auction in respect of the sale of shares held by MFG in the Joint Venture Company in violation of share holders agreement dated November 25, 2005. The above petition came up for hearing on December 16, 2011 and has been adjourned to January 2012 for further proceedings. In parallel, the Company without prejudice to its legal rights is in discussion with the Joint Administrators of MFG for an early amicable settlement in this regard.

The company continues to evaluate various options available to ensure its interests in the associate is fully protected and are taking adequate legal support in India and US. MF Global is solvent and the Company believes that there is no material impact on the carrying value of the above investment in the consolidated financial statements of the Company.

b) Acquisition of shares of Hermit Projects private Limited

During the year ended March 31, 2009, Sify entered into an agreement for Sub Lease with VALS Developers Private Limited (VALS), who has entered into a Memorandum of Understanding (MoU) with the original owner of the property, to take on lease on long term basis the proposed building which was in the process of being constructed. The lease agreement, when final and executed, was expected to have an initial non-cancellable term of 5 years, with a further option for Sify to renew or cancel the lease for the incremental five year terms. In terms of this Agreement for Sub Lease, Sify has paid a security deposit of Rs.125,700 and advance rental of Rs.157,125 to VALS. As per the terms of the Sub Lease, the security deposit will be refunded at the end of lease term and the advance rental would be adjusted over a period of 15 months from the commencement of the lease.

On October 30, 2010, with the consent of VALS, the Board of Directors of the Company has approved the cancellation of the Agreement for Sub lease and has decided to acquire the building along with land directly through acquisition of Pace Info Com Park Private Limited (PACE), an unrelated third party, which is the owner of the land and building for total consideration of Rs.1,140,000. The above deposits would be adjusted against the consideration payable for acquiring the shares of PACE. To give effect to the above, the company has entered into an amendment Agreement with all concerned parties and VALS has assigned its rights and obligations to the company and the company paid Rs.400,000 as part consideration for the above purchase. On May 24, 2011 and on June 9, 2011, the company has paid a further sum of Rs.50,000 each as part consideration for the above purchase. On September 28, 2011, the company has paid a further sum of Rs.127,000 as per terms of MoU. As on date, the Company has paid an aggregate amount of Rs.909,800 towards the consideration. Also refer note 5 to the consolidated financial statement for the quarter and six months ended September 30, 2011.

Subsequently on November 28, 2011, the company acquired controlling interest by acquiring the entire shares of PACE through acquisition of shares of Hermit Projects Private Limited, its holding Company.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations.

The following discussion of the financial condition and results of operations of our Company should be read in conjunction with the Unaudited Condensed Consolidated Interim Financial Statements and the related condensed notes included elsewhere in this report and the audited financial statements and the related notes contained in our Annual Report on Form 20-F for the fiscal year ended March 31, 2011. This discussion contains forward-looking statements that involve risks and uncertainties. For additional information regarding these risks and uncertainties, please see the section in our Annual report captioned Risk Factors.

Overview

Sify is among the largest Internet, networking and e-Commerce services companies in India, offering end-to-end solutions with a comprehensive range of products delivered over a common Internet backbone infrastructure. This Internet backbone reaches more than 690 cities and towns in India. The operating segments are Enterprise services, Commercial and Consumer Services and Software services. A significant part of revenues is derived from Enterprise Services which includes Network Services and IT Services.

Revenue

We have been historically operating with three segments of business viz corporate network/data services, Internet access services (including Online portal services and content offerings) and others (e-Learning and Infrastructure Management services). The industry in which these segments compete has witnessed newer competitions, business models resulting in dynamic market changes. In order to leverage the versatility and the organizational capability, the Chief Operations Decision Maker (CODM) has evaluated options of integrating certain services to address customers across segments, achieve better marketability, flexibility and scale. Based on the management decision, certain changes to the business structure were made effective April 1, 2011. Consequently there were a change in operating segments as below:

Enterprise Service: Connectivity and voice services are offered as Network Services, while Data Center Hosting and Managed Services, along with System Integration, will comprise IT services. They will service both domestic and International clients from large corporate and mid-market customers.

Commercial and Consumer Service: The scope of the Consumer business is being expanded to include SOHOs and SMBs apart from the cybercafés, Portals and broadband-to-home services, offering network, IT services and applications through the Cloud.

Software Service: The application services and e-learning would from Software services. This business line will offer applications through the Cloud, primarily targeted at enterprise and international customers.

Enterprise Services

Enterprise services revenue primarily includes Network services and IT services. Network Services include revenues from connectivity services such as recurring revenues ,installation of the connectivity link, and, to a lesser extent, revenue from sale of hardware and software purchased from third party vendors and Voice Services viz., NLD (National Long Distance) and ILD (International Long Distance) services carrying voice traffic for carriers. Revenue is recognised based on the metered call units of voice traffic terminated on our network. Connectivity services include IP VPN services, Internet connectivity, and last mile connectivity (predominantly through wireless). IT Services includes web hosting revenues, primarily generated from co-location services and Managed services including infrastructure management services offered in overseas markets and System Integration services, security and consulting services. Sify, part of international offering, offers Network management services, Data center services, Security and information assurance services. Sify remotely manages the Information Technology infrastructure of global enterprises from India. The revenue from construction contracts are recognised based on the stage of completion of the contract with reference to the cost incurred till date to the total cost.

Commercial and consumer Retail Internet access services and Online Portal and content offerings

Internet access service revenues are generated from providing internet connectivity to our retail customers through public access and home access services which are primarily provided through broadband connectivity in arrangement with Cable Television Operators (CTOs). Our public access services with host of value added services are provided through franchised and Company-owned cybercafés, or e-ports . Additionally, we generate revenue by providing Internet Telephony services, allowing customers to make international telephone calls over the Internet. We also offer the premium broadband connection, branded Platinum to the SOHO market segment including domain names, e mail Ids, static IP.

Online portal services and content offerings revenues include advertising revenues from the various channels of our Internet portal, www.sify.com. We enter into contracts with customers to serve advertisements in the portal, and we are paid on the basis of impressions, click-through or leads.

Software services

Our software services offer application management services and e Learning services. As part of application management services we offer online assessment, document management services, web development and mailing solutions. e-learning services consists of structuring of contents, developing modules, delivery and training users in the modules developed. As these activities represents development of customised services, revenue is recognised based on percentage of completion method. Revenue in relation to time is measured as the agreed rate per unit of time multiplied by the units of time expended. The element of revenue related to materials is measured in accordance with the terms of the contract.

In Note 18 to the Unaudited Condensed Consolidated Interim Financial Statements included in this Report, we provide supplemental segment data, which provides separate revenue and operating income (loss) information for each of these business segments.

Goodwill is not amortised and is tested for impairment annually.

Operating Results*Three months ended September 30, 2011 compared to three months ended September 30, 2010*

Revenues. We recognized Rs.1,815 million (\$37.10 million) in revenues for the quarter ended September 30, 2011, as compared to Rs.1717 million (\$ 35.09 million) for the quarter ended September 30, 2010, representing an increase of Rs.98 million (\$2.02 million), or 5.7%. This is primarily driven by an increase in revenues of Rs 108 million (\$2.20 million) or 7.5% from our Enterprise Services and Rs 31 million (\$0.64 million) or 21.53 % from Software services. The revenue growth has been impacted by Rs.41 million (\$0.83 million) or 30.15 % decrease from our Commercial and Consumer services comprising of internet access services, online portals and content offerings.

Revenue from Enterprise Services has increased by Rs.108 million (\$2.20 million), or 7.5%, from Rs.1436 million for the quarter ended September 30, 2010 to Rs 1,544 million (\$31.56 million) for the quarter ended September 30, 2011 primarily due to increase of Rs.98 million (\$2.0 million) in Network services and increase of Rs.10 million (\$0.20 million) in IT services. Increase in Network services of Rs.98 million (\$2.0 million) is due to (i) the increase of Rs.20 million (\$0.41 million) from Connectivity services due to increase in number of links from 12984 in September 30, 2010 to 16,166 in September 30, 2011 (ii) the increase of Rs 76 million (\$ 1.55 million) revenue from NLD (National Long Distance) and ILD (International Long Distance) and (iii) the increase of Rs.2 million (\$0.04 million) in Hardware sales. The increase in NLD (National Long Distance) and ILD (International Long Distance) is on account of increase in volume by 97.8 million minutes contributing to an increase of Rs.69 million (\$1.41 million) and increase in revenues from VoIP services by Rs.7 million (\$0.14 million).

Increase in IT services of Rs.10 million (\$0.21 million) is due to (i) the increase of Rs.45 million (\$0.92 million) revenue from Hosting services on account of higher occupancy of datacenters from 57% in September 30, 2010 to 70% in September 30, 2011 (ii) the increase of Rs 34 million (\$0.70 million) from international managed services. These increases are partially offset by a decrease of Rs 68 million (\$1.40 million) in System Integration services. The reduction in System Integration is due to higher number of State Date centres in the previous period and also on account of lower hardware sales during the quarter ended September 30, 2011.

Revenue from Commercial and Consumer Services has decreased by Rs.41 million (\$0.83 million) due to decrease in revenues of (i) Broadband services to the extent of Rs.20 million (\$0.40) million or 26.5 %, due to loss of subscribers. (ii) e-Port service to the extent of Rs.23 million (\$0.47 million) or 76.8 % due to drop in operational e-Ports and active subscribers and (iii) decrease of Rs.2 million (\$0.04 million) or 81 % from voice revenue due to lower voice call minutes and is partially offset by an increase of Rs.3 million (\$0.06 million) from SMB and SOHO services.

Revenue from Software Services has increased by Rs.31 million (\$0.64 million) due to increase of Rs.46 million (\$ 0.95 million) from Application management services. The increase in Application management services is primarily on account of (i) increase in revenues of Rs.30 million (\$0.61 million) from online assessment (ii) increase in revenues of Rs.14 million (\$0.28 million) from Document management services. The increase is partially offset by (i) decrease in e- Learning revenues by Rs.11 million (\$0.22 million) and (ii) decrease in Hardware & software revenues by Rs.4 million (\$ 0.09 million).

Other income : Other income was Rs.0.22 million (\$0.004 million) for the quarter ended September 30, 2010, compared to Rs.20 million for the quarter ended September 30, 2011 representing a decrease of Rs.19.78 million (\$0.40 million) or 99%. The other income during the quarter ended September 30, 2010 mainly was derived from duty credit entitlements under the Served from India Scheme (issued by the Government of India) in respect of the foreign exchange earnings from export of services. Such benefit was not available during the quarter ended September 30, 2011 as the scheme was withdrawn by the Government of India.

Cost of goods sold and services rendered. The cost of goods sold and services rendered was Rs.1,060 million (\$ 21.66 million) for the quarter ended September 30, 2011 and Rs.1,054 million for the quarter ended September 30, 2010. Cost of goods sold for both the periods remained at the same level, with changes in few elements. These comprise of (i) a Rs.63 million (\$1.29 million) increase in IUC costs pertaining to ILD services (ii) Rs. 23 million (\$0.47 million) increase in Bandwidth costs due to increase in capacity (iii) a Rs.11 million (\$0.22 million) increase in associate costs of technology department, (iv) Rs.9.1 million (\$0.19 million) increase in direct resources costs in international business, (v) Rs.7 million (\$0.14 million) towards cost of application management services, (vi) Rs.3 million (\$0.06 million) increase in Revenue Share payable to TRAI and these increases have been offset by a decrease of (a) Rs.27 million (\$0.55 million) in revenue share paid to franchisees and cable television operators due to drop in broadband & e-Port usage revenue (b) Rs.87 million (\$1.78 million) in SI business due to change in mix and reduction in volume, and (c) Rs.10 million (\$0.20 million) towards cost of application services.

Selling, general and administrative expenses. Selling, general and administrative expenses were Rs.619 million (\$12.64 million) for the quarter ended September 30, 2011, compared to Rs.609 million for the quarter ended September 30, 2010, representing an increase of Rs.10 million (\$0.21 million), or 1.74 %. This increase is mainly on account of the decrease of Rs. 13.82 million (\$0.28 million) in personnel expenses, selling expenses, general and administrative costs and it is partially offset by an increase of operating expenses by Rs.29 million (\$0.60 million). The increase in operating expenses is on account of costs associated with our new data center facility at Airoli and increased in network expenditure on account of expansion.

Depreciation and Amortisation expenses. Depreciation and amortization expenses were Rs.171 million(\$ 3.51 million) for the quarter ended September 30, 2011, compared to Rs.173 million for the quarter ended September 30, 2010, representing an increase of Rs.2 million \$0.04 million, or 1.16%.

Net finance expense. The net finance expense was Rs 72 million (\$ 1.48 million) for the quarter ended September 30, 2011, compared to Rs.58 million for the quarter ended September 30, 2010, representing an increase of Rs.14 million (\$0.29 million), or 24.14%. The finance income was Rs.5 million (\$0.10 million) for the quarter ended September 30, 2011, compared to Rs.14 million for the quarter ended September 30, 2010, representing a decrease of Rs.9 million (\$0.18 million) due to decrease in fixed deposits. The finance expense was Rs. 77 million (\$1.58 million) for the quarter ended September 30, 2011, compared to Rs.72 million for the quarter ended September 30, 2010, representing an increase of Rs.5 million (\$ 0.10 million) or 6.49% due to hardening of interest rates on working capital loans.

Share of profit of investment in associate. The share of profit of investment in associate was Rs.19 million (\$ 0.38 million) for the quarter ended September 30, 2011, compared to Rs.23 million for the quarter ended September 30, 2010, representing a decrease of Rs.4 million (\$0.08 million) or 17.32%. Also refer to note 7 and note 23 to the notes to the unaudited condensed consolidated interim financial statements elsewhere in the report.

Six months period ended September 30, 2011 compared to Six months period ended September 30, 2010

Revenues. We recognized Rs.4,074 million (\$83.27 million) as revenues for the six months ended September 30, 2011, as compared to Rs.3,445 million for the half year ended September 30, 2010, representing an increase of Rs.629 million (\$12.86 million), or 18.26%. This is primarily driven by an increase in revenues of Rs 669 million (\$13.67 million) or 23.2% from our Enterprise Services and Rs 45 million (\$0.93 million) or 15.8 % from Software services. The revenue growth has been impacted by Rs 85 million (\$1.74 million) or 30.2 % decrease from our Commercial and Consumer services comprising of internet access services, online portals and content offerings.

Revenue from Enterprise Services has increased by Rs 669 million (\$13.67 million), or 23.25%, from Rs 2,878 million for six months ended September 30, 2010 to Rs 3,547 million (\$72.60 million) for six months ended September 30, 2011 primarily due to increase of Rs 158 million (\$3.23 million) in Network services and increase of Rs 511 million (\$10.44 million) in IT services.

Increase in Network services of Rs 158 million (\$3.23 million) is due to (i) increase of Rs.19 million (\$0.38 million) from Connectivity services due to increase in No of links from 12984 in September 30, 2010 to 16,166 in September 30, 2011 (ii) increase of Rs 144 million (\$ 2.94 million) revenue from NLD and ILD Services due to increase in volume by 29 million minutes contributing to an increase of Rs 131 million. and partially offset by decrease of Rs 4.12 million (\$0.08 million) in Hardware sales.

Increase in IT services of Rs 511 million (\$10.44 million) is due to (i) increase of Rs 486 million (\$9.92 million) revenue from System integration services (ii) increase of Rs 90 million (\$1.84 million) from hosting services on account of higher occupancy of datacenters from 57% in September 30, 2010 to 70% in September 30, 2011. The increase is partially offset by a decrease of Rs 65 million (\$ 1.33 million) in managed services. The increase in System Integration services is primarily on account of large deal concluded during the six months ended September 30, 2011 amounting to Rs.50 million (\$1.02 million) .

Revenue from Commercial and Consumer Services has decreased by Rs 85 million (\$1.73 million) primarily due to decrease of (i) revenues from Broadband service to the extent of Rs 38 million (\$0.77 million) or 25.1 %, due to loss of subscribers. (ii) revenues from e-Port service to the extent of Rs 47 million (\$0.96 million) or 73% due to drop in operational e-Ports and active subscribers (iii) Rs 5 million (\$0.09 million) or 81.8 % from voice revenue due to lower voice call minutes and is partially offset by an increase of Rs. 4 million (\$0.08 million) from the SMB and SOHO services.

Revenue from Software Services has increased by Rs 45 million (\$0.92 million) due to (i) Increase of Rs 67 million (\$ 1.37 million) from Application management services. The increase in Application management services is primarily on account of (i) increase in revenues by Rs 43 million (\$ 0.88 million) from online assessment (ii) increase in revenues by Rs 16 million (\$ 0.33 million) from Document management services. The increase is partially offset by decrease of Rs 16 million (\$0.33 million) in e Learning revenues.

Other income. Other income was Rs.2 million (\$0.03 million) for six months ended September 30, 2011, compared to Rs.39 million for six months ended September 30, 2010, representing an decrease of Rs.37 million (\$0.76 million), or 95 %. primarily on account of duty credit entitlement. The other income during the quarter ended September 30, 2011 mainly was derived from duty credit entitlements under the Served from India Scheme (issued by the Government of India) in respect of the foreign exchange earnings from export of services. Such benefit was not available during the six months ended September 30, 2011 as the scheme was withdrawn by Government of India.

Cost of goods sold and services rendered. The cost of goods sold and services rendered was Rs.2,617 million (\$ 53.48 million) for six months ended September 30, 2011 compared to Rs.2,128 million for six months ended September 30, 2010, representing an increase of Rs.489 million (\$10 million), or 2.30 %. This increase is due to (i) a Rs.312 million (\$ 6.38 million) increase in System Integration Services primarily due to servicing a large one time deal. (ii) Rs.122 million (\$2.50 million) increase in other direct costs on account of IUC costs pertaining to ILD services(iii) Increase in Band width costs by Rs.42 million (\$0.86 million) on account of increase in capacity (iv) Rs.26 million (\$.53 million) increase in Other direct costs (v) Rs.23 million (\$0.47 million) in associate costs of technology department, (vi) Rs.14 million (\$0.28 million) increase in direct cost of international business (vii) Increase of Rs.3 million (\$.06 million) in Revenue Share payable to TRAI. These increases have been partly offset by a decrease of (a) Rs.55 million (\$1.17 million) in the revenue share paid to franchisees and CTO operators due to reduction in usage revenue.

Selling, general and administrative expenses. Selling, general and administrative expenses were Rs.1,212 million (\$ 24.76 million) for six months ended September 30, 2011, compared to Rs.1,240 million for six months ended September 30, 2010, representing a decrease of Rs.46.8 million (\$0.96 million), This decrease is mainly on account of decrease in associate expenses, selling expenses, general and administrative costs. These decreases are partially offset by an increase of operating expenses of Rs. 67.02 million (\$ 1.37 million).

Depreciation, Amortisation and impairment expenses. Depreciation, amortization and impairment expenses were Rs.342 million (\$ 6.99 million) for six months ended September 30, 2011, compared to Rs.350 million for six months ended September 30, 2010, representing an increase of Rs.8 million (\$0.16 million), or 2.28 %.

Net finance expense. The net finance expense was Rs. 138 million (\$ 2.83 million) for six months ended September 30, 2011, compared to net finance expense of Rs.121 million for six months ended September 30, 2010, representing a increase of Rs. 17 million (\$0.35 million), or 14.05%. The finance income was Rs.8 million (\$0.15 million) for six months ended September 30, 2011, compared to Rs.21 million for six months ended September 30, 2010, representing a decrease of Rs.13 million (\$0.27 million) due to closure of fixed deposits. The finance expense was Rs. 146 million (\$2.98 million) for six months ended September 30, 2011, compared to Rs.141 million for the quarter ended September 30, 2010, representing an increase of Rs.5 million (\$0.10 million).

Share of profit of investment in associate. The share of profit of investment in associate was Rs.34 million (\$ 0.70 million) for six months ended September 30, 2011, compared to Rs.38 million for six months ended September 30, 2010, representing a decrease of Rs.4 million (\$0.08 million), or 10.52%. Also refer to note 7 and note 23 to the notes to the unaudited condensed consolidated interim financial statements elsewhere in this report.

Liquidity and Capital Resources

The following table summarizes our statement of cash flows for the periods presented:

Particulars	Six months ended		
	September 30, 2011	September 30, 2010	September 30, 2011 U.S Dollars
Loss after tax	(198,636)	(315,768)	(4,060)

As of September 30, 2011 our current assets exceeded current liabilities by Rs.519 million (\$ 10.61 million). Based on the projected cash flow, including cash from operations, available lines of credit, and the capital infusion from our promoter group, we believe we will have sufficient resources to meet capital expenditure needs and working capital requirements over the course of the next 12 months.

We intend to continue to focus on the reduction of our cash burn. Based upon our present business and funding plans, we believe that our cash and cash equivalents were Rs.327 million (\$ 6.69 million) as of September 30, 2011, including bank overdraft of Rs.221 million (\$4.51 million).

Our principal sources of liquidity are cash flow that we generate from our operations and borrowings from banks. Our external sources of credit include facilities sanctioned to us by Indian banks. We have working capital facilities in the form of cash credit and overdraft facilities of Rs.1,000 million (\$20.44 million) and the same has been utilized to the extent of Rs.429.95 million (\$8.79 million) as on September 30, 2011. Further, we were provided non-funded limits of Rs.1,350 million (\$27.59 million) (primarily in the form of bank guarantees and letters of credit) out of which Rs.64 million (\$1.31 million) remained unutilized as of September 30, 2011. We believe that our cash and cash equivalents, short-term investments, working capital lines and the proceeds from private placement to our promoter group are sufficient to meet our present capital expenditure and working capital requirements for the next 12 months. As previously disclosed, the private placement, consummated in October 2010, will provide up to Rs.400 crores (\$86 million) from the promoter group, which can be drawn down as needed by the Company. Of the above, the Company has cumulatively drawn Rs.2,000 million (\$40.87 million) as of September 30, 2011. However, our ongoing working capital requirements are significantly affected by the profitability of our operations and we continue to periodically evaluate existing and new sources of liquidity and financing.

We are taking steps to improve the cash position to meet our currently known requirements at least over the next twelve months. In the light of the highly dynamic nature of our business, however, we cannot assure you that our capital requirements and sources will not change significantly in the future.

Cash balances held were Rs.548 million (\$11.20 million) and Rs.744 million as of September 30, 2011 and September 30, 2010, respectively. These amounts include cash and cash equivalents and restricted cash.

Cash from operating activities for six months ended September 30, 2011 and 2010 was Rs.123 million (\$2.52 million) and Rs.284 million respectively. This is primarily due to increase in trade and other receivables by Rs.566 million (\$ 11.57 million) and Rs.251 million for the six months September 30, 2011 and 2010 due to large gestation projects and pending adjustment with payables, increase in other assets by Rs.57 million (\$ 1.16 million) for the six months period ended September 30, 2011 due to payment of rental deposits for new landing station and decrease of Rs.10 million for the six months September 30, 2010, increase in inventories by Rs.6 million (\$ 0.13 million) and Rs.4 million for the six months September 30, 2011 and 2010 respectively, increase in trade and other payables by Rs.341 million (\$ 6.96 million) and Rs.283 million for the six months September 30, 2011 and 2010 respectively due to pending adjustment with receivables, increase in deferred revenues by Rs.80 million (\$1.63 million) and Rs.62 million for the six months September 30, 2011 and 2010 due to increase order booking and increase in employee benefits by Rs.9 million (\$ 0.19 million) and Rs.12 million for the six months September 30, 2011 and 2010 respectively due to increase in salary base for employees.

Cash used in investing activities for the six months ended September 30, 2011 and 2010 was Rs.382 million (\$7.81 million) and Rs.183 million. These amounts were principally incurred for the establishment of a new data center, installation of new cable landing station and purchase of routers, modems, ports, servers and other capital equipment in connection with the expansion of our network of Rs.340 million (\$ 6.96 million) and Rs.149 million for the six months September 30, 2011 and 2010. Expenditure on intangibles increased by Rs.47 million (\$ 0.96 million) and Rs.72 million for the six months ended September 30, 2011 and 2010. The above cash outflows were partially off-set by finance income received amounting to Rs.5 million (\$ 0.10 million) and Rs.36 million for the six months September 30, 2011 and 2010 respectively.

Cash used in financing activities for six months ended September 30, 2011 was Rs.725 million (\$ 14.81 million) represented by share capital and share premium money received from promoter group amounting to Rs.1,000 million (\$ 20.44 million), proceeds received from exercise of stock options by employees amounting to Rs.14 million (\$ 0.28 million), repayment to banks to the extent of Rs.96 million (\$1.96 million) and finance lease liabilities to the extent of Rs.35 million (\$ 0.71 million) and payment of finance charges of Rs.158 million (\$3.24 million). The cash from financing activities for the six months ended September 30, 2009 was Rs.316 million represented by repayment to banks to the extent of Rs.142 million, payment of finance lease liabilities to the extent of Rs.23 million and payment of finance charges of Rs.151 million.

Income Tax Matters

We have a substantial business and capital loss being carry forward for financial reporting purposes. Under Indian Tax law, business loss carry forwards from a particular year may be used to offset taxable income over the next eight years and unabsorbed depreciation for an infinite number of years. The statutory corporate income tax rate and the surcharge thereon are subject to change in line with the changes announced in the Union Budget each year. For fiscal year 2010, the corporate Income Tax rate is 30%, subject to a surcharge of 10% (if the Company makes taxable profits greater than Rs.10 million) and education cess of 3%, resulting in an effective tax rate of 30.9% for companies who have taxable profits less than Rs.10 million and 33.99% for companies who have taxable profits greater than Rs.10 million. For fiscal year 2011, the corporate income tax rate is 30%, subject to a surcharge of 7.5% (if the Company makes taxable profits greater than Rs.10 million) and education cess of 3%, resulting in an effective tax rate of 30.9% for companies who have taxable profits less than Rs.10 million and 33.22% for companies who have taxable profits greater than Rs.10 million. Further in India, companies are subject to a Minimum Alternate Tax (MAT) of 18% on the book profits of the Company. Certain changes in the income tax rates were introduced in the union budget 2011-12 of the Government of India. The key changes included the reduction of the surcharge to 5% and the increase of MAT to 18.5% of book profits. We cannot assure you that the current income tax rate will remain unchanged in the future. We also cannot assure you that the surcharge will be in effect for a limited period of time or that additional surcharges will not be levied by the Government of India. Currently, dividend income is exempt from tax for shareholders. Domestic companies are liable to pay dividend distribution tax at the rate of 15% in addition to applicable surcharge and cess.

Off-Balance Sheet Arrangement

We have not entered into any off balance sheet arrangement other than contractual obligations such as operating lease arrangements disclosed below as defined by SEC final rule 67 (FR-67) Disclosures in Management's Discussion and Analysis about off balance sheet arrangements and aggregate contractual obligations.

Notes to the table above on Contractual obligations

a) Other liabilities amounting to Rs.173 million (\$3.54 million) primarily comprise of deposits received from franchisees. For such amounts, the extent of the amount and the timing of payment / cash settlement are not readily estimable or determinable, at present. Accordingly, we did not include these under contractual obligations.

b) Standby letter of credit and guarantees has not been included in the above mentioned table of contractual obligations.

c) In addition to the above noted contractual obligations, in accordance with IAS 19 *Employee Benefits*, the total accrued liability for defined benefit plans recognised as of September 30, 2011, was Rs.49 million (\$ 1 million) and disclosed under employee benefits .

Item 3. Quantitative and Qualitative Disclosures about Market Risk

General

Market risk is the risk of loss of future earnings, to fair values or to future cash flows that may result from a change in the price of a financial instrument. The value of a financial instrument may change as a result of changes in the interest rates, foreign currency exchange rates, commodity prices, equity prices and other market changes that affect market risk sensitive instruments. Market risk is attributable to all market risk sensitive financial instruments including investments, foreign currency receivables, payables and debt. Our exposure to market risk is a function of our investment and borrowing activities and our revenue generating activities in foreign currency. The objective of market risk management is to avoid excessive exposure of our earnings and equity to loss.

Please see Note 39 to the financial statements included in our Annual Report on Form 20-F for the year ended March 31, 2011.

Risk Management Procedures

We manage market risk through a corporate treasury department, which evaluates and exercises independent control over the entire process of market risk management. Our corporate treasury department recommends risk management objectives and policies which are approved by senior management and our Audit Committee. The activities of this department include management of cash resources, implementing hedging strategies for foreign currency exposures, borrowing strategies, and ensuring compliance with market risk limits and policies on a daily basis.

Recent Accounting Pronouncements

A number of new standards, amendments to standards and interpretations are not yet effective for the period ended September 30, 2011, and have not been applied in preparing these consolidated financial statements:

IFRS 9 Financial Instruments: In November 2009, the International Accounting Standards Board issued IFRS 9, Financial Instruments: Recognition and Measurement, to reduce the complexity of the current rules on financial instruments as mandated in IAS 39. The effective date for IFRS 9 is annual periods beginning on or after January 1, 2013 with early adoption permitted. IFRS 9 has fewer classification and measurement categories as compared to IAS 39 and has eliminated the categories of held to maturity, available for sale and loans and receivables. Further it eliminates the rule-based requirement of segregating embedded derivatives and tainting rules pertaining to held to maturity investments. For an investment in an equity instrument which is not held for trading, IFRS 9 permits an irrevocable election, on initial recognition, on an individual share-by-share basis, to present all fair value changes from the investment in other comprehensive income. No amount recognized in other comprehensive income would ever be reclassified to profit or loss. IFRS 9 was further amended in October 2010, and such amendment introduced requirements on accounting for financial liabilities. This amendment addresses the issue of volatility in the profit or loss due to changes in the fair value of an entity's own debt. It requires the entity, which chooses to measure a liability at fair value, to present the portion of the fair value change attributable to the entity's own credit risk in the other comprehensive income. The company is required to adopt IFRS 9 by accounting year commencing April 1, 2013. The company is currently evaluating the requirements of IFRS 9, and has not yet determined the impact on the consolidated financial statements.

IFRS 10, Consolidated Financial Statements, IFRS 11, Joint Arrangements and IFRS 12, Disclosure of Interests in Other Entities:

In May 2011, the International Accounting Standards Board issued IFRS 10, IFRS 11 and IFRS 12. The effective date for IFRS 10, IFRS 11 and IFRS 12 is annual periods beginning on or after January 1, 2013 with early adoption permitted.

IFRS 10 Consolidated Financial Statements builds on existing principles by identifying the concept of control as the determining factor in whether an entity should be included within the consolidated financial statements of the parent company. IFRS 10 replaces the consolidation requirements in SIC-12 Consolidation of Special Purpose Entities and IAS 27 Consolidated and Separate Financial Statements. The standard provides additional guidance for determining of control in cases of ambiguity for instance in case of franchisor franchisee relationship, de facto agent, silos and potential voting rights.

IFRS 11 Joint Arrangements determines the nature of an arrangement by focusing on the rights and obligations of the arrangement, rather than its legal form. IFRS 11 replaces IAS 31 Interests in Joint Ventures and SIC-13 Jointly-controlled Entities-Non-monetary Contributions by Venturers. IFRS 11 addresses only forms of joint arrangements (joint operations and joint ventures) where there is joint control whereas IAS 31 had identified three forms of joint ventures, namely jointly controlled operations, jointly controlled assets and jointly controlled entities. The standard addresses inconsistencies in the reporting of joint arrangements by requiring a single method to account for interests in jointly controlled entities, which is the equity method.

IFRS 12 Disclosure of Interests in Other Entities is a new and comprehensive standard on disclosure requirements for all forms of interests in other entities, including joint arrangements, associates, special purpose vehicles and other off balance sheet vehicles. One major requirement of IFRS 12 is that an entity needs to disclose the significant judgments and assumptions it has made in determining:

whether it has control, joint control or significant influence over another entity; and

the type of joint arrangement when the joint arrangement is structured through a separate vehicle.

IFRS 12 also expands the disclosure requirements for subsidiaries with non-controlling interest, joint arrangements and associates that are individually material. IFRS 12 introduces the term structured entity by replacing Special Purpose entities and requires enhanced disclosures by way of nature and extent of, and changes in, the risks associated with its interests in both its consolidated and unconsolidated structured entities.

The company is required to adopt IFRS 10, IFRS 11 and IFRS 12 effective April 1, 2013. The company is currently evaluating the requirements of IFRS 10, IFRS 11 and IFRS 12, and has not yet determined the impact on the consolidated financial statements.

IFRS 13 Fair Value Measurement: In May 2011, the International Accounting Standards Board issued IFRS 13, Fair Value Measurement to provide specific guidance on fair value measurement and requires enhanced disclosures for all assets and liabilities measured at fair value, and not restricted to financial assets and liabilities. The standard introduces a precise definition of fair value and a consistent measure for fair valuation across assets and liabilities, with a few specified exceptions. The effective date for IFRS 13 is annual periods beginning on or after January 1, 2013 with early adoption permitted. The company is required to adopt IFRS 13 by accounting year commencing April 1, 2013 and is currently evaluating the requirements of IFRS 13, and has not yet determined the impact on the consolidated financial statements.

IAS 1 (Amended) Presentation of Financial Statements: In June 2011, the International Accounting Standard Board published amendments to IAS 1 Presentation of Financial Statements. The amendments to IAS 1 Presentation of Financial Statements require companies preparing financial statements in accordance with IFRS to group items within other comprehensive income that may be reclassified to the profit or loss separately from those items which would not be recyclable in the profit or loss section of the income statement. It also requires the tax associated with items presented before tax to be shown separately for each of the two groups of other comprehensive income items (without changing the option to present items of other comprehensive income either before tax or net of tax).

The amendments also reaffirm existing requirements that items in other comprehensive income and profit or loss should be presented as either a single statement or two consecutive statements. This amendment is applicable to annual periods beginning on or after July 1, 2012, with early adoption permitted. The company is required to adopt IAS 1 (Amended) by accounting year commencing April 1, 2013. The company has evaluated the requirements of IAS 1 (Amended) and the company does not believe that the adoption of IAS 1 (Amended) will have a material effect on its consolidated financial statements.

IAS 19 (Amended) Employee Benefits: In June 2011, International Accounting Standards Board issued IAS 19 (Amended), Employee Benefits. The effective date for adoption of IAS 19(Amended) is annual periods beginning on or after January 1, 2013, though early adoption is permitted.

IAS 19 (Amended) has eliminated an option to defer the recognition of gains and losses through re-measurements and requires such gain or loss to be recognized through other comprehensive income in the year of occurrence to reduce volatility. The amended standard requires immediate recognition of effects of any plan amendments. Further it also requires assets in profit or loss to be restricted to government bond yields or corporate bond yields, considered for valuation of Projected Benefit Obligation, irrespective of actual portfolio allocations. The actual return

from the portfolio in excess of or less than such yields is recognized through other comprehensive income.

These amendments enhance the disclosure requirements for defined benefit plans by requiring information about the characteristics of defined benefit plans and risks that entities are exposed to through participation in those plans.

The amendments need to be adopted retrospectively. The company is required to adopt IAS 19 (Amended) by accounting year commencing April 1, 2013. The company is currently evaluating the requirements of IAS 19 (Amended) and has not yet determined the impact on the consolidated financial statements.

Critical accounting policies

The accounting policies applied by the group in these Unaudited Condensed Consolidated Interim Financial Statements are the same as those applied by the Group in its Consolidated Financial Statements as at and for the year ended March 31, 2011.

Item 4. Controls and Procedures

Disclosure Controls and Procedures

As of September 30, 2011, our management, with the participation of our chief executive officer and chief financial officer, has carried out an evaluation of the effectiveness of our disclosure controls and procedures. The term "disclosure controls and procedures" means controls and other procedures that are designed to ensure that information required to be disclosed in the reports we file or submit under the Exchange Act is recorded, processed, summarized and reported, within the time periods specified in the rules and forms of the Securities and Exchange Commission. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed by us in our reports that we file or submit under the Securities Exchange Act of 1934, as amended, is accumulated and communicated to management, including our chief executive officer and chief financial officer, as appropriate to allow timely decisions regarding our required disclosure. In designing and evaluating our disclosure controls and procedures, management recognizes that any controls and procedures, no matter how well conceived and operated, can only provide reasonable assurance that the objectives of the disclosure controls and procedures are met.

Based on their evaluation, our Chief Executive Officer and Chief Financial Officer have concluded that, as of September 30, 2011, our disclosure controls and procedures were effective to provide reasonable assurance that the information required to be disclosed in filings and submissions under the Exchange Act is recorded, processed, summarized, and reported within the time periods specified by the SEC's rules and forms, and that material information related to us is accumulated and communicated to management, including the Chief Executive Officer and Chief Financial Officer, as appropriate to allow timely decisions about required disclosure.

Changes in internal control over financial reporting

During the quarter ended September 30, 2011, there was no changes in our internal control over financial reporting that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.
