PROSPECTUS SUPPLEMENT

(To Prospectus dated January 31, 2013)

Cullen/Frost Bankers, Inc.

6,000,000 Shares

5.375% Non-Cumulative Perpetual Preferred Stock, Series A

We are offering 6,000,000 shares of our 5.375% non-cumulative perpetual preferred stock, Series A, par value \$0.01, with a liquidation preference of \$25 per share (the Preferred Stock).

We will pay dividends on the Preferred Stock, when, as, and if declared by our board of directors or a duly authorized committee of the board and to the extent that we have lawfully available funds to pay dividends. If declared, dividends will accrue and be payable on the liquidation preference amount, on a non-cumulative basis, at a rate of 5.375% per annum, quarterly, in arrears, on March 15, June 15, September 15, and December 15 of each year, beginning on June 15, 2013, from and including the date of original issuance. The first dividend payment, if declared, will be made on June 15, 2013, in the expected amount of \$0.45 per share of the Preferred Stock, which reflects the time period from the expected date of original issuance to but excluding June 15, 2013.

Dividends on the Preferred Stock will not be cumulative. If for any reason our board of directors or a duly authorized committee of the board does not declare a dividend on the Preferred Stock for any dividend period, such dividend will not accrue or be payable, and we will have no obligation to pay dividends for such dividend period, whether or not dividends on the Preferred Stock are declared for any future dividend period. Dividends on the Preferred Stock will not be declared, paid or set aside for payment to the extent such act would cause us to fail to comply with applicable laws and regulations, including applicable capital adequacy guidelines.

We may redeem the Preferred Stock (i) in whole or in part, from time to time, on any dividend payment date on or after March 15, 2018, or (ii) in whole but not in part, at any time within 90 days following a regulatory capital treatment event (as defined herein), in either case, at a redemption price of \$25 per share, plus any declared and unpaid dividends for prior dividend periods and accrued but unpaid dividends (whether or not declared) for the then-current dividend period prior to but excluding the redemption date. Under current regulatory rules and regulations, we would need regulatory approval to redeem the Preferred Stock.

We have applied to list the Preferred Stock on the New York Stock Exchange (the NYSE) under the symbol CFR PrA . If the application is approved, trading of the Preferred Stock on the NYSE is expected to commence within 30 days after the original issuance date of the Preferred Stock. Our common stock is listed on the NYSE under the symbol CFR.

The shares of Preferred Stock will not be savings accounts, deposits or other obligations of any of our bank or non-bank subsidiaries, will not be insured or guaranteed by the Federal Deposit Insurance Corporation (FDIC) or any other governmental agency or instrumentality and are subject to investment risks.

Investing in the Preferred Stock involves risks. See Risk Factors beginning on page 21 of our Annual Report on Form 10-K for the year ended December 31, 2012, which is incorporated herein by reference, as well as the additional risk factors included in this prospectus supplement beginning on page S-11, to read about factors you should consider before buying the Preferred Stock.

SUMMARY OF THE OFFERING

The following summary contains basic information about the Preferred Stock offered hereby and is not intended to be complete. It does not contain all the information that is important to you. For a more complete understanding of the Preferred Stock, you should read the section of this prospectus supplement entitled "Description of the Preferred Stock" beginning on page S-19.

Securities offered

6,000,000 shares of our 5.375% Non-Cumulative Perpetual Preferred Stock, Series A, par value \$0.01, with a liquidation preference of \$25 per share.

Further issuances

We reserve the right to re-open this series of Preferred Stock and issue additional shares of the Preferred Stock either through public or private sales at any time and from time to time without notice to or consent of holders of the Preferred Stock; provided that any such additional shares of Preferred Stock are not treated as "disqualified preferred stock" within the meaning of Section 1059(f)(2) of the Internal Revenue Code and such additional shares of Preferred Stock are otherwise treated as fungible with the Preferred Stock offered hereby for U.S. federal income tax purposes. The additional shares would form a single series with the Preferred Stock offered by this prospectus supplement.

Dividends

Dividends on the Preferred Stock will be payable quarterly in arrears on the dividend payment dates specified below, when, as and if declared by our board of directors or a duly authorized committee of the board and to the extent that we have lawfully available funds to pay dividends, from and including the date of original issuance, at a rate of 5.375% per annum.

Dividends on the Preferred Stock will not be cumulative. If for any reason our board of directors or a duly authorized committee of the board does not declare a dividend on the Preferred Stock for any dividend period, such dividend will not accumulate or be payable and will cease to accrue, and we will have no obligation to pay dividends for such dividend period, whether or not dividends on the Preferred Stock are declared for any future dividend period. A "dividend period" is the period from, and including, a dividend payment date to, but excluding, the next dividend payment date, except that the initial dividend period will begin on and include the original issuance date of the Preferred Stock.

Dividends on the Preferred Stock will be payable on March 15, June 15, September 15, and December 15 of each year, beginning on June 15, 2013 (each, a *dividend payment date*) when, as and if declared by our board of directors or a duly authorized committee of the board.

No maturity

In the event any dividend payment date is not a business day (as defined below under *Description of the Preferred Stock Dividends*), the appropriate dividend will be paid on the first business day following that day without adjustment.

The Preferred Stock will be perpetual and will have no maturity date.

Redemption

We may redeem the Preferred Stock (i) in whole or in part, from time to time, on any dividend payment date on or after March 15, 2018 or (ii) in whole but not in part, at any time within 90 days following a regulatory capital treatment event (as defined herein), in either case, at a redemption price equal to \$25 per share, plus any declared and unpaid dividends for prior dividend periods and accrued but unpaid dividends (whether or not declared) for the then-current dividend period prior to but excluding the redemption date.

Our consolidated ratio of earnings to fixed charges for each of the periods indicated is as follows:

		2011	2010	2009	
Ratio of Earnings to Fixed Charges*

Including interest on deposits	10.15	7.16	5.46	3.54	3.01

- * During these periods, Cullen/Frost had no outstanding shares of preferred stock. Therefore, the ratio of earnings to combined fixed charges and preferred stock dividends for the years ended December 31, 2012, 2011, 2010, 2009 and 2008 is not different from the ratio of earnings to fixed charges for those periods.

The ratio of earnings to fixed charges is calculated in accordance with SEC requirements and computed by dividing earnings by the aggregate of fixed charges. For purposes of computing these ratios, earnings consist of net income before extraordinary items plus applicable income taxes and fixed charges. Fixed charges, excluding interest on deposits, consist of interest expense on borrowings and securities sold under repurchase agreements.

RISK FACTORS

An investment in the Preferred Stock involves certain risks. You should carefully consider the risks described below and the risk factors included in our Annual Report on Form 10-K for the year ended December 31, 2012, as well as the other information included or incorporated by reference in this prospectus supplement and the accompanying prospectus, before making an investment decision. Our business, financial condition or results of operations could be materially adversely affected by any of these risks. The trading price of our Preferred Stock could decline due to any of these risks, and you may lose all or part of your investment. This prospectus supplement also contains forward-looking statements that involve risks and uncertainties. Our actual results could differ materially from those anticipated in these forward-looking statements as a result of certain factors, including the risks faced by us described below and elsewhere included or incorporated by reference in this prospectus supplement and the accompanying prospectus.

Risks Relating to the Preferred Stock

The Preferred Stock will be an equity security and will be subordinate to our existing and future indebtedness.

The shares of Preferred Stock will be equity interests in Cullen/Frost and will not constitute indebtedness. This means that the Preferred Stock will rank junior to all existing and future indebtedness and other non-equity claims on Cullen/Frost with respect to assets available to satisfy claims on Cullen/Frost, including claims in the event of our liquidation. As of December 31, 2012, Cullen/Frost's indebtedness was approximately \$223.7 million, and Cullen/Frost may incur additional indebtedness in the future. Cullen/Frost's existing and future indebtedness may restrict payment of dividends on the Preferred Stock. Further, the Preferred Stock will place no restrictions on our business or operations or on our ability to incur indebtedness or engage in any transactions, subject only to the limited voting rights referred to below under "Risk Factors." Holders of the Preferred Stock will have limited voting rights.

Our results of operations and our ability to fund dividend payments on the Preferred Stock and all payments on our other obligations depend upon the results of operations of our subsidiaries.

We are a holding company that conducts substantially all of our operations through Frost Bank and its subsidiaries. As a result, our ability to make dividend payments on the Preferred Stock will depend primarily upon the receipt of dividends and other distributions from Frost Bank.

Various federal and/or state laws and regulations limit the amount of dividends that Frost Bank and certain non-bank subsidiaries may pay to Cullen/Frost. Under the foregoing dividend restrictions, and while maintaining its "well-capitalized" status, at December 31, 2012, Frost Bank could pay aggregate dividends of up to \$306.5 million to Cullen/Frost without obtaining prior regulatory approval. This amount is not necessarily indicative of amounts that may be paid or available to be paid in future periods. In the event Frost Bank is unable to pay dividends to Cullen/Frost, Cullen/Frost may not be able to service debt, pay obligations or pay dividends on the Preferred Stock and the Corporation's common stock. The inability to receive dividends from Frost Bank could have a material adverse effect on the Corporation's business, financial condition and results of operations.

In addition, our right to participate in any distribution of assets of our subsidiaries upon its liquidation or otherwise, and thus your ability as a holder of Preferred Stock to benefit indirectly from such distribution, will be subject to the prior claims of depositors and other creditors of our subsidiaries, except to the extent that any of our claims as a creditor of our subsidiaries may be recognized. As a result, the Preferred Stock will

Edgar Filing: CULLEN/FROST BANKERS, INC. - Form 424B2

effectively be subordinated to all existing and future liabilities and obligations of our subsidiaries.

As of December 31, 2012, Frost Bank's total deposits and borrowings were approximately \$19.5 billion and \$561.1 million, respectively.

Table of Contents

Our ability to declare and pay dividends is subject to statutory and regulatory restrictions.

We are subject to statutory and regulatory limitations on our ability to declare and pay dividends on the Preferred Stock. In particular, while the impact of many of its provisions are not yet known, the Dodd-Frank Wall Street Reform and Consumer Protection Act of 2010 (the *Dodd-Frank Act*) requires federal banking agencies to establish more stringent risk-based capital guidelines and leverage limits applicable to banks and bank holding companies, and especially those institutions with consolidated assets equal to or greater than \$50 billion. In June 2012, the Federal Reserve issued three proposed rules (the *Proposed Rules*) that would substantially revise its current capital rules and implement the Basel Committee on Banking Supervision's December 2010 regulatory capital reforms, known as Basel III. The Proposed Rules set forth the proposed criteria for qualifying additional Tier 1 capital instruments consistent with Basel III, including the requirement that any dividends on such instruments only be paid out of the banking organization's net income and retained earnings. Such provisions could adversely affect our ability to pay dividends or may result in additional limitations on our ability to pay dividends on shares of the Preferred Stock.

In addition, Cullen/Frost and Frost Bank are subject to other regulatory policies and requirements relating to the payment of dividends, including requirements to maintain adequate capital above regulatory minimums. The Federal Reserve is authorized to determine under certain circumstances relating to the financial condition of a bank holding company or a bank that the payment of dividends would be an unsafe or unsound practice and to prohibit payment thereof. The Federal Reserve has stated that paying dividends that deplete a bank's capital base to an inadequate level would be an unsafe and unsound banking practice and that banking organizations should generally pay dividends only out of current operating earnings. In addition, in the current financial and economic environment, the Federal Reserve has indicated that bank holding companies should carefully review their dividend policy and has discouraged payment ratios that are at maximum allowable levels unless both asset quality and capital are very strong.

These limitations are in addition to state law requirements restricting the payment of dividends that would cause us to be insolvent or not to satisfy certain requirements that we maintain adequate surplus.

The Preferred Stock may be junior in rights and preferences to our future preferred stock.

We may in the future create and issue additional shares of preferred stock ranking senior to the Preferred Stock as to dividends and/or distribution of assets upon our liquidation, dissolution or winding up with the requisite consent of the holders of the Preferred Stock and other parity stock entitled to vote thereon. The terms of any of our future preferred stock which by its terms is expressly senior to the Preferred Stock may restrict dividend payments on the Preferred Stock. This could result in dividends on the Preferred Stock not being paid.

Dividends on the Preferred Stock will be discretionary and non-cumulative.

Dividends on the Preferred Stock will be discretionary and non-cumulative. Consequently, if our board of directors or a duly authorized committee of the board does not authorize and declare a dividend for any dividend period prior to the related dividend payment date, holders of the Preferred Stock will not be entitled to receive a dividend for that dividend period, and the unpaid dividend will cease to accrue and be payable. We will have no obligation to pay dividends accrued for a dividend period after the dividend payment date for that period if our board of directors or a duly authorized committee of the board has not declared a dividend before the related dividend payment date, whether or not dividends on the Preferred Stock or any other series of our preferred stock or our common stock are declared for any future dividend period.

Edgar Filing: CULLEN/FROST BANKERS, INC. - Form 424B2

In addition, unlike indebtedness, where principal and interest customarily are payable on specified due dates, in the case of preferred stock like the Preferred Stock, (1) dividends will be payable only if declared by our board of directors or a duly authorized committee of the board and (2) dividends will not accumulate if they are not declared. As a bank holding company, our ability to declare and pay dividends is also dependent on certain federal regulatory considerations.

The Preferred Stock may be redeemed at our option, and you may not be able to reinvest the redemption price you receive in a similar security.

Subject to the approval of the Federal Reserve (if then required), at our option, we may redeem the Preferred Stock at any time, either in whole or in part, on any dividend payment date on or after March 15, 2018. We may also redeem the Preferred Stock at our option, subject to the approval of the Federal Reserve (if then required), at any time, in whole, but not in part, within 90 days following the occurrence of a regulatory capital treatment event, such as a proposed change in law or regulation after the initial issuance date with respect to whether the Preferred Stock qualifies as a Tier 1 capital instrument. It is possible that the Preferred Stock may not satisfy the criteria for qualifying additional Tier 1 capital instruments consistent with Basel III as set forth in any final rules adopted by the Federal Reserve. As a result, in addition to other circumstances that may constitute a regulatory capital treatment event, if the Federal Reserve revises and replaces its current capital rules with final risk-based and leverage capital requirements implementing Basel III, there could be a regulatory capital treatment event whereby we would have the right, subject to prior approval of the Federal Reserve, to redeem the Preferred Stock in accordance with its terms prior to March 15, 2018 at a redemption price equal to \$25 per share plus any declared and unpaid dividends for prior dividend periods and accrued but unpaid dividends (whether or not declared) for the then-current dividend period prior to but excluding the redemption date.

If we redeem the Preferred Stock for any reason, you may not be able to reinvest the redemption price you receive in a similar security. See Description of the Preferred Stock Redemption for more information on redemption of the Preferred Stock.

Holders should not expect us to redeem the Preferred Stock on the date it becomes redeemable or on any particular date after it becomes redeemable.

The Preferred Stock will be a perpetual equity security. This means that it will have no maturity or mandatory redemption date and will not be redeemable at the option of the holders. The Preferred Stock may be redeemed by us at our option, either in whole or in part, on any dividend payment date on or after March 15, 2018 or in whole, but not in part, at any time within 90 days of the occurrence of a regulatory capital treatment event as described herein. It is possible that the Preferred Stock may not satisfy the criteria for qualifying additional Tier 1 capital instruments consistent with Basel III as set forth in any final rules adopted by the Federal Reserve. As a result, in addition to other circumstances that may constitute a regulatory capital treatment event, if the Federal Reserve revises and replaces its current capital rules with the Proposed Rules, there could be a regulatory capital treatment event whereby we would have the right, subject to prior approval of the Federal Reserve, to redeem the Preferred Stock in accordance with its terms prior to March 15, 2018 at a redemption price equal to \$25 per share plus any declared and unpaid dividends for prior dividend periods and accrued but unpaid dividends (whether or not declared) for the then-current dividend period prior to but excluding the redemption date. Any decision we may make at any time to propose a redemption of the Preferred Stock will depend upon, among other things, our evaluation of our capital position, the composition of our shareholders' equity and general market conditions at that time.

Our right to redeem the Preferred Stock will also be subject to limitations. Under the Federal Reserve's current risk-based capital guidelines applicable to bank holding companies, any redemption of the Preferred Stock will be subject to prior approval by the Federal Reserve. We cannot assure you that the Federal Reserve will approve any redemption of the Preferred Stock that we may propose. There also can be no assurance that, if we propose to redeem the Preferred Stock without replacing it with Tier 1 capital that is not a restricted core capital element, the Federal Reserve will authorize redemption. We understand that the factors that the Federal Reserve will consider in evaluating a proposed redemption, or a request that we be permitted to redeem the Preferred Stock without replacing it with Tier 1 capital that is not a restricted core capital element, include its evaluation of the overall level and quality of our capital components, considered in light of our risk exposures, earnings and growth strategy, and other supervisory considerations, although the Federal Reserve may change these factors at any time. These limitations are in addition to state law requirements that we not effect any redemption that would cause us to be insolvent or not to satisfy certain requirements that we maintain adequate surplus.

Table of Contents

If we are deferring payments on our outstanding junior subordinated notes or are in default under the indentures governing those securities, we will be prohibited from making distributions on or redeeming the Preferred Stock.

The terms of our outstanding junior subordinated notes prohibit us from declaring or paying any dividends or distributions on our preferred stock, including the Preferred Stock, or redeeming, purchasing, acquiring or making a liquidation payment on the Preferred Stock, if an event of default under the indentures governing those junior subordinated notes has occurred and is continuing or at any time when we have deferred payment of interest on those junior subordinated notes.

Offerings of debt, which would be senior to our Preferred Stock upon liquidation, may adversely affect the market price of our Preferred Stock.

We may attempt to increase our capital resources or, if our or Frost Bank's regulatory capital ratios fall below the required minimums, we or Frost Bank could be forced to raise additional capital by making additional offerings of debt or equity securities, including senior or subordinated notes, preferred stock and common stock. Upon liquidation, holders of our debt securities and lenders with respect to other borrowings will receive distributions of our available assets prior to the holders of our Preferred Stock. This may cause the market price of the Preferred Stock to decline.

Holders of the Preferred Stock will have limited voting rights.

Holders of the Preferred Stock will have no voting rights with respect to matters that generally require the approval of voting shareholders. Holders of the Preferred Stock will have voting rights only with respect to authorizing or increasing the authorization of senior stock, certain changes in the terms of the Preferred Stock, certain dividend non-payments and as otherwise required by applicable law. See Description of the Preferred Stock Voting Rights.

You may find it difficult to sell your Preferred Stock.

The Preferred Stock will have no established trading market. We have applied to list the Preferred Stock on the NYSE under the symbol CFR PrA . However, there is no guarantee that we will be able to list the Preferred Stock. If approved, we expect trading of the Preferred Stock on the NYSE to begin within 30 days after the original issuance date. Even if the Preferred Stock is listed, there may be little or no secondary market for the Preferred Stock. Even if a secondary market for the Preferred Stock develops, it may not provide significant liquidity, and transaction costs in any secondary market could be high. As a result, the difference between bid and asked prices in any secondary market could be substantial.

General market conditions and unpredictable factors could adversely affect market prices for the Preferred Stock.

Future trading prices of the Preferred Stock will depend on many factors, including:

Edgar Filing: CULLEN/FROST BANKERS, INC. - Form 424B2

whether we declare or fail to declare dividends on the Preferred Stock from time to time;

our operating performance, financial condition and prospects, or the operating performance, financial condition and prospects of our competitors;

economic, financial, geopolitical, regulatory or judicial events affecting us or the financial markets generally; and

Accordingly, the Preferred Stock may trade at a discount to the price per share paid for such shares even if a secondary market for the Preferred Stock develops.

REGULATORY MATTERS

Cullen/Frost is a legal entity separate and distinct from Frost Bank and its other subsidiaries. As a financial holding company and a bank holding company, Cullen/Frost is regulated under the Bank Holding Company Act of 1956, as amended (*BHC Act*), and its subsidiaries are subject to inspection, examination and supervision by the Federal Reserve. The BHC Act provides generally for umbrella regulation of financial holding companies such as Cullen/Frost by the Federal Reserve, and for functional regulation of banking activities by bank regulators, securities activities by securities regulators, and insurance activities by insurance regulators. The Federal Reserve examines us periodically and prepares reports for the consideration of our board of directors on any operating deficiencies that they may identify. While the Federal Reserve historically has expected bank holding companies to act as a source of strength to their bank subsidiaries, effective July 21, 2011, we are required by the Dodd-Frank Act to act as a source of strength for Frost Bank and for any other depository institution subsidiary of ours in the future.

Cullen/Frost is also under the jurisdiction of the SEC and is subject to the disclosure and regulatory requirements of the Securities Act of 1933, as amended, and the Exchange Act, as administered by the SEC. Cullen/Frost's common stock is listed on the NYSE under the trading symbol *CFR* , and we are subject to the rules of the NYSE for listed companies.

On June 22, 2012, Frost Bank, the sole banking subsidiary of Cullen/Frost, became a Texas state chartered bank and a member of the Federal Reserve System. Accordingly, the Texas Department of Banking and the Federal Reserve are now the primary regulators of Frost Bank, and Frost Bank is no longer regulated by the OCC.

Many of the Corporation's non-bank subsidiaries also are subject to regulation by the Federal Reserve and other federal and state agencies.

There are numerous governmental requirements and regulations that affect our business activities. For a discussion of the material elements of the regulatory framework applicable to bank holding companies and their subsidiaries and specific information relevant to Cullen/Frost, please refer to our Annual Report on Form 10-K for the year ended December 31, 2012, incorporated by reference in this prospectus supplement, and any subsequent reports we file with the SEC that are incorporated by reference in this prospectus supplement. This regulatory framework is intended primarily for the protection of depositors and the federal deposit insurance funds and not for the protection of security holders, such as holders of the Preferred Stock. As a result of this regulatory framework, our earnings are affected by actions of the Federal Reserve, the FDIC and the Texas Department of Banking, among other factors. A change in applicable statutes, regulations or regulatory policy may have a material adverse effect on our business and the Preferred Stock.

DESCRIPTION OF THE PREFERRED STOCK

This summary contains a description of the material terms of the Preferred Stock, and it is qualified in its entirety by reference to the pertinent sections of our restated certificate of formation, including the certificate of designations creating the Preferred Stock, and the applicable provisions of the Texas Business Organizations Code and federal law governing bank holding companies.

General

Our restated certificate of formation authorizes us to issue 10,000,000 shares of preferred stock in one or more series and authorizes our board of directors or a duly authorized committee of the board to fix the number of shares and determine the rights, preferences, privileges and restrictions of any such series of preferred stock. As of the date of this prospectus supplement, we have no issued and outstanding series of preferred stock.

The Preferred Stock represents a single series of our authorized preferred stock. We are offering 6,000,000 shares of the Preferred Stock in the aggregate by this prospectus supplement. Upon issuance of the Preferred Stock and receipt of payment therefor, the shares of the Preferred Stock will be validly issued, fully paid and nonassessable.

We reserve the right to re-open this series of Preferred Stock and issue additional shares of the Preferred Stock either through public or private sales at any time and from time to time without notice to or the consent of holders of the Preferred Stock; provided that any such additional shares of Preferred Stock are not treated as disqualified preferred stock within the meaning of Section 1059(f)(2) of the Internal Revenue Code and such additional shares of Preferred Stock are otherwise treated as fungible with the Preferred Stock offered hereby for U.S. federal income tax purposes. The additional shares would form a single series with the Preferred Stock offered by this prospectus supplement.

The Preferred Stock will not be convertible into, or exchangeable for, shares of any other class or series of our stock or other securities and will not be subject to any sinking fund or other obligation to redeem or repurchase. The Preferred Stock represents non-withdrawable capital, will not be an account of an insurable type, and will not be insured or guaranteed by the FDIC or any other governmental agency or instrumentality.

Ranking

The Preferred Stock will rank, as to the payment of dividends and/or distribution of assets upon our liquidation, dissolution, or winding-up:

senior to our common stock and any other class or series of shares we may issue in the future ranking junior to the Preferred Stock as to payment of dividends and/or distribution of assets upon our liquidation, dissolution or winding-up;

equally with any series of preferred stock we may issue in the future ranking equal to the Preferred Stock as to payment of dividends and/or distribution of assets upon our liquidation, dissolution or winding-up; and

junior to any series of preferred stock we may issue in the future ranking senior to the Preferred Stock as to payment of dividends and/or distribution of assets upon our liquidation, dissolution or winding-up, and to all of our existing and future debt obligations.

Dividends

Holders of the Preferred Stock will be entitled to receive, when, as and if declared by our board of directors or a duly authorized committee of the board out of funds legally available therefor, non-cumulative cash dividends on the liquidation preference amount of \$25 per share from and including the date of original issuance,

S-19

Table of Contents

at a rate of 5.375% per annum. Dividends on the Preferred Stock will be payable quarterly in arrears on March 15, June 15, September 15, and December 15 of each year, beginning on June 15, 2013, with respect to the quarterly dividend period (or portion thereof) ending on the day preceding such respective dividend payment date. Dividends will be payable to holders of record at 5:00 p.m., New York City time, on the 15th calendar day before such dividend payment date or such other record date not more than 60 nor less than 10 days preceding such dividend payment date fixed for that purpose by our board of directors or a duly authorized committee of the board in advance of payment of each particular dividend.

A dividend period for the Preferred Stock is the period from and including a dividend payment date to but excluding the next dividend payment date, except that the initial dividend period of the Preferred Stock issued as part of this offering will commence on and include the date we first issue shares of Preferred Stock. The dividend payable per share of Preferred Stock shall be computed on the basis of a 360-day year consisting of twelve 30-day months. Dollar amounts resulting from that calculation will be rounded to the nearest cent, with one-half cent being rounded upward. If a dividend payment date is not a business day, the appropriate dividend will be paid on the first business day following that day without adjustment. A *business day* means each weekday on which banking institutions in New York, New York are not authorized or obligated by law, regulation or executive order to close.

Dividends on the Preferred Stock will not be cumulative. If dividends are not declared on the Preferred Stock for payment on any dividend payment date, those dividends will not accumulate or be payable and will cease to accrue, and we will have no obligation to pay a dividend for that dividend period on the applicable dividend payment date or at any time in the future, whether or not our board of directors or a duly authorized committee of the board declares a dividend on the Preferred Stock or any other series of our preferred stock or common stock for any future dividend period.

Dividends on the Preferred Stock will not be declared, paid or set aside for payment to the extent such act would cause us to fail to comply with applicable laws and regulations, including applicable capital adequacy guidelines.

Dividends on any shares of Preferred Stock called for redemption will cease to accrue on the redemption date for such shares or upon such earlier date as is specified below under Redemption Procedures.

During any dividend period, so long as any share of Preferred Stock remains outstanding and except as otherwise provided in the next succeeding paragraph, (i) no dividend may be paid, declared or set apart for any payment on and no distribution shall be made on any Dividend Junior Stock (as defined below) (other than a dividend payable solely in stock that ranks junior to the Preferred Stock with respect to the payment of dividends and the distribution of assets upon our liquidation, dissolution or winding-up) and (ii) no shares of Dividend Junior Stock or Dividend Parity Stock (as defined below) shall be purchased, redeemed or otherwise acquired for consideration by us, directly or indirectly, unless full dividends on all outstanding shares of the Preferred Stock for the most recently completed quarterly dividend period have been declared and paid in full (or have been declared and a sum sufficient for the payment thereof has been set apart for such payment) and any prior redemption requirements with respect to shares of the Preferred Stock have been complied with. As used in this prospectus supplement,

Dividend Junior Stock refers to our common stock and any other class or series of our capital stock over which the Preferred Stock has preference or priority in the payment of current dividends. As used in this prospectus supplement, *Dividend Parity Stock* means any other class or series of our capital stock that ranks on a parity with the Preferred Stock in the payment of current dividends.

The limitations on dividends and other distributions described in the paragraph above shall not apply to:

Edgar Filing: CULLEN/FROST BANKERS, INC. - Form 424B2

redemptions, purchases or other acquisitions of shares of Dividend Junior Stock in connection with the administration of any employee benefit plan in the ordinary course of business;

purchases or other acquisitions by any broker-dealer subsidiary of Cullen/Frost solely for the purpose of market making, stabilization or customer facilitation transactions in Dividend Junior Stock or Dividend Parity Stock in the ordinary course of its business;

S-20

Table of Contents

purchases by any broker-dealer subsidiary of Cullen/Frost of our capital stock for resale pursuant to an offering by us of such capital stock underwritten by such broker-dealer subsidiary;

any dividends or distributions of rights or Dividend Junior Stock in connection with a shareholders' rights plan or any redemption or repurchase of rights pursuant to any shareholders' rights plan;

the acquisition by us or any of our subsidiaries of record ownership in Dividend Junior Stock or Dividend Parity Stock for the beneficial ownership of any other persons (other than for the beneficial ownership by us or any of our subsidiaries), including as trustees or custodians; and

the exchange or conversion of (i) Dividend Junior Stock for or into other Dividend Junior Stock or (ii) Dividend Parity Stock for or into other Dividend Parity Stock (with the same or lesser aggregate liquidation preference) or Dividend Junior Stock, and, in each case, the payment of cash solely in lieu of fractional shares.

When dividends are not paid in full upon the shares of Preferred Stock and any Dividend Parity Stock, all dividends declared upon shares of the Preferred Stock and all Dividend Parity Stock shall be shared ratably by the holders of Preferred Stock and any Dividend Parity Stock, based on the ratio between the then-current dividends due on shares of Preferred Stock and (i) in the case of any series of non-cumulative Dividend Parity Stock, the aggregate of the current and unpaid dividends due on such series of preferred stock and (ii) in the case of any series of cumulative Dividend Parity Stock, the aggregate of the current and unpaid dividends and any accumulated and unpaid dividends due on such series of preferred stock.

To the extent a dividend period with respect to any Dividend Parity Stock coincides with more than one dividend period with respect to the Preferred Stock, for purposes of the preceding three paragraphs the board of directors shall treat such dividend period as two or more consecutive dividend periods, none of which coincides with more than one dividend period with respect to the Preferred Stock or in any other manner that it deems to be fair and equitable.

Subject to the restrictions described above, and not otherwise, dividends (payable in cash, stock, or otherwise), as may be determined by our board of directors or a duly authorized committee of the board, may be declared and paid on our common stock and other stock ranking equally with or junior to the Preferred Stock from time to time out of any assets legally available for such payment in amounts permitted by applicable regulatory authorities, and the holders of the Preferred Stock will not be entitled to participate in those dividends.

Redemption

The Preferred Stock will not be subject to any mandatory redemption, sinking fund, or other similar provisions. The holders of Preferred Stock will not have the right to require the redemption or repurchase of the Preferred Stock.

Optional Redemption

We may redeem shares of the Preferred Stock on any dividend payment date on or after March 15, 2018, in whole or in part, from time to time, at a redemption price equal to \$25 per share, plus any declared and unpaid dividends on the shares of Preferred Stock called for redemption for

Edgar Filing: CULLEN/FROST BANKERS, INC. - Form 424B2

prior dividend periods and accrued but unpaid dividends (whether or not declared) for the then-current dividend period prior to but excluding the redemption date. Redemption of the Preferred Stock is subject to our receipt of any required prior approvals from the Federal Reserve and to the satisfaction of any conditions set forth in the capital or other guidelines or regulations of the Federal Reserve applicable to the redemption of the Preferred Stock.

Redemption Following a Regulatory Capital Treatment Event

We may redeem shares of the Preferred Stock at our option at any time within 90 days following a regulatory capital treatment event, in whole but not in part, at a price equal to \$25 per share, plus any declared and unpaid dividends for prior dividend periods and accrued but unpaid dividends (whether or not declared) for the then-current dividend period prior to but excluding the redemption date. Redemption of the Preferred Stock is subject to our receipt of any required prior approvals from the Federal Reserve and to the satisfaction of any conditions set forth in the capital or other guidelines or regulations of the Federal Reserve applicable to the redemption of the Preferred Stock.

A regulatory capital treatment event means our good faith determination that, as a result of (i) any amendment to, or change in, the laws, regulations or guidelines of the United States or any political subdivision of the United States, or any agency or instrumentality thereof that is enacted or becomes effective after the initial issuance of any share of Preferred Stock; (ii) any proposed change in those laws, regulations or guidelines that is announced or becomes effective after the initial issuance of any share of Preferred Stock; or (iii) any official administrative decision or judicial decision or administrative action or other official pronouncement interpreting or applying those laws, regulations or guidelines that is announced after the initial issuance of any share of Preferred Stock, there is more than an insubstantial risk that we will not be entitled to treat the full liquidation preference amount of \$25 per share of the Preferred Stock then outstanding as Tier 1 capital (or its equivalent) for purposes of the capital adequacy guidelines of the Federal Reserve (or, as and if applicable, the capital adequacy guidelines or regulations of any successor appropriate federal banking agency) as then in effect and applicable, for as long as any share of Preferred Stock is outstanding. Appropriate federal banking agency means the appropriate federal banking agency with respect to us as that term is defined in Section 3(q) of the Federal Deposit Insurance Act or any successor provision.

Procedures

If we redeem shares of the Preferred Stock, we will provide notice by first class mail (or, if the Preferred Stock is issued or held in book-entry form through DTC or another facility, in accordance with the procedures of such facility) to the holders of record of the shares of Preferred Stock to be redeemed. Such notice will be provided not less than 30 days and not more than 60 days prior to the date fixed for the redemption. Each notice of redemption will include a statement setting forth:

the redemption date;

the number of shares of the Preferred Stock to be redeemed and, if less than all the shares held by the holder are to be redeemed, the number of shares of the Preferred Stock to be redeemed from the holder;

the redemption price; and

the place or places where the certificates representing those shares are to be surrendered for payment of the redemption price.

In case of any redemption of only part of the shares of Preferred Stock at the time outstanding, the shares to be redeemed shall be selected either *pro rata* or by lot or in such other manner as our board of directors or a duly authorized committee of the board may determine to be fair and equitable. Subject to the provisions hereof, our board of directors or a duly authorized committee of the board shall have full power and authority to prescribe the terms and conditions upon which shares of Preferred Stock shall be redeemed from time to time.

Edgar Filing: CULLEN/FROST BANKERS, INC. - Form 424B2

If notice of redemption has been duly given and if on or before the redemption date specified in the notice we have set aside all funds necessary for the redemption, in trust with a bank or trust company appointed and acting as our transfer agent, for the *pro rata* benefit of the holders of record of the shares called for redemption then, notwithstanding that any certificate for any share called for redemption has not been surrendered for cancellation, on and after the redemption date dividends shall cease to accrue on all shares so called for redemption, all such shares called for redemption shall no longer be deemed outstanding and all rights with

S-22

respect to such shares shall cease and terminate on such redemption date, except the right of the holders thereof to receive the amount payable on such redemption from the funds set aside in trust, without interest. Any funds unclaimed at the end of three years from the redemption date shall, to the extent permitted by law, be released to Cullen/Frost, after which time the holders of the shares so called for redemption may look only to Cullen/Frost for payment of the redemption price of such shares.

Liquidation Rights

In the event we liquidate, dissolve or wind-up our business and affairs, either voluntarily or involuntarily, holders of the Preferred Stock will be entitled to receive liquidating distributions of \$25 per share, together with an amount equal to all dividends (if any) that have been declared on the Preferred Stock but not paid prior to such date of payment, before we make any distribution of assets to the holders of our common stock or any other class or series of shares ranking junior to the Preferred Stock with respect to the distribution of assets. If we fail to pay in full all amounts payable, including declared but unpaid dividends, with respect to the Preferred Stock and any stock having the same rank as the Preferred Stock with respect to the distribution of assets, the holders of the Preferred Stock and that other stock will share in any distribution of assets in proportion to the respective aggregate liquidation preferences to which they are entitled including an amount equal to any declared but unpaid dividends (and, in the case of any holder of stock on which dividends accrue on a cumulative basis, an amount equal to any unpaid, accrued, cumulative dividends, whether or not declared, as applicable). After the holders of the Preferred Stock and any stock having the same rank as the Preferred Stock are paid in full, they will have no right or claim to any of our remaining assets.

Neither the sale, lease, exchange or transfer (for cash, shares of stock, securities or other consideration) of all or any part of our property or business nor a merger or consolidation by us with or into any other entity will be considered a dissolution, liquidation or winding-up of our business or affairs.

Voting Rights

The Preferred Stock will have no voting rights, except as provided below or as otherwise specifically required by Texas law. On any matter in which holders of Preferred Stock are entitled to vote, including when acting by written consent, each holder of Preferred Stock will have one vote per share, except as to votes upon a Nonpayment Event (as defined below) in which case the Preferred Stock will have voting rights in proportion to its liquidation preference.

Right to Elect Two Directors upon a Nonpayment Event

Whenever dividends payable on the shares of Preferred Stock (whether or not declared) have not been paid in an aggregate amount equal to full dividends for six or more quarterly dividend periods, whether or not consecutive (a *Nonpayment Event*), the authorized number of our directors will automatically be increased by two. The holders of the Preferred Stock will have the right, together with holders of any other series of preferred stock on which similar voting rights have been conferred and are exercisable with respect to the matter (i.e., on which dividends likewise have not been paid) (*Voting Parity Stock*), voting together as a class in proportion to their respective liquidation preferences, by a plurality of the votes cast, to elect two directors, which we refer to as *Preferred Stock Directors*, to fill such newly created directorships. Our board of directors shall at no time include more than two such Preferred Stock Directors, including all directors that the holders of any series of Voting Parity Stock are entitled to elect pursuant to voting rights.

Edgar Filing: CULLEN/FROST BANKERS, INC. - Form 424B2

In the event that the holders of Preferred Stock and any Voting Parity Stock shall be entitled to vote for the election of Preferred Stock Directors following a Nonpayment Event, such directors shall be initially elected at a special meeting called at the request of record holders owning shares representing at least 20% of the combined liquidation preference of all shares of Preferred Stock and each series of Voting Parity Stock then outstanding, voting together as a single class in proportion to their respective liquidation preferences (unless the request for a

S-23

Table of Contents

special meeting is received less than 90 days before the date fixed for our next annual or special meeting of our shareholders, in which event such election shall be held only at such next annual or special meeting of shareholders), and subsequently at each annual meeting of our shareholders. Any request to call a special meeting for the initial election of Preferred Stock Directors after a Nonpayment Event must be made by written notice, signed by the requisite holders of Preferred Stock and/or Voting Parity Stock, and delivered to our Corporate Secretary in person, by first class mail or in any other manner permitted by our certificate of formation or bylaws or by applicable law. If our Secretary fails to call a special meeting for the election of Preferred Stock Directors within 20 days of receiving proper notice, any holder of Preferred Stock may call such a meeting at our expense solely for the election of Preferred Stock Directors. The Preferred Stock Directors elected at any such special meeting will hold office until the next annual meeting of our shareholders if such office shall not have been previously terminated as below provided.

Any Preferred Stock Director may be removed at any time without cause by the holders of record of shares of Preferred Stock and Voting Parity Stock, representing at least a majority of the combined liquidation preference of the Preferred Stock and each series of Voting Parity Stock then outstanding, when they have the voting rights described above (voting together as a single class in proportion to their respective liquidation preferences). If any vacancy occurs among the Preferred Stock Directors, a successor will be elected by the then-remaining Preferred Stock Director or, if no Preferred Stock Director remains in office, by a plurality of the votes cast by the holders of the outstanding shares of Preferred Stock and Voting Parity Stock, when they have the voting rights described above (voting together as a single class in proportion to their respective liquidation preferences). The Preferred Stock Directors will be entitled to one vote per director on any matter that shall come before our board of directors for a vote.

When dividends have been paid in full on the Preferred Stock for at least four consecutive quarterly dividend periods, then the right of the holders of Preferred Stock to elect Preferred Stock Directors shall terminate (but will revert upon the occurrence of any future Nonpayment Event), and, if and when any rights of the holders of Preferred Stock and Voting Parity Stock to elect Preferred Stock Directors have terminated, the terms of office of all Preferred Stock Directors will immediately terminate; the number of directors constituting our board of directors will automatically be reduced accordingly.

If the holders of any class or series of preferred stock are or become entitled to vote for the election of directors, such class or series may be deemed a class of voting securities for federal bank regulatory purposes. In such case, it is possible that the acquisition or retention of shares, particularly where the result will be to entitle the holder to cast more than 5% of the votes with respect such class or series, may require such holder to obtain some form of federal bank regulatory approval or clearance.

Other Voting Rights

So long as any shares of Preferred Stock are outstanding, the vote or consent of the holders of at least 66 2/3% of the then-outstanding shares of Preferred Stock, voting separately as a single class, shall be necessary for effecting or validating:

any amendment, alteration or repeal of any provision of our certificate of formation (including the certificate of designations creating the Preferred Stock), or bylaws that would significantly and adversely affect the designations, preferences, limitations or relative rights of the Preferred Stock (provided that any amendment to authorize or create, or to increase the authorized amount of (x) any class or series of stock that does not rank senior to the Preferred Stock with respect to the payment of dividends and/or the distribution of assets upon our liquidation, dissolution or winding-up or (y) any securities (other than our capital stock) convertible into any class or series of stock that does not rank senior to the Preferred Stock with respect to either the payment of dividends or the distribution of assets upon our liquidation, dissolution or winding-up shall not be deemed to significantly and adversely affect the designations, preferences, limitations or relative rights of the Preferred Stock);

Table of Contents

any amendment or alteration of our certificate of formation to authorize or create, or increase the authorized amount of, any shares of any class or series or any securities convertible into shares of any class or series of our capital stock ranking senior to the Preferred Stock with respect to the payment of dividends and/or the distribution of assets upon our liquidation, dissolution or winding-up; or

any consummation of a binding share exchange or reclassification involving the Preferred Stock, or of a merger or consolidation of Cullen/Frost with or into another corporation or other entity, unless (x) the shares of Preferred Stock remain outstanding or, in the case of any such merger or consolidation with respect to which Cullen/Frost is not the surviving corporation, are converted into or exchanged for preference securities of the surviving corporation or other entity or of an entity controlling such surviving corporation or other entity that is an entity organized and existing under the laws of the United States, any state thereof or the District of Columbia and (y) the shares of Preferred Stock remaining outstanding or such new preference securities, as the case may be, have such rights, preferences, privileges and voting powers, and limitations and restrictions thereof, as are not materially less favorable to the holders thereof than the rights, preferences, privileges and voting powers of the Preferred Stock.

The foregoing provisions will not apply if, at or prior to the time when any such vote or consent would otherwise be required, all outstanding shares of Preferred Stock have been redeemed or have been called for redemption upon proper notice, and sufficient funds have been set aside for such redemption.

Preemptive and Conversion Rights

The holders of the Preferred Stock do not have any preemptive rights. The Preferred Stock is not convertible into or exchangeable for property or shares of any other series or class of our capital stock.

Listing

We have applied to list the Preferred Stock on the NYSE under the symbol **CFR PrA** . If the application is approved, trading of the Preferred Stock on the NYSE is expected to commence within 30 days after the original issuance date of the Preferred Stock.

Transfer Agent, Paying Agent and Registrar

BOOK-ENTRY PROCEDURES AND SETTLEMENT

We will issue the Preferred Stock under a book-entry system in the form of one or more global securities. We will register the Preferred Stock in the name of Cede & Co., as a nominee for DTC, or such other name as may be requested by an authorized representative of DTC. The global securities will be deposited with DTC.

Following the issuance of the Preferred Stock in book-entry only form, DTC will credit the accounts of its participants with the Preferred Stock upon our instructions. DTC or its nominee will thus be the only registered holder of the global securities representing the Preferred Stock.

Global securities may be transferred, in whole and not in part, only to another nominee of DTC or to a successor of DTC or its nominee. Beneficial interests in the global securities may be held through the Euroclear System, or Euroclear, and Clearstream Banking, S.A., or Clearstream, each as indirect participants in DTC. Transfers of beneficial interests in the global securities will be subject to the applicable rules and procedures of DTC and its direct and indirect participants, including, if applicable, those of Euroclear and Clearstream, which may change from time to time. DTC has advised us as follows: it is a limited-purpose trust company organized under the New York Banking Law, a banking organization within the meaning of the New York Banking Law, a member of the Federal Reserve System, a clearing corporation within the meaning of the New York Uniform Commercial Code, and a clearing agency registered pursuant to the provisions of Section 17A of the Exchange Act. DTC holds securities that its participants deposit with it. DTC also facilitates the post-trade settlement among participants of sales and other securities transactions in deposited securities through electronic computerized book entry transfers and pledges between participants' accounts, thereby eliminating the need for physical movement of securities certificates.

Direct participants in DTC's system include both U.S. and non-U.S. securities brokers and dealers, banks, trust companies, clearing corporations, and certain other organizations. Access to DTC's system also is available to others such as both U.S. and non-U.S. securities brokers and dealers, banks, trust companies and clearing corporations that clear through or maintain a custodial relationship with a direct participant, either directly or indirectly, which we collectively call indirect participants. Persons that are not participants may beneficially own securities held by or on behalf of DTC only through the participants or the indirect participants. The ownership interests in, and transfers of ownership interests in, each security held by or on behalf of DTC are recorded on the records of the participants and the indirect participants. The rules applicable to DTC and its participants are on file with the SEC.

DTC has also advised us that, upon the issuance of the Preferred Stock, it will credit, on its book-entry registration and transfer system, the Preferred Stock evidenced thereby to the designated accounts of participants. Ownership of beneficial interests in the global securities will be limited to participants or persons that may hold interests through participants. Ownership of beneficial interests in the global securities will be shown on, and the transfer of those ownership interests may be effected only through, records maintained by DTC (with respect to participants) and the records of participants and indirect participants (with respect to other owners of beneficial interests in the global securities).

Investors in the global securities that are participants may hold their interests therein directly through DTC. Investors in the global securities that are not participants may hold their interests therein indirectly through organizations (including Euroclear and Clearstream) that are participants in such system. Euroclear and Clearstream will hold interests in the global securities on behalf of their participants through customers' securities accounts in their respective names on the books of their respective depositories. All interests in a global security, including those held through Euroclear or Clearstream, may be subject to the procedures and requirements of DTC. Those interests held through Euroclear or Clearstream may also be subject to the procedures and requirements of such systems.

Edgar Filing: CULLEN/FROST BANKERS, INC. - Form 424B2

The laws of some states require that certain purchasers of securities take physical delivery of those securities in definitive form. These laws may impair the ability of holders to transfer beneficial interests in the global

S-26

Table of Contents

securities to certain purchasers. Because DTC can act only on behalf of the participants, which in turn act on behalf of the indirect participants, the ability of a person having beneficial interests in a global security to pledge such interests to persons that do not participate in the DTC system, or otherwise take actions in respect of such interests, may be affected by the lack of a physical certificate evidencing such interests.

Payment of dividends, if any, distributions upon liquidation or other distributions with respect to the Preferred Stock that are registered in the name of or held by DTC or its nominee will be payable to DTC or its nominee, as the case may be, in its capacity as registered holder of the global securities.

We have been advised by DTC that its current practice, upon receipt of any payment of dividends, distributions upon liquidation or other distributions with respect to global securities such as those that will represent the Preferred Stock, is to credit participants' accounts with payments on the payment date, unless DTC has reason to believe it will not receive payments on such payment date. Each relevant participant is credited with an amount proportionate to its beneficial ownership of an interest in the relevant security as shown on the records of DTC. Payments by participants and indirect participants to owners of beneficial interests in the global securities held through such participants and indirect participants will be governed by standing instructions and customary practices, as is now the case with securities held for the accounts of customers in bearer form or registered in street name, and will be the responsibility of such participants or indirect participants, and will not be the responsibility of us nor any agent of us. Neither we nor any agent will be liable for any delay by DTC or by any participant or indirect participant in identifying the beneficial owners of the global securities, and we and any such agent may conclusively rely on and will be protected in relying on instructions from DTC or its nominee for all purposes.

Crossmarket transfers between the participants in DTC, on the one hand, and Euroclear or Clearstream participants, on the other hand, will be effected through DTC in accordance with DTC's rules on behalf of Euroclear or Clearstream, as the case may be, by its depositary; however, such cross-market transactions will require delivery of instructions to Euroclear or Clearstream, as the case may be, by the counterparty in such system in accordance with the rules and procedures and within the established deadlines (Brussels time) of such system. Euroclear or Clearstream, as the case may be, will, if the transaction meets its settlement requirements, deliver instructions to its respective depositary to take action to effect final settlement on its behalf by delivering or receiving interests in the relevant global securities in DTC, and making or receiving payment in accordance with normal procedures for same-day funds settlement applicable to DTC. Euroclear participants and Clearstream participants may not deliver instructions directly to the depositories for Euroclear or Clearstream. DTC has advised us that it will take any action permitted to be taken by a holder of global securities only at the direction of one or more participants to whose account DTC has credited the interests in the global securities and only in respect of such portion of the aggregate amount of the global securities as to which such participant or participants has or have given such direction.

Although DTC, Euroclear and Clearstream have agreed to the foregoing procedures to facilitate transfers of interests in the global securities among participants in DTC, Euroclear and Clearstream, they are under no obligation to perform or to continue to perform such procedures, and may discontinue such procedures at any time. Neither we nor any agent of us will have any responsibility for the performance by DTC, Euroclear or Clearstream or their respective participants or indirect participants of their respective obligations under the rules and procedures governing their operations.

The information in this section, including any description of the operations and procedures of DTC, Euroclear and Clearstream, has been provided solely as a matter of convenience. We do not take any responsibility for the accuracy of this information, and this information is not intended to serve as a representation, warranty or contract modification of any kind. The operations and procedures of DTC, Euroclear and Clearstream are solely within the control of such settlement systems and are subject to changes by them. We urge investors to contact such systems or their participants directly to discuss these matters.

If a partnership (or any other entity treated as a partnership for United States federal income tax purposes) holds the Preferred Stock, the United States federal income tax treatment of a partner will generally depend on the status of the partner and the tax treatment of the partnership. A partner in a partnership holding the Preferred Stock should consult its own tax advisor with regard to the United States federal income tax treatment of an investment in the Preferred Stock.

Please consult your own tax advisor concerning the consequences of purchasing, owning and disposing of the Preferred Stock in your particular circumstances under the Internal Revenue Code and the laws of any other taxing jurisdiction.

United States Holders

This subsection describes the tax consequences to a United States holder. You are a United States holder if you are a beneficial owner of a share of Preferred Stock and you are, for United States federal income tax purposes:

an individual citizen or resident of the United States;

a domestic corporation (or any other entity treated as a domestic corporation for United States federal income tax purposes);

S-28

an estate whose income is subject to United States federal income tax regardless of its source; or

a trust if (1) a United States court can exercise primary supervision over the trust's administration and one or more United States persons are authorized to control all substantial decisions of the trust or (2) it has a valid election in effect under applicable United States Treasury Department regulations to be treated as a United States person.

If you are not a United States holder, this subsection does not apply to you and you should refer to **United States Alien Holders** below.

Distributions on Preferred Stock

In general. Distributions with respect to our Preferred Stock will constitute dividends to the extent made out of our current or accumulated earnings and profits, as determined under United States federal income tax principles. If a distribution exceeds our current and accumulated earnings and profits, the excess will be treated as a non-taxable return of capital to the extent of your tax basis in our Preferred Stock and thereafter as capital gain from the sale or exchange of such Preferred Stock. If you are a corporation, dividends received by you will be eligible for a dividends-received deduction generally equal to 70% of the amount of the distribution if you meet certain holding period and other applicable requirements. If you are a non-corporate United States holder, dividends on the Preferred Stock should constitute qualified dividend income that will be taxable to you at the preferential rates applicable to long-term capital gains provided that you meet certain holding period and other applicable requirements. You should consult your own tax advisor regarding the availability of the reduced dividend tax rate in light of your particular circumstances.

Extraordinary Dividends. Dividends that exceed certain thresholds in relation to your tax basis in the Preferred Stock could be characterized as an extraordinary dividend under the Internal Revenue Code. If you are a corporation, you have held the stock for two years or less before the dividend announcement date and you receive an extraordinary dividend, you will generally be required to reduce your tax basis in your stock with respect to which such dividend was made by the non-taxed portion of such dividend. If the amount of the reduction exceeds your tax basis in such stock, the excess is treated as taxable gain. If you are a non-corporate United States holder and you receive an extraordinary dividend that constitutes qualified dividend income (as discussed above), you will generally be required to treat any losses on the sale of our Preferred Stock as long-term capital loss to the extent of the extraordinary dividends you receive that qualify for the special rates. The deductibility of capital losses is subject to limitations.

Sale or Exchange of Preferred Stock Other Than by Redemption

If you sell or otherwise dispose of your Preferred Stock (other than by redemption), you will generally recognize capital gain or loss equal to the difference between the amount realized upon the disposition and your adjusted tax basis of the Preferred Stock. Capital gain of a non-corporate United States holder is generally taxed at preferential rates where the holder has a holding period greater than one year. The deductibility of capital losses is subject to limitations.

Redemption of Preferred Stock

If we redeem your Preferred Stock, it generally would be a taxable event. You would be treated as if you had sold your Preferred Stock if the redemption:

results in a complete termination of your stock interest in us;

is substantially disproportionate with respect to you; or

is not essentially equivalent to a dividend with respect to you.

S-29

Table of Contents

In determining whether any of these tests has been met, shares of stock considered to be owned by you by reason of certain constructive ownership rules set forth in Section 318 of the Internal Revenue Code, as well as shares actually owned, must be taken into account under certain circumstances.

If we redeem your Preferred Stock in a redemption that meets one of the tests described above, you generally would recognize taxable gain or loss equal to the sum of the amount of cash and fair market value of property (other than stock of us or a successor to us) received by you less your tax basis in the Preferred Stock redeemed. This gain or loss would be long-term capital gain or capital loss if you have held the Preferred Stock for more than one year.

If a redemption does not meet any of the tests described above, you generally would be taxed on the cash and fair market value of the property you receive as a dividend to the extent paid out of our current and accumulated earnings and profits. Any amount in excess of our current or accumulated earnings and profits would first reduce your tax basis in the Preferred Stock and thereafter would be treated as capital gain. If a redemption of the Preferred Stock is treated as a distribution that is taxable as a dividend, you should consult with your own tax advisor regarding the allocation of your basis between the redeemed and remaining Preferred Stock.

Medicare Tax

For taxable years beginning after December 31, 2012, a United States holder that is an individual or estate, or a trust that does not fall into a special class of trusts that is exempt from such tax, will be subject to a 3.8% tax on the lesser of (1) the United States holder's net investment income (or undistributed net investment income in the case of estates and trusts) for the relevant taxable year and (2) the excess of the United States holder's modified adjusted gross income for the taxable year over a certain threshold (which in the case of individuals will be between \$125,000 and \$250,000, depending on the individual's circumstances). A holder's net investment income will generally include its dividend income and its net gains from the disposition of Preferred Stock, unless such dividend income or net gains are derived in the ordinary course of the conduct of a trade or business (other than a trade or business that consists of certain passive or trading activities). If you are a United States holder that is an individual, estate or trust, you are urged to consult your own tax advisor regarding the applicability of this Medicare tax to your income and gains in respect of your investment in the Preferred Stock.

United States Alien Holders

This section summarizes the material United States federal income tax consequences of the purchase, ownership and disposition of Preferred Stock by a United States alien holder. You are a United States alien holder if you are a beneficial owner of a share of Preferred Stock and you are, for United States federal income tax purposes:

a nonresident alien individual;

a foreign corporation; or

an estate or trust that in either case is not subject to United States federal income tax on a net income basis on income or gain from Preferred Stock.

Table of Contents

Distributions on Preferred Stock

Except as described below, if you are a United States alien holder of Preferred Stock, dividends paid to you are subject to withholding of United States federal income tax at a 30% rate or at a lower rate if you are eligible for the benefits of an income tax treaty that provides for a lower rate. Even if you are eligible for a lower treaty rate, we and other payors will generally be required to withhold at a 30% rate (rather than the lower treaty rate) on dividend payments to you, unless you have properly furnished to us or another payor:

a valid Internal Revenue Service Form W-8BEN or an acceptable substitute form upon which you certify, under penalties of perjury, your status as a person who is not a United States person and your entitlement to the lower treaty rate with respect to such payments; or

in the case of payments made outside the United States to an offshore account (generally, an account maintained by you at an office or branch of a bank or other financial institution at any location outside the United States), other documentary evidence establishing your entitlement to the lower treaty rate in accordance with United States Treasury Department regulations.

If you are eligible for a reduced rate of United States withholding tax under a tax treaty, you may obtain a refund of any amounts withheld in excess of that rate by timely filing a refund claim with the United States Internal Revenue Service.

If dividends paid to you are effectively connected with your conduct of a trade or business within the United States, and, if required by a tax treaty, the dividends are attributable to a permanent establishment that you maintain in the United States, we and other payors generally are not required to withhold tax from the dividends, provided that you have properly furnished to us or another payor a valid Internal Revenue Service Form W-8ECI or an acceptable substitute form upon which you certify, under penalties of perjury, that:

you are not a United States person; and

the dividends are effectively connected with your conduct of a trade or business within the United States and are includible in your gross income.

Effectively connected dividends are taxed at rates applicable to United States citizens, resident aliens and domestic United States corporations.

If you are a corporate United States alien holder, effectively connected dividends that you receive may, under certain circumstances, be subject to an additional branch profits tax at a 30% rate or at a lower rate if you are eligible for the benefits of an income tax treaty that provides for a lower rate.

Gain on Disposition of Preferred Stock

Edgar Filing: CULLEN/FROST BANKERS, INC. - Form 424B2

If you are a United States alien holder, you generally will not be subject to United States federal income tax on gain that you recognize on a disposition of Preferred Stock unless:

the gain is effectively connected with your conduct of a trade or business in the United States, and the gain is attributable to a permanent establishment that you maintain in the United States, if that is required by an applicable income tax treaty as a condition for subjecting you to United States taxation on a net income basis;

you are an individual, you are present in the United States for 183 or more days in the taxable year of the disposition and certain other conditions exist; or

we are or have been a United States real property holding corporation for United States federal income tax purposes and certain other conditions are met.

If you are a United States alien holder described in the first bullet point immediately above you will be subject to tax on the net gain derived from the disposition under regular graduated United States federal income

tax rates. If you are a corporate United States alien holder, effectively connected gains that you recognize may also, under certain circumstances, be subject to an additional branch profits tax at a 30% rate or at a lower rate if you are eligible for the benefits of an income tax treaty that provides for a lower rate. If you are an individual United States alien holder described in the second bullet point immediately above you will be subject to a flat 30% tax on the gain derived from the disposition, which may be offset by United States source capital losses, even though you are not considered a resident of the United States.

We have not been, are not and do not anticipate becoming a United States real property holding corporation for United States federal income tax purposes.

Withholdable Payments to Foreign Financial Entities and Other Foreign Entities

Under the Hiring Incentives to Restore Employment Act of 2010, a 30% withholding tax would be imposed on certain payments that are made after December 31, 2012 to certain foreign financial institutions, investment funds and other non-United States persons that fail to comply with information reporting requirements in respect of their direct and indirect United States shareholders and/or United States accountholders. Such payments would include United States-source dividends and the gross proceeds from the sale or other disposition of stock that can produce United States-source dividends. You could be affected by this withholding if you are subject to the information reporting requirements and fail to comply with them or if you hold common stock through another person (e.g., a foreign bank or broker) that is subject to withholding because it fails to comply with these requirements (even if you would not otherwise have been subject to withholding). Under final regulations released by the U.S. Treasury Department on January 17, 2013, withholding would not apply to payments of dividends before January 1, 2014, and to payments of gross proceeds from a sale or other disposition of Preferred Stock before January 1, 2017.

Backup Withholding and Information Reporting

In general, if you are a non-corporate United States holder, dividend payments, or other taxable distributions, made on your Preferred Stock, as well as the payment of the proceeds from the sale or redemption of your Preferred Stock that are made within the United States will be subject to information reporting requirements. Additionally, backup withholding will generally apply to such payments if you are a non-corporate United States holder and you:

fail to provide an accurate taxpayer identification number;

are notified by the United States Internal Revenue Service that you have failed to report all interest or dividends required to be shown on your United States federal income tax returns; or

in certain circumstances, fail to comply with applicable certification requirements.

If you are a United States alien holder, we and other payors are required to report payments of dividends on Internal Revenue Service Form 1042-S even if the payments are exempt from withholding. You are otherwise generally exempt from backup withholding and information reporting requirements with respect to:

Edgar Filing: CULLEN/FROST BANKERS, INC. - Form 424B2

dividend payments; and

the payment of the proceeds from the sale of Preferred Stock effected at a United States office of a broker;

as long as the income associated with such payments is otherwise exempt from United States federal income tax, and:

the payor or broker does not have actual knowledge or reason to know that you are a United States person and you have furnished to the payor or broker:

a valid Internal Revenue Service Form W-8BEN or an acceptable substitute form upon which you certify, under penalties of perjury, that you are a non-United States person, or

S-32

Table of Contents

other documentation upon which it may rely to treat the payments as made to a non-United States person that is, for United States federal income tax purposes, the beneficial owner of the payments in accordance with United States Treasury Department regulations, or

you otherwise establish an exemption.

If you fail to establish an exemption and the broker does not possess adequate documentation of your status as a non-United States person, the payments may be subject to information reporting and backup withholding. However, backup withholding will not apply with respect to payments made to an offshore account maintained by you unless the broker has actual knowledge that you are a United States person.

Payment of the proceeds from the sale of Preferred Stock effected at a foreign office of a broker generally will not be subject to information reporting or backup withholding. However, a sale of Preferred Stock that is effected at a foreign office of a broker will be subject to information reporting and backup withholding if:

the proceeds are transferred to an account maintained by you in the United States;

the payment of proceeds or the confirmation of the sale is mailed to you at a United States address; or

the sale has some other specified connection with the United States as provided in United States Treasury Department regulations;

unless the broker does not have actual knowledge or reason to know that you are a United States person and the documentation requirements described above are met or you otherwise establish an exemption.

In addition, a sale of Preferred Stock will be subject to information reporting if it is effected at a foreign office of a broker that is:

a United States person;

a controlled foreign corporation for United States tax purposes;

a foreign person 50% or more of whose gross income is effectively connected with the conduct of a United States trade or business for a specified three-year period; or

a foreign partnership, if at any time during its tax year:

one or more of its partners are U.S. persons, as defined in United States Treasury Department regulations, who in the aggregate hold more than 50% of the income or capital interest in the partnership; or

Edgar Filing: CULLEN/FROST BANKERS, INC. - Form 424B2

such foreign partnership is engaged in the conduct of a United States trade or business;

unless the broker does not have actual knowledge or reason to know that you are a United States person and the documentation requirements described above (relating to a sale of Preferred Stock effected at a United States office of a broker) are met or you otherwise establish an exemption. Backup withholding will apply if the sale is subject to information reporting and the broker has actual knowledge that you are a United States person that is, for United States federal income tax purposes, the beneficial owner of the payments.

You generally may obtain a refund of any amounts withheld under the United States backup withholding rules that exceed your income tax liability by timely filing a refund claim with the United States Internal Revenue Service.

CERTAIN ERISA CONSIDERATIONS

A fiduciary of a pension, profit-sharing or other employee benefit plan subject to the U.S. Employee Retirement Income Security Act of 1974, as amended (*ERISA*) (each, a *Plan*), should consider the fiduciary standards of ERISA in the context of the Plan's particular circumstances before authorizing an investment in the securities offered hereby. Among other factors, the fiduciary should consider whether the investment would satisfy the prudence and diversification requirements of ERISA and would be consistent with the documents and instruments governing the Plan, and whether the investment would involve a prohibited transaction under Section 406 of ERISA or Section 4975 of the Internal Revenue Code.

Section 406 of ERISA and Section 4975 of the Internal Revenue Code prohibit Plans, as well as individual retirement accounts, Keogh plans and other plans that are subject to Section 4975 of the Internal Revenue Code (also *Plans*), from engaging in certain transactions involving plan assets with persons who are parties in interest under ERISA or disqualified persons under the Internal Revenue Code with respect to the Plan. A violation of these prohibited transaction rules may result in excise tax or other liabilities under ERISA or the Internal Revenue Code for those persons and penalties and liabilities under ERISA and the Internal Revenue Code for the fiduciary of the Plan, unless exemptive relief is available under an applicable statutory, regulatory or administrative exemption. Employee benefit plans that are governmental plans (as defined in Section 3(32) of ERISA), certain church plans (as defined in Section 3(33) of ERISA) and non-U.S. plans (as described in Section 4(b)(4) of ERISA) (*Non-ERISA Arrangements*) are not subject to the requirements of Section 406 of ERISA or Section 4975 of the Internal Revenue Code but may be subject to similar provisions under other applicable federal, state, local, non-U.S. or other laws (*Similar Laws*).

The acquisition of the securities offered hereby by a Plan or any entity whose underlying assets include plan assets by reason of any Plan's investment in the entity (a *Plan Asset Entity*) with respect to which we, certain of our affiliates or the underwriters are or become a party in interest or disqualified person may result in a direct or indirect prohibited transaction under Section 406 of ERISA or Section 4975 of the Internal Revenue Code, unless the securities offered hereby are acquired pursuant to an applicable exemption. The U.S. Department of Labor has issued prohibited transaction class exemptions, or *PTCEs* , that may provide exemptive relief if required for direct or indirect prohibited transactions that may arise from the purchase of the securities offered hereby. These exemptions include, without limitation, PTCE 84-14 (for certain transactions determined by independent qualified professional asset managers), PTCE 90-1 (for certain transactions involving insurance company pooled separate accounts), PTCE 91-38 (for certain transactions involving bank collective investment funds), PTCE 95-60 (for transactions involving certain insurance company general accounts), and PTCE 96-23 (for transactions managed by in-house asset managers). In addition, Section 408(b)(17) of ERISA and Section 4975(d)(20) of the Internal Revenue Code provide limited relief from the prohibited transactions provisions of ERISA and Section 4975 of the Internal Revenue Code for certain transactions, provided that neither the issuer of securities offered hereby nor any of its affiliates (directly or indirectly) have or exercise any discretionary authority or control or render any investment advice with respect to the assets of any Plan involved in the transaction, and provided further that the Plan pays no more and receives no less than adequate consideration in connection with the transaction (the *service provider exemption*). There can be no assurance that all of the conditions of any such exemptions will be satisfied.

Because of the foregoing, the securities offered hereby should not be acquired by any person investing plan assets of any Plan, Plan Asset Entity or Non-ERISA Arrangement, unless such acquisition will not constitute a non-exempt prohibited transaction under ERISA and the Internal Revenue Code or similar violation of any applicable Similar Laws.

Any purchaser or holder of the securities offered hereby or any interest therein will be deemed to have represented by its acquisition of the securities offered hereby that it either (1) is not a Plan, a Plan Asset Entity or a Non-ERISA Arrangement and is not purchasing the securities offered hereby on behalf of or with the assets of any Plan, Plan Asset Entity or Non-ERISA Arrangement or (2) the acquisition of the securities offered hereby

Table of Contents

will not constitute a non-exempt prohibited transaction under Section 406 of ERISA or Section 4975 of the Internal Revenue Code or a similar violation under any applicable Similar Laws.

The foregoing discussion is general in nature and is not intended to be all inclusive. Due to the complexity of these rules and the penalties that may be imposed upon persons involved in non-exempt prohibited transactions, it is important that fiduciaries or other persons considering acquiring the securities offered hereby on behalf of or with the assets of any Plan, Plan Asset Entity or Non-ERISA Arrangement consult with their counsel regarding the potential applicability of ERISA, Section 4975 of the Internal Revenue Code and any Similar Laws to such investments as well as the availability of exemptive relief under any of the PTCEs listed above or the service provider exemption, as applicable. Purchasers of the securities issued hereby have exclusive responsibility for ensuring that their purchase of securities offered hereby do not violate the fiduciary or prohibited transaction rules of ERISA or the Internal Revenue Code or any applicable Similar Laws. The sale of any securities offered hereby to a Plan, Plan Asset Entity or Non-ERISA Arrangement is in no respect a representation by us or any of our affiliates or representatives or underwriters that such an investment meets all relevant legal requirements with respect to investments by any such Plans, Plan Asset Entities or Non-ERISA Arrangements generally or any particular Plan, Plan Asset Entity or Non-ERISA Arrangement or that such investment is appropriate for such Plans, Plan Asset Entities or Non-ERISA Arrangements generally or any particular Plan, Plan Asset Entity or Non-ERISA Arrangement.

Listing; New Issue of Preferred Stock

The Preferred Stock has no established trading market. We have applied to list the Preferred Stock on the NYSE under the symbol CFR PrA . If the application is approved, trading of the Preferred Stock on the NYSE is expected to begin within 30 days after the original issuance date of the Preferred Stock. Even if the Preferred Stock is listed, there may be little or no secondary market for the Preferred Stock. Even if a secondary market for the Preferred Stock develops, it may not provide significant liquidity, and transaction costs in any secondary market could be high. As a result, the difference between bid and asked prices in any secondary market could be substantial.

No Sale of Similar Securities

We have agreed for a period of 30 days from the date of this prospectus supplement, that we will not, without the prior written consent of the representatives, offer, sell, contract to sell or otherwise dispose of any of our other securities which are substantially similar to the Preferred Stock.

Indemnification and Contribution

We have agreed to indemnify the several underwriters and their respective affiliates and controlling persons against certain liabilities, including liabilities under the Securities Act of 1933, as amended. If we are unable to provide this indemnification, we will contribute to the payments the underwriters (and their respective affiliates and controlling persons) may be required to make in respect of those liabilities.

Price Stabilization and Short Positions and Penalty Bids

In connection with the offering, the underwriters may purchase and sell shares of our Preferred Stock in the open market. These transactions may include short sales, stabilizing transactions and purchases to cover positions created by short sales. Short sales involve the sale by the underwriters of a greater number of shares than they are required to purchase in the offering. The underwriters must close out any short position by purchasing shares in the open market. A short position is more likely to be created if the underwriters are concerned that there may be downward pressure on the price of our Preferred Stock in the open market after pricing that could adversely affect investors who purchase in the offering. Stabilizing transactions consist of various bids for or purchases of Preferred Stock made by the underwriters in the open market while the offering is in progress.

The underwriters may also impose a penalty bid. This occurs when a particular underwriter repays to the underwriters a portion of the underwriting discount received by it because the representatives have repurchased shares sold by or for the account of such underwriter in stabilizing or short covering transactions.

These activities by the underwriters, as well as other purchases by the underwriters for their own accounts, may have the effect of preventing or retarding a decline in the market price of our Preferred Stock, and together with the imposition of the penalty bid, may stabilize, maintain or otherwise affect the market price of our Preferred Stock. As a result, the price of our Preferred Stock may be higher than the price that otherwise

might exist in the open market. If these activities are commenced, they may be discontinued by the underwriters at any time.

Affiliations with Underwriters

The underwriters and their respective affiliates are full service financial institutions engaged in various activities, which may include securities trading, commercial and investment banking, financial advisory, investment management, investment research, principal investment, hedging, financing and brokerage activities. Certain of the underwriters and their respective affiliates have, from time to time, performed, and may in the future perform, various financial advisory and investment banking services for us, for which they received or will receive customary fees and expenses.

S-37

Table of Contents

In the ordinary course of their various business activities, the underwriters and their respective affiliates may make or hold a broad array of investments and actively trade debt and equity securities (or related derivative securities) and financial instruments (including bank loans) for their own account and for the accounts of their customers, and such investment and securities activities may involve our securities and/or instruments. The underwriters and their respective affiliates may also make investment recommendations and/or publish or express independent research views in respect of such securities or instruments and may at any time hold, or recommend to clients that they acquire, long and/or short positions in such securities and instruments.

Conflicts of Interest

Goldman, Sachs & Co., one of the joint book-running managers of this offering, will receive 5% or more of the net proceeds of this offering by reason of our use of the proceeds of this offering as described under "Use of Proceeds" on page S-16, and is deemed to have a conflict of interest under Rule 5121. Accordingly, this offering is being made in compliance with the requirements of Rule 5121. Goldman, Sachs & Co. will not confirm sales of the Preferred Stock to any account over which it exercises discretionary authority without the prior written approval of the customer.

Notice to Prospective Investors in the European Economic Area

In relation to each member state of the European Economic Area which has implemented the Prospectus Directive (each, a *Relevant Member State*), including each Relevant Member State that has implemented the 2010 PD Amending Directive with regard to persons to whom an offer of securities is addressed and the denomination per unit of the offer of securities (each, an *Early Implementing Member State*), with effect from and including the date on which the Prospectus Directive is implemented in that Relevant Member State (the *Relevant Implementation Date*), no offer of the Preferred Stock will be made to the public in that Relevant Member State (other than offers (the *Permitted Public Offers*) where a prospectus will be published in relation to the Preferred Stock that has been approved by the competent authority in a Relevant Member State or, where appropriate, approved in another Relevant Member State and notified to the competent authority in that Relevant Member State, all in accordance with the Prospectus Directive), except that with effect from and including that Relevant Implementation Date, offers of the Preferred Stock may be made to the public in that Relevant Member State at any time:

(a) (in the case of Relevant Member States other than Early Implementing Member States), legal entities which are authorized or regulated to operate in the financial markets or, if not so authorized or regulated, whose corporate purpose is solely to invest in securities, or any legal entity which has two or more of (i) an average of at least 250 employees during the last financial year; (ii) a total balance sheet of more than 43.0 million and (iii) an annual turnover of more than 50.0 million as shown in its last annual or consolidated accounts; or

(b) (in the case of Early Implementing Member States), persons or entities that are described in points (1) to (4) of Section I of Annex II to Directive 2004/39/EC, and those who are treated on request as professional clients in accordance with Annex II to Directive 2004/39/EC, or recognized as eligible counterparties in accordance with Article 24 of Directive 2004/39/EC unless they have requested that they be treated as non-professional clients; or

B. to fewer than 100 (or, in the case of Early Implementing Member States, 150) natural or legal persons (other than qualified investors as defined in the Prospectus Directive), as permitted in the Prospectus Directive, subject to obtaining the prior consent of the representative for any such offer; or

C. in any other circumstances falling within Article 3(2) of the Prospectus Directive, provided that no such offer of the Preferred Stock shall result in a requirement for the publication of a prospectus pursuant to Article 3 of the Prospectus Directive or of a supplement to a prospectus pursuant to Article 16 of the Prospectus Directive.

Each person in a Relevant Member State (other than a Relevant Member State where there is a Permitted Public Offer) who initially acquires any Preferred Stock or to whom any offer is made will be deemed to have represented, acknowledged and agreed that (A) it is a qualified investor, and (B) in the case of any Preferred Stock acquired by it as a financial intermediary, as that term is used in Article 3(2) of the Prospectus Directive, the Preferred Stock acquired by it in the offering have not been acquired on behalf of, nor have they been acquired with a view to their offer or resale to, persons in any Relevant Member State other than qualified investors as defined in the Prospectus Directive, or in circumstances in which the prior consent of the Subscribers has been given to the offer or resale. In the case of any Preferred Stock being offered to a financial intermediary as that term is used in Article 3(2) of the Prospectus Directive, each such financial intermediary will be deemed to have represented, acknowledged and agreed that the Preferred Stock acquired by it in the offer have not been acquired on a non-discretionary basis on behalf of, nor have they been acquired with a view to their offer or resale to, persons in circumstances which may give rise to an offer of any Preferred Stock to the public other than their offer or resale in a Relevant Member State to qualified investors as so defined or in circumstances in which the prior consent of the representative has been obtained to each such proposed offer or resale.

For the purpose of the above provisions, the expression an offer to the public in relation to any Preferred Stock in any Relevant Member State means the communication in any form and by any means of sufficient information on the terms of the offer of any Preferred Stock to be offered so as to enable an investor to decide to purchase any Preferred Stock, as the same may be varied in the Relevant Member State by any measure implementing the Prospectus Directive in the Relevant Member State and the expression Prospectus Directive means Directive 2003/71/EC (including the 2010 PD Amending Directive, in the case of Early Implementing Member States) and includes any relevant implementing measure in each Relevant Member State and the expression 2010 PD Amending Directive means Directive 2010/73/EU.
