PART III NARRATIVE

State below in reasonable detail why Forms 10-K, 20-F, 11-K, 10-Q, N-SAR, N-CSR, or the transition report or portion thereof, could not be filed within the prescribed time period.

The Registrant's Annual Report on Form 10-K for the year ended December 31, 2013 (the Form 10-K), cannot be filed within the prescribed time period without unreasonable effort or expense because of additional disclosure to be included in the Form 10-K to address the restatement of prior period financial statements to establish a valuation allowance against certain deferred tax assets for such periods by RTI International Metals, Inc. (the Company).

As previously disclosed in the Company's Item 4.02 Current Report on Form 8-K filed February 27, 2014, the Company's treatment of a deferred tax asset at the Company's Canadian subsidiary has been under discussion with the Staff of the U.S. Securities and Exchange Commission (SEC). In considering these discussions, which began in July 2013 and included PricewaterhouseCoopers LLP (PwC), the Company's independent registered public accounting firm, and given the Canadian subsidiary's history of cumulative losses, the Company determined that its previously filed financial statements for the fiscal years ended December 31, 2010 and 2011, the fiscal year (including interim periods) ended December 31, 2012, and the three month periods ended March 31, June 30 and September 30, 2013 (collectively, the Restatement Periods) should be restated to establish a valuation allowance against the Company's Canadian deferred tax asset.

The Company is working diligently to complete its restatement, and plans to file its Form 10-K as soon as practicable and within the fifteenth calendar day following the required filing date as prescribed in Rule 12b-25. The Company intends to include in the Form 10-K its restatement of prior financial statements for the Restatement Periods. As a result of the inclusion of the valuation allowance discussed above, Company management is currently reviewing and evaluating the impact of the restatement on the adequacy of the Company's internal control over financial reporting, as defined in Rule 13a-15(f), and its disclosure controls and procedures, as defined in Rules 13a-15(e) and 15d-15(e) of the Exchange Act, with respect to this matter for the relevant restatement periods. Although this analysis is not yet complete, it is likely that this restatement resulted in a material weakness in internal control over financial reporting as of December 31, 2013.

On February 27, 2014, the Company reported preliminary operating income \$59.4 million on net sales of \$783.3 million for the year ended December 31, 2013, as compared to operating income of \$47.4 million on net sales of \$700.0 million for the year ended December 31, 2012. Included in preliminary operating income for fiscal year 2013 is an estimated goodwill and other intangible asset impairment charge of \$18.0 million related to the Company's medical device business unit.

As described in Part III of this Form 12b-25, the Company intends to include in its Form 10-K filing restated financial statements for the periods indicated to appropriately reflect the impact of the Company recognizing a valuation allowance against its Canadian deferred tax assets on Net Income and Deferred Income Tax Asset (Noncurrent). Additional information regarding the anticipated impact on the prior periods may be found in the Company's Item 4.02 Current Report on Form 8-K filed February 27, 2013, which is incorporated herein by reference.

Company assumes no obligation to update any forward-looking statement.
