Securities registered or to be registered pursuant to Section 12(b) of the Act:

<u>Title of Each Class</u>	<u>Name of Each Exchange On Which Registered</u>
Ordinary shares, par value HK\$0.10 per share	The New York Stock Exchange, Inc.*

* Not for trading, but only in connection with the listing on The New York Stock Exchange, Inc. of American depositary shares, or ADSs, each representing 10 ordinary shares.

Securities registered or to be registered pursuant to Section 12(g) of the Act:

None

(Title of class)

Securities for which there is a reporting obligation pursuant to Section 15(d) of the Act:

None

(Title of Class)

Indicate the number of outstanding shares of each of the issuer's classes of capital or common stock as of the close of the period covered by the annual report.

As of December 31, 2012, 23,565,051,919 ordinary shares were issued and outstanding.

Indicate by check mark if the registrant is a well-known seasoned issuer, as defined in Rule 405 of the Securities Act. Yes ☒ No ☐

If this report is an annual or transition report, indicate by check mark if the registrant is not required to file reports pursuant to Section 13 or 15(d) of the Securities Exchange Act of 1934. Yes ☐ No ☒

Note: Checking the box above will not relieve any registrant required to file reports pursuant to Section 13 or 15(d) of the Securities Exchange Act of 1934 from their obligations under those Sections.

Indicate by check mark whether the registrant: (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes ☒ No ☐

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes ☐ No ☐

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, or a non-accelerated filer. See definition of accelerated filer and large accelerated filer in Rule 12b-2 of the Exchange Act. (Check one):

Large Accelerated Filer ☒ Accelerated Filer ☐ Non-Accelerated Filer ☐

Edgar Filing: CHINA UNICOM (HONG KONG) Ltd - Form 20-F

Indicate by check mark which basis of accounting the registrant has used to prepare the financial statements included in this filing.

U.S. GAAP ☐

International Financial Reporting Standards as issued by the International Accounting Standards Board ☒

Other ☐

If ☐ Other has been checked in response to the previous question, indicate by check mark which financial statement item the registrant has elected to follow.

Item 17 ☐ Item 18 ☐

If this is an annual report, indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act).

Yes ☐ No ☒

Note Regarding Forward-Looking Statements

This annual report contains certain forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. Such forward-looking statements may include, without limitation, statements relating to (i) our plans and strategies, including those in connection with our mergers and acquisitions and capital expenditures; (ii) our plans for network expansion, including those in connection with the build-out of third generation mobile telecommunications, or 3G, digital cellular business and network infrastructure; (iii) our competitive position, including our ability to upgrade and expand existing networks and increase network efficiency, to improve existing services and offer new services, to develop new technological applications and to leverage our position as an integrated telecommunications operator and expand into new businesses and markets; (iv) our future business condition, including our future financial results, cash flows, financing plans and dividends; (v) the future growth of market demand of, and opportunities for, our new and existing products and services, in particular, 3G services; and (vi) future regulatory and other developments in the PRC telecommunications industry.

The words anticipate, believe, could, estimate, intend, may, seek, will and similar expressions, as they relate to us, are intended to identify certain of these forward-looking statements. We do not intend to update any of these forward-looking statements and are under no obligation to do so.

The forward-looking statements contained in this annual report are, by their nature, subject to significant risks and uncertainties. In addition, these forward-looking statements reflect our current views with respect to future events and are not a guarantee of our future performance. Actual results may differ materially from those expressed or implied in the forward-looking statements as a result of a number of factors, including, without limitation:

changes in the regulatory regime and policies for the PRC telecommunications industry, including without limitation changes in the regulatory policies of the Ministry of Industry and Information Technology, or the MIIT (which has assumed the regulatory functions of the former Ministry of Information Industry), the State-owned Assets Supervision and Administration Commission, or the SASAC, and other relevant government authorities of the PRC;

changes in the PRC telecommunications industry resulting from the issuance of 3G licenses by the central government of the PRC;

effects of tariff reduction and other policy initiatives from the relevant PRC government authorities;

changes in telecommunications and related technologies and applications based on such technologies;

the level of demand for telecommunications services, in particular, 3G services;

competitive forces from more liberalized markets and our ability to retain market share in the face of competition from existing telecommunications companies and potential new market entrants;

effects of competition on the demand and price of our telecommunications services;

the availability, terms and deployment of capital and the impact of regulatory and competitive developments on capital outlays;

Edgar Filing: CHINA UNICOM (HONG KONG) Ltd - Form 20-F

the result of the anti-monopoly investigation by the National Development and Reform Commission of the PRC, or the NDRC, relating to the price charged for Internet dedicated leased line access service provided by us to Internet service providers;

changes in the assumptions upon which we have prepared our projected financial information and capital expenditure plans;
and

- iii -

Table of Contents

changes in the political, economic, legal and social conditions in China, including the PRC Government's policies and initiatives with respect to economic development in light of the recent global economic downturn, foreign exchange policies, foreign investment activities and policies, entry by foreign companies into the Chinese telecommunications market and structural changes in the PRC telecommunications industry.

Please also see "D. Risk Factors" under Item 3.

Certain Definitions

As used in this annual report, references to "we", "us", "our", "the Company", "our company" and "Unicom" are to China Unicom (Hong Kong) (formerly known as China Unicom Limited). Unless the context otherwise requires, these references include all of our subsidiaries. In respect of any time prior to our incorporation, references to "we", "us", "our" and "Unicom" are to the telecommunications businesses in which our predecessors were engaged and which were subsequently assumed by us. All references to "Unicom Group" are to China United Network Communications Group Company Limited (formerly known as China United Telecommunications Corporation), our indirect controlling shareholder. Unless the context otherwise requires, these references include all of Unicom Group's subsidiaries, including us and our subsidiaries.

All references to "China Netcom" are to China Netcom Group Corporation (Hong Kong) Limited, which merged with us in October 2008, and, as the context may require, its subsidiaries. References to "Netcom Group" mean China Network Communications Group Corporation, which merged with, and was absorbed by, Unicom Group in January 2009 and, as the context may require, its subsidiaries, other than us and our subsidiaries.

As used in this annual report:

references to "China" or "PRC" mean the People's Republic of China, excluding, for purposes of this annual report, Hong Kong, Macau and Taiwan, and references to the "central government" or the "PRC Government" mean the central government of the PRC;

references to "our fixed-line northern service region" mean the 10 municipalities, provinces and region where we operate fixed-line services in northern China, consisting of Beijing and Tianjin Municipalities, and Hebei, Henan, Shandong, Liaoning, Heilongjiang, Jilin, and Shanxi Provinces, and the Inner Mongolia Autonomous Region;

references to the "21 provinces in southern China" mean Shanghai Municipality, Jiangsu Province, Zhejiang Province, Anhui Province, Fujian Province, Jiangxi Province, Hubei Province, Hunan Province, Guangdong Province, Guangxi Zhuang Autonomous Region, Hainan Province, Chongqing Municipality, Sichuan Province, Guizhou Province, Yunnan Province, Tibet Autonomous Region, Shaanxi Province, Gansu Province, Qinghai Province, Ningxia Hui Autonomous Region and Xinjiang Uygur Autonomous Region; we completed the acquisitions of certain telecommunications business and assets, including the fixed-line business in those 21 provinces in southern China, from Unicom Group and Netcom Group and/or their respective subsidiaries and branches in January 2009; see "A. History and Development of the Company—Unicom Acquisitions and Sales—Acquisitions of Fixed-Line Business in 21 Provinces in Southern China and Other Assets from Parent Companies and Lease of Telecommunications Networks in 21 Provinces in Southern China" under Item 4;

references to "Hong Kong Stock Exchange" or "HKSE" mean The Stock Exchange of Hong Kong Limited, and references to "NYSE" or "New York Stock Exchange" mean The New York Stock Exchange, Inc; and

references to "Renminbi" or "RMB" are to the currency of the PRC, references to "U.S. dollars" or "US\$" are to the currency of the United States of America, references to "HK dollars" or "HK\$" are to the currency of the Hong Kong Special Administrative Region of the PRC and references to "Euro" are to the currency of the eurozone (17 of the 27 member states of the European Union).

Item 1. Identity of Directors, Senior Management and Advisers

Not Applicable.

Item 2. Offer Statistics and Expected Timetable

Not Applicable.

Item 3. Key Information

A. Selected Financial Data

The following tables present selected historical financial data of our company as of and for the years ended December 31, 2008, 2009, 2010, 2011 and 2012. Except for amounts presented in U.S. dollars, the selected historical consolidated income statement data for the years ended December 31, 2010, 2011 and 2012 and the selected historical consolidated balance sheet data as of December 31, 2011 and 2012 set forth below are derived from, should be read in conjunction with, and are qualified in their entirety by reference to, our audited consolidated financial statements, including the related notes, included elsewhere in this annual report on Form 20-F. The selected historical consolidated income statement data for the years ended December 31, 2008 and 2009 and consolidated balance sheet data as of December 31, 2008, 2009 and 2010 set forth below are derived from our audited consolidated financial statements that are not included in this annual report on Form 20-F. Our consolidated financial statements as of and for the years ended December 31, 2008, 2009, 2010, 2011 and 2012 have been prepared and presented in accordance with IFRS/HKFRS. The statistical information set forth in this annual report on Form 20-F relating to China is taken or derived from various publicly available government publications that have not been prepared or independently verified by us. This statistical information may not be consistent with other statistical information from other sources within or outside China.

In December 2012, we completed the acquisition of the entire equity interest in Unicom New Horizon Telecommunications Company Limited, or Unicom New Horizon, through our wholly-owned subsidiary, China United Network Communications Corporation Limited, or CUCL, from Unicom Group, or the 2012 Acquisition. See A. History and Development of the Company Unicom Acquisitions and Sales 2012 Acquisition . As Unicom New Horizon did not meet the definition of a business under IFRS/HKFRS 3 (Revised) Business Combinations , we accounted for the 2012 Acquisition as an asset purchase transaction in accordance with IAS/HKAS 16 Property, Plant and Equipment .

We completed (i) the acquisition of the entire equity interest in China Unicom NewSpace Limited, or Unicom NewSpace, by China Unicom Broadband Online Limited Corporation, or Broadband Online, a wholly-owned subsidiary of CUCL, from Unicom Group, or the 2011 Acquisition, in December 2011, (ii) the acquisitions of fixed-line business in 21 provinces in southern China, the local access telephone business in Tianjin Municipality, three subsidiaries (together referred to as the Target Business) and certain other telecommunications assets from Unicom Group and Netcom Group (which was later merged with Unicom Group in January 2009), or the 2009 Acquisition, in January 2009, and (iii) a merger with China Netcom in October 2008. See A. History and Development of the Company Unicom Acquisitions and Sales 2011 Acquisition , A. History and Development of the Company Unicom Acquisitions and Sales Acquisitions of Fixed-Line Business in 21 Provinces in Southern China and Other Assets from Parent Companies and Lease of Telecommunications Networks in 21 Provinces in Southern China and A. History and Development of the Company Sale of CDMA Business, Merger with China Netcom and Related Transactions Merger with China Netcom and Related Transactions under Item 4, respectively. Because (i) we and Unicom NewSpace were under common control of Unicom Group both prior to and after the 2011 Acquisition, (ii) we and the Target Business were under common control of Unicom Group both prior to and after the 2009 Acquisition and (iii) we and China Netcom were under the common control of the PRC Government both prior to and after the merger, each of the acquisitions and the merger is considered as a business combination of entities and businesses under common control and has been accounted for using merger accounting in accordance with Accounting Guideline 5 Merger accounting for common control combinations , or AG 5, issued by the HKICPA in November 2005. Upon our adoption of IFRS, we adopted the accounting policy to account for business combination of entities and businesses under common control using the predecessor values method, which is consistent with HKFRS. Given that the acquired entities and businesses mentioned above in this paragraph had always been under common control during all the periods presented, the assets and liabilities thereof are stated at predecessor values and are included in the consolidated financial statements included in this annual report on Form 20-F as if these entities and their businesses acquired had always been part of our company during all the periods presented.

Table of Contents

We completed the disposal of our CDMA business in October 2008. See A. History and Development of the Company Sale of CDMA Business, Merger with China Netcom and Related Transactions Disposal of CDMA Business and Related Transactions under Item 4. In accordance with IFRS/HKFRS 5, Non-Current Assets Held for Sale and Discontinued Operations, we recognized the CDMA business as discontinued operations and the CDMA business was presented separately as discontinued operations in our audited consolidated statement of income and statement of cash flows for the year ended December 31, 2008.

(1) The translation of RMB into U.S. dollars has been made at the rate of RMB6.2301 to US\$1.00, representing the exchange rate as set forth in the H.10 statistical release of the Federal Reserve Board on December 31, 2012. The translations are solely for the convenience of the reader.

(2) Revenue and service revenue figures for the years ended December 31, 2008, 2009, 2010 and 2011 include fixed-line upfront connection fees for basic telephone access services that were eliminated by order of the former Ministry of Information Industry in July 2001. As of December 31, 2011, we made an accumulated appropriation of approximately RMB12,289 million to the statutory reserve in relation to fixed-line upfront connection fees, which were deferred and amortized over the expected customer service period of ten years. No upfront connection fees will be recognized after December 31, 2011.

(3) Results of our CDMA business have been disclosed as discontinued operations for the year ended December 31, 2008.

(4) See Note 38 to our consolidated financial statements included elsewhere in this annual report on Form 20-F on how basic and diluted earnings per share are calculated under IFRS/HKFRS.

(5) Earnings per ADS is calculated by multiplying earnings per share by 10, which is the number of shares represented by each ADS.

Exchange Rate Information

We publish our consolidated financial statements in Renminbi. Solely for the convenience of the reader, this annual report on Form 20-F contains translations of certain Renminbi and Hong Kong dollar amounts into U.S. dollars at specific rates. Prior to January 1, 2009, the exchange rate refers to the noon buying rates in New York City for cable transfers as certified for customs purposes by the Federal Reserve Bank of New York, or the noon buying rate. For January 1, 2009 and all later dates and periods, the exchange rate refers to the exchange rate as set forth in the H.10 statistical release of the Federal Reserve Board, or the daily exchange rate. Unless otherwise indicated, conversions of Renminbi or Hong Kong dollars into U.S. dollars in this annual report are based on the exchange rate on December 31, 2012 (RMB6.2301 to

Edgar Filing: CHINA UNICOM (HONG KONG) Ltd - Form 20-F

US\$1.00 and HK\$7.7507 to US\$1.00). These translations should not be construed as representations that the Renminbi or Hong Kong dollar amounts could actually be converted into U.S. dollars at such rates or at all.

The daily exchange rates were RMB6.1772 = US\$1.00 and HK\$7.7637 = US\$1.00, respectively, on April 19, 2013. The following table sets forth the high and low daily exchange rates between Renminbi and U.S. dollars and between Hong Kong dollars and U.S. dollars for each month during the previous six months:

Exchange Rate

	RMB per US\$1.00		HK\$ per US\$1.00	
	High	Low	High	Low
October 2012	6.2877	6.2372	7.7549	7.7494
November 2012	6.2454	6.2221	7.7518	7.7493
December 2012	6.2502	6.2251	7.7518	7.7493
January 2013	6.2303	6.2134	7.7585	7.7503
February 2013	6.2438	6.2213	7.7580	7.7531
March 2013	6.2246	6.2105	7.7640	7.7551
April 2013 (up to April 19, 2013)	6.2078	6.1720	7.7652	7.7615

Table of Contents

The following table sets forth the average exchange rates between Renminbi and U.S. dollars and between Hong Kong dollars and U.S. dollars for each of 2008, 2009, 2010, 2011 and 2012, calculated by averaging, in the case of 2008, the noon buying rates, or in the case of 2009 to 2012, the daily exchange rate, on the last day of each month during the relevant years.

Average Exchange Rate

	RMB per US\$1.00	HK\$ per US\$1.00
2008	6.9193	7.7814
2009	6.8295	7.7513
2010	6.7603	7.7692
2011	6.4475	7.7793
2012	6.2990	7.7556

B. Capitalization and Indebtedness

Not Applicable.

C. Reasons for the Offer and Use of Proceeds

Not Applicable.

D. Risk Factors**Risks Relating to Our Business**

We face intense competition from other telecommunications operators, including China Mobile and China Telecom, and other companies that provide telecommunications or related services, which may materially adversely affect our financial condition, results of operations and growth prospects.

The telecommunications industry in China has been rapidly evolving. Following the restructuring of the PRC telecommunications industry in 2008, we, along with China Mobile Communications Corporation, or China Mobile, and China Telecommunications Corporation, or China Telecom, have become full-service telecommunications service providers that operate both fixed-line and mobile telecommunications networks in China. See A. History and Development of the Company Restructurings of the Telecommunications Industry under Item 4. We face intense competition in each of our business lines from China Mobile and China Telecom and expect that this competition will further intensify. For mobile services, we compete with China Mobile and China Telecom in both 2G and 3G services. China Mobile is the largest mobile operator in China, while China Telecom has become our competitor after acquiring our CDMA business in the 2008 industry restructuring. For fixed-line services, we are a leading fixed-line operator in northern China, while China Telecom has a dominant market position in southern China. In addition, the PRC Government is in the process of introducing new policies that may intensify competition among the three telecommunications operators, such as the policies that would allow mobile subscribers to switch to the networks of another telecommunications operator with their existing numbers in certain areas in China.

We also face increasing competition from other service providers, such as cable television companies and Internet service providers, which compete against our broadband access, voice and messaging services and other services by offering telecommunications or related services. Such competition may further intensify due to recent policies of the PRC Government. For example, the PRC Government is in the process of initiating policies regarding the convergence of television broadcast, telecommunications and Internet access networks, and recently introduced a series of policies that encourage non-State-owned companies to enter the PRC telecommunications industry, including the proposals to permit companies engaged in the resale of mobile communications services to acquire mobile communications services from China Mobile, China Telecom or us and repackaging and rebranding such services for resale to end users.

Table of Contents

Intensive competition from China Mobile and China Telecom, as well as other companies that provide telecommunications or related services, could lead to slower subscriber growth, lower usage or traffic volume of our telecommunications services, continued price pressure and higher customer acquisition and retention costs, which may materially adversely affect our financial condition, results of operations and growth prospects.

The industry trends of mobile service substitution and migration may continue to have a material adverse effect on our fixed-line local telephone services and GSM mobile services, which may materially adversely affect our financial condition, results of operations and growth prospects.

We experienced continuing decline in the number of fixed-line local telephone subscribers and usage of our fixed-line local telephone services during the past several years due to the trend of mobile service substitution for fixed-line services. Consistent with trends in global markets in recent years, significant traffic from our fixed-line networks has been diverted to mobile networks, including mobile networks of other mobile operators. This trend has resulted in continuing decline in our revenues derived from our fixed-line local telephone services in recent years. Similarly, the trend of migration from GSM mobile services to 3G services may continue to have an adverse effect on our GSM mobile services, including a slow-down or reduction in the number of subscribers and usage. We have been taking various measures, such as attracting GSM subscribers of us and other telecommunications operators to migrate to our 3G network and promoting the integrated development of our GSM, 3G and fixed-line services, to retain our subscribers and service usages and to mitigate the potential subscriber and revenue loss in our fixed-line local telephone and GSM mobile services driven by these industry trends. However, we cannot assure you that such efforts will be successful. If the number of subscribers or the usage of our fixed-line local telephone or GSM mobile services declines, our financial condition, results of operations and growth prospects could be materially and adversely affected.

Competition from foreign-invested operators may further increase the competition for employees, exacerbate price competition and increase our operating expenses, thereby adversely affecting our financial condition, results of operations and growth prospects.

As a result of China's accession to the World Trade Organization, or WTO, in December 2001 and the adoption of the Regulations on the Administration of Foreign-Invested Telecommunications Enterprises in January 2002, which implement China's commitments to the WTO, the PRC Government has agreed to gradually liberalize the various segments and regions of the telecommunications market in China to foreign investors. Currently, foreign investors are permitted to own up to 49% of joint ventures that offer basic telecommunications services without any geographic restrictions in China and up to 50% of joint ventures that offer value-added telecommunications services without any geographic restrictions in China. More foreign-invested operators may enter China's telecommunications market as a result of this liberalization. They may have greater financial, managerial and technical resources and more expertise in network management and sales and marketing than we do.

Increased competition from foreign-invested operators into the PRC telecommunications market may further increase the competition for skilled and experienced employees, exacerbate price competition and increase our customer acquisition costs and other operating expenses, and thereby adversely affect our financial condition, results of operations and growth prospects.

Failure to respond to technological and industry developments in a timely and effective manner or failure to continually optimize, expand and upgrade our networks and infrastructure could materially adversely affect our competitive position and hinder our growth.

The telecommunications industry in China and elsewhere in the world has been experiencing rapid and significant changes in the diversity and sophistication of the technologies and services offered. Such changes may render our existing services or technologies inadequate or obsolete. We cannot assure you that we will be able to respond to technological and industry developments in a timely and cost-effective manner, or at all. Our inability to respond successfully to technological or industry developments may adversely affect our financial condition, results of operations and growth prospects. Furthermore, if the new technologies adopted by us do not perform as expected, or if we are unable to effectively deliver new services based on these technologies in a commercially viable manner, our revenue growth may decline and our competitive position may be adversely affected.

Table of Contents

In addition, the growth of our business depends on whether we are able to continue to optimize the capacity, expand the coverage and improve the quality of, and upgrade our existing networks and infrastructure in a timely and effective manner. Our ability to expand and upgrade our networks and infrastructure is subject to a number of uncertainties, including our ability to achieve the following on a timely basis and on acceptable terms:

manage technology migration in an effective manner, including effectively responding to a shortage of available Internet Protocol version 4 addresses and timely developing 3GPP Long Term Evolution, or LTE;

obtain adequate financing;

obtain relevant government licenses, permits and approvals;

obtain adequate network equipment and software;

retain experienced management and technical personnel;

obtain sufficient spectrum frequencies, network numbers and other telecommunications resources controlled by the PRC Government;

gain access to the sites for network construction or upgrade; and

enter into interconnection and other arrangements with other operators.

If we are not able to timely and effectively overcome the uncertainties and difficulties we may encounter in expanding and upgrading our networks and infrastructure, our competitive position, financial condition, results of operations and growth prospects may be materially adversely affected.

The successful development of our 3G services is subject to market demand, consumer acceptance, technological challenges, competition on service fees, terminal subsidies and other marketing expenses, and other uncertainties, and expected benefits from investments in our 3G networks and technology may not be realized, and our 3G services may be adversely affected if next generation telecommunications services become available in the PRC.

We commercially launched our 3G service in October 2009 and we are still making investments in our 3G networks. However, we cannot assure you that:

we will be able to gain access to sufficient sites for 3G network expansion, or we will not encounter unexpected technological difficulties in implementing the WCDMA technology;

there will be sufficient demand for 3G services, or our 3G services will be more popular among potential subscribers than those of our competitors; or

our 3G services will generate an acceptable or commercially viable rate of return.

-7-

Table of Contents

Any failure or delay in expanding and upgrading our 3G networks, any increase in the associated costs (including the costs and expenses that may be incurred as a result of the changes of our marketing and sales policies, including terminal subsidies, to meet the market demand), or any problem encountered in our operations of 3G services could hinder the recovery of our significant capital investment in 3G services, which could in turn have a material adverse effect on our financial condition, results of operations and growth prospects. For example, our depreciation and amortization expenses increased by 5.2% from RMB58.02 billion in 2011 to RMB61.06 billion in 2012, primarily due to our continuing expansion and upgrade of our 3G networks. Also, our selling and marketing expenses increased by 21.9% from RMB28.75 billion in 2011 to RMB35.04 billion in 2012, mainly attributable to the increased expenses on the promotion of our 3G services. If such expenses continue to increase without corresponding increase in the relevant service revenue, the profitability of our 3G services would be adversely affected.

In addition, it is uncertain as to the timing of the issuance of LTE licenses by the PRC Government and the type of the LTE-based technology to be mandated under these licenses. When the next generation telecommunications services become available in the PRC after the issuance of LTE licenses by the PRC Government, we expect that a number of 3G subscribers will migrate to next generation telecommunications networks as an industry trend, which could have an adverse effect on our 3G services.

Because we rely on arrangements with other telecommunications operators, changes to the terms or availability of these arrangements may result in disruptions to our services and operations and may result in customer dissatisfaction and materially adversely affect our financial condition, results of operations and growth prospects.

Our ability to provide telecommunications services depends upon arrangements with other telecommunications operators. In particular, interconnection is necessary to complete all calls between our subscribers and subscribers of other telecommunications operators. We, either through ourselves or through Unicom Group, have established interconnection and transmission line leasing arrangements with other telecommunications operators, including our parent company, as required to conduct our current business. Any disruption to our interconnection with the networks of those operators or other international telecommunications carriers with which we interconnect may affect our operations, service quality and customer satisfaction, thus adversely affecting our business. Furthermore, we are generally not entitled to collect indirect or consequential damages resulting from disruptions in the networks with which we are interconnected. Any disruption in existing interconnection arrangements and leased line arrangements or any significant change of their terms, as a result of natural events or accidents or for regulatory, technical, competitive or other reasons, may lead to temporary service interruptions and increased costs that can seriously jeopardize our operations and adversely affect our financial condition, results of operations and growth prospects. Difficulties in executing alternative arrangements with other operators on a timely basis and on acceptable terms, including the inability to promptly establish additional interconnection links or increase interconnection bandwidths as required, could also materially adversely affect our financial condition, results of operations and growth prospects.

Interruptions to our networks and operating systems or to those with which we interconnect, including those caused by natural disaster and service maintenance and upgrades, may disrupt our services and operations and may result in customer dissatisfaction and materially adversely affect our financial condition, results of operations and growth prospects.

Our network infrastructure and the networks with which we interconnect are vulnerable to potential damages or interruptions from floods, wind, storms, fires, power loss, severed cables, acts of terrorism and similar events. The occurrence of a natural disaster or other unanticipated problems at our facilities or any other failure of our networks or systems, or the networks to which we are interconnected, may result in consequential interruptions in services across our telecommunications infrastructure. For example, in May 2008, an earthquake registering 8.0 on the Richter scale struck Sichuan Province and its neighboring areas in China. In 2010, another major earthquake registering 7.1 on the Richter scale struck Qinghai Province. Our network equipment, including our base stations, in the affected areas sustained extensive damage, leading to service stoppage and other disruptions in our operations in those areas. Any future natural disasters may, among other things, significantly disrupt our ability to adequately staff our business, and may generally disrupt our services and operations. Moreover, our networks and systems and the networks with which we interconnect also require regular maintenance and upgrades. Such maintenance and upgrades may cause service disruptions. Network or system failures, as well as high traffic volumes, may also affect the quality of our services and cause temporary service interruptions. Any such future occurrence may result in customer dissatisfaction and materially adversely affect our financial condition, results of operations and growth prospects.

Table of Contents

If we are unable to fund our capital expenditure and debt service requirements, our financial condition, results of operations and growth prospects will be materially adversely affected.

We continue to have a significant level of capital expenditure and debt service requirements necessary to implement our business strategies. We incurred RMB99.80 billion for capital expenditure in 2012. We expect to continue incurring significant capital expenditure in 2013 although we currently expect that the amount will be substantially lower than our capital expenditure in 2012. To the extent these capital expenditures exceed our cash resources, we will be required to seek additional debt or equity financing. In addition, pursuant to the terms of the 2015 Convertible Bonds, which was issued by Billion Express Investments Limited, our wholly-owned subsidiary, on October 18, 2010, each holder of the 2015 Convertible Bonds has the right to require Billion Express Investments Limited to redeem all of the 2015 Convertible Bonds held by such holder on October 18, 2013, or upon the occurrence of certain events (such as delisting or suspension of trading of our ordinary shares or ADSs, or change of control), at a redemption price equal to the principal amount of such 2015 Convertible Bonds together with accrued and unpaid interest to the date fixed for redemption. If the holders of a significant portion of the 2015 Convertible Bonds exercise their option to redeem all of the 2015 Convertible Bonds and to the extent the redemption amount exceeds our then cash resources, we will also be required to seek additional debt or equity financing. We cannot assure you that we will be able to obtain future financing on a timely basis and/or on acceptable terms. Even if we obtain such financing, our financing cost may increase significantly as a result of additional financing or higher interest rate. See "Liquidity and Capital Resources" under Item 5. Our failure to do so may adversely affect our financial condition, results of operations and growth prospects. Our ability to obtain acceptable financing at any time may depend on a number of factors, including, among others:

our financial condition and results of operations;

our creditworthiness and relationship with lenders;

changes in credit policies, other government or banking policies that may affect credit markets in China;

conditions of the economy and the telecommunications industry in China;

conditions in relevant financial markets in China and elsewhere in the world; and

our ability to obtain any required government approvals for our financings.

We may experience declines in ARPU for our telecommunications services.

In 2012, the ARPU for our mobile services increased by 1.3% from 2011, primarily because (i) the ARPU for our 3G services is significantly higher than that of our 2G services and (ii) the number of our 3G subscribers has increased as a percentage of the total number of our mobile subscribers. However, we have been experiencing declining ARPU for each of our GSM mobile services, 3G mobile services and fixed-lined services in the past few years, mainly due to (i) the pricing competition with other telecommunications operators in China; (ii) downward adjustments on some of the telecommunications tariffs by the PRC Government (which may continue in the future); (iii) many new subscribers are users with lower usage of telecommunications services; and (iv) the substitution effect of mobile Internet applications on our SMSs and other services. Our current GSM mobile services, 3G mobile services and fixed-lined services may continue to experience declining ARPU in the foreseeable future, which could have a material adverse effect on our financial condition and results of operations. Although we have been making efforts to mitigate those effects by allocating more resources to diversify our service offerings, particularly the value-added services, promote our integrated mobile and fixed-lined services to encourage more usage of our services, and develop our high-end customers, we cannot assure you that these efforts will be able to achieve the anticipated results.

Table of Contents

Our controlling shareholder, Unicom Group, can exert influence on us and cause us to make decisions that may not always be in the best interests of us or our other shareholders and may fail to provide services and facilities that we rely on to operate our business.

Unicom Group indirectly controlled an aggregate of 75.57% of our issued share capital as of April 19, 2013 and all of our executive directors also serve as directors or executive officers of Unicom Group. As our controlling shareholder, subject to our articles of association and applicable laws and regulations, Unicom Group is effectively able to control our management, policies and business by controlling the composition of our board of directors and, in turn, indirectly controlling the selection of our senior management, determining the timing and amount of our dividend payments, approving significant corporate transactions, including mergers and acquisitions, and approving our annual budgets. The interests of Unicom Group as our controlling shareholder may conflict with our interests or the interests of our other shareholders. As a result, Unicom Group may cause us to enter into transactions or take (or fail to take) other actions or make decisions that may not be in our or our other shareholders' best interests.

In addition, our operations depend on a number of services and facilities provided by Unicom Group. For example, Unicom Group provides us with international gateway services, interconnection services, sales agency and collection services and provision of premises. See "B. Related Party Transactions" under Item 7. The interests of Unicom Group as provider of these services and facilities may conflict with our interests. Failure by Unicom Group to fulfill its obligations under any of these arrangements may have a material adverse effect on our business operations. We currently have limited alternative sources of supply for these services and facilities and, as a result, may have limited ability to negotiate with Unicom Group regarding the terms for providing these services and facilities. Changes in the availability, pricing or quality of these services or facilities may have a material adverse effect on our business and profitability.

The previous internal reorganization of Unicom Group for the A Share offering created a two-step voting mechanism that requires the approval of the minority shareholders of both our Company and China United Network Communications Limited (formerly known as China United Telecommunications Corporation Limited), or the A Share Company, for significant related party transactions between us and Unicom Group.

In October 2002, Unicom Group completed an internal reorganization of its shareholding in our company and the initial public offering in China of its then newly established subsidiary, the A Share Company. As part of this restructuring, a portion of Unicom Group's indirect shareholding in our company was transferred to the A Share Company, whose business is limited to indirectly holding the equity interest of our company without any other direct business operations. A voting mechanism was established to allow public shareholders of the A Share Company to indirectly participate in our shareholders' meetings and a two-step voting mechanism was established for the approval of related party transactions. As a result, any significant related party transaction between us or our subsidiaries and Unicom Group or its other subsidiaries will require the separate approval of the independent minority shareholders of both our company and the A Share Company. Related party transactions approved by our independent minority shareholders nevertheless cannot proceed if they are not approved by the independent minority shareholders of the A Share Company. This adds another necessary step of approval process for those transactions. See "A. History and Development of the Company" "Two-Step Voting Arrangements" under Item 4.

Investor confidence and the market prices of our shares and ADSs may be materially and adversely impacted if we are or our independent registered public accounting firm is unable to conclude that our internal control over financial reporting is effective in future years as required by Section 404 of the Sarbanes-Oxley Act of 2002.

We are a public company in the United States that is subject to the Sarbanes-Oxley Act of 2002. Pursuant to the requirements of Section 404 of the Sarbanes-Oxley Act of 2002, we include in this annual report a report of management on our internal control over financial reporting and an attestation report of our independent registered public accounting firm on the effectiveness of our internal control over financial reporting.

Table of Contents

Our management conducted an assessment of the effectiveness of our internal control over financial reporting and concluded that our internal control over financial reporting as of December 31, 2012 was effective. The effectiveness of our internal control over financial reporting as of December 31, 2012 has been audited by PricewaterhouseCoopers, an independent registered public accounting firm, as stated in their report appearing on page F-2. However, we cannot assure you that, in the future, our management will continue to conclude that our internal control over financial reporting is effective. Even if our management concludes that our internal control over financial reporting is effective for future periods, our independent registered public accounting firm may disagree. If our independent registered public accounting firm is not satisfied with our internal control over financial reporting or the level at which our controls are documented, designed, operated, reviewed or evaluated, or if the independent registered public accounting firm interprets the relevant requirements, rules or regulations differently from us, then it may issue an adverse opinion. Any of these possible outcomes in the future could result in an adverse reaction in the financial marketplace due to a loss of investor confidence in the reliability of our consolidated financial statements, which could materially adversely affect the market prices of our shares and ADSs.

Moreover, internal control over financial reporting may not prevent or detect misstatements because of its inherent limitations, including the possibility of human error, the circumvention or overriding of controls, or fraud. Therefore, even effective internal control over financial reporting can provide only reasonable assurance with respect to the preparation and fair presentation of financial statements. If we fail to maintain the adequacy of our internal control over financial reporting, including through a failure to implement required new or improved controls, or if we experience difficulties in their implementation, our business and operating results could be harmed, we could fail to meet our reporting obligations and there could be a material adverse effect on the market prices of our shares and ADSs.

Our outstanding convertible bonds may dilute the ownership interest of existing shareholders and may adversely affect the market price of our ordinary shares.

On October 18, 2010, Billion Express Investments Limited, a wholly-owned subsidiary of our company, completed the issue of the 2015 Convertible Bonds, which are exchangeable into ordinary shares of our company. Pursuant to the subscription agreement with respect to the 2015 Convertible Bonds, the holders of the 2015 Convertible Bonds may, beginning on November 28, 2010, elect to convert its bonds into our ordinary shares at an initial conversion price of HK\$15.85 per share, subject to certain adjustments. As of April 19, 2013, none of the 2015 Convertible Bonds has been converted into our ordinary shares. Assuming a full conversion of the 2015 Convertible Bonds at the current conversion price of HK\$15.58 per share, the bonds would be convertible into 915,576,051 ordinary shares, representing approximately 3.74% of our enlarged issued and outstanding share capital as of April 19, 2013.

The conversion of the 2015 Convertible Bonds, if converted in full or in part, would dilute the ownership interest of our existing shareholders and our earnings per share, and could adversely affect the market price of our shares. Even if the 2015 Convertible Bonds are not converted, their existence may encourage the short selling of our ordinary shares by the holders of the 2015 Convertible Bonds as well as other market participants, depressing the price of our ordinary shares.

We are subject to an anti-monopoly investigation by the NDRC relating to the price charged for Internet dedicated leased line access service provided by us to Internet service providers. The outcome of this investigation may subject us to a fine, and harm our reputation, which could adversely affect the prices of our shares and ADSs.

The NDRC initiated an anti-monopoly investigation in 2011 relating to the price charged for Internet dedicated leased line access service provided by us to Internet service providers. In response to the NDRC's investigation, we (i) provided the NDRC with pricing, volume, turnover and other information relevant to our Internet access bandwidth leasing services with Internet service providers for the year 2010, (ii) conducted a comprehensive self-inspection of our operations, and (iii) submitted to the NDRC a proposal for enhancement initiatives and an application for suspension of the NDRC's investigation. Through our comprehensive self-inspection of our operations, we have identified room for improvement in pricing management and relatively wide pricing variation, in respect of our services relating to the Internet dedicated leased line access service provided by us to the Internet service providers. In addition, the quality of interconnection between us and other backbone network operators also requires further improvement. In December 2012, we submitted a report to the NDRC regarding the improvement of our price management of Internet dedicated leased line access service. As of the date of this annual report, the NDRC has not informed us of any results or conclusions of the investigation. If the outcome of the NDRC's investigation is not in our favor, we may be subject to a fine, and if we become the target of any negative publicity, our reputation would be harmed, which may have a material adverse effect on the prices of our shares and ADSs.

Table of Contents

Future implementation of a value-added tax to replace business tax in China may increase our effective tax rate, and thereby decreasing our future net income and profitability.

Our business operations in China are subject to PRC business tax, which is assessed against substantially all of our operating revenue at a rate of 3%. On November 16, 2011, the Ministry of Finance, or the MOF, and the State Administration of Taxation, or the SAT, issued a pilot tax program under which the PRC business tax will be replaced with a value-added tax, or VAT, for certain pilot industries, including, among others, transportation services, research and development and technical services, information technology services and cultural and creative services. The pilot VAT program initially applied only to the pilot industries in Shanghai and has been subsequently expanded to eight additional regions of China. The application of the pilot VAT program may be expanded to other industries, including the telecommunications industry, and regions of China in the future. The timetable for applying the pilot program to the telecommunications industry and the applicable tax rate remain uncertain. If we become subject to the pilot VAT program, and, depending on the details of the program, our effective tax rate increases, our net income as well as our profitability may decrease.

Risks Relating to the Telecommunications Industry in China

Government regulation of the telecommunications industry in China may affect our ability to respond to market conditions or competition, and may have a material adverse effect on our financial condition, results of operations and growth prospects.

As a telecommunications operator in China, we are subject to regulation by, and under the supervision of, the MIIT, which is the primary regulator of the telecommunications industry in China. The MIIT is responsible for formulating policies and regulations for the telecommunications industry, granting telecommunications licenses, allocating frequency spectrum and numbers, formulating interconnection and settlement arrangements between telecommunications operators, and enforcing industry regulations. Other PRC Governmental authorities also regulate tariff policies, capital investment and foreign investment in the telecommunications industry. See B. Business Overview Regulatory and Related Matters under Item 4. The regulatory framework within which we operate may constrain our ability to implement our business strategies and limit our ability to respond to market conditions or to changes in our cost structure. Moreover, we operate our businesses pursuant to approvals granted by the State Council of the PRC, or the State Council, and under licenses granted by the MIIT. If these approvals or licenses were revoked or suspended, our business and operations would be materially adversely affected. In addition, we are subject to various regulatory requirements as to service quality, pricing and other actions, and failure to comply with such requirements may subject us to mandatory penalties or other punitive measures, any of which could have a material adverse effect on our financial condition, results of operations and growth prospects.

Regulatory or policy changes relating to the PRC telecommunications industry or any future industry restructuring may materially adversely affect our financial condition, results of operations and growth prospects.

The PRC Government continues to regulate many aspects of the telecommunications industry in China. Potential changes in regulations and policies and their implementation could lead to significant changes in the overall industry environment and may have a material adverse effect on our financial condition, results of operations and growth prospects. As part of the comprehensive plan to restructure the telecommunications industry in China, the PRC Government has been adjusting and improving its regulatory oversight of the telecommunications industry, including further deregulating telecommunications tariffs.

The MIIT, under the direction of the State Council, is currently preparing a telecommunications law to provide a uniform regulatory framework for the telecommunications industry in China. As of the date of this annual report, the proposed nature and scope of the telecommunications law have not yet been officially announced by the PRC Government. The telecommunications law and other new telecommunications regulations or rules, or future changes thereto, such as enforcement of existing regulations and policies, may materially adversely affect our financial condition, results of operations and growth prospects.

Table of Contents

Issues may also arise regarding the interpretation and enforcement of China's WTO commitments regarding telecommunications services. Any future regulatory changes, such as those relating to the issuance of additional telecommunications licenses, tariff setting, interconnection and settlement arrangements, changes in technical and service standards, universal service obligations and spectrum and number allocations, may have a material adverse effect on our business and operations.

The PRC telecommunications industry has been extensively restructured in recent years and may be subject to further restructuring. Such further industry restructuring may materially affect the operations of all telecommunications operators in China, including us. Accordingly, we cannot predict the scope and effect of any further restructuring on our financial condition, results of operations and growth prospects.

New regulations, regulatory changes or changes in enforcement policies relating to tariffs and other aspects of telecommunications services may materially adversely affect our competitiveness, business and financial condition, results of operations and growth prospects.

Tariffs are the prices we charge our customers for our telecommunications services. We are subject to extensive government regulations on tariffs, especially those relating to our basic telecommunications services, such as mobile services, local and long distance fixed-line telephone services, data services, leased line services and interconnection agreements. In the past, we experienced significant downward adjustments on tariffs of telecommunications services as well as regulatory restrictions that have significant impacts on our tariff setting. For example: (i) in February 2008, the MIIT and the NDRC lowered the regulatory tariff cap for roaming services; and (ii) in 2009, the MIIT and the NDRC required us and other PRC telecommunications operators to offer certain fixed-line local telephone plans that are subject to a tariff cap. These changes adversely affected our revenue.

We cannot predict with accuracy the timing, likelihood or magnitude of tariff adjustments by the PRC Government or the extent or potential impact on our business of future tariff adjustments. If the PRC Government substantially lowers the tariffs for our services, our business and our financial condition, results of operations and growth prospects may be adversely affected. In particular, monthly fees on fixed-line services have drawn attention from customers and the PRC Government in the past few years. Revenue from some of our customers has decreased as a result of discounts on monthly fees that we offered through bundled service packages. Our revenue will be adversely affected if the PRC Government abolishes such monthly fees. In addition, the PRC Government is in the process of initiating detailed policies following the industry restructuring in 2008, including those that allow mobile subscribers to switch to the networks of another telecommunications operator with their existing numbers and those relating to the convergence of telecommunications, Internet and television broadcast networks. The potential new regulatory policies and regulations may materially adversely affect our financial condition, results of operations and growth prospects.

The PRC Government may require us, along with other telecommunications service providers in China, to provide universal services with specified obligations, and we may not be compensated adequately for providing such services.

Under the Telecommunications Regulations promulgated by the State Council, telecommunications service providers in China are required to fulfill universal service obligations in accordance with relevant regulations to be promulgated by the PRC Government authorities, and the MIIT has the authority to delineate the scope of universal service obligations. The MIIT, together with government finance and pricing authorities, is also responsible for formulating administrative rules relating to the establishment of a universal service fund and compensation schemes for universal services. These rules have not yet been promulgated, and there are currently no specific regulatory requirements relating to the provision of universal services in China.

While specific universal services obligations are not yet clear, we believe that such services may include mandatory provision of basic telecommunications services in less economically developed areas in China and mandatory contribution by telecommunications service providers to a universal service fund. In addition, as part of the transitional measures prior to the formalization of a universal service obligation framework, the MIIT has required major telecommunications service providers in China, including Unicom Group, to participate in a project to provide telephone and broadband access services in tens of thousands of remote villages in China. See B. Business Overview Regulatory and Related Matters Universal Services under Item 4.

Table of Contents

We cannot predict whether the PRC Government will specifically require us to undertake universal service obligations in the future. To the extent we are required to do so, it is currently uncertain whether we will be adequately or timely compensated by the PRC Government or by the universal service fund. We cannot assure you that we will be able to realize an adequate return on investments for expanding networks to, and providing telecommunications services in, less economically developed areas due to potentially higher capital expenditure requirements, lower usage by customers and lack of flexibility in setting our tariffs. We also cannot predict whether we will be required to make a contribution to the universal service fund. Any of these events may adversely affect our financial condition and results of operations.

Actual or perceived health risks associated with the use of mobile devices could impair our ability to retain and attract customers of our mobile services, reduce mobile service usage or result in litigation.

Concerns have been expressed in some countries that the electromagnetic signals emitted by wireless telephone handsets and base stations may pose health risks at exposure levels below existing guideline levels, and interfere with the operation of electronic equipment. In addition, mobile operators have been subject to lawsuits alleging various health consequences as a result of mobile handset usage or proximity to base stations or seeking protective or remedial measures. While we are not aware that such health risks have been substantiated, there can be no assurance that the actual, or perceived, risks associated with the transmission of electromagnetic signals will not impair our ability to retain customers and attract new customers, reduce mobile service usage or result in litigation.

Risks Relating to Doing Business in China

Our operations may be materially adversely affected by changes in China's economic, political and social conditions.

Substantially all of our business operations are conducted in China and substantially all of our revenue is derived from our operations in China. Accordingly, our business, financial condition, results of operations and prospects are affected to a significant degree by economic, political and social conditions in China. The PRC economy differs from the economies of most developed countries in many respects, including with respect to the extent of government involvement, level of development, growth rate, and control of foreign exchange and allocation of resources. While the PRC economy has experienced significant growth in the past three decades, growth has been uneven across different regions and among various economic sectors. The PRC Government has implemented various measures to encourage economic development and guide the allocation of resources. Some of these measures benefit the overall PRC economy, but may also have a negative effect on us. For example, our financial condition and results of operations may be materially adversely affected by government control over capital investments.

In addition, if China's economic growth slows down, our subscribers' usage of our services may decrease and we may experience increased difficulties in retaining existing subscribers or acquiring new subscribers, which could materially and adversely affect our business, as well as our financial condition and results of operations.

If the PRC Government revises the current regulations that allow a foreign-invested enterprise to pay foreign exchange in current account transactions, our operating subsidiary's ability to satisfy its foreign exchange obligations and to pay dividends to us in foreign currencies may be restricted.

The ability of our major operating subsidiary, CUCL, to satisfy its foreign exchange obligations and to pay dividends to us depends on existing and future foreign exchange regulations in China. The Renminbi is currently convertible by foreign-invested enterprises in China to settle transactions under the current account, which include trade and service related foreign exchange transactions and payments of dividends. The Renminbi currently cannot be freely converted without regulatory approval for transactions under the capital account, which includes outbound foreign investment and payments on foreign loans. CUCL, which holds substantially all of our assets and through which we conduct substantially all of our business, is a foreign-invested enterprise in China. However, there is no assurance that in the future the relevant PRC government authorities will not impose any limitation on the ability of foreign-invested enterprises to purchase foreign exchange to satisfy their foreign exchange obligations or to pay dividends. In that event, CUCL's ability to satisfy its foreign exchange obligations and to pay dividends to us in foreign currencies may be restricted and the interests of our shareholders may, in turn, be affected.

Table of Contents

Fluctuations in the value of the Renminbi could adversely affect the prices of our shares and ADSs as well as our profitability.

Substantially all of our revenue and costs and expenses are denominated in Renminbi, while a portion of our borrowings, equipment purchases and other capital expenditures are denominated in foreign currencies. On July 21, 2005, the PRC Government changed its decade-old policy to permit Renminbi to fluctuate within a narrow and managed band against a basket of certain foreign currencies determined by the People's Bank of China, or the PBOC. On May 19, 2007, the PBOC announced a policy to further expand the maximum daily floating range of RMB trading prices against the U.S. dollar in the inter-bank spot foreign exchange market. With the increased floating range of the Renminbi's value against foreign currencies, the Renminbi may appreciate or depreciate significantly in value against the U.S. dollar or other foreign currencies in the long term, depending on the fluctuation of the basket of currencies against which it is currently valued, or it may be permitted to enter into a full float. Increased fluctuations of the Renminbi could adversely affect the value in foreign currency terms of cash flow generated from our operations or any dividends payable on our shares and ADSs, and therefore the price of our shares and ADSs. Any future Renminbi devaluations could also increase our equipment importation costs or lead to significant fluctuations in the exposure of our foreign-currency-denominated liabilities, thereby adversely affecting our profitability.

Uncertainties in the PRC legal system could limit the legal protections available to us and to foreign investors and materially adversely affect our financial condition, results of operations and growth prospects.

Our wholly-owned operating subsidiary, CUCL, is organized under the laws of PRC and is generally subject to laws and regulations applicable to foreign-invested enterprises in China. The Chinese legal system is a civil law system based on written statutes. Unlike common law systems, it is a system in which decided legal cases may be cited for reference but have limited precedential value. Since 1979, the PRC Government has promulgated laws and regulations dealing with economic matters such as foreign investment, corporate organization and governance, commerce, property, taxation and trade. However, because these laws and regulations are relatively new, and because of the relatively limited volume of published cases and their non-binding nature, interpretation and/or enforcement of these laws and regulations involves uncertainties, which may limit the remedies available to you as an investor and to us in the event of any claims or disputes with third parties. In addition, any litigation in China may be protracted and result in costs and diversion of resources and management attention. Therefore, the protection provided by the PRC legal system may not be the same as the legal protection available to investors in the United States or elsewhere. Furthermore, various uncertainties involved in the rulemaking, interpretation and enforcement process of the laws, regulations and rules in China that are related to our business operations, in particular, those in respect of telecommunications and enterprise income tax, may also materially and adversely affect our financial condition, results of operations and growth prospects.

Since we are a Hong Kong company, you will not have certain investor rights as our shareholder, such as the right to bring legal action against other shareholders on behalf of the company.

We were incorporated in Hong Kong. The Hong Kong Companies Ordinance does not provide for any right for our shareholders, including our significant shareholders, to bring legal action against any other shareholder on our behalf to enforce any claim against such party or parties if we fail to enforce such claim ourselves.

Table of Contents

You may experience difficulties in effecting service of legal process and enforcing judgments against us and our management.

Most of our current operations are conducted in China and most of our assets are located in China. In addition, five out of eleven of our current directors and all of our current executive officers reside within China, and substantially all of the assets of these persons are located within China. As a result, it may not be possible to effect service of process within the United States or elsewhere outside China upon these directors or executive officers, including with respect to matters arising under U.S. federal securities laws or applicable state securities laws. Moreover, our PRC counsel has advised us that China does not have treaties with the United States or many other countries providing for the reciprocal recognition and enforcement of court judgments. Our Hong Kong counsel has also advised us that Hong Kong has no arrangement for the reciprocal enforcement of judgments with the United States. As a result, recognition and enforcement in China of judgments of a court of the United States or any other jurisdiction, including judgments against us or our directors, executive officers, underwriters or experts, may be difficult or impossible.

Natural disasters and health hazards in China may severely disrupt our business and operations and may severely restrict the level of economic activities in affected areas which in turn may have a material adverse effect on our financial condition and results of operations.

In 2008, we experienced severe sleet and snowstorms in southern China and a devastating earthquake in Sichuan province. Those natural disasters resulted in significant and extensive damage to our base stations and network equipment. Moreover, certain countries and regions, including China, have encountered incidents of the H5N1 strain of bird flu, or avian flu, as well as severe acute respiratory syndrome, or SARS, over the past several years and, more recently in 2009, the outbreak of influenza A (H1N1). In 2010, another major earthquake registering 7.1 on the Richter scale struck Qinghai Province. We are unable to predict the effect, if any, that any other future natural disasters and health hazards may have on our business. Any future natural disasters and health hazards may, among other things, significantly disrupt our ability to adequately staff our business, and may generally disrupt our operations. Furthermore, natural disasters and health hazards may severely restrict the level of economic activities in affected areas, which may in turn materially adversely affect our business and prospects. As a result, any natural disasters or health hazards in China may have a material adverse effect on our financial condition and results of operations.

Our investors do not have the benefit to rely on the Public Company Accounting Oversight Board inspection of our independent registered public accounting firm.

As a company registered with the U.S. Securities and Exchange Commission, or the SEC, and traded publicly in the United States, our independent registered public accounting firm is required by the laws of the United States to be registered with the Public Company Accounting Oversight Board, or the PCAOB, and undergo regular inspections by the PCAOB to assess its compliance with the laws of the United States and professional standards. The PCAOB, however, is currently unable to inspect a registered public accounting firm's audit work relating to a company's operations in China where the documentation of such audit work is located in China. Accordingly, our independent registered public accounting firm's audit of our operations in China is not subject to the PCAOB inspection. As a result, our investors do not have the benefit of the PCAOB inspection of our independent registered public accounting firm's audit works and quality control procedures.

Risk Relating to our ADSs

Holders of our ADSs will not have the same voting rights as the holders of our shares and may not receive voting materials in time to be able to exercise their right to vote.

Except as described in this annual report and in the deposit agreement, holders of our ADSs will not be able to exercise voting rights attaching to the shares represented by our ADSs on an individual basis. Holders of our ADSs will receive proxy materials with respect to matters to be voted on at a meeting of shareholders through the depositary and may only exercise voting rights by appointing the depositary or its nominee as their representative to exercise the voting rights attaching to the shares represented by the ADSs. Consequently, if the materials to be forwarded to holders of ADSs by the depositary are delayed or if the depositary sets deadlines by which holders of ADSs must give their instructions regarding how to vote that fall too soon after mailing of the proxy materials, the holders of our ADSs may not receive voting materials in time to instruct the depositary to vote. Thus, it is possible that such holders, or persons who hold their ADSs through brokers, dealers or other third parties, may not have the opportunity to exercise a right to vote.

Item 4. Information on the Company

A. *History and Development of the Company*

We were incorporated under the laws of Hong Kong on February 8, 2000 under the Companies Ordinance as a company limited by shares under the name China Unicom Limited. In connection with the telecommunications industry restructuring initiated by the MIIT, the NDRC and the MOF in 2008 as discussed below, we merged with China Netcom and changed our name to China Unicom (Hong Kong) Limited with effect from October 15, 2008. Following our merger with China Netcom, we became an operator providing a full range of telecommunications services, including mobile and fixed-line services, in China.

Our registered office and principal executive offices are located at 75th Floor, The Center, 99 Queen's Road Central, Hong Kong (telephone number: 852-2126-2018).

Restructurings of the Telecommunications Industry

Since 1993, the PRC Government has implemented a number of measures to restructure and introduce competition in the telecommunications industry. Prior to July 1994, China Telecom was the sole provider of telecommunications services in China. In July 1994, Unicom Group was established in accordance with the State Council's approval to introduce orderly competition in the telecommunications industry. Since then, the PRC Government has approved Jitong Network Communications Company Limited, or Jitong, and China Netcom Corporation Ltd., or CNCL, to provide Internet protocol, or IP, telephony, Internet and data services. It has also approved China Tietong to provide most telecommunications services other than mobile services.

In 1999, the State Council approved a plan to restructure the former China Telecom along four business lines: fixed-line, mobile, paging and satellite communications. As a result of the restructuring, China Telecom retained the fixed-line, data and Internet businesses, while China Mobile assumed the mobile business previously operated by China Telecom. In 2002, the PRC Government further separated China Telecom into two companies, with the southern company retaining the name of China Telecom and assets and businesses in 21 provinces in southern China and the northern company retaining assets and businesses in 10 provinces in northern China and merging with CNCL and Jitong to form China Netcom. As a result of the PRC Government's efforts to introduce competition in the telecommunications industry, there are currently more than one service providers in most of the sectors within the telecommunications industry.

On May 24, 2008, the MIIT, the NDRC and the MOF issued a joint announcement relating to the further reform of the PRC telecommunications industry. According to the joint announcement, the principal objectives of such further reform included, among others: (i) supporting the formation of three telecommunications services providers of comparable scale and standing, each with nationwide network resources, full-service capabilities and competitive strength, in order to help optimize the allocation of telecommunications resources and foster market competition; (ii) promoting homegrown innovation by telecommunications services providers; and (iii) enhancing the service capabilities and quality of, and the regulatory framework governing, the telecommunications industry. To achieve these objectives, the three ministries encouraged the following restructuring transactions: (a) the acquisition by China Telecom of the CDMA network (including both assets and subscriber base) then owned by Unicom Group; (b) the merger between China Unicom and China Netcom; (c) the transfer of the basic telecommunications services business operated by China Satellite into China Telecom; and (d) the consolidation of China Tietong into China Mobile. The detailed implementation plans relating to these restructuring transactions were subsequently formulated by the relevant parties and, as a result, China Mobile, China Telecom and we became the current three major telecommunications operators in China, each providing a full range of telecommunications services nationwide.

Table of Contents

Sale of CDMA Business, Merger with China Netcom and Related Transactions

Disposal of CDMA Business and Related Transactions

Pursuant to the 2008 telecommunications industry restructuring announcement, on June 2, 2008, we, CUCL and China Telecom entered into a CDMA business disposal framework agreement, under which CUCL agreed to sell, and China Telecom agreed to purchase, the CDMA business of CUCL, including (i) the entire CDMA business, which is owned and operated by CUCL, together with the assets of CUCL that are relevant to the CDMA operations and the rights and liabilities of CUCL relating to its CDMA subscribers; (ii) the entire equity interest in China Unicom (Macau) Company Limited, our wholly-owned subsidiary; and (iii) all of the 99.5% equity interest in Unicom Huasheng Telecommunications Technology Company Limited, a limited liability company incorporated under the laws of the PRC, held by CUCL.

On July 27, 2008, we, CUCL and China Telecom further entered into a CDMA business disposal agreement which set out the detailed terms and conditions of the CDMA business disposal. The consideration for the CDMA business disposal was RMB43.8 billion in cash, payable in three installments. While the consideration was subject to a price adjustment mechanism based on the CDMA service revenue generated by us for the six months ended June 30, 2007 and June 30, 2008, as agreed with China Telecom, there was no subsequent adjustment to the consideration as a result of the price adjustment mechanism.

On July 27, 2008, in connection with the CDMA business disposal, CUCL agreed (i) to waive its right to exercise its option to purchase the CDMA network from Unicom New Horizon, a wholly-owned subsidiary of Unicom Group, and (ii) to terminate the CDMA lease pursuant to which CUCL leased capacity on the CDMA network from Unicom New Horizon, in each case with effect upon the completion of the CDMA business disposal.

At our shareholders' meeting held on September 16, 2008, our shareholders approved the CDMA business disposal and our independent shareholders approved the waiver by CUCL of the option to purchase the CDMA network and the termination of the CDMA lease. As all of the conditions of the CDMA business disposal as specified in the CDMA business disposal agreement had been satisfied or deemed to have been satisfied, the CDMA business disposal was completed on October 1, 2008. On that date, China Telecom became the legal owner of the CDMA business and all the rights, interests, obligations and liabilities in relation to the CDMA business have been borne by China Telecom with effect from October 1, 2008. We recognized in our statements of income for the year ended December 31, 2008 a gain on disposal of the CDMA business of approximately RMB26.1 billion, net of corresponding income tax of approximately RMB9.0 billion.

In connection with the CDMA business disposal, we had been notified by Unicom Group that on June 2, 2008 and July 27, 2008, Unicom Group, Unicom New Horizon and China Telecom entered into a CDMA network framework agreement and a CDMA network disposal agreement, respectively, which set out the terms and conditions, under which Unicom Group and Unicom New Horizon agreed to sell, and China Telecom agreed to purchase, the CDMA network at a consideration of RMB66.2 billion. The disposal of the CDMA network was completed concurrently with our CDMA business disposal, on October 1, 2008.

Merger with China Netcom and Related Transactions

Merger with China Netcom

On October 15, 2008, following the approval of the merger by our shareholders and the shareholders of China Netcom at shareholders' meetings held on September 16, 2008 and September 17, 2008, respectively, and the satisfaction of all other conditions, the merger between China Unicom and China Netcom by way of a scheme of arrangement of China Netcom under Section 166 of the Hong Kong Companies Ordinance became effective. Upon the merger becoming effective, all ordinary shares of China Netcom outstanding at 5:00 p.m., Hong Kong time, on October 14, 2008 and all outstanding options to acquire China Netcom shares granted under the share option scheme of China Netcom were cancelled and new China Netcom shares were issued to us. As a result, China Netcom became our wholly-owned subsidiary and the listings of China Netcom's ordinary shares and ADSs on the HKSE and the NYSE, respectively, were withdrawn.

In connection with our merger with China Netcom, each holder of China Netcom shares was entitled to receive 1.508 of our new ordinary shares for every cancelled China Netcom share and each holder of Netcom ADSs was entitled to receive 3.016 of our new ADSs for every cancelled China Netcom ADS. A total of 10,102,389,377 of our new ordinary shares (including ordinary shares underlying our newly issued ADSs) were issued to China Netcom's shareholders as consideration for the cancellation of the China Netcom shares held by China Netcom shareholders.

Table of Contents

Furthermore, we adopted a special purpose share option scheme, pursuant to which we have granted new Unicom options to the holders of China Netcom options in consideration for the cancellation of their outstanding Netcom options (whether vested or not). The number of Unicom options granted and the exercise price of such options were determined in accordance with a formula which ensures that the value of the Unicom options received by a holder of Netcom options is equivalent to the value determined by deducting the exercise price of the relevant Netcom option from the value of HK\$27.87 per Netcom share. See E. Share Ownership Stock Incentive Schemes Special Purpose Share Option Scheme under Item 6 for further details.

As a result of our merger with China Netcom, we have become an operator providing a full range of telecommunications services to our customers, including mobile voice and value-added, fixed-line voice and value-added, fixed-line broadband, data communications and other telecommunications services. Following the merger, we have taken measures to combine the respective experience and technologies of Unicom and China Netcom and develop business strategies, taking into account current market developments, to promote business innovation and competitiveness and to improve operating and financial performance. By combining the resources and business strengths of Unicom and China Netcom in different areas, we seek to become a world-class provider of telecommunications services, in particular in fixed-line broadband communications and information services, establish competitive advantages in our technologies, products and services and provide professional and multi-tiered information services to satisfy the changing and diverse needs of the telecommunications market in China.

Change of Company Name

Upon our merger with China Netcom becoming effective on October 15, 2008, our name changed from China Unicom Limited to China Unicom (Hong Kong) Limited. Our stock trading code on the HKSE and our ticker symbol on the NYSE remain unchanged.

Related Transactions

As part of our integration with China Netcom, our wholly-owned subsidiary, CUCL, merged with China Netcom (Group) Company Limited, or CNC China, a wholly-owned subsidiary of China Netcom, in January 2009, and upon that merger becoming effective, CUCL assumed all the rights and obligations of CNC China, and all the assets, liabilities and business of CNC China were vested in CUCL. In addition, in January 2009, Unicom Group, our parent company, merged with and absorbed Netcom Group, the parent company of China Netcom. Upon completion of the merger between Unicom Group and Netcom Group, Unicom Group assumed all the rights and obligations of Netcom Group, and all the assets, liabilities and business of Netcom Group have vested in Unicom Group.

History and Corporate Development of China Netcom

China Netcom was incorporated in Hong Kong on October 22, 1999, under the Hong Kong Companies Ordinance as a company limited by shares under the name Target Strong Limited. The company changed its name to China Netcom (Hong Kong) Corporation Limited on December 9, 1999, to China Netcom Corporation (Hong Kong) Limited on August 4, 2000, and to China Netcom Group Corporation (Hong Kong) Limited on July 23, 2004 (the last name change in anticipation of its IPO in 2004).

China Netcom's principal operating subsidiary, CNC China, which merged with, and was absorbed by, CUCL in January 2009, was incorporated as a PRC limited liability company in August 1999 by its four founders and shareholders, the Academy of Sciences, INC-SARFT, CRTC and Shanghai Alliance, as a facilities-based telecommunications operator in China. China Netcom was established in October 1999 to facilitate investments by foreign investors, including CNC Fund, L.P., in CNC China. Shortly thereafter, the four founders, using their respective equity interests in CNC China as capital contributions, established China Netcom (Holdings) Company Limited which in turn contributed its entire interests in CNC China through CNC BVI to China Netcom. China Netcom, through China Netcom Corporation International Limited, established Asia Netcom in 2002. Asia Netcom remained inactive until it acquired substantially all the assets, including cash, and most of the subsidiaries, of the former Asia Global Crossing Ltd. by the end of 2003.

Table of Contents

China Netcom successfully completed its IPO in November 2004 with the listing of its ordinary shares on the HKSE and ADSs, each representing 20 of its ordinary shares, on the NYSE.

In October 2005, China Netcom acquired from CNC BVI the entire equity interests of China Netcom Group New Horizon Communications Corporation (BVI) Limited, or CNC New Horizon BVI, which merged into CNC China in November 2006. As a result of the merger, China Netcom acquired the fixed-line telecommunications assets and related liabilities in Heilongjiang Province, Jilin Province, the Inner Mongolia Autonomous Region and Shanxi Province. In August 2006, China Netcom sold the entire equity interest in Asia Netcom, which then provided international telecommunications services in the Asia-Pacific region, to Connect Holdings Limited. In February 2007, China Netcom sold its telecommunications assets, liabilities and business operations in Guangdong Province and Shanghai Municipality to Netcom Group. In December 2007, China Netcom's wholly-owned subsidiary, China Netcom Group System Integration Limited Corporation, or China Netcom System Integration, acquired the entire equity interest in Design Institute from China Netcom Group Beijing Communications Corporation, a wholly-owned subsidiary of Netcom Group, in order to develop two of its key information and communication technologies, or ICT, services.

Our Parent Company and Our Initial Public Offering

Our ultimate controlling shareholder is Unicom Group, a company incorporated under the laws of the PRC and majority-owned by the PRC Government. Unicom Group was established in accordance with the State Council's approval to introduce orderly competition in the telecommunications industry in 1994.

Unicom Group transferred certain of its telecommunications assets, rights and liabilities to CUCL (which became our wholly-owned subsidiary in China) in April 2000 in preparation for our IPO. In June 2000, we successfully completed our IPO. Our ordinary shares are listed on the HKSE and our ADSs, each representing ten of our ordinary shares, are listed on the NYSE.

Unicom Acquisitions and Sales

In December 2002 and December 2003, respectively, we completed our acquisitions from Unicom Group of 100% of the equity interests in Unicom New Century and Unicom New World, both of which held mobile telecommunications operations (including GSM assets and business and CDMA business) in various provinces and autonomous regions in China. Subsequent to the completion of those acquisitions, Unicom New Century and Unicom New World merged into CUCL in July 2004 and September 2005, respectively.

In March 2003, we completed the sale to Unicom Group of the entire equity interest of Guoxin Paging Corporation Ltd., which at the time of transfer was engaged in paging business.

In September 2004, we acquired from Unicom Group of 100% of the equity interest in China Unicom International Limited, or Unicom International, a limited liability company established in Hong Kong and engaged in voice wholesale business, telephone cards business, line leasing services, managed bandwidth services and mobile virtual network services. In September 2009, the name of China Unicom International Limited was changed to China Unicom (Hong Kong) Operations Limited. Unicom International's wholly-owned U.S. subsidiary, China Unicom USA Corporation, is engaged in the wholesale business of voice traffic between the United States and PRC. In August 2009, the name of China Unicom USA Corporation changed into China Unicom (Americas) Operations Limited upon the completion of its merger with China Netcom (USA) Operations Limited, a subsidiary of China Netcom.

In October 2004, we established China Unicom (Macau) Company Limited, or Unicom Macau, in Macau, which then provided CDMA mobile services to local CDMA users in Macau. In connection with the disposal of our CDMA business in October 2008, we sold the entire equity interest in Unicom Macau to China Telecom along with our other CDMA business and certain related assets.

In July 2005, CUCL and Unicom Xingye Science and Technology Trade Co., Ltd., or Unicom Xingye, a subsidiary of Unicom Group, incorporated Unicom Huasheng. Unicom Huasheng was principally engaged in the sales of CDMA handsets and telecommunications equipment and the provision of technical services for us. In connection with the disposal of our CDMA business in October 2008, CUCL sold all of the 99.5% equity interest it held in Unicom Huasheng to China Telecom.

Table of Contents

In December 2007, we completed the acquisition from Unicom Group of the mobile telecommunications operations (including GSM assets and business and CDMA business) of its Guizhou Province branch. As a result of the acquisitions of Unicom New Century, Unicom New World and Unicom Guizhou, we extended our GSM and CDMA mobile businesses to all provinces, autonomous regions and municipalities across China.

On August 19, 2008, CUCL established a wholly-owned subsidiary, Unicom Huakai Telecommunications Company Limited, or Unicom Huakai, as a limited liability company under the laws of the PRC. Unicom Huakai is principally engaged in the sales of handsets and telecommunications equipment and the provision of technical services. The paid-in capital of Unicom Huakai is RMB500 million. On December 26, 2008, the name of Unicom Huakai was changed to Unicom Vsens Telecommunications Company Limited.

Acquisitions of Fixed-Line Business in 21 Provinces in Southern China and Other Assets from Parent Companies and Lease of Telecommunications Networks in 21 Provinces in Southern China

Following the approval by our independent shareholders and the shareholders of the A Share Company and upon the satisfaction of all other conditions, in January 2009, we completed our acquisitions, through CUCL, of certain telecommunications business and assets from Unicom Group and Netcom Group (which merged with, and was absorbed by, Unicom Group in January 2009), including:

the fixed-line business across 21 provinces in southern China operated by Unicom Group and Netcom Group and/or their respective subsidiaries and branches (but not the underlying fixed assets) and the local access telephone business in Tianjin Municipality operated by Unicom Group and related fixed assets (other than land and buildings) necessary for the operation of such local access telephone business and/or respective subsidiaries and branches;

the backbone transmission assets in 10 provinces in northern China owned by Netcom Group and/or its subsidiaries;

100% of the equity interest in Unicom Xingye, a limited liability company incorporated under the laws of the PRC and a wholly-owned subsidiary of Unicom Group;

100% of the equity interest in China Information Technology Designing & Consulting Institute Company Limited, or CITC, a limited liability company incorporated under the laws of the PRC and a wholly-owned subsidiary of Unicom Group; and

100% of the equity interest in New Guoxin Telecom Corporation of China Unicom, or New Guoxin, a limited liability company incorporated under the laws of the PRC and a wholly-owned subsidiary of Unicom Group.

The total consideration for the above acquisitions is approximately RMB4.43 billion, payable in cash. Following the completion of these acquisitions, the coverage of our fixed-line services expanded to all 31 provinces, autonomous regions and municipalities across China. We believe that these acquisitions will help integrate and optimize our business and resources and enhance our overall competitive position.

In addition, in order to operate the fixed-line business in the 21 provinces in southern China, on December 16, 2008, CUCL entered into a network lease agreement, or the initial network lease agreement, with Unicom Group, Netcom Group and Unicom New Horizon, a wholly-owned subsidiary of Unicom Group, to lease on an exclusive basis the telecommunications networks in those provinces, which are held by Unicom New Horizon and are necessary for the operation of the fixed-line business in southern China. The initial network lease agreement became effective in January 2009 upon the completion of our acquisitions of the fixed-line business in southern China and was for an initial term of two years effective from January 2009. On October 29, 2010, CUCL entered into a network leasing agreement, or the 2011-2012 network lease agreement, with Unicom New Horizon, which was for an initial term of two years effective from January 1, 2011 and was renewable at the option of CUCL with at least two months' prior notice on the same terms and conditions, except for the future lease fee which will remain subject to further negotiations between the parties. The annual lease fee paid by CUCL under the 2011-2012 network lease agreement for the years ending December 31, 2011 and 2012 was RMB2.4 billion and RMB2.6 billion, respectively. In December 2012, CUCL acquired the entire equity interest in Unicom New Horizon. See 2012 Acquisition.

Mutual Investment with Telefónica, S.A.

On September 6, 2009, we entered into a share subscription agreement with Telefónica, S.A., or Telefónica, one of our shareholders, to strengthen our cooperation. Pursuant to this agreement, we and Telefónica agreed to make a mutual investment in the amount of the equivalent of US\$1 billion in each other through acquisitions of shares in the other party. On October 21, 2009, we and Telefónica completed such mutual investments which were implemented by way of the subscription by Telefónica of 693,912,264 new ordinary shares in the capital of our company at a price of HK\$11.17 each and the contribution by Telefónica of 40,730,735 treasury shares in the capital of Telefónica at a price of Euro17.24 each to us. In addition, on September 6, 2009, we entered into a strategic alliance agreement with Telefónica, pursuant to which Telefónica and we agreed to establish a strategic alliance to strengthen the business of each party and achieve synergies by cooperation in various fields based on our respective networks, business model and experience.

On January 23, 2011, we entered into the Agreement to Enhance the Strategic Alliance with Telefónica. Pursuant to this agreement, we acquired from Telefónica 21,827,499 ordinary shares in the capital of Telefónica for aggregate purchase price of Euro374,559,882.84 on January 25, 2011, and Telefónica, through its wholly-owned subsidiary, Telefónica International, acquired 282,063,000 ordinary shares in the capital of our company for aggregate consideration of approximately US\$500,000,000 in several transactions executed in the period between January 25, 2011 and September 7, 2011. In addition, Chang Xiaobing, our Chairman and Chief Executive Officer, as our designated representative, was appointed in May 2011 as a director on the board of directors of Telefónica.

On June 10, 2012, China Unicom Group Corporation (BVI) Limited (formerly known as China Netcom Group Corporation (BVI) Limited), or Unicom Group BVI, a wholly-owned subsidiary of Unicom Group, entered into the Share Purchase Agreement for the Sale and Purchase of Shares in China Unicom (Hong Kong) Limited, as amended, pursuant to which it had agreed to acquire from Telefónica an aggregate of 1,073,777,121 ordinary shares in the capital of our company at a price of HK\$10.02 per share and for an aggregate consideration of HK\$10,759,246,752.42. Pursuant to the agreement, Telefónica also undertook that for a period of 12 months from the date of the agreement, it shall not, directly or indirectly, sell, transfer or dispose of any of our ordinary shares held, directly or indirectly, by it as at the date of the agreement, except for any transfer of ordinary shares pursuant to the agreement or to any of its affiliates. The acquisition was completed on July 30, 2012.

2011 Acquisition

In December 2011, we completed our acquisitions through Broadband Online, a wholly-owned subsidiary of CUCL, of the entire equity interest in Unicom NewSpace from Unicom Group for a total cash consideration of RMB158 million. Unicom NewSpace primarily engages in mobile value-added business in China.

2012 Acquisition

In December 2012, we completed our acquisition through CUCL of the entire equity interest in Unicom New Horizon from Unicom Group for a total cash consideration of RMB12,165,750,000. The assets of Unicom New Horizon consist of fixed-line telecommunications network assets located in 21 provinces in southern China and the rights and liabilities of Unicom New Horizon relating to its business operations.

Table of Contents

Our Relationship with Unicom Group

Unicom Group holds the licenses required for our telecommunications businesses and we derive our rights to operate our businesses from our status as a subsidiary of Unicom Group. Unicom Group undertook to hold and maintain all licenses received from the MIIT in connection with our businesses solely for our benefit during the term of such licenses and at no cost to us. In addition, Unicom Group undertook to take all actions necessary to obtain and maintain for our benefit such governmental licenses or approvals as we shall require to continue to operate our businesses. Unicom Group also agreed not to engage in any business which competes with our businesses other than the then-existing competing businesses of Unicom Group and to grant us a right of first refusal in relation to any government authorization, license or permit, or other business opportunity to develop any new telecommunications technology, product or service. Finally, Unicom Group also gave us an undertaking not to seek an overseas listing for any of its businesses or the businesses of its subsidiaries in which we are engaged or may engage in the future, except through us.

In connection with the restructuring of Unicom Group and the acquisitions of Unicom New Century, Unicom New World and Unicom International, we entered into a number of agreements with Unicom Group pursuant to the two-step process described in A. Development and History of the Company Two-Step Voting Arrangements below. These agreements expired on December 31, 2010. On October 29, 2010, CUCL and Unicom Group entered into a new comprehensive services agreement, or the 2011 comprehensive services agreement, to provide certain services and facilities to each other for a term of three years commencing on January 1, 2011 and expiring on December 31, 2013. See B. Related Party Transactions under Item 7 for a detailed description of our agreements with Unicom Group.

Set forth below is our shareholding structure as of April 19, 2013.

Two-Step Voting Arrangements

As a result of a series of internal restructurings of Unicom Group's shareholding in us following our IPO, Unicom BVI became our direct controlling shareholder, which in turn is directly controlled by the A Share Company and indirectly controlled by the Unicom Group. The A Share Company's business is limited to indirectly holding the equity interest in Unicom without any other direct business operations. The A Share Company was listed on the Shanghai Stock Exchange in 2002. In order to allow public shareholders of the A Share Company to indirectly participate in our shareholders' meeting, a voting mechanism was designed in accordance with the articles of association of Unicom BVI and the A Share Company. Under this voting mechanism, before Unicom BVI votes on certain proposals at our shareholders' meeting, the A Share Company must first convene a shareholders' meeting to consider the same proposals in order to direct Unicom BVI to vote the shares in our company indirectly held by the A Share Company through Unicom BVI. Unicom Group can similarly direct the voting in respect of its direct equity interest in Unicom BVI.

Table of Contents

The voting mechanism described above, however, will not apply to the approval process for any related party transaction between us or our subsidiaries and Unicom Group or its subsidiaries, on which Unicom BVI will not be permitted to vote under the Rules Governing the Listing of Securities on HKSE, or the HKSE Listing Rules. Those related party transactions would require the separate approvals of the public shareholders of each of our company and the A Share Company. We and the A Share Company therefore created the two-step voting arrangements, pursuant to which each related party transaction between us or our subsidiaries and Unicom Group or its subsidiaries will consist of an initial agreement and a further agreement. The initial agreement would be entered into by Unicom Group or its subsidiaries (excluding the A Share Company and its subsidiaries) on the one hand and the A Share Company or Unicom BVI on the other hand. The initial agreement would contain the following terms:

the closing of the initial agreement would be subject to (i) the successful transfer of all rights and obligations of the A Share Company or Unicom BVI under the initial agreement to us or our subsidiaries, and (ii) the approval of the further agreement by our independent shareholders; and

Unicom Group or its subsidiaries (excluding the A Share Company and its subsidiaries) would agree and acknowledge that all rights and obligations under the initial agreement can be transferred to us or our subsidiaries without any further consent requirements.

The initial agreement will constitute a related party transaction of the A Share Company and, if certain thresholds are met, will require the approval of the public or independent shareholders of the A Share Company under the rules of the Shanghai Stock Exchange. The further agreement would be entered into by the A Share Company or Unicom BVI, on the one hand, and us or our subsidiaries, on the other hand, and will provide for the transfer of all rights and obligations of the A Share Company or Unicom BVI under the initial agreement to us or our subsidiaries. The further agreement will constitute a related party transaction of our company and, if certain thresholds are met, will require the approval of our public or independent shareholders under the HKSE Listing Rules. We expect, to the extent the nature of a particular related party transaction allows, the two-step voting arrangements to apply as described above. However, when we or our subsidiaries are the providers, rather than recipients, of certain services, the two-step voting arrangements will need to be adjusted so that the process as described above is effectively reversed, such that the initial agreement is entered into by us or our subsidiaries rather than Unicom Group or its subsidiaries (excluding the A Share Company and its subsidiaries) with the A Share Company or Unicom BVI. Accordingly, Unicom Group or its subsidiaries (excluding the A Share Company and its subsidiaries), rather than us or our subsidiaries, will be a party to the further agreement. The arrangements (including the conditions) will apply correspondingly. This two-step structure will be applied in all related party transactions between us or our subsidiaries and Unicom Group or its subsidiaries and will effectively require the separate approvals of the public or independent shareholders of each of Unicom and the A Share Company for such related party transactions.

Capital Expenditures and Divestitures

See **Liquidity and Capital Resources** **Capital Expenditures** under Item 5 for information concerning our principal capital expenditures for the previous two years and those planned for 2013. We currently do not have any significant divestiture in progress.

B. Business Overview **General**

We are an integrated telecommunications operator in China providing mobile voice and value-added, fixed-line voice and value-added, fixed-line broadband, data communications and other telecommunications services to our customers. We, China Mobile and China Telecom are the three major telecommunications operators in China. See **A. History and Development of the Company** **Restructurings of the Telecommunications Industry**.

Table of Contents

In 2012, 3G services continued to be the largest driver of our revenue growth. The total number of our 3G subscribers increased significantly from 40.02 million as of December 31, 2011 to 76.46 million as of December 31, 2012, and service revenue from our 3G services increased by 82.6% from RMB32.74 billion in 2011 to RMB59.80 billion in 2012. As a percentage of our total service revenue from mobile services, service revenue from 3G services increased from 31.7% in 2011 to 47.4% in 2012. In addition, our fixed-line broadband services continued to grow. Service revenue from fixed-line broadband services increased by 11.8% compared with 2011, accounting for 47.3% of total service revenue from the fixed-line services (in respect of 2011, excluding fixed-line upfront connection fees of RMB15 million).

Mobile Services

Our mobile services consist of GSM and 3G mobile services. Our revenue from mobile services, number of mobile services subscribers and usage of mobile services continued to grow in 2012, primarily driven by the growth of our 3G mobile services. Revenue from our mobile services was RMB164.77 billion in 2012, of which, service revenue from our mobile services increased by 22.0% from RMB103.31 billion in 2011 to RMB126.04 billion in 2012, accounting for 55.6% and 60.0% of our total service revenue in 2011 and 2012, respectively (excluding fixed-line upfront connection fees of RMB15 million in 2011).

The following table sets forth selected historical information for our mobile operations and our subscriber base for the periods indicated.

	As of or for the year ended December 31,		
	2010	2011	2012
Number of subscribers (in thousands)	167,426	199,660	239,312
Estimated market share in our service areas ⁽¹⁾	19.9%	20.5%	21.6%
Average minutes of usage per subscriber per month (MOU) ⁽²⁾	280.5	303.8	306.4
Average revenue per subscriber per month (ARPU) (in RMB) ⁽³⁾	43.7	47.3	47.9

(1) Market share in a given area is determined by dividing the number of our mobile subscribers in the area by the total number of mobile subscribers in the area.
Source: Data publicly disclosed by the mobile operators.

(2) MOU is calculated by dividing the total minutes of usage during the period by the average number of our mobile services subscribers during the period, and dividing the result by the number of months in the relevant period.

(3) ARPU is calculated by dividing the sum of revenue from mobile services during the relevant period by the average number of our mobile services subscribers during the period, and dividing the result by the number of months in the period.

Our total number of mobile subscribers increased by 19.9% from 199.7 million as of December 31, 2011 to 239.3 million as of December 31, 2012, which was mainly due to the increase in our 3G subscribers. The MOU of our mobile services increased from 303.8 minutes in 2011 to 306.4 minutes in 2012. The increase was mainly because the subscribers of our 3G services, which has significantly higher MOU than our GSM services, as a percentage of the total number of our mobile subscribers has increased by 11.9 percentage points from 20.0% as of December 31, 2011 to 31.9% as of December 31, 2012. The overall ARPU of our mobile services increased by 1.3% from RMB47.3 in 2011 to RMB47.9 in 2012 despite the ARPU of each of our GSM and 3G services continued to decrease in 2012 compared to 2011. This was mainly due to the continuing change of revenue mix between our GSM services and 3G services. 3G services have a significantly higher ARPU than GSM services. As the service revenue from 3G services increased as a percentage of total service revenue from the mobile services from 31.7% in 2011 to 47.4% in 2012, the overall ARPU of our mobile services increased.

3G Mobile Services

In January 2009, our parent company, Unicom Group, received a 3G license to operate a 3G business based on the WCDMA technology nationwide in China and, with the approval of the MIIT, authorized our major wholly-owned subsidiary, CUCL, to operate this business. We launched our 3G operations on a trial basis in 55 cities in China under the brand WO in May 2009 and began commercial 3G operations in 285 cities in China on October 1, 2009. Our 3G mobile services primarily consist of 3G voice services and 3G non-voice services. Our 3G voice services enable our subscribers to make and receive phone calls with a mobile handset at any point within the coverage area of our mobile telecommunications networks. Our 3G non-voice services primarily include wireless Internet, mobile TV, mobile reading, mobile music, WO

App Store , WO Friend and other wireless information services.

Table of Contents

Subscriber. Our total number of 3G subscribers increased by 91.0% from 40.02 million as of December 31, 2011 to 76.46 million as of December 31, 2012 (which includes 5.65 million wireless data card subscribers). The increase was primarily due to our efforts in developing our 3G services, including expanding and enhancing the sales capabilities of distribution channels, improving 3G tariff package offerings, optimizing 3G contract plans and promoting integrated 2G and 3G services.

MOU and ARPU. With respect to our 3G mobile services, MOU decreased by 22.5% from 635.3 minutes in 2011 to 492.3 minutes in 2012 and ARPU decreased by 21.7% from RMB110.0 in 2011 to RMB86.1 in 2012. The decrease in our MOU and ARPU is mainly attributed to our business strategy to increase the number of our subscribers, which resulted in an increased proportion of new subscribers who are users with relatively lower usage of telecommunications services.

3G Voice Services. The total 3G voice usage increased from 169.5 billion minutes in 2011 to 313.1 billion minutes in 2012, primarily as a result of the increase in our 3G subscribers.

3G Non-Voice Services. In 2012, 3G data usage reached 155.12 billion MB, representing an increase by 95.0% from 79.56 billion MB in 2011, which was largely due to an increase in the number of our 3G subscribers, as well as the popularity of smartphones and our efforts in developing innovative new applications and promoting subscribers' data usage. The average data usage per 3G smartphone user per month was 256 MB in 2012. As of December 31, 2012, we had 18.94 million registered subscribers of iWO App Store and 22.15 million registered subscribers of mobile music.

GSM Mobile Services

Our GSM mobile services primarily consist of GSM voice services and non-voice services. Our GSM voice services enables our subscribers to make and receive phone calls with a mobile handset at any point within the coverage area of our mobile telecommunications networks and includes local calls, domestic long distance calls, international long distance calls, intra-provincial roaming, inter-provincial roaming and international roaming. Our GSM non-voice services include mobile Internet, SMS, iCool Ringtone (a personalized ring-back tone service) and other wireless information services.

Subscriber. Our total number of GSM mobile subscribers increased by 2.0% from 159.64 million as of December 31, 2011 to 162.86 million as of December 31, 2012. We believe that this growth was attributable to a number of factors, including, among others, (i) the continued growth of the Chinese mobile telecommunications market, and (ii) our sales and marketing efforts in retaining existing subscribers and expanding our subscriber base.

MOU and ARPU. With respect to our GSM mobile services, MOU decreased by 4.5% from 256.9 minutes in 2011 to 245.4 minutes in 2012, and ARPU decreased by 8.6% from RMB37.4 in 2011 to RMB34.2 in 2012. The decrease in our MOU and ARPU was primarily attributable to (i) the migration of certain mid- and high-end 2G subscribers to 3G network, (ii) the intensified competition among the telecommunications operators in China and (iii) the fact that a significant portion of our new users consists of users from rural areas, many of whom tend to have less usage of telecommunications services and to be more cost-sensitive than users from urban areas.

GSM Voice Services. The total voice usage of our GSM mobile services decreased by 1.9% from 484.76 billion minutes in 2011 to 475.7 billion minutes in 2012, which was primarily due to a decrease in the MOU of our GSM mobile services, despite the slight increase in the total number of our GSM mobile subscribers.

GSM Non-Voice Services. Our GSM mobile Internet subscribers increased by 18.0% from 63.60 million as of December 31, 2011 to 75.07 million as of December 31, 2012, representing an increase in the penetration rate from 39.8% to 46.1%. The data usage volume of our GSM subscribers increased by 77.4% from 160.6M in 2011 to 284.9M in 2012, which was mainly attributable to our efforts in enhancing GPRS data volume management and bundled sales and marketing, as well as the launch of EDGE, AMR and paging services for all users. A total of 61.23 billion SMSs were transmitted by our GSM mobile subscribers in 2012, representing a decrease of 18.2% compared to 2011, which was principally due to the migration of certain mid- and high-end GSM subscribers to 3G network, as well as the substitution of mobile Internet applications, such as QQ, micro message and micro blog, for our SMS service.

Table of Contents**Fixed-Line Services**

We are a leading fixed-line broadband and communications operator in northern China. Following our merger with China Netcom in October 2008, which previously provided mainly fixed-line services in 10 provinces in northern China, and our acquisition of the fixed-line business in 21 provinces in southern China from our parent companies in January 2009, we offer a wide range of fixed-line services nationwide in China, including (i) fixed-line broadband services and data communications services, (ii) fixed-line voice services, include local and long distance fixed-line voice services and value-added services and (iii) other services.

Our revenue from fixed-line services was RMB83.28 billion in 2012, of which service revenue from our fixed-line services increased by 1.9% from RMB81.63 billion in 2011 (excluding fixed-line upfront connection fees of RMB15 million) to RMB83.21 billion in 2012, accounting for 43.9% and 39.6% of our total service revenue in 2011 and 2012, respectively. In 2012, we achieved stable development in our fixed-line services, mainly attributable to the continued rapid growth in our fixed-line broadband services and our efforts in integrated mobile and fixed-line services. However, the trend of mobile services substitution of fixed-line voice services had a continuing negative impact on our fixed-line voice services.

Fixed-Line Broadband Services and Data Communications Services***Fixed-Line Broadband Services***

Fixed-line broadband services are one of our emphases as part of our strategy to focus on high growth services. The growth in fixed-line broadband services has been driven by the increasing affordability and rising use of personal computers and other Internet access devices, gradual recognition by businesses of the importance of information and the proliferation of content and applications, such as online games and video-on-demand. We are a leading provider of fixed-line broadband services in our fixed-line northern service region and we seek to maintain this leading position by capitalizing on our extensive fixed-line network, large customer base, experienced sales force, established brand and strategy of multi-service bundling.

In 2012, we further upgraded our fixed-line broadband network and improved access speed. As of December 31, 2012, our fixed-line broadband subscribers increased by 14.8% to 63.87 million, of which subscribers with 4M-and-above bandwidth accounted for 63.8% of all fixed-line broadband subscribers, representing an increase of 22.5 percentage points from the end of 2011. We also continued implementing our marketing strategy to offer integrated fixed-line broadband services with increased-speed and enhanced customer service. The total number of our subscribers of fixed-line broadband content and applications reached 19.06 million, accounting for 29.8% of all fixed-line broadband subscribers. Our fixed-line broadband ARPU decreased by 3.5% from RMB56.4 in 2011 to RMB54.4 in 2012, primarily due to intensified competition from other PRC telecommunications operators and broadband network providers.

The following table sets forth the information of our fixed-line broadband subscribers as of the dates indicated:

	2010	As of December 31, 2011	2012
Number of fixed-line broadband subscribers (in thousands)	47,224	55,651	63,869

Table of Contents*Data Communications Services*

We are a leading provider of data communications services in our fixed-line northern service region. We offer data products, such as those based on digital data networks, or DDN, frame relay, asynchronous transfer mode, or ATM, and Internet protocol-virtual private network, or IP-VPN. We also offer leased line products, including domestic and international leased circuits. Our customers for these services include government entities, large financial institutions and other domestic and multinational businesses, Internet service providers and other telecommunications operators. As of the end of 2012, we have established business cooperation relationships with more than 170 overseas operators and multinational corporate customers to provide various international data communications products and services, such as international voice and data services. In 2012, we continued to offer full-scale data communications services to international operators and domestic and international corporate customers. We have also improved our capabilities to offer cross-border data communications and integrated information services.

Fixed-line Voice Services

Our fixed-line voice services consist of local voice, domestic long distance, international long distance, interconnection and PHS services. As domestic mobile operators launched service packages at competitive prices, mobile roaming tariffs were lowered, and the migration of voice usage from fixed-line to mobile continued. In 2012, leveraging on our company's full-service advantage, we enhanced market development in areas of customer premises network, or CPN, and rural markets, as well as strengthened the marketing of integrated services. For example, we actively promoted bundled products and services marketed under the brand WO Family. As of December 31, 2012, the number of our WO Family subscribers increased by 6.50 million to 14.88 million, which resulted in an increase of 1.7% in the number of our residential, business and public telephone fixed-line voice subscribers from December 31, 2011.

As of December 31, 2012, the number of our fixed-line subscribers (including PHS subscribers) decreased by 1.0% to 91.96 million from 92.85 million as of December 31, 2011. The decrease was primarily due to a decrease in the number of our PHS subscribers. The following table sets forth the information of our fixed-line subscribers as of the dates indicated:

	2010	As of December 31, 2011 (in thousands)	2012
Number of fixed-line subscribers⁽¹⁾			
Residential	59,681	59,363	59,311
Business	15,494	17,723	19,496
PHS	13,423	7,787	5,422
Public telephones	8,037	7,978	7,728
Total	96,635	92,851	91,957

(1) Fixed-line subscribers consist of all local access lines in service as well as PHS subscribers. We calculate PHS subscribers based on the number of active telephone numbers for our PHS services. In cases where a PHS subscriber uses the same telephone number as an access line in service, the designation as a PHS subscriber or access line in service depends on which service is first activated. We increase our total number of fixed-line subscribers as soon as practicable after activation of the service. We remove a fixed-line subscriber from the total number of fixed-line subscribers as soon as practicable after the fixed-line subscriber deactivates the service voluntarily or three months after the date on which the fixed-line subscriber's bill becomes overdue.

The PRC Government issued a policy in January 2009 requiring the current wireless access systems operating on the spectrum used by PHS services to be cleared and removed from such spectrum within three years. We are in the process of encouraging our PHS subscribers to upgrade their PHS plans to our mobile plans. As a result of these efforts, the number of our PHS subscribers significantly decreased over the past few years.

Table of Contents*Local Voice Services*

As a result of mobile substitution, our fixed-line local voice traffic has continued to decrease in recent years. As fixed-line broadband services further develop, our Internet dial-up usage has also continued to decrease. The following table sets forth information regarding usage of our local voice services for the periods indicated:

	For the Year Ended December 31,		
	2010	2011	2012
Usage of local calls (pulse in millions)⁽¹⁾			
Total usage	156,724	125,944	81,820
Internet dial-up usage	1,162	668	324
Total usage excluding Internet dial-up usage	155,562	125,275	81,496

(1) Pulses are the billing units for calculating local telephone usage fees.

Long Distance Voice Services

We offer traditional long distance services and VoIP long distance services. In recent years, due to the general decline of our fixed-line services and competition from software applications that allow users to make long distance calls over the Internet, our long distance services has been adversely affected.

The following table shows the total minutes of domestic long distance calls carried through our long distance networks for the periods indicated:

	For the Year Ended December 31,		
	2010	2011	2012
Total minutes of domestic long distance calls (minutes in millions)⁽¹⁾			
Traditional	17,349	14,033	12,170
VoIP	8,879	7,036	5,520
Total	26,228	21,069	17,690

(1) Includes calls originated by prepaid phone cards users and VoIP subscribers that are carried over our long distance networks.

The following table sets forth certain information related to the usage of our international long distance services for the periods indicated:

	For the Year Ended December 31,		
	2010	2011	2012
International long distance outbound call minutes (minutes in millions)⁽¹⁾⁽²⁾			
Traditional	269	214	282
VoIP	290	270	229
Total	559	484	511

(1) Includes calls originated by prepaid phone cards users and VoIP subscribers that are carried over our international long distance networks.

(2) Includes long distance outbound calls made to Hong Kong, Macau and Taiwan.

Fixed-Line Value-Added Services

In addition to fixed-line telephone voice services, we offer a wide range of value-added services on our fixed-line networks. Our value-added services generate additional usage on our networks and increase our average revenue per fixed-line subscriber. Our major fixed-line value-added services include Personalized Ring and caller identification services. Personalized Ring services enable our fixed-line subscribers to personalize the ring-back tone for incoming calls.

Table of Contents

Interconnection and Roaming Arrangements

Interconnection

Interconnection refers to the arrangements that permit the connection of our telecommunications networks with other networks. Our mobile and fixed-line networks interconnect with Unicom Group's networks. Under current arrangements, settlement between Unicom Group and us is based on an internal settlement standard that takes into account either the internal costs of the relevant networks or the government standard applicable between third-party operators, whichever is the more favorable to us.

We earn interconnection fees for terminating or transiting calls that originate from other domestic telecommunications operators' networks and pay interconnection fees to other operators for calls originating from our networks that are terminated on their networks. We earn and pay such fees in respect of mobile calls, local and domestic and international long distance calls and Internet services. We are required to pay the interconnection fees regardless of our ability or inability to collect the tariff from our subscribers. Interconnection charges are accrued on a monthly basis based on the actual call volume and applicable tariff rates.

All interconnection and settlement arrangements among domestic telecommunications operators in China are governed by the Telecommunications Regulations and the rules on interconnection arrangements and settlement promulgated by the MIIT. Some of the agreements pursuant to which we interconnect with other domestic operators were entered into by Unicom Group. We have entered into an agreement with Unicom Group pursuant to which we have agreed with Unicom Group that the costs and benefits arising under these agreements, as they relate to our operations, will be incurred to our account.

For additional information about our domestic and international interconnection arrangements, see B. Business Overview Regulatory and Related Matters under Item 4 and B. Related Party Transactions under Item 7.

Roaming

We provide roaming services, which allow our subscribers to access our mobile services while they are physically outside of their registered service area or in the coverage areas of other mobile networks in other countries and regions with which we have roaming arrangements. As of March 31, 2013, we had roaming arrangements for (i) GSM international voice and SMS services with 570 operators in 248 countries and regions, (ii) GPRS international inbound data services with 481 operators in 203 countries and regions and for international GPRS outbound data services with 434 operators in 188 countries and regions, and (iii) 3G services with 326 WCDMA operators in 127 countries and regions.

A mobile subscriber using roaming services is charged at our roaming usage rate for both incoming and outgoing calls, plus applicable long distance tariffs. With respect to international roaming, we settle roaming charges with international operators in accordance with roaming agreements between Unicom Group and each of the international operators.

Networks

We operate an advanced network system to support our integrated operations. The backbone of the system is a nationwide fiber optic transmission network, which serves as the common platform for our mobile, fixed-line telephone, broadband and data services. We generally utilize a centralized network planning and equipment selection process, which ensures uniform nationwide design and network compatibility. After our merger with China Netcom in October 2008, we have actively integrated our network resources to improve our network quality and capacity.

Table of Contents

Mobile Networks

Our mobile network generally consists of:

cell sites, which are physical locations, each equipped with a base station that houses transmitters, receivers and other equipment used to communicate through radio channels with subscribers' mobile handsets within the range of a cell;

base station controllers, which connect to, and control, the base stations;

mobile switching centers, which control the base station controllers and the routing of telephone calls; and

a transmission network, which links the mobile switching centers, base station controllers, base stations and the public switched telephone network.

We have deployed GSM and WCDMA mobile networks. Our GSM mobile network mainly operates at 900 MHz. We have also deployed GSM technology that operates at 1800 MHz in major metropolitan areas to supplement the capacity of our existing mobile network. We use 2x6 MHz of spectrum in the 900 frequency band and 2x20 MHz of spectrum in the 1800 frequency band for our GSM network in most of our service areas. We use 2x15 MHz of spectrum in the 2100 frequency band for our WCDMA mobile network.

As of December 31, 2012, we had approximately 411,000 GSM base stations, representing an increase by 9.0% from December 31, 2011. As of December 31, 2012, our GSM network coverage reached substantially all villages and towns in China, except for certain areas in western China.

We have devoted significant resources in developing our 3G networks and have established one of the biggest WCDMA networks in the world. As of December 31, 2012, we had approximately 331,000 3G base stations, representing an increase of 38.7% from December 31, 2011. As of December 31, 2012, our 3G network coverage reached cities at county level and above throughout China as well as villages and towns in eastern and central China and developed areas of western China. In addition, in 2012, we completed the upgrade of our whole 3G networks to HSPA+ (i.e., evolved high-speed packet access) in China.

Fixed-Line Networks

We operate fixed-line networks which provide extensive coverage in China. These networks are technologically advanced and conducive to the introduction of the next generation fixed-line network and 3G technologies. These networks support a wide range of end-to-end fixed-line telecommunications services and enable customized products to be delivered to meet a variety of telecommunications needs in real-time.

Our fixed-line networks consist of fixed-line telephone networks, broadband Internet and data networks, transmission networks, value-added service platforms, IT support systems and related infrastructures. Our transmission networks consist primarily of fiber-optic based networks, which cover our major service regions, supplemented by satellite transmission and digital microwave links.

We have integrated our resources to optimize and improve the transport capabilities of our IP networks and improved our long-distance soft-switch network capability. In addition, we have fully implemented the upgrade of broadband connection speed and our broadband network capacity was substantially enhanced. By the end of 2012, the number of fixed-line broadband access ports was 108.46 million, up by 18.1% from the end of 2011, of which the number of access ports with FTTH/B accounted for 59% of total broadband access ports. Our international Internet outbound bandwidth reached 642G, our submarine cable capacity reached 2,066G, and our international cross-continental cable capacity reached 2,490G.

Table of Contents

Marketing, Sales and Distribution

Our marketing strategy is to establish our image as a full-service telecommunications service provider and utilize our comprehensive services platform and nationwide sales and distribution network. We implement our marketing and sales strategies under a single unified brand WO and distribute our services through a variety of distribution channels, consisting of (i) self-owned channels, including proprietary sales outlets and direct sales forces targeting retail and corporate customers, (ii) social channels, including cooperative sales outlets, exclusive sales outlets and agency sales outlets, and (iii) electronic distribution channels, including self-owned and third-party channels online e-stores. In recent years, we have continued developing our self-owned sales channels and strategically expanding our social channels. In particular, for our 3G services, in addition to the full use of our self-owned channels, we have also focused on using high-quality social channels, such as large brand name electronics retail chains and electronics outlets in China, to achieve better sales results. Furthermore, we continued promoting our nationwide e-sales system, which has effectively supplemented our traditional sales channels and improved our service quality.

Customer Service

We provide customer services through our nationwide sales outlets, hotline number 10010, VIP hotline number 10018, online sales outlets, handset online stores, SMSs, official micro blog and other channels. Our customer services typically include inquiries, service initiation and termination, sales and response to customer complaints and suggestions. Since 2009, we have provided 3G-dedicated customer service and have established over 300 WO brand stores to enhance our customers' experience. In recent years, we continued to improve our customer service quality and created 3G Customer Service Centers + VIP Customer Managers, a 3G-dedicated customer service model for our 3G subscribers.

Information Systems

We have established multiple information technology support systems at the headquarters level and comprehensive information systems in each province, autonomous region and municipality to support our business and management. For business support, we have established core systems composed of a customer relationship management system and a comprehensive billing and accounting system to support our business operations. In addition, we have established integrated systems, such as integrated business support system for corporate group customers, integrated channels management system, integrated account settlement system and integrated partnership management system to achieve integrated and centralized management of our businesses. For our management support, we have focused on developing an assets management system and promoting the implementation of a financial management system to enhance the efficiency of our control and management over our assets. In recent years, we also started to build an electronic sales management system featuring full services and an integrated data analysis system. Meanwhile, we focused on establishing a comprehensive enterprise resource planning system to optimize our resource allocations and enhance our operational efficiency.

Research and Development

We focus on technology innovation in coordination with our various business departments in order to provide technical support to the development of our various businesses. Our research and development activities are focused primarily on 3G technologies and their further development, next generation Internet technologies and businesses, operational planning and development of value-added services. In addition, part of our research and development requirements is fulfilled by our parent company, Unicom Group, in return for a service fee. See B. Related Party Transactions under Item 7 below. With respect to research and development for our fixed-line broadband services, we mainly rely on Unicom Group's National Laboratory of Next Generation Network in Broadband Application, which is China's first national level engineering laboratory in the information and telecommunications industry, focusing on the research of next generation Internet IPv6, Triple-Play and 3G operating and supporting systems. We also participate in the national research project on LTE, closely follow the development of LTE technologies and standards, carry out LTE technology related researches and experiments and engage in the formulation of LTE enterprise standards. We have applied for a number of patents and software copyrights in China.

Table of Contents

Competition

As a result of the telecommunications industry restructuring in 2008, the Chinese telecommunications market now has three key providers of basic telecommunications service China Telecom, China Mobile and us in addition to thousands of value-added service providers and other companies that provide telecommunications or related services. We compete with China Mobile and China Telecom in virtually all aspects of our services, including mobile services, fixed-line voice services, broadband services and data communications services. We believe that the telecommunications industry restructuring in 2008 has provided an opportunity for us to integrate our various resources with those of China Netcom to create business synergies for the post-merger Unicom. However, we also believe that the restructuring may cause the competition in the telecommunications industry in China to be more intensified and complex in the future. In particular, as 3G services in China has experienced rapid growth since 2009 and has become a main growth driver for us and our major competitors, the competition in 3G services has intensified in recent years. We are also expected to face intensive competition in the next generation telecommunications services when the relevant technologies become mature and commercialized. In addition, the PRC Government recently published a series of regulations to encourage non-State-owned companies to enter PRC telecommunications industry, including the proposals to permit companies engaged in the resale of mobile communications services to acquire mobile communications services from China Mobile, China Telecom or us and repackaging and rebranding such services for resale to end users, and we may face competition from these non-State-owned companies. We also face increasing competition from other service providers, such as cable television companies and Internet service providers, which compete against our broadband access, voice and messaging services and other services by offering telecommunications or related services. See D. Risk Factors Risks Relating to Our Business We face intense competition from other telecommunications operators, including China Mobile and China Telecom, and other companies that provide telecommunications or related services, which may materially adversely affect our financial condition, results of operations and growth prospects. and D. Risk Factors Risks Relating to Our Business Competition from foreign-invested operators may further increase the competition for employees, exacerbate price competition and increase our operating expenses, thereby adversely affecting our financial condition, results of operations and growth prospects. under Item 3, respectively.

Strategic Alliances with Telefónica

On January 30, 2009, we entered into a business co-operation framework agreement with Telefónica. Pursuant to the framework agreement, Telefónica and we agreed to share business experience and strengthen cooperation in the areas of mobile communications, broadband applications, international business, marketing and sales and telecommunications services to corporate clients. On September 6, 2009, we entered into a strategic alliance agreement with Telefónica, pursuant to which Telefónica and we agreed to establish a strategic alliance to strengthen the business of each party and achieve synergies by cooperation in various fields based on our respective networks, business models and experience. On October 21, 2009, we and Telefónica completed a mutual investment in the amount of the equivalent of US\$1 billion in each other, which was implemented by way of the subscription by Telefónica of 693,912,264 new shares in our Company and the contribution by Telefónica of 40,730,735 treasury shares in the capital of Telefónica to us.

On January 23, 2011, we entered into the Agreement to Enhance the Strategic Alliance with Telefónica. Pursuant to this agreement, we acquired from Telefónica 21,827,499 ordinary shares in the capital of Telefónica for aggregate purchase price of Euro374,559,882.84 on January 25, 2011, and Telefónica, through its wholly-owned subsidiary, Telefónica International, acquired 282,063,000 ordinary shares in the capital of our company for aggregate consideration of approximately US\$500,000,000 in several transactions executed in the period between January 25, 2011 and September 7, 2011. In addition, Chang Xiaobing, our Chairman and Chief Executive Officer, as our designated representative, was appointed in May 2011 as a director on the board of directors of Telefónica.

On June 10, 2012, Unicom Group BVI, a wholly-owned subsidiary of Unicom Group, entered into the Share Purchase Agreement for the Sale and Purchase of Shares in China Unicom (Hong Kong) Limited, as amended, pursuant to which it had agreed to acquire from Telefónica an aggregate of 1,073,777,121 ordinary shares in the capital of our company at a price of HK\$10.02 per share and for an aggregate consideration of HK\$10,759,246,752.42. Pursuant to the agreement, Telefónica also undertook that for a period of 12 months from the date of the agreement, it shall not, directly or indirectly, sell, transfer or dispose of any of our ordinary shares held, directly or indirectly, by it as at the date of the agreement, except for any transfer of ordinary shares pursuant to the agreement or to any of its affiliates. The acquisition was completed on July 30, 2012.

Table of Contents

Trademarks

We conduct our businesses under the Unicom name and logo. Unicom Group is the registered proprietor in China of the Unicom trademark in English and the trademark bearing the Unicom logo. Unicom Group is also the registered proprietor of the trademark of the word Unicom in Chinese (). Unicom Group has granted us the right to use these trademarks on a royalty-free basis with periodic renewals, and licensed us any trademark that it registers in China in the future which incorporates the word Unicom.

Regulatory and Related Matters

The telecommunications industry in China is subject to a high degree of government regulation. The primary regulatory authority of the Chinese telecommunications industry is the MIIT, established in 2008 as a new ministry under the PRC State Council and the successor of the former Ministry of Information Industry. The NDRC, the Ministry of Commerce and other governmental authorities also maintain regulatory responsibilities over certain aspects of the Chinese telecommunications industry.

The MIIT, under the supervision of the State Council, is responsible for, among other things:

formulating and enforcing industry policies and regulations, as well as technical standards;

granting telecommunications service licenses;

supervising the operations and quality of services of telecommunications service providers;

allocating and administering telecommunications resources such as spectrum and number resources;

together with other relevant regulatory authorities, formulating tariff standards for telecommunications services;

formulating interconnection and settlement policies between telecommunications networks; and

maintaining fair and orderly market competition among service providers.

The MIIT has established a Telecommunications Administration in each province, autonomous region and municipality, which is mainly responsible for overseeing the implementation of the MIIT's policies and regulations and exercising regulatory authority delegated by the MIIT within that province, autonomous region or municipality.

The NDRC, together with the MIIT, sets government fixed tariffs and government guidance tariffs for certain telecommunications services. See Tariff Setting and Price Controls below.

The MIIT is in the process of drafting a telecommunications law that, once adopted by the National People's Congress of the PRC, will become the basic telecommunications statute and provide the principal legal framework for telecommunications regulations in China. It is currently uncertain when the law will be adopted and become effective. See D. Risk Factors Risks Relating to the Telecommunications Industry in China Regulatory or policy changes relating to the PRC telecommunications industry or any future industry restructuring may materially adversely affect our financial condition, results of operations and growth prospects. under Item 3.

Telecommunications Regulations

Edgar Filing: CHINA UNICOM (HONG KONG) Ltd - Form 20-F

On September 25, 2000, the PRC State Council promulgated the Telecommunications Regulations of the People's Republic of China, which came into effect on the same date. All telecommunications activities and related activities within China are subject to the Telecommunications Regulations.

-34-

Table of Contents

According to the PRC Government, its administration and regulation of the Chinese telecommunications industry is based on the principles of the separation of governmental regulation from enterprise management, the elimination of monopolistic behavior, the encouragement of competition and the promotion of the development of the Chinese telecommunications industry, while also taking into account the principles of openness, equality and fairness. The Telecommunications Regulations regulate all major aspects of the telecommunications industry, including licensing, interconnection, tariffs, resources, services, security, facility construction and access to networks.

Licensing

The PRC Government licenses telecommunications businesses in accordance with their classification. Telecommunications businesses are currently classified into two broad categories of basic services and value-added services. An appendix to the Telecommunications Regulations divides each of the two categories into further sub-categories. On March 21, 2003, the former Ministry of Information Industry amended the categorization in this appendix and the amendments took effect on April 1, 2003. According to the amended appendix:

basic telecommunications services are classified into Category I basic telecommunications services and Category II basic telecommunications services. Category I basic telecommunications services include fixed-line telecommunications services (including fixed-line local, domestic long distance, international long distance and IP telephone services and services related to maintaining international telecommunications facilities), mobile telecommunications services (including 900/1800MHz GSM 2G, 800MHz CDMA 2G and 3G digital cellular mobile telecommunications services), Category I satellite telecommunications services (including satellite mobile telecommunications and international satellite private-line services) and Category I data communications services (including Internet data transmission, international data telecommunications, public telegraph and telex services). Category II basic telecommunications services include trunking telecommunications services (including analogue trunking telecommunications and digital trunking telecommunications services), wireless paging services, Category II satellite telecommunications services (including lease and sales of satellite transponders and very-small-aperture-terminal, or VSAT, telecommunications services), Category II data telecommunications services (including fixed-line domestic and wireless data transmission services), network access services (including wireless network access services and network services from customer premises), services related to maintaining domestic telecommunications facilities and network hosting services.

value-added telecommunications services are classified into Category I value-added telecommunications services and Category II value-added telecommunications services. Category I value-added telecommunications services include on-line data processing and interchange, domestic multi-party telecommunications, IP-VPN and Internet data center, or IDC, services. Category II value-added telecommunications services include store-and-forward, call center, Internet access and information services.

On March 1, 2009, the MIIT promulgated the Measures on the Administration of Telecommunications Business Licenses, which took effect on April 10, 2009 and superseded the previous measures promulgated by the former Ministry of Information Industry on December 26, 2001.

The measures govern the application for, approval of and regulation of telecommunications business licenses in China. The operation of any basic telecommunications business is subject to the MIIT's approval and grant of License for Operation of Basic Telecommunications Businesses. The operation of any value-added business in two or more provinces, autonomous regions or municipalities is subject to the MIIT's approval and grant of License for Inter-Provincial Operation of Value-Added Telecommunications Businesses. The operation of value-added businesses within a single province, autonomous region or municipality is subject to the approval of the telecommunications authority of the relevant province, autonomous region or municipality and the grant of the License for Operation of Value-Added Telecommunications Businesses. The measures, among other things, lowered the minimum amount of registered capital required for an applicant to enter the basic telecommunications business in China.

Table of Contents

After the PRC's accession to the WTO, on December 11, 2001, the PRC State Council promulgated the Administrative Regulations on Telecommunications Companies with Foreign Investments, which took effect on January 1, 2002, and were amended on September 10, 2008, to implement China's commitments to the WTO. Those commitments include the gradual reduction of restrictions on foreign ownership in telecommunications enterprises in China and the step-by-step opening up of the Chinese telecommunications market to foreign enterprises. In recent years, China gradually lifted restrictions for foreign investors in telecommunications enterprises in China and fulfilled its commitment to open up the Chinese telecommunications market. However, the following restrictions on investments in mobile, value-added telecommunications and fixed-line services remain:

for fixed-line services, there is no longer any geographic restriction and foreign ownership may be no more than 49%;

for mobile voice and data services, there is no longer any geographic restriction and foreign ownership may be no more than 49%; and

for value-added telecommunications services, there is no longer any geographic restriction and foreign ownership may be no more than 50%.

Spectrum and Network Number Resources

The MIIT is responsible for the management of the wireless radio frequency spectrum and the allocation of frequencies within the spectrum. The frequency assigned to a telecommunications operator may not be leased or transferred without the MIIT's approval. Standard fees for usage of the frequencies assigned to cellular telecommunications are charged to telecommunications operators: (i) for the nationwide GSM network frequency, an annual rate of RMB17 million per MHz is charged for the 900 MHz band and an annual rate of RMB15 million per MHz is charged for the 1800 MHz band; (ii) for the nationwide WCDMA network frequency, a standard fee at an annual rate of RMB3.75 million per MHz in 2011, RMB7.5 million per MHz in 2012, RMB11.25 million per MHz in 2013 and RMB15 million per MHz in 2014 and onwards will be charged for the 2100 MHz band; (iii) for any local telecommunications network frequency, an annual rate of RMB1.7 million per MHz is charged for each province for the 900 MHz band, an annual rate of RMB1.5 million per MHz is charged for each province for the 1800 MHz band and an annual rate of RMB1.5 million will be charged for each province for the 2100 MHz band.

The MIIT is also responsible for the administration of China's telecommunications network number resources. The telecommunications network number resources are owned by the State, which shall charge fees for the use of such resources. Application for the use of number resources by any telecommunications operator is subject to the approval of the MIIT or the relevant provincial telecommunications authority and the payment of certain usage fees. The measures also provide for the procedures for the application, usage and record keeping for the telecommunications operators' use of number resources.

Tariff Setting and Price Controls

The levels and categories of our current tariffs are subject to regulation by various government authorities, including the MIIT, the NDRC, and, at the local level, the relevant provincial Telecommunications Administration Bureaus and price regulatory authorities. Under the Telecommunications Regulations, telecommunications tariffs are categorized into State-fixed tariffs, State-guidance tariffs and market-based tariffs.

The monthly fee and local usage fee for mobile services are regulated as State-fixed tariffs. Leased line and data services (other than ATM service) are charged at State-guidance tariffs, which are determined jointly by the MIIT and the NDRC. Pursuant to the Notice on Adjustment to Tariff Management for Local Fixed-Line Telephone Services issued by the MIIT in 2009, the monthly fee and usage fee for local fixed-line telephone services (including PHS) as well as the long-term leasing fees for circuits leasing are subject to certain tariff ceiling. Domestic long distance services, international long distance services and Hong Kong, Macau and Taiwan long distance services are also currently subject to tariff ceiling.

Table of Contents

The Notice on Implementation of Market-Based Tariffs for Certain Telecommunications Services, promulgated jointly by the former Ministry of Information Industry and the NDRC in 2002, specifies the telecommunications businesses to which market-based tariffs are applicable, including VoIP, Internet access services, and certain value-added services provided over fixed-line telephone networks, such as telephone information, caller identification and voice mail. Market-based tariffs shall be applicable to those telecommunications services for which effective competition exists in the market. The tariffs of such telecommunications services are determined at the sole discretion of the operators, and will be implemented after filing with the MIIT or provincial Telecommunications Administration Bureaus, as applicable. There is uncertainty regarding how the MIIT determines the existence of effective competition, as the MIIT has not publicly disclosed the criteria it uses for determining whether a certain type of service should be subject to market-based tariffs. Under the Telecommunications Regulations, cost is the primary basis for tariff setting, but the tariff levels also take into account social and economic development, the development of the telecommunications industry and the purchasing power of the customers. The MIIT has not provided a timetable for tariff deregulation or indicated that operators will eventually be permitted to freely set all tariffs. We expect that increased flexibility in setting certain tariffs will allow us to better respond to changes in market demand and competitive conditions.

The PRC Government retains the ultimate authority to adopt changes to tariffs. However, the Telecommunications Regulations require the government to hold public hearings before setting or changing important State-tariff rates, which are attended by telecommunications operators, consumers and others. Operators are required to provide complete and adequate cost data and other materials for those hearings.

The following tables set forth the tariff rates of certain services provided by us, where government fixed tariffs or government guidance tariffs are applicable:

Mobile Services

Generally the categories of tariffs we charge our mobile subscribers include, among others, basic monthly fees and local usage charges, roaming charges, long-distance call charges and charges for value-added services. Mobile tariffs are set forth by the MIIT and tariff adjustments are subject to regulation by various government authorities, including the MIIT, the NDRC and the relevant provincial price regulatory authorities. The following table summarizes the current tariffs for post-paid and pre-paid mobile services:

	Post-paid Services (RMB)	Pre-paid Services (RMB)
Basic monthly fee	45-50	0
Local usage charge (per minute)	0.36-0.40	0.54-0.6
Domestic roaming charge (per minute)	0.6 for caller 0.4 for receiver	0.6 for caller 0.4 for receiver

Intensified competition in our mobile service areas has resulted in tariff discounts and service promotions offered by us and our main competitors from time to time, which may reduce the effective tariffs. These discounts and promotions have taken many forms, including promotional tariff rates, free call minutes, reduced roaming charges, off-peak discounts or discounts for high-usage subscribers and package service plans with fixed monthly fees.

We have introduced a number of package service plans. Under these plans, subscribers typically pay a fixed monthly fee for a specified number of call minutes. The plans vary at the levels of fixed monthly fee, number of specified call minutes and tariff rates for call minutes in excess of the specified call minutes. The terms of these plans also vary depending on the local markets.

In 1997, the PRC Government granted us preferential treatment by allowing us to reduce our tariffs by up to 10% below the State-guidance tariff rates. In the past, this preferential treatment has helped us capture a significant number of mobile subscribers by allowing us to market our mobile services at discounted rates. As we and our main competitors introduced various package service plans and other promotional programs, the tariff structure has become more complex, which, to some extent, has made our price advantages less obvious to subscribers compared to previous tariffs that were largely based on simple per-minute charges.

Table of Contents*Fixed-Line Voice Services*

For our local voice services, we charge an installation and testing fee that varies depending on whether the subscriber is a residential or a business customer, a fixed monthly fee, local call usage fees based on call duration and fees for certain value-added services. For our domestic long distance services, our revenue from domestic long distance services consist of charges based on the duration, time of day and day of the week a call is placed. In addition, we currently charge RMB0.30 per minute in addition to a long distance fee for our VoIP domestic long distance services. For our international long distance services, our charges are subject to the maximum tariffs regulated by the MIIT.

The following table sets forth our current tariffs for (i) local voice services provided on our traditional and PHS network, (ii) domestic long distance telephone services using our traditional network and (iii) our international long distance telephone services using our traditional network:

	Tariff (RMB)
Local Voice Services	
Monthly fee:	
Residential subscribers in:	
Provincial capitals	20.00 to 25.00
Other cities and counties	12.00 to 18.00
Rural areas	10.00 to 15.00
Business subscribers	25.00 to 35.00
Usage fee:	
Intra-district	0.18 to 0.22 for the first two pulses (first three minutes or less) and 0.09 to 0.11 for each additional pulse (one minute intervals)
Inter-district	up to 0.30 per pulse (one minute intervals)
Communication fee:	
Internet dial-up	0.02 per pulse (one minute intervals)
Domestic long distance services on our traditional network⁽¹⁾	0.07 per six seconds
International long distance services on our traditional network⁽¹⁾:	
To Hong Kong, Macau and Taiwan	0.20 per six seconds
To all international destinations	0.80 per six seconds

(1) Subject to filing with the provincial telecommunications administrations, our provincial level headquarters may apply a 10% to 50% discount rate to calls made during off-peak hours.

Data Services

The PRC Government publishes guidance tariffs for certain data services, including DDN and frame relay services, provided by operators in China. Tariffs for our ATM services are determined at our discretion, subject to approval by the MIIT. An installation and testing fee is generally charged for installation and testing for our data services, as well as a fixed monthly fee for each of the services.

DDN services. The following table sets forth the monthly fees for DDN services at the bandwidths of 64kbps, 128kbps, 512kbps and 1Mbps:

	Monthly Fee (RMB)			
	64kbps	128kbps	512kbps	1Mbps
Intra-district	1,500	2,000	3,800	5,000
Inter-district	2,000	2,500	5,200	7,500
Domestic long distance	3,500	5,000	7,000	9,000

Table of Contents

Frame relay services. The following tables set forth the monthly fees for frame relay services, which include monthly fees for port access and permanent virtual circuits, or PVCs⁽¹⁾:

	64kbps	256kbps	Monthly Fee 512kbps (RMB)	1Mbps
Port access				
Monthly fees	260	400	500	750
PVC				
Intra-district	550	800	1,000	1,250
Inter-district	800	1,150	1,450	2,000
Domestic long distance	1,700	2,200	2,500	3,000

(1) One-way tariff for PVCs frame relay services.

Leased Line Services

We charge monthly fees for subscribers to our leased line services based on guidance tariffs set by the PRC Government, which vary based on bandwidth and whether the leased line is local or long distance. Leased line tariffs have generally decreased in recent years.

The following table sets forth the tariffs for 2Mbps, 8Mbps, 34Mbps and 155Mbps digital circuits:

	2Mbps	8Mbps	Monthly Fee 34Mbps (RMB)	155Mbps
Intra-district	2,000	6,000	16,000	44,000
Inter-district	4,000	11,000	31,000	88,000
Domestic long distance ⁽¹⁾	6,000	17,000	47,000	132,000

(1) Does not include the tariffs for local digital circuits and access lines.

Interconnection Arrangements

In October 2003, the former Ministry of Information Industry issued Measures on Settlement of Interconnection between Public Telecommunications Networks and Sharing of Relaying Fees, which superseded the Measures on the Settlement of Call Charges between Telecommunications Networks issued by the former Ministry of Information Industry in 2001. These regulations contain specific provisions regarding, among other things, revenue sharing methods and settlement mechanisms and interconnection agreements among telecommunications service providers. Since November 2005, the former Ministry of Information Industry (or the MIIT after March 2008) has issued a number of administrative measures to adjust the settlement arrangement standards with respect to interconnection fees for certain network interconnections between telecommunications operators. In accordance with various administrative measures, Unicom Group or we, as the case may be, have entered into agreements on interconnection with other telecommunications operators, including China Telecom and China Mobile.

Table of Contents

The following table sets forth selected interconnection revenue sharing and settlement arrangements for local calls:

Operator from Whose Network Calls are Originated	Operator at Whose Network Calls are Terminated	Current Main Settlement Arrangement
Mobile operator	Local fixed-line operator	<p>(1) Mobile operator collects the usage fees from its subscribers;</p> <p>(2) Mobile operator pays RMB0.06 per minute to local fixed-line operator. For calls originated from 157 or 188 prefix phone numbers (TD users) during the period from January 1, 2010 to December 31, 2010, mobile operator (China Mobile) pays RMB0.012 per minute to fixed-line operator. From January 1, 2011, for calls originated from 157 or 188 prefix phone numbers (TD users), mobile operator (China Mobile) continues to pay RMB0.012 per minute to fixed-line operator.</p>
Local fixed-line operator	Mobile operator	<p>(1) Local fixed-line operator collects the usage charge from its subscribers;</p> <p>(2) No revenue sharing or settlement prior to June 1, 2010. Local fixed-line operator pays RMB0.001 per minute to mobile operator after June 1, 2010.</p>
Mobile operator A	Mobile operator B	<p>(1) Mobile operator A collects the cellular usage charge from its subscribers;</p> <p>(2) Mobile operator A pays RMB0.06 per minute to mobile operator B. For calls originated from 157 or 188 prefix phone numbers (TD users) during the period from January 1, 2010 to December 31, 2010, mobile operator A (China Mobile) pays RMB0.012 per minute to mobile operator B. For calls originated from 157 or 188 prefix phone numbers (TD users) during the period from January 1, 2011, mobile operator A (China Mobile) pays RMB0.012 per minute to mobile operator B.</p>
Local fixed-line operator A	Local fixed-line operator B	<p>(1) Operator A collects the usage fees from its subscribers;</p> <p>(2) In the case of intra-district calls, operator A pays operator B 50% of the intra-district usage fees;</p> <p>(3) (i) In the case of local inter-district calls from operator A using operator B's local</p>

inter-district trunk circuit, operator A collects the usage charge from its subscribers and pays RMB0.06 per minute to operator B; (ii) In the case of local inter-district calls from operator A not using operator B's local inter-district trunk circuit, operator A collects the usage charge from its subscribers and pays operator B 50% of the intra-district usage fees.

Table of Contents

The following table sets forth selected current major main interconnection revenue sharing and settlement arrangements for domestic long distance calls:

Operator at Whose Network Calls are Originated	Operator at Whose Network Calls are Terminated	Current Main Settlement Arrangement
Local fixed-line or mobile operator A (through the long distance network of operator A) Fixed-line or mobile operator A	Local fixed-line or mobile operator B Domestic long distance calls made without using the carrier identity code of operator B (through the long distance network of operator B)	Operator A pays RMB0.06 per minute to operator B (1) Operator A collects the tariff from the subscribers; (2) If Operator A is a fixed-line operator, operator A retains RMB0.06 per minute; if operator A is a mobile operator, operator A retains local usage fee and RMB0.06 per minute; and (3) Operator A pays operator B the rest of the domestic long distance tariff. Note: Domestic long distance calls shall be charged at the domestic long distance call tariff of operator B. (1) Operator B collects the tariff from the subscribers; and (2) Operator B pays operator A RMB0.06 per minute.
Local fixed-line or mobile operator A	Domestic long distance calls made by using the carrier identity code of operator B (through the long distance network of operator B)	

The following table sets forth selected current main interconnection revenue sharing and settlement arrangements for public switched telephone network international long distance calls, including calls originated from and terminated in Hong Kong, Macau and Taiwan:

Operator at Whose Network Calls are Originated	Operator at Whose Network Calls are Terminated	Current Main Settlement Arrangement
Local fixed-line or mobile operator A	International long distance calls (including to Hong Kong, Macau and Taiwan) made without using the carrier identity code of operator B and directed by operator A from the originating network to operator B.	(1) Operator A collects the tariff from the subscribers; (2) If operator A is a fixed-line operator, operator A retains no more than RMB0.54 per minute with the remaining paid to operator B; and (3) If operator A is a mobile operator, operator A retains local usage fees and no more than RMB0.54 per minute with the remaining paid to operator B. Note: International long distance calls shall be charged at the international long distance call tariff of operator B. (1) Operator B collects the tariff from the subscribers; and
Local fixed-line or mobile operator A	International long distance calls made by using the carrier identity code of operator B	

and through the domestic and international
long distance networks of operator B.

(2) Operator B pays operator A RMB0.06 per
minute.

Table of Contents

The following table sets forth selected current main interconnection revenue sharing and settlement arrangements for VoIP long distance calls:

Operator from Whose Network Calls are Originated	Operator at Whose Network Calls are Terminated	Current Main Settlement Arrangement
Fixed-line or mobile operator A	Fixed-line or mobile operator B through the VoIP network of operator C	<p>(1) Operator A collects local usage fees;</p> <p>(2) Operator C collects the VoIP long distance usage fees from its subscribers;</p> <p>(3) Operator C pays RMB0.06 per minute to operator B on the terminating end;</p> <p>(4) No settlement between operator C and operator A on the originating end.</p>

The following table sets forth selected current main interconnection revenue sharing and settlement arrangements for SMS:

Network from Which SMS Originated	Network at Which SMS Terminated	Current Main Settlement Arrangement
Fixed-line or mobile operator A	Fixed-line or mobile operator B	<p>(1) Operator A collects the tariff from its subscribers; (2) Operator A pays RMB0.03 (RMB0.05 prior to January 1, 2010) per SMS to Operator B</p>

The following table sets forth selected current main interconnection revenue sharing and settlement arrangements for MMS:

Network from Which MMS Originated	Network at Which MMS Terminated	Current Main Settlement Arrangement
Mobile operator A	Mobile operator B	<p>(1) Operator A collects the tariff from its subscribers; (2) Operator A pays RMB0.10 (RMB0.15 prior to January 1, 2010) per MMS to Operator B</p>

Technical Standards

The MIIT is responsible for promulgating the technical standards for China's telecommunications industry and establishing the technical requirements and testing parameters for telecommunications equipment (including network and end user equipment). The MIIT is also responsible for designating qualified institutes to test telecommunications equipment, which would grant network access licenses (or product standard certificates) for the equipment that has successfully passed the relevant tests. Only telecommunications equipment for which a network access license (or a product standard certificate) has been granted may be sold and used in China.

Most of the standards used in the Chinese telecommunications industry are generally based on the standards issued by the International Telecommunication Union, or ITU, 3rd Generation Partnership Project, Open Mobile Alliance, World Wide Web Consortium, and other international organizations for telecommunications standards, with more specific requirements made in light of China's particular telecommunications industry. On the basis of the technical standards used in China's telecommunications industry, we may formulate our own technical standards based on our own needs and issue additional requirements for telecommunications equipment in order to meet our operational needs. All telecommunications equipment purchased by China's telecommunications operators must have been granted a network access license issued by the MIIT and must meet the standards set forth by the relevant operators.

Quality of Service

Under the Telecommunications Regulations, the MIIT and the relevant provincial telecommunications administrations are responsible for supervising and monitoring the quality of services provided by telecommunications operators in China. Under the Telecommunications Regulations, customers of telecommunications operators have the right to submit their complaints to the MIIT and the relevant provincial telecommunications administrations or other relevant government authorities. In addition, the MIIT, together with other governmental authorities, has taken measures to prompt telecommunications operators to screen indecent contents carried through their networks.

Table of Contents

Universal Services

Telecommunications service providers in China are required to fulfill universal service obligations in accordance with relevant regulations to be promulgated by the PRC Government, and the MIIT has the authority to delineate the scope of its universal service obligations. The MIIT may also select universal service providers through a tendering process. The MIIT, together with the finance and pricing authorities, is also responsible for formulating administrative rules relating to the establishment of a universal service fund and compensation schemes for universal services. Under the Telecommunications Regulations, all PRC telecommunications operators shall provide universal services, and we expect to perform our duties thereunder accordingly.

The MIIT has required major Chinese telecommunications service providers, including Unicom Group and former Netcom Group, to participate in a project to provide telecommunications services in tens of thousands of remote villages in certain designated provinces in China as transitional measures prior to the formalization of a universal service obligation framework. In participating in this project, Unicom Group has undertaken the universal service obligation to extend telecommunications service coverage to all administrative-level villages primarily through its transmission networks. Currently, with our assistance, Unicom Group is further extending telecommunications service coverage to natural villages in remote areas in China as designated by the MIIT. We have been assisting Unicom Group in providing mobile telecommunications services to these remote villages and are responsible for the operation and maintenance of the relevant network facilities in our service areas. See

D. Risk Factors Risks Relating to the Telecommunications Industry in China The PRC Government may require us, along with other telecommunications service providers in China, to provide universal services with specified obligations, and we may not be compensated adequately for providing such services. under Item 3.

Convergence Policy of Telecom, Broadcasting and Internet Networks

In January 2010, the PRC Government announced its decision to accelerate the advancement of convergence of television broadcast, telecommunications and Internet access networks to realize interconnection and resource sharing among the three networks and further develop the provision of voice, data, television and other services. After the implementation of the three-network convergence policy on a trial basis in selective geographic locations during the period from 2010 to 2012, the PRC Government has started to fully implement such policy across-the-board starting from 2013. The PRC Government may amend relevant policies or promulgate new regulations corresponding to the implementation of the three-network convergence policy in the future.

Others

As a company with substantially all of our operations in China, we, along with our controlling shareholder, Unicom Group, are subject to various regulations of the PRC Government in addition to those regulating the telecommunications industry. PRC regulatory authorities, such as the State Bureau of Taxation, National Audit Office, SAIC and local price bureaus, exercise extensive control over various aspects of our businesses and conduct various regular inspections, examinations and/or audits on us and Unicom Group. As required by the relevant PRC laws and regulations, Unicom Group, as one of the key State-owned enterprises under the direct supervision of the SASAC, is also subject to routine audits by the National Audit Office, or the NAO, including the senior management departure audit which involves a mandatory review by the NAO of the economic responsibilities of a departing senior management member of Unicom Group.

In addition, SASAC has an indirect influence over us as our controlling shareholder, Unicom Group, is under the direct supervision of SASAC. In particular, SASAC may designate certain nominees and request Unicom Group to propose the appointment of such nominees as our directors and senior management. SASAC may also request Unicom Group to remove our directors and senior management in accordance with relevant procedures provided by applicable law and our articles of association.

Table of Contents**C. Organizational Structure**

We are incorporated in Hong Kong and as of April 19, 2013, we were 41.27% owned by Unicom BVI, which was 17.90% owned by Unicom Group and 82.10% owned by the A Share Company, which in turn was 62.22% owned by Unicom Group, 34.30% owned by Unicom Group BVI, which in turn was 100% owned by Unicom Group, 19.42% owned by public shareholders and 5.01% owned by Telefónica. See A. History and Development of the Company above. Set forth below are details of our wholly owned significant subsidiaries:

Name of Subsidiary	Country of Incorporation	Ownership Interest
China United Network Communications Corporation Limited	China	100%
Unicom Vsens Telecommunications Company Limited	China	100%
Unicom New Horizon Telecommunications Corporation Limited	China	100%
China Unicom (Hong Kong) Operations Limited	Hong Kong	100%
China Unicom (Americas) Operations Limited	United States	100%
China Unicom (Singapore) Operations Pte. Ltd.	Singapore	100%
China Unicom (Europe) Operations Limited	United Kingdom	100%
China Unicom (Japan) Operations Corporation	Japan	100%
Billion Express Investments Limited	British Virgin Islands	100%

D. Properties

Our principal executive offices are located in Hong Kong. We also maintain executive offices in Beijing. We own and lease a large number of offices, retail outlets, equipment rooms and base stations throughout China. In some cases, we have not entered into formal lease agreements with the lessors or the lessors may not possess requisite title certificates. We believe that it is unlikely that we would be denied our right to use a large number of these properties at any given time.

Item 4A. Unresolved Staff Comments

None.

Item 5. Operating and Financial Review and Prospects

You should read the following discussion and analysis in conjunction with the selected financial data set forth in Item 3 and our consolidated financial statements, together with the related notes, included elsewhere in this annual report on Form 20-F.

Acquisitions of Unicom New Horizon and Unicom NewSpace

We completed the 2012 Acquisition in respect of Unicom New Horizon in December 2012. See A. History and Development of the Company Unicom Acquisition and Sales 2012 Acquisition under Item 4. As Unicom New Horizon did not meet the definition of a business under IFRS/HKFRS 3 (Revised) Business Combinations, we accounted for the 2012 Acquisition as an asset purchase transaction in accordance with IAS/HKAS 16 Property, Plant and Equipment.

We completed the 2011 Acquisition in respect of Unicom NewSpace in December 2011. See A. History and Development of the Company Unicom Acquisitions and Sales 2011 Acquisition under Item 4. Because we and Unicom NewSpace were under common control of Unicom Group both prior to and after the 2011 Acquisition, the 2011 Acquisition is considered as a business combination of entities and businesses under common control and has been accounted for using merger accounting in accordance with AG 5 issued by the HKICPA in November 2005. Upon our adoption of IFRS, we adopted the accounting policy to account for business combination of entities and businesses under common control using the predecessor values method, which is consistent with HKFRS. Given that all the acquired entities and businesses mentioned above in this paragraph had always been under common control during all the periods presented, the assets and liabilities thereof are stated at predecessor values and are included in the consolidated financial statements included in this annual report on Form 20-F as if these entities and their businesses acquired had always been part of our company during all the periods presented.

Table of Contents

Overview

We are an integrated telecommunications operator in China providing mobile voice and value-added, fixed-line voice and value-added, fixed-line broadband, data communications and other telecommunications services to our customers. Following our acquisition of fixed-line business in 21 provinces in southern China from our parent companies in January 2009, we have extended the coverage of all of our services nationwide. We, China Mobile and China Telecom are the three major telecommunications operators in China. See A. History and Development of the Company Restructurings of the Telecommunications Industry under Item 4.

Prior to January 1, 2012, we had two major operating segments, the mobile business and the fixed-line business, and our chief operating decision-maker, or the CODM, evaluated the results of operating segments based on revenue and costs that were directly attributable to them. However, with the continuing integration of our mobile and fixed-line business and the sharing of resources by the two business lines, there have been increasingly significant common costs and expenses that are not attributable directly to any of these two business lines. Therefore, we changed our management structure by centralized functions instead of business lines in 2012. Since January 1, 2012, as a result of the integration of our business lines and new management structure based on function lines, the CODM has no longer assessed our business performance based on the results of operations of each of the mobile services and fixed-line services, i.e., revenue and costs that are directly attributable to each of the two business lines. Instead, the CODM has been making resources allocation decisions based on internal management functions and assessed our business performance as one integrated business instead of by separate business lines or geographical regions. Accordingly, we have had only one operating segment since January 1, 2012. The prior period operating segment information set forth herein has been recast to conform to the current year presentation.

The table below sets forth revenue from our major services and their respective percentage of our total revenue in 2010, 2011 and 2012 (excluding fixed-line upfront connection fees of RMB192 million in 2010 and RMB15 million in 2011).

	For the Year Ended December 31,					
	2010		2011		2012	
	RMB in millions	As % of Total	RMB in millions	As % of Total	RMB in millions	As % of Total
Total revenue (excluding fixed-line upfront connection fees) ⁽¹⁾	171,178	100.0	209,152	100.0	248,926	100.0
Total service revenue (excluding fixed-line upfront connection fees) ⁽¹⁾	163,891	95.7	185,870	88.9	210,127	84.4
Include: Mobile services	82,449	48.2	103,307	49.4	126,036	50.6
Fixed-line services	79,750	46.6	81,627	39.0	83,213	33.4
Out of which:						
Broadband service	29,822	17.4	35,226	16.8	39,370	15.8
Total sales of telecommunications products	7,287	4.3	23,282	11.1	38,799	15.6

⁽¹⁾ Fixed-line upfront connection fees represent the amortization of deferred upfront connection fees received from the customers before July 1, 2001. No upfront connection fee was received from the customers since then. Therefore, we consider that analyses of our operating results excluding upfront connection fees are more relevant to the readers of this report. As of December 31, 2011, we made an accumulated appropriation of approximately RMB12,289 million to the statutory reserve in relation to the fixed-line upfront connection fees, which were deferred and amortized over the expected customer service period of ten years. No upfront connection fees will be recognized after December 31, 2011.

Our service revenue primarily consists of the following:

usage fees and monthly fees for our mobile and fixed-line telephone services, which are recognized when we render the service to our customers;

revenue from the provision of value-added services, which is recognized when we render the services to our customers;

Table of Contents

revenue from the provision of broadband, data and other Internet-related services are recognized when the services are provided to customers;

revenue from interconnection with other telecommunications operators for calls made from their networks to our networks. We recognize interconnection revenue when the relevant calls are made by subscribers;

revenue for offerings which include the bundled sale of mobile handsets and provision of services. The total contract consideration of such bundled sale is allocated to service revenue and sales of handsets based on their relative fair values. We recognize revenue allocated to the sale of handset when the title of the handset is passed to the customer and recognize revenue allocated to the service element based upon the actual usage of mobile services. The cost of the mobile handset sold is expensed immediately to the statement of income;

revenue from information communications technology services are recognized when goods are delivered to the customers (which generally coincides with the time when the customers have accepted the goods and the related risks and rewards of ownership have been transferred to the customers) or when services are rendered to the customers using the percentage of completion method when the outcome of the services provided can be estimated reliably. If the outcome of the services provided cannot be estimated reliably, the treatment should be as follows: (i) if it is probable that the costs incurred for the services provided is recoverable, service revenue should be recognized only to the extent of reasonable costs incurred, and costs should be recognized as current expenses in the period in which they are incurred, or (ii) if it is probable that costs incurred will not be recoverable, costs should be recognized as current expenses immediately and service revenue should not be recognized;

revenue from sales of telecommunications products (which mainly represent handsets and accessories) that are not bundled with mobile services are recognized when title of such products has been passed to the buyers; and

rental income from leases of customer-end equipment and transmission lines on our networks to business customers and other telecommunications carriers in China. We recognize leased line rental revenue on a straight-line basis over the relevant lease term.

Table of Contents

The following table sets forth our major costs and expenses items and income before income tax, both in terms of amount and as a percentage of total revenue in 2010, 2011 and 2012 (excluding fixed-line upfront connection fees of RMB192 million in 2010 and RMB15 million in 2011).

	For the Year Ended December 31,					
	2010		2011		2012	
	RMB in millions	% of Total	RMB in millions	% of Total	RMB in millions	% of Total
Total revenue (excluding fixed-line upfront connection fees) ⁽¹⁾	171,178	100.0	209,152	100.0	248,926	100.0
Costs, expenses and others	166,786	97.4	203,569	97.3	239,405	96.2
Interconnection charges	13,727	8.0	16,380	7.8	18,681	7.5
Depreciation and amortization	54,654	31.9	58,021	27.7	61,057	24.5
Networks, operations and support expenses	26,387	15.4	29,449	14.1	32,516	13.1
Employee benefit expenses	23,348	13.6	26,601	12.7	28,778	11.6
Selling and marketing	23,735	13.9	28,750	13.8	35,037	14.1
General, administrative and other expenses	13,862	8.1	14,836	7.1	16,215	6.5
Cost of telecommunications products sold	10,688	6.3	29,739	14.2	45,040	18.1
Finance costs, net of interest income	1,606	0.9	1,244	0.6	3,424	1.6
Realized gains on changes in fair value of derivative financial instrument	-	-	-	-	-	-
Other income-net	(1,221)	(0.7)	(1,451)	(0.7)	(1,343)	(0.5)

⁽¹⁾ Fixed-line upfront connection fees represent the amortization of deferred upfront connection fees received from the customers before July 1, 2001. No upfront connection fee was received from the customers since then. Therefore, we consider that analyses of our operating results excluding upfront connection fees are more relevant to the readers of this report. As of December 31, 2011, we made an accumulated appropriation of approximately RMB12,289 million to the statutory reserve in relation to the fixed-line upfront connection fees, which were deferred and amortized over the expected customer service period of ten years. No upfront connection fees will be recognized after December 31, 2011.

Our major costs and expenses include the following:

interconnection expenses, representing amounts paid to other operators for calls from our networks to their networks and for calls made by our subscribers roaming in their networks;

depreciation and amortization expenses, mainly relating to our property, plant and equipment and other assets;

networks, operations and support expenses, mainly relating to repair, maintenance and operations of our networks;

leasing fee for telecommunications networks in southern China;

employee benefit expenses, representing staff salaries and wages, bonuses and medical benefits, contributions to defined contribution pension schemes, housing benefits and share-based compensation costs amortized over the vesting period of options;

Edgar Filing: CHINA UNICOM (HONG KONG) Ltd - Form 20-F

selling and marketing expenses, including commissions, promotion and advertising expenses, direct incremental costs for activating subscriber services and customer retention costs;

general, administrative and other expenses, primarily including provision for doubtful debts, utilities, general office expenses and travel expenses;

cost of telecommunications products sold; and

finance costs, net of interest income, primarily including interest expenses, net of interest income.

Table of Contents

Critical Accounting Policies

The preparation of our financial statements and this annual report on Form 20-F requires us to make estimates and judgments that affect the reported and disclosed amounts of assets and liabilities, including contingent assets and liabilities, as of the relevant dates and revenue and expenses for the relevant periods. We have identified below the areas involving a higher degree of judgment or complexity, or areas where assumptions are significant to the accounting policies and estimates, as critical to our business operations and an understanding of our results of operations and financial position. The impact and any associated risks related to these policies on our business operations are discussed throughout this Item 5 where such policies affect our reported and expected financial results. For a discussion of the application of these and other accounting policies, see Note 4 to our consolidated financial statements included elsewhere in this annual report on Form 20-F. There can be no assurance that actual results will not differ from those estimates and assumptions.

Significant Accounting Policies

Revenue Recognition

Revenue comprises the fair value of the consideration received or receivable for the services and sales of goods or telecommunications products in the ordinary course of our business activities. Revenue is shown net of business tax, government surcharges, returns and discounts and after eliminating sales within our company.

We recognize revenue when the amount of revenue can be reliably measured, it is probable that future economic benefits will flow to the entity and specific criteria have been met for each of our activities as described below. We base our estimates on historical results, taking into consideration of the type of customer, the type of transaction and the specifics of each arrangement.

Sales of services and goods

Usage fees and monthly fees are recognized when the services are rendered;

Revenue from the provision of broadband, data and other Internet-related services is recognized when the services are provided to customers;

Lease income from leasing of lines and customer-end equipment are treated as operating leases with rental income recognized on a straight-line basis over the lease term;

Value-added services revenue, which mainly represents revenue from the provision of services such as SMSs, Cool Ringtone, personalized ring, caller number display and secretarial services to subscribers, is recognized when service is rendered;

Standalone sales of telecommunications products, which mainly represent handsets and accessories, are recognized when title has been passed to the buyers;

For offerings of preferential packages to the customers, which include the bundled sale of mobile handsets and provision of services, the total contract consideration of such preferential packages is allocated to service revenue and sales of handsets based on their relative fair values. Revenue relating to the sale of the handset is recognized when the title is passed to the customer whereas service revenue is recognized based upon the actual usage of mobile services. The cost of the mobile handset is expensed immediately to the statement of income upon revenue recognition; and

Revenue from information communications technology services is recognized when goods are delivered to the customers (which generally coincides with the time when the customers have accepted the goods and the related risks and rewards of ownership have been transferred to the customers) or when services are rendered to the customers using the percentage of completion method when the outcome of the services provided can be estimated reliably. If the outcome of the services provided cannot be estimated reliably, the treatment should be as follows: (i) if it is probable that the costs incurred for the services provided will be recoverable, services revenue should be recognized only to the extent of recoverable costs incurred, and costs should be recognized as current expenses in the period in which they are incurred; or (ii) if it is probable that costs incurred will not be recoverable, costs should be recognized as current expenses immediately and services revenue should not be recognized.

Table of Contents

Interest income

Interest income from deposits in banks or other financial institutions is recognized on a time proportion basis, using the effective interest method.

Dividend income

Dividend income is recognized when the right to receive payment is established.

Deferred Revenue, Advances from Customers and Subscriber Points Reward Program

Deferred revenue

Deferred revenue mainly represents upfront non-refundable revenue, including upfront connection fees and installation fees of fixed-line services and receipts from the activation of SIM/USIM cards relating to our mobile services, which are deferred and recognized over the expected customer service period. Deferred revenue expected to be recognized in one year or less is classified as current liabilities. If not, they are presented as non-current liabilities.

Advances from customers

Advances from customers are amounts paid by customers for prepaid cards, other calling cards and prepaid service fees, which cover future telecommunications services. Advances from customers are stated at the amount of proceeds received less the amount already recognized as revenue upon the rendering of services.

Subscriber points reward program

The fair value of providing telecommunications services and the subscriber points reward are allocated based on their relative fair values. The allocated portion of fair value for the subscriber points reward is recorded as deferred revenue when the rewards are granted and recognized as revenue when the points are redeemed or expired. The fair value of deferred revenue is estimated based on (i) the value of each bonus point awarded to subscribers, (ii) the number of bonus points related to subscribers who are qualified or expected to be qualified to exercise their redemption right at each balance sheet date, and (iii) the expected bonus points redemption rate. The fair value of the outstanding subscriber points reward is subject to review by management on a periodic basis.

Critical Accounting Estimates and Judgments

Recognition of Upfront Non-Refundable Revenue and Direct Incremental Costs

We defer and amortize upfront activation fees of SIM/USIM cards of the mobile services over the expected customer service period of 3 years (2010: approximately 3 years; 2011: approximately 3 years). The related direct incremental costs of acquiring and activating mobile subscribers, including costs of SIM/USIM cards and commissions, are also deferred and amortized over the same expected customer service period of 3 years.

We defer and amortize customer installation fees of the fixed-line services over the expected customer service period of 10 years (2010: approximately 10 years; 2011: approximately 10 years). The related direct incremental installation costs are deferred and amortized over the same expected customer service period of 10 years.

Table of Contents

We only defer costs to the extent that they will generate future economic benefits. The excess of the direct incremental costs over the corresponding upfront non-refundable revenue, if any, is expensed to the statement of income immediately.

We estimate the expected customer service period based on the historical customer retention experience and after factoring in the expected level of future competition, the risk of technological or functional obsolescence to our services, technological innovation, and the expected changes in the regulatory and social environment. If our estimate of the expected customer service period changes as a result of increased competition, changes in telecommunications technology or other factors, the amount and timing of recognition of the deferred revenue and direct incremental costs may change for future periods.

Lease of Telecommunications Networks in Southern China

Pursuant to the initial network lease agreement and the 2011-2012 network lease agreement, Unicom New Horizon has the legal ownership of the telecommunications networks in southern China. We believe prior to the completion of the 2012 Acquisition in December 2012, we only bore the risks associated with the operation of the fixed-line services in southern China during the relevant leasing periods and were free from any ownership risks of the telecommunications networks, and the risks and rewards of ownership of the leased assets rested substantially with the lessor. In addition, at the inception of the initial network lease agreement dated December 16, 2008, there was a high degree of uncertainty related to the market condition and operating results of the fixed-line services in southern China. It was highly uncertain whether we would continue to lease the network in the future, and we were unable to determine whether or not we would exercise the purchase option in the future. In the event that CUCL elects to exercise this purchase option, the parties will discuss and negotiate the purchase price with reference to the appraised value of the telecommunications networks in southern China, which is to be determined by reference to the then appraised value of the telecommunications networks by an independent appraiser. Given these uncertainties and due to the fact that the risks associated with the ownership of the telecommunications networks in southern China substantially remained with Unicom New Horizon, accordingly, we accounted for the leasing of the telecommunications networks in southern China as an operating lease until the completion of the 2012 Acquisition in December 2012.

At the beginning of each lease term, we assessed the appropriate classification based on the relevant factors and circumstances at that time. On October 29, 2010, CUCL entered into the 2011-2012 network lease agreement with Unicom New Horizon. The 2011-2012 network lease agreement has a term of two years, expiring on December 31, 2012, which is on the same terms and conditions as the initial network lease agreement dated December 16, 2008, except that the annual fee payable by CUCL for such lease for the two years ending December 31, 2011 and 2012 is RMB2.4 billion and RMB2.6 billion, respectively. At the time of entering into the 2011-2012 network lease agreement, we still believed the uncertainties of the fixed-line services in southern China continue to exist, particularly due to (i) the fact that the growth of the fixed-line services in southern China was not significant; (ii) the uncertainty of the future success of the fixed-line services in southern China arising from keen market competition; and (iii) the uncertainty in future changes in technology, technological standards and government regulatory environment. Accordingly, at the inception of the 2011-2012 network lease agreement, we were unable to determine whether we would renew the lease after the two-year lease term or whether we would exercise the purchase option. As a result, we considered the risks associated with the ownership of the telecommunications networks in southern China still substantially remained with Unicom New Horizon, and therefore accounted for the leasing of telecommunications networks in southern China under the 2011-2012 network lease agreement as an operating lease. The operating lease expense was recorded in the consolidated statement of income for the years ended December 31, 2010, 2011 and 2012. The carrying value of the telecommunications networks in southern China and the related liabilities were not reflected in the consolidated balance sheets as of December 31, 2010 and 2011, but were reflected in the consolidated balance sheet as of December 31, 2012 upon the completion of the 2012 Acquisition.

Depreciation on Property, Plant and Equipment

Depreciation on our property, plant and equipment is calculated using the straight-line method to allocate cost up to residual values over the estimated useful lives of the assets. We review the useful lives and residual values periodically to ensure that the method and rates of depreciation are consistent with the expected pattern of realization of economic benefits from property, plant and equipment. We estimate the useful lives of property, plant and equipment based on historical experience, taking into account anticipated technological changes. If there are significant changes from previously estimated useful lives, the amount of depreciation expenses may change.

Table of Contents

Impairment of Non-Financial Assets

We test whether non-financial assets have suffered from any impairment, in accordance with the accounting policy stated in Note 2.11 to the audited consolidated financial statements contained elsewhere in this annual report. The recoverable amount of an asset is the higher of its fair value less costs to sell and its value in use. Management estimates value in use based on estimated discounted pre-tax future cash flows of the cash generating unit at the lowest level to which the asset belongs. If there is any significant change in management's assumptions, including discount rates or growth rates in the future cash flow projection, the estimated recoverable amounts of the non-financial assets and our results would be significantly affected. Such impairment losses are recognized in the statement of income. Accordingly, there will be an impact to the future results if there is a significant change in the recoverable amounts of the non-financial assets.

No significant impairment loss on property, plant and equipment was recognized for the years ended December 31, 2010, 2011 and 2012.

Income Tax and Deferred Taxation

We estimate our income tax provision and deferred taxation in accordance with the prevailing tax rules and regulations, taking into account any special approvals obtained from relevant tax authorities and any preferential tax treatment to which we are entitled in each location or jurisdiction in which we operate. There are many transactions and calculations for which the ultimate tax determination is uncertain during the ordinary course of business. We recognize liabilities for anticipated tax audit issues based on estimates of whether additional taxes will be due. Where the final tax outcome of these matters is different from the amounts that were initially recorded, such differences will impact the income tax and deferred tax provisions in the period in which such determination is made.

For temporary differences which give rise to deferred tax assets, we have assessed the likelihood that the deferred tax assets could be recovered. Major deferred tax assets relate to unrecognized revaluation surplus on prepayments for the leasehold land and buildings determined under PRC regulations, accruals of expenses not yet deductible for tax purpose, changes in fair value on financial assets through other comprehensive income and provision for doubtful debts. Due to the effects of these temporary differences on income tax, we have recorded deferred tax assets amounting to approximately RMB6,534 million as of December 31, 2012 (2011: approximately RMB5,091 million). Deferred tax assets are recognized based on our estimates and assumptions that they will be recovered from taxable income arising from continuing operations in the foreseeable future.

We believe we have recorded adequate income tax provision and deferred taxes based on the prevailing tax rules and regulations and our current best estimates and assumptions. In the event that future tax rules and regulations or related circumstances change, adjustments to income tax and deferred taxation may be necessary which would impact our results or financial position.

Recently Issued International Financial Reporting Standards/Hong Kong Financial Reporting Standards

The IASB has issued a number of new and revised IFRSs and interpretations that are first effective for the current accounting period commencing January 1, 2012 or are available for early adoption. The equivalent new and revised HKFRSs and interpretations consequently issued by the HKICPA have the same effective date as those issued by the IASB and are in all material respects identical to the pronouncements issued by the IASB. There have been no other material changes to HKFRSs.

Table of Contents

Up to the date of issue of our 2012 financial statements, the following new standard and amendment or revision to existing standard has been issued but not yet effective for the annual accounting period ended December 31, 2012 and has not been adopted by us:

	Effective for annual accounting period beginning on or after
IAS/HKAS 1 (amendment) Presentation of financial statements	January 1, 2013
IFRS/HKFRS 10 Consolidated financial statements	January 1, 2013
IFRS/HKFRS 13 Fair value measurements	January 1, 2013

Operating Results

In the 2009 Acquisition, we did not purchase the underlying fixed-line network assets in southern China, but subsequently leased such assets from Unicom New Horizon, a wholly-owned subsidiary of Unicom Group, to operate the acquired fixed-line services. Following the completion of this transaction, as we started to lease the fixed-line network assets in southern China, which were retained by the lessor, the assets and liabilities associated with these network assets were treated as a distribution by us to Unicom Group from other reserve using the merger accounting under HKFRS and predecessor values method under IFRS. Accordingly, we did not include any assets, liabilities, depreciation, finance costs or other costs relating to such assets, but record only revenue generated from the acquired fixed-line services in southern China and the leasing fee for the relevant network assets in our consolidated financial statements, for the subsequent periods until the completion of the 2012 Acquisition in December 2012 when we acquired the entire equity interest in Unicom New Horizon. Following the 2012 Acquisition, we have included the assets, liabilities, depreciation, finance costs and other costs relating to such assets, and no longer bear any leasing fee for such assets.

Year Ended December 31, 2012 Compared to Year Ended December 31, 2011**Revenue**

In 2012, we continued to actively develop full-service operation with a focus on 3G mobile services and fixed-line broadband services. Revenue for 2012 was RMB248.93 billion, representing an increase of 19.0% from RMB209.15 billion for 2011 (excluding fixed-line upfront connection fees of RMB15 million in 2011), of which our service revenue was RMB210.13 billion in 2012, representing an increase of 13.1% from 2011.

Mobile Services Revenue

Revenue from our mobile services increased by 30.2% from RMB126.53 billion in 2011 to RMB164.77 billion in 2012. Of the revenue from our mobile services in 2011 and 2012, RMB103.31 billion and RMB126.04 billion, respectively, was from service revenue. Service revenue from our mobile services as a percentage of our total service revenue (excluding fixed-line upfront connection fees of RMB15 million in 2011) increased from 55.6% in 2011 to 60.0% in 2012. The growth in revenue from our mobile services was primarily driven by the growth of our 3G services in terms of number of subscribers. Our overall ARPU also increased in 2012 compared to 2011, primarily due to the change in revenue mix between our GSM services and 3G services, partially offset by the decrease in ARPU for each of GSM services and 3G services, respectively. 3G services have a significantly higher ARPU than GSM services. As the revenue from 3G services increased as a percentage of total service revenue from mobile services from 31.7% in 2011 to 47.4% in 2012, the overall ARPU for our mobile subscribers increased from RMB47.3 in 2011 to RMB47.9 in 2012.

The total number of our mobile subscribers was 23.93 million as of December 31, 2012, with a net addition of 3.97 million subscribers (including a net addition of 3.64 million 3G subscribers) from the end of 2011. ARPU of our 3G services was RMB86.1 in 2012, representing a decrease of 21.7% from RMB110.0 in 2011, primarily due to our business strategy to increase the number of our subscribers, which resulted in an increased proportion of new subscribers who are users with relatively lower usage of telecommunications. ARPU of our GSM mobile services was RMB34.2 in 2012, representing a decrease of 8.6% from RMB37.4 in 2011, primarily due to (i) the migration of certain mid- and high-end 2G subscribers to 3G network, (ii) the intensified competition among the telecommunications operators in China and (iii) the fact that a significant portion of our new users consists of users from rural areas, many of whom tend to have less usage of telecommunications services and to be more cost-sensitive than users from urban areas.

Table of Contents

The table below sets forth the revenue composition of our mobile services and each revenue item's respective share of total revenue for the years ended December 31, 2011 and 2012.

	2011		2012	
	RMB in millions	As % of total	RMB in millions	As % of total
Total revenue from mobile services	126,526	100.0	164,771	100.0
Service revenue	103,307	81.6	126,036	76.5
Usage fees and monthly fees	54,186	42.8	61,019	37.0
Value-added services revenue	37,880	29.9	52,102	31.6
Interconnection fees	10,726	8.5	12,469	7.6
Other service revenue	515	0.4	446	0.3
Sales of mobile telecommunications products	23,219	18.4	38,735	23.5

Usage Fees and Monthly Fees. Primarily as a result of an increase in mobile subscribers, usage fees and monthly fees for our mobile services were RMB61.02 billion in 2012, representing an increase of 12.6% from RMB54.19 billion in 2011.

Value-Added Services Revenue. Value-added services revenue consists primarily of revenue from our 3G value-added services and GSM value-added services. Due to our active promotion of mobile data services of our 3G services as well as the increase in the number of our mobile subscribers, revenue from our mobile value-added services was RMB52.10 billion in 2012, representing an increase of 37.5% from RMB37.88 billion in 2011. As a percentage of total mobile revenue, revenue from our mobile value-added services increased from 29.9% in 2011 to 31.6% in 2012. Of the total revenue from mobile value-added services, revenue from mobile Internet services increased by 70.9% from RMB14.65 billion in 2011 to RMB25.03 billion in 2012, revenue from our SMS services decreased by 3.4% from RMB8.51 billion in 2011 to RMB8.22 billion in 2012, and revenue from Cool Ringtone services decreased by 7.9% from RMB3.28 billion in 2011 to RMB3.02 billion in 2012.

Interconnection Fees. Our interconnection fees increased by 16.2% from RMB10.73 billion in 2011 to RMB12.47 billion in 2012, and represented 7.6% of total mobile revenue in 2012 as compared with 8.5% in 2011. The increase in our interconnection fees was primarily as a result of the increased total usage of our mobile services, which was mainly driven by the increased total number of our mobile subscribers.

Sales of Telecommunications Products. Revenue from our sale of mobile telecommunications products increased from RMB23.22 billion in 2011 to RMB38.74 billion in 2012, mainly due to our continuing efforts in promoting a broad range of new bundled packages of mid- to high-end 3G handsets and 3G services in 2012.

Fixed-Line Services Revenue

In 2012, we continued to develop our fixed-line broadband services and promoted our mobile and fixed-line bundled services. The trend of mobile substitution continued to have a negative impact on the revenue from our fixed-line voice services. Excluding fixed-line upfront connection fees of RMB15 million in 2011, our revenue from fixed-line services would have increased by 1.9% from RMB81.69 billion in 2011 to RMB83.28 billion in 2012, of which service revenue would have increased by 1.9% from RMB81.63 billion in 2011 to RMB83.21 billion in 2012. See D. Risk Factors. The industry trends of mobile service substitution and migration may continue to have a material adverse effect on our fixed-line local telephone services and GSM mobile services, which may materially adversely affect our financial condition, results of operations and growth prospects under Item 3.

Table of Contents

The table below sets forth the revenue composition of our fixed-line services and each revenue item's respective share of total revenue from our fixed-line services for the years ended December 31, 2011 and 2012.

	For the Year Ended December 31, 2011		2012	
	RMB in millions	As % of Total	RMB in millions	As % of Total
Total revenue from fixed-line services ⁽¹⁾	81,690	100.0	83,277	100.0
Service revenue ⁽¹⁾	81,627	99.9	83,213	99.9
Usage fee and monthly fee	24,116	29.5	20,151	24.2
Broadband, data and other Internet-related services revenue	38,500	47.1	43,132	51.8
Interconnection fees	4,579	5.6	4,224	5.1
Value-added services revenue	4,562	5.6	4,367	5.2
Leased line income	6,859	8.4	8,086	9.7
Information communication technology services revenue	1,634	2.0	2,240	2.7
Other service revenue	1,377	1.7	1,013	1.2
Sales of fixed-line telecommunications products	63	0.1	64	0.1

⁽¹⁾ Excluding fixed-line upfront connection fees of RMB15 million in 2011. Fixed-line upfront connection fees represent the amortization of deferred upfront connection fees received from the customers before July 1, 2001. No upfront connection fee was received from the customers since then. Therefore, we consider that analyses of our operating results excluding upfront connection fees are more relevant to the readers of this report. As of December 31, 2011, we made an accumulated appropriation of approximately RMB12,289 million to the statutory reserve in relation to the fixed-line upfront connection fees, which were deferred and amortized over the expected customer service period of ten years. No upfront connection fees will be recognized after December 31, 2011.

Usage Fees and Monthly Fees. Usage fees include local usage fees charged for local telephone calls and VoIP long distance calls, long distance usage fees for domestic and international long distance calls originated by our fixed-line subscribers, users of our pre-paid phone cards and certain other customers. Monthly fees represent the fixed amount of service charges to our customers for using our fixed-line telephone services.

In 2012, we experienced continuing decline in the number of fixed-line local telephone subscribers and revenue due to the continuing effect of mobile substitution. Our local telephone subscribers decreased in 2012 by 1.0% from 92.85 million at the end of 2011 to 91.96 million at the end of 2012. ARPU of the local telephone services decreased by 12.1% from 2011 to RMB22.6 in 2012. Total usage of local calls decreased by 35.0% from 2011 to 81.50 billion pulses in 2012 (excluding Internet dial-up usage) and total usage of long distance calls decreased by 15.6% from 21.55 billion minutes in 2011 to 18.20 billion minutes in 2012. As a result, revenue from our usage fees and monthly fees in 2012 decreased by 16.4% from RMB24.12 billion in 2011 to RMB20.15 billion in 2012.

Broadband, Data and Other Internet-related Services Revenue. Revenue from our broadband, data and other Internet-related services include revenue generated from DSL, LAN, and broadband-related value-added services, fees that we charge for our DDN, frame relay, ATM, MPLS-VPN and X.25 services and revenue from the provision of Internet dial-up services (other than communication fees) and dedicated Internet access services. Revenue from our broadband, data and other Internet-related services increased by 12.0% from RMB38.50 billion in 2011 to RMB43.13 billion in 2012, primarily as a result of the increase in revenue from fixed-line broadband services.

In light of the continuing effect of mobile substitution, fixed-line broadband service has become the main growth driver of our revenue from fixed-line services. In 2012, our fixed-line broadband services continued to maintain a growth as a result of our efforts in improving broadband access speed, adopting multi-service bundling strategy, enriching application contents and implementing diversified sales strategies. The number of our fixed-line broadband subscribers increased by 14.8% from 55.65 million in 2011 to 63.87 million in 2012. ARPU of our fixed-line broadband services decreased by 3.5% from RMB56.4 in 2011 to RMB54.4 in 2012. However, revenue from our fixed-line broadband service increased by 11.8% from RMB35.23 billion in 2011 to RMB39.37 billion in 2012, and as a percentage of the total fixed-line revenue increased from 43.2% in 2011 to 47.3% in 2012. Revenue from our data and other Internet-related services increased by 56.1% from RMB3.27 billion in 2011 to RMB5.11 billion in 2012.

Interconnection Fees. Our interconnection fees consists of interconnection fees charged to other domestic telecommunications operators, principally China Mobile and China Telecom, for both local and long distance calls. Our interconnection fees decreased by 7.9% from RMB4.58 billion in 2011 to RMB4.22 billion in 2012. The decrease in interconnection revenue was mainly due to a decrease in voice traffic from other telecommunications operators as a result of the mobile substitution effect.

Table of Contents

Value-Added Services Revenue. Revenue from our value-added services consists of fees that we charge our customers for the provision of caller identification, personalized ring, telephone information services, video- and tele-conferencing and other value-added services. Revenue from our value-added services decreased by 4.2% from RMB4.56 billion in 2011 to RMB4.37 billion in 2012, mainly due to the decrease in the usage of our caller identification, Personalized Ring, and PHS SMS services as a result of the reduction of our fixed-line telephone subscribers, including PHS subscribers.

Leased Line Income. Our leased line income consists of fees that we receive from our government, corporate and carrier customers for leasing circuit capacity to them, including the lease of digital circuits, digital trunk lines and optic fibers. Our leased line income increased by 17.9% from RMB6.86 billion in 2011 to RMB8.09 billion in 2012, which was primarily due to the increased demand of leased line services from our local government and corporate customers.

Information Communication Technology Services Revenue. Information communication technology services revenue increased by 37.4% from RMB1.63 billion in 2011 to RMB2.24 billion in 2012, mainly as a result of our new system integration projects in 2012 for government and large corporate customers.

Others Service Revenue. Other service revenue mainly consists of miscellaneous revenue items. Other service revenue decreased by 26.4% from RMB1.38 billion in 2011 to RMB1.01 billion in 2012.

Sales of Telecommunications Products. Revenue from our sales of fixed-line telecommunications products increased by 1.6% from RMB63 million in 2011 to RMB64 million in 2012, mainly due to the increase in sales of telecommunications terminal products such as telephone sets associated with local voice services in 2012.

Costs, Expenses and Others

Total costs, expenses and others in 2012 were RMB239.39 billion, representing an increase of 17.6% from RMB203.57 billion in 2011.

The table below sets forth the major items of costs, expenses and others and their respective percentage of the total telecommunications services revenue for the years 2011 and 2012:

	For the Year Ended December 31,			
	2011		2012	
	RMB in millions	% of Total	RMB in millions	% of Total
Total telecommunications services revenue ⁽¹⁾	185,870	100.0	210,127	100.0
Costs, expenses and others	203,569	109.5	239,405	113.9
Interconnection charges	16,380	8.8	18,681	8.9
Depreciation and amortization	58,021	31.2	61,057	29.1
Networks, operations and support expenses	29,449	15.8	32,516	15.5
Employee benefit expenses	26,601	14.3	28,778	13.7
Selling and marketing	28,750	15.5	35,037	16.7
General, administrative and other expenses	14,836	8.0	16,215	7.7
Cost of telecommunications products sold	29,739	16.0	45,040	21.4
Finance costs, net of interest income	1,244	0.7	3,424	1.6
Other income-net	(1,451)	(0.8)	(1,343)	(0.6)

⁽¹⁾ Excludes fixed-line upfront connection fees of RMB15 million in 2011. As of December 31, 2011, we made an accumulated appropriation of approximately RMB12,289 million to the statutory reserve in relation to the fixed-line upfront connection fees, which were deferred and amortized over the expected customer service period of ten years. No upfront connection fees will be recognized after December 31, 2011.

Table of Contents

Interconnection Charges. Interconnection charges were RMB18.68 billion in 2012, up by 14.1% from 2011, primarily due to an increase in interconnection traffic volume resulting from the increase of the number of our subscribers. Interconnection charges as a percentage of telecommunications service revenue (excluding fixed-line upfront connection fees in 2011) was 8.8% and 8.9% in 2011 and 2012, respectively.

Depreciation and Amortization. Our depreciation and amortization expenses were RMB61.06 billion in 2012, up by 5.2% from 2011. The increase was primarily due to the increase in our capital expenditure in connection with the expansion of our 3G and fixed-line broadband network coverage and improvement of our network quality in 2012. These capital expenditures increased the relevant fixed assets that are subject to depreciation. As a percentage of telecommunications service revenue (excluding fixed-line upfront connection fees in 2011), our depreciation and amortization expenses decreased from 31.2% in 2011 to 29.1% in 2012.

Networks, Operations and Support Expenses. Due to various factors, including the expansion of networks, facilities and base stations and the increases in utilities charges and rental expenses, we incurred networks, operations and support expenses of RMB32.52 billion in 2012, up by 10.4% from 2011. Networks, operations and support expenses, as a percentage of telecommunications service revenue (excluding fixed-line upfront connection fees in 2011), decreased from 15.8% in 2011 to 15.5% in 2012. As a result of an increase in the lease of underlying telecommunications networks from other telecommunications operators, the related line leasing fees was RMB70.92 billion, up by 4.5% from 2011.

Employee Benefit Expenses. Due to the increases in salaries and wages as well as contributions to defined contribution pension schemes, medical insurance and housing benefits, our employee benefit expenses increased by 8.2% from RMB26.60 billion in 2011 to RMB28.78 billion in 2012, and as a percentage of telecommunications service revenue (excluding fixed-line upfront connection fees in 2011), decreased from 14.3% in 2011 to 13.7% in 2012.

Selling and Marketing Expenses. Primarily due to the increased promotion of our key services, such as 3G and fixed-line broadband services, and the increased costs of customer retention and channel subsidies, our selling and marketing expenses were RMB35.04 billion in 2012, up by 21.9% from 2011, and as a percentage of telecommunications service revenue (excluding fixed-line upfront connection fees in 2011), increased from 15.5% in 2011 to 16.7% in 2012.

General, Administrative and Other Expenses. Our general, administrative and other expenses was RMB16.21 billion in 2012, up by 9.1% compared with last year, and as a percentage of telecommunications service revenue (excluding fixed-line upfront connection fees in 2011), slightly decreased from 8.0% in 2011 to 7.7% in 2012.

Cost of Telecommunications Products Sold. In 2012, we continued to proactively promote 3G handsets subsidy policies and launched a number of newly defined 3G handsets models. As a result, the cost of telecommunications products sold amount to RMB45.04 billion, up by 51.5% from 2011. Correspondingly, revenue from sale of telecommunications products in 2012 amounted to RMB38.80 billion, up by 66.6% from 2011.

Finance Costs, Net of Interest Income. Our finance costs, net of interest income, increased from RMB1.24 billion in 2011 to RMB3.43 billion in 2012, which was primarily due to the increase in our interest-bearing debt to finance the increased cash requirements for our business operations. The increase in our overall cash requirements in 2012 was primarily due to an increase in our capital expenditure in 2012.

Other Income-Net. In 2012, other income-net was RMB1.34 billion, down by 6.8% from 2011. The decrease was primarily as a result of a decrease in dividend income received from our investment in Telefónica and others, which was partially offset by an increase in other income.

Income Before Income Tax

In 2012, our income before income tax was RMB9.52 billion, up by 70.1% from 2011, mainly due to the rapid development of business volumes and revenue growth.

Table of Contents

Income Tax

Our income tax was RMB2.43 billion in 2012, up by 76.9% from 2011, and our effective tax rate in 2012 was 25.5%, up by one percentage point from 2011. The increase in our income tax was largely due to the increases in our income before income tax and our effective tax rate.

Net Income for the Year

In 2012, our net income reached RMB7.10 billion, up by 67.9% from 2011. Our basic earnings per share was RMB0.30 in 2012, up by 68.2% from 2011.

Year Ended December 31, 2011 Compared to Year Ended December 31, 2010

Revenue

In 2011, we continued to face various challenges, including intensified telecommunications market competition, further downward adjustments in tariffs and decline of fixed-line voice services. We continued to actively develop full-service operation with a focus on 3G mobile services and fixed-line broadband services. Revenue for 2011 was RMB209.17 billion, representing an increase of 22.1% from RMB171.37 billion for 2010. Excluding fixed-line upfront connection fees of RMB192 million and RMB15 million in 2010 and 2011, respectively, our revenue for 2011 would have been RMB209.15 billion, representing an increase of 22.2% from RMB171.18 billion in 2010, of which our service revenue would have been RMB185.87 billion in 2011, representing an increase of 13.4% from 2010.

Mobile Services Revenue

Revenue from our mobile services increased by 41.2% from RMB89.62 billion in 2010 to RMB126.53 billion in 2011. Of the revenue from our mobile services in 2010 and 2011, RMB82.45 billion and RMB103.31 billion, respectively, was from service revenue. Service revenue from our mobile services as a percentage of our total service revenue (excluding fixed-line upfront connection fees of RMB192 million and RMB15 million in 2010 and 2011, respectively) increased from 50.3% in 2010 to 55.6% in 2011. The growth in revenue from our mobile services was primarily driven by the growth of our 3G services. Our ARPU increased in 2011 compared to 2010, primarily due to the change in revenue mix between our GSM services and 3G services. 3G services have a significantly higher ARPU than GSM services. As the revenue from 3G services increased significantly as a percentage of total service revenue from mobile services from 14.1% in 2010 to 31.7% in 2011, the overall ARPU of our mobile services increased from RMB43.7 in 2010 to RMB47.3 in 2011. In addition, to effectively develop our 3G mobile data services, we sought to enhance customer experiences by incentivizing customers to upgrade their handsets. To this end, we offered a broad range of attractive bundled packages of mid- to high-end 3G handsets and 3G services in 2011. This initiative resulted in a significant increase in our mobile Internet service revenue as well as revenue from the sales of mobile telecommunications products in 2011.

The total number of our mobile subscribers was 199.66 million as of December 31, 2011, with a net addition of 32.23 million subscribers (including 25.96 million 3G subscribers) from the end of 2010. ARPU of our GSM mobile services was RMB37.4 in 2011, representing a decrease of 5.3% from RMB39.5 in 2010. ARPU of our 3G services was RMB110.0 in 2011, representing a decrease of 11.3% from RMB124.0 in 2010.

Table of Contents

The table below sets forth the revenue composition of our mobile services and each revenue item's respective share of total revenue for the years ended December 31, 2010 and 2011.

	2010		2011	
	RMB in millions	As % of total	RMB in millions	As % of total
Total revenue from mobile services	89,622	100.0	126,526	100.0
Service revenue	82,449	92.0	103,307	81.6
Usage fees and monthly fees	47,004	52.4	54,186	42.8
Value-added services revenue	25,920	28.9	37,880	29.9
Interconnection fees	9,022	10.1	10,726	8.5
Other service revenue	503	0.6	515	0.4
Sales of mobile telecommunications products	7,173	8.0	23,219	18.4

Usage Fees and Monthly Fees. Primarily as a result of an increase in mobile subscribers, usage fees and monthly fees for our mobile services were RMB54.19 billion in 2011, representing an increase of 15.3% from RMB47.00 billion in 2010.

Value-Added Services Revenue. Value-added services revenue consists primarily of revenue from our 3G value-added services and GSM value-added services. In 2011, we continued to actively promote mobile data services of our 3G services and improved the penetration of mobile Internet services. As a result, revenue from our mobile value-added services amounted to RMB37.88 billion in 2011, representing an increase of 46.1% from RMB25.92 billion in 2010 and as a percentage of total mobile revenue increased from 28.9% in 2010 to 29.9% in 2011. Of the total revenue from mobile value-added services, revenue from mobile Internet services increased by 90.4% from RMB7.70 billion in 2010 to RMB14.65 billion in 2011, revenue from our SMS services increased by 4.6% from RMB8.13 billion in 2010 to RMB8.51 billion in 2011 and revenue from Cool Ringtone services increased by 6.7% from RMB3.08 billion in 2010 to RMB3.28 billion in 2011.

Interconnection Fees. Our interconnection fees increased by 18.9% from RMB9.02 billion in 2010 to RMB10.73 billion in 2011, and represented 8.5% of total mobile revenue in 2011 as compared with 10.1% in 2010. The increase in our interconnection fees was primarily as a result of the increased total usage of our mobile services due to the increased total number of our mobile subscribers.

Sales of Telecommunications Products. Revenue from our sale of mobile telecommunications products increased from RMB7.17 billion in 2010 to RMB23.22 billion in 2011, mainly due to our continuing efforts in promoting a broad range of new bundled packages of mid- to high-end 3G handsets and 3G services in 2011.

Fixed-Line Services Revenue

In 2011, we continued to develop our fixed-line broadband services and promoted our mobile and fixed-line bundled services. The trend of mobile substitution continued to have a negative impact on the revenue from our fixed-line voice services. Excluding fixed-line upfront connection fees of RMB192 million and RMB15 million in 2010 and 2011, respectively, our revenue from fixed-line services would have increased by 2.3% from RMB79.86 billion in 2010 to RMB81.69 billion in 2011, of which service revenue would have increased by 2.4% from RMB79.75 billion in 2010 to RMB81.63 billion in 2011. See D. Risk Factors. The industry trends of mobile service substitution and migration may continue to have a material adverse effect on our fixed-line local telephone services and GSM mobile services, which may materially adversely affect our financial condition, results of operations and growth prospects under Item 3.

The table below sets forth the revenue composition of our fixed-line services and each revenue item's respective share of total revenue from our fixed-line services for the years ended December 31, 2010 and 2011.

	For the Year Ended December 31,			
	2010		2011	
	RMB in millions	As % of Total	RMB in millions	As % of Total
Total revenue from fixed-line services ⁽¹⁾	79,864	100.0	81,690	100.0
Service revenue ⁽¹⁾	79,750	99.9	81,627	99.9
Usage fee and monthly fee	29,085	36.4	24,116	29.5
Broadband, data and other Internet-related services revenue	32,595	40.8	38,500	47.1
Interconnection fees	5,243	6.6	4,579	5.6
Value-added services revenue	4,860	6.1	4,562	5.6
Leased line income	5,589	7.0	6,859	8.4

Edgar Filing: CHINA UNICOM (HONG KONG) Ltd - Form 20-F

Information communication technology services revenue	1,048	1.3	1,634	2.0
Others service revenue	1,330	1.7	1,377	1.7
Sales of fixed-line telecommunications products	114	0.1	63	0.1

- ⁽¹⁾ Excluding fixed-line upfront connection fees of RMB192 million in 2010 and RMB15 million in 2011. Fixed-line upfront connection fees represent the amortization of deferred upfront connection fees received from the customers before July 1, 2001. No upfront connection fee was received from the customers since then. Therefore, we consider that analyses of our operating results excluding upfront connection fees are more relevant to the readers of this report.

Table of Contents

Usage Fees and Monthly Fees. Usage fees include local usage fees charged for local telephone calls and VoIP long distance calls, long distance usage fees for domestic and international long distance calls originated by our fixed-line subscribers, users of our pre-paid phone cards and certain other customers. Monthly fees represent the fixed amount of service charges to our customers for using our fixed-line telephone services.

As a result of further implementation of the Calling-Party-Pays tariff policy for mobile services and continuing downward adjustments of tariffs for fixed-line services, the substitution effect of fixed-line local services by mobile services became more intense. In 2011, we experienced continuing decline in the number of fixed-line local telephone subscribers and revenue. Our local telephone subscribers decreased in 2011 by 3.9% from 96.64 million at the end of 2010 to 92.85 million at the end of 2011. ARPU of the local telephone services decreased by 11.1% from 2010 to RMB25.7 in 2011. Total usage of local calls decreased by 19.5% from 2010 to 125.28 billion pulses in 2011 (excluding Internet dial-up usage) and total usage of long distance calls decreased by 19.5% from 26.79 billion minutes in 2010 to 21.55 billion minutes in 2011. As a result, revenue from our usage fees and monthly fees in 2011 decreased by 17.1% from RMB29.09 billion in 2010 to RMB24.12 billion in 2011.

Broadband, data and other Internet-related services revenue. Revenue from our broadband, data and other Internet-related services include revenue generated from DSL, LAN, and broadband-related value-added services, fees that we charge for our DDN, frame relay, ATM, MPLS-VPN and X.25 services and revenue from the provision of Internet dial-up services (other than communication fees) and dedicated Internet access services. Revenue from our broadband, data and other Internet-related services increased by 18.1% from RMB32.60 billion in 2010 to RMB38.50 billion in 2011, primarily as a result of the increase in revenue from fixed-line broadband services.

In light of the continuing effect of mobile substitution, fixed-line broadband service has become the main growth driver of our revenue from fixed-line services. In 2011, our fixed-line broadband services continued to maintain a rapid growth as a result of our efforts in improving broadband access speed, adopting multi-service bundling strategy, enriching application contents and implementing diversified sales strategies. The number of our fixed-line broadband subscribers increased by 17.8% from 47.22 million in 2010 to 55.65 million in 2011. ARPU of our fixed-line broadband services decreased by 1.2% from RMB57.1 in 2010 to RMB56.4 in 2011. However, revenue from our fixed-line broadband service increased by 18.2% from RMB29.80 billion in 2010 to RMB35.23 billion in 2011, and as a percentage of the total fixed-line revenue, increased from 37.3% in 2010 to 43.1% in 2011. Revenue from our data and other Internet-related services increased by 18.1% from RMB2.77 billion in 2010 to RMB3.27 billion in 2011.

Interconnection Fees. Our interconnection fees consists of interconnection fees charged to other domestic telecommunications operators, principally China Mobile and China Telecom, for both local and long distance calls. Our interconnection fees decreased by 12.7% from RMB5.24 billion in 2010 to RMB4.58 billion in 2011. The decrease in interconnection revenue was mainly due to a decrease in voice traffic from other telecommunications operators as a result of the mobile substitution effect.

Table of Contents

Value-Added Services Revenue. Revenue from our value-added services consists of fees that we charge our customers for the provision of caller identification, personalized ring, telephone information services, video- and tele-conferencing and other value-added services. Revenue from our value-added services decreased by 6.1% from RMB4.86 billion in 2010 to RMB4.56 billion in 2011, mainly due to the decrease in the usage of our caller identification, Personalized Ring, and PHS SMS services as a result of the significant reduction of our fixed-line telephone subscribers, including PHS subscribers.

Leased Line Income. Our leased line income consists of fees that we receive from our government, corporate and carrier customers for leasing circuit capacity to them, including the lease of digital circuits, digital trunk lines and optic fibers. Our leased line income increased by 22.7% from RMB5.59 billion in 2010 to RMB6.86 billion in 2011, which was primarily due to the increased demand of leased line services from our local government and corporate customers.

Information Communication Technology Services Revenue. Information communication technology services revenue increased by 55.9% from RMB1.05 billion in 2010 to RMB1.63 billion in 2011, mainly as a result of our new system integration projects in 2011 for government and large corporate customers.

Other Service Revenue. Other service revenue mainly consists of miscellaneous revenue items. Other service revenue increased by 3.5% from RMB1.33 billion in 2010 to RMB1.38 billion in 2011.

Sales of Telecommunications Products. Revenue from our sales of fixed-line telecommunications products decreased by 44.7% from RMB0.11 billion in 2010 to RMB0.06 billion in 2011, mainly due to the decrease in sales of telecommunications terminal products such as telephone sets associated with local voice services in 2011.

Costs, Expenses and Others

Total costs, expenses and others in 2011 were RMB203.57 billion, representing an increase of 22.1% from RMB166.79 billion in 2010.

The table below sets forth the major items of costs, expenses and others and their respective percentage of the total telecommunications services revenue for the years 2010 and 2011:

	For the Year Ended December 31,			
	2010		2011	
	RMB in millions	% of Total	RMB in millions	% of Total
Total telecommunications services revenue ⁽¹⁾	163,891	100.0	185,870	100.0
Costs, expenses and others	166,786	101.8	203,569	109.5
Interconnection charges	13,727	8.4	16,380	8.8
Depreciation and amortization	54,654	33.3	58,021	31.2
Networks, operations and support expenses	26,387	16.1	29,449	15.8
Employee benefit expenses	23,348	14.2	26,601	14.3
Selling and marketing	23,735	14.5	28,750	15.5
General, administrative and other expenses	13,862	8.4	14,836	8.0
Cost of telecommunications products sold	10,688	6.5	29,739	16.0
Finance costs, net of interest income	1,606	1.0	1,244	0.7
Other income-net	(1,221)	(0.7)	(1,451)	(0.8)

⁽¹⁾ Excludes fixed-line upfront connection fees of RMB192 million in 2010 and RMB15 million in 2011.

Interconnection Charges. Interconnection charges were RMB16.38 billion in 2011, up by 19.3% from 2010, primarily due to an increase in interconnection traffic volume resulting from the increased total usage of our services. Interconnection charges as a percentage of telecommunications service revenue (excluding fixed-line upfront connection fees) increased from 8.4% in 2010 to 8.8% in 2011.

Table of Contents

Depreciation and Amortization. Our depreciation and amortization expenses were RMB58.02 billion in 2011, up by 6.2% from 2010. The increase was primarily due to our efforts in improving our 3G and fixed-line broadband network capacity, expanding our 3G and fixed-line broadband network coverage and optimizing our GSM network, which increased the relevant fixed assets that are subject to depreciation. As a percentage of telecommunications service revenue (excluding fixed-line upfront connection fees), our depreciation and amortization expenses decreased from 33.3% in 2010 to 31.2% in 2011.

Networks, Operations and Support Expenses. Due to various factors, including the expansion of networks coverage, the increase in network assets and the increase in infrastructure charges such as utilities charges and rental expenses, we incurred networks, operations and support expenses of RMB29.45 billion in 2011, up by 11.6% from 2010. Networks, operations and support expenses, as a percentage of telecommunications service revenue (excluding fixed-line upfront connection fees), decreased from 16.1% in 2010 to 15.8% in 2011. As a result of an increase in the lease of underlying telecommunications networks from other telecommunications operators, the related line leasing fees was RMB0.74 billion, up by 116.2% from 2010.

Employee Benefit Expenses. As the average social wages continued to increase in China and due to the implementation of our employee incentive, evaluation and allocation mechanism, our employee benefit expenses increased by 13.9% from 2010 to RMB26.60 billion in 2011, and as a percentage of service revenue (excluding fixed-line upfront connection fees), increased from 14.2% in 2010 to 14.3% in 2011.

Selling and Marketing Expenses. Due to various factors, including the increased promotion of our key services, such as 3G and fixed-line broadband services, and the increased costs of customer retention and channel subsidies, our selling and marketing expenses were RMB28.75 billion in 2011, up by 21.1% from 2010, and as a percentage of telecommunications service revenue (excluding fixed-line upfront connection fees), increased from 14.5% in 2010 to 15.5% in 2011.

General, Administrative and Other Expenses. We continued to closely control the increase in general and administrative expenses. Our general, administrative and other expenses was RMB14.84 billion in 2011, up by 7.0% compared with 2010, and as a percentage of telecommunications service revenue (excluding fixed-line upfront connection fees), decreased from 8.4% in 2010 to 8.0% in 2011.

Cost of Telecommunications Products Sold. In 2011, we proactively promoted 3G handsets subsidy policies and launched a number of newly defined 3G handsets models. As a result, the cost of telecommunications products sold amount to RMB29.74 billion, up by 178.2% from 2010. Correspondingly, revenue from sale of telecommunications products in 2011 amounted to RMB23.28 billion, up by 219.5% from 2010.

Finance Costs, Net of Interest Income. Our finance costs, net of interest income, decreased by 22.5% from RMB1.61 billion in 2010 to RMB1.24 billion in 2011, which was primarily due to the increase in gain from foreign currency exchanges driven by the appreciation of RMB, partially offset by an increase of 22.2% in interest expenses from RMB1.91 billion in 2010 to RMB2.33 billion in 2011. The increase in our interest expenses was mainly due to the increase in our overall cost of capital from 3.1% in 2010 to 3.7% in 2011, as a result of the increase in the financing costs in the PRC financial market.

Other Income-Net. In 2011, other income-net was RMB1.45 billion, up by 18.7% from 2010. The increase was primarily as a result of the dividends of RMB0.87 billion received from our investment in Telefónica and others, up by RMB0.39 billion from 2010.

Income Before Income Tax

In 2011, our income before income tax was RMB5.60 billion, up by 22.1% from 2010, mainly due to the increase in our revenue from mobile services, especially 3G services.

In order to ensure the comparability of income before income tax and income for the year, we exclude the non-comparable factor of deferred fixed-line upfront connection fees of RMB15 million for 2011 and RMB192 million for 2010 for additional analysis purposes. After excluding the above factor, our income before income tax would have been RMB5.58 billion, up by 27.1% from 2010.

Table of Contents**Income Tax**

Our income tax was RMB1.37 billion in 2011, up by 55.3% from 2010, and our effective tax rate in 2011 was 24.5%, up by 5.2 percentage points from 2010. The increase in our income tax was largely due to the increases in our income before income tax and our effective tax rate. The increase in our effective tax rate is mainly due to the significant decrease in non-taxable deferred fixed-line upfront connection fees and the unavailability of certain one-off favorable tax treatments, such as the utilization of tax loss from the previous years of a subsidiary of our company against the current year taxable income. Excluding the factors discussed under Income Before Income Tax above, our effective tax rate in 2010 and 2011 would have been 20.1% and 24.6%, respectively.

Net Income for the Year

In 2011, our net income reached RMB4.23 billion, up by 14.2% from 2010. Our basic earnings per share was RMB0.18 in 2011. Excluding the factors discussed under the subsection Income Before Income Tax above, our net income would have been RMB4.21 billion, up by 20.0% from 2010.

Liquidity and Capital Resources**Working Capital and Cash Flows**

As of December 31, 2012, we had RMB18.25 billion of cash and cash equivalents, as compared with RMB15.11 billion as of December 31, 2011 and RMB22.60 billion as of December 31, 2010. As of December 31, 2012, we had RMB0.03 billion of short-term bank deposits, as compared with RMB0.30 billion as of December 31, 2011 and RMB0.27 billion as of December 31, 2010. As of December 31, 2012, we had a working capital deficit (current liabilities less current assets) of RMB254.15 billion, representing an increase by 45.1% from the working capital deficit of RMB175.12 billion as of December 31, 2011. The increase in working capital deficit in 2012 primarily resulted from an increase in short-term bank loans incurred to finance the increased cash requirements for our business operations, as well as an increase in the current position of long-term debt. The increase in our overall cash requirements in 2012 was primarily due to an increase in our capital expenditure in 2012.

In recent years, although the PRC Government introduced measures to avoid overheating of the economy, including tightening bank lending policies, we, due to our enterprise nature and our good credit records with PRC banks, generally have not experienced and do not expect to experience in the foreseeable future significant difficulties in obtaining bank financing in China. As of December 31, 2012, we had RMB223.5 billion revolving banking facilities and registered quota of commercial papers, of which RMB116.3 billion was unutilized. There is no term of the facilities that materially restricts our ability to draw down the unutilized banking facilities. In addition, we believe we have the ability to raise funds from short, medium and long-term perspectives and maintain reasonable financing costs through appropriate financing portfolio. Therefore, we believe that we will be able to fund our anticipated capital and liquidity needs with our access to debt and equity financing, in particular bank financing in China, and net cash inflows from our operations.

The following table sets forth cash inflows and outflows in 2010, 2011 and 2012.

	For the Year Ended December 31,		
	2010	2011	2012
	RMB in millions	RMB in millions	RMB in millions
Net cash inflow from operating activities of continuing operations	66,376	66,491	70,620
Net cash outflow from investing activities of continuing operations	(76,619)	(82,970)	(99,480)
Net cash inflow from financing activities of continuing operations	19,824	8,988	32,004
Net cash inflow/(outflow) from continuing operations	9,581	(7,491)	3,144
Net cash inflow from discontinued operations	5,121	-	-
Net increase/(decrease) in cash and cash equivalents	14,702	(7,491)	3,144

Table of Contents

Our net cash inflow from operating activities of continuing operations increased by 0.2% from RMB66.38 billion in 2010 to RMB66.49 billion in 2011, and further increased by 6.2% to RMB70.62 billion in 2012. The increase in net cash inflow from operating activities in 2011 was mainly due to an increase in cash generated from our growing 3G services, partially offset by an increase in interest paid. The increase in net cash inflow from operating activities in 2012 was primarily a result of an increase in cash generated from our growing 3G and fixed-line broadband services, which was partially offset by the increases in interest paid and income tax paid.

Our net cash outflow from investing activities of continuing operations increased by 8.3% from RMB76.62 billion in 2010 to RMB82.97 billion in 2011, and further increased by 19.9% to RMB99.48 billion in 2012. The increase in 2011 was mainly due to an amount of RMB3.37 billion used to increase our investment in Telefónica pursuant to the Agreement to Enhance the Strategic Alliance with Telefónica and an increase of RMB2.30 billion used in the purchase of property, plant and equipment. The increase in 2012 was mainly due to an amount of RMB10.31 billion used in our acquisition of the entire equity interest in Unicom New Horizon, as well as an increase of RMB8.9 billion used in the purchase of property, plant and equipment.

Our net cash inflow from financing activities decreased from RMB19.82 billion in 2010 to RMB8.99 billion in 2011, primarily due to our decreased needs for new financings as a result of our improved overall cash flow position. Our net cash inflow from financing activities increased from RMB8.99 billion in 2011 to RMB32.00 billion in 2012, mainly as a result of an increase in short-term bank loans and debt issuance incurred to finance the increased cash requirements for our business operations. The increase in our overall cash requirements in 2012 was primarily due to an increase in our capital expenditure in 2012.

Our net cash inflow from discontinued operations was RMB5.12 billion in 2010, mainly resulting from our receipt of proceeds in 2010 in relation to the disposal of our CDMA business in 2008. There was no cash inflow or outflow from discontinued operations in 2011 and 2012.

Indebtedness and Capital Structure

The following table sets forth the amount of cash, cash equivalents, assets, short-term and long-term debt and equity as well as debt-to-capitalization and debt-to-equity ratios as of the end of 2010, 2011 and 2012.

	2010	As of December 31, 2011	2012
(RMB in millions, except percentages)			
Cash and cash equivalents and short-term bank deposits	22,870	15,410	18,282
Total assets	441,269	456,233	516,724
Short-term debt	61,944	72,606	139,367
Short-term bank loans	36,727	32,322	69,175
Commercial papers	23,000	38,000	38,000
Current portion of long-term bank loans	58	50	850
Amounts due to related parties	2,033	2,156	-
Current portion of obligations under finance lease included in other obligations	126	78	127
Current portion of promissory notes	-	-	15,000
Current portion of corporate bonds	-	-	5,000
Convertible bonds	-	-	11,215
Long-term debt	35,098	34,502	2,753
Promissory notes	15,000	15,000	-
Corporate bonds	7,000	7,000	2,000
Convertible bonds	11,558	11,118	-
Non-current portion of long-term bank loans	1,462	1,384	536
Non-current portion of obligations under finance lease included in other obligations	78	-	217
Equity attributable to owners of the parent	205,661	205,898	209,505
Debt-to-capitalization ratio ⁽¹⁾	32.1%	34.2%	40.4%
Debt-to-equity ratio ⁽²⁾	47.2%	52.0%	67.8%

(1)

Edgar Filing: CHINA UNICOM (HONG KONG) Ltd - Form 20-F

Debt-to-capitalization ratio = (long-term interest-bearing debt + short-term interest-bearing debt)/(long-term interest-bearing debt + short-term interest-bearing debt + equity attributable to owners of the parent).

⁽²⁾ Debt-to-equity ratio = (long-term interest-bearing debt + short-term interest-bearing debt)/equity attributable to owners of the parent.

-63-

Table of Contents

Our debt-to-capitalization ratio was 40.4% at the end of 2012, compared to 34.2% at the end of 2011 and 32.1% at the end of 2010. Our debt-to-equity ratio was 67.8% at the end of 2012, compared to 52.0% at the end of 2011 and 47.2% at the end of 2010. The sum of our long-term and short-term interest-bearing debt exceeds the amount of our cash and cash equivalents and short-term bank deposits by RMB123.84 billion as of December 31, 2012, compared to RMB91.70 billion as of December 31, 2011 and RMB74.17 billion as of December 31, 2010. The increases in our debt-to-capitalization ratio and debt-to-equity ratio from 2010 to 2011 were primarily due to our issuance of commercial papers, promissory notes and convertible bonds to finance the increased cash requirements for our business operations, which was partially offset by our repayment of short-term bank loans. The increase in our overall cash requirements in 2011 was primarily due to an increase in our capital expenditure in 2011 relating mainly to further investments in telecommunications networks construction. The increases in our debt-to-capitalization ratio and debt-to-equity ratio from 2011 to 2012 were mainly attributable to the incurrence of interest-bearing debt to finance the increased cash requirements for our business operations. The increase in our overall cash requirements in 2012 was primarily due to an increase in our capital expenditure in 2012. We continue to seek to optimize our capital structure, develop multiple financing sources and reduce overall financing costs. In addition, we seek to increase our capital turnover ratio and control the amount of monetary assets.

Our outstanding short-term and long-term bank loans, denominated in RMB, U.S. dollar, HK dollar and Euro, was RMB70.56 billion at the end of 2012, compared to RMB33.76 billion at the end of 2011 and RMB38.25 billion at the end of 2010. The decrease from 2010 to 2011 was primarily because we replaced certain of our short-term bank loans with short-term commercial papers and other debts. The increase from 2011 to 2012 was mainly because we raised more short-term bank loans to finance the increased cash requirements for our business operations. The loan agreement does not include financial performance or other covenants which may materially restrict our operations or those of CUCL, our principal operating subsidiary in China. As of December 31, 2012, no short-term bank loans or long-term bank loans were guaranteed by Unicom Group.

In order to further rationalize our debt structure and reduce our interest expense, we may continue to finance a portion of our business operations and capital expenditures through issuance of debt securities. Our liquidity in the future will primarily depend on our ability to maintain adequate cash inflow from operations and obtain adequate external financing to meet our debt service obligations and planned capital expenditures. Our operating cash flows could be adversely affected by numerous factors beyond our control, including, but not limited to, changes in telecommunications tariffs, decreased demand for our telecommunications services and further intensified competition. Our ability to obtain external financing also depends on numerous factors, including, but not limited to, our financial condition and creditworthiness as well as our relationship with lenders. See D. Risk Factors Risks Relating to Our Business If we are unable to fund our capital expenditure and debt service requirements, our financial condition, results of operations and growth prospects will be adversely affected under Item 3.

On June 8, 2007, we issued RMB2 billion 10-year corporate bonds, bearing interest at 4.5% per annum. The corporate bonds are secured by a guarantee issued by Bank of China Limited. On September 3, 2008, we issued another RMB5 billion 5-year corporate bonds, bearing interest at 5.29% per annum. The corporate bonds are secured by a guarantee issued by State Grid Corporation of China.

On April 1, 2010, CUCL completed the issue of the first tranche of commercial paper for the year 2010 in an amount of RMB15 billion, with a maturity period of 365 days and at an interest rate of 2.64% per annum. The commercial paper was fully repaid in March 2011. On April 2, 2010, CUCL completed the issue of the first tranche of promissory note for the year 2010 in an amount of RMB3 billion, with a maturity period of 3 years and at an interest rate of 3.73% per annum.

On September 20, 2010, CUCL completed the issue of the second tranche of commercial paper for the year 2010 in an amount of RMB8 billion, with a maturity period of 365 days and at an interest rate of 2.81% per annum. On the same date, CUCL completed the issue of the second tranche of promissory note for the year 2010 in an amount of RMB12 billion, with a maturity period of 3 years and at an interest rate of 3.31% per annum. The commercial paper was fully repaid in September 2011.

Table of Contents

On October 18, 2010, Billion Express Investments Limited, a wholly-owned subsidiary of our company, issued the 2015 Convertible Bonds in aggregate principal amount of US\$1,838,800,000 (at the fixed exchange rate of US\$1 equivalent to HK\$7.7576), which are guaranteed by our company and are exchangeable into ordinary shares of our company. Pursuant to the subscription agreement with respect to the 2015 Convertible Bonds, the holders of the 2015 Convertible Bonds may, beginning on November 28, 2010, elect to convert its bonds into our ordinary shares at an initial conversion price of HK\$15.85 per share, subject to certain adjustments. Pursuant to the relevant terms and conditions, the conversion price of the 2015 Convertible Bonds was adjusted to HK\$15.58 per share as a result of the payment of the 2011 final dividend and will be further adjusted to HK\$15.36 per share upon the payment of the 2012 final dividend, which is expected to be June 13, 2013. As of April 19, 2013, none of the 2015 Convertible Bonds has been converted into our ordinary shares.

On March 10, 2011, CUCL completed the issue of the first and second tranches of super and short-term commercial paper for the year 2011 in an amount of RMB8 billion for each tranche, each with a maturity period of 180 days and at an interest rate of 3.88% per annum. The first and second tranches of super and short-term commercial paper were fully repaid in September 2011.

On August 25, 2011, CUCL completed the issue of the first tranche of commercial paper for the year 2011 in an amount of RMB15 billion, with a maturity period of 366 days and at an interest rate of 5.23% per annum. The first tranche of commercial paper was fully repaid in August 2012.

On September 16, 2011, CUCL completed the issue of the third and fourth tranches of super and short-term commercial paper for the year 2011 in an amount of RMB4 billion for each tranche, each with a maturity period of 30 days and at an interest rate of 5.35% per annum. The third and fourth tranches of super and short-term commercial papers were fully repaid in October 2011.

On October 20, 2011, CUCL completed the issue of the second tranche of commercial paper for the year 2011 in an amount of RMB8 billion, with a maturity period of 366 days and at an interest rate of 5.78% per annum. The second tranche of commercial paper was fully repaid in October 2012.

On November 21, 2011, CUCL completed the issue of the fifth tranche of super and short-term commercial paper for the year 2011 in an amount of RMB15 billion, with a maturity period of 180 days and at an interest rate of 4.65% per annum. The fifth tranche of super and short-term commercial paper was fully repaid in May 2012.

On May 16, 2012, CUCL completed the issue of the first tranche of super and short-term commercial paper for the year 2012 in an amount of RMB15 billion, with a maturity period of 60 days and at an interest rate of 3.88% per annum. The first tranche of super and short-term commercial paper was fully repaid in July 2012.

On July 12, 2012, CUCL completed the issue of the first tranche of commercial paper for the year 2012 in an amount of RMB15 billion, with a maturity period of 365 days and at an interest rate of 3.45% per annum.

On August 28, 2012, CUCL completed the issue of the second tranche of super and short term commercial paper for the year 2012 in an amount of RMB15 billion, with a maturity period of 60 days and at an interest rate of 3.70% per annum. The second tranche of super and short-term commercial paper was fully repaid in October 2012.

On October 24, 2012, CUCL completed the issue of the second tranche of commercial paper for the year 2012 in an amount of RMB15 billion, with a maturity period of 365 days and at an interest rate of 4.20% per annum.

On October 25, 2012, CUCL completed the issue of the third tranche of commercial paper for the year 2012 in an amount of RMB8 billion, with a maturity period of 365 days and at an interest rate of 4.20% per annum.

Table of Contents**Contractual Obligations and Commercial Commitments**

The following table sets forth the amounts of our outstanding contractual cash obligations as of December 31, 2012.

	Total	Less than 1 year	Between 1 and 3 years	Between 3 and 5 years	Over 5 years

Trend Information

Please refer to the discussion in sections headed Overview and Operating Results under this Item 5.

Off-Balance Sheet Arrangements

Edgar Filing: CHINA UNICOM (HONG KONG) Ltd - Form 20-F

As of December 31, 2012, we did not have any other off-balance sheet arrangement.

Capital Expenditures

The following table sets forth our historical capital expenditure requirements for the periods indicated.

	For the Year Ended December 31,			
	2011	As a	2012	As a
	(RMB in billions)	Percentage	(RMB in billions)	Percentage
Mobile services	25.99	33.9%	40.93	41.0%
Broadband and data services	25.71	33.5%	25.52	25.6%
Infrastructure and transmission network	15.42	20.1%	19.03	19.1%
Others ⁽¹⁾	9.54	12.5%	14.32	14.3%
Total	76.66	100.0%	99.80	100.0%

⁽¹⁾ Other expenditures consist of innovation and value-added platform, IT system, fixed-line services and procurement of miscellaneous assets, equipment and spare parts.

Our capital expenditure totaled RMB99.80 billion in 2012, which mainly consisted of investment in mobile services, broadband and data services, and infrastructure and transmission networks. In 2012, capital expenditure attributable to mobile services was RMB40.93 billion; capital expenditure attributable to broadband and data services was RMB25.52 billion; capital expenditure attributable to infrastructure and transmission networks was RMB19.03 billion.

Table of Contents

We currently estimate that our capital expenditure in 2013 will be substantially lower than our capital expenditure in 2012. However, we expect to continue incurring significant capital expenditure in 2013 in relation to our further investments in 3G services and data services as well as infrastructure and transmission networks that support the development of our 3G and fixed-line broadband services.

We expect to fund our capital expenditure needs through a combination of cash generated from operating activities, granted and unused banking facilities and other available financing sources. See **D. Risk Factors** **Risks Relating to Our Business** If we are unable to fund our capital expenditure and debt service requirements, our financial condition, results of operations and growth prospects will be adversely affected. under Item 3.

Item 6. Directors, Senior Management and Employees**A. Directors and Senior Management**

The following table sets forth certain information concerning our current directors and executive officers.

Name	Age	Position
Chang Xiaobing	56	Chairman of the Board of Directors and Chief Executive Officer
Lu Yimin	49	Executive Director and President
Tong Jilu	55	Executive Director and Senior Vice President
Li Fushen	50	Executive Director and Chief Financial Officer
Cesareo Alierta Izuel	67	Non-Executive Director
Cheung Wing Lam Linus	64	Independent Non-Executive Director
Wong Wai Ming	55	Independent Non-Executive Director
John Lawson Thornton	59	Independent Non-Executive Director
Chung Shui Ming Timpson	61	Independent Non-Executive Director
Cai Hongbin	45	Independent Non-Executive Director
Law Fan Chiu Fun Fanny	60	Independent Non-Executive Director
Li Jianguo	59	Senior Vice President
Li Gang	55	Senior Vice President
Zhang Junan	56	Senior Vice President
Jiang Zhengxin	56	Senior Vice President
Shao Guanglu	49	Senior Vice President

Mr. Chang Xiaobing was appointed in December 2004 as an Executive Director, Chairman and Chief Executive Officer of the Company. Mr. Chang, a professor level senior engineer, graduated in 1982 from the Nanjing Institute of Posts and Telecommunications with a bachelor's degree in telecommunications engineering and received a master's degree in business administration from Tsinghua University in 2001. He received a doctor's degree in business administration from the Hong Kong Polytechnic University in 2005. Prior to joining China United Telecommunications Corporation, Mr. Chang served as a Deputy Director of the Nanjing Municipal Posts and Telecommunications Bureau of Jiangsu Province and a Deputy Director General of the Directorate General of Telecommunications of the Ministry of Posts and Telecommunications and a Deputy Director General and Director General of the Department of Telecommunications Administration of the former Ministry of Information Industry, Vice President of China Telecommunications Corporation, as well as Executive Director and President of China Telecom Corporation Limited. Mr. Chang was appointed the Chairman of China United Telecommunications Corporation in November 2004. In December 2008, China United Telecommunications Corporation changed its company name to China United Network Communications Group Company Limited (Unicom Group). Mr. Chang has served as a Director of Telefónica since May 2011. He also serves as the Chairman of Unicom Group, A Share Company and CUCL, respectively. Mr. Chang has extensive operational and managerial experience in the telecommunications industry.

Table of Contents

Mr. Lu Yimin was appointed as an Executive Director of the Company in October 2008 and President of the Company in February 2009. Mr. Lu, a researcher level senior engineer, graduated from Shanghai Jiao Tong University with a bachelor's degree in computer science in 1985 and then was awarded a master's degree in public administration by the John F. Kennedy School of Government at Harvard University. Mr. Lu joined Netcom Group in December 2007, serving as senior management. From April 2006 to October 2008, Mr. Li served as an Executive Director of the Company. In addition, Mr. Li has served as a Non-Executive Director of PCCW Limited since November 2011. Mr. Li is a Deputy General Manager of Unicom Group, as well as a Director and Senior Vice President of CUCL. Mr. Li has worked in the telecommunications industry for a long period of time and has extensive management experience.

Mr. Zhang Junan was appointed as Vice President of the Company in April 2006 and Senior Vice President of the Company in February 2009. Mr. Zhang graduated from the Nanjing University of Posts and Telecommunications majoring in carrier communication in 1982. He received a master's degree in business administration from the Australian National University in 2002 and a doctor's degree in business administration from the Hong Kong Polytechnic University in 2008. He previously served as a Director of the Bengbu Municipal Posts and Telecommunications Bureau in Anhui Province and a Deputy Director of the Anhui Provincial Posts and Telecommunications Bureau. From 2000 to 2005, he served as a Deputy General Manager and General Manager of the Anhui Provincial Telecommunications Company and the Chairman and General Manager of the Anhui Provincial Telecommunications Co., Limited. Mr. Zhang joined the China United Telecommunications Corporation in December 2005 and served as Vice President. In December 2008, China United Telecommunications Corporation changed its company name to China United Network Communications Group Company Limited (Unicom Group). From April 2006 to October 2008, Mr. Zhang served as the Executive Director of the Company. In addition, Mr. Zhang serves as a Non-Executive Director of China Communications Services Corporation Limited. Mr. Zhang also serves as Vice President of Unicom Group, as well as Director and Senior Vice President of CUCL. Mr. Zhang has worked in the telecommunications industry for a long period of time and has extensive management experience.

Mr. Jiang Zhengxin was appointed as Senior Vice President of the Company in February 2009. Mr. Jiang is a senior engineer of professor level. He received a bachelor's degree in radio engineering from Beijing University of Posts and Telecommunications in 1982, a master's degree in business administration from Jilin University in 2001, and a PhD in political economy from Jilin University in 2006. Mr. Jiang served as Deputy Director of the Bureau of Telecommunications Administration in Changchun of Jilin Province from February 1998 to July 1999. He was the Deputy General Manager of Jilin Mobile Communication Company from July 1999 to March 2004. He served as the Deputy General Manager of South Communication Co. Limited of Netcom Group from March 2004 to June 2004, and he was the General Manager of Zhejiang Branch of Netcom Group from June 2004 to September 2007. He has served as Deputy General Manager of Netcom Group since September 2007. Mr. Jiang is a Deputy General Manager of Unicom Group, as well as Director and Senior Vice President of CUCL. Mr. Jiang has worked in the telecommunications industry for a long period of time and has extensive management experience.

Table of Contents

Mr. Shao Guanglu was appointed as Senior Vice President of the Company in April 2011. Mr. Shao is a senior engineer. He received a bachelor's degree from Harbin Institute of Technology in 1985, a master's degree in engineering and a master's degree in economics from Harbin Institute of Technology in 1988 and 1990, respectively, a master's degree in management from BI Norwegian Business School in 2002 and a doctor's degree in management from Nankai University in 2009. Mr. Shao joined China United Telecommunications Corporation in February 1995. In December 2008, China United Telecommunications Corporation changed its company name to China United Network Communications Group Company Limited (Unicom Group). Mr. Shao was Deputy General Manager of Tianjin Branch, Deputy General Manager of Henan Branch, General Manager of Guangxi Branch, as well as General Manager of Human Resource Department of Unicom Group. Mr. Shao also serves as a Vice President of Unicom Group, as well as a Director and Senior Vice President of CUCL. Mr. Shao has worked in the telecommunications industry for a long period of time and has extensive management experience.

B. Compensation

The aggregate compensation and other benefits paid by us to our directors as a group in 2012 was approximately RMB5.674 million, while retirement benefits paid by us were approximately RMB132,000. Each of our executive directors participated in a bonus scheme with us that ties the amount of bonus he or she will receive at the end of a year to our operating results of the year and his or her job performance. Some of our directors also hold options to purchase shares in our company. See E. Share Ownership below for detailed descriptions of our share option schemes and options granted to our directors as well as compensation for the year 2012.

C. Board Practices
General

Pursuant to our articles of association, at each annual general meeting, one-third of our directors retire from office by rotation. The retiring directors are eligible for re-election. The Board may at any time appoint a new director to fill a vacancy or as an additional director. The Board may also appoint and remove our executive officers. No benefits are payable to our directors or executive officers upon termination of their service with us in accordance with the provisions of their service agreements, except certain statutory compensation. The following table sets forth certain information concerning our current directors and former directors who served as directors in 2012.

Name Current Directors	Appointment Date	Re-appointment Date	Resignation or
			Retirement Date

Table of Contents

Audit Committee

The audit committee reviews and supervises our financial reporting process and internal controls. The duties of the audit committee include, among others:

as the key representative body for overseeing our relationship with the independent auditor, considering and approving the appointment, resignation and removal of our independent auditor and the auditor's fees;

reviewing our quarterly, interim and annual financial statements before submission to the board of directors;

coordinating and discussing with the independent auditor with respect to any issues identified and recommendations made during the audits;

reviewing any correspondence from the independent auditor to our management and the responses of our management;

reviewing the relevant reports concerning our internal controls and procedures;

discussing our internal control system with our management to ensure that our management perform their duties to have an effective internal control system in place;

pre-approving the audit and non-audit services to be provided by the external auditor, and determining whether any non-audit services would affect the independence of the auditor;

discussing with our management the schedule and procedures for the rotation of the partner of the auditing firm who will principally be responsible for the audit of our company and the partners who will actively participate in the audit of our company;

supervising the internal audit department, which will directly report to the committee; and

having the right to approve the appointment or removal of the head of internal audit department.

As of April 19, 2013, the members of the audit committee are Mr. Wong Wai Ming (Chairman of the audit committee), Mr. Cheung Wing Lam Linus, Mr. John Lawson Thornton, Mr. Chung Shui Ming Timpson, Mr. Cai Hongbin and Mrs. Law Fan Chiu Fun Fanny, all being independent non-executive directors of our company.

Table of Contents**Remuneration Committee**

The remuneration committee meets regularly to consider human resources issues, issuance of options and other matters relating to compensation. The primary duties of the remuneration committee include considering and approving the remuneration policies and structure for directors and senior management's remuneration, considering and making recommendations to the Board regarding the remuneration packages of the directors and senior management, and considering and approving our Company's share option schemes. The remuneration committee also conducts performance review of the Chief Executive Officer and determines the Chief Executive Officer's year-end bonus pursuant to the performance target contract entered into between the Board and the Chief Executive Officer. The Chief Executive Officer is responsible for the performance review and determination of performance-based year-end bonuses for the other members of our management, which is subject to the review of the remuneration committee. In addition, the remuneration committee consults the Chairman of the Board on the remuneration proposals for other executive directors. As of April 19, 2013, the members of the remuneration committee are Mr. Cheung Wing Lam Linus (Chairman of the remuneration committee), Mr. Wong Wai Ming, Mr. John Lawson Thornton, Mr. Chung Shui Ming Timpson and Mr. Cai Hongbin, all being independent non-executive directors of our company.

Nomination Committee

The nomination committee meets regularly to consider the nomination of our directors and senior management personnel. The primary duties of the nomination committee are to (i) review the structure, size and composition of the Board at least annually and make recommendations on any proposed changes to the Board to complement our corporate strategy; (ii) identify individuals suitably qualified to become Board members and select or make recommendations to the Board; (iii) assess the independence of independent non-executive directors; (iv) make recommendations to the Board on the appointment or re-appointment of directors and succession planning for directors; and (v) provide opinion to the Board on candidates nominated by our Chief Executive Officer to become our senior management personnel and on changes to our senior management personnel. As of April 19, 2013, the members of the nomination committee are Mr. Cai Hongbin (Chairman of the nomination committee), Mr. Chang Xiaobing, Mr. John Lawson Thornton and Mr. Chung Shui Ming Timpson. Except for Mr. Chang Xiaobing, who is our Chairman and Chief Executive Officer, each of the members of the nomination committee is an independent non-executive director of our company.

D. Employees

As of December 31, 2010, 2011 and 2012, we had a total number of 310,030, 297,210 and 289,015 employees, respectively. The employees as of December 31, 2012 are classified by function as follows:

By Function	Number of Employees
Employees	218,598
Management and administration	23,620
Sales and customer service	63,397
Product and Marketing	18,308
Network construction and maintenance	81,155
Support	26,579
Others	5,539
Temporary employees	70,417
Total	289,015

Table of Contents**E. Share Ownership**

As of April 19, 2013, our directors who own shares in our company are listed as follows:

Name	Capacity and Nature	Ordinary Shares Held	Percentage of Total Issued Shares
Cheung Wing Lam Linus	Beneficial Owner (<i>Personal</i>)	400,000	0.0017%
Chung Shui Ming Timpson	Beneficial Owner (<i>Personal</i>)	6,000	0.0000%

Apart from those disclosed herein, as of April 19, 2013, our other directors as a group do not own any shares in our company.

As of April 19, 2013, our directors as a group hold options for 2,619,840 shares, or approximately 0.01% of our issued and outstanding share capital, including the following options granted under our share option scheme and special purpose share option scheme:

Name Directors	Capacity and Nature	Number of Shares Covered ⁽¹⁾	Expiration Date	Exercise Price	Consideration Paid	Compensation for 2012 (RMB in thousands)

Edgar Filing: CHINA UNICOM (HONG KONG) Ltd - Form 20-F

- (1) Each option gives the holder the right to subscribe for one share.
- (2) In 2009, the exercise periods of approximately 25,000,000 options were extended by one year by the Board pursuant to the terms of the Share Option Scheme. The reasons for such extension were that (i) the holders of those options were determined by the Board as Transferred Personnel under the terms of the Share Option Scheme due to the transfers of those option holders to other telecommunications operators as part of the 2008 industry restructuring and (ii) those options were not exercisable due to a Mandatory Moratorium under the terms of the Share Option Scheme. Due to the Mandatory Moratorium continuing to be in force, the Board further extended the exercise periods of certain options by one year in each of March 2010, 2011, 2012 and 2013 under the terms of the Share Option Scheme. As of December 31, 2012, approximately 23,440,000 share options held by Transferred Personnel remained valid.

-75-

Table of Contents

- (3) In each of March 2010, 2011, 2012 and 2013, the expiry dates for certain options were extended by one year by the Board pursuant to the terms of each of the Share Option Scheme and the Special Purpose Share Option Scheme, because those options were not exercisable due to a Mandatory Moratorium, which is still in force, under the respective terms of each of the Share Option Scheme and the Special Purpose Share Option Scheme.

Stock Incentive Schemes

Share Option Scheme. We adopted a share option scheme on June 1, 2000, and amended the scheme on each of May 13, 2002, May 11, 2007 and May 26, 2009. The amended scheme provides for the grant of options to our employees, including executive directors and non-executive directors. Any grant of options to a connected person (as defined in the HKSE Listing Rules) of Unicom requires approval by our independent non-executive directors, excluding any independent non-executive director who is the grantee of the option. The option period commences on any date after the date on which an option is offered, but may not exceed 10 years from the offer date. The subscription price of a share in respect of any particular option granted under this share option scheme will be determined by our board of directors in its discretion at the grant date, which shall be no less than the higher of: (i) the nominal value of the shares; (ii) the closing price of the shares on the HKSE on the grant date of such option; and (iii) the average closing price of the shares on the HKSE for the five trading days immediately preceding the grant date. As of March 31, 2013, 202,040,000 options granted by us under the share option scheme were outstanding and held by two directors and approximately 2,800 of our employees. The share option scheme expired on June 21, 2010. Following the expiry of the share option scheme, no further option may be granted under the share option scheme, but the provisions of the share option scheme will remain in full force and effect to the extent necessary to give effect to the exercise of the options granted prior to the expiry or otherwise as may be required in accordance with the provisions of the share option scheme. As of March 31, 2013, 4,310,000 options (with an exercise price of HK\$15.42), 34,131,200 options (with an exercise price of HK\$6.18), 92,398,800 options (with an exercise price of HK\$4.3), 366,000 options (with an exercise price of HK\$4.66), 67,084,000 options (with an exercise price of HK\$5.92), 10,652,000 options (with an exercise price of HK\$6.35) and 150,000 options (with an exercise price of HK\$6.35) had been exercised.

Special Purpose Share Option Scheme. We also adopted a special purpose share option scheme on September 16, 2008, in connection with our merger with China Netcom and amended the scheme on May 26, 2009. The special purpose share option scheme provides for the grant of options to the optionholders of China Netcom, in consideration for the cancellation of their outstanding China Netcom options (whether vested or not) on October 14, 2008. There are two exercise periods for the options granted under the special purpose share option scheme, one of which commenced on October 15, 2008, and will end on November 16, 2013 (as extended by the Board), with an exercise price of HK\$5.57 and the other commenced on October 15, 2008, and will end on December 5, 2013 (as extended by the Board), with an exercise price of HK\$8.26. No amount was payable on acceptance of the grant of options under the special purpose share option scheme. As of March 31, 2013, 189,291,158 options granted under this scheme were outstanding and held by one director and approximately 690 of our employees. As of March 31, 2013, 265,408 options (with an exercise price of HK\$5.57) granted under the Special Purpose Share Option Scheme had been exercised.

Item 7. Major Shareholders and Related Party Transactions

A. Major Shareholders

As of April 19, 2013, our controlling shareholder, Unicom Group, through its 17.90% direct interest in Unicom BVI, 62.22% direct interest in the A Share Company (which in turn holds 82.10% of Unicom BVI) and 100% direct interest in Unicom Group BVI, indirectly and beneficially owned approximately 17.8 billion shares of Unicom, or 75.57% of our total outstanding shares. See A. History and Development of the Company under Item 4. Unicom Group's shares are held by the SASAC and a group of companies, most of which are state-owned enterprises in China. Shares beneficially owned by Unicom Group do not carry voting rights different from our other issued shares. In addition, Telefónica held 5.01% of our total outstanding shares.

Table of Contents

As of April 19, 2013, most of our shareholders of record were located outside of the United States. In addition, as of April 19, 2013, there were approximately 49,816,000 ADSs outstanding, each representing 10 shares and together representing 2.11% of our total outstanding shares or 8.65% of our total outstanding shares not beneficially owned by our controlling shareholder.

B. Related Party Transactions

2012 Acquisition

In December 2012, we completed our acquisition through CUCL of the entire equity interest in Unicom New Horizon from Unicom Group for a total cash consideration of RMB12,165,750,000. The assets of Unicom New Horizon consist of fixed-line telecommunications network assets located in 21 provinces in southern China and the rights and liabilities of Unicom New Horizon relating to its business operations.

2011 Acquisition

In December 2011, we completed our acquisitions through Broadband Online, a wholly-owned subsidiary of CUCL, of the entire equity interest in Unicom NewSpace from Unicom Group for a total cash consideration of RMB158 million. Unicom NewSpace primarily engages in mobile value-added business in China.

Continuing Related Party Transactions under the 2011 Comprehensive Services Agreement

Under the two-step approach described under *A. History and Development of the Company Two-Step Voting Arrangements* of Item 4, the continuing transactions between CUCL and Unicom Group under the comprehensive services agreement entered into in 2006 were amended, or the amended comprehensive services agreement, effective upon the completion of our merger with China Netcom, with CNC China added as party to such transactions. In January 2009, CNC China merged into CUCL. Pursuant to the amended comprehensive services agreement, Unicom Group agreed to provide certain services to CUCL and CNC China, being the supply of telephone cards, the provision of equipment procurement services, interconnection arrangements, the mutual provision of premises, the provision of international telecommunications network gateway, the provision of operator-based value-added services, the provision of value-added telecommunications services, the provision of 10010/10011 customer services, the provision of agency services and the provision of engineering design and technical services, until December 31, 2010.

On October 29, 2010, CUCL and Unicom Group entered into the 2011 comprehensive services agreement to renew certain continuing connected transactions for a term of three years commencing on January 1, 2011 and expiring on December 31, 2013. Unless CUCL notifies Unicom Group at least 60 days prior to the expiration of such agreement of their intention not to renew the 2011 comprehensive services agreement, such agreement shall automatically be renewed for a further period of three years.

Details of the continuing related party transactions under the 2011 comprehensive services agreement are summarized below.

Telecommunications Resources Leasing

Unicom Group agrees to lease to CUCL certain international telecommunications resources and certain other telecommunications facilities required by CUCL for its operations.

The rental charges for the leasing of international telecommunications resources and other telecommunications facilities are based on the annual depreciation charges of such resources and telecommunications facilities, provided that such charges would not be higher than market rates. CUCL will be responsible for the on-going maintenance of the leased international telecommunications resources. CUCL and Unicom Group will determine and agree which party is to provide maintenance service to the leased telecommunications facilities. Unless otherwise agreed by CUCL and Unicom Group, such maintenance service charges would be borne by CUCL. If Unicom Group is responsible for maintaining any leased telecommunications facilities, CUCL will pay to Unicom Group the relevant maintenance service charges which will be determined with reference to market rates, or where there are no market rates, be agreed between the parties and determined on a cost-plus basis. The net rental charges and service charges due to Unicom Group for the provision of the leased telecommunications resources leasing will be settled between CUCL and Unicom Group on a quarterly basis. In 2012, the total charges paid by CUCL to Unicom Group amounted to approximately RMB293 million.

Table of Contents

Property Leasing

CUCL and Unicom Group agree to lease to each other properties and ancillary facilities belonging to CUCL or Unicom Group (including their respective branch companies and subsidiaries).

The rental charges payable by CUCL or Unicom Group are based on market rates or the depreciation charges and taxes in respect of each property, provided that such rental charges will not be higher than the market rates. The rental charges are payable quarterly in arrears and are subject to review every year to take into account the then prevailing market rates of the properties leased in that year. In 2012, the rental charges paid by CUCL to Unicom Group amounted to approximately RMB922 million and the rental charges paid by Unicom Group to CUCL was negligible.

Provision of Value-added Telecommunications Services

Unicom Group (or its subsidiaries) agrees to provide the customers of CUCL with various types of value-added telecommunications services.

CUCL will settle the revenue generated from the value-added telecommunications services with the branches of Unicom Group (or its subsidiaries) on the condition that such settlement will be based on the average revenue for independent value-added telecommunications content providers who provide value-added telecommunications content to CUCL in the same region. The revenue will be settled on a monthly basis. In 2012, the total revenue allocated to Unicom Group in relation to value-added services amounted to approximately RMB13 million.

Provision of Equipment Procurement Services

Unicom Group agrees to provide comprehensive procurement services for imported and domestic telecommunications equipment and other domestic non-telecommunications equipment to CUCL. Unicom Group also agrees to provide services on management of tenders, verification of technical specifications, installation, consulting and agency services.

In addition, Unicom Group will sell cable, modem and other materials operated by itself to CUCL and will also provide storage and logistics services in relation to the above equipment and materials procurement.

Charges for the provision of equipment procurement services are calculated at the rate of:

(a) up to 3% of the contract value of those procurement contracts in the case of domestic equipment procurement; and

(b) up to 1% of the contract value of those procurement contracts in the case of imported equipment procurement.

The charges for the provision of materials operated by Unicom Group are determined by reference to the following pricing principles:

(A) the government fixed price;

(B) where there is no government fixed price but a government guidance price exists, the government guidance price;

Table of Contents

(C) where there is neither a government fixed price nor a government guidance price, the market price; or

(D) where none of the above is applicable, the price to be agreed between the parties and determined on a cost-plus basis.

The charges for the provision of storage and logistics services are determined by reference to the market price, which is determined by reference to the following:

(I) the price charged by an independent third party providing the services in the same or nearby location in an ordinary business transaction; or

(II) the price charged by an independent third party providing the services in mainland China in an ordinary business transaction.

The service charges due to Unicom Group will be settled on a monthly basis. In 2012, the total charges paid by CUCL to Unicom Group amounted to approximately RMB394 million.

Provision of Engineering Design and Construction Services

Unicom Group agrees to provide engineering design, construction and supervision services and IT services to CUCL. Engineering design services include planning and design, engineering inspection, telecommunications electronic engineering, telecommunications equipment engineering and corporate telecommunications engineering. Construction services include services relating to telecommunications equipment, telecommunications routing, power supplies, telecommunications conduit, and technical support systems. IT services include services relating to office automation, software testing, network upgrading, research and development of new business, and development of support systems.

The charges for the provision of engineering design and construction services are determined by reference to the market price, which is determined by reference to the following:

(a) the price charged by an independent third party providing the services in the same or nearby location in an ordinary business transaction; or

(b) the price charged by an independent third party providing the services in mainland China in an ordinary business transaction.

The service charges will be settled between CUCL and Unicom Group as and when the relevant services are provided. In 2012, the total charges paid by CUCL to Unicom Group amounted to approximately RMB2,890 million.

Provision of Ancillary Telecommunications Services

Unicom Group agrees to provide ancillary telecommunications services to CUCL. These services include certain telecommunications pre-sale, on-sale and after-sale services such as assembling and repairing of certain telecommunications equipment, sales agency services, printing and invoice delivery services, maintenance of telephone booths, customers acquisitions and servicing and other customers' services.

The charges payable for the provision of ancillary telecommunications services are determined by reference to the following pricing principles:

(a) the government fixed price;

(b) where there is no government fixed price but a government guidance price exists, the government guidance price;

Table of Contents

(c) where there is neither a government fixed price nor a government guidance price, the market price; or

(d) where none of the above is applicable, the price to be agreed between the parties and determined on a cost-plus basis.

The service charges will be settled between CUCL and Unicom Group as and when the relevant services are provided. In 2012, the total charges paid by CUCL to Unicom Group amounted to approximately RMB1,447 million.

Provision of Comprehensive Support Services

Unicom Group and CUCL agree to provide comprehensive support services to each other, including dining services, facilities leasing services (excluding those facilities which are provided under the paragraph headed *Provision of Telecommunications Resources Leasing* above), vehicle services, health and medical services, labor services, security services, hotel and conference services, gardening services, decoration and renovation services, sales services, construction agency, equipment maintenance services, market development, technical support services, research and development services, sanitary services, parking services, staff trainings, storage services, advertising services, marketing, property management services, information and communications technology services (including construction and installation services, system integration services, software development, product sales and agent services, operation and maintenance services, and consultation services).

The service charges are determined by reference to the following pricing principles:

(a) the government fixed price;

(b) where there is no government fixed price but a government guidance price exists, the government guidance price;

(c) where there is neither a government fixed price nor a government guidance price, the market price; or

(d) where none of the above is applicable, the price to be agreed between the parties and determined on a cost-plus basis.

The service charges will be settled between CUCL and Unicom Group as and when the relevant services are provided. In 2012, the total services charges paid by CUCL to Unicom Group amounted to approximately RMB240 million and the total services charges paid by Unicom Group to CUCL was RMB93 million.

Provision of Shared Services

Unicom Group and CUCL agree to provide shared services to each other, including, but not limited to, the following:

(a) CUCL will provide headquarter human resources services to Unicom Group;

(b) Unicom Group and CUCL will provide central business support services to each other;

(c) CUCL will provide trust services related to the services referred to in paragraphs (a) and (b) above to Unicom Group; and

(d) Unicom Group will provide premises to CUCL and other shared services requested by its headquarters.

Table of Contents

In relation to the central business support services, CUCL will provide support services, such as billing and settlement services provided by the business support center and operational statistics reports. Unicom Group will provide support services, including telephone card production, development and related services, maintenance and technical support and management services in relation to the telecommunications card operational system.

Unicom Group and CUCL will share the costs related to the shared services proportionately in accordance with their respective total assets value, except that the total assets value of the overseas subsidiaries and the listed company of Unicom Group will be excluded from the total asset value of Unicom Group, and the shared costs proportion will be agreed between Unicom Group and CUCL in accordance with the total assets value set out in the financial statements provided to each other, as adjusted in accordance with their respective total assets value on an annual basis. In 2012, the total services charges paid by CUCL to Unicom Group amounted to approximately RMB186 million and the total services charges paid by Unicom Group to CUCL was negligible.

Acquisitions of Fixed-Line Business in 21 Provinces in Southern China and Other Assets from Parent Companies and Lease of Telecommunications Networks in 21 Provinces in Southern China

Under the two-step voting mechanism described in A. History and Development of the Company Two-Step Voting Arrangements under Item 4, we completed our acquisitions, through CUCL, of certain telecommunications business and assets, including the telecommunications business across 21 provinces in southern China, from Unicom Group and Netcom Group pursuant to (1) an acquisition agreement entered into among Unicom Group, Netcom Group and the A Share Company on December 16, 2008, under which the A Share Company agreed to acquire the relevant business and assets and (2) a transfer agreement entered into between the A Share Company and CUCL on December 16, 2008, under which the A Share Company agreed to transfer all of its rights and obligations under the acquisition agreement to CUCL. In addition, in order to operate the fixed-line business in the 21 provinces in southern China, on December 16, 2008, CUCL entered into the initial network lease agreement with Unicom Group, Netcom Group and Unicom New Horizon, a wholly-owned subsidiary of Unicom Group, to lease on an exclusive basis the telecommunications networks in those provinces, which are held by Unicom New Horizon and are necessary for the operation of the fixed-line business in southern China. The initial network lease agreement expired at the end of 2010.

On October 29, 2010, CUCL entered into the 2011-2012 network lease agreement, with Unicom New Horizon, which was for an initial term of two years effective from January 1, 2011 and was renewable at the option of CUCL with at least two months prior notice on the same terms and conditions, except for the future lease fee which will remain subject to further negotiations between the parties. The annual lease fee paid by CUCL under the 2011-2012 network lease agreement for the years ending December 31, 2011 and 2012 was RMB2.4 billion and RMB2.6 billion, respectively. See A. History and Development Acquisitions of Fixed-Line Business in 21 Provinces in Southern China and Other Assets from Parent Companies and Lease of Telecommunications Networks in 21 Provinces in Southern China under Item 4.

Certain Agreements Relating to Our Initial Public Offering

The Reorganization Agreement

In relation to the restructuring in connection with our initial public offering, our wholly-owned subsidiary, CUCL, entered into a reorganization agreement with Unicom Group, dated April 21, 2000. This agreement includes the following terms:

Unicom Group's agreement to transfer to CUCL certain assets and liabilities;

mutual warranties and indemnities given by Unicom Group and CUCL in relation to the assets and liabilities transferred to CUCL and in relation to the restructuring;

undertakings by Unicom Group in favor of CUCL, including, among other things:

to hold and maintain all licenses received from the former Ministry of Information Industry in connection with any of our businesses for our benefit, and to allocate spectrum and to provide other resources to us;

Table of Contents

subject to applicable Chinese laws and regulations in effect at the relevant time, to take all actions necessary to obtain, maintain, renew and otherwise extend to or for our benefit such governmental or regulatory licenses, consents, permits or other approvals as we shall require to continue to operate our businesses;

to arrange for us to participate in its international roaming arrangements;

not to engage in any business that competes with our businesses, except for the existing competing businesses of Unicom Group;

to grant us a right of first refusal in relation to any governmental authorization, license or permit, or other business opportunity to develop any new telecommunications technology, product or service;

to ensure that we can continue to use the premises for which title documentation cannot be obtained at this time, for a period of three years following the restructuring;

not to dispose of any of our shares it beneficially owns or to take or permit any other actions, including primary issuances of securities by us or CUCL, which would result in us or CUCL no longer constituting majority-owned subsidiaries of Unicom Group; and

not to seek an overseas listing for any of its businesses or the businesses of its subsidiaries in which we are engaged or may engage in the future except through us;

an option granted by Unicom Group to us to acquire Unicom Group's interest in any telecommunications interest, such as Unicom Paging, Unicom Xingye and Unicom Group's CDMA telephony license and business; and

a commitment by Unicom Group that it will provide continuous financial support to us when necessary.

The 2011 comprehensive services agreement provides that the determination of whether we or CUCL would constitute majority-owned subsidiaries of the Unicom Group shall be made in accordance with the PRC Enterprise Accounting Standards, as amended by the MOF from time to time.

Trademark Agreement

Unicom Group is the registered owner of the Unicom trademark in English, the trademark bearing the Unicom logo and the trademark of the word "Unicom" in Chinese (), which are registered at the PRC State Trademark Bureau. Under a PRC trademark license agreement entered into on May 25, 2000 between Unicom Group and CUCL, CUCL and our affiliates were granted the right to use these trademarks on a royalty-free basis for an initial period of five years, renewable at the option of CUCL. Under the terms of this agreement, we and our affiliates are the exclusive licensees of these trademarks, provided that Unicom Group may also license these trademarks to any of its existing or future subsidiaries. Unicom Group also agreed to license to CUCL any trademark that it registers in China in the future that incorporates the word "Unicom".

C. Interests of Experts and Counsel

Not Applicable.

Item 8. Financial Information

See Item 18 Financial Statements. Other than as disclosed elsewhere in this annual report, no significant change has occurred since the date of the annual financial statements.

Table of Contents

Legal Proceedings

We are not involved in any material litigation, arbitration or administrative proceedings. We are not aware of any pending or threatened litigation, arbitration or administrative proceedings expected to have a material effect on our financial condition and results of operations.

In 2011, the NDRC initiated an anti-monopoly investigation relating to the price charged for Internet dedicated leased line access service provided by us to Internet service providers. In response to the NDRC's investigation, we (i) provided the NDRC with pricing, volume, turnover and other information relevant to our Internet access bandwidth leasing services with Internet service providers for the year 2010, (ii) conducted a comprehensive self-inspection of our operations and (iii) submitted to the NDRC a proposal for enhancement initiatives and an application for suspension of the NDRC's investigation. Through our comprehensive self-inspection of our operations, we have identified room for improvement in pricing management and relatively wide pricing variation, in respect of our services relating to the Internet dedicated leased line access service provided by us to the Internet service providers. In addition, the quality of interconnection between us and other backbone network operators also requires further improvement. In December 2012, we submitted a report to the NDRC regarding the improvement of our price management of Internet dedicated leased line access service. As of the date of this annual report, the NDRC has not informed us of any results or conclusions of the investigation.

Policy on Dividend Distribution

The objective of our dividend policy is to achieve a long-term, sustainable and steadily increasing dividend, with a view to maximize our shareholders' value. The declaration and payment of future dividends will depend upon, among other things, financial condition, business prospects, future earnings, cash flow, liquidity level and cost of capital. We believe such policy will provide our shareholders with a stable return in the long term along with the growth of our company. We may only pay dividends out of our distributable profits.

Based on the Company's financial position in 2012 and taking into account the development needs of the mobile and fixed-line broadband services, our board of directors recommended the payment of a final dividend of RMB0.12 per share for the year ended December 31, 2012, compared to RMB0.10 per share for the fiscal year ended December 31, 2011.

Item 9. The Offer and Listing **Market Price Information**

Our ADSs, each representing ten ordinary shares, are listed and traded on the NYSE. Our ordinary shares are listed and traded on the HKSE. The NYSE and the HKSE are the principal trading markets for our ADSs and ordinary shares, which are not listed on any other exchanges in or outside the United States.

The high and low closing prices of our ordinary shares on the HKSE and of our ADSs on the NYSE since listing are as follows:

	Price per Ordinary Share (HK\$)		Price per ADS (US\$)	
	High	Low	High	Low
Annual:				
2008	19.58	8.53	25.07	10.27

B. Memorandum and Articles of Association
General

Under our Articles of Association, we have the capacity, rights, powers, liabilities and privileges of a natural person and, in addition to and without limiting the foregoing, we may do anything which is permitted or required to be done by any enactment or rule of law. The following is a summary of selected provisions of our Articles of Association:

Directors**Material Interests and Voting**

A director shall not vote (or be counted in the quorum) on any resolution of our board of directors in respect of any contract or arrangement or proposal in which he or any of his associates (as defined in the HKSE Listing Rules) is, to his knowledge, materially interested, and if he shall do so, his vote shall not be counted (nor shall he be counted in the quorum for that resolution), but this prohibition does not apply to any contract, arrangement or other proposal for or concerning:

the giving of any security or indemnity either (i) to the director or any of his associates (as defined in the HKSE Listing Rules) in respect of money lent or obligations incurred or undertaken by him or any of them at the request of or for the benefit of Unicom or any of its subsidiaries or (ii) to a third-party in respect of a debt or obligation of Unicom or any of its subsidiaries for which the director or any of his associates has assumed responsibility in whole or in part and whether alone or jointly under a guarantee or indemnity or by the giving of security;

Table of Contents

an offer of shares or debentures or other securities of or by Unicom (or any other company which Unicom may promote or be interested in) where the director or any of his associates is or will be an interested participant in the underwriting or sub-underwriting of the offer;

any contract or arrangement in which the director or any of his associates is interested in the same manner as other holders of shares or debentures or other securities of Unicom by virtue only of his interest in shares or debentures or other securities of Unicom;

any other company in which the director or any of his associates is interested only, whether directly or indirectly, as an officer or shareholder or in which the director or any of his associates is beneficially interested in shares of that company, provided that he, together with any of his associates, is not beneficially interested in 5% or more of (i) the issued shares of any class of such company (or of any third company through which such interest is derived), or (ii) the voting rights attached to such issued shares or securities (excluding for the purpose of calculating such 5% interest, any indirect interest of such director or any of his associates by virtue of Unicom's interest in such company); or

the benefit of employees of Unicom or any of its subsidiaries, including (i) the adoption, modification or operation of a pension fund or retirement, death or disability benefits scheme which relates to directors, their associates and employees of Unicom or any of its subsidiaries and does not provide in respect of the director or any of his associates any privilege or advantage not generally accorded to the class of persons to which such scheme or fund relates; or (ii) the adoption, modification or operation of any employee share scheme involving the issue or grant of options over shares or other securities by Unicom to, or for the benefit of, the employees of Unicom or its subsidiaries under which the director or any of his associates may benefit.

Remuneration and Pensions

The directors of Unicom are entitled to receive by way of remuneration for their services such sum as is from time to time determined by Unicom in a general meeting. The directors are also entitled to have reimbursed all traveling, hotel and other expenses reasonably incurred by them in or about the performance of their duties as directors. The board of directors may grant special remuneration to any director who performs services that, in the opinion of the board, are outside the scope of the ordinary duties of a director.

The board may establish and maintain any contributory or non-contributory pension or superannuation funds for the benefit of, or give donations, gratuities, pensions, allowances or emoluments to, any persons (i) who are or were at any time in the employment or service of Unicom, or of any company which is a subsidiary of Unicom, or is allied or associated with Unicom or with any such subsidiary company, or (ii) who are or were at any time directors or officers of Unicom or of any such other company above, and have or who have had any salaried employment or had held office in Unicom or such other company, and the wives, widows, families and dependents of any such persons. The board may also establish and subsidize or subscribe to any institutions, associations, clubs or funds calculated to be for the benefit of or to advance the interests and well being of Unicom or of any such other company above or of any such persons above, and may make payments for or towards the insurance of any such persons, and subscribe or guarantee money for charitable or benevolent objects or for any exhibition or for any public, general or useful object. Any director holding any such employment or office is entitled to participate in, and retain for his own benefit, any such donation, gratuity, pension, allowance or emolument.

Borrowing Powers

The directors may exercise all the powers of Unicom to borrow money and to mortgage or charge all or any part of the undertaking, property and assets (present and future) and uncalled capital of Unicom and to issue debentures, debenture stocks, bonds and other securities, whether outright or as collateral security for any debt, liability or obligation of Unicom or of any third-party.

Table of Contents

Qualification of Directors

A director of Unicom is not required to hold any qualification shares.

Rotation of Directors

At every annual general meeting, one-third of the directors for the time being, or, if the number is not three or a multiple of three, then the number nearest one-third, shall retire from office by rotation, except for any director holding office as chairman or chief executive officer. The directors to retire in every year shall be those who have been in office the longest since their last election. In addition, a director appointed by the board to fill in a casual vacancy or as an addition to the board shall retire at the next following annual general meeting and shall then be eligible for re-election, but shall not be taken into account in determining the number of directors who are to retire by rotation at each annual general meeting. The retiring directors shall be eligible for re-election.

Rights Attached to Ordinary Shares

Voting Rights

Under the Companies Ordinance, any action to be taken by the shareholders at a general meeting requires an affirmative vote by either an ordinary or a special resolution passed at the meeting. An ordinary resolution is one passed by the majority of such shareholders as are entitled to, and do, vote in person or by proxy at a general meeting. A special resolution is one passed by not less than three-quarters of such shareholders as are entitled to, and do, vote in person or by proxy at a general meeting. Most shareholders' decisions are passed by ordinary resolutions. However, the Companies Ordinance and our articles of association stipulate that certain matters may only be passed by special resolutions.

In accordance with the HKSE Listing Rules, any vote of shareholders at a general meeting will be taken by poll.

In a poll, every shareholder present in person or, if the shareholder is a corporation, by duly authorized representative, or by proxy has one vote for every share of which he or she is the shareholder, and which is fully paid up or credited as fully paid up. However, no amount paid up or credited as paid up on a share in advance of calls or installments is treated for the foregoing purposes as paid up on the share.

Any action to be taken by the shareholders requires the affirmative vote of a majority of the shares at a meeting of shareholders. There are no cumulative voting rights. Accordingly, the holders of a majority of the shares voting for the election of directors can elect all the directors if they choose to do so.

Issue of Shares

Under the Companies Ordinance, our board of directors may, without prior approval of our shareholders, offer to issue new shares to existing shareholders proportionately according to their shareholdings. Our board of directors may not offer to issue new shares in any other manner without the prior approval of our shareholders at a general meeting. Any such approval given at a general meeting will continue in force until the conclusion of the following annual general meeting or the expiration of the period within which the next annual general meeting is required by law to be held or when revoked or varied by an ordinary resolution of our shareholders in a general meeting, whichever comes first. If such approval is given, the unissued shares shall be at the disposal of our board of directors, which may offer, allot, grant options over or otherwise dispose of them to such persons at such times and for such consideration and upon such terms and conditions as our board of directors may determine.

In accordance with the HKSE Listing Rules, any such approval given by the shareholders must be limited to shares with aggregate nominal value not exceeding 20 per cent of the aggregate nominal value of our share capital in issue plus the aggregate nominal amount of share capital repurchased by us since the granting of such approval.

Table of Contents

Dividends

Subject to the Companies Ordinance and as set out in our articles of association, our shareholders at a general meeting may from time to time by ordinary resolution declare dividends to be paid to our shareholders according to their rights and interests in the profits available for distribution, but no dividend shall be declared in excess of the amount recommended by our board of directors.

In addition to any dividends declared at a general meeting upon the recommendation of the board of directors, our board of directors may, as they deem appropriate, from time to time resolve to pay to our shareholders such interim dividends as appear to our board of directors to be justified by our financial position. Our board of directors may also pay any fixed dividend that is payable on any of our shares on any other dates, whenever our financial position, in the opinion of our board of directors, justifies such payments.

All dividends or bonuses unclaimed for one year after having become payable may be invested or otherwise made use of by the board for the benefit of Unicom until claimed. All dividends or bonuses unclaimed for six years after having been declared may be forfeited by the board and will revert to Unicom.

Winding Up

If we are wound up, the surplus assets remaining after payment to all creditors shall be divided among the shareholders in proportion to the capital paid up on the shares held by them, subject to the rights of the holders of any shares that may be issued on special terms or conditions.

If we are wound up, the liquidator may, with the sanction of a special resolution, divide among our shareholders in specie or in kind the whole or any part of our assets or vest any part of our assets in trustees upon such trusts for the benefit of our shareholders or any of them as the resolution shall provide.

Miscellaneous

Shareholders are not entitled to any redemption rights, conversion rights or preemptive rights on the transfer of ordinary shares.

The transfer agent and registrar for the shares is Hong Kong Registrars Limited, 46th Floor, Hopewell Centre, 183 Queen's Road East, Hong Kong.

Modification of Rights

Subject to the Companies Ordinance, any of the rights from time to time attaching to any class of shares may, subject to the provisions of the Companies Ordinance, be varied or abrogated with the consent in writing of the holders of not less than three-fourths of the issued shares of that class or with the sanction of a special resolution passed at a separate general meeting of the holders of shares of that class. The provisions of our Articles of Association relating to general meetings apply to such separate general meetings, except that the necessary quorum is not less than two persons holding or representing by proxy one-third in nominal value of the issued shares of that class, and that any holder of the shares of the class present in person or by proxy may demand a poll.

Annual General and Extraordinary General Meetings

We must hold in each year a general meeting as our annual general meeting in addition to any other meetings in that year. The annual general meeting is held at such time (within a period of not more than 15 months, or such longer period as the Registrar of Companies of Hong Kong may authorize in writing, after the holding of the last preceding annual general meeting) and place as may be determined by the board of directors. All other general meetings are called extraordinary general meetings. The board of directors may call an extraordinary general meeting at any time or upon request in accordance with the Hong Kong Companies Ordinance.

Subject to the Companies Ordinance and the HKSE Listing Rules, an annual general meeting and a meeting called for the passing of a special resolution can be called by not less than 21 days' notice in writing, and any other general meeting can be called by not less than 14 days' notice in writing. The notice must specify the place, date and time of the meeting, and, in the case of special business, the general nature of that business. The HKSE Listing Rules provide that notice shall be given to shareholders at least 20 clear business days before an annual general meeting and at least ten clear business days before all other general meetings.

Table of Contents

Limitations on Rights to Own Securities

There are no limitations on the rights to own securities, including the rights of non-resident or foreign shareholders to hold or exercise voting rights on the securities, imposed by Hong Kong law or by our Memorandum of Association or our Articles of Association.

Changes in Capital

We may exercise any powers conferred or permitted by the Companies Ordinance to purchase or otherwise acquire our own shares and warrants at any price or to give, directly or indirectly, by means of a loan, guarantee, the provision of security or otherwise, financial assistance for the purpose of or in connection with a purchase made by any person of any shares or warrants in Unicom. Repurchases of our own shares may be made either by way of a general offer to all shareholders in proportion to their shareholdings, by purchasing our shares on a stock exchange or by an off-market contract with individual shareholders. Any such purchase or other acquisition or financial assistance must be made or given in accordance with any relevant rules or regulations issued by the HKSE or the Securities and Futures Commission of Hong Kong.

We may, in a general meeting, from time to time, by ordinary resolution increase our authorized share capital by the creation of new shares, and prescribe the amount of new capital and number of new shares. We may, from time to time, by ordinary resolution:

consolidate and divide all or any of our share capital into shares of a larger amount than our existing shares;

divide our shares into several classes and attach to them any preferential, deferred, qualified or special rights, privileges or conditions;

cancel any shares that at the date of the passing of the resolution have not been taken or agreed to be taken by any person, and diminish the amount of our share capital by the amount of the shares so cancelled;

sub-divide our shares or any of them into shares of a smaller amount than is fixed by our Memorandum of Association, subject nevertheless to the provisions of the Companies Ordinance; and

make provision for the issue and allotment of shares which do not carry any voting rights.

Miscellaneous

We keep our share register with our share registrar, which is Hong Kong Registrars Limited, Shops 1712-1716, 17th Floor, Hopewell Centre, 183 Queen's Road East, Wanchai, Hong Kong. In addition, we also file certain documents with the Registrar of Companies, Hong Kong, in accordance with the requirements of the Companies Ordinance. Our company number is 703499.

C. Material Contracts

In addition to the contracts described in B. Related Party Transactions under Item 7, Unicom Group, we or our subsidiaries have entered into the following contracts that are not in the ordinary course of business within the two years preceding the date of this annual report that are or may be material:

Transfer Agreement, dated November 21, 2012, entered into between Unicom A Share Company and CUCL, pursuant to which Unicom A Share Company agreed to transfer all of its rights and obligations under the Equity Acquisition Agreement to CUCL for an aggregate consideration of RMB12,165,750,000.

Table of Contents

D. Exchange Controls

The ability of our operating subsidiary, CUCL, to satisfy its foreign exchange obligations and to pay dividends to us depends on existing and future exchange control regulations in China. Under the current relevant regulations, Renminbi is convertible under the current account, which includes trade-and service-related foreign exchange transactions, but is not convertible under the capital account, which includes foreign direct investment. CUCL, our wholly-owned subsidiary that holds substantially all of our assets, is a foreign investment enterprise. The foreign investment enterprise status will allow it to purchase foreign exchange at designated foreign exchange banks for settlement of current account transactions without the approval of the State Administration for Foreign Exchange of the PRC, or the SAFE. These current account transactions include payment of dividends. However, the relevant PRC Government authorities may in the future limit or eliminate the authorizations for a foreign investment enterprise to retain its foreign exchange to satisfy its foreign exchange obligations or to pay dividends in the future. Furthermore, certain foreign exchange transactions of CUCL under the capital account still require approvals from the SAFE. This requirement affects our subsidiary's ability to obtain foreign exchange through equity financing, including by means of capital contributions from us.

Under existing Hong Kong law, (i) there are no foreign exchange controls or other laws that restrict the import or export of capital and that would affect the availability of cash and cash equivalents for our use, (ii) there are no foreign exchange controls or other laws, decrees or regulations that affect the remittance of interest, dividends or other payments on our outstanding debt and equity securities to U.S. residents and (iii) there are no limitations on the rights of non-resident or foreign owners to hold our debt or equity securities.

E. Taxation

The taxation of income and capital gains of holders of ordinary shares or ADSs is subject to the laws and practices of the PRC, Hong Kong and jurisdictions in which holders of ordinary shares or ADSs are resident or otherwise subject to tax. The following summary of certain relevant taxation provisions is based on current law and practice, is subject to change and does not constitute legal or tax advice. The discussion does not deal with all possible tax consequences relating to an investment in the ordinary shares or ADSs. In particular, the discussion does not address the tax consequences under state, local and other laws, such as non-PRC, non-Hong Kong and non-U.S. federal laws. The discussion is based upon laws and relevant interpretations in effect as of the date of this annual report.

People's Republic of China

This section describes certain PRC tax consequences of the ownership and disposition of our ordinary shares or ADSs. This section does not address all possible PRC tax considerations that may be relevant to an investment in our ordinary shares or ADSs in light of an investor's specific circumstances, and is based on PRC tax laws and relevant interpretations as in effect as of the date of this annual report on Form 20-F, which are subject to change, possibly with retroactive effect. Accordingly, each prospective investor should consult its own tax advisor regarding the PRC and other tax consequences of an investment in our ordinary shares or ADSs applicable under its particular circumstances.

Taxation of Dividends

Under the PRC Enterprise Income Tax, or the EIT, Law and its implementing rules that became effective on January 1, 2008, a non-resident enterprise is generally subject to PRC enterprise income tax with respect to PRC-sourced income, including dividends received from an enterprise that is domiciled in China. The PRC enterprise income tax with respect to such dividends is currently required to be withheld at the rate of 10%, unless there is an applicable tax treaty between China and the jurisdiction in which such non-resident enterprise resides that reduces or exempts the tax.

Table of Contents

On April 22, 2009, the SAT issued the Notice Regarding the Determination of Tax Residence Status of Chinese-Controlled Offshore-Incorporated Enterprises on the Basis of De Facto Management Bodies, or the 2009 Notice, which was retroactively effective as of January 1, 2008. Pursuant to the 2009 Notice, an enterprise incorporated under the laws of a jurisdiction outside China but controlled by a PRC enterprise or enterprise group may be determined to be a PRC resident enterprise with its de facto management bodies located within China for PRC tax purposes if certain criteria specified under the 2009 Notice are met. Under the 2009 Notice, dividends paid by such an off-shore incorporated enterprise are deemed to be PRC-sourced income and subject to PRC enterprise income tax. On November 11, 2010, we were notified by the SAT that we are determined to be a PRC resident enterprise since January 1, 2008 for PRC tax purposes. Accordingly, we are required to withhold the 10% EIT when we distribute dividends to our non-resident enterprise shareholders.

Accordingly, we will withhold the 10% EIT when we distribute our final dividend for the fiscal year ended December 31, 2012 in respect of the non-resident enterprise shareholders for PRC tax purposes whose names appear on our register of members as of the record date for such dividends, and who are not individuals, unless such non-individual shareholders are able to provide documents from the relevant PRC tax authorities confirming that we are not required to withhold the 10% EIT in respect of the dividends that such shareholders are entitled to, on the basis that dividend income between two PRC resident enterprises is exempted from enterprise income tax, subject to certain conditions, under the EIT Law. In addition, certain investors hold our shares or ADSs through custodians, nominees, corporate trustees or other intermediaries and the names of these investors do not appear on our register of members. Payments of dividends to such investors are also subject to the 10% EIT withholding. These investors should enquire about the relevant procedures with the relevant custodians, nominees, trustees or other intermediaries if they wish to change the identities of the shareholders on our register of members.

Taxation of Capital Gains

Under the PRC EIT Law and its implementing rules, a non-resident enterprise is generally subject to PRC enterprise income tax with respect to PRC-sourced income, but there remain substantial uncertainties as to their interpretation and application by the relevant PRC tax authorities. We intend to comply with any interpretation or notice in relation to the taxation of capital gains issued by the PRC tax authorities in the future.

Additional PRC Tax Considerations

Stamp duty. Under the Provisional Regulations of the PRC Concerning Stamp Duty and its implementing rules, both of which became effective on October 1, 1988, PRC stamp duty should not apply to acquisitions or dispositions of our ordinary shares or ADSs outside of China as the PRC stamp duty is imposed only on documents executed or received within China that are legally binding in China and protected under PRC law.

Estate tax. China does not currently levy estate tax.

Hong Kong

Taxation of Dividends

Under the current practices of the Hong Kong Inland Revenue Department, no tax is payable in Hong Kong in connection with dividends paid by us, either by withholding or otherwise, unless such dividends are attributable to a trade, profession or business carried on in Hong Kong.

Profits

No tax is imposed in Hong Kong in respect of capital gains from the sale of shares and ADSs. Trading gains from the sale of shares or ADSs by persons carrying on a trade, profession or business in Hong Kong where such gains are derived from or arise in Hong Kong from such trade, profession or business will be chargeable to Hong Kong income tax rates of 16.5% on corporations and 15.0% on individuals. Gains from sales of shares effected on the HKSE will be considered to be derived from or arise in Hong Kong. Liability for Hong Kong profits tax would thus arise in respect of trading gains from sales of shares or ADSs realized by persons carrying on a business of trading or dealing in securities in Hong Kong.

Table of Contents

Stamp Duty

Hong Kong stamp duty, currently charged at the rate of 0.1% of the higher of the consideration for or the value of the shares, will be payable by the purchaser on every purchase and by the seller on every sale of shares. In addition, a fixed duty of HK\$5 is currently payable on any instrument of transfer of shares. If one of the parties to the sale is a non-resident of Hong Kong and does not pay the required stamp duty, the duty not paid will be assessed on the instrument of transfer (if any) and the transferee will be liable for payment of such duty.

The withdrawal of shares upon the surrender of American Depositary Receipts, or ADRs, and the issuance of ADRs upon the deposit of shares, will also attract stamp duty at the rate described above unless such withdrawal or deposit does not result in a change in the beneficial ownership of the shares under Hong Kong law. The issuance of the ADRs upon the deposit of shares issued directly to The Bank of New York, as depositary of the ADSs, or for the account of The Bank of New York does not attract stamp duty. No Hong Kong stamp duty is payable upon the transfer of ADSs outside Hong Kong.

Estate Duty

The Revenue (Abolition of Estate Duty) Ordinance 2005 became effective on February 11, 2006 in Hong Kong. No Hong Kong estate duty is payable and no estate duty clearance papers are needed for an application for a grant of representation in respect of a holder of the shares whose death occurs on or after February 11, 2006.

United States

United States Federal Income Taxation

This section describes the material United States federal income tax consequences to a U.S. holder (as defined below) of owning shares or ADSs. It applies to you only if you hold your shares or ADSs as capital assets for tax purposes. This section does not apply to you if you are a member of a special class of holders subject to special rules, including:

a dealer in securities or currencies,

a trader in securities that elects to use a mark-to-market method of accounting for your securities holdings,

a tax-exempt organization,

an insurance company,

a person liable for alternative minimum tax,

a person that actually or constructively owns 10% or more of our voting stock,

a person that holds shares or ADSs that are a hedge or as part of a straddle or a conversion transaction,

a person that purchases or sells shares or ADSs as part of a wash sale for tax purposes, or

a person whose functional currency is not the U.S. dollar.

Table of Contents

This section is based on the Internal Revenue Code of 1986, as amended, or the Code, its legislative history, existing and proposed regulations, published rulings and court decisions, all as currently in effect. These laws are subject to change, possibly on a retroactive basis. In addition, this section is based in part upon the representations of the Depositary and the assumption that each obligation in the deposit agreement and any related agreement will be performed in accordance with its terms.

You are a U.S. holder if you are a beneficial owner of shares or ADSs and you are:

a citizen or resident of the United States,

a corporation organized under the laws of the United States, any States thereof, or the District of Columbia,

an estate whose income is subject to United States federal income tax regardless of its source, or

a trust if a United States court can exercise primary supervision over the trust's administration and one or more United States persons are authorized to control all substantial decisions of the trust.

If a partnership holds the shares or ADSs, the United States federal income tax treatment of a partner will generally depend on the status of the partner and the activities of the partnership. A partner in a partnership holding the shares or ADSs should consult its tax advisor with regard to the United States federal income tax treatment of its investment in the shares or ADSs.

You should consult your own tax advisor regarding the United States federal, state and local tax consequences of owning and disposing of shares and ADSs in your particular circumstances.

This discussion addresses only United States federal income taxation.

In general, taking into account the earlier assumptions, for United States federal income tax purposes, if you hold ADRs evidencing ADSs, you will be treated as the owner of the shares represented by those ADRs. Exchanges of shares for ADRs, and ADRs for shares, generally will not be subject to United States federal income tax.

Taxation of Dividends

Under the United States federal income tax laws, and subject to the passive foreign investment company rules discussed below, if you are a U.S. holder, the gross amount of any dividend we pay out of our current or accumulated earnings and profits (as determined for United States federal income tax purposes) is subject to United States federal taxation. If you are a non-corporate U.S. holder, dividends that constitute qualified dividend income will be taxable to you at the preferential rates applicable to long-term capital gains, provided that you hold the shares or ADSs for more than 60 days during the 121-day period beginning 60 days before the ex-dividend date and meet other holding period requirements. Dividends we pay with respect to the shares or ADSs will be qualified dividend income, provided that, in the year that you receive the dividend, the shares or ADSs are readily tradable on an established securities market in the United States.

The dividend is taxable to you when you, in the case of shares, or the Depositary, in the case of ADSs, receive the dividend, actually or constructively. The dividend will not be eligible for the dividends-received deduction generally allowed to United States corporations in respect of dividends received from other United States corporations. The amount of the dividend distribution that you must include in your income as a U.S. holder will be the U.S. dollar value of the Hong Kong Dollar payments made, determined at the spot Hong Kong/U.S. dollar rate on the date the dividend distribution is includible in your income, regardless of whether the payment is in fact converted into U.S. dollars. Generally, any gain or loss resulting from currency exchange fluctuations during the period from the date you include the dividend payment in income to the date you convert the payment into U.S. dollars will be treated as ordinary income or loss and will not be eligible for the special tax rate applicable to qualified dividend income. The gain or loss generally will be income or loss from sources within the United States for foreign tax credit limitation purposes. Distributions in excess of current and accumulated earnings and profits, as determined for United States federal income tax purposes, will be treated as a non-taxable return of capital to the extent of your basis in the shares or ADSs and thereafter as capital gain.

Table of Contents

Special rules apply in determining the foreign tax credit limitation with respect to dividends that are subject to the preferential tax rates. Dividends will be income from sources outside the United States and, depending on your circumstances, will be either passive income or general income for purposes of computing the foreign tax credit allowable to you. If you are subject to PRC withholding tax (as discussed in *People's Republic of China Taxation of Dividends*, above), you must include any such tax withheld from the dividend payment in your gross income, even though you do not in fact receive it. The PRC tax withheld and paid over to the PRC will be creditable against your United States federal income tax liability. To the extent a refund of the tax withheld is available under PRC law, the amount of tax withheld that is refundable will not be eligible for credit against your United States federal income tax liability.

Taxation of Capital Gains

Subject to the passive foreign investment company rules discussed below, if you are a U.S. holder and you sell or otherwise dispose of your shares or ADSs, you will recognize capital gain or loss for United States federal income tax purposes equal to the difference between the U.S. dollar value of the amount that you realize and your tax basis, determined in U.S. dollars, in your shares or ADSs. Capital gain of a non-corporate U.S. holder is generally taxed at preferential rates where the property is held for more than one year. Subject to the paragraph immediately below regarding gain subject to PRC tax, the gain or loss will generally be income or loss from sources within the United States for foreign tax credit limitation purposes. Your ability to deduct capital losses is subject to limitations. Any Hong Kong stamp duty that you pay will not be a creditable tax for United States federal income tax purposes, but you may be able to deduct such stamp duty subject to limitations under the Code.

However, in the event we are deemed to be a Chinese resident enterprise under PRC tax law, we may be eligible for the benefits of the income tax treaty between the United States and China. Under that treaty, if PRC tax were to be imposed on any gain from the disposition of your shares or ADSs (as discussed above in *People's Republic of China Taxation of Capital Gains*), the gain may be treated as PRC source income. U.S. holders should consult their tax advisors regarding the tax consequences if a foreign withholding tax is imposed on a disposition of shares or ADSs, including the availability of the foreign tax credit under your particular circumstances.

Passive Foreign Investment Company Rules. We believe that we should not be treated as a passive foreign investment company, or PFIC, for United States federal income tax purposes, but this conclusion is a factual determination that is made annually and thus may be subject to change.

In general, if you are a U.S. holder, we will be a PFIC with respect to you if for any taxable year in which you held our ADSs or shares:

at least 75% of our gross income for the taxable year is passive income; or

at least 50% of the value, determined on the basis of a quarterly average, of our assets is attributable to assets that produce or are held for the production of passive income.

Passive income generally includes dividends, interest, royalties, rents (other than certain rents and royalties derived in the active conduct of a trade or business), annuities and gains from assets that produce passive income. If a foreign corporation owns, directly or indirectly, at least 25% by value of the stock of another corporation, the foreign corporation is treated for purposes of the PFIC tests as owning its proportionate share of the assets of the other corporation, and as receiving directly its proportionate share of the other corporation's income.

If we are treated as a PFIC and you are a U.S. holder that does not make a mark-to-market election, as described below, you will be subject to special rules with respect to:

any gain you realize on the sale or other disposition of your shares or ADSs; and

Table of Contents

any excess distribution that we make to you (generally, any distributions to you during a single taxable year that are greater than 125% of the average annual distributions received by you in respect of the shares or ADSs during the three preceding taxable years or, if shorter, your holding period for the shares or ADSs).

Under these rules:

the gain or excess distribution will be allocated ratably over your holding period for the shares or ADSs;

the amount allocated to the taxable year in which you realized the gain or excess distribution will be taxed as ordinary income;

the amount allocated to each prior year, with certain exceptions, will be taxed at the highest tax rate in effect for that year; and

the interest charge generally applicable to underpayments of tax will be imposed in respect of the tax attributable to each such year.

Special rules apply for calculating the amount of the foreign tax credit with respect to excess distributions by a PFIC.

If you own shares or ADSs in a PFIC that are treated as marketable stock, you may make a mark-to-market election. If you make this election, you will not be subject to the PFIC rules described above. Instead, in general, you will include as ordinary income each year the excess, if any, of the fair market value of your shares or ADSs at the end of the taxable year over your adjusted basis in your shares or ADSs. You will also be allowed to take an ordinary loss in respect of the excess, if any, of the adjusted basis of your shares or ADSs over their fair market value at the end of the taxable year (but only to the extent of the net amount of previously included income as a result of the mark-to-market election). Your basis in the shares or ADSs will be adjusted to reflect any such income or loss amounts. Your gain, if any, recognized upon the sale of your shares or ADSs will be taxed as ordinary income.

In addition, notwithstanding any election you make with regard to the shares or ADSs, dividends that you receive from us will not constitute qualified dividend income to you if we are a PFIC either in the taxable year of the distribution or the preceding taxable year. Moreover, your shares or ADSs will be treated as stock in a PFIC if we were a PFIC at any time during your holding period in your shares or ADSs, even if we are not currently a PFIC. For purposes of this rule, if you make a mark-to-market election with respect to your shares or ADSs, you will be treated as having a new holding period in your shares or ADSs beginning on the first day of the first taxable year beginning after the last taxable year for which the mark-to-market election applies. Dividends that you receive that do not constitute qualified dividend income are not eligible for taxation at the preferential rates applicable to qualified dividend income. Instead, you must include the gross amount of any such dividend paid by us out of our accumulated earnings and profits (as determined for United States federal income tax purposes) in your gross income, and it will be subject to tax at rates applicable to ordinary income.

If you own shares or ADSs during any year that we are a PFIC, you must file Internal Revenue Service Form 8621.

Not Applicable.

Item 11. Quantitative and Qualitative Disclosures about Market Risks

Our exposure to financial market risks relates primarily to changes in interest rates and currency exchange rates.

Interest Rate Risk

The People's Bank of China has the sole authority in China to establish the official interest rates for Renminbi-denominated loans. Financial institutions in China set their effective interest rates within the range established by the People's Bank of China. Interest rates and payment methods in China on loans denominated in foreign currencies are set by the financial institutions based on interest rate changes in the international financial market, cost of funds, risk levels and other factors. The fair value of our borrowings is approximately the same as the carrying value. These bank loans, denominated in Renminbi, are mainly borrowed from domestic banks at interest rates that vary in accordance with the standard guidance interest rates announced by relevant PRC Government authorities.

We are subject to risks arising from interest-bearing borrowings, including bank loans, commercial papers, promissory notes, convertible bonds, corporate bonds and related party loans. The majority of our interest-bearing borrowings are loans from banks in China, the majority of which bear fixed interest rates. A rise in interest rates will increase the cost of new borrowings and interest expenses of outstanding floating rate debt. Accordingly, fluctuations in interest rates can lead to significant fluctuations in the fair value of these instruments, and, therefore, could have a material adverse effect on our financial position. To mitigate our exposure to interest rate risks in connection with our borrowings denominated in foreign currencies, we may enter into designed interest rate swap agreements from time to time in the future.

Table of Contents

The following table provides information, by maturity date, regarding our interest rate-sensitive financial instruments, including short-term and long-term debt obligations and convertible bonds, as well as the expected maturity profile of such instruments as of December 31, 2012.

	Expected Maturity							As of December 31, 2012 Fair Value
	2013	2014	2015	2016	2017	Thereafter	Total	
	(RMB equivalent in millions, except interest rates)							
Liabilities:								
RMB-denominated loans								
Fixed rate	39,780	-	-	-	-	-	39,780	39,780
Average rate ⁽¹⁾	5.04%	-	-	-	-	-	-	-
Variable rate	800	-	-	-	-	-	800	800
Average rate	5.65%	-	-	-	-	-	-	-
HK dollar-denominated loans								
Variable rate	29,395	-	-	-	-	-	29,395	39,395
Average rate	1.73%	-	-	-	-	-	-	-
U.S. dollar-denominated loans								
Fixed rate	23	24	24	24	24	267	386	299
Average rate	0.33%	0.31%	0.30%	0.28%	0.26%	0.09%	-	-
Euro-denominated loans								
Fixed rate	27	24	24	24	24	77	200	189
Average rate	2.19%	2.16%	2.14%	2.11%	2.06%	1.46%	-	-
RMB-denominated commercial papers								
Fixed rate	38,000	-	-	-	-	-	38,000	38,000
Average rate	3.90%	-	-	-	-	-	-	-
RMB-denominated promissory notes								
Fixed rate	15,000	-	-	-	-	-	15,000	14,914
Average rate	3.39%	-	-	-	-	-	-	-
RMB-denominated corporate bonds								
Fixed rate	5,000	-	-	-	2,000	-	7,000	7,025
Average rate	5.06%	4.50%	4.50%	4.50%	4.50%	-	-	-
U.S. dollar-denominated convertible bonds								
Fixed rate	11,567	-	-	-	-	-	11,567	11,215
Average rate	1.90%	-	-	-	-	-	-	-
U.S. dollar-denominated finance lease								
Variable rate	127	127	90	-	-	-	344	344
Average rate	2.81%	2.86%	3.13%	-	-	-	-	-

(1) The average interest rates for variable rate loans are calculated based on the rates reported as of December 31, 2012.

For the year ended December 31, 2012, if interest rates on the floating rate borrowings had been 10% higher/lower while all other variables were held constant, our interest expenses would have increased/decreased by approximately RMB50 million (2011: approximately RMB135 million; 2010: approximately RMB27 million).

Exchange Rate Risk

We conduct our business primarily in Renminbi, which is also our functional and reporting currency. The Renminbi is not a fully convertible currency. From 1994 to July 20, 2005, the official exchange rate for the conversion of Renminbi to U.S. dollars was generally stable. On July 21, 2005, the PRC Government introduced a managed floating exchange rate system to allow the value of the Renminbi to fluctuate within a regulated band based on market supply and demand and by reference to a basket of currencies. On the same day, the value of the Renminbi

Edgar Filing: CHINA UNICOM (HONG KONG) Ltd - Form 20-F

appreciated by 2% against the U.S. dollar. The PRC Government has since made and in the future may make further adjustments to the exchange rate system. Fluctuations in exchange rates may adversely affect the value, translated or converted into United States dollars or Hong Kong dollars (which are pegged to the U.S. dollar), of our net assets, earnings and any declared dividends. For a detailed description of the unitary managed floating rate system used by the PRC Government to set foreign exchange rates, see [Key Information](#) [Selected Financial Data](#) [Exchange Rate Information](#) under Item 3.

-96-

Table of Contents

We are exposed to foreign currency risk primarily because we receive some of our revenue from our international operations and pay-related expenses in foreign currencies. As a result, our foreign currency exposure relates to our foreign currency-denominated debt and, to a limited extent, cash and cash equivalents denominated in foreign currencies.

The following table provides information regarding our foreign currency-sensitive financial instruments, which consist of cash and cash equivalents, short-term bank deposits, short-term and long-term debt obligations, convertible bonds and capital commitments as of December 31, 2012 and the expected maturity profile of these debt obligations and capital commitments.

	Expected Maturity						As of December 31, 2012 Fair Value	
	2013	2014	2015	2016	2017	Thereafter	Total	
(RMB equivalent in millions)								
Assets:								
Cash and cash equivalents								
U.S. dollars	533	-	-	-	-	-	533	533

HK dollar-denominated loans	29,395	-	-	-	-	-	29,395	29,395
U.S. dollar-denominated convertible bonds	11,567	-	-	-	-	-	11,567	11,215
U.S. dollar-denominated								
finance lease	127	127	90	-	-	-	344	344
Off-balance sheet commitments:								
Capital commitments authorized and contracted for in								
U.S. dollars	-	-	-	-	-	-	-	-

If the RMB had strengthened/weakened by 10% against the foreign currencies, relative to December 31, 2012, primarily with respect to U.S. dollars, HK dollars and Euro, while all other variables were held constant, we would have recognized additional exchange gains/losses of approximately RMB4.08 billion (2011: exchange gains/losses of approximately RMB2.75 billion; 2010: exchange gains/losses of approximately RMB1.29 billion) for foreign currencies-denominated cash and cash equivalents, short-term bank deposits, borrowings, convertible bonds and other obligations under finance lease included in other obligations.

Risk Relating to Financial Assets at Fair Value through Other Comprehensive Income

The investments we hold are classified in the consolidated balance sheet as financial assets at fair value through other comprehensive income. These investments are subject to equity price risk, which results primarily from changes in the level or volatility of underlying equity prices. One of our significant investments is denominated in Euro and the fair value of such investment is also subject to risks associated with fluctuations of foreign exchange rate between Euro and Renminbi (our functional currency). If either (i) the share price of our invested equity securities (in Euro) had increased/decreased by 10% or (ii) the exchange rate between Euro and Renminbi had changed by 10%, in each case, relative to December 31, 2012, while the other variable is held constant, we would have recorded additional change in fair value of approximately RMB408.15 million, net of tax, in our investment revaluation reserve. As of April 19, 2013, the change in the foreign exchange rate between Euro and Renminbi and, to a lesser extent, the change of the underlying equity price denominated in Euro resulted in an appreciation of the fair value of our relevant investment by approximately 2% from December 31, 2012. If Euro-related uncertainty remains, we may be subject to further gain/loss in the fair value of our investments denominated in Euro and our financial condition may be materially adversely affected.

Table of Contents**Item 12. Description of Securities Other than Equity Securities**

The Bank of New York Mellon, as the depositary of our ADSs, collects its fees for delivery and surrender of ADSs directly from investors depositing shares or surrendering ADSs for the purpose of withdrawal. The depositary collects fees for making distributions to investors by deducting those fees from the amounts distributed or by selling a portion of distributable property to pay the fees. The depositary may generally refuse to provide fee-attracting services until its fees for those services are paid.

ADR holders must pay:**For:**

US\$5.00 (or less) per 100 ADRs (or portion thereof)

Each issuance of an ADR, including as a result of a distribution of shares or rights or other property

Each cancellation of an ADR, including if the deposit agreement terminates

Each distribution of securities, other than shares or ADRs, treating the securities as if they were shares for purpose of calculating fees

US\$0.02 (or less) per ADR

Any cash distribution (not including cash dividend distribution)

Registration or transfer fees

Transfer and registration of shares on the share register of our transfer agent and the registrar in Hong Kong from an ADR holder's name to the name of the depositary or its agent when the ADR holder deposits or withdraws shares

Expenses of the depositary

Conversion of Hong Kong dollars to U.S. dollars

Cable, telex and facsimile transmission expenses

As necessary

Taxes and other governmental charges the depositary or the custodian has to pay on any ADR or share underlying an ADR, for example, stock transfer taxes, stamp duty or withholding taxes

From January 1, 2012 to December 31, 2012, we received from the Bank of New York Mellon a total of US\$100,815, net of withholding tax, reimbursement for the expenses we incurred, including but not limited to, annual stock exchange listing fee, investor relations reimbursement, non-standard out-of-pocket maintenance costs for the ADR, charges incurred in connection with services provided for by third party vendors, charges and out-of-pocket expenses for the servicing of non-registered holders. The Bank of New York Mellon also waived certain costs of US\$131,305.19 in connection with the administration of the ADR program, investor relationship programs (including investor relationship intelligence services) and other services provided to our registered shareholders. In addition, the Bank of New York Mellon has agreed to reimburse us annually for our expenses incurred in connection with administration and maintenance of the depositary receipt facility in the future. The amount of such reimbursements is subject to certain limits and conditions.

PART II

Item 13. Defaults, Dividend Arrearages and Delinquencies

None.

Item 14. Material Modifications to the Rights of Security Holders and Use of Proceeds

None.

Item 15. Controls and Procedures

Evaluation of Disclosure Controls and Procedures

Our Chief Executive Officer and Chief Financial Officer, after evaluating the effectiveness of our disclosure controls and procedures (as defined in Rule 13a-15(e) of the Exchange Act of 1934, as amended) as of December 31, 2012, the end of the period covered by this annual report, have concluded that, as of such date, our disclosure controls and procedures were effective.

Management's Annual Report on Internal Control Over Financial Reporting

Our management is responsible for establishing and maintaining adequate internal control over financial reporting (as defined in Rule 13a-15(f) of the Exchange Act of 1934, as amended) for the Company. Our internal control over financial reporting is a process designed under the supervision of our chief executive officer and chief financial officer to provide reasonable assurance regarding the reliability of financial reporting and the preparation of our financial statements for external reporting purposes in accordance with applicable generally accepted accounting principles. Our internal control over financial reporting includes policies and procedures that pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect transactions and dispositions of assets; provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with applicable generally accepted accounting principles, and that receipts and expenditures are being made only in accordance with authorizations of our management and our directors; and provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use or disposition of our assets that could have a material effect on our financial statements. Because of its inherent limitations, internal control over financial reporting may not prevent or detect all misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

As of December 31, 2012, our management conducted an assessment of the effectiveness of our internal control over financial reporting, based on the framework established in Internal Control – Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission, or COSO. Based on this assessment, our management has concluded that our Company's internal control over financial reporting as of December 31, 2012 was effective.

The effectiveness of our internal control over financial reporting as of December 31, 2012, has been audited by PricewaterhouseCoopers, an independent registered public accounting firm, as stated in their report appearing on page F-2.

Changes in Internal Control Over Financial Reporting

There were no changes in our internal control over financial reporting that occurred during the period covered by this annual report that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

We are fully aware of the importance of maintaining and improving our controls and procedures in relation to internal control over financial reporting. Our management, with the oversight of our audit committee and board of directors, is committed to having proper internal control over financial reporting.

Table of Contents**Item 16A. Audit Committee Financial Expert**

Our board of directors has determined that Mr. Wong Wai Ming is an audit committee financial expert in accordance with the terms of Item 16.A of Form 20-F. Mr. Wong satisfies the independence requirements of Section 303A of the NYSE Manual. For Mr. Wong's biographical information, see A. Directors and Senior Management under Item 6.

Item 16B. Code of Ethics

In 2003, we adopted a code of ethics that applies to our chief executive officer, chief financial officer, president, vice-presidents, controller and other senior officers, a copy of which was filed as Exhibit 11.1 to our annual report on Form 20-F for the fiscal year ended December 31, 2003. In February 2006, we adopted another code of ethics that applies to our employees generally, a copy of which was filed as Exhibit 11.2 to our annual report on Form 20-F for the fiscal year ended December 31, 2005. Copies of our Code of Ethics for Senior Officers and Code of Ethics for Employees may also be downloaded from our website at <http://www.chinaunicom.com.hk>. Information on that website is not a part of this annual report on Form 20-F.

Item 16C. Principal Accountant Fees and Services

The following table sets forth the aggregate audit fees, audit-related fees, tax fees and other fees our principal accountant billed for audit services, audit-related services, tax services and other services for each of the fiscal years 2011 and 2012:

	For the Year Ended December 31,	
	2011	2012
	(in RMB thousands)	
Audit services	67,000	68,100
Audit-related services	180	1,145
Tax services	350	477
Other	370	2,119
Total	67,900	71,841

Audit services include the standard audit work that needs to be performed each year in order to issue an opinion on the consolidated financial statements of the Company and its subsidiaries. Audit services in 2010 and 2011 also include audit work in connection with the audit of the Company's internal control over financial reporting, pursuant to Section 404 of the Sarbanes-Oxley Act of 2002. They also include performing agreed-upon procedures on quarterly financial statements and pre-issuance reviews of interim financial statements.

Audit-related services include other assurance and related services that can be reasonably provided by the independent auditor. In 2012, the provisions of audit-related services mainly included professional services in relation to the issuance of commercial papers and other debt securities.

Tax services include the assistance with compliance and filing of income taxes.

Other services include (a) providing the Company's subsidiaries with permitted advisory services on internal settlement system among departments, human resources services and translation services and (b) providing the Company with access to an online database of global financial reporting literature for new financial reporting pronouncements and guidance.

Audit Committee's Pre-approval Policies and Procedures

The audit committee of our board of directors is responsible for, among other things, the oversight of the external auditor subject to the requirements of the Hong Kong Companies Ordinance and our Articles of Association. The audit committee has adopted a policy regarding pre-approval of audit and permissible non-audit services to be provided by our independent accountants. Under the policy, proposed services either (i) may be pre-approved by the audit committee without consideration of specific case-by-case services; or (ii) require the specific pre-approval of the audit committee. General approval applies to services of a recurring and predictable nature. These types of services, once approved by the audit committee, will not require further approval in the future. Specific pre-approval applies to all other services, which must be approved by the audit committee on a case-by-case basis after an application, including proposed budget and scope of services to be provided by our independent auditors, is submitted to the audit committee.

Our audit committee pre-approved all audit and non-audit services performed by our principal accountant for the years ended December 31, 2011 and 2012.

Item 16D. Exemptions from the Listing Standards for Audit Committees

Not Applicable.

Item 16E. Purchases of Equity Securities by the Issuer and Affiliated Purchasers

Not Applicable.

Item 16F. Change in Registrant's Certifying Accountant

On March 21, 2013, our board of the directors resolved, as approved and recommended by the audit committee of the board, not to re-appoint our independent registered public accounting firm, PricewaterhouseCoopers, or PwC, upon the expiration of its current term of office at the close of the forthcoming annual general meeting of the shareholders to be held on May 21, 2013, or the 2013 AGM, and to appoint KPMG as our new independent registered public accounting firm, subject to the approval of our shareholders at the 2013 AGM. The proposed change of our principal accountants is to comply with the relevant regulations issued by the MOF and the SASAC, which impose certain restrictions in respect of the number of years of audit services that an accounting firm may continuously provide to a State-owned enterprise and its subsidiaries, or the Auditor Rotation Requirements. As we are an indirect subsidiary of Unicom Group, a State-owned enterprise under the direct control and supervision of the SASAC, we are required to comply with the Auditor Rotation Requirements.

None of the auditors' reports issued by PwC on our financial statements for the fiscal years ended December 31, 2011 and 2012 contained an adverse opinion or a disclaimer of opinion, or was qualified or modified as to uncertainty, audit scope, or accounting principles. In addition, during the fiscal years ended December 31, 2011 and 2012 and through April 25, 2013, there were no disagreements with PwC on any matter of accounting principles or practices, financial statement disclosure, or auditing scope or procedure, which disagreements if not resolved to PwC's satisfaction would have caused it to make reference to the subject matter of the disagreements in connection with its report, nor have there been any reportable events (as defined in Item 16F(a)(1)(v) of Form 20-F) that would require disclosure. We have provided PwC with a copy of the foregoing disclosure and have requested that PwC furnish us with a letter addressed to the SEC stating whether or not PwC agrees with such disclosure, and, if not, stating the respects in which it does not agree. A copy of the letter furnished by PwC, dated April 25, 2013, is filed as Exhibit 15.1 to this annual report on Form 20-F.

During the fiscal years ended December 31, 2011 and 2012 and through April 25, 2013, neither we nor any person on our behalf consulted with KPMG regarding either (i) the application of accounting principles to a specific completed or proposed transaction or regarding the type of audit opinion that might be rendered on our financial statements and no written report or oral advice was provided that KPMG concluded was an important factor considered by us in reaching a decision as to the accounting, auditing or financial reporting issues, or (ii) any matter that was either the subject of a disagreement (as defined in Item 16F(a)(1)(iv) of Form 20-F) or a reportable event (as defined in Item 16F(a)(1)(v) of Form 20-F).

Table of Contents

Item 16G. Corporate Governance

As a company listed on both the HKSE and the NYSE, we are subject to applicable Hong Kong laws and regulations, including the HKSE Listing Rules, and the Hong Kong Companies Ordinance, as well as applicable U.S. federal securities laws, including the Exchange Act and the Sarbanes-Oxley Act of 2002. In addition, we are subject to the listing standards of the NYSE to the extent they apply to non-U.S. issuers. As a non-U.S. issuer, we are not required to comply with all of the corporate governance listing standards of the NYSE.

The following is a summary of the significant differences between our corporate governance practices and those required to be followed by U.S. companies under the listing standards of the NYSE.

Section 303A.01 of the NYSE Listed Company Manual provides that listed companies must have a majority of independent directors on its board of directors. As a listed company in Hong Kong, we are subject to the requirement under the HKSE Listing Rules that at least three members of our board of directors, who constitute at least one-third of the board of directors, be independent as determined under the HKSE Listing Rules. The standards for establishing independence under the HKSE Listing Rules differ from those set forth in the NYSE Listed Company Manual. We currently have six independent directors out of a total of 11 directors.

Section 303A.03 of the NYSE Listed Company Manual provides that listed companies must schedule regular executive sessions in which non-management directors meet without management participation. Under the applicable Hong Kong law, our board of directors is required to meet regularly and at least four times a year, involving active participation by a majority of the directors and affording all directors an opportunity to include matters on the agenda. In addition, when a board meeting considers a matter in which a substantial shareholder or a director has a conflict of interest, the independent directors with no material interest in such matter must be present. Furthermore, it has been our practice to organize exclusive meetings for our independent non-executive directors at least annually.

Section 303A.04 of the NYSE Listed Company Manual provides that (i) a listed company must have a nominating/corporate governance committee that consists entirely of independent directors and (ii) the nominating/corporate governance committee of a listed company must have a written charter that addresses the committee's purpose and responsibilities, which shall include, among others, the development and recommendation of corporate governance guidelines to the board of directors. The HKSE Listing Rules also contain a code provision that the listed companies should establish a nomination committee which consists of a majority of independent non-executive directors. We established a nomination committee in August 2011 with a written charter that specifies its duties and authorities. In addition, our board of directors is directly in charge of developing our corporate governance guidelines.

Section 303A.07 of the NYSE Listed Company Manual also provides that if an audit committee member simultaneously serves on the audit committee of more than three public companies, and the listed company does not limit the number of audit committees on which its audit committee members serve to three or less, then, the board of directors of the listed company must (i) determine that such simultaneous service would not impair the ability of such member to effectively serve on the audit committee of the listed company and (ii) disclose such determination. We are not required, under applicable Hong Kong laws, to make such determination.

Section 303A.10 of the NYSE Listed Company Manual provides that listed companies must adopt and disclose a code of business conduct and ethics for directors, officers and employees. While we are not required to adopt any similar code under the HKSE Listing Rules, we, as required under the Sarbanes-Oxley Act, have adopted a code of ethics that is applicable to our chief executive officer, president, vice presidents, chief financial officer, principal accounting officer and general managers and deputy general managers of each of our departments, provincial branches and local branches or persons performing similar functions. We have also adopted a code of ethics that is applicable to all of our employees.

Report of Independent Registered Public Accounting Firm

TO THE BOARD OF DIRECTORS AND SHAREHOLDERS OF

CHINA UNICOM (HONG KONG) LIMITED

In our opinion, the accompanying consolidated balance sheets and the related consolidated statements of income, comprehensive income, changes in equity and cash flows present fairly, in all material respects, the financial position of China Unicom (Hong Kong) Limited and its subsidiaries (together, the Group) at December 31, 2012 and 2011, and the results of their operations and their cash flows for each of the three years in the period ended December 31, 2012 in conformity with International Financial Reporting Standards as issued by the International Accounting Standards Board and in conformity with Hong Kong Financial Reporting Standards issued by the Hong Kong Institute of Certified Public Accountants. Also in our opinion, the Group maintained, in all material respects, effective internal control over financial reporting as of December 31, 2012, based on criteria established in *Internal Control - Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO). The Group's management is responsible for these financial statements, for maintaining effective internal control over financial reporting and for its assessment of the effectiveness of internal control over financial reporting, included in the Management's Annual Report on Internal Control Over Financial Reporting included in Item 15 of this Annual Report on Form 20-F. Our responsibility is to express opinions on these financial statements and on the Group's internal control over financial reporting based on our integrated audits. We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement and whether effective internal control over financial reporting was maintained in all material respects. Our audits of the financial statements included examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. Our audit of internal control over financial reporting included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. Our audits also included performing such other procedures as we considered necessary in the circumstances. We believe that our audits provide a reasonable basis for our opinions.

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (i) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (ii) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (iii) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Table of Contents

CHINA UNICOM (HONG KONG) LIMITED

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

(All amounts in RMB millions unless otherwise stated)

1. ORGANIZATION AND PRINCIPAL ACTIVITIES

China Unicom (Hong Kong) Limited (the Company) was incorporated as a limited liability company in the Hong Kong Special Administrative Region (Hong Kong), the People's Republic of China (the PRC) on February 8, 2000. The principal activity of the Company is investment holding. The principal activities of Company's subsidiaries are the provision of cellular and fixed-line voice and related value-added services, broadband and other Internet-related services, information communications technology services, and business and data communications services in the PRC. The GSM cellular voice, WCDMA cellular voice and related value-added services are referred to as the mobile service, the services aforementioned other than the mobile service are hereinafter collectively referred to as the fixed-line service. The Company and its subsidiaries are hereinafter referred to as the Group. The address of the Company's registered office is 75th Floor, The Center, 99 Queen's Road Central, Hong Kong.

The shares of the Company were listed on the Stock Exchange of Hong Kong Limited (SEHK) on June 22, 2000 and the American Depositary Shares (ADS) of the Company were listed on the New York Stock Exchange on June 21, 2000.

The substantial shareholders of the Company are China Unicom (BVI) Limited (Unicom BVI) and China Unicom Group Corporation (BVI) Limited (Unicom Group BVI , formerly known as China Netcom Group Corporation (BVI) Limited). The majority of equity interests in Unicom BVI is owned by China United Network Communications Limited (A Share Company , a joint stock company incorporated in the PRC on December 31, 2001, with its A shares listed on the Shanghai Stock Exchange on October 9, 2002). The majority of the equity interest in A Share Company is owned by China United Network Communications Group Company Limited (a state-owned enterprise established in the PRC, hereinafter referred to as Unicom Group). Unicom Group BVI is a wholly-owned subsidiary of Unicom Group. As a result, the directors of the Company consider Unicom Group to be the ultimate holding company.

Acquisition of Unicom New Horizon Telecommunications Company Limited

On November 21, 2012, China United Network Communications Corporation Limited (CUCL , a wholly-owned subsidiary of the Company) entered into an equity transfer agreement with Unicom Group, pursuant to which CUCL agreed to acquire the entire equity interest of Unicom New Horizon Telecommunications Company Limited (Unicom New Horizon) from Unicom Group for a total cash consideration of approximately RMB12,166 million. The principal activity of Unicom New Horizon is to lease its fixed-line telecommunications networks of the 21 provinces in Southern China (Telecommunications Networks in Southern China) to CUCL. The acquisition was completed on December 26, 2012.

Acquisition of China Unicom NewSpace Limited (hereinafter referred to as the 2011 Business Combination)

On December 1, 2011, China Unicom Broadband Online Limited Corporation (Broadband Online , a wholly-owned subsidiary of CUCL) entered into an equity interest transfer agreement with Unicom Group, pursuant to which Broadband Online agreed to acquire the entire equity interest of China Unicom NewSpace Limited (Unicom NewSpace) from Unicom Group for a total cash consideration of approximately RMB158 million. The acquisition was completed on December 1, 2011.

Table of Contents

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The principal accounting policies applied in the preparation of these consolidated financial statements are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated.

2.1 Statement of Compliance

These financial statements have been prepared in accordance with all applicable International Financial Reporting Standards (IFRSs) issued by the International Accounting Standards Board (IASB), which collective term includes all applicable individual International Financial Reporting Standards, International Accounting Standards (IASs) and Interpretations issued by the IASB. Hong Kong Financial Reporting Standards (HKFRSs), which collective term includes all applicable individual Hong Kong Financial Reporting Standards, Hong Kong Accounting Standards (HKASs) and Interpretations issued by the Hong Kong Institute of Certified Public Accountants (HKICPA), are consistent with IFRSs. These financial statements also comply with HKFRSs.

2.2 Basis of Preparation

The consolidated financial statements have been prepared under the historical cost convention, as modified by the revaluation of financial assets at fair value through other comprehensive income which are carried at fair value. The consolidated financial statements prepared by the PRC subsidiaries for PRC statutory reporting purposes are based on the Chinese Accounting Standards for Business Enterprises (CAS) issued by the Ministry of Finance of the PRC, which became effective from January 1, 2007 with certain transitional provisions. There are certain differences between the Group's IFRSs/HKFRSs financial statements and PRC statutory financial statements. The principal adjustments made to the PRC statutory financial statements to conform to IFRSs/HKFRSs include the following:

reversal of the revaluation surplus or deficit and related depreciation and amortization charges arising from the revaluation of prepayments for the leasehold land and buildings performed by independent valuers for the purpose of reporting to relevant PRC government authorities;

recognition of goodwill associated with the acquisition of certain subsidiaries prior to 2005;

additional capitalization of borrowing costs and corresponding impact on depreciation prior to the adoption of CAS on January 1, 2007; and

adjustments for deferred taxation in relation to IFRSs/HKFRSs adjustments.

Table of Contents**2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)****2.2 Basis of Preparation (Continued)****(a) Acquisition of Unicom New Horizon**

As stated in Note 1, on December 26, 2012, CUCL completed the acquisition of Unicom New Horizon from Unicom Group with a total cash consideration of approximately RMB12,166 million.

In accordance with IFRS/HKFRS 3 (Revised), a business generally consists of inputs, processes applied to those inputs and outputs. The business is an integrated set of activities and assets that is capable of being conducted and managed for the purpose of providing an economic return.

Unicom New Horizon did not meet the definition of a business because it only comprised the telecommunications network assets, cash, and related assets and liabilities. It did not have other inputs and processes such as license, subscriber base, management team and operating workforce etc to operate the fixed-line telecommunications business. Instead of operating the fixed-line telecommunications business, Unicom New Horizon could be able to generate economic returns by entering into lease arrangements for the telecommunications network assets. However, new lessees are not readily available in the market.

Accordingly, the Group accounted for the acquisition of Unicom New Horizon as an asset purchase transaction in accordance with IAS/HKAS 16, Property, plant and equipment in the period of purchase. The assets and liabilities acquired from Unicom New Horizon as of the completion date were as follows:

Cash and cash equivalents	1,852
Other current assets	735
Property, plant and equipment	12,127
Deferred income tax assets	780
Other non-current assets	144
Accounts payable and accrued liabilities	(1,310)
Amounts due to ultimate holding company	(25)
Amounts due to related parties	(1,935)
Other current liabilities	(17)
	12,351
Transfer of profit to Unicom Group in relation to the acquisition of Unicom New Horizon	(185)
Total consideration	12,166

Table of Contents

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

2.2 Basis of Preparation (Continued)

(b) Business Combination of Entity and Business under Common Control

The 2011 Business Combination was considered a business combination of entity and business under common control as Unicom NewSpace was under the control of Unicom Group, the Group's ultimate holding company before and after the acquisition.

Under HKFRSs, the 2011 Business Combination was accounted for using merger accounting in accordance with the Accounting Guideline 5 Merger accounting for common control combinations (AG 5) issued by the HKICPA. Upon the adoption of IFRSs by the Group in 2008, the Group adopted the accounting policy to account for business combinations of entities and businesses under common control using the predecessor values method, which is consistent with HKFRSs. Accordingly, the acquired assets and liabilities are stated at predecessor values, and were included in the consolidated financial statements from the beginning of the earliest period presented as if the entities and businesses acquired had always been part of the Group considering the acquired entity had always been under common control during all the periods presented.

(c) Going Concern Assumption

As of December 31, 2012, current liabilities of the Group exceeded current assets by approximately RMB254.1 billion (2011: approximately RMB175.1 billion). Given the current global economic conditions and the Group's expected capital expenditures in the foreseeable future, management has comprehensively considered the Group's available sources of funds as follows:

The Group's continuous net cash inflows from operating activities;

Approximately RMB223.5 billion of revolving banking facilities and registered quota of commercial papers, of which approximately RMB116.3 billion was unutilized as of December 31, 2012; and

Other available sources of financing from domestic banks and other financial institutions given the Group's credit history. In addition, the Group believes it has the ability to raise funds from the short, medium and long-term perspectives and maintain reasonable financing costs through appropriate financing portfolio.

Based on the above considerations, the Board of Directors is of the opinion that the Group has sufficient funds to meet its working capital requirements and debt obligations. As a result, the consolidated financial statements of the Group for the year ended December 31, 2012 have been prepared on a going concern basis.

Table of Contents

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

2.2 Basis of Preparation (Continued)

(d) Critical Accounting Estimates and Judgment

The preparation of the consolidated financial statements in conformity with IFRSs/HKFRSs requires the use of certain critical accounting estimates. It also requires management to exercise its judgment in the process of applying the Group's accounting policies. The areas involving a higher degree of judgment or complexity, or areas where assumptions and estimates are significant to the consolidated financial statements are disclosed in Note 4.

(e) New Accounting Standards, Amendments and Interpretations Pronouncements

- (i) The following amended standards are adopted by the Group as of January 1, 2012, the adoption of these standards did not have any significant impact on the Group's consolidated financial statements.

IFRS/HKFRS 7 (amendment), Financial instruments: disclosures . This amendment promotes transparency in the reporting of transfer transactions and improve users' understanding of the risk exposures relating to transfers of financial assets and the effect of those risks on an entity's financial position, particularly those involving securitization of financial assets.

IAS/HKAS 12 (amendment), Income taxes . Currently IAS/HKAS 12 requires an entity to measure the deferred tax relating to an asset depending on whether the entity expects to recover the carrying amount of the asset through use or sale. This amendment introduces an exception to the existing principle for the measurement of deferred tax assets or liabilities arising on an investment property measured at fair value. As a result of the amendments, SIC/HK(SIC) 21, Income taxes – recovery of revalued non-depreciable assets , would no longer apply to investment properties carried at fair value. The amendments also incorporate into IAS/HKAS 12 the remaining guidance previously contained in SIC/HK(SIC) 21, which is accordingly withdrawn.

Table of Contents

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

2.2 Basis of Preparation (Continued)

(e) New Accounting Standards, Amendments and Interpretations Pronouncements (Continued)

- (ii) The following new and amended standards are not yet effective and have not been early adopted by the Group:

IAS/HKAS 1 (amendment), Financial statements presentation . This amendment requires entities to group items presented in other comprehensive income (OCI) on the basis of whether they are potentially reclassifiable to income or loss subsequently (reclassification adjustments). The amendments do not address which items are presented in OCI. The Group does not expect the adoption of IAS/HKAS 1 (amendment) will have significant impact on the Group's financial statements presentation.

IFRS/HKFRS 10, Consolidated financial statements . This standard builds on existing principles by identifying the concept of control as the determining factor in whether an entity should be included within the consolidated financial statements of the parent company. The standard provides additional guidance to assist in the determination of control where this is difficult to assess. The Group does not expect the adoption of IFRS/HKFRS 10 will have significant impact on the Group's consolidated financial statements.

IFRS/HKFRS 13, Fair value measurements . This standard aims to improve consistency and reduce complexity by providing a precise definition of fair value and a single source of fair value measurement and disclosure requirements for use across IFRSs/HKFRSs. The requirements do not extend the use of fair value accounting but provide guidance on how it should be applied where its use is already required or permitted by other standards within IFRSs/HKFRSs. The Group does not expect the adoption of IFRS/HKFRS 13 will have significant impact on the Group's financial statements.

These new and amended standards will be effective on January 1, 2013. The Group will adopt the relevant new and amended standards in the subsequent periods as required.

Table of Contents

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

2.3 Consolidation

The consolidated financial statements include the financial statements of the Company and all of its subsidiaries made up to December 31.

Subsidiaries are all entities (including special purpose entities) over which the Group has the power to govern the financial and operating policies generally accompanying a shareholding of more than one half of the voting rights. The existence and effect of potential voting rights that are currently exercisable or convertible are considered when assessing whether the Group controls another entity.

Subsidiaries are fully consolidated from the date on which control is transferred to the Group. When the Group ceases to have control, any retained interest in the entity is re-measured to its fair value at the date when control is lost, with the change in carrying amount recognized in the statement of income. The fair value is the initial carrying amount for the purposes of subsequently accounting for the retained interest as an associate, joint venture or financial asset. In addition, any amounts previously recognized in other comprehensive income in respect of that entity are accounted for as if the Group had directly disposed of the related assets or liabilities.

The Group adopted the purchase method of accounting to account for business combination of entities and businesses under common control before 2005. Under the purchase method of accounting in force at the date of the acquisition, the cost of an acquisition was measured at the fair value of the assets given, equity instruments issued and liabilities incurred or assumed at the date of exchange, plus costs directly attributable to the acquisition. Identifiable assets acquired and liabilities and contingent liabilities assumed were measured initially at their fair values at the acquisition date, irrespective of the extent of any non-controlling interest. The excess of the cost of acquisition over the fair value of the Group's share of the identifiable net assets acquired is recorded as goodwill. If the cost of acquisition is less than the fair value of the Group's share of the identifiable net assets of the subsidiary acquired, the difference was recognized directly in the statement of income. IFRS/HKFRS 3 (Revised)

Business Combination will be applied to any business combinations (other than business combinations under common control) in the future.

Table of Contents

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

2.3 Consolidation (Continued)

Upon the adoption of IFRSs in 2008, the Group adopted the accounting policy to account for business combination of entities and businesses under common control using the predecessor values method which is consistent with HKFRSs.

Inter-company transactions, balances and unrealized gains on transactions between group companies are eliminated. Unrealized losses are also eliminated unless the transaction provides evidence of an impairment of the asset transferred. Accounting policies of subsidiaries would be changed where necessary in the consolidated financial statements to ensure consistency with the policies adopted by the Group.

2.4 Segment Reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision-maker (CODM). The CODM, who is responsible for allocating resources and assessing performance of the operating segments regularly, has been identified as the Executive Directors of the Company that makes strategic decisions.

Table of Contents

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

2.5 Foreign Currency Translation

(a) Functional and presentation currency

Items included in the financial statements of each of the Group's entities are measured using the currency of the primary economic environment in which the entities operate (the functional currency). The consolidated financial statements are presented in RMB, which is the Company's functional and presentation currency.

(b) Transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions or valuation where items are re-measured. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation at year-end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognized in the statement of income.

(c) Group companies

The results and financial position of all the Group entities (none of which has the currency of a hyperinflationary economy) that have a functional currency different from the presentation currency are translated into the presentation currency as follows:

Assets and liabilities for each balance sheet presented are translated at the closing rate at the date of that balance sheet;

Income and expenses for each statement of income are translated at average exchange rates (unless this average is not a reasonable approximation of the cumulative effect of the rates prevailing on the transaction dates, in which case income and expenses are translated at the dates of the transactions); and

All resulting exchange differences are recognized as a separate component of equity into other reserve.

On consolidation, exchange differences arising from the translation of the net investment in foreign operations, and of borrowings and other currency instruments designated as hedges of such investments, are taken to shareholders' equity. When a foreign operation is sold, such exchange differences are recognized in the statement of income as part of the gain or loss on disposal.

For the convenience of the reader, the translation of RMB into United States dollars (US\$) has been made at the rate of RMB6.2301 to US\$1.00, representing the rate as certified by the H.10 weekly statistical release of Federal Reserve Board on December 31, 2012.

Table of Contents

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

2.6 Property, Plant and Equipment

(a) Construction-in-progress

Construction-in-progress (CIP) represents buildings, plant and equipment under construction and pending installation, and is stated at cost less accumulated impairment losses. Costs include construction and acquisition costs, and interest charges arising from borrowings used to finance the assets during the construction period. No provision for depreciation is made on CIP until such time as the assets are completed and ready for use. When the asset being constructed becomes available for use, the CIP is transferred to the appropriate category of property, plant and equipment.

(b) Property, plant and equipment

Property, plant and equipment held by the Group are stated at cost less accumulated depreciation and accumulated impairment losses, and are depreciated over their expected useful lives.

Property, plant and equipment comprise buildings, telecommunications equipment, leasehold improvements, office furniture, fixtures, motor vehicles and others. The cost of an asset, except for those acquired in exchange for a non-monetary asset or assets, comprises its purchase price and any directly attributable costs of bringing the asset to its working condition and location for its intended use.

If an item of property, plant and equipment is acquired in exchange for another item of property, plant and equipment, the cost of such an item of property, plant and equipment is measured at fair value unless (i) the exchange transactions lacks commercial substance or (ii) the fair value of neither the asset received nor the asset given up is reliably measurable. If the acquired item is not measured at fair value, its cost is measured at the carrying amount of the asset given up.

Subsequent costs are included in the asset's carrying amount or recognized as a separate asset, as appropriate, only when it is probable at the time the costs are incurred that future economic benefits associated with the item will flow to the Group, and the cost of the item can be measured reliably. The carrying amount of the replaced part is derecognized. All other repairs and maintenance are charged to the statement of income during the financial period in which they are incurred.

Table of Contents**2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)****2.6 Property, Plant and Equipment (Continued)****(c) Depreciation**

Depreciation on property, plant and equipment is calculated using the straight-line method to allocate their costs less their residual values over their estimated useful lives, as follows:

	Depreciable life		Residual rate
Buildings	10	30 years	3-5%
Telecommunications equipment	5	10 years	3-5%
Office furniture, fixtures, motor vehicles and others	5	10 years	3-5%

Leasehold improvements are depreciated over the shorter of their estimated useful lives and the lease periods.

The assets' residual values and useful lives are reviewed, and adjusted if appropriate, at each balance sheet date.

An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount (Note 2.11).

(d) Gain or loss on disposal of property, plant or equipment

Gains or losses on disposal of property, plant or equipment are determined by comparing the net sales proceeds with the carrying amounts, and are recognized in the statement of income.

Table of Contents

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

2.7 Goodwill

Goodwill represents the excess of the cost of an acquisition over the fair value of the Group's share of the net identifiable assets of the acquired subsidiaries at the date of acquisition before the adoption of IFRS/HKFRS 3 (Revised). Goodwill is tested at least annually for impairment and carried at cost less accumulated impairment losses. Impairment losses on goodwill are not reversed. Gain or loss on the disposal of an entity includes the carrying amount of goodwill relating to the entity sold.

Goodwill is allocated to cash-generating units for the purpose of impairment testing. The allocation is made to those cash-generating units or groups of cash-generating units that are expected to benefit from the business combination in which the goodwill arose.

2.8 Lease Prepayments

Lease prepayments represent payments for land use rights. Lease prepayments for land use rights are stated at cost initially and expensed on a straight-line basis over the lease period.

2.9 Other Assets

Other assets mainly represent (i) computer software; (ii) prepaid rental for premises, leased lines and electricity cables; (iii) capitalized installation costs of fixed-line services and (iv) capitalized direct incremental costs for activating mobile subscribers.

- (i) Acquired computer software licenses are capitalized on the basis of the costs incurred to acquire and bring to use the specific software. These costs are amortized over their estimated useful lives on a straight-line basis.
- (ii) Long-term prepaid rental for premises, leased lines and electricity cables are amortized using a straight-line method over the lease period.
- (iii) Capitalized installation costs of fixed-line services are deferred and expensed to the statement of income over the expected customer service period of 10 years except when the direct incremental costs exceed the corresponding installation fees. In such cases, the excesses of the direct incremental costs over the installation fees are recorded immediately as expenses in the statement of income.
- (iv) Capitalized direct incremental costs for activating mobile subscribers, including costs of SIM/USIM cards and commissions which are directly associated with upfront non-refundable revenue received upon activation of mobile services, are deferred and amortized over the expected customer service periods of 3 years except when the direct incremental costs exceed the corresponding upfront non-refundable revenue. In such cases, the excesses of the direct incremental costs over the non-refundable revenue are recorded immediately as expenses in the statement of income.

Table of Contents

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

2.10 Financial Assets

The Group classifies its financial assets into two measurement categories: those measured at amortized cost and those measured at fair value. The determination is made at initial recognition and the classification depends on the entity's business model for managing its financial instruments and the contractual cash flow characteristics of the instrument.

Financial assets measured at amortized cost

Investments are classified under this category if they satisfy both of the following conditions:

The assets are held within a business model whose objective is to hold assets in order to collect contractual cash flows for managing liquidity and generating income on the investments, but not for the purpose of realizing fair value gains; and

The contractual terms of the financial assets give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding, with interest being the consideration for the time value of money and for the credit risk associated with the principal amount outstanding during a particular period of time and are unleveraged.

Bank deposits, accounts receivable and other deposits are also classified under this category.

Financial assets under this category are carried at amortized cost using effective interest method less provision for impairment. Gains and losses arising from disposal, being the differences between the net sales proceeds and the carrying values, are recognized in the statement of income. Interest income is recognized in the statement of income using the effective interest method and disclosed as interest income.

Table of Contents

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

2.10 Financial Assets (Continued)

Financial assets measured at fair value

Investments and other financial assets are classified under this category if they do not meet the conditions to be measured at amortized cost.

Financial assets under this category are equity investments carried at fair value. Gains and losses arising from changes in fair value are included in the statement of income or the statement of comprehensive income in cases where an irrevocable election is made by the Group to recognize changes in fair value of an equity investment measured at fair value through the statement of income or the statement of comprehensive income, in the period in which they arise. Upon disposal of the investments, the differences between the net sale proceeds and the carrying values are included in the statement of income or the statement of comprehensive income. Dividend income is recognized when the right to receive a dividend is established and is disclosed separately as dividend income.

Purchases and sales of financial assets are recognized on the trade date. Financial assets are derecognized when the rights to receive cash flows from the assets have expired or the Group has transferred substantially all the risks and rewards of ownership of the assets.

2.11 Impairment of Non-Financial Assets

Assets that have an indefinite useful life or are not yet available for use are not subject to amortization and are tested for impairment at each balance sheet date. Assets are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognized for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of (i) an asset's fair value less costs to sell and (ii) value in use. For the purposes of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash flows (cash-generating units). Assets other than goodwill that suffered from impairment are reviewed for possible reversal of the impairment at each reporting date.

2.12 Impairment of Financial Assets Carried at Amortized Costs

The Group assesses at the end of each reporting period whether there is objective evidence that a financial asset or group of financial assets measured at amortized cost is impaired. A financial asset or a group of financial assets is impaired and impairment losses are incurred only if there is objective evidence of impairment as a result of one or more events that occurred after the initial recognition of the asset (a loss event) and that loss event (or events) has an impact on the estimated future cash flows of the financial asset or group of financial assets that can be reliably estimated.

Table of Contents

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

2.13 Inventories and Consumables

Inventories, which primarily comprise handsets, SIM/USIM cards and accessories, are stated at the lower of cost and net realizable value. Cost is based on the first-in-first-out method and comprises all costs of purchase and other costs incurred in bringing the inventories to their present location and condition. Net realizable value for all the inventories is determined on the basis of anticipated sales proceeds less estimated selling expenses.

Consumables consist of materials and supplies used in maintaining the Group's telecommunications networks and are charged to the statement of income when brought into use. Consumables are stated at cost less any provision for obsolescence.

2.14 Accounts Receivable and Other Receivables

Accounts receivable are amounts due from customers for services performed in the ordinary course of business. If collection of accounts receivable and other receivables is expected in one year or less (or in the normal operating cycle of the business if longer), they are classified as current assets. If not, they are presented as non-current assets.

2.15 Short-term Bank Deposits

Short-term bank deposits are cash invested in fixed-term deposits with original maturities ranging from more than 3 months to 1 year.

2.16 Cash and Cash Equivalents

Cash and cash equivalents include cash in hand, deposits held at call with banks and other short-term highly liquid investments with original maturities of 3 months or less.

Table of Contents

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

2.17 Convertible Bonds

Compound financial instruments issued by the Group comprise convertible bonds that can be converted to share capital at the option of the holder, and the number of shares to be issued does not vary with changes in their fair value.

The liability component of convertible bonds is recognized initially at the fair value of a similar liability that does not have an equity conversion option. The equity component is recognized initially at the difference between the fair value of the convertible bonds as a whole and the fair value of the liability component. Any directly attributable transaction costs are allocated to the liability and equity components in proportion to their initial carrying amounts.

Subsequent to initial recognition, the liability component of convertible bonds is measured at amortized cost using the effective interest method. The equity component of a convertible bond is not re-measured subsequent to initial recognition except on conversion, expiry or redemption.

2.18 Deferred Revenue, Advances from Customers and Subscriber Points Reward Program

(a) Deferred revenue

Deferred revenue mainly represents upfront non-refundable revenue, including upfront connection fees and installation fees of fixed-line service and receipts from the activation of SIM/USIM cards relating to the mobile service, which are deferred and recognized over the expected customer service period. Deferred revenue expected to be recognized in one year or less is classified as current liabilities. If not, they are presented as non-current liabilities.

(b) Advances from customers

Advances from customers are amounts paid by customers for prepaid cards, other calling cards and prepaid service fees, which cover future telecommunications services. Advances from customers are stated at the amount of proceeds received less the amount already recognized as revenue upon the rendering of services.

(c) Subscriber points reward program

The fair value of providing telecommunications services and the subscriber points reward is allocated based on their relative fair values. The allocated portion of fair value for the subscriber points reward is recorded as deferred revenue when the rewards are granted and recognized as revenue when the points are redeemed or expired. The fair value of deferred revenue is estimated based on (i) the value of each bonus point awarded to subscribers, (ii) the number of bonus points related to subscribers who are qualified or expected to be qualified to exercise their redemption right at each balance sheet date, and (iii) the expected bonus points redemption rate. The fair value of the outstanding subscriber points reward is subject to review by management on a periodic basis.

Table of Contents

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

2.19 Borrowings

Borrowings are recognized initially at fair value, net of transaction costs incurred. Borrowings are subsequently stated at amortized cost, any difference between the proceeds (net of transaction costs) and the redemption value is recognized in the statement of income over the period of the borrowings using the effective interest method.

Borrowings are classified as current liabilities unless the Group has an unconditional right to defer settlement of the liability for at least 12 months after the balance sheet date.

2.20 Share Capital

Ordinary shares are classified as equity.

Incremental costs directly attributable to the issuance of new shares or options are shown in equity as a deduction, net of tax, from the proceeds.

Where any group company purchases the Company's equity share capital (treasury shares), the consideration paid, including any directly attributable incremental costs (net of tax) is deducted from equity attributable to owners of the parent and no gain or loss shall be recognized in the statement of income. The par value of the Company's shares cancelled is transferred from share capital to the capital redemption reserve.

2.21 Employee Benefits

(a) Retirement benefits

The Group participates in defined contribution pension schemes. For defined contribution plans, the Group pays contributions to publicly or privately administered pension insurance plans on a mandatory, contractual or voluntary basis. The Group has no further payment obligations once the contributions have been paid. The contributions are recognized as employee benefit expenses when they are due. Prepaid contributions are recognized as an asset to the extent that a reduction in the future payments is available.

(b) Medical insurance

The Group's contributions to basic and supplementary medical insurances are expensed as incurred. The Group has no further payment obligations once the contributions have been paid.

Table of Contents

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

2.21 Employee Benefits (Continued)

(c) Housing benefits

One-off cash housing subsidies paid to PRC employees are charged to the statement of income in the year in which it is determined that the payment of such subsidies is probable and the amounts can be reasonably estimated.

The Group's contributions to the housing fund, special monetary housing benefits and other housing benefits are expensed as incurred. The Group has no further payment obligations once the contributions have been paid.

(d) Share-based compensation costs

The Group operates an equity-settled, share-based compensation plan. The fair value of the employee services received in exchange for the grant of the share options is recognized as an expense. The total amount to be expensed over the vesting period is determined by reference to the fair value of the share options granted at the grant date excluding the impact of any non-market vesting conditions (for example, revenue and income targets) and is not subsequently remeasured. However, non-market vesting conditions are considered in determining the number of options that are expected to vest. At each balance sheet date, the Group revises its estimates of the number of share options that are expected to vest. The Group recognizes the impact of the revision of original estimates, if any, in the statement of income of the period in which the revision occurs, with a corresponding adjustment to equity.

The proceeds received net of any directly attributable transaction costs are credited to share capital (nominal value) and share premium when the share options are exercised. The corresponding employee share-based compensation reserve is transferred to share premium.

2.22 Accounts Payable

Accounts payable are obligations to pay for goods or services that have been acquired in the ordinary course of business from suppliers. Accounts payable are classified as current liabilities if payment is due within one year or less (or in the normal operating cycle of the business if longer). If not, they are presented as non-current liabilities.

Accounts payable are recognized initially at fair value and subsequently measured at amortized cost using the effective interest method.

Table of Contents

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

2.23 Provisions

Provisions are recognized when the Group has present legal or constructive obligations as a result of past events, it is probable that an outflow of resources will be required to settle the obligation, and the amount has been reliably estimated. Where there are a number of similar obligations, the likelihood that an outflow will be required in settlement is determined by considering the class of obligations as a whole. A provision is recognized even if the likelihood of an outflow with respect to any one item included in the same class of obligations may be small.

Provisions are measured at the present value of the pre-tax amount of expenditures expected to be required to settle the obligation that reflects current market assessments of the time value of money and the risks specific to the obligation. The increase in the provision due to passage of time is recognized as interest expense.

2.24 Revenue Recognition

Revenue comprises the fair value of the consideration received or receivable for the services and sales of goods or telecommunications products in the ordinary course of the Group's activities. Revenue is shown net of business tax, government surcharges, returns and discounts and after eliminating sales within the Group.

The Group recognizes revenue when the amount of revenue can be reliably measured, it is probable that future economic benefits will flow to the entity and specific criteria have been met for each of the Group's activities as described below. The Group bases its estimates on historical results, taking into consideration of the type of customer, the type of transaction and the specifics of each arrangement.

Sales of services and goods

Usage fees and monthly fees are recognized when the service is rendered;

Revenue from the provision of broadband, data and other Internet-related services is recognized when the services are provided to customers;

Lease income from leasing of lines and customer-end equipment is treated as operating leases with rental income recognized on a straight-line basis over the lease term;

Value-added services revenue, which mainly represents revenue from the provision of services such as short message, cool ringtone, personalized ring, caller number display and secretarial services to subscribers, is recognized when service is rendered;

Standalone sales of telecommunications products, which mainly represent handsets and accessories, are recognized when title has been passed to the buyers;

Table of Contents

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

2.24 Revenue Recognition (Continued)

Sales of services and goods (Continued)

The Group offers preferential packages to the customers which include the bundle sale of mobile handset and provision of service. The total contract consideration of such preferential packages is allocated to service revenue and sales of handsets based on their relative fair values. Revenue relating to the sale of the handset is recognized when the title is passed to the customer whereas service revenue is recognized based upon the actual usage of mobile services. The cost of the mobile handset is expensed immediately to the statement of income upon revenue recognition;

Revenue from information communications technology services is recognized when goods are delivered to the customers (which generally coincides with the time when the customers have accepted the goods and the related risks and rewards of ownership have been transferred to the customers) or when services are rendered to the customers using the percentage of completion method when the outcome of the services provided can be estimated reliably. If the outcome of the services provided cannot be estimated reliably, the treatment should be as follows: (i) if it is probable that the costs incurred for the services provided will be recoverable, services revenue should be recognized only to the extent of recoverable costs incurred, and costs should be recognized as current expenses in the period in which they are incurred; (ii) if it is probable that costs incurred will not be recoverable, costs should be recognized as current expenses immediately and services revenue should not be recognized.

2.25 Interest income

Interest income from deposits in banks or other financial institutions is recognized on a time proportion basis, using the effective interest method.

2.26 Dividend income

Dividend income is recognized when the right to receive payment is established.

Table of Contents

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

2.27 Leases (as the lessee)

(a) Operating lease

Leases in which a significant portion of the risks and rewards of ownership are retained by the lessor are classified as operating leases. Payments made under operating leases (net of any incentives received from the lessor), including long-term prepayment for land use rights, are expensed in the statement of income on a straight-line basis over the period of the lease.

(b) Finance lease

Leases of assets where the Group has substantially all the risks and rewards of ownership are classified as finance leases. Finance leases are capitalized at the commencement of the lease at the lower of the fair value of the leased property and the present value of the minimum lease payments. The corresponding liabilities, net of finance charges, are recorded as obligations under finance leases. The interest element implicit in the lease payment is recognized in the statement of income over the lease period so as to produce a constant periodic rate of interest on the remaining balance of the liability for each period.

2.28 Borrowing Costs

Borrowing costs are expensed as incurred, except for interest directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use, in which case they are capitalized as part of the cost of that asset. Capitalization of borrowing costs commences when expenditures for the asset and borrowing costs are being incurred and the activities to prepare the asset for its intended use are in progress. Borrowing costs are capitalized up to the date when the project is completed and ready for its intended use.

To the extent that funds are borrowed specifically for the purpose of obtaining a qualifying asset, the amount of borrowing costs eligible for capitalization is determined at the actual borrowing costs incurred on that borrowing during the period less any investment income on the temporary investment of those borrowings.

To the extent that funds are borrowed generally and used for the purpose of obtaining a qualifying asset, the amount of borrowing costs eligible for capitalization is determined by applying a capitalization rate to the expenditures on that asset. The capitalization rate is the weighted average of the borrowing costs applicable to the borrowings of the Group that are outstanding during the period, other than borrowings made specifically for the purpose of obtaining a qualifying asset. The amount of borrowing costs capitalized during a period should not exceed the amount of borrowing cost incurred during that period. Other borrowing costs are recognized as expenses when incurred.

Table of Contents

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

2.29 Taxation

(a) Current income tax

The current income tax charge is calculated on the basis of the tax laws enacted or substantially enacted at the balance sheet date in the countries where the Company and its subsidiaries operate and generate taxable income. Management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretation and establishes provisions where appropriate on the basis of the amount expected to be paid to the tax authorities.

(b) Deferred income tax

Deferred income tax is provided in full, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the consolidated financial statements. However, if the deferred income tax arises from initial recognition of an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting nor taxable income or loss, it is not accounted for. Deferred income tax is determined using tax rates (and laws) that have been enacted or substantially enacted by the balance sheet date and are expected to apply when the related deferred income tax asset is realized or the deferred income tax liability is settled.

Deferred income tax assets are recognized only to the extent that it is probable that future taxable income will be available against which the temporary differences can be utilized.

Deferred income tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets against current tax liabilities and when the deferred income taxes assets and liabilities relate to income taxes levied by the same taxation authority on either the taxable entity or different taxable entities where there is an intention to settle the balances on a net basis.

Table of Contents

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

2.30 Dividend Distribution

Dividend distribution to the Company's shareholders is recognized as a liability in the Company's financial statements in the period in which the dividends are approved by the Company's shareholders.

2.31 Contingent Liabilities and Contingent Assets

A contingent liability is a possible obligation that arises from past events and whose existence will only be confirmed by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Group. It can also be a present obligation arising from past events that is not recognized because it is not probable that outflow of economic resources will be required or the amount of obligation cannot be measured reliably.

A contingent liability is not recognized but is disclosed in the notes to the financial statements. When a change in the probability of an outflow of economic resources occurs so that outflow is probable, the liability will then be recognized as a provision.

A contingent asset is a possible asset that arises from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Group.

A contingent asset is not recognized but is disclosed in the notes to the financial statements when an inflow of economic benefits is probable. When an inflow is virtually certain, an asset is recognized.

2.32 Earnings per Share and per American Depositary share (ADS)

Basic earnings per share is computed by dividing the income attributable to owners of the parent by the weighted average number of ordinary shares outstanding during the year.

Diluted earnings per share is computed by dividing the income attributable to owners of the parent by the weighted average number of ordinary shares outstanding during the year, after adjusting for the effects of the dilutive potential ordinary shares.

Basic and diluted earnings per ADS are computed by multiplying earnings per share by 10, which is the number of shares represented by each ADS.

Table of Contents

3. FINANCIAL RISK MANAGEMENT

3.1 Financial risk factors

The Group's operating activities expose it to a variety of financial risks: market risk (including foreign currency risk, price risk, cash flow risk and fair value interest rate risk), credit risk and liquidity risk. The Group's overall risk management program focuses on the unpredictability of financial markets and seeks to minimize potential adverse effects on the Group's financial performance.

Financial risk management is carried out by the Group's finance department at its headquarters, following the overall direction determined by the Executive Directors of the Company. The Group's finance department at its headquarter identifies and evaluates financial risks in close co-operation with the Group's operating units.

(a) Market risk

(i) Foreign exchange risk

The Group's major operational activities are carried out in Mainland China and a majority of the transactions are denominated in RMB. The Group is exposed to foreign exchange risk arising from various currency exposures, primarily with respect to US dollars, HK dollars and Euro. Exchange risk mainly exists with respect to the repayment of indebtedness to foreign lenders and payables to equipment suppliers and contractors.

The Group's finance department at its headquarters is responsible for monitoring the amount of monetary assets and liabilities denominated in foreign currencies. From time to time, the Group may consider entering into forward exchange contracts or currency swap contracts to mitigate the foreign exchange risk. During the years of 2010, 2011 and 2012, the Group had not entered into any forward exchange contracts or currency swap contracts.

As of December 31, 2011 and 2012, the Group had cash and cash equivalents and short-term bank deposits denominated in foreign currencies amounting to approximately RMB974 million and RMB762 million, respectively. As of December 31, 2011 and 2012, the Group had borrowings, convertible bonds and other obligations under finance lease included in other obligations denominated in foreign currencies amounting to approximately RMB28,498 million and RMB41,540 million, respectively.

As of December 31, 2012, if the RMB had strengthened/weakened by 10% against foreign currencies, primarily with respect to US dollars, HK dollars and Euro, while all other variables are held constant, the Group would have recognized additional exchange gains/losses of approximately RMB4,078 million (2010: approximately RMB1,294 million; 2011: approximately RMB2,752 million) for cash and cash equivalents, short-term bank deposits, borrowings, convertible bonds and other obligations under finance lease included in other obligations denominated in foreign currencies.

Table of Contents

3. FINANCIAL RISK MANAGEMENT (CONTINUED)

3.1 Financial risk factors (Continued)

(a) Market risk (Continued)

(ii) Price risk

The Group is exposed to equity securities price risk because investments held by the Group are classified in the consolidated balance sheet as financial assets at fair value through other comprehensive income.

The financial assets at fair value through other comprehensive income comprise primarily equity securities of Telefónica S.A. ("Telefónica"). As of December 31, 2012, if the share price of Telefónica had increased/decreased by 10%, while the exchange rate of RMB against Euro is held constant, the Group would have recorded additional change in fair value of approximately RMB544 million (2010: approximately RMB609 million; 2011: approximately RMB684 million).

(ii) Cash flow and fair value interest rate risk

The Group's interest-bearing assets are mainly represented by bank deposits. Management does not expect the changes in market deposit interest rates will have significant impact on the financial statements as the deposits are all short-term in nature and the interest involved will not be significant.

The Group's interest rate risk mainly arises from interest-bearing borrowings including bank loans, commercial papers, promissory notes, convertible bonds, corporate bonds and related parties loans. Borrowings issued at floating rates expose the Group to cash flow interest rate risk. Borrowings issued at fixed rates expose the Group to fair value interest rate risk. The Group determines the amount of its fixed rate or floating rate borrowings depending on the prevailing market conditions. During 2010, 2011 and 2012, the Group's borrowings were mainly at fixed rates and were mainly denominated in RMB.

Increases in interest rates will increase the cost of new borrowing and the interest expense with respect to the Group's outstanding floating rate borrowings, and therefore could have a material adverse effect on the Group's financial position. Management continuously monitors the interest rate position of the Group and makes decisions with reference to the latest market conditions. From time to time, the Group may enter into interest rate swap agreements to mitigate its exposure to interest rate risks in connection with the floating rate borrowings, although the Group did not consider it was necessary to do so in 2010, 2011 and 2012.

As of December 31, 2012, the Group had approximately RMB111,581 million (2011: approximately RMB72,830 million) of bank loans, commercial papers, promissory notes, convertible bonds and corporate bonds at fixed rates and approximately RMB30,539 million (2011: approximately RMB34,278 million) of bank loans and other obligations under finance lease at floating rates.

For the year ended December 31, 2012, if interest rates on the floating rate borrowings had been 10% higher/lower while all other variables are held constant, the interest expenses of the Group would have increased/decreased by approximately RMB50 million (2010: approximately RMB27 million; 2011: approximately RMB135 million).

Table of Contents**3. FINANCIAL RISK MANAGEMENT (CONTINUED)**

3.1 Financial risk factors (Continued)

(b) Credit risk

Credit risk is managed on a group basis. Credit risk arises from cash and cash equivalents and short-term bank deposits with banks, as well as credit exposures to corporate customers, individual subscribers, related parties and other operators.

The table below shows the bank deposits and cash and cash equivalents balances held at the major banks by the Group as of December 31, 2011 and 2012:

	2011	2012
Short-term bank deposits		
State-owned banks in the PRC	177	32
Other banks	127	-
	304	32
Cash and cash equivalents		
State-owned banks in the PRC	14,359	17,945
Other banks	747	305
	15,106	18,250

The Group expects that there is no significant credit risk associated with the bank deposits and cash and cash equivalents since the state-owned banks have support from the government and other banks are medium or large size listed banks. Management does not expect that there will be any significant losses from non-performance by these counterparties.

In addition, the Group has no significant concentrations of credit risk with respect to corporate customers and individual subscribers. The extent of the Group's credit exposure is mainly represented by the fair value of accounts receivable for services (Note 14) and receivable for the sales of mobile handsets (Note 15). The Group has policies to limit the credit exposure on accounts receivable for services. The Group assesses the credit quality of and sets credit limits on all its customers by taking into account their financial position, the availability of guarantee from third parties, their credit history and other factors such as current market conditions. The normal credit period granted by the Group to individual subscribers is 30 days from the date of billing unless they meet certain specified credit assessment criteria. The utilization of credit limits and the settlement pattern of the customers are regularly monitored by the Group.

Credit risk relating to amounts due from related parties and other operators is not considered to be significant as these companies are reputable and their receivables are settled on a regular basis.

Table of Contents**3. FINANCIAL RISK MANAGEMENT (CONTINUED)**

3.1 Financial risk factors (Continued)

(c) Liquidity risk

Prudent liquidity risk management includes maintaining sufficient cash and availability of funds including the raising of bank loans and issuance of commercial papers, promissory notes, corporate bonds and convertible bonds. Due to the dynamic nature of the underlying business, the Group's finance department at its headquarters maintains flexibility in funding through having adequate amount of cash and cash equivalents and utilizing different sources of financing when necessary.

The following tables show the undiscounted balances of the financial liabilities (including interest expense) categorized by time period from the balance sheet date to the contractual maturity date:

	Less than 1 year	Between 1 and 2 years	Between 2 and 5 years	Over 5 years
At December 31, 2011				
Long-term bank loans	101	898	163	391
Corporate bonds	355	5,268	270	2,039
Convertible bonds	87	87	11,742	-
Promissory notes	509	15,311	-	-
Other obligations	2,588	6	17	65
Accounts payable and accrued liabilities	91,735	-	-	-
Amounts due to related parties	5,719	-	-	-
Amounts due to ultimate holding company	342	-	-	-
Amounts due to domestic carriers	1,344	-	-	-
Commercial papers	39,150	-	-	-
Short-term bank loans	32,877	-	-	-
	174,807	21,570	12,192	2,495
At December 31, 2012				
Long-term bank loans	886	53	154	352
Corporate bonds	5,268	90	2,219	-
Convertible bonds	87	87	11,627	-
Promissory notes	15,309	-	-	-
Other obligations	2,652	141	113	85
Accounts payable and accrued liabilities	104,514	-	-	-
Amounts due to related parties	4,767	-	-	-
Amounts due to ultimate holding company	567	-	-	-
Amounts due to domestic carriers	1,163	-	-	-
Commercial papers	39,057	-	-	-
Short-term bank loans	70,249	-	-	-
	244,519	371	14,113	437

Regarding the Group's use of the going concern basis for the preparation of its financial statements, please refer to Note 2.2(c) for details.

Table of Contents

3. FINANCIAL RISK MANAGEMENT (CONTINUED)

3.2 Capital risk management

The Group's objectives when managing capital are:

To safeguard the Group's ability to continue as a going concern in order to provide returns for shareholders and benefits for other stakeholders.

To support the Group's stability and growth.

To provide capital for the purpose of strengthening the Group's risk management capability.

In order to maintain or adjust the capital structure, the Group reviews and manages its capital structure actively and regularly to ensure optimal capital structure and shareholder returns, taking into account the future capital requirements of the Group and capital efficiency, prevailing and projected profitability, projected operating cash flows, projected capital expenditures and projected strategic investment opportunities.

Table of Contents**3. FINANCIAL RISK MANAGEMENT (CONTINUED)****3.2 Capital risk management (Continued)**

The Group monitors capital on the basis of the debt-to-capitalization ratio. This ratio is calculated as interest-bearing debts over interest-bearing debts plus total equity. Interest-bearing debts represent commercial papers, short-term bank loans, long-term bank loans, promissory notes, convertible bonds, corporate bonds, obligations under finance lease included in other obligations, and certain amounts due to related parties, as shown in the consolidated balance sheet. Total equity represents equity attributable to owners of the parent as shown in the consolidated balance sheet.

The Group's debt-to-capitalization ratios are as follows:

	2011	2012
Interest-bearing debts:		
- Commercial papers	38,000	38,000
- Short-term bank loans	32,322	69,175
- Promissory notes	15,000	-
- Long-term bank loans	1,384	536
- Convertible bonds	11,118	11,215
- Corporate bonds	7,000	2,000
- Obligations under finance lease included in other obligations	-	217
- Amounts due to related parties	2,156	-
- Current portion of long-term bank loans	50	850
- Current portion of promissory notes	-	15,000
- Current portion of corporate bonds	-	5,000
- Current portion of obligations under finance lease	78	127
	107,108	142,120
Total equity:		
- Equity attributable to owners of the parent	205,898	209,505
Interest-bearing debts plus total equity	313,006	351,625
Debt-to-capitalization ratio	34.2%	40.4%

The increase in debt-to-capitalization ratio during 2012 resulted primarily from the raising of short-term bank loans to finance the telecommunications networks and the acquisition of Unicom New Horizon.

Table of Contents**3. FINANCIAL RISK MANAGEMENT (CONTINUED)****3.3 Fair value estimation**

The table below analyses financial instruments carried at fair value, by valuation method. The different levels have been defined as follows:

Quoted prices (unadjusted) in active markets for identical assets or liabilities (level 1).

Inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices) (level 2).

Inputs for the asset or liability that are not based on observable market data (that is, unobservable inputs) (level 3).

The following table presents the Group's assets that are measured at fair value at December 31, 2011:

	Level 1	Level 2	Level 3	Total
Financial assets at fair value through other comprehensive income				
- Equity securities	6,951	-	-	6,951

The following table presents the Group's assets that are measured at fair value at December 31, 2012:

	Level 1	Level 2	Level 3	Total
Financial assets at fair value through other comprehensive income				
- Equity securities	5,567	-	-	5,567

The fair value of financial instruments traded in active markets is based on quoted market prices at the balance sheet date. A market is regarded as active if quoted prices are readily and regularly available from an exchange, dealer, broker, industry group, pricing service, or regulatory agency, and those prices represent actual and regularly occurring market transactions on an arm's length basis. The quoted market price used for financial assets held by the Group is the current bid price. These instruments are included in level 1 and comprise primarily equity securities of Telefónica which are classified as financial assets at fair value through other comprehensive income.

During the years ended December 31, 2011 and 2012, there were no transfers of financial instruments between Level 1 and Level 2 of the fair value hierarchy.

Table of Contents

4. CRITICAL ACCOUNTING ESTIMATES AND JUDGMENTS

Estimates and judgments are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

4.1 Critical accounting estimates and assumptions

The Group makes estimates and assumptions concerning the future. The resulting accounting estimates may not be equal to the related actual results. The estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are discussed below.

(a) Depreciation on property, plant and equipment

Depreciation on the Group's property, plant and equipment is calculated using the straight-line method to allocate cost up to residual values over the estimated useful lives of the assets. The Group reviews the useful lives and residual values periodically to ensure that the method and rates of depreciation are consistent with the expected pattern of realization of economic benefits from property, plant and equipment. The Group estimates the useful lives of property, plant and equipment based on historical experience, taking into account anticipated technological changes. If there are significant changes from previously estimated useful lives, the amount of depreciation expenses may change.

(b) Impairment of non-financial assets

The Group tests whether non-financial assets have suffered from any impairment, in accordance with the accounting policy stated in Note 2.11. The recoverable amount of an asset is the higher of its fair value less costs to sell and its value in use. Management estimates value in use based on estimated discounted pre-tax future cash flows of the cash generating unit at the lowest level to which the asset belongs. If there is any significant change in management's assumptions, including discount rates or growth rates in the future cash flow projection, the estimated recoverable amounts of the non-financial assets and the Group's results would be significantly affected. Such impairment losses are recognized in the statement of income. Accordingly, there will be an impact to the future results if there is a significant change in the recoverable amounts of the non-financial assets.

No significant impairment loss on property, plant and equipment was recognized for the years ended December 31, 2010, 2011 and 2012.

Table of Contents

4. CRITICAL ACCOUNTING ESTIMATES AND JUDGMENTS (CONTINUED)

4.1 Critical accounting estimates and assumptions (Continued)

(c) Income tax and deferred taxation

The Group estimates its income tax provision and deferred taxation in accordance with the prevailing tax rules and regulations, taking into account any special approvals obtained from relevant tax authorities and any preferential tax treatment to which it is entitled in each location or jurisdiction in which the Group operates. There are many transactions and calculations for which the ultimate tax determination is uncertain during the ordinary course of business. The Group recognizes liabilities for anticipated tax audit issues based on estimates of whether additional taxes will be due. Where the final tax outcome of these matters is different from the amounts that were initially recorded, such differences will impact the income tax and deferred tax provisions in the period in which such determination is made.

For temporary differences which give rise to deferred tax assets, the Group has assessed the likelihood that the deferred tax assets could be recovered. Major deferred tax assets relate to unrecognized revaluation surplus on prepayments for the leasehold land and buildings determined under PRC regulations, accruals of expenses not yet deductible for tax purpose, changes in fair value on financial assets through other comprehensive income and provision for doubtful debts. Due to the effects of these temporary differences on income tax, the Group has recorded deferred tax assets amounting to approximately RMB6,534 million as of December 31, 2012 (2011: approximately RMB5,091 million). Deferred tax assets are recognized based on the Group's estimates and assumptions that they will be recovered from taxable income arising from continuing operations in the foreseeable future.

The Group believes it has recorded adequate current tax provision and deferred taxes based on the prevailing tax rules and regulations and its current best estimates and assumptions. In the event that future tax rules and regulations or related circumstances change, adjustments to current and deferred taxation may be necessary which would impact the Group's results or financial position.

Table of Contents

4. CRITICAL ACCOUNTING ESTIMATES AND JUDGMENTS (CONTINUED)

4.2 Critical judgments in applying the Group's accounting policies

(a) Recognition of upfront non-refundable revenue and direct incremental costs

The Group defers and amortizes upfront activation fees of SIM/USIM cards of the mobile service over the expected customer service period of 3 years (2010: approximately 3 years; 2011: approximately 3 years). The related direct incremental costs of acquiring and activating mobile subscribers, including costs of SIM/USIM cards and commissions, are also deferred and amortized over the same expected customer service period of 3 years.

The Group defers and amortizes customer installation fees of the fixed-line service over the expected customer service period of 10 years (2010: approximately 10 years; 2011: approximately 10 years). The related direct incremental installation costs are deferred and amortized over the same expected customer service period of 10 years.

The Group only defers costs to the extent that they will generate future economic benefits. The excess of the direct incremental costs over the corresponding upfront non-refundable revenue, if any, are expensed to the statement of income immediately.

The Group estimates the expected customer service period based on the historical customer retention experience and after factoring in the expected level of future competition, the risk of technological or functional obsolescence to the Group's services, technological innovation, and the expected changes in the regulatory and social environment. If the Group's estimate of the expected customer service period changes as a result of increased competition, changes in telecommunications technology or other factors, the amount and timing of recognition of the deferred revenue and direct incremental costs may change for future periods.

(b) Lease of Telecommunications Networks in Southern China

On December 16, 2008, CUCL, Unicom Group, China Network Communications Group Corporation (Netcom Group, which merged with Unicom Group in January 2009) and Unicom New Horizon entered into an agreement (the Network Lease Agreement) in relation to the lease (the Lease) of the Telecommunications Networks in Southern China by CUCL from Unicom New Horizon on an exclusive basis. Under the Network Lease Agreement, CUCL shall pay annual leasing fees of RMB2.0 billion and RMB2.2 billion for the two financial years ended December 31, 2009 and 2010, respectively. The initial term of the Lease is two years effective from January 2009 and the Lease is renewable at the option of CUCL with at least two months' prior notice on the same terms and conditions, except for the future lease fee which would remain subject to further negotiations between the parties, taking into account, among others, the then prevailing market conditions in Southern China. Moreover, in connection with the Lease, Unicom New Horizon has granted CUCL an option to purchase the Telecommunications Networks in Southern China and the purchase price would be referenced to the then appraised value of the networks determined by an independent appraiser. On October 29, 2010, CUCL and Unicom New Horizon entered into a new network lease agreement (2011-2012 Network Lease Agreement) to renew the Lease. The 2011-2012 Network Lease Agreement has a term of two years expiring on December 31, 2012 on the same terms and conditions as the Network Lease Agreement, except that the annual fee payable by CUCL for such Lease for the two years ended December 31, 2011 and 2012 is RMB2.4 billion and RMB2.6 billion, respectively.

Table of Contents

4. CRITICAL ACCOUNTING ESTIMATES AND JUDGMENTS (CONTINUED)

4.2 Critical judgments in applying the Group's accounting policies (Continued)

(b) Lease of Telecommunications Networks in Southern China (Continued)

At the time of entering into the 2011-2012 Network Lease Agreement, the Group reassessed the appropriate classification of the lease. The Group believed the uncertainties of the fixed-line service in Southern China continue to exist, particularly due to the fact that (i) the growth of the fixed-line service in Southern China was not significant; (ii) the uncertainty of the future success of fixed-line service in Southern China arising from keen market competition; and (iii) the uncertainty in the future changes in technology, technological standards and government regulatory environment. Accordingly, at the inception of the 2011-2012 Network Lease Agreement, the Group was unable to determine whether it would renew the lease after the two-year lease term or whether it would exercise the purchase option. As a result, the Group considered the risks associated with the ownership of the Telecommunications Networks in Southern China still substantially remained with Unicom New Horizon, and concluded the leasing of Telecommunications Networks in Southern China in accordance with the 2011-2012 Network Lease Agreement was accounted for as an operating lease.

The operating lease expenses of RMB2.2 billion, RMB2.4 billion and RMB2.6 billion were recorded in the consolidated statement of income for the years ended December 31, 2010, 2011 and 2012 respectively. The carrying value of the Telecommunications Networks in Southern China and the related liabilities were not reflected in the consolidated balance sheet as of December 31, 2011, but were reflected in the consolidated balance sheet as of December 31, 2012 upon the completion of the acquisition of Unicom New Horizon on December 26, 2012 (Note 2.2(a)).

Table of Contents

5. SEGMENT INFORMATION

The Executive Directors of the Company have been identified as the CODM. Operating segments are identified on the basis of internal reports that the CODM reviews regularly in allocating resources to segments and in assessing their performances.

Prior to January 1, 2012, the mobile business and the fixed-line business were identified as the major operating segments of the Group and the CODM evaluated the results of operating segments based on revenue and costs that were directly attributable to them.

Considering the in-depth development of the integrated telecommunications business model and that the mobile service and the fixed-line service have increasingly significant common costs and expenses, in 2012 the Group changed its management structure by centralized functions instead of business lines. Under the integrated business model with the enhancement of operations through functional departments, the CODM no longer evaluated the results of mobile service and fixed-line service separately based on revenue and costs that were directly attributable to them. Since January 1, 2012, the CODM has started to make resources allocation decisions based on internal management functions and assess the Group's business performance as one integrated business instead of by separate business lines or geographical regions. Accordingly, the Group has only one operating segment and therefore, no segment information is presented.

The Group primarily operates in Mainland China and accordingly, no geographic information is presented. No single external customer accounted for 10 percent or more of the Group's revenue in all periods presented.

Disposals	66	11,819	591	312	-	12,788
Impairment transfer out	-	152	-	-	-	152
End of year	(21,318)	(451,596)	(36,063)	(1,653)	(16)	(510,646)
Net book value:						
End of year	39,456	318,826	9,173	1,643	61,899	430,997
Beginning of year	37,964	276,191	11,698	1,340	54,666	381,859

As of December 31, 2012, the net book value of assets held under finance leases was approximately RMB539 million (2011: approximately RMB197 million).

For the year ended December 31, 2012, interest expense of approximately RMB1,498 million (2010: approximately RMB804 million; 2011: approximately RMB1,151 million) was capitalized to CIP. The capitalized borrowing rate represents the cost of capital for raising the related borrowings externally and varied from 4.08% to 5.16% for the year ended December 31, 2012 (2010: 3.60% to 4.56%; 2011: 3.84% to 5.04%).

For the year ended December 31, 2012, the Group recognized a gain on disposal of property, plant and equipment of approximately RMB612 million (2010: a loss of approximately RMB17 million; 2011: a gain of approximately RMB418 million).

Table of Contents**7. LEASE PREPAYMENTS**

The Group's long-term prepayment for land use rights represents prepaid operating lease payments for land use rights in Mainland China and their net book value is analyzed as follows:

	2011	2012
Held on:		
Leases of between 10 to 50 years	7,536	7,424
Leases of less than 10 years	121	177
	7,657	7,601

For the year ended December 31, 2012, the long-term prepayment for land use rights expensed in the statement of income amounted to approximately RMB248 million (2010: approximately RMB249 million; 2011: approximately RMB239 million).

8. GOODWILL

Goodwill arising from the acquisitions of Unicom New Century Telecommunications Co., Ltd. and Unicom New World Telecommunications Co., Ltd. by the Group in 2002 and 2003, respectively, represented the excess of the purchase consideration over the Group's shares of the fair values of the separately identifiable net assets acquired prior to the adoption of HKFRSs and AG 5 in 2005.

Goodwill is allocated to the Group's cash-generating units (CGU). The recoverable amount of goodwill is determined based on value in use calculations. These calculations use pre-tax cash flow projections for 5 years based on financial budgets approved by management, including revenue annual growth rate of 6% and the applicable discount rate of 12%. Management determined expected growth rates and operating results based on past performance and its expectations in relation to market developments. The discount rate used is pre-tax and reflects specific risks relating to the CGU. Based on management's assessment results, there was no impairment of goodwill as of December 31, 2011 and 2012 and no reasonable change to the assumptions would lead to an impairment charge.

Table of Contents**9. TAXATION**

Hong Kong income tax has been provided at the rate of 16.5% (2010: 16.5%; 2011: 16.5%) on the estimated assessable income for the year. Taxation on income from outside Hong Kong has been calculated on the estimated assessable income for the year at the rates of taxation prevailing in the countries in which the Group operates, the Company's subsidiaries mainly operated in the PRC and the applicable standard enterprise income tax rate is 25% (2010: 25%; 2011: 25%).

	Note	2010	2011	2012
Provision for income tax on the estimated taxable income for the year				
- Hong Kong		18	20	24
- Outside Hong Kong		302	734	2,604
Adjustments to prior years' current tax outside Hong Kong	(i)	31	117	73
		351	871	2,701
Deferred taxation		532	500	(276)
Income tax expenses		883	1,371	2,425

Reconciliation between applicable statutory tax rate and the effective tax rate:

	Note	2010	2011	2012
Applicable PRC statutory tax rate		25.0%	25.0%	25.0%
Non-deductible expenses		1.3%	1.3%	1.6%
Effect of withholding income tax for interest receivable from inter-company loans		-	0.5%	0.3%
Adjustments to prior years' current tax	(i)	0.7%	2.1%	0.8%
Non-taxable income				
- Upfront connection fees and installation fees		(2.0%)	(0.5%)	(0.2%)
Impact of PRC preferential tax rates and tax holiday		(2.2%)	(2.4%)	(1.2%)
Utilization of previously unrecognized tax losses		(1.7%)	-	-
Others		(1.8%)	(1.5%)	(0.8%)
Effective tax rate		19.3%	24.5%	25.5%

(i) This item included certain non-deductible prior years' expenses found during the regular examination by tax bureaus and the difference resulted from prior years' accruals and actual settlement upon the completion of the tax filing during the year.

Table of Contents**9. TAXATION (CONTINUED)**

The analysis of deferred tax assets and deferred tax liabilities are as follow:

	2011	2012
Deferred tax assets:		
- Deferred tax asset to be recovered after 12 months	3,126	4,128
- Deferred tax asset to be recovered within 12 months	2,666	2,914
	5,792	7,042
Deferred tax liabilities:		
- Deferred tax liabilities to be settled after 12 months	(554)	(356)
- Deferred tax liabilities to be settled within 12 months	(147)	(152)
	(701)	(508)

	(17)	(20)
	(17)	(20)

Table of Contents**9. TAXATION (CONTINUED)**

Deferred taxation as of year-end represents the taxation effect of the following temporary differences, taking into consideration the offsetting of balances related to the same tax authority: (Continued)

- (ii) The prepayments for the leasehold land and buildings held by China Netcom Group Corporation (Hong Kong) Limited (China Netcom) were revalued for PRC tax purposes as of December 31, 2003 and 2004. However, the resulting revaluations of the prepayments for the leasehold land and buildings were not recognized under IFRSs/HKFRSs. Accordingly, deferred tax assets were recorded by the Group under IFRSs/HKFRSs.

10. FINANCIAL ASSETS AT FAIR VALUE THROUGH OTHER COMPREHENSIVE INCOME

	Note	2011	2012
Equity securities issued by corporates		6,951	5,567
Analyzed by place of listing:			
Listed in the PRC		114	125
Listed outside the PRC	34	6,837	5,442
		6,951	5,567

For the year ended December 31, 2012, decrease in fair value of financial assets at fair value through other comprehensive income amounted to approximately RMB1,530 million (2010: approximately RMB1,777 million; 2011: approximately RMB2,629 million). The decrease, net of tax impact, of approximately RMB1,146 million (2010: approximately RMB1,340 million; 2011: approximately RMB1,973 million) was recorded in the consolidated statement of comprehensive income.

Table of Contents**11. SUBSIDIARIES**

As of December 31, 2012, the details of the Company's subsidiaries are as follows:

Name	Place and date of incorporation and nature of legal entity	Percentage of equity interests held		Particulars of issued share capital	Principal activities and place of operation
		Direct	Indirect		
China United Network Communications Corporation Limited	The PRC, April 21, 2000, limited liability company	100%	-	RMB 138,091,677,828	Telecommunications operation in the PRC
China Netcom Group Corporation (Hong Kong) Limited	Hong Kong, October 22, 1999, limited company	100%	-	6,699,197,200 ordinary shares, USD0.04 each	Investment holding in Hong Kong

12. OTHER ASSETS

	2011	2012
Purchased software	5,506	6,364
Prepaid rental for premises, leased lines and electricity cables	5,337	6,102
Installation costs	1,022	799
Direct incremental costs for activating mobile subscribers	390	212
Others	846	1,003
	13,101	14,480

13. INVENTORIES AND CONSUMABLES

	2011	2012
Handsets and other customer end products	3,387	4,187
Telephone cards	296	359
Consumables	887	1,174
Others	81	83
	4,651	5,803

Table of Contents**14. ACCOUNTS RECEIVABLE**

	2011	2012
Accounts receivable	14,922	17,819
Less: Provision for doubtful debts	(3,510)	(4,066)
	11,412	13,753

The aging analysis of accounts receivable is as follows:

	2011	2012
Within one month	8,556	10,221
More than one month to three months	1,009	1,149
More than three months to one year	3,189	3,859
More than one year	2,168	2,590
	14,922	17,819

The normal credit period granted by the Group to individual subscribers is 30 days from the date of billing unless they meet certain specified credit assessment criteria. For corporate customers, the credit period granted by the Group is based on the service contract terms, normally not exceeding 1 year.

There is no significant concentration of credit risk with respect to customer receivables, as the Group has a large number of customers.

Table of Contents**14. ACCOUNTS RECEIVABLE (CONTINUED)**

As of December 31, 2012, accounts receivable of approximately RMB3,532 million (2011: approximately RMB2,856 million) were past due but not impaired. Such overdue amounts can be recovered based on past experience. The aging analysis of these receivables is as follows:

	2011	2012
More than one month to three months	1,009	1,149
More than three months to one year	1,464	1,855
More than one year	383	528
	2,856	3,532

As of December 31, 2012, accounts receivable of approximately RMB4,066 million (2011: approximately RMB3,510 million) were impaired. The Group makes such provision based on its past experience, historical collection patterns, subscribers' creditworthiness and collection trends. The Group makes a full provision for receivables aged over 3 months after the credit period for individual subscribers unless they meet certain specified credit assessment criteria. The individually impaired receivables mainly relate to subscriber service fees. The aging of these receivables is as follows:

	2011	2012
More than three months to one year	1,725	2,004
More than one year	1,785	2,062
	3,510	4,066

Provision for doubtful debts is analyzed as follows:

	2011	2012
Balance, beginning of year	3,980	3,510
Provision for the year	2,658	3,154
Written-off during the year	(3,128)	(2,598)
Balance, end of year	3,510	4,066

The creation and release of provisions for impaired receivables have been recognized in the statement of income. Amounts charged to the allowance account are generally written-off when there is reliable evidence to indicate no expectation of recovering additional cash.

The maximum exposure to credit risk as of the balance sheet date is the carrying value of accounts receivable mentioned above. The Group does not hold any collateral as security.

Table of Contents**15. PREPAYMENTS AND OTHER CURRENT ASSETS**

	Note	2011	2012
Receivable for the sales of mobile handsets	(i)	-	3,566
Prepaid rental		1,590	1,900
Deposits and prepayments		2,624	2,721
Prepaid income taxes		696	42
Advances to employees		285	284
Others		932	1,067
		6,127	9,580

- (i) The Group offers preferential packages to the customers which include the bundle sale of mobile handset and provision of service. As stated in Note 2.24, the total contract consideration of such preferential packages is allocated to service revenue and sales of handsets based on their relative fair values. For contractual preferential packages with guarantees, the revenue relating to the sale of the handsets is recognized when the titles are passed to the customers and are calculated under the aforementioned relative fair value method, which results in the corresponding receivable for the sales of mobile handsets.

The aging analysis of prepayments and other current assets is as follows:

	2011	2012
Within one year	5,604	8,901
More than one year	523	679
	6,127	9,580

As of December 31, 2011 and 2012, there was no significant impairment for the prepayments and other current assets.

16. SHORT-TERM BANK DEPOSITS

	2011	2012
Bank deposits with maturity exceeding three months	287	4
Restricted bank deposits	17	28
	304	32

As of December 31, 2011 and 2012, restricted bank deposits primarily represented deposits that were subject to externally imposed restrictions as requested by contractors in relation to payables owed to the contractors.

Table of Contents**17. CASH AND CASH EQUIVALENTS**

	2011	2012
Cash at bank and in hand	14,669	18,250

Table of Contents

19. RESERVES

(a) Nature and purpose

(i) Statutory reserves

CUCL is a registered as a foreign investment enterprise in the PRC. In accordance with the Articles of Association, it is required to provide for certain statutory reserves, namely, general reserve fund and staff bonus and welfare fund, which are appropriated from income after tax and non-controlling interests but before dividend distribution.

CUCL is required to allocate at least 10% of its income after tax and non-controlling interests determined under the PRC Company Law to the general reserve fund until the cumulative amounts reach 50% of the registered capital. The statutory reserve can only be used, upon approval obtained from the relevant authority, to offset accumulated losses or increase capital.

Accordingly, CUCL appropriated approximately RMB641 million (2010: approximately RMB379 million; 2011: approximately RMB271 million) to the general reserve fund for the year ended December 31, 2012.

Appropriation to the staff bonus and welfare fund is made at the discretion of the Board of Directors. The staff bonus and welfare fund can only be used for special bonuses or the collective welfare of the employees and cannot be distributed as cash dividends. Under IFRSs/HKFRSs, the appropriations to the staff bonus and welfare fund are charged to the statement of income as expenses incurred since any assets acquired through this fund belong to the employees. For the years ended December 31, 2010, 2011 and 2012, no appropriation to staff bonus and welfare fund has been made by CUCL.

According to the PRC tax approval document issued by the Ministry of Finance and State Administration of Taxation to the Group, the Group's upfront connection fees were not subject to the PRC enterprise income tax and an amount equal to the upfront connection fees recognized in the retained profits had been transferred from retained profits to the statutory reserve. As of December 31, 2011, the Group made an accumulated appropriation of approximately RMB12,289 million to the statutory reserve in relation to upfront connection fees (December 31, 2010: approximately RMB 12,274 million). No more upfront connection fees will be recognized after December 31, 2011.

(ii) Share premium and capital redemption reserve

The application of the share premium account and the capital redemption reserve is governed by Sections 48B and 49H, respectively, of the Hong Kong Companies Ordinance and these reserves cannot be distributed to shareholders by way of dividend.

(iii) Investment revaluation reserve

The investment revaluation reserve represents the changes in fair value of financial assets through other comprehensive income, net of tax, until the financial assets are derecognized.

(iv) Convertible bonds reserve

The convertible bonds reserve represents the equity component of the convertible bonds at initial recognition.

Table of Contents**20. LONG-TERM BANK LOANS**

Interest rates and final maturity		2011	2012
RMB denominated bank loans	Floating interest rate, 15% downward on the benchmark interest rate issued by the People's Bank of China for three years bank borrowings on quarterly basis with maturity through 2013	800	800

Less: Current portion		(50)	(850)
		1,384	536

As of December 31, 2012, long-term bank loans of approximately RMB 107 million (2011: approximately RMB116 million) were guaranteed by third parties.

The repayment schedule of the long-term bank loans is as follows:

	2011	2012
Balances due:		
- not later than one year	50	850
- later than one year and not later than two years	848	48
- later than two years and not later than five years	150	144
- later than five years	386	344
	1,434	1,386
Less: Portion classified as current liabilities	(50)	(850)
	1,384	536

Table of Contents**20. LONG-TERM BANK LOANS (CONTINUED)**

The fair values of the Group's non-current portion of long-term bank loans at December 31, 2011 and 2012 are as follows:

	2011	2012
Long-term bank loans	1,225	438

The fair value is based on cash flows discounted using rates based on the market rates ranging from 3.52% to 3.67% (2011: 4.63% to 5.41%) per annum.

21. PROMISSORY NOTES

On April 2, 2010, CUCL issued tranche one of a promissory note in the amount of RMB3 billion, with a maturity date of 3 years from the date of issue and carries interests at 3.73% per annum.

On September 20, 2010, CUCL issued tranche two of a promissory note in the amount of RMB12 billion, with a maturity date of 3 years from the date of issue and carries interests at 3.31% per annum.

The fair value of the Group's promissory notes at December 31, 2012 amounted to approximately RMB14,914 million (2011: approximately RMB14,882 million). The fair value is computed based on the expected cash flows discounted on market rates ranging from 4.36% to 4.37% (2011: 4.71% to 4.79%) per annum.

22. CONVERTIBLE BONDS

On October 18, 2010, Billion Express, a wholly-owned subsidiary of the Company, issued 0.75% guaranteed convertible bonds in an aggregate principal amount of USD1,838,800,000 (at the fixed exchange rate of USD1 equivalent to HKD7.7576) which are due in October 2015 at a redemption price of 100% of the principal amount. The bonds are guaranteed by the Company as to repayments, and are convertible into ordinary shares of HKD0.10 per share of the Company at an initial conversion price of HKD15.85 per share. The conversion price is subject to certain anti-dilution and change in control adjustments set out in the Trust deed dated October 18, 2010. An adjustment has been made to the conversion price from HKD15.85 to HKD15.58 as a result of the dividends paid by the Company since the convertible bonds were issued. The bondholders may exercise conversion rights at any time on or after November 28, 2010 up to the close of business on October 8, 2015 or, if such convertible bonds shall have been called for redemption by the Company before October 18, 2015, then up to the close of business on a date no later than seven days prior to the date fixed for redemption thereof. Billion Express will, at the option of a bondholder, redeem all and not some only of such bondholder's convertible bonds on October 18, 2013 at their principal amount together with interest accrued and unpaid to the date fixed for redemption. The convertible bonds are therefore classified as current liabilities as of December 31, 2012. In addition, on or at any time after October 18, 2013 and prior to October 18, 2015, Billion Express may redeem all and not some only of the convertible bonds for the time being outstanding at their principal amount together with interest accrued and unpaid to the date fixed for redemption.

Table of Contents**22. CONVERTIBLE BONDS (CONTINUED)**

During the years ended December 31, 2011 and 2012, there was no conversion of the convertible bonds into shares of the Company by the bondholders and no redemption of the convertible bonds made by Billion Express.

The fair value of the liability component, which was calculated using market interest rate for a bond with the same tenure but with no conversion features, was determined upon the issuance of the convertible bonds. The difference between the face value (net of direct issue costs) and the fair value of the liability component was credited to convertible bonds reserve under equity attributable to owners of the parent.

The convertible bonds recognized in the consolidated balance sheet are calculated as follows:

	2011	2012
Movement of liability component:		
Beginning of year	11,558	11,118
Less: interest paid	(89)	(87)
Less: effect of exchange gain on liability component	(565)	(28)
Add: imputed finance cost	214	212
End of year	11,118	11,215

The liability component of the convertible bonds at December 31, 2012 amounted to approximately RMB11,215 million (equivalent to USD1,784 million) (2011: approximately RMB11,118 million, equivalent to USD1,765 million) and was calculated using cash flows discounted at a rate based on the borrowing rate of 1.90% per annum taking into the effect of direct issue costs.

23. CORPORATE BONDS

On June 8, 2007, the Group issued RMB2 billion 10-year corporate bonds, bearing interest at 4.5% per annum. The corporate bonds are secured by a corporate guarantee granted by Bank of China Limited.

On September 3, 2008, the Group issued another RMB5 billion 5-year corporate bonds, bearing interest at 5.29% per annum. The corporate bonds are secured by a corporate guarantee granted by State Grid Corporation of China. These corporate bonds are therefore classified as current liabilities as of December 31, 2012.

The fair values of the Group's corporate bonds at December 31, 2011 and 2012 are as follows:

	2011	2012
Corporate bonds	7,123	7,025

The fair value is based on cash flows discounted using rates based on the market rates ranging from 4.40% to 4.89% (2011: 4.92% to 4.93%) per annum.

Table of Contents**24. OTHER OBLIGATIONS**

Sub-total		2,674	2,973
Less: Current portion		(2,586)	(2,642)
		88	331

(a) The movement of one-off cash housing subsidies is as follows:

One-off cash
housing
subsidies

As of January 1, 2011, December 31, 2011, And December 31, 2012

2,502

Certain staff quarters, prior to 1998, have been sold to certain of the Group's employees at preferential prices, subject to a number of eligibility requirements. In 1998, the State Council issued a circular which stipulated that the sale of quarters to employees at preferential prices should be terminated. In 2000, the State Council issued a further circular stating that cash subsidies should be made to certain eligible employees following the withdrawal of the allocation of staff quarters. However, the specific timetable and procedures for the implementation of these policies were to be determined by individual provincial or municipal governments based on the particular situation of the provinces or municipality.

Based on the relevant detailed local government regulations promulgated, certain entities within the Group have adopted cash housing subsidy plans. In accordance with these plans, for those eligible employees who had not been allocated with quarters or who had not been allocated with quarters up to the prescribed standards before the discounted sales of quarters were terminated, the Group has determined to pay them one-off cash housing subsidies based on their years of service, positions and other criteria. Based on the available information, the Group estimated the required provision for these cash housing subsidies amounted to RMB4,142 million, which was charged to the statement of income for the year ended December 31, 2000 (the year in which the Council circular in respect of cash subsidies was issued).

Table of Contents**24. OTHER OBLIGATIONS (CONTINUED)****(b) Obligations under finance lease**

The obligations under finance lease represent the payables for the finance lease of telecommunications equipment. The lease payments under finance lease are analyzed as follows:

	2011	2012
Total minimum lease payments under finance lease:		
- not later than one year	80	138
- later than one year and not later than two years	-	224
	80	362
Less: Future finance charges	(2)	(18)

Table of Contents**26. COMMERCIAL PAPERS**

On August 25, 2011, CUCL issued tranche one of 2011 commercial papers in an amount of RMB15 billion, with a maturity date of 366 days from the date of issue and carried interest at 5.23% per annum. The commercial papers were fully repaid in August 2012.

On October 20, 2011, CUCL issued tranche two of 2011 commercial papers in an amount of RMB8 billion, with a maturity date of 366 days from the date of issue and carried interest at 5.78% per annum. The commercial papers were fully repaid in October 2012.

On November 21, 2011, CUCL issued tranche five of 2011 super and short-term commercial papers in an amount of RMB15 billion, with a maturity date of 180 days from the date of issue and carried interest at 4.65% per annum. The super and short-term commercial papers were fully repaid in May 2012.

On May 16, 2012, CUCL issued tranche one of 2012 super and short-term commercial papers in an amount of RMB15 billion, with a maturity date of 60 days from the date of issue and carried interests at 3.88% per annum. The super and short-term commercial papers were fully repaid in July 2012.

On July 12, 2012, CUCL issued tranche one of 2012 commercial papers in an amount of RMB15 billion, with a maturity date of 365 days from the date of issue and carries interests at 3.45% per annum.

On August 28, 2012, CUCL issued tranche two of 2012 super and short-term commercial papers in an amount of RMB15 billion, with a maturity date of 60 days from the date of issue and carried interests at 3.70% per annum. The super and short-term commercial papers were fully repaid in October 2012.

On October 24, 2012, CUCL issued tranche two of 2012 commercial papers in an amount of RMB15 billion, with a maturity date of 365 days from the date of issue and carries interests at 4.20% per annum.

On October 25, 2012, CUCL issued tranche three of 2012 commercial papers in an amount of RMB8 billion, with a maturity date of 365 days from the date of issue and carries interests at 4.20% per annum.

The carrying values of commercial papers approximate their fair values as of the balance sheet date.

27. SHORT-TERM BANK LOANS

		2011	2012
Interest rates and final maturity			
RMB denominated bank loans	Fixed interest rates ranging from 3.62% to 5.27% (2011:1.09% to 4.12%) per annum with maturity through 2013 (2011: maturity through 2012)	1,000	39,780
RMB denominated bank loans	Floating interest rates, 0% downward on the benchmark interest rate issued by the People's Bank of China with maturity through 2012	16,810	-
HKD denominated bank loans	Floating interest rates of HKD HIBOR plus interest margin from 1.00% to 2.15% (2011: 0.63% to 2.15%) per annum with maturity through 2013 (2011: maturity through 2012)	14,512	29,395
Total		32,322	69,175

The carrying values of short-term bank loans approximate their fair values as of the balance sheet date.

Table of Contents**28. REVENUE**

The tariffs for the services provided by the Group are subject to regulations by various government authorities, including the National Development and Reform Commission (NDRC), the Ministry of Industry and Information (MIIT) and the provincial price regulatory authorities.

Revenue is presented net of business tax and government surcharges. Relevant business tax and government surcharges amounted to approximately RMB7,339 million for the year ended December 31, 2012 (2010: approximately RMB4,873 million; 2011: approximately RMB6,352 million).

The major components of revenue are as follows:

	2010	2011	2012
Mobile service			
- Usage and monthly fees	47,004	54,186	61,019
- Value-added services revenue	25,920	37,880	52,102

Table of Contents**34. MUTUAL INVESTMENT OF THE COMPANY AND TELEFÓNICA IN EACH OTHER**

On September 6, 2009, the Company announced that in order to strengthen the cooperation between the Company and Telefónica, the parties entered into a strategic alliance agreement and a subscription agreement, pursuant to which each party conditionally agreed to invest an equivalent of USD1 billion in each other through an acquisition of each other's shares.

On January 23, 2011, the Company entered into an agreement to enhance the strategic alliance with Telefónica that: (a) Telefónica would purchase ordinary shares of the Company for a consideration of USD500 million through acquisition from third parties; and (b) the Company would acquire from Telefónica 21,827,499 ordinary shares of Telefónica held in treasury (Telefónica Treasury Shares) for an aggregate purchase price of Euro374,559,882.84. On January 25, 2011, the Company completed the purchase of Telefónica Treasury Shares in accordance with the strategic agreement. During 2011, Telefónica completed its investment of USD500 million in the Company.

As of December 31, 2012, the related financial assets at fair value through other comprehensive income amounted to approximately RMB5,442 million (2010: approximately RMB6,087 million; 2011: approximately RMB6,837 million). For the year ended December 31, 2012, the decrease in fair value of the financial assets through other comprehensive income was approximately RMB1,541 million (2010: approximately RMB1,702 million; 2011: approximately RMB2,616 million). The decrease, net of tax impact, of approximately RMB1,156 million (2010: approximately RMB1,276 million; 2011: approximately RMB1,962 million), was recorded in the consolidated statement of comprehensive income.

Table of Contents

36. EQUITY-SETTLED SHARE OPTION SCHEMES

36.1 Share option scheme (the Share Option Scheme)

On June 1, 2000, the Company adopted the Share Option Scheme pursuant to which the Board of Directors of the Company may, at their discretion, invite employees, including executive directors, of the Company or any of its subsidiaries, to take up share options to subscribe for shares up to a maximum aggregate number of shares not exceeding 10% of the total issued share capital of the Company. Pursuant to the Share Option Scheme, the nominal consideration payable by a participant for the grant of share options will be HKD1.00. The exercise price payable by a participant upon the exercise of an option will be determined by the Board of Directors at their discretion at the date of grant, except that such price may not be set below a minimum price which is the higher of:

- (i) the nominal value of the share; and
- (ii) 80% of the average of the closing prices of shares on the SEHK on the five trading days immediately preceding the date of grant of the option on which there were dealings in the shares on the SEHK.

The period during which an option may be exercised will be determined by the Board of Directors at their discretion, except that no option may be exercised later than 10 years from June 22, 2000.

The terms of the Share Option Scheme were amended on May 13, 2002 to comply with the requirements set out in the Chapter 17 of the Listing Rules which came into effect on September 1, 2001 with the following major amendments:

- (i) share options may be granted to employees including executive directors of the Group or any of the non-executive directors;
- (ii) the option period commences on a day after the date on which an option is offered but not later than 10 years from the offer date; and

(iii) minimum subscription price shall not be less than the higher of:
the nominal value of the shares;

the closing price of the shares of the stock exchange as stated in the stock exchange's quotation sheets on the offer date in respect of the share options; and

the average closing price of the shares on the stock exchange's quotation sheets for the five trading days immediately preceding the offer date.

On May 11, 2007, the Company further amended the Share Option Scheme with major amendments related to the exercise of options upon cessation of employment. These amendments are made in order to reduce the administrative burden on the Company to monitor outstanding options for grantees whose employment has been terminated.

On May 26, 2009, the Company further amended the Share Option Scheme with major amendments related to the exercise period.

All of the share options granted under Note 36.1 are governed by the amended terms of the Share Option Scheme as mentioned above.

Table of Contents

36. EQUITY-SETTLED SHARE OPTION SCHEMES (CONTINUED)

36.2 Special Purpose Unicom Share Option Scheme (the Special Purpose Share Option Scheme)

Pursuant to the ordinary resolution passed by the shareholders on September 16, 2008, the Company adopted the Special Purpose Share Option Scheme in connection with the merger of the Company and China Netcom by way of a scheme of arrangement of China Netcom under Section 166 of the Companies Ordinance for the granting of options to holders of China Netcom options outstanding at October 14, 2008 (Eligible Participants). Pursuant to this scheme, no fractional options can be granted and the maximum number of shares which may be issued upon the exercise of all options granted under this scheme and any other share options schemes of the Company must not in aggregate exceed 10% of the issued share capital of the Company as of the date of approval of this scheme.

The number of options and exercise price of options granted under the Special Purpose Share Option Scheme are as follows:

- (i) The exercise price of options under this scheme is equal to (a) the exercise price of an outstanding China Netcom option held by the Eligible Participants divided by (b) the share exchange ratio 1.508.
- (ii) The total number of options granted by the Company to all Eligible Participants under this scheme shall be equal to the product of (a) the share exchange ratio and (b) the number of China Netcom options outstanding as of October 14, 2008.

The above formula ensures that the value of options granted under this scheme received by a holder of China Netcom options is equivalent to the see-through price of that holder's outstanding China Netcom options.

The period during which an option may be exercised will be determined by the directors at their discretion, except that no option may be exercised later than September 30, 2014.

On May 26, 2009, the Company amended the Special Purpose Share Option Scheme relating to the exercise period. For details, please refer to Note (i) under 36.3 Share option information in this section.

No further options can be granted under the Special Purpose Share Option Scheme.

Table of Contents**36. EQUITY-SETTLED SHARE OPTION SCHEMES (CONTINUED)**

36.3 Share option information

Movements in the number of share options outstanding and their related weighted average exercise prices are as follows:

	2010		2011		2012	
	Average exercise price in HKD per share	Number of share options involved	Average exercise price in HKD per share	Number of share options involved	Average exercise price in HKD per share	Number of share options involved
Balance, beginning of year	6.95	413,074,166	6.59	396,012,118	6.49	391,481,158
Granted	-	-	-	-	-	-

Share options granted under the Special Purpose Share Option Scheme:					
	October 15, 2008 to	October 15, 2008 to			
October 15, 2008	May 17, 2009	November 16, 2013	HKD5.57	100,361,690	100,361,690
	October 15, 2008 to	October 15, 2008 to			
October 15, 2008	December 6, 2010	December 5, 2013	HKD8.26	88,929,468	88,929,468
				391,481,158	391,331,158

The options outstanding as of December 31, 2012 had a weighted average remaining contractual life of 0.94 years (2011: 0.94 years).

Table of Contents**36. EQUITY-SETTLED SHARE OPTION SCHEME (CONTINUED)****36.3 Share option information (Continued)**

Note i: In 2009, the exercise periods of approximately 25,000,000 share options were extended by one year by the Board of Directors pursuant to the terms of the Share Option Scheme. The reasons for such extension were that (i) the holders of those share options were determined by the Board of Directors as Transferred Personnel under the relevant terms of the Share Option Scheme due to the transfers of those option holders to other telecommunications operators as part of the 2008 industry restructuring and (ii) those share options were not exercisable due to a Mandatory Moratorium under the relevant terms of the Share Option Scheme. As the Mandatory Moratorium continued to be in force, the Board of Directors further extended the exercise periods of certain share options by one year in each of March 2010, 2011, 2012 and 2013 under the relevant terms of the Share Option Scheme. As of December 31, 2012, approximately 23,440,000 (2011: approximately 23,440,000) share options held by Transferred Personnel remained valid.

Furthermore, in each of March 2010, 2011, 2012 and 2013, the expiry dates for certain share options were extended by one year by the Board of Directors pursuant to the terms of each of the Share Option Scheme and the Special Purpose Share Option Scheme, because those share options were not exercisable due to Mandatory Moratorium, which is still in force, under the respective terms of each of the Share Option Scheme and the Special Purpose Share Option Scheme. The 2013 modification is not expected to have significant impact on the consolidated statement of income for the year ending December 31, 2013.

Details of share options exercised during 2010, 2011 and 2012 are as follows:

For the year ended December 31, 2010:

Grant date	Exercisable price HKD	Weighted average closing price per share at respective days immediately before dates of exercise of options HKD	Proceeds received HKD	Number of shares involved
October 15, 2008	5.57	11.76	470,375	84,448

Table of Contents**36. EQUITY-SETTLED SHARE OPTION SCHEME (CONTINUED)**

36.3 Share option information (Continued)

For the year ended December 31, 2011:

Grant date	Exercisable price HKD	Weighted average closing price per share at respective days immediately before dates of exercise of options HKD	Proceeds received HKD	Number of shares involved
June 30, 2001	15.42	16.32	39,228,480	2,544,000
October 15, 2008	5.57	15.62	1,007,947	180,960
			40,236,427	2,724,960

For the year ended December 31, 2012:

Grant date	Exercisable price HKD	Weighted average closing price per share at respective days immediately before dates of exercise of options HKD	Proceeds received HKD	Number of shares involved
February 15, 2006	6.35	13.34	952,500	150,000

For the year ended December 31, 2012, employee share-based compensation expenses amounted to approximately RMB14 million (2010: approximately RMB56 million; 2011: approximately RMB17 million).

Table of Contents**37. DIVIDENDS**

At the annual general meeting held on May 24, 2011, the shareholders of the Company approved the payment of a final dividend of RMB0.08 per ordinary share for the year ended December 31, 2010 totaling approximately RMB1,885 million which has been reflected as a reduction of retained profits for the year ended December 31, 2011. As of December 31, 2011, all dividends have been paid by the Company, except for dividends payable of approximately RMB479 million due to Unicom BVI.

At the annual general meeting held on May 29, 2012, the shareholders of the Company approved the payment of a final dividend of RMB0.10 per ordinary share for the year ended December 31, 2011 totaling approximately RMB2,356 million which has been reflected as a reduction of retained profits for the year ended December 31, 2012. As of December 31, 2012, all dividends have been paid by the Company, except for dividends payable of approximately RMB552 million to Unicom BVI.

At a meeting held on March 21, 2013, the Board of Directors of the Company proposed the payment of a final dividend of RMB0.12 per ordinary share to the shareholders for the year ended December 31, 2012 totaling approximately RMB2,828 million. This proposed dividend has not been reflected as a dividend payable in the financial statements as of December 31, 2012, but will be reflected as an appropriation of retained profits in the financial statements for the year ended December 31, 2013.

	2010	2011	2012
Proposed final dividend:			
RMB0.12 (2010: RMB0.08; 2011: RMB0.10) per ordinary share by the Company	1,885	2,356	2,828

Pursuant to the PRC enterprise income tax law, a 10% withholding income tax is levied on dividends declared on or after January 1, 2008 by foreign investment enterprises to their foreign enterprise shareholders unless the enterprise investor is deemed as a PRC Tax Resident Enterprise (TRE). On November 11, 2010, the Company obtained an approval from State Administration of Taxation, pursuant to which the Company qualifies as a TRE from January 1, 2008. Therefore, as of December 31, 2011 and 2012, the Company's subsidiaries in the PRC did not accrue for withholding tax on dividends distributed to the Company and there has been no deferred tax liability accrued in the Group's consolidated financial statements for the undistributed income of the Company's subsidiaries in the PRC.

For the Company's non-TRE enterprise shareholders, the Company would distribute dividends after deducting the amount of enterprise income tax payable by these non-TRE enterprise shareholders thereon and reclassify the related dividend payable to withholding tax payable upon the declaration of such dividends. The requirement to withhold tax does not apply to the Company's shareholders appearing as individuals in its share register.

Table of Contents**38. EARNINGS PER SHARE**

Basic earnings per share for the years ended December 31, 2010, 2011 and 2012 were computed by dividing the income attributable to owners of the parent by the weighted average number of ordinary shares outstanding during the years.

Diluted earnings per share for the years ended December 31, 2010, 2011 and 2012 were computed by dividing the income attributable to owners of the parent by the weighted average number of ordinary shares outstanding during the years, after adjusting for the effects of the dilutive potential ordinary shares. All potential ordinary shares for the years ended December 31, 2010, 2011 and 2012 arose from (i) share options granted under the amended Share Option Scheme; (ii) share options granted under the amended Special Purpose Share Option Scheme, and (iii) the convertible bonds.

The potential ordinary shares which are not dilutive for the years ended December 31, 2010, 2011 arose from (i) share options with exercise price of HKD15.42 granted under the amended Share Option Scheme and (ii) the convertible bonds with initial conversion price of HKD15.85, which were excluded from the weighted average number of ordinary shares for the purpose of computation of diluted earnings per share.

The following table sets forth the computation of basic and diluted earnings per share:

	2010	2011	2012
Numerator (in RMB millions):			
Income attributable to owners of the parent used in computing basic earnings per share	3,701	4,227	7,096
Imputed finance cost on the liability component of convertible bonds	-	-	212
Income attributable to owners of the parent used in computing diluted earnings per share	3,701	4,227	7,308
Denominator (in millions):			
Weighted average number of ordinary shares outstanding used in computing basic earnings per share	23,562	23,564	23,565
Dilutive equivalent shares arising from share options	142	221	190
Dilutive equivalent shares arising from convertible bonds	-	-	909
Shares used in computing diluted earnings per share	23,704	23,785	24,664
Basic earnings per share (in RMB)	0.16	0.18	0.30
Basic earnings per ADS (in RMB)	1.57	1.79	3.01
Diluted earnings per share (in RMB)	0.16	0.18	0.30
Diluted earnings per ADS (in RMB)	1.56	1.78	2.96

Basic and diluted earnings per ADS have been computed by multiplying the earnings per share by 10, which is the number of shares represented by each ADS.

Table of Contents**39. FAIR VALUE OF FINANCIAL INSTRUMENTS**

Financial assets of the Group mainly include cash and cash equivalents, short-term bank deposits, financial assets at fair value through other comprehensive income, accounts receivable, amounts due from related parties and domestic carriers. Financial liabilities of the Group mainly include accounts payable and accrued liabilities, short-term bank loans, commercial papers, corporate bonds, promissory notes, long-term bank loans, convertible bonds, other obligations and amounts due to ultimate holding company, related parties and domestic carriers.

Cash and cash equivalents, short-term bank deposits and financial assets at fair value through other comprehensive income denominated in foreign currencies, as summarized below, have been translated to RMB at the applicable rates quoted by the People's Bank of China as of December 31, 2011 and 2012.

	2011			2012		
	Original currency millions	Exchange rate	RMB equivalent millions	Original currency millions	Exchange rate	RMB equivalent millions
Cash and cash equivalents:						
- denominated in HK dollars	411	0.81	333	244	0.81	198
- denominated in US dollars	45	6.30	282	85	6.29	533
- denominated in Euro	14	8.16	114	1	8.32	11
- denominated in Japanese Yen	12	0.08	1	25	0.07	2
- denominated in Singapore dollars	0.1	4.87	1	0.3	5.09	2
- denominated in GBP	0.4	9.71	4	1.6	10.16	16
Sub-total			735			762
Short-term bank deposits:						
- denominated in HK dollars	65	0.81	53	-	0.81	-
- denominated in US dollars	30	6.30	186	-	6.29	-
Sub-total			239			-
Financial assets at fair value through other comprehensive income:						
- denominated in Euro	838	8.16	6,837	654	8.32	5,442
Total			7,811			6,204

The Group did not have and does not believe it will have any difficulties in exchanging its foreign currency cash into RMB at the exchange rates quoted by the People's Bank of China. The carrying amounts of the Group's cash and cash equivalents, short-term bank deposits, financial assets at fair value through other comprehensive income, other current financial assets and liabilities approximated their fair values as of December 31, 2011 and 2012 due to the nature or short maturity of those instruments.

The carrying amounts of receivables and payables which are all subject to normal trade credit terms approximated their fair value as of the balance sheet date.

In connection with the fair value of the Group's non-current portion of long-term bank loans, promissory notes, and corporate bonds, please refer to the respective notes for details.

Table of Contents

40. RELATED PARTY TRANSACTIONS

Unicom Group is a state-owned enterprise directly controlled by the PRC government. The PRC government is the Company's ultimate controlling party. Neither Unicom Group nor the PRC government publishes financial statements available for public use.

The PRC government controls a significant portion of the productive assets and entities in the PRC. The Group provides telecommunications services as part of its retail transactions, thus, is likely to have extensive transactions with the employees of other state-controlled entities, including their key management personnel and their close family members. These transactions are carried out on commercial terms that are consistently applied to all customers.

Management considers certain state-owned enterprises, which mainly include other telecommunications services operators, have material transactions with the Group in its ordinary course of business. These transactions are mainly carried out on terms comparable to those conducted with third parties or standards promulgated by relevant government authorities and have been reflected in the financial statements. The Group's telecommunications networks depend, in large part, on interconnection with the networks and on transmission lines leased from other domestic carriers. Management believes that meaningful information relating to related party transactions has been disclosed below.

40. RELATED PARTY TRANSACTIONS (CONTINUED)

40.1 Connected transactions with Unicom Group and its subsidiaries (Continued)

(a) Recurring transactions (Continued)

- (i) On October 29, 2010, CUCL entered into the new agreements, 2011-2012 Network Lease Agreement with Unicom New Horizon, and 2011 Comprehensive Services Agreement with Unicom Group to renew certain continuing connected transactions as disclosed in the table above. Major changes of the key terms of the new agreements are set out as follows:

2011-2012 Network Lease Agreement

Pursuant to 2011-2012 Network Lease Agreement, the lease of Telecommunications Networks in Southern China has extended to another two years effective from January 1, 2011 to December 31, 2012 and is renewable at the option of CUCL with at least two months prior notice on the same terms and conditions, except for the future lease fee which will remain subject to further negotiations between the parties, taking into account, among others, the then prevailing market conditions in Southern China. The annual fee payable by CUCL for the lease for the year ended December 31, 2011 was RMB2.4 billion and for the year ended December 31, 2012 was RMB2.6 billion, respectively. The 2011-2012 Network Lease Agreement expired on December 31, 2012.

2011 Comprehensive Services Agreement

2011 Comprehensive Services Agreement has a term of three years commencing on January 1, 2011 and expiring on December 31, 2013, and the service fees payable shall be calculated on the same basis as under previous agreements.

- (ii) UNISK (Beijing) Information Technology Corporation Limited (UNISK) agreed to provide the mobile subscribers of CUCL with various types of value-added services through its cellular communication network and data platform. The Group retains a portion of the revenue generated from the value-added services provided to the Group's subscribers (and actually received by the Group) and allocates a portion of such fees to UNISK for settlement, on the condition that such proportion allocated to UNISK does not exceed the average proportion allocated to independent value-added telecommunications content providers who provide value-added telecommunications content to the Group in the same region. The percentage of revenue to be allocated to UNISK by the Group varies depending on the types of value-added service provided to the Group.
- (iii) CUCL and Unicom Group agreed to mutually lease premises, equipment and facilities from each other. Rentals are based on the lower of the market rates and the depreciation costs and taxes.

Table of Contents

40. RELATED PARTY TRANSACTIONS (CONTINUED)

40.1 Connected transactions with Unicom Group and its subsidiaries (Continued)

(a) Recurring transactions (Continued)

- (iv) Unicom Group agreed to lease to CUCL certain international telecommunications resources (including international telecommunications channel gateways, international telecommunications service gateways, international submarine cable capacity, international land cables and international satellite facilities) and certain other telecommunications facilities for its operations. The rental charges for the leasing of international telecommunications resources and other telecommunications facilities are based on the annual depreciation charges of such resources and facilities provided that such charges would not be higher than market rates. For maintenance service to the telecommunications facilities aforementioned, unless otherwise agreed by CUCL and Unicom Group, such maintenance service charges would be borne by CUCL and determined with reference to market rates or a cost-plus basis if there are no market rates.
- (v) Unicom Group agreed to provide engineering design, construction and supervision services and IT services to CUCL. The charges payable by CUCL for the above services are determined with reference to the market price and are settled when the relevant services are provided.
- (vi) Unicom Group and CUCL agreed to provide shared services to each other and would share the costs related to the shared services proportionately in accordance with their respective total assets value with certain adjustments.
- (vii) Unicom Group agreed to provide comprehensive procurement services for imported and domestic telecommunications equipment and other domestic non-telecommunications equipment to CUCL. Unicom Group has also agreed to provide services on management of tenders, verification of technical specifications, installation, consulting and agency services. In addition, Unicom Group will sell cable, modem and other materials operated by itself to CUCL and will also provide storage and logistics services in relation to the above equipment and materials procurement. The charges payable by CUCL to Unicom Group are based on contract values, market rates, government guidance price or cost-plus basis where applicable.
- (viii) Unicom Group agreed to provide ancillary telecommunications services to CUCL. These services include certain telecommunications pre-sale, on-sale and after-sale services such as assembling and repairing of certain telecommunications equipment, sales agency services, printing and invoice delivery services, maintenance of telephone booths, customers acquisitions and servicing and other customers service. The charges are based on market rates, government guidance price or cost-plus basis and are settled as and when the relevant services are provided.

Table of Contents

40. RELATED PARTY TRANSACTIONS (CONTINUED)

40.1 Connected transactions with Unicom Group and its subsidiaries (Continued)

(a) Recurring transactions (Continued)

- (ix) Unicom Group and CUCL agreed to provide comprehensive support services to each other, including dining services, facilities leasing services (excluding those facilities mentioned in (iv) above), vehicle services, health and medical services, labor services, security services, hotel and conference services, gardening services, decoration and renovation services, sales services, construction agency, equipment maintenance services, market development, technical support services, research and development services, sanitary services, parking services, staff trainings, storage services, advertising services, marketing, property management services, information and communications technology services (including construction and installation services, system integration services, software development, product sales and agent services, operation and maintenance services, and consultation services). The charges are based on market rates, government guidance price or cost-plus basis and are settled as and when the relevant services are provided.
- (x) Unicom Group is the registered proprietor of the Unicom trademark in English and the trademark bearing the Unicom logo, which are registered at the PRC State Trademark Bureau. Pursuant to an exclusive PRC trademark license agreement between Unicom Group and the Group, the Group has been granted the right to use these trademarks on a royalty free and renewal basis.

(b) Non-recurring transactions

(i) Acquisition of Unicom New Horizon

On December 26, 2012, CUCL completed the acquisition of Unicom New Horizon from Unicom Group (Note 1). Following the completion of the acquisition, the transaction between Unicom New Horizon and the Group will no longer be disclosed as a related party transaction in the consolidated financial statements as they will be eliminated on consolidation.

(ii) Acquisition of Unicom NewSpace

On December 1, 2011, Broadband Online completed the acquisition of Unicom NewSpace (Note 1). The purchase of Unicom NewSpace has been accounted for using merger accounting in accordance with AG 5. Accordingly, the transactions between Unicom NewSpace and the Group were eliminated and be no longer disclosed as related party transactions in the consolidated financial statements.

Table of Contents**40. RELATED PARTY TRANSACTIONS (CONTINUED)**

40.1 Connected transactions with Unicom Group and its subsidiaries (Continued)

(c) Amounts due from and to related parties/Unicom Group and its subsidiaries

Amounts due to related parties as of December 31, 2011 included the unsecured short-term loans from China Netcom Corporation (BVI) Limited of HKD2,630 million with interest rate at HIBOR plus 0.8% per annum (equivalent to approximately RMB2,132 million) and from Unicom Group BVI of HKD30 million with interest rate at HIBOR plus 0.1% per annum (equivalent to approximately RMB24 million), respectively. In 2012, the Company fully repaid the loans.

Amounts due to Unicom Group as of December 31, 2011 and 2012 included the consideration payable in connection with 2011 Business Combination of approximately RMB158 million.

Apart from the short-term loans as aforementioned, amounts due from and to related parties, Unicom Group, and its subsidiaries are unsecured, interest-free, repayable on demand/on contract terms and arise in the ordinary course of business in respect of transactions with related parties/Unicom Group and its subsidiaries as described in (a) above.

40.2 Domestic carriers

(a) Significant recurring transactions with domestic carriers

The following is a summary of significant transactions with domestic carriers in the ordinary course of business:

	Note	2010	2011	2012
Interconnection revenue	(i)	12,165	13,253	14,487
Interconnection charges	(i)	12,564	14,861	16,952
Leased line revenue	(ii)	346	283	249
Leased line charges	(ii)	113	116	260
Engineering design and technical service revenue	(iii)	208	219	233

Table of Contents**40. RELATED PARTY TRANSACTIONS (CONTINUED)**

40.2 Domestic carriers

(a) Significant recurring transactions with domestic carriers (Continued)

- (i) The interconnection revenue and charges mainly represent the amounts due from or to domestic carriers for telephone calls made between the Group's networks and the networks of domestic carriers. The interconnection settlements are calculated in accordance with interconnection agreements reached between the branches of the Group and domestic carriers on a provincial basis. The terms of these agreements are set in accordance with the standard settlement arrangement stipulated by the MIIT.
- (ii) Leased line charges are paid or payable to domestic carriers by the Group for the provision of transmission lines. At the same time, the Group leases transmission lines to domestic carriers in return for leased line rental income. The charges are calculated at a fixed charge per line, depending on the number of lines being used by the Group and domestic carriers.
- (iii) Engineering design and technical service revenue mainly represents the amounts due from domestic carriers for the provision of engineering design and technical services based on their demands and requirements by the Group. The prices are determined based on standards promulgated by the relevant government authorities.

(b) Amounts due from and to domestic carriers

	2011	2012
Amounts due from domestic carriers		
- Receivables for interconnection revenue, leased line revenue and engineering design and technical service revenue	1,230	755
- Less: Provision for doubtful debts	(49)	(17)
	1,181	738
Amounts due to domestic carriers		
- Payables for interconnection charges and leased lines charges	1,344	1,163

All amounts due from and to domestic carriers are unsecured, interest-free and repayable within one year.

Table of Contents**41. CONTINGENCIES AND COMMITMENTS****41.1 Capital commitments**

As of December 31, 2011 and 2012, the Group had capital commitments, mainly in relation to the construction of telecommunications networks, as follows:

	2011		2012	
	Total	Land and buildings	Equipment	Total
Authorized and contracted for	7,187	730	7,495	8,225
Authorized but not contracted for	1,630	154	1,316	1,470
	8,817	884	8,811	9,695

41.2 Operating lease commitments

As of December 31, 2011 and 2012, the Group had total future aggregate minimum operating lease payments under non-cancellable operating leases as follows:

	2011		2012	
	Total	Land and buildings	Equipment	Total
Leases expiring:				
- not later than one year	4,433	1,532	560	2,092
- later than one year and not later than five years	4,574	3,806	1,378	5,184
- later than five years	601	583	162	745
	9,608	5,921	2,100	8,021

Table of Contents

41. CONTINGENCIES AND COMMITMENTS (CONTINUED)

41.3 Contingent liabilities

As aforementioned in Note 28, the tariffs for the services provided by the Group are subject to regulations by various government authorities. In 2008, the NDRC investigated the compliance with tariffs regulations of several branches of CUCL and China Netcom (Group) Company Limited, which merged with CUCL on January 1, 2009. Based on management's assessment and continuous discussions with MIIT and NDRC, management considered that the Group complied with the regulations issued by the relevant government authorities, and the likelihood of material future cash outflow as a result of the investigation is remote. Accordingly, no provisions were recorded as of December 31, 2011 and 2012.

In addition, in 2011, the NDRC investigated the alleged monopolistic conducts in the broadband internet service of the Group. Based on management's assessment and continuous discussions with NDRC, management considered the likelihood of material future cash outflow as a result of the investigation is remote. Accordingly, no provisions were recorded as of December 31, 2011 and 2012.

41.4 Guarantee

The Company provides guarantee in favor of the convertible bondholders in respect of the outstanding convertible bonds issued by Billion Express amounted to USD1,838,800,000 as of December 31, 2012 (2011: USD1,838,800,000)(Note 22).

42. EVENTS AFTER BALANCE SHEET DATE

Proposed dividend

After the balance sheet date, the Board of Directors proposed a final dividend for 2012. For details, please refer to Note 37.

43. APPROVAL OF FINANCIAL STATEMENTS

The financial statements were approved by the Board of Directors on April 25, 2013.
